## MEET THE TEAM

The Plug Connection team is the central processing unit of our electric operations, ensuring high quality products, an exceptional customer experience and an answer to any question. Horticultural specialists and masters of logistics, they dedicate themselves to getting you the very best plants, right when you need them.

### **Nicole Jackson**

#### **Sales and Marketing Director**

Nicole comes to Plug Connection with more than a decade of experience in sales, marketing and brand development at one of the top young plant producers in the US. She devotes her attention to working closely with customers on profitable new programs on the ornamental side as well as expanding Plug Connection's network of Organiks® growers. Nicole has a BS in horticulture business from Colorado State University. She stays healthy practicing yoga daily and recently completed her first half marathon.

### **Lisa Finnegan**

#### **Customer Service Manager**

With 25 years of experience in customer service and management – 16 of those years spent in the horticultural industry – Lisa is uniquely suited to deliver our customers the level of support they need. She dedicates herself to making our customers happy at every step of the process, from when they place their order to when they receive their shipment. When she can bear to pry herself away from the computer, Lisa can be found traveling, making jewelry or spending time with family and friends.

### **Juan St. Amant**

#### **New Product Development Director**

During his 24 years with the company, Juan has worked to supply Plug Connection customers with the latest, greatest and most profitable plants and programs. Using his nuanced knowledge of a multitude of varieties, he's helped expand Plug Connection's product offerings to include gerberas, cyclamen, perennials and most recently, the many lines of new cutting and tissue culture programs. He's a strong advocate for organics, working to expand our network of USDA certified growers by helping them through the certification process. Juan is a graduate of University of California, Los Angeles and lives in Vista, California with his wife and two children.

## Mike Guy

### Production Manager – Seed

Mike joined the Plug Connection team early in 1993 just as the company was taking shape, and 18 years later, he has never had a dull moment. He and his team are constantly adapting to the changing industry, new crops and improved systems. Mike's goal is to consistently produce the best quality plugs, and he treats every day as an opportunity to improve. Outside of work, Mike stays busy helping run the production nursery that he and his wife Julie founded after receiving his BS in ornamental horticulture from Cal Poly, Pomona in 1977. He enjoys the outdoors and nurses a serious fishing addiction.

**Mike Guy**

mike@plugconnection.com  
ext 109

## Gregg Opgenorth

### Production Manager – Vegetative

Gregg's broad range of production experience, from bedding plants and nursery stock to conventional ornamentals and organic herbs and vegetables, gives him insight into the challenges that growers face on a daily basis. As head vegetative grower and as part of the product development team, Gregg's focus is on delivering high-quality plugs, liners and programs that are ready to be installed into both large and small production systems. He is always available to share his production and cultural expertise with customers. Gregg and his wife Linda – recent empty nesters – grow many of our plants in their own Fallbrook, California garden.

**Gregg Opgenorth**

gregg@plugconnection.com  
ext 132

## Christine Labrador

### Marketing and Communications Manager

Christine joins Plug Connection with nearly 10 years of experience in marketing, branding and visual communications, most recently in the architecture and non-profit industries. Though she's new to the plant world, she finds inspiration in nature. She works to support her team (and yours) with effective sales, marketing, and communications tools. She received her BSBA degree in marketing and her MA in communications from Hawaii Pacific University in beautiful Honolulu, Hawaii. A wife and mother of two, she's a sucker for good desserts...and good design.

# ORDER INFO

## RELIABLY GOOD SERVICE

Customer service and support – two of our most important products. So, just as we have expert horticulturists to ensure the quality of our plants, we also have an experienced customer service and sales team. They're here to provide the assistance, answers and even suggestions that help make doing business with us a great experience for you.

Ask your favorite broker about our products, contact us at 760.631.0992 or email Lisa Finnegan at [lisa@plugconnection.com](mailto:lisa@plugconnection.com).

## SHIPPING INFO

At Plug Connection, we know the cost of shipping can make the difference between healthy margins and breaking even. That's why we're always seeking optimal shipping solutions, working with you to determine the right packaging – boxes, racks, our one-way pallet rack – and the best rates.

We ship via air freight, common carrier, UPS and our regional Plug Connection truck, so you can pick the option that delivers the right product at the right value. What works best for you is good for us.

**FOB:** Vista, CA

Shipping prepaid and added to invoice. Full boxes during warm weather will include all box charges. Additional charges for winter boxes – \$8 and partial boxes – \$5. All shipping damage must be reported within 48 hours. Other claims must be reported within 5 days of receipt.

**Plug Connection's Master Phytosanitary Certificate eliminates all domestic phytosanitary fees** with the exception of tomatoes into Alaska and Montana – \$68.50. International phytosanitary fees are \$100 into Canada and \$125 everywhere else in the world.

### SEED MINIMUM ORDER

512 tray = 6 trays  
288 tray = 5 or 6 trays  
162 tray = 4 trays  
128 tray = 4 trays  
72 tray = 2 or 3 trays

### VEGETATIVE MINIMUM ORDER

104 tray = 2 trays  
102X tray = 2 trays  
102 tray = 4 trays  
72 tray = 2 or 3 trays  
32 tray = 2 trays

### SHIPPING METHODS

Air Freight  
Commercial Trucking (EuroAmerican, BEKS, Tawjo)  
UPS 2nd Day      UPS Next Day  
FedEx 2Day      FedEx Overnight  
OnTrac (available for most CA, OR, UT, WA and AZ zip codes)  
Plug Connection Truck (within specified delivery area)

### CUSTOMER PICKUP

Tuesday through Friday, 7:30am to 3:30pm

## OUR LOGISTICS TEAM

No matter how well we grow our plugs and liners, we know that dependable shipping options are key. With combined experience of 25 years in shipping and logistics, Laura and Vicente work hard every day to make sure that our customers receive the plants that they ordered, in excellent condition and on time – every time.

**Laura Contreras**

ext 116

**Vicente Raya**

[vicente@plugconnection.com](mailto:vicente@plugconnection.com)  
ext 115

## DISPOSABLE PALLET RACK

Our custom-built, environmentally friendly shipping containers break down easily to reduce the time you currently spend receiving, taking inventory and unloading. They're a perfect fit for as low as 60 trays per small 4' rack or as many as 162 trays per large 6' rack. And with shelving made from 100% recycled plastic, you can choose to reuse or recycle them.

## SHIPPING BOX

By using a specially-engineered shipping box that keeps freight damage to a minimum, your growing times increase to maximum speed.

## PLUG IN TO EPICAS FOR EASY ORDERING AND ONLINE AVAILABILITY

Plug Connection offers you live, up-to-the-minute availability and a convenient ordering system online anytime – all you need is an Internet connection. Growers and brokers alike can use ePicas to place and review orders and even track any UPS shipments in route.

It's simple – email Lisa Finnegan at [lisa@plugconnection.com](mailto:lisa@plugconnection.com) to set up your private log-in credentials. Once that's done, you're ready to Plug in at <http://epicas.plugconnection.com> and can easily access your order history from the current year and last season as well. It will make it much easier to analyze your orders and rebook for the coming season. We're here to help with any questions so don't hesitate to call if you have questions or concerns.

#### TISSUE CULTURE CROP LEAD TIMES

While we do our best to anticipate tissue cultured plant availability, we encourage you to let us know as far in advance as possible of your product needs. Our labs can easily adjust quantities upwards **6-9 months ahead of ship dates**, but without this advance notice it is nearly impossible to supply beyond our planned speculative availability. If you are planning orders for a product on the adjacent list, please give Juan St. Amant a call or drop him an email at [jsa@plugconnection.com](mailto:jsa@plugconnection.com). This way we can work with our labs to meet your needs and make sure that when you want the product, we will have it for you.

#### TISSUE CULTURE VARIETIES

Agave Ray of Light	14-18
Aloe Blooming	14-16
Bamboo	12
Beschomeria Flamingo Glow	18-20
Cordylone	15-18
Gerbera Drakensberg Daisy	6-8
Oxalis Allure/Pillow	10
Primula Belarina	8
Yucca	18-20

# MIGHTY 'MATO<sup>®</sup>

## GRAFTED TOMATOES

Grafted onto vigorous rootstock for super-abundant harvests!

**Stronger! Faster!**  
**Super yields!**  
**Fights off disease and pests!**

Grafting joins the top part of one plant – the scion – to the root system of another plant – the rootstock. KAPOW! As their tissues heal, the grafted liners fuse into a Mighty 'Mato or Mighty Veggie™ – combining the rootstock's vigor and disease-resistance with the scion's exceptional fruit quality. Many gardeners know about grafted fruit trees and roses, but few know that vegetable grafting has been commercially important for decades. Well over 1 BILLION tomatoes are grafted annually worldwide because grafting greatly improves yields for commercial growers.

Gardeners struggling with growing vegetables in short growing seasons or areas with soil-borne pests and diseases will especially benefit from Mighty 'Mato and Mighty Veggies. Many popular heirlooms are delicious – but have low fruit production, low vigor and are especially susceptible to disease. Once these varieties are grafted onto our specially-selected root stocks, they become Super-Powered and able to fend off disease and grow more strongly than their non-grafted counterparts. Mighty 'Matos can use food and

### INCREASE MIGHTY 'MATO SALES

Large Mighty 'Mato tags with specific variety information is included with every purchase and ship with liners.

To order 1-gallon branded Mighty 'Mato containers please contact our customer service team or your favorite broker for pricing and minimums. (See sample container at right)

### CULTURAL INFORMATION

**PLANTING:** The graft must stay above soil level.

**MEDIA:** pH: 5.5-6.2; EC: < 0.75

**TEMPERATURE:** Day: 65-70°. Night: 62-65°F

**MOISTURE:** Maintain moderate moisture levels

**HUMIDITY:** Maintain adequate airflow

**FERTILIZER APPLICATIONS:** 100-150ppm. Every third irrigation, alternate with: 5-10-10 or 5-20-10. Trace elements should also be added as needed.

**PRUNING:** Prune lateral suckers for best fruiting

**PLANT GROWTH REGULATOR (PGR):** Not necessary

**TRAY SIZE:** 102X tray in 25mm Ellepots sold as 102

**POT SIZE/CROP TIMES:** Slightly faster than non-grafted vegetable production. 4"/3-4 weeks, 1-gallon/4-6 weeks, 3-gallon/6-8 weeks

water more efficiently, making for healthier, more beautiful and more productive plants. By taking seasonal weather stresses in stride and offering higher yields and larger fruits over an extended season, they'll have gardeners falling in love their bigger and faster harvest. By mid-season gardeners will be shouting, "Holy tomato bounty, Batman!" Supernaturals® offer the perfect opportunity to achieve what every grower needs – a product that helps guarantee home gardeners' success.

With high quality tags included with every order, we make it easy. To increase sell-through at garden centers, we recommend growing in our 1-gallon Mighty 'Mato and Mighty Veggie branded containers. Retailers looking for signage and bench cards can log in and download high-resolution files at [plugconnection.com/mightymatoresources.html](http://plugconnection.com/mightymatoresources.html).

Share gardening tips, photos, recipes and suggestions.

# MIGHTY 'MATO®

## GRAFTED TOMATOES

Gardeners are making the grafted vegetable revolution a huge trend, so we're focused on offering growers and retailers even more opportunities to increase their edibles sales this season. 2013 brings 17 introductions of new Mighty 'Mato varieties to market – including our exclusive new Bumble Bee™ series of delicious marbled cherry tomatoes and 14 large fruited heirlooms. We've also expanded into grafting other vegetables under our brand name Mighty Veggies, launching three grafted eggplants, four grafted sweet peppers and two hot peppers. So fear not, Mighty 'Mato is joined by a plentiful selection of new opportunities for next season.

