American Takii

1. Summer Jewel Lavender is a 2016 All-America Selections (AAS) Regional Winner. Lavender is a beautifully unique color for a *Salvia coccinea*, and joins the three other varieties in the series (Red, Pink, White), all of which are AAS winners. The Summer Jewel series is early to bloom, continues to flower until frost and attracts pollinators.

2. Petunia F1 Trilogy Deep Purple has the same outstanding habit as the other varieties in the Trilogy series, and has a vibrantly lush, eye-catching color. Deep Purple has the same dome-shaped, prolific blooming plant habit for which the Trilogy series is known. The series has critically important benefits for growers, retailers and consumers.

3. Melampodium Jackpot Gold provides hardy performance and flowering from early summer until the first frost. With excellent performance in hot and humid climates, it takes summer heat and rains with ease. Jackpot Gold's flower size is larger than Melampodium Million Gold, and flowers have a very attractive round shape.

NEW!
Deep Purple

Petunia F1 Trilogy™

A ground-breaking multiflora Petunia, Trilogy has a novel dome shape and features critically important benefits to three distinct market segments: growers, retailers and consumers. The series features uniformity across all colors, a controlled habit for less tangling and breakage, and less day-length sensitivity than other spreading Petunias.

New Varieties: ANNUALS

Benary

1. *Begonia x hybrida* F1 Funky™ Pink

Able to handle full sun in most climates, Begonia Funky™ Pink is a breakthrough in tuberous begonia breeding! Its superior outdoor performance, novelty flower form, bright color and fun name will make Funky™ Pink fly off the shelves. It's easy to grow and ship, and plays well in mixed containers. Add some fun to your hanging basket program with new Funky™ Pink Begonia. Try this new novelty basket item from seed this spring.

2. *Begonia tuberhybrida* F1 Nonstop™ Mocca White

Mocca White, one of the most popular Mocca colors, is getting an upgrade! The new white has excellent germination and fits better into the series with better uniformity within the variety. As with all Nonstop™ Moccas, you can expect vigorous plants with outstanding outdoor performance and good contrast between flower and foliage. Upgrade your 4-inch [10-cm] pots or premium basket programs with Nonstop™ Mocca White.

3. *Begonia boliviensis* F1 Santa Barbara

A new color that is as beautiful and elegant as the city it is named after. Santa Barbara Begonia has huge 2-inch [5-cm] flowers in clean white for an elegant, tropical look. Like her sisters, Santa Cruz and San Francisco, Santa Barbara has outstanding weather and drought tolerance, is easy to grow and has extraordinary performance in hanging baskets, containers and mass plantings.

Danziger

1. Bidens Blazing™ Glory

This new variety boasts abundant flowering with large red and yellow single flowers. More compact than ever. Loves sun and heat but also handles cold. Excellent for combos, pots, hanging baskets and beds.

2. Calibrachoa Colibri™ Cherry Lace

This compact, mounded growth habit plant gives an abundance of large flowers and blooms from early spring until late autumn, even in short days. It's ideal for pots and compact baskets.

3. Petunia Amore™ Queen of Hearts

This variety features heart shapes on every flower! It has a long flowering period and fits well in pots, baskets and combos. Queen of Hearts is part of the new Amore™ series, with semi-trailing habit, large flowers and contrasting stripes.

Dümmen Orange

1. Calibrachoa 'Aloha Nani Golden Girl' is the boldest gold on the market. New to the Dümmen Orange portfolio, 'Aloha Nani' is a series of six ultra-compact selections that don't require PGR applications. They're perfect for high-density production and small pots. Featuring large flowers, a profuse bloom set, and bright, bold flowers, the flower-power of 'Golden Girl' is truly remarkable.

2. New Guinea Impatiens 'SunStanding Orange Aurora'
Bred for sun tolerance, 'SunStanding Orange Aurora' is a hybrid New Guinea Impatiens that adds a burst of liveliness with a tropical feel. Sporting bright flame-orange flowers over glossy green and bronze foliage, these New Guineas are both striking and sturdy, thriving in most garden conditions.

