Specializing in Native, Rare and Unusual Plants at www.thimblefarms.com

Hours of Operation:

February Through December: Open 9am-4:30pm daily

July through August: we will be open but how much will depend on staffing-
please phone before coming to the nursery.

Welcome to our 2010 catalogue.

From February 19th-21st, we will host our first (hopefully, of many) Hellebore Extravaganza Weekend or 'Helleborganza' at the Nursery. So it won't be surprising that at the top of the list of new plants for 2010 is Hellebores. We have many new introductions from many noted breeders and we are particularly excited about the selections from Marietta and Ernie O'byrne of Northwest Garden Nursery in Oregon and those from Judith and Dick at Pine Knot Farms in Virginia. These plants are absolutely incredible in the diversity of both blooms and foliage and will be certain to add colour and interest to the winter garden. You can have a look at photos of some of these treasures on our Hellebore page on our website. Many of the plants will be hand selected in bloom and shipped to us just prior to the Helleborganza, so you can be sure we will have the choicest selections available for you. It is important to understand the fabulous and incredible range of these Hellebores so, please go to the website and look at the photographs.

We will also have a good selection of other Hellebores at the weekend event, some of which we will list on the Collectors list on our website just prior to the day. At Helleborganza we will be showcasing other winter or early Spring bloomers as well, including Adonis, Trilliums, Corydalis, Hepaticas, Shortia, Eranthis and more.

This year we are introducing a great number of new Asian perennials which we've been working on for years. We also travelled to Japan and brought back many fabulous selections for the woodland garden. This year also sees the introduction of a number of Native perennials for the native plant enthusiast. We would like to thank our staff and our customers for making 2009 such a good year. We would also like to thank our suppliers and breeders for sharing their photographic images so we could share them with you.

Native and North American Native (N.A. Native) plants are indicated as such. Native means plants that are indigenous to the Pacific Northwest; which for our purposes is defined as Alaska, British Columbia, Washington, Oregon and Northern California. In most cases; however, the plants are native to British Columbia. Plant height (Ht.) or occasionally flower height (Fl.Ht.) is given next in our descriptions, followed by hardiness zone (Z). Most of coastal B.C. is zone 8; the Gulf Islands and most of Victoria are zone 9. To determine what zone you are in, refer to the table on page 2 and remember that the temperatures listed are the twenty year, annual low temperature range in Celsius or Fahrenheit. They are not the absolute low for the zone.

As all plants are container grown, we usually state pot size along with plant prices to give an indication of the size of the plant, which will vary depending on species. Pot sizes are standard nursery pots; 1gal = 1gallon pot etc. Prices listed are F.O.B. our farm. Shipping and mail order information is at the back of the catalogue.

Collector's & Bulb Lists

We are now putting out a fall bulb list and a collector's list each year. The bulb list will have over four hundred varieties of bulbs, from the common to the extremely rare. We try to put out two collector's lists a year. The first comes out between November and April and will list new plants, plants available in small quantities and bulbous plants that should be moved at that time of the year, while dormant. This list will be posted on the web site, not mailed. We also put out our main collectors list in July with our bulb list to list all the new plants we have ready then, so some of you don't have to wait a whole year for our next catalogue. These lists are posted on our Website www.thimblefarms.com only, no hard copies will be printed. An easy to print PDF version will be posted as well.

Trades

We are always on the look out for new plants and are constantly searching for new sources of supply around the world. Whether you are a private gardener with surplus plants or a wholesale commercial nursery, we would be interested in hearing from you. We are interested in all sorts of plant material, in small or large quantities, often to add to our current stocks.

If you have a species or variety that you think we may be interested in, please contact us. If at all possible please suggest your price or trade requirements.

We will try to respond quickly and try to make each offer reasonable and fair. Of course, there is no obligation on your part.

We also consider trades for seeds.

We would like to thank all those that traded with us in the last year. Many of the new plants we now offer come to us first via our customers.

Thank you, Richard and Nancy Fraser

Coming to the Nursery?

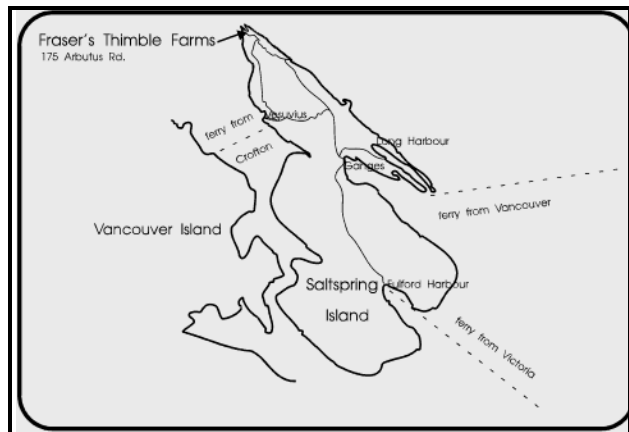

The fastest way is a ferry from Tsawwassen (Near Vancouver) to Swartz Bay(Near Victoria) then another from Swartz Bay to Fulford Harbour (Salt Spring). This is not your only option as there are three ferry routes to SaltSpring Island so for Ferry information phone 1-888-223-3779 Or go to www.bcferries.com

Hardy Orchids

Hardy Orchids

This includes a diverse group of ground orchids from around the world. Some of these groups are relatively easy to grow like the *Bletilla* and *Pleiones* and some are more challenging like the *Cypripediums*. The cultural requirements for most of these orchids are similar. They require well drained but moist soil when in active growth and excellent (almost dry) drainage in the winter when dormant. Light shade or partial sun works well. *Bletilla* are more tolerant of varying soil conditions and require more sun than other species.

Bletilla

This is a wonderful group of easy to grow hardy ground Orchids. These are best planted 5cm deep in light shade to full sun in a well drained humus-rich soil. In colder areas (Zone 5-6) they need to be planted 10-15cm deep and in yet colder areas they can easily be grown in pots indoors or in an alpine house.

Bletilla striata \$6.00ea
Ht. 20-40cm. Z5-6. This hardy ground orchid has long, arching ribbed leaves and soft rose to magenta erect inflorescence of up to 10 flowers.

Bletilla striata 'Aurea' \$12.00ea
Ht. 20-40cm. Z5-6. A soft yellow form which we have not yet seen bloom. We offer near bloom sized plants

Bletilla striata 'Murasaki Shikibu' \$35.00ea
A very rare variety with the strongest blue flowers of any hardy *Bletilla*. Only for shipping within Canada.

Bletilla striata 'Soryu' \$29.00ea
An awesome mauve-blue flowered *Bletilla* with darker mauve blue lip. *Soryu* means Blue Dragon. Only a few available

Bletilla striata var japonica alba 11cm pot \$6.00ea
Ht. 20-40cm. Z5-6. Similar to species but with white flowers; some with pale lilac margin on the lip.

Bletilla striata variegated (albostrata) \$12.00ea
Ht. 20-40cm. Z5-6. Same as species except leaves are striped with white.

Bletilla ochracea \$15.99ea
Ht. 25cm. Z5-6. A rare species with yellow petals and sepals with deeper yellow, red marked lip. Somewhat variable, blooms June-July.

Bletilla 'Brigantes' (striata x ochracea) \$15.99ea
Z 5-6. A variable cross with mid rose-purple petals and sepals. Purple lip with yellow markings.

Bletilla 'Penway Dragon' (formosana x szetschuanica) \$15.99ea
Z5-6. Flowers are variable in this cross but typically have purple-pink petals and sepals, white lip with purple pink margin and spot. This has turned out to be one of the more stunning and vigorous selections. Plant in full sun to part shade.

Bletilla 'Penway Paris' (striata x szetschuanica) \$15.99ea
Z 5-6. Rose purple petals, sepals and lip with white keels on lip. Variable.

Bletilla 'Penway Princess' (formosana x yunnanensis) \$15.99ea
Z 5-6. Light rose pink sepals and petals, darker on the reverse. Lip spotted red and yellow with purple red margin.

Bletilla 'Sunset' (szetschuanica x ochracea) \$19.00ea
Z 5-6. Light yellow petals and sepals, sometimes with pink on reverse. Lip yellow with light purple front margin. Tip of column also light purple.

Bletilla 'Yokohama' (striata x formosana) \$12.99ea
Z 5-6. Pale lilac petals and sepals, throat yellow with lilac markings. Makes a nice clump in only a few years.

Calanthe

This is a large group of hardy and semi-hardy ground orchids from Asia. Most can be grown in the Garden but the frost tender species should be brought indoors. They prefer a lightly shaded woodland setting with humus rich soil. Most spread quite rapidly, and are extremely showy and rare in North America. Great companion plants for Ferns, Hostas, and Bleeding Hearts. These like to be fed a lot with a weak solution of liquid fertilizer while in active growth.

Calanthe alismaefolia \$33.00ea
Ht. 30cm. Z9. A gorgeous Asian species with white flowers. The lip is elongated and split. The narrow elongated side lobes have a blotch of golden yellow at the top and a hood formed by the remaining petals and sepals. The overall effect is like a small yellow faced man with skinny arms and baggy pants wearing a hat. Probably not frost hardy

Calanthe aristulifera \$33.00ea
Ht. 30-45cm. Z7. From Kyushu Island in Japan comes this beauty with spikes of large soft pink flowers.

Calanthe bicolor \$20.00ea
Ht. 30cm. Z7. Similar to *C. discolor* in habit. Flower has golden yellow, deeply cleft lip, occasionally marked with deep red. Upper petals are orange brown. Fragrant flowers in early summer.

Calanthe discolor \$15.00ea
Ht. 30cm. Z6. One of the hardest species from Japan with spikes of bicolored flowers, usually purple-brown on top and white below. Easy in humus rich soil in shade to part sun.

Calanthe masuca \$33.00ea
Ht. 30-50cm. Z9. From Kyushu and Ryuku islands in Japan comes this elegant pink flowered species with long pink spurs. Blooms in July-October. Probably not frost hardy

Calanthe nipponica \$25.00ea
Ht. 30cm. Z5. This is a rarely offered species from the mountains of Japan. Yellowish green flowers with a brighter yellow lip.

Calanthe okinawensis \$33.00ea
Ht. 30-50cm. Z9. A lovely species from Okinawa Japan with stunning pink-purple flowers. In some plants the lip color is darker than the sepals. Very showy species. Probably not frost hardy.

Calanthe reflexa \$16.00ea
Ht. 30cm. Z7. Lavender petals and purple-violet (rarely white), intricately cleft lip in late summer or early fall. Semi-evergreen.

Hardy Orchids

Calanthe striata sieboldii.....\$17.50ea
Ht. 30-45cm. Z7. Bright golden yellow flowers often streaked brownish red. Blooms in early spring.

Calanthe tricarinata Monkey Orchid.....\$22.00ea
Ht. 60cm. Z7. A striking species with bright green tepals and a much divided purplish brown lip with white markings. This species is harder to get than most of the others.

Calanthe triplicata.....\$33.00ea
Ht. 30cm. Z9. Known as the Crane orchid in Japan which the lovely white flowers resemble. From Kyushu and Okinawa Island. Blooms July-August. Probably not frost hardy.

Cypripediums - Lady Slippers

The most beautiful of all the Hardy Ground Orchids are the Lady Slippers, however, they are not the easiest plants to grow. Frequently, people need several attempts before mastering their cultivation. In cultivation, many have success growing them in pure perlite or in pots with a mix of equal parts of peat, sand and perlite. In nature, they often grow in bogs, but they tend not to like soggy conditions. Until recently it was not known how to germinate the seed of these beauties, but a few people (labs) have worked out how to in sterile medium (including us now). We will be offering laboratory raised seedlings that are out of culture for three to six seasons. These should bloom in one to two years. We will also have a small selection of mature single eyed divisions of garden grown plants (mature plants) and a few larger plants.

Cypripedium acaule.....\$44.95ea
We are offering a few mature single eyed divisions this year. Unlike most other Cypripediums, it is essential the pH remain low, around pH 4-5 for this plant to thrive. We suggest planting in an acidic medium and fertilising regularly with a weak liquid acidifying fertiliser. For us, this seems to be the trick. We now have fantastic plants. Sepals and petals greenish-brown. Lip pouch, large, incised in the middle, rose pink with darker venation.

Cypripedium acaule.....\$79.95ea
Larger Double eyed plants

Cypripedium Aki (macranthos x pubescens).....\$59.95ea
Ht. Z4. Large inflated lip of a stupendous plum color and twisted sepals. We offer near bloom sized seedlings that should bloom with another years growth.

Cypripedium Aki (macranthos x pubescens).....\$79.95ea
Double eyed bloom sized seedlings.

Cypripedium Aki Light (macranthos x pubescens).....\$69.95ea
Ht. Z4. Large inflated lip of a light pink color striped with cream and dark plum coloring. We offer near bloom sized seedlings that should bloom with another years growth.

Cypripedium Aki light (macranthos X pubescens)\$99.95ea
Double eyed bloom sized seedlings.

Cypripedium x alaskanum.....\$60.00ea
Ht.10-20cm. Z2. Flowers have a small pitcher shaped white pouch spotted with red-purple. A natural hybrid between *C. guttatum* and *C. yatabeanum*. Near bloom sized seedlings naturally small rhizomes.

Cypripedium x alaskanum\$105.00ea
Double eyed plants, naturally small rhizome.

Cypripedium x andrewsii(*C.candidum* x *C. parviflorum*) \$59.99ea
Ht. Z4. A rarely offered natural hybrid with a white pouch rimmed with purplish red, often with some venation on the pouch. Sepals are long and twisted. Both sepals and petals are dark purple. This has turned out to be easy to grow and quick to multiply. These are near bloom sized plants.

Cypripedium x andrewsii.....\$89.99ea
(*C.candidum* x *C. parviflorum*) Double eyed bloom sized seedlings.

Cypripedium arietinum Ram's Head Ladyslipper\$49.99ea
N.A. Native. Ht. 10-20cm. Z2. Flowers distinctive, with an inflated pouch with a keel shaped pointy bottom. Pouch white with red veining. Petals reddish green in colour. Naturally small plants that are near bloom size. Fall only.

Cypripedium californicum\$45.00ea
Ht.50-100cm. Z5. Small flowers with yellowish-green sepals and tepals and a white pouch. Up to 21 small flowers can be produced on a single flower stalk on old mature plants. We offer nice 4 year old seedlings that should bloom in a year.

Cypripedium californicum\$65.00ea
Larger double eyed seedlings that should bloom in a year or so.

Cypripedium calceolus European form.....\$75.00ea
Ht.50cm. Z5. Flowers, sepals and tepals purple brown, lip bright yellow sometimes spotted red within. A very showy yellow ladyslipper that seems to be particularly easy to grow. Mature single eyed division from seed raised plants.

Cypripedium debile.....\$45.00ea
Ht.7-10cm Z4-5. This is one of the smallest Cypripediums with small greenish white flowers streaked with purple. We offer small mature divisions of this woodland Orchid. Rarely Offered.

Cypripedium 'Emil'(parviflorum x calceolus)\$45.00ea
Ht.35-45cm. Z2. An eye-popping hybrid resembling a smaller version of European lady slipper. (*C.calceolus*). It has the advantage of being easier to grow and more vigorous than either of its parents. Near bloom sized seedlings

Cypripedium 'Emil'(parviflorum x calceolus)\$69.99ea
Larger divisions with two eyes.

Cypripedium flavum\$49.99ea
Ht. to45cm. Z7. Clear yellow flowers, lip very inflated, bright yellow, spotted lightly with purple and brown. Native to China. We have 6 year old seedlings

Cypripedium flavum\$79.99ea
Larger double eyed plants.

Cypripedium formosanum (*C.japonicum* var.*formosanum*)\$45.00ea
Ht. 40-50cm. Z6-7. This native of Taiwan has a large pale pink lip pouch, petals and sepals spotted darker pink. Leaves are rounded and pleated like a fan. Blooms early summer. This species is very easy to cultivate. Mature single eyed division. Probably the easiest species to cultivate. Fall only.

Hardy Orchids

Cypripedium franchetii\$59.95ea
Ht. 40cm. Z6. This species is closely allied to C.macranthum. Rose-purple flowers with darker veining. Native to China. Stems hairy. Rare in cultivation. Mature single eyed division.

Cypripedium Gisela (parviflorum x macranthos) \$44.95ea
Ht. 25cm. Z5. This is a robust garden hybrid and it is easy to grow. Flower tepals are a rich burgundy-red with lighter streaks that have a touch of yellow. The large, inflated pouch is creamy yellow streaked and infused with burgundy-red. Blooms start of yellow in bud, then age to burgundy-red. Near bloom sized seedlings.

Cypripedium Gisela(parviflorum x macranthos).....\$65.00ea
We offer a few larger double eyed plants.

Cypripedium Gisela Yellow (parviflorum x macranthos) ..\$44.95ea
Ht. 25cm. Z5. By careful selection a more yellow form has been developed. These are all yellow with a lesser amount of red on the tepals and pouch. These are nice, large four year old plants very near to bloom sized. A nice vigorous hybrid.

Cypripedium Gisela Yellow (parviflorum x macranthos)
We have a few larger double eyed plants. \$65.00ea

Cypripedium` Hank Small`(parviflorum x henryi)\$49.95ea
Ht.20-30cm. Z2. This dwarf hybrid looks like a superb small version of the European lady slipper. Similar to Emil.

Cypripedium` Hank Small`(parviflorum x henryi)\$79.95ea
Larger divisions with two eyes.

Cypripedium henryi Fall only \$69.95ea
Ht.60cm. Z7. This species is from China and is similar to the larger flowered C.calceolus with sepals and petals green to yellowish green. Lip bright yellow often spotted red.

Cypripedium 'Inge' (parviflorum x fasciolatum)\$49.95ea
Ht.30-45cm. Z4. Large flowers with brown striped sepals and tepals and a large inflated creamy white lip with an attractive red margin. Near bloom size.

Cypripedium 'Inge' (parviflorum x fasciolatum)\$79.95ea
Larger double eyed plants.

Cypripedium Ingrid (C. parviflorum x c. cordigerum)\$44.95ea
Ht.40cm. Z4. Stunning flowers have a soft primrose yellow pouch rimmed with burgundy red and dark, very twisted sepals. Petals are dark burgundy red also. Near bloom sized seedlings.

Cypripedium Ingrid\$59.99ea
(C. parviflorum x c. cordigerum) Bloom sized seedlings.

Cypripedium Ingrid \$89.99ea
(C. parviflorum x C. cordigerum) Double eyed bloom sized seedlings.

Cypripedium 'Irene' (reginae x kentuckiense)\$45.00ea
Ht.30-45cm. Z4. On site sales only. Large inflated flowers like C.kentuckiense with pink spotting and penciling on the pouch, sepals and tepals. We offer small seedlings, 3 years old which we will not ship. On site sales only.

Cypripedium japonicum \$75.00ea
Ht.30-60cm Z5. This has a lovely pair of leaves that are folded and pleated. Flower have a large pink pouch with greenish sepals and tepals. Nice large divisions of this woodland Orchid. Rarely Offered.

Cypripedium kentuckiense Fally only \$59.00ea
N.A.Native. Ht. Z. A huge flower with a large white to creamy yellow lip pouch and darker mahogany red brown tepals and sepals. We offer seedlings that have been grown in soil for five years and will need another one to two years of growth to produce flowers.

Cypripedium Kristi Lyn (C.pubescens x C.henryi) \$79.95ea
Ht. Z4. Large pure yellow pouch with striking brown striped sepals and tepals. Tepals are nicely twisted. These are near bloom sized seedlings that should bloom in 1-2 years.

Cypripedium Kristi Lyn (C.pubescens x C.henryi)\$139.95ea
Ht. Z4. Large pure yellow pouch with striking brown striped sepals and tepals. Tepals are nicely twisted. These are near bloom sized double eyed rhizomes.

Cypripedium macranthos (C.macranthum) \$59.95ea
Ht. 35-45cm. Z5-6. This is considered by most to be the showiest of all Cyps. Large, usually deep purple flowers are somewhat checkered on the lip. Mature single eyed division.

Cypripedium macranthos (C.macranthum) \$89.95ea
Larger divisions with two eyes.

Cypripedium manschuricum album.....\$135.00ea
Ht. 60cm. Z4. Stunning, huge pure white flowers with a large very inflated pure white lip. Mature, seed raised bloom sized plants. See nomenclature note under C.manschuricum.

Cypripedium manschuricum x C. manschuricum album \$79.00ea
Ht. 60cm. Z4. This pretty hybrid has petals softly blushed with pink and a huge, inflated soft pink lip. Expect some colour variation. Mature, seed raised bloom sized plants. See nomenclature note under C.manschuricum. Awesome.

Cypripedium Maria(parviflorum x speciosum)..... \$69.00ea
These are nice vigorous seedlings that have been grown on out of the flask for five years and should bloom this year.

Cypripedium Michael\$45.00ea
Ht. Z4. Large flowers usually with a large, wide slightly corrugated lip. Lovely rich purple red coloration with darker venation. Near bloom sized plants.

Cypripedium Michael\$59.99ea
Bloom sized seedlings.

Cypripedium Michael\$89.99ea
Larger double eyed seedlings.

Cypripedium micranthumFall only\$59.95ea
Ht.10cm. Z4. A dwarf species with yellow sepals heavily striped with dark reddish brown, pouch deep yellow striped dark brown. Flower stem and outer surface of sepal is densely coated with fine red hairs. Grows in open woodland settings. Very easy to grow. This is a close ally to C. bardolphianum.

Hardy Orchids

Cypripedium montanum \$79.95ea
Native. Ht.25-65cm. Z4. Showy flowers have twisted maroon-brown sepals and petals with a large white lip pouch. Plant in well drained soil in full sun to full shade. Protect from winter moisture. We offer single eyed near bloom sized plants.

Cypripedium parviflorum var. pubescens (C.calceolus var. pubescens) \$44.95ea
N.A.Native. 30-45cm. Z5. This is the larger flowered yellow North American native lady's slipper. Flowers are medium sized to large with yellow sepals and petals often streaked with deep rusty brown, and a yellow lip pouch with magenta spots and streaks within. Requires shade to bright shade in humus-rich, well drained, sandy soil. Available as mature single eyed garden divisions, which should bloom this year or next.

Cypripedium parviflorum var. pubescens (C.calceolus var. pubescens) \$69.99ea
Larger rhizomes with two eyes.

Cypripedium parviflorum var. parviflorum (C.calceolus var. parviflorum) \$45.00ea
N.A.Native. 15-35cm. Z5. This is the smaller flowered yellow North American native lady's slipper. Generally these have brighter yellow pouch and dark colored sepals and dark twisted tepals. Available as mature single eyed garden divisions, which should bloom this year or next. (5-6 year old seedlings).

Cypripedium parviflorum var. parviflorum (C.calceolus var. parviflorum) \$59.00ea
Larger plants, 6-7 years old.

Cypripedium parviflorum var. parviflorum (C.calceolus var. parviflorum) \$79.00ea
Larger, double eyed plants.

Cypripedium passerinum \$55.00ea
Native. We are offering 5-6 year old seedlings that will bloom in one or two years. White flowers. Only a few available.

Cypripedium Paul (C.parviflorum X C.franchetii) \$79.95ea
Ht. Z4. Large primrose yellow or creamy white pouch finely lined in red with red trim around the mouth. Tepals and petals are lined heavier in the rich red. These are bloom sized or near bloom sized seedlings.

Cypripedium Paul (C.parviflorum X C.franchetii) \$139.95ea
Ht. Z4. Large primrose yellow or creamy white pouch finely lined in red with red trim around the mouth. Tepals and petals are lined heavier in the rich red. These are bloom sized or near bloom sized Double eyed rhizomes.

Cypripedium 'Philipp' (macranthos x kentuckiense) \$69.95ea
Ht.45cm. Z4. Combine the huge flower of C.kentuckiense with the colouring of C.macranthos and you have C.Philipp. Large soft pinky-purple flowers with large white lip delicately suffused with pink. Near bloom sized seedlings.

Cypripedium rebunense \$139.00ea
Ht.50cm. Z4. This is a beautiful, rarely offered soft creamy white lady's slipper with a large, inflated lip. It originates from Rebut Island off the NW coast of Japan. Mature seed raised plants rarely offered. C.rebunense=C.macranthos var.rebunense.

Cypripedium rebunense x C. manschuricum \$79.00ea
Ht.60cm. Z4. This is a lovely *Cypripedium* with soft pink petals and a huge creamy lip. Some colour variation can be expected as it is a hybrid. Mature, bloom sized seed raised plants. Variable but awesome.

Cypripedium reginae \$59.99ea
N.A.Native. Ht. 90cm. Z4. The showiest of all North American Cyps. The flowers have white sepals and petals, a large pink lip pouch and a white staminode with a yellow blotch and red spotting. These are five year old seedlings that should bloom this year or next.

Cypripedium reginae \$95.00ea
Larger, double eyed plants. Limited quantity.

Cypripedium reginae x C. fasciolatum \$59.00ea
An interesting cross between C. reginae; a large pink flowering species and a chinese species with huge creamy flowers. These are 6 year old seedlings.

Cypripedium Sabine C. fasciolatum x C. macranthos \$79.99ea
Ht. Z4. Huge flowers have a large white lip with a faintly infused pink venation and heavier venation on the sepals and petals. Bloom sized seedlings.

Cypripedium Segawai Fall only \$59.99ea
Ht.20cm. Z6. This species is rare in cultivation with a vibrant yellow flower often with a touch of red infused into the bottom of the pouch and a few red spots on the pistol. The flowers on this dwarf species seem to last and last.

Cypripedium tibeticum \$65.00ea
Ht.30cm. Z4. From the Himalayas and China; is closely related to C.macranthum. Sepals and petals streaked and dotted maroon; lip, large streaked dark purple. Mature single eyed division.

Cypripedium Ulla silkens (C. flavum x C. reginae) \$59.00ea
Ht. 25-35cm. Z3-4. Wow! This produces plants with white sepals and petals and a large white lip pouch with a varying amount of red spotting on the lip. The red lip spotting may only be in the center and around the pouch opening or there may be a red flush over the front half of the lip. Also the sepals might have a faint red spotting. Near to bloom sized plants.

Cypripedium Ulla silkens(C. flavum x C. reginae) \$39.00ea
Younger 3 year old seedlings.

Cypripedium Ulla silkens(C. flavum x C. reginae) \$89.00ea
Doubled eyed plants.

Cypripedium Ursel(C.fasciolatum X C.henryi) \$79.95ea
Ht. Z4. Large yellow pouch with darker yellow tepals and petals. Plants produces multiple flowers per flower stalk with age. These are near bloom sized seedlings.

Cypripedium Ursel(C.fasciolatum X C.henryi) \$139.95ea
Ht. Z4. Large yellow pouch with darker yellow tepals and petals. Plants produces multiple flowers per flower stalk with age. These are near bloom sized. Double eyed rhizomes.

Hardy Orchids

Cypripedium Victoria (C.pubescens X C.fasciolatum)\$79.95ea
Ht. Z4. Large sulphur-cream colored pouch that fades to white with time and large broad tepals and petals of rich red brown. These are near bloom sized seedlings.

Cypripedium Victoria (C.pubescens X C.fasciolatum) ..\$139.95ea
Ht. Z4. Large sulphur-cream colored pouch that fades to white with time and large broad tepals and petals of rich red brown. These are near bloom sized Double eyed Rhizomes.

Cypripedium x ventricosum\$69.99ea
This is a hybrid between the reddish C. macranthos and the yellow and brown C. calceolus. Colour is fairly variable in this hybrid, however, we have found the flower shape tends towards C. calceolus.

Cypripedium x ventricosum\$99.99ea
Larger double eyed plants.

Dactylorhiza

These wonderful hardy ground orchids are currently widely planted throughout Europe. Initially the flower stalks are short but as they get older the flower stalks get longer and fuller and the flowers get larger. Mature plants are stunning. All sprout from a tuber and multiply freely if the conditions are right. Most prefer humus-rich soil with good drainage. All our plants are grown from seed that is open pollinated so expect some variability.

Dactylorhiza foliosa Madeiran Orchid.....\$18.00ea
Ht. 50-70cm. Z7. Flower spike is up to 15cm long and bears a dense cluster of purple to magenta flowers with lighter lips and irregular dark spotting. Blooms late spring to early summer. Bloom sized plants, but still small.

Dactylorhiza fuchsii Common spotted Orchid.....\$18.00ea
Ht.35-50cm Z6 Pale pink to mauve flowers spotted or lined deep red or purple held in dense pyramidal heads. Leaves nicely spotted. A very easy species to cultivate in average garden soil..

Dactylorhiza praetermissa Southern Marsh Orchid\$18.00ea
HT. 20-70cm. Z6. Spikes of pale purple flowers with fine darker spots on the lip. The most gardenworthy of the English species and it will form sizeable colonies if planted in moist peaty compost with added leaf mold. Leaves spotted or not. Bloom sized plants, most will bloom this year. This is definitely one of the showiest species in the genus.

Dactylorhiza purpurella Northern Marsh Orchid\$18.00ea
Ht. 40cm Z4. This is one of the hardiest of the Dactylorhizas. Leaves usually spotted near the apex, flowers in dense spikes in shades from pale claret to maroon-red. Most are a deep dark purple with long lasting flowers. Small bloom sized plants that will get much larger with time.

Dactylorhiza sphagnicola.....\$25.00ea
Ht.35-60cm Z6 A lovely orchid from Europe with spikes of pink flowers spotted with dark purple. Nice bloom sized seedlings.

Epipactis gigantea \$30.00ea
Native. Ht.40-100cm. Z5. Flowers are pale yellow brown to yellow with purple veins. Single eyed plants of bloom sized seedlings.

Epipactis helleborine \$15.00ea
Ht.40-100cm. Z6. This is one of the few orchids that will self sow. Flowers are usually greenish with a purple blush in spikes of up to 50 flowers. Easy to grow.

Epipactis palustris..... \$25.00ea
Ht.50cm. Z6. This attractive orchid bears a loose spike with flowers having a ruffled white lip and white petals with rose pink markings set in front of darker burgundy brown sepals. Easy to grow. Great clumper.

Epipactis thunbergii \$30.00ea
Ht.60cm. Z4. This showy Japanese Orchid has yellow-orange flowers that have a splash of purple pink on the lip as well as some maroon spotting above. Easy to grow in a moist but well drained spot in light shade. Great clumper. Easy to grow.

Epipactis x 'Sabine' \$25.00ea
Ht.50-90cm. Z6. This hybrid between E.gigantea and E.palustris has showy flowers with yellow-green petals with red-brown flushing and a yellow and white lip. Great clumper. Easy.

Goodyera oblongifolia Rattlesnake-plantain Orchid..... \$9.50ea
Native. Fl.Ht. 20-30cm. Z6. Evergreen. Dark green oblong leaves patterned with variable white markings in a basal rosette. Inconspicuous flowers are greenish in a terminal spike. Prefers humus-rich soil in shade to semi-shade.

Pectelis radiata (Habenaria radiata).....\$10.00ea
Ht.45cm. Z8. This tiny hardy ground orchid has green lanceolate leaves and pure white, fragrant flowers with jagged white margins. This is an easy to grow species forming large showy colonies over time. Plants arise from a very small tuber, smaller than a pea. Plant in humus rich soil in semi-shade. Can also be grown in a coolhouse or greenhouse.

Pleiones

Pleiones are a genus of near-hardy orchids originating in the Himalayas and the mountainous regions of China. Most species and hybrids produce their incredible flowers in Spring. They grow in a variety of habitats from moss covered rocks to leaf litter under shrubs, but always in sites with excellent drainage. For most, the rules of cultivation are simple: Do not over water in early Spring as the new roots emerge and once the plant has developed a root system, feed regularly with a well balanced liquid fertilizer. Finally, a rest period is required during the winter with a low temperature of 0-4C for a time. On the west coast many people are growing Pleiones outdoors in well drained beds in sheltered conditions, as we do in our own garden. However, it is rather risky. The genus has minimal cultivation requirements which make them ideal for growing in the home, in a coldframe or in a cool greenhouse. If a mature pseudobulb is fed well it will produce two or more new pseudobulbs each year. The old one shrivels and should be discarded in fall. Most species will also produce a small bulbil atop the old pseudobulb which can be grown in two or three seasons to bloom size. Most species are easy to grow indoors or out (with protection) in very free draining humus rich soil (we generally use 40:40:20 peat and perlite and sand mix). For those of you who make a trip to the Nursery, we have other species and hybrids that we are still multiplying to the point where we can sell them, so a few will be available.

Pleione albiflora 'Pinchbeck Diamond'\$24.50ea
 Large flowers of mauve pink with yellow keels and red spotting on the lip. Blooms very early. Some consider this a hybrid now but as always, we are slow with name changes.

Pleione aurita (P.chunii)\$22.00ea
 This relatively new species was discovered and introduced into cultivation in 1988. Large pale, rose pink or purple flowers with yellow or orange yellow lip striping. Showy and easy.

Pleione formosana\$6.00ea
 The most frequently grown pleione. The species and all of the cultivars are very easy to grow, multiply and bloom. Flower color ranges from white to rose pink with a whitish lip with yellow or reddish markings. Most or all will be pink.

Pleione formosana 'Achievement' Fall only \$10.00ea
 Pseudobulbs purplish, flowers pale mauve-pink with a large heavily blotched lip.

Pleione formosana 'Blush of Dawn'\$9.50ea
 Pseudobulbs green, flowers are large creamy white flushed with pale pink and lip is marked yellow and brown.

Pleione limprichtiiFall only \$12.00ea
 We have a much better form of this this year with much larger pseudobulbs. Flowers pink to rose magenta, lip spotted with red and lamellae white. This is thought to be the hardiest Pleione, surviving -20C in dry conditions. Fall only.

Pleione speciosa (P. pleionoides)\$10.00ea
 Large rose purple flowers with yellow markings on lip. We have had several bloom with two flowering stems per pseudobulb and two flowers per stem.

Pleione Hybrids

Pleione Barcena \$24.00ea
 (P. formosana x P. praecox) This hybrid has deep pink flowers with deep yellow and red throat markings. Blooms in early winter.

Pleione Brigadoon \$24.00ea
 (P.confusa x P.pleionoides) This hybrid has mauve to violet flowers with a lip marked with red and yellow or sometimes with a solid red base.

Pleione Fuego (P.bulbocodioides x P. formosana)\$12.00ea
 Flowers are varying shades of lilac mauve with very frilled lips with dark red spotting inside. Fall only.

Pleione Orinico(P.Tongariro x P.Eiger)\$12.00ea
 Early, light purple flowers with red spotting on lips.

Pleione Piton (P.formosana x P.yunnanensis)\$16.00ea
 An excellent variety with long lasting flowers of pale lavender (almost streaked onto white background) with purplish red or violet markings on the lip. Very reliable.

Pleione Tolima (P.speciosa x P.formosana)\$16.00ea
 A variable cross with mauve pink to very rose-purple flowers and the lip is most often marked with red and yellow. Usually two flowers per stem and often fragrant. One of the best.

Hardy Orchids-Ferns

Pleione Tongariro (P.Versailles x P.speciosa) \$14.00ea
 Long lasting flowers of various shades of imperial purple, the lip marked with red and yellow with yellow lamellae. Usually two flowers per stem.

Pleione Vesuvius(P.bulbocodioides x P. confusa) \$9.50ea
 Large flowers of dark pink to mauve, lips are well frilled and speckled and spotted with dark pink or red. Most clones have yellow throat and many are fragrant. This is one of the showiest and the easiest one to grow. Very reliable.

Pleione Volcanello\$14.00ea
 (P.Soufrière x P.bulbocodioides) Purple-pink flowers with a red spotted lip and bright yellow keels.

Ponerorchis graminifolia (Orchis graminifolia).....\$18.00ea
 Ht. 8-15cm. Z6. This is an easy to grow Japanese ground orchid with a splendid range of colors. Flowers range from pink to purple to white and bicolors. A perfect one for the rock garden. Plant in well drained soil and supply moisture during the growing season. We offer 3-4 year old, bloom sized seedlings. Tubers are naturally small, about the size of a pencil eraser.

Spiranthes cernua Var. odorata` Chadds Ford`\$30.00ea
 N.A. Native. Ht. 50-75cm. Z4. Rosettes of shiny leaves produce, at summers end, spires of small fragrant sparkling white flowers up to 75cm tall.

Ferns

Adiantum aleuticum Western Maidenhair 10cm pot \$5.00ea
 1gal \$10.00ea
Native. Ht.40cm. Z3. Recently, this western form of Maidenhair fern has been separated from the eastern form, *A. pedatum*, as a separate species. This form has slightly more erect fronds and the pinnae overlap a touch, but both plants are very similar. To make matters worse, *A.pedatum* is still found out west in disjunct populations.

Adiantum aleuticum imbricatum 10cm pt \$5.00ea
 1gal \$10.00ea
 Ht.15-30cm. Z2. This is a rarely offered and very lovely dwarf form of the typical Maidenhair Fern. It quickly forms a nice, full clump.

Adiantum capillus-veneris Venus Maidenhair Fern .. 10cm\$5.00ea
 1gal \$10.00ea
Native. Ht. 25-55cm. Z7. Deciduous. This Maidenhair fern has delicate lacy fronds that form droopy canopies of thin, almost translucent leaflets. It is easy to grow in shade to semi-shade and is excellent around waterfalls, ponds etc.

Adiantum pedatum Maidenhair Fern1 gal \$10.00ea
Native. Ht.40cm. Z3. Deciduous. Delicate fan shaped fronds with green lacy leaves set atop black shiny stems. Plant in moist humus-rich soil in shade to part shade. Most Northwest plants are now considered *A.aleuticum* but not all. At any rate, both are very similar.

Ferns

Adiantum pedatum 'Miss Sharples' 10cm pot \$5.00ea
 1gal \$10.00ea
 Ht.30-45cm. Z3. Golden Maidenhair Fern. The original plant was given to the well known British Nurseryman Reginald Kaye many years ago by Miss Sharples. A great Maidenhair with broader pinna segments and a lighter yellow-green coloration.

Adiantum venustum Himalayan Maidenhair Fern 10cm pot \$6.00ea
 Ht.40cm. Z5. A fantastic maidenhair that is evergreen in most areas. New growth is pinkish. Makes an excellent groundcover in a shady spot. This is one of the hardest ferns to come by and these are the first we have offered in years.

Adiantum x mairisii Mairisii's Maidenhair Fern. 10cm pot \$5.00ea
 Ht. 20-40cm. Z6. This is a sterile hybrid between *Adiantum capillis veneris* and possibly *Adiantum aethiopicum*. It is very similar to *capillis veneris* but is hardier.

Arachniodes aristata var. variegata Variegated East Indian Holly Fern 10cm pot \$5.00ea
 Ht.30-60cm. Z6. Evergreen. This extremely showy fern has dark, waxy green, broadly triangular fronds with a light yellow green band that runs along the pinna axis. Great for shade to semi-shade or as a house plant.

Arachniodes miqueliana Miquel's Fern 10cm pot \$5.00ea
 Ht.45cm. Z5. Long creeping rhizome slowly makes a nice cluster in the garden over time. Another great fern from Asia.

Arachniodes standishii Upside-down Fern 10cm pot \$5.00ea
 Ht.30-90cm. Z4. Large lacy fronds. Large veins on the upper surface of the fronds rather than on the lower surface give this fern its common name. All in all, a large outstanding fern.

Asplenium platyneuron Ebony Spleenwort..... 10cm pot\$8.00ea
 N.A.Native. Ht.40cm. Z5. A lovely little fern for the collector. Only a few small plants.

Asplenium trichomanes Maidenhair Spleenwort 10cm\$5.00ea
 Native. Ht. 30cm. Z2. Evergreen. Vigorous, small fern with deep green, maidenhair fern-type foliage. Best in dryish rockery or walls in shade to part shade.

Athyrium angustum forma rubellum Lady In Red.
 10cm pot \$5.00ea
 Ht. 75-90cm. Z3. Fantastic burgundy-red coloured stems create a sharp contrast with the green fronds. Plants must undergo a winter dormancy for bright colour to appear.

Athyrium asplenioides. Southern Lady Fern 1gal \$10.00ea
 N.A.Native. Ht.45-90cm. Z4. Broad triangular upright fronds form nice clumps over time. Shade to part sun.

Athyrium Branford Rambler Running Lady Fern \$15.00ea
 Ht.45-60cm. Z4. A hybrid between *Athyrium filix femina* and *Athyrium niponicum*. A great deciduous groundcover fern with lovely green foliage and red tones on the stem.

Athyrium filix-femina (*A. cyclosorum*) Lady Fern .. 1gal \$10.00ea
 Special five plants for \$30.00
 Native. Ht. 60-150cm. Z2. Deciduous. Lacy looking fronds are bright green. Clumps are dense, easy to grow, great in shade to part sun; or even in sun in a wet site.

Athyrium filix femina 'Dre's Dagger' \$15.00ea
 A great new selection from a batch of sporlings of A.f.f. 'Victoriae'. The fronds form a three dimensional X cross with each point ending in a small crest.

Athyrium filix femina 'Dwarf Form' \$5.00ea
 Ht.20-30cm. Z2. A great dwarf selection that only gets 12" tall.

Athyrium filix femina 'Encourage' \$15.00ea
 A great new selection from a batch of sporlings of A.f.f. 'Vernoniae cristatum'. This selection has special crested and tassled fronds.

Athyrium filix-femina 'Frizelliae' Tatting Fern 10cm\$5.00ea
 Ht. 30-45cm. Z2. This distinctive form of the lady fern has small, rounded pinnae which give the fronds a very narrow, almost necklace-like appearance.

Athyrium filix femina 'Plumosum Axminster,' \$15.00ea
 Golden Plumose Lady Fern. A new selection of this beauty from Judith Jones.

Athyrium filix-femina 'Rotstiel' 10cm pot \$5.00ea
 Ht. 60-150cm. Z2. Red Ribbed Lady Fern. This selection tends to have red stems and stipes with the typical green pinnae.

Athyrium filix-femina 'Victoriae type' \$10.00ea
 Ht. 70-100cm. Z2. This spectacular fern has paired (forked at their base) narrow pinnae with crested tips, which (like 'Fieldiae') are arranged into crosses; thereby, forming a lattice work of diamond shaped spaces. Truly the Queen of Green.

Athyrium filix-femina 'Vernoniae' Lady Fern.... 10cm pot \$5.00ea
 Ht. 60-75cm. Z2. Deciduous. This distinctive selection has crisped fronds with each pinnulet having a lacy edge. A great fern found by Mrs. Vernon in the 1850's. Very feathery, lacy large fern.

Athyrium filix femina 'Vernoniae cristatum' Crested Lady Fern
 10cm pot \$5.00ea
 Ht. 60-75cm. Z2. Deciduous. A very classy form first introduced in England in 1873 with crested pinnae. Elegant and easy to grow.

Athyrium otophorum Eared Lady Fern 10cm pot \$5.00ea
 Ht. 30-45cm. Z4. Deciduous. This beautiful fern has pale green young fronds with maroon colored stems. With age, the fronds become dusky green in color with dark red stems. Very easy.

Athyrium niponicum 'Pictum Applecourt' Crested Japanese Painted Fern..... 10cm pot \$5.00ea
 Ht. 30-45cm. Z4. Deciduous. A wonderful form of lady fern with crested fronds.

Athyrium niponicum 'Pictum' Japanese Painted Fern
 10cm pot \$5.00ea
 1gal\$10.00ea
 Ht. 30-45cm. Z4. Deciduous. Fronds are a soft, metallic grey color with reddish or bluish hues. Slow grower but worth it. Shade to part shade.

Athyrium niponicum 'Red Beauty' Red beauty Japanese Painted Fern..... 10cm pot \$5.00ea
 Ht. 30-45cm. Z4. Deciduous. Broad, upright habit with the grey foliage of *Pictum*, it also has attractive, reddish-brown tints which are especially attractive in the young foliage.

Ferns

Athyrium thelypteroides Silvery Glade Fern \$12.00ea
N.A. Native. Ht. 60cm. Z4. Broadly lance shaped green fronds with silvery undersides when spores are developing. Forms a nice colony over time.

Athyrium x Ghost Ghost Fern \$5.00ea
Ht. 60-90cm. Z3. This unusual deciduous fern is a hybrid between *Athyrium filix femina* and *Athyrium nipponicum pictum*. Stunning new growth is silvery green with maroon midribs. A favourite in the nursery.

Athyrium vidalii 1gal \$10.00ea
Ht. 30-45cm Z6. A graceful fern with colorful reddish new growth. Native to Taiwan Japan and Korea.

Blechnum discolor Crown Fern 5gal \$50.00ea
Z8. These are nice mature ferns with a 5-7cm diameter, 10-20cm tall trunk with light green fronds forming a nice shuttlecock. These form a colony of crowns over time.

Blechnum nipponicum Japanese Deer Fern 2gal \$25.00ea
Z6. Ht. 35cm. This is closely allied to *B. spicant*, our Native Deer fern. The difference is the Japanese version has fronds that emerge a showy pink. Rare but easy to grow.

Blechnum penna-marina 10cm pot \$5.00ea
Ht. 10-20cm. Z5. Evergreen. This form of the species is smaller than most. Fertile fronds are erect and sterile fronds lay more or less flat. New growth is reddish-rose in colour. Good for edging a semi-shaded path or as a small scale ground cover.

Blechnum penna-marina 'Cristatum' 10cm pot \$5.00ea
Ht. 10-20cm. Z5. Evergreen. This form has fronds with crested tips.

Blechnum spicant Deer Fern 10cm pot \$5.00ea
..... 1gal \$10.00ea
Native. Ht. 20-30cm. Z5. Evergreen. Fertile fronds taller. Leathery, dark green sterile fronds form regular flat rosettes. Narrow fertile fronds are held vertically. Sun to shade. Drought tolerant in shade.

Cheilanthes tomentosa Woolly lip fern 10cm pot \$5.00ea
Native. Ht. 20-30cm. Z6. A very pretty fern with grey green narrow lance shaped erect fronds with white hairs on the top surface and creamy hairs on the bottom surface. Needs good drainage.

Cryptogramma acrostichoides Parsley Fern 10cm pot \$10.00ea
Native. Ht. 12cm. Z2. Leathery parsley-like sterile fronds are wintergreen and die back in spring. Fertile fronds are taller and slender and are deciduous in autumn. Only a few available.

Cyathea smithii Rough Tree Fern 5gal \$69.00ea
Ferns with a 10-15cm short trunk already \$90.00
Larger sizes at the nursery priced from \$100.00-\$600.00
Z9. Ht. 3M. A showy tree fern from New Zealand. Large lance shaped fronds with abundant brown scales. Produces a nice sized trunk. Can also be grown indoors.

Cyrtomium caryotideum Fishtail Holly Fern 10cm \$5.00ea
Ht. 30-60cm. Z6. Evergreen. Native to Japan and China, the leaflets are larger and softer in appearance than *C. falcatum*. A very attractive addition to the Holly Fern group!

Cyrtomium falcatum Japanese Holly Fern 10cm \$5.00ea
Ht. 30-40cm. Z7. Evergreen. Fronds look like Oregon Grape leaves; dark green, shiny and leathery. Individual pinnae look like holly leaves. Not as coarsely toothed as *C. falcatum* Rochfordii. Shade to part sun.

Cyrtomium falcatum var. maritimum Mini Japanese Holly Fern 10cm \$5.00ea
Ht. 15-30cm. Z7. Evergreen. A dwarf form of the species. Smaller in every way. Shade to part sun.

Cyrtomium fortunei 10cm pot \$5.00ea
..... 1gal \$10.00ea
Ht. 50-60cm. Z5. Dull pea green Oregon grape-like fronds with black scales on the stipe. Plant in shade to part sun, adds great texture to the shade garden.

Cyrtomium fortunei clivicola 10cm pot \$5.00ea
..... 1gal \$10.00ea
Ht. 30-38cm. Z5. The pinnae margins are lobed and more spreading on this form. An easy to grow semi-evergreen fern in shade to part sun.

Cyrtomium macrophyllum Large Leaved Holly Fern 1gal \$10.00ea
Ht. 30-75cm. Z6. Evergreen. This is similar to the other three *Cyrtomium* listed, except the leaflets are larger and the fronds are a light green in color. It can also be grown indoors.

Dennstaedtia punctilobula Hayscented Fern 1gal \$10.00ea
N.A. Native. Ht. 45-90cm. Z3. Deciduous. This delicate looking fern has light green, upright, arching fronds. It is found in light shade or open sun and spreads by slender underground rhizomes. Turns a soft yellow color in fall. A hay-like scent is evident when the fronds are brushed. A great groundcover fern.

Deparia pycnosora (Athyrium pycnosorum) \$5.00ea
Ht. 90cm. Z4. The 'Tapering Glade Fern' is a superb deciduous fern for the woodland garden with green pubescent fronds.

Dicksonia antarctica Tasmanian Tree Fern 2gal \$39.00ea
..... 5gal \$69.00ea
Fronds 50-250cm. Trunk Ht. 3-10Meters. Z7-8. Evergreen. This beautiful tree fern has a spreading crown of glossy green arching fronds atop a massive fibrous stem. At a young age it looks like a normal fern. Frond length increases rapidly but trunk height increases slowly. Grow in shade, sun or indoors if adequate moisture can be provided.

Dicksonia fibrosa Wheki Ponga tree fern 5gal \$59.00ea
Ferns with a 10-15cm short trunk already \$90.00
Larger sizes at the nursery from \$100.00 - \$500.00
Z9 (8). A nice tree fern with a thick stem and a large, arching crown of dark green leathery fronds.

Dicksonia squarrosa Wheki Tree Fern 5gal \$69.00ea
Ferns with a 10-15cm short trunk already \$90.00
Larger sizes at the nursery from \$100.00 - \$500.00
We have a nice selection of larger *D. squarrosa* at the Nursery.
Z9. Slender trunk with dark, shiny, prickly, arching deep green fronds up to 2meters in length.

Ferns

Dryopteris affinis Golden-scaled Male Fern 10cm pot \$5.00ea
 1gal \$10.00ea
 Ht. 60-150cm. Z4. Evergreen. This is a large fern which looks similar to *D.felix-mas*, except fronds are more leathery and the stipe is covered in golden scales. This is a very adaptable fern that is happy in shade as well as in a considerable amount of sun. Many selections made during the Victorian fern craze are listed below.

Dryopteris affinis 'Crispa' Crisped Golden-scaled Male Fern
 10cm \$5.00ea or 1gal \$10.00ea
 Ht. 25-35cm. Z4. A beautiful small fern with crisped fronds.

Dryopteris affinis 'Crispa gracilis' Crisped Dwarf Golden-scaled Male Fern 10cm pot \$5.00ea
 1gal \$10.00ea
 Ht. 15-20cm. Z4. A beautiful small fern with congested and crested fronds. Evergreen. One of the best dwarf evergreen ferns.

Dryopteris affinis 'Cristata Angustata' Narrow Crested Golden-scaled Male Fern 10cm pot \$5.00ea
 1gal \$10.00ea
 Ht. 45-60cm. Z4. Evergreen. This is similar to 'The King' but fronds are narrower and shorter and the crests are fuller.

Dryopteris affinis 'Cristata The King' 10cm pot \$5.00
 1gal \$10.00ea
 Ht. 70-100cm. Z4. Evergreen. New frond stalks are densely covered in golden brown scales. Old fronds are dark glossy green and leathery. Fronds are crested when mature. Robust fern for shade to part sun.

Dryopteris affinis cambrensis Insubrica 10cm pot \$5.00ea
 This is a subspecies of *Dryopteris affinis*.

Dryopteris affinis 'Pinderii' Narrow Golden scaled Male Fern
 10cm pot \$5.00ea
 Ht. 70-90cm. Z4. Evergreen. An elegant version of the species with very narrow fronds, much tapered at both base and apex. Somewhat similar to *D. filix-mas* 'Barnesii'.

Dryopteris affinis 'Polydactyla Dadds' 10cm pot \$5.00ea
 1gal \$10.00ea
 Ht. 60-120cm. Z4. Evergreen. This is similar to 'The King' but the fronds are wider and the crests are long finger-like tassels rather than wide fans.

Dryopteris affinis 'revolvens' Recurved Golden-scale Male Fern
 10cm pot \$5.00ea
 Ht. 90-100cm. Z6. Semi-evergreen. A lovely urn shaped fern with pinnae that curve downwards at the margins.

Dryopteris affinis X Dryopteris filix-mas 'Robust' Robust Male Fern 10cm pot \$5.00ea
 1gal \$10.00ea
 Ht. 60-90cm. Z4. Evergreen. Elegant fronds of lacy, dark green leaves. Very robust and easy to grow in shade to semi-shade. This fern is now called *D. x complexa*.

Dryopteris atrata Shaggy Sheild Fern 1gal \$10.00ea
 Ht. 20-50cm. Z7. Evergreen. Light green fronds with distinctive black hairs (scales) which clothe the frond stalk. Shade to part sun. Very easy to grow.

Dryopteris x australis 10cm pot \$5.00ea
 Ht. 100-150cm. Z5. One of the great ferns for the garden. Tall slender lustrous dark green fronds.

Dryopteris austriaca Until recently this was the correct name for Spiny Wood Fern. It has now been changed to *D.expansa* and the European equivalent has been restored to *D.dilatata*. In any case they are both similar, easy to grow ferns.

Dryopteris x bootii Boot's Wood Fern 1gal \$10.00ea
 N.A. Native. Ht. 45-90cm. Z2. Evergreen. This is a natural hybrid between *D.cristata* X *D.intermedia*. It has tall fronds with horizontally tilting pinnae giving them an almost venetian blind-like appearance. Best in shade or semishade.

Dryopteris carthusiana Narrow Buckler Fern 10cm pot \$5.00ea
 1gal \$10.00ea
 N.A. Native. Ht. 50-90cm. Z5. Evergreen. Fronds are light green and widely used by florists for cut foliage. Very easy fern to grow in shade to part sun.

Dryopteris celsa Log Fern 1gal \$10.00ea
 N.A. Native. Ht. 75-120cm. Z5. Evergreen. An easy to grow, large, dark green, shiny leaved fern that normally grows on rotting logs or in rich soil in a woodland setting.

Dryopteris championii Champion's Wood Fern 10cm pot \$5.00ea
 Ht. 30-75cm. Z5. Evergreen. Nice tidy vigorous grower with dark green glossy foliage. New growth apple green.

Dryopteris clintoniana 10cm pot \$5.00ea
 Ht. 60-90cm. Z4. Narrowly lance shaped fronds on this elegant easy to grow fern. We've sold this as *D.claytoniana* in the past.

Dryopteris crassirhizoma (*Dryopteris bushiana*) Thick-stemmed Wood Fern 10cm pot \$5.00ea
 Ht. 60-105cm. Z5. Semi-evergreen. The massive crown of this fern and the stems are covered with long brown scales. The fronds form a perfect vase shape on the forest floor making this fern an ideal specimen plant.

Dryopteris cristata 10cm pot \$5.00ea
 Native. Ht. 30-90cm. Z3. Evergreen. A nice fern with stiffly erect fertile fronds with the pinnae being at right angles to the plane of the fronds. The sterile leaves are more arching.

Dryopteris cycadina = Dryopteris atrata This now seems to be the accepted name for this species.

Dryopteris dilatata Crispa Whiteside 10cm pot \$5.00ea
 Ht. 60cm. Z3-4. First grown by Robert Whiteside in England. An attractive semi-evergreen fern with broadly triangular, erect, arching fronds that have a crispy texture. Part sun to shade.

Dryopteris dilatata 'Grandiceps' 1gal \$10.00ea
 Ht. 60cm. Z4. Semi-evergreen. Large dense crests terminate the fronds, and pinnae are terminated with small crests.

Dryopteris dilatata 'Jimmy Dyce' Jimmy's Upright Broad.....
 Buckler Fern 10cm pot \$5.00ea
 Ht. 50-60cm. Z4. Evergreen. Very nice dark green, stiffly erect fern. This fern was originally collected by Jimmy Dyce from the Isle of Arron. Easy to grow in shade to part sun.

Ferns

***Dryopteris dilatata* 'Lepidota Cristata'** Lacy Crested Broad Buckler Fern..... 10cm pot \$5.00ea
..... 1gal \$10.00ea
Ht. 25-40cm. Z4. Evergreen. Finely cut dark green leaflets with crested tips make the fronds resemble parsley. Shade to part sun, very easy to grow.

***Dryopteris dilatata* 'Recurvata'** Recurved Broad Buckler Fern
..... 1gal \$10.00ea
Ht. 45-60cm. Z4. Evergreen. Lacy looking, triangular fronds with edges and tips that curl down so the overall effect is almost weeping. Shade to part sun.

Dryopteris erythrosora Autumn Fern..... 10cm pot \$5.00ea
1gal \$10.00ea
Ht. 20-45cm. Z6. Evergreen. New fronds are coppery-bronze, contrasting against the older dark green fronds. Easy to grow in shade to part sun.

***Dryopteris erythrosora* 'Prolifica'** Proliferous Autumn Fern
..... 1gal \$10.00ea
Ht. 20-45cm. Z6. Evergreen. Similar to *D.erythrosora* but has narrower segments which make it lacier in appearance. Rarely, plantlets are produced on the upper surface along the midriff of the frond.

Dryopteris expansa Spiny Wood Fern or Broad Buckler Fern
..... 1gal \$10.00ea
Native. Ht. 60-100cm. Z4. Evergreen. Until recently this fern was known as *D.austriaca* or part of the *D.dilatata* complex. This fern has many different latin and common names so don't get confused. It is a vigorous fern, which forms a rosette of broad, triangular medium green fronds. Shade to part sun; easy to grow.

Dryopteris filix-mas Male Fern 10cm pot \$5.00ea
Native. Ht. 60-90cm. Z2. Semi-evergreen. Elegant fronds of lacy dark green leaves. Robust and easy to grow fern in shade to part sun.

***Dryopteris filix-mas* 'Barnesii'** Barne's Narrow Male Fern
..... 10cm pot \$5.00ea
Ht. 90-120cm. Z2. Semi-evergreen. A very attractive and distinct variety with long narrow fronds which give it a tall narrow profile.

***Dryopteris filix-mas* 'Cristata'** 1gal \$10.00ea
Ht. 60-90cm. Z2. Semi-evergreen. The fronds and pinnae on this shiny form are crested.

***Dryopteris filix-mas* 'Crispa Cristata'** 10cm pot \$5.00ea
Ht. 60-90cm. Z2. Semi-evergreen. The fronds are crispy with lightly crested pinnae and frond tips.

***Dryopteris filix-mas* 'Crisspatissima'** Crinkled Male Fern
..... 1gal \$10.00ea
Ht.20-35cm. Z2. Semi-evergreen. This form has narrow upright fronds with crinkled margins to the leaflets (pinnules). Introduced by the late Reginald Kaye.

***Dryopteris filix-mas* 'Grandiceps'** 10cm pot \$5.00ea
Ht. 45-100cm. Z4. Semi-evergreen. This strong grower has large erect arching fronds with a large arching terminal crest and crested pinnae. Elegant and stately in appearance.

***Dryopteris filix-mas* 'Linearis polydactyla'**
Many Fingered Male Fern..... 10cm pot \$5.00ea
..... 1gal \$10.00ea
Ht. 50-80cm. Z4. Semi-evergreen. Lacy, fine textured fronds with forks or crests at the tips of each leaflet. Shade to part sun.