	H=Heirloom	D=Determinate IN=Indeterminate	# of days to fruit
<b>AMISH PASTE</b>	H	IN	80-90
Heirloom paste tomato produces tons of meaty 6-8 oz. red fruits – one of the best for sauces and canning.			
<b>BEAVERLODGE SLICER</b>		D	55
Early and productive, with rich balanced flavor! Smooth, round, 2" red fruits cover super-compact plants – good choice for cooler growing regions.			
<b>BEEFSTEAK</b>		IN	85-95
Bright red, slightly ribbed 4-5" fruits with delicious, sweet, meaty flesh. An excellent slicer but also wonderful for cooking, salads or canning.			
<b>BIG BEEF</b>	H	IN	70-75
Red, globe-shaped, 1 lb. fruits with a perfect balance of sweetness and acidity. Abundant firm, crack-resistant tomatoes produced over a long period.			
<b>BLACK ICICLE</b>	H	IN	75-85
A stunning mahogany paste tomato from the Ukraine! Oblong, pointed fruits have incredibly rich, sweet flavor with earthy overtones.			
<b>BLACK KRIM</b>	H	IN	70-90
Violet-red, slightly flattened 4-5" fruits with near-black shoulders have intense, smoky flavor. Russian heirloom.			
<b>BRANDYWINE</b>	H	IN	80-90
The famous heirloom produces 1-2 lb., scarlet-pink beefsteaks with high acid and sugar content. Considered one of the world's best-tasting tomatoes!			
<b>CARMELLO</b>		IN	75
Smooth red crack-resistant variety is a favorite in European markets for its delicious balance of sugar and acid. Productive even in cooler weather.			

Amish Paste

Beaverlodge Slicer

Cherokee Purple

Chocolate Stripes

CHEROKEE PURPLE H IN 75-85  
Dusky rose, 8-12 oz. round fruits with complex, old-time flavor. Pre-1890 heirloom. Perfect for slicing, sandwiches.

CHOCOLATE STRIPES H IN 70-80  
Scarlet and green striped fruits with deep red-brown flesh combine gorgeous color and rich, sweet, complex flavor. Superb for slicing or salads.

COPIA H IN 85  
Beautiful bicolor slicer is streaked in glowing gold and crimson, with sweet, juicy, red and yellow swirled flesh inside. Excellent clean flavor.

COSTULUTO GENOVESE H IN 85  
Large, heavily lobed, deep red tomatoes have meaty, full-flavored, slightly tart flesh. Makes beautiful scalloped slices as well as a rich, hearty sauce.

Copia

Costuluto Genovese

EARLY GIRL IN 50-60  
Bright red, 4-6 oz. round slicers. Early, dependable and flavorful fruits in almost any climate!

GREEN ZEBRA H IN 75-80  
An heirloom whose glowing green and gold streaked 2" fruits have a bright citrusy flavor balanced with sweetness.

HEATWAVE II D 68  
Round red 7 oz. fruit produced on compact, disease-resistant plants with exceptional heat-tolerance, for abundant yields even in hot climates.

HOMESTEAD 24 D 80  
Round red 8 oz. fruits are very smooth and uniform with good flavor. Compact, heat-tolerant plants ideal for high temperatures, container gardening.

H=Heirloom IN=Indeterminate to fruit

INDIGO ROSE IN 75

Stunning new variety has high anthocyanin levels, for purple-black fruits with rosy undersides and deep red flesh. 2-3" fruits with strong acidic flavor ripen in clusters.

JULIA CHILD H IN 75-80

Deep pink, slightly fluted 4" beefsteaks with robust flavor and juicy flesh ripen on tall vigorous plants. Slice thick onto sandwiches for a gourmet touch.

LEGEND H D 60-70

Smooth, round 3-4" red fruits with a good balance of sweet and acidic flavors ripen early on cold-tolerant plants. Ideal for salads and canning.

MANITOBA H D 60-70

Bright crimson, 3-4" tomatoes with fresh tangy flavor. Developed in Canada to thrive in cool, short-season areas. Great for slicing and canning, container gardening.

MARIANNA'S PEACE H IN 85

Dense, creamy pink beefsteaks from Czechoslovakia reach 1-2 lbs., with sweet flesh and rich complex flavor that are wonderful for fresh eating.

MOMOTARO IN 70

6-7 oz., dark-pink heirloom tomatoes are heat tolerant with intricate yet well-balanced sweet and tangy flavors.

MORTGAGE LIFTER H IN 85-95

Dark pink, 1-2 lb. fruits are meaty with good old-time flavor. Heirloom known for its productivity.

PAUL ROBESON IN 75

Slightly flattened, dark red beefsteaks are 4" across with greenish shoulders. Luscious red flesh has an earthy, exotic, well-balanced flavor. Suitable for cool climate.

Pruden's Purple

PINEAPPLE *H IN 90-95*  
Huge golden beefsteaks, marbled in cherry-red, have mild fruity flavor. Heirloom with yields of 1-2 lb. fruits.

PRUDEN'S PURPLE *H IN 75*  
Large, flattened, lightly ribbed fruits are deep purple-pink with red flesh. Excellent rich flavor has been compared to Brandywine!

SAN MARZANO *H D 80*  
Famous Italian heirloom yields bright red, tapered 3" fruits. Meaty and flavorful – ideal for canning or sauce.

SASHA'S ALTAI *H D 55-60*  
Bright red, slightly flattened 4-6 oz. fruits have thin skins and complex, award-winning flavor. Russian heirloom ripens early, good for cool or high-altitude areas.

San Marzano

Sasha's Altai

STUPICE *H IN 60-65*  
Extra early, cold-tolerant heirloom produces 2" red fruits with good, sweet flavor.

TANGERINE *H D 70*  
Sweet, tangy golden-orange tomatoes add bright color and flavor to salads, salsas, sandwiches – or halve and dry the 6 oz. fruits for a sweet winter treat.

YELLOW MORTGAGE LIFTER *H IN 95*  
Slightly flattened, bright yellow 4" fruits have light red streaks and a mild, fruity flavor and creamy texture.

## MIGHTY VEGGIES™

### GRAFTED VEGETABLES

#### DUSKY EGGPLANT 70-75

Purple-black oval fruits can be picked at 3-5" for mini-eggplants or harvested when mature at 8-10" long. Perfect for roasting or grilling. Can be grown in containers.

#### PING TUNG EGGPLANT ASIAN 70-80

Sweet and tender, 12" long, purple Chinese eggplants. Delicious creamy flavor and no bitterness.

#### ROSA BIANCA EGGPLANT *heirloom* ITALIAN 85-95

Italian heirloom yields beautiful, plump, 4-6" lightly ribbed fruits with rose, violet, and white streaks. Eating quality is excellent, with delicious, mild, creamy flavor.

#### BIG BERTHA PEPPER SWEET 70-75

Extra large, thick-walled bell peppers can reach 7" long, ripening from bright green to shiny red, with crisp sweet flesh and few seeds – perfect for fresh eating.

#### CHOCOLATE BEAUTY PEPPER SWEET 80-90

Glossy, lobed bell peppers can be eaten green but are especially sweet when they've ripened to deep chocolate brown. Excellent for salads, stuffing or cooking.

#### GOLDEN BELL PEPPER SWEET 65-75

Picture perfect, 3" bell peppers ripen from green to light yellow to deep golden yellow. Sweet, blocky, thick-walled fruits are excellent for salads or stuffing.

#### PURPLE BEAUTY PEPPER SWEET 85-95

The best purple bell, with crisp, sweetly flavored dark purple peppers that appear early and abundantly. Lobed 3" fruits ripen to a radiant purple-red.

#### ANAHEIM PEPPER HOT 65-75

Tapered, 6-8" long peppers turn from green to red, with delicious, mildly hot flavor. A popular variety that's excellent for roasting or frying.

#### JALAPENO PEPPER HOT 70-90

Dark green, 3" conical peppers with hot, zesty flavor are thick-walled and easy to seed – one of the best for salsa, nachos or chiles. Perfect fresh or pickled.

## Organiks®: A Retail Solution That Increases Profitability

Organiks® is your connection to the future of herb and vegetable growing. With a clean, elegant package, the easy-to-adopt marketing program is ready to help grow your business. We also help you through the process of becoming a USDA Certified Organic grower if you're not yet certified. It's not as difficult as you might think – and with our experience, access to high-quality stock and relationships with retailers like Whole Foods, we can make it easy for you to develop your local market.

## The Growing Profits of the Organic Markets

Organic food is more than just a fad – it's a lasting shift in consumer attitudes and behaviors, as the next generation of urban, suburban and rural consumers embraces a new outlook on what and how they eat. Young consumers want food that's safe, healthy and socially responsible – and they want to know where it was grown. They perk up at the phrase “locally grown” and are willing to pay more – or go farther – to get products that meet their standards. They value the experience of growing plants, whether they're doing it directly or supporting those who do – and in a sustainable way. Home grown trumps the farmers market every time.

Organiks® is the first national brand of USDA certified organic herbs and vegetables. It's your entry-point to garden centers, high-end grocery stores and younger consumers. We provide you with a retail-ready system, complete with interactive consumer and trade websites, marketing concepts and easy-to-understand, appealing packaging. Organiks® is ready to plug into any production system, and since we've already experienced the certification process, Plug Connection will share expert advice on how to go through the USDA certification process.

Whole Foods wants more organic growers to supply their stores. Garden centers want more organic growers to supply their stores. Consumers are clamoring for high-quality, well-grown organic plants. This is your opportunity. And Organiks® is the best and easiest way to help you capitalize on it.

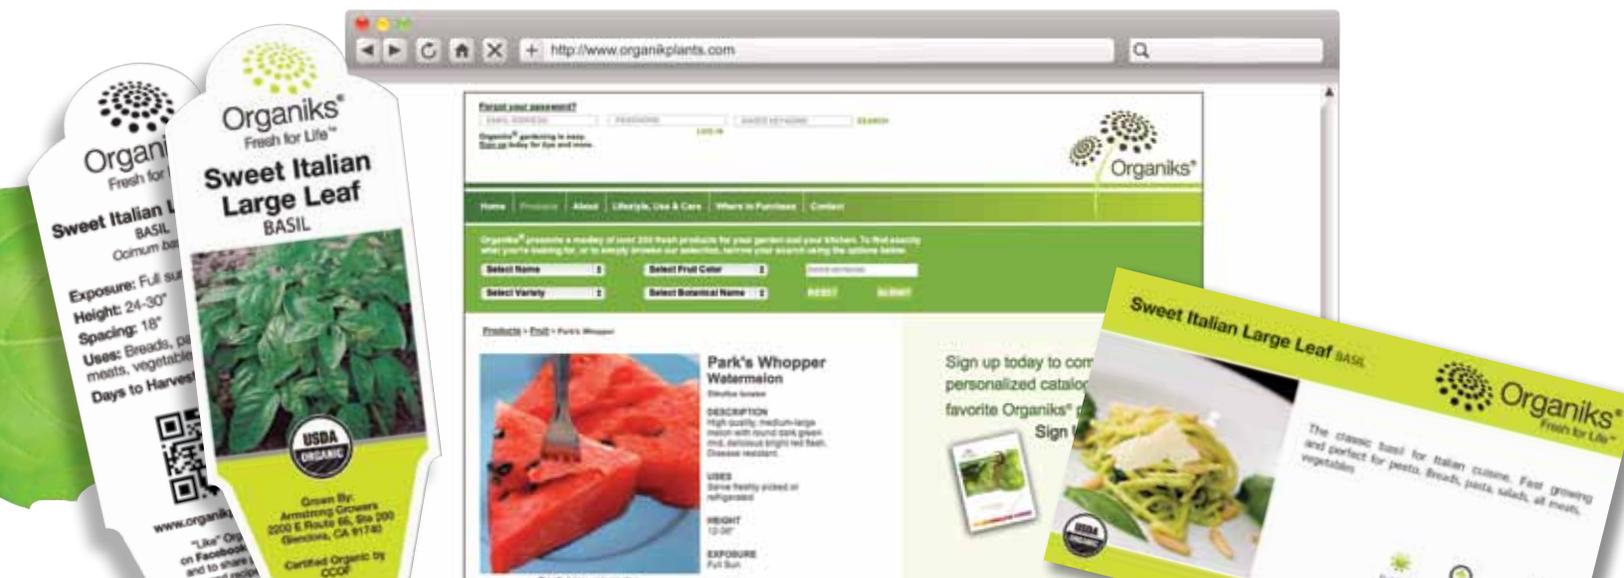

The US organic industry was valued at almost \$29 billion in 2010, with growth of 17% over the previous year.\*

Experiencing the most growth were organic fruits and vegetables, representing 39.7% of total organic food value and nearly 12% of all US fruit and vegetable sales, up 11.8% over 2009.\*

"The Organiks® Program has been the most successful branded plant program we have been involved with. It was easy to adopt on both the production and retail side, and with the packaging and marketing support it's been a huge success at retail with strong growth each season."

