GAZETTE NOTICE NO. 3948

THE SEEDS AND PLANT VARIETY ACT

(Cap. 326)

THE SEEDS AND PLANT VARIETIES (PLANT BREEDERS' RIGHTS) REGULATIONS, 1994

APPLICATION FOR GRANT OF PLANT BREEDER' RIGHTS

(Notification)

IT IS notified for general public information, that pursuant to section 17 of the Seeds and Plants Varieties Act, and Regulation 16 of the Seeds and Plants Varieties (Plant Breeder's Right's) Regulations, the Minister for Agriculture, gives notification of applications for grant of Plant Breeders' Rights for the 63 plant varieties specified hereunder.

The person entitled to make representations regarding any application is either the breeder or successor in title to the breeder or any person having substantial interest or is in a position to adduce material evidence as to the grant.

The presentations may be made by lodging the original or certified copy of the deed of assignment; or lodging the original or certified copy of letters of administration of the grant or such documentary evidence as will satisfy the authorized officer.

The presentations or requests for a hearing concerning the applications or any matters on which the authorized officer should be satisfied shall be made by the person applying for the opportunity to make representations.

The representations and or requests for a hearing concerning the application should be made in accordance with regulation 17 of the Seeds and Plant Varieties (Plant Breeder's Rights) Regulations.

The application for the opportunity to make representation shall be made to the Authorized officer who is also the Managing Director, Kenya Plant Health Inspectorate Service, P. O. Box 49592, Nairobi.

The application for opportunity to make representations shall be made within sixty (60) days from the date of publication of this notice in the Kenya Gazette.

GAZETTE NOTICE No. 4214

THE MEDIA ACT

(No. 3 of 2007)

AND

IN THE MATTER OF THE COMPLAINTS COMMISSION
OF THE MEDIA COUNCIL OF KENYA

COMPLAINT No. 068 OF 2009

DR. CHRIS MURUNGARU—(COMPLAINANT)

NATION TELEVISION—(RESPONDENT)

ARBITRAL AWARD

Panel Members:

KEN NYAUNDI—(Chairman)

PETER MWAURA—(Member)

MUREJ MAKOCHIENG—(Member)

RULING

On 18 February 2009, the Hon. Dr. Chris Murungaru, former MP Kieni Constituency, wrote a letter to the Chairman of the Media Council of Kenya complaining against Nation Television with respect to an article carried on air on Thursday, 5th February, 2009 at 9 p.m., prime news time. The news item complained of carried a report on a statement attributed, to the Director of the Serious Fraud Office of Britain and a press conference by the then British High Commissioner to Kenya.

The news item further stated that the Director of the Serious Fraud Office alleged that he had stopped investigations into the infamous Anglo-Leasing contracts because he was not receiving the requisite co-operation from the Kenyan Authorities. Whilst this was a re-count of events not entirely relevant to the present complaint, Dr. Murungaru took exceptional issue with the words of the news reporter, Mr. Robert Nagila, who made the following comment:

Interestingly a former internal security minister who has been facing a legal battle over the scandal, Dr. Chris Murungaru, has alleged President Kibaki was kept informed of every step of the Anglo Leasing deal before making an about turn. (emphasis supplied)

Dr. Murungaru complains that the comments made about and against him were directed at portraying him as the culprit in the Anglo-Leasing scandal and that the words of the report suggested that he had cases instituted against him by the KACC. Dr. Murungaru also complains that the words alleging that 'President Kibaki was kept informed of every step of the Anglo leasing deal before making an about turn' were at no time uttered by him.

Dr. Murungaru suggested that the airing of the Anglo-Leasing item was part of an agenda against his person and is evidence of un-professional, vindictive, malicious and irresponsible journalism.

In his letter to the Chairman of the Media Council, Dr. Murungaru made a demand for a retraction of the story and an appropriate apology from NTV. He further demanded an undertaking that such reporting against him will not be repeated in future. Finally Dr. Murungaru sought that action should be taken against the reporter and editor who dealt with the news item.

In his letter of 3 March 2009, the Chairman of the Council requested Dr. Murungaru to reduce the complaint to a formal petition in accordance with the Rules of Procedure of the Complaints Commission of the Media council of Kenya.

On 11th March 2009 Dr. Murungaru submitted Form 1 together with a CD of the footage complained of. Accordingly, on 16 March 2009, the Council wrote to Mr. Wangethi Mwangi, the Editorial Director of the Nation Media Group requesting for a response to the protest by Dr. Murungaru. A follow up of correspondence did not meet Dr. Murungaru's suggested demands culminating in Dr. Murungaru filing a petition on 11 March 2009.

The formal complaint in form of a petition does not differ in any material factual manner from the contents of the letter of February 18 2009 and we need not reiterate the details.

Briefly however, the petition crystallizes Dr. Murungaru's grievance to the effect that the NTV's news item was calculated to perpetuate a perception that he has been investigated and indicted for

the now famously labelled Aglo-Leasing scandal. The respondent was served with Dr. Murungaru's complaint but did not file a defence to it.

After two false starts in which Dr. Murungaru appeared without his Counsel Mr. Kioko Kilukumi the hearing of this matter eventually commenced on 22nd July, 2009 under a panel consisting of Ken Nyaundi (Chairman of the Media Complaints Commission), Murej MakOchieng and Peter Mwaura (members of the Commission). The Nation was represented by Mr. Owino. Mr. Kioko Kilukumi appeared for the complainant.

The viva-voce evidence of the petitioner reiterates the grievance contained in both the letter of 18 February, 2009 and the formal complaint filed on 11 March, 2009. It is the petitioner's evidence that the news item which forms the subject of this protest was not accurate, not fair and was laced with considerable malice.

