### Symbol Key:

-  Plants not listed in the previous years catalog.
-  Native to Ohio or adjacent states including selections and hybrids of plants indigenous thereto.
-  Attracts brightly colored butterflies (Of course, not attractive to baby butterflies)
-  Attracts or feeds animals and/or song birds
-  Hummingbird nectar source
-  Deer resistant (we're not claiming deer proof; if they're hungry enough, they'll eat anything)
-  Good for cut flowers or foliage
-  Fragrant foliage and/or flowers
-  Part or all of this plant is poisonous

### On the Cover

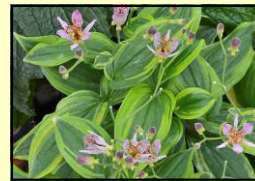

Heuchera  
'Lime Ruffles'

Euphorbia 'Ascot Rainbow'

Coreopsis  
'Lightning Bug'

Tricyrtis 'Autumn Glow'

Platycodon  
'Sentimental Blue'

Malva 'Zebrina'

## New Plants for 2017

These are plants that are new to us and haven't been listed before. We either trialed a small number of the selection and are confident in our ability to provide a quality product, or we grow a related cultivar and want to give you more choices. We have selected many of these new plants due to your requests. Thank you!

Achillea Little Moonshine

Coreopsis 'Lightning Bug'

Echinacea 'Glowing Dream'

Echinacea 'Orange Skipper'

Hosta 'Moon Split'

### Perennials

Achillea 'Laura'  
 Achillea Little Moonshine  
 Aconitum 'Spark's Variety'  
 Acorus 'Ogon'  
 Alchemilla 'Gold Strike'  
 Allium 'Summer Peek-a-Boo'  
 Aralia 'Sun King'  
 Astilbe 'Chocolate Shogun'  
 Astilbe 'Younique Silvery Pink'  
 Calamintha 'Variegata'  
 Callirhoe involucrata  
 Coreopsis 'Domino'  
 Coreopsis 'Early Sunrise'  
 Coreopsis 'Lightning Bug'  
 Coreopsis Uptick Gold & Bronze  
 Coreopsis Uptick Yellow & Red  
 Dianthus Coconut Surprise  
 Dianthus 'Coral Reef'  
 Dianthus Passion  
 Dianthus Sugar Plum  
 Echinacea 'Big Kahuna'  
 Echinacea 'Glowing Dream'  
 Echinacea 'Mama Mia'  
 Echinacea 'Orange Skipper'  
 Echinacea 'Purple Emperor'  
 Echinacea 'Rainbow Marcella'  
 Echinacea 'Sensation Pink'  
 Geranium 'Azure Rush'  
 Geranium 'Delft Blue'  
 Geum 'Double Bloody Mary'

### Perennials (continued)

Geum 'Sunrise'  
 Gypsophila 'Festival Pink'  
 Hosta 'Baby Booties'  
 Hosta 'Moon Split'  
 Hosta 'Satisfaction'  
 Hosta 'Valley's Glacier'  
 Leucanthemum 'Lumos'  
 Lilium 'Tabledance'  
 Lilium Triumphator  
 Lobelia 'Starship Deep Rose'  
 Lobelia 'Starship Scarlet'  
 Malva 'Braveheart'  
 Malva 'Zebrina'  
 Nepeta 'Early Bird'  
 Perovskia atriplicifolia Lacey Blue  
 Phlox paniculata 'Cleopatra'  
 Phlox paniculata 'Fireworks'  
 Phlox paniculata 'Peacock White'  
 Rodgersia podophylla 'Bronze Form'  
 Sempervivum 'Oddity'  
 Tricyrtis 'Autumn Glow'  
 Veronica Moody Blues™ Dark Blue  
 Veronica Moody Blues™ Mauve  
 Veronica Moody Blues™ Sky Blue

### Vines

Clematis viticella 'Blue Angel'  
 Clematis 'Carnaby'  
 Clematis x jackmanii 'Superba'  
 Humulus 'Aureus'

## Back by Popular Demand

The following plants are being returned to our line up for 2017.

### Perennials

Agastache 'Blue Fortune'  
 Artemisia 'Nana'  
 Arum italicum 'Pictum'  
 Astilbe 'Vision in Pink'  
 Astilbe 'Delft Lace'  
 Brunnera macrophylla  
 Campanula 'Freya'  
 Centaurea 'Amethyst Dream'  
 Centaurea 'Amethyst in Snow'  
 Dicentra 'Luxuriant'  
 Geranium 'Bevan's Variety'  
 Geranium 'Dark Reiter'  
 Geranium Rozanne  
 Geum 'Blazing Sunset'  
 Geum Totally Tangerine  
 Helianthus 'First Light'  
 Helianthus 'Sunshine Daydream'  
 Heuchera 'Hercules'  
 Heucherella 'Sunrise Falls'  
 Heucherella 'Sweet Tea'  
 Hosta 'Brother Stefan'  
 Hosta 'Cracker Crumbs'  
 Iris pallida  
 'Argentea Variegata' (white)

### Perennials (Continued)

Iris pallida 'Variegata' (yellow)  
 Knautia 'Thunder & Lightning'  
 Leucanthemum Broadway Lights  
 Liatris 'Floristan White'  
 Lysimachia clethroides  
 Monarda Grand Mum  
 Nepeta 'Pink Cat'  
 Phlox paniculata 'Laura'  
 Phlox paniculata 'Nicky'  
 Platycodon 'Astra Pink'  
 Scabiosa 'Butterfly Blue'  
 Scabiosa 'Pink Mist'  
 Sedum 'Neon'  
 Silene 'Rollie's Favorite'  
 Sisyrrinchium 'Lucerne'  
 Solidago 'Little Lemon'  
 Vernonia glauca  
 Veronica 'Eveline'

### Vines

Clematis 'Niobe'  
 Clematis 'The President'

## Trial Plants for 2017

These are plants we are testing in small numbers, paying close attention to vigor, disease resistance, and performance in the nursery. But most importantly: do the plants do what "they" claim they do. These plants will not be listed in the catalog. If they meet our standards, they will become available for sale and possibly added to our crop schedule for 2018.