3. 'Sweetunia Miss Marvel' petunia joins the Dümmen Orange 'Sweetunia' series, which is renowned for a broad color range and unique novelties. With an eye-popping combination of subtly veined deep plum color outlined with crisp white, 'Miss Marvel' works well in containers thanks to its mid-range vigor, upright-mounding habit and floriferous bloom set.

Green Fuse Botanicals

1. Good and Plenty® Bubblicious showcases a bright pink flower that will highlight any container or garden. The Good and Plenty® line is early to flower with a mounded, semi-trailing habit. This versatile series can be finished in 4-inch containers up through 13-inch hanging baskets. Finished height is 4 to 6 inches.

2. Salvia splendens Grandstand® Red Pink Lipstick

Multiple flowers will be display a mass of color on a compact plant frame, ideal for use in the landscape and in containers, maintaining color until autumn's frost. 'Grandstands' are also magnets for nectar-loving birds and butterflies. Finished height is 18 to 24 inches.

3. Streptocarpus Ladyslippers® Grape Ice, a GreenFuse™ Lifestyle Plant™, will perform indoors near a window or in a shady area out of doors. Ladyslippers® mixed with other shade-loving plants creates beautiful mixed containers. An exciting new introduction, Grape Ice produces a multitude of tantalizing purple and white flowers.

Dianthus from Green Fuse™

Dianthus Cadence®

The Cadence® habit is slightly more upright, making it ideal for container production. This plant can be sold as a gift item and then used as a seasonal perennial. The series begins with three colors. Garden height is 6" to 8". Zone 4

Cadence Raspberry

Dianthus Constant Beauty®

Constant Beauty® Dianthus has been selected to maintain flowering throughout the summer, even in warmer regions. Constant Beauty® flaunts large, semi-double flowers which are mildly fragrant. The new introduction, Garnet, has a dark burgundy color. Garden height is 6" to 10". Zone 4

PlantHaven

1. Dianthus Pinball Wizard

The coolest new selection from Pinks by Whetman®. A standout unique variety, and the first of these double fancy pink and white striped flowers, with rich, spicy fragrance. Flowers are carried on sturdy stems above the Whetman® blue-silver foliage. Zone 5 Hardy. Ideal for early season promotional sales in 6-inch pots or larger. A new variety sure to turn heads at retail.

2. Isotoma FIZZ N POP 'Glowing Violet'

This colorful WATERSAVER™ selection was bred for a long season of interest in patio pots and containers. Nectar-rich blooms are great for beneficial pollinating insects. Outrageous large flowers up to 1.5 inches in size. Large, five-petaled flowers in an iridescent violet-purple tone with cheery yellow eyes. This Southern Perennial flowers practically year round. Zone 11 Hardy. Tidy clumping habit 1 to 2 feet x 1 to 2 feet. Ideal for early-season promotional sales in 4-inch pots or larger. The perfect selection for smaller modern gardens. Amazing as a patio specimen.

3. Miscanthus 'Little Miss'

'Little Miss' is about to rock our worlds. A colorful new hardy red grass to add to your perennial line-up. This unique selection, bred in Germany, colors from early May into striking carmine red and purple tones. Traditional selections do not color until early September. Center of the clumps stay fresh green giving an attractive two-tone effect. Zone 4 hardy. Tidy clumping habit 2 to 3 feet x 2 to 3 feet. Ideal for early season promotional sales in 6-inch pots or larger. The perfect selection for smaller modern gardens.

Plantpeddler

1. Begonia Belleconia Soft Orange

New to Plantpeddler's 2017 begonia program are two lines from Kientzler. The Belleconia and Summerwings series will each be offered in three colors. Both are *B. boliviensis* hybrids with Belleconia featuring double flowers and best used in part-sun applications. Summerwings are single flowered and suited for full to nearly full sun.

The gorgeous multicolored orange flowers display pink undertones with yellow central eye, making Belleconia Soft Orange special in the pendulous class. Medium vigor and mounding habit, perfect for all size containers, baskets and large combinations

Belleconia Soft Orange is featured in a commissioned watercolor by Jaqueline Gnott on the cover of the 2017 Plantpeddler catalog. Request a copy at plantpeddler.com

2. Begonia Dell' Arte Grace Bittersweet

As the leader in begonias, Plantpeddler is excited to bring new genetics that fit every application. For 2017 we are proud to offer the Dell' Arte Grace collection in four colors. All four feature double flowers displayed over medium green shield-shaped foliage. Plant habit is mounding then trailing with moderate vigor. Bred for baskets and as pendulous combo components.