***Dryopteris filix-mas* 'Parsley'** Parsley Male Fern 10cm pot \$5.00ea
Ht. 45-60cm. Z4. Semi-evergreen. A new unusual form with crinkled and crested dark green fronds.

Dryopteris formosana Limelight Fern 10cm pot \$5.00ea
Ht. 45-90cm. Z6. Semi-evergreen. This oriental beauty has large triangular fronds that are considerably wider at the base.

Dryopteris goldiana Goldy's wood fern..... 10cm pot \$5.00ea
Ht.100-130cm. Z3. Deciduous. Large triangular firmly textured fronds from a short creeping rhizome. Makes an attractive stand with arching fronds. New fiddleheads in spring are covered with showy shaggy brownish scales.

Dryopteris intermedia Intermediate Shield Fern.....\$5.00ea
Ht.45-60cm. Z3. A nice evergreen fern with triangular fronds in a vase shaped clump.

Dryopteris laeta 1gal \$10.00ea
Ht. 30-60cm. Z5. Semi-evergreen. This medium sized fern has light green, triangular fronds. Very easy to grow in shade to part sun.

Dryopteris labordei Golden Mist Wood Fern 10cm pot \$6.00ea
Ht. 50cm. Z5. Golden, yellowy-orange new growth gradually matures to dark green.

Dryopteris marginalis Leather Wood Fern 10cm pot \$5.00ea
..... 1gal \$10.00ea
N.A.Native. Ht. 45-60cm. Z4. Deciduous. Fronds are dark blue-green. Great for contrast against other ferns. Very easy to grow in shade to part sun. Good in rock gardens.

Dryopteris pseudo-filix-mas Mexican Male Fern
..... 10cm pot \$5.00ea
Ht. 75-120cm. Z5. A vigorous fully hardy fern from Mexico. Large upright good looking fern.

Dryopteris pycnopteroides Japanese Wood Fern \$5.00ea
Ht.60cm. Z6. This Asian fern is evergreen in warmer climates (Zone 8). Shiny, dark green fronds droop elegantly at the tips and can reach up to 2 feet in height.

Dryopteris x remota Remote Fern 10cm pot \$5.00ea
Ht. 60-100cm. Z4. Evergreen. This is a natural hybrid between *D. filix-mas* and *D. expansa*. It is fuller than either of the parents. A very nice looking fern. New fronds lighter green than older fronds. Easy to grow in shade to part sun.

Dryopteris scottii Scott's Wood Fern.....1gal \$10.00ea
Ht. 20-45cm. Z7-8. Evergreen. This is one of my favourite ferns and is probably harder than we have indicated. Dark green, thick, leathery fronds are held stiffly erect. The leaflets (pinnae) are undivided with shallow, half centimeter blunt teeth. Sori are large and dark in color.

Ferns

Dryopteris sieboldii Siebold's Wood Fern..... 10cm pot \$5.00ea
 1gal \$10.00ea
 Ht.30-60cm. Z6. Evergreen. A striking fern with up to five pairs of dark green, leathery, undivided pinnae with a terminal pinnae 20-30cm long. New fronds are light green.

Dryopteris stewartii Stewart's Wood Fern..... 10cm pot \$5.00ea
 Ht. 90-120cm. Z6. Semi-evergreen. A large fern with light green broadly triangular fronds.

Dryopteris tokyoensis Tokyo Wood Fern..... 10cm pot \$5.00ea
 Ht.45-90cm Z5. A striking fern with stiffly erect narrow fronds in a slender vase shape.

Dryopteris wallichiana Wallich's Wood Fern..... 10cm pot \$5.00ea
 N.A.Native. Ht.60-120cm Z4. Evergreen. Forms strong upright clumps of large triangular dark green fronds with a contrasting dark stem. New fronds are light green to golden with numerous dark reddish scales. With time, plants will form a short trunk. A nice fern for shade to semi-shade.

Gymnocarpium disjunctum Western Oak Fern 10cm \$5.00ea
 Ht. 30-40cm. Z3. Similar to *G. dryopteris* but generally larger and the pinnules are toothed making the fronds three times divided.

Gymnocarpium dryopteris Oak Fern..... 10cm pot \$5.00ea
 Native. Ht. 20-40cm. Z2. Deciduous. Dainty, lacy, triangular fronds are held horizontally under stalks. Spreads by rhizome to form small patches. Best in shade. Great as a groundcover in the woodland garden.

Gymnocarpium dryopteris 'Plumosum' Plumose Oak Fern
 10cm pot\$5.00ea
 Ht. 20-40cm. Z2. Deciduous. This selection has broader, overlapping segments than the species.

Matteuccia orientalis Oriental Ostrich Fern..... 10cm pot \$5.00ea
 Ht. 30-75cm. Z.6. This is a beautiful fern with erect arching lance shaped fronds. A rare one.

Matteuccia struthiopteris Ostrich Fern 1gal \$10.00ea
 Native. Ht. 40-150cm. Z4. Deciduous. Olive green, sterile fronds held in funnel-shaped clusters are spread by underground rhizomes. Fertile fronds appear in the center of the cluster and turn a rust brown color. Vigorous, easy fern to grow in shade to part sun.

Matteucia struthiopteris European Form European Ostrich Fern \$5.00ea
 This form of the Ostrich fern differs from the North American form by having more erect fronds which give it a less open, shuttlecock appearance.

Onoclea sensibilis Sensitive Fern 1gal \$10.00ea
 N.A.Native. Ht. 30-60cm. Z4. Deciduous. Named Sensitive Fern as it goes dormant at the first hard frost. The large fertile fronds are leafy and deeply lobed; very un-fern-like. The sterile fronds are stiff, erect and have spore-bearing pinnae aligned like a string of beads at their tips. Spreads by rhizome. Shade to part sun; even full sun in a wet site.

Osmunda cinnamomia Cinnamon Fern..... 1gal \$10.00ea
 N.A.Native. Ht. 90-150cm. Z4. Deciduous. Sterile, dark green deeply lobed, fronds are held in vase shaped clusters. Fertile fronds

are erect and held centrally, lack leaves and have terminal panicles that turn from green to cinnamon in color. Imagine a perfect fern with nice arching fronds and a bunch of cinnamon colored feather dusters in the center. It's hard to beat this species once established. Shade to part sun.

Osmunda claytoniana Interrupted Fern..... 10cm pot \$5.00ea
 1gal \$10.00ea
 N.A.Native. Ht.60-120cm. Z2. Fronds resemble the Cinnamon Fern except that the vegetative frond is interrupted in the middle with fertile pinnae. The fertile pinnae are covered in sporangia and are jet black in color making this a unique and showy fern. Easy to grow in shade to sun.

Osmunda regalis Royal Fern 10cm pot \$5.00ea
 1gal \$10.00ea
 N.A.Native. Ht. 90-150cm. Z3. Deciduous. A majestic fern that forms a large crown, and sends out a ring of arching fronds made up of rounded leaflets. Fertile fronds stand erect in the center of the clump and have a terminal panicle that turns golden brown. Grow in shade to full sun if in a bog.

Osmunda regalis 'Cristata' 10cm pot\$5.00ea
 Ht. 90-150cm. Z3. Deciduous. This selection of Royal Fern has crested segment tips.

Osmunda regalis 'purpurescens' Purple stemmed Royal Fern
 10cm pot \$5.00ea
 N.A.Native. Ht. 90-150cm. Z3. Deciduous. This form has purplish stems.

Phyllitis scolopendrium (Formerly *Asplenium*) Hart's Tongue Fern
 10cm pot \$5.00ea
 1gal \$10.00ea
 N.A. Native. Ht. 40cm. Z5. Evergreen. Medium green fronds are strap or tongue shaped (not divided at all). Shade to part shade. Like a little lime from time to time.

Phyllitis scolopendrium Angustifolia..... 10 cm pot\$5.00ea
 Z5. Ht 30cm. Evergreen. Strap shaped fronds with a tight crinkling along the margins. A favourite dwarf fern.

Phyllitis scolopendrium Cristata 10 cm pot \$5.00ea
 1gal \$10.00ea
 Z5. Ht 30cm. Fronds with crested or forked tips.

Phyllitis scolopendrium furcata 10 cm pot \$5.00ea
 Z5. Ht. 30cm. Fronds forked and crested at the tip.

Phyllitis scolopendrium Undulata 10 cm pot \$5.00ea
 Z5. Ht 30cm. Fronds have a wavy margin.

Polypodium cambricum 'Whilharris' Whilharris form of the Welsh Polypody..... 10 cm pot \$5.00ea
 Ht.30cm. Z6. An upright form of the species with leathery green fronds and deeply lacerated pinnae.

Polypodium glycerhiza Licorice Fern..... 10cm pot \$5.00ea
 Native. Ht. 10-40cm. Z6. Summer Deciduous. This creeping fern grows on trees and rock outcrops. It goes dormant in the dry summer and is green all winter. Rhizomes have a sweet licorice taste. Great on stumps or rock walls in shade to part sun.

Ferns

Polypodium hesperium Western polypody 10 cm pot \$5.00ea
 Z4. Native. Creeping fern easily grown in cracks and crevices in rock walls or at the front of a border.

Polypodium interjectum10cm pot \$5.00ea
 Ht. 15-45cm. Z6. Evergreen. This is a pretty little fern with fairly narrow, leathery, dark green fronds. Great for cracks and crannies in walls, and in the shady rocky garden.

Polypodium scolieri Leathery Polypody.....\$10.00ea
 Native. Ht.10-35cm. Z7. This is simply the showiest of the polypodies. It has deep, dark green extremely glossy, leathery fronds. This fantastic creeping fern is slow to spread, but worth the wait. We offer small divisions. It often takes a full year for this fern to settle in and start to spread. We have grown this plant for more than 10 years, and these are the first divisions we have offered. Rarely offered.

Polypodium virginianum Virginia Polypody 10cm pot \$5.00ea
 N.A. Native. Ht. 10-35cm. Z2. Semi-Evergreen. This creeping little fern likes shade to part sun in nutrient poor, humus rich soil. Excellent for growing on rocks, logs and in rock walls. This is one of those ferns that may go dormant in the summer if it dries out.

Polypodium vulgare 'Bifidum Multifidum' Crested Polypody1gal \$10.00ea.
 Ht. 25-35cm. Z5. Evergreen. The pinnae tips are forked. This is a small showy fern for rock walls and rockeries. Easily grown, but rare.

Polystichum acrostichoides Christmas Fern 1 gal \$10.00ea
 N.A. Native. Ht. 30-60cm. Z5. Evergreen. Fronds are a leathery, dull dark green. Used as cut foliage by florists. Nice large fern, similar to *P. munitum*, for shade to part sun.

Polystichum aculeatum Hard Shield Fern 10 cm pot \$5.00ea
 1gal \$10.00ea
 Ht. 75-90cm. Z4. Evergreen. Glossy dark green stiff fronds with reddish brown scales. Nice large fern, similar to *P. setiferum*, but stiffer. Plant in shade to part sun.

Polystichum andersonii on site sales only 2gal \$20.00ea
 Native. Ht.40-80cm. Z3. A rarely offered large native fern with nice lacy upright fronds. On site sales only.

Polystichum braunii Braun's Holly Fern 10cm pot \$5.00ea
 Native. Ht. 30-60cm. Z5. Semi-Evergreen. Dark green fronds with golden brown scales on the stalks. New foliage has a silvery flush to it. Nice dense growing, mid-sized fern.

Polystichum makinoi Makinoi's Holly Fern \$10.00ea
 Ht.45-60cm. Z5. One of the best evergreen ferns!! Dark glossy evergreen fronds make a spectacular backdrop for your shade garden. Originates from the mountains of China.

Polystichum munitum Sword Fern 1gal \$10.00ea
 10cm pot \$5.00ea
 Native. Ht. 30-120cm. Z5. Evergreen. A fantastic and much under used fern. Glossy dark green, leathery fronds form dense clumps. Great for naturalizing. Good in dry to moist shade.

Polystichum polyblepharum Tassel Fern 10cm pot \$5.00ea
 1gal \$10.00ea
 Ht. 60-75cm. Z5. Evergreen. Very glossy dark green fronds contrast nicely with the light green, tassel-like, newly emerging fronds. Very shiny, attractive fern for shade to part sun.

Polystichum rigens 1gal \$10.00ea
 Z5. A great evergreen fern from Japan with rigid glossy leathery fronds held in an erect crown. New fronds are tinted a delightful yellow in the spring and quickly age to green.

Polystichum setiferum Soft Shield Fern 10cm pot \$5.00ea
 1gal \$10.00ea
 Ht. 50-150cm. Z5. Evergreen. This fern forms a ground hugging rosette of spreading fronds which are attractively dissected and soft to touch. Stalks covered with brown, chaffy scales. Large fern for shade to part sun.

Polystichum setiferum Congestum 10cm pot \$5.00ea
 Ht.15-25cm Z5. An excellent dwarf fern with erect fronds in upright clumps and congested foliage. Probably the form found in Padley in South Devon in 1865. Evergreen.

Polystichum setiferum 'Dahlem' Dahlem Fern ..10cm pot \$5.00ea
 1gal \$10.00ea
 Ht. 75cm. Z5. Evergreen. Nearly erect, narrow, triangular stiff fronds make this newer selection of *divisilobum* worth a spot in the garden.

Polystichum setiferum 'Divisilobum' Divided Soft Shield Fern1gal \$10.00ea
 Ht. 25-50cm. Z5. Evergreen. Fronds four times divided with finely cut segments. A beautiful medium sized fern, year round, for shade to part sun.

Polystichum setiferum 'Herrenhausen' 10cm pot \$5.00ea
 Ht.50-70cm. Z5. Evergreen. This new variety from Germany is a 'Divisilobum' type with proliferous buds (baby ferns grow from buds on old fronds). New growth has a wonderful, almost silver-quality.

Polystichum setiferum 'Plumosum' 10cm pot \$5.00ea
 Ht.60-90cm. Z5. Evergreen. Glossy, grass-green plume-like fronds are four times divided and have overlapping pinnae.

Polystichum setiferum 'Plumoso-densum' (*Plumoso-multilobum*) Downy Filigree Fern 1gal \$10.00ea
 Ht.60-90cm. Z5. Evergreen. Similar to 'Plumosum' but the pinnules are divided into segments that are not narrowed. The overall effect is a much fuller frond.

Polystichum setiferum divisilobum 'Mossy Mama' 1gal \$10.00ea
 Ht.25-50cm Z5. A few years ago we spotted this special fern among a thousand or so sporelings. We have since multiplied it vegetatively. A finely dissected fern with very full fronds with proliferous buds (baby plants) on mature plants. The pinnae are slightly rotated on the fronds giving the fronds a 3-5cm thickness when two to three years old.

Polystichum setiferum 'Proliferum' 10cm pot \$5.00ea
 Ht. 40-60cm. Z5. Evergreen. This is similar to the species but is lacier in appearance and smaller with proliferous buds along the mid-rib on mature fronds.

Ferns-Perennials

Polystichum setiferum 'Proliferum Wollaston' 10cm\$5.00ea
Ht.45cm. Z5. Found in a Devon Hedge Bank in 1852 by G.Wollaston. An excellent form with finely divided fronds that produce occasional young ferns on the stipe of the frond.

Polystichum setiferum rotundatum cristatum Crested Soft Shield Fern 1gal \$10.00ea
Ht.30-60m. Z5. A great form with a simple crest at the apex of the frond and numerous proliferous bulbils are scattered down the mid-rib.

Polystichum tsus-simense Korean Rock Fern10cmpot \$5.00ea
Ht. 20-30cm. Z8. Evergreen. Neat compact clumps of dark green fronds with dark stems and ribs. New fronds are purplish green when young. Nice small fern for shade to part sun.

Pteridium aquilinum Bracken-Fern 10cm pot \$5.00ea.
Native. Ht.30-180cm. Z4. Deciduous. Triangular fronds with stiff stalks rise from strong underground rhizomes. This fern can be invasive. Plant in well drained soil from shade to sun.

Thelypteris decursive pinnata Japanese beech Fern 1gl\$10.00ea
Ht. 40cm. Z5 The narrow upright, bright, light green fronds are held stiffly vertical making this fern noticeable from a distance. Makes a sizable clump over time. The bright color and form are a great way to add some punch to a shady spot.

Thelypteris kunthii Southern Wood Fern 10cm pot \$5.00ea
N.A.Native. Ht. 30-40cm. Z8. Deciduous. Creeping rhizome with numerous light green, lance-shaped fronds. This fern makes a nice groundcover around other dark green ferns in shade to part sun. This fern can be very late to respout after a cold winter.

Thelypteris noveboracensis New York Fern 1gal \$10.00ea
N.A.Native. Ht. 30-50cm. Z4. Deciduous. This species has lance-shaped, erect fronds which are produced at intervals from a creeping rhizome. A nice ground cover in shade to part sun

Thelypteris palustris Narrow Beech Fern 10cm pot \$5.00ea
N.A.Native. Ht. 45-75cm. Z2. Deciduous. Pale bluish-green, thinly textured, triangular fronds arise from long creeping rhizomes.

Thelypteris phegopteris Narrow Beech Fern 1gal \$10.00ea
Native. Ht. 10-45cm. Z2. Deciduous. Pale green, thinly textured, triangular fronds arise from long creeping rhizomes. This native fern likes a shady humus-rich site to grow in.

Woodsia obtusa Blunt lobed cliff fern 10cm \$5.00ea
N.A.Native. Ht. 12-30cm. Z3. Deciduous. Grey green fronds with stems covered in tan coloured scales. Easily grown in the garden or rock wall

Woodsia scopulina Rocky Mountain Woodsia 10cm pt\$8.00ea
Native. Z3. Ht.20-30cm A super little dwarf fern that slowly makes a nice clump. Grows naturally on Cliffs, rock outcrops and talus slopes.

Woodwardia areolata Netted Chain Fern 11cm pot\$6.00ea
N.A.Native. Ht.30cm. Z4-5. A creeping rhizomatus fern with attractive dimorphic (separate fertile and sterile fronds) fronds. The sterile fronds are reddish green in early spring and become a deep glossy green with netted venation.

Woodwardia fimbriata Giant Chain Fern 10cm pot \$7.50ea
..... 2gal \$20.00ea

Native. Ht. 100-200cm. Z8-9. Semi-Evergreen. This large fern forms a handsome clump of erect, arching, dark green fronds. Truly a specimen fern. Plant in shade to part sun.

Woodwardia orientalis Oriental Chain Fern 1gal \$12.00ea
Ht.30-60cm Z7-8. A large evergreen fern (except on harsh winters) with thick leathery fronds. New fronds emerge a coppery orange color. Older fronds are topped with small plantlets that can be plucked and planted.

Woodwardia virginica Virginia Chain Fern \$5.00ea
Ht.45cm. Z. Deciduous. Virginia Chain Fern has a long, creeping rhizome that produces vertical black stipes and upright green fronds in spring.

Fern Special

12 ferns from 10cm pots(reg.price\$5.00) for \$50.00

Choose 14 ferns (12 plus two spares) in 10cm pots and we will pick out the nicest 12, pack them and you've got yourself the start of a fine fernery. Ferns that cost more than \$5.00 are not included nor are ferns that are available only in the fall.

Perennials

Acanthus mollis Bear's Breeches 1gal \$9.50ea
Ht. 50-200cm. Z7-8. Large, dark green, glossy, lobed leaves radiate out from a central crown. Flowers are white with purple venation on tall spikes.

Aceriphyllum rossii (Mukdenia rossii) \$6.00ea
Ht.40-60cm Z5. Maple-like leaves emerge a bronze-green then age to a mid-green and are finally splashed with bright red in fall. Numerous white, bell-shaped flowers held in a branched panicle in mid spring. From North China and Korea. Forms a wonderful ground cover in full shade to part sun.

Achillea millefolium Yarrow 10cm pot \$3.50ea
Native. Fl.Ht. 30-50cm. Z3. Large, white, flat flower heads with a pink tinge, appear from June till August. Low, feathery, highly dissected foliage.

Achlys triphylla Vanilla-leaf 1gal \$9.50ea
Native. Ht. 25-45cm. Z7. Large light green trifoliate leaf on a slender stalk. Good groundcover spread by underground rhizome. Dried leaves have a vanilla scent. Semi-shade.

Aconitum x cammarum 'Bicolor' Monkshood 1gal \$9.50ea
Ht.90cm. Z2. Deeply lobed dark green leaves and large showy white flowers rimmed in blue. Full sun to part shade. All parts of this plant are extremely poisonous.

Aconitum x cammarum 'Bressingham Spire' 1gal \$12.00ea
Ht.65cm. Z2. Deep blue-violet spires on shorter stockier stems in June to August make this a valuable new monkshood.

Aconitum x cammarum 'Eleanor' 1gal \$9.50ea
Ht.100-130cm. Z2. This variety has pure white flowers with violet tips. Prefers a peaty soil in sun to part-shade. All parts of this plant are extremely poisonous.

Perennials

Aconitum x cammarum 'Pink Sensation' 1gal \$9.50ea
Ht.100cm. Z5. This variety has extremely glossy green dissected leaves and showy pale pink flowers from late June to early August. Prefers a peaty soil in sun to part-shade. All parts of this plant are extremely poisonous.

Aconitum x cammarum 'Stainless Steel' 1gal \$9.50ea
Ht.100cm. Z2. This variety has dark grey-green foliage and metallic blue flowers. Prefers a peaty soil in sun to part-shade. All parts of this plant are poisonous.

Aconitum carmichaelii fischeri 1gal \$9.50ea
Ht.70cm. Z2. This species has dark royal blue flowers and glossy leaves. Prefers a peaty soil in sun to part-shade. All parts of this plant are poisonous.

Aconitum 'Cloudy' Monkshood 1gal \$9.50ea
Ht. 60cm. Z4. Soft blue blooms. Full sun to part shade. All parts of this plant are poisonous.

Aconitum episcopale Hardy Monkshood Vine \$19.00ea
Ht. 1-3M. Z4. A fantastic perennial climber with vibrant violet blue flowers in late summer and fall over glossy divided foliage. Very similar to A.hemslayanum.

Aconitum hemslayanum Hardy Monkshood Vine \$19.00ea
Ht. 3M. Z4. A fantastic perennial climber with vibrant violet blue flowers in late summer and fall over glossy divided foliage.

Aconitum japonicum 1gal \$12.99ea
Ht.50-100cm. Z6. This is a showy fall blooming species with hooded flowers of rich velvety blue with a hint of purple. A very valuable late bloomer which makes an impressive clump with handsome foliage. All parts of this plant are poisonous.

Aconitum henryi 'Spark's Variety' Monkshood 1gal \$9.50ea
Ht.100-150cm. Z4. Highly cut dark green foliage. Helmet shaped flowers of deep violet blue bloom in July-Aug. Prefers part-shade in humus-rich soil. All parts of this plant are extremely poisonous.

Aconitum lamarckii Yellow Monkshood 1gal \$9.50ea
Ht.100-130. Z5. Deeply lobed dark green leaves grow in a stiff habit. Vibrant yellow flowers in large, many flowered inflorescences, bloom in July to August. Prefers a peaty soil in sun to part-shade. All parts of this plant are extremely poisonous.

Aconitum napellus 1gal \$9.50ea
Ht.100-130cm. Z2. This species has beautiful violet blue hooded flowers. Prefers a peaty soil in sun to part-shade. All parts of this plant are extremely poisonous.

Aconitum napellus 'Album' 1gal \$9.50ea
Ht.100-130cm. Z5. This variety has beautiful white flowers. Prefers a peaty soil in sun to part-shade. All parts of this plant are extremely poisonous.

Aconitum napellus 'Arendsii' 1gal \$9.50ea
Ht.100cm. Z5. Large spikes of azure blue flowers. Prefers a peaty soil in sun to part-shade. All parts of this plant are poisonous.

Aconitum napellus 'Blue Valley' 1gal \$10.00ea
Ht 90cm. Z3. This variety has large spikes of dark blue-violet flowers. All parts of this plant are poisonous.

Aconitum napellus rubellum 1gal \$9.50ea
Ht.100-130cm. Z2. A wonderful pink hooded form. Prefers a peaty soil in sun to part-shade. All parts of this plant are extremely poisonous.

Aconitum septentrionale 'Ivorine' 1 gal \$9.50ea
Ht.100cm. Z5. Spikes of white flowers in summer.

Actaea pachypoda (alba) Doll's Eyes, White Baneberry \$9.50ea
N.A.Native. Ht.40-80cm. Z3. A woodland perennial with white flower racemes followed by white berries with a dot(which makes them look like a doll's eye).

Actaea rubra Red Baneberry \$12.00ea
N.A.Native. Ht.40-80cm. Z3. A woodland perennial with white flower racemes (sometimes tinged purple) followed by red berries.

Adonis amurensis 10cm pot \$12.95ea
Ht.5-15cm. Z3. This rarely offered perennial is a Japanese favorite as it symbolizes the start of a new year with its butter yellow flowers. Fern like foliage disappears in late spring. In the West it often starts blooming in early January, in the east it pushes blooms up through the melting snow. Plant in humus rich soil in deciduous shade.

Adonis amurensis 'Chichibu Beni' 10cm pot \$59.95ea
Ht.5-15cm. Z3. It has been a while since we offered this rare cultivar with rich orange flowers. It has fern like foliage that disappears in late spring. Plant in humus rich soil in deciduous shade.

Aegopodium podagraria 'Variegatum' 10cm. pot \$3.50ea
Ht. 15cm. Z4. Bishop's Weed is an excellent rapid spreading groundcover for shade to part sun with green and white variegated leaves. White flowers in May to June.

Agapanthus 'Black Buddha' Lily-Of-The-Nile 1gal \$18.00ea
Ht.60cm. Z5. Bright blue flowers appear from near black flower buds and black stems.

Agapanthus 'Black Pantha' Lily-Of-The-Nile 1gal \$26.00ea
Ht.90-100cm. Z6. Upright steel blue to blackish buds open to lavender blue drooping blooms. Plants will be small in spring.

Agapanthus 'Blue Globe' Lily-Of-The-Nile 1gal \$10.00ea
Ht.100cm. Z5. Large light blue flowers.

Agapanthus x 'Blue Triumphator' Lily-Of-The-Nile 1gal \$9.50ea
Ht. 75-90cm. Z7. Rich blue flower color in large ball shaped clusters. Thick strap shaped foliage in clumps. Best in sun.

Agapanthus 'Storm Cloud' Lily-Of-The-Nile 1gal \$14.00ea
Ht.90-120cm. Z5-6. The large heads of dark cobalt blue flowers are complemented by dark stems. Flowers are followed by black seed heads.

Agapanthus 'White Superior' Lily-Of-The-Nile 1gal \$10.00ea
Ht.70cm. Z5. A lovely white flowered variety with sturdy stems.

Perennials

Ainsliaea cordifolia.....\$18.00ea
Ht.15-20cm. Z6. This Woodland Native of Japan with its showy silver mottled leaves is often mistaken for Asarum. Each plant has a different leaf pattern. White twisted Aster-like flowers are held above the foliage. Plant in light shade.

Alchemilla erythropoda.....1gal \$9.50ea
Ht.15-20cm. Z5. Bluish green palmately lobed leaves in a basal cluster. Yellow flowers on much branched inflorescence in summer. Thrives in sun and semi-shade in almost any soil.

Alchemilla mollis Lady's Mantle1gal \$9.50ea
Ht. 50-80cm. Z3. Similar to the above species but larger in all respects. Excellent ground cover for sun to light shade.

Alectorurus yedoensis var. platypetalus.....\$12.99ea
Ht.15-20cm. Z6. From the cliffs of Shikoku and Kyushu islands in Japan come this rare member of the lily family. Flat, Iris like leaves and panicles of small white flowers in late summer. Plant in well drained soil in light shade.

Allium acuminatum Hookers Onion..... 10cm pot \$4.50ea
Native. Ht. 10-20cm. Z6. Deep rose pink flowers in early summer. Prefers a hot spot with excellent drainage.

Allium carinatum ssp. pulchellum\$5.00ea
Ht. 45-55cm. Z5. Graceful reddish-pink flowers heads in the summer.

Allium cernuum Nodding Onion 10cm pot \$3.50ea
Native. Ht.20-30cm. Z4. Nodding pale to bright pink flowers bloom in June to August. Bulbs multiply quickly and were eaten by native people.

Allium crenulatum Olympic Onion.....\$6.00ea
Native. Z.5. Ht.4" A fantastic dwarf onion with brilliant rose-purple flowers. Rarely offered.

Allium dichlamydeum \$5.00ea
Native. Dark rose purple flowers in June- July.

Allium flavum var. tauricum\$4.00ea
Z.7 Ht 15-20cm. A great selection with flowers in a range of colours from white to oranges to yellow and reddish shades.

Allium haematochiton 8cm pot \$3.50ea
Native. Ht.10-40cm Z7-8. Compact umbels of white to pink flowers with darker central veins. Multiplies to make a nice clump.

Allium rotundum 10cm pot \$6.00ea
Ht.10cm. Z7. Blackish purple flowers with lighter insides in dense spherical umbels.

Allium uniflorum 10cm pot \$3.50ea
Native. Ht. 20-35cm. Z7. A nice species with umbels of rose pink flowers.

Allium senescens ssp. montanum var. glaucum.....\$5.00ea
Ht.15-20cm. Z5. A lovely little allium with fragrant dark lilac flower in late June to early July.

Allium stellatum Pink Prairie Onion..... \$4.00ea
N.A. Native. Ht.30-50cm. Z3. This rarely offered onion exhibits pink starry flowers in ball shaped clusters in late summer. Prefers dry, well drained soil in sun to part shade.

Allium textile Prairie Onion \$4.00ea
Native. Ht.5-30cm. Z3. A rarely offered onion with creamy white flowers in May-July. Prefers a hot, dry sunny location.

Allium triquetrum10cm pot \$3.50ea
Ht.25cm. Z8. Long lasting, hanging white flowers with a green midrib in late spring to early summer.

Allium ursinum Ramsons, Wild Onion..... \$4.00ea
Ht.10-50cm. Z5. Forms nice clumps of dark green chive-like foliage topped with pure white flowers in spring.

Alyssoides utriculata \$5.00ea
Ht 25-40cm. Z7. A mat forming perennial similar to alyssum with yellow flowers, evergreen foliage and attractive ruddy bladder-like seed pods. Good for the rockery.

Astroemeria hybrids \$9.50ea
Ht. Z7. This is a mixed bag. Plants may be yellow, orange, pink, rose or red.

Astroemeria pulchella 'Mona Lisa' \$12.50ea
Ht. Z7. Flowers are a merry blend of red with green bands inside and chocolate brown outer feathering. This amazing perennial is quick to form a sizeable patch.

Amorphophallus dunnii \$26.00ea
Ht.75cm. Z6. Glossy, deep green leaflets held aloft by an ornamental stem marked with white and green patterns. Creamy spathe with white spots and a purple center, creamy white spadix.

Amorphophallus konjac \$15.99ea
Ht.1-1.75cm. Z6. A massive divided leaf (up to 1.25m across) atop a green stem is heavily mottled with dark purplish blotches. When the tuber is large enough it produces a massive 1-1.5m tall flower. The spathe is the color of a dark purplish red cabbage and sits atop a 60cm mottled stem. The spadix is slightly lighter purple in color and measures up to 90cm long. We sell small tubers around the size of a quarter that will bloom in about 2 years. Amorphophallus corms may at any time delay sprouting for a season, particularly after blooming, so mark where you plant them. Shade to part sun. Eventually the corms can weigh up to 8 kilos. This species is extensively used as a food source in Indonesia and Japan. Larger tuber\$26.00ea

Amorphophallus napalensis\$20.00ea
Ht. About 1 meter. Z8. A gorgeous amorphophallus with a tan and black attractively mottled stalk and tropical looking glossy green foliage. White spathe with a prominent spadix.

Amorphophallus yunannensis.....\$26.00ea
Ht.1-1.75cm. Z6. The single leaf is held atop a 2-3' tall, smooth, dark green stalk, exquisitely mottled with lighter green to creamy coloured blotches. The 3-6" tall spadix is white with a pink head partially hidden in a green speckled spathe atop a 50cm mottled stem.

Perennials

Anaphalis margaritacea Pearly Everlasting 10cm pot \$3.50ea
Native. Ht. 20-90cm. Z3. Dark green, narrow, pubescent leaves with dense white wooly undersides. Pearly white flowers in dense clusters are produced in August. Excellent dried flower. Sun to part shade.

Anemonella thalictroides 10cm pot \$4.00ea
 N.A.Native. Ht. 10-20cm. Z4. A dwarf anemone relative with finely divided feathery foliage appearing in spring from tiny, dahlia-like tubers. Pure white single anemone-like flowers. Makes a very nice groundcover in light shade. From naturally small tubers.

Anemonella thalictroides 'Cameo' 8cm pot \$19.00ea
 N.A.Native. Ht.10-20cm. Z4. This is one of those hard to get forms with double rose flowers. From naturally small tubers.

Anemonella thalictroides 'Betty Blake' 8cm pot \$25.00ea
 A uniquely fabulous double pompom green with highlights of lighter green. Also known as A. Double Green. From naturally small tubers.

Anemonella thalictroides 'Just Precious' (Green Hurricane) . \$25.00ea
 This uniquely bizarre double green flowered Rue has oddly twisted light green petals laid on top of a perfect ring of vibrant green bracts. It has also been sold under many names including Anemonella thal. Jade Feather, Just Precious, Green hurricane and Green Dragon. In the end the name Just Precious should hold as it appears to be the first published. From naturally small tubers.

Anemonella thalictroides 'Rosea' 8cm pot \$8.00ea
 N.A.Native. Ht.10-20cm. Z4. This form has single rose pink flowers that self seed true. From naturally small tubers.

Anemonella thalictroides 'Schoaff's Double' 8cm pot \$19.00ea
 N.A.Native. Ht.10-20cm. Z4. This is probably the best known double flowered form with long lasting pink flowers. From naturally small tubers.

Anemonella thalictroides 'White Double' 8cm pot \$25.00ea
 N.A.Native. Ht.10-20cm. Z4. Pure white double flowers. From naturally small tubers.

Anemone appennina 'alba' Fall only 10cm pot \$9.50ea
 Ht.10-20cm. Z4. Foliage is deep purple when emerging then ages to dark green. Flowers are snow white on the interior, shaded pale blue or pale pink on the exterior. Plants are produced from a small tuber.

Anemone blanda 'Radar' 10cm pot \$6.50ea
 Ht.8-10cm Z.3-4. One of the most sought after anemone blanda types with large reddish-purple flowers with a white center. Plants arise from small tubers.

Anemone canadensis Canada Anemone \$5.00ea
 N.A.Native.Ht.30-50cm. Z3. A spreading woodland groundcover with beautiful veined cut foliage and white flowers in late spring and summer.

Anemone flaccida \$8.00ea
 Ht.5-20cm. Z4. A spreading woodland groundcover from Japan. Divided foliage is lightly marked with silvery spots. Single white flowers stand above the foliage in spring.

Anemone hupehensis 'Crispa' 1gal \$9.50ea
 Ht.80cm. Z4. This is a unique fall blooming anemone with crisped ruffled foliage with red markings along edges and pretty pink flowers.

Anemone hupehensis 'Prinz Heinrich' 1gal \$9.50ea
 Ht.50-90cm. Z4. Pink semi-double flowers in loose cymes bloom in late summer to fall. Plant in part sun in well drained humus-rich soil.

Anemone hupehensis 'September Charm' 1gal \$9.50ea
 Ht.90cm. Z4. Light pink flowers with yellow centres in early fall.

Anemone x hybrida 'Queen Charlotte' 1gal \$9.50ea
 Ht.100cm. Z4. Large, semi double silvery pink flowers atop dark green foliage bloom in September to October.

Anemone x hybrida 'Honorine Jobert' 1gal \$9.50ea
 Ht.100-120cm. Z4. Large, 6-7cm in diameter white flowers atop dark green foliage. Blooms in September to October. Prefers semi-shade in humus-rich soil.

Anemone x hybrida 'Party Dress' 1gal \$12.00ea
 Ht.90cm. Z5. Very large double pink flowers in late summer to early fall.

Anemone x hybrida 'Whirlwind' 1gal \$9.50ea
 Ht.95cm. Z4. Semi double white flowers with a yellow center in early fall.

Anemone keiskeiana \$12.99ea
 Ht.5-10cm. Z4. Very unique spring-blooming, spreading Japanese perennial with 3-lobed leaves that are heavily mottled with silver, emerging tinted bronzy brown in very early spring. Many petaled white flowers in early spring. Foliage disappears in the summer.

Anemone leveillei \$9.50ea
 Ht.60cm. Z5. Pretty, low growing, vigorous anemone with deeply divided foliage and single white flowers with striking purple stamens.

Anemone multifida 'Rubra' \$9.50ea
 Ht.30cm. Z5. Showy single red flowers adorn this dwarf anemone with highly incised light green foliage.

Anemone nikoensis \$12.99ea
 Ht.15-30cm. Z5 From the mountains of Japan comes this spreading groundcover with white flowers that are often tinted pink. Plant in well drained humus rich soil in part shade.

Anemone nemorosa Wood Anemone 10cm pot \$3.50ea
 Ht.15-20cm. Z5. A delightful woodland groundcover that spreads by slender rhizome. Leaves deeply cut and very attractive. Single Anemone type flowers are white, light pink, or bluish in color. Flowers close up on cloudy days and at night.

Anemone nemorosa 'Allenii' 10cm pot \$6.00ea
 Ht.10-15cm. Z4. Large flowers that are rich lavender blue on the inside and paler on the reverse. Similar to A. nemorosa Robinsoniana.

Perennials

Anemone nemorosa 'Blue Eyes' 10cm pot \$8.00ea
Ht.10cm. Z4. Double to single white flowers develop a distinct blue eye just prior to petal drop.

Anemone nemorosa 'Blue form' 10cm pot \$4.00ea
Ht.10-15cm Z4 We have selected out some of the bluish single flowered form. This makes a great herbaceous ground cover.

Anemone nemorosa 'Bowles Mauve' 10cm pot \$5.00ea
Ht.10cm. Z4. Nice mauve blue flowers. We think this is the same as *Anemone nemorosa* Bowles Purple.

Anemone nemorosa 'caerulea' \$8.00ea
Ht.10-15cm. Z5. A nice smaller variety of woodland anemone with large dark purplish blue flowers with lighter blue edges.

Anemone nemorosa 'Green Fingers' 10cm pot \$10.00ea
Ht.10-15cm. Z4. This odd selection has green flowers tinged with white set atop green sepals.

Anemone nemorosa 'Lychett Variety' 10cm pot \$9.50ea
Ht. 10-15cm Z4. A handsome variety with large white flowers.

Anemone nemorosa 'Mart's Blue' 10cm pot \$12.00ea
Ht.10-15cm. Z4. This selection from Estonia blooms later than most and has dark blue flowers.

Anemone nemorosa 'Monstrosa' 10cm pot \$8.00ea
Ht. 20cm. Z5. A large double flowered form of wood Anemone with a unique mix of green and white petals.

Anemone nemorosa 'Phylloclid Form' 10cm pot \$7.50ea
Ht.10-15cm Z4. Another bizarre selection which typically has white outer petals and inner petals replaced by numerous very finely dissected leaves.

Anemone nemorosa 'Robinsoniana' 10cm pot \$5.00ea
Ht.10-15cm. Z4. A nice selection with large pale wisteria blue flowers and deep green foliage tinged purple.

Anemone nemorosa 'Rosea' 10cm pot \$5.00ea
Ht.10cm. Z4. Flowers emerge from a pink bud and fade to white then age to a strong dusky pink on the exterior.

Anemone nemorosa var. *Vestal* 10cm pot \$4.00ea
Ht.10-15. Z4. Double white flowered form.

Anemone nemorosa vindobonensis 10cm pot \$10.00ea
Ht.10-15cm. Z4. This form has cream colored flowers. Blooms earlier than the hybrid *Anemone x lipsiensis*.

Anemone nemorosa white form 10cm pot \$4.00ea
Ht.10-15cm. Z4. We have separated out a pure white single flowered form of this wonderful species.

Anemone pseudo-altaica \$8.00ea
Ht.15-30cm. Z4 From the mountains of Japan comes this spreading groundcover with white flowers that are followed by finely cut foliage. Plant in well drained humus rich soil in shade.

Anemone quinquefolia 10cm pot \$6.00ea
N.A. Native. Ht. 10-30cm. Z3. Spreading rhizomes quickly make a nice groundcover in woodland conditions. White flowers.

Anemone raddeana \$10.00ea
Ht.10-15cm. Z4 From Asia, including Japan, comes this spreading groundcover with abundant white flowers that are often flushed with pink. Plant in well drained humus rich soil in part shade.

Anemone raddeana F. roseum \$18.00ea
Ht.10-15cm. Z4 Similar to the species but this form from Japan is pink on the reverse of the petals and the flowers have a pink blush overall. Rarely offered. Plant in well drained humus rich soil in part shade.

Anemone ranunculoides 10cm pot \$4.00ea
Ht.10cm. Z4. This spreading woodland beauty has deep golden yellow flowers set above dark green (tinged purple) leaves in early spring.

Anemone ranunculoides flore plena Fall only 10cm pot \$6.00ea
Ht.15cm. Z4. This spreading woodland beauty has deep golden yellow double flowers set above dark green (tinged purple) leaves in early spring. Fall only.

Anemone rivularis 1gal \$10.00ea
Ht. 40cm. Z6. This wonderful anemone has white flowers with a metallic blue reverse and blue anthers.

Anemone sp? \$15.00ea
Ht.15-20cm. Z? We have no idea what this really is. It looks like a larger, more robust form of *Anemone nemorosa* Robinsoniana with larger flowers that have some darker streaking on the reverse. It has been suggested that it might be a form of *Anemone oregonum*. This form is very slow to multiply. We have been growing it for more than 30 years in our garden.

Anemone sylvestris 'Macrantha' 1gal \$9.50ea
Ht.15-30cm. Z4. Very vigorous form with large white, yellow centered flowers. Leaves basal and shaggy pubescent.

Anemone tomentosa 'Robustissima' 1gal \$9.50ea
Ht. 100-120cm. Z3. Light pink flowers in open cymes bloom in August to September. This is the hardiest and most vigorous of the autumn anemones. Prefers semi-shade in humus soil.

Anemone trifolia 10cm pot \$13.00ea
Ht.15-20cm. Z6. A small spreading Anemone from Yugoslavia with trifoliate leaves and crisp white flowers. From a slender rhizome. Plant in shade to part sun.

Anemone x lipsiensis (A. x seemanii) 10cm pot \$5.00ea
Ht. Z4. A natural hybrid of *A. ranunculoides* and *A. nemorosa* that has pale yellow flowers.

Anemonopsis macrophylla \$27.00ea
Ht.50-80cm. Z4. Waxy nodding flowers held above dark glossy green feathery foliage on black wiry stems. Flowers made up of an outer ring of 7-10 sepals that are a light lavender purple and an inner ring of 10 petals that are light lavender-purple with darker purple tips. A summer bloomer for the woodland garden.

Anometheca laxa \$5.00ea
Ht.15-30cm. Z8. An Iris-like perennial which arises from a small corm. Flowers are typically red but may range from white to pale blue.

Perennials

Antennaria umbrinella Woolly pussytoes 10cm pot \$4.00ea
Native. Ht. 1-3cm. Fl. Ht.15-20cm. Z1. Beautiful grey wooly leaves are mat forming; a most attractive ground cover in sun.

Anthriscus sylvestris 'Ravenswing'1gal \$10.00ea
 Ht.45cm. Z4. Esteemed for its dark, luscious, plum-colored fern-like mounding foliage. White blooms and pink bracts. Best colour in the sun.

Aquilegia formosa Red Columbine 10cm pot \$3.50ea
 1gal \$9.50ea
Native. Fl.Ht. 40-60cm. Z5. Nodding red and yellow flowers with reddish spurs. Shade to semi-shade.

Arisaema amurense \$15.00ea
 Ht.45cm. Z4. White spathe striped dark purple. An outstanding Cobra Lily seldom offered. Native to China. Young tubers.

Arisaema candidissimum \$29.99ea
 Ht. 40cm. Z3. Probably the most sought after Arisaema. Lower spathe green striped white, upper portion pink striped white rarely all white. Sprouts very late in the season and is quite fragrant to Men but rarely to Women.

Arisaema concinnum \$20.00ea
 Ht. 100cm. Z6. An unusual Himalayan species that has a stoloniferous rootstock spreading to form showy colonies. Each plant has an umbrella-like leaf with extended drip tips on the ends of the leaflets. The flower is either green or dark purple with lighter white stripes. Nice tubers.

Arisaema consanguineum Consanguineus Cobra Lily \$10.00
 Ht.50-100cm. Z7-8. Spathe, purple-brown in color striped white, limb (lid) is purple-brown narrowly striped white with tip elongated into a thin thread. Occasionally the spathe is greenish suffused brown with white stripes. A single leaf is dissected into 10 to 20 or more leaflets, each leaflet has a drooping thread-like tip on a wonderful snakeskin mottled stem.

Arisaema dracontium Green Dragon.....\$7.50ea
 N.A.Native. Ht.60-80cm. Z4. This species produces a single compound leaf 60-80cm in height with 6-12 lobes and a hooded green flower spathe with a long ascending green spadix.

Arisaema fargesii.....\$24.99ea
 Ht.60-90cm Z5-6. Large tripartate leaves like *A. candidissimum* and it also emerges late in the season sometimes not till mid June. Showy black purple spathe with white stripes. Young tubers.

Arisaema intermedium biflagellatum\$14.95ea
 Ht.? Z7-8. Spathe is green purple, the spadix is white, curved upwards from a purple base and terminates in a long slender tail up to 100cm. Young tubers.

Arisaema griffithii Griffith's Cobra Lily \$20.00ea
 Ht. 30cm. Z6-7. A wide but twisted deep violet-purple spathe with white and green stripes produced just above ground level. The leaflets are ornamented with yellow, red or purple margins which become more accentuated by fall. This one is incredible and definitely one of the most unusual Arisaema. Blooms April-May.

Arisaema intermedium \$20.00ea
 Ht.45-60cm. Z6. This species from the western Himalayas has one or two leaves with three leaflets. The leaves are unusual for their velvety texture. The flower is green and white with long, thread-like spadix which can be more than three feet long. Blooms in late spring.

Arisaema jacquemontii \$16.99ea
 Ht.20-70cm. Z6. Spathe held above the foliage with upward pointing appendage, usually green in color, often striped white. Does well in the rock garden.

Arisaema kiushianum Japanese Cobra Lily \$18.00ea
 Ht. 45cm. Z5. One of my favourite Arisaema from Japan with a dark purple spathe with white markings and a dark tail like spadix. The single leaf is divided into 7-13 leaflets. Plant in well drained soil in shade to part shade. Does well on the wet coast. Special three for \$45.00

Arisaema sazensoo Japanese Cobra Lily \$24.00ea
 Ht. 45cm. Z5. Often incorrectly listed as a synonym of *A. sikokianum*. The spadix lacks the bulbous end and the hood of the spathe droops down over the spadix whereas it stands upright in *A. sikokianum*. The name is from "sazen" as one is reminded of a monk bowed in meditation.

Arisaema serratum Giant Japanese Cobra Lily \$20.00ea
 Ht. 150 cm. Z5. Spathe green to dark purple. Pale green stem mottled with purple brown. We are offering nice large tubers of this showy plant.

Arisaema sikokianum \$30.00ea
 Ht. 15-40cm. Z5. Spathe deep purple-brown with white club shaped spadix. Spadix is completely exposed, making this a unique and showy Arisaema. As they mature most will develop silver white markings on the leaves. This is one of the showiest species. This is the real thing from Japan, not the imposter from China. For spring we offer large tubers.

Arisaema triphyllum Jack-in-the-Pulpit..... \$7.50ea
 N.A.Native. Ht.40-60cm. Z4. Two large, three parted leaves. Spathe, purple or bronze with greenish white stripes, followed by red berries in clusters.

Arisaema tortuosum Tortuous Cobra Lily..... \$12.95ea
 Ht. 100-150cm. Z7. Spathe usually green rarely purple, spadix twisted and protrudes from the mouth of the spathe and tapers to a long green erect tail-like tip. Blooms in summer.

Arisaema urashima..... \$22.00ea
 Ht. 25-50cm. Z5. Spathe has a white striped base with dark bronze-purple blade that folds over the top. One to two divided leaves. Large tubers

Arisarum proboscideum Mouse Plant.....10cm pot \$4.00ea
 Ht.5-8cm. Z7. Spathe erect, gray white beneath and dark brown above, drawn out to a long, ascending tail-like apex. From naturally small tubers.

Armeria maritima 'Sea Thrift'.....\$3.50ea
Native. Ht.20cm. Z3. Pink pom pom flowers atop grass like foliage. Very showy.

Perennials

Arum dracunculus(*Dracunculus vulgaris*)..... 1gal \$9.50ea
Ht. 80-100cm. Z8. Divided leaves with curled up edges. Crimson-red spathe with wavy edges and a very dark black-red spadix. Blooms in June or July. Scarlet red berries last into the fall. This striking plant likes a sunny spot.

Arum italicum 'Pictum' 11cm pot \$5.00ea
Ht.15-25cm. Z4-5. A dwarf form with white mottled leaves and orange-red fruits.

Arum dioscoridis var. dioscoridis..... \$15.00ea
Ht. 25cm Z 8. A species with nice dark green wintergreen foliage and a dark maroon black spathe with a yellowish spadix. See the picture on the inside cover.

Aruncus aethusifolius Goatsbeard 1gal \$9.50ea
Ht. 20-30cm. Z3. Forms a compact mound of foliage above which are held clusters of white flowers in summer. Full sun to part shade.

Aruncus dioicus 'Kneiffii' Goatsbeard..... 1gal \$12.00ea
Ht.60cm. Z2. Very deeply cut glossy green foliage topped with airy plumes of creamy white flowers.

Aruncus Misty Lace Misty Lace Goatsbeard..... 1gal \$15.00.ea
Ht.75cm. Z2. A compact new hybrid that has pure white blooms and a compact habit. Very tolerant of heat and humidity.

Aruncus sylvester Goatsbeard..... 1gal \$9.50ea
Native. Ht. 1.5-2m. Z4. Long, feathery, creamy white blooms (Astilbe-like) with attractive divided foliage. Blooms June to July. Full sun to shade.

Asarum arifolium Evergreen Wild Ginger..... 10cm pot \$4.50ea
N.A.Native. Ht. 5-10cm. Z4-5. Evergreen. Triangular dark blue-green leaves splashed in variable patterns of grey and silver. Flowers red-brown and about 3cm long. This is one of the easiest and toughest of the gingers. Makes a great groundcover over time.

Asarum canadense Wild Ginger 10cm pot \$4.50ea
N.A.Native. Ht. 5-10cm. Z3-4. Deciduous. Light green, hairy, heart shaped leaves make this a particularly attractive ground cover for shade to part sun. Flowers are tubular and brown red.

Asarum caudatum 10cmpot \$5.00ea
Native. Ht. 10-20cm. Z4. Deciduous. Large, light green heart shaped leaves make this a great ground cover for shade for those with patience as it is slow.

Asarum europeanum \$6.00ea
Ht.10cm Z4-5. A fantastic slow spreading evergreen groundcover with rounded dark green glossy leaves. Plant in shade to part sun. Always a favorite.

Asarum forbesii..... \$20.00ea
Ht. Z. Long arrowhead shaped foliage most often veined with pewter. The flowers are chocolate/purple with a white centre.

Asarum hartwegii..... 10cm pot\$7.50ea
Native. Ht.15cm Z5. A lovely semi-evergreen Ginger with marbled leaves. This is a very slow growing beautiful shade perennial. We offer small 3 year old plants.

Asarum speciosum.....\$11.99ea
N.A.Native. Ht. 15-25cm. Z5. This species comes from a very limited area of Alabama. Large variable mottled arrow shaped leaves form tight tufted clumps. Large black and cream flowers appear in spring. Young plants.

Asarum Splendens Select..... 10cm pot \$7.00ea
Ht.10-16cm. Z5. Evergreen. This surprisingly hardy plant has large heart shaped leaves splashed with vivid silver markings. Flowers large and dark purple.

Asclepias incarnata 'Ice Ballet' 1gal \$9.50ea
N.A.Native. Ht. 80-120cm. Z3. Stems branched. Flowers white, scented vanilla. Plant in open sunny area with lots of water. Great around ponds etc.

Asclepias incarnata 'Soul Mate' 1gal \$9.50ea
N.A.Native. Ht. 80-120cm. Z3. Stems branched. Flowers off white to light pink set off by deeply red colored bract, scented vanilla. Plant in open sunny area with lots of water. Great around ponds etc.

Asclepias speciosa Showy Milkweed..... 10cm pot \$5.00ea
N.A.Native. Ht.50-75cm. Z3. Tall stalks of gray-green leaves and rose-pink colored fragrant flowerheads in spring to summer. Host plant for the Monarch Butterfly.

Asclepias tuberosa 'Hello Yellow' 1gal \$10.00ea
N.A. Native. Ht.50cm. Z3. A wonderful strain of Milkweed with golden yellow flowers. Drought tolerant and a butterfly attractant.

Aster subspicatus Douglas Aster..... 1gal \$9.50ea
Native. Ht.50-90cm. Z2. A relatively large aster with large flowers from bluish purple through to rosy purple. This species ranges from Alaska to Northern California. Blooms in summer.

Aster eatoni 1gal \$9.50ea
Native. Ht.60-120cm. Z. A pretty native aster with purplish blue flowers displayed in tall inflorescence. Sun to partial shade.

Aster chilensis.....gal \$9.50ea
Native. Ht.2.5-7.5cm. Z. Low carpet-like spreading aster has violet flowers with yellow centers in spring. Can tolerate drought and prefers full to part sun.

Aster foliaceus Leafybract Aster. 1gal \$9.50ea
Native. Ht.15-60cm. Z. This aster is quite variable in height and produces flowers that can range in colour from violet, purple, blue or rose with a yellow center.

Asteropyrum peltatum \$30.00ea
Ht.15-30cm. Z6. A rare evergreen species from China with 5 lobed hepatica-like leaves that have a lighter green reticulated pattern. Single white hepatica-like flowers are held just above the foliage. Shade to part sun in well drained soil.

Astilbes

Astilbes are herbaceous perennials with feathery, plume-like flowers set above mounds of fern-like foliage. Foliage is half to two-thirds the height of the flowers. All are very easy to grow in shade to part sun in humus-rich soil. Bloom time: Early (early June), Mid (late June to early July), Late (July to early August).

Perennials

Astilbe x arendsii 'Amethyst' 1gal \$9.50ea
Flower Ht. 90-100cm. Z3. Blooms lilac-lavender, mid season.

Astilbe x arendsii 'Bressingham Beauty' 1gal \$9.50ea
Flower Ht. 90cm. Z3. Blooms rich apricot pink, mid season.

Astilbe x arendsii 'Bridal Veil' 1gal \$9.50ea
Flower Ht. 70cm. Z3. Blooms with crisp white loose plumes, mid season.

Astilbe x arendsii 'Cattleya' 1gal \$9.50ea
Flower Ht. 100cm. Z3. Blooms deep rose, late season.

Astilbe x arendsii 'Fanal' 1gal \$9.50ea
Flower Ht. 60cm. Z3. Blooms deep red, mid season.

Astilbe x arendsii 'Erica' 1gal \$9.50ea
Flower Ht. 90cm. Z3. Blooms light pink, new foliage burgundy red turning to dark green as it ages, mid season.

Astilbe x arendsii 'Gertrud Brix' 1gal \$9.50ea
Flower Ht. 60cm. Z3. Blooms bright red, mid season.

Astilbe x arendsii 'Hyacinth' 1gal \$9.50ea
Flower Ht. 100cm. Flowers are a dark lilac pink in mid season.

Astilbe x arendsii 'Jump & Jive' 1gal \$9.50ea
Flower Ht. 60cm. Z4. Nice compact dark green foliage with floriferous deep pink red blooms. Great for growing in a pot.

Astilbe x arendsii 'Weisse Gloria' 1gal \$9.50ea
Flower Ht. 80-100cm. Z3. Blooms pure white, late season.

Astilbe x chinensis 'Milk and Honey' 1gal \$9.50ea
Flower Ht. 75cm. Z3. Showy flower plumes emerge creamy white and age to soft pink. Foliage is lightly mottled with silver when young. As with other chinensis varieties, this one is more tolerant of sun and drier conditions than other astilbes.

Astilbe x chinensis 'Pumila' 1gal \$9.50ea
Flower Ht. 30cm. Z5. Blooms lilac blue, late season.

Astilbe x chinensis var. *taquetii* 1gal \$9.50ea
Flower Ht. 50cm. Z5. Blooms dark red, late season.

Astilbe x chinensis var. *taquetii* 'Superba' 1gal \$9.50ea
Flower Ht. 120cm. Z5. Blooms lavender purple, late season.

Astilbe x chinensis 'Vision in Red' 1gal \$9.50ea
Flower Ht. 45cm. Z3. Sweetly fragrant purplish red blooms on red stems above bronze green foliage.

Astilbe x chinensis 'Vision in White' 1gal \$9.50ea
Flower Ht. 45cm. Z3. Sweetly fragrant white flowered new introduction.

Astilbe x crispa 1gal \$9.50ea
Flower Ht. 25cm. Z5. Blooms lilac blue, very late season. Very similar to 'Pumila' but blooms a little later and is a touch darker.

Astilbe x crispa 'Lilliput' 1gal \$9.50ea
Flower Ht. 20cm. Z3. A gorgeous dwarf astilbe with salmon pink flower plumes above crinkly dark green foliage.

Astilbe x crispa 'Perkeo' 1gal \$9.50ea
Flower Ht. 20cm. Z3. A tiny dwarf astilbe with hot pink flower plumes above crinkly dark green foliage with a hint of bronze.

Astilbe glaberrima 10cm pot \$5.00ea
Ht. 6-8cm. Fl.Ht. 10-15cm. Z6. This exceptional dwarf species has deep green leaves tinted red beneath and recurved edges. Flowers mauve, tipped white. Great for the rock garden or the edge of the border. More sun tolerant than other astilbes.

Astilbe x japonica 'Avalanche' 1gal \$9.50ea
Flower Ht. 50-60cm. Z5. Blooms pure white, mid season.

Astilbe x japonica 'Bonn' 1gal \$9.50ea
Flower Ht. 50-60cm. Z5. Blooms carmine red, late season.

Astilbe x japonica 'Europa' 1gal \$9.50ea
Flower Ht. 50-60cm. Z5. Blooms light pink, early season.

Astilbe x japonica 'Deutschland' 1gal \$9.50ea
Flower Ht. 60cm. Z5. Blooms pure white, mid season.

Astilbe x japonica 'Koln' 1gal \$9.50ea
Flower Ht. 45cm. Z5. Blooms deep pink, mid season.

Astilbe x japonica 'Mainz' 1gal \$9.50ea
Flower Ht. 50cm. Z5. Blooms lilac pink, early season.

Astilbe x japonica 'Peach Blossom' 1gal \$9.50ea
Flower Ht. 60cm. Z5. Blooms salmon pink, mid season.

Astilbe x japonica 'Rheinland' 1gal \$9.50ea
Flower Ht. 60cm. Z5. Blooms bright pink, mid season.

