

Woodstream Orchids
September - October 2017
Phragmipedium Species, Hybrids, and Select Divisions!

PHRAGMIPEDIUM SPECIES AND HYBRIDS

Woodstream Orchids is one of the leading Phragmipedium hybridizers and producers of seed-grown Phrag in the United States (Okay, the World). The future is bright for Phrags with our continuing success at producing commercial quantities of highly desirable species and hybrids. You will find unique hybrids listed below, many of which are unavailable elsewhere, at this time. Our current focus is on Phragmipedium:

- Species
- Second and third generation kovachii hybrids
- (4N) and (3N) besseae hybrids
- Yellow and white hybrids
- Miniature and compact hybrids

As the popularity of Phragmipediums grew with the discovery of Phrag besseae, more and more hybrids were attempted by Phrag breeders. It was soon discovered that there were some poorly-defined genetic incompatibilities that prevented good seed production in many crosses. Dr. Donald Wimber, working at the Eric Young Orchid Foundation on the Isle of Jersey, in the United Kingdom, and others devised laboratory methods to induce Phragmipedium seed to double their DNA chromosome count from normal [diploid, (2N) to tetraploid (4N)]. When plants were crossed with one another, or with a normal diploid (2N) plants, these breeding incompatibilities were greatly reduced, and seed production increased.

Both tetraploid (4N) plants and triploid (3N) plants often exhibit improvements in flower size, color, substance, and sometimes, growth rate, when compared to similar 2N plants. On the other hand, 3N and 4N plants often grow larger than 2N plants and may produce fewer flowers. This said, some of the most spectacular Phragmipedium show plants seen today come from 3N and 4N breeding.

However.... miniature orchids have taken hold in the orchid world. Small-growing Cattleyas, Phals, and now Paphs are very popular. Woodstream Orchids has been working on breeding miniature and small-growing Phrags for the past 15 years. Demand has been high, so our miniature and compact offerings sell out quickly. Purchasing flasks may be the most assured way to get ahold of these delightful Phrags.

Recently, our lab manager, Tony Omeis, retired from his career as a horticulturalist at Penn State University and decided to downsize his personal Phrag collection to focus on continued miniature Phrag breeding. We were able to purchase a large block of Tony's "pet" Phrags and were thrilled to discover many hybrids we have made over the past 25 years that were no longer in our collection. Check out the Phrag offerings here and you will find a number of one-of-a-kind divisions from this unique collection, pieces of which are now back in service in our breeding program to combine with our new lines of breeding, including miniatures, yellows, and whites, and many new kovachii hybrids.

If that weren't enough... Woodstream journeyed to Florida just before Christmas 2015 and purchased the Krull-Smith Phragmipedium collection from June's Orchid Estate (JOE). Hundreds of blooming size and near blooming size seedlings and divisions, including outstanding potential cultivars from the Eric Young Orchid Foundation and The Orchid Zone. While we are still evaluating the collection, we are offering plants in this listing and using some of the best for our breeding program.

NEWS FLASH: After two decades or more of leading the planet in Paphiopedilum and Phragmipediums, The Orchid Zone Ltd. has apparently closed its doors for good. Since Terry Root retired, the Zone has changed hands a couple of times. While the backstory of the final closure is not totally clear, there is a stark realization that the world has changed. In recent years Woodstream Orchids has eclipsed the Orchid Zone in Phragmipedium breeding, but Terry Root and The Orchid Zone will still be missed. The Zone's legacy lives on through the efforts of former Orchid Zone staff, including Graham Wood (Lehua Orchids, Hawaii), Mark Pendelton (Blackwood Orchids, CA), and Bill Goldner (Woodstream Orchids, MD).

We guarantee you have never seen a Phragmipedium offering list like this! Block off some time to study the list and then hurry to contact us by email (woodstream3@verizon.net) to reserve your plants. While we make every effort to ship quickly, we remain a small operation, and shipping may be delayed during: our busy show seasons, periods of extreme weather, and business travel. If your shipment is unduly delayed we will make up the pain and suffering with an extra plant or plants. Also, stay tuned for our new Flask, Paph, and Zane's Epiphytic Cacti and Succulent lists.

We are grateful for your interest in our plants and our business.

Bill, Lynn, Zane, Leo, and Spicepup

PHRAGMIPEDIUM SPECIES

besseae (Select Outcross) (Ecuador/Peru) - From the Orchid Zone.