—James Russell | Vice President | Armstrong Growers | Glendora, CA

## TOMACCIO™: SUN-DRIED AND OH SO SWEET

Offer your customers the opportunity to capture the romance of Southern Italy by growing their very own sun-dried tomatoes. Enjoy their unique, sweet taste fresh from the vine or dried in the oven. This is a new, versatile category of tomato that breaks through the clutter.

Tomaccio™ is a great end-cap variety and effectively captures summer sales in larger containers. Easy to grow in pots or in the ground, its versatility opens more seasonal markets and creates additional opportunities for consumer satisfaction. Growers and retailers can expect higher margins with Tomaccio.

Sun-dried or fresh off the vine, Tomaccio is a tomato comfortable in its own skin. But, it's what's on the inside that counts – a taste so uniquely sweet, they won't be saying tomato, they'll be saying Tomaccio.

A specialty category unlike anything on the market, Tomaccio tomatoes have an intense, sugary flavor when picked fresh or dried at home. Tomato aficionados love them as a sweet snack or a gourmet ingredient in pastas, pizzas and salads – and happily pay more.

Arriving in America and backed by a consumer marketing wave, Tomaccio offers a high-margin product that's great as an end-cap variety and captures summer sales.

Desert Flame

COLEUS (see SOLENOSTEMON)

---

## CARNATION (Please see DIANTHUS)

---

### Leadwort

CERATOSTIGMA plumbagnoides ☀️🌑 Z 6-9 6-8"

True blue flowers accent red foliage in cool weather, making this hardy perennial a summer and fall favorite. [102](#)

---

### Desert Flame

CHRYSOCEPHALUM apiculatum ☀️🌑 Z 7-11 6-8"

Bred in Australia using tough, wild species from the outback, this excellent variety has trialed well all over the world. 'Desert Flame' has a very neat habit – silver-felted, mouse ear foliage and terminal bunches of golden-orange button flowers that are exceptionally long-lasting. Heat tolerant and tough, a great groundcover plant in the landscape and in mixed baskets. Perpetually in flower, self-cleaning and always neat. 4" to 1 gallon pots. Early to flower. [102](#)

---

## COLEUS (Please see SOLENOSTEMON)

---

## COREY™ Yellow <sup>PPAF</sup>

COREOPSIS grandiflora  Z 9-11 6-8"

Bright golden-yellow flowers with unique dark red center accents will catch customers' attention. A strong upright plant that produces extra-large flowers all summer long. Reliable performance in both the landscape and containers. Syngenta. [102](#)

COREY Yellow

Cherry Lemonade

---

## Cherry Lemonade <sup>PP18334</sup>

COREOPSIS hybrid   Z 9-11 8-10"

Bright, feather golden foliage starts a long season of interest even before the clear red flowers arrive. A clear favorite from our friends at Terra Nova. [102](#)

---

## Fruit Punch <sup>PPAF</sup>

COREOPSIS hybrid   Z 9-10 10-12"

This delicious two-toned Coreopsis with a light pink edge and a dark red eye forms a low mound and blooms all summer. [102](#)

Fruit Punch

Pumpkin Pie

---

## Pumpkin Pie <sup>PPAF</sup>

COREOPSIS hybrid   Z 9-11 4-6"

Forms a low growing mound with many red-eyed, pumpkin orange flowers. Gardeners will enjoy Pumpkin Pie flowers from early summer through fall. [102](#)

---

## Chocamocha

COSMOS astrosanguineus hybrid  Z 9-11 15-20"

"Chocolate cosmos" with excellent basal branching resulting in significantly increased flower power. Deep chocolate-maroon flowers on medium pedicels with dark-green foliage exude a wonderful chocolate/cocoa scent. Flowers from May until frost, nonstop. Best in 6" to 1-gallon pots. Cool finish temperatures improve crop quality and bud count. [102](#)

## Allyson

CUPHEA hyssopifolia

☀️🌑 Z 9-11 6-8"

Quick-growing Mexican native perennial that reaches only 12" tall and wide, returning in the spring if mulched heavily. Small attractive purple flowers appear in the early summer and stay until winter. [102](#)

## LAVENDER LACE

CUPHEA rosea

☀️ Z 9-11 10-12"

Petite lavender flowers cover this small shrub from spring through fall. Medium green foliage with a distinct shine. Use in the landscape and containers. [102](#)

## RICO™ Red <sup>PP</sup>

CUPHEA llavea

☀️🌑 Z 9-11 12-16"

Rico™ Red is a mounding plant with loads of bright red flowers. It has exceptional heat tolerance and improved edema resistance. [102](#)

## VIENCO™

CUPHEA llavea

☀️🌑 Z 9-11 10-16"

Series with striking flower colors that bloom profusely all summer long. Makes a great addition to mixed containers. [102](#)

## CUPHORIC™ Pink <sup>PP</sup>

CUPHEA ramosissima

☀️🌑 Z 9-11 6-12"

Unique small-leaved plant that blooms profusely on a compact semi-trailing habit. Attractive in 4" pots and in mixed containers. Heat lover. [102](#)

We're excited to have recently acquired the Mesa Magic® cyclamen program from Greenheart Farms. In taking over the program, we will continue to produce the highest-quality plugs to help growers finish a premium product on time. To see our full listing of varieties within each series, along with the appropriate pot sizes for each, log on to [plugconnection.com/resources](http://plugconnection.com/resources).

Cyclamen hybrid

Z10-11

## Miniature Cyclamen series

### Best for 3.5-4"

Popular in Europe, miniatures are trending up in the North American market. Miniature Cyclamen make wonderful gifts plants and perform well in the landscape. Their dainty flowers fade discreetly and the plants are self-cleaning in the garden. These adorable little beauties add cheer both indoors and out.

#### METIS®

- Excellent in both the greenhouse and garden
- Decorative foliage and a well structured habit
- Central flowering with good re-flowering
- Bred by Morel
- Crop Time: 27-30 weeks
- Height: 6-8"

#### LIBRETTO™

- Compact, round habit with high uniformity across the series
- Great landscape performer
- Excellent indoor and outdoor performance
- Bred by Syngenta Flower-Goldsmith Seeds
- Crop Time: 24-26 weeks
- Height: 6-8"

#### SUPER SERIE™ COMPACT

- Very compact and round plant structure
- Strong, firm flower stems
- Abundant blooms and long flower life
- Bred by Schoneveld
- Crop Time: 34-36 weeks
- Height: 6-8"

#### SUPER SERIE™ JIVE

- Elegant, waved petals
- Abundant and uniform blooms, extremely long lasting
- Bred by Schoneveld
- Crop Time: 28 to 30 weeks
- Height: 6-8"

#### WINFALL™

- Ideal for production in 2.5- to 4.5-inch pots
- Sizes up under low temperatures – requires less energy
- Perfect for fall and winter – indoors and out
- Bred by Syngenta Flower-Goldsmith Seeds
- Crop Time: 26-28 weeks
- Height: 6-10"

## Intermediate Cyclamen series

### Best for 4.5-5"

Intermediate-sized varieties of cyclamen, such as Laser and Latina, are the most popular types for the landscape. These varieties are bred to be sturdier in the garden and more tolerant of adverse weather conditions.

#### LASER SYNCHRO™

- Incredibly uniform plant habit and size
- Ideal for small containers
- Long-lasting, fragrant flowers form bushy bouquets
- Bred by Syngenta Flowers-Goldsmith Seeds
- Crop Time: 24-26 weeks
- Height: 10-12"

#### LATINIA®

- Compact plant with large flowers
- Extremely floriferous
- Excellent performance outdoors
- Bred by Morel
- Crop Time: 29-31 weeks
- Height: 10-12"

#### PERFETTO™

- Very large flowers, stop a sturdy compact plant
- Vibrant green foliage
- Bred by Syngenta Flowers-Goldsmith Seeds
- Crop Time: 26-28 weeks
- Height: 10-12"

#### PREMIUM

- Great plant for outdoors
- Compact, vigorous plant with a short culture time
- Very uniform, consistent and floriferous
- Bred by Morel
- Crop Time: 26-28 weeks
- Height: 10-12"

#### SUPER SERIE™ ALLURE

- Developed for warm season production
- Strong, firm flower stems and abundant and uniform blooms.
- Bred by Schoneveld
- Crop Time: 30-33
- Height: 6-10"

#### STERLING™

- Unique silvery foliage sets with beautiful blooms
- Great for special occasions and holidays
- Long-lasting flower quality
- Bred by Syngenta Flowers-Goldsmith Seeds
- Crop Time: 25-29 weeks
- Height: 10-12"

#### TIANIS®

- Luminous colors
- Compact and balanced plant habit
- Abundant and central flowering
- Bred by Morel
- Crop Time: 28-31 weeks
- Height: 10-12"

## Standard Cyclamen series

### Best for 6-8"

Standard-sized varieties of cyclamen make excellent pot crops and florist-quality gift items. These varieties are bred to be show stoppers at retailers and garden centers with large flowers and habits.

#### CONCERTO™

- Extremely free-flowering and tightly mounded habit
- Longer shelf life
- Large central flowers for premium retail sales
- Bred by Syngenta Flowers-Goldsmith Seeds
- Crop Time: 28-32 weeks
- Height: 10-12"

#### FLEUR EN VOGUE™

- Unique umbrella type of flowering
- Novelty series for September-December sales
- Bred by Syngenta Flowers-Goldsmith Seeds
- Crop Time: 28-32 weeks
- Height: 10-12"

#### RAINER™

- Strong, thick stems
- Uniform habit and flowering allow for bench run sales
- Grows easily at cooler temperatures for late season finish
- Bred by Syngenta Flowers-Goldsmith Seeds
- Crop Time: 31-35 weeks
- Height: 14-16"

#### WINTER ICE™

- Unique silver foliage
- Strong plants that feature thick stems and an abundance of flowers
- Thrives inside or outside (under mild winter conditions)
- Bred by Syngenta Flowers-Goldsmith Seeds
- Crop Time: 28-32 weeks
- Height: 12-14"

#### HALIOS®

- Compact plant structure with central flowering
- Uniform and consistent growth
- Robust, solid stems
- Bred by Morel
- Crop Time: 31-35 weeks
- Height: 10-12"

#### SIERRA SYNCHRO™

- The industry standard for excellent uniformity
- High bloom counts, large showy flowers
- Bred by Syngenta Flowers-Goldsmith Seeds
- Crop Time: 28-32 weeks
- Height: 12-14"

#### SUPER SERIE™ XL

- Long flower life, abundant and uniform blooms
- Uniform, round plant size
- Large flower size makes this series very profitable
- Bred by Schoneveld
- Crop Time: 31-33 weeks
- Height: 12-14"

## HYPNOTICA®

DAHLIA hybrid

Z 9-11

12-14"

Real eye-catchers in landscapes or containers, and especially on a balcony or patio. The radiant colors of large, elegant flowers. Good branching, disease resistance and uniform habit make it an easy series for growers. 12-14 hour days make them flower faster. [102](#)

## CARNATION SUNFLOR®

DIANTHUS caryophyllus   Annual 6-8"

A true pot carnation for 4" production, SUNFLOR have a great color range coupled with lightly scented double- and semi-double blooms. [102](#)

## FLORAL LACE®

DIANTHUS chinensis x barbatus   Annual 8-10"

Earliest flowering with largest blooms of this cross – up to 1.5". Bright green leaves. Performs well in gardens under tough conditions as an annual or biennial. Good for high-density spring and autumn pack or small pot programs. From PanAmerican. [288](#), [512](#)

## EVERLAST™

DIANTHUS hybrid   Z 6-11 6-8"

This new series from Selecta combines double-flowers, the hardiness of a perennial and continuous flowering. Blooms in short days and long days. Top picks: Burgundy Blush and Orchid. Five colors in the series. [102](#)

## MEZOO™ Trailing Red PP

DOROTHEANTHUS bellidiformis  Z 9-11 6-8"

Vigorously trailing, succulent foliage accented by dime-sized, deep rose-red flowers. Grower-friendly series, accepting of high or low pH and quick to finish. An excellent addition to any combination basket or planter. [102](#)

## Whirling Butterflies

GAURA lindheimeri

☀️ 🌑 Z 5-11 24-36"

This butterfly Gaura has bright stary white flowers tinged with pale pink highlights. Heat and drought tolerant. Maroon spots may appear on the foliage. Use in mixed containers and landscape. Not pictured. [102](#)

---

## pac Elsner Geranium

Founded in 1889, German-based pac-Elsner is credited with the creation of the modern Zonal Geranium and in recent years they have developed a superb range of innovative series like low-chill, heat-tolerant mini-regals called Angel Eyes; or the bold and beautiful Candy Flowers, a big-bloomed garden Regal series. Saxonia hybrids – a spreading zonal-type interspecific flowers well in shade. Along with a full complement of excellent Zonal and Ivy series and varieties and other unusual and exciting types, these geraniums are super-charged for profit – for you and your retailer.