### Perennials

Agastache 'Mango Tango'  
 Agastache 'Rosie Posie'  
 Ajania (Chrysanthemum) pacifica  
 Anchusa 'Blue Angel'  
 Anchusa 'Loddon Royalist'  
 Anemone 'Red Riding Hood'  
 Angelica gigas  
 Astilbe 'Chocolate Cherry'  
 Coreopsis Uptick Cream  
 Delphinium 'Yellow Pearl'  
 Dianthus Eastern Star ('Red Dwarf')  
 Digitalis 'Dalmatian White Improved'  
 Echinacea 'Playful Meadow Mama'  
 Echinacea tennesseensis 'Rocky Top'  
 Eryngium 'Blue Hobbit'  
 Eryngium 'Neptune's Gold'  
 Geranium 'Orkney Cherry'  
 Heuchera 'Sweet Princess'  
 Heuchera 'Tokyo'  
 Hosta 'Cameo'  
 Hosta 'Mini Skirt'  
 Hosta 'Orion's Belt'  
 Iberis 'Tahoe Snow White'  
 Iris tectorum 'Variegata'  
 Kniphofia 'Fire Dance'  
 Kniphofia 'First Sunrise'

### Perennials (continued)

Lilium asiaticum 'Tiny Bee'  
 Lilium asiaticum 'Tiny Diamond'  
 Lilium asiaticum 'Tiny Padye'  
 Lychnis x haageana 'Lumina Red Bronze Leaf'  
 Monarda Balmy Pink  
 Monarda 'Rockin' Raspberry'  
 Papaver Champagne Bubbles Mix  
 Penstemon barbatus 'Prairie Dusk'  
 Penstemon digitalis 'Pocahontas'  
 Phlox paniculata Maiden America™  
 Physostegia 'Pink Manners'  
 Ranunculus 'Buttered Popcorn'  
 Salvia 'April Night'  
 Salvia 'New Dimension Blue'  
 Salvia 'New Dimension Rose'  
 Salvia 'Sensation White'  
 Sanguisorba 'Little Angel'  
 Saponaria ocymoides  
 Tiarella 'Pink Skyrocket'  
 Verbascum 'Southern Charm'  
 Verbena 'Lollipop'  
 Veronica 'Royal Rembrant'

### Ferns

Athyrium filix-femina  
 Dryopteris filix-mas

Agastache 'Mango Tango'

Dianthus Eastern Star

Heuchera 'Tokyo'

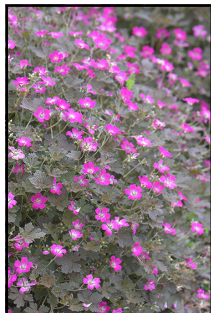

Kniphofia 'First Sunrise'

Hosta 'Mini Skirt'

Anchusa 'Blue Angel'

Geranium 'Orkney Cherry'

Lilium 'Tiny Diamond'

# Terms and Conditions of Sale

Issued January 1<sup>st</sup>, 2017

This is a wholesale price list only.

This catalog cancels all previous quotations.

## PRODUCT AVAILABILITY:

Plants listed will be available for the 2017 season; however, not all of the plants listed will all be available at all times. Please call ahead or check our website to confirm availability.

## DELIVERY:

All delivery of nursery stock is conducted in our vehicles by a member of our staff. Our driver will provide assistance with unloading; however, customers are requested to provide sufficient help to expedite unloading.

## GENERAL DELIVERY SCHEDULE:

**Tuesday & Wednesday** - Central Ohio; orders should be placed no later than Monday at noon

**Thursday** - Southeast Ohio (Cincy, Dayton, etc); orders should be placed by Tuesday, 5 pm

**Friday** - Northern Ohio/Southern Michigan, Indianapolis, and Chicago; orders should be placed by Wednesday, 5pm

## FREIGHT CHARGES:

	Distance from SGI	Minimum Charge	Rate Charge	Minimum Quantity
<b>Area 1</b>	0-14 miles	\$35.00	3.5% of invoice	100 plants
<b>Area 2</b>	15-39 miles	\$50.00	4.5% of invoice	100 plants
<b>Area 3</b>	40-69 miles	\$60.00	6% of invoice	125 plants
<b>Area 4</b>	70-99 miles	\$90.00	6.5% of invoice	125 plants
<b>Area 5</b>	100-149 miles	\$110.00	7% of invoice	150 plants
<b>Area 6</b>	150-224 miles	\$150.00	8% of invoice	150 plants
<b>Area 7</b>	225-325 miles	\$175.00	8% of invoice	200 plants

For all other areas please call for a freight quote.

Freight Charges are subject to change without notice based on the fluctuating conditions of the current market.

## TERMS:

Net 30 days on approved credit. All new accounts are paid in cash or credit card. We will not accept personal checks from new customers until credit is approved. Past due accounts will be assessed a 4% service charge per month.

*Thank you Growing Colors, Terra Nova Nursery, and Walters Gardens for the use of your photographs!*

## GUARANTEE:

We guarantee our plants to be healthy, and to the best of our knowledge, true to name. We will replace or refund the price paid for any plants that prove to be otherwise. It is agreed that the original price paid shall be the maximum damages to which the purchaser is entitled. We will not be held responsible for any other expenses, losses, or inconveniences which the purchaser may sustain as a result thereof. Legal jargon aside, if you are not satisfied with our products, we appreciate knowing just that. Please, allow us the opportunity to fix it.

## RETAIL PRICING and BAR CODES:

We offer retail pricing of material with or without a bar code. Please call for more details. Taking advantage of this service during the winter months can save a lot of time pricing during the season. Every year we hear, "Oh, if I only knew of that earlier." Let us make your life a little bit easier. There is a \$125 annual set-up fee for all labels with pricing, UPC, sku's, etc. Any pricing received after April 15th will be subject to a late fee of an additional \$100.

## LOCATION:

We are located at 7520 Home Rd., Delaware, Ohio; west of the Scioto River, between Rt. 745 and Jerome Rd. in southern Delaware County. (See map on page iv) Plan to visit us anytime you are in the area.