The Commission had the advantage of viewing the copy of tape complained of and both counsels confirmed that it is a true copy of the alleged scandalous remarks. More importantly, both counsels confirmed that Dr. Murungaru did not utter the words ascribed to him by Mr. Robert Nagila.

Dr. Murungaru served in the NARC government as a minister in charge of internal security. In that role he handled a number of security contracts amongst them the now public and much maligned Anglo-Leasing contracts. Whilst the history of the complaint is tied up with these contracts it is important to point out that the Commission is not sitting in trial of who was to blame in the obviously multi-faceted and multifarious string of indentures that have attracted much open disapproval and odium. The commission is not required to make a finding on and would in any event not be able to pronounce judgement of who was responsible for the alleged loss to the Kenyan tax payer.

We are called upon to decide whether the news item aired at 9 p.m. on 5 February, 2009 was an accurate statement of facts and whether the words attributed to Dr. Murungaru were actually his own. Further, it is crucial to come to a decision as to whether the story which NTV ran would have been different if the comments of Dr. Murungaru had been sought and obtained. Was the story actuated by malice and mischief as Dr. Murungaru alleges?

Dr. Murungaru's evidence shows that he has spent considerable time and energy trying to distance himself from the failings that led to the loss of public funds, if at all, in the Anglo Leasing contracts. In these attempts, Dr. Murungaru has filed cases against a number of entities both within Kenya and out of jurisdiction.

Dr. Murungaru has filed cases in the Civil Division of the High Court in Nairobi, the Constitutional Division of the High Court and the Court of Appeal in Nairobi. He has also instituted petitions in the High Court of Justice, Queen's Bench Division, UK. Again the details of these cases are not entirely essential for the purposes of our decision in the matter before us except that in all the suits it is Dr. Murungaru who has petitioned the courts. In none of the cases is the complainant either an accused person or a respondent. This observation sits in line with Dr. Murungaru's snivel that while no prosecution authority has put him on the dock the media has tried and sentenced him in the Anglo-Leasing matter.

It is not lost to the Commission that the picture of Dr. Murungaru used in the news item complained of showed him coming out of the High Court after attending a matter in which he had brought a challenge against the Kenya Anti-Corruption Commission's demand for him to declare his wealth. It is not a picture of Dr. Murungaru walking out of Court after attending to answer charges brought against him by any prosecution authority. Who, the Commission sought to know from counsels, is facing a legal battle? Does the reference apply to a party who is, so to speak, on the receiving end or may it also apply to a party who has instituted the trial?

Dr. Murungaru suggests that the footage used to show him outside a courtroom was meant to suggest that he was in court as a culprit, an offender, a wrong doer and yet he had attended court to protect his lawful interests.

In x-exam by Mr. Owino for the respondent, Dr. Murungaru stated that Mr. Nagila had *'put words in my mouth'* reflecting perhaps on his evidence in chief that the words used by Mr. Nagila were not spoken by him. In good measure, Mr. Owino sought to get out a pound of flesh in Dr. Murungaru's refusal to answer a question as to whether the

word Kenya Anti-Corruption Commission is used in the footage complained of. In his final submissions Mr. Owino made out an observation that because the complainant had declined to answer his question there would have been no need to seek his response to the Nagila story because he would have similarly refused to answer. I do not share this view.

Under section 27 (1) of the Media Act, read together with Rule 20 of the Media (Complaints Commission) Rules 2009, the party against whom a complaint is made is required to respond in writing (by way of a defense)

and to attend the Commission during the proceedings. The Commission has noted that although Mr. Linus Kaikai attended the proceedings on behalf of the respondents the respondents did not file a defense to the petition. No evidence was tendered to rebut the facts of this matter as set out by the complainant.

This Commission is set up under section 23 of the Media Act. Under section 24 (1) of the Act, the Commission is empowered to establish an Arbitration Panel consisting of not less than three members to deal with any matter before it.

This panel, as presently constituted, is an arbitral panel in exercise of powers donated under section 24(2) of the Act.

The panel's jurisdiction is set out under section 26 (1) of the Act. With respect to the present complaint we are limited to section 26 (1) (a) of the Act. Under section 27 (2) of the Act, the Commission (or any of its panels) may,

[H]aving heard the matter in issue, make a report, issue any decision as it deems appropriate and give directions in connection with the complainant, and shall publish its findings if it considers it in the public interest to do so.

The boundaries of the Commission's powers are further enlarged under section 29 (1) which empowers the panel if it considers it appropriate, to order an offending party to publish an apology and correction in such a manner as the Council (emphasis added) may specify. It is instructive that the Act suggests that the mode and method to be followed by the apology is subject to the specifications of the council. We interpret this clause to mean that having heard a complaint the Commission may make an order for apology and correction in such terms as the council may stipulate or indicate. I shall return to this matter later in this ruling.

What does the complainant require of this panel? He prays that the commission makes an order for a retraction of the story; an appropriate apology and undertaking that the same will not be repeated in future.

The complainant's basis for his prayers is that the news item complained of violates section 1 (a), 1 (b) and 1 (c) of the Second Schedule to the Media Act and sections 3 and 20 of the same schedule (Code of Conduct for the Practice of Journalism). These sections deal with accuracy and fairness, as well as integrity and use of pictures and names in a story. I do not consider it necessary to set out the words of these sections herein.

How does the complainant's evidence abide with the law on which he seeks to rely on for his prayers? It is the complainant's evidence that the respondent did not seek his comments before the story was aired; that he was not treated with respect and dignity and that the respondent did not apply caution in the use of the photographs which accompanied the story complained of.

