### Symbol Key:

-  Plants not listed in the previous years catalog.
-  Native to Ohio or adjacent states including selections and hybrids of plants indigenous thereto.
-  Attracts brightly colored butterflies (Of course, not attractive to baby butterflies)
-  Attracts or feeds animals and/or song birds
-  Hummingbird nectar source
-  Deer resistant (we're not claiming deer proof; if they're hungry enough, they'll eat anything)
-  Good for cut flowers or foliage
-  Fragrant foliage and/or flowers
-  Part or all of this plant is poisonous

*The people who make it all happen:*

### Our Customers

Thank you for choosing us to supply your perennial material. If not for you, we would sadly be working for our competition.

## New Plants for 2019

These are plants that haven't been listed before. We either trialed a small number of the selection and are confident in our ability to provide a quality product, or we grow a related cultivar and want to give you more choices. We have selected many of these new plants due to your requests. Thank you!

Coreopsis 'Sangrita Swirl'

Aquilegia 'Sunshine'

Geum 'Sangria'

M. 'Bee-Free'

M. 'Bee-Happy'

Heuchera 'Orange Dream'

### Perennials

Achillea millefolium 'Layla'  
 Achillea New Vintage Red  
 Achillea New Vintage Rose  
 Achillea New Vintage Violet  
 Alcea rosea annua  
     'Spring Celebrities Crimson'  
 Alcea rosea annua  
     'Spring Celebrities Mix'  
 Aquilegia 'Bluebird'  
 Aquilegia 'Cardinal'  
 Aquilegia 'Sunshine'  
 Aquilegia 'Mix'  
 Campanula glomerata 'Superba'  
 Coreopsis verticillata  
     'Crazy Cayenne'  
 Coreopsis verticillata 'Curry Up'  
 Coreopsis verticillata 'Hot Paprika'  
 Coreopsis 'Ladybird'  
 Coreopsis 'Peach Sparkle'  
 Coreopsis 'Razzle Dazzle'  
 Coreopsis 'Sangrita Swirl'  
 Coreopsis 'Starstruck'  
 Crocosmia 'Emily McKenzie'  
 Dianthus Romance  
 Digitalis trojana

### Perennials (continued)

Echinacea purpurea  
     'Magnus Superior'  
 Echinacea Sombrero  
     Lemon Yellow Improved  
 Geum 'Sangria'  
 Helianthus salicifolius 'Autumn Gold'  
 Heuchera 'Orange Dream'  
 Hosta 'Golden Meadows'  
 Lavandula angustifolia  
     Big Time Blue  
 Lavandula x intermedia Phenomenal  
 Lobelia siphilitica 'Blue Selection'  
 Monarda 'Bee-Free'  
 Monarda 'Bee-Happy'  
 Penstemon 'Blackbeard'  
 Penstemon 'Cherry Sparks'  
 Phlox paniculata  
     Goldmine Improved  
 Physostegia virginiana  
     'Autumn Carnival'  
 Salvia guarantica 'Black and Blue'  
 Solidago Crown of Rays  
 Stokesia laevis 'Divinity'  
 Vernonia 'Southern Cross'  
 Veronica First Match  
 Veronica 'Royal Rembrandt'

## Back by Popular Demand

The following plants are being returned to our line up for 2019.

### Perennials

Achillea 'Moonshine'  
 Ceratostigma plumbaginoides  
 Digitalis purpurea 'Pam's Choice'  
 Lespedeza 'Gibraltar'

### Perennials (Continued)

Monarda didyma 'Fireball'  
 Penstemon schmidel  
     'Red Riding Hood'  
 Verbascum 'Southern Charm'

P. 'Cherry Sparks'

C. 'Curry Up'

V. 'Royal Rembrandt'

## Trial Plants for 2019

These are plants we are testing in small numbers, paying close attention to vigor, disease resistance, and performance in the nursery. But most importantly: do the plants do what "they" claim they do. These plants will not be listed in the catalog. If they meet our standards, they will become available for sale and possibly added to our crop schedule for 2020.

### Perennials

Achillea 'Moondust'  
 Achillea 'Sassy Summer Lemon'  
 Agastache 'Morello'  
 Agastache 'Poquito Butter Yellow'  
 Brunnera 'Sterling Silver'  
 Buddleia 'Dark Dynasty'  
 Buddleia 'Pink Cascade'  
 Buddleia 'Queen of Hearts'  
 Campanula glomerata  
     'Genti Twisterbell'  
 Campanula latifolia 'Alba'  
 Caryopteris Grand Blue  
 Chelone 'Tiny Tortuga'  
 Coreopsis verticillata 'Red Hot Vanilla'  
 Coreopsis 'Super Star'  
 Coreopsis 'Sweet Tart'  
 Dianthus Burgundy Blush  
 Dianthus Lilac Eye  
 Echinacea purpurea 'Baby Swan Pink'  
 Echinacea 'Cara Mia Yellow'  
 Echinacea 'Delicious Candy'  
 Echinacea Kismet Intense Orange  
 Echinacea Kismet Raspberry  
 Echinacea Kismet Red  
 Echinacea 'Mellow Yellows'  
 Echinacea 'Parrot'  
 Echinacea 'Prima Ginger'  
 Echinacea purpurea 'Ruby Star'  
 Echinacea Sombrero Granada Gold  
 Echinacea Sombrero Sangrita  
 Echinacea Sombrero Tres Amigos  
 Echinacea 'Sweet Chili'  
 Echinacea 'Yellow Rainbow Marcella'  
 Gaillardia Sunset 'Cutie'  
 Gaillardia Sunset 'Snappy'  
 Geum 'Pretticoats Peach'  
 Heliopsis helianthoides  
     'Double Sunstruck'  
 Heliopsis helianthoides Tuscan Gold  
 Hibiscus x 'Cordon Bleu'  
 Hibiscus x 'Grape Sorbet'

### Perennials (continued)

Heuchera 'Carmencita'  
 Heuchera 'Guacamole'  
 Heuchera 'Lemon Supreme'  
 Heuchera 'Magma'  
 Heuchera Northern Exposure Red  
 Heuchera 'Pink Panther'  
 Heuchera 'Red Sea'  
 Heucherella 'Catching Fire'  
 Hosta 'Christmas Candy'  
 Hosta 'Christmas Island'  
 Lavandula angustifolia Super Blue  
 Leucanthemum 'Angel Double'  
 Leucanthemum 'Luna'  
 Leucanthemum 'Real Sunbeam'

Leucanthemum  
'Luna'

Scabiosa  
'Summer Nights'

Geum Pretticoats  
Peach

Hibiscus 'Grape Sorbet'

# Terms and Conditions of Sale

Issued January 1<sup>st</sup>, 2019

This is a wholesale price list only.

This catalog cancels all previous quotations.

## PRODUCT AVAILABILITY:

Plants listed will be available for the 2019 season; however, not all of the plants listed will all be available at all times. Please call ahead or check our website to confirm availability.

## DELIVERY:

All delivery of nursery stock is conducted in our vehicles by a member of our staff. Our driver will provide assistance with unloading; however, customers are requested to provide sufficient help to expedite it.

## GENERAL DELIVERY SCHEDULE:

**Tuesday & Wednesday** - Central Ohio; orders should be placed no later than Monday at noon

**Thursday** - Southeast Ohio (Cincy, Dayton, etc); orders should be placed by Tuesday, 5 pm

**Friday** - Northern Ohio/Southern Michigan, Indianapolis, and Chicago; orders should be placed by Wednesday, 5pm

## FREIGHT CHARGES:

	Distance from SGI	Minimum or Rate Charge	Minimum Quantity
Area 1	0-14 miles	\$35.00 or 3.5% of invoice	100 plants
Area 2	15-39 miles	\$50.00 or 4.5% of invoice	100 plants
Area 3	40-69 miles	\$60.00 or 6% of invoice	125 plants
Area 4	70-99 miles	\$90.00 or 6.5% of invoice	125 plants
Area 5	100-149 miles	\$110.00 or 7% of invoice	150 plants
Area 6	150-249 miles	\$150.00 or 8% of invoice	150 plants
Area 7	250-449miles	\$175.00 or 8% of invoice	200 plants

For all other areas please call for a freight quote.

Freight Charges are subject to change without notice based on the fluctuating conditions of the current market.

## TERMS:

Net 30 days on approved credit. All new accounts are paid in cash or credit card. We will not accept personal checks from new customers until credit is approved. Past due accounts will be assessed a 4% service charge per month.

*Thank you Growing Colors, Terra Nova Nursery, and Walters Gardens for the use of your photographs!*

## GUARANTEE:

We guarantee our plants to be healthy, and to the best of our knowledge, true to name. We will replace or refund the price paid for any plants that prove to be otherwise. It is agreed that the original price paid shall be the maximum damages to which the purchaser is entitled. We will not be held responsible for any other expenses, losses, or inconveniences which the purchaser may sustain as a result thereof. Legal jargon aside, if you are not satisfied with our products, we appreciate knowing just that. Please allow us the opportunity to fix it.

## RETAIL PRICING and BAR CODES:

We offer retail pricing of material with or without a bar code and SKU. Please call for more details. Taking advantage of this service during the winter months can save a lot of time pricing during the season. Every year we hear, "Oh, if I only knew of that earlier." Let us make your life a little bit easier. There is a \$125 annual set-up fee for all labels with pricing, UPC, sku's, etc. Any pricing received after April 15th will be subject to a late fee of an additional \$100.

## LOCATION:

We are located at 7520 Home Rd., Delaware, Ohio; west of the Scioto River, between Rt. 745 and Jerome Rd. in southern Delaware County. (See map on page iv) Plan to visit us anytime you are in the area.

## HOURS:

### March – November

Monday – Friday 8:00 am – 5:00 pm  
Saturday Closed

**April – July:** We are probably working but call ahead to be sure. Arrangements can be made for someone to be there.

Sunday Closed

### December - February

Closed for the winter but please call if you have any questions. Again, arrangements can be made for someone to be there.

## LABELS AND SIGNAGE:

Every plant that leaves our nursery receives a full color adhesive label complete with locally specific horticultural data. Because we generate our labels in house, they can include your logo, retail prices, bar codes, SKUs, and much more. Our labels can be quickly modified to accommodate your preferences. If you would like additional labels with your order(s) to use for signage, let us know. They will be provided for free.

We also have 3.25" x 8", full color, theme specific labels (edible, natives, butterfly, hummingbird, deer resistant, etc). By providing these larger, showier labels to be used on an endcap or themed display, we hope to enhance your marketing efforts.

2" x 3.5" Label, used on all 4" pots

**Hideout Hosta**  
*Hosta 'Hideout'*

This miniature hosta boasts slightly twisted, green leaves with a bright white center. A striking specimen for the front of the border or container garden. Pale purple flowers from mid to late July. (Mini; < 5" tall)

**\$12.99**  
4" (1.05ml)

Your Garden Center  
123 Perennial Lane, Blooming, OH 43123  
740-881-6147

Grown in Ohio by:  Wholesale Nursery Delaware, Ohio 43015

3.25" x 8" Themed Endcap Labels

Your Garden Center  
123 Perennial Lane, Blooming, OH 43123  
740-881-6147

**Ohio Native**

Full Sun    Attracts Butterflies    Good Cut Flower    Grows in Tip

**Cheyenne Spirit Coneflower**  
*Echinacea 'Cheyenne Spirit'*

- A 22-30" tall perennial, native to the Midwest
- Full sun to part shade, drought resistant
- First time such a range of color from seed
- Care free, doesn't even need dead heading

Cheyenne Spirit is a new seed selection. This means the flower color will vary plant to plant, from rich shades of toasty red, golden yellow, near-fluorescent orange, magenta, and even a stray white here and there. Cheyenne Spirit blooms from June to September. Though the height of each color varies slightly, they are all very well-branched, bushy plants. No expect the seedlings to continue to produce mixed colors. Most other echinaceas will re-seed purple no matter the color of their parent.

Grown in Ohio by:  Wholesale Nursery Delaware, Ohio 43015

**\$16.99**

Grown in Ohio by:  Wholesale Nursery Delaware, Ohio 43015

4" x 3.3" Label, used on 1 gallons and larger

Your Garden Center  
123 Perennial Lane, Blooming, OH 43123  
740-881-6147

**Deer Resistant Plant**

Part Shade    Deer Resistant    Water Tolerant    Grows in Tip

**Japanese Beech Fern**  
*Thelypteris decursive-pinnata*

- Dark green fronds
- 12-24" tall by 12-18" wide
- Easily grown and multiplied

This is a tidy spreading groundcover fern native to eastern and southeastern Asia but closely related to our native Beech Ferns. Plants form spreading clumps of upright dark-green fronds, forming a neat mound that is ideal for the front of a moist, shady border. Does not spread rapidly but can be sped up by dividing and replanting.

**Stained Glass Hosta**

Full Shade    Attracts Hummingbirds    Good Cut Flower    Grows in Tip

**Georgia Plum Coral Bells**  
*Hemerocallis 'Georgia Plum'*

- A 7" tall perennial
- Purple pink flowers bloom spring to fall
- Tolerant of heat and humidity
- Part shade, drought resistant

Georgia Plum is an eye-catching new form of H. 'Georgia Peach'. This new selection from Terra Nova is tough, with amazing year round rose purple leaves, pink to silver overlying and purple pink flowers. Georgia Plum has a tighter habit with smaller leaves and shorter flowers than H. 'Georgia Peach' giving it a cleaner appearance in the landscape. Easy to grow and care free, coral bells thrive in low-water zones with good drainage.

**Gold Heart Bleeding Heart**

Part Shade    Good Cut Flower    Deer Resistant

**Gold Heart Bleeding Heart**  
*Dicentra spectabilis 'Gold Heart'*

- Bright chartreuse & gold foliage
- Weeping stems hold pink blooms
- Goes dormant in hot dry summers

A charming plant to highlight the shade garden, Gold Heart Bleeding Heart is a show-stopper with its bright gold foliage and pink and white blooms held above the foliage on arched stems from April to July. This plants only downfall is that it will go dormant in July in hot, dry summers. Long life as a cut flower. Reaches 18-20" tall.

**Grand Parade™ Bee Balm**

Full Shade    Attracts Hummingbirds    Good Cut Flower    Grows in Tip

**Stained Glass Hosta**  
*Hosta 'Stained Glass'*

- A 22" tall perennial
- Intense yellow leaves with green margins
- Thick textured, good slug resistance
- Grow in bright shade for best color

The aristocrat of the shade garden, Hostas contribute form, color and texture. Stained Glass is an outstanding sport of Hosta 'Guacamole' that has incredibly bright yellow leaves with rich green margins. The color intensifies as the season progresses. Fragrant white flowers in July and August. A fantastic Hosta for use as either a specimen or mass planting.

**Grand Parade™ Bee Balm**

Part Shade    Deer Resistant    Attracts Hummingbirds    Grows in Tip

**Grand Parade™ Bee Balm**  
*Monarda didyma Grand Parade™ (H. Trade) pp# 24,950*

- Annual propagation prohibited without license
- Tender-purple flowers top a fuzzy, compact plant
- Attracts butterflies and hummingbirds
- Deer resistant, mildly scented foliage
- Compact, 15-16" tall perennial for part shade

Grand Parade™ is a wonderful, compact selection of Scaberr producing a profusion of bright lavender-purple leaves in summer that attract butterflies and hummingbirds to the garden. The fuzzy, aromatic foliage smells like mint when crushed and can be used to flavor tea. Deer, however find the leaves distasteful! This variety is very resistant to powdery mildew but still should be grown in part sun with good aeration and moist garden soil.

## PERENNIALS

### Achillea millefolium 'Layla'

Height: 20"

Exposure: full sun

Layla Yarrow

Layla, part of the Song Siren Series, produces airy clusters of flat topped pink flowers that hold their color, blooming from June to August. It will perform well in almost any soil with good drainage. If plants begin to look scraggly, trim back hard after the first blooms fade to regrow and rebloom the plant.

Achillea 'Layla'

True 1 gallon (1-14) \$5.00 (15+) \$4.70

### Achillea millefolium Little Moonshine ('ACBZ0002')

pp# 28,179

Little Moonshine Yarrow

Height: 12-14"

Exposure: full sun

Introduced by Blooms of Bressingham®, Little Moonshine features bright, golden yellow flowers. The gray-green foliage is fuzzy and astringent, making it very distasteful to deer and rabbits. A new, compact version of the original Moonshine Yarrow and a great xeric plant once established.

Achillea Little Moonshine

True 1 gallon (1-14) \$5.00 (15+) \$4.70

### Achillea New Vintage Series

Height: 12-14"

Exposure: sun

New Vintage Achillea

Bred by Darwin Perennials, the New Vintage series features tidy, compact plants with no gap between the foliage and flowers. Blooming in early summer, they also re-flower very well with dead-heading.

New Vintage Red ('Balvinred') - antique red flowers with creamy white eyes

pp# 25,618

New Vintage Rose ('Balvinrose') - dense, rose pink flower clusters

pp# 25,712

New Vintage Violet ('Balviolet') - violet-red flowers with cream eyes

pp# 25,750

New Vintage Red New Vintage Rose

True 1 gallon (1-14) \$5.00 (15+) \$4.70

Achillea New Vintage Violet

### Achillea millefolium 'Pink Grapefruit'

pp# 20,741

Pink Grapefruit Yarrow

Height: 24"

Exposure: full sun

Pink Grapefruit was selected for its uniform, large, pink blooms and sturdy growth habit. Flowering begins in early summer and continues for weeks. With deadheading, light re-blooming may occur. Site in full sun and moist, well-drained soil for best growth. From Blooms of Bressingham®.

Achillea 'Pink Grapefruit'

True 1 gallon (1-14) \$5.00 (15+) \$4.70

Achillea 'Strawberry Seduction'

*Achillea millefolium* 'Strawberry Seduction'

pp# 18,401

Strawberry Seduction Yarrow

Height: 24"

Exposure: full sun

Strawberry Seduction has large flowers that open strawberry red, maturing to buff yellow on strong, sturdy stems that don't flop over. Flowering begins in early summer, continuing for weeks. Deadheading will enhance appearance and encourage more buds to form. Site in full sun and moist, well-drained soil for best growth. From Blooms of Bressingham®

True 1 gallon (1-14) \$5.00 (15+) \$4.70

Aconitum 'Arendsii'

*Aconitum carmichaelii* 'Arendsii'

Autumn-flowering Monkshood

Height: 36-48"

Exposure: sun

This hybrid monkshood features dense panicles of hooded, deep azure blue flowers in fall atop thick, rigid, leafy stems. Arendsii stems are unusually thick and do not need support. Flowering in September, they combine well with fall blooming Anemones. All parts of this plant are poisonous.

True 1 gallon (1-14) \$7.00 (15+) \$6.70

Acorus 'Ogon'

*Acorus gramineus* 'Ogon'

Golden Variegated Sweet Flag

Height: 6-12"

Exposure: full sun

Native to wetlands of eastern Asia, Acorus is a marginal aquatic perennial that features grass-like, linear leaf blades that fan outward. Tufts will slowly spread over time by rhizomes to form a dense groundcover. Plants thrive in wet soils and dry spells may cause leaf tips to brown. Tiny, yellow-green flowers bloom from late spring to early summer. When pinched or bruised, its leaves emit a fresh citrus scent. Ogon is a dwarf variety with variegated leaf blades striped in yellow and green.

Squat 1 gallon (1-14) \$4.50 (15+) \$4.20

Agastache 'Blue Boa'

*Agastache* 'Blue Boa'

Blue Boa Hyssop

pp# 24,050

Height: 24"

Exposure: full sun

Deep violet-blue flower spikes are held above bright green foliage. The flower spikes are long, wide, and extremely showy. In full sun and well-drained soil, they happily shrug off summer heat and early frosts. However, Agastache are very susceptible to root rot during winter and require sharp drainage for over wintering success. Reblooms all summer with dead-heading.

True 1 gallon (1-14) \$5.50 (15+) \$5.20

Agastache 'Purple Haze'

*Agastache* 'Purple Haze'

Purple Haze Hyssop

Height: 36"

Exposure: full sun

Purple Haze is a shrubby looking Agastache with shiny green, licorice-scented foliage that produces long spikes of smoky violet-blue flowers from early summer until September. Flowers are a darker blue than A. 'Blue Fortune' due to the black calyxes. The leaf petioles and stems will pick up a purple color with cooler fall temperatures. The stems hold up well into the winter giving several more months of interest. Agastache are very susceptible to root rot during winter and require sharp drainage for over wintering success. Reblooms all summer if dead-headed regularly.