---

## FIREWORKS®

PELARGONIUM x zonale

A premium Stellar type with single, star-shaped flowers, FIREWORKS® showcases an unusual “spiky” look that catches the eye. Easy to grow with proven excellent consumer performance.

---

## DANDY®

PELARGONIUM x peltatum

Features semi-double lilies and a compact, bushy habit: ideal for baskets and combos. Broad palette includes unique bicolors.

---

## SHIVA®

PELARGONIUM x peltatum

Consumers love these large-flowered Ivy Geraniums with consistently superior garden performance. Medium vigor.

---

## VILLE®

PELARGONIUM x peltatum

These standard “balcon” types sport a cascading habit, perfect for window boxes or as ground cover. Excellent vigor.

---

## ANGEL EYES®

PELARGONIUM x crispum

The smallest of the Regal types is anything but timid. Angel Eyes® are extremely floriferous, displaying unique pansy-faced flowers with vivid markings that bloom beautifully all summer. Bushy and naturally compact, they have no need for PGRs and require less water and fertilizer than standard Geraniums. Growing cool for the final one-third of the production cycle will improve quality, though no cool treatment is needed under high light conditions.

## ARISTO®

PELARGONIUM x crispum

The next generation of Regal Geraniums has arrived, with a strong bud count and non-brittle foliage (for easier shipping). ARISTO® varieties flower earlier than standard types, so your customers won't wait long to enjoy a phenomenal range of colors and patterns. And as a cool crop, they require less heating than standard Geraniums.

Syngenta Flowers' Geranium assortment is one of the most comprehensive in the industry, and by offering the best of their Geranium series in one program, we make it easier for our customers to access these excellent varieties. If there are other series or varieties that you'd like to see us list, please email Juan St. Amant at [jsa@plugconnection.com](mailto:jsa@plugconnection.com). We are happy to accommodate specific needs provided they meet our minimums.

---

## CALLIOPE®

PELARGONIUM x hybrida

Extremely well-branched, vigorous mounding habit is ideal for baskets, large pots and landscape applications. Large semi-double flowers with stunning color; bloom in full sun or part shade locations. **Five colors including three color breakthroughs for 2013.**

---

## CALIENTE®

PELARGONIUM x hybrida

Ivy-zonal cross provides foliage with very good edema resistance and large single flowers. The best heat tolerance of any geranium on the market; provides continuous color under the most extreme conditions. **Series of nine beautiful colors.**

---

## AMERICANA®

PELARGONIUM x zonale

Versatile for growers and reliable results for retailers and consumers; suitable for all container sizes. Bold, clear flower colors. Proven greenhouse and outdoor performance and a long history of award-winning varieties **Fifteen colors.**

---

## ROCKY MOUNTAIN™

PELARGONIUM x zonale

Strong, vigorous plants with large, round flower heads for high-impact, premium sales. Very uniform plants bred to thrive in challenging North American climates, especially in the landscape. Ideal for larger pot sizes and mixed containers where strong plants are needed. **Fifteen colors.**

---

## TEMPRANO™

PELARGONIUM x peltatum

Earliest-to-bloom series for faster sell-through and more profitable turns. Unbeatable performers from the ivy geranium market leader. Very floriferous plants. **Eight colors.**

## SUNPATIENS®

A revolutionary new hybrid, SunPatiens® have a proven reputation for outstanding performance in the garden and commercial landscapes. Their impressive features are not limited to the garden; they work exceptionally well for growers too. They are easy-to-produce and fast to finish. They also have strong disease resistance – especially against the serious problem of downy mildew, which is causing problems for growers, retailers and gardeners. SunPatiens® are certain to grow in popularity as the industry learns more about how far the breeding has come.

## SUNPATIENS® COMPACT

IMPATIENS x hybrida hort Z 11 24" x 30"

Compact SunPatiens® are bred for shorter internodes and excellent branching. Available in seven colors, the Compact SunPatiens® are the perfect choice for quart, gallon and hanging basket production. Compact varieties do not require growth regulator applications if plants are not grown wet with high nutrition and produced under high light. 102

## SUNPATIENS® SPREADING

IMPATIENS x hybrida hort Z 11 30" x 36"

With a mounding habit ideally suited for basket and premium patio pots, these plants perform exceptionally well in landscapes where a mounded, spreading form is preferred. They are available in four colors, including two with bold variegated foliage. 102

## SUNPATIENS® VIGOROUS

IMPATIENS x hybrida hort Z 11 36-48"

The perfect plant for landscapes where fast-growing color is essential. Most commonly produced in larger containers, these plants cover a lot of bare ground fast and can be offered as 60-70mm "ready-to-plant" liners. This package provides quick turns for the grower and is ideal for the commercial landscaper looking to save labor and simplify planting. Available in eight colors. 102

SIDEKICK Lime

Blackie

Black Heart

Margarita

## DESANA™

IPOMOEA batatas

Z 10-11

8-12"

New spring of 2012, this series of dramatic foliage colors will make a surprisingly excellent 4" and 6" crop. DESANA really show off in combinations by adding color, texture and drama without dominating complementary plantings. [102](#)

## Blackie

IPOMOEA batatas

Z 10-11

12-16"

Grown for its dark foliage, Blackie maintains its deep purple, almost black color in full to partial sun. Excellent as a component in hanging baskets and planters. [102](#)

## SIDEKICK™

IPOMOEA batatas

Z 10-11

12-14"

SIDEKICK is a series of semi-compact, bushy and large foliated ornamental sweet potatoes. With a habit that is ideal for mixed containers and 4" production, you'll find this series versatile and well behaved. An excellent performer in sun to partial shade. Three colors from Syngenta. [102](#)

## Black Heart

IPOMOEA batatas

Z 10-11

14-18"

This classic component will give your mixed containers sophistication and contrast. Dark purple, heart-shaped foliage with a mounding to trailing habit. Heat tolerant, vigorous and showy. [102](#)

## Margarita

IPOMOEA batatas

Z 10-11

16-20"

Lime-green foliage is one of the easiest ways to turn a mixed basket into a work of art. Margarita is vigorous, so pair up with other varieties that can keep up like SURFINIA Petunia and TECHNO HEAT Lobelia varieties. [102](#)

BANDITO Orange Sunrise

Dallas Red

New Gold

## CHIPOTLE™

LANTANA hybrid  Z 9-11 10-12"

CHIPOTLE™ is a series of well-branched, smaller-leaved varieties with excellent heat tolerance and continuous flowering spring through frost. [102](#)

## BANDANA®

LANTANA hybrid  Z 9-11 16-20"

This easy-to-grow mounding series is grower-friendly and looks great in containers or in landscape applications. Large flowers produce little to no seed set, creating continuous displays of color. Syngenta. [102](#)

## BANDITO®

LANTANA hybrid  Z 9-11 12-14"

Naturally compact habits, best for warm climates. Lantana traditionally need PGRs to control growth in production. Limited seed set results in more continuous summer blooming. Syngenta. [102](#)

## Dallas Red

LANTANA camara  Z 8-11 14-20"

Lantana 'Dallas Red' has a great show of flowers that last from spring until frost. The flowers are golden-yellow, orange and red and will all deepen to red with age. [102](#)

## New Gold™

LANTANA hybrid  Z 8-11 18-24"

This classic drought-tolerant, heat-loving, low maintenance annual has a wealth of golden-yellow flowers. A very adaptable and popular tender perennial. [102](#)

---

## LAMI™

LAMIUM maculatum    Z 4-10 6-10"

Foliage and flowers, this designer collection of Lamium from Danzinger has compact habits, interesting foliage and is covered with huge flowers. [102](#)

---

## Aureum

LAMIUM maculatum    Z 4-10 8-12"

Chartreuse foliage and slight variegation. Makes a great accent plant in mixed containers. [102](#)

---

## Beacon Silver

LAMIUM maculatum    Z 4-10 8-12"

Silver leaves and attractive rose-colored flowers. Vigorous, mounding habit. Excellent component for baskets. [102](#)

---

## Chequers

LAMIUM maculatum    Z 4-10 8-12"

Silver margin contrasts with Chequers' deep green foliage. Low-growing, spreading habit. [102](#)

---

## Pink Pewter

LAMIUM maculatum    Z 4-10 8-12"

Heavy-flowering Lamium with pink flowers and silver foliage. Perennial classic. [102](#)

---

## Purple Dragon

LAMIUM maculatum    Z 4-10 8-12"

An exceptional variety with large deep-purple, snapdragon-like flowers that stand out over the silver variegated leaves. [102](#)

## Ice Queen™ PPAF

LEUCANTHEMUM hosmariense  Z 5-11 6-10"

This exciting early-spring bloomer has stunning silver foliage with beautiful white flowers. A superior new selection with many large, extremely long-lasting flowers, it can be grown with Erysimum and planted in late summer or fall and grown cool over winter. Its stunning silver leaves remain beautiful all summer, even after the early-spring flowering season. PGR when flower buds are the size of a pea with Bonzai or B-Nine. [102](#)

---

## Heavenly Blue

LITHODORA diffusa   Z 4-9 4-6"

Heavenly Blue forms a low, creeping mat of hairy grey-green leaves, studded with royal-blue star flowers from late spring through summer. This choice rock garden plant and groundcover makes an unforgettable display. [102](#)

---

## Silver Stream™ PPAF

LOBULARIA hybrid   Z 9-11 4-6"

With profuse flowering on a neat habit, this vegetative Lobularia is extremely versatile. Silver Stream is suited for baskets, containers and 4" programs. Top pick. [102](#)

---

## Goldie

LYSIMACHIA nummularia   Z 3-10 2-4"

Goldie turns lime green in shady conditions and stunning gold hues in sun. Use for groundcover, baskets and containers. Top seller. [102](#)

---

## TECHNO® PPAF

LOBELIA hybrid

Z 9-11

14-22"

A very early-flowering series, TECHNO is perfect for combination plantings and baskets. Semi-trailing, mounded habits that retain their shape and color all season long. TECHNO HEAT were bred for improved heat tolerance and summer blooming. TECHNO HEAT UPRIGHTS are ideal for 4-6" production. Syngenta. [102](#)

TECHNO Blue

TECHNO HEAT Violet '11

---

## WESTFLOWERS® STAR

LOBELIA hybrid

## 3D®

OSTEOSPERMUM ecklonis  Z 9-11 10-14"

Blooms stay open all day and night for high-impact retail displays of color right out of the box. This cool-season crop makes an irresistible display at retail. 4", 6" and mixed container use. Bred by Selecta. [102](#)

---

## ASTRA™

OSTEOSPERMUM hybrid  Z 9-11 12-14"

One of our favorite series of Osteospermum, ASTRA varieties were the best performers at our 2012 Spring Trials. With a full range of colors, we know this uniform series will please our growers. [102](#)

---

## BLAZING DAISY™

OSTEOSPERMUM hybrid  Z 9-11 8-15"

An excellent series from the breeder of the best-selling series of Osteos on the market. These varieties are both warm- and cold-tolerant. Perfect grown cool, they are superb early-spring crops to generate sales ahead of the season. [102](#)

---

## SIDE SHOW™

OSTEOSPERMUM ecklonis  Z 9-11 10-12"

The strong flower power, compact structure, excellent branching and superior heat tolerance of the SIDE SHOW series make it an outstanding choice for both grower and garden performance all season. [102](#)

---

## TRADEWINDS®

OSTEOSPERMUM ecklonis  Z 9-11 12-20"

Bred to induce flowering at higher temperatures without vernalization. Easy-to-grow, excellent branching and a compact growth habit. Syngenta. [102](#)

---

## ZION™

OSTEOSPERMUM ecklonis  Z 9-11 12x18"

Inspired by the colors of Zion National Park in Utah, this series features distinctive, novel colors. 2013 brings three new large-flowered colors to this Selecta collection. [102](#)

---

## PILLOW™

OXALIS articulata

Z 7-11

4-6"

A series of hybrid Oxalis with a neat, mounding habit, beautiful apple-green shamrock foliage and hundreds of pink or white flowers right above the foliage all summer long. The plants literally cover themselves with flowers all season, becoming more and more beautiful. Propagated through tissue culture, thus very uniform, healthy and robust. Hardy to Zone 8 with protection from winter wet. Cultivaris. 72

PINK PILLOW PPAF

Bright pink flowers, compact habit.