Astilbe x japonica 'Vesuvius' 1gal \$9.50ea
Ht. 60cm. Z5. Dark red-pink in mid season.

Astilbe rivularis myrantha 1gal \$9.50ea
Flower Ht. 50-150cm. Z6. Blooms are pink and have larger and broader panicles than other astilbes. Flowers in late August.

Astilbe simplicifolia 'Bronze Elegance' 1gal \$9.50ea
Flower Ht. 30cm. Z6. Salmon pink blooms, Bronze foliage.

Astilbe simplicifolia 'Hennie Graafland' 1gal \$9.50ea
Flower Ht. 30cm. Z6. Blooms pale shell pink, late season. Can tolerate more sun than other astilbes.

Astilbe simplicifolia 'Key West' 1gal \$9.50ea
Flower Ht. 15cm. Z3. Very prolific blooms of pink-red above gorgeous dwarf dark burgundy/green foliage.

Astilbe simplicifolia 'Sprite' 1gal \$9.50ea
Flower Ht. 30cm. Z6. Blooms soft pink, late season. Can tolerate more sun than other astilbes.

Astilbe simplicifolia 'White Sensation' 1gal \$9.50ea
Flower Ht. 45cm. Z3. Bright white blooms above bronze/green foliage. Late season.

Astilbe thunbergii 'Ostrich Plume' 1gal \$9.50ea
Flower Ht. 75-85cm. Z6. Blooms soft salmon pink in open drooping panicles, mid season.

Perennials

Astilboides tabularis 1gal \$9.50ea
Ht.90cm. Z3. This is a great large, bold perennial to plant pondside or in a cool, shady part of the garden. Huge, rounded, tropical looking leaves are accented with tall spikes of astilbe-like creamy white flower plumes in late spring to early summer.

Astrantia carniolica 'Rubra' Masterwort 1gal \$9.50ea
Ht. 20-30cm. Z5. Simply an old fashioned perennial that never goes out of fashion. The deep pink buds first appear in June, and as they open, the bracts remain a deep reddish pink both inside and out, with attractive veining.

Astrantia major Masterwort 1gal \$9.50ea
Ht. 50-60cm. Z5. A good summer blooming perennial with greenish pink flowers in clusters that are surrounded by pinkish green bracts, giving a star-like effect. Sun to semi-shade.

Astrantia major 'Buckland' 1gal \$9.50ea
Ht.60cm Z3. This selection has very large creamy flowers.

Astrantia major 'Hadspen Blood' 1gal \$12.50ea
Ht.75cm Z3. Very vigorous form with nice mounding habit and blood red flowers. Blooms freely all summer.

Astrantia major 'Lars' 1gal \$9.50ea
Ht.80cm. Z3. This selection has totally red flowers.

Astrantia major 'Lola' 1gal \$12.50ea
Ht.60cm Z3. Nice mounding habit and large dark pink buds which open to pink flowers. Blooms freely all summer.

Astrantia major 'Magnum Blush' 1gal \$12.50ea
Ht.60cm Z3. Very vigorous form with nice mounding habit and large dark pink buds which open to lovely ivory flowers blushed pink. Blooms freely all summer.

Astrantia major 'Pink Pride' 1gal \$10.00ea
Ht.60cm Z3. A new variety with pink flowers set in silvery bracts.

Astrantia major 'Roma' 1gal \$12.00ea
Ht.60cm Z3. This continuous bloomer has light red flowers with silvery pink bracts.

Astrantia major 'Ruby Wedding' 1gal \$10.00ea
Ht.60cm Z3. Lovely clusters of ruby red flowers bloom freely all summer and again in fall.

Astrantia major 'Silver Glow' 1gal \$12.00ea
Ht.60cm Z3. Glowing silvery white to pale greenish flower bracts. Blooms freely all summer.

Astrantia major 'Star of Beauty' 1gal \$10.00ea
Ht.60cm Z5. Showy bracts with burgundy-purple edges and a glowing white center. Blooms freely all summer.

Astrantia major 'Star of Heaven' 1gal \$10.00ea
Ht.60cm Z3. Lovely white flower bracts with green tips and an unusual red accent in the center. Blooms freely all summer.

Astrantia major 'Star of Summer' 1gal \$13.50ea
Ht.40cm Z3. Purple red flowers with a white interior. Blooms freely all summer.

Astrantia major 'Sunningdale Variegata' 1gal \$10.00ea
Ht.70cm Z3. Distinctive silver to soft pink blooms rise above large pointed leaves marked with cream and yellow. Blooms freely all summer.

Astrantia 'Temptation Star' Masterwort 1gal \$12.50ea
Ht. 50cm. Z3. Lovely lavender pink flowers with pale centers.

Balsamorhiza deltoidea \$9.50ea
Native. Ht.20-90cm. Z3-4. This rare native has large long stalked triangular leaves and big sunflower-like yellow flowers making it a showy perennial for open sites.

Balsamorhiza sagittata \$9.50ea
Native. Ht.20-60cm. Z3-4. Large arrow shaped leaves and large yellow sunflower-like flowers. This plant prefers an open woodland setting.

Balsamorhiza macrophylla \$9.50ea
Native. Ht.20-90cm. Z3 This Utah native has showy yellow flowers.

Baptisia australis False Indigo 1gal \$10.00ea
N.A.Native. Ht.95cm. Z3. Large perennial with clear violet-blue flowers. Plant in well drained soil in full sun to part shade.

Baptisia 'Purple Smoke' 1gal \$12.00ea
N.A.Native. Ht.90cm. Z3. Smoky purple blooms above silvery foliage.

Beesia calthifolia \$20.00ea
Ht.15-30cm. Z6. A rarely offered evergreen perennial from China with gorgeous glossy heart shaped leaves intricately covered with a network of lighter green veination. Leaves turn a purple-red in winter. Small white flowers in short racemes on purple stems displayed above the foliage. Shade to part sun in well drained soil. Showy year round.

Begonia grandis 10cm pot \$6.00ea
Ht.60-80cm. Z6. A hardy begonia with fragrant pink flowers and olive green leaves with red veins and red beneath. Plant in shade to part sun, mulch in Zone 5 for winter protection.

Begonia grandis alba \$6.00ea
Ht.60-80cm Z6. A white flowered form of this hardy begonia.

Begonia sinensis Hardy Begonia \$6.00ea
Ht.40cm. Z7. Creamy pink flowers over vibrant foliage. Prefers part sun in rich, well drained soil.

Belamcanda chinensis Blackberry Lily \$9.50ea
Ht.75cm. Z5. This unusual member of the Iris family has bold fan shaped leaves topped with striking orange flowers with darker red spots. When the seed capsules split open they reveal shiny black seed clusters (hence the common name). Prefers a partly shaded to fully sunny spot.

Bergenia 'Baby Doll' 1gal \$9.50ea
Ht. 30cm. Z2. Evergreen. Large rounded, fleshy, somewhat serrated green leaves. Good soft pink flower which darkens so that each plant has flowers with several shades of pink. Blooms in April to May. Prefers sun to part shade in any soil.

Perennials

Bergenia 'Bressingham White'..... 1gal \$10.00ea
Ht.40cm. Z2. Evergreen. White bell shaped flowers mature to soft pink. Large deep green leaves with copper-red highlights.

Bergenia 'Eden's Dark Margin'..... 1gal \$13.50ea
Ht.30cm. Z2. Evergreen. Purplish-red flowers with leathery maroon-green foliage with a fine pencil line of red on the edges.

Bergenia 'Eroica'..... 1gal \$10.00ea
Ht.40cm. Z2. Evergreen. Deep pink-red blooms with large deep green leaves with copper-red highlights.

Bergenia 'Winterglut'..... 1gal \$9.50ea
Ht.45cm. Z2. Thick clusters of florescent red flowers and dark green foliage. Fantastic red fall highlights

Bloomeria crocea..... \$3.50ea
Native. Ht. 30cm. Z 8. This California native bulb blooms in spring with dense umbels of golden yellow flowers. Naturalizes well in well drained soil.

Boykinia elata 1gal \$10.00ea
Native. Ht. 30cm. Z 7. A mounding perennial with attractive maple like leaves and clusters of white flowers.

Brodiaea coronaria Harvest Brodiaea..... 10cm pot \$5.00ea
Native. Ht. 20-30 cm. Z8. Starlike bluish-violet to lilac flowers with light colored throat. Blooms June-July. Very narrow grass-like leaves. Mature bulbs are small, pea-sized.

Brunnera 'Looking Glass' \$15.75ea
Ht. 45cm.Z2. The foliage of this sport of B. Jack Frost emerges apple-green with silvery foiling and ages to stunning completely silver. Blue forget-me-not-like flowers in spring.

Brunnera macrophylla 1gal \$9.50ea
Ht. 10-20cm. Z4. Blue, forget-me-not-like flowers appear in May til June. Leaves bright green and heart-shaped. Prefers shade to semi-shade but will thrive in sun if soil is moist.

Brunnera macrophylla 'Hadspen Cream' 1gal \$15.00ea
Ht.35cm. Z2. This selection has green leaves with very thin yellow edges that mature to cream. A very stable variegation that does not revert. Plant in shade to semi sun in humus rich garden soil.

Brunnera macrophylla 'Jack Frost'..... 1gal \$15.00ea
Ht.35cm. Z2. This early spring bloomer produces stunning mounds of silver foiled foliage topped with sprays of blue.

Brunnera macrophylla 'Langtrees' 1gal \$15.00ea
Ht.35cm. Z2. This selection has green leaves with silvery spots and the typical blue flowers. Plant in shade to semi sun in humus rich garden soil.

Brunnera macrophylla 'Silver Wings' 1gal \$17.00ea
Ht.35cm. Z2. A very vigorous form with clear and regular silver markings on nice green foliage. Blue flowers. Plant in shade to semi sun in humus rich garden soil.

Brunnera macrophylla 'Variegata' 1gal \$15.00ea
Ht.35cm. Z2. This selection has green leaves with large clear white edges and purple blue flowers. Plant in shade to semi sun in humus rich garden soil.

Brunnera 'Mr. Morse'..... 1gal \$13.50ea
Ht.40cm. Z2. This selection has gorgeous green leaves each patterned distinctly with white marbling. Makes an excellent contrast plant with hostas, ferns and other shade lovers. Flowers are white.

Bulbocodium vernum 10cm pot \$5.00ea
Ht.10cm. Z4. Colchicum-like rosy purple flowers in early spring. This bulb makes a great companion for snowdrops or other early spring blooming plants and bulbs.

Calacia delphinifolia \$12.00ea
Ht.30-90cm. Z5. A shade plant from Japan with mounds of showy, shiny maple-like leaves. Tubular white flowers are held on racemes above the foliage. Good with Hostas and Ferns.

Calceolaria sp...... \$5.00ea
Ht. 10-20cm. Z6. An easy to grow white flowered calceolaria that spreads to make a nice small scale groundcover.

Camassias

Camas was an essential part of the diet of many groups of Native peoples throughout the plants range, but do not dig them in the wild to eat as an associated bulb 'Death Camas', is very poisonous. These onion-like bulbs multiply quickly, naturalizing well, and are best grown in sun to light shade. All species have star shaped flowers borne on a terminal flower spike.

Camassia cusickii Cusick's Camas 1gal \$9.50ea
Native. Fl.Ht. 80-120cm. Z5. Large bulbs up to 250 grams each! Multiplies freely. The tall stem carries sky blue flowers.

Camassia leichtlinii Great Camas 1gal \$9.50ea
Native. Fl.Ht. 80-120cm. Z5. Bulb is usually a little bigger than a golf ball. Flower is a deep, dark purple. Very showy.

Camassia leichtlinii alba White Great Camas 1gal \$10.00ea
Native. Fl.Ht. 80-120cm. Z5. Clear, clean white flowers make this a very striking plant. This is not white death camas, that is a different species.

Camassia leichtlinii 'Blue Danube' 1gal pot \$12.50ea
Native. Ht. 60-80cm. A nice selection with sea lavender blue flowers. Fall only.

Camassia leichtlinii 'San Juan' 1gal \$9.50ea
Native. Fl.Ht. 80-120cm. Z5. This form is a darker blue than the species and is found native throughout the San Juan and Gulf Islands.

Camassia leichtlinii 'Semi-plena' 1gal \$15.00ea
Native. Fl.Ht. 80-120cm. Z3. This is a rare semi-double flowered form with creamy white to yellow flowers.

Camassia quamash Common Camas 10cm pot \$3.50ea
Native. Fl.Ht. 30-70cm. Z5. Small bulbs, multiply very quickly. Flower color medium blue. Great for naturalising.

Camassia quamash 'Blue Melody' 10cm pot \$4.00ea
Native. Ht.20-30cm. Z5. A very striking garden selection with variegated foliage and blue flowers. Special 10 for \$35.00.

Perennials

Camassia quamash 'Orion' 10cm pot \$4.00ea
Native. Ht. 20-35cm. Z5. This selection has deep violet blue flowers. Smaller near bloom sized bulbs.

Camassia quamash 'San Jaun' 10cm pot \$4.00ea
Native. Fl.Ht. 30-70cm. Z5. Darker blue than typical.

Campanula sarastro \$9.50ea
 Ht.45cm. Z4. Strong, upright stems bear large bell shaped, hanging, icy deep purple blooms in summer. Deadheading will ensure multitudes of blooms. Prefers full sun to light shade.

Cardiocrinum giganteum \$23.99ea
 Young plants \$7.50ea
 Ht.200-300cm. Z5. From large bulbs. White trumpet shaped flowers, 15-20cm long with red throat are held in clusters of 10-20 atop giant leafy stems. Leaves are large, to 40cm long. The bulbs are monocarpic, they die after blooming but leave behind numerous bulblets which will bloom in 3-4 years. This spectacular flowering bulb is best in shade to part sun.

Caulophyllum thalictroides Blue Cohosh..... 1gal \$12.00ea
 N.A. Native. Ht. 30-75cm. Z 4-5. Bronzy divided foliage and bright blue fruits.

Cautleya gracilis (C.lutea) \$12.00ea
 Ht. 40-60cm. Z7. This Ginger relative from the Himalayan foothills of Kashmir has slender leaves and bright yellow flowers in terminal spikes followed by black fruit. .

Cautleya spicata \$12.00ea
 Ht. 40-60cm. Z7. This Ginger relative from the Himalayan foothills of Kashmir has slender leaves and yellow-orange flowers highlighted by bright red bracts in terminal spikes followed by black fruit.

Chaerophyllum hirsutum 'Roseum' 1gal \$10.00ea
 Ht.100-120cm. Z6. Showy pink umbels float above feathery finely cut foliage in the spring. Use as an bold accent plant in the woodland garden.

Chelone lyonii 1gal \$9.50ea
 N.A.Native. Ht. 60cm. Z4. This species of turtlehead has deep pink flowers in late summer to early fall. In spring the new emerging growth has a bronzy appearance fading to a luscious green. Full sun to full shade.

Chelone obliqua Turtlehead..... 1gal \$9.50ea
 N.A.Native. Ht. 40-60 cm. Z5. Deep rose flower spikes bloom August to October. Individual flowers resemble a turtles head with its mouth open. Lance shaped dark green glossy leaves. Excellent fall blooming perennial.

Chelone obliqua 'Alba' White Turtlehead 1gal \$9.50ea
 N.A.Native. Ht. 40-60cm. Z5. This selection has pure white flowers. Another great late season bloomer.

Chrysplenium sp. Golden Saxifrage \$5.00ea
 Ht.20cm. Z3. A great groundcover for shade with masses of yellow flowers in early spring.

Chloranthus serratus \$8.00ea
 Ht.20-35cm. Z4. A shade woodlander from Japan. Each stem typically has four leaves with twin spikes of small white flowers held above.

Cimicifuga acerina \$9.50ea
 Ht.60-80cm. Z5. Leaves all basal with long pointed lobes. White fragrant flower racemes to 35cm in length. Another great fall bloomer.

Cimicifuga racemosa 'Atropurpurea' 1gal \$12.99ea
 Ht. 125cm. Z4. This form has dark purplish leaves.

Cimicifuga racemosa var. cordifolia Black Snakeroot
 1gal \$9.50ea
 N.A.Native. Ht. 1.2-2m. Z4. Yellowish white to pale amber branched flower spikes on stiff, black, wiry stems bloom August to October. Exceptional fall bloomer. Fragrant. Prefers moist soil and full sun to semi-shade.

Cimicifuga ramosa 'Brunette' 1gal \$22.00ea
 Ht. 1-1.4m. Z4. An incredibly dark foliated form with a rich purplish black color. Very fragrant white flowers in summer.

Cimicifuga ramosa 'Pink Spike' \$22.00ea
 Ht.125cm. Z3. Spires of pinkish-white blooms atop deep purple foliage.

Cimicifuga simplex White Pearl Bugbane..... 1gal \$9.50ea
 Ht. 1-1.4m. Z4. Feathery fragrant white flower spikes bloom in August to October. Very effective when massed in a moist shady to semi-shade site.

Cimicifuga simplex 'Black Negligee' \$25.00ea
 Ht.150cm. Z3. Spires of pinkish-white blooms rise above dark purple foliage.

Cimicifuga simplex 'Hillside Black Beauty' 1gal \$30.00ea
 Ht. 1-1.4m. Z4. Creamy white flower plumes and contrasting near black foliage. Very effective when massed in a moist shady to semi-shade site.

Colchicum 'The Giant' \$3.50ea
 Ht.10cm. Z? Large lilac flowers with a white throat emerge in September from dormant bulbs. Thick strap shaped leaves emerge in early spring and go dormant by early summer.

Convallaria majalis Lily of the Valley \$4.00ea
 Ht.40cm. Z2. White fragrant flowers make this a popular ground cover.

Convallaria majalis Dorien \$4.00ea
 Ht.40cm. Z2. The best variety of Lily of the Valley for cutting with scented white flowers.

Convallaria majalis Flore pleno \$15.00ea
 Ht.40cm. Z2. Double white fragrant flowers.

Convallaria majalis Rosea Pink flowered Lily of the valley
 10cm pot \$6.00ea
 Ht.158-20cm. Z2. This form of lily of the valley has scented clear pink flowers.

Perennials

Convallaria majalis Variegata \$10.00ea
Ht.158-20cm. Z2. This form of lily of the valley has dark green leaves with numerous narrow bright yellow lines running the length of the leaf blade.

Cornus canadensis Bunchberry 10cm pot \$3.50ea
Native. Ht. 19-20 cm. Z2. Small white (typical dogwood like) flowers with greenish purple centres bloom atop clusters of ovate mid-green leaves and are followed by red berries. An excellent groundcover for peaty, woodland soils. Shade to semi-shade.

Coptis japonica var. dissecta \$8.00ea
Ht.20cm. Z4. A small evergreen woodland perennial from Japan with dissected fern-like foliage (looks like parsley). Stary flowers on dark reddish stems in early spring followed by pinwheels of reddish seed pods in fall.

Cortusa mattholi 10cm pot \$4.50
Z7. Fuzzy leaves, pink flowers on slender stalk in summer.

Corydalis

Attractive clumps of dainty divided leaves are similar to those of the closely related Bleeding Hearts. Clusters of spurred flowers are held slightly above the foliage. Effective in rock crevices and woodland gardens in shade to semi-shade.

Corydalis x allenii 10cm pot \$15.00ea
Ht.25cm. Z6. A rarely offered corydalis with large yellow flowers flushed with purple on the lip. From bulb.

Corydalis bracteata 10cm pot \$13.50ea
Ht. Z4. Large yellow flowering species from Siberia. From bulb.

Corydalis cava (C. bulbosa) 10cm pot \$5.00ea
Ht.15cm. Z6. Nice bluish purple flowers in April. From bulb.

Corydalis elata 11cm pot \$11.99ea
Ht. Z5-6. A wonderful new species similar to C.flexuosa but with darker blue flowers and broader leaves.

Corydalis flexuosa 'China Blue' 10cm \$5.00ea
Ht. 40cm. Z5. This form of C. flexuosa is slightly taller than 'Blue Panda' and the flowers are darker. Fragrant. Blooms all summer long in humus-rich soil in shade to semi-shade. Often summer dormant.

Corydalis flexuosa Award of Merit Form 10cm pot \$5.00ea Ht. 30cm. Z4. A form that has been awarded The award of merit by the RHS. in England. Clear blue flowers. Often summer dormant.

Corydalis flexuosa 'Pere David' 10cm pot \$5.00ea
Ht. 30cm. Z4. Another English selection with rich blue flowers. A real spreader with reddish purple leaf markings. For us this has been the best performing C. flexuosa as well as the one least likely to go dormant in the summer.

Corydalis flexuosa Purple leaved Form 10cm pot \$5.00ea
Ht. 30cm. Z4. Another English selection with rich blue flowers and reddish purple leaf markings. One of the best forms. Often summer dormant.

Corydalis paczoski 10cm pot \$9.60ea
Ht.10-15cm. Z6. Deep lilac pink flowers in early spring. From bulb.

Corydalis schanginii ssp. schanginii 10cm pot \$19.60ea
Ht.20cm. Z8. Large white flowers with pink spurs. Prefers well drained soil in a sunny location. From bulb.

Corydalis scouleri \$15.00ea
Native. Z6 Ht.to 1M. Lovely native perennial with grey green foliage and racemes of pink to white blooms in early summer.

Corydalis solida 'Beth Evans' 10cm pot \$12.00ea
Ht.15-25cm. Z6. A form with abundant soft pink flowers with a white throat. From bulb.

Corydalis solida 'Blushing Girl' 10cm pot \$12.50ea
Ht.15-25cm. Z6. Compact spikes of creamy-pink blooms. From bulb.

Corydalis solida 'Evening Shade' 10cm pot \$12.50ea
Ht.15-25cm. Z6. Very light blue almost white flowers. Rarely offered. From bulb.

Corydalis solida 'George Baker' 10cm pot \$17.00ea
Ht.25cm. Z6. From small bulbous tubers arise very showy red flowers. Forms a nice colony over time. From bulb.

Corydalis solida incisa 10cm pot \$10.00ea
Ht.15-25cm. Z6. A mix of the colours from the C. solida series. From bulb.

Corydalis solida 'Moonlight Shade' 10cm pot \$12.00ea
Ht.15-25cm. Z6. A very early flowering form with near white, slightly blue tinted flowers. From bulb.

Corydalis solida 'Penza Strain' 10cm pot \$5.00ea
Ht.15cm. Z4. A strain from Russia with an amazing array of colours from white, pink blue, purple to red. Forms nice colonies over time. From bulb.

Corydalis solida transylvanica strain 10cm pot \$11.50ea
Ht.15-25cm. Z6. Lovely reddish pink flowers. From bulb.

Corydalis quantmeyerana 'Chocolate Star' \$15.00ea
Ht. 25-40cm. Z5. A very interesting new plant with chocolatey colored foliage and white flowers.

Corydalis wendelboi 10cm pot \$16.50ea
Z9. A very compact plant with glaucous leaves in a basal rosette. Flowers are light pinkish white but tend to be variable in colour. From bulb.

Cosmos atrosanguineus Chocolate Cosmos 11cm pot \$7.00ea
Ht.60-90cm. Z6. An unusual tuberous perennial with dark maroon flowers with a strong chocolate aroma. These emerge late in the spring or early summer. The tubers can be lifted in cooler areas.

Crambe cordifolia Colewort 1gal \$9.50ea
Ht. 150-200cm. Z6. Enormous, rounded, irregularly toothed leaves create a large mound of dark greenery, above which arises a branching stem of numerous baby's breath-like fragrant flowers in summer. Plant in sun to light shade in sandy soil.

Perennials

Crocsmia 'Ember Glow' 1gal \$9.50ea
Ht.75cm. Z5. Vibrant burnt scarlet red blooms above gladiolus-like foliage. Plant in full sun.

Crocsmia 'Emily Mackenzie' 1gal \$9.50ea
Ht.40cm. Z7. Sword-shaped foliage and spikes of orange flowers with red accents. Plant in full sun.

Crocsmia 'George Davidson' 1gal \$9.50ea
Ht. 60-120cm. Z7. Sword-shaped foliage and spikes of canary yellow flowers. Forms large clumps in time.

Crocsmia 'Lucifer' 1gal \$9.50ea
Ht. 60-120cm. Z7. Sword-shaped foliage and spikes of brilliant red flowers. Forms large clumps in time.

Hardy Cyclamens

Tuberous rooted perennials. Grown for pretty white, pink, or rose flowers that resemble shooting stars (highly reflexed). Attractive leaves in basal clumps. Plant in shade to semi-shade in humus-rich soil. These are seed grown by us and offered as young plants with small tubers. Some species will have bloomed but some are not large enough yet.

Cyclamen cilicium 11cm pot \$7.50ea
Ht. 10-15cm. Z7. Fragrant, pale pink to purple with a red basal blotch. Blooms September to November. Rounded, green leaves with silver mottling appear in September to October. Undersides carmine-red. Easy to grow in shade to semi-shade in well drained humus-rich soil.

Cyclamen coum 11cm pot \$5.00ea
Ht. 10-15cm. Z6. Deep, crimson rose to pale pink flowers with a white eye at the base with a darker spot above it. Rounded, deep green leaves with dark green or silver markings; undersides red. Blooms January to April.

Cyclamen coum album 10cm pot \$8.00ea
Ht.10-15cm. Z6. These are seedlings grown from forms that have white flowers and a deep violet nose. Leaves plain green or lightly mottled. Blooms in late winter to early spring.

Cyclamen coum dark rose flowered form 10cm pot\$8.00ea
Ht.10-15cm. Z6. A uniform deep crimson rose color.

Cyclamen coum Patterned Leaved Form 11cm pot \$8.00ea
Ht.10-15cm. Z6. Deep, crimson rose to pale pink flowers with a white eye at the base with a darker spot above it. All have some silver or grayish marking on the leaves.

Cyclamen cyprium 10cm pot\$7.50ea
Ht.10-15cm. Z9. Olive green leaves are marbled with grey or creamy white above and flushed with crimson purple below. Sweetly fragrant white to pale pink flowers have a conspicuous magenta blotch towards the base of each lobe in the fall.

Cyclamen hederifolium = C.neapolitanum 11cm pot \$5.00ea
Ht.10cm. Z6. Large, green, ivy shaped leaves marbled silver and white. Rose to dark pink flowers with a dark spot at the base. Blooms August to October. After a few years these tend to naturalize (self sowing) making a beautiful groundcover for the winter and a great floral display in early fall.

Cyclamen hederifolium album 11cm pot \$9.99ea
Ht.10-15cm. Z6. A white flowered form of the species.

Cyclamen intaminatum Young Plant 10cm pot \$7.50ea
Ht.10-15cm. Z8. Lightly marbled green leaves with lighter green undersides sometimes marked with purple. Flowers are white to pale pink with grey venation.

Cyclamen pseudibericum Young Plant 10cm pot\$9.99ea
Ht.10-15cm. Z.7 Leaves larger than C.coum and heart shaped with grey-green or white markings. Flowers fragrant, vivid magenta, with a chocolate-magenta 'ace of spades'-shaped blotch towards the base of each lobe. Plant in open but protect from excess winter moisture or plant beneath shrubs or trees. Blooms in spring.

Cyclamen repandum Young Plant 10cm pot \$9.99ea
Ht.10-15cm. Z7. Leaves green variously marbled, banded or speckled with silver-white or grey-green. Flowers appear in spring with young leaves, usually fragrant. Pale to deep pink or carmine magenta with darker zone around mouth.

Cyclamen trochopteranthum 10cm pot\$9.99ea
Ht.10cm. Z7. A nice species with dark green rounded medium sized leaves that are marked with grey or grey-green. Fragrant flowers in the winter are pale pink to deep pink.

Cyperus papyrus Papyrus 1gal \$10.00ea
Ht.80-200cm. Z9. We could not resist growing this fascinating evergreen plant with its reed-like foliage and showy circular umbels of light green flowers on thread-like rays. Typically grown in moist areas or submerged but is surprisingly drought tolerant in the garden.

Cypripediumsee Hardy Orchid Section

Cynanchum ascyrifolium \$18.00ea
Ht.50cm. Z5. An attractive medium to large perennial from Japan that produces a well behaved clump. Waxy white flowers are produced in large loose racemes. Also known as the mosquito Trap as the flowers entrap mosquitoes and other small insects.

Darmera peltata Indian Rhubarb 1gal \$10.00ea
N.A. Native. Ht 60-70cm. Z5. Large, dark green, deeply lobed leaves, 30cm in diameter, occasionally to 60cm. Pink flowers appear before the leaves in clusters on a stout stem in April.

Darmera peltata Dwarf Form \$10.00ea
N.A. Native. Ht. 20-55cm. Z6. A dwarf form of this wonderful foliage plant with lovely deep lobed leaves and pink flowers in early spring. Grow it in lean soil.

Darlingtonia californica Cobra Lily \$12.00ea
Ht. 90cm. Z7. We offer young three year old seedlings of this wonderful showy Sarracenia-like carnivorous plant. Nice sturdy plants, 5-10cm tall. Plant in peat moss with a little sand in full sun. Never fertilise.

Deinanthef bifida \$12.99ea
Ht.20-40cm. Z4. This is a beautiful Hydrangea relative from China (and Japan) that grows to become a lovely, bushy shrub-like plant with each leaf divided in 2 at the tip. Pretty nodding white flowers are produced in the summer. Prefers moist, well drained loamy soil in shade to part sun.

Perennials

Deinanthë caerulea..... \$24.00ea
Ht.50cm. Z4. This is a beautiful Chinese Hydrangea relative that grows to become a lovely, bushy shrub-like plant with each leaf divided in 2 at the tip. Lovely nodding violet blue flowers are produced in the summer. Prefers moist, well drained loamy soil in shade to part sun.

Delphinium menziesii Menzies' Larkspur..... \$6.00ea
Native. Ht.20-75cm. Z3. From a small tuber arises this lovely larkspur with blue to purple flowers (occasionally yellow). It is usually associated with the grassy bluffs of Garry Oak meadows.

Delphinium nuttallii Upland Larkspur..... \$6.00ea
Native. Ht.20-60cm. Z4. From a small tuber arises this Larkspur with blue to purple (occasionally yellow) flowers. It is associated with Garry Oak meadows within its range.

Delphinium tricorne Dwarf Larkspur \$5.00ea
N.A.Native. Ht.45cm. Z4. Lovely small early blooming woodland perennial with finely cut foliage and clusters of dark blue to violet flowers. Grows from a very small tuber.

Dentaria diphylla Toothwort\$4.50ea
Ht. 10-20cm. Z6. Two leaves each divided into three lobes with white flowers held on slender stems above. Blooms in spring then goes dormant. Small fleshy tubers.

Dentaria laciniata\$4.50ea
Ht. 10-20cm. Z6. Clusters of pinkish white flowers rise above lacy dark green foliage in early spring. Arises from a small tuber. Plant in shade to sun in rich, well drained soil.

Dicentra 'Burning Hearts'.....\$15.00ea
Ht.25cm. Z3. A new hybrid with heart shaped, deep red flowers on arching stems above delicate blue-green ferny foliage.

Dicentra 'Candy Hearts'\$15.00ea
Ht.30cm. Z4. A new hybrid with pretty rose pink flowers on arching stems above delicate ferny foliage.

Dicentra 'Ivory Hearts'.....\$15.00ea
Ht.30cm. Z4. A new hybrid with pretty ivory flowers on arching stems above delicate ferny foliage.

Dicentra canadensis Squirrel Corn 10cm pot \$4.50ea
N.A.Native. Ht. 20-30cm. Z3. Fragrant flowers are white tinged mauve with yellow tips. Finely cut bluish basal leaves arise from small yellow tubers. Shade to part sun.

Dicentra cucullaria Dutchmans Breeches..... 10cm pot \$4.50ea
N.A.Native. Ht. 20-40cm. Z3. Glaucous, triangular leaves arise from small tubers. Pendulous flowers are white to pink with yellow tips and two inflated appendages. Flowers in April to May and goes into dormancy in early summer.

Dicentra eximia 'Alba' 1gal \$5ea
N.A.Native. Ht.30cm. Z3. Grey-green leaves and pure white flowers in early summer. Repeat blooming and heat tolerant.

Dicentra eximia 'Aurora'..... 1gal \$9.50ea
N.A.Native. Ht.30cm. Z3. Grey-green leaves and white flowers in early summer.

Dicentra eximia 'Luxuriant' Fringed Bleeding Heart 1gal \$9.50ea
N.A.Native. Ht. 25-40cm. Z3. Dark blue-green ferny foliage. Flowers dark cherry red. Blooms April to August. Semi-shade to full sun in humus-rich soil.

Dicentra eximia 'Snowdrift'..... 1gal \$12.00ea
N.A.Native. Ht.40cm. Z2. Grey-green leaves and white flowers in early summer. Repeat blooming and heat tolerant.

Dicentra formosa Western Bleeding-heart 1gal \$9.50ea
Native. Ht. 25-45cm. Z3. Rose pink, slightly reflexed heart shaped flowers extend above mounds of grey-green fern-like foliage. Thrives in shade to semi-shade in humus-rich soil.

Dicentra formosa 'Adrian Bloom'..... 1gal \$9.50ea
Native. Ht. 25-45cm. Z3. Narrow grey-green fern-like leaves. Flower crimson red. Habit and conditions same as for species.

Dicentra formosa 'Bacchanal'..... 1gal \$9.50ea
Native. Ht. 25-45cm. Z3. Grey-green fern-like foliage. Bright red flowers. Habit and conditions same as for species.

Dicentra formosa 'King of Hearts'..... 1gal \$12.00ea
Ht. 25cm. Z3. Deep pink flowers with greyish blue foliage.

Dicentra formosa 'Stuart Boothman'..... 1gal \$9.50ea
Native. Ht. 25-45cm. Z3. Smaller than the species with deep pink flowers on shorter stem and narrower leaflets.

Dicentra 'Red Fountain'..... 1gal \$15.00ea
Ht.30cm. Z4. Grey-green leaves and red flowers in early summer. Red fountain has a extended bloom period.

Dicentra spectabilis Common Bleeding Heart 1gal \$9.50ea
Ht. 60-80cm. Z3. Rose red heart-shaped flowers with glistening white protruding inner petals. Grey-green leaves. Blooms May and June. Humus-rich soil in shade to semi-shade.

Dicentra spectabilis alba White Bleeding Heart 1gal \$9.50ea
Ht. 60-80cm. Z3. A lovely pure white flowered form of *D. spectabilis*. Same conditions as species.

Dicentra spectabilis 'Gold Heart'..... 1gal \$15.00ea
Ht. 60-80cm. Z3. This selection has lovely golden yellow foliage and the same showy flowers. Foliage color is best in strong light.

Dichelostemma congestum 10cm pot \$4.00ea
Native. Ht.30-90cm. Z7-8. A nice native bulb with heliotrope blue flowers in early summer and grass-like leaves.

Dichelostemma ida-maia Firecracker Flower 10cm pot \$4.00ea
Native. Fl.Ht. 30-90cm. Z7. Bulb. Bright red tubular flowers with green tips in a loose cluster atop a tall stem.

Dichelostemma x venusta Pink Diamond..... 10cm pot \$4.00ea
Native. Ht.30-90cm. Z7-8. A nice native bulb with rosy magenta flowers with inner white segments.

Dichocarpum nipponicum (Isopyrum nipponicum)\$12.99ea
Ht.15-25cm Z6. This charming woodland species from Japan with divided leaves forms dense mounds, bearing pendant funnel-shaped creamy flowers often tinted purple-red at the base of the petals. Best in a leafy soil in full to part shade.

Perennials

Dictamnus albus albiflorus \$10.00ea
Ht. 60cm. Z2. Spikes of white lemon scented blooms.

Dictamnus albus rosea \$10.00ea
Ht. 60cm. Z2. Spikes of purple-pink lemon scented blooms.

Dierama dracomontanum 10cm pot \$3.50ea
Ht. 30-100. Z8. Flowers pale to deep rose pink, purple, pink, deep coral on arching stems.

Dierama igneum 10cm pot \$3.50ea
Ht. 45-90cm. Z8-9. Similar to *D. pulcherrimum*. These are seedlings grown from a form with tomato red bell shaped flowers.

Dierama parviflorum 10cm pot \$3.50ea
Ht.40-85cm. Z8. A nice *Dierama* with light to dark pinkish-mauve bell shaped flowers. Foliage is often absent at the time of flowering.

Dierama pulcherrimum Angel's Fishing rod 10cm pot \$5.00ea
Ht.90cm Z8. From a corm come grass-like leaves with arching flower stems bearing deep magenta bell shaped flowers. Multiplies into large showy clumps.

Diphylleia cymosa Umbrella leaf..... \$15.00ea
N.A.Native. Ht.30-75cm. Z5 A bold perennial with large glossy green umbrella like leaves up to 50cm wide. Clusters of white flowers are followed by blue fruits held above the foliage on red stems.

Diphylleia grayi Japanese Umbrella Leaf 12cm pot \$30.00ea
Ht.30-60cm Z5. Clusters of white flowers held above large twin leaves followed by blue fruits. Great addition to the woodland garden.

Diaspananthus uniflorus \$16.00ea
Ht.50cm. Z4. One of only two species in this genus both found in Japan. It forms rosettes of deeply lobed palmate leaves to 15 cm across, with tall arching inflorescences topped by numerous burgundy-purple flowers each with five whorled and recurved rays and a central protruding bundle of stamens and pistil. Shade to part shade.

Disporopsis perneyi 11cm pot \$6.00ea
Ht. Z5-6. This is an evergreen relative of *Disporum* with white bell shaped flowers and bluish black fruit. Part shade to shade in humus-rich soil. Grows from a rhizome that looks like a string with knots in it. Another fine introduction from China.

Disporum cantoniense 11cm pot \$9.99ea
Ht. Z6. This is a wonderful *Disporum* with red or white elongated bell shaped flowers in clusters along branching stems. These are followed by blue fruit. We finally have some to sell.

Disporum flavens \$11.99ea
Ht.30-60cm. A wonderful woodland fairy bells from China with large showy yellow hanging bells in mid spring.

Disporum hookerii Hooker's Fairy Bells \$9.50ea
Native. Ht.100cm. Z7. A lovely woodland perennial with creamy white hanging bell shaped flowers in umbels. Followed by striking yellow to orange berries.

Disporum lanuginosum 11cm pot \$8.00ea
N.A.Native. Ht.50-90cm. Z5. Yellowish bells interspersed along branched stems followed by reddish orange fruits.

Disporum maculatum Spotted Fairy Bells \$10.00ea
Ht.30-60cm. Creamy white flowers covered in small purple spots. We were delighted to see these bloom this year.

Disporum sessile 'Awa no Tsuki' \$30.00ea
Ht.30-40cm. Z4. This absolutely beautiful, 'must have' *Disporum* cultivar comes to us from Shikoku Island, Japan. Rounded dark green leaves have a large golden yellow central variegation and are stunning in a shaded woodland garden where it will spread to make a lovely carpet. Pendant white flowers adorn this beauty in spring.

Disporum sessile variegata 'Cricket' \$20.00ea
Ht.5-10cm. Z4. This dwarf Fairy Bells from Japan is both beautiful and vigorous. Dark green foliage is strikingly contrasted with creamy white central markings. Makes a nice accent plant in the woodland garden.

Disporum sessile Variegatum 10cm pot \$8.99ea
N.A.Native. Ht.40-60cm. Z7. Flowers white, tips tinged green, solitary or clusters. Leaves broadly striped cream. An excellent variegated plant for the woodland garden.

Disporum smilacinum flore plena 10cm pot \$10.00ea
Native. Ht. 50cm. Z5. We are proud to offer this very rare plant with double creamy white flowers. Makes a slow spreading clump in shade to part sun in humus rich soil.

Disporum smilacinum 'Kino Tsukasa' \$20.00ea
Ht. 10cm. Z4. This showy cultivar from Japan has dark green foliage that is prominently marked throughout with yellow. It is easy to grow in a woodland setting in humus rich soil. The Japanese name translates to 'yellow umbrella'.

Disporum smilacinum Red Flower \$24.00ea
Ht. 40-50cm. Z4. A rarely offered reddish pink flowered form of this species from Japan.

Disporum smithii Large flowered FairyBell 10cm pot \$5.00ea
Native. Ht. 50-90cm. Z7. Large, 3cm, creamy bell-shaped flowers hang from the tips of branched stems and bloom in late spring; followed by brilliant orange, football-shaped berries. Plant in shade to semi-shade.

Dodecatheons

Shooting stars are herbaceous perennials with green leaves held in rosettes that dry up and disappear in early summer. The nodding cyclamen-like flowers resemble a shooting star streaking across the sky. All do best in half sun, half shade.

Dodecatheon alpinum Alpine Shooting Star 10cm pot \$4.00ea
Native. Ht. 20cm. Z4. An alpine species with pale lavender to deep magenta flowers.

Dodecatheon cusickii Cusick's Shooting Star 10cm pot \$4.00ea
Native. Flower Ht. 20-30cm. Z5. Leaves are pubescent giving them a grey green appearance. Flowers similar to *D.pulchellum* with a shorter heavier flower stalk.

Perennials

Dodecatheon dentatum White Shooting Star..... 10cm pot \$4.00ea
Native. Flower Ht.15-40cm. Z5. This Dodecatheon is unique in that it has toothed leaves and showy white flowers. Easy.

Dodecatheon hendersonii Broad-leaved Shooting Star
 10cm pot \$4.50ea
Native. Flower Ht. 30-50cm. Z5. Flowers deep purple to pale-pink with a ring of clear yellow at the base of each lobe. Leaves are unmistakable, being thick, shiny, smooth, broadly oval and pressed firmly to the ground. Exceptional.

Dodecatheon jeffreyii Shooting Star 10cm \$5.00ea
Native. Fl.Ht.30-50cm. Z4. Flowers deep red-pink to purple, with corolla lobe strongly reflexed. Narrow upright leaves.

Dodecatheon macrocarpum 10cm pot \$4.00ea
Native. Ht.20-50cm. Z4. A species most often considered to be a variety of *D.pulchellum*. A nice selection with fleshier leaves and predominantly dark magenta purple flowers.

Dodecatheon meadia alba 10cm pot \$4.00ea
N.A.Native. Flower Ht. 20-30cm. Z5. This a white form of the species that in some areas in nature is wide spread.

Dodecatheon pulchellum 10cm pot \$4.00ea
Native. Flower Ht. 20-50cm. Z4. Flowers bright rose-purple with a ring of deep-yellow at the base which is overlaid with a zig-zag trim of rose purple. Delightful.

Dodecatheon pulchellum '*Sooke*' Sooke Shooting Star
 10cm pot \$4.00ea
Native. Flower Ht. 20-35cm. Z5. This naturally occurring form found on Southern Vancouver Island has deep rose pink flowers on a stiffer more compact stem. Leaves thicker and more rounded than the species.

Dracocephalum parviflorum Dragon Head..... \$4.00ea
Native. Ht.90cm. Z7. Spikes of pale blue to violet flowers.

Dracunculus vulgaris (Arum dracunculus) 1gal \$9.50ea
 Ht. 80-100cm. Z8. Leaves divided with edges curled up. Crimson-red spathe with wavy edges and a very dark black-red spadix. Blooms in June or July. Scarlet red berries last into the fall. This striking plant likes a sunny spot in well drained soil.

Doronicum orientale '*Little Leo*' 1gal \$10.00ea
 Ht.40cm. Z2. Cheerful semidouble yellow daisies in abundance .

Drosera rotundifolia Round leaved Sundew.....\$7.50ea
Native. Ht. 3cm. Z6. Open cluster of long thin leaves tipped in a round end (spoon-shaped leaves) covered in bug and dew catching gland tipped hairs. Flowers white to pink. Insectivorous. Plant in peaty soil, keep slightly moist and do not fertilize.

Dysosma versipelle (Podophyllum versipelle) Fall only \$14.00ea
 Ht. Z. This Podophyllum relative is a wonderful new perennial introduction from China. We were amazed when we saw the plants that bloomed. The plant emerges and at 3-5cm branches into two or three stems with each stem carrying a single large, finely dentate, usually eight-sided leaf. The drooping flowers are carried on short stocks that emerge from where the leaves branch. This makes the flowers lie just above the ground but foliage is set so far above that they are easily seen.

Echinacea purpurea '*Baby White Swan*' 1gal \$9.50ea
 Ht.50cm. Z3. A compact sport of *E. purpurea* White Swan.

Echinacea purpurea '*Coconut Lime*' 1gal \$15.00ea
 Ht.55cm. Z3. Creamy vanilla petals with a double creamy green central cone.

Echinacea purpurea '*Double Decker*' 1gal \$9.50ea
 Ht.60cm. Z3. Large magenta pink flowers the first year. The second year produces a second flower atop the central brown cone giving a two tiered effect (double decker). Very unique.

Echinacea purpurea '*Fragrant Angel*' 1gal \$17.25ea
 Ht.75cm. Z3. Huge, fragrant white flowers.

Echinacea purpurea '*Green Envy*' 1gal \$15.00ea
 Ht.90cm. Z4. Unusual lime green flowers with rounded petals. As the flower matures, the base of the petals assumes a purple tone. Very cool!

Echinacea purpurea '*Harvest Moon*' 1gal \$15.00ea
 Ht.75cm. Z4. Pretty harvest yellow flowers.

Echinacea purpurea '*Hope*' 1gal \$15.25ea
 Ht.50cm. Z3. This selection has huge, highly fragrant soft pink flowers.

Echinacea purpurea '*Kim's Knee High*' 1gal \$12.00ea
 Ht.50cm. Z3. One of the few dwarf varieties with rosy pink blooms.

Echinacea purpurea magnus 1gal \$9.50ea
 Ht.90cm. Z3. Non-drooping petals of deep rose with a red center. Prefers full sun in well drained soil.

Echinacea purpurea '*Pink Double Delight*' 1gal \$15.00ea
 Ht.60cm. Z4. Gorgeous double pink blooms.

Echinacea purpurea '*Prairie Splendour*' 1gal \$9.50ea
 Ht.60cm. Z3. A very free blooming pink form with large flowers.

Echinacea purpurea '*Razzmatazz*' 1gal \$15.00ea
 Ht.90cm. Z3. A new introduction with fully double, pom-pom type flowers the same colour as the species. Quite unusual.

Echinacea purpurea '*Ruby Star*' 1gal \$9.50ea
 Ht.90cm. Z3. Intense ruby red petals held horizontally.

Echinacea purpurea '*Sundown*' 1gal \$15.00ea
 Ht.75cm. Z4. A brand new selection with enormous deep orange flowers.

Echinacea purpurea '*Sunrise*' 1gal \$15.00ea
 Ht.80cm. Z4. Fragrant, soft creamy yellow petals surrounding a central cone that begins green and changes to orange.

Echinacea purpurea '*Sunset*' 1gal \$15.00ea
 Ht.75cm. Z3. Rose scented, electric orange blooms with a ruddy brown central cone.

Echinacea purpurea '*Twilight*' 1gal \$15.00ea
 Ht.75cm. Z4. Amazing and unique hot rose pink flower petals surrounding a deep burgundy cone.

Perennials

Echinacea purpurea 'White Swan' 1gal \$9.50ea
Ht.80cm. Z3. White daisy-like blooms with an orange yellow center top this hardy perennial from July to September. Prefers full sun in well drained soil.

Echinacea 'After Midnight' 1gal \$15.00ea
Ht.40cm. Z3. This dwarf variety has intense rosy red flowers held on black stems.

Echinacea 'Mango Meadowbrite' 1gal \$15.00ea
Ht.100cm. Z4. Fragrant mango yellow coloured blooms.

Echinacea 'Orange Meadowbrite' (Art's Pride) 1gal \$15.00ea
Ht.75cm. Z4. Fragrant canteloupe-tangerine petals surrounding a dark rusty coloured central cone.

Echinacea 'Pixie Meadowbrite' 1gal \$15.00ea
Ht.45cm. Z4. A dwarf plant producing a profusion of pink blooms.

Echinacea 'Summer Sky' 1gal \$15.00ea
Ht.80cm. Z4. Very unusual bicolor tones of warm orange and bright pink make this a stunner.

Echinops ritro 'Veitch's Blue' Globe Thistle 1gal \$9.50ea
Ht.80cm. Z3. An excellent repeat blooming globe thistle with vivid dark blue flowers.

Ellisiophyllum pinnatum 10cm pot \$5.00ea
Ht.10cm. Z5. This is a rare creeping perennial with pinnate foliage and starry white flowers throughout summer and fall. Great woodland groundcover. Five for \$21.00

Eomecon chionantha Snow Poppy 1gal \$9.99ea
Ht.45cm. Z6. A rather interesting spreading woodland plant with scalloped heart shaped leaves and attractive clusters of single white flowers with a central boss of yellow anthers. Plant in shade to part sun in humus rich soil.

Epigaea repens Mayflower, Trailing Arbutus 11cmpot\$9.50ea
N.A. Native. Ht.5cm. Z2. A wonderful spreading groundcover for shade with highly fragrant clusters of soft pink flowers in early spring. Plants take a year or so to settle in.

Epimedium acuminatum 11cmpot \$15.00ea
Ht.25-40cm. Z5. Long narrow leathery leaves emerge pink tinted maroon. A rarely offered species from China with large inflorescence of dark lavender maroon petals and lighter white or pale yellowish tinted lilac sepals.

Epimedium 'Amber Queen' \$15.00ea
Ht.25-40cm. Z4. A new hybrid (*E.flavum* x *E.wushanense*). Deep yellow flowers, the back face of the sepals is red tinted, and the petals are speckled with red. As a result, the freely produced flowers appear pale orange - amber is an excellent description. Small Divisions

Epimedium 'Atlas' \$15.00ea
Ht.25-40cm. Z5. A new introduction by Free Spirit Nursery. A floriferous hybrid that forms a nice mounding clump with flowers held above the foliage. Likely one of the parents is *Epimedium brachyrrhizum*.

Epimedium 'Benichidori' 11cm pot \$14.99ea
Ht. 15-40cm. Z5 Large gorgeous incredibly dark pink-red flowers with long petal spurs that are white tipped.

Epimedium brachyrrhizum \$15.00ea
Ht.15cm. Z5. A short growing species with large rose-pink flowers nearly 5cm across. New leaflets may be mottled with deep purple markings that later turn dark green. A few small divisions.

Epimedium cantabrigiense 1gal \$10.00ea
Ht. 20-30cm. Z5. Semievergreen. Olive to brownish leaves. Flowers light yellow with reddish margins. Makes a good ground cover in light shade.

Epimedium chlorandrum \$18.00ea
Ht. 40-60cm. Z5. This evergreen *Epimedium* from China forms mounds of glossy green leaves. New growth in spring is often splashed with a wonderful red mottling. Large yellow flowers backed with white on long spikes of 30-60 flowers.

Epimedium davidii \$15.00ea
Ht. 15cm. Z5. Nice mass of low growing foliage with long spikes with rich yellow flowers with tiny inner red sepals. We offer only a few small divisions.

Epimedium diphyllum 'Roseum' \$10.00ea
Ht.30cm. Z5. Rosy pink flowers without spurs often rebloom.

Epimedium diphyllum 'Variegatum' \$20.00ea
Ht.20cm. Z5. White flowers are held above leaves variously mottled with flecks of white.

Epimedium epsteinii \$20.00ea
Ht.15-20cm. Z5. A new species with wide, pure white, sepals and striking reddish purple spurs and cup. Forms a nice low dense groundcover. We offer a few small divisions.

Epimedium 'Fire Dragon' \$15.00ea
Ht.25-40cm. Z4. A new hybrid (*E.davidii* x *E.leptorrhizum*). Large yellow flowers with deep pink sepals. Small Divisions.

Epimedium franchetti 'Brimstone Butterfly' \$25.00ea
Ht. 40-50cm. Z5. This evergreen species from China has incredibly showy mottled new growth and arching stems with spidery lemony yellow flowers.

Epimedium 'Fujinami' 1gal \$15.00ea
Ht. 20-40cm. Z5. This new Japanese variety has soft lavender flowers with wonderfully long spurs having the slightest hint of white at their tips.

Epimedium grandiflorum Longspur Barrenwort 1gal \$10.00ea
Ht. 40cm. Z5. Large, soft, purplish-pink flowers with long, white, downward curving spurs. Very showy. New growth bronzy red. Shade to semi-shade.

Epimedium grandiflorum 'Dark Beauty' \$20.00ea
Ht.20-30cm. Z4. New growth is a chocolate purple colour. Large flowers have dark rose inner sepals and white to flushed rose petals and spurs.

Perennials

Epimedium koreanum 'Harold Epstein' \$18.00ea
Ht.30cm. Z5. A clone that has huge butter yellow flowers and huge leaflets. Used to be considered *Epimedium grandiflorum* ssp. *Koreanum*. We offer only a few small divisions.

Epimedium grandiflorum var. higoense \$12.50ea
Ht.20cm. Z5. This small early blooming *Epimedium* is adorned with creamy white flowers. Blooms appear when the foliage is only 12cm high.

Epimedium grandiflorum 'Lilafée' 1gal \$10.00ea
Ht.15-25cm. Z4. A dwarf selection with lavender violet flowers and a clump forming habit.

Epimedium grandiflorum 'Nanum' \$12.00ea
Ht.10-30cm. Z4. White flowers above dwarf foliage in spring. Foliage is often rimmed with a purple band. When in bloom this plant is much shorter and grows to its maximum height after blooming.

Epimedium grandiflorum 'Queen Esta' \$12.00ea
Ht.20cm. Z5. This variety, named by Harold Epstein and his wife, has purple new growth in spring with large flowers with dark lavender inner sepals and paler spurs.

Epimedium grandiflorum 'Red Queen' \$18.00ea
Ht.35cm. Z4. Large vivid rosy red flowers peak out from enormous leaves when mature.

Epimedium grandiflorum 'Rose Queen' 1gal \$10.00ea
Ht. 40cm. Z5. Large, showy deep pink flowers with long, white, downward curving spurs. New growth bronzy red. Shade to semi-shade.

Epimedium grandiflorum 'Saturn' \$12.50ea
Ht. 40cm. Z5. White blooms over truly distinctive foliage with a burgundy 'Ring' around the edge of the leaf. Shade to semi-shade. We offer only a few small divisions.

Epimedium grandiflorum 'Saxton's Purple' \$12.00ea
Ht.20-35cm. Z4. New foliage has a coppery overlay. Large lavender flowers are held well above the leaves.

Epimedium grandiflorum 'Sirius' \$12.00ea
Ht.15-40cm. Z4. Only 15cm tall when in bloom with large elegant pink flowers above soft green foliage. Later grows to about 40cm.

Epimedium grandiflorum 'Tama No Genpei' \$15.00ea
Ht.20-40cm. Z4. Large bicoloured flowers of lavender and white often rebloom. Lovely new foliage is tinted with purple.

Epimedium grandiflorum 'White Queen' \$12.50ea
Ht. 35cm. Z4. A form with pure white blooms. Shade to semi-shade.

Epimedium 'Hagoromo-no-mai' 11cm pot \$12.00ea
Ht. 25-40cm. Z5. This variety has dark pinkish red flowers with long petal spurs that are barely white tipped and overlapping sepals that are almost as long.

Epimedium x kaguyahime \$20.00ea
Ht.35cm. Z5?. This near evergreen Barrenwort has lovely arrow-shaped foliage beautifully mottled with purplish red in early spring. Tall panicles carry multitudes of striking flowers with dark reddish purple spurs and rose pink inner sepals. We are offering only a few small divisions.

Epimedium 'Koharu' 1gal \$15.00ea
Ht. 25-40cm. Z5. This variety has large petals with broad pink petal lamina and long narrower spurs suffused with white. Overlapping pink sepals, fading to white in the center.

Epimedium leptorhizum \$15.00ea
Ht.15-20cm. Z5. A wonderful spreader with large rose pink flowers. Great as a groundcover in dry shade.

Epimedium myrianthum \$15.00ea
Ht.30cm. Z4. Glossy evergreen foliage with long narrow leaflets is often lightly marked with reddish patches in spring. This broad clumper has taller flower stems with myriad very small white flowers with short spurred yellowish inner petals (sometimes over 100 flowers per stem) which creates a very airy effect. We offer only a few small divisions.

Epimedium pallidum 1gal \$10.00ea
Ht.30cm. Z4. A newly offered species with yellow flowers held above nicely contrasting green foliage.

Epimedium x perralchicum 1gal \$10.00ea
Ht.30cm. Z6. A hybrid with bright yellow flowers with brown centres. Heart shaped glossy green leaves with bronze colored new growth.

Epimedium x perralchicum 'Frohneiten' 1gal \$10.00ea
Ht.30cm. Z7. Evergreen. A hybrid with bright yellow flowers with brown centres. Heart shaped glossy green leaves with bronze colored new growth.

Epimedium 'Pink Elf' \$15.00ea
Ht.25-40cm. Z4. A new hybrid. Long lasting white flowers are marked with pink, especially on the petals. Late flowering. Small Divisions

Epimedium platypetalum \$25.00ea
Ht.25-40cm. Z5. Another new favourite from China with evergreen foliage and dainty soft yellow flowers backed with white inner petals.

Epimedium pinnatum ssp. colchicum \$12.00ea
Ht. 30cm Z6. Native to Georgia near the Black Sea. This drought tolerant variety has bright yellow sepals held open to show off the short reddish spurs.

Epimedium pubigerum 'Orangekonigin' 1gal \$12.00ea
Ht. 20-75. Z5. This selection has large heart shaped leaves and true orange flowers.

Epimedium sempervirens 'White Purity' \$12.00ea
Ht. 20cm. Z7. A large leaved form of the species with white flowers.

Perennials

Epimedium stellatum 'Long Leaved Form'\$25.00ea
Ht .30-45cm. Z5. Nice foliage with long narrow leaves. Numerous tall sprays of starry-white flowers with minute yellow spurs held above the foliage. The plant grows to its mature height after blooming.

Epimedium x 'Red Beauty' Red Barrenwort1gal \$12.00ea
Ht. 30-40cm. Z4. Blooms April to May with masses of bright red flowers. Shade to semi-shade.

Epimedium x 'Rubrum' Red Barrenwort1gal \$10.00ea
Ht. 30-40cm. Z5. Blooms April to May with bright red flowers in loose 20-30 blossom panicles. Compact, strong growth habit. Shade to semi-shade.

Epimedium x Rubrum 'Sweetheart' \$15.00ea
Ht. 30-40cm. Z5. Blooms April to May with dark rose-red flowers. Leaflets larger and darker green with a fine red tracing around the edge. We offer only a few small divisions.

Epimedium x 'Sasaki'1gal \$12.00ea
Ht.3 0-40cm. Z4. Blooms April to May with pure pink flowers. Shade to semi-shade.

Epimedium x versicolor 'Sulphereum'1 gal \$10.00ea
Ht. 30-50cm. Z5. Evergreen. Blooms April to May with 8-20 yellow flowered inflorescences. Very vigorous habit. Leaves green, new growth reddish-bronze. Shade to semi-shade.

Epimedium x warleyense1gal \$10.00ea
Ht. 25-50cm. Z5. This form has incredible coppery orange flowers. A stand out in the shade garden.

Epimedium youngianum 'Baby Doll Pink' \$12.00ea
Ht. 10-25cm. Z5. Spurless flowers emerge from dark pink buds and open to a lovely soft pink edged with darker pink. The plant grows to its mature height after blooming.