True 1 gallon (1-14) \$5.50 (15+) \$5.20

*Ajuga reptans*

Height: 4-6"

Exposure: part-full shade

Bugleweed

*Ajuga* forms a dense mat of foliage, up to 6" tall, that always looks neat and fresh. In many cases, the leaves are colored with shades of purple, white, silver, cream, or pink. Individual plants grow as a rosette, but they intertwine to form a solid carpet that withstands light foot traffic. Flower spikes adorn plants from late spring to early summer. *Ajuga* is a great ground-cover for part to full shade.

'Burgundy Glow' - features tricolored foliage (white, pink and green) and blue flowers on 6" spikes in late spring

'Pink Lightning' - soft, mint-green leaves with a distinct creamy white edge; bubblegum pink flower spikes bloom in early May. A sport of A. 'Purple Torch' discovered and introduced by Sunny Border Nursery.

4" \$2.50

Sold in flats of 8

'Burgundy Glow'

'Pink Lightning'

Alcea 'Spring Celebrities Crimson'

*Alcea rosea annua* Spring Celebrities

Height: 24-30"

Exposure: sun

Hollyhock

These *Alcea* are bred for today's smaller gardens. Plants only reach 24-30" tall, and stiff stems hold the flowers upright with no need for staking. A biennial, be sure to let the plants set seed every year to allow new seedlings to emerge in the spring.

'Spring Celebrities Crimson' - large, double red flowers

'Spring Celebrities Mix' - large semi-double and double flowers of red, rose, pink, purple & lemon, 2 colors per pot

True 1 gallon (1-14) \$6.00 (15+) \$5.70

Alcea 'Spring Celebrities Mix'

*Alchemilla erythropoda* 'Alma'

Height: 4-8"

Exposure: light shade

Alma Lady's Mantle

This lovely mounding ground cover produces soft, scalloped, blue-green leaves with finely serrated edges, and shimmering white pubescence underneath. Yellow-green flowers are held above the foliage in sprays and are a good cut choice for arrangements. A daintier plant than *A. mollis* that combines wonderfully with small hostas.

Trade 1 gallon (1-14) \$5.50 (15+) \$5.20

*Alchemilla erythropoda* 'Alma'

*Alchemilla sericata* 'Gold Strike'

Height: 12-14"

Exposure: part shade

Gold Strike Lady's Mantle

This lovely mounding groundcover produces soft, scalloped gray-green leaves with finely serrated edges, and shimmering white pubescence. Tiny yellow blooms are held above the foliage in sprays and are a good cut flower. A daintier plant than *A. mollis* that combines wonderfully with small hostas.

True 1 gallon (1-14) \$5.50 (15+) \$5.20

*Alchemilla* 'Gold Strike'

Allium 'Millenium'

Allium 'Millenium'

Millenium Ornamental Onion

Height: 15-20"

Exposure: full sun

Fragrant, purple pom-pom flowers appear in mid-summer, above strappy, shiny, onion-scented leaves that are not bothered by deer, rabbits, or chipmunks! Compared to other Alliums, Millenium is well-behaved in the garden and does not reseed. Allow foliage to go yellow after flowering to store as much energy as possible in the bulbs for the following year's growth. PPA Perennial Plant of the Year 2018.

True 1 gallon (1-14) \$6.50 (15+) \$6.20

Anchusa 'Blue Angel'

Anchusa capensis 'Blue Angel'

Blue Angel Cape Forget-Me-Not

Height: 8-12"

Exposure: full sun

Blue Angel produces rich, royal blue flowers for up to six weeks in late spring to early summer. Native to dry regions of South Africa, Anchusa requires well-drained soil to overwinter. Avoid wet sites. After blooming, cut plants back to 3" tall, to encourage a stronger basal rosette.

True 1 gallon (1-14) \$5.00 (15+) \$4.70 *Spring Only*

'Honorine Jobert'

'Loreley'

Anemone

Windflower

Exposure: sun-light shade

Fantastic perennials for shaded areas, they provide dramatic color in the fall garden. Blooming in September, the delicate, upward-facing flowers come in shades of white to dark pink and are held on long stems well above the dark green palmate foliage. Always eye catching, Japanese Anemones add a unique form and texture to the garden. The taller varieties may require staking when in flower, but those two feet or less generally don't. They will perform equally well in sun if provided consistent moisture.

'Pamina'

'Lucky Charm'

'Honorine Jobert' - discovered in 1858 in Verdun, France, this remains an outstanding selection. A vigorous, compact cultivar featuring large, snow white flowers with yellow center stamens; 36-48" tall. 2016 Perennial Plant of the Year

'Loreley' - rosy pink flowers with broad, overlapping petals. The darker pink edges accentuate the petals making them look very ruffled; 40" tall

'Lucky Charm' - leaves start off deep purple and change to dark green with a lighter violet back. Flowers are deep rich pink with very dark purple stems; 36" tall

'Pamina' - hot pink, semi-double, upward facing flowers in September; 18-24" tall

True 1 gallon (1-14) \$6.50 (15+) \$6.20 *Summer Only*

'Pocahontas'

'Red Riding Hood'

'Pocahontas' - dwarf plant with frilly, double pink flowers, blooms in mid-pp# 25,352 August; 18" tall

'Red Riding Hood' - dwarf plant with dark, reddish pink flowers, blooms ppaf begin in mid-August; 18" tall

Trade 1 gallon (1-14) \$6.50 (15+) \$6.20 *Summer Only*

**NEW** Aquilegia

Height: 24-28"

Exposure: light shade

Columbine

A staple of the spring garden, Aquilegia form rounded clumps of delicate, apple green, ferny foliage in early spring, topped by very showy flowers with long spurs in late spring to early summer. Plants prefer moist but well-drained soil with afternoon shade.

'Blue Bird' - large, upward facing, light blue and white flowers with long, showy spurs; part of the Song Bird Series; double stuck

'Cardinal' - large, upward facing, red and white flowers with long, showy spurs; part of the Song Bird Series; double stuck

'Sunshine' - large, upward facing, double flowers are bright yellow with long showy spurs; double stuck

'Mix' - mix of the three varieties listed above. Each pot will have 2 plants, for an extended bloom time

True 1 gallon (1-14) \$5.50 (15+) \$5.20 *Spring Only*

Aralia cordata 'Sun King'

Height: 36-72"

Exposure: part shade

Sun King Japanese Spikenard

Tropical, golden yellow leaves all season! Four to six hours of sunlight a day ensures the brightest color. In summer, 2' tall spikes of tiny white flowers appear. These turn into reddish-purple berries, inedible to humans but loved by birds. Be sure to give this large, shrubby perennial plenty of space in the garden.

Aralia 'Sun King'

True 1 gallon (1-14) \$7.50 (15+) \$7.20

Arisaema triphyllum 'Starburst'

Height: 24-30"

Exposure: part shade

Starburst Jack-in-the-Pulpit

This fast growing and vigorous selection of our native Jack-in-the-Pulpit emerges in early spring with white veined, trifoliate leaves, dusted in silver. The clumps are adorned with white striped, green Jack flowers, followed by red berries if fertilized. Be aware that the berry juice is caustic to the touch and the seed poisonous if ingested.

Arisaema 'Starburst'

Trade 1 gallon (1-14) \$8.50 (15+) \$8.20 *Spring Only*

Artemisia schmidtiana 'Nana'

Height: 12"

Exposure: full sun

Silver Mound Artemisia

Silver Mound Artemisia is a compact mounded plant with soft, filigree, silver foliage. It's great used in the rock garden or for edging where the silvery foliage helps blend other colors together. It may be short lived in poorly drained soils. Prune back after flowering for a neater, tighter habit.

Artemisia 'Nana'

Misty Lace Goat's Beard

A unique hybrid seedling discovered by Allen Armitage, Misty Lace is a dwarf Goat's Beard, growing 2½' tall by 2' wide. In spring, red stems support large, creamy white blooms that float above the delicate, ferny foliage. A very hardy specimen, it can take full sun if given enough moisture.

True 1 gallon (1-14) \$5.75 (15+) \$5.45

## Asclepias & Monarchs

Commonly known as Butterfly Weed or Milkweed, Asclepias are the sole food source for Monarch caterpillars. Known for the incredible mass migration that brings millions of them to California and Mexico each winter, North American monarchs are the only butterflies that make such a massive journey—up to 3,000 miles. Only monarchs born in late summer or early fall make the migration, and they make only one round trip. By the time next year's winter migration begins, several summer generations will have lived and died and it will be the great grandchildren of last year's migrators that make the trip. Yet somehow these new generations know the way, and follow the same routes their ancestors took—sometimes even returning to the same tree. Scientists are concerned about the eastern population of monarchs, which summer east of the Rocky Mountains. This group is occurring in ever smaller numbers, and its survival is threatened by reduced acreage of milkweeds and nectar sources in their summer home. To do our part to help the Monarchs, we are offering 3 species of Milkweed for 2019. We never treat our Asclepias with insecticides, and thus may be shipped with Monarch caterpillars.

Asclepias c. 'Silky Deep Red'

### Asclepias curassavica 'Silky Deep Red'

Height: 2-3'

Exposure: full sun

Silky Deep Red Milkweed

Also called Blood Flower, this annual Milkweed is native to South America. Showy flowers are deep red with a yellow hood, appearing in late spring and continuing until early fall. The new growth of Silky Deep Red has a lovely bronze cast. It has a much longer flowering time than the perennial milkweeds and blooms are followed by long narrow seed pods, typical of the milkweed family. This is primarily a nectar source for the Monarch butterfly.

4" \$3.00

Sold in flats of 8

Asclepias syriaca

### Asclepias syriaca

Height: 36-48"

Exposure: full sun

Common Milkweed

This native Milkweed typically grows 3-4' tall on thick, upright stems. Blooming in June and July, it features fragrant, light pink flowers that smell like honey. These are followed by prominent, warty seed pods which split open when ripe releasing their silky-tailed seeds for dispersal by the wind. Once commonly seen along roadsides and fields, this native plant is becoming scarce due to the widespread use of herbicides (glyphosate) on genetically modified farm crops, and habitat destruction. Monarch caterpillars clearly prefer Common Milkweed for dinner over Swamp Milkweed or Butterfly Weed.

True 1 gallon (1-14) \$6.00 (15+) \$5.70

*Asclepias tuberosa*

Height: 18-24"

Exposure: full sun

Butterfly Weed

This tough, drought tolerant native produces eye-catching orange flowers in summer that attract many varieties of butterflies, especially Monarchs. The dried seed pods are interesting in shape and are frequently used in dry arrangements. This species requires sharply drained soils. Primarily a nectar source rather than a caterpillar food source.

Trade 1 gallon (1-14) \$6.50 (15+) \$6.20

Amber Moon False Spirea

This chinesis hybrid from Darrell Probst features brilliant, chartreuse yellow leaves edged in red. Very tall, strong, blush red stems carry thin rose-pink flower spikes in mid-summer. The foliage greens up a little in the heat of the summer, but plants look bright and fresh until frost.

True 1 gallon (1-14) \$6.50 (15+) \$6.20

*Astilbe 'Amber Moon'*

*Astilbe chinensis 'Vision in Pink'*

pp# 11,860

Height: 14-20"

Exposure: part shade to shade

Vision in Pink False Spirea

Dense, upright pale pink flowers are held 14-20" high on narrow but strong stems. Large, glossy, blue-green leaves have a coarse texture and form a neat mound. Moderately drought tolerant.

True 1 gallon (1-14) \$6.00 (15+) \$5.70

*Astilbe 'Vision in Pink'*

*Astilbe chinensis 'Vision in Red'*

pp# 11,965

Height: 18-20"

Exposure: part shade to shade

Vision in Red False Spirea

When compared to Visions, the foliage of Vision in Red is a darker green-red with red petioles. The flower buds are a showy red and open to a slightly darker flower than Visions. A heat tolerant summer bloomer.

True 1 gallon (1-14) \$6.00 (15+) \$5.70

*Astilbe 'Vision in Red'*

*Astilbe chinensis 'Visions'*

Height: 18"

Exposure: part shade to shade

Visions False Spirea

Rich, vibrant reddish purple flowers are held 12-18" high on strong, stocky stems. Dark green, thick foliage tolerates drought better than other Astilbe x arendsii selections. A rapid grower that is very well suited to our Mid-western summers. Our favorite Astilbe, it blooms later than many other cultivars.

True 1 gallon (1-14) \$5.75 (15+) \$5.45

*Astilbe 'Visions'*

Astilbe 'Chocolate Cherry'

**Astilbe 'Chocolate Cherry'**

Chocolate Cherry False Spirea

Height: 18"

Exposure: part shade to shade

Wow! Striking fuchsia-red flowers tower up to 48" tall on dark red stems over the chocolate tinted leaves in June and July. Flowering later than most astilbe, Chocolate Cherry is an eye catching addition to the back of the border.

True 1 gallon (1-14) \$7.25 (15+) \$6.95

Astilbe 'Delft Lace'

**Astilbe 'Delft Lace'**

Delft Lace False Spirea

pp# 19,839

Height: 10-16"

Exposure: part shade to shade

Delft Lace is an excellent perennial that thrives in moist to average garden soils. Strong, reddish stems hold the flower spikes above the *A. simplicifolia*-like, glossy green foliage. Delicate, airy pink blooms form on rich red scapes from June into August. Foliage emerges purple-red and greens up in summer.

True 1 gallon (1-14) \$6.25 (15+) \$5.95

Aстранtia 'Star of Beauty'

**Aстранtia major 'Star of Beauty'**

Star of Beauty Masterwort

Height: 24"

Exposure: shade

Aстранtia is a wonderful woodland plant preferring moist, shady areas rich in organic matter. White and purple flowers bloom in early to late summer. Wiry stems rise above the foliage, each tipped with a rounded flower head set in a cup of colorful, star-shaped bracts. Long-lasting blooms are excellent cut and dried flowers.

Trade 1 gallon \$6.00

Baptisia australis

**Baptisia australis**

False Blue Indigo

Height: 36-48"

Exposure: sun to light shade

Rich, indigo blue flower spikes appear in May on strong stems making it a great cut flower. Wait until all the blooms have expanded to cut. It has a large, bushy habit with gray-green foliage that is free of insect and disease problems. 2010 Perennial Plant of the Year.

2 gallon (1-14) \$9.00 (15+) \$8.70

Begonia grandis

**Begonia grandis**

Hardy Begonia

Height: 20-24"

Exposure: part shade to shade

A tropical looking perennial with large, dark green leaves on top and blood-red underneath. Sprays of shell-pink flowers and seed capsules are produced beginning in late summer, continuing until mid-fall. Mother plants require sharp drainage to overwinter, but small bulbils will overwinter in standard garden soils. Plants are late to break dormancy in the spring.

True 1 gallon (1-14) \$7.00 (15+) \$6.70 Summer Only

**Brunnera macrophylla 'Alexander's Great'**

pp# 25,789

Alexander's Great Siberian Bugloss

Height: 14"

Exposure: part shade to shade

The HUGE heart shaped leaves of Alexander's Great are double the size of B. 'Jack Frost'. They have a heavy silver overlay with prominent dark green veins and unique, spiraled leaf-bases. Great for brightening up dark shady areas. Brunnera produce tiny, blue, Forget-Me-Not type flowers in early spring.

True 1 gallon (1-14) \$9.00 (15+) \$8.70

Brunnera 'Alexander's Great'

**Brunnera macrophylla 'Jack Frost'**

pp# 13,859

Jack Frost Siberian Bugloss

Height: 12-15"

Exposure: part shade to shade

The heart shaped leaves of Jack Frost have a heavy silver overlay with prominent green veins and are wonderful for brightening up dark shady areas. It produces tiny, blue, Forget-Me-Not type flowers in early spring. One of the best selections of Brunnera we have grown because it is more tolerant of sun and drier soils. 2012 Perennial Plant of the Year.

True 1 gallon (1-14) \$9.00 (15+) \$8.70

Brunnera 'Jack Frost'

**Campanula glomerata 'Superba'**

Height: 22-28"

Exposure: sun to afternoon shade

Clustered Bellflower

Medium-tall upright stems appear in early summer, bearing large, showy clusters of rich purple funnel-shaped flowers. Plants will quickly form a large clump, so allow plenty of space when planting. Prune back after blooming to maintain a low, compact mound.

True 1 gallon (1-14) \$6.00 (15+) \$5.70

Campanula 'Superba'

**Campanula poscharskyana Blue Waterfall ('Camgood')**

pp# 13,161

Blue Waterfall Serbian Bellflower

Height: 8-10"

Exposure: sun to light shade

Aptly named, the vibrant blue-purple, star-shaped flowers pour like water over the foliage of this Bellflower. Flowers face upwards and are so numerous the foliage is completely covered from late spring into mid-summer. A vigorous spreading ground cover, the flowers will often repeat into fall. Does not like wet soils in winter.

Trade 1 gallon (1-14) \$5.00 (15+) \$4.70

Campanula Blue Waterfall

**Centaurea montana 'Amethyst Dream'**

pp# 20,781

Amethyst Dream Mountain Bluet

Height: 12-16"

Exposure: Afternoon Shade

The silvery gray pubescent foliage sets off the stunning amethyst-purple, fringed flowers that cover this plant in late spring. Dead-heading will prevent seeding into the garden and encourage rebloom in the fall. Mountain Bluets prefer well-drained soils in winter.

True 1 gallon \$6.00 *Spring Only*

Centaurea 'Amethyst Dream'

Centaurea 'Amethyst in Snow'

**Centaurea montana 'Amethyst in Snow'**

pp# 18,284

Height: 14"

Exposure: Afternoon Shade

Amethyst in Snow Mountain Bluet

Glowing white ray flowers contrast dramatically with the vivid purple centers giving the flowers an ethereal appearance. Mounded, pubescent silvery gray foliage has a neat and clean look. Dead heading will prevent seeding into the garden and encourage rebloom in the fall. Mountain Bluets prefer well-drained soils in winter and afternoon shade in summer.

True 1 gallon \$6.00

Spring Only

Centranthus 'Coccineus'

**Centranthus ruber 'Rosenrot'**

Rose Jupiter's Beard

Height: 24-36"

Exposure: Full Sun

Blooming in late spring, the fragrant, rose-pink flowers of Centranthus are butterfly magnets! Shear off spent flowers to prevent re-seeding and to encourage sporadic flowering throughout summer. This Mediterranean native prefers drier sites with well-drained soil.

True 1 gallon \$6.00

Cerastium tomentosum

**Cerastium tomentosum**

Snow in Summer

Height: 6"

Exposure: Full Sun

Growing only 6" tall, this undemanding perennial groundcover has small gray leaves covered in silver hairs and produces small white flowers in May and June. Preferring sunny locations and average to low water, this plant is excellent for that hot dry spot that bakes other perennials. Will tolerate light foot traffic.

Trade 1 gallon (1-14) \$5.50 (15+) \$5.20

True 1 gallon (1-14) \$5.75 (15+) \$5.45

Chelone 'Hot Lips'

**Chelone lyonii 'Hot Lips'**

Hot Lips Turtlehead

Height: 18-24"

Exposure: sun-part shade

This Midwest native is known for its distinctive flowers that are shaped like a turtle's head with its mouth open. Hot Lips has rose-pink flowers with dark green, thick, almost plastic looking foliage. Great for planting near streams or ponds.

True 1 gallon (1-14) \$5.50 (15+) \$5.20

Cimicifuga 'Chocoholic'

**Cimicifuga 'Chocoholic'**

Chocoholic Bugbane

pp# 24,821

Height: 2-3'

Exposure: light shade-shade

The lacy, mocha and burgundy leaves of Chocoholic combine wonderfully with yellow and variegated plants for a dramatic and eye-catching arrangement. Sweetly scented flowers open a soft pink and lighten to white as they age. This plant makes an excellent vertical accent in the shade garden and works great with hostas and ferns. Bugbane benefits from organic matter being added to the soil when planted. *NA for 2019, back in spring 2020.*

True 1 gallon (1-14) \$9.00 (15+) \$8.70

**Clematis maximowicziana (paniculata, ternifolia)**

Sweet Autumn Clematis

Height: 10-15'

Exposure: sun-light shade

This vigorous grower produces a solid sheet of small, incredibly fragrant, white flowers in August. Sweet Autumn Clematis will not die to the ground each year, but some terminal dieback may occur. Great for covering up fences, abandoned cars, slow moving animals, etc... Grown on a 18" bamboo arch.

True 1 gallon (1-14) \$9.00 (15+) \$8.70

Clematis maximowicziana

**Convallaria majalis 'Bordeaux'**

Bordeaux Lily-of-the-Valley

Height: 8-10"

Exposure: sun to part shade

Lily-of-the-Valley prefers part shade and moist, fertile soils. However it also does well in full sun, forming a dense, weed free groundcover that is surprisingly drought tolerant. All parts of this plant are poisonous, which makes it very deer resistant. Bordeaux is an improved variety, producing larger, bell-shaped, fragrant, white flowers on stems that are held above the foliage as opposed to between the leaves. The tulip-like foliage is also a bit darker green and more rounded.