The competing interests in this matter are freedom of the media (the right of the media to inform the public on a matter of general interest) and privacy of the citizen (right not to be projected in a negative light without justification).

The right to privacy is invaded and violated when a complainant is given publicity that unreasonably places him in a false light before the public. This is why the code of conduct requires that journalists be objective and write stories that are fair, accurate and un-biased on matters of public interest. At the heart of the right to privacy is what America's Supreme Court Justice Louis Branders (before he became Judge) loosely referred to as *"the right to be left alone"*

We remind ourselves that the complaint before us is not one of defamation. Defamation falls on its face when only the complainant testifies; for it is not to the complainant's opinion of himself which is at issue but that of the other persons.

The requirement that a TV journalist presents an accurate and fair story is part of the historical developments in the free press. A journalist has to constrain himself against personal biases and prejudices. In the media profession, it is critical that a journalist presents un-biased information to the public. This is part of a contractual duty the media owe to the public. This duty is primary and in our view perhaps over-rides the complaint of any person such as the petitioner before us.

For the journalist, the reputation and credibility of his news house rests on presentation of news without preconceived notions, partiality, favouritism or prejudice. It is widely agreed that a reporter must differentiate fact from opinion.

This Commission is awake to the need to grow, uphold and maintain a respect for media freedom. Freedom of the media is at the heart of a progressive society. It informs development in all spheres of public discourse. It checks the actions of public officers. It holds them back from un-restrained actions and waste. It is the public's safeguard to wanton bureaucratic behaviour.

On the other hand, every citizen has a legitimate expectation that his privacy will not be violated without justification.

The question before us is whether on the evidence the news item complained of though making comments on a matter of public interest strayed beyond the boundaries of permissive conduct and thereby contravened Dr. Murungaru's fundamental rights to privacy. With respect to the news item we ask; was the news item factual? With respect to the specific complaints raised by Dr. Murungaru; were the words attributed to Dr. Murungaru actually uttered by him?

If the words ascribed to Dr. Murungaru had been uttered by him I would have had no hesitation in dismissing his complaint. I am in the present circumstances unable to do so because Mr. Nagila moved beyond acceptable limits of accurate and fair reporting.

Further, I do not agree with him that Dr. Murungaru is facing a legal battle. I think he has waged a legal battle. The import of these two situations is different; in the former Dr. Murungaru is on his defence; in the latter, he is the aggressor. In the public eye, a person who has filed a suit occupies a different position from one who is charged. The perception is that the first is protecting a right, the other defending an accusation. In the untrained eye, the first stands justified; the second walks on the brink of censure, even condemnation.

I have no doubt that the public has a right to know who conceived, perpetuated and benefited from the Anglo leasing contracts. Such knowledge must be based on facts, not innuendo; truth, not pieces of information pieced together in an attempt to create reality.

On the twin basis that the news report was not fair and accurate and that a citizen's right to privacy should not be violated on insinuation and allusions, I find for the complainant.

I order and direct that the respondent retracts the story and offers an apology. I shall not make an order for an undertaking not to run similar stories in the future. Tomorrow shall govern itself.

Accordingly I order that counsels for the parties do agree on a draft statement retracting the offending story and offering an apology to the complainant within 14 days of today's date and further to agree on a date for publication of the statement within 21 days hereof. In the event of failure this matter to be mentioned before the Commission for further orders. Either party is at liberty to apply. It is so ordered.

Dated, signed and delivered at Nairobi this 1st day of March, 2011.

Chairperson

PETER MWAURA,

THE ENVIRONMENTAL MANAGEMENT AND
CO-ORDINATION ACT

(No. 8 of 1999)

THE NATIONAL ENVIRONMENT MANAGEMENT AUTHORITY
ENVIRONMENTAL IMPACT ASSESSMENT STUDY REPORT
FOR THE PROPOSED LIQUIFIED PETROLEUM GAS
(LPG) "COMMON USER" BULK STORAGE AND
FILLING DEPOT ON PLOT NO.
KISUMU/KASULE/399 AT NYAMASARIA IN
KISUMU

INVITATION OF PUBLIC COMMENTS

PURSUANT to regulation 21 of Environmental (Impact Assessment and Audit) Regulations, the National Environment Management Authority, (NEMA) has received an environmental impact assessment study report for the implementation of the proposed LPG "common user" bulk storage and filling depot.

The proposed project entails installation of a modern medium size "Common User" LPG storage and filling plant. The depot will be designed in a modular form with an initial storage capacity of 100 metric tonnes and a filling rate of 1000 cylinders per hour. The filling container will be equipped with three electronic filling machines to fill 6kg, 12kg, 25kg and 35kg cylinders. Two (2) machines will be used to fill the 6kg and 12kg cylinders and one (1) machine will be dedicated to the 25kg and 35kg cylinders. The LPG storage will be composed of one (1) LPG tank with a geometrical capacity of 50m³. LPG tank is design to store mixture of Butane/Propane (with maximum propane content of 30%) and is design under the AD2000 code

The project is located in Kisumu East District in Winam Division, at Nyamasaria in Kasule Sub-location in Kisumu, about five kilometers away from Kisumu's Central Business District (CBD). It is located on Plot No. Kisumu/Kasule/399 on a 0.39 ha plot.