## HOURS:

### March – November

Monday – Friday 8:00 am – 5:00 pm

Saturday Closed

**April – July:** We are probably working but call ahead to be sure. Arrangements can be made for someone to be there.

Sunday Closed

### December - February

Closed for the winter but please call if you have any questions. Again, arrangements can be made for someone to be there.

## LABELS AND SIGNAGE:

Every plant that leaves our nursery receives a full color adhesive label complete with locally specific horticultural data. Because we generate our labels in house, they can include your logo, retail prices, bar codes, SKUs, and much more. Our labels can be quickly modified to accommodate your preferences. If you would like additional labels with your order(s) to use for signage, let us know.

We also have 3.25" x 8", full color, theme specific labels (edible, natives, butterfly, hummingbird, deer resistant, etc). By providing these larger, showier labels to be used on an endcap or themed display, we hope to enhance your marketing efforts.

### 2"x 3.5" Label, used on all 4" pots

**Hideout Hosta**  
*Hosta 'Hideout'*

This miniature hosta boasts slightly twisted, green leaves with a bright white center. A striking specimen for the front of the border or container garden. Pale purple flowers from mid to late July. (Mini; < 5" tall)

**\$12.99**  
4" (1.05mL)

**Ohio Native**

Full Sun  
Attracts Butterflies  
Good Cut Flower  
Growing Tips

**Cheyenne Spirit Coneflower**  
*Echinacea 'Cheyenne Spirit'*

-  A 22"-50" tall perennial, native to the Midwest
-  Full sun to part shade, drought resistant
-  First time such a range of color from seed
-  Care free, doesn't even need dead heading

Cheyenne Spirit is a new seed selection. This means the flower color will vary plant to plant, from rich shades of tomato red, golden yellow, near-fluorescent orange, magenta, and even a stray white here and there. Cheyenne Spirit blooms from June to September. Though the height of each color varies slightly, they are all very well-branched, bushy plants. We expect the seedlings to continue to produce mixed colors. Most other echinaceas will re-seed purple no matter the color of their parent.

Growing Tips

**Japanese Beech Fern**  
*Thelypteris decursive-pinnata*

-  Dark green fronds
-  12-24" tall by 12-18" wide
-  Easily grown and multiplied

This is a tidy spreading groundcover fern native to eastern and southeastern Asia but closely related to our native Beech Ferns. Plants form spreading clumps of upright dark-green fronds, forming a neat mound that is ideal for the front of a moist, shady border. Does not spread rapidly but can be sped up by dividing and replanting.

**Deer Resistant Plant**

Part Shade  
Deer Resistant  
Winter Interest  
Growing Tips

**Georgia Plum Coral Bells**  
*Heuchera 'Georgia Plum' ppaf*

Annual propagation prohibited without license

-  A 7" tall perennial
-  Purple pink flowers bloom spring to fall
-  Tolerant of heat and humidity
-  Part shade, drought resistant

Georgia Plum is an eye-catching new form of H. 'Georgia Peach'. This new selection from Terra Nova is tough, with amazing year round rose purple leaves, pink to silver overlay, and purple pink flowers. Georgia Plum has a tighter habit with smaller leaves and shorter flowers than H. 'Georgia Peach' giving it a cleaner appearance in the landscape. Easy to grow and care free, coral bells thrive in low-water zones with good drainage.

Growing Tips

**Stained Glass Hosta**  
*Hosta 'Stained Glass'*

-  A 22" tall perennial
-  Intense yellow leaves with green margins
-  Thick textured, good slug resistance
-  Grow in bright shade for best color

The aristocrat of the shade garden, Hostas contribute form, color and texture. Stained Glass is an outstanding sport of Hosta 'Caucasiana' that has incredibly bright yellow leaves with rich green margins. The color intensifies as the season progresses. Fragrant white flowers in July and August. A fantastic Hosta for use as either a specimen or mass planting.

Winter Interest  
Growing Tips

**Gold Heart Bleeding Heart**  
*Dicentra spectabilis 'Gold Heart'*

-  Bright chartreuse & gold foliage
-  Weeping stems hold pink blooms
-  Goes dormant in hot dry summers

A charming plant to highlight the shade garden, Gold Heart Bleeding Heart is a show-stopper with its bright gold foliage and pink and white blooms held above the foliage on arched stems from April to July. This plants only downfall is that it will go dormant in July in hot, dry summers. Long life as a cut flower. Reaches 18"-20" tall.

**Grand Parade™ Bee Balm**  
*Monarda didyma Grand Parade™ (ACRade) pp# 19,980*

Annual propagation prohibited without license

-  Lavender-purple flowers top a fuzzy, compact plant
-  Attracts butterflies and hummingbirds
-  Deer resistant, minty scented foliage
-  Compact, 15"-16" tall perennial for part shade

Grand Parade™ is a wonderful, compact selection of Bee Balm producing a profusion of bright lavender-purple blooms in summer that attract butterflies and hummingbirds to the garden. The fuzzy, aromatic foliage smells like mint when crushed and can be used to flavor tea. Deer, however find the leaves distasteful! This variety is very resistant to powdery mildew but still should be grown in part sun with good aeration and moist garden soil.

## Feed the Caterpillars!

In 2015, we introduced our "Feed the Caterpillars" line, and it was a huge success! Everyone loved the labels showing the caterpillars and butterflies. For 2017, our "Feed the Caterpillars" line will include the following plants:

*Asclepias curvassavica* 'Red' - annual milkweed with dark red flowers and bronzy foliage

*Asclepias incarnata* 'Soulmate' - swamp milkweed with dark pink flowers, native

*Asclepias syriaca* - common milkweed, favorite food source of Monarch caterpillars, native

*Foeniculum vulgare* 'Bronze' (Fennel) - food source for Black Swallowtail caterpillars & excellent herb for the kitchen, not a bulb forming type, but used for the ferny tops

*Mentha suaveolens* 'Variegata' (Variegated Pineapple Mint) - food source for the Gray Hairstreak caterpillar. Fuzzy, white edged leaves with a fruity aroma.