4" \$2.75 Sold in flats of 8 Spring Only

Convallaria 'Bordeaux'

**Coreopsis**

Valued for their dependable nature and colorful flowers, Coreopsis are low maintenance, drought tolerant, and long blooming. Native to US prairies, the flowers attract butterflies and their seeds are enjoyed by Goldfinch and other birds. There is an incredible amount of variety among Coreopsis, including broadleaf vs threadleaf, tall vs short, and flower colors including pinks, reds, yellows, oranges, whites, and bi-colors. Most Coreopsis are clump forming, holding their flowers on tall stems above the foliage, making them good cut flowers.

Coreopsis should be sited in full sun and average garden soils with good winter drainage. Don't over fertilize, or you'll have tall, leggy plants that tend to flop over. Deadheading will keep the plants tidy and promote re-bloom, however leave some seed heads for the birds in fall and winter.

**Coreopsis verticillata 'Crazy Cayenne'**

ppaf

Crazy Cayenne Threadleaf Coreopsis

Height: 15-18"

Exposure: sun

Crazy Cayenne has gray green threadleaf foliage that forms a nicely rounded habit. Plants are covered in sunset orangey-red flowers from early to late summer. Part of the Sizzle and Spice series from Walters Gardens.

Zagreb Threadleaf Coreopsis

Zagreb is a fine textured, dense growing plant that produces bright, golden yellow flowers from late May into July. With deadheading, the flowers will repeat. This coreopsis is a very organized plant with a nice, rounded habit.

True 1 gallon (1-14) \$6.00 (15+) \$5.70

**Crocosmia 'Emily McKenzie'**

Emily McKenzie Crocosmia

Height: 24-30"

Exposure: Full Sun to Part Shade

Orange flowers with a red halo and yellow throat make this Crocosmia stunning in the border or as a mass planting. Corms can be heavily mulched for overwintering, or taken up and stored like gladioli. The dark green foliage is sword-like and adds a spiky texture to the landscape. Crocosmia prefer well-drained soils and perform poorly in wet clay, especially over winter.

True 1 gallon (1-14) \$6.00 (15+) \$5.70

Crococsmia 'Emily McKenzie'

**Crococsmia 'Lucifer'**

Lucifer Crocosmia

Height: 36"

Exposure: Full Sun to Part Shade

Scarlet-red, tubular shaped flowers march down the arching flower stems in mid-summer. The dark green foliage is sword-like and adds a spiky texture to the landscape. Crocosmia prefer well-drained soils and perform poorly in wet clay, especially over winter.

True 1 gallon (1-14) \$6.00 (15+) \$5.70

Crococsmia 'Lucifer'

**Dianthus**

Height: 6-12"

Exposure: sun

Dianthus are highly prized for their eye-catching, fragrant flowers, blooming in late May. Happy plants form a tight, spreading, semi-evergreen ground-cover. Flower forms range from single to fully double, in hues of white, pink, reds, and bi-colors. Dianthus perform best with good drainage, moderate fertility, and average moisture. Plants look cleaner if spent flowers are removed in early summer.

'Gold Heart'

Valentine

Dicentra x 'King of Hearts'

Dicentra x 'Luxuriant'

Digitalis 'Dalmatian Purple Improved'

### Dicentra spectabilis

Old Fashioned Bleeding Heart

Height: 24-36"

Exposure: sun-part shade

The heart-shaped flowers are held above the foliage on arched stems from May to June. A large, robust perennial with glaucous green, dissected leaves. It will go dormant in late June if in full sun, but can hold until August in shade. Makes an excellent cut flower.

D. spectabilis - the original, pink flowers; 36" tall

s. 'Alba' - pure white flowers & bright apple green foliage; 30" tall

2 gallon (1-14) \$7.75 (15+) \$7.45 Spring Only

s. 'Gold Heart' - bright gold foliage & pink blooms, 24-30" tall

Trade 1 gallon (1-14) \$9.00 (15+) \$8.70 Spring Only

s. 'Valentine' ('Hordival') - dark rose-pink flowers on dark stems & dark, pp# 22,739 reddish green foliage; 24-30" tall

2 gallon (1-14) \$9.00 (15+) \$8.70 Spring Only

### Dicentra x 'King of Hearts'

King of Hearts Bleeding Heart

Height: 10-15"

Exposure: light shade

King of Hearts holds deep pink blooms on upright stalks from late spring into mid to late summer. The dark, blue-green, fern-like foliage is a splendid contrast to the beautiful flowers. This plant prefers afternoon shade and even moisture to perform through the summer, or it will go dormant in hot, dry summers. An excellent cut flower with a long vase life.

Trade 1 gallon (1-14) \$7.00 (15+) \$6.70 Spring Only

### Dicentra x 'Luxuriant'

Luxuriant Bleeding Heart

Height: 12-18"

Exposure: light shade

Bright green, ferny foliage is covered with sprays of dusky pink to red flowers from late May into early July, and sporadically thereafter. Given shade, adequate water and reasonable drainage, this plant is hard to beat for its refined foliage and consistent color. Foliage does not go dormant in the summer.

True 1 gallon (1-14) \$7.00 (15+) \$6.70 Spring Only

### Digitalis purpurea 'Dalmatian Purple Improved'

Dalmatian Purple Foxglove

Height: 24-36"

Exposure: full sun to afternoon shade

Dalmatian Purple Improved has rosy purple flowers with white and maroon speckles decorating the interior. Plant in well-drained soil and remove the spent flower stems to ensure the plant will reappear next spring. Be aware, all parts of this plant are poisonous.

True 1 gallon (1-14) \$6.50 (15+) \$6.20

**Digitalis purpurea 'Pam's Choice'**

Pam's Choice Foxglove

Height: 24-36"

Exposure: sun to afternoon shade

Pam's Choice features bright white flowers with maroon throats and speckles. Plant in well-drained soil and remove the spent flower stems to ensure the plant will reappear next spring. Be aware, all parts of this plant are poisonous.

True 1 gallon (1-14) \$6.50 (15+) \$6.20

'Pam's Choice'

D. trojana

**Digitalis trojana**

Helen of Troy Foxglove

Height: 12-24"

Exposure: sun to afternoon shade

Blooming in July and August, Helen of Troy features fuzzy, silver buds which open to reveal caramel colored blooms with dark coffee marbling and large, luminous white lips. Its leaves are thin, smooth, and shiny dark green. Native to Turkey, this perennial species is more drought tolerant than most Foxgloves, but does best in a cooler spot with a bit of afternoon shade.

True 1 gallon (1-14) \$6.50 (15+) \$6.20

**Echinacea**

Prized for their large, brightly colored flowers, coneflowers have become a mainstay in today's landscapes. Their color and form combine equally well in the wildflower or urban garden. Most varieties make excellent cut flowers. The cones hold up well into winter providing architectural interest as well as attracting seed eating birds (however, double flowers are sterile and do not produce seed). Echinacea perform best in full sun to light shade. They prefer consistent moisture to avoid leaf burn and early petal decline. Being native, they are well adapted to our soils and climate. Height listed is in flower. We hope to have over 30 varieties available in 2019.

**Echinacea 'Aloha'**

pp# 23,525

Aloha Coneflower

Height: 28-32"

Exposure: sun-light shade

A unique color! Wide, melon-yellow petals surrounding orange cones are set off perfectly against the rich green foliage. Aloha blooms all summer and into early fall. Part of the Prairie Pillars Collection from Terra Nova Nurseries.

True 1 gallon (1-14) \$8.50 (15+) \$8.20

Echinacea 'Aloha'

**Echinacea 'Big Kahuna'**

pp# 26,159

Big Kahuna Coneflower

Height: 20-26"

Exposure: sun-part shade

The large blooms of Big Kahuna are a warm mango color with a flaming red central cone and a noticeably sweet fragrance. Blooming summer through fall, you'll be enjoying the brilliant sunset of flowers all season. Part of the Prairie Pillars Collection from Terra Nova Nurseries.

True 1 gallon (1-14) \$8.50 (15+) \$8.20

Echinacea 'Big Kahuna'

Echinacea 'Cheyenne Spirit'

### Echinacea 'Cheyenne Spirit'

Height: 22-30"

Exposure: sun-part shade

Cheyenne Spirit Coneflower

Flowers in rich shades of tomato red, golden yellow, near-fluorescent orange, white, and magenta from June to September. Though the height and bloom time of each color varies slightly, they are all very well-branched, bushy plants. Bred and introduced by Kieft-Pro Seeds. Triple stuck for multi-colored pots.

True 1 gallon (1-14) \$6.50 (15+) \$6.20

Echinacea 'Evening Glow'

### Echinacea 'Evening Glow'

Height: 20-24"

Exposure: sun-part shade

Evening Glow Coneflower

Glowing yellow petals blend to shades of apricot and deep rose as they meet the orange-red cone. Long-lasting blooms appear from early summer through early autumn on compact, well-branched plants. One of the first to bloom.

True 1 gallon (1-14) \$8.50 (15+) \$8.20

Echinacea 'Glowing Dream'

### Echinacea 'Glowing Dream'

pp #24,329

Height: 20-24"

Exposure: sun to light shade

Glowing Dream Coneflower

This Coneflower has everything you want in an Echinacea! Compact habit, outstanding hardiness, and tons of flower power! The color is very unique, eye-catching, and hard to describe. The breeder calls it "glowing, watermelon-coral". Part of the Dream Series from Terra Nova Nurseries.

True 1 gallon (1-14) \$8.50 (15+) \$8.20

Echinacea 'Green Jewel'

### Echinacea 'Green Jewel'

pp #18,678

Height: 20-24"

Exposure: sun to light shade

Green Jewel Coneflower

Discovered by Piet Oudolf, Green Jewel has light green ray petals that mature to near white, surrounding a large green cone. Flowers do not fade, but retain a pleasing green and white color and horizontal shape as they age.

True 1 gallon (1-14) \$8.50 (15+) \$8.20

Echinacea 'Hot Papaya'

### Echinacea 'Hot Papaya'

pp# 21,022

Height: 32"

Exposure: sun to light shade

Hot Papaya Coneflower

A strong, reliable grower, Hot Papaya has eye-searing red flowers that can be seen from across the yard! Plants are well branched and flowers stand about 32" tall on thick stems with maroon markings. Bloom period is July into September. From the Cone-factions™ series. We've been producing this plant since 2009, a testament to its outstanding performance and flower power.

True 1 gallon (1-14) \$8.50 (15+) \$8.20

**Echinacea 'Leilani'**

pp# 23,526

Height: 36-40"

Exposure: sun-light shade

Leilani Coneflower

Leilani features beautiful yellow, single flowers on strong, sturdy stems. Part of Terra Nova Nurseries Prairie Pillars collection.

True 1 gallon (1-14) \$8.50 (15+) \$8.20

Echinacea 'Leilani'

**Echinacea purpurea 'Magnus Superior'**

Height: 24-36"

Exposure: sun-light shade

Superior Magnus Coneflower

Magnus Superior, introduced by Jelitto Seed, is an improved form of Magnus. Upgrades include deeper lavender rays, larger copper cones, darker purple stems, more consistent growth rate, and less variability among plants.

True 1 gallon (1-14) \$6.00 (15+) \$5.70

Echinacea 'Magnus Superior'

**Echinacea 'Orange Skipper'**

ppaf

Height: 15-18"

Exposure: sun-part shade

Orange Skipper Coneflower

Orange Skipper is a compact plant with neon tangerine blooms held above the leaves on sturdy stems. Flowers begin to bloom in early summer and continue for weeks. Part of Arie Blom's Butterfly series.

True 1 gallon (1-14) \$8.50 (15+) \$8.20

Echinacea 'Orange Skipper'

**Echinacea 'Rainbow Marcella'**

ppaf

Height: 18"

Exposure: sun-light shade

Rainbow Marcella Coneflower

Rainbow Marcella is a sturdy, compact plant. Darker stems showcase the large, single blooms. Flowers begin the color of orange sherbet and mature to raspberry pink. Part of Arie Blom's Butterfly series.

True 1 gallon (1-14) \$8.50 (15+) \$8.20

Echinacea 'Rainbow Marcella'

**Echinacea 'Sensation Pink'**

pp# 26,593

Height: 18"

Exposure: sun

Sensation Pink Coneflower

Sensation Pink features beautifully bright, hot magenta pink flowers held above the foliage on near black stems. Extremely floriferous, the blooms lighten to lavender pink as they mature, giving the plant a two toned look. Bred by Marco van Noort, a cross between *E. purpurea* x *E. angustifolia*.

True 1 gallon (1-14) \$8.50 (15+) \$8.20

Echinacea 'Sensation Pink'

Echinacea 'Solar Flare'

### Echinacea 'Solar Flare'

pp# 22,133

Height: 30-36"

Exposure: sun

Solar Flare Coneflower

Part of the Big Sky Series from Itsaul Plants, Solar Flare has large, fragrant, single flowers. They open deep magenta and mature to smoky rose on thick, strong, near black stems. This cultivar is the result of breeding between *E. tennesseensis* x (*E. purpurea* x *E. paradoxa*).

True 1 gallon (1-14) \$8.50 (15+) \$8.20

Adobe Orange

Lemon Yellow Improved

### Echinacea Sombrero Series

Sombrero Coneflowers

Height: 18-24"

Exposure: sun

The Sombrero Series was bred and selected to have well-branched, sturdy stems, a high bud count, and excellent winter hardiness. Exceptionally long bloom period lasts from June well into August. Introduced by Darwin Perennials.

Adobe Orange ('Balsomador') - single, pumpkin orange flowers

pp# 26,629

Lemon Yellow Improved ('Balsomemyim') - single, an improvement on the original yellow color with wider, overlapping petals and a more compact habit

Salsa Red ('Balsomsed') - single, bright tomato red flowers

pp# 23,105

True 1 gallon (1-14) \$8.50 (15+) \$8.20

Echinacea Sombrero Salsa Red

### Eupatorium dubium 'Little Joe'

pp# 16,122

Height: 48"

Exposure: full sun

Little Joe-Pye Weed

A shorter Joe-Pye Weed growing to four feet tall with mauve colored flowers in late summer. Its smaller stature and slower growth rate make it much more suited for today's gardens. This native attracts butterflies and seed eating birds such as Goldfinch. Can be pruned in mid-June to produce a shorter, more compact plant.

True 1 gallon (1-14) \$6.00 (15+) \$5.70

Eupatorium 'Little Joe'

### Euphorbia x martinii 'Ascot Rainbow'

pp# 21,401

Height: 18-24"

Exposure: sun to part shade

Ascot Rainbow Spurge

The unique variegated foliage of Ascot Rainbow is phenomenal. The narrow leaves are gray-green with a bright yellow edge in summer and pick up shades of pink, orange and red in the cooler months. The plant is topped with clusters of variegated cream, lime, and green bracts in spring. Highly heat and drought tolerant, but needs well-drained soils to successfully overwinter.

Trade 1 gallon (1-14) \$5.50 (15+) \$5.20

Euphorbia 'Ascot Rainbow'

**Gaillardia Gallo® Series**

Height: 10-12"

Exposure: full sun - light shade

Blanket Flower

The Gallo® series features several varieties known for their compact, uniform habit and large, bright flowers. The plants are more heat tolerant than other Gaillardias and their beautiful flowers bloom all summer until frost. Gaillardia need great drainage to successfully overwinter in this area.

**Gallo Bright Red** ('Floragabred') - solid red flowers, compact plant

**Gallo Dark Bicolor** ('KIEGALDAB') - bright red center with a bright yellow edge  
pp# 20,718      edge

True 1 gallon (1-14) \$6.00 (15+) \$5.70

Gaillardia Gallo Bright Red

Gaillardia Gallo Dark Bicolor

**Geranium pratense 'Dark Reiter'**

Height: 8-10"

Exposure: sun to light shade

Dark Reiter Meadow Cranesbill

Finely dissected, dark purple leaves show off the bright lilac-blue flowers that bloom all summer! Deadheading encourages rebloom in fall and helps maintain a neat habit. Dark Reiter combines very well with silver toned plants.

Trade 1 gallon (1-14) \$6.50 (15+) \$6.20

Geranium 'Dark Reiter'

**Geranium sanguineum 'Max Frei'**

Height: 6-10" tall

Exposure: sun-light shade

Max Frei Cranesbill

One of the most popular perennial geraniums due to its compact habit, Max Frei has intense reddish purple flowers that cover the plants from May to June and sporadically all summer. Bright green finely dissected foliage is deer and rabbit resistant, and makes an excellent groundcover for the garden.

Trade 1 gallon \$6.00

Geranium 'Max Frei'

**Geranium 'Rozanne'**

pp# 12,175

Height: 12-18"

Exposure: light shade

Rozanne Cranesbill

Rozanne is a vigorous spreading geranium with bright green leaves and chartreuse marbling. Large, 2", blue-violet flowers with a light eye are produced from late spring to early fall. These plants flower like an annual in the landscape with a non-stop show of bright blue flowers. Perennial of the Year for 2008.

Trade 1 gallon (1-14) \$6.50 (15+) \$6.20

Geranium 'Rozanne'

Geum 'Rustico Orange'

**Geum Rustico Orange ('TNGEURO')**

Rustico Oranae Avens

Height: 10-12"

Exposure: sun to light shade

Rustico Orange has large, dark orange flowers that bloom late spring to early summer. This Avens is different from others, because its flowers are held closer to the leaves rather than high above the plant. Avens perform best in Ohio with afternoon shade and even soil moisture. They do not overwinter well in damp soils.

True 1 gallon (1-14) \$6.00 (15+) \$5.70

Geum 'Sangria'

**Geum 'Sangria'**

Sangria Avens

Height: 24-30"

Exposure: sun to light shade

Sangria is a vigorous hybrid with bright red, single to semi double flowers that dance above the foliage in early summer. Avens perform best with afternoon shade and even soil moisture. They do not like wet winter soils.

True 1 gallon (1-14) \$6.00 (15+) \$5.70

Geum 'Tim's Tangerine'

**Geum 'Tim's Tangerine'**

Totally Tangerine Avens

Height: 12-18"

Exposure: sun to light shade

Because Tim's Tangerine is sterile, its orange-yellow flowers are continually produced throughout the summer. Some sources claim that it produces about 5 times as many flowers as a typical Geum, and we definitely agree! It is clearly the most floriferous form we grow. Avens perform best in Ohio with afternoon shade and even soil moisture.

True 1 gallon (1-14) \$6.00 (15+) \$5.70

Gypsophila Summer Sparkles

**Gypsophila paniculata Summer Sparkles® ('ESM Chispa')**

Summer Sparkles® Baby's Breath

pp# 19,318

Height: 24"

Exposure: sun

Unlike most Baby's Breath which have an open habit and go dormant in late summer, Summer Sparkles® is compact and refined, looking great all season. It forms a dense, round clump of gray-green foliage that becomes completely covered in flowers from late spring through mid-summer. The white flowers are small, semi-double, and slightly fragrant. Deadheading will encourage the plant to rebloom. Needs a well-drained site to successfully overwinter.

True 1 gallon (1-14) \$6.00 (15+) \$5.70

**Helienium Mariachi™ Series**

Height: 18-24" Exposure: full sun

Sneezeweed

Hybridized by Arie Blom of AB Cultivars, the Mariachi™ Series features incredibly vibrant flower colors on shorter, 24" tall plants, more suited to today's smaller gardens. These bright summer blooms bring life to the perennial garden at a time when many plants are looking hot and dry. Sneezeweed tolerates a wide range of growing conditions but perform best in damp soils in full sun. It makes a wonderful cut flower with a long vase life.

'Fuego' - orange with rings of yellow around the brown button cone and petal tips  
pp# 25,977

'Siesta' - golden yellow with a small ring of brown that bleeds away from the brown button cone  
pp# 25,969

'Sombrero' - bright yellow with a yellow center  
pp# 25,968

True 1 gallon (1-14) \$6.00 (15+) \$5.70 *Late Summer Only*

Helienium 'Fuego'

'Siesta'

'Sombrero'

**Helianthus salicifolius 'Autumn Gold'**

ppaf

Height: 24" Exposure: full sun

Autumn Gold Willowleaf Sunflower

Glowing masses of bright yellow, daisy-like flowers appear in late summer and continue to early fall. Plants are upright growing, with narrow, dark green leaves. Compared to H. 'First Light' this selection blooms 4 weeks earlier and is little more compact.

True 1 gallon (1-14) \$6.25 (15+) \$5.95 *Summer Only*

Helianthus 'Autumn Gold'

**Helianthus salicifolius 'First Light'**

pp# 13,150

Height: 24-48" Exposure: full sun

First Light Willowleaf Sunflower

First Light is an upright perennial with narrow, thick, waxy dark green leaves. Showy masses of bright yellow, daisy-like flowers appear in early fall. This is the last plant to flower in our garden and it continues to shine through several hard frosts. An absolute beacon of yellow when not much else is in bloom. With no insect or disease problems, the foliage is as pristine in October as it is in May.

