# Better Plants, Better Opportunities, Better Results!

*plant to plant...year-in, year-out*

“Thank you. The roses are beautiful! In fact we were comparing plants in the nursery, one to one, Overdevest vs. \_\_\_\_\_. It's all about you. You have no competition.”

*- Mark Becker | Rohsler's Allendale Nursery | Allendale, NJ*

“Thank you for the beautiful plants ... I'm barefoot right now, those Clematis and Hydrangeas knocked my socks off 😊”

*- Doris Quinn | Gateway Garden Center | Hockessin, DE*

“I'm addicted to your products. We have nicknamed you “Overthebest”.”

*- Frank Capurso | Stables Garden Center | North Babylon, NY*

“Stuff looks great! I'm really happy with everything! Thank You.”

*- Megan McCue | McCue Garden Center | Woburn, MA*

“The consistency and neatness of each container is amazing and even exceeded the high expectation that David created at his visit. Thank you! Although I usually have an aversion to creating purchase orders for finished product, I cannot wait to see what is available on your next list!”

*- Sarah O'Hern | Arona Road Greenhouse | New Stanton, PA*

“And thanks a lot! We like your service & quality!”

*- Wayne Nolt | Nolt's Garden Center | Lebanon, PA*

“Everything you've been sending has been absolutely fantastic so far. Kudos to everyone on your end.”

# Footprints

Concern over society's impact on our world environment is mounting. Your customers are looking to adjust their life practices accordingly. They like companies that respect their concerns and see their needs as more than just a business opportunity.

*Footprints®* is part of the answer. This is an industry-leading collection of uniquely beautiful plants grown in a low-impact manner with recycled water and renewable components. Plants are packaged using biodegradable, yet attractive, rice hull containers.

Our **Nova** line features unique varieties packaged in a durable, decorative container for outdoor & indoor living use.

Our **e-Pot®** line features a plantable container for easy, effortless, and earth friendly planting. These 4 1/2" biodegradable pots have slotted sides that allow for quick root growth through the container wall. Plants get established fast, as the pot gradually decomposes in the ground. This brings convenience and a clear conscience to gardening – no more hassles with removing plants from the pot and having to deal with plastic trash.

Visit [www.FootprintsPlants.com](http://www.FootprintsPlants.com) for added information and pictures.

We look forward to partnering with you in these changing times and invite you to consider joining us in... **Stepping towards a greener tomorrow™**.
