syngenta *flowers*[®]

TM

Welcome

Growing strong – together!

It's time for a revolution in the plant experience! We aim to inspire people to connect with stunning yet easy to manage flowers, through **new and improved varieties** that ensure your offer matches modern lifestyles and demands. Of course, some things will always stay the same, such as our **award-winning genetics** and **proven services** that you and your customers can rely and build upon.

Our **2017 cuttings catalogue** is full of innovations and novelties that produce beautiful flowers, with less time, effort or resources. This year, you won't want to miss the intense colors of our Pelargonium Bunny and the large flowers of the showy Pentas Starcluster! Just to name a few...

Plus, as we mark **our 150th anniversary** throughout the year we'll show you more about how our approach is designed to support and delight you and your growers. After all, our age isn't 'just a number': it's experience, trust, know-how and partnership.

We look forward to continuing our successful partnership with you in 2017,

Jurgen Hoogland
Head of Business International

Be inspired – grow strong with Syngenta!

Euphorbia pulcherrima Titan Red

A close-up photograph of a poinsettia plant. The image is dominated by large, vibrant red leaves with prominent veins. In the lower-left quadrant, a small, green, unopened flower bud is visible. The background is dark, making the red leaves stand out. The text 'cuttings pot plants' is overlaid on the right side of the image in a white, sans-serif font, oriented vertically.

Cortez

Euphorbia pulcherrima (Poinsettia)

The Cortez varieties are suitable for the specialized growers, to serve the consumers with a Premium product. Rounded habit and large, smooth bracts. Because of their uniformity, they make excellent mixed color planting in larger containers. The Cortez series also includes special colors like Electric Fire and Burgundy. Proven shelf life and performance for the consumers.

Red

Mars

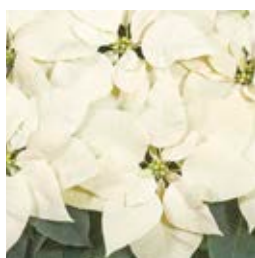

Euphorbia pulcherrima (Poinsettia)

The Mars series stands for beautiful colors in a complete series. Mars varieties have an upright, V-shaped growth habit with thick, sturdy stems. So Mars is suitable for the mass market, and easy to sleeve. Also under less favorable conditions, Mars fastly builds a nice well branched plant. The strong root system, is key for good growth and the excellent shelf life. Regarding Flowering time, Mars fits between Titan (early) and Neva (later).

| | |

Early Red

Mira

Euphorbia pulcherrima (Poinsettia)

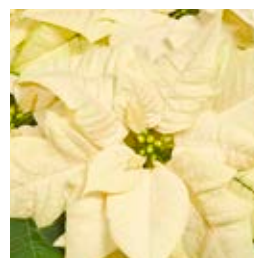

The Mira series convinces with its outstanding bright color range and the attractive serrated leaves. The varieties are suitable for all pot sizes from Mini to 13 cm pot. Mira is compact growing, with a bushy round habit, which makes this series unique. In spite of the bushy habit shelf life is very good and proven in several public trials. With a reaction time of 6,5 weeks in natural short days Mira can be grown for the main season both under cool and warm conditions.

Mira Red is one of the favorites for Mini Plants due to nice bracts, splendid color and many long lasting Cyathias.