*Mentha x villosa* (Mojito Mint) - food source for the Gray Hairstreak caterpillar; native to Cuba

*Petroselinum crispum* var. *neapolitanum* 'Giant of Italy' (Flat Leaf Parsley) - food source for Black Swallowtail caterpillars and an excellent herb for the kitchen

*Trifolium repens* 'Dragon's Blood' - perennial; mint green clover with silver edges and red spots. General nectar source and host plant for Sulphurs, Dogfaces, and Eastern Tailed Blue Butterflies

*Trifolium rubens* 'Red Feather' - perennial; large, purple-red flower heads, general nectar source and host plant for Sulphurs, Dogfaces, and Eastern Tailed Blue Butterflies

*Viola tricolor* (Johnny Jump-Up) - heirloom, hardy to zone 6; classic viola flower, food source for Fritillary caterpillars

### Red Feathers Clover *Trifolium ruben* 'Red Feathers'

Red Feather is easy to grow, but not invasive. Large, purple-red flower heads are silver when in bud and rise above the leaves. It is a food source for the Clouded & Cloudless Sulphurs, Dogface, & Eastern Tailed Blue (pictured) Butterflies & caterpillars. Also attracts hummingbirds. Full sun, 24" tall.

**\$X.XX**

4" (1.05ml) Grown in Ohio by:  Smith's Gardens, Inc.

Caterpillar Butterfly

### Silky Deep Red Milkweed *Asclepias curvassavica* 'Silky Deep Red'

A Monarch Magnet! This tender annual has clusters of dark orange-red flowers from spring to frost & is a fantastic food source for both the adult and caterpillar! This once common Butterfly will soon be on the Federal Endangered Species list due to habitat destruction. Milkweed plants are the only food source for Monarch caterpillars. Sun, 2-3' tall.

**\$X.XX**

4" (1.05ml) Grown in Ohio by:  Smith's Gardens, Inc.

Caterpillar Butterfly

### Giant of Italy Flat Leaf Parsley *Petroselinum crispum* var. *neapolitanum* 'Giant of Italy'

Giant of Italy Parsley features huge, dark green leaves with great flavor. It's very vigorous and high yielding, meaning there will be enough for both you and the caterpillars. Parsley is a food source for Eastern Black Swallowtails, also sometimes called Parsley worms. Full sun, 18" tall.

## PERENNIALS

**Achillea millefolium 'Laura'**

Height: 16"

Exposure: full sun

Laura Yarrow

Part of the Song Siren™ series, Laura features large ruby red blooms, each with a tiny white eye. Flowering begins in early summer, continuing for weeks.

True 1 gallon (1-14) \$5.50 (15+) \$5.20

Achillea 'Laura'

**Achillea millefolium Little Moonshine ('ACBZ0002')**

ppaf

Height: 12-14"

Exposure: full sun

Little Moonshine Yarrow

Introduced by Blooms of Bressingham, Little Moonshine features bright, golden yellow flowers. The gray green foliage is fuzzy and astringent, making it very distasteful to deer and rabbits. A new, compact version of the original Moonshine Yarrow and a great xeric plant once established.

True 1 gallon (1-14) \$5.50 (15+) \$5.20

Achillea Little Moonshine

**Achillea millefolium 'Pink Grapefruit'**

pp# 20,741

Height: 24"

Exposure: sun

Pink Grapefruit Yarrow

Pink Grapefruit was selected for its uniform, large, pink blooms and sturdy growth habit. Blooms begin in early summer and continue for weeks. Light re-blooming may occur if deadheaded. Site in full sun and moist, well-drained soil for best growth. From Blooms of Bressingham®

True 1 gallon (1-14) \$5.50 (15+) \$5.20

Achillea 'Pink Grapefruit'

**Achillea millefolium 'Saucy Seduction'**

pp# 20,782

Height: 24"

Exposure: full sun

Saucy Seduction Yarrow

Saucy Seduction is a mid-sized plant with rich green foliage and a dense, upright habit. Clusters of rich pink flowers, each with a tiny white eye, form above the foliage in abundance from June into August. Deadheading will enhance appearance and encourage more buds to form. Site in full sun and moist, well-drained soil for best growth. From Blooms of Bressingham®

True 1 gallon (1-14) \$5.50 (15+) \$5.20

Achillea 'Saucy Seduction'

**Achillea millefolium 'Strawberry Seduction'**

pp# 18,401

Height: 24"

Exposure: full sun

Strawberry Seduction Yarrow

Strawberry Seduction has large flowers that open strawberry red, maturing to buff yellow on strong, sturdy stems that don't flop over. Flowering begins in early summer, continuing for weeks. Deadheading will enhance appearance and encourage more buds to form. Site in full sun and moist, well-drained soil for best growth. From Blooms of Bressingham®

True 1 gallon (1-14) \$5.50 (15+) \$5.20

Achillea 'Strawberry Seduction'

Aconitum 'Arendsii'

**Aconitum carmichaelii 'Arendsii'**

Autumn-flowering Monkshood

Height: 36-48"

Exposure: sun

This hybrid monkshood features dense panicles of hooded, deep azure blue flowers in fall atop thick, rigid, leafy stems. Arendsii stems are unusually thick and do not need support. Flowering in September, they combine well with fall blooming Anemones. All parts of this plant are poisonous.

True 1 gallon (1-14) \$7.00 (15+) \$6.70

Aconitum 'Spark's Variety'

**Aconitum 'Spark's Variety'**

Spark's Variety Monkshood

Height: 24-48"

Exposure: sun

This classic hybrid monkshood dates back to England circa 1898. It features panicles of hooded, dark violet blue flowers in July and August atop thick, rigid, leafy stems. All parts of this plant are poisonous.

True 1 gallon (1-14) \$7.00 (15+) \$6.70

Acorus 'Ogon'

**Acorus gramineus 'Ogon'**

Golden Variegated Sweet Flag

Height: 6-12"

Exposure: full sun

Native to wetlands of eastern Asia, Acorus is a marginal aquatic perennial that features a grass-like, linear leaf blades that fan outward. Tufts will slowly spread over time by rhizomes to form a dense groundcover. Plants thrive in wet soils and dry spells may cause leaf tips to brown. Tiny, yellow-green flowers bloom from spring to early summer. When pinched or bruised, its leaves emit a fresh citrus scent. Ogon is a dwarf variety with variegated leaf blades striped in yellow and green.