3.5-4.5" pots BS divisions \$35

WSO 4696 czerwiakowianum ('Green Ghost' x sib)

- (Ecuador, Peru) Graceful green Ecu-Peruvian species with wavy petals and branching stems. Becoming rare in cultivation. A fine parent for making pinks and whites. 3 available, 2.5" pot, 3-4" ls Seedlings, \$25

WSO 4876 fischeri ('Joan' AM/AOS x self) - (Ecuador) Rare

and revolutionary relative of Phrag schimii. Incredible color and potential as a parent to produce rose purple blooms. Compact and easy growing. We have a great population on the move toward you! Limited 2.5" pot, 3-4" ls Seedlings, \$35

Phrag klotzscheanum - (Venezuela) The most diminutive of the Phrag species. Totally charming and an interesting parent for miniature Phrags. Limited 2.5" pot, 3-4" Is Seedlings, \$35

Phrag lindleyanum ('Kelly Creek' HCC/AOS x sib) – (Venezuela) We love this species. Beautiful branching inflorescences. Medium size plant 2.5" pots, 4-5" Is Seedlings \$20; 3.5" pots 7-9" Is Seedlings \$35

WSO 1716 longifolium ('Woodstream' AM/AOS x self) - Selfing of our superb Ecuadorian clone. 2 available. 2.5" pot, 3-4" Is Seedling, \$15; 3.5" pot NBS Seedling, \$25; 4.5" pot, BS Seedlings \$35; 6" pot BS Seedling \$40

longifolium 'Woodstream' AM/AOS - Division of our superb Ecuadorian clone. One of the two best longifoliums we know of, and the only one that throws a branched inflorescence. 4.5" pot NBS Division \$75; 6" pot BS Division \$85

longifolium 'Windy Hill's Midnight' AM/AOS - Division of the second of two best longifoliums we know of. Great color! 4.5" pot NBS Division \$75; 6" pot BS Division \$85

longifolium var. gracile 'Birchwood' AM/AOS - This diminutive species is easily distinct from the *Phrag hartwegii* var. *baderi*, as the staminode has "eye-brows". There are other differences, as well. 1 available. 4.5" pot BS Division \$75

WSO 4125 longifolium var. gracile ('Florida' x 'Birchwood' AM/AOS) - This diminutive species is easily distinct from the *Phrag hartwegii* var. *baderi*, as the staminode has "eye-brows". There are other differences, as well. These seedlings are blooming on very small plants in 3.5" pots. 3.5" pot NBS-BS Seedlings \$25; 4.5-6" pots BS Seedlings/Divisions \$35

pearcei ('Cricket' x 'Charmer') Terrific species, compact growing and fine show plants. 3.5" pots, BS multi-growth seedlings \$35

pearcei 'Birchwood' – Rare and historic clone from Tony's collection. 4.5" pots, BS multi-growth Divisions \$75

WSO 4478 schlimii ('Silver Creek' HCC/AOS x 'Raspberry Ice') - (Colombia) Popular compact species with charming pink and white flowers. 2.5" pot 3-4" ls Seedlings \$15; 3.5" pots, NBS \$25; 4.5-6" pot BS \$35

PHRAGMIPEDIUM BESSEAE and KOVACHII - INFLUENCED HYBRIDS

Phragmipedium besseae was discovered in Ecuador and Peru in the early 1980's. That a stunning bright red/orange flower could remain unknown for so long is one of the great stories in orchid history. Since then, Phrag besseae has been used extensively in hybridization, resulting in many of the most popular Phrags on the market today. Also, Phrag besseae comes in a range of colors, deep red, orange, salmon, peach, and pure yellow. With this palette, orchid breeders are working to create new and appealing hybrids that are easy to grow and bloom. Many of the hybrids listed below are original crosses produced by Woodstream Orchids.

Much more recently is the discovery in Peru and hybridization of the remarkable Phrag kovachii. With giant rounded dollar bill-sized flowers and pink-purple coloration, kovachii has the potential to take Phrag breeding to even greater plateaus. While kovachii itself is slow-growing, once established most of its first and second generation hybrids really take off. We are only now beginning to release kovachii hybrids, and are anxiously awaiting dozens of crosses in our breeding pipeline.