Epimedium youngianum 'Capella' \$12.00ea
Ht. 10-25cm. Z5. Dark rose flowers held above small foliage for a long period. The plant grows to its mature height after blooming.

Epimedium youngianum 'Kozakura' \$12.00ea
Ht. 25cm. Z5. Large white flowers strongly flushed with rose.

Epimedium youngianum 'Niveum'1gal \$10.00ea
Ht .25cm. Z5. This form has pure white flowers. A stand out in the shade garden.

Epimedium youngianum 'Roseum' \$10.00ea
Ht. 30cm. Z5. Flowers pale violet to purple. A good small scale cover for a shade garden.

Epimedium youngianum 'Shein'\$12.00ea
Ht. 25cm. Z5. This odd variety has flowers which consist of only four purple petals.

Epimedium youngianum 'Tamabotan'\$15.00ea
Ht. 30-40cm. Z5. Large lavender flowers atop lovely dark purple foliage that ages to deep green. We offer only a few small divisions. AKA E.Pink Ruffles.

Epimedium youngianum 'White Star' \$12.00ea
Ht. 12-20cm. Z5. Very floriferous white flowers above the foliage. The plant grows to its mature height after blooming.

Epimedium youngianum 'Yenomoto' \$10.00ea
Ht. 30cm. Z5. White flowers with long spurs. A very floriferous clone. A few small divisions available.

Eranthus pinnatifida White Winter Aconite..... \$15.00ea
Ht. 10cm. Z4. Also known as Shiatranthus pinnatifida. A very early spring or late winter blooming bulb (naturally very tiny) with white flowers and dark stamens. Rarely offered.

Eremerus himalaicus Foxtail Lily 2gal \$19.00ea
Ht. 80-120cm. Z5. This species has starry white flowers in dense racemes. These come from massive roots.

Eremerus robustus Foxtail Lily2gal \$19.00ea
Ht. 200-250cm. Z5. This species has pink flowers in a gigantic raceme.

Eremerus stenophyllus var. bungei Foxtail Lily 1gal \$10.00ea
Ht. 100-120cm. Z5. This form has canary yellow flowers with orange stamens in a dense flower spike.

Eremerus x isabellinus 'Cleopatra' \$12.00ea
Ht. 150-175cm. Z5. This selection has spikes of orange flowers with darker ribs, borne on a narrow elongated raceme.

Eremerus x isabellinus 'Emmy Ro' 2gal \$18.50ea
Ht. 150-200cm. Z5. This selection has awesome spikes of apricot-orange flowers borne on a narrow elongated raceme.

Eremerus x isabellinus 'Pinokkio' Foxtail Lily 1gal \$12.00ea
Ht. 80-150cm. Z5. This selection has chrome yellow flowers with orange anthers.

Eremerus x isabellinus 'Ruiter Hybrids' 1gal \$12.00ea
Ht. 150-200cm. Z5. A wonderful range of colours from white, yellow, orange, pink and peach. Blooms earlier than E. Shelford Hybrids.

Eremerus x isabellinus 'Shelford Hybrids' 1gal \$12.00ea
Ht.80-125cm. Z5. Narrow green leaves. Flower shaft up to 40cm on 100cm flower stalk, blooms July to August. Mixed colors, pink, peach, yellow, orange.

Eriophyllum lanatum Woolly Sunflower, Oregon Sunshine
..... 10cm pot \$4.00ea
Native. Ht.20-30cm. Z4-5. Forms mounding mats of grayish green woolly foliage with bright yellow 5cm sunflower type flowers. Very drought tolerant once established. Plant in full sun to part shade in poor soil to keep tight compact shape.

Erythroniums

Early spring flowering, lily-like plants are produced from fleshy corms. Species described have narrow to broad, lance shaped green leaves often mottled. Nodding flowers have six pointed petals and all are more or less reflexed. All thrive in well drained humus-rich soil in shade to semi-shade.

Perennials

Erythronium albidum 10cm pot \$8.00ea
N.A. Native. Ht. 10-20cm. Z3. Leaves mottled. Flowers white inside with yellow centers and a blue or pink tinted exterior. Easy to grow in humus rich soil in shade to part sun.

Erythronium americanum Trout lily 10cm pot \$4.00ea
N.A. Native. Ht. 10-15cm. Z2. Glossy narrow leaves with heavy brownish purple mottling. Bright yellow solitary flowers bloom April to May. Naturally small corms.

Erythronium californicum 'White Beauty' 10cm pot \$9.50ea
Ht. 20-30cm. Z5. This is now considered by most to be a form of *E. californicum*. It was considered to be a hybrid or selection of *E. oregonum* and before that a hybrid or selection of *E. revolutum*. Similar to *E. oregonum* except White Beauty is more vigorous, tends to have more flowers per stalk and the central markings are yellow and brown.

Erythronium dens-canis Dog's tooth violet 10cm pot \$4.00ea
Ht. 10-20cm. Z3. Narrow blue-green leaves with reddish-brown mottling. Flowers lilac to soft pink in color with a brown basal ring inside a white basal ring.

Erythronium dens-canis 'Frans Hals' 10cm pot \$11.99ea
Ht. 10-20cm. Z3. A large rich deep violet purple flower with a brown throat surrounded by a yellow ring.

Erythronium dens-canis 'Niveum' 10cm pot \$8.00ea
Ht. 10-20cm. Z3. A Bulgarian form which has white flowers tinted with a light touch of lavender.

Erythronium dens-canis 'Pink Perfection' 10cm pot \$8.00ea
Ht. 5-10cm. Z3. Flowers clear bright pink in colour.

Erythronium dens-canis 'Rose Queen' 10cm pot \$6.99ea
Ht. 10-20cm. Z3. This selection has mottled leaves and rose pink flowers.

Erythronium dens-canis 'Snowflake' 10cm pot \$6.99ea
Ht. 10-20cm. Z3. White flowers, olive at base, chartreuse with a faint ring of red specks inside base.

Erythronium dens-canis 'White Splendor' 10cm pot \$8.99ea
Ht. 10-20cm. Z3. White flowers with dark brown basal blotch.

Erythronium grandiflorum Yellow Glacier Lily 10cm pot \$11.99ea
Native. Ht. 15-50cm. Z4. Large unmarked bright green leaves. Golden yellow flowers in groups of 1-3. Blooms April to May. Needs well drained soil in semi-shade.

Erythronium helenae \$10.00ea
Ht. 25-30cm. Z5. Pure white, fragrant flowers with a yellow throat. Usually 1-3 flowers per stem make this a Californian worth knowing. These are small 4-5 year old bulbs.

Erythronium hendersonii \$10.00ea
Native. Ht. 25-30cm. Z5. A lovely species with soft lavender pink flowers with darker anthers and a purple base. Wonderfully mottled leaves. These are 4-5 year old seedlings that should bloom in a year or so.

Erythronium japonicum Pink Japanese Lily 10cm pot \$6.00ea
Ht. 12-18cm. Z5. Narrow deep green unmottled or lightly mottled leaves. Dainty, highly reflexed lilac pink to grape purple flowers with dark stamens.

Erythronium montanum White Avalanche lily \$8.00ea
Native. Ht. 20-30cm. Z5. One to ten, crisp, white, orange centred flowers per flower stem. Green, unmarked strap shaped leaves.

Erythronium oregonum White Fawn Lily 10cm \$8.00ea
Native. Ht. 25-30cm. Z5. White nodding flowers with inner orange-yellow markings in groups of 1-6. Mottled leaves.

Erythronium revolutum Pink Fawn Lily \$8.00ea
Native. Ht. 15-20cm. Z5. Leaves mottled with light brown markings. Pink flowers (rarely white) are usually solitary but occasionally clustered up to five per stalk.

Erythronium sibiricum Fall only \$30.00ea
Ht. 20cm. Z2. A rare pink fawn lily.

Erythronium sibiricum album Fall only \$30.00ea
Ht. 20cm. Z2. This is the extremely rare white flowered form of this species. Very, very showy.

Erythronium smithii* = *Erythronium revolutum This is an old, incorrect name for *E. revolutum*.

Erythronium tuolumnense Yellow Fawn Lily \$6.99ea
Native. Ht. 30-50cm. Z5. Light green unmottled leaves. Up to five bright yellow flowers per stalk. Blooms April to May.

Erythronium tuolumnense 'Citronella' \$6.99ea
Ht. 30-50cm. Z5. An *E. tuolumnense* hybrid. Large, lemon yellow flowers have a light brown clover leaf shaped basal band in the throat. Starts to bloom just after the other *Erythroniums* have finished in May.

Erythronium tuolumnense 'Kondo' \$8.00ea
Ht. 30-50cm. Z5. An *E. tuolumnense* hybrid. Large yellow flowers (slightly darker than 'Pagoda') with a dark, bronze basal ring. Leaves lightly mottled.

Erythronium tuolumnense 'Pagoda' \$6.99ea
Ht. 30-50cm. Z5. An *E. tuolumnense* hybrid. Large, sulfur yellow flowers. Large, green lightly mottled leaves.

Eupatorium cannabinum Plenum 2gal \$16.00ea
Ht. 200cm. Z4. Upright stems with terminal clusters of double purple-pink flowers in July to Sept. Best in sun and moist soil.

Eupatorium fortunei f. variegata \$15.00ea
Ht. 130cm. Z4. A stately architectural border plant from Japan with green leaves with creamy edges that turn maroon in Fall. Fragrant clusters of fuzzy pink flowers in Fall.

Eupatorium maculatum atropurpureum \$9.50ea
Ht. 120-200cm. Z3. Excellent architectural border plant for late summer to autumn flowering, producing lots of deep red stems crowned with panicles of wine red flowers.

Perennials

Eupatorium rugosum 'Chocolate' 1gal \$9.50ea
N.A. Native. Ht. 150-200cm. Z3. A new selection with chocolate-purple foliage. White flowers in terminal clusters appear in late summer. Sun to partial shade in average soil.

Euphorbia characias ssp. *wulfenii* \$9.50ea
Ht. 1-2M. Z5. A bold perennial for sun with blue green 'spiky' foliage with red stems and a profusion of yellow green bracts (flowers).

Euphorbia amygdaloides 'Robbiae' 11cm \$6.00ea
Ht. 30-50cm. Z6. Evergreen. This a robust form with dark green leaves and bright yellow flowers.

Fauria crista-galli Deer Cabbage 11cm pot \$5.50ea
Native. Ht. 20-30cm Z3. A lush plant with glossy green rounded heart shaped leaves and white flowers clustered on erect stalks. Plant in a moist site from sun to part shade. Makes a nice cover around the edge of a pond.

Filipendula palmata 'Nana' Dwarf Chinese Lace Flower ... \$9.50ea
Ht. 30-40cm. Z3. A great little plant with mounds of fern-like foliage bristling with plumes of soft pink flowers.

Filipendula purpurea 'Elegans' 1gal \$9.50ea
Ht. 60-70cm. Z3. Airy plumes of delicate pink flowers are a wonderful source of fresh color in late summer just when most other mid-border perennials are dying back. Will tolerate dry conditions.

Filipendula ulmaria Queen of the meadow 11cm pot \$5.00ea
Ht. 1m. Z3. A great perennial for naturalizing along pond edges or stream sides. Stems covered liberally with irregularly pinnate green leaves. Produces tall sprays of striking creamy white flowers in late spring to early summer.

Filipendula ulmaria 'Aurea' 1gal \$15.00ea
Ht. 90cm Z3. This great naturalizing or pondside perennial has nice white flower plumes atop bright yellow-green foliage.

Filipendula ulmaria 'Variegata' 1gal \$9.50ea
Ht. 1.50m. Z4. White flowers and green leaves with a central golden-yellow stripe. Blooms late spring to early summer, a great one to naturalize along stream and pools.

Filipendula vulgaris 'flore pleno' 1gal \$9.50ea
Ht. 30-60cm. Z3. Drooping panicles of double creamy white flowers in mid summer.

Filipendula vulgaris 'Kahome' 1gal \$9.50ea
Ht. 30-50cm. Z3. Very long lasting pink flowers atop dark green ferny foliage.

Filipendula vulgaris 'Rubra' Red Meadowsweet 1gal \$9.50ea
Fl. Ht. 30-75cm. Z4. Red flowers appear on loose, flattened panicles in June and July. Mid-green, ferny leaves are deeply cut. Prefers a sunny to semi-shade site, with well drained soil.

Fuchsia -see deciduous shrub section.

Fragaria chiloensis Coastal Strawberry 10cm pot \$3.50ea
Native. Ht. 5-15cm. Z4. Evergreen. Dark green glossy leaves have silky white undersides. White flowers appear in spring. Edible, small strawberries appear in mid-summer. Excellent

evergreen, mat forming ground cover for full sun to semi-shade. Likes well drained, sandy, humus-rich soil.

Fragaria vesca Wood Strawberry 10cm pot \$3.50ea
Native. Ht. 8-15cm. Z5. Thin, light green leaves. White flowers appear in May to June and again in fall. Small edible fruit. Prefers a woodland site in shade to semi-shade.

Fragaria virginiana Scarlet Strawberry 10cm pot \$3.50ea
Native. Ht. 8-15cm. Z3. Blue green foliage is topped with white flowers and followed by delicious small strawberries.

Francoa sonchifolia 10cm pot \$4.50ea
Fl. Ht. 60cm. Z6-7. This native of Chile produces nice evergreen rosettes of softly hairy leaves from a slowly creeping rhizome. Showy spikes in summer of rich pink flowers with a darker pink center stripe or blotch on each petal. A good looking perennial year round. Drought tolerant.

Fritillaria

A wonderful group of bulbs. We have a lot more on our fall bulb list. All are best shipped in fall when dormant but if you order early we can ship the following this spring.

Fritillaria acmopetala \$5.00ea
Ht. 15-45cm. Z7. Large green bell shaped flowers with chocolate markings.

Fritillaria acmopetala Brunette \$12.00ea
Ht. 15-45cm. Z7. Green bell shaped flowers with darker markings. Flowers are larger than the species.

Fritillaria acmopetala Wendelboi \$14.00ea
Ht. 15cm. Z7. A dwarf form of the species with large green bells and darker, stronger markings.

Fritillaria biflora Martha Roderick \$12.00ea
Ht. 15-40cm. Z8. Rusty red to chocolate brown bell shaped flowers with creamy green tips.

Fritillaria bithynica \$12.00ea
Ht. 20cm. Z3. Bulb. Flowers bright green and narrow bell shaped. Native of Turkey.

Fritillaria camschatcensis Northern Rice root , Chocolate Lily \$12.99ea
Native. Ht. 35-60cm. Z5. Edible 2.5cm bulbs resemble clusters of rice grains. Bell shaped bronze-purple-black lightly mottled flowers appear in May to June. Whorled, lance-shaped leaves. Prefers shade to semi-shade in humus-rich soil.

Fritillaria camschatcensis flavescens 11cm pot \$18.99ea
Native. Ht. 35-60cm. Z5. A rare yellow form of the species. Easy to grow.

Fritillaria carica 'Brown' \$11.00ea
Ht. 15-15cm. Z7-8. A nice chocolatey brown selection of this species. Native to Southwest Turkey.

Fritillaria davisii 11cm pot \$ 8.99ea
Ht. 15-20cm. Z7-8. Bell shaped checkered flowers are a deep chocolate brown. Blooms Feb.-Mar. Naturally small bulbs.

Perennials

Fritillaria elwesii 10cm pot \$10.00
Ht.20-50cm. Z4. Bluish black flowers with a green midrib and a greyish blush.

Fritillaria graeca\$7.00ea
Ht.6-20cm. Z7. Green bells tessellated with brown or black and a clear central green stripe.

Fritillaria hermonis ssp. amana 10cm pot \$7.50ea
Ht.10-35cm. Z7-8. Bell shaped green flowers faintly tessellated with purple or brown.

Fritillaria imperialis 'Premier'\$15.00ea
Ht.1m. Z4. Crown imperial lilies are absolutely stunning and certainly deserve a well drained spot in the perennial border. We offer several very garden worthy cultivars. 'Premier' features rings of tightly packed orange-red flowers tinted with yellow; purple tinged veins.

Fritillaria imperialis 'Slagzwaard'\$15.25ea
Ht.1m. Z4. Crown imperial lilies are absolutely stunning and certainly deserve a well drained spot in the perennial border. This very old variety has vibrant orange flowers.

Fritillaria imperialis 'William Rex'\$18.50ea
Ht.1m. Z4. Crown imperial lilies are absolutely stunning and certainly deserve a well drained spot in the perennial border. This selection has a beautiful bronzy red crown of flowers.

Fritillaria lanceolata Chocolate Lily 11cm pot \$12.99ea
Native. Ht. 60-75cm. Z5. Bulb similar to *F.camschatcensis*. Bowl-shaped, brownish-purple flowers are mottled with greenish yellow. Whorled lance-shaped leaves. Shade to semi-shade.

Fritillaria minuta\$6.00ea
Ht.10-20cm. Z8. Bell shaped flowers are yellow tinged or blotched with purple-brown.

Fritillaria pontica\$5.50ea
Ht.15-45cm. Z6. Showy soft green bells edged in terracotta.

Fritillaria pudica\$8.75ea
Native. Ht.10-20cm. Z3. Fragrant yellow bells shaped flowers on this dwarf *Fritillaria*.

Fritillaria stenanthera10cm \$23.00ea
Ht.15-20cm. Z6. A rarely offered pink fritillaria from China with up to 10 pink flowers with purplish base per stem.

Fritillaria sibirnyi10cm \$12.50ea
Ht.16-30cm. Z. Exterior green interior intense purple brown.

Fritillaria thunbergii 11cm pot \$10.00ea
Ht. 30-80cm. Z7. Light yellow bell shaped flowers faintly checkered with a grid of small mauve squares and overlaid with green veins. Easy to grow in humus-rich soil in shade to light shade. Japanese form. Fast to multiply.

Fritillaria verticillata\$10.00ea
Ht. 20-60cm. Z5. Up to five large white bell shaped flowers with greenish veins.

Gaillardia 'Burgundy' \$9.50ea
Ht.45cm. Z2. Huge wine-red blooms with a yellow center that ages to a reddish brown.

Galax urceolata Galaxy10cm pot \$7.50ea
N.A.Native. Ht.10-15cm. Z4. A handsome and desirable plant, it makes mats of rounded lustrous leathery leaves. Flowers are small, white and in spire-like spikes held 30-60cm above the foliage. The leaves are collected in vast quantities for the floral trade. Best in light shade in humus rich soil.

Gentiana acaulis 10cm \$5.00ea
Ht.4-6cm. Z3. A wonderful late spring blooming Gentian with intense blue flowers. Great for the rock garden forming mats over time.

Gentiana andrewsii Bottle Gentian \$5.00ea
N.A.Native. Ht.30-60cm. Z6. Dramatic dark blue flowers have a pinched terminal end, like the mouth of a bottle. Very easy to grow in part shade to full sun.

Gentiana asclepiadea Willow Gentian\$5.00ea
Ht.40-60cm. Z6. A gracefully arching plant with slender, leafy stems. The 2 in. deep blue flowers are solitary or grouped by 2 or 3 in the upper leaf axils.

Gentiana asclepiadea alba White Willow Gentian\$5.00ea
Ht.40-60cm. Z6. A gracefully arching plant with slender, leafy stems. Large white flowers occur singly or in groups of 2 or 3.

Gentiana sino-ornata Kingfisher \$4.00ea
A wonderful fall blooming species with kingfisher blue flowers that electrify your rock garden in late summer to early fall. Regrows each season from small threadlike white roots.

Geraniums

The Crane's-bill Geraniums listed here are hardy, free flowering, easy to grow herbaceous perennials. Many do as well in shade or semishaded sites as sunny sites in a perennial border, as a specimen, a groundcover or in a rockery.

Geranium 'Alice' 1gal \$16.00ea
Ht. 15-25cm. Z4. Profusions of soft pink flowers with lilac veins atop a mound of silvery green foliage.

Geranium 'Ann Folkard' 1gal \$9.50ea
Ht.50-75cm. Z6. This hybrid between *G.procurans* and *G.psilostemon* has beautiful magenta purple flowers with a black central blotch. Leaves are golden green in color especially when young. Plants have a sprawling habit.

Geranium 'Blue Blood' 1gal \$12.00ea
Ht. 60cm. Z4. Large 'true blue' flowers with striking blackish veining.

Geranium 'Brookside' 1gal \$9.50ea
Ht. 80cm. Flowers a rich blue atop rich medium green foliage.

Perennials

Geranium x cantabrigiense 'Biokova' 1gal \$9.50ea
Ht.10-15cm. Z5. This is a hybrid of *G.dalmaticum* and *G.macrorrhizum*. Flowers are light pink and are carried above the foliage. Leaves turn a brilliant red in fall.

Geranium x cantabrigiense 'Cambridge' 1gal \$9.50ea
Ht. 20cm. Z5. Similar to *G. Biokova* except this excellent groundcover has dark rose colored flowers.

Geranium cinereum 'Ballerina' 1gal \$9.50ea
Ht. 10-15 cm. Z6. Flowers are silvery lilac-pink with distinctly darker purple venation and bloom throughout summer. This is a great little geranium for the rockery.

Geranium cinereum 'Purple Pillows' \$15.00ea
Ht. 15cm. Z4. Unusual burgundy purplish red flowers with darker veins.

Geranium cinereum 'Splendens' 1gal \$9.50ea
Ht. 10-15cm. Z5. This form has brilliant iridescent purple-red flowers with darker veins and a black-red basal blotch with white margins.

Geranium clarkei 'Kashmir Purple' 1gal \$9.50ea
Ht. 50-60cm. Z7. This is a vigorous, spreading plant with deeply divided leaves and numerous large, upfacing, cup shaped deep violet-purple flowers.

Geranium dalmaticum 1gal \$9.50ea
Ht. 10-15cm. Z5. Flowers June to August with clusters of 3cm soft pink flowers. Forms neat dense mound of glossy green leaves that are often tinted red in fall. Sun to semi-shade.

Geranium 'Dilys' 1gal \$9.50ea
Ht. 30cm. Z4. Blooms in summer with magenta pink flowers. Often reblooms in fall.

Geranium 'Dragon Heart' 1gal \$15.00ea
Ht. 60cm. Z5. A hybrid with magenta flowers and black center and venation. Blooms almost all summer long.

Geranium endressii 1gal \$9.50ea
Ht. 35-45 cm. Z5. Flowers from May to September with 3 cm rose-pink flowers.

Geranium endressii 'Wargrave Pink' 1gal \$9.50ea
Ht. 40-50cm. Z5. This selection of *G.endressii* is vigorous and is covered with numerous salmon pink flowers.

Geranium himalayense 1gal \$9.50ea
Ht. 25-45 cm. Z4. Blooms in June and July with 5cm blue- violet flowers. Sun to semi-shade.

Geranium himalayense 'Plenum' 1gal \$9.50ea
Ht. 25-30 cm. Z4. Blooms June and July with very pretty double lavender-blue flowers. Sun to semi-shade.

Geranium 'Johnson's Blue' 1gal \$9.50ea
Ht. 35-45 cm. Z4. Blooms June to August with 5cm cup shaped sky blue flowers with red venation. Sun to semi-shade.

Geranium 'Jolly Bee' 1gal \$15.00ea
Ht.30cm. Z4. Large bright blue flowers with a white eye.

Geranium 'Leeds Form' 1gal \$9.50ea
Ht. 40cm. Z4. This selection has a compact habit with reddish flowers with black veins.

Geranium maculatum 1gal \$9.50ea
N.A.Native. Ht. 30-60cm. Z4. Leaves deeply 3-5 lobed, somewhat hairy on top. Flowers are held erect in terminal clusters and range from rose purple to pink. Good for woodland naturalizing or for the back of the perennial border.

Geranium maculatum Chatto 1gal \$9.50ea
Ht. 60cm. Z4. This selection has pale lilac pink flowers and deeply divided green foliage. Great for the edge of a woodland garden.

Geranium maculatum Espresso 1gal \$11.00ea
Ht. 60cm. Z4. Superbly contrasting dark bronze foliage and lavender pink flowers that mature to white. Foliage emerges in spring a wonderful burgundy-black and slowly fades to bronzy green after a few weeks.

Geranium macrorrhizum album 1 gal \$9.50ea
Ht.25-30cm. Z4. This lovely white flowered form of the species has pink stamens on the flowers which give them a blush pink effect.

Geranium macrorrhizum 'Ingwersen's Variety' 1gal \$9.50ea
Ht. 25-30 cm. Z4. Blooms May to July with clusters of clear pink, 3cm flowers. Great as a dense ground cover.

Geranium x magnificum (G.ibericum x platypetalum) 1gal \$9.50ea
Ht. 50-60cm. Z5. This old garden plant has soft shaggy pubescent leaves with numerous blue-violet flowers in mid-summer. Fall color red and yellow.

Geranium malviflorum 11 cm pot \$4.50ea
Ht. 20-30cm. Z4-5. Tuberous. Flowers violet blue or violet with stronger veins. Likes well drained soil and sun.

Geranium sanguineum 'New Hampshire Purple' 1gal \$9.50ea
Ht.20cm. Z4. Deep reddish purple flowers above compact foliage.

Geranium 'Orkney Cherry' 1gal \$20.00ea
Ht.20-30cm. Z4. Vivid pink, continuous blooming flowers contrast nicely with maroon foliage

Geranium orientalitibeticum 11 cm pot \$5.00ea
Ht. 20-35cm. Z8. Tuberous. Dwarf alpine perennial with dark pink purple flowers with white centers.

Geranium 'Orion' 1gal \$9.50ea
Ht.45cm. Z4. This lovely continuous bloomer has large blue flowers with violet veining.

Geranium x oxonianum 'Claridge Druce' 1gal \$9.50ea
Ht. 35-45 cm. Z4. A hybrid of *G.endressii* and *G.versicolor*. Lilac-pink flowers with purple venation. Sun to shade. A most adaptable clump forming groundcover. Semi-evergreen foliage

Geranium x oxonianum 'Katherine Adele' 1gal \$9.50ea
Ht.40cm. Z6. Pretty pink flowers have darker veins. Dark green foliage has maroon markings which are stronger in more heat.

Perennials

Geranium x oxonianum 'Phoebe Noble' 1gal \$9.50ea
Ht. 40-50cm. Z5. This is a vigorous plant covered all summer in dark lipstick pink flowers. When untidy, trim it back and in a couple of weeks it's in bloom again.

Geranium oxonianum 'Sherwood' 1gal \$9.50ea
Ht. 60cm. Z4. Pale pink star shaped flowers.

Geranium x oxonianum 'Southcombe Double' 1gal \$9.50ea
Ht. 35cm. Z5. Flowers mostly double salmon pink. A compact selection ideal for the front of a border.

Geranium x oxonianum 'Thurstonianum' 1gal \$9.50ea
Ht. 60-75cm. Z5. Flowers pink with narrow petals and numerous dark purple veins. Another vigorous spreading G. endressi hybrid for a large scale ground cover.

Geranium 'Patricia' 1gal \$10.00ea
Ht. 50-75cm. Z3. This hybrid between G. endressi and G. psilostemon has vivid cyclamen red blooms with dark centers.

Geranium psilostemon 1gal \$9.50ea
Ht. 75-80 cm. Z5. Blooms June and July with 4cm black centered magenta flowers. Sun to semi-shade. A great larger geranium for the perennial border.

Geranium phaeum album 1gal \$9.50ea
Ht. 60-80cm. Z5. A pure white flowered selection of the Mourning Widow.

Geranium phaeum Mourning Widow 1gal \$9.50ea
Ht. 60-80cm. Z5. This tall plant has lobed leaves, often marked le at their base with dark bluish-red reflexed nodding flowers.

Geranium phaeum Sambor 1gal \$9.50ea
Ht. 40-50cm. Z5. This selection has large dark markings on the leaves as well as the typical maroon flower.

Geranium phaeum 'Springtime' 1gal \$12.00ea
Ht. 40-50cm. Z4. A unique geranium with silvery mottled green foliage and deep maroon blooms.

Geranium praetense 'albiflorum' Meadow Cranesbill 1gal \$9.50ea
Ht. 60-75cm. Z5. Deeply cut dark green leaves. Pure white flowers with translucent white veins. Prefers sun to light shade.

Geranium pratense 'Black Beauty' \$20.00ea
Ht. 50cm. Z4. Very dark purple foliage, near black, with abundant lavender flowers.

Geranium pratense 'Hocus Pocus' \$15.00ea
Ht. 30cm. Z3. Mounds of dark, deeply cut foliage with lavender purple flowers.

Geranium pratense 'Double Jewel' \$20.00ea
Ht. 25cm. Z4. Unique double white flowers with an intriguing purple heart. Nice compact habit.

Geranium pratense 'Mrs. Kendall Clark' 1gal \$9.50ea
Ht. 60-75cm. Z5. Deeply cut dark green leaves. Light violet-blue flowers with translucent white veins. Prefers sun to light shade.

Geranium pratense 'Okey Dokey' \$15.00ea
Ht. 35cm. Z4. Very dark, glossy purple foliage with bluish flowers.

Geranium pratense 'Splish Splash' 1gal \$9.50ea
Ht. 45cm. Z4. A striking geranium with mauve blue splashes and flecks on pure white flowers.

Geranium pratense 'Summer Skies' 1gal \$15.00ea
Ht. 60cm. Z5. This pretty double flowered cranesbill has mauve blue blooms on foliage that tends to act as a groundcover rather than an upright plant. Blooms best in dappled sunlight.

Geranium 'Red Admiral' 1gal \$11.00ea
Ht. 60cm. Z4. One of the best reddish flowered forms available. Very vigorous.

Geranium x riverleaianum 'Russel Pritchard' 1gal \$9.50ea
Ht. 15-30cm. Z7. Rich magenta flowers held above the foliage. This compact geranium is best in sun to light shade.

Geranium 'Rozanne' 1gal \$15.00ea
Ht. 50cm. Z4. A long bloomer with striking marbled foliage and very large violet blue flowers with white centers.

Geranium 'Salome' 1gal \$12.00ea
Ht. 45cm. Z6. This low rambling geranium has striking chartreuse foliage and pale mauve blooms with darker veining. Prefers a sunnier spot.

Geranium sanguineum Bloody Cranesbill 1gal \$9.50ea
Ht. 25-30 cm. Z4. Blooms May to September with 4cm crimson flowers. Excellent groundcover in sun to semi-shade. Leaves turn red in fall.

Geranium sanguineum 'Album' 1gal \$9.50ea
Ht. 25-30 cm. Z4. Blooms May to September with 4cm pure white flowers. Somewhat looser habit than species. Excellent plant for sun to shade. Foliage greyish in color.

Geranium sanguineum 'Max Frei' 1gal \$9.50ea
Ht. 20cm. Z4. Large deep magenta flowers on compact plant. Excellent for the rock garden.

Geranium sanguineum var. striatum ('Lancastrense') 1gal \$9.50ea
Ht. 20cm. Z4. Large flesh pink flowers with prominent venation. Grows very low to the ground.

Geranium 'Sateene' 1gal \$16.00ea
Ht. 15-25cm. Z4. Vibrant fuchsia pink flowers with darker veins.

Geranium 'Sue Crug' 1gal \$9.50ea
Ht. 50cm. Z4. Magenta flowers with darker veins and centre.

Geranium 'Sweet Heidi' 1gal \$13.50ea
Ht. 35cm. Z4. Large, pink saucer-shaped flowers with bright white eye.

Geranium sylvaticum 'Mayflower' 1gal \$9.50ea
Ht. 45cm. Z4. Flowers upright, a rich violet blue with a small white center. A good naturalizer in open, not too dry site or under trees.

Perennials

Geranium sylvaticum 'Silva' 1gal \$9.50ea
Ht. 45cm. Z4. Flowers upright, purple in color in early to mid-summer. A good naturalizer in open, not too dry site or under trees.

Geranium 'Tiny Monster' 1gal \$9.50ea
Ht.10-25cm .Z4. Large lavender purple flowers on this dwarf cross between *G. sanguineum* and *G. psilostemon*.

Geranium tuberosum 11cm pot \$4.50ea
Ht. 30-40cm. Z4-5. Tuberos. This is a wonderful hardy spreading geranium that arises from small tubers. Deeply cut leaves and purple-violet flowers with darker veins, deep blue anther and crimson stigma. Great filler in shade to sun.

Geranium versicolor 1gal \$9.50ea
Ht. 45cm. Z4. A striking geranium with mauve flowers heavily veined with dark purple pencilling.

Geranium wallichianum 'Buxton's variety' 1gal \$9.50ea
Ht. 30cm. Z2. Nice bluish-purple flowers with violet veins and white centers.

Geranium wlassovianum 1gal \$9.50ea
Ht. 30cm. Z3 . A wonderful compact plant with deep purplish magenta flowers veined with deep violet. From Northern China.

Geum coccineum 'Borisii' 1gal \$9.50ea
Ht. 30-50cm. Z5. Light green, pubescent leaves. Cup-shaped flowers are orange-scarlet and this variety is compact and floriferous. Sun to light shade.

Gillenia trifoliata Bowmans Root \$10.00ea
N.A.Native. Ht.60-100cm. Z3 A fantastic perennial with arching stems and trifoliate leaves divided into three narrow toothed lobes. Showy white flowers with narrow petals in loose terminal panicles. Plant on the woodland edge where it will bloom from April till June. Excellent reddish fall coloration.

Gladiolus anatolicus \$12.50ea
Ht.30-40cm. Z5. From naturally small bulbs come hot pink flowers on tall spikes.

Gladiolus italicus \$12.50ea
Ht.30-50cm. Z6. From naturally small bulbs come deep pink flowers with light white striping on the lower petals.

Glaucidium palmatum 11cm pot \$29.00ea
Ht.30-45cm. Z5. Truly a Japanese gem with large maple-like leaves and large satiny pink flowers in spring.

Glaucidium palmatum leucanthemum 11cm pot \$75.00ea
..... Smaller divisions \$45.00ea
Ht.30-45cm. Z5. Truly a Japanese gem with large maple-like leaves and large satiny white flowers in spring.

Gunnera magellanica 11cm pot \$4.99ea
Ht. 5-12cm. Z7. A wonderful groundcover from the Falkland Islands. Small rounded dark green shiny leaves with crinkled edges. Fruits bright reddish.

Hacquetia epipactis 10cm pot \$6.00ea
Ht.7-10cm. Z5. Very early spring blooming with tight clusters of yellow flowers set atop a ring of green leafy bracts. Rounded three-lobed deep green leaves make a nice carpet in the woodland garden after blooming.

Hastingsia alba White Rush lily 10cm pot \$6.00ea
Native. Ht.40-90cm. Z5. An interesting perennial from a small tuber. Long grass-like leaves topped with tall racemes of creamy white flowers tipped with green, lilac or pink. Naturally grows in moist meadows.

Hedychium coccineum 'Krishna' \$12.50ea
Ht. 1-2m. Z7. Highly fragrant exotic peach coloured blooms. Sun to part shade.

Hedychium coccineum 'Tara' \$14.99ea
Ht. 1-3m. Z7. This is probably the hardiest of the gingers and it's a keeper. It is a large plant with 30cm long spikes of flame orange flowers. It blooms earlier than most starting in June and going on until September.

Hedychium coronarium 'White Butterfly Ginger' \$10.00ea
Ht.1-3m . Z8. Large, white fragrant Butterfly shaped flowers are produced in late summer or early fall. Plant in a protected partly shaded spot in humus rich soil.

Hedychium coccineum 'Sonya' \$12.50ea
Ht. 1-3m Z7. Exotic ginger with peach fragrant flowers in summer. Sun to part shade.

Hedychium densiflorum 'Assam Orange' \$12.50ea
Ht. 1-3m. Z8. Exotic ginger with soft orange fragrant flowers in summer. Sun to part shade.

Hedychium flavescens 'Yellow Butterfly Ginger' \$16.00ea
Ht. 2m. Z8. Exotic cream and yellow fragrant flowers arise in summer. Sun to part shade.

Hedychium griffithianum \$16.99ea
Ht.2m. Z7. This hardy ginger produces lovely fragrant peach coloured blooms in late summer over bold foliage. Prefers sun to partial shade.

Hedychium yunnanense \$12.50ea
Ht. 1m. Z8. Exotic ginger from China with deep orange fragrant flowers in summer. Sun to part shade.

Helenium 'Moerheim Beauty' 1gal \$9.50ea
Ht. 1m. Z5. Showy daisy-like flowers that begin maroon red and age to a deep reddy-brown. Good cut flower.

Helenium autumnale 'Helena Red Shades' 1gal \$9.50ea
Ht. 1m. Z5. Showy daisy-like flowers in shades of red edged with yellow. Good cut flower.

Heliopsis 'Lorraine Sunshine' False Sunflower 1gal \$11.00ea
Ht. 75cm. Z3. This showy perennial has stunning white foliage heavily veined with green and is topped with bright yellow daisy-like flowers that bloom all summer and into the fall until it gets a good frost. Makes an excellent cut flower.

Perennials

Helleborganza

Our Hellebore Extravaganza

February 19th-21st

Our first major event of 2010 will happen on the weekend of February 19th-21st. Featured at this event will be an outstanding collection of Hellebores as well as other fabulous late winter blooming plants including Adonis, Corydalis, Cyclamen, Dentaria, Double and single Hepatica and more.

Hard work and dedication to hand pollination has produced amazingly beautiful strains of Hellebores in which every plant is fabulous and unique. Similarly, breakthroughs in Hellebore tissue culture have created stunning strains in which every plant is identical. Many of these strains and cultivars are offered and listed below, however, others will be posted on the collectors list on our website just prior to the event. We are offering selections from major Hellebore breeders such as Marietta and Ernie O'Byrne, Joseph Heuger, Judith and Dick Taylor, Heronswood Nursery, Yokohama Nursery, Gisela Schmiemann and Charles Price from countries around the world, including Britain, Belgium, Germany, USA, Canada and Japan. We are particularly excited about the plants from Marietta and Ernie which will be hand picked in bloom just prior to the 'Helleborganza'. To preview photos of the unbelievable double and single flowered Winter Jewels Strain, go to www.northwestgardennursery.com or our website. We will also have species Hellebores and a good selection of larger double and single plants available at the nursery. If you cannot come and want to pick up the plants within a short period of time or have them shipped, fill out an order form with your credit card information and include a pick up date or shipping date and we will choose for you. There will be special offers to those who attend including smaller and much larger plants and plants offered in small numbers. We look forward to seeing you at Helleborganza!

Helleborus argutifolius 'Silver Lace' \$15.00ea
Ht.40-60cm. Z6. Stunning silver leaves with toothed edges makes this a great addition to the shade garden. Flowers pale green. After bloom cut old stems to the ground. From tissue culture so each plant is identical.

Helleborus argutifolius 'Silverston' \$15.00ea
Ht.40-60cm. Z6. A seed strain with nice silver overlay on greenish-grey toothed leaves. Flowers pale green.

Helleborus atropurpureus \$15.00ea
Ht.35cm. Z4. A species from Slovenia with dark green flushed purple foliage. Light green to dark violet flower sepals often flushed purple-violet on their backsides.

Helleborus x ballardiae 'HGC Cinnamon Snow'\$15.00ea
Ht. Z5. From Joseph Heuger's Nursery in Germany comes this hybrid of H. lividus and H. niger. Large flowers open with a tinge of pale yellow that turns into a cinnamon color as it matures creating a unique look. Dark green leaves with reddish stems. From tissue culture so each plant is identical.

Helleborus cyclophyllus..... \$15.00ea
Ht.25-40cm. Z7. An impressive deciduous species, found in Greece, Bulgaria and Yugoslavia with large divided leaves. The flowers are usually large, greenish yellow and often scented. Rarely offered.

Helleborus x ericsmithii 'Candy Love'..... \$15.00ea
Ht. 40cm. Z5. A wonderful new hybrid from Belgium. Upright soft creamy pink flowers above highly decorative foliage marbled and red veined. Flowers persist for 3-4 months and age to a chocolate pink color. From tissue culture so each plant is identical.

Helleborus x ericsmithii 'Ivory Prince'..... \$10.00ea
.....Larger size \$15.00ea
Ht. 45cm Z Exquisite hellebore with upward facing ivory flowers, tinged with streaks of pink and green. Awesome blue-green foliage and wine- red stems. From tissue culture so each plant is identical.

Helleborus x ericsmithii 'HGC Silvermoon'..... \$15.00ea
Ht. 40cm. Z5. A wonderful new hybrid from Joseph Heuger's Glandorf Nursery in Germany with silvery green leaves. Upright glowing white flowers age to a reddish pink. From tissue culture so each plant is identical.

Helleborus x ericsmithii 'Winter Moonbeam' \$15.00ea
Ht. 30cm. Z6. This striking new hellebore from England has gorgeous glaucous green foliage with dramatic silvery grey veining. Leaflets are attached by red petioles adding to the overall foliage display. White flowers age first to pink and later to reddish pink. From tissue culture so each plant is identical.

Helleborus x ericsmithii 'Winter Sunshine'..... \$15.00ea
Ht. 30cm. Z6. A companion plant to Winter Moonbeam also developed in England. Cream flowers set well above the dark green foliage age to pink red. From tissue culture so each plant is identical.

Helleborus foetidus 'Wester Flisk' \$12.99ea
Ht.40-60cm. Z4. Finely divided evergreen foliage with redish stems. Bell shaped yellow/green flowers with maroon edges in clusters in late winter to early spring above the foliage.

Helleborus x hybridus 'Best Yellows Strains'..... \$20.00ea
Ht. 40cm. Z4. From a private hybridizer comes unbloomed seedlings of his best yellows. But as seedlings there is no guarantee that they will bloom 100% true to color.

Helleborus x hybridus 'Gold Finch'..... \$20.00ea
Ht. 40cm. Z4. From Dan Hinkley's breeding program at Heronswood comes this stunning hybrid. Rounded golden yellow sepals speckled with a myriad of tiny red spots. From tissue culture so each plant is identical.

Helleborus x hybridus 'Lady Series'
Ht. 30-40cm. Z.4-5 Developed by Gisela Schmiemann these hybrids have superior colors, upright stems with large rounded flowers. These come over 80% true from seed! Plant in sun to part shade in well drained soil

Helleborus x hybridus 'Blue Lady' \$10.00ea
Ht. 30-40cm. Z.4-5. Bluish-purple flowers

Helleborus x hybridus 'Metallic blue lady'..... \$10.00ea
Ht. 30-40cm. Z.4-5. Powdery blue-purple flowers.

Helleborus x hybridus 'Pink Lady' \$10.00ea
Ht. 30-40cm. Z.4-5. Soft pink flowers

Perennials

Helleborus x hybridus 'Red Lady'.....\$10.00ea
Ht. 30-40cm. Z.4-5. Clear red flowers

Helleborus x hybridus 'White Lady'.....\$10.00ea
Ht. 30-40cm. Z.4-5. Pure white unspotted

Helleborus x hybridus 'White Lady Spotted'\$10.00ea
Ht. 30-40cm. Z.4-5. White spotted red.

Helleborus x hybridus 'Yellow Lady'..... \$15.00ea
Ht. 30-40cm. Z.4-5. Yellow flowers speckled with maroon

Helleborus x hybridus 'Mardi gras Blackshades' ... 1gal \$15.00
Ht.45-60cm. Z4-5. From the breeder Charles Price comes this series from seed with very large flowers ranging in color from black to dark reddish. More to come from the Mardi Gras series.

Helleborus x hybridus 'Mrs Betty Ranicar' \$20.00ea
Ht.30cm. Z.5 It's back, the double from down under. A lovely full double white that comes almost completely true from seed. This was first found in Betty Ranicar's garden in Tasmania by John Dudley. Expect 1-2% to be singles.

Helleborus x hybridus 'Party Dress' \$20.00
Ht.45-60cm. Z4-5. The Party Dress seed strain originates from Blackthorn Nursery in England and have large, frilled double flowers that look much like their namesakes. Double flowers range from white to yellow to red to rose-pink in color.

Helleborus x hybridus 'Pine Knot Select Mix Strain'\$15.00ea
Ht. 40cm. Z4. From Pine Knot farms comes their select unbloomed seedlings from their best singles and semidoubles The color range is fantastic.

Helleborus x hybridus 'Pine Knot Select Our best Darks'\$15.00ea
Ht. 40cm. Z4. From Pine Knot farms comes unbloomed seedlings from their best single and semidouble dark flowered forms, from dark red to velvety purple black. But as seedlings there is no guarantee that they will bloom 100% true to color.

Helleborus x hybridus 'Pine Knot Select Our best Picotee'\$15.00ea
Ht. 40cm. Z4. From Pine Knot farms comes unbloomed seedlings from their best single and semidouble picotee flowered forms. But as seedlings there is no guarantee that they will bloom 100% true to color.

Helleborus x hybridus 'Pine Knot Select Our best Rhubarb and custard'..... \$15.00ea
Ht. 40cm. Z4. From Pine Knot farms comes unbloomed seedlings from their best single and semidouble Rhubarb and custard flowered forms. But as seedlings there is no guarantee that they will bloom 100% true to color.

Helleborus x hybridus 'Pine Knot Select Our best Whites and spotted Whites'\$15.00ea
Ht. 40cm. Z4. From Pine Knot farms comes unbloomed seedlings from their best single and semidouble white flowered forms. But as seedlings there is no guarantee that they will bloom 100% true to color.

Helleborus x hybridus 'Pine Knot Select Our best Yellows'\$15.00ea
Ht. 40cm. Z4. From Pine Knot farms comes unbloomed seedlings from their best single and semidouble yellow flowered

forms. But as seedlings there is no guarantee that they will bloom 100% true to color.

Helleborus x hybridus hybrid pink seedlings.10cm pot \$5.00ea
Ht.25-40cm Z5. This is a lovely selection produced from seed. From a good pink flowered plant, expect variation. Special Five plants for \$20.00

Helleborus x hybridus 'Royal Heritage Strain' \$14.99ea
Ht. 30-50cm Z5 This strain is a collection of Helleborus x hybridus developed by John Elsley of Wayside Garden. The result of 15 years of work is a vigorous strain with evergreen foliage and a long bloom period. The color ranges from pure white to near black with the predominant color being red.

Helleborus x hybridus 'Southern Belles Strain' \$20.00ea
Ht. 40cm. Z4. From Pine Knot farms Judith and Dick Tyler have developed this awesome strain of doubles and semidoubles. These seedlings are from hand pollinated double and semi double plants in a wide range of colours. As with all Helleborus grown from seed these plants will be variable, and will not reproduce exactly like their parents. Doubles usually breed 90-95% true and semi doubles only about 75% true. So a small percentage will bloom single. The color range is fantastic.

Helleborus x hybridus 'Southern Belles Strain' Our best Double Darks \$20.00ea
Ht. 40cm. Z4. From Pine Knot farms Judith and Dick Tyler have developed this awesome strain of doubles and semidoubles. These seedlings are from hand pollinated double and semi double plants from their best dark flowered forms. As with all Helleborus grown from seed these plants will be variable, and will not reproduce exactly like their parents. Doubles usually breed 90-95% true and semi doubles only about 75% true. So a small percentage will bloom single.

Helleborus x hybridus 'Southern Belles Strain' Our best Double Pink and Spotted Pink Double \$20.00ea
Ht. 40cm. Z4. From Pine Knot farms Judith and Dick Tyler have developed this awesome strain of doubles and semidoubles. These seedlings are from hand pollinated double and semi double plants from their best pink and spotted pink forms. As with all Helleborus grown from seed these plants will be variable, and will not reproduce exactly like their parents. Doubles usually breed 90-95% true and semi doubles only about 75% true. So a small percentage will bloom single.

Helleborus x hybridus SP 'Rebecca'\$15.00ea
Ht.50cm. Z.4. A new hybrid from Germany and part of the Spring Promise collection. Flowers are a rich dark velvety red. From tissue culture so each plant is identical.

Helleborus x hybridus 'Swirling Skirts'\$20.00ea
Ht.30-45cm. Z4. Wonderful new selection of Double white lenten rose! This plant boasts large flowers with ruffled, light green outer petals while the inner petals are white with faint purple spots. From tissue culture so each plant is identical.

Helleborus x hybridus 'Red Hybrids'\$12.99ea
Ht.40-60cm. Z.4-5. Flowers are shades of red, dark pink or purple. Plant in sun to part shade in well drained soil.

Perennials

Helleborus x hybridus 'Red Mountain'.....\$14.99ea
Ht.30cm Z5. A nice red flowered strain propagated from divisions.

Helleborus x hybridus 'Rubra' Lenton Rose.....1gal \$12.99ea
Ht. 30-50cm. Z5. A older strain from seed with good color ranging from Purplish to red flowers.

Helleborus x hybridus 'Spotted hybrids' \$12.99ea
Ht.40-60cm. Z.4-5. Flowers are a variety of colors but all are spotted or striped with dark purple.

Helleborus x hybridus 'WD Apricot'\$20.00ea.
Ht.40cm. Z4. From Japan Winter Dreams Series comes Apricot colored single. As the flower ages the edges of the sepals turn a rosy pink as well as does the venation. From tissue culture so each plant is identical.

Helleborus x hybridus 'WD Ashwood Elegance Snow'...\$25.00ea
Ht. 40cm. Z4. From Japan Winter Dreams Series comes this pure white double selected from Ashwood hellebore seedlings. From tissue culture so each plant is identical.

Helleborus x hybridus 'WD Black'\$20.00ea
Ht. 40cm. Z4. From Japan Winter Dreams Series comes this incredible deep dark purple-black. From tissue culture so each plant is identical.

Helleborus x hybridus 'WD Cassis Red'.....\$20.00ea
Ht. 40cm. Z4. From Japan Winter Dreams Series comes rich deep wine-red hellebore with broad rounded sepals. From tissue culture so each plant is identical.

Helleborus x hybridus 'WD Elegance White'.....\$25.00ea
Ht. 40cm. Z4. From Japan Winter Dreams Series comes this gorgeous double white that is spotted to perfection with bold purple spots. From tissue culture so each plant is identical.

Helleborus x hybridus 'WD Pale Pink'.....\$20.00ea
Ht. 40cm. Z4. From Japan Winter Dreams Series comes this exquisite pink. Large broad rounded sepals of soft pink with lighter highlights and venation. From tissue culture so each plant is identical.

Helleborus x hybridus 'WD Picotee'.....\$20.00ea
Ht. 40cm. Z4. From Japan Winter Dreams Series comes this Unique single flowered selection. Light pink flowers suffused in darker rose pink with dark rose pink veining. At the base of each sepal is a darker reddish rose pink blotch producing a star effect in the center of the flower. From tissue culture so each plant is identical.

Helleborus x hybridus 'WD Pink Bicolor'\$20.00ea
Ht. 40cm. Z4. From Japan Winter Dreams Series comes this single rich in plum red coloration. Broadly rounded sepals with deeper plum red coloration on the backside and lighter on the front with soft white venation peaking through. From tissue culture so each plant is identical

Helleborus x hybridus 'WD Smoky Anemone Pink'.....\$25.00ea
Ht. 40cm. Z4. From Japan Winter Dreams Series comes this Double pink. A single row of rich pink sepals and an inner ring of pink trumpet shaped nectaries surrounding the stamens (Anemone flower effect). From tissue culture so each plant is identical.

Helleborus x hybridus 'Winter Jewel'

(WJ) Series' Listed below are the Winter Jewel series of Helleborus from Marietta and Ernie O'Byrne of Northwest Garden Nursery. A spectacular array of series of single and double hellebores all grown from hand pollinated seed. Unlike the tissue culture plants, one is never enough from a particular group as each plant is unique. In other words, expect some variation. If you're reading this in the catalogue, go to our web site (or theirs) to see the mouthwatering jawdropping selection of images. If you are ever to appreciate good breeding, hard work and the spectacular potential of a single group of plants it will be now as you look at those images. Our plants will be hand selected in bloom by Marietta and Ernie just prior to our Hellebore Weekend in February.

Helleborus x hybridus 'Winter Jewel Cherry Blossom'..\$22.00ea
Ht.45-60cm. Z4. This is a single flowered strain with a high percentage of semidouble anemone shaped flowers. Typically flowers are soft pink with a darker rose-red veination, picotee edging and nectaries or starburst. Our plants will be hand selected in bloom by Marietta and Ernie just prior to our Hellebore Weekend in February.

Helleborus x hybridus 'Winter Jewel Apricot Blush'..... \$22.00ea
Ht.45-60cm.Z4. Each plant is an individual masterpiece, single flowers in tones of apricot-yellow and peach, edged, brushed veined or picoteed in rich rose highlights. Our plants will be hand selected in bloom by Marietta and Ernie just prior to our Hellebore Weekend in February.

Helleborus x hybridus 'Winter Jewel Black Diamond' ..\$22.00ea
Ht.45-60cm. Z4. This strain boasts single flowers of the darkest nature from slate-purple-black flowers to near-black. Foliage most often emerges purplish. Our plants will be hand selected in bloom by Marietta and Ernie just prior to our Hellebore Weekend in February.

Helleborus x hybridus 'Winter Jewel Jade Star'.....\$22.00ea
Ht.45-60cm. Z4. This strain has exquisite single green flowers streaked, veined, flushed and or picoteed with rich dark purple. Our plants will be hand selected in bloom by Marietta and Ernie just prior to our Hellebore Weekend in February.

Helleborus x hybridus 'Winter Jewel Golden Sunrise' ... \$22.00ea
Ht.45-60cm. Z4. Single flowers in this strain range from solid yellow, while most have red splashed centers, red veining and picotee edges. Our plants will be hand selected in bloom by Marietta and Ernie just prior to our Hellebore Weekend in February.

Helleborus x hybridus 'Winter Jewel Painted'\$22.00ea
Ht.45-60cm. Z4. This strain has lovely white flowers splashed and streaked as if painted with rose-pink. Our plants will be hand selected in bloom by Marietta and Ernie just prior to our Hellebore Weekend in February.

Helleborus x hybridus 'Winter Jewel Amber Gem'\$29.00ea
Ht.45-60cm. Z4. A wonderful Double flowered strain with rich Apricot-yellow colored flowers perfectly adorned and infused with deeper rich rose-red. Our plants will be hand selected in bloom by Marietta and Ernie just prior to our Hellebore Weekend in February.

Perennials

***Helleborus x hybridus 'Winter Jewel Berry Swirl'* \$29.00ea**
Ht.45-60cm. Z4. Rich shades of rose pink to bumble berry purple-pink are seen in this double flowered strain all overlaid with darker veination and often a fine darker trim. Hand selected in bloom by Marietta and Ernie and shipped to us just prior to our Hellebore weekend in February.

***Helleborus x hybridus 'Winter Jewel Cotton Candy'* \$29.00ea**
Ht.45-60cm. Z4. Delicious whorls of soft pink petals with darker veination and fine darker trim around most petals make this double flowered beauty so special. Hand selected in bloom by Marietta and Ernie and shipped to us just prior to our Hellebore weekend in February.

***Helleborus x hybridus 'Winter Jewel Double Painted'...* \$29.00ea**
Ht.45-60cm. Z4. This strain has lovely Double white flowers splashed and streaked as if painted with rose-pink. Hand selected in bloom by Marietta and Ernie and shipped to us just prior to our Hellebore weekend in February.

***Helleborus x hybridus 'Winter Jewel Jade Tiger'* \$29.00ea**
Ht.45-60cm. Z4. Double green flowers with varying amounts of purple streaking and edging. Each plants is different and I think I want them all. Hand selected in bloom by Marietta and Ernie and shipped to us just prior to our Hellebore weekend in February.

***Helleborus x hybridus 'Winter Jewel Golden Lotus'* \$29.00ea**
Ht.45-60cm. Z4. Double yellow lotus like flowers ranging from clear yellow to shades of yellow with rose picotee edges and red spotting. It was an image of one of these most sought after double yellow beauties that reawakened my love of Hellebores. Hand selected in bloom by Marietta and Ernie and shipped to us just prior to our Hellebore weekend in February.

***Helleborus x hybridus 'Winter Jewel Harlequin Gem'* .. \$29.00ea**
Ht.45-60cm. Z4. A great double strain with the lighter inside of the flower contrasting with the outside streaked and edged darker. The inside color ranges from white to cream to yellow and apricot, even green with the outside being a rich black-purple or crimson purple or maroon. Hand selected in bloom by Marietta and Ernie and shipped to us just prior to our Hellebore weekend in February.

***Helleborus x hybridus 'Winter Jewel Sparkling Diamond'*\$29.00ea**
Ht.45-60cm. Z4. Large pure white double flowers make this a sought after strain. Deep within the base of the flower of a few is the trace is some red spotting. Hand selected in bloom by Marietta and Ernie and shipped to us just prior to our Hellebore weekend in February.

***Helleborus x hybridus 'Winter Jewel Onyx Odyssey'...* \$29.00ea**
Ht.45-60cm. Z4. Large double flowers from slate-purple-black to the deepest crimson-purple: all are dark and fabulous. Hand selected in bloom by Marietta and Ernie and shipped to us just prior to our Hellebore weekend in February.

***Helleborus x hybridus 'Winter Jewel Peppermint Ice'* .. \$29.00ea**
Ht.45-60cm. Z4. This strain has large soft to medium pink double flowers with darker rose-pink veination and edging. Hand selected in bloom by Marietta and Ernie and shipped to us just prior to our Hellebore weekend in February.

***Helleborus lividus 'Pink Marble'* \$15.00ea**
Ht. 25-40cm Z7-8. Fantastic marbled green foliage with strong silvery veination. Strong pink buds turning to creamy green flowers with pink backsides make this a stunning plant. From tissue culture so each plant is identical.

***Helleborus lividus 'White Marble'* \$15.00ea**
Ht. 25-40cm Z7-8. Fantastic green foliage with strong silvery veination. Creamy white flowers in clusters held above the stunning marbled foliage. From tissue culture so each plant is identical.

***Helleborus niger* Christmas Rose \$10.00ea**
Ht. 30cm Z3. This species has white flowers which fade to pink as they age. Blooms from December onward to mid-February. Plant in sun to part sun in well drained soil.

***Helleborus niger 'Double Fantasy'* \$20.00ea**
Ht. 30cm Z3. This is an early flowering fully double white niger from Japan. Flowers are fertile so they can be used for breeding. Very heavily flowering clone that is a must for the winter garden. From tissue culture so each plant is identical.

***Helleborus niger 'HGC Joshua'* \$15.00ea**
Ht. 10-20cm Z3. This new introduction from Joseph Heuger's Nursery in Germany is the earliest flowered niger we have seen. Showy white, slightly fragrant flowers on compact plants begin in Novemeber on the West Coast and are still blooming in January. From tissue culture so each plant is identical.

***Helleborus x nigercors 'HGC Green Corsican'* \$15.00ea**
Ht.25cm Z6.A hybrid between H. niger and H. argutifolius from Joseph Heuger's Glandorf Nursery in Germany. An early bloomer with large, creamy white flowers that mature to fresh green. From tissue culture so each plant is identical.

***Helleborus orientalis guttatus* 1 gal \$14.99ea**
Ht. 45cm. Z6. A lovely subspecies or possible hybrid which usually has white or cream flowers spotted with red or purple.

***Helleborus purpurascens* \$15.00ea**
Ht.35cm. Z5. A lovely species from central Europe. Purple-violet to red-purple flowers emerge before the leaves are often highlighted with streaks of green.