The following are the anticipated impacts and proposed mitigation measures:

<i>Possible Impact</i>	<i>Mitigation measures</i>
Erosion and sedimentation	<ul style="list-style-type: none"> Concrete floors and cabro paving in the whole compound. Installation of traps for stored loose construction materials such as sand.
Drainage alteration	<ul style="list-style-type: none"> Channel drains flowing under the perimeter walls and into the roadside drainages and culverts.
Water pollution	<ul style="list-style-type: none"> Water Sprinkler System. Ensure effective drainage into the sewer system. Regular maintenance checks on drainage system.
Dust	<ul style="list-style-type: none"> Regular watering of access routes to reduce dust. Provision of dust masks to workers.
Emissions	<ul style="list-style-type: none"> Use of mufflers on heavy equipment and vehicles. Reduction in use of machinery to necessary requirement only. Regular check of gas leak detection system, pipeline seams, pneumatic cut off system and remote operating valves for automatic cut-off of the system to curb greenhouse gas emissions.
Noise	<ul style="list-style-type: none"> Operation during daylight hours only. Provision of ear muffs to site workers. Construction of high perimeter wall around the site.
<i>Possible Impact</i>	<i>Mitigation measures</i>
Devegetation	<ul style="list-style-type: none"> Minimal excavation. Revegetation of bare areas.

Solid waste disposal	<ul style="list-style-type: none"> Planting indigenous trees. Ensure appropriate waste baskets available in offices. Outsource a NEMA registered waste disposal agent to collect and dispose of solid waste.
Scrap materials and debris	<ul style="list-style-type: none"> Use of an integrated solid waste management system. Waste generated will be characterized in compliance with standard waste management procedures. Disposal locations will be selected by the contractor and the KCC based on the properties of the particular waste generated.
Vegetation disturbed	<ul style="list-style-type: none"> Plant grass on areas that are not to be used for pathways and driveways.
Soil erosion and drainage problem	<ul style="list-style-type: none"> Monitoring and inspection of the area for indications of erosion will be conducted and appropriate measures taken to rehabilitate any occurrences. Fencing and signs restricting access posted to minimize disturbance to newly vegetated areas. Drains planned and constructed. Drains kept clean of debris.
Non hazardous waste	<ul style="list-style-type: none"> Disposal locations selected by contractor. Use of an integrated solid waste management system.
Hazardous wastes e.g. spent solvents, oil spent, oil sludge, mercury contaminated and carbon beds	<ul style="list-style-type: none"> Waste treatment. Waste generated will be characterized in compliance with standard waste procedures.
Fire and or explosion	<ul style="list-style-type: none"> Install smoke detectors at strategic locations in the site. Install gas detection system in a strategic location. Install fire alarm systems. Install hose reels system with a connection to a pressurized water supply along perimeter wall. Place portable fire fighting canisters at conspicuous locations. Institute speedy evacuation plans and fire drill training. Install water tank with 500,000m³ of water. Ensure impervious had standing areas with banded sides draining away from tank area to hold accidental spillages. Ensure supervision of deliveries. Operating procedures instituted. Install automatic shut-off devices. Install Riflo Septica Sanitation System. Install French drain to soak away the waste water.
Pollution of river Nyamasaria and underground water bodies	<ul style="list-style-type: none"> Install French drain to soak away the waste water.

The full report of the proposed project is available for inspection during working hours at:

ENVIRONMENTAL IMPACT ASSESSMENT STUDY REPORT
FOR THE PROPOSED RENOVATIONS OF A PETROL STATION
IN TIGONI ALONG OLD LIMURU ROAD
ON PLOT L.R. NO. 11893

INVITATION OF PUBLIC COMMENTS

PURSUANT to regulation 21 of Environmental (Impact Assessment and Audit) Regulations, the National Environment Management Authority, (NEMA) has received an environmental impact assessment study report for the implementation of the proposed renovations of a petrol station.

The proposed project highlights include:

- Renovating the canopy over the pumps.
- Renovating the sales office.
- Rehabilitating the septic tank and soak pits.
- Repairing the underground fuel tanks.
- Repairing the drive ways, walkways, acceleration and deceleration lanes.
- Repairing the Interceptor tank.
- Renovating the washrooms.

The proposed project site is located at Tigoni Centre, a few metres from the road. The land reference number is L.R. No. 11893 which is a 0.3161Ha piece of land.

The following are the anticipated impacts and proposed mitigation measures:

Possible Environmental Impacts Suggested Mitigation Measures

Air pollution	<ul style="list-style-type: none"> • Control speed and operation of construction vehicles. • Prohibit idling of vehicles. • Spray water on excavated areas. • Maintenance of construction plant and equipment. • Sensitize construction workers. • All bare areas should be landscaped after construction. • Workers should be provided with dust masks if working in sensitive areas.
Noise pollution	<ul style="list-style-type: none"> • Maintain plant equipment. • Construction should be carried out only during daytime i.e 0800 – 1700 HRS. • Workers to wear ear muffs if working in noisy section. • Management to ensure that noise from the residents is kept within reasonable levels.

Possible Environmental Impacts Suggested Mitigation Measures

Traffic density	<ul style="list-style-type: none"> • Proper signage put in place to notify
-----------------	---

neighbours of the activity and presence of heavy vehicles and to direct traffic.

Soil erosion & compaction

- Presence of boards directing patrons to the site.
- Strict adherence to traffic rules.
- Provide soils conservation structures on the areas prone to soil erosion to reduce impact of erosion.
- There should be designated pathways and driveways for movement within the compound to avoid unnecessary compaction.
- All bare areas should be well landscaped after completion.

Solid waste

- Construction debris should be collected by a licensed private contracted waste collection company.
- Excavation waste should be re-used or backfilled.
- Waste generated should be collected by a privately contracted waste collection company and the contractor should ensure the construction of a central waste collection point with bulk storage facilities.
- The site should have waste receptacles with bulk storage facilities at convenient points to prevent littering during occupation.