True 1 gallon (1-14) \$6.25 (15+) \$5.95 *Summer Only*

Helianthus 'First Light'

## Heuchera

Heucheras are usually a densely mounded perennial producing numerous sprays of white, pink, yellow, or red flowers from spring well into summer. Breeding has produced a wide range of foliage textures including smooth, wavy, pubescent, crenate, and crinkled. Foliage colors include yellows, reds, pinks, oranges, purples, silvers, ambers, whites, greens, and bicolors. Great in mixed containers, they are showy all year and require very little water or maintenance. Heucheras benefit from well drained soils, partial shade, and have become versatile, well-adapted plants for the Midwest garden. Heights listed are without flowers.

### Heuchera 'Caramel'

pp# 16,560

Height: 10-12"

Exposure: part shade-shade

Caramel Coral Bells

Heuchera 'Caramel'

Glowing, orange-yellow leaves form a 10-12" mound. Small, cream colored flowers extend 12-18" above the foliage in early summer. This selection is proving to be more adaptable to more sun compared to other orange-yellow foliated types. Our most popular orange and a good choice for decorative containers. Discovered as a chance seedling by Sandrine Delabroye in France.

True 1 gallon (1-14) \$7.50 (15+) \$7.20

2 gallon \$9.25

### Heuchera 'Fire Alarm'

pp# 24,525

Height: 9-10"

Exposure: part shade

Fire Alarm Coral Bells

Heuchera 'Fire Alarm'

Fire Alarm forms a mound of thick, leathery, glossy red leaves. It changes colors throughout the season, with the brightest red color appearing in cooler temperatures. Spikes of white flowers top the plant in summer. Introduced by Terra Nova Nurseries.

Trade 1 gallon (1-14) \$8.00 (15+) \$7.70

**Heuchera Forever Purple ('TNHEUFP')**

pp# 26,358

Forever Purple Coral Bells

Height: 10-12"

Exposure: part shade

Glossy, purple leaves have black veins and wavy edges. The bright, almost electric color is unlike any other purple heuchera we've grown. Short spikes of purple-pink flowers appear in summer. Forever Purple lives up to its name, providing vivid color all year. Part of the Forever series from Terra Nova Nurseries.

Trade 1 gallon (1-14) \$8.00 (15+) \$7.70

Heuchera 'Forever Purple'

**Heuchera Forever Red ('TNHEUFR')**

ppaf

Forever Red Coral Bells

Height: 10-12"

Exposure: part shade

A new addition to Terra Nova's Forever series, Forever Red is touted as having "the reddest leaves ever!". The foliage holds its color all year, but its most vibrant in spring and fall when the temperatures are cooler. White flower spikes appear in late summer.

Trade 1 gallon (1-14) \$8.00 (15+) \$7.70

Heuchera Forever Red

**Heuchera 'Galaxy'**

pp# 24,574

Galaxy Coral Bells

Height: 9-10"

Exposure: part shade

A new variegated creation from Terra Nova Nurseries. The very large, thick, leathery, mahogany colored leaves are heavily variegated with pinkish spots. Leaves emerge a startling bright red and turn darker as they age, making the variegation more noticeable.

Trade 1 gallon (1-14) \$7.75 (15+) \$7.45

Heuchera 'Galaxy' (spring & summer)

**Heuchera 'Georgia Peach'**

pp# 19,375

Georgia Peach Coral Bells

Height: 14"

Exposure: part shade-shade

Rosy red spring foliage turns peachy orange with a silver overlay in summer, later turning back to the vibrant rose-red in the fall. A villosa hybrid, this selection is quite tolerant of heat and humidity and forms a loose mound of foliage 14" tall. A great perennial for the front of the border, it will perform best if given afternoon shade. Georgia Peach prefers more heat and less water than most heucheras. Introduced by Terra Nova Nurseries.

True 1 gallon (1-14) \$8.25 (15+) \$7.95

Heuchera 'Georgia Peach' (spring)

**Heuchera 'Hercules'**

Hercules Coral Bells

Height: 10-12"

Exposure: part shade

In spring, the creamy white and green marbled foliage glows in the landscape (the coloration shown on the right). As the season progresses, the leaves mature to apple green with paler speckling. A vigorous grower, Hercules quickly forms a substantial mound. The scarlet flowers, displayed in early to mid-summer, look amazing above the mottled foliage and the bright color is very attractive to hummingbirds. Bred by Herbert Oudshoorn of the Netherlands.

Trade 1 gallon (1-14) \$7.50 (15+) \$7.20

True 1 gallon (1-14) \$7.75 (15+) \$7.45

Heuchera 'Obsidian'

### Heuchera 'Obsidian'

pp# 14,836

Height: 10"

Exposure: sun to part shade

Obsidian Coral Bells

The large, smooth, purple-black foliage is so shiny it looks lacquered. Quite popular, it combines very well with lighter colored hostas and silver ferns. A good grower forming a 10" tall dense mound, it produces small, cream colored flowers that float over the foliage in early summer. Extremely sun tolerant, we grow Obsidian in full sun. Introduced by Terra Nova Nurseries.

True 1 gallon (1-14) \$7.25 (15+) \$6.95

2 gallon \$9.25

**Heuchera 'Orange Dream'**

ppaf

Orange Dream Coral Bells

Height: 12-16"

Exposure: part shade-shade

Orange Dream features lush, brightly colored foliage providing 4 seasons of interest. New leaves emerge dark pink-orange and mature to large, fuzzy, peach-orange. Spikes of white flowers top the plants in early summer. Our new favorite orange! Bred by Thierry Delabroye in France.

True 1 gallon (1-14) \$8.00 (15+) \$7.70

Heuchera 'Orange Dream'

**Heuchera 'Paprika'**

pp# 24,575

Paprika Coral Bells

Height: 8"

Exposure: part shade-shade

Described as "the brightest orange heuchera on the market!" Very showy rosy orange foliage in spring and fall and orange to peach shades the rest of the year. Paprika sports larger, fuzzy leaves due to H. villosa breeding. Introduced by Terra Nova Nurseries.

Trade 1 gallon (1-14) \$7.75 (15+) \$7.45

Heuchera 'Paprika' (summer)

**Heuchera 'Paris'**

pp #18,881

Paris Coral Bells

Height: 10-12"

Exposure: part shade

Paris continuously sends up fresh stems of large, deep rose flowers, feeding hummingbirds from spring into mid-summer. The leaves are striking, with their whitish green tones and gorgeous green veins. A much prized plant for the garden that will tolerate more sun than most heucheras. Part of the City series from Terra Nova Nurseries.

True 1 gallon (1-14) \$7.75 (15+) \$7.45

2 gallon \$9.25

Heuchera 'Paris'

**Heuchera 'Rio'**

pp# 24,273

Rio Coral Bells

Height: 8-12"

Exposure: part shade to shade

Part of Terra Nova's City Series, Rio has multi-colored foliage that changes throughout the season. New leaves emerge glossy rose-peach, change to amber, and finally to yellow amber. Very floriferous. Outstanding, short spikes of white flowers on red stems in summer, often used in flower arrangements.

Trade 1 gallon (1-14) \$7.75 (15+) \$7.45

True 1 gallon (1-14) \$8.00 (15+) \$7.70

Heuchera 'Rio' (summer)

**Heuchera sanguinea 'Snow Angel'**

Snow Angel Coral Bells

Height: 10-12"

Exposure: part shade

Snow Angel forms a mound of low growing light green, broadly lobed leaves marbled with a light cream variegation. The dark pink flowers, displayed in early to mid-summer, look amazing above the mottled foliage. The bright color is very attractive to hummingbirds. Introduced by Bluebird Nursery.

Trade 1 gallon (1-14) \$8.00 (15+) \$7.70

Heuchera 'Snow Angel'

Heuchera 'Spellbound'

### Heuchera 'Spellbound'

pp# 24,103

Spellbound Coral Bells

Height: 15-18"

Exposure: part shade

A vigorous grower with unusually bold foliage of intense purple with a silver overlay. Spellbound forms a large plant with a dense, multi-crowned habit. This variety does best in a well drained sites with afternoon shade. The largest purple Heuchera we grow. Introduced by Terra Nova Nurseries.

True 1 gallon (1-14) \$8.00 (15+) \$7.70

2 gallon \$9.25

Heuchera 'Sugar Plum' (spring)

### Heuchera 'Sugar Plum'

pp# 21,857

Sugar Plum Coral Bells

Height: 12"

Exposure: part shade

Sugar Plum stands out from other Coral Bells with its bright silver and glowing plum-purple foliage in spring. Summer turns the leaves a unique silver-gray with darker contrasting veins. Silvery pink flowers rise above the foliage on purple stems and sometimes rebloom. A fantastic, vigorous plant that blends together many types and colors of foliage.

True 1 gallon (1-14) \$7.50 (15+) \$7.20

Heuchera 'Sweet Tart'

### Heuchera 'Sweet Tart'

pp# 24,573

Sweet Tart Coral Bells

Height: 5-6"

Exposure: part shade

This mini heuchera from Terra Nova's Little Cuties series forms a tight mound of bright, lemon-lime foliage. Dense spikes of contrasting two-toned pink flowers top the plant beginning in late spring. This is one of the best yellows we have found.

Trade 1 gallon (1-14) \$7.25 (15+) \$6.95

True 1 gallon (1-14) \$7.75 (15+) \$7.45

Heuchera 'Twist of Lime'

### Heuchera 'Twist of Lime'

ppaf

Twist of Lime Coral Bells

Height: 8-10"

Exposure: part shade

New leaves emerge heavily ruffled and relax as they age. Creamy white flower spikes emerge in late spring. In order to keep the foliage the brightest yellow possible, choose a location that provides bright morning sun. Color is more lime green in shade. A Walters Gardens introduction.

Trade 1 gallon (1-14) \$7.75 (15+) \$7.45

# HOSTA

Perfect for the beginning gardener, hostas are tough, long-lived plants that perform despite neglect. But, for those of us that love plants, Hostas respond wonderfully to amended soils and high fertility, rewarding the attentive gardener profusely. Though not commonly used as such, hostas are a wonderful nectar source for hummingbirds. We are listing 54 cultivars of hosta for 2019, and an additional 10 varieties that are under evaluation. If you don't see something you're interested in, please call.

We are frequently asked how large a particular hosta will get. The size and growth rate of a hosta greatly depends on sunlight, soil type, moisture, and fertility. The best benchmark for determining how large a hosta will grow is to observe other hostas in the area and note their size categories.

## Hosta sizing:

**Mini (MN):** < 6" tall

**Very Small (VS):** 6 - 10" tall

**Small (S):** 11 - 15" tall

**Medium (M):** 16 - 22" tall

**Large (L):** 23 - 28" tall

**Giant (G):** > 28" tall

Hosta 'Abiqua Drinking Gourd'

### Hosta 'Abiqua Drinking Gourd'

Height: 24"

Exposure: shade

Abiqua Drinking Gourd Hosta

Large; heavily puckered blue-green leaves cup dramatically with age; near white flowers in July. Our favorite blue and has been for years. An outstanding garden performer that gets more majestic every year. Individual leaves are nearly round and can reach 12" across. Eye-catching and truly unique! *H. Tokudama* x *sieboldiana*. 2014 Hosta of the Year.

True 1 gallon (1-14) \$7.50 (15+) \$7.20

**Hosta 'Atlantis'**

pp# 17,093

Height: 24"

Exposure: light shade-shade

Atlantis Hosta

Large; tetraploid sport of Abba Dabba Do featuring long, dark green, wavy leaves with a wide gold margin. It's a rapid grower that will form a majestic clump up to 5' wide. Lavender flowers on 30" tall spikes are produced in summer. Good slug resistance.

True 1 gallon (1-14) \$8.00 (15+) \$7.70

Hosta 'Atlantis'

**Hosta 'Baby Booties'**

Height: 2-4"

Exposure: light shade-shade

Baby Booties Hosta

Mini; Baby Booties forms a compact mound of dark green leaves with clean white margins. Lots of flower spikes with pale purple flowers are produced in July.

4" \$5.00 Sold in flats of 8

Hosta 'Baby Booties'

**Hosta 'Blue Angel'**

Height: 32-36"

Exposure: shade

Blue Angel Hosta

Giant; large blue-green foliage with heavy substance forms a huge mound up to 60" across when mature; white flowers in July. Good slug resistance. Introduced by Paul Aden in 1986.

True 1 gallon (1-14) \$6.50 (15+) \$6.20

Hosta 'Blue Angel'

**Hosta 'Blue Mouse Ears'**

Height: 4-6"

Exposure: shade

Blue Mouse Ears Hosta

Mini; small, rounded, glaucous blue leaves of thick substance. An excellent trough and front of the border specimen. Adorable lavender flowers on short scapes in July. This sport of H. 'Blue Cadet' was named 2008 Hosta of the Year.

4" \$5.00 Sold in flats of 8

Trade 1 gallon \$8.00

Hosta 'Blue Mouse Ears'

**Hosta 'Cathedral Windows'**

pp #17,295

Height: 20"

Exposure: part shade-shade

Cathedral Windows Hosta

Medium; leaves have a bright gold center with very wide, dark green margins. As the leaves mature, they become dome-shaped. Large, fragrant, white flowers are produced well above the foliage in late summer. A tetraploid sport of Stained Glass, it has the same shiny foliage and fast growth rate as its parent. Introduced by Hans Hansen. Sells out every year!

True 1 gallon (1-14) \$9.50 (15+) \$9.20

Hosta 'Cathedral Windows'

Hosta 'Cheatin Heart'

**Hosta 'Cheatin Heart'**

Cheatin Heart Hosta

Height: 8"

Exposure: part shade

Very small; bright yellow, heart-shaped, slightly wavy leaves. Plant in morning sun for the best leaf color. In more shade, the color deepens to chartreuse. In mid-summer, yellow scapes carry clusters of purple buds which open to small, bell-shaped, light lavender flowers.

4" \$5.00 Sold in flats of 8

Trade 1 gallon (1-14) \$7.50 (15+) \$7.20

Hosta 'Cherry Tart'

**Hosta 'Cherry Tart'**

Cherry Tart Hosta

Height: 6-8"

Exposure: part shade

Very small; emerges bright chartreuse and brightens up to glowing yellow in summer. An upright habit, red petioles, and narrow leaves make this hosta a real standout in the garden. Lavender flowers rise above the foliage in mid-summer. Use it in a raised planter to better view the red petioles.

4" \$5.00 Sold in flats of 8

Hosta 'Cracker Crumbs'

**Hosta 'Cracker Crumbs'**

Cracker Crumbs Hosta

Height: 5"

Exposure: part shade

Mini; This cute sport of H. 'Shiny Penny' features small chartreuse leaves bordered by a narrow green edge, and a slight twist to the leaf. Cracker Crumbs is a vigorous grower for a miniature.

4" \$5.00 Sold in flats of 8

Hosta 'Curly Fries'

**Hosta 'Curly Fries'**

Curly Fries Hosta

Height: 8"

Exposure: part shade-shade

Very small; forms an arching, wiggly clump of extremely rippled, narrow leaves. Morning sun will keep its chartreuse foliage the brightest. Mature plants will develop red speckled petioles. Lavender flowers in mid-summer. 2016 Hosta of the Year. A unique hosta that always sells out quickly.

4" \$5.00 Sold in flats of 8

Hosta 'Designer Genes'

**Hosta 'Designer Genes'**

Designer Genes Hosta

Height: 14"

Exposure: part shade

Small; glowing yellow leaves and striking red petioles. Compared to other yellow hostas, this one holds its color longer. In summer, the foliage mellows to a chartreuse color and purple flowers are carried on tall red scapes.

Trade 1 gallon (1-14) \$8.50 (15+) \$8.20

True 1 gallon (1-14) \$9.50 (15+) \$9.20

**Hosta 'Dragon Tails'**

Height: 3-5" Exposure: part shade

Dragon Tails Hosta

Mini; Chartreuse leaves are long and thin with undulating edges. For such a small plant, it makes a great specimen.

4" \$5.00 Sold in flats of 8

Hosta 'Dragon Tails'

**Hosta 'Fire Island'**

Height: 11-14" Exposure: part shade

Fire Island Hosta

Small; brilliant yellow foliage with red petioles, wavy margins, and lavender flowers. Fire Island is surprisingly bright in the spring, making it extremely popular in late April and May.

Trade 1 gallon (1-14) \$8.00 (15+) \$7.70

Hosta 'Fire Island'

**Hosta 'First Frost'**

Height: 16" Exposure: shade

First Frost Hosta

Medium; a sport of Halcyon with intense blue leaves that are edged with cream to white. Lavender flowers in mid-summer. The thick, waxy leaves look as good in August as they do in May. Hosta of the Year for 2010.

True 1 gallon (1-14) \$8.00 (15+) \$7.70

Hosta 'First Frost'

**Hosta 'Fragrant Blue'**

Height: 18-22" Exposure: shade

Fragrant Blue Hosta

Medium; chalk-blue foliage emerges all summer. Fragrant white flowers in August. Fragrant Blue is one of the best hostas for blue foliage in summer. Fertilize in the summer to keep it producing fresh new leaves.

Trade 1 gallon (1-14) \$5.50 (15+) \$5.20

True 1 gallon (1-14) \$6.50 (15+) \$6.20

Hosta 'Fragrant Blue'

**Hosta 'Gemstone'**

Height: 5" Exposure: shade

Gemstone Hosta

Mini; this vigorous grower forms a small clump of narrow, powdery blue leaves. The pointed, smooth leaves cup gently and have lightly wavy edges. In mid-summer, the foliage is topped with short scapes of lavender flowers. A hybrid of *H. venusta* x 'Dorset Blue' introduced by Plant Delights Nursery.

4" \$5.00 Sold in flats of 8

Hosta 'Gemstone'

Hosta 'Golden Meadows'

### Hosta 'Golden Meadows'

Golden Meadows Hosta

Height: 18"

Exposure: part shade-shade

Medium; a stunning sport of *H. sieboldiana* 'Elegans' discovered in the Netherlands in 1992. Its leaves are ruffled and slightly corrugated, with a very thick substance. If sited in full shade, the leaves are golden green edged in blue. More sun brings out a brighter, golden center.

True 1 gallon (1-14) \$8.50 (15+) \$8.20

Hosta 'Great Escape'

### Hosta 'Great Escape'

Great Escape Hosta

pp# 19,003

Height: 16"

Exposure: part shade

Medium; a striking hosta with wide, creamy white margins and intense blue centers. Lavender flowers in late summer. More vigorous than its predecessor *H. 'Blue Ivory'*, Great Escape is a sport of *H. 'Halcyon'* introduced by Hendrik Jan van den Top of the Netherlands.

Trade 1 gallon (1-14) \$8.00 (15+) \$7.70

Hosta 'Great Expectations'

### Hosta 'Great Expectations'

Great Expectations Hosta

Height: 20"

Exposure: part shade

Medium; thick, nearly round, puckered leaves have wide, blue-green margins that bleed into the creamy yellow center. White flowers appear in early summer. This hosta can be slow to establish and will benefit from regular applications of fertilizer and heavy watering during the first season. Spectacular once established. A sport of *H. sieboldiana* 'Elegans'.

Trade 1 gallon (1-14) \$7.50 (15+) \$7.20

Hosta 'Hideout'

### Hosta 'Hideout'

Hideout Hosta

Height: 6"

Exposure: part shade-shade

Mini; Hideout boasts slightly twisted, green leaves with a bright white center. A striking specimen for the front of the border or container garden. Pale purple flowers from mid to late July. A sport of *H. 'Hidden Cove'*.

4" \$5.00 Sold in flats of 8

Hosta 'Hush Puppie'

### Hosta 'Hush Puppie'

Hush Puppie Hosta

Height: 5-6"

Exposure: part shade-shade

Mini; this short, but fast growing *Hosta venusta* hybrid is perfect for edging and borders. Small green leaves are edged with a wide creamy yellow margin. Dark lavender flowers on 8" scapes in June.

4" \$5.00 Sold in flats of 8

**Hosta 'Independence'**

pp# 17,044

Height: 16-20"

Exposure: part shade-shade

Independence Hosta

Medium; a reverse, tetraploid sport of Revolution with a broad cream-white margin flecked with green. Lavender flowers in mid-summer. Include Hostas 'Independence', 'Liberty', 'Loyalist', 'Revolution', and 'Patriot' in your 4th of July and Memorial Day merchandising.