WHITE PILLOW PPAF

Pure snow-white flowers, beautiful partner variety.

PILLOW Pink

PILLOW White

---

## ALLURE™

OXALIS triangularis

Z 9-11

4-8"

The ALLURE™ series of Oxalis triangularis features wonderfully colorful foliage in a range of rich, luxurious colors, with white or pale pink flowers nestled between the leaves as an extra bonus all summer long. Beautiful as an indoor pot plant, in mixed and solo containers, baskets and window boxes and outdoors in sunny or shady locations. Easy and fast in cultivation – great for pot production. Cultivaris. 72

## FORTUNIA®

PETUNIA hybrid

Z 10-11

10-12"

A vigorous, trailing habit Petunia with striking flower colors, early- and long-flowering period and tolerance of extreme weather conditions. For complete variety listing, go to [www.plugconnection.com/resources](http://www.plugconnection.com/resources). [102](#)

---

## GLOW®

PETUNIA hybrid

Z 10-11

6-10"

This early-flowering series is excellent for early sales. Combined with our lit and pinched liners, GLOW is sure to fly off benches. Use in mixed containers, as a bedding plant and in hanging baskets. [102](#)

---

## RAY®

PETUNIA hybrid

Z 10-11

6-10"

One of our favorite series for early flowering Petunia. We love the color selection for hanging basket combinations. Like all of our vegetative Petunia, the Ray series is lit and pinched before shipping to you – making this already early series an even better performer for growers. Vigorous, semi-trailing plant habit with large flowers. Use in 4-6" pots, combinations and hanging baskets. [102](#)

# SURFINA®

PETUNIA

Z 10-11

6-10"

With a complete range of habits, colors and vigor, Suntory's high-performing series of vegetative Petunia still sets the benchmark for performance.

SURFINIA TRAILING varieties are a knockout in city baskets where they will cascade and spill like no other Petunia. The more refined BABY COMPACT and PATIO collections will perform in smaller containers – ideal for urban gardeners with less space but desiring high-impact color. For our complete SURFINIA lineup, simply log on to [www.plugconnection.com/resources](http://www.plugconnection.com/resources). And like all of our vegetative Petunia, SURFINIAs will come to you packing a punch with our pinched and lit young plant treatment. 102

---

## ASTORIA®

PHLOX drummondii

Z 9-11

14-24"

ASTORIA combines early flowering that lasts all summer with a large selection of colors. Excellent mounding habit makes them ideal for garden borders, patio pots, window boxes and hanging baskets. [102](#)

ASTORIA Peach

Blue Boy

---

## Blue Boy

PHLOX paniculata

Z 4-8

24-30"

An old-school favorite with lavender-blue heads in late summer, this is the darkest blue paniculata type. [102](#)

David

Franz Schubert

---

## David

PHLOX paniculata

Z 4-8

36-48"

Among the most well-known of the garden phlox, this variety has strong disease resistance in a range of climates and covers itself with bright white, fragrant flowers in midsummer. Former Perennial Plant of the Year. [102](#)

---

## Franz Schubert

PHLOX paniculata

Z 4-8

24-30"

Vigorous grower with sturdy wands of durable lilac blooms. Named by Alan Bloom for his favorite composer. [102](#)

---

## Emerald Blue

PHLOX subulata

Z 3-8

3-4"

Masses of clear lavender-blue flowers on this early spring-blooming, disease-resistant variety. [102](#)

Emerald Blue

PAZZAZ Pink Glow

---

## PAZZAZ™

PORTULACA oleracea

Z 9-11

4-8"

After seeing these at the Kansas State Field Trials, we knew we had to introduce this series of Portulaca. With outstanding colors and amazing flower power, PAZZAZ will add some buzz to your groundcover program. [102](#)

## BELARINA™

PRIMULA polyantha

Z 5-11

4-6"

A wonderful series of fragrant and hardy polyantha primrose with large, fully-double flowers in vibrant colors. A neat habit and a great pot presentation with many flowers per plant make this a high-value crop. From tissue culture, BELARINA™ are extremely uniform and make for an excellent high-end pot crop. Great for late-winter/early-spring retail sales. Blooming continues for up to two months and longer in maritime climates. Best in 4-6" pots. Peak availability weeks 35-43. Because these are from tissue culture, we need as much advance notice as possible to adequately supply your needs. [72](#)

## SAUCY™ Red PPAF

SALVIA splendens hybrid

Z 9-11

24-36"

An absolute breakthrough in Salvia splendens, this salvia on steroids is self-cleaning with year-round flowering in mild climates. Brilliant scarlet-red flower spikes cover this bushy plant. A favorite from our summer trials. [102](#)

SAUCY Red

Violet Candle

---

## Violet Candle™ PPAF

SALVIA farinacea hybrid

Z 7-11

12-15"

A refreshingly different color in Salvia farinacea with deep violet flowers and a demure white-eyed lip on sturdy, lilac flower spikes all summer long. Soft gray-green, elongated foliage and compact habit with excellent basal branching. Stays tidy in containers and the landscape. [102](#)

VELOCITY Blue

Black and Blue

---

## VELOCITY™ Blue

SALVIA farinacea

Z 8-11

12-16"

Early bloomer with a quick finish time, features large, dark blue flower spikes, and a great performer with strong stems and a dense habit. [102](#)

---

## Black and Blue

SALVIA guaranitica

Z 7-11

24-36"

Vibrant dark blue flowers contrast against the foliage of this stately salvia. With its black calyx this selection adds sophistication to large containers or is perfect for one gallon programs. Top seller. [102](#)

MESA Azure

MESA Purple

---

## MESA

SALVIA hybrida

Z 7-11

18-24"

This series of outstanding heat tolerant salvia is a favorite of Jenny Wegley at the Dallas Arboretum for their nice compact habit and blooms from summer to fall. Well-balanced in 4-5" pots. Bred by Syngenta. [102](#)

---

## East Friesland

SALVIA nemorosa

Z 5-11

12-24"

Blue-violet spikes in June-July. Habit similar to Blue Hill and May Night. Extremely popular. [102](#)

---

## OCEANA® Blue

SALVIA patens

Z 8-11

12-18"

An excellent performer in containers and the landscape with large, deep gentian-blue blooms that last, plus a vigorous, bushy habit that displays season-long waves of color. [102](#)

MESA Rose

MESA Scarlet

East Friesland

OCEANA Blue

---

## TSAVO™

SANVITALIA procumbens

Z 9-11 6-8"

This charming little creeping zinnia is perfect for 4" pots and combos. Its bright, sunny little flowers are created all summer and into fall. [102](#)

---

## Black Pompon™ PPAF

SCABIOSA hybrid

Z 9-11 10-12"

A new compact Scabiosa studded with maroon-black pincushion flowers! Great bushy/compact habit, with ferny-feathery green foliage, studded with medium-sized, luscious chocolate-black pincushion flowers on short stems directly above the bright green foliage. Excellent retail presentation, great for mixed containers – flowers nonstop from April to October. [102](#)

---

## Butterfly Blue

SCABIOSA columbaria

Z 5-11 10-12"

One of the bestselling perennials of all time. An extravagant performer with lavender-blue blooms from May to hard frost. Neat, compact. [102](#)

---

## Pink Mist

SCABIOSA columbaria

Z 5-11 10-12"

Pink form of Butterfly Blue, a sequel equal to the original, constantly in flower. Always among our top sellers. [102](#)

## CALYPSO™

SUTERA

Z 10-11

3-6"

Easy-to-grow bacopa with a controlled habit and excellent branching with eye-popping, jumbo-sized flowers. Great for baskets and mixed containers. Syngenta. [102](#)

## White Wedding

SUTERA

Z 9-11

3-6"

This pure white bacopa has huge flowers. [102](#)

## SCOPIA™

SUTERA

Z 9-11

3-6"

Large flowers, neat habits and continuous blooms make SCOPIA an ideal choice for growers. Bred by Danziger, a market leader in Bacopa breeding. [102](#)

## SUMMER WAVE®

TORENIA

Z 10-11

3-6"

Our favorite series for baskets and West Coast production. Both trailing and mounding habits available. Excellent in shade baskets with large, electric flowers. From our friends at Suntory. For our complete list of varieties, visit us at [www.plugconnection.com/resources](http://www.plugconnection.com/resources). [102](#)

Bells of Fire

Lydia

## Bells of Fire™ 'GTORUBEN' PPAF

TECOMA

Z 9-11

4-6'

This superb hybrid produces scarlet red flowers and is self-cleaning. Flowers are deep scarlet-red to dark orange and in frost-free areas, blooms year round. [102](#)

## Lydia™ 'GTOLYDIA' PPAF

TECOMA

Z 9-11

4-6'

This beautiful yellow hybrid is a restrained grower and makes an excellent foundation planting or container shrub. Self-cleaning, it's more compact, better-branched, and a very attractive presentation at retail making this variety a winner. [102](#)

# VEEVO™

VERBENA hybrid

Z 9-11

12-18"

Verbena VEEVO™ is unique in its combination of a mounding, well-branched habit; large, vibrantly colored flowers; and strong disease resistance. Perfect for 4" and superb in 1-gallon pots, the disease resistance and flower power make this a perfect series for summer sales and a great landscape series. [102](#)

## LANAI™

VERBENA

☀️ 🌑 Z 9-11 4-10"

LANAI Verbena is a trailing verbena that does well in outside university trials, offers nonstop color in the landscape and has excellent resistance to powdery mildew. LANAI flowers early and is free-flowering from tip to crown. Our top-selling collection of Verbena. [102](#)

## TEMARI® PATIO

VERBENA

☀️ 🌑 Z 9-11 12-16"

An upright habit with broad leaves and large, vibrant flower clusters from spring to fall. Use in patio containers, combinations, hanging baskets and landscapes. [102](#)

## LANAI™ UPRIGHT

VERBENA

☀️ 🌑 Z 9-11 12-16"

The LANAI UPRIGHT varieties boast a habit unique to most Verbena. Growers will love this for the ability to grow LANAI uprights in high-density spacing, and consumers will be wowed with the vibrant colors. From our friends at Syngenta. [102](#)

## TEMARI® TRAILING

VERBENA

☀️ 🌑 Z 9-11 4-10"

Cold- and heat-tolerant with a trailing, cascading habit with continuous blooms and lush foliage. Use in combinations, hanging baskets and landscapes. Seven colors in the TEMARI TRAILING series by Suntory. [102](#)

## HOMESTEAD PURPLE

VERBENA

☀️ 🌑 Z 9-11 8-12"

Heat- and drought-tolerant Verbena plant with 2" bright purple blooms in spring until frost. [102](#)

## TAPIEN®

VERBENA

☀️ 🌑 Z 9-11 3-8"

A heat- and humidity-tolerant, groundcover series with constant flowering. A favorite series in the landscape from Suntory. [102](#)