Oil leaks and spills

- Machinery should be well maintained to prevent oil leaks.
- Contractor should have a designated area where maintenance is carried out and that is protected from rain water.
- All oil products should be stored in a site store and handled carefully.

Security

- The site will be fenced off using iron sheets during renovation.
- Demolish all temporary kiosks on site.
- Round the clock security for the facility.
- Adequate lighting and an alarm system installed at strategic points.

Occupational Health and Safety

- Provide Personal Protective Equipment.
- Train workers on personal safety and how to handle equipments and machines.
- Report any accidents / incidences and treat and compensate affected workers.
- Provide sufficient and suitable sanitary conveniences which should be kept clean.
- The site will be fenced off using iron sheets during renovation.

The full report of the proposed project is available for inspection during working hours at:

- (a) Director-General, the National Environment Management Authority (NEMA), Popo Road, off Mombasa Road, P.O. Box 67839-00200, Nairobi.

THE NATIONAL ENVIRONMENT MANAGEMENT AUTHORITY

ENVIRONMENTAL IMPACT ASSESSMENT STUDY REPORT
FOR THE PROPOSED 80MW THERMAL POWER PLANT AT
THIKA ON PLOT NUMBER L.R. 8380/2

INVITATION OF PUBLIC COMMENTS

PURSUANT to regulation 21 of Environmental (Impact Assessment and Audit) Regulations, the National Environment Management Authority, (NEMA) has received an environmental impact assessment study report for the implementation of the proposed 80MW thermal power plant.

The proposed project will consist of five MAN 4-stroke medium speed diesel engines 18V48/60 and a steam turbine with a combined capacity of 80 MW, transformers, cables, switchgear, protection and metering equipment. Generation will be at 15 kV for step-up to 132 kV by a sub-station that will be constructed for the subsequent transmission of the generated electricity.

The project proposed site is along Nairobi-Thika Highway, about 38 km from Nairobi City Centre and 6 km to Thika Town. The site is on plot number L.R. 8380/2, measuring approximately 4 ha (10 acres) next to Mang'u High School and opposite Witeithie Village.

The following are the anticipated impacts and proposed mitigation measures:

<i>Possible Impact</i>	<i>Mitigation measures</i>
Extraction site impacts to ensure efficient use of raw materials in construction	<ul style="list-style-type: none"> • Source building materials from local suppliers who use environmentally friendly processes in their operations. • Ensure accurate budgeting and estimation of actual construction material requirements to ensure that the least amount of material necessary is ordered. • Ensure that damage or loss of materials is kept minimal through proper storage.
Loss of vegetation cover	<ul style="list-style-type: none"> • Ensure proper demarcation and delineation of the project area to be affected by construction works. • Introduction and maintenance of vegetation (trees, shrubs and grass) on open spaces and around the site. • Design and implement an appropriate landscaping programme to help in re-vegetation of part of the project area after construction.
Air pollution by dust and VOCs generated during construction process.	<ul style="list-style-type: none"> • All personnel working on the project will be trained prior to starting construction on methods for minimizing air quality impacts during construction. • Construction heavy earth moving vehicle drivers will be under strict instructions to minimize unnecessary trips, refill petrol fuel tanks in the afternoon and minimize idling of engines. • Careful screening of construction site to contain and arrest construction-related dust. • Exposed stockpiles of e.g. dust and sand, will be enclosed, covered, and watered daily, or treated with non-toxic soil binders.

Pollution from Hazardous waste	<ul style="list-style-type: none"> • All workers will be required to wear protective gear while on site. • Ensure construction machinery and equipment are well maintained to reduce exhaust gas emission. • Handling of the materials using the material safety data provided by the manufacturers. • Appoint a safety officer to ensure that proper disposal guideline are observed. • Ensuring that maintenance and/or piece of work carried out on any piece of equipment or construction work is undertaken by qualified personnel. • In case of spillage emergency spillage control measures to be instituted. • Containerization of any wastes and disposal through a licensed waste handler.
Noise and vibration by construction activities	<ul style="list-style-type: none"> • Use of equipment designed with noise control elements will be adopted where necessary. • Trucks used at construction site shall be routed away from noise sensitive areas where feasible. • Idling time for pick-up trucks and other small equipment will be minimized to limited time. • All workers operating in noisy areas or operating noisy equipment will be provided with earpieces to protect against extreme noise. • Comply with L.N. 25: Noise prevention and control rules, 2005.
Workers accidents and hazards when handling hazardous wastes.	<ul style="list-style-type: none"> • Adequate collection and storage of waste will be provided on site, and safe transportation to, and display methods at designated areas. • All receptacles for storing hazardous wastes shall be adequately covered. • All employees will be required to wear protective gear when handling hazardous wastes. • All workers will be adequately insured against unforeseen accidents.
Generation of solid waste	<ul style="list-style-type: none"> • Wastes to be collected regularly to control air pollution and vermin/insects etc. • Receptacles will be provided for waste storage prior to collection. • Resource recovery will be encouraged once the project takes off so as to shrink waste stream and recover non-recyclables. • Refuse collection vehicles will be covered to prevent scatter of wastes by wind. • Wastes will be collected by a licensed operator to avoid illegal final dumping at unauthorized sites. • All persons involved in refuse collection shall be in full protective attire.
Workers accidents during construction process.	<ul style="list-style-type: none"> • All workers will be sensitized before construction begins, on how to control accidents related to construction. • A comprehensive contingency plan will be prepared before construction begins, on accident response.
<i>Possible Impact</i>	<p><i>Mitigation measures</i></p> <ul style="list-style-type: none"> • Accordingly, adherence to safety procedures will be enforced.