***Helleborus x 'Snow White'* \$20.00ea**
Ht.45cm. Z4. A most unusual plant from the esteemed Yokoyama Nursery in Japan. This hybrid between H. niger and H x hybridus is a first of its kind. Very large flat white flowers held well above the foliage age to a reddish pink. From tissue culture so each plant is identical.

***Helleborus x sternii 'Blackthorn Group'* \$15.00ea**
Ht.45cm. Z5. Handsome steely blue foliage with nicely contrasting red stems all in a tidy compact habit. Cupped creamy-green flowers held in upright branched clusters with rose blush on their buds and back sides make this a must for every garden.

***Helleborus x sternii 'Silver Dollar'* \$15.00ea**
Ht.20cm. Z6 Compact mound of serrated silver leaves held together with pink stems. In late winter plants are topped with 15cm tall branched stems holding round greenish-white flowers with a nice pink flush on the backside. Seed grown strain.

Perennials

Helleborus thibetanus..... \$35.00ea
Ht. 45cm. Z6-7. Simply an incredible Hellebore from China. Nodding bell shaped flowers open snow white, aging to blush pink with darker veins. These grow nothing like any other Hellebore, they usually go dormant by early summer. Roots are naturally dark in color, from tan to dark brown.

Hemerocallis 'Apricot Beauty' Daylily..... 1gal \$9.50ea
Ht. 70cm. Z2. Large, apricot-pink lily-like flowers in July. Thick, sword-shaped leaves in dense clumps. Prefers sun to semi-shade.

Hemerocallis 'Bela Lugosi' Daylily..... 1gal \$9.50ea
Ht. 75cm. Z2. Huge, velvety purplish brown blooms have a lime coloured throat.

Hemerocallis 'Bailey Hay' Daylily 1gal \$9.50ea
Ht. 60cm. Z2. Melon pink with golden yellow throat.

Hemerocallis 'Blueberry Sundae' Daylily 1gal \$15.00ea
Ht. 55cm. Z3. Large creamy white blooms with a burgundy-purple eye zone and fine burgundy pencilling on the petal edges.

Hemerocallis 'Bobo Anne' Daylily..... 1gal \$18.00ea
Ht. 55cm Z3. Large, 4" double, fragrant blooms of tangerine with a rose halo and green throat. Reblooms.

Hemerocallis 'Bright Dancer' 1gal \$9.50ea
Ht. 60cm. Z2. Bright Red. Typical daylily foliage.

Hemerocallis 'Catherine Woodbury' Daylily..... 1gal \$9.50ea
Ht. 75cm. Z2. Large, mauve-lilac, lily-like flowers bloom July to August. Thick, sword-shaped leaves in dense clumps. Prefer sun to semi-shade.

Hemerocallis 'Chicago Picotee Lace' Daylily..... 1gal \$9.50ea
Ht. 50cm Z2. Large ruffled flowers, creamy white with raspberry halo.

Hemerocallis 'Chicago Picotee Memory' Daylily 1gal \$9.50ea
Ht. 75cm Z2. Creamy peach flowers with raspberry halo and yellow throat and a thin raspberry edge.

Hemerocallis 'Chicago Sunrise' Daylily..... 1gal \$9.50ea
Ht. 75cm. Z2. Large, deep orange-yellow flowers with a red blush near the throat in July to August.

Hemerocallis 'Childrens Festival'..... 1gal \$9.50ea
Ht. 35cm. Z2. A new dwarf form with soft rose-peach flowers.

Hemerocallis 'Cream Drop' Dwarf Daylily..... 1gal \$9.50ea
Ht. 30-40cm. Z2. Dwarf form with bright yellow flowers with a green throat.

Hemerocallis 'Dark & Handsome' Daylily..... 1gal \$18.00ea
Ht. 50cm. Z2. Huge, fragrant, gorgeous rose pink blooms with a dark maroon eye zone and green throat. Reblooms.

Hemerocallis 'Destined to See' Daylily..... 1gal \$15.00ea
Ht. 55cm. Z3. Large creamy yellow flowers with violet edges and halo.

Hemerocallis 'Double Firecracker' Daylily..... 1gal \$16.00ea
Ht. 60cm. Z2. Large vivid red double blooms. Reblooms.

Hemerocallis 'Eenie Weenie'..... 1gal \$9.50ea
Ht. 25cm. Z2. An H. Stella d'oro type with yellow flowers but even more dwarf habit.

Hemerocallis 'Exploded Pumpkin'..... 1gal \$20.00ea
Ht. 65cm. Z2. Large 15cm double orange flowers with reddish purple edges and eye. Unique.

Hemerocallis 'First Knight' Daylily..... 1gal \$20.00ea
Ht. 70cm Z4. Huge creamy fragrant blooms with a thick golden yellow edge and green throat. Reblooms.

Hemerocallis fulva kwanso 1gal \$9.50ea
Ht. 60-90cm. Z2. This species has double orange flowers with a brown stripe.

Hemerocallis 'French Lingerie' 1gal \$20.00ea
Ht. 70cm. Z2. Lavender-pink flowers with bright yellow-green edge and yellow center.

Hemerocallis 'Gentle Sheppard' Daylily..... 1gal \$9.50ea
Ht. 50-70cm. Z2. Large, near white flowers bloom in July atop clumps of sword like leaves. Prefers sun to light shade.

Hemerocallis 'King George' Daylily..... 1gal \$12.00ea
Ht. 75cm. Z2. Gigantic (10"!) yellow blooms with a red eye zone.

Hemerocallis 'Little Wine Cup' Dwarf Daylily 1gal \$9.50ea
Ht. 35-40cm. Z2. A dwarf form with everblooming wine red flowers.

Hemerocallis 'Moonlight Masquerade' Daylily..... 1gal \$9.50ea
Ht. 45cm Z2. A reblooming daylily with evergreen foliage. Softly blushed creamy blooms are edged with maroon and have a wine coloured collar surrounding a green eye.

Hemerocallis 'Open Your Eyes'..... 1gal \$18.00ea
Ht. 60cm. Z2. Creamy-yellow flowers with large purple eye and a wide purple trim.

Hemerocallis 'Pink Damask' Daylily 1gal \$9.50ea
Ht. 90cm. Z2. Large, warm pink flowers with yellow throats bloom in July. Thick, sword-shaped leaves in dense clumps.

Hemerocallis 'Purple Water'..... 1gal \$9.50ea
Ht. 70cm. Z2. Dark red flowers. Thick, sword-shaped leaves in dense clumps. Prefer sun to semi-shade.

Hemerocallis 'Sabine Baur' Daylily..... 1gal \$15.00ea
Ht. 50cm. Z2. Creamy blooms with a huge purplish red eye zone and ruffled edges with a narrow purplish band.

Hemerocallis 'Sammy Russel' Daylily 1gal \$9.50ea
Ht. 75cm. Z2. Large, dark bronzy-red flowers bloom in July. Sword-shaped leaves form dense clumps.

Hemerocallis siloam 'David Kirchoff' Daylily..... 1gal \$12.00ea
Ht. 40cm. Z2. Large blooms are pink with a cherry red line that blends into a green throat. This reblooming daylily puts on a spectacular summer show.

Perennials

Hemerocallis siloam 'June Bug' 1gal \$9.50ea
Ht.50cm. Z2. Golden yellow flowers with burgundy eye zone.

Hemerocallis siloam 'Paul Watts' Daylily 1gal \$10.00ea
Ht. 50cm. Z2. Bold, red flowers.

Hemerocallis 'Sixth Sense' Daylily 1gal \$15.00ea
Ht. 50cm. Z2. Creamy yellowish blooms with a reddish eye zone and yellow ruffled edges pencilled with red. Reblooms.

Hemerocallis 'Snowy apparitions.' Daylily 1gal \$9.50ea
Ht. 60cm. Z2. Fragrant creamy white flowers with slightly ruffled edges.

Hemerocallis 'South Seas' Daylily 1gal \$10.00ea
Ht. 75cm. Z2. Huge fragrant blooms of canteloupe orange striped with melon pink.

Hemerocallis 'Space Coast Starburst' Daylily 1gal \$15.00ea
Ht. 55cm. Z2. Large pink flowers with ruffled golden edging and a huge golden yellow center. Gorgeous.

Hemerocallis 'Summer Wine' 1gal \$9.50ea
Ht.50cm. Z2. Flowers clear grape violet in color. Thick sword shaped leaves.

Hemerocallis 'Stella d' Oro' Dwarf Daylily 1gal \$9.50ea
Ht. 20-28cm. Z2. This dwarf reblooming yellow flowered, fragrant Daylily is very popular. Like sun to semi-shade.

Hemerocallis 'Tigger' Daylily 1gal \$13.00ea
Ht. 60cm. Z2. This fragrant, reblooming daylily has orange flowers with a red collar and a green throat.

Hemerocallis 'Twilight Secrets' Daylily 1gal \$15.00ea
Ht. 70cm. Z2. Gorgeous purple-lavender blooms with a heavily ruffled yellow edge and golden yellow eye zone. Reblooms.

Hemerocallis 'White temptation' Daylily 1gal \$9.50ea
Ht. 60cm. Z2. Showy creamy white flowers.

Hepatica acutiloba Sharp lobed Hepatica 11cm pot \$5.00ea
N.A.Native. Ht. 30-60cm. Z4. Evergreen. Resembles H.americana but plants are larger and leaves are more sharply pointed. Flower color from light blue to white to rose pink. Shade to part sun.

Hepatica americana Round Lobe Hepatica 10cm pot \$5.00ea
N.A.Native. Ht. 15cm. Z4. Evergreen. Prostrate, glossy deep green trilobed leaves. Single flowers set above foliage on short stalks. Flower color ranges from lavender to blue to white to rose-pink. Prefers shade to semi-shade.

Hepatica maxima \$30.00ea
Ht.20-30cm. Z5. The largest of all hepaticas found on Ulleng Island in Korea. Soft pink flowers. Plant in light shade.

Hepatica nobilis 'Blue form' 10cm pot \$5.00ea
Ht.15cm. Z4-5. Evergreen. A nice form with blue flowers.

Hepatica nobilis 'mixed seedlings' 10cm pot \$5.00ea
Ht.15cm. Z4-5. Evergreen. So far this group of seedlings has thrown intense blue flowers and incredibly hot pink flowers but you never know what you're going to get.

Hepatica nobilis pink seedlings \$9.99ea
We have a few seedlings grown from an awesome pink mother plant.

Hepatica nobilis Select seedlings \$9.99ea
We are offering a mix of seedlings that have been grown from seed of selected mother plants. The range and variation of the mother plants is great and seedlings could be anything.

Hepatica nobilis var japonicum 10cm pot \$9.99ea
Ht.15cm. Z5. We are extremely pleased to offer a selection of mixed colors from a Japanese Hepatica grower. Ranging from pure white to pink to red and blue some with colored stamens.

Hepatica nobilis Rubra Plena 10cm pot \$35.00ea
Ht.15cm. Z5. This is one of the almost impossible to get double flowered hepaticas. Rich fully double reddish purple flowers.

Hepatica transilvanica \$10.00ea
Ht. 5-10cm. Z5. A great spreading hepatica eventually forming a mat topped with showy blue flowers in the spring.

Japanese Double Flowering Hepatica

Among this group are some of the most beautiful double flowered plants going. Several hundred selections are offered in Japan and some cost as much as 100,000 yen or more. We will be offering an increasing selection of double flowered, named varieties in the most incredible color range. We also offer a few of the choicest single flowered clones. Most will be expensive by North American standards, starting in \$100.00 to \$400.00 range and up but are similarly priced in Japan. Please check out this section at our website for a larger selection and some fantastic pictures. We will have a few available this spring (early March) and more in October which you can preorder from pictures at our web site. The variation is endless and words do not do justice to these amazing Japanese Hepaticas; however, we will give it a shot.

Haruno-awayuki \$136.00
A soft fully filled double with lovely lavender-blue flowers.

Kagura \$145.00
An incredible clone with an outer ring of broad rounded royal purple petals. The narrow inner ring of petals are curled forward and in and have a central mid strip of white or yellow. Peeking through the center is a cluster of green styles.

Orihime \$110.00
An incredible rose pink double with an outer ring of broad petals surrounding a perfectly arranged fully double centre. When fully open, the centre fades to white.

Shihou \$375.00
A dark double purple made up of an outer ring of larger rounded petals that surround a fully filled double center. The center is made up of slightly offset rings of progressively shorter petals that are slightly rolled at the edges giving the petals a pointed appearance.

Shigyoku \$98.00
Broad rounded outer petals form a perfect back drop for the inner rows of shorter rounded petals. The outer and middle petals are violet purple and the central most petals fade to white at the base.

Perennials

Shirayuki \$90.00
 Fat, white buds open to pure white, fully double, entirely filled blooms.

Subaru \$98.00
 This wonderful fully filled double blue hepatica has most of the petals aligned in rows giving it a lovely stacked appearance. Towards the center the petals become white.

Tamamushi \$132.00
 A fantastic pink double. The outer ring of petals (7,8) are larger and more rounded. Piled on top are layer upon layer of slightly smaller petals. When fully open the innermost 3 to 4 rings of petals are tipped green, the very center fading to white.

Tougen \$145.00
 An outer ring of blunt ended petals holds a pile of pale pink petals. When fully open the inner most petals are curled and touched with green and also reveal a green center.

Utyuu \$72.00
 Each petal of this fantastic single is edged with a dark deep purple line, as you progress towards the center the outer third of each petal is a strong burgundy-purple. This suffuses in the central third and towards the base of each petal to a near white. As a bonus the tips of the stamens are a deep dark purple instead of the usual green .

Heuchera micrantha 10cm pot \$5.00ea
Native. Fl.Ht. 30-90cm. Z6. Evergreen. Large, roundish light grey-green leaves with greyish markings in loose mounds. Small, whitish flowers in loose, airy clusters of tall wiry stems. Shade to semi-shade in well drained soil.

Heracleum sphondylium (H. lanatum) Cow-parsnip 1gal \$9.50ea
Native. Ht. 70-250cm. Z5. Huge, green, toothed, wooly haired leaves. Large, flattened flower heads made up of small greenish-white flowers bloom in May and June.

Hostas

Hostas are herbaceous perennials with lily-like flowers and handsome decorative leaves. Plant in shade to part sun in humus-rich soil. All like some filtered light.

Hosta 'Abba Dabba Do' \$13.00ea
 Ht.60+cm. Z3. This is a sport of H. Sun Power with green leaves and a bright yellow edge. The foliage emerges all green and then the edges develop. An introduction by Tony Avent.

Hosta 'Abiqua Ariel' \$13.00ea
 Ht. 40cm. Z3. A small Hosta with intense bright golden yellow foliage held throughout the growing season.

Hosta 'Abiqua Drinking Gourd'\$10.00ea
 Ht.35cm. Z3. Deeply cupped and heavily corrugated blue-green leaves. White flowers.

Hosta 'Abiqua Recluse'\$12.00ea
 Ht. 45cm. Z2. Nice, lower growing variety with golden foliage.

Hosta Alex Summers\$24.00ea
 Ht. 60cm. Z3. A gorgeous, nearly perfect, 3' wide clump of dark green leaves with a contrasting wide golden border.

Hosta 'American Halo' \$18.00ea
 Ht. 60cm. Z3. Slightly wavy leaves are intensely blue with a wide wavy creamy margin. White flowers.

Hosta 'Antioch'\$10.00ea
 Ht. 50cm. Z3. Pale green leaves with yellow margin that fades to creamy white. Lavender flowers.

Hosta Atlantis \$24.00ea
 Ht.60cm. Z3. This Hosta forms a huge 5' wide clump of slightly wavy, pointed, green leaves. Each leaf has a wide light yellow margin.

Hosta 'August Moon' 1gal \$10.00ea
 Ht. 60cm. Z3. Large, rounded, puckered, golden leaves. Flowers white with a touch of pale lavender.

Hosta 'Barbara Ann' 1gal \$13.50ea
 Ht.50cm. Z3. Thick corrugated blue-green leaves with a broad cream margin that slowly turns to white. Near white flowers.

Hosta 'Big Daddy' 1gal \$10.00ea
 Ht.60-80cm. Z3. One of the best big Hostas with huge blue-green cupped leaves. Flowers white.

Hosta 'Big Mama' \$10.00ea
 Ht.70cm. Z3. Very thick, heavily corrugated blue-green leaves. Near white flowers.

Hosta 'Birchwood Parky's Gold' 1gal \$10.00ea
 Ht.46cm. Z3. Large chartreuse leaves become medium golden by early summer. Lavender flowers.

Hosta 'Blond Elf'2gal \$20.00ea
 Ht.20cm. Wavy yellow lance shaped leaves. Soft lavender flowers.

Hosta 'Blue Angel' 1gal \$10.00ea
 Ht. 50-90cm. Z3. Very large dark grey-blue hosta with large textured leaves and white flowers.

Hosta 'Blue Boy' \$10.00ea
 Ht.35cm. Z3. Blue green heart shaped leaves. White flowers.

Hosta 'Blue Cadet' 1gal \$10.00ea
 Ht. 40cm. Z3. Round blue leaves. Flowers lavender in color.

Hosta 'Blue Mammoth'\$15.00ea
 Ht.85cm. Z2. A gorgeous big blue hosta with thickly corrugated leaves and light lavender flowers.

Hosta 'Blue Mouse Ears'\$17.00ea
 Ht.10-25cm. Z3. A very cute small hosta with small, rounded gray green foliage.

Hosta 'Blue Shadows' 1gal \$13.00ea
 Ht. 35cm Z3. A special selection of H.tokudama Aureonebulosa, it has more dark bluish green on the leaves. Leaves blue green streaked yellow. A very nice small Hosta.

Hosta 'Blue Umbrella' 1gal \$10.00ea
 Ht. 90cm. Z3. Large blue, textured leaves. Flowers white.

Perennials

Hosta 'Blue Whirls' 1 gal \$10.00ea
Ht. 50cm. Z3. Narrow frosted blue green leaves. Flowers white.

Hosta 'Bressingham Blue' 1 gal \$10.00ea
Ht.60cm. Z2. Blue foliage topped with white flowers.

Hosta 'Brim cup' 1 gal \$13.00ea
Ht. 30cm. Z3. Rich, medium green, cupped, seersucker leaves with a wide white margins; quickly forms a mature clump. Bell shaped white flowers.

Hosta 'Camelot' \$10.00ea
Ht. 35cm. Z3. Absolutely gorgeous powder blue hosta with lavender flowers.

Hosta Captain Kirk \$24.00ea
Ht.50. Z2. This Hosta has a delicious wide golden center surrounded by a very broad dark green edge. As you can imagine, the contrast is truly stunning.

Hosta Center of Attention \$24.00ea
Ht.25cm. Z3. Each blackish green, deeply veined leaf is highlighted by a stunning golden center that brightens to creamy white as the season progresses.

Hosta 'Cherish' \$15.00ea
Ht. 8cm. Z3. This little beauty has nice blue green foliage with a variable creamy yellow center. Lavender blooms.

Hosta 'Cherry Berry' 1 gal \$15.00ea
Ht.30-40cm. Z3. Dark green lance shaped leaves with irregular white centers. Leaf petioles and flower scapes are a clear reddish color(rare in hostas). Flowers purple.

Hosta 'Christmas Tree' 1 gal \$10.00ea
Ht.50cm. Z3. A medium sized hosta with a pyramidal habit. Large rugose blue green leaves with a distinct creamy white border. Flowers are light lavender in color.

Hosta 'Cinnamon Sticks' \$18.00ea
Ht.50cm. Z3. A low growing cultivar with green leaves. Lavender flowers atop much sought after red stems.

Hosta Clifford's Forest Fire \$24.00ea
Ht.90cm. Z3. A choice sport of Hosta Sagae with a wider leaf margin.

Hosta Clifford's Stingray \$20.00ea
Ht.50cm. Z3. This a tetraploid sport of Fire and Ice with heavy green edging feathering into white leaf centers. This hosta holds up well in the sun.

Hosta 'Colour Glory' \$12.00ea
Ht.75cm. Z3. Blue leaves with green margins and large greenish gold centers. White flowers.

Hosta 'Dancing in the Rain' \$20.00ea
Ht.60cm. Z3. A wonderful sport of Blue umbellas. Large white centers with irregular flaming blue-green edges.

Hosta 'Daybreak' 1 gal \$10.00ea
Ht. 55cm. Z3. Large, bright yellow leaves.

Hosta 'Diamond Tiara' 1 gal \$10.00ea
Ht. 50cm. Z3. Wavy green leaves with a yellow edge.

Hosta 'Dream Queen' 1 gal \$22.00ea
Ht.40cm. Z4. Huge, round rippled bluish green leaves with a narrow golden central flare.

Hosta 'Dream Weaver' \$15.00ea
Ht. 75cm Z3. A wonderful sport of H.'Great Expectation' with creamy yellow to white centers surrounded by a thick blue green margin.

Hosta 'Dust Devil' \$18.00ea
Ht.60cm. Z3. Dark green center bordered by margins which are initially chartreuse but slowly turn creamy white by summer. Lavender flowers.

Hosta 'Earth Angel' \$20.00ea
Ht.90cm. Z3. 2009 Hosta of the year. From the classic 'Blue Angel' comes 'Earth Angel', a wonderful variegated form. Large heart-shaped blue-green leaves have a wide creamy-white border. Pale lavender flowers top the clump in early summer.

Hosta 'El Nino' \$19.00ea
Ht.50cm. Z2. This is a variegated sport of H. Halcyon. Nice blue foliage with contrasting wavy white edges.

Hosta 'Emerald Tiara' \$15.00ea
Ht. 45cm. Z2. This is a beauty. Cheerful yellow leaves age to chartreuse with irregular wavy margins of dark green.

Hosta 'Emily Dickinson' 11cm pot \$16.00ea
Ht. 50cm. Z4. A relatively new hybrid with medium green leaves and yellow margins. Fragrant lavender flowers.

Hosta 'Eskimo Pie' \$16.00ea
Ht. 60cm. Z3. Puckered blue green leaves emerge with yellow centers and chartreuse streaks. Gradually, the centers fade to cream and the streaking changes to a light apple green. White flowers. Sport of H. Northern Exposure.

Hosta 'Fair Maiden' 1 gal \$18.00ea
Ht.30cm. Z2. A striking specimen with grey green leaves with dramatic white flamed edges. Lavender blooms.

Hosta 'Fire and Ice' \$14.00ea
Ht.50cm. Z3. The leaves of this absolutely stunning hosta have pure white centers and irregular dark green margins. Lavender flowers.

Hosta 'First Frost' \$13.50ea
Ht.40cm. Z3. Hosta of the year for 2010. Intense blue leaves with gold margins that later turn to white. Light lavender flowers.

Hosta 'Fireworks' \$24.00ea
Ht.10-25cm. Z2. Long narrow white leaves with irregular green streaks throughout. Lavender flowers.

Hosta fluctuans 'Variegated' (Sagae) \$13.00ea
Ht. 50cm. Z4. This is one of the most cherished cultivars with frosty green leaves and bright creamy yellow margins. Heavy substance, good slug resistance and pale lavender flowers.

Perennials

Hosta 'Fragrant Blue'..... \$11.00ea
Ht. 45cm. Z3. Frosty blue leaves and fragrant pale lavender flowers.

Hosta 'Fragrant Bouquet'.....1 gal \$17.00ea
Ht.55cm. Z3. Creamy yellow margin brightens to white by summer with pale green center. Light lavender fragrant flowers.

Hosta 'Fragrant Dream' \$18.00ea
Ht. 65cm. Z3. Medium green foliage with a creamy golden margin. Fragrant blooms.

Hosta 'Francee' \$10.00ea
Ht.50-60cm. Z4. Medium sized, dark green leaves with a white margin. Lavender flowers.

Hosta Fried Green Tomatoes.....\$10.00ea
Ht.65cm. Z3. Rich green leaves and fragrant lavender flowers.

Hosta 'Fringe Benefit'.....1gal \$10.00ea
Ht.50-60cm. Z3. Dark blue-green leaves with a wide, irregular creamy-yellow margin and pale lavender, lily-like, bell flowers.

Hosta 'Frosted Dimples'..... \$15.00ea
Ht. 30cm. Z3. A great performer with pebbled or dimpled lovely blue foliage with a creamy border. Forms a nice, low clump quickly. Creamy white flowers. Tends to hold its colour better than most blue hostas.

Hosta 'Frosted Jade'..... \$10.00ea
Ht. 60-75cm. Z3. Frosted blue green heart shaped leaves with a distinct white margin. White flowers.

Hosta fortunei 'Albopicta'.....1gal \$10.00ea
Ht. 60cm. Z3. Leaves have a golden-yellow center with green margins, but turn all green as lilac flowers appear.

Hosta fortunei 'Aureamarginata'.....1gal \$10.00ea
Ht. 60cm. Z3. Dark green leaves with a stunning golden-yellow border. Lilac flowers.

Hosta fortunei 'Hyacinthina'.....1gal \$10.00ea
Ht. 60cm. Z3. Blue-grey leaves with a glaucous white underneath. Pale lavender flowers.

Hosta Fortunei 'Silver Crown'..... 1gal \$10.00ea
Ht.60cm. Z3. Green leaves with white edges and lavender flowers. An H.fortunei Albomarginata type

Hosta 'Ghost Spirit' \$20.00ea
Ht.25-30cm. Z2. Beautiful blue green leaves with wide, irregular white central patterning.

Hosta 'Ginko Craig'1gal \$10.00ea
Ht. 15cm. Z3. Short lance shaped leaves with sharp white borders. Dark purple flowers.

Hosta 'Gold Drop'..... 1gal \$10.00ea
Ht.15cm. Z3. This dwarf hosta with chartreuse yellow foliage and white flowers makes a nice splash of sunshine at the front of a shade border.

Hosta 'Gold Edger'..... 1gal \$10.00ea
Ht 20cm. Z3. Small, light yellow-green leaves and white flowers.

Hosta 'Golden Tiara'..... 1gal \$10.00ea
Ht. 35cm. Z3. Green leaves with a wide golden margin. Deep lavender flowers.

Hosta 'Great Expectations' 1 gal \$15.00ea
Ht. 60cm. Z3. Blue green margins with golden center in spring brightening to white by summer. Flowers near white.

Hosta 'Ground Master'..... 1gal \$10.00ea
Ht. 30cm. Z3. Medium green lanceolate leaves with white margin. Flowers purple.

Hosta 'Guacamole'..... 1gal \$15.00ea
Ht. 45cm. Z3. Light green with dark blue-green edge.

Hosta 'Gypsy Rose'.....\$19.00ea
Ht.60cm. Z3. Stunning leaves with wide golden yellow centers bordered with green. A mutation of H. Striptease.

Hosta 'Halcyon' 1gal \$10.00ea
Ht. 50cm. Z3. Spear-shaped, thick blue, heavily ribbed leaves. Violet flowers.

Hosta 'Hanky Panky'\$30.00ea
Ht.25-45cm. Z3. A sport of Hosta Striptease. Green centers surrounded by a narrow white stripe and yellow edges that mature to white. Lavender flowers.

Hosta 'Honey Bells'..... 1gal \$10.00ea

Perennials

Hosta 'June' 1 gal \$17.00ea
Ht. 30cm. Z3. Gold centered with blue green margins. A sport of Halcyon. Flowers lavender.

Hosta 'June Fever' 1 gal \$17.00ea
Ht. 40cm. Z3. A new sport of Hosta June. Nearly all gold yellow leaves with narrow blue-green margin.

Hosta 'Kabitan' \$16.00ea
Ht. 25cm Z3. This is kind of a neat hosta with very narrow yellow foliage with a clear green border on slightly ruffled edges. Lavender flowers. This one makes a great border.

Hosta 'Kifukurin Ko Mame' 11cm pot \$20.00ea
Ht. 4-10cm. Z3 This is a rare dwarf hosta whose name translates as 'gold margined very small Hosta'.

Hosta 'Kiwi Full Monty' \$20.00ea
Ht. 55cm Z3. This sport of H.Striptease has rich blue-green margins and a leaf center that transitions from chartreuse to creamy yellow to ivory.

Hosta Korean Snow \$24.00ea
Ht.30cm. Z3. This unusual hosta begins the season misted with green and white. The leaves slowly change to a shiny medium green. Purple flowers are spidery.

Hosta 'Knockout' 1gal \$15.00ea
Ht.20-25cm. Z3. Creamy-yellow margin and a blue-green center. Lavender flowers.

Hosta 'Krosse Regal' 1gal \$10.00ea
Ht. 60-76cm. Z3. Medium, blue-grey, wavy edged leaves and large funnel shaped lavender flowers. This is considered by many to be the best Hosta for specimen planting.

Hosta 'Lakeside Black Satin' \$18.00ea
Ht. 55cm. Z3. Glossy dark green foliage with a wavy edge. Flowers are deep purple with a white stripe.

Hosta lancifolia 1gal \$10.00ea
Ht. 30cm. Z4. Green, spear-shaped leaves form a perfect mound. Deep violet-purple flowers.

Hosta 'Leather Sheen' 1 gal \$17.00ea
Ht. 22-25cm. Z3. Very dark glossy green narrow leaves. One of the shiniest and darkest leaved Hostas to date.

Hosta 'Liberty' \$19.00ea
Ht. 100cm. Z3. Very striking plant with dark green foliage and a wide creamy yellow margin. Lavender flowers.

Hosta 'Little Red Rooster' \$24.00ea
Ht.25cm. Z3. Dull green foliage is supported by contrasting red stems. Lavender flowers.

Hosta 'Loyalist' \$13.50ea
Ht. 45cm Z3. This is a reverse variegated sport of H. Patriot. Creamy-white centers and dark green margins.

Hosta 'Mayan Moon' \$12.00ea
Ht.30cm. Z3. Dark green leaves with a gold margin.

Hosta minor 10cm pot \$6.00ea
Ht. 10cm. Z3. This is a little Hosta originally collected in Japan by Steve Doonan. Forms nice clumps of shiny green lanceolate leaves with clusters of purple flowers above.

Hosta 'Minute Man' \$10.00ea
Ht.90cm. Z2. Nice dark green foliage with a wide white border retains its bright colour all summer.

Hosta montana 1gal \$10.00ea
Ht. 50-60cm. Z3. Huge pointed medium green leaves. Tightly clustered very pale lavender flowers.

Hosta montana 'Aureomarginata' 1gal \$14.00ea
Ht. 50-60cm. Z3. Huge pointed medium green leaves with wonderful yellow margins. Tightly clustered very pale lavender flowers.

Hosta montana f. macrophylla (praeiflorens) \$13.50ea
Ht.90cm. Z3. This is one big hosta, growing up to 150cm wide and 90cm tall. Huge deeply grooved dull dark green leaves. Flowers white.

Hosta montana 'Mountain Snow' 1 gal \$11.00ea
Ht. 60-70cm. Z3. Huge pointed leaves with wide irregular white margins. Tightly clustered white flowers.

Hosta 'Moon River' 11cm pot \$24.00ea
Ht. 25cm. Z3. White margins and blue green centres, good Substance. Lavender flowers.

Hosta 'Morning Light' \$16.00ea
Ht.45cm. Z3. Pale yellow leaves with an irregular dark green margin and nice upright habit. Lavender flowers.

Hosta 'Night Before Christmas' 1gal \$13.00ea
Ht 45cm. Z3. Bold white center with a medium green edge.

Hosta 'Northern Halo' \$11.00ea
Ht.50cm. Z3. A nicely textured, medium sized Hosta with blue-green leaves and white margins. White flowers.

Hosta 'Olive Bailey Langdon' \$15.00ea
Ht.45cm. Z3. Large rounded, puckered blue-green leaves with a cream and gold margin. White flowers.

Hosta 'On Stage' \$18.00ea
Ht.35cm. Z3. Light limey-yellow leaf with irregular two toned dark green margins streaking towards the center. Lavender flowers.

Hosta 'Orange Marmalade' \$15.00ea
Ht. 45cm. Z3. This stunning sport of H. Paul's Glory changes throughout the season. Leaves emerge in spring with a green center and edges. The center quickly turns yellow and becomes a transparent white in mid to late summer. Edges remain green and provide a nice contrast to the changing center.

Hosta 'Paradigm' \$12.00ea
Ht. 55cm. Z3. 2007 Hosta of the Year! Nice shiny bright golden, slightly puckered leaves with a green margin.

Perennials

Hosta 'Paradise Joyce'.....\$20.00ea
Ht.45cm. Z3. Creamy yellow foliage with an irregular dark green margin. White flowers.

Hosta 'Patriot'.....1gal \$13.00ea
Ht. 50-60cm. Z5. A sport of H.'Francee': it has wider more striking white margins on the leaves.

Hosta 'Paul's Glory'\$17.00ea
Ht.40-45cm. Z3. A spectacular Hosta with gold heart shaped leaves with wide blue edge. The dark golden center brightens to white gold by midsummer. Light lavender flowers.

Hosta 'Pineapple Upside down Cake'.....\$18.00ea
Ht.45cm. Z3. Long narrow leaves emerge green and change early to bright gold with a very narrow dark green margin that is rippled and undulated. Lavender flowers.

Hosta 'Pizzazz'1gal \$15.00ea
Ht. 30cm. Z5. Medium green with streaking of yellow and white and white margin, heart shaped wrinkled leaves. Bell shaped lavender flowers

Hosta Plantaginea\$10.00ea
Ht.60cm. Z3. Light green shiny leaves and fragrant white flowers.

Hosta Plantaginea Venus.....\$24.00ea
Ht.50cm. Z3. Glossy light green foliage, Fragrant fully double white flowers.

Hosta 'Purple Dwarf'..... 10cm pot \$9.50ea
Ht. 10cm. Z3. This is a nice dwarf dark green leaved hosta with purple flowers.

Hosta 'Radiant Edger'..... 2gal \$20.00ea
Ht. 20cm. Chartreuse margin on medium green leaf. Has a very neat appearance and sharply defined colors. Lavender flowers.

Hosta rectifolia var. chionea.....1gal \$10.00ea
Ht. 20cm. Z3. This is rarely seen in cultivation and the name translates to the "silver (white) margined erect (leaved) hosta".

Hosta 'Regal Splendor'..... 1gal \$10.00ea
Ht.90-100cm. Z3. Frosty blue foliage that changes to shiny dark green by mid-summer is edged with creamy yellow margins that age to white. A sport of H. Krosse Regal. Makes a great specimen or background plant. Purple flowers.

Hosta 'Remember Me'..... \$19.00ea
Ht.60cm. Z2. This sport of H. June has creamy foliage with green margins. Lavender flowers. Same delightful habit as H. June.

Hosta 'Revolution'.....\$16.50ea
Ht.60cm. Z3. A cool hosta with green leaves with a creamy white irregular center splashed and speckled in green.

Hosta 'Royal Standard'.....1gal \$10.00ea
Ht. 50cm. Z3. Large, light green leaves. Fragrant white funnel shaped flowers.

Hosta rupifraga..... 11cm pot \$13.00ea
Ht.15-20cm. Z3. A much sought after species. Leathery dark green leaves with good substance. Flowers purple.

Hosta sieboldiana..... 1gal \$10.00ea
Ht. 90cm. Z4. Very large textured grey-green leaves when mature. Funnel shaped white flowers.

Hosta sieboldiana 'Elegans'..... 1gal \$10.00ea
Ht. 80cm. Z4. Heavily textured, large, blue-grey rounded leaves. White flowers.

Hosta Sieboldiana 'Golden Sunburst' 1gal \$10.00ea
Ht.60cm Z3. This is a yellow leaved sport of H.sieboldiana 'Frances Williams'.

Hosta sieboldiana 'Frances Williams'..... 1gal \$10.00ea
Ht. 60cm. Z3. Blue-green leaves with a yellow margin. White bell shaped flowers

Hosta 'Shade Fanfare' 1gal \$10.00ea
Ht.40-45cm. Z3. Cool light green leaves with creamy margin. Flowers lavender.

Hosta 'Sharmon'..... 1gal \$10.00ea
Ht. 45-60cm. Z3. Medium green leaves streaked with yellow. Lavender flowers.

Hosta 'Snowcap'.....\$10.00ea
Ht. 50cm. Z2. Round, corrugated frosty blue green leaves have thick creamy edges. White flowers.

Hosta 'So sweet'..... 1gal \$10.00ea
Ht.20cm. Z3. Green leaves with white margins and extremely fragrant white flowers with light purple markings.

Hosta 'Striptease'..... 1gal \$16.00ea
Ht 45cm. Z3. Satiny heart shaped leaves have a white central line bordered by a light golden band which is surrounded by a dark green margin. The band is often not seen in young plants, develops with age. Lavender flowers.

Hosta 'Stiletto'..... 1gal \$10.00ea
Ht 15cm. Z3. A miniature with narrow leaves with a fine, thin white edges.

Hosta 'Sugar and Cream'..... 1 gal \$10.00ea
Ht. 65cm. Z3. Creamy white margins and medium green centers. Fragrant lavender flowers.

Hosta 'Sugar Daddy'\$16.00ea
Ht. 55cm Z3. A wonderful variegated sport of H.'Big Daddy' with the same corrugated blue green leaves but the edges are a variable creamy white.

Hosta 'Sum and Substance'..... 1gal \$10.00ea
Ht. 70-80cm. Z4. This is a large hosta with huge golden yellow leaves and white flowers. The degree of color increases with the amount of light, but not too much or it will burn.

Hosta 'Summer Fragrance'.....\$10.00ea
Ht. 65cm. Z2. Medium green leaves with creamy white to yellow edges and very fragrant medium purple blooms.

Hosta 'Sun Power'..... 1gal \$13.00ea
Ht.60cm. Z3. One of the best gold hostas, forming a beautiful clump rapidly. Leaves pointed and twisted.

Perennials

Hosta 'Super Nova'..... \$15.00ea
Ht. 60cm. Z3. A reverse form of the old favourite H.sieboldiana 'Frances Williams' with a puckered golden center and wide blue margin. Near white flowers.

Hosta 'Stained Glass'..... \$18.00ea
Ht. 35cm. Z3. The brilliantly shiny golden foliage is surrounded by a 2" wide dark green margin. Fragrant lavender flowers.

Hosta 'Tattoo'\$30.00ea
Ht. 45cm. Z3. This is a spectacular hosta with vibrant gold leaves 'tattooed' in the center with a green outline of a maple leaf.

Hosta 'Thunderbolt' \$12.00ea
Ht. 30cm. Z3. A wonderful sport of H.sieboldiana Elegans with thick blue leaves with a wide creamy yellow center. White flowers. This one can be easier to grow than Elegans.

Hosta tokudama1gal \$10.00ea
Ht. 30cm. Z3. Frosty blue leaves are puckered and cup shaped. White flowers. Overall look is like a miniature H. sieboldiana elegans.

Hosta 'Touch of Class' \$15.00ea
Ht. 30cm Z3. Another gorgeous sport from the popular hosta June. Thick blue green foliage with a chartreuse gold center. Some say this one is even better than June and it's definitely a hard one to beat.

Hosta 'Twilight'\$10.00ea
Ht.75cm. Z3. Light green leaves with yellow margins age to dark green with white margins.

Hosta undulata 'Albomarginata'.....1gal \$10.00ea
Ht.80-100cm. Z3. Narrow wavy green leaves with a white margin, flowers lilac in color.

Hosta undulata 'Mediovariegata'.....1gal \$10.00ea
Ht. 35cm. Z3. Wavy green leaves with white central stripe. Flowers lilac. Variegation often changes over time.

Hosta ventricosa1gal \$10.00ea
Ht.50cm. Z4. Glossy, dark green leaves. Flower stalks reach to 95cm with large, bell-shaped, light violet, striped dark purple-violet flowers.

Hosta 'Wide Brim'.....1gal \$10.00ea
Ht. 60cm. Z4. Leaves have a green center with an irregular margin of creamy-yellow. Open faced light lavender flowers.

Hosta 'Whirlwind' 1gal \$15.00ea
Ht.25cm.Z3. This unusual hosta has creamy white twisted foliage that is edged with dark green.

Hosta 'Zager's Blue'..... \$14.00ea
Ht.60cm. Z3. A nicely textured, blue-green hosta with white flowers.

Hosta 'Zager's White Edge'1gal \$10.00ea
Ht.50cm Z3. Elongated forest green leaves with bright silvery white margins.

Hosta 'Zounds' 11cm pot \$10.00ea
Ht. 50-60cm. Z3. A brilliant clump of gold textured heart shaped leaves. Flowers pure white. A real stand out in shade.

Houttuynia cordata 'Chameleon' 10cm pot \$3.50ea
Ht. 20-45cm. Z5. Heart shaped leaves with colorful splashes of pink, cream, yellow and red. Otherwise same as H. cordata.

Hydrophyllum tenuipes Slender Water leaf..... 10cm pot \$5.00ea
Native. Ht.60-90cm Z.2-3? Large palmate leaves. Clusters of purplish flowers with protruding stamens. Plant in moist shade.

Hypoxis hirsuta Goldstar..... 8cm pot \$5.00ea
N.A.Native. Ht.15-30cm Z.4 Small rhodohypoxis-like plant with tufts of grass-like foliage with star-like bright yellow flowers.

Impatiens omeiana..... 10cm pot \$5.00ea
Ht. 30cm. Z6. Yes, a hardy impatiens! This amazing plant for the woodland garden has whorls of long purple-green foliage with a prominent white vein down the center of the leaf. Blooms in late summer to early fall with large, fragrant yellow snapdragon like flowers. This perennial forms a sizeable clump over time. Foliage resembles that of a New Guinea Impatiens.

Incarvillea delavayi 1gal \$10.00ea
Ht. 40-75cm. Z5. Large widely flared, pink trumpet shaped flowers on short stems. These are very showy plants.

Incarvillea delavayi Bee's Pink 1gal \$10.00ea
Ht. 50cm Z5. Basal rosette of lanceolate, coarse toothed leaves forms from fleshy roots. Large pink-rose trumpet shaped flowers bloom in May to July. Plant in sun to part-shade in well drained soil.

Incarvillea 'Snowtops' 1gal \$10.00ea
Ht. 40-75cm. Z5. Similar to I.delavayi but with pure white flowers

Invarillea zhongdianensis..... \$10.00ea
Ht.25cm. Z6. Large widely flared, bright pink trumpet shaped flowers on short stems. Very pretty in a sunny rockery.

Iris bracteata Siskiyou Iris..... 10cm pot \$6.00ea
Native. Ht.30cm. Z6 This is a great small woodland Iris for shade to part sun with cream to yellow flowers with arching sepals centrally marked with strong yellow and reddish-brown or deep lavender penciling. Rarely Offered.

Iris chrysographes Black Form 1gal \$9.50ea
Ht. 50cm. Z4. A nice Iris with very dark violet black flowers.

Iris chrysophylla 10cm pot \$6.00ea
Native. Ht.20cm. Z6 This is a great small woodland Iris with cream to soft yellow flowers with arching sepals centrally marked with strong yellow and dark gold to reddish-brown or deep lavender penciling. Rarely offered.

Perennials

Iris cristata Crested Iris..... 10cm pot \$5.00ea
N.A.Native. Ht.15cm. Z4. Light green leaves, large sky blue to lavender flowers with dark venation and white markings. Blooms in April to May. Excellent groundcover in sun to semi-shade.

Iris cristata alba Crested Iris..... 10cm pot \$6.00ea
N.A.Native. Ht.15cm. Z4. A nice white flowered selection. Blooms in April to May.

Iris clarkei..... 10cm pot \$4.00ea
Ht.40cm. Z. This little Himalayan Iris has flowers ranging from mid violet-blue to dark blue or reddish purple, with a large white, violet veined patch on the falls. It does well in sun to part shade.

Iris douglasiana Douglas's Iris 10cm \$5.00ea
Native. Ht.15-50cm. Z4. Exceptionally variable in height, habit and flower color which ranges from white to pink to blue and all shades in between. Blooms in June. Sepals (Falls) have four dark lines on them. Leaves narrow, glossy green in large clumps. Full sun to semi-shade.

Iris ensata Japanese Iris..... 10cm pot \$5.00ea
Ht.60-80cm. Z5. A wonderful mix of Japanese Iris ranging in color from purple to red-purple to pink and white.

Iris ensata 'Freckled Geisha'.....1gal \$12.00ea
Ht.90cm. Z4. This spectacular Iris has white blooms with ruffled lavender purple edges and splashes of the same colour throughout the bloom.

Iris ensata 'Gusto'.....1gal \$11.00ea
Ht.80cm. Z4. Royal purple blooms with white central feathering.

Iris ensata 'Imperial Magic'1gal \$9.50ea
Ht.80cm. Z4. Purple blooms with white splashes and veining in June-July. Prefers sun to part shade in acidic, moist soil.

Iris ensata 'Pink Lady'1gal \$9.50ea
Ht.80cm. Z4. Large soft pink blooms. Prefers sun to part shade in acidic, moist soil.

Iris ensata 'Sorcerer's Triumph'.....1gal \$9.50ea
Ht.70cm. Z4. Large purple flowers have white falls with purple venation. Prefers sun to part shade in acidic, moist soil.

Iris ensata 'Temple Bells'.....1gal \$9.50ea
Ht.80cm. Z2. Large, deep blue blooms. Prefers sun to part shade in acidic, moist soil.

Iris foetidissima Roast Beef Plant 1gal \$9.50ea
Ht.60cm. Z6. Green sword shaped leaves. Flowers a faded lilac color. This plant is usually grown for the bright red seeds that are shown when the capsule splits. Red seeds persist well into the fall. Best in moist semi-shaded site.

Iris innominata \$5.00ea
Native. Ht.25cm. Z6-7. A very tough Iris that is perfectly happy in dry woodland. This plant has very narrow evergreen grass-like leaves. Flower colour is variable from creamy-orange to ochre through to pink to purple with darker veins and wavy falls. Older clumps can have up to 70 flowers. Plant in well drained soil from part shade to lightly shady gardens. Great for planting on the edges of woods.

Iris hartwegii Rainbow Iris 10cm pot \$6.00ea
Native. Ht.10-30cm. Z6. This is a great small Iris with cream to bright yellow or even lavender flowers giving it the common name of the rainbow Iris. This iris prefers sun to part shade. Rarely offered.

Iris kaempferi 'Mount Fujiyama'.....\$9.50ea
Ht.80cm. Z2. Large pure white flowers.

Iris louisiana 'Anne Chowning'..... \$9.50ea
Ht.90cm. Z5. The flowers of this swamp iris are deep burgundy red with central yellow markings. An excellent deer resistant swamp iris for the edge of a pond or a boggy area.

Iris louisiana 'Black Gamecock'..... \$9.50ea
Ht.60cm. Z4. Intense velvety blue-black blooms with a striking yellow central marking.

Iris louisiana 'Delta Star' \$9.50ea
Ht.70cm. Z4. Lovely dark bluish purple flowers with a contrasting central flash of yellow. An excellent deer resistant swamp iris for the edge of a pond or a boggy area.

Iris louisiana 'Jack Attack'..... \$9.50ea
Ht.90cm. Z5. This very special iris has gorgeous wine purple, highly ruffled flowers with a prominent yellow eye zone.

Iris missouriensis Western Blue Flag 10cm \$4.00ea
Native. Ht.50-60cm. Z4. Grey-green sword shaped semi-evergreen leaves. Flowers lilac to white with purple venation. Blooms in May and June in sun to semi-shade.

Iris pallida 'Albo variegata'..... 1gal \$9.50ea
Ht.60-75cm. Z6. This has fragrant, bright blue-lavender flowers and white leaf variegations. Grows easily in ordinary garden soil in a sunny position.

Iris pseudoacorus Yellow Flag 1gal \$9.50ea
Ht. 90-150cm. Z5. This iris has naturalized throughout much of B.C. Bright yellow flowers pencilled with black appear from April to August. A great pondside plant.

Iris pumila 'Gold Canary'..... 1gal \$9.50ea
Ht.15cm. Z2. This sunny dwarf iris has golden yellow blooms with a white beard. Sun to part shade in acidic, moist soil.

Iris pumila 'Making Eyes'..... 1gal \$9.50ea
Ht.25cm. Z2. Very pretty white flowers with purple falls edged with white. Sun to part shade in acidic, moist soil.

Iris pumila 'Quicken'..... 1gal \$9.50ea
Ht.25cm. Z2. White standards and falls edged with deep purple blue. Prefers sun to part shade in acidic, moist soil.

Iris setosa Northern Flag 10cm pot \$5.00ea
Native. Ht. 30-50cm. Z3. Slender, sword like leaves. Flowers violet purple (rarely white) with darker venation.

Iris setosa nana Dwarf Northern Flag 10cm pot \$5.00ea
Native. Ht. 30-50cm. Z3. Slender, sword like leaves. Flowers violet purple (rarely white) with darker venation. Blooms in June. Humusy, drained soil in sun to part shade.

Perennials

Iris siberica 'Blue King' 1gal \$9.50ea
Ht.70cm. Z2. A form with dark blue flowers.

Iris siberica 'Butter and Sugar' 1gal \$9.50ea
Ht.70cm. Z2. An old favorite with white standards and butter yellow falls.

Iris siberica 'Chilled Wine' 1 gal \$9.50ea
Ht.70cm. Z2. Reddish purple flowers accented with a blue spot and black markings.

Iris siberica 'Pink Haze' \$9.50ea
Ht.90cm Z2. Pretty soft pink flowers with crimson markings.

Iris siberica 'Ruffled Velvet' 1gal \$9.50ea
Ht. 80cm. Z2. Flowers red-purple marked yellow with slightly ruffled falls.

Iris siberica 'Silver Edge' \$9.50ea
Ht.80cm. Z2. A lovely contrast of ruffled, violet blue central petals and dark blue falls edged with silver. Excellent iris for stabilizing pond or stream banks. Very vigorous.

Iris siberica 'Skywings Light' 1gal \$9.50ea
Ht. 60cm. Z2. Nice light blue blooms.

Iris siberica 'Snow Queen' 1gal \$9.50ea
Ht. 70cm. Z2. Ivory white falls and standards.

Iris stolonifera \$10.00ea
Ht.30- 60cm. A variable species usually with blue or lavender petals edged and veined with brown with a blue or yellow beard. Produces running rhizomes.

Iris tenax Oregon Iris 10cm pot \$5.00ea
Native. Ht.20-25cm. Z7. Tough narrow leaves once used by Native peoples to weave into ropes. Flower color is usually blue to purplish-blue but can range from white to cream and yellow to blue and purple. Full sun to semi-shade.

Iris tuberosus (Hermodactylus tuberosus) \$3.50ea
Ht. 15-40cm Z5. We use the old name here as most know it by this name but it really is Hermodactylus. This Iris like plant has flowers that have jet black falls. Known as the 'Black Iris'.

Isopyrum biternatum False Rue Anemone \$5.00ea
N.A.Native. Z3. Delicate ferny foliage is topped with cup shaped nodding white flowers. A very attractive early spring blooming groundcover. From tiny thread like roots.

Jeffersonia diphylla Twin leaf 11cm pot \$6.00ea
N.A.Native. Ht. 20-40cm. Z5. A wonderful clump forming perennial with leaves divided in two equal lobes and white flowers held above foliage. A perfect plant for a shady place in the rock garden or woodland garden.

Jeffersonia dubia \$19.99ea
Ht. 20-30cm. Z5. This is a wonderful plant from China that we have received in trade from several people. Similar to the above species with soft pink to bluish lavender flowers.

Kirengeshoma palmata 1gal \$9.50ea
Ht. 60-120cm. Z5. This is a valuable fall bloomer with nodding, bell shaped flowers in terminal cymes on nodding branchlets. Plants form a dense, multiple stemmed bush growing from a short, stout rhizome with large, 7-10 lobed rounded leaves. Plant in shade to sun in humus rich soil. Native to mountainous Japan.

Kniphofia uvaria Red Hot Poker \$9.50ea
Ht.90cm. Z5. Fiery red buds open orange and fade to yellow.

Lathyrus vernus Perennial Sweet Pea \$3.50ea
Ht.20-30cm. Z5. This pretty perennial sweet pea blooms in spring with flowers in shades of pink, blue, purple or white and forms a nice "shrublet" over time. Plants usually go dormant after blooming.

Leucanthemum superbum 'Aglai' Shasta Daisy \$10.00ea
Ht.60-75cm. Z4. Fringed semi double flowers with yellow button center. No two blooms are the same.

Leucanthemum superbum 'Becky' Shasta Daisy \$10.00ea
Ht.75-90cm. Z4. One of the best shastas with sturdy stems holding 7-8cm wide white flowers. This is the 2003 perennial plant of the year.

Leucanthemum superbum 'Gold Rush' Shasta Daisy \$12.00ea
Ht.45cm. Z4. A nice compact plant with long blooming double fringed flowers that start golden yellow and age to white.

Leucanthemum superbum 'Snowcap' \$10.00ea
Ht.45cm. Z4. A nice compact shasta with the typical single white long lasting flowers.

Leucanthemum superbum 'Summer Snowball' \$10.00ea
Ht.75cm. Z4. Double white 'snowballs' all summer. A nice compact plant with long blooming double fringed flowers that start golden yellow and age to white.

Lewisia cotyledon Thick-leaved lewisia \$4.00ea
Native. Ht. 20cm. Z6. Fleshy, green leaves form dense rosettes up to 40cm wide. Flower color ranges from white, pink, yellow, salmon and orange with white veins. Blooms May to June, often to rebloom in August.

Liatris spicata 1gal \$9.50ea
Ht. 90cm. Z2. Nice spikes of purplish bottlebrush like flowers.

Liatris spicata 'Kobold' 1gal \$9.50ea
Ht. 40cm. Z2. Very similar to species but much shorter and flowers are a touch darker in color.

Liatris spicata floristan White 1gal \$9.50ea
Ht. 90cm. Z2. Very similar to species but with white bottlebrush like flowers.

Ligularia dentata 'Britt-Marie Crawford' 1gal \$14.00ea
Ht. 40cm. Z4. Large compact clumps of rounded maroon-black leaves. Taller stems appear in summer, bearing clusters of bright golden-orange daisy flowers.

Ligularia dentata 'Desdemona' 1gal \$9.50ea
Ht. 1m. Z4. Deep purple leaf stalks and the undersides of the leaves are a glossy purple. Reddish daisy-like flowers.

Perennials

Ligularia dentata 'Othello' Big Leaf Ligularia..... 1gal \$9.50ea
Ht. 1m. Z4. Large clumps of dark, bronzy-green, heart shaped leaves. Clusters of orange daisy-like flowers well above the foliage from August to Sept. Shade to semi-shade in rich soil.

Ligularia x hessei..... 1gal \$9.50ea
Ht.150-200cm. Z5. Large oblong leaves and large orange-yellow flowers on large inflorescences in early August. Best planted in humus-rich soil in shade to semi-shade.

Ligularia 'Osiris Café Noir' 1gal \$20.00ea
Ht.50-60cm. Z4. Unusual dissected purple foliage contrasts well with golden yellow flowers.

Ligularia palmatiloba..... 1gal \$9.50ea
Ht.180cm. Z4. Basal leaves large, rounded, deeply lobed and large yellow flowers in erect, loose racemes in July and August. Best planted in humus-rich soil in shade to semi-shade.

Ligularia przewalskii 1gal \$9.50ea
Ht. 150-200cm. Z4. Basal, dark green leaves, deeply lobed. Stems dark purple. Flowers clear yellow in a dense panicle.

Ligularia stenocephala 'The Rocket' 1gal \$9.50ea
Ht. 1-2m. Z5. Deeply cut, wide leaves. Yellow, daisy like flowers in spikes up to 1.5m. Sun to semi-shade in rich soil.

Ligularia wilsoniana 1gal \$9.50ea
Ht.1.5-2M. Z5. A large bold perennial with sharply serrated triangular shaped leaves. In July and August it produces large racemes of yellow daisy like flowers. Plant in a shady spot.

Lilium bakerianum delavayanum \$20.00ea
Ht. 60cm. Z7. This lovely lily has dark golden, creamed coffee petals suffused with spots of purple on the interior, outside stained with darker mahogany.

Lilium brownii \$12.00ea
Ht. 90-100cm. Z6. Fragrant, white trumpet shaped flowers with dusky pink on the outside of the petals and a yellow throat.

Lilium candidum Madonna Lily \$12.00ea
Ht.1-2M. Z6. This is a stunning lily with many pristine fragrant white flowers on each stem.

Lilium davidii \$12.00ea
Ht. 1-1.4M. Z5. A wonderful orange red lily with deep burgundy spots at the base of the petals. The anthers and the end of the pistol are also marked with this deep eye-popping burgundy-brown. Young flowering sized bulbs grown from wild collected seed from China.

Lilium canadense coccineum \$10.00ea
Z4-5. Ht.100-150cm. Up to 20 bell shaped pendulous flowers adorn this eastern North American Native. Flowers are red with darker spotting and a yellow throat. A plant for the edge of a woodland where it will quickly form a tight clump. We are selling small bulbs, one year away from blooming.

Lilium columbianum Columbian Lily 10cm. pot \$12.99ea
Native. Ht. 1-1.5m. Z7. Our native Tiger Lily, with nodding golden yellow lily-like flowers often with maroon spots. Sun to semi-shade in humus-rich soil.

Lilium duchartrei \$9.50
Ht.45cm-1.5M. Z4-5. The Marble Turk's Cap Lily is a native of western China. Nodding white flowers with wine red speckles. This fragrant, rarely offered lily is quick to multiply and is often stoloniferous. Blooms in July. Naturally small in size, we offer young bulbs that should bloom in one year.

Lilium formosanum var. formosanum \$6.00ea
Ht. 30cm. Z5. A very fast growing lily with large trumpet shaped beautifully fragrant flowers with recurved petal tips and a purple stripe on each petal. It blooms in summer or early fall and is very easy to grow. The lovely fragrance of this lily pervades the nursery on warm summer nights.

Lilium formosanum var. priceii \$7.00ea
Ht. 30-60cm. Z5. This little beauty from Taiwan is a dwarf form of the species with the same large fragrant white flowers that bloom a little earlier in the summer.

Lilium gloriosoides Fall only \$20.00
A stunning fragrant lily with narrow recurved white petals with a ring of red spotting and prominent stamens. Small bulbs.

Lilium japonicum f.albomarginatum \$30.00ea
Ht.40-90cm Z5. This is a lovely fragrant lily from Japan which has elegant trumpet shaped light pink flowers and deep green leaves edged in white.

Lilium grayi \$10.00ea
Ht.1.5m. Z4. The bell shaped flowers of this striking lily are crimson red on the exterior, darkening towards the base. The interior is light red with dark purple spotting and has a yellow base. This native of Virginia, North Carolina and Tennessee likes sun to partial shade in humus rich soil where it will quickly form a sizeable clump. We are selling small bulbs which are one year away from blooming.

Lilium hansonii \$10.00ea
Ht.to 1.2m. Z5. This is a lovely fragrant Turk's Cap type lily from Korea with deep orange-yellow flowers spotted with purple-brown towards the base.

Lilium lancifolium flore-pleno \$6.00ea
Ht. 1.5m. Z2. We offer bulbils of this striking double orange flowers with brown spots. These should bloom in a year or so. In cultivation since the 17th century.

Lilium maculatum ssp.davuricum f.rebunense \$20.00ea
Ht.12-15cm. Z4. From Rebun Island in Japan comes this showy Lily. Grows only 12-15cm with large upfacing vivid orange flowers nicely marked with dark spots.