True 1 gallon (1-14) \$8.50 (15+) \$8.20

Hosta 'Independence'

**Hosta 'June'**

Height: 16-20"

Exposure: part shade

June Hosta

Medium; a sport of Halcyon with golden yellow leaves and wide blue-green margins. Pale lavender flowers appear in mid-summer. June does best in part shade, in deep shade plants will look like Touch of Class while too much sun can lead to a bleached look. Hosta of the Year for 2001.

True 1 gallon (1-14) \$8.00 (15+) \$7.70

Hosta 'June'

**Hosta 'Lakeside Dragonfly'**

Height: 14"

Exposure: part shade-shade

Lakeside Dragonfly Hosta

Small; glossy, dark green foliage has wide white margins and fills an area quickly; lavender flowers in mid-summer.

Trade 1 gallon (1-14) \$7.00 (15+) \$6.70

Hosta 'Lakeside Dragonfly'

**Hosta 'Liberty'**

pp #17,044

Height: 26"

Exposure: part shade

Liberty Hosta

Large; a polyploid sport of Sagae with wider gold margins and thicker substance. Lavender flowers appear in mid-summer. Liberty is much brighter than Sagae but shares the same beautiful, vase-shaped habit. 2012 Hosta of the Year.

True 1 gallon (1-14) \$9.00 (15+) \$8.70

Hosta 'Liberty'

**Hosta 'Little Treasure'**

pp# 21,210

Height: 6"

Exposure: part shade

Little Treasure Hosta

Mini; lanceolate, pointed, blue-green leaves have a creamy white center. In early summer, cream colored scapes topped with lavender flowers appear. Displays more vigor than its parent, Little Jay.

4" \$5.00 Sold in flats of 8

Hosta 'Little Treasure'

**Hosta 'Loyalist'**

Height: 16-20"

Exposure: part shade

Loyalist Hosta

Medium; a tetraploid, reverse sport of Patriot with wide white centers. Very similar to H. 'Fire and Ice'.

True 1 gallon (1-14) \$8.50 (15+) \$8.20

Hosta 'Margarita Gold'

**Hosta 'Margarita Gold'**

Height: 18-22"

Exposure: part shade

Margarita Gold Hosta

Medium; heavily puckered, gold leaves with narrow green margins. Holds up to summer heat very well with its brightest color in late summer. A Smith's Gardens selection from H. 'August Moon'.

True 1 gallon (1-14) \$7.00 (15+) \$6.70

Hosta 'Mini Skirt'

**Hosta 'Mini Skirt'**

pp# 26,743

Height: 5"

Exposure: part shade

Mini Skirt Hosta

Mini; a sport of H. 'Might Mouse', Mini Skirt features very thick, wavy, blue-green leaves with creamy margins. Pale lavender flowers appear in early to mid-summer.

4" \$7.00 Sold in flats of 8

Hosta montana 'Aureomarginata'

**Hosta montana 'Aureomarginata'**

Height: 27"

Exposure: part shade-shade

Montana Aureomarginata Hosta

Large; originally discovered in Japan in 1940. Large heart-shaped leaves of good substance are edged in bright gold and attractive, pale lavender flowers appear in July. This hosta has a slower growth rate, so extra water and fertilizer on young plants helps tremendously. A sport of *Hosta montana*. One of the first hostas to emerge in spring.

True 1 gallon (1-14) \$9.00 (15+) \$8.70

Hosta 'Mourning Dove'

**Hosta 'Mourning Dove'**

pp# 17,311

Height: 18"

Exposure: shade

Mourning Dove Hosta

Medium; long, narrow, blue-gray leaves with creamy yellow margins and silvery white leaf backs. Distinguished by its flowing, low spreading, mounding habit. Pale lavender flowers in August. Bred by Hans Hansen. Mourning Dove is one of the first hostas to emerge in spring.

Trade 1 gallon (1-14) \$8.00 (15+) \$7.70

**Hosta 'Night Before Christmas'**

Night Before Christmas Hosta

Height: 16-22"

Exposure: part to full shade

Medium; huge, dark green leaves have bright white centers. Pale lavender flowers appear in mid-summer. A rapid grower for a white centered hosta, plants quickly mature into an eye catching mound. A tetraploid sport of H. 'White Christmas'. Leaved may green up in the heat of summer.

True 1 gallon (1-14) \$8.50 (15+) \$8.20

Hosta 'Night Before Christmas'

**Hosta 'Paradigm'**

Paradigm Hosta

Height: 20"

Exposure: light shade

Medium; heavily quilted, thick textured, gold leaves have a wide blue-green margin. Lavender flowers appear in summer. Formerly known as Abiqua Paradigm, Hosta of the Year for 2007. A sport of H. 'Abiqua Recluse'.

True 1 gallon (1-14) \$9.00 (15+) \$8.70

Hosta 'Paradigm'

**Hosta 'Paradise Island'**

Paradise Island Hosta

pp# 20,798

Height: 14"

Exposure: part shade

Small; a sport of Fire Island with bright yellow leaves, narrow dark-green margins, and red petioles. Lavender flowers in August. Because it is so bright in the spring, it sells very quickly.

Trade 1 gallon (1-14) \$8.50 (15+) \$8.20

Hosta 'Paradise Island'

**Hosta 'Patriot'**

Patriot Hosta

Height: 16-20"

Exposure: part shade-shade

Medium; dark green leaves with wide white edges. Lavender flowers in mid-summer. A tetraploid sport of H. 'Francee'.

True 1 gallon (1-14) \$7.00 (15+) \$6.70

Hosta 'Patriot'

**Hosta 'Praying Hands'**

Praying Hands Hosta

Height: 18"

Exposure: part shade

Medium; distinctly vase shaped habit. Narrow, dark green leaves with a wavy edge are cupped and folded inward, as if in prayer. Very thin gold margin. Lavender flowers in late summer. Hosta of the Year for 2011.

Trade 1 gallon (1-14) \$9.00 (15+) \$8.70

Hosta 'Praying Hands'

Hosta 'Queen Josephine'

### Hosta 'Queen Josephine'

Queen Josephine Hosta

Height: 16-20"

Exposure: part shade-shade

Medium; extremely shiny, plastic-like, dark green leaves with wide yellow margins. Lavender flowers appear in mid-summer. A sport of H. 'Josephine'.

True 1 gallon (1-14) \$8.00 (15+) \$7.70

Hosta 'Rainbow's End'

### Hosta 'Rainbow's End'

Rainbow's End Hosta

pp #17,251

Height: 10"

Exposure: part to full shade

Very small; thick, rubbery leaves have an absolutely stunning, irregular variegation with bright yellow centers and green margins that jet into each other dramatically. Large, lavender flowers on red scapes in late summer. A sport of H. 'Obsession' from Hans Hansen.

4" \$5.00 Sold in flats of 8

Hosta 'Sagae'

### Hosta 'Sagae'

Sagae Hosta

Height: 24-28"

Exposure: part shade-shade

Large; wide, waxy, undulating, gray-green leaves with irregular gold margins. Sagae matures into a dramatic specimen. Lavender flowers on 4' stems appear in mid-summer. Our favorite large hosta for its vigorous growth rate and beautiful vase-shaped habit. A sport of *H. fluctuans*. Hosta of the Year in 2000.

True 1 gallon \$8.50

Hosta 'Silver Bay'

### Hosta 'Silver Bay'

Silver Bay Hosta

Height: 14"

Exposure: shade

Small; intense silver-blue, heavily corrugated, thick rounded leaves that hold their color very well. Foliage tends to cup, is unruly, and has a very thick bloom on the back side of the leaves. A strong grower that eyes up quickly, Silver Bay is a cross between H. 'Silver Frost' and 'Blue Moon'. Pale lavender flowers in summer.

True 1 gallon (1-14) \$8.50 (15+) \$8.20

Hosta 'Spartacus'

### Hosta 'Spartacus'

Spartacus Hosta

Height: 17"

Exposure: part shade

Medium; elongated heart-shaped, dark green leaves are outlined by a narrow yellow margin, accented by ripples on the leaf edge. Pale lavender flowers are produced on 3' tall scapes in early summer. A sport of H. 'Sea Gulf Stream' introduced by Hans Hansen.

True 1 gallon \$9.00

**Hosta 'Splendid Sarah'**

Splendid Sarah Hosta

Height: 16"

Exposure: part shade

Medium; green leaves that turn yellow in summer are heavily corrugated and feature a wide, white margin. The edge gets wider every year as the plant matures. Lavender flowers in summer. Splendid Sarah is a seedling selection out of H. 'Pin Stripe Sister' from Dick and Jane Ward.

True 1 gallon \$8.00

Hosta 'Splendid Sarah'

**Hosta 'Stained Glass'**

Stained Glass Hosta

Height: 24"

Exposure: part shade

Large; a sport of H. 'Guacamole' with much brighter foliage that colors up early and stays bright all summer. Fragrant white flowers appear in summer. A fast growth rate and 2006 Hosta of the Year.

True 1 gallon \$8.00

Hosta 'Stained Glass'

**Hosta 'Striptease'**

Striptease Hosta

Height: 16-18"

Exposure: part shade

Medium; a tetraploid sport of H. 'Gold Standard'. Dark green leaves have a narrow gold center with an irregular, white line dividing the green and gold. Pale lavender flowers in mid-summer. A fast grower that eyes up quickly. 2005 Hosta of the Year.

True 1 gallon \$9.00

Hosta 'Striptease'

**Hosta 'Sum and Substance'**

Sum and Substance Hosta

Height: 36"

Exposure: part shade

Giant; a triploid with large chartreuse colored leaves are very sun tolerant. Lavender flowers appear in mid-summer. 2004 Hosta of the Year.

True 1 gallon (1-14) \$7.50 (15+) \$7.20

Hosta 'Sum and Substance'

**Hosta 'Sum of All'**

Sum of All Hosta

Height: 36"

Exposure: part shade-shade

Giant; heavily corrugated, absolutely huge green leaves with a wide gold margin. It's big, it's bold, and provides a very strong presence in the shade garden. Pale lavender flowers in summer. A tissue culture sport of H. 'Sum and Substance' from Mark Zilis.

True 1 gallon (1-14) \$9.00 (15+) \$8.70

Hosta 'Summer Music'

**Hosta 'Summer Music'**

Summer Music Hosta

Height: 16-20" Exposure: part shade-shade

Medium; broad leaves have bright white centers which are surrounded by irregular, yellow to chartreuse borders, all within irregular green margins. Very colorful. To bring out rich greens, grow it in more shade; to bring out the yellows and cream, grow it in light shade. Pale lavender flowers appear in July. A sport of H. 'Shade Master' found at Klehm Nursery.

Trade 1 gallon \$8.00

Hosta 'Teaspoon'

**Hosta 'Teaspoon'**

Teaspoon Hosta

Height: 11" Exposure: part shade-shade

Very Small; deeply-cupped, green leaves are held horizontally on upright petioles, looking like little green spoons. Lavender flowers on 20" scapes in mid-summer. A hybrid of H. 'Birchwood Parky's Gold' x 'Golden Tiara'.

4" \$5.00 Sold in flats of 8

Hosta 'Twist of Lime'

**Hosta 'Twist of Lime'**

Twist of Lime Hosta

Height: 6" Exposure: part shade-shade

Mini; a sport of H. 'Lemon Lime' with yellow leaves bordered by a narrow dark green margin. Lavender flowers in mid-summer.

4" \$5.00 Sold in flats of 8

Hosta 'Volcano Island'

**Hosta 'Volcano Island'**

Volcano Island Hosta

Height: 12" Exposure: part shade-shade

Small; bright yellow leaves with wide, dark green margins when sited in part shade. More sun brings out the yellow coloration. The leaves have good substance, protecting the plants from slugs and sun scorch in the heat of the summer. Beautiful, purple flowers in mid-summer sit atop showy, red speckled petioles. A tetraploid sport of H. 'Paradise Island'.

True 1 gallon (1-14) \$8.50 (15+) \$8.20

Hosta 'Vulcan'

**Hosta 'Vulcan'**

Vulcan Hosta

Height: 20" Exposure: part shade-shade

Medium; a vigorous, white-centered sport of H. 'Captain Kirk'. Contrasting dark green margins and lighter yellow coloring jet towards the white center of each broad, heart-shaped leaf. White scapes carry the light lavender flowers just above the foliage in mid to late summer.

True 1 gallon (1-14) \$8.00 (15+) \$7.70

**Hosta 'Winter Snow'**

Winter Snow Hosta

Height: 32-36"

Exposure: full shade

Giant; a sport of Sum and Substance with huge, shiny, chartreuse leaves and a wide white margin. Deep veins and wavy edges add interest to this already stunning plant. Pale lavender flowers in summer. Very similar to H. 'Parhelion', but with shiny foliage and slightly wider, white margins.

True 1 gallon (1-14) \$8.50 (15+) \$8.20

Hosta 'Winter Snow'

**Hosta 'Woodland Elf'**

Woodland Elf Hosta

Height: 5"

Exposure: part shade-shade

Mini; leaves are slightly wavy and cupped, with a medium green center and white margin. Lavender flowers in July. A hybrid of H. 'Little Wonder' x 'Popo' introduced by Naylor Creek Nursery.

4" \$5.00 Sold in flats of 8

Hosta 'Woodland Elf'

**Iris ensata 'Lion King'**

Lion King Japanese Iris

Height: 36-48"

Exposure: full sun

These tall, stately perennials are wonderful plants for average to moist soil conditions producing large, 6-7" blooms in mid-June. Each ruffled petal displays a grape purple edge that feathers into the pure white center, and at the very base of each petal there is a tiny splash of yellow. Japanese iris bloom about a month after Siberian iris.

True 1 gallon (1-14) \$8.00 (15+) \$7.70

Iris ensata 'Lion King'

**Iris ensata 'Variegata'**

Variegated Japanese Iris

Height: 24-36"

Exposure: sun

Attractive green and white variegated foliage looks great even when the plants are not in flower, extending the sales season from early spring through fall. The tall stately plants are topped with royal purple flowers in mid-June. Great near water's edge and in moist to average soils.

True 1 gallon (1-14) \$7.00 (15+) \$6.70

Iris ensata 'Variegata'

**Iris sibirica 'Caesar's Brother'**

Caesar's Brother Siberian Iris

Height: 3'

Exposure: sun-light shade

A very prolific cultivar, Caesar's Brother produces cobalt-blue flowers with bright yellow and white blazes in early summer. Bright green, gracefully arching foliage makes a soft vertical accent in the garden. Native to moist meadows, Siberian Iris do well in average garden soil with adequate water.

True 1 gallon (1-14) \$6.50 (15+) \$6.20

Iris s. 'Caesar's Brother'

Isotoma fluviatilis

**Isotoma fluviatilis**

Blue Star Creeper

Height: 1-2" tall Exposure: sun-shade

Our favorite groundcover! Sun or shade, it's happy either way. This low maintenance, creeping perennial forms a flat carpet of tiny green leaves smothered with starry, soft-blue flowers. Works great between stepping stones, around ponds, or as a lawn substitute. Blooms from spring to fall and is very tolerant of foot traffic.

4" \$2.75 Sold in flats of 8

Trade 1 gallon (1-14) \$4.75 (15+) \$4.45

Isotoma fluviatilis alba

**Isotoma fluviatilis alba**

White Star Creeper

Height: 1-2" Exposure: sun to shade

Now in white! Same great plant with bright white flowers. The leaves are a bit smaller and the plant is lower growing.

4" \$3.00 Sold in flats of 8

Trade 1 gallon (1-14) \$5.00 (15+) \$4.70

Kirengeshoma palmata

**Kirengeshoma palmata**

Yellow Waxbells

Height: 30-40" Exposure: light shade-shade

A shrubby looking perennial that is a wonderful addition to the shade garden. Large, maple-like foliage provides an attractive background for the tubular, waxy, bright yellow flowers that hang in loose chains from late summer through fall. Waxbells prefers average soils that are consistently moist.

True 1 gallon (1-14) \$7.00 (15+) \$6.70

Knautia 'Thunder & Lightning'

**Knautia macedonica 'Thunder and Lightning'**

Thunder and Lightning Pincushion Flower

pp# 21,437

Height: 12-15" Exposure: sun-part shade

The fuzzy, gray-green leaves of Thunder and Lightning are heavily outlined with a bold white margin, making a dramatic contrast with the bright magenta, fully double flowers. The foliage emerges early, adding a welcome sparkle to the often bleak early April garden. The flowers, which are excellent for cutting or dried arrangements, begin to appear in June and continue sporadically until frost.

True 1 gallon (1-14) \$7.00 (15+) \$6.70

Lavandula Big Time Blue

**Lavandula angustifolia Big Time Blue ('Armtipp01')**

Big Time Blue English Lavender

pp# 24,827

Height: 12-15" Exposure: Full sun

Large than average, purple-blue flower spikes over gray-green foliage makes this lavender an attractive addition to the border or herb garden. Relatively easy to care for, provided it's situated in a sunny and well-drained location. Ideal choice for containers, raised beds, and rock gardens.

Trade 1 gallon (1-14) \$5.75 (15+) \$5.45

**Lavandula angustifolia 'Munstead'**

Munstead English Lavender

Height: 12-16"

Exposure: sun

Thought to be the hardiest of the lavenders, Munstead is a classic with its shorter, compact habit and earlier bloom period from late spring to late summer.

Trade 1 gallon (1-14) \$5.50 (15+) \$5.20

True 1 gallon (1-14) \$6.50 (15+) \$6.20

Lavandula 'Munstead'

**NEW Lavandula x intermedia Phenomenal ('Niko')**

pp# 24,193

Phenomenal Lavender

Height: 24-32"

Exposure: Full sun

Phenomenal lives up to its name! This hybrid lavender features great tolerance to extreme heat, cold, humidity, and common diseases. Larger than average, Phenomenal forms a very uniform, dense mound of silvery green foliage topped in mid to late summer with tall wands of rich lavender purple flowers. Great used as a low hedge.

True 1 gallon (1-14) \$6.50 (15+) \$6.20

Lavandula Phenomenal

**Lavandula angustifolia Platinum Blonde ('Momparker')**

pp# 23,834

Platinum Blonde English Lavender

Height: 16-24"

Exposure: Full sun

Platinum Blonde features unique, variegated, needle-like foliage that is aromatic and evergreen. Fragrant blue-purple flowers bloom in summer. Does best in drier soils and full sun. Do not prune in the fall.

Trade 1 gallon (1-14) \$7.00 (15+) \$6.70

Lavandula Platinum Blonde

**Leucanthemum 'Becky'**

Becky Shasta Daisy

Height: 36"

Exposure: sun-light shade

In our opinion, Becky is still the best daisy around, producing masses of large, single white flowers with a yellow cone from June to September. Strong sturdy stems and great durability in the garden. It is a great cut flower and will re-bloom well with deadheading. Wonderful for the beginning gardener because it's sure to grow! Perennial of the Year for 2003.

True 1 gallon (1-14) \$5.50 (15+) \$5.20

Leucanthemum 'Becky'

**Leucanthemum 'Lumos'**

Lumos Shasta Daisy

ppaf

Height: 12-18"

Exposure: sun-part shade

This dwarf selection has a strong, compact habit. From late spring to mid-summer, Lumos is covered in yellow daisies that hold their color, rather than fading to off white. Provide good drainage and less than average water.

True 1 gallon (1-14) \$7.00 (15+) \$6.70

Leucanthemum 'Lumos'

Leucanthemum 'Snowcap'

**Leucanthemum 'Snowcap'**

Snowcap Shasta Daisy

Height: 8-10"

Exposure: sun-light shade

Snowcap produces an abundance of large, single, pure white flowers with a yellow cone in June and July. Asexually produced for a very uniform crop of compact, bushy plants. Despite recent introductions, Snowcap is still our favorite dwarf daisy because of its uniformity, reliable flowering, tight habit, and durability in the landscape.

True 1 gallon (1-14) \$5.50 (15+) \$5.20

Liatris spicata 'Kobold' Original

**Liatris spicata 'Kobold' Original**

Kobold Blazing Star

Height: 14-18"

Exposure: sun

This is the original strain from Holland maintained true to form by division to ensure uniform dwarf plants. A native to Ohio, Liatris have dark green, grassy foliage and produce multiple spikes of rose-purple flowers in June. Although native to moist meadows, this plant adapts wonderfully to average, even dry soils. A great cut flower.

True 1 gallon \$6.00

Ligularia 'Little Rocket'

**Ligularia 'Little Rocket'**

Little Rocket Ligularia

pp# 14,621

Height: 36-48"

Exposure: shade

Large, heart-shaped, toothed leaves unfurl in early spring forming a dense mound of foliage. A profusion of flower spikes rise above the foliage in mid-summer and are covered in bright yellow daisy-like flowers. Its wonderfully bold, coarse texture can be very effective in the garden when combined with hostas and ferns. Requires shade and consistently damp soils to perform its best. Little Rocket was selected for its compact habit and heavy flower production. L. x hessei 'Laternchen' (Little Lantern) x L. stenocephala 'The Rocket'.