- All workers to wear protective gear during construction, including helmets.
- Construction work will be limited to daytime only.

The full report of the proposed project is available for inspection during working hours at:

ENVIRONMENTAL IMPACT ASSESSMENT STUDY REPORT
FOR THE PROPOSED RESIDENTIAL ESTATE ON A 144 ACRE
PLOT, L.R. NO. 24605/4 ALONG HILL CREST PARK ROAD OFF
MOMBASA ROAD, MAVOKO MUNICIPALITY, MACHAKOS

INVITATION OF PUBLIC COMMENTS

PURSUANT to regulation 21 of Environmental (Impact Assessment and Audit) Regulations, the National Environment Management Authority, (NEMA) has received an environmental impact assessment study report for the implementation of the proposed residential estate.

The proposed project entails construction of three thousand mixed housing units. The development will be implemented in phases depending on the success of the predecessor phases and it will entail apartments, maisonettes, duplex units, community clinic/dispensary, and sewer treatment plant, artificial lake, Bus Park and many other supporting utilities.

The project is located on plot L.R No. 24605/4, Athi River, Mavoko Municipality next to sun-rose Flowers Ltd along Hill Crest Park Road (approximately 4Km from Mombasa road).

The following are the anticipated impacts and proposed mitigation measures:

<i>Possible Impact</i>	<i>Mitigation measures</i>
Soil erosion and compaction	<ul style="list-style-type: none"> • The contractor will provide adequate soil conservation structures to ensure that areas prone to soil erosion are protected from runoff. • Avoid steep slopes. • Areas susceptible to erosion shall be properly sloped and compacted to reduce the effect of runoff, and shall be seeded immediately. • Rehabilitation of exposed sites as soon as practicable. • Ensure that the proposed project does not increase in erosion and sedimentation of the river.
<i>Possible Impact</i>	<i>Mitigation measures</i>
	<ul style="list-style-type: none"> • The site preparation activity should be scheduled.

Occupational health and safety

- Riverine vegetation shall be minimally disturbed during the construction phase to reduce soil erosion and safeguard river bank protection.
- Re-plant degraded areas with local species common in the area to complement natural vegetation regeneration to improve ground cover.
- Ensure that building plans are approved by Mavoko Municipality Council.
- Workers will be provided with adequate PFEs during the construction phase, these will include working boots, overalls, helmets, goggles, earmuffs and goggles. Workers will also be provided with harnesses and proper secure equipment s for scaling heights.
- Workers will be provided with a well stocked first aid box, which will be replenished at all times and managed by trained first aiders.
- The proponent will ensure that the contractor thro' the project manager obtain a workmen's act, as well as ordinance and regulations.
- Adequate sanitary facilities will be provided with proper segregation for both genders where applicable.
- The contractor will ensure that people providing food to the workers have been sensitized on the safe handling of food to avoid outbreaks of food poisoning.

Air and dust pollution

- The contractor to protect stockpiles of friable material subject to wind- throw by wetting, or with barrier, vegetable, or windscreen.
- Restrict speed on loose surface roads during dry or dusty conditions; incidence.
- Suppress dust during dry periods by use of water sprays.
- Maintain equipment in good running condition-no vehicle to be used that generates excessive black smoke.
- Enforce vehicle load restrictions to avoid excess emissions from engine overloading.
- The contractor shall institute appropriate measures to minimize or avoid air quality impacts. This can be achieved through formulation of air quality management plan.
- The contractor to minimize/control emission of dust due to traffic movement and erosion of stockpile material and exposed soil.
- The contractor to ensure that all equipment used and all facilities erected on site are designed and operated to control the emission of smoke, dust, fumes and any other air impurity into the atmosphere.

Noise pollution and excessive vibration

- The contractor shall comply with the legal requirements for the managements of the noise impact specified in the recently gazetted noise quality regulations.

Possible Impact

Mitigation measures

- The contractor shall formulate noise management plan for minimizing the generation of noise and vibration from

	<ul style="list-style-type: none"> construction activities occurring on site and its impact on surrounding residents, businesses and workers. All internal combustion equipment will have properly functioning silencers or mufflers. Neighbours to the site to be notified about the construction schedule and activities, including blasting, should it be required. Noise generating activities that take place near residential or sensitive institutional receptors will be restricted to between 0600-2000hrs, which is defined as 'daytime' in the Kenyan noise regulations.
Increase in solid waste	<ul style="list-style-type: none"> Proponent will use an integrated solid waste management system by source reduction, recycling, composting, reuse or sanitary land filling. The proponent will ensure that debris is collected by a NEMA approved waste handlers. There will be central collection point for waste generated preferably with segregation of the same. The proponent will provide or construct proper waste receptacles to avoid littering.
Effluent disposal	<ul style="list-style-type: none"> The proponent will use waste treatment plant as shown on the site plan for effluent management. The proponent will ensure that the materials used for construction are of the right standards as per the building code. The proponent will ensure that required standards of effluent are maintained before disposal is done through quarterly laboratory analysis. The proponent will ensure that there are routine checks for the sewer lines to ensure that there are no leakages.
Security	<ul style="list-style-type: none"> The proponent will ensure that guards are available and proper intrusion surveillance equipments are installed and are working all the times.
Traffic movement for construction vehicles	<ul style="list-style-type: none"> The proponent will ensure that there is adequate lighting in all areas and risk assessment is done regularly to identify any new threats. The proponent will ensure the neighbours are informed through signage about irregular movements and guards to be used to direct traffic
Water resources and water quality	<ul style="list-style-type: none"> Measures shall be instituted to minimize erosion and sediment transport, especially during construction activities. These measures should include: limiting areas cleared of vegetation, stabilizing the soils on the sloppy areas with stone pitching and planting of grass. Remedial measures shall be implemented by the Contractor in the event of erosion resulting in the sedimentation of surrounding areas after due consideration of the costs and benefits of such removal activity
<i>Possible Impact</i>	<i>Mitigation measures</i>
	<ul style="list-style-type: none"> Infrastructure shall be designed to ensure that contaminated run-off does not reach watercourses

- In the event of an oil spill the procedures contained in the emergency response plan will come into effect.