WSO 4740 Andean Fire (lindleyanum 'Kelly Creek' HCC/AOS x besseae)
- Remake of a classic solid red parent using superior parents. Looking for dark red flowers on branching stems. These can be spectacular. Easy to grow. 3 available. 2.5" pot Seedlings \$25; 3.5-4.5" Seedlings \$40

WSO 4686 Bald Eagle Creek x Saint's Apprentice 'Carmin
Bouquet' AM/AOS (Pictured) – Beautiful compact growing solid reds. Limited. 2.5" pots 3-4" Is Seedlings \$25

China Dragon (Grande 'Crystelle' HCC/AOS x besseae
'Frank Smith') or Frank Smith (besseae 'Frank Smith' x kovachii) – Help us solve a mystery! Vigorous and

stunning show plants from our Florida purchase. These were all labeled China Dragon, but are blooming out half China Dragon and half Frank Smith. Either way you win! Orange flowers (China Dragon or pink-purplish flowers (Frank Smith) with long petals usually blooming with 2-3 flowers open on an inflorescence. Awesome prices! 3.5" pots, 8-12" Is Seedling 10 available \$25; 4.5-5" pot NBS-BS Seedling 10 available \$45; 6" pots BS Seedlings 10 available \$65

Don Wimber 'D&B' AM/AOS (Eric Young x besseae) – One of our favorite hybrids. From our Florida purchase. 4.5" pot NBS Division \$85; 6" pot BS Division 2 available \$150.

Don Wimber 'Red' (Eric Young x besseae) – Weird color form from the KS/JOE collection. 6" pot BS Division 1 available \$65.

Elizabeth Castle (4N) 'Penns Creek' (Memoria Dick Clements [4N] x Hanne Popow [4N]) – This came in our Florida purchase as (Krull Smith) '#1'. Probably hand-selected by Frank at the Eric Young Foundation on the Isle of Jersey. Should be awesome red-rose blooms. One is in spike so we will know just how good soon. 4.5" pots, BS Division 2 available \$75; 6" pot 1 available BS Division \$100.

Elizabeth Castle (4N) 'Maximus' AM/AOS (Memoria Dick Clements [4N] x Hanne Popow [4N]) – Just awarded in November, 2016. Probably hand-selected by Frank at the Eric Young Foundation on the Isle of Jersey. Beautiful red-rose blooms on a medium sized plant. Probably should not let this go. 6" pot, BS Division \$250

Elizabeth March (3N) 'Broadwaters' CCM/AOS (besseae [4N?] x Sedenii) – One of most impressive show plants. Winner Best Phrag and People's Choice Award at the Paph Forum. Much sought after. First release. 6" pot, BS Division \$300

Eric Young (besseae x longifolium) – Orchid Zone breeding. 3 available. 3.5" pot, 7-8" ls seedlings \$25

Eumelia Arias 'Poe Creek' (schlimii x kovachii) - Dusty rose-purple flowers with good form on floriferous plants. These are from the Eric Young Orchid Foundation breeding. 1 available 6" pot BS Division \$75

WSO 1832 Fiery Castle 'Glass Slipper' (Elizabeth Castle x Andean Fire) – One of Tony's plants. Have not flowered it yet, but it will be red. 1 available. 6" pot Division \$50

Fox Valley Fireball (Barbara LeAnn 'Select' x Rosalie Dixler' Fox Valley' AM/AOS) – Compact-growing red-flowered hybrid. 2 available. 2.5" pots BS Seedlings \$25

Franz Glanz (richteri x besseae flavum) - 1 available 3.5" pot BS Division \$35

Fritz Schomberg (besseae 'Mega' x kovachii 'Leonardo' FCC/AOS) – The last cross we received from the Orchid Zone. One of the first to bloom received an 85 point AM/AOS this year. 5 available 3.5" pot NBS Seedlings \$100

Hanne Popow 'Pretty in Pink' HCC/AOS (besseae x schlimii) - Original cross from the Orchid Zone. This cultivar has a solid pink-raspberry coloration. Strong growing and throws branched inflorescences. 2 available. 4.5" pots BS Divisions \$75; 1 available 6" pot BS Division \$100

Hanne Popow flavum 'Sterrettania' HCC/AOS (besseae flavum x schlimii) – Terrific cultivar from the Eric Young Orchid Foundation. Good breeder. Strong growing and throws branched inflorescences. First time offered. 1 available 4.5" pot BS Division \$250