Lilium maritimum \$15.00ea
Ht.20-40cm. Z?. An attractive small lily with reddish orange flowers. The tips of the sepals and petals are recurved very strongly giving the flowers a unique appearance.

Lilium martagon Turk's Cap Lily \$9.50ea.
Ht. 40-100cm. Z4. Up to 50 flowers purplish-pink, densely spotted purple.

Lilium martagon album Turk's Cap Lily \$15.00ea.
Ht. 40-100cm. Z4. Up to 50 white flowers per stem.

Perennials

Lilium martagon* var. *daugavense..... \$19.99ea
Ht.40-100cm. Z4. A beautiful turk's cap lily from Latvia with flowers heavily spotted with deep purple that vary in colour from purplish pink to almost white.

***Lilium martagon* 'Early Bird'**..... \$9.50ea
Ht. 40-100cm. Z4. This selection has magenta flowers with a tad of ochre yellow showing through and a few red spots. It seems to bloom earlier than the species and stays in bloom much longer.

***Lilium martagon* 'Flore pleno'**..... \$7.50ea
Ht.1-2M. Z6. These are small young bulbs of this rarely offered form of the species. The thickly textured pink flowers are fully double. These will take a few more years of growing to bloom.

Lilium maximowiczii..... \$16.00ea
Ht.1-1.5m. Z5. A Turks cap type lily with orange flowers spotted with brownish purple.

Lilium michiganense Michigan Lily \$10.00ea
N.A.Native. Ht.1-2m. Z3. A wonderfully recurved red-orange lily with a lighter yellow base delightfully spotted and speckled with darker reddish brown.

Lilium monadelphum..... \$20.00ea
Ht.1-1.5m. Z3. A large lily with large fragrant soft yellow flowers often with red spotting inside. Awesome.

Lilium nepalense..... \$12.99ea
Ht.100-125cm. Z4. Very large slightly nodding funnel-shaped flowers. Color incredible for a lily, yellowish green with a very large inner dark red-purple throat. Another Nepal native.

Lilium pardalinum Leopard Lily \$12.00ea
N.A. Native. Ht.2-3m. Z5. Orange red to crimson Turk's cap type flowers spotted maroon.

Lilium philadelphicum..... \$15.00ea
N.A. Native. Ht.1.25m. Z2-3. Upfacing orange-red flowers with a yellow spotted throat.

Lilium pumilum..... \$6.00ea
Ht. 60-75cm. Z5. Up to 20 brilliant red flowers with a few black spots. Native of Korea, Manchuria, Mongolia and China. Likes sun and good drainage.

Lilium superbum..... \$7.50ea
N.A.Native Ht.1.2-1.8M. Z3. Turks Cap type lily with vibrant orange heavily spotted flowers with crimson tips.

***Lilium wardii* (*L.duchartrei* var. *wardii*)**..... \$12.50ea
Z5. A wonderful fragrant lily with fully recurved rose to deep pink flowers spotted with purple along the midrib and edges. Named in honour of its discoverer, Kingdom Ward. Naturally small bloom sized bulbs. Quickly forms a nice colony.

Lilium washingtonianum* var. *purpurascens..... 10cmpot\$10.00ea
Native. Ht.150-250cm. Z4. Up to 20 bowl shaped fragrant flowers opening white then becoming pink then purple. We offer 4 year old naturally small bulbs that will bloom in a year.

Linnaea borealis Twinflower..... 10cm pot \$4.00ea
Native. Ht.10cm. Z1. Evergreen. Small, round, glossy green leaves on long runners make a lovely ground cover. Sweetly fragrant, rosy pink bell shaped flowers in pairs from slender stalks.

Lobelia spilitica Blue Cardinal Flower\$5.00ea
Ht.60-90cm. Z3. An easy to grow perennial with tall spires of beautiful blue, double lipped flowers.

***Lobelia x speciosa* 'Fan Deep Red'**\$9.50ea
Ht.60-90cm. Z5. An easy to grow perennial with tall spires of deep vibrant red flowers that are especially attractive to hummingbirds. Prefers a moist site, for example, near a pond edge and blooms from mid summer into fall.

***Lobelia x speciosa* 'Fan Blue'**\$9.50ea
Ht.60-90cm. Z5. An easy to grow perennial with tall spires of violet blue flowers that are especially attractive to hummingbirds. Prefers a moist site and blooms from mid summer to fall.

Lomatium dissectum Desert Parsley 1gal \$10.00ea
Native. Ht.60-90cm. Z3 Large parsley-like leaves that reaches a height of 90cm with a single umbel of flowers, usually purple or yellow tinged.

Lomatium nudicaule Bare stemmed desert parsley 1gal \$10.00ea
Native. Ht.60-90cm. Z3 Basal rosette of leaves with tall bare flower stalk bearing clusters of small yellow flowers.

Lycoris

A great group of bulbs from China and Japan that are similar to the naked ladies (Nerines). Flowers are produced in the fall followed by the strap like foliage. Flowers are carried on bare stems and are more or less recurved with prominent stamens protruding. Plant in average well drained soil 7-10cm deep on the coast and twice as deep in colder areas. In a few years you'll have clusters of flowers in fall when few other blooms are available.

***Lycoris albiflora* White Spider Lily**..... \$8.00ea
Ht. 40-60cm. Z8-9. Long white flowers with protruding stamens on bare stems in Sept-Nov.

***Lycoris aurea* Golden Spider Lily**..... \$8.00ea
Ht. 40-60cm. Z5. Yellow flowers in Sept-Nov.

***Lycoris elsiae* Creamy Spider Lily**..... \$8.50ea
Ht. 40-60cm. Z7-8. Flowers creamy with a diffuse apricot band inside lobes when they first emerge. Sept-Nov.

***Lycoris radiata* Spider lily**..... \$5.00ea
Ht 40-50cm. Z3. Red flowers in Sept-Nov.

***Lycoris sanguinea* Spider lily**..... \$8.00ea
Ht 50cm. Z5. Blood red flowers in Jul- Aug.

***Lycoris squamigera* Magic Lily**..... \$8.00ea.
Ht 50-70cm. Z4. Pink flower in Oct-Nov.

Lysichiton americanum Yellow Skunk Cabbage..... 1gal \$12.99ea
Native. Ht. 1-2M. Z4. Brilliant yellow spathes, appearing in February to March, surround large thick spadix with numerous tiny green flowers. Enormous thick shiny green leaves up to 135cm long.

Perennials

Lysichiton camtschatcensis Fall only 1gal \$12.99ea
Ht. 40-60cm. Z4. Very similar to the above but with a bold white spathe. From Russia.

Lysimachia clethroides Gooseneck Loosestrife 1gal \$9.50ea
Ht.70-100cm. Z4. Lightly hairy, lanceolate leaves; very attractive new growth. Long, dense, arching flower spikes are white and bloom in July to September. Plant in sun to part-shade in humus-rich soil.

Lysimachia ciliata 'Purpurea'1gal \$10.00ea
Ht 1-2m. Z3. This tall spreading perennial has lovely deep maroon foliage and bright yellow flowers.

Lysimachia punctata 'Golden Alexander' 1gal \$9.50ea
Ht. 60cm. Z4. This is a golden variegated loosestrife with yellow flowers.

Maianthemum dilatatum 10cm pot \$3.50ea
Native. Ht.10-25cm. Z5. False Lily-of-the-valley. Heart shaped green leaves. Small fragrant white flowers on 5cm long racemes. Pea-sized berries are light green with brown mottling and later become red in fall. Shade to semi-shade in moist humus-rich soil. Excellent groundcover.

Maianthemum canadensis Canada Mayflower \$4.50ea
N.A.Native. Ht.5-10cm. Z2. A spreading woodlander with fragrant white flowers and red fruit. Very much like a dwarf lily of the valley.

Meconopsis X Sheldonii 10cm pot \$4.00ea
..... 1gal \$12.00ea
Ht. 100-120cm. Z6. An excellent hybrid between M.grandis and M.betonifolia. Clear blue flowers. This is the easiest to grow himalayan Blue Poppy. Outstanding. Feed frequently.

Medeola virginiana Indian cucumber Root \$7.50ea
N.A. Native. Ht.30-60cm. Z3. A totally bizarre Trillium relative with leaves in two whorls and really cool flowers. Sepals and tepals light green and recurved petals dark purple, out pointing, long and very narrow. Stamens black, pointing straight forward with bright orange pollen. Flowers are followed by dark purple black berries. Foliage becomes flushed with purple in the fall. Naturally small tubers. Very few available.

Mertensia virginica Virginia Bluebells 11cm pot \$6.00ea
N.A.Native. Ht. 40-60cm. Z4-5. A wonderful perennial with bluish green leaves and flowers in nodding clusters. Pink buds open to rich sky blue flowers. Goes dormant after flowering. Shade to semi-shade

Mimulus dentatus Toothed leaved Monkey Flower 10cm pot \$4.00ea
Native. Ht. 10-40cm. Z7. A cool plant that doesn't look like a mimulus at first. Creeping rhizomes produce nice sized clumps of upright stems bearing dentate shiny leaves in a moist woodland setting. Tubular yellow lipped flowers spring from large apricot colored buds.

Mimulus guttatus Yellow Monkey Flower 10cm pot \$3.50ea
Native. Ht. 15-60cm. Z6. Dense mat forming, creeping perennial with yellow tubular, lipped flowers. Lower lip hairy and throat has red spots. Sun to semi-shade in moist soil.

Mimulus lewisii 10cm pot \$6.00ea
Native. Ht. 45-60cm. Z4. A showy pink Monkey Flower that dislikes drying out.

Mitchella repens Partridgeberry Fall only 10cm pot \$4.50ea
N.A.Native. Ht. 1-2cm. Z3. Evergreen. This is a low spreading plant with white, paired flowers. Fruits bright red and edible. Great groundcover under shrubs but slow.

Mitella ovalis Oval-leaved mitrewort 10cm pot \$3.50ea
Native. Ht. 5-10cm. Z7. Oval, very hairy green leaves. Tiny, whitish flowers are suggestive of finely crafted wire jewel-work. Good groundcover in shade to semi-shade.

Montia parvifolia Small-leaved Montia 10cm pot \$3.50ea
Native. Ht. 10cm. Z5. Small, thick, succulent leaves form a basal rosette which goes dormant in the driest summers. Slender flower stems radiate out from the rosette with clusters of 1-8 pink or white veined pink flowers. Great in moss covered rock.

Nepeta x faassenii 'Kit Kat' 1gal \$9.50ea
Ht.35cm. Z5. Soft purple blue flowers above grey green fragrant foliage. Lovely fragrant perennial for the sun.

Nepeta x faassenii 'Walker's Low' 1gal \$9.50ea
Ht.45cm. Z4. Deep purple blue flowers above fragrant grey green foliage. Lovely fragrant perennial for a sunny, dry location.

Omphalodes verna 'alba' \$5.00ea
Ht.10cm. Z6. Pure white flowers adorn this creeping woodland perennial.

Opuntia fragilis 'Sansum Narrows' \$5.50ea
Native. Ht. Z5. The dark green pads of this variety were collected years ago from a particularly large, robust plant. Yellow flowers.

Ornithogalum magnum \$9.50ea
Ht.50-90cm. Z5. A spectacular species with large white flowers striped green on the reverse. From a bulb, plant in hot sunny position.

Ornithogalum narbonense \$9.50ea
Ht.30-40cm. Z6. Raceme with 25-75 flattish starry white flowers with a slight green stripe. From a bulb.

Ornithogalum pyramidale \$9.50ea
Ht.50-60cm. Z6. Similar to O.narbonense but taller. Raceme with 25-75 flattish starry white flowers with a slight green stripe. From a bulb, plant in hot sunny position.

Oxalis griffithi Double Flowered Form \$15.00ea
Ht.10-15cm. Z6. A double flowered form of this Japanese native groundcover. Double white to pale pink flowers. Easy to grow in the shade garden. On site sales only. We will not ship this plant in the spring of 2010.

Oxalis magellanica 'Nelson' (Flore-pleno) 10cm pot \$5.00ea
Ht3-4cm. Z6. Low green mats of tightly packed shamrock like foliage with plump round crisp white berry like flower buds atop that burst into perfect double flowers. Excellent for planting between pavers or in the semi-shaded rock garden in sun to part shade, it is also sterile so no worries about it self sowing.

Perennials

Oxalis oregana Oregon oxalis 10cm pot \$3.50ea
Native. Ht. 5-15cm. Z4. Evergreen. Clover like leaves form a great, dense ground cover for shade to semi-shade. White flowers bloom throughout the summer.

Oxalis oregana 'Rosea' 10cm pot \$3.50ea
Native. Ht. 5-12cm. Z4. Evergreen. Leaves slightly smaller than species and undersides are purplish. Soft, rose-pink flowers bloom throughout the summer. Shade to semi-shade.

Oxalis versicolor 10cm pot \$5.00ea
 Ht. 20-25cm. Z5. From tiny pea-size bulbs comes this lovely plant. Typical clover like leaves and five petaled white flowers with a bright reddish-pink trim around the edge of each petal.

Pachysandra procumbens Alleghany Spurge 11cm pot \$5.00ea
 N.A. Native. Ht. 20-30cm. Z5. An east coast native with green leaves mottled grey and brown with terminal clusters of white flowers. This makes an attractive semi-evergreen groundcover in shade.

Paeonia

Beautiful, large perennials with lovely large, showy flowers that are familiar to most. The following varieties are available. Paeonies like well drained humus-rich soil in sun to light shade.

Paeonia 'Adolph Rousseau' 1gal \$12.00ea
 Ht. 100cm. Z2. Fragrant, large semi double blooms of garnet red. Foliage has a lovely red tint.

Paeonia 'Angels Cheeks' 1gal \$70.00ea
 Ht. 90cm. Z2. Huge, fragrant, fully double pink flowers.

Paeonia 'Bartzella' Itoh Peony Bartzella \$89.00ea
 Huge semi double lemon yellow flowers with lemon fragrance. We have a few young plants that should bloom in a year or so.

Paeonia 'Baroness Schroeder' 1gal \$16.00ea
 Ht. 90cm. Z2. Soft pink double flowers fade to pure white.

Paeonia 'Bowl of Beauty' 1gal \$15.75ea
 Ht. 80cm. Z2. Fuschia pink flowers with an impressive central cluster of feathery, creamy-yellow, narrow petal-like stamens.

Paeonia 'Bowl of Cream' 1gal \$45.00ea
 Ht. 90cm. Z2. A large very full flower of the cleanest creamy white. Very limited supply.

Paeonia 'Cara Louise' Itoh Peony Cara Louise \$157.50
 Large white semi-double blooms with lavender to purple flares. Young plant should bloom in a year or so.

Paeonia 'Catherine Fonteyne' 1gal \$12.00ea
 Ht. 90cm. Z5. Double lilac-rose flowers bloom in mid-June.

Paeonia 'Coral Charm' 1gal \$48.00ea
 Ht. 90cm. Z2. Huge salmon orange bowls that do not flop open but stay semi-opened.

Paeonia delavayi \$39.99ea
 Ht. 1.6m. Z6. This tree peony from China has nodding maroon flowers and gracefully dissected foliage.

Paeonia 'Dr. Alex Fleming' 1gal \$14.00ea
 Ht. 100cm. Z2. Fully double deep salmon pink flowers.

Paeonia 'Duchesse de Nemours' 1gal \$12.00ea
 Ht. 70cm. Z5. Double creamy white flowers in early June. Good as a cut flower.

Paeonia 'Edulis supreme' 1gal \$13.00ea
 Ht. 90cm. Z3. Fragrant, double, deep pink blooms.

Paeonia 'Festiva Maxima' 1gal \$14.00ea
 Ht. 90cm. Z5. Pure white, double, fragrant flowers with a few crimson splashes.

Paeonia 'Fiona' 1gal \$19.50ea
 Ht. 100cm. Z2. The fragrant, double blooms of this beauty are much like a deep burgundy red P. Sarah Bernhard.

Paeonia Garden Treasure \$159.00ea
 Ht. 75cm. Z5. An Intersectional Peony (Itoh) which is a hybrid between a tree peony and a herbaceous peony. This variety has large semi-double to double yellow, fragrant flowers. Petals are lightly flared with scarlet red and surround a center of cream stamens, green carpels and pink stigmas. These are among the most sought after peonies because of their floral display.

Paeonia 'Gardenia' 1gal \$24.00ea
 Ht. 90cm. Z3. A large double white Gardenia shaped flower with yellow stamens peaking out around the white center. Very fragrant.

Paeonia 'Gay Paree' 1gal \$25.00ea
 Ht. 90cm. Z3. A double ring of large purple petals and a fully double ruffled center of creamy white petaloids.

Paeonia 'General MacMahon' 1gal \$12.00ea
 Ht. 60cm. Z2. Double deep carmine-pink flowers.

Paeonia 'Goldmine' 1gal \$75.00ea
 Ht. 75cm. Z2. Finally a fully double yellow peony that is not related to the tree peonies. Very limited supply.

Paeonia 'Honeygold' 1gal \$45.00ea
 Ht. 60cm. Z2. White base crowned with feathery yellow stamens topped with a few white petals. Very limited supply.

Paeonia 'Immaculee' 1gal \$16.00ea
 Ht. 100cm. Z3. Flowers open soft pink turning white as they age. Creamy yellow center. Flowers mid-season.

Paeonia japonica \$29.00ea
 Ht. 45cm. Z5. This lovely woodland peony from Japan produces single white flowers with yellow stamens that almost glow in a shady location. Striking red fruits burst open to reveal showy blue seeds.

Paeonia 'Julia Rose' Itoh Peony Julia Rose \$135.00ea
 Single to semi double blooms open cherry red, then orange then yellow (Shows three colors at once). Excellent plant habit.

Paeonia 'Kansas' 1gal \$12.00ea
 Ht. 80cm. Z5. Clear carmine red double flowers.

Perennials

Paeonia 'Karl Rosenfield' 1gal \$12.00ea
Ht. 80cm. Z5. Double crimson red flowers bloom mid-June. Very good cut flower.

Paeonia 'Krinkled White' 1gal \$14.00ea
Ht. 60cm. Z3. Fragrant crinkled white flowers with prominent yellow stamens.

Paeonia lactiflora Single red 1gal \$12.00ea
Ht. 90cm. Z3. Dark red single flowers with prominent yellow stamens. It's hard to beat the beauty of a single flowered peony.

Paeonia Lafayette Escadrille' Itoh Peony \$99.00ea
Ht. 75cm. Z2. This is a very vigorous intersectional peony with rich crimson red single flowers and dense dark green segmented foliage.

Paeonia Laura Dessert \$21.00ea
Ht. 75cm. Z3. Double creamy white flowers with golden stamens.

Paeonia lutea ludlowii Tibetan Peony 1gal \$12.00ea
..... 2gal \$25.00ea
Ht. 1-2.5M Z5-6. A vigorous species tree peony from Asia. Light colored stem produces large, medium green pinnate leaves that turn rich shades of yellow and orange with splashes of pink in the fall. Flowers are golden yellow with exteriors often marked with red. Three 1gal plants for\$25.00

Paeonia mascula ssp. mascula \$21.99ea
Ht. 70-90cm Z5. A wonderful species with single purple flowers. Young plants.

Paeonia 'Margaret Truman' \$12.00ea
Ht. 80cm. Z4. Ruffled double deep pink flowers fade to lighter pink at the edges.

Paeonia mlokosewitschii \$30.00ea
Ht. 100cm. Z6. Affectionately known as Molly the Witch, this peony has blue-green leaves and single, upright, bowl shaped, soft primrose yellow, fragrant flowers. We offer young 3 yr old plants.

Paeonia 'Monsieur Jules Elie' 1gal \$12.00ea
Ht. 90cm. Z2. Double fragrant light rose-pink flowers.

Paeonia 'Moon of Nippon' 1gal \$21.00ea
Ht. 90cm. Z3. Single pure white petals cup a center of brilliant yellow staminoids.

Paeonia 'Morning Lilac' Itoh Peony Morning Lilac \$157.50ea
Lavender pink flowers with white and deep fuchsia striping and dark center. Young plant should bloom in a year or so.

Paeonia 'Mothers Choice' 1gal \$18.00ea
Ht. 90cm. Z2. This lovely scented peony has blush pink petals which turn creamy white as they age.

Paeonia obovata \$44.00ea
Ht. 60cm. Z5. Lovely single rose pink flowered species from Japan and China. The seed pods split to reveal jet black seeds set in bright red flesh. Plant in fertile soil in part shade. We offer nice bloom sized divisions.

Paeonia obovata alba \$29.00ea
Ht. 60cm. Z5. Lovely single white flowers atop oval leaves. Plant in fertile soil in part shade. A few four year old seedlings for spring and a few more for fall.

Paeonia officinalis Rosea Plena 1gal \$13.50ea
Ht. 80cm. Z2. Fully double huge long lasting rose-pink flowers.

Paeonia officinalis Rubra Plena 1gal \$13.50ea
Ht. 80cm. Z2. Fully double huge long lasting deep red flowers.

Paeonia 'Pecher' 1gal \$16.00ea
Ht. 100cm. Z2. Semi-double pale pink to white with a few dabs of red. Very limited supply.

Paeonia 'Pink Hawaiian Coral' 1gal \$112.00ea
Ht. 90cm. Z2. An explosion of double coral-orange flowers blending to pink at the tips.

Paeonia 'Prairie Charm' \$99.00ea
Ht. 75cm. Z5. An Intersectional Peony (Itoh) which is a hybrid between a tree peony and a herbaceous peony. Semi-double; yellow and at the base of each petal is a large, red-purple flare. All this encircles a prominent center of creamy white and green.

Paeonia peregrina \$29.99ea
Ht. 50cm. Z7. A wonderful species with deep red cup shaped flowers. Young plants.

Paeonia 'Primevere' 1gal \$25.00ea
Ht. 90cm. Z2. Single creamy white flowers with a full central mound of yellow feathery stamens. Very limited supply.

Paeonia 'Raspberry Sundae' 1gal \$30.00ea
Ht. 100cm. Z2. Layer upon layer of lush soft pink and cream gently fringed petals form the imposing rosetted blooms of this lovely peony. Very limited supply.

Paeonia 'Red Charm' 1gal \$49.50ea
Ht. 90cm. Z2. Gorgeous dark red blooms are huge, very deeply ruffled and sit atop very strong stems.

Paeonia rockii \$59.99ea
Ht. 100-200cm Z3. Pale bud open to large tissue paper-like white flowers often with a hint of flesh pink but always with a deep maroon base. Nice 4 yearold plants grown from hand pollinated white flowered parents.

Paeonia 'Sarah Bernhardt' 1gal \$12.00ea
Ht. 100cm. Z5. Fragrant double pink flowers bloom in late June. Good as a cut flower.

Paeonia 'Shirley Temple' 1gal \$12.00ea
Ht. 90cm. Z2. Double, loosely ruffled white, fragrant blooms are flushed with pink accents.

Paeonia 'Sorbet' 1gal \$19.00ea
Ht. 90cm. Z3. Dark pink outer petals with ruffled creamy mid zone topped by more erect rose pink petals.

Paeonia suffruticosa 'Asahiminato' 2gal \$35.00ea
Ht. 100-200cm. Z3-4. A Japanese selection with dark red semi-double flowers. Strong grafts.

Perennials

Paeonia suffruticosa 'Da Hu Hong' (Hu's Red)\$35.00ea
Ht.100cm. Z5. Double ruffled rosy red.

Paeonia suffruticosa 'Higurashi'2gal \$35.00ea
Ht. 100-200cm. Z3-4. A Japanese selection with lovely semi-double reddish pink. Strong grafts.

Paeonia suffruticosa 'Houki'2gal \$35.00ea
Ht. 100-200cm. Z3-4. A Japanese selection with large, semi-double vivid red blooms. Strong 2yr old graft.

Paeonia suffruticosa 'Kinshi' (Gold Lion)2gal \$35.00ea
Ht. 100-200cm. Z3-4. A Japanese selection with fully double golden yellow flowers. Strong 2yr old graft. Fragrant.

Paeonia suffruticosa 'Meikouhou'2gal \$35.00ea
Ht. 100-200cm. Z3-4. A Japanese selection with large semi-double pale blush to white blooms. Strong 2yr old graft.

Paeonia suffruticosa 'Otomenomai'2gal \$35.00ea
Ht. 100-200cm. Z3-4. A Japanese selection with large, pink semi-double flowers. Strong grafts.

Paeonia suffruticosa 'Renkaku'2gal \$35.00ea
Ht. 100-200cm. Z3-4. A Japanese selection known as 'Flight of Cranes' with huge, single ruffled, satiny white blooms.

Paeonia suffruticosa 'Shimanofuji'2gal \$35.00ea
Ht. 100-200cm. Z3-4. A Japanese selection with ruffled semi-double lavender pink flowers. Strong grafts.

Paeonia suffruticosa 'Shintouen'2gal \$35.00ea
Ht. 100-200cm. Z3-4. A Japanese selection with gorgeous semi-double, deep pink, sweetly fragrant blooms. Strong grafts.

Paeonia suffruticosa 'Tamasudare'2gal \$35.00ea
Ht. 100-200cm. Z3-4. A Japanese selection with lovely semi-double white flowers with yellow staminoids. Strong grafts. Known as 'Jade Curtain'.

Paeonia suffruticosa 'Taisho-no-hikari'2gal \$35.00ea
Ht. 100-200cm. Z3-4. A Japanese selection with huge silky reddish purple semi-double flowers. Strong grafts.

Paeonia suffruticosa 'Teni'2gal \$35.00ea
Ht. 100-200cm. Z3-4. A Japanese selection with luscious semi-double soft pink with yellow stamens. Strong grafts.

Paeonia suffruticosa 'Wu long Peg Sheng'\$35.00ea
(Black Dragon Holding Prosperous Blossom) Ht.100cm. Z5.
Double ruffled purplish-red.

Paeonia suffruticosa 'Zhu Sha Lei'\$35.00ea
Ht.100cm. Z5. Silvery-pink semi-double flowers in lotus form.
Known as 'Cinnabar rampant'.

Paeonia 'Sword Dance'1gal \$15.00ea
Ht. 90cm. Z2. Fragrant single red flowers with prominent clusters of yellow stamens.

Paeonia tenuifolia Itoha Fern leafed Peony \$29.00ea
Ht. 50cm. Z5. Wonderful highly cut lacy foliage and single dark red flowers.

Paeonia veitchii var. woodwardii \$30.00ea
Ht.50cm. Z5. A lovely compact Chinese peony for part shade. Elegant nodding pink to magenta flowers atop highly cut foliage.

Paeonia 'Viking Full Moon' Itoh Peony \$125.00ea
Ht. 75cm. Z2. This robust Peony with long lasting, single light greenish yellow flowers.

Paeonia Yellow Crown \$79.00ea
Ht. 75cm. Z5 An Intersectional Peony (Itoh) which is a hybrid between a tree peony and a herbaceous peony. This variety has large deep yellow double flowers.

Papaver orientale 'Helen Elizabeth'1gal \$9.50ea
Ht.80cm. Z2. Large peachy pink flowers with prominent black centers. Plant in well drained soil in sun to part shade.

Papaver orientale 'Patty's Plum'1gal \$9.50ea
Ht.75cm. Z2. Gorgeous large deep plum flowers with prominent purple-black centers. Plant in well drained soil in sun to part shade.

Papaver orientale 'Perry's White'1gal \$9.50ea
Ht.80-100cm. Z2. Large white flowers with prominent purple-black centers. Plant in well drained soil in sun to part shade.

Papaver orientale 'Picotee'1gal \$9.50ea
Ht.100cm. Z2. Large white flowers with lovely orange ruffled edges and prominent purple-black centers. Plant in well drained soil in sun to part shade.

Papaver orientale 'Pinnacle' 1 gal \$9.50ea
Ht.80-100cm. Z2. Brilliant orange with a white center. Plant in well drained soil in sun to part shade.

Papaver orientale 'Turkenlouis'1gal \$9.50ea
Ht.80-100cm. Z2. Ruffled fiery red flowers with black centers. Plant in well drained soil in full sun to part shade.

Paris polyphylla 11cm pot \$12.99ea
Ht.40-95cm. Z6. Flowers with narrow green sepals and thread-like golden petals atop a whorl of narrow green leaves. Fruit capsule scarlet red.

Parnassia glauca Grass of Parnassus 10cm pot \$5.00ea
N.A.Native. Ht.30cm. Z3. Single white flowers with dark veining held on 30cm long flower stalks above a rosette of oval leaves.

Peltoboykinia tellimoides\$9.50ea
Ht. 1m. Z7. Excellent foliage plant with large palmate 7-9 lobed leaves. Good groundcover for moist shaded area near ponds etc.

Peltoboykinia watanabei\$20.00ea
Ht. 60cm. Z5. Excellent foliage plant from Japan for shade with large palmate lobed leaves. Small creamy-yellow flowers are held above the leaves. Good groundcover for moist shaded area near ponds etc.

Penstemon davidsonii Davidson's Penstemon 10cm pot \$5.00ea
Native. Ht.10-15cm. Z5. Evergreen. Dark green shiny leaves form dense, matted subshrub. Lilac-pink flowers bloom midsummer. Sun to light shade. Plants are small. Fall only.

Perennials

Penstemon fruticosus Shrubby Penstemon 10cm pot \$3.50ea
Native. Ht.15-30cm. Z6. Semi-evergreen. Small, elliptical leaves cover the compact framework of this shrub-like perennial. Lavender blue flowers bloom in summer. Likes gritty, nutrient poor soil in sun to semi-shade.

Penstemon rydbergii 10cm pot \$4.00ea
 N.A. Native. Ht.30-60cm. Z3-4. Clusters of lovely intense indigo blue flowers with bunches of dense yellow hairs at the base of the lobes.

Penstemon serrulatus Coast Penstemon 10cm pot \$3.50ea
Native. Ht. 40-60cm. Z6. Small toothed, shiny, lance shaped leaves. Bluish purple flowers bloom from April to July. Sun to semi-shade.

Penstemon serrulatus Alba Coast Penstemon 10cm pot \$5.00ea
Native. Ht. 40-60cm. Z6. A pure white flowered form.

Perovskia atriplicifolia Russian Sage 1gal \$9.50ea
 Ht.150cm. Z4. Lavender blue flower spikes bloom in late summer atop grey green aromatic foliage.

Pericaria affinis 'Dimity' 1gal \$10.00ea
 Ht.20cm. Z3. Striking white and red flowers in terminal spikes rise above deep green foliage. Plant in sun to part shade.

Pericaria amplexicaulis 'Album' 1gal \$12.00ea
 Ht.85cm. Z3. White flowers in terminal spikes rise above deep green foliage. Plant in sun to part shade.

Pericaria amplexicaulis 'Firetail' 1gal \$9.50ea
 Ht.90cm. Z5. Striking bright red flower spikes above green foliage. Plant in sun to part shade.

Pericaria amplexicaulis 'Pink Elephant' 1gal \$20.00ea
 Ht.40cm. Z5. Bright pink flowers in narrow bottlebrush-like racemes atop dark stems from June to September.

Pericaria polymorpha Giant Fleece Flower 1gal \$10.00ea
 Ht.150-200cm. Z3. Upright plumes of creamy white flowers from June to September atop a mound of green foliage.

Pericaria virginianum 'Painters Palette' 1gal \$9.50ea
 Ht.50-60cm. Z4. This selection has leaves that are blotched with creamy white with pink overtones and a reddish chevron. Plant in shade to full sun.

Pericaria 'Red Dragon' 1gal \$9.50ea
 Ht.60cm. Z5. The stunning deep green foliage with a subtle overlay of red is patterned with a dark maroon marking which is outlined with creamy white. A gorgeous foliage plant for sun to part shade.

Petasites japonica 1gal \$9.50ea
 Ht.60-120cm Z4. Huge rounded basal leaves and flower scapes covered with white flowers. This is great for pond edges but can be invasive.

Petasites palmatus Palmate Coltsfoot 1gal \$9.50ea
Native. Ht. 20-50cm. Z6. Large, deeply divided leaves with white, wooly undersides sprout from slender, creeping rhizome. Flower heads precede leaves and are initially rose-pink opening to white. Excellent groundcover for any moist to wet site.

Phlomis russeliana 1gal \$9.50ea
 Ht.80-100cm. Z6. Hairy greenish-grey leaves form a nice groundcover. Flowering stems rise above with clusters of yellow flowers in distinct tiers. A very showy plant for sun to part shade in well drained soil.

Phlox diffusa Spreading Phlox 10cm pot \$5.00ea
Native. Ht.10-15. Z6. Mat forming perennial with light green mossy foliage. Blooms in spring with lilac to pink or rarely white flowers. Great for the rockery or as a small scale ground cover in sun to light shade.

Phlox douglasii Douglas moss phlox 10cm pot \$5.00ea
Native. Ht.5-10cm. Z2. Mat forming perennial with mossy green foliage and bright crimson flowers.

Phlox divaricata 'Blue perfume' Woodland Phlox \$10.00ea
 Ht.20-30cm. Z3. A lovely spreading woodland phlox with dark blue fragrant flowers.

Phlox divaricata 'Montrose tricolor' Woodland Phlox \$9.50ea
 Ht.20-30cm. Z3. A lovely spreading woodland phlox with variegated foliage and fragrant lilac flowers.

Phlox divaricata 'Plum Perfect' Woodland Phlox \$9.50ea
 Ht.20-30cm. Z3. A lovely spreading woodland phlox with fragrant lilac flowers with a dark purple eye.

Phlox divaricata 'White Perfume' Woodland Phlox \$9.50ea
 Ht.20-30cm. Z3. A lovely spreading woodland phlox with fragrant white flowers.

Pinellia cordata 10cm pot \$12.99ea
 From the tiniest of corms comes this beauty from China. Heart shaped leaves are dark green with veins marked in cream. Spathe green with purple veins, spadix long and scented of fruit. This is the only variegated Pinellia. It makes a striking groundcover in shade.

Pinellia tripartita \$12.99ea
 Ht. 20cm. Z6. Spathe green, spadix very long and slender, leaves tripartate. Again, an interesting plant for the woodland garden that apparently multiplies with vigour when established.

Pinellia tripartita 'Atropurpurea' \$12.99ea
 Ht. 20cm. Z6. Similar to the above but with purple spathe.

Pinguicula vulgaris Common Butterwort \$5.00ea
 Ht. 1-2cm. Z3. Violet flowers on this tiny insectivorous plant. In the winter the plants reduce down to a tiny seed-like bud from which they emerge in spring.

Platycodon grandiflorus 'Mariesii' Balloon Flower \$9.50ea
 Ht.40cm. Z3. Balloon shaped buds burst into lovely violet blue flowers.

Podophyllum delavayii (P.veitchii) \$59.99ea
 Ht.30-40cm. Z6. Also know as *Dysosma delavayii*. This wonderful Chinese perennial with branching upright stems exhibits remarkable mottling of the leaves when they emerge. These large, deeply lobed and toothed, peltate leaves are mottled with rich reddish-mahoganies and browns. Deepmahogany-red to coral-red elongated, pendant flowers in April-May. One of the best foliage woodlanders. Each plant is different.

Perennials

Podophyllum hexandrum Himalayan Mayapple \$10.00ea
Ht.20-30cm. Z6. Large 3-5 lobed peltate shiny green foliage emerges with a flush of reddish bronze. Pink solitary flowers are followed by red fruit.

Podophyllum peltatum Mayapple..... 11cm pot \$10.00ea
N.A.Native. Ht. 30-50cm. Z4. Leaves deeply lobed. Fragrant, solitary nodding flowers are white to pale pink and almost trillium like. Fruits yellowish in color and apple shaped. An easy to grow spreading perennial in shade to part-sun.

Polemonium carneum Great Jacob's ladder.....\$4.00ea
Native. Ht.15-40cm. Z6. Peachy soft pink flowers with a tinge of blue.

Polemonium pauciflorum.....\$5.00ea
Ht.50cm. This is a yellow flowered Jacob's ladder that is often purple tinted.

Polygonatum biflorum Small Solomon's Seal 10cm pot \$5.00ea
N.A.Native. Ht. 30-60cm. Z3. Arching stems with lance shaped green leaves arise from creeping rhizomes. Paired white flowers with green tips hang at regular intervals from the arching stems. Blooms May to June. Fruit blue-black in color. Shade to semi-shade.

Polygonatum canaliculatum..... \$9.50ea
Ht. 1m. Z3. This is a large form of P. biflorum.

Polygonatum cirrhifolium..... late spring only \$12.00ea
Ht. 60-120cm. Z6. Narrow leaves in whorls with tendril-like tips. White tinged purple or green flowers in axils of leaves followed by red fruits.

Polygonatum falcatum 'Silver Striped form'.....\$20.00ea
Ht. 50-85cm. Z4. This natural selection from Japan has arching stems bearing narrow green leaves each with a central silver stripe down the midrib. Long creamy-white flowers with green tops dangle in pairs below the leaves.

Polygonatum falcatum 'Kon Chiri Shima'.....\$59.00ea
Ht.25-30cm. Z4. A variegated dwarf selection of this Japanese native Polygonatum. 'Kon Chiri Shima' has broad bands of golden yellow and green splashed inside with some leaves being all yellow. Variegations will fade out to green by mid-summer. Very rare and limited supply.

Polygonatum punctatum.....\$12.00ea
Ht. 30cm. Z4-5. A near evergreen species in the garden with white flowers usually flecked purple.

Polygonatum hookeri Dwarf Solomon's Seal..... \$12.00
Ht. 10cm. This is a lovely dwarf soloman's seal with pink flowers. Naturally a very tiny tuber.#

Polygonatum humile Dwarf Solomon's seal\$6.00ea
Ht.15cm. Drooping white flowers with green tips.

Polygonatum multiflorum Solomon's Seal..... 1gal \$9.50ea
Ht. 60-120cm. Z4. In May and June nodding white flowers with greenish tips hang in groups of 3-5 from arching stems. Shade to semi-shade. Rhizome creeping. Blue-black fruit.

Polygonatum multiflorum variegatum..... \$9.50ea
Ht.60-120cm. Z4. Variegated form of the species.

Polygonatum odoratum Byakko \$39.00ea
Ht.5-10cm. Z4. This beautiful woodland plant from Japan is a real stunner with its unusual green and white variegation. The leaf is split into a green part at the tips of the leaves and a white part where the leaf joins the stem. For the best colour, plant in a location that gets some morning sun. The name means 'White Tiger' in Japanese. Flowers are sweetly fragrant.

Polygonatum odoratum 'Variegatum' Variegated Solomon's Seal
..... \$5.00ea
Ht. 110cm. Z4. Leaves boldly blotched and striped with ivory white. Shoots emerge in spring, mostly pink and ivory with traces of green and the bright color holds until stems are almost fully grown. Flowers are white with greenish spot in throat, and are held in large clusters. Blooms May to June. Spreads by rhizome in shade to semi-shade in humus-rich soil.

Polygonatum oppositifolium..... \$12.00ea
Ht. 60cm. Z4-5. A fascinating large Soloman's Seal from the Himalayas with white flowers followed by showy red fruit on arching stem with opposite arranged leaves.

Polygonatum punctatum..... \$15.00ea
Ht. 30cm. A near evergreen species with white flecked purple flowers in the leaf axis. Easy in part shade humus rich soil.

Polygonatum verticillata rubrum..... \$15.00ea
Ht.to 1m. Z5. A choice Chinese woodland perennial with narrow foliage and red flushed flowers followed by red berries in fall.

Polygonatum verticillata Himalayan Giant..... \$15.00ea
Ht. 1-1.2m. Z5. A fantastic large Soloman's Seal from the Himalayas with white flowers followed by showy red fruit. Leaves emerge purple

Polygonum tenuicale..... 10cm pot \$5.00ea
Ht.8-10cm. Z6. A dwarf species that forms nice tidy clumps with dense upright spikes of fragrant white flowers. We owe this plant to the generosity of the late Don Armstrong.

Potentilla anserina Silverweed 11cm pot \$4.00ea
Native. Ht. 10-30cm. Z7. Pinnately compound leaves are held erect and are green and slightly hairy in shade to semi-shade. In sun, the leaves are held almost prostrate and are much hairier and become silvery green in color. Spreads by long runners. Flowers single yellow.

Pulmonaria 'Excalibur' 1gal \$14.00ea
Ht. 30cm. Z2. This mildew resistant lungwort has striking silver leaves edged with dark green.

Pulmonaria longifolia ssp. cevennensis 1gal \$9.50ea
Ht. Z5. A new subspecies with extra long (85cm) leaves very heavily spotted with silver. Blue flowers wider than usual.

Pulmonaria officinalis 'Sissinghurst White' 1gal \$9.50ea
Ht. 25cm. Z4. Green leaves with silver spots. White flowers.

Primula alpicola Tibetan Primrose..... \$5.00ea
Ht. 30-45cm. Z6. A graceful primula with tall stalks bearing clusters of pendulous, fragrant creamy yellow bell shaped flowers.

Perennials

- Primula beesiana** \$5.00ea
Ht. 40cm. Z6. A pretty candelabra type primula with rosy purple to magenta flowers on tall stems in late spring .
- Primula bulleyana** \$5.00ea
Fl.Ht. 60cm. Z5. A cool Primula from China with whorls of deep orange flowers held on slender stalks above the foliage.
- Primula capitata ssp. Mooreana**..... \$5.00ea
Ht. 15-30cm. Z5. Deep violet blue pin cushion-like flowers overlaid with silvery powder in summer.
- Primula chungensis** \$5.00ea
Ht. 30-60cm. Z6. Fragrant orange flowers on long stems in summer.
- Primula chunglenta** \$5.00ea
Ht. 30-90cm. Z6. This cross between p. chungensis and p. pulverulenta produces variable mixed red and purple blooms.
- Primula elatior** Oxlip \$6.00ea
Ht. 10-30cm. Z2. A woodland species from The U.K. and Europe with soft-yellow tubular flowers on tall stems.
- Primula florindae** Giant Cowslip \$5.00ea
Ht. 90cm. Z6. Very tall stems topped with umbels of fragrant yellow tubular flowers in summer.
- Primula japonica Millers crimson seedlings** \$4.00ea
We offer seed grown plants of this red form of Primula japonica from open pollinated plants, so expect some color variation.
- Primula kisoana alba** \$8.00ea
Ht. 10-20cm. Z5. A white flowered selection from Japan of an excellent woodland species that spreads slowly by underground runners into a colony. Usually sulks after transplanting.
- Primula luteola** \$5.00ea
Ht. 15-35cm. Z5. Showy clusters of bright sulfur yellow flowers on long stems in spring.
- Primula marginata** \$3.50ea
A nice evergreen primula with lovely purplish flowers.
- Primula pulverulenta** \$5.00ea
Ht. 50-90cm. Z6. This candelabra type Primula has striking deep red flowers with a darker eye in summer.
- Primula rosea** \$5.00ea
Ht. 20cm. Z6. Hot rose pink to red flowers in late spring followed by foliage which emerges tinted a lovely reddish bronze.
- Primula secundiflora** \$5.00ea
Ht. 30cm. Z6. Hanging bell shaped reddish purple to deep rosy red flowers in late spring to early summer. Foliage is evergreen.
- Primula sieboldii** \$5.00ea
A great spreading Primula with white, pink or purple flowers. We offer a great mix.
- Primula sinensis** \$5.00ea
Z8. A nice primula from China with purple to pink flowers with a yellow eye. Blooms in late winter to early spring.

- Primula sinopurpurea**..... \$5.00ea
Ht. 35cm. Z5. Nodding violet to creamy white flowers in late spring to early summer. Elongated leaves are yellowish farinose on their undersides.
- Primula waltonii**..... \$5.00ea
Ht. 30cm. Z6. Pendant flowers are deep pink to wine-red with a creamy central face and red central eye. Blooms early summer.
- Primula wilsonii** \$6.00ea
Fl.Ht. 50-80cm. Z6. From a small rosette of leaves comes a tall slender stalk with a whorl of stunning claret-red to purple red flowers.
- Prunella vulgaris** Self-heal 10cm pot \$3.50ea
Native. Ht. 10-50cm. Z6. Lance-shaped, lightly haired leaves. Purplish-pink flowers form a spike like cluster atop short stems. Sun to to semi-shade in moist to dry humus-rich soil. This plant was used by Native peoples to treat a variety of ailments.
- Pulsatilla vulgaris** Prairie Crocus, Pasque flower 10cm pot \$5.00ea
Ht.7-15cm. Z5. Silky, white, hairy, finely divided leaves. Beautiful flowers from bluish-violet, lavender to red or white Blooms March to April. Flowers precede the leaves. Sun to light shade in well drained soil.
- Pteridophyllum racemosum** \$30.00ea
Ht.20-30cm. Z4. This unusual clumping Japanese perennial has fern-like foliage and produces white flower spikes in early summer. Prefers a well drained location in shade to part sun.
- Ranunculus acris var. nipponicus** \$15.00ea
Ht. 20-40cm. Z6. A nice clump forming groundcover from Japan with bright yellow buttercup flowers in June to early August.
- Ranunculus ficaria Plena** Double flowered Buttercup 10cm pot \$4.00ea
Fl.Ht. 15cm. Z5. Arising from tiny bulb-like tuberous roots in early spring to form spreading rosettes of shiny green leaves topped with vibrant double yellow flowers. Summer dormant. A great companion plant for bulbs in the shaded wild garden.
- Ranzania japonica** \$59.00ea
Ht 15-40cm.Z7. A seldom offered, legendary plant from the mountains of Japan. Each wiry stem bears twin trifoliolate leaves. From between these leaves is a single or more commonly a small cluster of drooping cup-shaped mauve-pink flowers that later develop into upright clusters of white berries. This slow-growing perennial will form a nice clump over time. Grow in humus rich soil in the shaded woodland.
- Rheum palmatum** Ornamental Rhubarb 1gal \$12.99ea
Ht. 200-250cm. Z5. Similar to R.australe but new leaves are dark purple-red and flower panicles are deep red in color.
- Rheum palmatum var. tanguticum 'Red Select'** Ornamental Rhubarb 2gal \$25.00ea
Ht. 200-250cm. Z5. Similar to R.australe but new leaves are reddish and flower panicles are deep pink-red in color.

Perennials

Rhodhypoxis

Tufts of narrow grass like leaves to 10cm are nearly obscured by masses of 3cm white, pink, or red flowers over a long spring-summer bloom period. Bulbs multiply quickly. Many varieties at first look similar but in time as the clumps grow one can see the subtle differences. Zone 7.

Rhodhypoxis bauri 'alba' \$4.00ea
White flowers.

Rhodhypoxis bauri 'Dawn' \$4.00ea
Pink flowers.

Rhodhypoxis 'E.A. Bowles' \$4.00ea
Large mid pink flowers that fade to white on the edges.

Rhodhypoxis 'Emily Peel' \$5.00ea
Large pink flowers.

Rhodhypoxis bauri 'Great Scott' \$5.00ea
Reddish pink flowers.

Rhodhypoxis 'Harlequin' \$4.00ea
White flowers suffused with purple at the tips.

Rhodhypoxis New Look \$5.00ea
A nice bright pink flowered form.

Rhodhypoxis 'Perle' \$4.00ea
Smaller white flowers suffused with purple.

Rhodhypoxis 'Pictus' \$4.00ea
Soft pale pink that is almost white suffused with purple pink at the tips.

Rhodhypoxis 'Pixie' \$4.00ea
Small flowers with long narrow petals.

Rhodhypoxis 'Platypetala' \$4.00ea
Flowers white maybe with a very pale hint of pink.

Rhodhypoxis 'Ruth' \$4.00ea
Rounded white petals and a compact habit.

Rhodhypoxis 'Tetra White' \$4.00ea
Medium white flowers that increase in size and abundance when fed to produce the largest white flowers.

Rhodiola rosea (Sedum integrifolium) Rose Root \$6.00ea
Native. Ht.10-15cm. Z1. A great sedum relative that is welcome addition to the rock garden.

Rodgersia aesculifolia Rodgersia 1gal \$9.50ea
Ht.70-180cm. Z5. Large leaves, 50cm across, rounded, seven parted with reddish brown hairs. Leaves look like the leaves of a Horse Chestnut tree. Clustered, tiny pinkish flowers on 80-120cm panicles are somewhat Astilbe like.

Rodgersia Die Stolze Rodgersia 1gal \$20.00ea
Ht.75-80cm. Z4. Green foliage with hints of bronze and orangey pink, somewhat astilbe-like flowers.

Rodgersia pinnata 'Chocolate Wings' \$21.00ea
Ht. 80cm. Z4. Chocolate foliage emerges in spring and ages to bronze green. Spikes of pink flowers.

Rodgersia pinnata 'Elegans' 1gal \$9.50ea
Ht.90-100cm. Z6. A pink Astilbe-like flower makes this one special. Leaves are dark glossy green and palmately shaped. Another great plant for the edge of a pond.

Rodgersia podophyllum 'Braunlaub' \$10.50ea
Ht. 100cm. Z5. Striking bronze leaves are sharply serrated and age to dark green by mid summer. Spikes of creamy flowers are flushed with red.

Romulea bulbocodium 10cm pot \$6.00ea
Ht.15cm. Z7. Sky-blue star shaped flowers with a yellow center, over 1cm across. From the tiniest of bulbs. Two-three bulbs per pot.

Roscoea alpina 11cm pot \$9.99ea
Ht.30cm. Z6. This species has pink or mauve flowers held at leaf level. Fast to form a showy little clump. 3 For \$27.00

Roscoea beesianum 11cm pot \$9.99ea
Fl.Ht. to 55cm. Z6. This is thought to be a natural hybrid of *R.auriculata* x *R.cautleoides*. Its yellow flowers are streaked lightly with purple on the laterals and heavily on the lip.

Roscoea cauleoides 11cm pot \$9.99ea
Fl.Ht. to 55cm. Z6. Large soft yellow flowers on a spike carried clear of the leaves appear with the new foliage in June.

Roscoea purpurea \$9.99ea
Ht 30cm. Z6. Purple flowered species.

Rubus acaulis Alaska Berry 10cm pot \$3.50ea
Native. Ht.5-10cm. Z1. Single, pretty, dark rose-pink flowers. Small, reddish raspberry-like fruit makes delicious jam or jelly. Excellent groundcover for shade to semi-shade.

Rubus pedatus Creeping Raspberry 10cm pot \$4.00ea
Native. Ht.2-5cm. Z5. This creeping, mat forming perennial looks almost like a strawberry plant; with flowers and all. The tiny fruit consist of 1-4, tasty drupelets. This makes an excellent evergreen groundcover for shade to semi-shade.

Rudbeckia fulgida 'Goldsturm' \$9.50ea
Ht.60cm. Z3. Bright golden yellow daisy-like flowers with a dark center.

Rudbeckia hirta 'Cherokee Sunset' \$9.50ea
Ht.90cm. Z5. Double to semi-double flowers in a range of colours from yellow to orange, bronze, mahogany and red.

Rudbeckia hirta 'Chim Chiminee' \$9.50ea
Ht.60cm. Z5. Unique quilled petals in an array of autumn colours from orange to yellow, red, bronze and shades in between.

Rudbeckia hirta 'Indian Summer' \$10.00ea
Ht.90cm. Z5. This selection produces very large golden-yellow black-eyed daisies.

Perennials

Rudbeckia hirta 'Sonora' \$10.00ea
Ht.60cm. Z4. This selection has golden yellow flowers with a wide mahogany band around its black eye.

Rudbeckia nitida 'Herbstonne' \$9.50ea
Ht.175cm. Z2. This variety is particularly hardy and very tall. Sunny yellow daisy-like flowers.

Rudbeckia occidentalis 'Black Beauty' \$9.50ea
Ht.75cm. Z4. This is a weird one! It has a very black central cone but no actual flower rays. Butterflies love it.

Salvia glutinosa Jupiters Distaff \$4.00ea
Ht.80-120cm. Z5. A great plant for the edge of a woodland garden with spikes of yellow flowers from mid-summer to mid-autumn.

Salvia lyrata 'Burgundy Bliss' 1gal \$9.50ea
Ht. 15cm. Z4. Excellent drought tolerant dwarf perennial for a sunny border. Lavender white flowers above deep burgundy foliage.

Salvia lyrata 'Purple Knockout' 1gal \$9.50ea
Ht. 60cm. Z5. Nice low mounds of deep maroon foliage with spikes of purple blue flowers.

Salvia nemorosa 'Mainacht' (May Night) 1gal \$9.50ea
Ht. 35-40cm. Z3. A clumping perennial with showy spikes of rich violet flowers with reddish purple bracts in summer.

Salvia nemorosa 'Marcus' 1gal \$9.50ea
Ht. 15cm. Z4. Very compact, low mounding variety with purple-blue flower spikes.

Salvia nemorosa 'Ostfriesland' 1gal \$9.50ea
Ht. 45cm. Z3. A clumping perennial with showy spikes of purple flowers with red tinted bracts in June, re-blooming until late fall. Prefers full sun to light shade in any well drained soil.

Salvia nemorosa 'Plumosa' 1gal \$9.50ea
Ht. 45cm. Z4. Double deep violet blooms above grey-green foliage. Prefers full sun to light shade in any well drained soil.

Salvia nemorosa 'Pink Ostfriesland' 1gal \$9.50ea
Ht. 40cm. Z4. A clumping perennial with showy spikes of pink flowers. Prefers full sun to light shade in any well drained soil.

Salvia sylvestris 'Caradonna' 1gal \$9.50ea
Ht. 45cm. Z3. Rich bluish purple flower spikes on purple stems. Prefers full sun to light shade in any well drained soil.

Salvia verticillata 'Purple Rain' 1gal \$9.50ea
Ht.60cm. Z3. Spikes of smoky purple flowers from summer till fall. Prefers full sun to light shade in any well drained soil.

Sanguisorba obtusa 1gal \$9.50ea
Ht. 50-60cm. Z5. Long pinnate leaves with 13-17 leaflets. Pale rose flowers in long nodding spikes in late summer to early fall. Prefers sun to light shade in average garden soil.

Sanguinaria canadensis Bloodroot 11cm pot \$5.00ea
N.A.Native. Ht.15-20cm. Z4. As they break the ground in early spring, each tightly rolled blue-green leaf encloses a flower bud,

keeping it safe from harm. Flowers are glistening white and open flat in the morning, stand erect by midday and close in the evening. Plant in humus rich soil in shade to semi-shade. This will eventually form large colonies.

Sanguinaria canadensis 'Multiplex' Double Flowered Bloodroot 10cm pot \$15.00ea
N.A.Native. Ht.15-20cm. Z4. This is the much sought after double flowered form. Plant in humus rich soil in shade to semi-shade. From a tuberous root. This will eventually form large colonies.

Sarracenia 'Dana's Delight' \$12.00ea
Z5-6. This pitcher plant is sometimes referred to as Red leucophylla. An exceptional plant with ruffled hood with brilliant red veins and bright pinkish pitcher. Carnivorous.

Sarracenia 'Judith Hindle' \$12.00ea
Z6-7. This pitcher plant is a leucophylla with white capped hoods heavily veined with red. Ruffled hoods. Carnivorous.

Sarracenia leucophylla 'tarnok' \$12.00ea
Z6-7. A pitcher plant with crisp white hoods veined deep red. Awesome. Carnivorous.

Sarracenia purpurea \$12.00ea
N.A.Native. Ht.10-30cm. Z3. Pitcher Plant. A bizarre plant best grown in peat moss mixed with sand. This species has large pitchers marked bright red. Flowers purple red from May till June. Mature offsets. Never fertilize, these are carnivorous.

Sarracenia 'rubra' \$12.00ea
Z6-7. This pitcher plant has a bright yellow-green pitcher with the best color in summer and fall. Red Flowers. Carnivorous.

Sarracenia 'Scarlet Belle' \$12.00ea
Z6-7. Pitcher hoods are angled to keep most of the rain from entering the hood. Veins are dark red and filled in with white. Carnivorous.

Satureja douglasii Yerba Buena 10cm pot \$5.00ea
Native. Ht. 10-25cm. Z5. An excellent small scale well behaved groundcover for shade with small white flowers. Leaves can be used to make a soothing tea. Drought tolerant.

Sauromatum venosum **Voodoo Lily** \$9.50ea
Z8. This interesting tuber produces a long, slender fleshy pink to maroon spadix with a yellowish spathe mottled with maroon. A striking solitary pale green leaf mottled with dark green or maroon follows in summer. The spadix emits a very distinctive foul smell, luckily for only a day. Striking purple tennis ball sized seed head in fall.

Saxifraga bronchialis Spotted saxifrage 10cm pot \$5.00ea
Native. Z6. Ht 3-5cm. Spreading foliage resembles moss with white flowers spotted purple-red on short slender stalks.

Saxifraga cortusifolia Japanese Woodland Saxifrage \$5.00ea
Ht.10cm. Z7. Unique white flowers held above glossy, rounded fleshy foliage in spring. Great groundcover for the woodland garden.

Perennials

Saxifraga fortunei Bronze Form \$10.00ea
Ht.50cm. Z6. A hardworking perennial for shade to part sun. Great bronze leaves topped with sparkling white flowers in late summer.

Saxifraga hypnoides Mossy saxifrage..... 10cmpot \$4.00ea
Ht.5cm. Z6. Spreading foliage resembles moss with white flowers on short slender stalks.

Saxifraga occidentalis..... 10cmpot \$4.00ea
N.A. Native. Ht.10-20cm. Z6. This western saxifrage has rosettes of roughly triangular, fleshy foliage with toothed edges topped with airy inflorescence of single white blooms with 10 yellow spots in the centers.

Saxifraga mertensiana..... \$5.00ea
Native. Toothed kidney shaped leaves and sprays of white flowers.

Saxifraga tricuspidata Three-toothed Saxifrage \$6.00ea
Native. Z1. Low, dense, mat forming saxifrage with clusters of creamy white flowers with maroon to orange spots. Selected from near the Arctic circle. Very Drought tolerant once established.

Saxifraga paniculata 10cmpot \$4.00ea
Ht 15-25cm. Z2. Mat forming spreading species with white flowers on short slender stalks.

Saxifraga stolonifera 10cmpot \$4.00ea
Ht 15cm. A wonderful evergreen groundcover with rounded grey-green leaves patterned with silvery veins and a purplish underside with pink hairs. White flowers on tall wiry red stems. Fantastic groundcover.

Saxifraga stolonifera 'Harvest Moon' \$10.00ea
Ht.60cm. Z7. This gorgeous groundcover perennial has green foliage with golden highlights topped with white to very soft pink starry shaped flowers in summer. Prefers part shade in humus rich soil.

Saxifraga umbrosa primuloides 10cm pot \$4.00
Ht. 5cm. Z7. Pink flowers on small evergreen rosettes.

Saxifraga umbrosa variegata (London Pride) 10cm pot \$4.00ea
Z7. Large green rosettes splashed cream yellow with spikes of stary pinkish white flowers from May to June.

Saxifraga 'Whitehill' 10cmpot \$4.00ea
Ht. 5cm. Z6. Mat forming rosettes of blue-green leaves with rosy undersides and inner edges. Delicate white flowers.

Schizostylus coccinea alba..... 1gal \$9.50ea
Ht.30-45cm. Z6. A great plant with bright white flowers with golden anthers and spreading, grass-like foliage.