INVITATION OF PUBLIC COMMENTS

PURSUANT to regulation 21 of Environmental (Impact Assessment and Audit) Regulations, the National Environment Management Authority, (NEMA) has received an environmental impact assessment study report for the implementation of the proposed bulk LPG storage and packing facility.

The proposed project involves off loading and loading zones, LPG pump, LPG compressor, water pump, water storage, cooling tower system, roto gauge, vapour line and storage-packed LPG.

The project is situated on plot No. L.R. No. 277 Ruiru Township, 2 kilometers from Ruiru Town, Central Business District along the Ruiru-Kiambu Road. The site is in industrial area.

The following are the anticipated impact and proposed mitigation measures:

<i>Possible Impact</i>	<i>Mitigation measures</i>

(No. 8 of 1999)

THE NATIONAL ENVIRONMENT MANAGEMENT AUTHORITY

ENVIRONMENTAL IMPACT ASSESSMENT STUDY REPORT
FOR THE PROPOSED CONSTRUCTION OF RESIDENTIAL
APARTMENTS ON PLOT L.R. NO. 12715/503, SYOKIMAU,
MACHAKOS DISTRICT

INVITATION OF PUBLIC COMMENTS

PURSUANT to regulation 21 of Environmental (Impact Assessment and Audit) Regulations, the National Environment Management Authority, (NEMA) has received an environmental impact assessment study report for the implementation of the proposed construction of residential apartments.

The proposed project entails construction of eighty two (82) housing units each with four (4) bedroom apartments and related supporting infrastructure.

The project is located on plot L. R. NO. 12715/503, Syokimau, Athi River Townships, Mavoko Municipality. The site is currently vacant and is surrounded by other upcoming residential apartments. The following are the anticipated impact and proposed mitigation measures.

Possible Impacts	Mitigation measure
Increased solid waste	<ul style="list-style-type: none"> • Use of integrated solid waste management of options ie. Source reduction, recycling, composting and re-use, combustion and sanitary land filling. • Ensure that construction materials left over at the end of construction will be used in other projects rather than being disposed. • Dispose waste more responsibly by damping at designated damping sites. • Waste collection bins to be provided at designated points on site. • Re-use packaging materials such as cartons, cement bags, empty metals and plastic containers to reduce waste at the site. • Use construction materials containing recycled content when possible and in accordance with accepted standards. • Use building materials that have minimal or no packaging to avoid the generation of excessive packaging waste. • Use of durable, long lasting materials that will not need to be replaced as often.
Dust Emission	<ul style="list-style-type: none"> • Avoid excavation works in extremely dry weather. • Ensure strict enforcement of on site speed limit regulations. • Covering of all haulage vehicles carrying sand, aggregate and cement. • Stock piles of fine materials (eg. Sand and ballast) should be wetted or covered with tarpaulin during windy conditions. • Access roads and exposed grounds must be wetted in a manner at a frequency that effectively keeps down the dust.
Possible Impacts	Mitigation measure
	<ul style="list-style-type: none"> • Workers in dusty areas on the site should be issued with dust masks during dry and windy conditions. • Providing appropriate enclosure for the concrete mix-up.