WSO 1849 Hot Pursuit 'On Fire' (Saint's Apprentice x Mem Ruth Omeis) – The best of a great cross. Compact growing with striking red flowers. Love it! 2 available 4.5" pot BS Division \$85

Inca Embers 'Krull-Smith #1' (Andean Fire x longifolium) – From the JOE/KS collection. These can be really special. Very similar to Noirmont (Mem Dick Clements x longifolium) one of our favorites. Tall branching inflorescences and red flowers are expected. 4.5" pots Blooming Size Divisions \$65

WSO 4479 Jason Fischer (3N) (Mem Dick Clements (4N) 'Catherine' AM/AOS x besseae 'Ozone') - Superb dark red flowers of good size on fast growing plants. Don't miss these stunning show plants! Blooming-size plants will sell for \$100+. 2.5" pots 4-5" Is Seedlings \$25; 3.5" pots \$35

Jersey (besseae 'Esther Nies' AM/AOS x d'alessandroi 'Windy Hill') – Small – medium brilliant orange flowers on branching stems Easy to grow and bloom. 3.5-4.5" pots NBS-BS Divisions \$35

WSO 4852 La Hougette 'Weitas Creek' x Sunset Glow (4N) 'Kelly Creek' AM/AOS – Move over Jason Fischer. These Eric Young progeny should light it up with large red flowers with fine form. 2.5" pots 3-4" ls Seedlings \$25 each

WSO 4230 lindleyanum 'Kelly Creek' HCC/AOS x Fritz Schomberg 'Black Canyon' AM/AOS – Few to be released second generation kovachii hybrid. Great parents. 1 available 3.5" pot NBS Seedlings \$50

WSO 4798 lindleyanum 'Kelly Creek' HCC/AOS x kovachii 'Splendid' - Beautiful species from Brazil and Guiana produces many flowers over time on branching inflorescences, crossed with a bodacious kovachii. 'Kelly Creek' received a 78 point HCC/AOS in December, 2013. These will have large pink blooms on tall-branched inflorescences on medium-large plants. Easy! Fast-growing. 2.5" pots 3-4" ls Seedlings \$35 each; 3.5" pots 5-7" s Seedlings \$40

WSO 4132 Little Deschutes (Lynn Evans-Goldner 'Full Circle' HCC/AOS x Bullseye 'Penns Creek' AM/AOS) - Looking for shapely pink flowers with rounded petals, very small plants and branching inflorescences. Some have bloomed almost white. Bullseye is Hanne Popow x Lynn Evans-Goldner. These are blooming on 4-5" leaf span! 3.5-4.5" pots BS Seedlings or Divisions \$35 each

WSO 4161 (longifolium x Imagine) x Saint Ouen flavum – One available. 3.5" pot NBS Seedling \$35

Longueville 'Angia' (Hanne Popow x longifolium) From EYOF, pink hybrid that is all charm. Medium size plant. 2 available. 6" pot BS Division \$45

Longueville 'Benner Springs' (Hanne Popow x longifolium) Pink hybrid that is all charm. Compact-medium size plant. 3.5" pot NBS Division \$25; 4.5" pot BS Division \$35; 6" pot BS Division \$45

Mem Dick Clement 'Candor Red Viper' AM/AOS (besseae x sargentianum) – Terrific vigorous cultivar! 3.5" pot NBS Division \$100

WSO 3975 Olaf Gruss flavum (pearcei x besseae flavum) - Small plants and graceful yellow flowers with salmon highlights are expected. Vigorous multi-growth plants. 3.5" pots BS Seedlings/Divisions Seedlings \$15; 4.5" pots BS Divisions \$25

WSO 4982 Petit Queillette (besseae x andrettae) – 2.5" pot 3-5" Is Seedlings \$25

Plemont (3N) (Hanne Popow (4N) 'Jersey' AM/RHS x d'alessandroi) - 2 available 3.5" pot NBS Seedling \$35

WSO 2702 Raquette Lake (Saint Peter x besseae flavum) - 1 available 2.5" pot 4-5" Is Seedling \$25

WSO 3992 Reed Creek (Bald Eagle Creek x Pink Panther) – Bald Eagle Creek is Saint's Apprentice x Barbara LeAnn. One available. 6" pot BS Division \$45