True 1 gallon \$8.50

Lilium 'Tiny Bee'

Lilium 'Tiny Diamond'

Lilium 'Tiny Padhye'

**Lilium asiatic Tiny Series**

Height: 12-18" tall Exposure: sun

Asiatic Lily 

The Tiny Series, originally developed for container production, are also versatile garden plants. Their dwarf height and strong stems make them great for the sun border. The buds tease you for weeks before the large blooms burst open. When the flower display is over, the clean green foliage blends into the background of the garden. Planted 3 bulbs per pot.

'Tiny Bee' - rich yellow flowers with subtle black freckles [pic on opposite page]  
pp# 16,255

'Tiny Diamond' - rose-red flowers with white centers [pic on opposite page]  
ppaf

'Tiny Double You' - double, bright orange flowers  
pp# 22,875

'Tiny Padhye' - white flowers with a large burgundy eye [pic on opposite page]  
pp# 20,544

**NEW** 'Tiny Rocket' - dark red flowers with darker highlights  
pp# 24,500

True 1 gallon \$5.75

Lilium 'Tiny Double You'

Lilium 'Tiny Rocket'

**NEW** Lobelia siphilitica 'Blue Selection'

Height: 24-36" Exposure: Full sun to Light shade

Improved Great Blue Lobelia 

Great Blue Lobelia is a native, typically found in moist to wet locations along streams, springs, swamps, meadows, and low wooded areas. This clump-forming perennial features blue, tubular flowers. An improvement over the straight species, Blue Selection is more compact, has denser flower spikes, and more flowers per plant. The bloom color is also more consistent amongst the plants. Introduced by Jelitto .

Trade 1 gallon (1-14) \$5.75 (15+) \$5.45

Lobelia s. 'Blue Selection'

**Lobelia speciosa Starship series**

Height: 20-24" Exposure: full sun

Cardinal Flower 

Cardinal Flowers are excellent border plants for moist locations. The Starship series flowers earlier and has better branching than older selections. The rich green foliage remains attractive throughout the growing season.

'Starship Deep Rose' - intense rose-pink flowers on dark stems

'Starship Scarlet' - vibrant, scarlet red flowers on dark stems; this bloomed through September in our garden

True 1 gallon (1-14) \$5.75 (15+) \$5.45

'Lobelia Starship Scarlet'

Lobelia 'Starship Deep Rose'

'Braveheart'

'Zebrina'

### Malva sylvestris

Height: 24-36"

Exposure: full sun

A great plant for the cottage garden, this cousin to the Hollyhock produces copious amounts of flowers from April to September. Plant habit is upright and bushy in average garden soils, while overly rich soils can encourage the plant to grow tall, weak, and floppy. Mallows tend to be short lived perennials, however pruning the flower stems to limit seed set will help with perennializing.

'Braveheart' - mauve-rose flowers, striped with purple

'Zebrina' - soft pink flowers with striking, raspberry-purple veins

True 1 gallon (1-14) \$7.00 (15+) \$6.70

Balmy Pink

Balmy Purple

### Monarda didyma

Height: 12-48"

Exposure: full sun to part shade

Beebalm in the wild thrives along stream banks with overhanging trees, providing the plants with constant moisture and light shade. If grown properly, Beebalm can be stunning in the garden. Rich, moist soil and good air circulation are required to keep them free of powdery mildew and other foliar diseases.

Balmy Pink ('Balbalmink') - bright pink flowers, 12" tall. From Ball Horticulture pp# 26,566

Balmy Purple ('Balbalmurp') - purple-red flowers, 12" tall. From Ball Hort. pp# 25,561

Balmy Rose ('Balbalmose') - rose colored flowers, 12" tall. From Ball Hort. ppaf

Balmy Rose

'Bee-Free'

'Bee-Free' - electric purple flowers; 15-18" tall. Part of the Bee-You series from Plants Nouveau ppaf

'Bee-Happy' - cherry pink flowers, 15-18" tall. Part of the Bee-You series from Plants Nouveau ppaf

'Fireball' - huge red-purple flowers, extra fuzzy leaves on fat square stems; pp# 14,235 24" tall

'Jacob Cline'

'Fireball'

**Nepeta x faassenii Junior Walker™ ('Novanepjun')**

pp# 23,074

Height: 16-18"

Exposure: sun

Junior Walker™ Catmint

Catmint is an excellent, fast growing groundcover with aromatic, gray-green foliage. Plants are covered with small blue flowers from May to August. It responds well to shearing in mid-summer, which promotes repeat blooming and a tighter habit. Tolerant of low fertility and drought. Junior Walker is a sterile, dwarf, compact form of N. 'Walker's Low'.

True 1 gallon (1-14) \$5.50 (15+) \$5.20

Nepeta Junior Walker™

**Nepeta x faassenii 'Walker's Low'**

Height: 18-24"

Exposure: sun

Walker's Low Catmint

Clothed in aromatic, gray-green foliage, spikes of lavender-blue flowers are produced from May to August. Though not growing very low, this tough perennial really performs in hot, dry sites. It can rebloom until fall when grown under good conditions and sheared to remove spent flowers. Makes an excellent, fast growing groundcover. Perennial of the Year for 2007.

True 1 gallon (1-14) \$5.50 (15+) \$5.20

Nepeta 'Walker's Low'

**Oenothera berlandieri Twilight ('Turner01')**

pp# 17,230

Height: 10-12"

Exposure: full sun

Twilight Evening Primrose

This sport of O. 'Siskiyou' is covered in mauve-pink flowers throughout early summer. New growth emerging in the spring appears deep purple, but during the warmer months, it changes to green with a purple mid-vein. Performs best in drier soils.

True 1 gallon (1-14) \$6.00 (15+) \$5.70

Oenothera b. Twilight

**Papaver nudicaule 'Champagne Bubbles Mix'**

Height: 12-18"

Exposure: full sun

Champagne Bubbles Iceland Poppy

Iceland Poppies are short-lived perennials that usually self-seed, coming back every year. Plants bear large, salmony pink, orange, yellow, or red crepe paper flowers for weeks, beginning in late spring. Removing faded flowers will encourage more buds to form, but allow some flowers to set seed, so they may self-seed into the garden.

Trade 1 gallon (1-14) \$5.25 (15+) \$4.95

Papaver 'Champagne Bubbles Mix'

** Penstemon 'Blackbeard'**

pp#f

Height: 28-34"

Exposure: full sun

Blackbeard Beardtongue

Blackbeard features purple leaves that hold their dark color all season, rather than turning green. Its sturdy stems help the plant stand tall, with no need for staking. In early summer, spikes of tubular lilac purple flowers rise above the foliage. A Walters Gardens Introduction.

True 1 gallon (1-14) \$5.75 (15+) \$5.45

Penstemon 'Blackbeard'

Penstemon 'Cherry Sparks'

**Penstemon 'Cherry Sparks'**

Cherry Sparks Beardtongue

Height: 18-20"

Exposure: full sun

Cherry Sparks has large, trumpet-shaped, cherry red flowers with light pink throats. Flowers begin blooming in early summer and continue for weeks. Blooms are sterile - no ugly seed heads. Dead-heading will encourage reblooming. Grows best in dry to average, well-drained soils in full sun.

True 1 gallon \$6.25

Penstemon 'Dark Towers'

**Penstemon 'Dark Towers'**

Dark Towers Beardtongue

Height: 30-36"

Exposure: full sun

Dark Towers Beardtongue features glossy, bronze-red foliage, topped with masses of pink flowers in July and August. Compared to P. 'Husker's Red', this selection has much darker foliage which stays dark all summer. Bred by Dale Lindgren of University of Nebraska, P. digitalis 'Husker's Red' x P. 'Prairie Splendor'.

True 1 gallon (1-14) \$5.75 (15+) \$5.45

Penstemon 'Prairie Dusk'

**Penstemon barbatus 'Prairie Dusk'**

Prairie Dusk Beardtongue

Height: 18-20"

Exposure: full sun

Showy spikes of lilac-pink, trumpet shaped flowers rise above low clumps of deep green foliage in late spring and early summer. Basal foliage remains evergreen through the winter.

True 1 gallon (1-14) \$5.75 (15+) \$5.45

Penstemon 'Red Riding Hood'

**Penstemon schmidel 'Red Riding Hood'**

Red Riding Hood Beardtongue

pp# 18,950

Height: 18-24"

Exposure: full sun

Bright, neon red tubular flowers contrast nicely against the rich green lanceolate foliage. Flowering starts in early summer and continues for weeks. Grows best in dry to average, well-drained soils. Shear in mid to late summer to allow a new flush of flowers in fall.

True 1 gallon (1-14) \$5.75 (15+) \$5.45

**Penstemon x mexicali**

Mexican Beard Tongue

Exposure: full sun

This long blooming native hybrid produces an abundance of tall, showy spikes of bright, tubular, bell-shaped flowers that are very attractive to butterflies and hummingbirds. Waxy green foliage stays lush through the heat of summer. Penstemon thrive in average and well-drained garden conditions, and are very drought tolerant once established. Deadheading after the first flush of flowers will encourage re-bloom in early fall. Song birds love the seeds in fall and winter. A flowering machine that gives perpetual color in the perennial border, mixed containers, etc. Plant Select Introductions.

Penstemon x mexicali Pikes Peak Purple

**Pikes Peak Purple ('P0075')** - tall showy spikes of grape jelly colored flowers with striped throats, 30" tall

**Red Rocks ('P0085')** - tall showy spikes of bright rose-pink flowers, 18-24" tall

True 1 gallon \$5.75

Penstemon x mexicali Red Rocks

**Perovskia atriplicifolia 'Blue Steel'**

Blue Steel Russian Sage

Height: 24-36"

Exposure: full sun

This innovative new cultivar is a seed selection from PanAmerican Seed that blooms the first year without vernalization. Blue Steel produces clouds of small lavender-blue flowers on sturdy stems in summer above aromatic, silvery foliage.

True 1 gallon (1-14) \$6.00 (15+) \$5.70

Forever Pink Phlox

Developed by the Chicago Botanical Garden, Forever Pink is an exceptional, garden worthy phlox. Vigorous plants grow to a compact mound of bright green foliage that is extremely resistant to powdery mildew. Vivid purplish-pink flowers cover the foliage for 3 weeks in late spring to early summer, with repeat flowering in October. Phlox glaberrima ssp. triflora x Phlox carolina 'Bill Baker'.

Trade 1 gallon (1-14) \$6.00 (15+) \$5.70

Phlox Forever Pink

Physostegia 'Autumn Carnival'

**Physostegia virginiana 'Autumn Carnival'**

pp#f

Height: 16"

Exposure: sun-light shade

Autumn Carnival Obedient Plant

Autumn Carnival features saturated pink flowers, blooming in late summer. Compared to P. 'Pink Manners', Autumn Carnival is a shorter, denser plant with darker, more saturated pink flowers that likewise doesn't get aggressive in the garden.

True 1 gallon (1-14) \$5.50 (15+) \$5.20

Physostegia 'Miss Manners'

**Physostegia virginiana 'Miss Manners'**

pp# 12,637

Height: 18-24"

Exposure: sun-light shade

Miss Manners Obedient Plant

A compact, slower growing selection that won't take over the garden. Pristine white snapdragon-like flowers are borne on strong stems in mid to late summer. It's an excellent plant for that perpetually moist spot.

True 1 gallon (1-14) \$5.50 (15+) \$5.20

Physostegia 'Pink Manners'

**Physostegia virginiana 'Pink Manners'**

pp# 23,482

Height: 24-36"

Exposure: sun-light shade

Pink Manners Obedient Plant

Pink Manners, like Miss Manners, is a clumping forming, slow spreading variety of Physostegia. She has dark green foliage that contrasts beautifully with the pale pink flowers in August and September. A heavy feeder, fertilize a couple of times in the season to maintain lush, dark green foliage.

True 1 gallon (1-14) \$5.50 (15+) \$5.20

Platycodon 'Sentimental Blue'

**Platycodon grandiflorus 'Sentimental Blue'**

Height: 6-10"

Exposure: sun-light shade

Sentimental Blue Balloon Flower

Sentimental Blue is a compact plant with large, blue-purple flowers from June to August. Inflated buds resemble, and can be popped like, balloons. Drought tolerant, it does not like wet soil. Deadheading promotes quicker re-bloom. Irresistibly cute! Becoming scarce in the trade due to seed shortage.

Trade 1 gallon \$5.50

Polygonatum humile

**Polygonatum humile**

Height: 4-6"

Exposure: part to full shade

Dwarf Solomon's Seal

Dwarf Solomon's Seal is an upright perennial with glossy, dark green foliage that makes a great groundcover for the shade. Tiny white flowers in early May hang like bells from the leaf axils. Golden yellow fall color. Much more durable than it appears. It's a good cut flower for miniature arrangements. Difficult to locate in the trade.

4" \$3.00 Sold in flats if 8

**Polygonatum odoratum 'Variegatum'**

Variegated Solomon's Seal

Height: 24-30"

Exposure: light shade-shade

Variegated Solomon's Seal is a graceful plant with white edged green leaves on arching stems. Small white flowers in May hang like bells from the leaf axils. This is a great plant to lighten up a shady area and to add a unique arching structure. A slow growing spreader, but well worth the wait! Perennial of the Year for 2013.

True 1 gallon (1-14) \$7.00 (15+) \$6.70

Polygonatum 'Variegatum'

**Pulmonaria 'Shrimps on the Barbie'**

Shrimps on the Barbie Lungwort

Height: 12"

Exposure: part shade-shade

Bright pink flowers cover the plants in early spring, when most perennials are still asleep. The flowers hold their pink color rather than shifting like most Lungwort. The crisp apple green foliage with bright white spotting adds interest and contrast in the summer even after it's done flowering.

True 1 gallon (1-14) \$7.00 (15+) \$6.70

Pulmonaria 'Shrimps on the Barbie'

**Pulmonaria 'Trevi Fountain'**

Trevi Fountain Lungwort

pp# 13,047

Height: 12"

Exposure: part shade-shade

A fantastic groundcover for the shade garden, Trevi Fountain produces abundant clusters of cobalt-blue flowers in early spring. Its dark green leaves are heavily spotted and hold up very well throughout the summer. This has been our favorite Pulmonaria variety for persistence, vigor and flower color since 2000.

True 1 gallon (1-14) \$7.00 (15+) \$6.70

Pulmonaria 'Trevi Fountain'

**Rudbeckia fulgida var. sullivantii 'Goldsturm'**

Goldsturm Black-eyed Susan

Height: 2-4'

Exposure: sun-light shade

Possibly one of the most well known of our native prairie plants, with its flashy golden yellow daisy-like flowers and black cones. Flowering profusely in July and August, Goldsturm combines well with grasses, penstemon, and leucanthemum. PPA Perennial of the Year in 1999.

True 1 gallon (1-14) \$5.50 (15+) \$5.20

Rudbeckia 'Goldsturm'

**Rudbeckia f. var. sullivantii 'Little Goldstar'**

Little Goldstar Black-eyed Susan

pp# 22,397

Height: 12-14"

Exposure: full sun

Unlike many previous selections touted as dwarf, Little Goldstar really is petite. This short bushy selection of Black-eyed Susan is covered in yellow daisy-like flowers in late summer and has been very resistant to septoria fungus (the blackish-purple lesions that infect the leaves of Goldsturm).

Trade 1 gallon (1-14) \$6.25 (15+) \$5.95

Rudbeckia 'Little Goldstar'

Rudbeckia 'Viette's Little Suzy'

Rudbeckia f. var. sp. 'Viette's Little Suzy'

Viette's Little Suzy Black-eyed Susan

Height: 18-24"

Exposure: sun-light shade

Deep golden yellow flowers are produced from late summer into fall. Shorter in stature, it is well suited for today's smaller landscape. An under used Black-eyed Susan that typically begins to flower 4 weeks before R. 'Goldsturm' with more lanceolate foliage and a less vigorous growth rate.

True 1 gallon (1-14) \$6.00 (15+) \$5.70

April Night

East Friesland

Salvia

Height: 10-24"

Exposure: sun-light shade

Garden Sage

Garden sages are easy to grow perennials that thrive with minimum care. They prefer full sun to part shade and well drained soil, are insect and disease resistant, and have a long flowering duration. Flowers are held in upright spikes above the foliage from May to mid-summer. Prune in half after the first flush of flowers for denser habit and cleaner re-bloom.

'April Night' ('DSALRS203') - vivid, violet-blue flowers, blooms about a month earlier than May Night; 12-14" tall

'Caradonna' - taller, but with a very upright habit; purple flowers on nearly black stems and leaf petioles, 18-24" tall

'East Friesland' - blue-purple flowers, compact habit; seems to perform better in the Cincinnati area than other purple sages; 18-24" tall

'May Night' - dark blue-purple flowers, compact habit; 18-24" tall

'Sensation Deep Rose Improved' - extremely floriferous, bright pink flowers completely cover the foliage. Deep purple stems accent the pink flowers nicely, 14-18" tall

'Sensation Sky Blue' - mauve purple stems support flower spikes that are not exactly sky blue as the name suggests, but more of a medium blue violet color; 10-12" tall

'Sensation White' - bright white flowers, extremely floriferous; 10-12" tall

'Sensation Deep Rose Improved'

Salvia 'Caradonna'

True 1 gallon (1-14) \$5.75 (15+) \$5.45

2 gallon (1-14) \$7.50 (15+) \$7.20

Salvia 'May Night'

Salvia 'Sensation Sky Blue'

Salvia 'Sensation White'

**Salvia guarantica 'Black and Blue'**

Black and Blue Anise Sage

Height: 24-48"

Exposure: full sun

Black and Blue features vibrant cobalt blue, hooded blooms with contrasting near-black calyces and stems. Large flowers sit above the fragrant foliage on spikes from mid-summer to mid-fall. Deadheading will prolong the bloom time. Considered an annual, however this plant can perennialize if given a protected site or excellent drainage during the winter.

True 1 gallon (1-14) \$5.50 (15+) \$5.20

Salvia g. 'Black and Blue'

**Scabiosa columbaria**

Pincushion Flower

Height: 10-15"

Exposure: sun

Pincushions have a long and profuse bloom period, starting in late April and continuing until frost. Flowers are held above the low foliage on wiry stems. A short lived perennial with ferny, gray-green foliage. It likes full sun and average to low water. Be aware that Scabiosas are prone to fungal problems in high humidity locations, good aeration is beneficial.

'Butterfly Blue' - lavender-blue flowers, PPA Perennial of the Year in 2000

Flutter Rose Pink ('Balfluttropi') - large pink flowers; compact foliage  
pp# 27,809

'Vivid Violet' - large violet flowers  
pp# 19,260

True 1 gallon (1-14) \$5.50 (15+) \$5.20

'Butterfly Blue'

Flutter Rose Pink

Scabiosa 'Vivid Violet'

**Sedum 'Dazzleberry'**

Dazzleberry Stonecrop

pp# 22,457

Height: 6-10"

Exposure: sun

This low growing sedum has striking smoky blue-gray foliage that is covered in large clusters of crimson flowers for up to 6 weeks in August and September.

Trade 1 gallon \$5.00

Sedum 'Dazzleberry'

**Sedum 'Firecracker'**

Firecracker Stonecrop

pp# 26,595

Height: 4-6"

Exposure: sun

This low growing sedum has striking ruby red foliage that is covered in large clusters of hot pink flowers for up to 6 weeks in August and September.

Trade 1 gallon \$5.00

Sedum 'Firecracker'

Sedum 'Neon'

**Sedum spectabile 'Neon'**

Neon Stonecrop

Height: 24"

Exposure: sun

Neon was selected from a block of S. 'Brilliant'. Its flower color is an intense, vibrant, rose-pink, much darker than its parent. Otherwise, its the same easy-to-grow, upright, tough, adaptable plant.

True 1 gallon (1-14) \$5.50 (15+) \$5.20

Sedum 'T Rex'

**Sedum 'T Rex'**

T Rex Stonecrop

Height: 24"

Exposure: sun

Selected at Smith's Gardens from a block of Sedum 'Autumn Joy', the leaves of T Rex are heavily toothed and cupped, giving it much more textural interest, especially before it flowers. This selection is much more resistant to stem rot, making it easier to grow and/or hold in a container. The flower color, winter interest, and cultural requirements are the same as for S. 'Autumn Joy'.

True 1 gallon (1-14) \$5.50 (15+) \$5.20

Sempervivum mix

**Sempervivum, Mixed Varieties**

Hens and Chicks

Height: 3-4"

Exposure: sun

Hens and Chicks are fun and easy to grow. They do great in full sun with very little soil, but good drainage is the most important requirement. Kids and adults love to watch these unusual plants grow and multiply in the garden or in containers. The varieties we are offering include both named and unnamed varieties, offered in mixed 8 packs of 4" pots.

