# BURNCOOSE NURSERIES AND WOODLAND GARDENS

TRADE AND EXPORT SUPPLIERS • PLANNING & PLANTING SERVICE

## NURSERIES

Burncoose is a working nursery of around 10 acres producing one of the widest ranges of plants available by mail order anywhere in the U.K. Although mail order is our main business we welcome locals and holiday visitors alike to Cornwall and to the nursery 7 days a week to browse around at their leisure and select their own plants while also taking a stroll through the gardens for inspiration.

## GARDENS

The Burncoose woodland garden of some 30 acres, which was once described as "A garden oasis in the mine wastelands of Cornwall", has progressed over the years from being a typical Cornish spring garden into a garden for all seasons. It contains as extensive and diverse a range of plants as can be found anywhere in the West of England. The early spring display of Camellias, Rhododendrons and Magnolias moves on through to the late summer show of Hydrangeas and Eucryphias, then a warm symphony of autumn colours.

## PLANTING & PLANNING

Burncoose offers a full landscaping service from simple planting plans through to patios, pools, paving, fencing and rockeries. With many years experience behind us we can plan and design gardens to suit most aspects. However our particular speciality is creating gardens in coastal or exposed locations.

As well as our landscaping service offered locally we can also provide a design service with suitable planting lists for our mail order customers anywhere in the country. Further details can be found on our website or by contacting the office direct on 01209 860316.

## LOCATION

Situated directly on the main A393 Redruth to Falmouth road between the villages of Lanner and Ponsanooth.

The best route to the Nursery from the A30 is via the Scorrier turn off and then through Carharrack on the B3298.

Charles Williams is the senior partner of Burncoose Nurseries. He also owns and runs Caerhays Estate. Charles' great grandfather bred the original x williamsii strain of camellias at Caerhays in the 1920s. Caerhays are the holders of The Plant Heritage National Collection of Magnolias.

Charles is a member of the RHS Rhododendron and Camellia sub committee and has put forward many new magnolias, rhododendrons and camellias for registration and awards

Andrew Mills the Nursery Manager, has over 20 years experience in plant production. After starting work in agriculture Andrew then moved on to horticulture and worked at Kehelland Horticultural Centre where he gained wide experience in the cultivation and growing of nursery stock. He took up the post of Nursery Foreman at Burncoose over 6 years ago and in September 2007 was appointed Nursery Manager. Andrew deals with all trade enquiries.

Stephen Dance is the Office Manager at Burncoose. Stephen's father was Head Gardener at Burncoose for over 40 years so his life has always revolved around plants. Stephen managed the landscaping at Peter de Savary's Port Pendennis Marina in Falmouth before returning to Burncoose to use his plant skills and extensive knowledge in the office. Stephen is your first contact for all gardening advice or queries.

Diana Andrew is Secretary to the senior partner, Charles Williams. She has worked at Burncoose for 20 years and prepares all landscaping quotations.

**Exports** - Diana also oversees the administration of the Export Department dealing with all enquiries and submitting the estimates of costs for the despatch of plants to Europe and the rest of the world. She can be contacted direct by email: [diana@burncoose.co.uk](mailto:diana@burncoose.co.uk)

Louise Holland supervises the selection, lifting and packaging of all mail order despatches from Burncoose. Louise has worked at Burncoose for many years and has the most up to date awareness of stock availability on the nursery.

It is Louise and her team that you have to thank for all the care and attention given to lifting preparing and packaging thousands of your orders.

### Phil Knuckey

Philip Knuckey is the partner who runs the landscape department. Philip has over 30 years experience designing, building and planting gardens for customers throughout Cornwall. Philip's father David Knuckey, won more gold medals at RHS shows for Burncoose than any other exhibitor.

## Welcome from BURNCOOSE NURSERIES

The UK's largest specialist mail order supplier of garden plants offering the widest choice of trees, shrubs, herbaceous and conservatory plants many of which are rare and exclusive to Burncoose Nurseries.