WSO 4815 Saint Ouen 'Ice Queen' JC/AOS x andrettae 'Ghostly' – This is the first release of a string of hybrids we are working on to produce white Phragmipediums. These should be small growing with near-white to white blooms. Limited. 2.5" pots 3-4" Is Seedlings \$30; 3.5" pot NBS Seedlings \$45

WSO 4810 Saint Ouen flavum (besseae flavum 'Broadwaters' x Hanne Popow flavum 'Sterrettania' HCC/AOS) – Yellow! Limited. 2.5" pots 3-4" Is Seedlings \$30; 3.5" pot NBS Seedlings \$45

Sue Omeis 'Black Canyon' (Saint's Apprentice 'Carmine Bouquet' AM/AOS x Lynn Evans-Goldner 'Full Circle' HCC/AOS) – Wonderful original WSO hybrid with medium-large rose colored-blooms and branching stems. - 1 available 4.5" pot BS Division \$250

Sue Omeis 'Pride of Mingoville' AM/AOS (Saint's Apprentice 'Carmine Bouquet' AM/AOS x Lynn Evans-Goldner 'Full Circle' HCC/AOS) – Wonderful original WSO hybrid with medium-large rose colored-blooms and branching stems. POM is stunning. Best Phrag in Show at SEPOS in 2017. 2 available 6" pot, BS Division \$1,000.

Sunset Glow [4N] (Mem. Dick Clements 'Jersey' FCC/RHS [4N] x Eric Young 'Jersey' FCC/RHS [4N]) - As the name suggests, these will bloom out in rich sunset tones from salmon pink to raspberry to deepest red. Flowers should be large with horizontally-held petals. 1 available. 6" pot, BS Division \$65

Sunset Glow [4N] 'Kelly Creek' HCC/AOS (Mem. Dick Clements 'Jersey' FCC/RHS [4N] x Eric Young 'Jersey' FCC/RHS [4N]) – Dark red cultivar that is strong growing and an excellent display plant and fertile breeder. 1 available. 6" pot, BS Division \$350

Sunset Glow [4N] 'Poe Valley' (Mem. Dick Clements 'Jersey' FCC/RHS [4N] x Eric Young 'Jersey' FCC/RHS [4N]) – Dark red cultivar that is strong growing and an excellent display plant. 1 available. 6" pot, NBS Division \$65

Sunset Glow [4N] 'Spring Creek' (Mem. Dick Clements 'Jersey' FCC/RHS [4N] x Eric Young 'Jersey' FCC/RHS [4N]) – Dark red cultivar that is strong growing and an excellent display plant. 1 available. 6" pot, NBS Division \$75

WSO 4855 Sunset Glow (4N) 'Kelly Creek' HCC/AOS x Eumelia Arias 'Kelly Creek' HCC/AOS – OK... Bill's not quite sure what this cross could yield. Should be special. 2.5" pot 3-4" Is Seedlings \$25

Swift Run 'Little Alaska' (hartwegii baderi x Spot On) – Remarkable compact hybrid with small pink-purple and white flowers. 6" pot Blooming Size Division \$65

WSO 3231 Three Dollar Bridge 'Madison River' (Saint's Apprentice x Hanne Dale) – Medium size plant with lovely dark pink flower. 4.5" pot BS Division \$65

LONG-PETALED MULTIFLORA POTENTIAL HYBRIDS

Among the most popular of all *Phragmipediums*, the long-petal multiflora hybrids derived from *Phragmipedium caudatum*, *wallisii*, *warszewiczianum* (*humboltii*) and *exstaminodium* are easy to grow and bloom. The spectacular multiflora (3-4 flowers open at once on an inflorescence) make them terrific show plants. While *Phragmipedium Grande* is still ever-popular, there are many variations on the theme. Woodstream Orchids has been exploring new genetic combinations to bring you new looks, new colors, and compact growth habits. The future remains exciting for this wonderful group of *Phragmipediums*!