4" \$2.75 Sold in flats of 8

Sempervivum 'Oddity'

**Sempervivum tectorum 'Oddity'**

Oddity Hens and Chicks

Height: 3-4"

Exposure: sun

The name says it all! This unique sempervivum boasts thick, tubular lime green leaves with open tips that pick up a crimson tint. A very distinctive look, adding texture to the rock garden or containers.

4" \$3.00 Sold in flats of 8

Silene 'Rollies Favorite'

**Silene robotii 'Rollies Favorite'**

Rollies Favorite Campion

pp# 17,392

Height: 10-16"

Exposure: sun-part shade

Light pink, star-shaped flowers held in soft clusters bloom profusely from May into early summer, above dark green, well-behaved plants. A cross between Silene and Lychnis, Rollies Favorite is easy to grow and long flowering. Prefers well drained soil.

True 1 gallon \$6.00

**NEW** Solidago Crown of Rays ('Strahlenkrone')

Height: 24-30"

Exposure: full sun

Crown of Rays Goldenrod

Named Crown of Rays for the unique flower structure, blooms are held almost horizontal rather than weeping down. The plant has a very stiff, upright habit. Blooms late summer into early fall.

True 1 gallon \$5.75

Solidago Crown of Rays

## Solidago Little Lemon ('Dansolitem')

pp# 17,392

Height: 12"

Exposure: full sun to bright shade

Little Lemon Goldenrod

The most compact, dwarf yellow Solidago to date, Little Lemon is well branched and blooms in mid to late summer. Also worthy of noting: the pollen of Goldenrod is too heavy to be blown by the wind, rather it falls to the ground, so it doesn't cause allergies.

True 1 gallon \$5.75

Solidago 'Little Lemon'

Stachys minor (*S. minima*)

Height: 8"

Exposure: sun-shade

Dwarf Betony

Short, dense, upright spikes of vibrant pink flowers are produced in late June and July. Glossy, waxy, crenate, dark green foliage is resistant to burn and wilt in summer and semi-evergreen in winter. Attractive seed heads are held from late summer into early spring of the following year. Grows 8" tall in full sun or shade. This easy to grow perennial is perfect for the front of the border or as an edging plant.

Trade 1 gallon (1-14) \$5.50 (15+) \$5.20

True 1 gallon (1-14) \$5.75 (15+) \$5.45

Stachys minor

## Stachys monnieri 'Hummelo'

Height: 18-20"

Exposure: sun-shade

Hummelo Betony

Similar to *Stachys officinalis* but with slightly longer glossier leaves, flowers 2-3 weeks earlier, and has narrower flower spikes. Flowers are an outstanding shade of dark, saturated pink, starting in mid-summer. The flower color is darker than *S. officinalis*, but a bit less floriferous. Evergreen with showy seed stalks in winter.

True 1 gallon (1-14) \$5.50 (15+) \$5.20

Stachys 'Hummelo'

## Stachys officinalis 'Pink Cotton Candy'

pp# 21,436

Height: 10-12"

Exposure: sun-shade

Pink Cotton Candy Betony

The bright evergreen leaves of Pink Cotton Candy have attractively scalloped edges. Large, cotton candy pink flowers cover the foliage in June and July. Selected by the Chicago Botanical Garden, this easy to grow perennial thrives in sun or shade and is perfect for the garden.

True 1 gallon (1-14) \$6.00 (15+) \$5.70

Stachys 'Pink Cotton Candy'

Stokesia 'Divinity'

**NEW** Stokesia laevis 'Divinity'

pp# 26,164

Divinity Stokes' Aster

Height: 12-18"

Exposure: sun-light shade

Divinity produces large, white flowers in summer on short strong stems above compact, dark green foliage. The seed heads are quite attractive and extend interest into the fall.

True 1 gallon (1-14) \$7.50 (15+) \$7.20

Stokesia 'Honeysong Purple'

Stokesia laevis 'Honeysong Purple'

Honeysong Purple Stokes' Aster

Height: 12-14"

Exposure: sun-light shade

Honeysong Purple is a wonderful Stokesia producing large, 3" diameter, intense royal purple flowers in summer. The plants have short, strong, stems that hold the flowers uniformly above the foliage. Deep green foliage is free of insect or disease problems and has a neat mounded habit. The seed heads are quite attractive and extend interest into the fall.

True 1 gallon (1-14) \$6.00 (15+) \$5.70

2 gallon (1-14) \$7.50 (15+) \$7.20

'Peachie's Pick'

'Sweet Kate'

Stokesia laevis 'Peachie's Pick'

Peachie's Pick Stokes' Aster

Height: 14-18"

Exposure: sun-light shade

Peachie's Pick blooms are up to 3" across and a lovely lavender-blue. They flower later than other Stokes' Asters, extending the season for this colorful perennial. Its strictly upright habit differentiates this selection from others. The seed heads are quite attractive and extend interest into the fall.

True 1 gallon (1-14) \$6.00 (15+) \$5.70

2 gallon (1-14) \$7.50 (15+) \$7.20

'Blueberry Sundae'

'Karminglut'

Tradescantia

Spiderwort

Height: 15-24"

Exposure: sun to part shade

Spiderworts are clump-forming herbaceous perennials with arching, grass-like foliage. Prolific bloomers, flowering starts in late spring and continues into late summer. They prefer moist soil in full sun. Cut plants back hard if they start to look tired, they will produce fresh new foliage and will often re-flower.

'Blueberry Sundae' - plum colored buds open to very large, icy blue flowers with a darker, lavender-blue eye; 24" tall. The longest bloomer of the five we grow.

'Karminglut' (Carmine Glow) - rosy red flowers; 16" tall

'Leonora' - beautiful violet-blue flowers, 16" tall

'Snowcap' - snow white blooms 2" across; 15-18" tall

'Sweet Kate' - brilliant gold foliage, vibrant violet-blue flowers; 12" tall. Grow in part shade to prevent bleaching the foliage.

True 1 gallon (1-14) \$5.75 (15+) \$5.45

'Leonora'

'Snowcap'

*Tricyrtis formosana* 'Gilt Edge'

Gilt Edge Toad-lily

Height: 24"

Exposure: part shade

Arching stems are covered with bright, waxy green foliage edged in gold. Curious flowers are orchid-like, reddish purple or royal blue, and heavily spotted. Flowering starts in September and continues until frost. The plant habit is much more upright and arching in the ground than when grown in a container. Foliage is deer resistant, but they love pruning off the new buds in late summer.

True 1 gallon (1-14) \$6.00 (15+) \$5.70

Tricyrtis 'Gilt Edge'

*Tricyrtis* 'Sinonome'

Sinonome Toad-lily

Height: 30-36"

Exposure: part shade

Orchid-like flowers are heavily spotted white and reddish-purple. Bright green, waxy leaves cover the stems from top to bottom. A wonderful plant that should be sited so the interesting flowers can be seen up close. Sinonome is more tolerant of drier conditions than many Toad-lilies and has an exceptionally long bloom duration. In our yard, the plants will get hit with a hard frost before they're finished flowering. Foliage is deer resistant, but they love pruning off the new buds in late summer.

True 1 gallon (1-14) \$6.00 (15+) \$5.70

Tricyrtis 'Sinonome'

*Verbena bonariensis* 'Lollipop'

Lollipop Vervain

Height: 24"

Exposure: sun

This dwarf Vervain flowers non-stop from early summer to fall. Its lavender colored blooms are coveted by pollinators and are great additions to flower arrangements. To overwinter here in Ohio, our clay soil must be amended to ensure good winter drainage.

True 1 gallon \$6.00

Verbena 'Lollipop'

*Vernonia lettermanii* 'Iron Butterfly'

Iron Butterfly Ironweed

Height: 24-30"

Exposure: full sun

This is not the Ironweed that grows in this area, but is a native of Oklahoma and Arkansas. Its fine, long bladed foliage grows densely and forms a shrubby mound up to 3' tall, giving it a similar texture to *Amsonia hubrichtii*. In late summer the plants produce small, bright purple flowers held in umbels that are very attractive to butterflies. Found growing mainly in the rocky flood plain of the Ouchita River in Arkansas, it is tolerant of extreme drought and periodic flooding.

Trade 1 gallon \$6.25

Vernonia lettermanii 'Iron Butterfly'

*Vernonia noveboracensis*

New York Ironweed

Height: 60-72"

Exposure: full sun

Ironweed is a native wildflower. Deep lavender to violet blooms appear in late summer. Give this plant plenty of room to grow - it reaches heights of up to 6 feet and grows up to 4 feet across. Almost identical to *V. glauca* (Upland Ironweed).

True 1 gallon \$6.50

Vernonia noveboracensis

Vernonia 'Southern Cross'

**Vernonia 'Southern Cross'**

Southern Cross Ironweed

Height: 48"

Exposure: full sun

This shorter variety of Ironweed is a lettermanii hybrid with Amsonia-like foliage. It has an upright, vase-shaped habit and long thin leaves. In late summer, the plant is covered in small purple flowers that are a little bigger than the V. 'Iron Butterfly', but smaller than V. noveboracensis.

True 1 gallon \$6.25

Veronica First Match

**Veronica longifolia First Match ('Allglove')**

First Match Speedwell

pp# 28,798

Height: 20-24"

Exposure: full sun

First Match forms a mound of glossy green foliage, bearing numerous spikes of attractive, dark pink flowers starting in early summer and continuing for weeks. Its good branching habit allows for a ton of flowers on each plant.

Trade 1 gallon (1-14) \$5.50 (15+) \$5.20

Veronica p. 'Georgia Blue'

**Veronica peduncularis 'Georgia Blue'**

Georgia Blue Creeping Speedwell

Height: 3-6"

Exposure: sun-part shade

A tough and durable evergreen groundcover that is smothered in blue flowers for 4 to 6 weeks in early spring and sporadically in fall. Flowers are a richer blue and more abundant than V. 'Waterperry'.

4" \$3.00 Sold in flats of 8 Spring Only

Veronica Royal Candles

**Veronica spicata Royal Candles ('Glory')**

Royal Candles Speedwell

pp #18,932

Height: 12-18"

Exposure: sun-part shade

Spikes of intense blue flowers cover the foliage from spring through summer and sporadically until frost. Compact habit.

True 1 gallon (1-14) \$5.75 (15+) \$5.45 Spring Only

2 gallon (1-14) \$7.50 (15+) \$7.20 Spring Only

Veronica 'Royal Rembrandt'

**Veronica 'Royal Rembrandt'**

Royal Rembrandt Speedwell

pp# 29,377

Height: 18-20"

Exposure: sun

From Walters Gardens, Royal Rembrandt produces a profusion of violet purple flowers in early to mid-summer above glossy, disease resistant, dark green foliage. The heavily branched scapes extend the bloom period, while dark spent flowers blend in flawlessly, keeping it looking fresh the entire time its blooming. Shear plants after flowering to encourage rebloom.

True 1 gallon (1-14) \$5.75 (15+) \$5.45

2 gallon (1-14) \$7.50 (15+) \$7.20

**Veronica 'Very Van Gogh'**

pp# 27,428

Very Van Gogh Speedwell

Height: 18-20"

Exposure: sun-part shade

Rosy purple flowers are produced on heavily branched scapes from mid-summer into late summer. A Walters Gardens introduction, it has strong, upright branches, rich glossy leaves, and a uniform rounded habit.

True 1 gallon (1-14) \$5.75 (15+) \$5.45

2 gallon (1-14) \$7.50 (15+) \$7.20

Veronica 'Very Van Gogh'

**Veronica 'Waterperry Blue'**

Height: 18-20"

Exposure: sun-part shade

Waterperry Blue Creeping Speedwell

Waterperry Blue is a tough, evergreen groundcover with soft blue flowers in early spring and sporadically throughout the summer. It has a longer blooming period than V. 'Georgia Blue' with paler blue flowers, a daintier habit, and a greater tolerance to heat and drought.

4" \$2.75 Sold in flats of 8 Spring Only

Veronica 'Very Van Gogh'

## EDIBLES

**Rubus 'Caroline'**

pp# 10,412

Caroline Red Raspberry

Height: 4-6'

Exposure: full sun

Fall bearing; with rich, full, and intense flavor, this raspberry is a great cultivar for the home gardener. Compared to Heritage, Caroline has sweeter berries, ripens two weeks earlier, is a heavier producer, and has better resistance to disease and insects. White flowers in May turn into red raspberries that begin to ripen in late August and continue until fall.

True 1 gallon \$6.50

Rubus 'Caroline'

**Rubus 'Crimson Night'**

pp# 24,949

Crimson Night Red Raspberry

Height: 4' x 4'

Exposure: sun

Fall bearing; Crimson Night was selected for its heavy crop load, good sweet flavor, and glossy, burgundy fruit. The canes are dark magenta in color with dark green leaves, adding to its value in the landscape. Developed at Cornell's College of Agriculture and Life Sciences.

2 gallon \$8.00

Rubus 'Crimson Night'

Rubus 'Double Gold'

**Rubus 'Double Gold'**

pp# 24,811

Double Gold Raspberry

Height: 4'x4'

Exposure: sun

Everbearing; Double Gold produces a very tasty, deeply blushed, golden champagne-colored fruit with a distinctive conical shape. A vigorous grower, it will produce substantial crops. It earned the "double" in its name because it produces a summer and fall crop. Developed at Cornell's College of Agriculture and Life Sciences.

2 gallon \$8.00

Rubus 'Fall Gold'

**Rubus 'Fall Gold'**

Height: 4'

Exposure: full sun

Fall Gold Raspberry

Everbearing; produces its first crop in July on last years growth, and a second crop in September on this years new growth. The sweet berries have a good flavor and are similar to red raspberries in all respects but color.

True 1 gallon \$6.50

2 gallon \$8.00

Rubus 'Glencoe'

**Rubus 'Glencoe'**

Height: 4-6'

Exposure: sun

Glencoe Purple Raspberry

Summer bearing; Glencoe was developed by the Scottish Crop Research Institute. This incredible raspberry has SPINE-FREE canes which are easy to manage. The growth habit is bushy and less vigorous than most red raspberries, which are ideal traits for the homeowner. The fruit has a lovely intense flavor.

True 1 gallon \$6.50

Rubus 'Osage'

**Rubus 'Osage'**

pp# 26,120

Height: 6-10'

Exposure: sun

Osage Thornless Blackberry

From the University of Arkansas breeding program, Osage is a very disease resistant, THORNLESS variety of blackberry, that ripens between the other plants in this series, Natchez and Ouachita. Osage scores high in its consistency, both in the exceptionally sweet flavor of the berries and in the quality and quantity of harvest. Harvest in June, produces mid size, firm fruit that holds well.

True 1 gallon \$6.50

Asimina triloba

**Asimina triloba**

Height: 15'

Exposure: full sun to light shade

Pawpaw Tree

Purple, cup shaped flowers appear in spring, before the large tropical leaves emerge. Fruits ripen in late August to mid-September and have a banana custard flavor. The Pawpaw needs a buddy for proper cross pollination and better fruit set. Our plants will begin to set fruit in about 5 years.

Trade 1 gallon \$7.50

## FERNS

### *Athyrium felix-femina* 'Victoriae'

Height: 12-24"

Exposure: light-deep shade

Victoria Lady Fern

Bright emerald green fronds with crested leaf tips and crisscrossing pinnae form X's up the frond stem. Beautiful vase-shaped habit. A strong grower that prefers evenly moist soils. Victoria is a lush, dense fern that is hard to adequately describe.

True 1 gallon (1-14) \$6.75 (15+) \$6.45

*Athyrium felix-femina* 'Victoriae'

### *Athyrium* 'Godzilla'

Height: 36"

Exposure: light-deep shade

Godzilla Japanese Painted Fern

This giant fern forms a massive clump, 3' tall by 6' wide of arching, silvery fronds, highlighted with green and dark purple stems. Prefers shade and evenly moist soils. Thought to be a sporeling of Painted and Lady Ferns discovered at Plant Delights Nursery. Try combining with giant hostas, Kirengeshoma, and other large shade masters.

True 1 gallon (1-14) \$6.75 (15+) \$6.45

2 gallon \$8.00

*Athyrium* 'Godzilla'

### *Athyrium niponicum* 'Regal Red'

Height: 12-18"

Exposure: light-deep shade

Regal Red Japanese Painted Fern

Silvery green fronds are heavily tinted with pinks and mahogany that provide a striking contrast with its rich red stems. An excellent grower for part to full shade and evenly moist soils, forming loose, arching mounds of foliage. Great for brightening up a dark area in the shade garden and blending with almost anything. One of the most colorful, and easy to grow hardy ferns.

True 1 gallon (1-14) \$6.25 (15+) \$5.95

*Athyrium niponicum* 'Regal Red'

### *Athyrium* x 'Ghost'

Height: 18-24"

Exposure: light-deep shade

Ghost Fern

New growth emerges a stunning silvery white fading to gray-green with a subtle silver overlay, similar to a very pale Japanese Painted Fern. Very upright habit and fast growing.

True 1 gallon (1-14) \$6.25 (15+) \$5.95

*Athyrium* 'Ghost'

### *Dryopteris tokyoensis*

Height: 18-36"

Exposure: shade

Tokyo Wood Fern

This slender, vase-shaped, deciduous fern is a strong grower with dark green fronds that are rigidly erect. Native to woodlands of China, Korea, and Japan. The upright fronds add a great vertical accent to the shade garden.

True 1 gallon (1-14) \$6.25 (15+) \$5.95

*Dryopteris tokyoensis*

Matteuccia struthiopteris

## Matteuccia struthiopteris

Height: 36-48"

Exposure: sun-shade

Ostrich Fern

Huge plume-like fronds arch from a central crown. Will produce large colonies over time. This fern will tolerate quite a bit of sun given adequate water, and quite a bit of drought given adequate shade.