Squat 1 gallon \$4.50

Agastache 'Blue Fortune'

**Agastache 'Blue Fortune'**

Blue Fortune Hyssop

Height: 24-36"

Exposure: full sun

Blue Fortune is a pollinator magnet! Lavender blue flower spikes cover the plant from mid-summer to early fall. Bred and selected by Gert Fortgens of the Arboretum Trompenberg, in Rotterdam. Blue Fortune is a hybrid of species native to the US and Korea, A. foeniculum x A. rugosa.

True 1 gallon \$5.50

2 gallon \$7.75

Agastache 'Purple Haze'

**Agastache 'Purple Haze'**

Purple Haze Hyssop

Height: 36"

Exposure: full sun

Purple Haze is a shrubby looking perennial with shiny green, licorice-scented foliage, that produces long spikes of smoky violet-blue flowers from early summer until September. Flowers are a darker blue than A. 'Blue Fortune' due to the black calyxes. The leaf petioles and stems will pick up a purple color with cooler fall temperatures. The stems hold up well into the winter giving several more months of interest. Agastache are very susceptible to root rot during winter and require sharp drainage for over wintering success.

True 1 gallon \$5.75

*Ajuga reptans*

Height: 4-6"

Exposure: part-full shade

Bugleweed

Ajuga forms a dense mat of foliage, up to 6" tall, that always seems to look neat and fresh. In many cases, the leaves are colored with shades of purple, white, silver, cream, or pink. Individual plants grow as a rosette, but they intertwine to form a solid carpet that withstands light foot traffic. Flower spikes adorn plants from late spring to early summer. Ajuga is a great groundcover for part to full shade.

'Burgundy Glow' - features tricolored foliage (white, pink and green) and blue flowers on 6" spikes in late spring

'Pink Lightning' - soft, mint-green leaves with a distinct creamy white edge; bubblegum pink flower spikes rise bloom in early May. A sport of A. 'Purple Torch' discovered and introduced by Sunny Border Nursery.

4" \$2.50

Sold in flats of 8

Ajuga 'Burgundy Glow'

Ajuga 'Pink Lightning'

*Alchemilla sericata* 'Gold Strike'

Height: 12-14"

Exposure: part shade

Gold Strike Lady's Mantle

This lovely mounding ground cover produces soft, scalloped gray-green leaves with finely serrated edges, and shimmering white pubescence. Tiny yellow flowers are held above the foliage in sprays and are a good cut flower. A daintier plant than A. mollis that combines wonderfully with small hostas.

True 1 gallon \$5.50

Alchemilla 'Gold Strike'

*Allium* 'Millenium'

Height: 15-20"

Exposure: full sun

Millenium Ornamental Onion

Fragrant, purple pom-pom flowers appear in mid-summer, above strappy, shiny, onion-scented leaves that are not bothered by deer, rabbits, or chipmunks! Compared to other Alliums, Millenium is well-behaved in the garden and does not reseed. Allow foliage to go yellow after flowering to store energy in the bulbs for the following year's growth.

True 1 gallon (1-14) \$7.00 (15+) \$6.70

Allium 'Millenium'

*Allium* 'Summer Peek-a-Boo'

Height: 12"

Exposure: full sun

Summer Peek-a-Boo Ornamental Onion

This is an adorable sport of Allium 'Summer Beauty'. It's lollipop flowers peek out above the neat, clean foliage, earning it the name Summer Peek-a-Boo. Lavender pink flowers open over an exceptionally long period, from June into early August. Allow foliage to go yellow after flowering to store energy in the bulbs for the following year's growth.

Trade 1 gallon (1-14) \$6.50 (15+) \$6.20

Allium 'Summer Peek-a-Boo'

Alstroemeria Inca Joli™

**Alstroemeria Inca Joli™ ('Koncajoli')**

pp# 22,267

Inca Joli Peruvian Lily

Height: 16-20"

Exposure: full sun

The plants in the Inca series were bred specifically for garden use. Hardy to zone 5, they have successfully overwintered in the ground at the nursery (until we had a zone 4 winter). These plants are more compact than those bred for the floral industry, but the stems are still plenty long enough for cutting. Inca Joli™ sports vibrant orange-red and gold flowers with dark flecking. Outrageously floriferous! These were still in flower in the nursery and in Ken and Linda's yard even after the first few frosts.

Trade 1 gallon \$7.00

'Honorine Jobert'

'Lucky Charm'

**Anemone**

Windflower

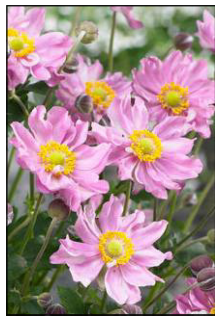

Exposure: sun-light shade

Fantastic perennials for shaded areas, they provide dramatic color in the fall garden. Blooming in September, the delicate, upward-facing flowers come in shades of white and pink and are held on long stems well above the dark green palmate foliage. Always eye catching, Japanese Anemones add a unique form and texture to the garden. The taller varieties may require staking when in flower, but those two feet or less generally don't. They will perform equally well in sun if provided consistent moisture.

'Pamina'

'Pocahontas'

'Honorine Jobert' - discovered in 1858 in Verdun, France, this remains an outstanding selection. A vigorous, compact cultivar featuring large, snow white flowers with yellow center stamens; 36-48" tall. 2016 Perennial Plant of the Year™

'Lucky Charm' - leaves start off deep purple and change to dark green with a lighter violet back. Flowers are deep rich pink with very dark purple stems; 36" tall

'Pamina' - hot pink, semi-double, upward facing flowers in September; 18-24" tall

'Pocahontas' - dwarf plant with frilly, double pink flowers, blooms a little earlier, beginning in late July; 18-24" tall

True 1 gallon \$6.50

Summer only

Aralia 'Sun King'

**Aralia cordata 'Sun King'**

Sun King Japanese Spikenard

Height: 36-72"

Exposure: part shade

Tropical, golden yellow leaves all season! Four to six hours of sunlight a day ensures the brightest color. In summer, 2' tall spikes of tiny white flowers appear. These turn into reddish-purple berries, inedible to humans but loved by birds. Be sure to give this large, shrubby perennial plenty of space in the garden.