WSO (Fireworks 'April Fool' AM/AOS x *humboldtii*) – Long petals expected. 4.5" pot NBS Seedling 1 available \$45

Fireworks 'Starburst' (*Grande* x *pearcei*) – Terrific medium size plant with long petals and good color. One of Bill's favorites. 4.5" pot BS Division 1 available \$75

© David Lambert Images.com Grande 'Crystelle' HCC/AOS (caudatum x longifolium) – From the Krull-Smith/JOE collection. 2 available. 4.5" pot, BS Division \$100; 6" pot BS Division 1 available \$125

Grande 'Macrochilum' AM/AOS - Wonderful awarded clone! Everyone should have this plant! Division of our CCE/AOS plant! 3 available. 3.5-4.5" pot, NBS Division \$50

Grande 'Nancy' AM/AOS - From Nancy and Joe Volpe, our favorite Grande. Very dark with long petals. 6" pot BS Division \$150

WSO 1080 Paul Eugene Conroy (longifolium 'Woodstream' AM/AOS x wallisii 'Tower Grove' HCC/AOS) - This vigorous cross is similar to Grande, though the plant size should be more compact. The overall flower color will be green with long dark petals. 6" pot, BS Division \$45

Shizuko Kawatsura (Grande x ecuadorensis) – Miniature plants with long petaled flowers. 1 available. 3.5" pot NBS Division \$35

PINK AND OTHER NOVELTY HYBRIDS

Back at the turn of the last century (early 1900's), these were the Phragmipediums of the day. A number have stood the test of time. You will find these here, along with a new series of unique hybrids that are becoming among the most prized Phrags. However, along with the tried and true are new hybrids, some using more recently discovered species like Phrag fischeri.

Calurum 'Royale Suite' (Sedenii x longifolium) - Grows into terrific specimen plants with branching stems and pink flowers. 1 available. 4.5" pot BS Division \$35

Cardinale 'Birchwood' AM/AOS (Sedenii x schlimii) - Grows into terrific specimen plants with branching stems and pink flowers. Everyone should have this classic hybrid!
1 available 4." Pot \$50; 1 available. 6" pot BS Division \$65

Carol Kanzer 'St. Leonard Creek' (pearcei x schlimii) – Cute small-growing pink primary hybrid. 2 available. 3.5" pot Division \$25

longifolium var. album x manzurii – Phragmipedium manzurii (pictured) is a delightful small-growing species with the potential to contribute to breeding pale and possibly white Phrags. Crossed with the alba form of longifolium, this could come to fruition soon. Few to be released.
2.5" pot 4-6"ls Seedlings \$35

WSO 4794 Memoria Estelle Getty (longifolium x fischeri 'Joan' AM/AOS) – Lovely pink purple hybrid. Highly vigorous! 2.5" pot 4-5" Is Seedlings \$25

WSO 4145/4159 Pink Panther (schlimii x fischeri) - Miniature plants with delightful two-tone pink and white flowers with very dark red-pink pouches. One of our favorites! Few available. 2.5" pots \$30; 3.5" pots BS Seedlings \$35

Sedenii 'Candidulum' HCC/AOS (longifolium x schlimii album) – One of our favorites. Beautiful. 3.5" pot NBS Division \$50; 4.5" pots 2 available BS Divisions \$55; 3 available 6" pot BS Divisions \$65

Sedenii 'Roseum' (longifolium x schlimii) – Classic primary that is probably over 100 years old. 3.5" pots, NBS Divisions \$25; 4.5-6" pots BS Divisions \$35

MINIATURE AND COMPACT-GROWING PHRAGMIPEDIUMS

We got it! When we exhibited the first plants of Phragmipedium Lynn Evans-Goldner (Barbara LeAnn x schlimii) thirteen years ago the American Orchid Society judges were enthralled. Here were the smallest flowers they had ever seen on Phrags brought for consideration for flower quality awards, but the plants were proportionally small. Charming! The results have been several awards to this grex and the beginning of a new line of breeding. More of our Mini-Phrags have received AOS awards, including Bullseye 'Casselman River' HCC/AOS and Spot On 'Rose Revolution' AM/AOS. 'Rose Revolution' is unbelievable, bringing wonderful form and a unique rose/purple coloration on a plant with a 6 inch leaf span! Other awards have followed as our customers have shown their plants. Below we offer a selection of miniature and compact-growing Phragmipedium species and hybrids for space conscious Phrag enthusiasts!