Dell' Arte Grace Bittersweet is delightful deep salmon with coral overtones, a unique color within the *B. boliviensis* hybrid class. Flower timing is early-mid season, perfect for Mother's Day. Abundant flowers with bloom size 2.5 to 3 inches; ideal for part to nearly full sun.

Experienced European begonia growers are raving over its qualities. Dell' Arte Grace overcomes free branching challenges historic in previous *B. boliviensis* hybrids. Plantpeddler stock is under strict protocols to ensure vegetative cuttings — available as DoubleUp 25X and SuperLiner 50 rooted cuttings.

Suntory Flowers

1. 'Surfinia Heartbeat' Petunia is an adorable novelty — white flowers with a pattern of pink hearts! The hearts grow with love, care and adequate fertilizer. Plants have a compact mounding and trailing habit. Charming in hanging baskets, containers and window boxes.

2. Pericallis 'Senetti Ruby Red' is breakthrough color in Senetti pericallis, which is best known for vivid blues, purples and magentas. Ruby Red's flowers have solid, deep wine red petals with dark centers. Plants match the original Senetti series in growth habit.

3. Surdiva Scaevolas
Suntory Flowers is rolling out a whole new generation of Surdiva scaevolas. Varieties are two weeks earlier, more densely branched and compact, and offer richer colors and superior floral coverage. Three new colors include Light Blue, Blue Violet and Fashion Pink.

New *annual* VARIETIES

Bounce Bright Coral
by Selecta

Your guide to the latest introductions from
around the world.

Compiled by Cassie Neiden and Danielle Frezza

ABUTILON

PlantHaven's Abutilon PATIO LANTERN Passion bred at the University of Sydney has the most compact habit seen to date, coupled with the largest bell-shaped blooms in appealing watermelon-pink tones. Ideal for early season promotional sales in hanging baskets. A new variety sure to turn heads at retail.

ANGELONIA

Archangel Cherry Red, by **Ball FloraPlant** is the first red angelonia — a huge color breakthrough in the class. Archangel has large-size blooms on upright stems. All colors in the series are perfectly timed together and uniform in habit. Makes a great combo-friendly, heat-tolerant choice to extend your season and celebrate the summer. Cherry Red offers the darkest red in high light and cool temperatures, with a more watermelon tone in the greenhouse or diffused light.

MegaCopa

BACOPA

New **MegaCopa** from **Ball FloraPlant** has superior heat performance. In Summer trials, MegaCopa's habit stayed controlled, and its early-season color held up all the way through the Texas summer heat. It is well branched with large flowers. Offers better center-fill with showy blooms that cover the plant, driving impulse sales at retail. Available in five colors.

PATIO LANTERN Passion

Archangel Cherry Red

XXL White Improved

Secrets XXL White Improved is bred by **Breier** and exclusively available from Cohen Propagation Nurseries. The Bacopa Secrets series contains nine varieties of rich color ranges (including bicolors). The newest addition is XXL White Improved. Next to bestseller 'Gulliver,' Breier's XXL white improved is clearly superior in flower size, plant

habit and abundance of flowers. Excellent basal branching and very easy to root. Perfect growth habit for container and basket production.

BEGONIA

'**Bossa Nova**' **Yellow F1**, bred by **Flo-ranova** completes the color spectrum in the well-loved Bossa Nova series. Covered with blooms, the fantastic branching and full-mounded trailing habit makes excellent hanging baskets to last all summer long. Bossa Nova does beautifully in full sun and can withstand a range of climate conditions. Bossa Nova is from seed and offers a range of benefits when compared to cutting alternatives. Now available in Red, Orange, Pure White, Rose shades, Rose Glow, Salmon and Yellow.