Schizostylus coccinea Oregon Sunset 1gal \$9.50ea
Ht.30-45cm. Z6. A great plant with rich melon pink flowers and spreading, grass-like foliage.

Schizostylus coccinea Major 10cm pot \$4.00
Ht.30-60cm. Z6. These are seedlings of this form with brick red flowers. Hope they come true.

Schizostylus coccinea shades of Pink Kaffir Lily..... 1gal \$9.50
Ht.30-45cm. Z6. A great plant with rich pink flowers and spreading, grass-like foliage. A late bloomer.

Sclerathus uniflorus..... 10cm pot \$4.00ea
Ht.2-4cm. Z6. A mat forming perennial with small white flowers. Looks very much like moss. Great for the rockgarden.

Scilla rosenii bakuriani 10cm pot \$11.00ea
Z6. This very beautiful scilla has vivid blue flowers with white centers. Petals recurve like a erythronium as they age.

Scopolia carniolica Zwanenberg \$14.00ea
Z5. Ht. 60cm. From a fleshy rhizome dark brownish purple bells emerge with the leaves in early spring. Awesome.

Sedum divergens 10cm pot \$4.00ea
Native. Ht.5-7cm Z4. Mat forming stonecrop with small rounded shiny green leaves and yellow flowers. Excellent red fall color.

Sedum hybrid 'Abbeydore'\$9.50ea
Ht.40cm Z3?. Light pink buds open to gorgeous dark pink-red flowers.

Sedum hybrid 'Autumn Fire'\$9.50ea
Ht.60cm Z3?. An improved S.Autumn Joy with deep rosy red flower clusters and medium green foliage.

Sedum hybrid 'Chocolate'\$11.00ea
Ht.45cm. Z3. This interesting hybrid has red flowers and green foliage that turns an intense dark brown while the plant is blooming

Sedum hybrid 'Diamond Edge'\$11.00ea
Ht.40cm. Z3. Light green foliage with white edges and dark pink flowers.

Sedum hybrid 'Matrona'\$9.50ea
Ht.45cm. Z3. Purple-gray foliage gives rise to dusky red flowers.

Sedum hybrid 'Purple Emperor'\$9.50ea
Ht.40cm. Z3. Soft red flowers atop dark purple foliage.

Sedum lanceolatum 10cm pot \$3.50ea
Native. Ht. 5-15cm. Z5. Evergreen. This species grows from a basal rosette, leaves are narrow linear and dark green. Habit is low and compact in full sun and looser and more spreading in partial sun. Flowers a soft pale yellow clustered in flattened heads.

Sedum Munstead 'Strawberries N' Cream'\$9.50ea
Ht.75cm. Z2. Red buds in numerous clusters open to soft pink blooms.

Sedum oreganum Oregon Stonecrop..... 10cm pot \$3.50ea
Native. Ht. 5-7cm. Z5. Evergreen. Bright green, succulent foliage forms mats of small rosettes. Yellow flowers in clusters atop short stems become pinkish with age. Likes sun to light shade in a well drained site.

Sedum reptre 'Angelina'\$11.00ea
Ht.15cm. Z3. A groundcover sedum with golden yellow needle shaped foliage that changes to amber in fall. Yellow flowers.

Perennials

Sedum spathulifolium Broad-leaved Stonecrop . 10cm pot \$3.50ea
Native. Ht. 5-7cm. Z5. Evergreen. Smooth, fleshy, spoon-shaped blue-green leaves form distinct rosettes. Yellow flowers in branched cymes bloom June to July. All forms of this plant have a beautiful, mat forming cushiony habit. Sun to semi shade in well drained soil.

Sedum spathulifolium 'Capa Blanco'..... 10cm pot \$3.50ea
Native. Ht. 4-6cm. Z5. Evergreen. This selection has small, thick, silvery white, glossy, decorative leaf rosettes. Very nice.

Sedum spathulifolium 'Rubra'..... 10cm pot \$3.50ea
Native. Ht. 5-7cm. Z5. Evergreen. This selection has primarily reddish tones on the leaves that turn reddish purple in the fall. Same conditions as species.

Sedum spectabile 'Carl' \$9.50ea
 Ht.45cm. Z2. Excellent rosy pink flowers atop grey-green foliage.

Sedum spectabile 'Frosty Morn' \$9.50ea
 Ht.60cm. Z3. Green foliage with white edges and pale pink blooms.

Sedum stenopetalum..... 10cm pot \$4.00ea
Native. Ht.10-20cm Z4. Mat forming stonecrop with very narrow leaves and yellow flowers. Good red fall color.

Sedum telephium 'Black Jack'.....1gal \$14.00ea
 Ht.50-60cm. Z3. A vigorous upright perennial with purplish black foliage and pink flowers.

Sedum Xenox.....1gal \$13.00ea
 Ht.25cm. Z3. Very handsome dark purple foliage topped with pinkish flowers. Nice compact habit.

Sidalcea hendersonii.....11cm pot\$6.00ea
Native. Ht. 1-1.4m. Z4. An incredible but rare native with a basal rosette of leaves and a tall, dense raceme smothered in rose-pink to red flowers.

Shortia uniflora Large type. On site sales only\$16.00ea
 Ht. Z7. A showy woodland perennial from Japan. Glossy evergreen leaves turn maroon red in winter. Showy pink flowers with frilly edges appear in spring. Flowers and leaves are larger than normal in this selection. Plant in shade in acidic well drained soil. Care must be taken as this plant is slow to establish. On site sales only.

Silene acaulis Moss Champion..... 10cm pot \$3.50ea
Native. Ht.2cm. Z2. A dense, flat cushion of bright green moss-like foliage. Small pink flowers are borne on top of foliage mound. Easy to grow in sun and well drained soil.

Sisyrinchium angustifolium Blue-eyed Grass..... 10cm pot \$3.50ea
Native. Ht. 15-20cm. Z3. Tufts of grass-like leaves with violet-blue yellow throated flowers. Blooms May to October. Sun to semi-shade.

Sisyrinchium angustifolium 'Album'..... 10cm pot \$5.00ea
Native. Ht. 15-20cm. Z3. Tufts of grass-like leaves with white flowers. Blooms May to October. Sun to semi-shade.

Sisyrinchium californicum Golden-eyed Grass ... 10cm pot \$3.50ea
Native. Ht. 10-25cm. Z8. Tufts of grass-like leaves with golden-yellow flowers. Blooms June and July. Sun to semi-shade. Can be grown in a colder climate but will be a self seeding annual.

Sisyrinchium douglasii Satin-flower 10cm pot \$5.00ea
Native. Ht. 15-20cm. Z6. Very narrow leaves in small tufts. Blooms in March or April with bell-shaped reddish-purple flowers. Sun to semi-shade. This is very slow to multiply, naturally small.

Sisyrinchium macounii 10cm pot \$5.00ea
Native. Ht. 10-15cm. Z8. Evergreen. We only have a few of this beauty which has the largest, dark blue flowers. Fall only.

Sisyrinchium macounii album White-eyed grass 10cm pot \$3.50ea
Native. Ht. 10-15cm. Z8. Evergreen. Narrow, iris-like leaves in tufts. Pure white flowers in late spring. Sun to semi-shade.

Soldanella carpatica X montana 10cm pot \$5.00ea
 Ht.10cm. Z4. Lovely nodding fringed violet blue flowers above tight mounds of rounded leathery green leaves.

Smilacina japonica 11cm pot \$9.99ea
 Ht.80cm. Z6. Somewhat similar to S. racemosa with lower leaves and flowers with densely hairy stalks. Makes a great spreading woodland groundcover over time. Native of Korea and Japan.

Smilacina oleracea..... 11cm pot \$11.99ea
 Ht. 80-175cm. Z5. An outstanding species with nodding racemes of pinkish-purple (rarely white) bellshaped flowers. Fruits orangey-red. Native to the Himalayas.

Smilacina paniculata..... 11cm pot \$9.99ea
 Ht. 60-100cm. Z7-8. This species is from China.

Smilacina trifolia..... 11cm pot\$9.99ea
 Ht.30-45cm. Z4-5?. Flowers in long peduncle racemes. This selection is from China.

Smilacina purpurea 11cm pot \$11.99ea
 Ht. 20-40cm. Z6. An interesting species from the Himalayas with a pendulous terminal spike of dark purple or less commonly white flowers.

Smilacina racemosa False Solomon's Seal..... 11cm pot \$5.00ea
Native. Ht. 80-90cm. Z5. Rhizomatous perennial forming dense colonies of erect to nodding, unbranched stems bearing alternate, lance shaped leaves. Terminal panicles to 15cm long consisting of many creamy white flowers followed by red berries.

Smilacina stellata Star-flowered False Solomon's Seal \$5.00ea
Native. Ht. 20-60cm. Z4. Similar in habit to S.racemosa. Creamy white, star like flowers in terminal clusters of 5-20, bloom in July. Berries are round, greenish with 3 reddish purple stripes aging to dark red. Shade to semi-shade in humus-rich soil.

Solidago 'Super' Golden Rod.....\$9.50ea
 Ht.70cm. Z2. The golden yellow plumes of Golden Rod are especially attractive to butterflies.

Stachys cooleyae Cooley's Hedge Nettle.....10cm pot \$5.00ea
Native. Ht.1-1.5M. Z6. An attractive non stinging nettle with spikes of violet-pink to purple-pink flowers.

Perennials

Stachys monieri 'Hummelo' \$9.50ea
Ht.60cm. Z4. This species forms lush clumps of long, narrow, textured green leaves (quite unlike stachys byzantina – Lamb's ears). It is lovely even when it's not in bloom. Lavender-rose flower spikes are held above the foliage. This is not a well known perennial, but it is definitely worth a spot in the sunny border.

Streptopus amplexifolius Twisted stalk 11cm pot \$8.00ea
Native. Ht. 60-120cm. Z6. A very showy native with yellowish white pendulous bells held by sharply kinked petioles (twisted stalk) followed by bright red fruits in late summer.

Streptopus obtusatus \$20.00ea
A new species of streptopus from China.

Streptopus roseus Rosy Twisted stalk 11cm pot \$6.00ea
Native. Ht. 30cm. Z3. A very showy native with dusky rose-pink pendulous bells held by sharply kinked pedicels (twisted stalk) followed by bright red fruits in late summer. Makes a nice groundcover or clump in the woodland garden.

Stylophorum diphyllum Wood Poppy 11cm pot \$4.00ea
N.A. Native. Ht. 40cm. Z4. This woodland relative to poppies has bright golden yellow flowers set above a bushy set of basal leaves.

Symplocarpus foetidus Eastern Skunk Cabbage \$16.00ea
N.A. Native. Ht. 30cm. Z4. A very early blooming skunk cabbage with curved yellow/green flowers with purplish brown/red mottling. Large green leaves appear after blooms and eventually form a clump almost a meter wide.

Syneilesis palmata 'Kikko' on site sales only or Fall \$90.00ea
Ht. 45cm. Z5. A wonderful foliage plant from Japan with large, highly cut and divided variegated leaves. Each leaf has an intricate network of yellow veins providing amazing contrast. Only a few available.

Tanakea radicans \$15.00ea
Ht. 30cm. Z6. A rarely offered evergreen creeping perennial from Japan. Leathery serrated leaves in basal clusters support large clusters of small white flowers. Great groundcover.

Tellima grandiflora Fringecups 10cm pot \$3.50ea
Native. Ht. 40-60cm. Z6. Evergreen. Very hairy green leaves form large mounding rosettes. Small, greenish-white, fragrant flowers in terminal raceme turn pink as they age. Upon close inspection, the flowers reveal an unsuspected delicacy and beauty. Good groundcover for shade to semi-shade in humus-rich soil.

Thalictrum 'Black Stocking' Meadow Rue 1gal \$18.00ea
Ht. 180cm Z5. Huge clusters of lavender magenta flowers are borne on near black stems.

Thalictrum delavayi 'Hewitt's Double' Meadow Rue 1gal \$12.00ea
Ht. 100-120cm Z7. Masses of small double purple flowers on numerous large panicles set above small green leaves on wiry black stems. Blooms July to August.

Thalictrum delavayi var. decorum 10cm pot \$8.00ea
Ht. 1-2M. Z7. This is an incredible meadow rue with showy inflated purple buds that open to very large lavender flowers with protruding yellow stamens. These are young plants but when mature they will top six feet in height.

Thalictrum flavum ssp. glaucum (T. speciosissimum)
Yellow Meadow Rue 1gal \$9.50
Ht. 1-1.5m. Foliage a lovely bluish green with yellow flowers.

Thalictrum isopyriodes 11cm pot \$6.50ea
Ht. 25cm. Z6. A nice species from the himalayas with glaucous blue leaves and airy panicles of yellowish-green flowers.

Thermopsis villosa Carolina Bush Pea \$9.99ea
N.A. Native. Ht. 50-150cm. Z4. Yellow flowers are pea-like, standing erect in densely packed terminal racemes. The foliage is trifoliate, bright green above and a downy silver beneath. A showy large perennial for full sun.

Tiarella 'Eco-eyed glossy' 1gal \$9.50ea
Ht. 20-30cm. Z3. A nice spreading selection with glossy green foliage and bright white flowers. Woodland garden.

Tiarella Inkblot 1gal \$11.00ea
Ht. 25cm. Z4. Large dark markings develop on mature leaves, spikes of pinky beige flowers.

Tiarella Iron Butterfly 1gal \$11.00ea
Ht. 15-20cm. Z4. An attractive clump forming, rhizomatous perennial with semi-evergreen deeply cut dark green leaves with black central blotches and striping. Airy racemes of white flowers in spring.

Tiarella polyphylla 'Moorgren' 1gal \$9.50ea
Ht. 20-30cm. Z4. A running species from Asia with green leaves striped and splashed with dark chocolate-purple.

Tiarella trifoliata Foamflower 10cm pot \$3.50ea
Native. Ht. 15-40cm. Z6. Evergreen. Leaves divided into three leaflets with the middle segment being three lobed; outer segments being two lobed. Same flower as T. laciniata. Shade to semi-shade in humus-rich soil.

Tiarella wherryi 1gal \$11.00ea
N.A. Native. Ht. 25cm. Z5-6. One of the best Tiarella species with large trusses of fragrant white flowers with a pink blush.

Tofieldia glutinosa \$5.00ea
Ht. 12-30cm. Z1. A small plant with iris-like foliage and white flowers in dense terminal clusters followed by bright reddish seed capsules.

Tofieldia nuda var. furusei \$15.00ea
Ht. 12cm. Z4. A dwarf tufted Japanese perennial with iris like leaves and racemes of showy starry white flowers with purple anthers in July.

Tolmiea menziesii Piggy-back Plant 10cm pot \$3.50ea
Native. Ht. 10-25cm. Z6. Evergreen. Heart shaped, hairy, 5-7 lobed, leaves on hairy stalks. Buds at the base of the leaves develop into plantlets that root into daughter plants when the leaves touch the ground. Small brownish-purple flowers in airy clusters atop 40-80cm tall stems. Makes an excellent ground cover for shade to semi-shade. It also makes a wonderful indoor plant in a pot or hanging basket.

Perennials

Tradescantia x andersoniana 'Concorde Grape' \$5.00ea
Ht. Z5. Deep rich purple flowers with prominent yellow stamens. Great tufted perennial with grass like foliage for sun to part shade producing multitudes of flowers from late spring through summer.

Tradescantia x andersoniana 'Hawaiian Punch' \$5.00ea
Ht. 45cm. Z5. Purple-red blooms. Great tufted perennial with grass like foliage for sun to part shade producing multitudes of flowers from late spring through summer.

Tradescantia x andersoniana 'Karminglut' \$5.00ea
Ht. 50cm. Z5. Carmine -red flowers. Great tufted perennial with grass-like foliage for sun to part shade producing multitudes of flowers from late spring through summer.

Tradescantia x andersoniana 'Leonora' \$5.00ea
Ht. 40cm. Z5. Violet blue flowers. Great tufted perennial with grass-like foliage for sun to part shade producing multitudes of flowers from late spring through summer.

Tradescantia x andersoniana 'L'Innocence' \$5.00ea
Ht. 50cm. Z5. Pure white flowers. Great tufted perennial with grass-like foliage for sun to part shade producing multitudes of flowers from late spring through summer.

Tradescantia x andersoniana 'Osprey' \$5.00ea
Ht. 50cm. Z5. White flowers with feathery blue stamen filaments in the centers. Great tufted perennial with grass-like foliage for sun to part shade.

Trautvetteria carolinensis False Bugbane 11cm pot \$3.50ea
Native. Ht. 30-60cm. Z5. Large, palmate, deeply lobed, coarsely toothed leaves. White flowers in clusters are set above the foliage. This rhizomatous perennial makes an excellent ground cover for shade to semi-shade. Great around ponds, streams or in a woodland setting.

Tricyrtis

A wonderful group of perennials that bloom very late and brighten up late summer and dreary fall days.

Tricyrtis 'Blue wonder' Blue Wonder Toad Lily \$10.00ea
Ht. 60cm. Z3. Purple spotted flowers on white background.

Tricyrtis 'Empress' \$10.00ea
Ht. 70cm. Z3. Very large white flower speckled with red.

Tricyrtis formosana Toad Lily \$9.50ea
Ht. 60cm. Z4. We have this speckled flowered beauty back in production.

Tricyrtis formosna 'Gilt Edge' \$10.00ea
Ht. 60cm. Z4. Glossy green leaves become variegated with gold accents as it matures. Dark rose flowers with soft white spots.

Tricyrtis latifolia 'Golden Leopard' \$10.00ea
Ht. 50cm. Z3. Yellow flowers with purple-bronze spots in terminal clusters atop upright light green foliage. From Japan.

Tricyrtis latifolia. \$12.00ea
Ht. 50cm. Yellow flowers with burnt umber spots in late summer.

Tricyrtis macranthopsis Yellow Chinese Toad Lily \$10.00ea
Ht. 40-80cm. Z5-6. Large clear yellow bell shaped flowers bloom along the stem in late summer and early fall. This is one of the best toad lilies but it is slower to spread, making an impressive clump in 2-3 years.

Tricyrtis macropoda Candelabra Toad Lily 1 gal \$9.50ea
Ht. 50-70cm. Z5. White flowers with violet spots. Native to China.

Tricyrtis x Sinonome. 1 gal \$9.50ea
Ht. 80-90cm. Z5. Very late blooming. Hairy flower buds open to purple flowers.

Tricyrtis 'Tojen. \$10.00ea
Ht. 90cm. Z 5. Arching stems with soft violet flowers with white throats in late August through to October.

Trientalis latifolia Broad-leaved Starflower 10cm pot \$3.50ea
Native. Ht. 10-20cm. Z5. Four to eight leaves in terminal whorls atop thin wiry stems. Rose pink or white, 2cm flowers set atop the leaves. This small, creeping perennial makes an excellent groundcover in shade to semi-shade in humus-rich soil.

Trilliums

A wonderful group of woodland plants that need no introduction for most. We are looking for other species and forms especially double flowered forms. We currently are growing six different double flowered forms which when we have sufficient numbers we will offer. We are also looking for people to collect us Trillium seeds, any and all species. We recommend a well drained humus rich soil in dappled shade for best plant performance.

Trillium catesbaei Rosy Trillium 11cm pot \$8.99ea
N.A. Native. Ht. 30-45cm. Z4. This is a beautiful trillium with nodding pink to rose flowers with purple anthers.

Trillium chloropetalum giganteum rubra \$12.99ea
Ht. 20-65cm Z5 One of the best and hardest to get Trilliums. Large upward pointing dark red petals atop handsome mottled leaves. Young seedlings.

Trillium cuneatum Whippoorwill Flower 11cm pot \$8.00ea
N.A. Native. Ht. 25cm. Z5. Leaves unmarked or faintly mottled, flowers dark maroon to brown. Blooms May-June.

Trillium erectum Purple Trillium \$8.00ea
N.A. Native. Ht. 20-30cm. Z4. Purple-red flower set 2.5-5cm above leaves on a slender stalk. Petals are nearly erect, with purple red anthers bearing white pollen. Easily grown in humus-rich soil in shade to part sun. Blooms April to May.

Trillium erectum x flexipes 11cm pot \$8.00ea
N.A. Native. Ht. 20-45cm. Z4. This is similar to T. erectum albiflorum in early bloom but after a few days turns a lovely light tan color. Flower is also slightly nodding.

Trillium flexipes 11cm pot \$8.00ea
N.A. Native. Ht. 30-40cm. Z4. Similar to T. cernuum but nodding flowers almost always above the leaves. Flowers usually white but occasionally pink, red or brown.

Perennials

Trillium grandiflorum Snowy Trillium 11cm pot \$8.00ea
N.A. Native. Ht. 30-45cm. Z3. White flowers, turning to pink with age. Petal margins wavy, anthers yellow.

Trillium grandiflorum plenum \$75.00ea
N.A. Native. Ht. 30-45cm. Z3. This is another white double T. grandiflorum with fully double white, camellia-like flowers. This, in our stock, is referred to as Trillium grandiflorum double form #5 as we have not been able to trace the origin of this double form.

Trillium grandiflorum Snowbunting \$75.00 ea
N.A. Native. Ht. 30-45cm. Z3. A wonderful form with nice fully double white flowers. Mature single eyed divisions. We have only a few of these to spare and must limit them to one per customer. Only a few available.

Trillium hibernsonii \$25.00ea
Native. Ht. 3-12cm Z6? This is a miniature Trillium with pink flowers that fade to white stained pink. Forms nice clumps in a garden setting. This was originally found on the West Coast of Vancouver Island. These are bloom sized or near bloom sized rhizomes that are naturally small.

Trillium kurabayashii \$10.00ea
Ht. 30-50cm. Z5. Large upright fragrant purple-red flowers atop usually well mottled leaves. We offer small seedlings that will bloom in a couple of years.

Trillium luteum Yellow Trillium 11cm pot \$8.00ea
N.A. Native. Ht. 30-40cm. Z6. Fragrant, lemon scented yellow flowers and attractively mottled leaves. Blooms May to June. Easy to grow in humus-rich soil.

Trillium ovatum Trillium 11cm pot \$8.00ea
Native. Ht. 25-60cm. Z5. Fragrant white flowers age to pink then to wine purple. Blooms March to May. Easy to grow.

Trillium parviflorum 10cm pot \$8.00ea
Native. Ht. 17-30cm. Z6. This looks like a small form of T. albidum with mottled leaves. Small white sessile flowers with a spicy fragrance. Leaves usually slightly mottled, fruit dark maroon.

Trillium pusillum Dwarf White Trillium 11cm pot \$8.00ea
N.A. Native. Ht. 20-30cm. Z6. White flowers age to cherry red, petals inclined upwards. Bronze-green leaves. Grow in part shade to shade in humus-rich soil.

Trillium recurvatum Prairie Trillium 11cm pot \$8.00ea
N.A. Native. Ht. 30-45cm. Z5. Brown-red flowers set atop mottled leaves. Easy grower, plant in shade to part shade.

Trillium rivale \$8.00ea
Native. Ht. 5-15cm. Z. A wonderful tiny trillium that forms clumps. Flowers range from white to pink often spotted with purple. These are four year old seedlings that are naturally very small (tuber much smaller than the size of a pea). These should bloom in a year.

Trillium rivale 'Del Norte' seedlings \$10.00ea
Ht. 35-45cm. Z5. Reputed to be a hybrid between T. ovatum and T. rivale. It looks like a giant T. rivale and clumps up fast. Totally awesome. We offer 4 year seedlings that won't bloom this year but should next year.

Trillium rivale seedlings of a Pink Form \$8.00ea
Ht. 5-10cm. Z5. We offer 4 year old seedlings of this beautiful pink form of Trillium rivale. Naturally tiny rhizomes. So far these have come very true from seed.

Trillium stamineum \$8.00ea
N.A. Native. Ht. 15-30cm. Z4. A sessile trillium with twisted petals laying somewhat horizontally with a prominent upright cluster of stamens. Flowers usually very dark red purple. Blooms April to June. Only a few available.

Trillium sulcatum Southern Red Trillium \$8.99ea
Ht. 30-70cm. Z4. A showy species similar to T. erectum with larger petals which are slightly recurved at the tips. Typically a rich maroon red but ranges from red to yellow and occasionally pink or white. Very large rhizomes. A must for any garden. It appears that the predominant form in our population is the rarer white form. We are unable to select individual colours.

Trillium vaseyi 11cm pot \$9.99ea
Ht. Z5. Large red nodding flowers. A beautiful species. We have just a few of these this year.

Trillium viridescens \$10.00ea
Ht. 20-50cm Z4. A species with sessile flowers. Narrow green upright petals are purple at the base.

Triteleia hyacinthina = (Brodiaea hyacinthina) Fool's Onion, White Brodiaea 10cm pot \$3.50ea
Native. Ht. 50-60cm. Z6. This June flowering native arises from a round, bulb-like corm. Numerous white bell shaped flowers with green mid-vein in clusters atop wiry stems. Sun to semi-shade. This is a great plant to naturalize in grassy areas.

Triteleia laxa (Brodiaea laxa) 10cm pot \$3.50ea
Native. Ht. 30-60cm. Z6. Large umbels of deep blue flowers atop wiry stems bloom in mid June. Sun to semi-shade. Naturalizes well.

Featured Plant

Triteleia peduncularis Long rayed Brodiaea \$3.50ea
Native. Ht. 30-45cm. Z6. This little known bulb is fantastic for naturalizing in the garden or as part of a wildflower meadow. Large umbels of white flowers with blue-purple striping on the reverse. Blooms in July. Excellent long lasting cut flower.
Special Ten for \$30.00

Trollius europaeus 'superbus' 1gal \$9.50ea
Ht. 70cm. Z2. Cool lemon yellow double flowers in late spring to summer atop showy finely divided foliage.

Trollius x cultorum 'Alabaster' 1gal \$12.00ea
Ht. 45cm. Z4. Beautiful creamy white double flowers in late spring to summer atop showy finely divided foliage. Similar to T. Cheddar.

Trollius x cultorum 'Cheddar' 1gal \$12.00ea
Ht. 60cm. Z4. Rich double layers of soft yellow tissue paper-like petals atop attractive finely divided glossy foliage. Similar to T. alabaster.

Perennials-Grass-Like Plants

Trollius x cultorum 'Lemon Queen' 1gal \$9.50ea
Ht.50cm. Z2. Bright light lemon yellow flowers on stalks above deep green highly cut and dissected leaves.

Trollius x cultorum 'Orange Princess' 1gal \$9.50ea
Ht.50cm. Z2. Orange yellow flowers on stalks above deep green highly cut and dissected leaves.

Tropaeolum ciliatum Hardy climbing Nasturtium\$4.50ea
Ht.200cm? Z5-6. Blood red veined yellow Nasturtium like flowers. Deeply lobed leaves. Plant arises from small slender root stalk..

Tupistra chinensis 'Eco China Ruffles' \$25.00ea
Ht.20cm Z.6-7. This rarely offered Chinese native has long ruffled evergreen leaves with creamy colored flowers on a club shaped inflorescence.

Uvularia grandiflora Merry Bells 10cm pot \$4.00ea
N.A. Native. Ht. 30-60cm. Z4. This is an elegant perennial from creeping rhizomes. Lemon yellow, bell shaped, pendulous flowers are suspended by slender stalks. Shade to part shade.

Uvularia perfoliata Wood Merry Bells 10cm pot \$7.00ea
N.A. Native. Ht. 60cm. Z4. Similar to U.grandiflora but with leaf base surrounding the stem. Forms attractive colonies for the shade garden. Seems faster growing than U.grandiflora.

Uvularia sessilifolia Little Merry Bells 10cm pot \$5.00ea
N.A. Native. Ht. 12-45cm. Z4. This species is smaller than the other two but very similar forming nice colonies over time in the woodland garden.

Vancouveria hexandra 1gal \$10.00ea
Native. Ht. 10-40cm. Z7. Deciduous. White nodding flowers in late spring. Epimedium-like 3-lobed leaflets on wiry stems. An attractive groundcover for shade to part sun.

Veratrum formosanum 10cm pot \$15.00ea
Ht. 60cm Z. A small Veratrum from China with dark purplish black flowers. Small plants.

Veratrum viride \$13.00ea
Native. Ht.to1m. Z5. Yellowish green, drooping flower panicles are held above lush bright green foliage. Large plants.

Viola adunca Western Dog Violet \$4.00ea
Native. Ht.8-12cm. Z3. A great little native violet with violet-blue flowers with darker veining and a white patch.

Viola blanda Sweet White Violet \$4.00ea
Ht.7-12cm. Z2. N.A. Native. A pretty herbaceous violet with white flowers in spring.

Viola canadensis Canada Violet \$4.00ea
Ht.10-20cm. Z2. A lovely white violet with purple tinges on the back side of the petals. Each petal has a yellow blotch and purple veins at the base.

Viola 'Dancing Geisha' Fanleaf Violet \$6.00ea
Ht.15-20cm. Z5. This beautiful and unique violet has large, pointy maple-like leaves that are streaked and veined with pewter, green and white. Tucked among the foliage in spring are exquisite, fragrant, white to soft lilac violets.

Viola glabella Yellow Wood Violet 10cm pot \$3.50ea
Native. Ht.20-30cm. Z6. Heart shaped, smooth, serrated almost succulent green leaves. Large yellow flowers with purple pencilling on the lower three petals. Blooms in early spring. Shade to semi-shade in humus rich soil.

Viola papilionacea Common Blue Violet \$4.00ea
Ht.15-30cm. Z4. Deep blue to violet blooms (occasionally white with blue markings) from spring to fall.

Viola rupestris Teesdale Violet. 10cm pot \$4.50ea
Ht. 5cm. We have only a few of this lovely pink form of this normally blue violet. A very well behaved violet.

Viola pennsylvanica Smooth Violet \$4.00ea
Ht.12-30cm. Z2. A nice spring blooming yellow violet.

Viola sempervirens 10cm pot \$5.00ea
Native. Ht. 5cm. Z5. Evergreen. Small, thick, serrated round leaves. Yellow flower with strong purple pencilling on the lower three petals. Shade to semi-shade in humus-rich soil. Mat forming groundcover blooms in early spring.

Viola sororia 'Freckles' 10cm pot \$3.50ea
N.A. Native. Ht.10-15cm. Z5. Heart shaped green leaves. White flowers finely speckled with violet blue.

Wasabi mazuma Japanese Horseradish \$15.00ea
Ht.20cm. Z8. Large rounded leaves and trusses of white flowers. Plant prefers moist deep shade.

Zephranthes candida White Rain Lily \$4.00ea
Ht.20cm. Z8. A lovely little bulb with grass like leaves and large upfacing white flowers. Two bulbs per pot.

Zauschneria californica \$5.00ea
N.A. Native. Ht.30-50cm. Z8. This California native fuchsia is a lovely drought tolerant woody stemmed perennial with grey-green foliage and awesome bright red tubular blooms that are attractive to hummingbirds. It blooms spectacularly from late summer to fall.

Grasses and Grass-like Plants

This list covers most of the grasses, bamboo and grass-like plants in the catalogue, but not all, so look in the perennial section for others (dierama, iris, sisyrinchium etc.). Good architectural plants for the garden.

Acorus gramineus 'variegatus' Variegated Sweet Flag 1gal \$9.50ea
Ht.15-40cm. Z7. Green leaves with white stripes. Evergreen. Very easy to grow, forming clumps with distinctive fan shaped clumps within. Plant in sun to light shade in moist soil.

Borinda angussisima Bamboo \$30.00ea
Ht.3-4m. Z8. A wonderful clumping bamboo.

Calamagrostis xacutiflora 'Karl Foerster' 1gal \$9.50ea
Ht. 150-180cm. Z4. A nice grass with green blades and green bloom spikes which age to gold.

Grass-Like Plants

Carex acuta Graceful Sedge..... 11cm pot \$4.50ea
Ht.20-40cm. Z3. This species makes a nice groundcover in shade to part sun and can even be used around ponds. A tufted grass with glaucous green leaves with reddish brown sheathes.

Carex 'Coman's Bronze' Leather Sedge.....\$4.50ea
Ht.30cm. Z5. This is a lovely coppery-bronzy brown.

Carex conica variegata Miniature variegated Sedge ... 1gal \$3.50ea
Ht.15cm. Z5. Graceful weeping tufts of deep green foliage edged in white. Interesting yellow-green inflorescence in spring. Sun to part shade in moist but well drained soil.

Carex flagellifera Bronze form..... \$4.50ea
This is a great form of the Orange sedge with bronze tinted foliage.

Carex morrowii 'Ice Dance' 1gal \$10.00ea
Ht. 30-45cm. Z5. Very nice, well behaved sedge with weeping, shiny green foliage edged and striped with silver.

Carex oshimensis Evergold Evergold Sedge \$9.50ea
Ht.30cm. Z6. Lush clumper with arching variegated foliage.

Carex pendula maxima Drooping or weeping sedge\$9.50ea
Tuft forming evergreen sedge with shiny mid green leaves and showy arching catkins.

Carex plantaginea Seersucker Sedge.....\$9.50ea
Ht.20-30cm. Z4. Seersucker sedge makes a great texture plant for moist, shady places (can also tolerate dry shade). Slowly expanding evergreen clumps are composed of strap-shaped, puckered, shiny green foliage.

Carex tenuiculmis \$4.50ea
Ht. 30-40cm. This New Zealand Native has a clumping or tussock habit and bronze red leaves.

Carex testacea Orange New Zealand Sedge.....\$4.50ea
Ht.30-45cm. Z7. A loosely tufted sedge with orange highlights on bronzy green foliage.

Chusquea culeou Clumping Bamboo..... 7gal \$105.00ea
Ht.to 5m. Z7. When mature, this gorgeous clumping bamboo from Chile looks like giant clumps of feather dusters atop interesting yellow-green solid wood canes. Lovely upright habit with gently weeping or arching tops. This excellent bamboo makes a striking specimen or privacy screen when planted in multiples.

Elymus glaucus \$4.50ea
Native. Fl.Ht.80-100cm. Z4. A mid-sized glaucous blue grass suitable for the small garden as it is only slightly stoloniferous.

Elymus mollis Dune Grass 1gal \$12.00ea
Native. Ht.50-150cm. Z4. A large glaucous blue grass that grows often in the spray zone on small island and coastal beaches.

Eriophorum angustifolium Narrow leaved Cotton Grass 10cm \$4.00ea
Native. Ht. 20-50cm. Z4. Narrow, grassy leaves arise from spreading rhizomes. Flowers consist of clusters of 2 or more drooping spikelets. In fruit; each seedlike achene is surrounded by several long, snowy white filaments forming a cottony head.

Fargesia denudata Bamboo \$30.00ea
Ht.3-5m Z6. Similar to F. murielae but has shorter branches and smaller leaves.

Fargesia murielae Umbrella Bamboo 5 gallon \$59.00ea
..... 2gal \$25.00ea
Ht.3-5m Z6. A beautiful clumping bamboo with a soft cascading canopy of lush green leaves. Very nice plants.

Festuca idahoensis Blue Bunch Grass..... 11cm pot \$4.50ea
Native. Ht.20-30cm. Z4. This wild form of the species with, finely textured, greyish blue-green foliage not a silvery blue cultivar. A nice, hardy, drought tolerant, bunching grass.

Festuca idahoensis ssp. roemerii 10cm pot \$4.50ea
Native. Ht. 30-45cm. Z5. This is a coastal form that tends to make nice tufts of blue green.

Festuca rubra var.littoralis 10cm pot \$4.50ea
Native. Ht. 30-45cm. Z5. This is a coastal form that tends to make nice tufts of green with red on the lower 2-10cm of the stem.

Hakonechloa macra 'Aureola'..... \$13.00ea
Ht.25cm. Z5 This compact Japanese Forest grass has yellow and green variegated foliage.

Hakonechloa macra 'albostrata'..... \$13.00ea
Ht.25cm. Z5 This compact Japanese Forest grass has white and green variegated foliage.

Hakonechloa macra 'All Gold'..... \$13.00ea
Ht. 25cm. Z5. This compact Japanese Forest Grass has golden foliage with no variegation. Really brightens a shady spot.

Liriope muscari 'Evergreen Giant'..... \$6.00ea
Ht. 30-60cm. Z5. A nice large evergreen liri ope.

Luzula 'Gold Edge'..... 1gal \$9.50ea
A nice mostly evergreen Luzula with stiff soft lime green leaves with a fine silvery-gold edge.

Luzula multiflora (L. campestris) Field Woodrush 10cm pot \$3.50ea
Native. Ht. 10-25cm. Z6. Densely tufted perennial with grass-like leaves. Flowers in dense head-like clusters followed by showy, brown, egg-shaped seed capsules surrounded by somewhat frilly bracts. Shade to semi-shade.

Luzula nivea Snow Rush, Snowy Woodrush..... \$4.50ea
Ht.40-60cm. Z6. Evergreen clump forming rush with white flower clusters in May-June.

Millium effusum 'Aureum' Bowles Golden Grass 10cm pot \$4.00ea
Ht. 30cm. Incredible golden lemon bunches in spring with yellow flowers in summer. Plant in shade, or in sun if moisture is sufficient.

Miscanthus sinensis purpurascens \$10.00ea
Ht 90-120cm. Z3. A particularly showy grass with reddish green foliage in spring and summer which turns a brilliant orange red in fall. Oatmeal coloured blooms are flushed with pink.

Grass-Like Plants-Shrubs

Ophiopogon planiscapus nigrescens **Black Mondo Grass**

.....\$10.00ea
Ht.20-35cm. Z5. A nice evergreen groundcover grass-like plant with black foliage. Flowers are white followed by shiny black fruits.

Panicum virgatum **'Haense Herms'**..... \$10.00ea

Ht.120cm. Z4. A great accent grass with red flowers in summer/fall and gorgeous red-orange foliage in the fall.

Pennisetum alopecuroides Fountain grass..... 1gal \$9.50ea

Ht.80-100cm. Z6. Stems clumped. Slender upright flower panicles are yellow green to dark purple in late summer.

Pennisetum alopecuroides **'Hameln'**..... \$10.00ea

Ht. 75cm. Z5. This is the dwarf form of the species and perfect for a spot where the species is too tall. It tends to bloom earlier, so is great for areas with a short growing season.

Phormium Apricot Queen.....\$29.00ea

Ht.50cm. Z8-9. Low compact growing habit with sword shaped leaves of soft pastel yellow tinted apricot in the winter with dark green margins and bronze edges.

Phormium Black Rage.....\$15.00ea

Ht.75cm. Z8-9. An excellent selection of New Zealand flax with a nice upright habit and gorgeous near black foliage.

Phormium tenax purpureum..... \$15.00ea

Ht.120cm. Z8-9. Nice New Zealand flax with broad, stiff purplish red foliage.

Phormium 'Carousel'.....\$29.00ea

Ht. 60cm. Z8-9. Foliage is a bronze green with red margins.

Phormium cookianum Cookianum New Zealand Flax\$29.00ea

Ht.100cm. Z8-9. Green foliage with a drooping habit.

Phormium cookianum 'Flamingo'.....\$29.00ea

Ht.50cm. Z8-9. A compact flax with sword-like leaves which have vertical orange-pink, light green and yellow stripes. Compact habit.

Phormium 'Pink Stripe'.....\$29.00ea

Ht. 150cm. Z8-9. Broad bronze foliage edged pink.

Phormium 'Rainbow Queen'.....\$29.00ea

Ht. 120cm. Z8-9. Broad upright, variegated foliage drooping at the tips with rose red stripes on a bronzy background.

Phormium 'Rainbow Sunrise'.....\$29.00ea

Ht. 80cm. Z8-9. Foliage is bronze with red and pink variations, tending to be more pink in the center.

Phormium tenax 'purpureum'.....\$12.00ea

Ht. 120cm. Z8-9. Broad stiff, purplish red leaves. Young plant.

Phormium tenax 'variegatum'.....\$29.00ea

Ht. 120cm. Z8-9. Broad stiff, olive green blades banded with creamy-yellow.

Phormium 'Wings of Gold'.....\$29.00ea

Ht. 60cm. Z8-9. Foliage is olive green with cream-yellow margin.

Phyllostachys aureosulcata Golden Grooved Bamboo2gal \$20.00ea

Ht.3-5m. Z6. We are offering small clumps, 30-60cm in height, of this hardy bamboo. Typical green stems with a yellow streak down the stem. Will form a nice 2-4m. clump in a couple of years.

Scirpus atrovirens Dark green bullrush..... 10cm \$4.00ea

Native. Ht.50cm. Z4. Grown mainly for the brown cluster of flowers. Dark green foliage in clumps; grow in moist soil in sun to light shade.

Sporobolus heterolepis Prairie dropseed..... 10cm\$5.00ea

N.A.Native. Ht. 30-76cm. Z3. Clump forming grass with medium green fine textured foliage. Inflorescence are grey-green in color. This makes a good cover in hot dry areas.

Stipa tenuissima Feather Grass \$10.00ea

Ht. 60cm. Z . A neat compact grass covered with masses of pale feathery seed heads in summer. Prefers a sunny, well drained location.

Xerophyllum tenax Bear Grass \$12.00ea

Native. Ht. 80-150cm. Z6 . Evergreen. Narrow, grass-like, tough wiry leaves in large clumps. Fragrant, small white saucer shaped flowers in dense pyramidal clusters atop thick stems. This is a showy plant for sun to semi-shade. Bear grass is a slow growing member of the lily family.

Shrubs

Abelia x 'Edward Goucher'..... 1gal \$10.00ea

Ht. 1-1.5m. Z5. A semi-evergreen shrub with relatively large lilac-pink flowers with yellow-orange throat.

Abutilon vitifolium Flowering Maple 1 gal \$10.00ea

Ht. To 5m. Z8. A deciduous shrub from Chile with white to pale lilac flowers and downy maple or grape shaped leaves.

Adina rubella 1gal \$10.00ea

Ht.1-3M Z5-6. A medium sized shrub from China with extremely attractive shiny bronzy green leaves and very fragrant white to pink Buttonbush-like flowers. This shrub leafs out extremely late, often not until late May or early June. It also drops its leaves extremely late, often holding them into December.

Amelanchier alnifolia Saskatoon 1gal \$9.50ea

Native. Ht. 2-4m. Z2. Drooping clusters of fragrant white flowers bloom in March to April. Sweet, edible saskatoon berries that taste and look like blueberries are produced in May and June. Rounded, 5cm across, finely toothed, grey-green leaves turn tones of yellow and red in fall. Sun to semi-shade.

Arctostaphylos uva-ursi Kinnikinnick..... 10cm pot \$3.50ea

..... 1gal \$10.00ea

Native. Ht. 4-40cm. Z4. Evergreen. This is a prostrate, mat forming shrub with small, glossy dark green leaves that turn reddish in fall. Clusters of small, fragrant pink to pinkish-white urn-shaped flowers bloom in April-May. In fall, clusters of bright red berries replace flowers and persist into winter. This is an excellent groundcover in sun to semi-shade in well drained soil. It will tolerate drought and will trail over rocks and down banks.

Shrubs

Ardisia japonica Marlberry..... 1gal \$10.00ea
Ht.25-40cm. Z7-8. Semi-evergreen. A wonderful procumbent shrub from China and Japan with very glossy, dark green, relatively large leaves. White and pink flowers in terminal clusters are followed by red berries that persist into the winter.

Aronia melanocarpa Autumn Magic..... 1gal \$10.00ea
Ht.100-180cm. Z3. Deep green leaves, smothered with masses of fragrant white flowers followed by edible shiny black berries. Good fiery red fall color.

Azara microphylla1gal \$9.50ea
Ht. 4-8m. Z7. A large shrub or small evergreen tree with masses of inconspicuous yellow flowers that produce a wonderful vanilla scent in late winter and early spring.

Azara microphylla 'Variegata'1 gal \$10.00ea
Ht. 4-8m. Z7. A large evergreen shrub or can be grown into a small tree. It boasts small rounded green leaves edged with soft yellow and vanilla scented flowers appear in late winter or early spring.

Azara serrata.....1gal \$9.50ea
Ht. 2.5-4m. Z8. A very striking large shrub with lovely glossy green foliage and sweetly vanilla scented clusters of yellow flowers.

Buddleia davidii Butterfly Bush1gal \$9.50ea
Ht.2.5m. Z5. A vigorous, fast grower with large trusses of fragrant flowers ranging from rose-purple to violet-purple-blue.

Buddleia davidii 'Black Knight'1gal \$9.50ea
Ht.2.5m. Z5. A vigorous, fast grower with large trusses of fragrant flowers of the deepest midnight purple.

Buddleia davidii 'Harlequin'1gal \$9.50ea
Ht. 1.8m. Z5. Leaves variegated with creamy white. Flowers are red-purple in colour.

Buddleia davidii 'Pink Delight'1gal \$9.50ea
Ht.1.8m. Z5. A vigorous, fast grower with large trusses of clear pink, fragrant flowers.

Buddleia 'Lochinch'1gal \$9.50ea
Ht.2m. Z5-6. Pyramidal trusses of fragrant mauve-blue flowers. Leaves silvery white underneath.

Buxus sempervirens aureovariegata1gal \$9.50ea
Ht.1-2m. Z5.. This gold and green variegated boxwood is a lovely foliage shrub. It will tolerate most conditions from sun to shade and is one of the only plants that appears(!) to be deerproof.

Callistemon citrinus Crimson Bottlebrush1gal \$10.00ea
Ht.1-3m. Z8. This striking medium shrub or small tree has narrow pointed leaves which are lemon scented if crushed. Bright red terminal flower spikes resemble a bottlebrush. Drought tolerant and deer resistant.

Callistemon pallidus Lemon Bottlebrush1gal \$12.00ea
Ht.1-4M. Z7. Lemon bottlebrush has shimmery soft yellow to chartreuse flower spikes which contrast strikingly against spiky foliage. This upright shrub is drought tolerant and deer resistant.

Callistemon rigidus Stiff Bottle brush..... 1gal \$10.00ea
..... 2gal\$18.00ea
Ht. 1-3M. Z8. This is a drought tolerant selection with bright red bottlebrush like flower trusses and small narrow green leaves. We have only a few of these and they will be small in size unless shipped after a flush of growth in spring. Deer resistant.

Calycanthus floridus Carolina Allspice..... 1gal\$10.00ea
Z5. Ht.1-2m. Strawberry scented red-maroon flowers in May. Leaves aromatic.

Choisya 'Aztec Pearl' 1 gal \$10.00ea
Ht.75-1m. Z6. Evergreen. A new hybrid with deep green trifoliolate leaves with very narrow leaflets. Fragrant white flowers emerge in spring from blush colored buds. Plant in a sunny well drained site.

Clethra acuminata Cinnamon Clethra 1gal \$9.50ea
N.A. Native. Ht. 2-4m. Z5. A superb native from the Appalachian Mountains with peeling bark and creamy white flowers in 10-15cm long terminal racemes. Blooms from July to August. Shade to part sun in humus rich, well drained soil.

Clethra alnifolia Ruby Spice 1gal \$10.00ea
Ht.1.4m. Z5. This new introduction from Richard Jaynes has intense rich pink, fragrant flowers in mid summer. This cultivar also has better blue green foliage color that turns rich yellow in autumn. Plants are small at the moment.

Clethra barbinervis Japanese Clethra 1gal \$9.50ea
Ht.2-3m. Z5. A wonderful shrub with orange peeling bark and fragrant white flowers in terminal panicles borne from July to September. To top it off, it has a wondrous orange-red fall color.

Clethra Hummingbird\$9.50ea
Ht.60-120cm. Z3. This lovely compact shrub has lush glossy green foliage and fragrant white flower trusses in July and August.

Comptonia peregrina Sweet fern.....1gal \$12.00ea
N.A.Native. Ht.50-100cm. Z2. A small aromatic mounding shrub with long narrow olive green leaves with scalloped edges. Foliage is somewhat femlike.

Corokia cotoneaster Wire netting Bush.....1gal \$10.00ea
Ht. 1-2m. Z7-8. A wonderfully bizarre shrub with twisted and tortured branches sparsely leafed with small maroon green or bronze leaves that are silvery beneath. Small bright star shaped yellow flowers in the spring followed by red fruit in the fall.

Cornus sericea = (C. stolonifera) Red Twigged Dogwood or Red Osier Dogwood..... 1gal \$9.50ea
..... 2gal \$18.00ea
Native. Ht. 1-5m. Z2. Multistemmed shrub, often spreading when lower prostrate branches root after touching the ground. Dark green leaves, blue-green beneath, turn brilliant red in fall. Twigs bright red especially in winter. Fruit is white to bluish. Sun to shade,

Cornus sericea 'Kelseyii' Kelsey's Dwarf Redtwig Dogwood 1gal \$9.50ea
Native. Ht. 60-75cm. Z2. This is a nice dwarf selection of red twig dogwood. An excellent small shrub for a rockery or perennial border or as a ground cover. Same as species in other respects.

Shrubs

Correa Dusky Bells 1gal \$10.00ea
Ht.60cm. Z6. A densely branched shrub with carmine bell shaped flowers from spring through fall. Very pretty.

Corylopsis veitchiana2gal \$20.00ea
Ht. 1.5-2M. Z6. Deciduous. A wonderful winter blooming shrub with dense racemes of soft yellow fragrant flowers in late winter or early spring. Flowers are particularly showy as they appear before the leaves. New leaves emerge in shades of purple and red, and become green as they age. From China.

Corylus cornuta var. californica Beaked Hazelnut ...5gal \$45.00ea
Native. Ht. 2-3m. Z5. Multiple stemmed shrub has roughly heart-shaped green leaves with a double saw-toothed edge that turns yellow in fall. Long, pendulous, decorative male catkins appear in winter. Small, edible, tasty hazelnuts appear in fall. Sun to semi-shade in humus-rich soil. Plants will be small for spring shipping.

Daphne odora1gal \$12.00ea
Ht. 2m. Z7. This is a nice evergreen shrub with fragrant red-purple flowers in late winter to early spring. These appreciate being cut back regularly to maintain a nice shape.

Daphne tangutica 10cm pot \$6.00ea
Ht.1.75m. Z6. Evergreen. We are offering small three year old seedlings that are nice stout 4-8"tall plants. Makes a nice evergreen rounded shrub with fragrant rose-purple flowers.

Elaeagnus x ebbingei..... \$10.00ea
Ht.3m Z4-6. Nice large evergreen shrub with silvery foliage and tiny fragrant silvery flowers followed by red fruit (makes good jelly).

Embothrium coccineum Chilean FireBush..... 1gal\$12.00ea
Ht.4-10m. Z7-8. This is a spectacular shrub with narrow lance shaped leaves and vivid scarlet red tubular flowers in terminal clusters. Plants will be small for spring shipping .

Euryops pectinatus viridis Sunshine Shrub \$10.00ea
Ht.2m Z8. A vigorous shrub with leathery glossy green highly cut foliage topped with vivid yellow daisy-like flowers which have a very extended bloom time. Easy to grow as a shrub or train into a tree.

Fatsia japonica variegata 1gal \$14.00ea
Ht.180cm and up. Z7-8. Gorgeous tropical looking evergreen shrub with dark green leaves edged with an uneven white border.

Fuchsia x bacillaris 'Isis'\$9.50ea
Ht. 1m. Z7. A fast growing deciduous shrub with tiny dark green leaves and a multitude of the teeny tiniest bright magenta red flowers. Blooms all summer long.

Fuchsia magellanica 'Aurea' Hardy Fuchsia \$9.50ea
Ht.to 5m Z6. A fast growing deciduous shrub with striking golden foliage. Single flowers are purple and red and bloom all summer.

Fuchsia magellanica 'Island Sunset' Hardy Fuchsia \$9.50ea
A fast growing deciduous shrub with lovely green, cream and pink variegated foliage. Single flowers are purple and red and bloom all summer.

Fuchsia magellanica 'gracilis' \$9.50ea
Ht. 80cm. Z7. This is a good dwarf form of magellanica with the typical red and purple flowers.

Fuchsia magellanica 'Pink' 1 gal \$9.50ea
Ht. 1-1.5m Z7. This is a good fast growing hardy fuchsia with a long bloom season of soft pink flowers. Good in sun or shade.

Fuchsia magellanica 'Little giant' Hardy Fuchsia \$9.50ea
Ht.1m. Z7. A fast growing small deciduous shrub with single purple and red flowers which bloom all summer and into the fall.

Fuchsia magellanica 'Ricartonii' Hardy Fuchsia \$9.50ea
Ht. 1-2m. A fast growing deciduous shrub with dark green foliage. Single flowers are purple and red and bloom all summer.

Fuchsia regia Climbing Fuchsia **Fall only** \$9.50ea
Ht.to 15m. Z8-9. Lovely large shrub or vine with pink-red and purple flowers followed by deep purple fruit.

Fuchsia Santa Claus..... \$9.50ea
Ht.30-45cm. Z7. This lovely hardy fuchsia has striking red and white flowers from early summer through fall to the first frost. Prefers partial sun to shade in humus rich, well drained soil.

Gaultheria ovatifolia Western Teaberry 1gal \$10.00
Native. Ht. 5-10cm. Z6. Evergreen. Small, glossy green leaves. Slow to moderate growing, mat forming dwarf shrub with small, solitary, pinkish, bell-shaped flowers which are replaced by bright red, edible berries. Prefers a moist location in semi-shade.

Gaultheria procumbens Wintergreen 10cm pot \$4.00ea
N.A. Native. Ht. 10-15cm. Z4. Evergreen. This creeping, mat forming, dwarf shrub has shiny dark green leaves that turn red in fall . New leaves are bronzy green in colour. Clusters of small, urn-shaped flowers are replaced with plump, bright red, round berries in fall and persist through winter. This is an excellent ground cover for shade to semi-shade in humus rich soil.

Gaultheria shallon Salal 10cm pot \$3.50ea
..... 1gal \$9.50ea
Native. Ht. 0.2-4m. Z6. Evergreen. Dense, spreading shrub; creeping and low in full sun; erect and tall in semi-shade and larger in shade. Large, shiny, dark green, leathery egg-shaped leaves. White or pinkish, pendulous, urn-shaped flowers in unidirectional, terminal raceme bloom in May to June. Rounded, black-red fruit appears in late summer, and makes an excellent jelly.

Heptacodium miconioides Seven Sons Flower.....2gal \$19.00ea
Ht.3m Z4-5. An extraordinary new shrub from China with large clusters of small snow white fragrant flowers (in groups of seven) in August to September followed by bright red flower sepals which elongate on the fruit and persist well into the winter. The green foliage turns a wonderful yellowish then a purplish red in fall. The brown peeling bark is also particularly attractive. This species can also be grown as a small tree in full sun to part shade in average garden soil.

Holodiscus discolor Ocean-spray..... 1gal \$10.00ea
Native. Ht. 1-5m. Z5. Strong erect stems droop with the weight of large, up to 30cm long, creamy white flower panicles in July and August. Triangular, deep green leaves with whitish hairy undersides. Grows shorter in sun than shade.

Shrubs

***Hypericum patulum* 'Hidcote'** Hidcote Hypericum.....1gal \$9.50ea
Ht. 1-1.5m. Z7. Evergreen. Don't confuse this beautiful shrub with St. Johns Wort. This forms a nice, rounded shrub that blooms from June to October with 8cm across, bright yellow flowers with a large central cluster of stamens. Sun to semi-shade.

***Itea virginica* 'Merlot'**..... 1gal \$12.00ea
A compact form of this shrub with creamy white flowers and great deep red fall coloration.

***Itea virginica* 'Saturnalia'** Virginia Sweetpire \$12.00ea
Ht. 1-1.5m. A lovely June blooming shrub with fragrant white flowers and exceptional fall colour. Excellent compact habit. Will tolerate either sun or shade.

***Kalmia latifolia* 'Bullseye'**..... 1gal \$16.00ea
N.A. Native. Ht. 1-2m. Z5. Evergreen. This vigorous Kalmia has bronzy red new growth and white flowers with broad bands of cinnamon purple. Prefers partial sun.

***Kalmia latifolia* 'Elf'**..... Fall 2 gal \$24.00ea
N.A. Native Ht. 1m. Z5. Evergreen. This is a charming dwarf shrub with small leaves and a slow, tidy growth habit. Flowers are light pink in bud and open to white with a central ring.

***Kalmia latifolia* 'Little Linda'** Fall 2 gal \$24.00ea
N.A. Native Ht. 1-1.75m. Z5. Evergreen. Glossy green, small rounded leaves adorn this miniature kalmia. Red buds open to pink flowers. Grows to about 3' by 3'.

***Kalmia latifolia* 'Minuet'**..... Fall 2 gal \$24.00ea
N.A. Native Ht. 1m. Z5. Evergreen. This banded dwarf has large flowers compared to plant size. Light pink buds open to cinnamon-maroon flowers.

***Kalmia latifolia* 'Nipmuck'**..... Fall 2 gal \$24.00ea
N.A. Native. Ht. 1-1.75m. Z5. Evergreen. Intense red buds open to soft pink flowers. Prefers partial sun in humus rich soil.

***Kalmia latifolia* 'Pristine'**..... Fall 2 gal \$24.00ea
N.A. Native. Ht. 1-1.5m. Z5. Evergreen. Glossy dark green foliage on a compact plant. Flowers are pure white.

Ledum groenlandicum Labrador Tea 10cm pot \$5.00ea
Native. Ht. 0.5-1.5m. Z2. Evergreen. Somewhat straggly, multi-branched shrub with a slightly spicy fragrance. Narrow, lance-shaped, leathery green-leaves with margins rolled under have dense red-brown, tomentose undersides. Small white flowers in short, rounded terminal clusters. Leaves can be boiled to make a tea, but be careful; large doses may not be healthy. Sun to semi-shade in moist to wet, peaty soil. (A.K.A. Rhododendron groenlandicum).

Lonicera fragrantissima \$10.00ea
Ht. 1-2m. Z5. Fragrant white flowers in early January and February. A must for the fragrant garden. Plants in spring will be on the small side.

***Lonicera nitida* 'Baggesen's Gold'**..... 1gal \$10.00ea
Ht. 1-1.5m. Z6. Evergreen. A wonderful foliage plant with small bright golden yellow leaves in a tight mass, somewhat like a fast growing boxwood. Plant in part shade to full sun. It can also be sheared to maintain it at any height.

***Lonicera nitida* 'Lemon Beauty'** 2gal \$18.00ea
Ht. 1-1.5m. Z6. A wonderful selection of box honeysuckle with small green leaves trimmed in lemony yellow.

***Lonicera nitida* 'Red Tip'** 1gal \$10.00ea
Ht. 1-1.5m. Z6. A wonderful selection of box honeysuckle with small dark green, semi evergreen leaves much like a boxwood. The new growth is bright burgundy-red then fades slowly to green. Fall coloration includes tints of purplish red throughout the foliage.

***Lonicera nitida* 'Silver Tip'** 1gal \$10.00ea
Ht. 1-1.5m. Z6. A wonderful selection of box honeysuckle with small green leaves trimmed in silvery white. Fall coloration includes tints of purplish red throughout the foliage.

Lonicera involucrata Black Twinberry 1gal \$9.50ea
Native. Ht. 1-2m. Z6. Yellowish flowers in pairs, surrounded by prominent reddish bracts, bloom from May to July. Shiny, round, paired black fruits also surrounded by same reddish bracts. Long lance-shaped leaves are slightly hairy. Peeling tan colored bark. Sun to semi-shade in humus-rich soil. This native can be used to make dense twiggy hedges. Important hummingbird food.