## AEONIUM

luteovariegatum   Z 9-11 8-16"

A gorgeous mid- to large-sized Aeonium with white leaves striped with green. May develop pink tinges at the margins. [72](#)

arboreum variegatum

**'Mini Tricolor'**   Z 9-11 8-16"

Star-shaped golden flower spikes emerge from the center of variegated rosettes. Perfect in mixed containers and landscapes. [72](#)

hawarthii **'Pinwheel'**   Z 9-11 8-36"

Upright/mounding habit with green foliage edged with pink, and pale yellow flowers in summer. Self branching. [72](#)

hybrid **'Kiwi'**   Z 9-11 24-36"

Upright/mounding habit with dazzling foliage in pinks, oranges and greens, and pale yellow flowers in summer. One of the most colorful Aeoniums. [72](#)

hybrid **'Zwartkop'**   Z 9-11 12-36"

Medium growth rate, upright habit with a striking dark terminal rosette, almost black leaves, and yellow star-shaped flowers. [72](#)

---

## AGAVE

attenuata **'Blue Flame'**   Z 9-11 24-36"

This beautiful succulent is named for its blue cast foliage that forms clumps with rosettes. One of our favorites. [72](#)

attenuata **'Ray of Light'**   Z 9-11 24-36"

Rosette of beautiful blue-green leaves with a lovely white margin. Spineless and thornless. [72](#)

impressa **'Impressive'**   Z 8-11 24-36"

Each leaf has fabulous white lines imprinted. Forms a solitary rosette without teeth. Makes a statement in the landscape. [72](#)

ovatifolia **'Vanzie'**  Z 8-11 24-36"

Grey-blue colored leaves with deep cups form a glorious rosette. [72](#)

---

## ALOE

dorotheae **'Crimson'**   Z 9-11 12-24"

Red flowers on 2' tall inflorescences, with a yellow trim at the outside edge. [72](#)

hybrid **'Delta Lights'**   Z 8 8-12"

Vigorous Aloe suitable for 6" and gallon production. Its unique zigzag foliage pattern adds sizzle to any succulent program. [72](#)

polyphylla **'Swirl'**   Z 9-11 12-18"

Featuring a perfect spiral leaf pattern of medium green succulent leaves makes this specimen a work of art. From tissue culture. [72](#)

variegata **"Tiger Aloe"**   Z 9-11 6-12"

A striking pyramidal shaped Aloe covered with white stripes. Striking plant perfect for a small container plant indoors or outdoors. [72](#)

---

## BLOOMING ALOES™

Truly fantastic plants with long flowering periods, interesting foliage and superior garden performance. Great in commercial, residential and municipal landscapes, they also thrive in containers. Fast growing and versatile. Order early – Grown from Tissue Culture.

**'Always Red'** PPAF   Z 9-11 14"h x 14"w

An incredible long-flowering medium-sized Aloe with shiny red blooms during summer, autumn and winter months – showing color up to 10 months a year. Mass plantings or containers. [72](#)

**'Erik the Red'** PPAF  Z 9-11 6'h x 6'w

A blooming Aloe that produces amazingly long-lasting spires of blood red blooms on tall stems in winter. Prominent but soft spines on its long, large leaves make it a stunning specimen both in and out of flower. [72](#)

**'Fairy Pink'** PPAF   Z 9-11 12"h x 12"w

Numerous dainty white flowers with a pink cast appear in late summer/early autumn above the delicate fleshy green leaves of this small and beautiful hybrid. [72](#)

**'Moonglow'** PPAF  Z 9-11 30"h x 20"w

A multitude of magnificent compact pale-yellow flower spikes starting in mid-winter on a medium-sized plant. Once mature, this variety produces more flowers than any we've seen. [72](#)

**'Super Red'** PPAF  Z 9-11 6'h x 6'w

Truly spectacular flower performance with masses of red flowers from late summer to winter. Grey green rosette divides as the plant ages, allowing an even greater flower display. Suitable as a feature plant in the garden, in a large pot or in tough landscaping conditions. [72](#)

**'Topaz'** PPAF   Z 9-11 15"h x 12"w

Beautiful long-lasting pink-orange blooms from mid-summer to early winter compliment the elegant grass-like leaves of this magnificent plant. [72](#)

---

## BESCHORNERIA

yuccoides

**'Flamingo Glow'** PPAF   Z 8-11 48-72"

Grown for its striking foliage. Flower spikes emerge mid-spring with large pink bracts. Excellent upright specimen in mixed containers. [72](#)

---

## CHASMATOPHYLLUM

**“Hardy Tigers Jaw”** ☀️ 🌑 Z 9-11 4-6"

Mat-forming plant with yellow blooms in summer and fall. [102](#)

---

## CISTANTHE (a.k.a. Calandrinia)

grandiflora **‘Violet Showers’** ☀️ Z 9-11 12-18"

Mounding rosettes of blue-grey foliage and attractive clusters of hot pink flowers on 12" stems. [72](#)

---

## CRASSULA

coccinea **‘Campfire’** ☀️ 🌑 Z 9-11 8-12"

Striking mounding/clumping plant has scarlet foliage in cool night temperatures. Orange to green when grown warm. [72](#)

conjuncta

**‘Giant String O’ Buttons’** ☀️ 🌑 Z 9-11 8-12"

Upright columns of stiff triangular leaves flushed with red. Pink flowers in the summer. Awesome in mixed succulent containers. [72](#)

corymbulosa **‘Sharks Tooth’** ☀️ 🌑 Z 9-11 6-12"

Red-tinged rosettes form a pyramidal pagoda-shaped mound. Full sun for red color. [102](#)

lycopodioides **‘Princess Pine’** ☀️ 🌑 Z 9-11 12-18"

Fast-growing favorite with green foliage and yellow-green flowers. Perfect for containers. [102](#)

muscosa **‘Watch Chain’** ☀️ Z 9-11 6-12"

Sparkling blue-green, evergreen foliage and light yellow to nearly white flowers. Nice spreading habit. [102](#)

ovata **‘Gollum’** ☀️ Z 9-11 12-24"

Small tree-like habit with heavy trunk, succulent, tubular leaves and white to pale pink starry flowers. A focal point in any containers. [102](#)

ovata **‘Hobbit’** ☀️ 🌑 Z 9-11 12-24"

Curiously-shaped fleshy leaves have the appearance of tiny suction cups at the leaf tip. Use to add interest to containers or beds. [102](#)

ovata **“Variegated Jade”** ☀️ 🌑 Z 9-11 12-24"

Very similar to the easy care Jade but with interesting variegated fleshy leaves. [72](#)

ovata arborescens

**“Baby Jade”** ☀️ 🌑 Z 9-11 12-24"

Green leaves with tinged red tips. Excellent for use in containers. [102](#)

ovata arborescens

**“Large Jade”** ☀️ 🌑 Z 9-11 14-36"

This classic succulent has large round leaves that turn red in cooler temperatures and full sun. White flowers in winter. [102](#)

pellucida variegata

**‘Calico Kitten’** ☀️ 🌑 Z 9-11 2-4"

This succulent is the cat's pajamas, with tiny pink and white variegated triangular leaves. Great for a trailing item in containers. [102](#)

perforata **“String of Buttons”** ☀️ 🌑 Z 9-11 8-12"

A real conversation piece. Bright red flowers. Unique succulent with oblong, sickle-shaped, gray-green leaves. [102](#)

perforata **‘Variegata’** ☀️ 🌑 Z 9-12 8-12"

A variegated form of “String of Buttons.” Perfect for dish gardens as an upright component. [102](#)

picturata **“Tiger Jade”** ☀️ 🌑 Z 9-11 4-6"

This cute little plant forms pagoda shaped rosettes. Older green leaves have purple tips. [102](#)

radicans **“Large Red Carpet Stonecrop”** ☀️ Z 10-11 6-12"

This spreading Jade loves the heat. Green foliage is tipped with bright red. [72](#)

rupestris **“Baby Necklace”** ☀️ 🌑 Z 9-11 12-24"

Succulent leaves are small, rounded and tightly stacked. [102](#)

tetragona

**“Miniature Pine Tree”** ☀️ Z 9-11 12-24"

Feathery foliage and easy care make this plant outstanding in dish gardens. [102](#)

---

## DELOSPERMA

aberdeenense **‘Tiny White’** ☀️ Z 5-11 4-6"

ECHEVERIA elegans 'Grey Red'

### 'Trailing Yellow'

☀ Z 5-11 4-6"

Succulent with small yellow flowers. Looks terrific in rock gardens and borders. [102](#)

## ECHEVERIA

### imbricata 'Black Prince'

☀ 🌑 Z 9-11 6-8"

Purple-black leaves form rosettes with red flowers. Very cool in containers. [72](#)

### lilaciana

☀ 🌑 Z 9-11 4-6"

Delicate-looking but tough light-gray leaves. [72](#)

### prolifca

☀ 🌑 Z 9-11 4-6"

Rosettes of silver-green leaves produce vigorous offsets and yellow flowers. [72](#)

### 'Ruffles'

☀ 🌑 Z 9-11 4-12"

Smaller version of the popular frilled echeverias. Use in containers as a fabulous specimen. [72](#)

### agavoides 'Beauty'

☀ 🌑 Z 9-11 4-6"

Attractive gray-green rosettes on delicate, mounding plants. [72](#)

### cante 'White Shadow'

☀ 🌑 Z 9-11 6-12"

Beautiful, solitary rosettes of white leaves covered with a thick powdery whitish coating. Pink flowers appear in summer. [72](#)

### elegans "Mexican Snowball"

☀ 🌑 Z 9-11 6-8"

Tight rosettes of gray-green leaves form a groundcover in warm climates. Pink flowers with yellow accents in summer. [72](#)

### elegans 'Blue'

☀ 🌑 Z 9-11 6-8"

Soft blue form of "Mexican Snowball". [72](#)

### elegans 'Grey Red'

☀ 🌑 Z 9-11 6-8"

Mounding gray-green foliage has a dusty finish with red tips. [72](#)

## ECHEVERIA (Continued)

deranosa   Z 9-11 4-8"

Attractive, pale-green foliage with maroon tips and striking yellow flowers on long stalks. [72](#)

E. haagii **'Tolimanensis'**   Z 9-11 6-8"

Dark blue, fleshy, pointed leaves form elegant, flowerlike rosettes. [72](#)

nodulosa  Z 9-11 10-18"

Exquisite red markings define the interior and edges of each leaf. Pink flowers appear in fall. [72](#)

hybrid **'Perle Von Nurnberg'**   Z 9-11 6-10"

Thick, succulent leaves form tightly clustered rosettes of foliage. A top-selling variety. [72](#)

hybrid **'Afterglow'**   Z 9-11 10-14"

Gorgeous specimen has wide powdery lavender leaves with bright pink edging. Perfect for high-end succulent containers. [72](#)

hybrid **'Pulv-oliver'**   Z 9-11 8-12"

Clusters of hairy, light green leaves with red tips. Use in containers and in the landscape. Reddish-yellow flowers in summer. [72](#)

hybrid **'Rosea'**  Z 9-11 2-4"

Green succulent leaves with a pink margin beneath small yellow flowers in summer. [72](#)

hybrid **"Roundleaf"**  Z 9-11 4-6"

Thick, teardrop-shaped, succulent foliage in shades of gray, blue and green. Use as a temperate groundcover and in containers. [72](#)

parva   Z 5-11 3-6"

Rounded blue-grey leaves with dark pink flowers in early summer. Perfect for containers and in the landscape. [72](#)

runyonii **'Topsy Turvy'**   Z 9-11 6-8"

Fleshy blue-green leaves form elegant, flowerlike rosettes that give rise to thick stalks bearing vibrant yellow-orange flowers. [72](#)

---

## KALANCHOE

orgyalis **"Copper Spoons"** ☀️ Z 9-11 12-36"

Foliage folds upward and is coated with fine cinnamon-colored hairs on top. [72](#)

pumila **'Silver Gray'** ☀️ 🌑 Z 9-11 6-10"

Leaves are tinted with a dusty rose and have toothed margins at the tips. [72](#)

thrysiflora **"Flapjacks"** ☀️ Z 9-11 12-18"