Dear Customer,

Almost 80% of our MAIL ORDER business is now conducted entirely online from our website. The number of written orders received by post or taken over the telephone continues to decline.

After the massive increase in postage costs last spring it now costs 76p to post each of you a catalogue. Each catalogue also costs us just over £1.00 to design and print excluding all the time and effort involved in proofing it each year.

So every year we award you a, hopefully, nice present costing us around £2.00. However all this information together with many more pictures and much more cultural advice on each plant category is readily available online at no cost to you and relatively little cost to us!

The time is fast approaching where we will not need to produce a pictorial catalogue and mail it to the 15,000 customers who have ordered from us recently. Mailing our full customer database which now approaches 40,000 names is no longer cost effective or affordable. You would be the first to complain if our plant prices were to become too high!

Those of you (like me) who are still one-fingered internet novices or do not have access to the internet at all need not despair! The customer feedback section on our website, which everyone can see, contains frequent requests and pleas for Burncoose to continue to produce a pictorial mail order catalogue AND WE WILL!

Just to put this into context our website was visited by 750,000 visitors in 2012. This figure excludes visitors from the European Union (if it still exists by the time you read this) and elsewhere overseas. On average visitors spend 3 minutes on the site. Many of them clearly do still have our catalogue open beside their computer.

One of the most welcome features of the last year has been the considerable growth of our TRADE mail order business with landscapers, garden designers, garden centres and parks departments. Although our catalogue already contains many discounts for quantity orders, ANDREW MILLS, our Nursery Manager and his team, are delighted to quote highly competitive prices for larger trade orders very quickly. We now pack and despatch these orders daily on pallets by overnight courier. You can therefore have your plants when and where you want them to suit your business and your customers.

We are delighted to report that well over 70% of your orders were being despatched within 5 working days last year. This is less than half the time we allow ourselves in our Terms of Business in the busy Spring months. We are improving.

2012 has been another record year in terms of order numbers. The third on the trot in fact so we must be doing something right!

This would only be possible because of the loyalty of so many of our mail order customers and for their favourable comments to their gardening friends.

We are extremely grateful and will continue to provide exclusive SPECIAL OFFERS to our 'best' customers not just by email but YES(!) BY POST too!

THANK YOU AND BEST WISHES FOR A "DROUGHT" FREE 2013! WHAT A 'SUMMER' WE JUST HAD!

Yours sincerely

Charles Williams

| <b>2</b> = Caution, toxic if eaten, may cause allergy or irritation to eyes or skin | <b>4</b> = May cause allergy or irritation to eyes or skin |

## Special Offers and Quantity Discounts

These are highlighted in colour throughout the catalogue.

**Orange type indicates:** Special Offers and Quantity Discounts

**Red type indicates:** New for 2013

## Photographs:

All pictures are for illustrative purposes only. The actual condition of individual plants may of course vary depending on the time of the year, the weather and growing conditions at that time.

**Help:** If you are confused by Latin names and cannot immediately find what you want in our catalogue, please ring or email us for help.

## Pot Sizes

Almost all of our herbaceous plants are grown in 1.5 or 2 litre pots. The vast majority of our shrubs are grown in 2.5 or 3 litre pots and sometimes even larger pots 'particularly' later in the season.

We do not offer for sale or send out tiny plug plants or small liner plants.

If we only have in stock plants which are in smaller pots and smaller in size than the normal price quoted and the standard size in our catalogue we will always reduce the price accordingly and make this clear on the delivery note.

If you need more information on specific pot sizes please call us on: 01209 860316

## How to order

You can order from us at any time

Via our website:

## How to Pay

**Cards:** Payment may be made by any major recognised Credit Card or Debit Card except *Diners Card* and *American Express*. Payment will be taken at the time of ordering on our website. You will then be refunded at the time of despatch for any plants not supplied.

**Telephone or Post:** Where orders are placed by telephone or by post, payment will only be taken from your credit card after despatch has actually taken place. In this situation you will not therefore be charged for any plants which cannot be supplied.