Noise vibrations	<ul style="list-style-type: none"> • Use of dust nets at high levels of the building. • Sensitize construction drivers to avoid running of vehicles engines or hooting especially when passing through sensitive areas such as church, schools or hospitals. • Ensure the construction machinery are well kept in good condition. • Sensitize construction drivers and machinery operators to switch off engines while not being used. • Ensure all generators and heavy machines are insulated or placed in an enclosure to minimize ambient noise levels. • Restrict noisy construction activities to normal working hours (8 am – 5 pm). • Inform local residents before hand via notices and advisories, of pending noisy periods and solicit their tolerance well before the commencement of pilling works. • Workers operating equipment that generate noise should be equipped with noise protection gear including ear muffs and plugs. Workers operating equipment generating noise levels than 80 dBA continuously for 8 hours or more should use ear muffs whereas those experiencing prolonged noise levels of 70 – 80 dBA should wear ear plugs. • Limit pick-up trucks and other small equipment to an idling time of 5 minutes, observe a common sense approach to vehicle use, and encourage workers to shut off vehicle engines whenever possible. • All construction equipment should be regularly inspected and serviced. 	<p>Water generated by construction workers will be through pit latrines.</p> <ul style="list-style-type: none"> • Ensure the toilets are clean and piping is done up to standards. <p>Occupational health and Safety Risks</p> <ul style="list-style-type: none"> • Train workers on use of machines and simple maintenance. • Provision of fire fighting mechanisms. • Sensitization campaign in STDs and AIDS in the workers. • Monitoring solid and effluent disposal. • Proper signage on site to warn workers of safety requirements as regards machines with moving parts and other equipment at site. • Provide a first aid box and have a trained person to handle site emergencies and incidences. Display in the site telephone numbers of ambulances or provide a site vehicle to specifically transport the injured to hospital. • Provide fire-fighting mechanism at site. Display emergency call numbers that can be used in case of a site fire. • Provide safe scaffoldings and railings at heights. • Provide washing (enclosed bathrooms) and toilet facilities at site with both drinking and washing water. The number of workers engaged determines the number of toilets and bathrooms provided. • Providing safety helmets , safety masks (welders), safety shoes (loaders), uniforms and hand gloves to the workers.
Oil/Hazardous materials spills	<ul style="list-style-type: none"> • A designated garage section of the site fitted with oil trapping equipment to be planned for changes. Such area will protect the soil from contamination. • Refueling and maintenance of large vehicles will not take place at the construction site. • All hazardous materials to be stored in appropriately bonded containers and placed on concrete floors. • Maintaining spill response kits at the site office. • Prepare and display on site spill response procedures. • Training of workers on spill response and management. 	<p>Soil Erosion and Storm Water/Runoff</p> <ul style="list-style-type: none"> • Ensure that any compacted areas are ripped to reduce run-off. • Site excavation works to be planned such that a section is completed and rehabilitated before another section begins. • Ensure that the construction vehicles are restricted to graded roads to avoid soil compaction within the project site. • Apply soil erosion control measures such as leveling the project site to reduce run-off velocity and increased storm water into the soil. • Construction of pavement. • Planting of grass. • Lining of storm water drains with PCC slabs and invert drains. • Designing of a storm water management plan that minimizes impervious area infiltration by use of recharge areas and use of retention with graduated outlet control structure.
Safety and Security	<ul style="list-style-type: none"> • Ensure the general safety and security at all times by providing day and night security guards and adequate lighting within and around the construction site. 	<p>Fire Control</p> <ul style="list-style-type: none"> • Installation of fire extinguishers at strategic points eg. Stores. • Have maintenance contract with suppliers and records of inspection kept. • Display warning signs eg. “Danger”. • “NO SMOKING” prominently within the construction site especially in parts where inflammable substances are stored.
Hydrology and Water quality Degredation	<ul style="list-style-type: none"> • Hazardous substance control and emergency response plan that will include preparations for quick and safe clean-up of accidental spill. • Hazardous materials handling procedures to reduce the potential for a spill during construction to be prescribed. 	<p>Possible Impacts</p> <p>Mitigation measure</p> <ul style="list-style-type: none"> • Train workers on emergency procedures.
Possible Impacts	<p>Mitigation measure</p> <ul style="list-style-type: none"> • Identify areas where refueling and vehicle maintenance activities and storage of hazardous materials, if any, will be permitted. 	<p>Traffic Control</p> <ul style="list-style-type: none"> • Issue notices/advisories of pending traffic inconveniences and solicit tolerance by local residence before the
Generation of Waste	<ul style="list-style-type: none"> • Provide means for handling sewage 	

commencement of construction works.

- As far as possible, transport of construction materials should be scheduled for off-peak traffic hours.
- Appropriate traffic warning signs, informing road users of a construction site entrance ahead and instructing them to reduce speed, should be placed along the main road in the vicinity of the entrance to the site during the construction period.
- Flagmen should be employed to control traffic and assist construction vehicles as they enter and exit the project site.
- Maintain on site a record of incidents and accidents.

The full report of the proposed project is available for inspection during working hours at:

- Director-General, the National Environment Management Authority (NEMA), Popo Road, off Mombasa Road, P.O. Box 67839-00200, Nairobi.
- Permanent Secretary, Ministry of Environment and Mineral Resources, N.H.I.F. Building, Community, P.O. Box 30521, Nairobi.
- Provincial Director of Environment, Eastern Province.
- District Environment Officer, Machakos District.

The National Environment Management Authority invites members of the public to submit oral or written comments within thirty (30) days from the date of publication of this notice to the Director-General, NEMA, to assist the Authority in the approval process of the project.

IMPORTANT NOTICE TO SUBSCRIBERS TO THE KENYA GAZETTE

THE following notes are for the guidance of persons submitting "copy" for inclusion in the *Kenya Gazette, Supplement*, etc.:

- (1) *The Kenya Gazette* contains Notices of a general nature which do not affect legislation. They are, therefore, submitted to the Government Printer directly.
- (2) *Legislative Supplement* contains Rules and Regulations which are issued by the Central Government. Because of this, they must be submitted to the Government Printer through the office of the Attorney-General.
- (3) *Bill Supplement* contains Bills which are for introduction in the National Assembly.
- (4) *Act Supplement* contains Acts passed by the National Assembly.

All "copy" submitted for publication should be prepared on one side of an A4 sheet no matter how small the Notice is, each page being numbered and should be typewritten with double spacing. Copy should be clear, legible and contain no alterations.

Particular attention should be paid to the following points:

- (i) Signature must be supported by rubber-stamping or typing the name of the signatory in capital letters.
- (ii) Dates must be correct and filled in where necessary.
- (iii) Care should be taken to ensure that all headings to Notices and references to legislation are up to date and conform with the Revised Edition of the Laws of Kenya.

EXTRACT FROM THE CODE OF REGULATIONS, SECTION D—

Kenya Gazette

"D 34. (1) Communications for the *Kenya Gazette* should reach the Government Printer not later than 9 a.m. on Friday of the week before publication is desired. The Government Printer will not publish communications received after that hour until the next subsequent issue of the Gazette.

(2) Ministries will be required to pay for the *Kenya Gazette* and to meet the cost of advertising in it.

It is emphasized that these notes are for guidance only, but it is requested that persons submitting copy for publication first satisfy themselves that such copy is complete in every respect.