True 1 gallon \$7.50

**With fronds like you, who needs anemones.**

**-Finding Nemo**

***Arisaema triphyllum* 'Starburst'**

Starburst Jack-in-the-Pulpit

Height: 24-30"

Exposure: part shade

This fast growing and vigorous selection of our native Jack-in-the-Pulpit emerges in early spring with white veined, trifoliate leaves, dusted in silver. The clumps grow to 22" tall and are adorned with white striped, green Jack flowers, followed by red berries if fertilized. Be aware that the berry juice is caustic to the touch and the seed poisonous if ingested.

Trade 1 gallon \$9.00

Spring only

Arisaema 'Starburst'

***Artemisia schmidtiana* 'Nana'**

Silver Mound Artemesia

Height: 12"

Exposure: full sun

Silver Mound Artemesia is a compact mounded plant with soft, filigree, silver foliage. It's great used in the rock garden or for edging where the silvery foliage helps blend other colors together. It may be short lived in poorly drained soils. Prune back after flowering for a neater, tighter habit.

Trade 1 gallon \$5.00

Artemisia 'Nana'

***Arum italicum* 'Pictum'**

Painted Italian Arum

Height: 12-16"

Exposure: part shade to shade

The life cycle of Painted Arum is somewhat unusual. Leaves emerge in fall, staying through winter, and then withering with the green flowers in late spring, leaving scarlet seed heads standing bare in the summer. It is an excellent garden plant, whose leaves are marbled with white when they first emerge, maturing to cream with wavy edges, making a great ground-cover. The eye-catching seeds are poisonous, so care should be taken with young children, but blackbirds love them!

4" \$2.50

Sold in flats of 8

Arum italicum 'Pictum'

***Aruncus dioicus***

Goat's Beard

Height: 36-48"

Exposure: light shade to shade

A wonderful specimen plant for the shade garden, Goats Beard thrive in rich, moist soils, is a robust grower, and can take the place of a shrub in the garden. Plants produce fluffy plumes of creamy white flowers in summer that can be up to 12" in length.

True 1 gallon \$6.00

Aruncus dioicus

***Aruncus* 'Misty Lace'**

Misty Lace Goat's Beard

pp# 15,798

Height: 30"

Exposure: sun to part shade

A unique hybrid seedling discovered by Allen Armitage, Misty Lace is a dwarf Goat's Beard, growing 2½' tall by 2' wide. In spring, red stems support large, creamy white blooms that float above the delicate, ferny foliage. A very hardy specimen, it can take full sun if given enough moisture.

True 1 gallon (1-14) \$6.00 (15+) \$5.70

Aruncus 'Misty Lace'

## Asclepias & Monarchs

Commonly known as Butterfly Weed or Milkweed, *Asclepias* are the sole food source for Monarch caterpillars. Known for the incredible mass migration that brings millions of them to California and Mexico each winter, North American monarchs are the only butterflies that make such a massive journey—up to 3,000 miles. Only monarchs born in late summer or early fall make the migration, and they make only one round trip. By the time next year's winter migration begins, several summer generations will have lived and died and it will be the great grandchildren of last year's migrators that make the trip. Yet somehow these new generations know the way, and follow the same routes their ancestors took—sometimes even returning to the same tree. Scientists are concerned about the eastern population of monarchs, which summer east of the Rocky Mountains. This group is occurring in ever smaller numbers, and its survival is threatened by reduced acreage of milkweeds and nectar sources in their summer home. To do our part to help the Monarchs, we are offering 4 species of Milkweed for 2017. These varieties will be offered in 4" pots and 1 gallons with a Butterfly label. For a full listing of what will be available in the "Feed the Caterpillars" line, see page VIII of the introduction.

*Asclepias c.* 'Red'

### *Asclepias curassavica* 'Red'

Height: 2-3'

Exposure: full sun

Red Annual Milkweed

Also called Blood Flower, this annual Milkweed is native to South America. Showy flowers are bright red with a yellow hood, appearing in late spring and continuing until early fall. The new growth of *A.* 'Red' has a lovely bronze cast. It has a much longer flowering time than the perennial milkweeds and blooms are followed by long narrow seed pods, typical of the milkweed family. This is primarily a nectar source for the Monarch butterfly.

4" \$2.50

Sold in flats of 8

*Asclepias i.* 'Cinderella'

### *Asclepias incarnata* 'Cinderella'

Height: 3-5'

Exposure: full sun

Cinderella Milkweed

A hassle-free perennial with compact clusters of vanilla scented, rose pink flowers from mid-summer to early fall. Dried seed pods are interesting and are frequently used in dry arrangements. The long stems are wonderful for cutting. Prefers moist soil. This variety is a food source for both larval and adult Monarch butterflies.

4" \$2.50 Sold in flats of 8

2 gallon (1-14) \$7.75 (15+) \$7.45

*Asclepias i.* 'Soulmate'

### *Asclepias incarnata* 'Soulmate'

Height: 36-42"

Exposure: sun

Soulmate Milkweed

A selection of our native Milkweed, Soulmate boasts somewhat darker, cherry-pink clusters of vanilla scented flowers from mid-summer to early fall. Flowers are followed by attractive, slender seed pods which split open when ripe releasing silky-haired seeds, easily carried by the wind. Dried seed pods are also used in arrangements. Both a nectar source for adults and foliage food source for caterpillars.

True 1 gallon (1-14) \$5.75 (15+) \$5.45

The butterfly is a flying flower,  
the flower a tethered butterfly  
- Ponce Denis Ecouchard Le Brun

**Asclepias syriaca**

Common Milkweed

Height: 36-48"

Exposure: sun

This native Milkweed typically grows 3-4' tall on thick, upright stems. Blooming in June and July, it features fragrant, light pink flowers that smell like honey. These are followed by prominent, warty seed pods which split open when ripe releasing their silky-tailed seeds for dispersal by the wind. Once commonly seen along roadsides and fields, this native plant is becoming scarce due to the widespread use of herbicides (glyphosate) on genetically modified farm crops, and habitat destruction. Monarch caterpillars clearly prefer Common Milkweed for dinner over Swamp Milkweed or Butterfly Weed.