Megawatt by **PanAmerican Seed** has striking, nonstop flowers that keep

'Bossa Nova' Yellow

Megawatt

plants covered in huge color all through the summer. Pink-bronze blooms deliver a color unique to this type of begonia. Sturdy flower stems hold flowers above the foliage for superior show versus others. Megawatts are beautiful plants with lush foliage perfect for landscapes, baskets, big tubs and borders. Performs well in heat and drought with no deadheading needed.

BIDENS

The first **Cherry Pink Bidens** from **PlantHaven**, **CUPCAKE** breeding is the first where no PGRs are required to maintain compact, retail-ready plants. Once cutting, one pinch. Retail-ready in as little as 10 weeks from unrooted input. Nectar-rich blooms are great for beneficial pollinating insects. Petite mid-green leaves give a unique all-round look. Tidy rounded habit 10" x 14". Ideal for early season promotional

CUPCAKE Strawberry

sales in 4-inch pots or larger. Perfect for smaller, modern gardens and patios.

CALIBRACHOA

In **Breier's** Calibrachoa Caloha Classic series, we have added three varieties with unique ring colors in 2016: **Yellow Chocolate Ring, Yellow Red Ring and Coral Red Ring**. Caloha Classic is our

Yellow Red Ring

Paradise Island

most vigorous and hanging type with tremendous flower power and great branching habit.

Paradise Island, the striking new intro from **PanAmerican Seed**, is the first Fuseables variety to contain the first seed calibrachoa, Kabloom. You get the stunning beauty and reliable, efficient per-

formance of this seed-grown superstar, combined with the balance and precision that our patented Fuseables Precision Multi-Pellets deliver every time.

StarShine, bred by **Selecta**, is first true star series in calibrachoa. The grower-friendly novelty StarShine varieties each have a stable, *wow* star pattern, plus strong greenhouse and garden performance. Uniform timing and habit mean the series can slot right into regular calibrachoa programs with confidence. Truly striking in mixed and mono hanging baskets. Available in Apricot, Cherry, Pink and Violet.

For a bit of splashy glitz ‘n glam, choose **Superbells Tropical Sunrise** by **Proven Winners**. Its incredibly unique flowers each feature stripes of orange, pink and coral tones — no two flowers are exactly alike. Perfect this one in containers on a sunny patio where its novel blossoms

StarShine Pink

Tropical Sunrise

can be appreciated up close. Like all Superbells, it blooms beautifully from spring into fall without having to remove its spent flowers.

CANNA

Cannova Orange Shades, bred by **Ball Ingenuity** is the first seed, F1 canna series that offers an easy-to-grow option in this heat-tolerant class. Improved young plant performance means more useable plugs that are uniform and earlier than other seed canna programs. Strong colors like the new Orange Shades capture the landscape market. Cannova is versatile — it works well in 4-inch (10-cm) pots up to 2 gallons. Ideal for cart programs.

CAPSICUM

This newest in All-America Selections’ Southeast and Heartland ornamental pepper win-

Cannova Orange Shades

ners, **Ornamental Pepper Black Hawk F1**, bred by **Seeds By Design**, is a very early flower and fruit producer that keeps up production through fall. The consistent plant habit and well-branched fullness of the dark green, purple-black foliage make it an excellent addition to any mixed container, flower bed or cut flower design. The red conical shaped fruit are

Black Hawk F1

Twisted Orange

edible, but not recommended, as they are very spicy.

CELOSIA

Twisted Orange by **Ball Ingenuity** is a one-of-a-kind celosia that is sure to get second and third looks. Large cristata-type flowers are easy to grow with tons of bold color. Twisted has many of the same

retail appeal as Intenz celosia classic; it can be grown similarly, making it an easy add on. Works for spring, fall or pot plant programs.

COSMOS

'Apollo' F1, bred by **Floranova** is naturally dwarf, with shorter internodes and a fuller habit than competing varieties. Apollo is bred to exhibit a full canopy of large and well-formed flowers over the entire plant. The robust plant habit makes for easier transportation and longer shelf-life, and the large bold flowers make a great display in the garden. Available in Pink, White and Carmine.

CYCLAMEN

Fantasia, bred by **Morel Diffusion**, is the smallest of its kind. Intense color contrast. Very small and abundant flowers. Super-compact growth. Easy to grow. Great for growing in micro and up to 4" pots. Very low sensitivity to Botrytis.