Stunning bicolored foliage beneath flowers of red, pink, salmon, white, orange and yellow. [72](#)

tomentosa **"Panda Plant"** ☀️ 🌑 Z 9-11 12-14"

Thick blue-gray leaves glisten with a dense covering of white hairs and black edging. [72](#)

---

## LAMPRANTHUS

deltoides **"Pink Iceplant"** ☀️ Z 8-11 8-12"

Dazzling pink daisy-like flowers on silver foliage. Excellent groundcover. [102](#)

---

## MONANTHUS

subcrassican

**"Tiny Bush Jade"** ☀️ Z 5-11 4-6"

Dark green to almost black foliage forms small rosettes. [102](#)

---

## PACHYPHYTUM

hookeri ☀️ Z 9-11 6-8"

Elongated foliage is blue-green with rose-colored tips beneath dark pink flowers. [72](#)

---

## PORTULACARIA

afra **"Red Stem"** ☀️ Z 9-11 8-16"

Bold, attractive dark red stems on a miniature jade plant. [102](#)

afra **'Rainbow Bush'** ☀️ Z 9-11 6-16"

Variegated lime-green leaves on reddish-purple twisted branches. [102](#)

---

## ROSULARIA

**'White Rosularia'** ☀️ Z 9-11 4-6"

Small, mid-green rosette forming succulent. Excellent for rock gardens and dish gardens. [102](#)

---

## SEDUM

acre **'Aureum'** ☀️ Z 3-11 2-4"

Bright yellow flowers cover the carpet of yellow-green foliage. Very hardy groundcover. [102](#)

adolphi **'Golden Glow'** ☀️ Z 9-11 8-10"

Interesting translucent lime-green leaves with orange highlights. [72](#)

album **'Athoum'** ☀️ Z 4-11 6-8"

Pink flowers bloom in fall over mounds of green foliage with red tips. Tough little groundcover. [102](#)

album **'Coral Carpet'** ☀️ Z 4-11 2-4"

Reddish-purple mats of succulent foliage carpet the ground. [102](#)

angelicum **'Love's Triangle'** ☀️ Z 3-11 2-4"

Irresistible powder blue, pinhead-sized leaves each spring beneath pinkish-white flowers. [102](#)

carnicolor ☀️ 🌑 Z 9-11 8-12"

Silvery-green foliage tinged with pink on mounding plants. [72](#)

clavata ☀️ Z 9-11 4-6"

Frosted leaves tipped with pink in bright light form tight spirals as branches elongate, creating a thick rosette. [102](#)

dasyphyllum **'Major'** ☀️ Z 4-11 4"

Blue leaves form a tight groundcover with small white flowers in May to July. [102](#)

divergens **'Sunny Border'** ☀️ Z 3-11 2-4"

Native to the west coast, this popular selection has bright yellow flowers on green to bright red leaves. Perennial groundcover. [102](#)

hakonese **'Chocolate Ball'** ☀️ Z 9-11 2-4"

Sublime chocolate-colored, feathery foliage forms soft, low-growing mats. [102](#)

## SEDUM (Continued)

hispanicum **'Minus Pink Form'** ☀ Z 3-11 2"

A charming succulent with very small, silvery-gray foliage that develops into a low evergreen mat. [102](#)

humisifusum **'Tiny Urchin'** ☀ Z 3-11 2"

This durable, glossy Sedum looks like it belongs underwater among the corals. [102](#)

lineare **'Sea Urchin'** ☀ Z 7-11 2-4"

This exotic low-growing plant has narrow green leaves edged in white. [102](#)

makinoi **'Ogon'** ☀ Z 3-11 2"

Yellow-chartreuse foliage forms a beautiful golden mat. Perhaps the brightest of ground cover Sedums. [102](#)

makinoi **'Salsa Verde'** ☀ Z 7-11 3-6"

Mounded plants are filled with flat, rounded dark green leaves and small star-like flowers. [102](#)

mid. var. diffusum **'Irish Eyes'** ☀ Z 3-11 2"

Uniquely toothed foliage forms small rosettes unlike most succulents. Truly outstanding! [102](#)

nevii **'Pink Form'** ☀ Z 3-11 2"

Shield-shaped leaves turn dusky pink in cooler weather, creating unparalleled color. [102](#)

nussbaumerianum

**'Coppertone'** ☀ 🌑 Z 9-11 6-8"

Cylindrical foliage turns a magnificent copper color in the sun. [102](#)

pachyclados

**'Blue Rosette Mini'** ☀ Z 3-11 3"

Powder blue leaves are tightly packed on top of one another, forming an eye-catching rosette. [102](#)

pachyphyllum

**'Stonecrop'** ☀ Z 9-11 12"

Succulent blue-green upright foliage. Bright yellow star-shaped flowers. Excellent for the rock garden and in containers. [102](#)

reflexum **'Blue Spruce'** ☀ Z 4-11 4-6"

Attractive gray-green, pine-like foliage complements vibrant flowers. Easy to maintain. [102](#)

reflexum

**'Monstrosum Cristatum'** ☀ Z 4-11 6-8"

An unusual, attractive succulent with blue-needled leaves that pop out around stems, much like a Japanese fan. [72](#)

rubrotinctum

**'Pork and Beans'** ☀ Z 9-11 6-12"

An interesting plant with clusters of vivid green oval leaves that change to red and yellow under dry conditions. [102](#)

rupestre **'Angelina'** <sup>PPAF</sup> ☀ 🌑 Z 3-11 3-6"

Striking needle-shaped foliage of a brilliant golden-yellow color. Gold to bronze under winter conditions. [102](#)

rupestre **'Lemon Ball'** ☀ 🌑 Z 3-11 3-6"

Attractive spiky, yellow foliage compliments vibrant flowers. [102](#)

sieboldii **'Variegata'** ☀ Z 3-11 4-6"

Arching stems of spectacular green and yellow variegated foliage that turns pink around the edges in winter. [102](#)

spathulifolium

**'Cape Blanco'** ☀ 🌑 Z 9-11 6-8"

Tiny rosettes of silver leaves form an evergreen carpet. Brilliant flowers in summer. [102](#)

spurium **'Dragon's Blood'** ☀ Z 4-11 3-6"

Handsome bronzy-red foliage with clusters of vibrant rose-red flowers. [102](#)

spurium **'Tricolor'** ☀ Z 4-11 3-6"

Fleshy foliage is variegated pink and white and topped with rosy pink flowers in summer. [102](#)

tetractinum **'Coral Reef'** ☀ Z 5-11 6-8"

Succulent, shiny green leaves have rosy bronze tips and turn a lovely pink-bronze in the fall. [102](#)

## SUNSPARKLER™ Sedum

hybrid 'Cherry Tart' PPAF ☀ Z 4-11 4-6"

This new groundcover sedum has cherry-red leaves and masses of brilliant pink 5" flowerheads in late summer. Fast-growing. [102](#)

hybrid 'Dazzleberry' PPAF ☀ Z 4-11 6-8"

Giant bright raspberry flowerheads in summer into fall with contrasting smoky blue foliage. This new sedum is sure to be a hot seller. [102](#)

hybrid 'Lime Zinger' PPAF ☀ Z 4-11 4-6"

Groundcover sedum with petite, lime green leaves and cherry-red picotee edges. Perfect for combos and in the landscape. [102](#)

Sedum ewersii ☀ Z 5-11 3"

Rounded blue-grey leaves with dark pink flowers in early summer. Perfect for containers and in the landscape. [102](#)

## SEMPERVIVUM

arachnoideum 'Red Cobweb' ☀ Z 3-11 2-4"

Tight rosettes covered with tiny hairs resemble cobwebs. Attractive reddish-pink blooms appear in early summer. [102](#)

hybrid 'Black' ☀ Z 3-11 2-4"

Tips of long, fleshy green leaves appear to be have been dipped in purple dye, accenting the green center. [102](#)

hybrid 'Carmen' ☀ Z 3-11 2-4"

Striking rosettes. Tips turn red with age for a nice contrast. [102](#)

hybrid 'Cobweb Buttons' ☀ Z 5-11 2-4"

Striking evergreen foliage has a unique webbed appearance beneath flat clusters of rose-red flowers. [102](#)

hybrid 'Commander Hay' ☀ Z 3-11 2-4"

Vigorous plants with striking red and green foliage that creates an outstanding texture. [102](#)

hybrid 'Desert Bloom' ☀ Z 3-11 2-4"

Deep gray-green rosettes are highlighted by rosy red centers. [102](#)

## SEMPERVIVUM (Continued)

hybrid **'Royal Ruby'** ☀ Z 3-11 2-4"

Striking rosettes of deep purple-red evergreen foliage on vigorous plants. [102](#)

hybrid **'Ruby Heart'** ☀ Z 3-11 2-4"

Lovely emerald-green succulent leaves with deep red tips form open rosettes. [102](#)

hybrid **'Silver King'** ☀ Z 3-11 2-4"

A tapestry of foliage colors and textures for the garden. [102](#)

hybrid **'Silverine'** ☀ Z 3-11 2-4"

Large, pale silver-gray rosettes beneath flat clusters of deep pink flowers. [102](#)

hybrid **'Spring Beauty'** ☀ Z 3-11 2-4"

Striking evergreen foliage on vigorous plants forms small gray-green rosettes. [102](#)

tectorum **'Sunset'** ☀ Z 3-11 2-4"

Evergreen succulent features attractive green basal rosettes with red tips. Foliage develops a red-orange color in cool temperatures. [102](#)

---

## SENECIO

jacobsonii **'Trailing Jade'** ☀ Z 10-11 12-18"

Beautiful trailing succulent with round, lighter-green leaves with purple edges. Great in baskets. Yellow-orange flowers in winter. [72](#)

mandraliscae **'Blue Chalk'** ☀ Z 10-11 12-18"

Dense, thick, blue-green leaves give a fascinating texture to plantings. [102](#)

vitalis **'Blue Pencil'** ☀ Z 10-11 6-12"

Shrublike fleshy plant has long, narrow, finger-like bluish leaves. [72](#)

---

## YUCCA

**'Color Guard'** ☀ Z 5-11 48"

Gold leaves edged with green. [72](#)

---

## mixed 72-trays

**Echeveria Mix** ☀ Z 9-11 4-15"

Great assortment for 6" pots, combos and landscape.

## Mixed Succulents

Great assortment of 6 larger succulent varieties on availability, such as Crassula, Aeonium, Senecio and Kalanchoe for 6" pots, 1-gallon pots, combos and landscape.

---

## mixed 102-trays

**Delosperma Mix** ☀ Z 3-11 4-12"

Great assortment for combo pots or landscape.

**Sedum Mix** ☀ Z 3-11 2-36"

Good assortment for 6" pots, combos or landscape.

**Sempervivum Mix** ☀ Z 3-11 2-4"

Assortment great for 4" pots or combos and works well for vertical wall plantings.

## Mixed Succulents

Good mix of six succulent varieties on availability for 4" pots, combos and landscape.