4" \$3.00 Sold in flats of 8  
True 1 gallon (1-14) \$6.00 (15+) \$5.70

Asclepias syriaca

**Asclepias tuberosa**

Butterfly Weed

Height: 18-24"

Exposure: sun

This tough, drought tolerant native produces eye catching orange flowers in summer that attract many varieties of butterflies, especially Monarchs. The dried seed pods are interesting in shape and are frequently used in dry arrangements. This species requires sharply drained soils. Primarily a nectar source rather than a caterpillar food source.

True 1 gallon \$6.75

Asclepias tuberosa

**Astilbe 'Amber Moon'**

Amber Moon False Spirea

pp# 26,028

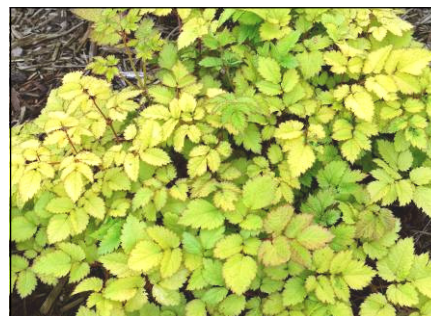

Height: 30"

Exposure: part shade

This chinesis hybrid from Darrell Probst features brilliant, chartreuse yellow leaves edged in red. Very tall, strong, blush red stems carry rose pink flower spikes in mid-summer. The foliage greens up a little in the heat of the summer, but plants look bright and fresh until frost.

True 1 gallon \$6.50

Astilbe 'Amber Moon'

**Astilbe chinensis 'Vision in Pink'**

Vision in Pink False Spirea

pp# 11,860

Height: 14-20"

Exposure: part shade to shade

Dense, upright pale pink flowers are held 14-20" high on narrow but strong stems. Large, glossy, blue-green leaves have a coarse texture and form a neat mound. Moderately drought tolerant.

True 1 gallon \$6.25

Astilbe 'Vision in Pink'

**Astilbe chinensis 'Vision in Red'**

Vision in Red False Spirea

pp# 11,965

Height: 18-20"

Exposure: part shade to shade

When compared to Visions, the foliage of Vision in Red is a darker green-red with red petioles. The flower buds are a showy red and open to a slightly darker flower than Visions. A heat tolerant summer bloomer.

True 1 gallon \$6.25

Astilbe 'Vision in Red'

Astilbe 'Vision in White'

**Astilbe chinensis 'Vision in White'**

pp# 18,965

Vision in White False Spirea

Height: 18"

Exposure: part shade to shade

Glowing white flowers are held above the foliage in stiff spikes in July. This selection has the best foliage of the "Visions" group. Thick, dark green leaves have a plastic-like texture. Fast growing and trouble free, this selection of Astilbe grows exceptionally well in the Midwest being more tolerant of average to drier soils.

True 1 gallon \$6.25

Astilbe 'Visions'

**Astilbe chinensis 'Visions'**

Visions False Spirea

Height: 18"

Exposure: part shade to shade

Rich, vibrant reddish purple flowers are held 12-18" high on strong, stocky stems. Dark green, thick foliage. A rapid grower that is very well suited to our Midwestern summers. Our favorite Astilbe, it blooms later than many other cultivars.

True 1 gallon (1-14) \$5.75 (15+) \$5.45

Astrantia 'Abbey Road'

Astrantia 'Vanilla Gorilla'

**Baptisia australis**

False Blue Indigo

Height: 3-4'

Exposure: sun-light shade

Rich, indigo blue flower spikes appear in May on strong stems making it a great cut flower. Wait until all the blooms have expanded to cut. It has a large, bushy habit with gray-green foliage that is free of insect and disease problems. 2010 Perennial Plant of the Year.

2 gallon \$9.25

Baptisia australis

**Baptisia 'Purple Smoke'**

Purple Smoke Wild Indigo

Height: 2-3'

Exposure: sun to light shade

A hybrid of B. australis and B. alba, this selection has beautiful, smoky-violet blooms held above the foliage in late spring, contrasting with the charcoal colored stems. Dainty gray-green leaves are smaller than other Baptisia selections and the plants mature at only three feet tall.

True 1 gallon \$8.00

Baptisia 'Purple Smoke'

**Bletilla striata**

Chinese Ground Orchid

Height: 8-18"

Exposure: afternoon shade

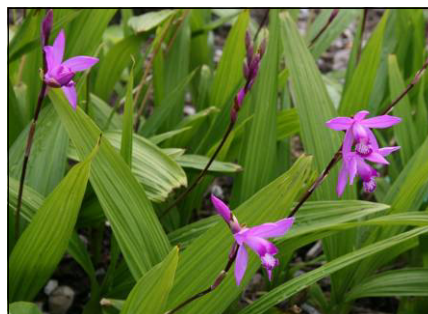

Chinese Ground Orchid is a terrestrial orchid which produces small, cattleya-like, pinkish purple flowers in clusters atop naked scapes. Blooms in late spring and prefers a cool woodland or shady rock garden. For best overwintering success, choose a site that is well-drained, and cover the crown in a thick layer of mulch to insulate the plant during the winter.

4" \$5.00

Spring only

Sold in flats of 6

Bletilla striata

Brunnera macrophylla

**Brunnera macrophylla**

Siberian Bugloss

Height: 12-18" Exposure: part shade

Small, Forget-Me-Not like flowers bloom on airy, 18" tall, slender, branched racemes rising well above the foliage in spring. Basal, heart-shaped, blackish-green leaves form a foliage mound which remains attractive throughout the growing season.

True 1 gallon \$6.00

Brunnera 'Alexander's Great'

**Brunnera macrophylla 'Alexander's Great'**

Alexander's Great Siberian Bugloss

pp# 25,789 Height: 14" Exposure: part shade to shade

The HUGE heart shaped leaves of Alexander's Great are double the size of B. 'Jack Frost'. They have a heavy silver overlay with prominent dark green veins and unique, spiraled leaf-bases. Great for brightening up dark shady areas. Brunnera produce tiny, blue, Forget-Me-Not type flowers in early spring.