Apollo (mixed)

Fantasia Magenta

FunFlame, bred by **Morel Diffusion**, has original contrast and attractive colors. Prolific flowerer. Compact and decorative foliage. Very round and sturdy plant habit. Excellent growth, even in hot conditions. Highly suited to high-density growth.

CYPERUS

If King Tut Cyperus had a little brother, **GRACEFUL GRASSES Prince Tut**, bred by **Proven Winners** would be it, and he would be a popular little dude. Perfectly sized at 2.5 to 4' tall, Prince Tut is ideal for large combination containers, pond-side plantings and low spots in the landscape that tend to retain water. It grows quickly to form an impressive clump and is more floriferous than King Tut, producing similar but more plentiful, finely textured plumes. This is a heat-tolerant plant that can be grown from north to south. It is perennial in zones 10 to 11, but should be replanted annually in colder zones.

FunFlame

Prince Tut

Sunfire

DAHLIA

Dahlia PAINTER Sunfire by **PlantHaven** is the first of the new fancy look of Painted Dahlias, all the way from Romantic France. Comparable to XXL. Large, double, warm yellow blooms splashed and painted in bright red. No PGRs are required to maintain compact, retail-ready plants. Once cutting, one pinch.

Strawberry F1 Delizz

Retail-ready in as little as 16 weeks from unrooted input. Tidy, rounded habit 24" x 24". Ideal for early fall-season promotional sales in 6-inch pots or larger.

FRAGARIA

Strawberry F1 Delizz, bred by **ABZ Seeds** develops quickly. Compact plant with few runners and many upright flower trusses. Just

after the first flower truss, a new flush of trusses will follow. Delizz produces many conical, mid-sized strawberries during whole summer. Fruit flavor is delicious sweet.

GARVINEA

Garvinea Sweet Caroline bred by **Florist Holland** produces magnificent, large flowers for plenty of color to enjoy. Blooming from early spring until late fall, they generate four to five times more flowers than other daisies to brighten gardens and container plantings. The bright orange/yellow color tones bring instant happiness and summer feelings in a 6- to 8-inch pot. This cool crop even has a high resistance to pests and diseases.

With its soft pink color and a touch of white around the center, **Garvinea Sweet Memories** by **Florist Holland** may look sweet and cute, but it's a tough one. Sweet Memories has great garden per-

Sweet Caroline

Sweet Memories

formance and a high resistance to pests and diseases. Sweet Memories shows a rapid splitting of the plant into more and new shoots, from which numerous flowers pop up. This results in a massive amount of flowers blooming on a plant at once. With extreme long and rich flowering, Garvinea brings superb garden performance and high customer satisfaction.

GERBERA

Flori Line Maxi Coral, bred by **Florist Holland** is part of the series known for its strong two-tones and offering the brightest colors on the market. This new Maxi Coral surely fits the series with an intense, passionate shade. Maxi Coral fits easily into your 6-inch program, with uniform and quick flowering plants.

Patio Gerbera Glacier, bred by **Florist Holland** is quick to flower, with tons of

Glacier

full, pure white flowers. Fun bonus: It is an excellent cut flower as well. Blooms measure up to 12 cm (5 inches) in diameter, and will last for two weeks in a vase.

Patio Gerbera Fundy, bred by **Florist Holland** is the gerbera for large containers with voluminous, uniform plants that look sensational on every deck, porch, veranda or patio. The bicolored Fundy

Maxi Coral

Fundy

Bright Coral

is one of new varieties in the line-up of Patio Gerberas that finishes way faster.

Patio Gerbera Kruger, bred by **Florist Holland**, is a new addition to the Patio Gerbera assortment. It has bright yellow flowers and a contrasting black center

Kruger

for a show-stopping effect. These large plants are the perfect gift item for high-end sales in 8- to 10-inch pots.

IMPATIENS

Interspecific Bounce Bright Coral by **Selecta** is an important bold color for the Bounce series of interspecific impatiens. It features higher-end vigor similar to Bounce Cherry. Bounce is an exciting new shade alternative that offers the habit and flower count of *Impatiens walleriana*, but they're resistant to downy mildew and thrive in sun and shade. Even better, the well-branched plants bounce back like magic after wilt.