Lophomyrtus x ralphii 1gal \$10.00ea
Ht. 4-5m. Z9. Evergreen. This hybrid between *L. bullata* and *L. obcordata* has puckered oval myrtle-like deep purple-red foliage and lightly scented white flowers in summer.

Mahonia aquifolium Tall Oregon-grape 1gal \$10.00ea
Native. Ht. 1-1.5m. Z5. Evergreen. Leaves, 5-11 parted, with oval, shiny, toothed green leaflets. New growth usually reddish; old growth reddish-bronze in winter. Erect, yellow flower spikes bloom in April-May. Blackish purplish with grey cast edible berries make good jelly. Likes sun to semi-shade in well drained soil.

Mahonia nervosa Low Oregon-grape 10cm pot \$5.00ea
..... 1gal \$10.00ea
Native. Ht. 25-40cm. Z6. Evergreen. Low shrub with dull green leaves divided into 7-21 serrated leaflets. Upright clusters of yellow flowers bloom in April to June. Blue berries have a grey cast and make good jelly. Shade to semi-shade in well drained soil. Makes a nice ground cover in dry shade.

Mahonia repens Creeping Mahonia 1gal \$10.00ea
Native. Ht. 30-60cm. Z5. Evergreen. Very similar to *M. aquifolium* with a lower habit and very little fall color. Makes a good groundcover in sun to semi-shade in well drained soil.

Melaleuca hypericifolia \$9.50ea
Bright orange red bottle brush-like dense flower clusters in late spring through winter. Attractive lance shaped leaves.

Menziesia ferruginea Fool's Huckleberry..... \$9.50ea
Native. Ht. 50cm. Z6. This is a medium sized shrub that resembles a deciduous azalea. Clusters of salmon pink urn shaped flowers in late spring to summer.

Mitraria coccinea 1gal \$10.00ea
Ht. 1-2m. Z8-9. A much sought after evergreen Chilean native with a low spreading habit and amazing large tubular scarlet orange flowers. Grows almost vine-like.

Shrubs

Myrica californica California Wax Myrtle.....1gal \$12.00ea
Native. Ht. 2.5-10m. Evergreen. Upright shrub usually grows to 3m in a garden. Glossy, narrow dark green leaves with toothed edges. Small, inconspicuous flowers are followed by purplish, waxy nutlets. This plant is very full and dense and makes a beautiful hedge or screen in sun to shade in well drained soil.

Myrica gale Sweet Gale\$10.00ea
Native. Ht. 1-2m. Z1. Sweetly aromatic foliage makes this a great addition beside a walkway where the aroma can waft up and down the pathway with you. Interesting, small, bright red, fuzzy flowers in early spring.

Myrica pennsylvanica Candleberry, Bayberry 1gal \$10.00ea
N.A. Native. Ht. 2-3M. Z2. The persistent silvery-greyish berries are used in making Bayberry candles. Plants form upright rounded shrubs with glossy green foliage.

Myrtus communis Myrtle 1gal \$9.50ea
Ht. 3-5m. Z8. Evergreen. Upright shrub with smooth, glossy, small oval leaves which are very aromatic when crushed. White, fragrant flowers bloom in July-August.

Myrtus racemosa 'Variegata'..... 1gal \$10.00ea
Ht. Z Evergreen. Lovely aromatic variegated foliage.

Nandina domestica Heavenly Bamboo.....2gal \$18.00ea
Ht. 1-2.5m. Z8. Lacy looking Bamboo-like foliage. New growth pinkish green in summer, becomes bronzy, then crimson in fall. Loose terminal clusters of pinkish-creamy flowers in late spring followed by red berries. Sun to semi-shade in humus-rich soil.

Nandina domestica 'Plum Passion'..... \$20.00ea
Ht.2m. Z7. New growth is a spectacular deep plum colour.

Oemleria cerasiformis = (Osmaronia cerasiformis)
Indian-plum or Osoberry.....1gal \$10.00ea
Native. Ht. 1-3m. Z7. Multiple stemmed shrub has green lance shaped leaves with grey-green, pubescent undersides. First native shrub to bloom in spring with fragrant white flowers in nodding clusters, appearing in early March before the leaves.

Olearia macrodonta Holly Leaved Daisy Shrub.....\$12.00ea
Ht.2-3m Z7. A robust holly-leaved shrub with masses of white daisy-like flowers. Drought tolerant in sun to part shade.

Oplopanax horridum Devil's Club..... 1gal \$10.00ea
Native. Ht. 1-4m. Z6. Large, 40cm across, maple-like leaves with 7-9 heavily toothed lobes. Both leaves and stems are armed with numerous, long sharp yellow spines. Numerous small white flowers in terminal, pyramidal clusters turn into pyramidal clusters of flattened shiny bright red berries. This prehistoric looking shrub prefers shade to semi-shade in moist to wet, yet well drained soil.

Osmanthus x burkwoodii (Osmarea burkwoodii) ... 1gal \$9.50ea
Ht. 1-3m. Z6. Evergreen. A superb large shrub with dark foliage and fragrant white flowers in early spring. Plant in full sun to light shade.

Osmanthus delavayi 1gal \$9.50ea
Ht.1-2m. Z7. Evergreen. A broadly rounded shrub with deep green toothed leaves and white fragrant flowers in spring followed by blue- black fruits

Parahebe catarractae\$4.00
Z8. A shrubby perennial which forms a loose mound of dark green small leaves. An abundance of blue saucer shaped flowers is produced in summer.

Philadelphus lewisii 'gordianus' Mock-orange 1gal \$9.50ea
Native. Ht. 1-3m. Z3. This is the coastal form of the species. Upright shrub with broad, spreading habit and light brownish peeling bark. Fragrant white flowers in terminal clusters of 3-11. Sun to shade in well drained soil.

Phygelius x rectus 'Devil's Tears' Cape Fuchsia \$9.50ea
Ht.3m. Z8. This semi-evergreen shrub has glossy dark green foliage and pendulous dark reddish flowers with yellow throats which bloom all summer.

Phygelius x rectus 'Moonraker' Cape Fuchsia \$9.50ea
Ht.3m. Z8. This semi-evergreen shrub has glossy dark green foliage and pendulous yellow tubular flowers which bloom all summer.

Phygelius x rectus 'Pink Elf' Cape Fuchsia \$9.50ea
Ht.3m. Z8. This semi-evergreen shrub has glossy dark green foliage and pendulous salmon pink tubular flowers with a crimson throat which bloom all summer.

Phygelius x rectus 'Trewidden Pink' Cape Fuchsia \$9.50ea
Ht.3m. Z8. This semi-evergreen shrub has glossy dark green foliage and pendulous pink tubular flowers which bloom all summer.

Phylocarpus capitatus Pacific Ninebark 1gal \$9.50ea
Native. Ht. 1-3m. Z5. Glossy, dark green, 3-5 lobed, maple leaf-like leaves with pale, grey-green undersides. Numerous, small flowers form rounded terminal clusters followed by reddish seed heads. Sun to semi-shade in moist to wet humus-rich soil.

Podocarpus alpinus Blue Gem \$10.00ea
Ht. 1m. Z6. A nice dwarf evergreen shrub with blue-green foliage that emerges pinkish or red in spring.

Potentilla fruticosa 'Summit Yellow' Shrubby Cinquefoil 1gal \$10.00ea
Native. Ht. 1-1.5m. Z2. Small grey-green leaves divided into 3-7 leaflets. Small mounding to erect, very bushy, drought tolerant shrub. Our selection is a mounding variety with large yellow flowers. Sun to semi-shade in well drained soil.

Rhododendron albiflorum White Rhododendron\$15.00ea
Native. Ht. 2m. Z4. This deciduous native Rhododendron is a challenging plant to grow but worth a try. Clusters of white or cream flowers sometimes spotted with orange or yellow.

Rhododendron macrophyllum Red Rhododendron, Pacific Rhododendron 1gal \$15.00ea
Native. Ht. 1-8m. Z7. Evergreen. Erect to spreading shrub with thick, leathery, smooth, dark green, 7-15cm, long leaves. Pink to rosy-purple flowers with yellow markings in large terminal clusters bloom in late spring. Very pretty native shrub for shade to semi-shade in humus rich soil.

Rhododendron occidentale Western Azalea 2gal \$30.00ea
Native. Ht. 1-2m. Z6. The sweetly fragrant flowers of this native are a wonderful mix of pink and white. Shade to light sun.

Shrubs

Rhodotypos scandens Black Jetbead..... \$9.50ea
Ht. 1-2m. Z4. This deciduous shrub from China and Japan has large showy white flowers in late spring and early summer followed by shiny jet black fruits. Plant in well drained soil in full sun to part shade.

Ribes divaricatum..... \$9.50ea
Native. Ht. 3m. Z4. A thorny native gooseberry which is very attractive to birds and butterflies. White flowers followed by reddish black fruits.

Ribes lobbii Gummy Gooseberry 2gal \$18.00ea
Native. Ht. 1-2m. Z7. Stoutly thorned shrub with small shiny 3-5 lobed leaves. Flowers have chocolate-red reflexed petals and creamy white petals; the effect is very much like a fuchsia. Full sun to semi-shade in well drained soil. This is a clone we have selected that appears to be more robust.

Ribes sanguineum Red Flowering Currant1gal \$10.00ea
.....5gal \$39.00ea
Native. Ht. 2-4m. Z6. Crinkly, green, 3-5 lobed maple leaf-like leaves with whitish undersides. Our selection of the species has dark, reddish brown bark, numerous red flowers in long pendulous racemes. Important hummingbird plant.

Ribes sanguineum 'Appleblossom'.....1gal \$10.00ea
Native. Ht. 1-3m. Z6. This selection has apple-blossom coloured flowers.

Ribes sanguineum 'Blushing Victorian'.....1gal \$10.00ea
Native. Ht. 1-3m. Z6. This is our own cultivar with truly pink flowers in long pendulous racemes. Similar to species in habit and requirements. We have a few for spring and a few for fall shipping.

Ribes sanguineum 'King Edward VII'.....1gal \$10.00ea
Native. Ht. 1-2.5m. Z6. This cultivar is lower, has a more compact habit with pure red flowers in long pendulous racemes. Sun to semi-shade in well drained soil.

Ribes sanguineum 'White Icicle'.....2gal \$20.00ea
Native. Ht. 2-4m. Z6. This cultivar was introduced by the University of British Columbia. White flowers in long pendulous racemes.

Rosa acicularis Prickly Rose 1gal \$10.00ea
Native. Ht. 1-1.5m. Z2. Stems densely covered with small straight prickles. Leaves dull green with whitish pubescence underneath. Flowers are dark pink, 5cm across, fragrant and bloom in May to June. Scarlet hips are pear shaped. Sun to semi-shade in well drained soil.

Rosa Glacier Magic \$12.00ea
Ht. 80cm. Z5. A pretty upright, free-flowering bushy groundcover rose with lightly scented double white blooms in hot summer climates; rosy pink blooms in a cooler climate.

Rosa gymnocarpa Dwarf Woodland Rose.....1gal \$10.00ea
Native. Ht. 0.5-1.5m. Z6. This tough, yet delicate looking rose has dainty, dark pink flowers with prominent golden stamens. Blooms in June and July. Like *R. acicularis*, this species is well armed with numerous small prickles. One of the few truly shade tolerant Roses. Prefers a well drained site in shade to semi-shade.

Rosa pisocarpa Clustered Wild Rose..... 1gal \$10.00ea
Native. Ht. 1-2.5m. Z6. Lilac-pink flowers, 3-4cm across, usually in cluster of 3-6; otherwise similar to *R. nutkana*, but bushes fuller. It is also found in sun to semi-shade in moist sites. Large scarlet red hips are pear shaped.

Rosa 'Nearly Wild'\$12.00ea
Ht. 60cm. Z4. This fabulous disease resistant rose resembles a wild variety with mildly fragrant, rose-pink single flowers and gorgeous green-bronze foliage.

Rosa nutkana Nootka Rose 1gal \$10.00ea
Native. Ht. 1.5-3m. Z6. Large, fragrant, lilac-pink, up to 8cm across, flowers are usually solitary. Bloom in June and July. Hips are reddish-orange and relatively large. This is the most common and well recognized rose in coastal B.C. It is found in full sun to semi-shade in mostly moist sites. Plant with Snowberries for an attractive red & white winter show.

<i>Featured Plant</i>	
Rosa rubrifolia Red Leaf Rose	\$12.00ea
Ht. 1-2m. Z3 . A lovely shrub species rose with purplish red foliage and single reddish pink flowers. Particularly hardy and disease resistant.	
3 for	\$29.99

Rosa 'Sweet Haze'\$12.00ea
Ht. 70cm. Z4. A lovely rose blooming profusely with fragrant soft pink flowers.

Rosa woodsii Wood's Rose, Alberta Wild Rose..... 1gal \$9.50ea
Native. Ht. 1.5-2m. Z4. Bluish-green leaves. Young stems reddish while older ones are greyish; both have numerous slender prickles. Fragrant, pink flowers are usually clustered in groups of 1-3. Blooms in June to July. Bright red hips in clusters.

David Austin Roses

Rose Abraham Darby \$12.00ea
Ht. 240cm. Z5. A vigorous shrub rose bearing large double pink, apricot and yellow blooms in early summer. Fruity fragrance. On own root.

Rose Ambridge Rose..... \$12.00ea
Ht. 90cm. Z5. Double deep apricot pink blooms which lighten towards the outer petals. Strong, sweet fragrance. On own root.

Rose Charles Austin..... \$12.00ea
Ht. 150cm. Z5. This gorgeous double has apricot, peach, orange and copper blooms with a strong fruity fragrance. On own root.

Rose Eglantyne..... \$12.00ea
Ht. 1m. Z5. Large double pink flowers with a strong sweet scent. On own root.

Rose Evelyn \$12.00ea
Ht. 90-240cm. Z5. A fantastic apricot peach coloured full double with a nice fruity scent. On own root.

Rose Golden Celebration..... \$12.00ea
Ht. Z5. Absolutely magnificent. Huge, rich golden yellow full double fragrant flowers. Repeat bloomer, on own root.

Shrubs

Rose Mary Rose\$12.00ea
Ht. Z5. Lovely double rose pink blooms with a delicious old rose fragrance of honey and almond. On own root.

Rose Molineux\$12.00ea
Ht. 90cm. Z5. Highly fragrant rich yellow double blooms. On own root.

Rose Wenloch.....\$12.00ea
Ht. Z5. A free flowering crimson red double with a wonderful rich old rose fragrance with a hint of citrus. On own root.

Rose Winchester Cathedral.....\$12.00ea
Ht. Z5. A lovely full double white. The fragrance is of old rose character with a delicious honey and almond scent. On own root.

Antique Roses

Rose Chinensis mutabilis\$12.00ea
Ht. 90-180cm. Z6. A wonderful fragrant, single rose which opens yellow and changes to orange, pink and finally deep reddish pink. A repeat bloomer. On own root

Rose Crested Moss.....\$12.00ea
Ht.90-180cm. Z6. A fully double silvery pink old rose with an incredible strong, sweet fragrance. Flower buds are covered with moss-like protrusions (modified sepals). On own root.

Rosa Konigan von Danmark\$15.00ea
Ht.1-1.5M. Z4. A stunning old rose with fragrant bright pink fully double flowers.

Rose Tuscany Superb.....\$15.00ea
Ht.120-150cm. Z5. Known as the Old Velvet Rose. Rich maroon-crimson double blooms darken with age to a rich purple with shimmering black highlights. On own root.

Rubus parviflorus Thimbleberry\$10.00ea
Native. Ht. 1-2m. Z6. Large, 25cm across, maple leaf-like leaves. Single white flowers in clusters of 3-5 are followed by bright red cap-shaped sweet edible berries which make an excellent jam.

Rubus spectabilis Salmonberry 1gal \$9.50ea
Native. Ht.1-2.5m. Z5. Fragrant, single, reddish-pink, 5cm across, nodding flowers bloom February to March. Berries are bright orange to purple-red when ripe. These sweet, edible berries make good jam. An excellent shrub for the garden in shade to semi-shade in a moist to wet site.

Rubus spectabilis `Double flowered form`.....2gal \$20.00ea
Native. Ht. 1-2m. Z5. A very striking, dark, pink double flowered form of the species. Few for spring and a few for fall.

Rubus tricolor 1gal \$9.50ea
Ht.15cm. Z. Large dark green very waxy glossy leaves on trailing procumbent fuzzy stems. Leaves turn brilliant red in the fall. This plant would be suitable to use as a large scale ground cover or as foliage spilling over a rock wall. We cannot ship any Rubus species into the U.S.A.

Salix yezoalpina 1gal \$10.00ea
Ht. 10-15cm. Z3. A wonderful little willow with silvery hairy leaves and a creeping habit.

Sambucus caerulea Blue Elderberry..... 2 gallon \$20.00ea
Native. Ht.up to 6m. Z4. A beautiful large shrub or tree covered with a profusion of fluffy, creamy white flower clusters followed by very showy blue berries

Sambucus racemosa Red Elderberry..... 1gal \$9.50ea
Native. Ht. 2-4m. Z5. Creamy-white flowers in pyramidal clusters bloom in April or May. Bright red, shiny berries. Large, deep green leaves are divided into 5-7 leaflets. Late Spring.

Sarcococca humilus (S. confusa).....2gal \$20.00ea
Ht. 1m. Z7. Evergreen. A fantastic winter blooming shrub with incredibly fragrant white flowers followed by bright red that age to black berries. Foliage is dark glossy green. Plant in light sun to full shade.

Senecio greyi (Brachyglottis greyi) Sunshine Shrub 1gal \$10.00ea
Ht.1m. Z8. Evergreen. Silvery grey felt-like leaves with whitish undersides make this dense rounded shrub a knockout. Bright yellow daisy like flowers bloom all summer long. Plant in a well drained site in full sun to part shade. Will tolerate crappy soil.

Senecio monroi..... 1gal \$10.00ea
Ht.1m. Z8. This a lovely small shrub for a very sunny, well drained site. Nice grey-green foliage with crinkly edges contrasts with bright yellow daisy-like flowers in summer.

Serissa foetida flore pleno \$9.50ea
Ht.20-40cm. Z7. A compact semi-evergreen shrub with tiny leaves. Pink buds open to a profusion of double white flowers from spring till fall. Really a very pretty little shrub.

Serissa foetida Pink..... \$9.50ea
Ht.20-40cm. Z7. A compact semi-evergreen shrub with tiny white margined leaves. Pink buds open to a profusion of single pink flowers from spring till fall.

Serissa foetida White..... \$9.50ea
Ht.20-40cm. Z7. A compact semi-evergreen shrub with tiny white margined leaves. Pink buds open to a profusion of single white flowers from spring till fall.

Shepherdia argentea Silver Buffalo Berry 1gal \$9.50ea
Ht.4m. Z2. A small shrub, with clusters of small yellowish flowers in the early spring and silvery leaves and showy red edible fruits in fall.

Sollya heterophylla Australian bluebell..... \$12.00ea
Ht.1.5 m Z8 (9). A twining shrub (almost vine like) from Australia that blooms in late summer with lots of blue, bell shaped flowers. Good for planting next to more open shrubs where it can mingle.

Sorbaria sorbifolia False Spirea..... 1gal \$9.50ea
Ht. 2m. Z2. Small white flowers in large terminal panicles bloom in June and July. Deep green leaves are divided in up to 23 toothed leaflets. Sun to semi-shade.

Spiraea betulifolia Birch leaved Spiraea2gal \$18.00ea
Native. Ht. 30-60cm. Z4. White flowers(occasionally tinted rose) in large dense rounded clusters top this small rounded shrub in July and August. Plant in full sun to part shade.

Shrubs

Spiraea douglasii Pink Spiraea 1gal \$9.50ea
Native. Ht.1-2m. Z5. Spreads by suckering shoots, can be invasive. Flowers are purplish-pink in narrowly conical, dense, 20cm long panicles. Blooms July to August. Small grey-green leaves with velvety undersides. Sun to semi-shade from moist to wet soils.

Stephanandra incisa 'Crispa' 1gal \$9.50ea
 Ht.5m. Z5. A rarely offered Japanese shrub with a mounding habit and arching branches. White flowers in loose terminal racemes appear in late spring and summer. The arching branches are clothed in triangular, incised, serrated green leaves that are highlighted in fall with yellow, orange and often ruddy red. Branch tips root such that if left only the mound will spread outward. Seems that it will grow in any soil in sun to part shade.

Symphoricarpos albus Western Snowberry 1gal \$9.50ea
 2gal \$18.00ea
Native. Ht. 0.5-1.5m. Z3 Erect, branching shrub spreads by rhizomatous shoots. Pinkish white bell-shaped flowers in short clusters bloom June to September. Round, snow white fruits in dense clusters persist well into winter.

Symphoricarpos mollis Trailing Snowberry 1gal \$10.00ea
Native. Ht. 20-50cm. Z7. This is basically a creeping form of *S.albus*. Same flowers, berries and leaves on trailing stems that root freely. Sun to shade. Makes a nice groundcover.

Syringa x laciniata Cut Leaf Lilac \$9.50ea
 Ht.2m. Z5. This lilac from Asia has dissected foliage at first, but later leaves are not dissected. Summer blooming, fragrant flower clusters are deep lilac in bud and open to mauve with a violet centre. Great fall color.

Syringa microphylla 'Superba' \$9.50ea
 Ht.1.5m. Z5. A nice bushy upright shrub from China with very fragrant rose pink flower clusters which bloom from spring to autumn. Great fall color.

Syringa patula 'Miss Kim' Dwarf Korean Lilac \$9.50ea
 Ht.1m. Z5. A lovely dwarf lilac with fragrant lavender blue flowers in early summer. Great fall color.

Umbellularia californica Oregon Myrtle 2gal \$18.00ea
 Ht. Slow to 20m. Z8. We offer 6 year old plants, about 25-60cm in height, of this evergreen shrub or small tree. Clusters of small yellow flowers that produce purple fruit. Aromatic foliage.

Vaccinium alaskenses Alaska Blueberry 1gal \$10.00ea
Native. Ht.80-125cm. Z3. An attractive shrub in leaf, flower and fruit. Flowers are a bronzy pinkish color in early spring and develop into the tastiest blueberries come summer. Foliage turns a wondrous mix of reds and purples in fall. Plant in humus rich soil in sun to part shade. Get those delicious berries that you pick when hiking. All vacciniiums are prohibited entry into the U.S.A.

Vaccinium crassifolium ssp. sempervirens 1gal \$10.00ea
 N.A. Native. Ht. Z This is a beautiful creeping evergreen blueberry. New growth is a striking bronze - green colour. All vacciniiums are prohibited entry into the U.S.A.

Vaccinium membranaceum Black Huckleberry 1gal \$9.50ea
Native. Ht. 0.5-1m. Z6. Upright, spreading shrub with small light green leaves. Solitary pinkish-white flowers in June-July are soon replaced by deep purplish black, edible berries. Sun to semi-shade in humus-rich soil. All vacciniiums are prohibited entry into the U.S.A.

Vaccinium ovalifolium Oval leaved Blueberry \$12.00ea
Native. Ht.1-2m. Z2. This deciduous native blueberry produces showy small pink flowers followed by yummy blueberries. All vacciniiums are prohibited entry into the U.S.A.

Vaccinium oxycoccos Bog Cranberry \$6.00ea
Native. Ht. 1-3cm. Z2. A low creeping shrub with dark pink bell shaped flowers followed by plump cranberries in fall. Plants available from late spring onwards. All vacciniiums are prohibited entry into the U.S.A.

Vaccinium ovatum Evergreen Huckleberry 1gal \$10.00ea
Native. Ht. 1-4m. Z7. Evergreen. Erect, bushy shrub with small leathery, shiny, dark green, egg shaped leaves. New growth is a beautiful bronzy pink. Clusters of soft pink, bell-shaped flowers bloom in April to May. Shiny, sweet, edible purplish-black berries. Shade to semi-shade in humus-rich soil. All vacciniiums are prohibited entry into the U.S.A.

Vaccinium parvifolium Red Huckleberry 1gal \$10.00ea
Native. Ht. 1-2.5m. Z6. Upright shrub with bright green angular stems and small rounded bright green leaves. Small pinkish-white bell shaped flowers bloom in April to May. Clear red edible berries are good in jam, jellies and pies. Shade to semi-shade in humus-rich soil. All vacciniiums are prohibited entry into the U.S.A.

Vaccinium vitis-idaea Lingonberry, Cowberry 10cm pot \$3.50ea
 1gal \$10.00ea
Native. Ht. 10-30cm. Z5. Evergreen. Creeping shrub which spreads by underground runners. Glossy, dark green, 2.5cm long leaves with bright red-orange tinges on new growth. Clusters of small urn-shaped, pinkish-white flowers in May. Pea-sized, bright red, sour berries make excellent jellies and preserves. Likes moist soil in shade to semi-shade. This makes an excellent ground cover. All vacciniiums are prohibited entry into the U.S.A.

Vaccinium vitis-idaea' koralle' 10cm pot \$4.50ea
 1gal \$9.50ea
 Ht. 10-15cm. Z4. Evergreen. An attractive, very free fruiting form of lingonberry originally selected in Holland. All vacciniiums are prohibited entry into the U.S.A.

Vaccinium vitis-idaea minus Dwarf Lingonberry. 10cm pot \$4.50ea
Native. Ht. 5cm. Z4. Evergreen. Very similar to species but has smaller leaves, a shorter habit and is slower growing. Flowers and berries are much more visible as well. All vacciniiums are prohibited entry into the U.S.A.

Vaccinium vitis-idaea minus 'Wabaskaw' 10cm pot \$4.50ea
Native. Ht. 5-10cm. Z2. Evergreen. An attractive, very free fruiting form of lingonberry originally selected by us near the town of Wabasca in Northern Alberta. Like most forms of dwarf Lingonberry it slowly forms a beautiful evergreen mound. This selection produces masses of lovely deep dark red berries. All vacciniiums are prohibited entry into the U.S.A.

Shrubs-Vines

Viburnum betulifolium \$12.00ea
Ht. 3-3.5m. Z5. New growth emerges in the spring a wonderful bronzy red color. A large upright deciduous shrub with an open habit. White flowers in fall are followed by a magnificent profusion of red currant-like fruits. Awesome hot pink and red fall coloration.

Viburnum x bodnantense Pink Dawn 2 gal \$20.00ea
Ht. to 3m. Z7. This deciduous shrub has sweetly fragrant, pink flowers which are a darker rose pink in bud and are followed by dark blue fruit.

Viburnum cinnamomifolium 2gal \$20.00ea
Ht. 3-6m. Z6-7. A large evergreen shrub with clusters of fragrant white flowers followed by shiny blue fruit.

Viburnum dilatatum 'Catskill' Catskill Viburnum ... 2gal \$20.00ea
Ht. 180cm. Z5. Similar to V. Erie but leaves are rounded and fall color is brighter red as well as fruit. Plants not ready until end of May.

Viburnum x 'Chippewah' 2gal \$20.00ea
Ht. 2-2.5m. Z7. (V. japonicum x V. dilatatum) A prolific bloomer with a massive lacy creamy white floral display followed by clusters of glossy red berries that persist into winter. Leaves turn a rich red to red-purple in fall. Plant with V. Huron, a near identical companion.

Viburnum lantana Mohican Wayfaring Tree 2 gal \$20.00ea
Ht. to 1.5m. Z3. The foliage of this dense, compact deciduous shrub emerges with a velvety texture and becomes smoother and deep green with age. White flower clusters bloom in spring to summer and are followed by orange-red fruit, which eventually becomes black.

Viburnum lentago 'Pink Beauty' Nannyberry \$10.00ea
N.A. Native. Ht. 2-6m. Z2. A nice deciduous shrub with creamy white flowers in spring and summer followed by fruit that begins green and ages to yellow, then pink, then red and finally to purple-black.

Viburnum oneida 2 gal \$20.00ea
Ht. 3m. Z3. This upright deciduous shrub has deep green foliage which becomes a striking yellow and orange in the fall. Numerous creamy white flower clusters appear in late spring. Deep red fruits follow in August.

Viburnum plicatum Pink Beauty 2 gal \$20.00ea
Ht. 3m. Z4. This beautiful deciduous shrub has a lovely tiered habit. Small white flowers in lace cap umbels become flushed with pink as they age.

Viburnum x 'Huron' 2gal \$20.00ea
Ht. 2-2.5m. Z7. (V. lobophyllum x V. japonicum) A prolific bloomer with a massive lacy creamy white floral display followed by clusters of glossy red berries that persist into winter. Leaves turn a rich red to red-purple in fall.

Viburnum plicatum Lanarth 2gal \$20.00ea
Ht. 2-3m. Z5. Deciduous, bushy, spreading shrub with tiered branches clothed in dark green leaves, produces a wonderful layered effect in the landscape. Autumn colours are a rich reddish-purple. Very large, rounded heads of flowers with white bracts appear in late spring and early summer. Sun to part shade.

Viburnum plicatum Watanabe 2gal \$20.00ea
Ht. 50cm. Z4. Leaves richly colored in autumn. White flowers in fine lacecap form.

Viburnum trilobum Highbush Cranberry 1gal \$9.50ea
Native. Ht. 2-4m. Z2. A magnificent large shrub. It has a nice full, erect habit and bluish-green leaves with three deep lobes that turn carmine red early in fall and persist for a long time. Numerous small white flowers in large flat topped clusters bloom in May to June, followed by transparent, scarlet red fruit that persist well into winter. Fruit edible but tart. Sun to semi-shade in humus-rich soil.

Weigela 'Purpurea' 1gal \$10.00ea
Ht. 1-1.5m. Z4. This is a wonderful selection with deep purple foliage and dark red flowers.

Xanthorhiza simplicissima 11cm pot \$6.00ea
N.A. Native. Ht. 80cm. Z4. Deciduous. A running, suckering shrub which emerges with purple foliage then fades to green and colours to bronze in autumn. Numerous small brownish purple flowers in long narrow panicles in early spring.

Spring on-site Sale

March 15th-21st

20% off most stock

Hellebores not included, They will be sold
at Helleboranza Feb 19-21.

Every year we have our big Spring Sale at the nursery. This sale is only for people who visit the nursery for onsite sales and is not offered for plants that are shipped from the nursery. We'll have some great deals on larger tree ferns and other large stock including a vast array of 7-15 gallon species Bamboo. The nursery also carries a large stock of other plant material not listed in the catalogue. So, bring your truck! Sale may be postponed if we have snow.

Vines

Akebia quinata Chocolate Vine 1gal \$10.99ea
Ht. 5-10m. Z5. Clusters of vanilla scented, black-purple flowers are followed by egg sized lavender fruit. Attractive five lobed dainty leaves make this another great addition from China. Fall only.

Billardiera longiflora Tasmanian Blueberry Vine \$12.50ea
Ht 1-2m. Z8. Small bell shaped, sometimes purple-tinged, green-yellow flowers are produced in summer followed by bright purple-blue fruits in autumn. A great small evergreen vine.

Campsis radicans Trumpet Vine 1gal \$12.00ea
N.A. Native. Ht. upto 12m. Z3. Bright orange trumpet shaped flowers in summer to early fall make this a stunning vine.

Clematis campaniflora 1gal \$13.50ea
Ht. To 6m. Z6. Lovely, soft blue nodding bell shaped flowers. Blooms from July to September.

Vines-Deciduous and Evergreen Trees

Clematis columbiana Blue Rock Clematis 1gal \$13.50ea
Native. Ht.1-3m. Z3. Lovely, nodding blue bell shaped flowers.
Blooms from July to September.

Clematis spoonerii 1gal \$13.50ea
Ht. To 6m. Z6. A lovely, fragrant, 4 petaled, pure white flowered
clematis. A must for the fragrant garden.

Fatsyhedera x lizei 1gal \$13.50ea
Ht. To 1-2m. Z7. An interesting bigeneric cross between Fatsia
japonica and English ivy (hedera helix). Large evergreen vine
with large five lobed glossy green leaves.

***Lonicera ciliosa* Orange Honeysuckle**1gal \$12.00ea
Native. Ht. 1-10m. Z5. A vigorous vine with blue-green leaves
and clusters of bright orange tubular flowers followed by clusters of
orange berries in the fall. Sun to semi-shade in well drained soil.

***Lonicera hispidula* Hairy Honeysuckle**1gal \$9.50ea
Native. Ht. 10-20cm as groundcover. Ht. 1-3m as climber. Z6.
This native Honeysuckle makes a good groundcover or a short
climbing vine in shade to light sun. Small, grey-green hairy leaves
with clusters of wine-purple flowers followed by bright red berries
in fall.

Schizophragma hydrangeoides 'Moonlight'1gal \$12.99ea
Ht. upto 10m. Z5. A hardy deciduous climbing vine from the
Mountains of Japan. This selection has silvery pewter mottling on
the heart shaped leaves. Leaves turn orange red in fall. Large (up
to 25cm across) lacy white flower clusters in July. A great new
climber for shade to part sun.

Schizophragma hydrangeoides Rosea 1gal \$12.99ea
Ht. up to 10m. Z5. A wonderful new selection of this rare beauty
with large plate sized flower heads of light pink blooms that are
surrounded by rose pink bracts that darken with age. Nice large
plants.

***Sollya heterophylla* Australian bluebell** \$12.00ea
Ht.1.5m. Z8 (9). A twining shrub (almost vine-like) from Australia
that blooms in late summer with lots of blue, bell shaped flowers.
Good for planting next to more open shrubs where it can mingle.

Deciduous and Evergreen Trees

***Abies balsamea* Balsam Fir**\$18.00ea
N.A.Native. Ht.25m. Z2. Grey bark. Glossy green needles are
shiny above and silvery-blue underneath. Large upfacing green-
purple cones.

***Abies balsamea nana* Dwarf Balsam Fir** 10cm pot \$5.00ea
N.A.Native. Ht.50cm. Z2. A wonderful flat topped dwarf evergreen
with glossy green shiny needles with silvery-blue undersides.
Grows only 2-4cm per year.

***Abies grandis* Grand Fir**1gal \$9.50ea
Native. Ht. 50-80m. Z4. Evergreen. Beautiful full fir with glossy
deep green, long needles in two rows along branches and white
lines on undersides. Sun to shade. Will reach 15-20m in thirty
years. Larger sizes available at the nursery.

***Aesculus hippocastanum* Common Horse Chestnut**. 2gal \$20.00ea
Ht. 15-25m. Z3. Large, densely branched tree with large rounded
crown. Big leaves divided into 5-7 leaflets. Numerous white,
yellow and red speckled flowers, in 20-30cm long, erect panicles,
bloom May to June. Large fruit to 6cm, with thick, prickly green
husk surrounding one or two seeds.

Acer barbinerve 5gal \$45.99ea
Ht. Shrub or small tree. Z4. A rarely offered small maple from
Korea and Manchuria. Smallish five-lobed coarsely toothed leaves
emerge a coppery brown color fading to green and turning a bright
yellow come fall. Young twigs reddish. Yellow flowers held in
clusters of 4-6 on 6cm long racemes.

Acer caudatum ssp. ukurunduense 5gal \$59.00ea
Z6. A beautiful small tree or shrub with small 5-7 lobed leaves,
lightly grey tomentose beneath. Very showy upright flower
clusters. Lovely peeling bark.

***Acer circinatum* Vine Maple** 1gal \$12.50ea
..... 2gal \$25.00ea
Ht. 3-7m. Z6. Small tree or shrub, frequently multi-stemmed with
medium sized 7-9 lobed leaves. Excellent fall colour of splendid
red. Reddish flowers hang in clusters in early spring. This plant has
a stiff, erect habit when grown in full sun and a loose almost vine-
like habit when grown in shade, making it a very versatile and
useful tree. Larger sizes at the Nursery.

Acer circinatum 'Little Gem' 5gal \$79.00ea
Native. Ht. 1-1.5m. Z5 This is a dwarf form of the species with a
compact, rounded habit that is ideal for small gardens. We offer six
year old, 25cm tall plants on their own root.

***Acer macrophyllum* Bigleaf Maple** 1gal \$9.50ea
Native. Ht. 15-25m. Z6. Large, glossy, dark green leaves turn
shades of yellow and orange in fall. In spring; yellow, fragrant
flowers hang in 20-30cm long panicles that appear with the first
leaves in spring. An outstanding shade tree and one of the most
beautiful of all large maples. Larger sizes available at the nursery.

***Acer monspessulanum* Montpellier Maple** 5gal \$45.00ea
Ht. 6-10m. Z5. A small densely rounded crowned tree with
small attractive three lobed leaves. There is something about this
tree that every time I walk by and look at the charming little leaves I
am forced to stop and smile. Found from South Eastern Europe to
Western Asia. Can tolerate dry gravel and alkaline soil but
performs well in wetter acidic conditions. Slow growing.

Acer palmatum The Japanese Maples

There is a tremendous variation in appearance between the different
varieties we grow. All have small to medium sized, more or less
dissected, 5-7 lobed leaves. They prefer to grow in sun to semi-
shade in well drained soil. If the red leaf cultivars are planted in too
much shade the leaf colour will turn to green.

***Acer palmatum* Japanese Maple** 5gal \$89.00ea
Ht. 3-5m. Z5. This green leafed selection has numerous small
green leaves with a red, pencil line thick, margin. The fall color
is a fiery red.

Deciduous and Evergreen Trees

Acer palmatum Bloodgood2gal \$35.00ea
5gal \$89.00ea
 Ht. 4m. Z5. Dark, black-red leaves hold color throughout most of summer and turn a spectacular fiery red in fall. By far the most popular red leaf variety.

Acer palmatum Burgundy Lace5gal \$89.00ea
 Ht. 4m. Z5. Small tree with deeply divided, very lacy, burgundy red leaves. Turns a lovely scarlet red in autumn. Branches have a slightly weeping habit that combines with the lacy leaves to give this variety a very feathery, graceful look.

Acer palmatum 'Butterfly'5gal \$89.00ea
 Ht. 2-3m. Z5. Small deeply lobed leaves are attractive bluish-green with rose and creamy-white margins in spring. In summer, the pink tones are reduced but the white remains. The rosy pink margins return in fall and intensify to brilliant crimson. This is a good eye catcher for the small garden.

Acer palmatum dissectum 'Crimson Queen' Weeping
 Crimson Queen Japanese Maple5gal \$89.00ea
 Ht. 1m. Z5. This weeping, lace leaf maple has deep, red-purple foliage throughout summer and fiery scarlet colour in fall. All the weeping varieties can be made taller by staking one branch higher for a year. The weeping Japanese maples are particularly useful for cascading over walls, rockeries and at the edges of ponds.

Acer palmatum dissectum 'Ever Red' Weeping Ever Red Japanese
 Maple5gal \$89.00ea
 Ht. Z5. The distinguishing feature of this maple is the new spring growth. New leaves are covered with fine downy hairs giving them a silvery appearance but then turn rich red for summer.

Acer palmatum dissectum 'Inaba Shidare' Weeping Inaba
 Shidare Japanese Maple2gal \$35.00ea
 Ht. 1-1.5m. Z5. A brilliant dark purple, lace-leaf, weeping maple. It retains its deep colour all summer long and into the fall. More vigorous than other weeping varieties.

Acer palmatum dissectum 'WaterFall'2gal \$35.00ea
 Ht. 1m. Z5. Dissected, lacy bright green leaves in a weeping habit turn brilliant gold with crimson streaks in fall.

Acer palmatum 'Emperor I'2gal \$35.00ea
 Ht.3-4m. Z5. A rich crimson upright Japanese Maple which is heat tolerant and hold its colour well. Bright fiery crimson colour in fall.

Acer palmatum 'Fireglow'5gal \$89.00ea
 Ht.3m. Z5. A heat tolerant upright Japanese maple with good bright red-purple colour.

Acer palmatum 'Koto no Ito'5gal \$89.00ea
 Ht.2-2.5m. Z5. This small growing Japanese maple has fine thread like green leaves and a good bright yellow fall coloration.

Acer palmatum Orido Nishiki5gal \$89.00ea
 Ht. 3.5-5m. Z4-5. A small rounded variegated maple with pink new growth and a variable white variegation on green leaves.

Acer palmatum 'Oshio Beni'5gal \$89.00ea
 Ht.2.5m. Z5. New growth in the spring is orange-red, changing to bronze in summer. Fall colour is a beautiful rich scarlet.

Acer palmatum Sango kaku Coral bark Maple5gal \$89.00ea
 Ht. 4-5m. Z5-6. This upright selection has brilliant coral bark in the fall and winter which looks incredible contrasted against a snowy backdrop. Green leaves turn yellow tinted rose in the fall.

Acer palmatum 'Seiryu'5gal \$89.00ea
 Ht. 4-5m. Z4-5. A truly unique, dissected leaf Japanese maple with upright growth. Deep green dissected leaves turn rich yellow to crimson in fall.

Acer palmatum 'Shishigashira' The Lions maple ... 5gal \$89.00ea
 Ht. 3-4m. Z5. Crinkled leaves are dark green and packed closely together leading to the common name of Lions Mane. Fall colour is a rich gold to crimson with pink highlights.

Acer palmatum Shojo5gal \$89.00ea
 Ht. 3-4m. Z4-5. A good upright maple with smaller dark red-purple leaves and good fall colour.

Acer palmatum Trompenburg5gal \$89.00ea
 Ht. 3.5-5m. Z4-5. An upright growing Japanese maple with glossy deep purple leaves with rolled edges. Good crimson fall colour.

Acer palmatum Ukigumo5gal \$89.00ea
 Ht.2m. Z. Dubbed the floating cloud maple, this tree has green leaves with pink overlay.

Acer palmatum 'Versicolor'5gal \$89.00ea
 Ht.5-6m. Z5. A heat tolerant upright Japanese maple with fresh green leaves which are speckled with pink that slowly changes to white.

Acer platanoides Norway Maple2gal \$18.00ea
 Ht. 30m. Z3. A medium sized maple with dark grey bark with five lobed leaves that turn a wondrous yellow in fall.

Acer rubrum Red Maple2gal \$18.00ea
 N.A.Native. Ht. 40m. Z3. A medium sized deciduous tree with grey bark and 3-5 lobed, 5-15cm long leaves. Foliage turns a lovely scarlet in fall.

Alnus rubra Red Alder1gal \$9.50ea
 Larger specimens available at the nursery
 Native. Ht.10-25m. Z6. This fast growing, broadly pyramidal tree is common throughout the coastal region of the Pacific Northwest. Prefers sun to semi-shade in moist to damp soil.

Araucaria araucana Monkey Puzzle Tree2gal \$30.00ea
 Ht.20-30m. Z7. An interesting tree from Chile with dark green, shiny, hard pointed scale-like leaves. The stiff branches are held horizontally in distinct whorls. Plant in humus rich soil in sun to part shade. Reportedly monkeys sit beneath this tree, whiling away the days, puzzling how to ascend this intriguing tree with its spiny scale like leaves. An attractive tree to plant for its lovely silhouette or to see how many monkeys reside in your neighbourhood. This has been upgraded to an endangered species so we can no longer ship to the U.S.A.

Aralia elata Japanese Angelica Tree5gal \$44.95ea
 Ht.14m. Z4. This is a fast growing deciduous tree with spiny stems, white flowers in August followed by purple fruit and striking reddish purple fall colour.

Deciduous and Evergreen Trees

Betula alleghaniensis Yellow Birch..... 2gal \$18.00ea
N.A. Native. Ht. 18-30m. Z3. A deciduous tree with yellowish bark, smooth on young trees, peeling as the tree ages. Dull green leaves turn yellow in fall. Male catkins are 8-12 cm long.

Betula glandulosa Scrub Birch 1gal \$9.50ea
Native. Ht. 1-3m. Z3. In nature, this is a small erect shrub with small nearly circular leaves growing in usually acidic, nutrient poor soil. In neutral, rich soil it grows larger and the leaves quickly become larger but will revert if soil is made acidic.

Cercis siliquastrum Judas Tree..... 1gal \$12.99ea
Ht. 5-8m. Z6. This is usually a small slender tree with deep purple-rose flowers and large green heart-shaped leaves.

Chionanthus virginicus Fringe Tree..... 2gal \$20.00ea
N.A. Native. Ht. 3-6m. Z3. A great little tree or large shrub native to the forests of Missouri. The slightly fragrant drooping clusters of creamy white, fringe-like flower petals give this tree its common name. The flowers are followed by small black fruits which are sought after by foraging birds. Foliage turns yellow in fall.

Cornus controversa Giant Dogwood..... 2gal \$25.00ea
Ht. 10-15m. Z5. An interesting tree with a horizontal spreading habit giving the tree a multi-tiered effect. White flowers are carried in flat clusters on the tiered branches. Foliage turns red early in fall and persists for a long time.

Cornus Nuttallii Pacific Dogwood 1gal \$10.00ea
Native. Ht. 15-20m. Z5. This is our native dogwood tree with large snowy white bracts in spring. Best planted in less than full sun.

Cornus officinalis Japanese Cornel Dogwood 2gal \$25.00ea
Ht. 2-6m. Z6. Similar to Cornus mas but considered superior in all respects. Bright yellow flowers in March to April followed by showy red fruits. The foliage turns a nice rich red color in autumn.

Crataegus douglasii Black Hawthorn 1gal \$9.50ea
Native. Ht. 3-10m. Z5. Small tree or large multistemmed shrub. Dark green, oval shaped leaves with saw toothed margins turn pinkish red in fall. Small white flowers in terminal clusters of 10-20 blossoms, bloom in May. Small, edible berries, deep wine red at first, mature to a deep glossy black. Sun to semi-shade in humus-rich soil.

Cryptomeria Tanzan \$9.50ea
Ht. 25cm. Z5. A nice slow growing dwarf, dense, dark green Cryptomeria with a hint of red in the fall.

Fraxinus americana White Ash..... 2gal \$18.00ea
N.A. Native. Ht. 40m. Z3. A deciduous tree with a spreading crown and grey bark. Pinnately compound leaves with 5-9, long stalked leaflets turn a rich burgundy red with purple highlights in fall.

Fraxinus latifolia Oregon Ash. 5gal \$44.95ea
Native. Z5-6. Ht. 10-20m. Leaves divided into 5-7 leaflets. Bright green in colour turning clear yellow in fall. Can take wet sites.

Gymnocladus dioica Kentucky Coffee tree..... \$12.00ea
Ht. 12m. An interesting tree with huge 1meter long pinnately compound leaves. White flowers in terminal clusters. Fruits can be used to make a coffee like beverage.

Hovenia dulcis Japanese Raisin tree..... 5gal \$49.00ea
Z6. Showy grey bark. Produces edible raisin like fruit in the fall.

Juniperus communis 2gal \$20.00ea
Ht. 30-40cm. Z2. Evergreen. Open spreading selection. Good conifer for a rock garden.

Koelreuteria paniculata 1gal \$12.00ea
Ht. 15-25m. Z7. Long yellow flower trusses in summer are followed by fruit. This drought tolerant tree has wonderful fall colour.

Larix laricina Tamarack Black Larch..... 5 gal \$45.00ea
Ht. 20-30m. Z2. A medium sized deciduous conifer with light green needles in clusters on spur shoots. Needles turn a rich yellow in fall before dropping.

Malus fusca = Pyrus fusca Western Crabapple 1gal \$10.00ea
Native. Ht. 5-7m. Z6. Our Native crab-apple is a small tree or large, multistemmed shrub with numerous long spurs on the branches. Diversely shaped leaves turn a brilliant yellow and red in fall. Small, edible, yellow, red-cheeked fruit also appear in fall in large showy clusters. Fragrant white, apple blossom like flowers in clusters bloom in April to July. Sun to semi-shade in moist to dryish soil. Larger sizes available at the nursery.

Magnolia acuminata Cucumber tree..... 2gal \$29.00ea
N.A. Native. Ht. 15-20m. Z3. A wonderful tree with small fragrant greenish-yellow tulip shaped flowers. The true beauty of this tree emerges in late summer when the green cucumber shaped fruit turn a velvety brilliant red which then split to reveal bright orange-red seeds that come popping out.

Magnolia cylindrica 5gal \$64.99ea
Ht. 9m. Z4. A small tree with white to soft pink flowers early in spring before the leaves. This tree is rare in cultivation.

Magnolia kobus 5gal \$64.99ea
Ht. 10m. Z4. White flowers often stained with red or pink. Bizarre long clusters of fruit that resemble a lumpy chili pepper are at first cream then turn bright red.

Magnolia liliiflora 'Nigra' 5gal \$64.99ea
Ht. 2-3m. Z6. Upright, multi-stemmed shrub or small tree. Upright flowers that appear in spring are deep dark purple on the outside and somewhat lighter inside. Very striking.

Magnolia liliiflora 'Susan' 5gal \$64.99ea
Ht. 2.5m. Z5. This hybrid has an upright multi-stemmed habit. Very showy, erect, deep reddish-violet blooms with a lighter interior are borne in numbers on bare branches in early spring. Sun to semi-shade in well drained soil.

Magnolia officinalis 5gal \$64.99ea
Ht. 20m. Z7. White flowers with numerous red stamens. Cone-like fruits turn red when ripe.

Magnolia stellata 'Waterlily' Waterlily Star magnolia
..... 5gal \$64.99ea
Ht. 2-2.5m. Z5. Compact, densely branched shrub. Profuse pink buds open to semi-double, fragrant, many petaled white flowers. The most popular magnolia. Sun to semi-shade in well drained soil.

Deciduous and Evergreen Trees

Nothofagus obliqua Southern Beech.....2gal \$25.00ea
Ht. 10-20m. This Chilean Native makes an attractive small tree with small glossy toothed leaves.

Picea mariana Black Spruce\$10.00ea
Native. Ht.20m. Z2. A medium sized, dark blue-green narrow conifer with red-brown exfoliating bark. Needles are blue-green in colour. These are the dominant trees of the bogs of Northern Canada.

Pinus strobus Eastern White Pine.....\$18.00ea
N.A.Native. Ht.50m. Z3. A broadly conical evergreen tree with blue-green needles in bundles of five on horizontal branches.

Pistacia chinensis.....5gal \$44.95ea
Ht. 10-15m. Z7-8. An pretty small tree with lacy pinnate leaves and excellent fall color of red, purple and orange. Fruits red to purplish blue.

Populus tremuloides Trembling Aspen 1gal \$9.50ea
Native. Ht. 15-30m. Z1. Rarely taller than 15m in cultivation. Slender tree with light grey-green bark. Rounded, blue-green leaves have flat leaf stalks which allow the leaves to "tremble" in the slightest breeze. Pale yellow fall color.

Quercus garryana Garry Oak 1gal \$10.00ea
.....2gal \$25.00ea
..... On site sales only 5gal\$49.95ea
..... On site sales only 7gal \$95.00ea
Native. Ht. 5-30m. Z7. This can be a large tree or a relatively small shrubby bush. Leathery, dark green, glossy leaves with deeply rounded lobes and a whitish underneath. Sun to semi-shade in well drained soil. This always makes an attractive plant.

Quercus wislizenii Interior Live Oak2gal \$20.00ea
Native. Ht. 10-25m. Z8-9. Evergreen. Wide spreading tree with dark glossy green leaves with spiny edges that look very much like holly leaves. Good specimen for sun to light shade in well drained soil.

Rhamnus pershiana Cascara1gal \$9.50ea
Native. Ht. 3-15m. Z7. Dark green, glossy, prominently veined, egg-shaped leaves turn yellow in fall. Small greenish-yellow flowers in terminal clusters followed by clusters of conspicuous, shiny black, edible berries. The bark has long been used as a laxative.

Sorbus sitchensis Sitka Mountain Ash..... 5gal \$44.95ea
Native. Ht. 1-4m. Z5. Small tree or shrub with bluish green leaves divided into 7-11 leaflets. Small white flowers in round topped terminal clusters. Scarlet red berry-like fruit.

Styrax hemsleyanum Chinese Snowbell Tree.....5gal \$65.00ea
Ht 10m. Z7. White fragrant flowers in hanging clusters in summer.

Styrax japonica Snowbell Tree2gal \$18.99ea
Ht. 8-10m. Z5. A wonderful small tree with fragrant white, bell-shaped pendulous flowers in clusters of three to six. Blooms in June to July followed by greenish white fruits in the fall.

Styrax japonica Benibana Pink Snowbell Tree..... 1gal \$20.00ea
Ht. 8-10m. Z5. A wonderful small tree with fragrant soft pink, bell-shaped pendulous flowers in clusters of three to six. Blooms in June to July followed by greenish white fruits in the fall.

Styrax japonica Pendula Weeping Snowbell Tree.... 1gal \$15.00ea
Ht. 8-10m. Z5. A wonderful small tree with fragrant white, bell-shaped pendulous flowers in clusters of three to six. Blooms in June to July followed by greenish white fruits in the fall.

Tetracentron sinense 5gal \$65.00ea
Ht.10-20m. Z6. Heart shaped leaves turn an incredible deep red in fall. Yellow flowers in a narrow terminal pendulous spike in June. From China.

Tilia cordata Little Leafed Linden 2gal \$18.00ea
Ht. 40m. Z3. An attractive medium sized tree with glossy green leaves. Pendulous, pale yellow fragrant flowers in small clusters bloom in mid summer. Makes a great little shade tree.

Trachycarpus fortunei Fan Palm 1gal \$15.00ea
..... 2gal \$29.00ea
Ht. 20m. Z7-8. The palm tree of choice on Salt Spring Island. Slow growing to 20m. We offer small 1 gallon plants grown from seed collected on Salt Spring Island from Banana Joe's trees.

Thuja plicata Western Red Cedar..... 1gal \$9.50ea
Native. Ht. 20-60m. Z4. Evergreen. Large, fast growing broadly pyramidal tree with large, drooping and spreading branches. Makes a good specimen or can be sheared into an excellent formal or informal hedge. Sun to shade in humus-rich soil.

Tsuga mertensiana Mountain Hemlock..... 5gal \$45.00ea
Native. Ht.10-40m. Z2. Evergreen. Blue-green foliage with a silvery cast. Needles grow all around stems to give a soft, tufty appearance. Slow growing in the garden reaching 2-3m in twenty years. Good in sun to shade in humus-rich soil.

Wollemia nobilis Wollemi Pine \$149.00ea
HT 20-40M Z7. A rare conifer recently discovered in Australia.

What should I do when my plants arrive?

When your plants arrive, unpack them immediately and **carefully check the packing material to make sure you haven't missed anything.** Very, very carefully unwrap and remove the plastic bag or packing material and water your plants. Ideally, plants should be planted immediately upon receipt, but if necessary they can be potted and left to establish in pots before planting out. Protect from slugs and snails and other harmful pests. With a trowel, dig a hole one and a half times as wide as the root spread and one and a half times as deep to allow you to set the crown 2-5cm deep (some plants, ie. ferns and bleeding hearts like to have their crowns slightly exposed). Place the roots in the planting hole and arrange them in such a way that looks natural, often in a pin wheel configuration. Hold the crown with one hand and carefully replace the soil, working it gently around the root system, with the other. Be sure to eliminate any air pockets etc. by firming the soil around the crown with your hand (pressing firmly, but not packing) and watering thoroughly, even if it's raining. Sometimes it is difficult to tell which way is up with a dormant plant. Look carefully for roots, or for where last years stems have been trimmed. If in doubt, plant on its side. It's hard to advise about soil amendment because soil quality varies so much, but we usually recommend planting with a small amount of bone meal. Lastly, it usually pays to ensure adequate drainage as most plants appreciate it and some demand it. Water enough to maintain adequate moisture. Now, sit back and be patient: some plants, like bulbs may sit dormant until the mood to sprout strikes them and this may not be until the following season, so don't poke around too much checking for sprouts as you will probably do more harm than good. Good luck!

Mail Order Information

Fraser's Thimble Farm 175 Arbutus Rd. Salt Spring Island. B.C. V8K 1A3

Read this page before you order

PLANTS: Only plants in the following pots can be shipped: 10cm, 11cm, 1gal, 2gal. The larger sizes can usually be shipped but special arrangements must be made, contact us. All plants are pot grown and are shipped bare-root or with plastic bag replacing the pot to reduce shipping costs.

Substitutions: We will not substitute plants unless you have noted preferred substitutes on the order. We offer refunds as a credit on future orders (sometimes as a cash refund); please note your preference on the order form. We appreciate a list of a substitutions especially if you're paying by cheque.

Plant Availability: We ship on a first-come, first-served basis, so we cannot guarantee that all the plants listed in catalogue will be available at all times. If we state Fall 2010 or May 15th 2010, that is the first date we expect that plant to be available, so please don't order a plant that is not ready before your shipping date; put it on a new order.

Shipping: We ship via Expedited or Express Post from mid-September through to the end of May and later if the weather permits. We will ship during the winter when weather permits (early November to about Dec. 20th. then again starting early in February onward). We have tried to ship in late May and later but the plants are too advanced by this time. Orders without phone numbers will be held until you contact us to provide a phone number.

Guarantee: We ship healthy, true to name plants usually on Mondays or Tuesdays each week during spring and fall. However, our quality guarantee expires after the plants have been in transit to you for more than four days. Claims due to our error must be made immediately, if valid will be dealt with as a credit towards your next order.

Back Orders: We are unable to process back orders. Please reorder.

Confirmation: We do not send out Confirmations. We suggest you make a copy of your order if you need to look at it before your plants arrive. We will phone you if you indicate you want a confirmation on your order form to let you know we received your order. Sometimes plant availability cannot be determined until very close to your requested shipping date.

How to Order:

A:You can mail in your order

B:You can fax your order to us at (250)-537-5788.

C:You can E-mail it to us at thimfarm@telus.net. Mark your e-mail as '**Order**' so we know yours is an important email. We only check our email 3-4 times per week, we have found this a somewhat unreliable service so we will try to respond with a simple **received** message to every email within 3-4 days so you know we actually got your message (we cannot guarantee that there is security for credit card # etc). Do not send your order as an attachment! Due to the number of viruses sent to us this year, we generally don't open them any more.

D:you can A, B or C the order for pick up at the Nursery. If you do this please give us the date you will pick up the order so we can make sure we have it in stock. Please make sure, if you are picking up your order, that we actually receive it ahead of time if you want it pulled for you. We encourage you to browse through the Nursery and look at the thousands of plant we don't list in the catalogue.

E:Phone orders. **We do not take phone orders.** If you want to check on a plants availability, please phone us, we are practically attached to cordless phones throughout the Spring but we do not have an office staff and are rarely inside when you call. We don't mind phone calls. If you hear a fax tone, it means we are out of phone range at the moment, so please try again in a few minutes.

U.S Customers and Orders: We ship to all of the Continental US. All prices are in US funds for US customers. The difference in exchange helps cover some of the extra costs for export orders such as brokerage, duty and transport over the border. We expect to do U.S. orders every 4 weeks in Spring and Fall this year. We may increase the frequency depending on demand. Every order to the US requires a Phytosanitary Certificate, which is \$17.00 and usually this is the only extra cost. However, if you order any of the plants covered under C.I.T.E.S (Orchids, Tree Ferns, Cyclamen, Sarracenas, Galanthus etc.), which control the movement of endangered species we have to get, and charge for a C.I.T.E.S certificate(\$7.00). **The minimum order for shipments to the US is \$50.00 worth of plants.** For those who want to visit the nursery and pick up an order, give us your order at least a week ahead of time so we can get the necessary documents in order. **U.S. orders must have a contact phone number.**