Catalog Code: ls = leaf span.

besseae-influenced Hybrids

WSO 4603 Anthony Omeis (Spot On 'Rose Revolution' AM/AOS x Pink Panther 'Tony') - A dream cross for miniature/compact plants with deep red to pink flowers with very dark red-pink pouches. Should look like miniature Jason Fischers!! 2.5" pots 4-5" ls seedlings \$30; 3.5" pot BS Seedlings \$40

WSO 4132 Little Deschutes (Lynn Evans-Goldner 'Full Circle' HCC/AOS x Bullseye 'Penns Creek' AM/AOS) - Looking for shapely pink flowers with rounded petals, very small plants and branching inflorescences. Some have bloomed almost white. Bullseye is Hanne Popow x Lynn Evans-Goldner. These are blooming on 4-5" leaf span! 3.5" pots BS Seedlings \$35 each

WSO 3975 Olaf Gruss flavum (pearcei x besseeae flavum) - Small plants and graceful yellow flowers with salmon highlights are expected. Vigorous multi-growth plants. 3.5" pots BS Seedlings/Divisions Seedlings \$15; 4.5" pots BS Divisions \$25

WSO 4697 Pastel Echo x

Mingoville Morn – Very small plants with pink flowers and some with a yellow pouch. 1 available. 2.5" pot 3-4" Is Seedlings \$25; 2 available 3.5" pot BS Seedlings

WSO 4179 Rockland Lake (Petit Port 'Pink Ice' (shown) x

longifolium var. gracile) - Miniature plants with pink flowers with red-highlighted petals. Limited. 2.5" pot NBS Seedlings \$20; 3.5" pot NBS Seedlings \$30

WSO 4162 Saint Ouen flavum

'Mingoville' x Pink Panther 'Tony' - Miniature/compact plants with delightful yellow-salmon flowers with very dark red-pink pouches. Sure to be one of our favorites! Strong growers. 2.5" pot 4-5" Is Seedlings \$25; 3.5" pots, NBS seedlings \$35

WSO 5000 Spot On 'Kelly

Creek' HCC/AOS x klotzscheanum - Miniature/compact plants with delightful yellow-salmon flowers with very dark red-pink pouches. Sure to be one of our favorites! Strong growers. 2.5" pot 4-5" Is Seedlings \$25; 3.5" pots, NBS seedlings \$35

WSO Strawberry Shuffle (Strawberry Rush x Cleola) - 3.5" pots

NBS Division \$30

Swift Run (hartwegii baderi x Spot On) – Remarkable compact hybrid with small pink-purple and white flowers. 3.5" pots Blooming Size Divisions \$35

Swift Run 'Little Alaska' (hartwegii baderi x Spot On) – Remarkable compact hybrid with small pink-purple and white flowers. 6" pot large Blooming Size Division \$75

WSO 4176 Wild Horse Valley x Hat Creek - Wild Horse Valley is Petit Port x Barbara LeAnn, and Hat Creek is hartwegii baderi x fischeri. With fischeri on both sides, we are looking for small, compact-growing plants with rose-raspberry flowers. Limited. 2.5" pot 4-5" ls Seedlings \$25; 3.5" pot \$35

Pink and Other Novelty Miniature and Compact Phragmipedium Hybrids

WSO 4944 Asendorf Rose

(Pink Panther x fischeri) - Miniature plants with delightful two-tone pink and white flowers with very dark red-pink pouches. One of our favorites! Few available. 2.5" pots \$25

Carol Kanzer 'St. Leonard Creek' (pearcei x schlimii) – Cute small-growing pink primary hybrid. 2 available. 3.5" pot Division \$25

WSO 4520 ecuadorensis x lindenii – Looking for miniature

multifloras with long petals! Very limited. 2.5" pots, 3-4" ls Seedlings \$25; 3.5" pots 5-7" ls \$35

WSO 4145/4159 Pink Panther (schlimii x fischeri) - Miniature plants with delightful two-tone pink and white flowers with very dark red-pink pouches. One of our favorites! Few available. 2.5" pots \$25; 3.5" pots NBS Seedlings \$35

Miniature and Compact-growing Phragmipedium Species

WSO 4125 longifolium var. gracile ('Florida' x Birchwood' AM/AOS) - This diminutive species is easily distinct from the Phrag hartwegii var. baderi, as the staminode has "eye-brows". There are other differences, as well. These seedlings are blooming on very small plants in 3.5" pots.