True 1 gallon (1-14) \$6.75 (15+) \$6.45

2 gallon (1-14) \$9.50 (15+) \$9.20

## Deer Resistant Plants

### Shrubs, Vines and Trees

Abelia x mosanensis – Fragrant Abelia  
Albizia julibrissin - Mimosa  
Buddleia – Butterfly Bush  
Callicarpa – Beauty Berry  
Campsis – Trumpet Creeper  
Caryopteris x clandonensis – Bluebeard  
Chionanthus retusus – Fringe Tree  
Clematis – Large Flower  
Clematis maximowicziana – Sweet Autumn  
Helianthemum – Sun Rose  
Indigofera amblyantha – Indigo  
Liquidamber – Sweetgum  
Lonicera – Honeysuckle  
Magnolia – Magnolia  
Nyssa – Black Gum  
Salix – Willow  
Sinocalycanthus raulstonii – Sweetshrub  
Spirea japonica - Spirea  
Weigela – Weigela  
Vitex – Chaste Tree

### Grasses

Acorus – Sweet Flag  
Andropogon gerardii - Big Blue Stem  
Bouteloua gracilis– Grama Grass  
Calamagrostis x acutiflora – Feather Reed Grass  
Carex morrowii – Sedge  
Chasmanthium latifolium – Northern Sea Oats  
Miscanthus sinensis – Japanese Silver Grass  
Panicum virgatum – Switch Grass  
Pennisetum – Fountain Grass  
Phalaris – Ribbon Grass  
Schizachyrium scoparium – Little Bluestem  
Sporobolus heterolepis – Prairie Dropseed  
Sporobolus wrightii - Giant Sacaton

### Perennials and Ferns

Achillea millefolium – Yarrow  
Aconitum napellus - Monkshood  
Actaea – Doll's Eyes  
Aegopodium – Snow on the Mountain/ Goutweed  
Agastache – Hyssop, Hummingbird Mint  
Alchemilla – Lady's Mantle  
Allium - Chives, Ornamental Onion  
Amsonia – Blue Star  
Anemone – Japanese Anemone, Windflower  
Aquilegia – Columbine  
Arisaema triphyllum - Jack-in-the-Pulpit  
Aruncus – Goat's Beard  
Asclepias – Butterfly Weed, Milkweed  
Astilbe – False Spirea  
Athyrium – Fern  
Baptisia – False or Wild Indigo  
Belamcanda – Blackberry Lily  
Bergenia – Bergenia, Pig Squeak  
Blechnum spicant – Deer Fern  
Brunnera macrophylla – Siberian Bugloss  
Campanula – Bellflower  
Centaurea – Mountain Bluet, Bachelor's Button  
Cerastium – Snow in Summer

### Perennials and Ferns (continued)

Chelone – Turtlehead  
Chrysanthemum nipponicum – Montauk Daisy  
Cimicifuga - Bugbane, Fairy Candles, Snake Root  
Convallaria - Lily of the Valley  
Coreopsis – Coreopsis, Tickseed  
Cyrtomium fortunei – Holly Fern  
Delosperma – Ice Plant  
Delphinium - Delphinium  
Dianthus – Pinks  
Dicentra – Bleeding Heart  
Digitalis – Foxglove  
Dryopteris – Wood Fern, Autumn Fern  
Echinacea - Coneflower  
Eryngium yuccifolium – Rattlesnake Master  
Eupatorium – Joe-Pye Weed  
Euphorbia – Spurge  
Ferns – most ferns are unpalatable  
Filipendula – Meadowsweet  
Gaillardia – Blanket Flower  
Gaura – Wand Flower  
Geranium – Cranesbill  
Geum – Avens  
Helenium – Sneezeweed  
Helianthus – Sunflower  
Helleborus – Lenten Rose  
Heuchera – Coral Bells  
Heucherella – Foamy Bells  
Hibiscus – Perennial Hibiscus/Rose Mallow  
Iris ensata – Japanese Iris  
Iris psuedoacorus – Swamp Iris  
Iris sibirica – Siberian Iris  
Isotoma – Blue Star Creeper  
Kirengeshoma – Waxbells  
Knautia macedonica – Field Scabiosa  
Kniphofia – Red Hot Poker  
Lavandula angustifolia – Lavender  
Leucanthemum – Daisy (occasionally will eat flowers)  
Liatris spicata – Gayfeather, Blazing Star  
Ligularia – Leopard Plant  
Lysimachia – Loosestrife  
Matteuccia struthiopteris – Ostrich Fern  
Monarda - Beebalm  
Musa basjoo - Hardy Fiber Banana  
Nepeta – Catmint  
Oenothera – Sundrops, Evening Primrose  
Origanum – Oregano  
Paeonia – Peony  
Penstemon - Beard Tongue  
Perovskia x atriplicifolia – Russian Sage  
Phlox – Phlox  
Physostegia – Obedient Plant  
Platycodon grandiflorus – Balloon Flower  
Polemonium reptans – Jacob's Ladder  
Polygonatum – Solomon's Seal  
Polystichum polyblepharum – Tassel Fern  
Pulmonaria – Lungwort  
Rodgersia – Rodger's Flower  
Rudbeckia – Black-eyed Susan

- Continued on next page -

## Deer Resistant Plants (continued)

### Perennials and Ferns (continued)

Salvia – Garden Sage  
 Sauromatum venosum - Voodoo Lily  
 Scabiosa – Pincushion Flower  
 Sedum – Sedum, Stonecrop  
 Silene – Campion  
 Sisyrinchium – Blue-eyed Grass  
 Solidago – Goldenrod  
 Stachys – Betony  
 Stokesia laevis – Stokes' Aster  
 Tanacetum - Painted Daisy  
 Thalictrum – Meadow-rue  
 Thelypteris - Japanese Beech Fern  
 Tiarella – Foamflower  
 Tradescantia – Spiderwort  
 Tricyrtis – Toad-lily  
 Trillium grandiflorum - White Trillium  
 Verbascum – Mullein  
 Vernonia – Ironweed  
 Veronica – Speedwell  
 Viola - Violet  
 Zauschneria - Hardy Fuschia

## Attractive to Butterflies

### Shrubs, Vines and Trees

Abelia x mosanensis – Fragrant Abelia  
 Buddleia – Butterfly Bush  
 Callicarpa – Beauty Berry  
 Caryopteris – Bluebeard  
 Clematis maximowicziana – Sweet Autumn  
 Helianthemum – Sun Rose  
 Hibiscus syriacus - Rose of Sharon  
 Hypericum – St. Johnswort  
 Indigofera - Indigo  
 Lonicera – Honeysuckle  
 Nyssa sylvatica – Black Gum, Tupelo  
 Salix – Willow  
 Vitex agnus-castus – Chastetree

### Perennials

Achillea – Yarrow  
 Actaea pachypoda- Doll's Eyes  
 Agastache – Hyssop, Hummingbird Mint  
 Allium - Chives, Ornamental Onion  
 Aquilegia - Columbine  
 Armeria pseudoarmeria – False Sea Thrift  
 Aruncus - Goat's Beard  
 Asclepias – Butterfly Weed, Milkweed  
 Astilbe – Astilbe  
 Baptisia – Indigo  
 Belamcanda – Blackberry Lily  
 Centaurea – Mountain Bluet, Bachelor's Button  
 Chelone – Turtlehead  
 Chrysanthemum nipponicum – Montauk Daisy  
 Coreopsis – Tickseed, Coreopsis  
 Dianthus – Pink  
 Echinacea – Coneflower  
 Eryngium yuccifolium – Rattlesnake Master

## Attractive to Butterflies (continued)

### Perennials (continued)

Eupatorium – Joe-Pye Weed  
 Filipendula – Meadowsweet  
 Gaillardia – Blanket Flower  
 Gaura – Wand Flower  
 Geum – Avens  
 Helenium – Sneezeweed, Helen's Flower  
 Helianthus - Sunflower  
 Heuchera - Coral Bells  
 Heucherella - Foamy Bells  
 Hibiscus moschuetos - Perennial Hibiscus  
 Iris ensata - Japanese Iris  
 Iris sibirica - Siberian Iris  
 Knautia macedonica – Field Scabiosa  
 Kniphofia – Red Hot Poker  
 Lavandula angustifolia – Lavender  
 Leucanthemum x superbum – Shasta Daisy  
 Liatris spicata – Gayfeather, Blazing Star  
 Ligularia – Leopard Plant  
 Lobelia - Cardinal Flower  
 Lysimachia –Loosestrife  
 Monarda - Beebalm  
 Nepeta – Catmint  
 Oenothera tetragona – Sundrops, Evening Primrose  
 Paeonia – Peony  
 Penstemon - Beard Tongue  
 Perovskia x atriplicifolia – Russian Sage  
 Phlox – Phlox  
 Rudbeckia – Black-eyed Susan  
 Salvia – Garden Sage  
 Scabiosa – Pincushion Flower  
 Sedum – Sedum, Stonecrop  
 Sidalcea - Prairie Mallow  
 Silene – Campion  
 Sisyrinchium – Blue-eyed Grass  
 Solidago – Goldenrod  
 Spigelia - Indian Pink  
 Stokesia laevis – Stokes' Aster  
 Tanacetum - Painted Daisy  
 Tiarella - Foam Flower  
 Tradescantia – Spiderwort  
 Verbascum - Mullein  
 Vernonia – Ironweed  
 Veronica – Speedwell  
 Viola - Violets  
 Zauschneria - Hardy Fuschia

## Plants for Cut Flowers or Foliage

### Shrubs, Trees, and Vines

Buddleia – Butterfly Bush  
 Clematis – Large Flower  
 Clematis maximowicziana – Sweet Autumn  
 Hydrangea - Hydrangea  
 Hypericum – St. Johnswort  
 Rosa – Rose  
 Salix babylonica – Willow  
 Sarcococca hookerana – Sweet Box  
 X Sinocalycanthus raulstonii - Sweetshrub  
 Vitex agnus-castus – Chaste Tree

## Plants for Cut Flowers or Foliage (continued)

### Grasses

Bouteloua gracilis – Grama Grass  
Calamagrostis x acutiflora – Feather Reed Grass  
Chasmanthium latifolium – Northern Sea Oats  
Miscanthus sinensis – Japanese Silver Grass  
Panicum virgatum – Switch Grass  
Pennisetum – Fountain Grass

### Perennials and Ferns

Achillea – Yarrow  
Aconitum napellus - Monkshood  
Actaea pachypoda– Doll’s Eyes  
Aegopodium ‘Variegatum’ - Snow on the Mountain  
Agastache – Hyssop, Hummingbird Mint  
Alchemilla – Lady’s Mantle  
Allium - Chives, Ornamental Onion  
Anemone – Anemone  
Aquilegia – Columbine  
Aruncus – Goats Beard  
Asclepias - Milkweed  
Astilbe – Astilbe  
Athyrium – Lady Fern, Ghost Fern, Painted Fern  
Baptisia – False or Wild Indigo  
Belamcanda chinensis – Blackberry Lily  
Bergenia – Pigs Squeak  
Campanula glomerata – Bellflower  
Campanula punctata – Bellflower  
Centaurea – Mountain Bluet  
Chelone - Turtlehead  
Chrysanthemum nipponicum – Montauk Daisy  
Cimicifuga - Bugbane, Fairy Candles, Snakeroot  
Convallaria - Lily of the Valley  
Coreopsis – Tickseed, Coreopsis  
Dianthus – Pinks  
Dicentra – Bleeding Heart  
Digitalis – Foxglove  
Disporopsis pernyi – Asiatic Fairy Bells  
Dryopteris - Autumn Fern, Wood Fern  
Echinacea – Coneflower  
Epimedium – Barwort  
Eryngium – Rattlesnake Master  
Eupatorium – Joe-Pye Weed  
Euphorbia – Spurge  
Filipendula – Meadowsweet  
Geum - Avens  
Helenium – Sneezeweed, Helen’s Flower  
Helianthus salicifolius – Willowleaf Sunflower  
Heuchera – Coral Bells  
Heucherella - Foamy Bells  
Hosta – Hosta  
Iris ensata - Japanese Iris  
Iris sibirica – Siberian Iris  
Knautia macedonica – Field Scabiosa  
Kniphofia – Red Hot Poker  
Lavandula angustifolia – Lavender  
Leucanthemum x superbum – Shasta Daisy  
Liatris spicata – Gayfeather, Blazing Star  
Ligularia – Leopard Plant  
Lysimachia –Loosestrife  
Matteuccia struthiopteris – Ostrich Fern  
Monarda - Beebalm

### Perennials and Ferns (continued)

Paeonia – Peony  
Penstemon - Beard Tongue  
Perovskia - Russian Sage  
Phlox paniculata – Tall Garden Phlox  
Physostegia – Obedient Plant  
Polemonium – Jacob’s Ladder  
Polygonatum – Solomon’s Seal  
Pulmonaria – Lungwort  
Rodgersia – Rodger’s Flower  
Rosa - Rose  
Rudbeckia – Black-eyed Susan  
Salvia – Garden Sage  
Scabiosa – Pincushion Flower  
Sedum - Stonecrop  
Solidago – Goldenrod  
Stachys– Betony  
Stokesia laevis – Stokes’ Aster  
Tanacetum - Painted Daisy  
Tiarella – Foamflower  
Tricyrtis – Toad-lily  
Verbascum – Mullein  
Veronica – Ironweed  
Veronicastrum - Culver’s Root

### Plants that Attract Hummingbirds

#### Shrubs, Vines and Trees

Abelia x mosanensis – Fragrant Abelia  
Buddleia – Butterfly Bush  
Campsis – Trumpet Vine  
Caryopteris – Bluebeard  
Clematis - Large Flowering  
Lonicera – Honeysuckle  
Weigela florida – Weigela

#### Perennials

Actaea pachypoda - Doll’s Eyes  
Agastache – Hyssop, Hummingbird Mint  
Aquilegia – Columbine  
Asclepias – Butterfly Weed, Milkweed  
Bergenia – Pigs Squeak  
Campanula glomerata – Bellflower  
Campanula punctata – Bellflower  
Chelone – Turtlehead  
Cimicifuga – Bugbane, Snakeroot, Fairy Candles  
Digitalis – Foxglove  
Heuchera – Coral Bells  
Hibiscus – Hibiscus  
Hosta – Hosta  
Iris ensata – Japanese Iris  
Kniphofia – Red Hot Poker  
Leptodermis oblonga – Chinese Leptodermis  
Lobelia - Cardinal Flower  
Monarda – Beebalm

## Plants that Attract Hummingbirds

### Perennials (continued)

Penstemon - Beard Tongue  
Phlox – Phlox  
Polygonatum – Solomon's Seal  
Pulmonaria – Lungwort  
Salvia – Garden Sage  
Sidalcea - Prairie Mallow  
Spigelia - Indian Pink  
Stachys - Betony  
Verbascum – Mullein  
Veronica – Speedwell  
Zauschneria - Hardy Fuschia

## Native to Ohio and Adjacent States

### Shrubs, Vines and Trees

Aesculus flava - Yellow Buckeye  
Aesculus glabra - Ohio Buckeye  
Aesculus parviflora - Bottlebrush Buckeye  
Asimina triloba - Pawpaw Tree  
Campsis – Trumpet Vine  
Cercis canadensis – Redbud  
Magnolia acuminata hybrids - Magnolia  
Liquidambar – Sweetgum  
Lonicera – Honeysuckle  
Nyssa sylvatica – Black Gum, Tupelo  
Quercus - Oak  
Salix - Willow  
Wisteria futescens - American Wisteria

### Grasses

Andropogon gerardii - Big Blue Stem  
Bouteloua gracilis – Grama Grass  
Chasmanthium latifolium – Northern Sea Oats  
Panicum virgatum – Switch Grass  
Schizachyrium scoparium – Little Blue Stem  
Sporobolus heterolepis – Prairie Dropseed

### Perennials

Achillea - Yarrow  
Acorus calamus - Sweet Flag  
Actaea pachypoda – Doll's Eyes  
Amsonia tabernaemontana hybrids – Blue Star  
Aquilegia canadensis - Eastern Columbine  
Asarum canadense – Canadian Wild Ginger  
Arisaema triphyllum - Jack-in-the-Pulpit  
Asclepias - Milkweed  
Athyrium felix-femina – Lady Fern  
Baptisia australis – False Blue Indigo  
Campanula rotundifolia - Harebell  
Chelone – Turtlehead  
Coreopsis – Tickseed, Coreopsis  
Cypripedium candidum - Small White Ladyslipper  
Cypripedium parviflorum - Large Yellow Ladyslipper  
Dodecatheon meadia - Eastern Shooting Star  
Dryopteris cristata - Crested Wood Fern  
Dryopteris x australis - Dixie Wood Fern  
Echinacea – Coneflower

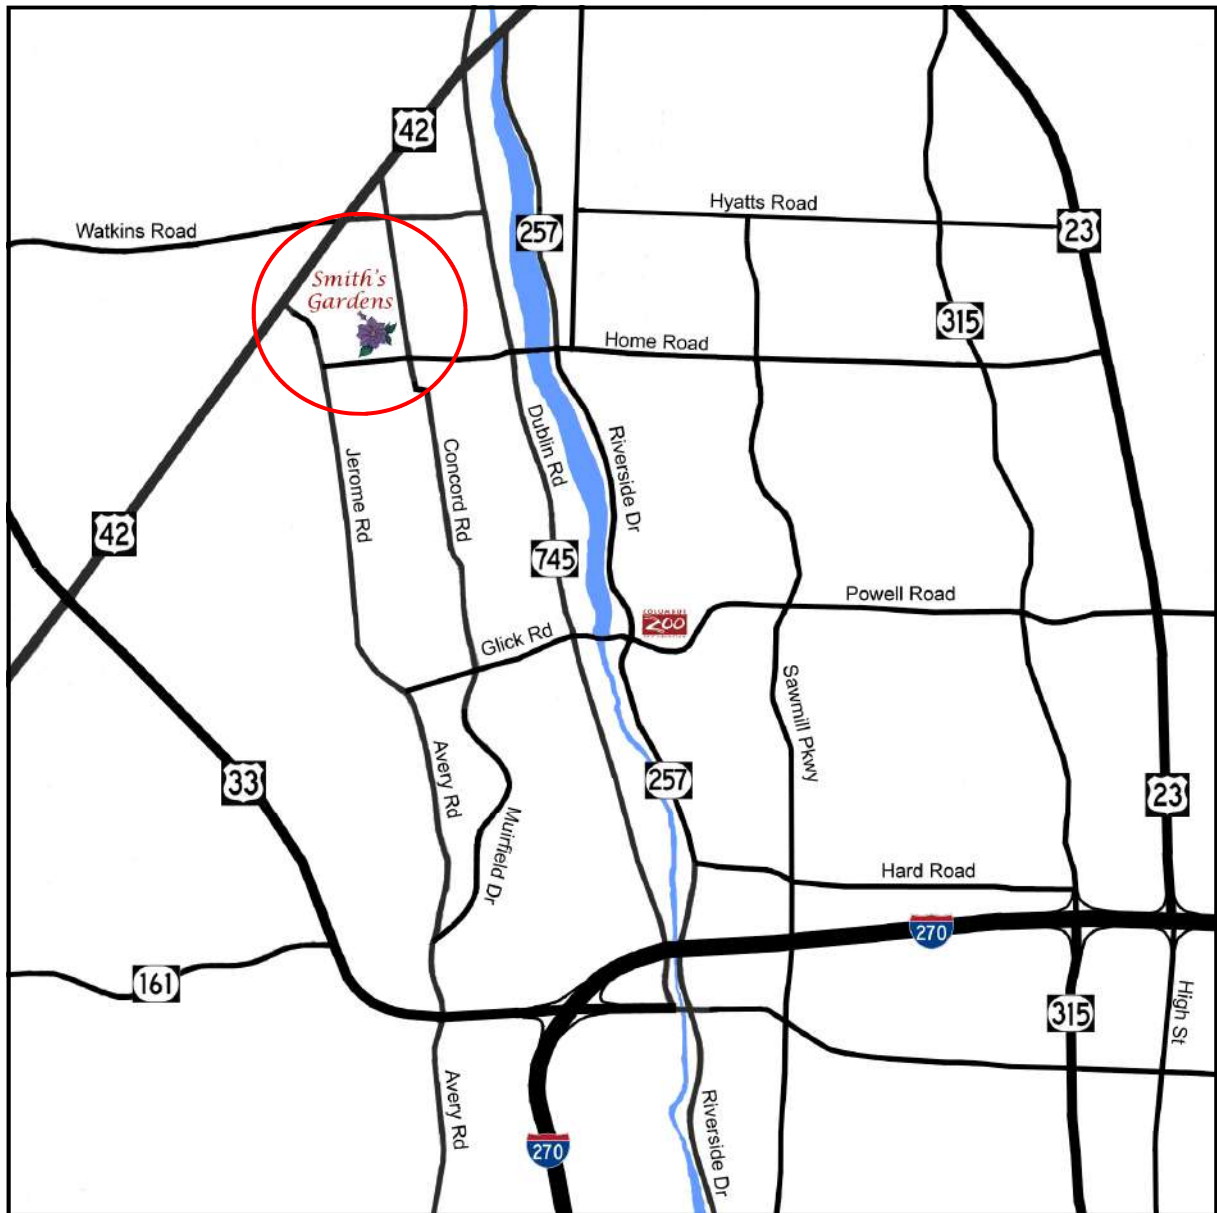

## Native to Ohio and Adjacent States (continued)

### Perennials (continued)

Eryngium yuccifolium – Rattlesnake Master  
Eupatorium – Joe-Pye Weed, Boneset  
Filipendula rubra – Queen of the Prairie  
Gaillardia – Blanket Flower  
Gaura coccinea - Scarlet Gaura  
Geranium maculatum - Cranesbill  
Geum triflorum - Geum  
Helenium autumnale - Sneezeweed, Helen's Flower  
Helianthus - Perennial Sunflower  
Heliopsis helianthoides - False Sunflower  
Heuchera – Coral Bells  
Hibiscus moscheutos - Perennial Hibiscus  
Iris versicolor - Northern Blue Flag  
Liatris – Gayfeather, Blazing Star  
Lobelia - Cardinal Flower  
Lupinus perennis - Sundial Lupine  
Mertensia virginica - Virginia Bluebells  
Monarda – Beebalm  
Oenothera – Sundrops, Evening Primrose  
Phlox - Phlox  
Physostegia virginiana– Obedient Plant  
Penstemon digitalis - Foxglove Beardtongue  
Polemonium reptans – Creeping Jacob's Ladder  
Polygonatum commutatum – Giant Solomon Seal  
Rudbeckia – Black-eyed Susan  
Silene virginica - Scarlet Catchfly  
Sisyrinchium – Blue Eyed Grass  
Solidago – Goldenrod  
Stokesia laevis – Stokes' Aster  
Thalictrum - Meadow-rue  
Tiarella – Foamflower  
Tradescantia – Spiderwort  
Vaccinium angustifolium - Lowbush Blueberry  
Vernonia – Ironweed  
Veronicastrum virginicum - Culver's Root  
Viola – Prostrate Blue Violet  
Zizia - Alexanders

You are cordially invited to stop in at your convenience. We will gladly assist you with your plant selection needs, or you may peruse the nursery at your leisure. We are located at 7520 Home Rd., west of the Scioto River, between Concord Rd. and Jerome Rd. in southwestern Delaware County.

## Hours

### March – November

Monday – Friday 8:00 am – 5:00 pm

Saturday Closed

April – July: We are probably working but call ahead to be sure. Arrangements can be made for someone to be at the nursery.

Sunday Closed

### December – March

Closed for the winter but please call if you have any questions. Again, arrangements can be made for someone to be at the nursery.