IPOMOEA

A new color in our popular line of **Bewitched Ipomoea, Green with Envy** by **Proven Winners** is perfectly matched in size and habit to the new Bewitched

Green with Envy

After Midnight. Its lime green foliage is an essential component for combinations where it makes hot reds, magentas and purples really pop. Its fluffy habit allows just enough space for other trailing plants to weave through and form a well-rounded combination. It also works well as a low-maintenance, heat-tolerant groundcover for landscapes.

MARIGOLD

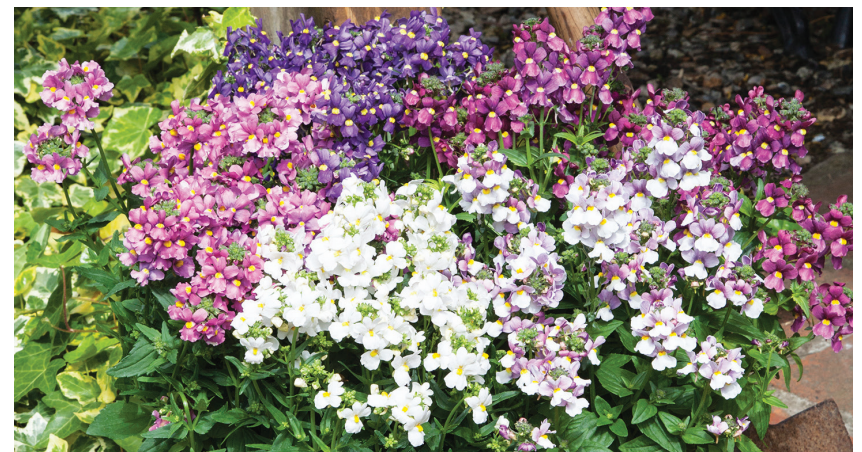

Meet the "New World marigold," **Fireball** by **PanAmerican Seed**. Fireball introduces germplasm never seen before in African or French marigolds, and puts multicolor blooms on the same plant. A completely new look for premium packs, pots and decorative containers. Flowers mature and change color for a great-looking contrast of red, orange and yellow. Habit is similar to other Dwarf crested French marigolds.

Fireball

NEMESIA

Featuring the first bicolor of its kind from seed, **Seventh Heaven F1** by **Floranova** brings the performance of vegetative material to an easier-to-handle seed format. This series has denser and better-branched foliage and larger flow-

Seventh Heaven F1

'Azure Flame'

ers than any other series. The bicolor also boasts a beautiful strong fragrance.

Nemesia **PENHOW LITTLE DRAGONS** 'Azure Flame' by PlantHaven does it again with the boldest bicolor Nemesia to hit the market! 'Azure Flame' is set to rock our world with rich bold

purple and pure white bicolor blooms. Compact rounded habit. Ideal for early-season 4" pots and container and basket sales. Tidy rounded habit 6" x 6". The perfect choice to spice up your early-season sales offering. Trim when young and after flowering to encourage strong basal branching & re-flowering. Trim to re-flower in 3 in 4 weeks.

PANSY

Cool Wave Morpho, bred by **PanAmerican Seed** is the best-performing spreading pansy series that delivers easy spreading color for spring and autumn, so you can extend your growing season for the popular Wave brand. Great in combos, baskets and as groundcover. Superior overwintering hardiness — Cool Wave is the earliest pansy to return in spring. New Morpho is a popular bicolor now available in this premium category to pump up sales.

Morpho

PELARGONIUM

This 2016 AAS Ornamental Vegetative Winner, Geranium

Brocade Fire by **Dümmen Orange**, has unique bicolor foliage with a nonstop display of orange flowers that gives it an exceptional look in any garden. Geranium Brocade Fire is ideal for combination planters, landscapes and garden beds. This robust plant keeps its distinguishing foliage color and brilliant blooms throughout the hot summers, then becomes a fantastic transitional flower going into fall. The orange flowers contrast with the striking foliage-making this geranium a much-appreciated and talked-about new annual winner.