**Delivery Charges:** See Order Form or website.

**Despatch Times:** All UK orders will be despatched within 5 - 10 working days from receipt by us (10 - 15 working days in the busy spring season) except at times of drought or extreme cold.

**Guarantee:** We guarantee to replace or refund the cost of any plant which fails to survive for a reasonable period of time after delivery providing it has been cared for correctly especially during extremes of weather.

**Trade Orders Welcome:** Please contact Andrew Mills, The Nursery Manager or see our website for more details of credit terms and discounts available.

**Export Orders:** Please let us have the list of plants you require. An estimate of the ancillary costs and current availability will then be submitted to you.

**Terms of Business:** See reverse of Order Form or website.

## A Mining Heritage

The RHS Chelsea Flower Show 2012

A Mining Heritage was the inspiration for the Burncoose display at The RHS Chelsea Flower Show 2012. Drawn from the gardens built through wealth derived from mining and from the ruins of mining land: rusting water wheels, rusting debris, tramways, copper-stained stone, minerals and mine shafts. Many Cornish gardens that can be visited today were established by wealthy mine owners, including those of the Williams family: Burncoose, Caerhays Castle and Scorrier House. At Burncoose Gardens, miners were put to work building paths and even a large tunnel to move cows from field to field, during periods when mining work was scarce.

Pictured above at the Burncoose display, left to right are: Annie Lycett, Head of Ambassadors at The Prince's Trust, the actress Samantha Bond best known for her roles in Downton Abbey and as Miss Moneybags in the James Bond films. Geraldine Hammond and Charles Williams of Burncoose Nurseries. Giles Rayner Water Sculpture.

Designing your own garden is fun and a challenge. But if you have no idea where to start or would like some ideas then we have listed on our website (with pictures and prices) the 12 most popular plants for particular types of garden (listed right) as selected and bought by our customers themselves.

The nursery is also more than happy to put together a brief design layout plan and planting list for mail order customers who can email or send in photographs of their garden with brief location details. No charge is made for this service providing the bulk of the plants are ordered from Burncoose.

# From our nursery safely to your door

## How we pack and deliver your plants

It is rare for any two mail orders to be identical so packing individual orders which might contain a 3 metre tree as well as shrubs and herbaceous plants is a skilled business.

There is no such thing as a standard box and part of the skill of the packer is to ensure that plants are secure and fully protected for shipment.

Many customers are concerned about the risks of damage in transit. Our experience is that breakages are thankfully very rare and we hope that this is in no small measure due to the experience and expertise of our packing department.

All larger orders are dispatched by overnight courier to arrive on the next working day.

Smaller orders are dispatched by guaranteed 24-hour service which is traceable and insured. The 24-hour service applies to working days and not weekends.

During the course of one year we will despatch separate orders to well over 20 different countries.

For more information see the order form in this catalogue or visit our website:

[www.burncoose.co.uk](http://www.burncoose.co.uk)

We try to use when ever possible recycled materials for our packing. This includes the boxes, shredded material and wrapping paper.

Close up pictures of many of these magnolia flowers can be seen on [www.caerhays.co.uk](http://www.caerhays.co.uk) as well as the Burncoose website

Care & Planting Advice is available at: [www.burncoose.co.uk](http://www.burncoose.co.uk) Follow the link: [How To Care For Magnolias](#)

Large and Specimen sized magnolias are almost all grafted plants. Many are also very rare.

Large plants are 2-3 year old grafts and Specimen plants 3-5 year old grafts. Different Magnolia varieties grow at very different speeds and therefore the size of a Large or a Specimen plant and the exact pot size it is delivered in can vary markedly for plants of identical age.

Large plants: May vary in size according to variety (and also the time of year) from less than 2 feet to 4 feet in 3, 5 or 7.5 litre pots.

Rarities These plants are either in short supply or still too small to be despatched at least until early summer.

Specimen plants: are usually (but not always) between 4 feet and 8 feet in height in 10, 15 or 20 litre pots.