3.5" pot NBS-BS Seedlings \$25; 6" pots BS Divisions \$45

pearcei ('Cricket' x sib) Terrific species, compact growing and fine show plants.

3.5" pots, BS multi-growth seedlings \$35

HOW TO ORDER

- This list supersedes all previous lists.
- Minimum domestic mail order \$50 (Hawaii \$200)
- Minimum foreign mail order \$US 1,000 (flasks only) (Canada flasks \$US500, Fedex Only)
- GIFT CERTIFICATES AVAILABLE, PLEASE INQUIRE!

Discounts for Woodstream Orchids Paph and Phrag plants and flasks:

\$ 50 - 200:	No discount
\$ 200 - 500:	5% discount
\$ 501 -1500:	10% discount
\$ 1501 -?:	15% discount

IF YOU ARE AN ACTIVE MEMBER OF THE AMERICAN ORCHID SOCIETY (AOS) or ORCHID DIGEST WE WILL GIVE YOU AN ADDITIONAL 5% DISCOUNT. PLEASE PROVIDE US WITH YOUR MEMBERSHIP NUMBER SO WE MAY VERIFY YOUR MEMBERSHIP STATUS. IF YOU WOULD LIKE TO BECOME AN AOS MEMBER YOU MAY BECOME ONE ON-LINE AT: WWW.AOS.ORG

Every order over \$100 will receive a bonus plant/seedling (our choice).

Prices may change without notice. Payment must be made before order is shipped.

- Remember... "If it is not in our e-mail, it does not exist!" While this statement is not wholly true, e-mail is the best way to communicate with us, and it creates both an electronic and paper trail.

We receive orders frequently and at busy times and during the show season, they can accumulate quickly. During these times, we do check our e-mail and it is easier for us to respond, then by phone. If you wish to call us, we recommend calling Friday to Sunday during normal nursery hours. Due to high volumes of unsolicited robo-calls (~ 10-20 per day), our answering machine fills up quickly. Our apologies.

- New Ordering Information - To place an order please send us an e-mail with the plants listed you wish to order. We will confirm availability via return we-mail and at that point will request shipping address and payment information. Credit card orders will be taken over the phone.
We will be glad to call you to get your credit card information.
- First come, first served. We strongly recommend making a reservation, well in advance, to prevent disappointment. As availability of some crosses or species may be limited, we welcome all inquiries concerning availability. Often there are more seedlings or flasks of sold-out items "on the way'.

WOODSTREAM ORCHIDS

5810 Huntingtown Road

Huntingtown, MD, USA 20639

FAX: 1-410-286-2664

E-Mail: woodstream3@verizon.net

Web Site: www.woodstreamorchids.com

- After your order has been confirmed and "picked", we will e-mail an order confirmation to you. Please include your e-mail address in any correspondence. WE ACCEPT CREDIT AND DEBIT CARDS (VISA, MASTERCARD, AMERICAN EXPRESS AND DISCOVER) and continue to accept checks or money orders, made payable to "Woodstream Orchids". **You may call Bill's cell phone: 410-610-6697 to provide credit card information.** PLEASE PROVIDE DESIRED SHIP-TO ADDRESS.

- Maryland residents please include 6% sales tax.

- NO FOREIGN PLANT ORDERS AT THIS TIME! FLASKS ONLY

- As soon as possible, after receiving payment, we will pack and ship your order. Orders will be shipped in the order they are received, weather-permitting. We try to avoid shipping during periods

of extreme hot and cold (either in your area or ours). There may be a significant delay during the busy show seasons (March - June, October - November).

- Plants may be shipped bare root or in pot. We recommend that plants be removed from flasks and shipped in insulated protective packing (domestic sales only). We will ship plants in flask but plants may experience some jumbling in transit.

- For domestic shipping via US Priority Mail, please include \$15 for orders under \$100 to be shipped to the eastern US and \$20 for orders shipped to the west coast. Due to increases in postal rates, we have had to increase our shipping fees. Especially heavy shipments of flasks or plants in pot or large boxes (that are charged a balloon rate) will be billed at cost.

- We guarantee safe shipping. From December 15 until March 15, only if Express Mail Service or FedEx Standard Overnight Shipping is used. These charges range from \$24-50, or more, depending on weight and box dimensions.

- Plants may be returned within 5 working days if not satisfied.