## BESCHORNERIA

yuccoides 'Flamingo Glow' ☀️ 🌑 Z 8-11 48-72"

Grown for its striking foliage. Flower spikes emerge mid-spring with large pink bracts. Excellent upright specimen in mixed containers. [72](#)

BESCHORNERIA Flamingo Glow

CORDYLINE Red Sensation

## CORDYLINE australis

'Red Sensation' ☀️ 🌑 Z 8-11 8-12'

This showy plant has a clumping habit and long, bronze-red leaves. Use in large containers and landscape plantings. [72](#)

'Red Star' ☀️ 🌑 Z 8-11 10-20'

This showy and vigorous plant has very dark red, sword-like leaves. Upright habit and with age will branch to produce several heads. [72](#)

'Torbay Dazzler' PPAF ☀️ 🌑 Z 8-11 6-10'

Produces several heads of green strap leaves with variable stripes of yellow, cream, green and pink hues. An attractive selection from Torbay Palm Farm and was awarded a Royal Horticultural Society Award of Garden Merit. [72](#)

CORDYLINE Red Star

CORDYLINE Torbay Dazzler

## GARDEN DANCER™ CORDYLINE australis

'Can Can' PPAF ☀️ 🌑 Z 8-11 2-6'

Stunning new clump-forming Cordyline is perfect for containers. The foliage color sets this variety apart from all other Cordyline with bright variegation of pink on red on new growth. As foliage matures the variegation changes to cream on green. [72](#)

'Cha Cha' PPAF ☀️ 🌑 Z 8-11 2-6'

A new clumping form with a nice variegation of apricot on brown. As foliage matures, the variegation changes to yellow on green. Ideal specimen in containers and garden. [72](#)

'Jive' PPAF ☀️ 🌑 Z 8-11 8-12'

A new upright Cordyline in our Kia Ora Flora Collection with stunning foliage of yellow on lime green. [72](#)

'Samba' PPAF ☀️ 🌑 Z 8-11 8-12'

A new upright Cordyline with stunning pink and red foliage. Over time, this upright variety will form a solid trunk. Suitable for landscapes and containers. [72](#)

FARGESIA sp. 'Scabrida'

PHYLLOSTACHYS nigra  
'Black Bamboo'

## BAMBOO from Tissue Culture

Our hardy bamboo program has been designed to introduce some of the most desirable bamboo varieties that are not aggressive to non-specialist growers. Our select varieties, grown in a premium plug size, are designed to be potted in summer and finished in a cool greenhouse over winter. In spring, the plants will have filled out a 1-2 gallon pot and will fetch a premium price.

### BAMBUSA

oldhamii

Z 9-11 50'

Reaching heights of over 50' with canes from 2-4" in diameter, this clumping bamboo is one of the most impressive to behold. With a very upright habit and large masses of emerald-green leaves held on compact branches, it's well-suited to hotter areas of the US. New canes emerge with a blue-grey covering and mature to a deep-forest green color. [32](#)

### CHUSQUEA

gigantea

Z 7-11 20'

A superb, hardy, clumping form that has long been grown in the UK but is still relatively new to the US. Mature plants look like giant feather plumes, and with their upright canes that are gently weeping at the top, they are a very elegant choice for the garden. Unlike other bamboo varieties, these canes are solid wood. Native to southern Chile, this plant makes a perfect specimen or hedge in the garden. [32](#)

### FARGESIA

dracocephala 'Rufa'

Z 5-11 10'

Originating from the Sichuan Province of China, this hardy bamboo has beautiful, orange-red culm sheaths that add a glow and warmth to the landscape. This new clumping selection is perfect for smaller gardens and spaces. Shoot production is prolific, making this a great retail plant. [32](#)

sp. 'Scabrida'

Z 6-11 10-20'

Collected in the North Sichuan Province of China in the late '90s and sent to the Netherlands, this variety soon began to develop a following. With average canes 3/4" in diameter and prolific shooting periods, the variety was perfect for nursery production. Culm sheaths have a wonderful, red-orange color that is set off against the dark green of the emerging canes. With long, elegant leaves, the plant has a more open and light appearance. Since it's relatively new, no final determinations have been made about mature height, but a clump in the Netherlands reached 14' in just 3 years. [32](#)

### PHYLLOSTACHYS

nigra 'Black Bamboo'

Z 7-11 20'

Black Bamboo is a very graceful timber bamboo with a beautiful black cane. Emerging green, the canes transition to black within 1-2 years depending on conditions. The combination of graceful foliage and dramatic cane coloration makes this an excellent choice for a range of uses. A premium product at retail – our plants from TC present a much more attractive pot than production by division. [32](#)

---

## ANEMANTHELE

lessoniana **'Sirocco'** ☀️ Z 8-11 12-14"

This delightful annual grass adds movement and texture to a wide range of settings. Color turns to shades of copper and pink under cool conditions. 4-6" pot production. [128](#), [288](#)

---

## CAREX

buchananii **'Firefox'** ☀️ 🌑 Z 5-11 12-18"

Intensive fox brown to reddish foliage with an upright habit. [128](#), [288](#)

buchananii **'Red Rooster'** ☀️ 🌑 Z 7-11 12-18"  
Red-bronze grass has curled tips and an upright habit. [128](#), [288](#)

comans **'Amazon Mist'** ☀️ 🌑 Z 7-11 8-10"

Variegated light- to medium-green grass has twisting tips and an arching habit. [128](#), [288](#)

comans **'Bronco'** ☀️ 🌑 Z 7-11 8-10"

This bronze variety has an arching habit, making it a gorgeous container specimen. [128](#), [288](#)

comans **'Frosted Curls'** ☀️ 🌑 Z 6-11 8-10"

Striking silvery foliage forms dense clumps. Excellent in mixed containers. [128](#), [288](#)

flagellifera **'Bronzita'** ☀️ 🌑 Z 6-10 12-14"

Widely arching clumps of bronze-red leaves. [128](#), [288](#)

flagellifera **'Cinnamon'** ☀️ 🌑 Z 8-11 12-14"

This New Zealand native has showy copper-red foliage. Will form 3' mounds in ideal conditions. [128](#)

testecea **'Coppertop'** ☀️ 🌑 Z 6-11 12-16"

Intensive orange-brown clumps make this a very attractive specimen. [128](#), [288](#)

---

## CORYNEPHORUS

canescens **'Spiky Blue'** ☀️ Z 5-11 8-10"

Compact spiky tufts of blue-green foliage mature to reddish green. [128](#), [288](#)

---

## CYPERUS

alternifolia **'Wild Spike'** ☀️ 🌑 Z 9-11 36-48"

Narrow green fronds with an upright and cascading, informal habit. Works well in mixed containers and as an aquatic plant. [128](#), [288](#)

---

## ERAGROSTIS

elliottii **'Wind Dancer'** ☀️ Z 6-11 24-36"

Commonly known as Love Grass, with narrow, bluish-green foliage and airy flower plumes in summer. Drought-tolerant and native to North America. [128](#), [288](#)

---

## FESTUCA

glauca **'Blue Select'** ☀️ 🌑 Z 7-11 8-10"

Blue-green clumps make this a popular landscape variety. [128](#), [288](#)

glauca **'Festina'** ☀️ 🌑 Z 4-11 8-10"  
Very cold-hardy variety with dense, compact tufts of blue-green. [128](#), [288](#), [512](#)

---

## ISOLEPSIS

cernua **'Live Wire'** ☀️ 🌑 Z 9-11 6-8"

Unique annual grass-like plant, ideal for adding texture to mixed containers. [128](#), [288](#)

---

## JUNCUS

effusus spiralis  
**'Twisted Arrows Mix'** ☀️ 🌑 Z 5-11 18-36"

Combines Blue Arrows and Curly Juncus for a high-impact mix of color and textures. Ideal for mixed containers. [128](#), [288](#)

effusus spiralis **'Twister'** ☀️ 🌑 Z 5-11 18-36"  
Curly green foliage with an upright habit. Easy to grow and thrives in wet conditions. [128](#), [288](#)

inflexus **'Blue Arrows'** ☀️ 🌑 Z 5-11 24-36"

Foliage is blue-green in color and strands are stiff and upright. Well-suited to bedding and mixed containers. In the garden it will do well in wet areas, but is also drought-tolerant once established in the ground. [128](#), [288](#)

pallidus **'Javelin'** ☀️ 🌑 Z 7-11 36-48"

An excellent thriller for mixed containers – this tall and stately green grass makes a dramatic statement. [128](#), [288](#)

tenuis **'Blue Dart'** ☀️ 🌑 Z 6-11 12-16"

Linear blue foliage creates texture to small containers and in-ground plantings. Low maintenance and very adaptable. [128](#), [288](#)

## KOELERIA

glauca **'Coolio'** ☀️ 🌑 Z 6-11 6-20"

This upright, perennial blue-green grass is ideal for dry locations. [128](#), [288](#)

---

## MELINIS

neviglumis **'Savannah'** ☀️ 🌑 Annual 12-16"

Blue-green grass matures to purple-red in fall. Small, tight mounded habit with silky pink flowers in summer. [128](#), [288](#)

---

## MILIUM

effusum **'Flashlights'** 🌑 Z 6-11 18-24"

Bright golden-yellow grass with upright habit. Eye-catching selection for borders and planters. Best color in spring. [128](#), [288](#)

---

## PENNISETUM

glaucum **'Purple Majesty F1'** ☀️ 🌑 Annual 4-5"

Accent plant with deep purple foliage, stems and flower plumes. A striking backdrop plant and excellent choice for mass plantings and large mixed containers. Also sold as "Ornamental Millet." [128](#), [288](#)

setaceum

**'Cherry Sparkler'** PP22538 ☀️ 🌑 Z 9-11 36-40"

The newest sibling of 'Fireworks' and 'Sky Rocket.' Foliage is green and cream variegated and is overlaid with a soft pink blush. Cooler temperatures increase pink tones. Burgundy plumes stand above the foliage to a height of 36-40". Spread to 36". Generous water and fertility keep this grass popping. [72](#)

setaceum **'Fireworks'** ☀️ 🌑 Z 6-11 12-16"

Fireworks is the first variegated purple fountain grass. The midvein is the typical burgundy color and is flanked by hot pink margins. [72](#)

setaceum **'Red Riding Hood'** ☀️ 🌑 Z 6-11 12-16"

This dwarf purple fountain grass is perfect for containers as an accent or in the landscape. [72](#)

## PENNISETUM (Continued)

setaceum 'P. rueppellii' ☀️ 🌑 Z 9-11 36-48"

Tinged deep burgundy-purple throughout, bears pendulous panicles. [128](#), [288](#)

setaceum 'Rubrum' ☀️ Z 9-11 36-48"

Popular for its red foliage and showy burgundy flowers from early summer to frost. [72](#)

setaceum 'Sky Rocket' PP21497 ☀️ 🌑 Z 6-11 12-16"

No annual grass has such bright white and green variegation. White plumes are blushed with burgundy. Large stature makes a statement in the garden. Ht 4' spread 3'. Generous water and fertility keep this grass popping. [128](#), [288](#)

## SESLERIA

caerulea "Blue Moor Grass" 🌑 ● Z 5-11 12-16"

This cool-season grass has leaves that are dark on top, and bluish-gray underneath. Flowers are purple and turn gold. Use in mass plantings, filler and edging. Does well in light shade. [128](#), [288](#)

## STIPA

lessingiana 'Capriccio' ☀️ Z 9-11 14-16"

Wispy, fine-textured green grass adds a soft touch to in-ground and mixed container plantings. Heat- and drought-tolerant Capriccio is useful for landscapes, bedding, mixed containers and baskets. [128](#), [288](#)

tenuissima 'Ponytails' ☀️ Z 7-11 4-5'

Light green foliage with silky leaves that look like flowing blonde hairs that go from silky green to gold as it matures. Plant is very full and does well in landscape backgrounds or along drier areas. [128](#), [288](#)

## ZEA

mays 'Field of Dreams' ☀️ Annual 4-5'

Eye-catching variety has strong white stripes running through wide, wavy, pink-tinged green leaves. More compact and branched than others of this type. [128](#)

[ 73° and sunny ]

Clear skies and warm temperatures by day, afternoons and nights cooled by light ocean breezes. The highest light levels in North America. It's another perfect day in Vista, California. And the ideal climate in which to grow young plants.

Established in 1987, Plug Connection was the West Coast's first ornamental young plant specialist. Today we are one of the largest liner and plug producers in the country. Whatever your company's size or location, we have the products, programs, services and flexibility that will increase your profits.

350,000+ sq. ft. greenhouse space. Our finishing houses (stages three and four) have roll-up roofs and drop-down side walls that dissipate heat and humidity during the day.

Shorter finish times, faster turns, year-round availability. Toned and hardened by the sun and the cool breezes blowing off the Pacific Ocean, our liners and plugs are exceptionally compact and vigorous.

### **TAKE A TOUR**

Regardless if you are coming to see our team, our facilities or simply get your Buddy fix – visitors are always welcome at Plug Connection. Located in the coastal foothills of the Santa Ana Mountains, our facilities are just seven miles from the ocean and 30 miles north of San Diego. To schedule a visit, contact 760.631.0992 or email [info@plugconnection.com](mailto:info@plugconnection.com).