Magnolias do grow very quickly in a single season but do please ring to check the exact size of your chosen variety if you so wish.

If we are unable to offer a Large sized plant we may well also have smaller plants at a lower price.

See page 66 for more information

Burncoose Nurseries propagates a great many of the plants which it sells on the nursery and by mail order. In particular we propagate the vast majority of our Camellias, Rhododendrons, Hydrangeas and Azaleas. We also concentrate on many of the rarer and more difficult plants which feature in our catalogue and particularly on conservatory plants.

The secret of our mail order business is, however, to provide a constant stream of new and interesting plants to the discerning gardener. In consequence we import many new plants as liners from New Zealand, Northern India and Chile and purchase seed of rare trees and shrubs from all parts of the world.

We do also buy from several other UK liner growers and also from European nurseries in Italy, Holland and Belgium although our prime objective is to locate new plants and offer them commercially through the Show Season and by mail order.

Those of our customers who manage to visit the nursery will be able to see the end results of our team's skill and dedication in successfully propagating many rare plants that are 'rare' for the very good reason that propagation is very difficult.

# CAERHAYS CASTLE & GARDENS

Gardens | House Tours | The Vein - Luxury B&B | Self Catering accommodation | Garden Breaks Weddings | Private Parties and Celebrations | Corporate | Mail Order Plants | Beaches and more...

Awarded National Collection Status In 2001, The grounds at Caerhays contain over 600 magnolias, making it one of the most important collections in The British Isles.

The original home of the world famous x williamsii Camellias, Caerhays still has many original plants collected in China by the intrepid plant collectors in the early 1900's which grow happily alongside more modern hybrids bred by the Williams family, owners for nearly 150 years.

Nestled in a secluded valley above Porthluney Cove, the 120 acre gardens at Caerhays Castle are one of Britain's horticultural treasure troves.

Historic Caerhays is one of Cornwall's Great Gardens, a springtime paradise of glorious Camellias, Magnolias and Rhododendrons towering above carpets of delicate Narcissi and Primroses.

Choose between four woodland walks through magnificent displays of spring flowers which are amongst the best in Britain. Guided tours of the house are also available for a limited period. Out of season group tours can also be arranged.

## RHS Lectures at Caerhays Castle 2013

Suitable for Complete Beginners, Ideal for All, with no prior experience necessary, however all garden lovers would benefit from these interesting lectures.

Friday 15th March 2013  
**THE NATIONAL MAGNOLIA COLLECTION**  
Lecture by Charles Williams

This lecture will cover why it is important to have a National Collection. Magnolias to suit different types of garden. The breeding and selection of new varieties of Magnolia. Examples of new magnolia hybrids all over the world.

Friday 12th April 2013  
**NEW PLANTING AT CAERHAYS CASTLE AND THE RESTORATION OF OLD PARK WOOD**  
Lecture by Charles Williams

This lecture will cover new planting that has taken place at Caerhays and what we are doing to restore Old Park Wood.

The tour will cover the whole garden and ignore the regular routes that visitors would normally take when visiting the gardens. So it is a real 'behind the bushes' tour.

**Booking**  
Those attending RHS lectures may drive up from Porthluney Beach car park and park alongside the castle.

All tickets should normally be booked in advance. For tickets to RHS events at Caerhays only please book in the following ways:

By CREDIT CARD OR DEBIT CARD:  
By telephoning 01872 501310.  
(weekdays 9am 5pm)

By POST:  
Events booking, Estate Office,  
Caerhays Estate, St. Austell Cornwall PL26 6LY  
enclosing a cheque payable to:  
F J Williams Estate, a membership number  
(where relevant) and daytime telephone number.  
State the title of the event and how many tickets you require.

Please note: for all the events, tickets will arrive within 10 days of receipt of booking. In the unlikely event that they fail to arrive, or you have a query about tickets that you have received, call 01872 501 310. (weekdays 9am to 5pm).