Striking foliage with large double blooms of cherry pink make **Dümmen Orange's** Geranium **Brocade Cherry**

Cherry Night

Night an AAS Winner this year. Gardeners looking for unique and distinct foliage to accent their containers and gardens will be delighted with Brocade Cherry Night. The bronze leaves with green margins are a remarkable and unusual

Brocade Fire

'Quantum' F1

addition to any design. Add the double bright cherry blooms, and this heat-tolerant geranium is your winner for any planter, container or garden.

'Quantum' F1 bred by **Floranova**, a unique F1 geranium, has outstanding heat tolerance and longer flowering in regions with high temperatures. The

attractive, star-shaped flowers are less prone to shattering and the serrated foliage adds yet another unique feature. Available in Red, Salmon, Light Pink and as a mix.

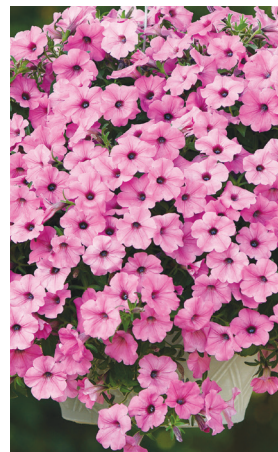

PETUNIA

ColorRush, bred by **Ball FloraPlant** is a new vegetative petunia series with big vigor with even bigger garden performance. ColorRush provides huge mounds of color and holds up in the heat and rain. Ideal for 12-inch (30-cm) — and larger — containers and baskets, as well as landscapes. The series includes a range of bright, eye-catching colors and novelties. They are nicely matched in habit, making production planning easier.

New **Easy Wave Yellow** by **PanAmerican Seed** has better branching with strong rooting compared to vegetative yellow varieties. The Easy Wave series offers the

Easy Wave Yellow

ColorRush

widest array of decorator colors. They're perfect for solo and mixed planters, hanging baskets and landscapes. Best of all, these spreading petunias deliver customer-pleasing performance all summer.

Happy Classic, bred by **Breier**, and exclusively available from Cohen Propagation Nurseries includes the new varieties: Fire Red, Pink Rose Vein, Yellow Orange Stripes, Baby Pink White, Orange Morn and White Red Stripes. Introducing six new vibrant colors to Breier's extensive Happy Classics series. Each addition is unique in its color category but common in large flowering and great plant habit. Because of their vigorous habit, Happy Classics are perfect for large baskets and containers.

Night Sky, bred by **Selecta**, boldly goes where no petunia has gone before, with a never-before-seen bloom pattern.

Night Sky

Night Sky matches the Headliner series in habit, timing and vigor. A great addition to 4-inch (10-cm) pot to 12-inch (30-cm) basket programs. The most distinctive bloom — no two flowers are the same. The constellation-like speckling on a rich purple backdrop offers a unique look that gardeners can't get enough of.

Pink Rose Vein

'Sentry'

Blooms open white, change to pink, and finish rose. This blending of colors creates an appealing product for impulse sales at the garden center or as gift plants at grocery or florist departments. Customers will love its flower bouquet look.

SALVIA

'Sentry' by Floranova brings you the deep strong color and dense flower spike of our best-selling Mojave variety, with the added benefit of earliness and compact plant habit. Sentry is perfect for small pot and pack production, but also holds up in the garden.

THUNBERGIA

Sunny Susy Brownie, bred by Jaldety Nursery, is a fast-growing, early-flowering, evergreen-twining climber that has a long bloom season. Used for flowering and structure element in combinations, this plant will produce nonstop,

PRIMULA

Primula Sweet 16 by Ball Ingenuity offers extremely large flowers, is early to flower and has a unique color range.

Sweet 16

rich chocolate brown-red flowers from spring to autumn. Plant is frost tender and will require trellis or other supporting element. It is suitable for hanging baskets, window boxes and large pyramid containers, and is perfect for fences, arches, pillars and trellises. Sun to light shade for exposure. Height will reach 12 inches. Zones 9 to 10.

ZINNIA

Zinnia 'Solmar' F1 by Floranova is an early-flowering, double-flower variety that provides a fantastic display of color in the landscape or container. Available in Red, Rose, Yellow and Scarlet.

'Solmar' F1

Sunny Susy Brownie