True 1 gallon (1-14) \$10.00 (15+) \$9.70

**Chelone lyonii 'Hot Lips'**

Height: 18-24"

Exposure: sun-part shade

Hot Lips Turtlehead

This Midwest native is known for its distinctive flowers that are shaped like a turtle's head with its mouth open. Hot Lips has rose-pink flowers with dark green, thick, almost plastic looking foliage. Great for planting near streams or ponds.

True 1 gallon (1-14) \$6.00 (15+) \$5.70

Chelone 'Hot Lips'

Cimicifuga 'Black Negligee'

**Cimicifuga 'Black Negligee'**

Black Negligee Bugbane

Height: 3-5'

Exposure: part shade to shade

The lacy purple-black foliage of Black Negligee is dramatic when arranged with green, yellow, and silver plants such as hostas, ferns, and polygonatum. Sweetly scented white flowers are produced at perfect smelling height in early fall. A cut stem will perfume an entire room for several days. This plant makes an excellent vertical accent for the shade garden.

Trade 1 gallon (1-14) \$9.00 (15+) \$8.70

Cimicifuga 'Chocoholic'

**Cimicifuga 'Chocoholic'**

Chocoholic Bugbane

pp# 24,821

Height: 2-3'

Exposure: light shade-shade

The lacy, mocha and burgundy leaves of Chocoholic combine wonderfully with yellow and variegated plants for a dramatic and eye catching arrangement. Sweetly scented flowers open a soft pink and lighten to white as they age. This plant makes an excellent vertical accent in the shade garden and works great with hostas and ferns. Bugbane benefits from organic matter being added to the soil when planted.

Trade 1 gallon (1-14) \$9.00 (15+) \$8.70

Convallaria 'Bordeaux'

**Convallaria majalis 'Bordeaux'**

Bordeaux Lily-of-the-Valley

Height: 8-10"

Exposure: sun to part shade

Lily-of-the-Valley prefers part shade and moist, fertile soils. However it also does well in full sun, forming a dense, weed free groundcover that is surprisingly drought tolerant. All parts of this plant are poisonous, which makes it very deer resistant. Bordeaux is an improved variety, producing larger, bell-shaped, fragrant, white flowers on stems that are held above the foliage as opposed to between the leaves. The tulip-like foliage is also a bit darker green and more rounded.

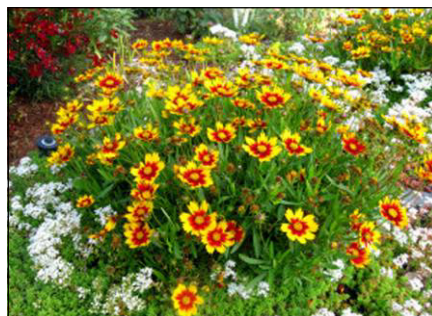

4" \$2.50

Sold in flats of 8

## Coreopsis

Valued for their dependable nature and colorful flowers, Coreopsis are low maintenance, drought tolerant, and long blooming. Native to US prairies, the flowers attract butterflies and their seeds are enjoyed by Goldfinch and other birds. There is an incredible amount of variety among Coreopsis, including broadleaf vs threadleaf, tall vs short, and flower colors including pinks, reds, yellows, oranges, whites, and bi-colors. Most Coreopsis are clump forming, holding their flowers on tall stems, above the foliage making them good cut flowers.

Coreopsis should be sited in full sun and average garden soils with good winter drainage. Don't over fertilize, or you'll have tall, leggy plants that tend to flop over. Dead-heading will keep the plants tidy and promote re-bloom, however leave some seed heads for the birds in fall and winter.

Coreopsis 'Daybreak'

**Coreopsis 'Daybreak'**

Daybreak Coreopsis

Coreopsis 'Red Elf'

Coreopsis 'Red Elf'

ppaf  
Height: 8-12" Exposure: full sun

Red Elf Coreopsis

Red Elf features deep burgundy-red blooms similar to Mercury Rising but on a much smaller, compact, upright branching plant. During the heat of the summer the flower tips become frosted with white, but return to solid red when temperatures moderate. From Darrell Probst's new Li'l Bang™ Series.

Trade 1 gallon (1-14) \$5.35 (15+) \$5.05

Coreopsis 'Red Satin'

Coreopsis 'Red Satin'

ppaf  
Height: 15-18" Exposure: sun

Red Satin Threadleaf Coreopsis

Red Satin has deep, wine-red to ruby red flowers with an orange center that completely cover the threadleaf foliage. Compared to other threadleaf types, it has darker green leaves and a strong, upright habit. This variety has a long bloom period producing flowers all summer, and if cut back, the plants can be encouraged to rebloom until frost. Selected by Darrel Probst, the first in his PermaThread™ Series.

Coreopsis 'Route 66'

Coreopsis 'Route 66'

pp #20,609  
Height: 18-24" Exposure: sun

Route 66 Threadleaf Coreopsis

Bright yellow flowers have brick red eye zones that bleed down into the flower petals giving a two toned effect. Late fall flowers can be totally red, depending on how cold it gets. Plants are short and compact, without the tendency to fall over; however, don't over fertilize.

True 1 gallon (1-14) \$6.00 (15+) \$5.70

Coreopsis 'Star Cluster'

Coreopsis 'Star Cluster'

pp# 23,035  
Height: 24-30" Exposure: full sun to light shade

Star Cluster Coreopsis

The large, creamy white flowers of Star Cluster develop purple eye zones and picotee edges as the weather begins to cool in late summer and early fall. This coreopsis blooms from late spring to frost on tall, well branched plants. Because it's a taller variety, we suggest cutting the plants back by half in late spring. Grow in poor soils and don't over fertilize.

True 1 gallon (1-14) \$6.00 (15+) \$5.70

### Coreopsis 'Starlight'

ppaf

Height: 8-12"

Exposure: full sun

Starlight Coreopsis

Starlight features large, creamy white flowers with a burgundy, star-shaped eye. As temperatures cool, the red eye expands into the petals. The flower reminds us of C. 'Cosmic Evolution', but on a much smaller, compact plant. Sterile flowers extend the bloom period without the need to dead-head. From Darrell Probst's new Li'l Bang™ Series.

Trade 1 gallon \$5.35

## Dianthus

Height: 6-12"

Exposure: sun

Dianthus are highly prized for their eye-catching, fragrant flowers, blooming in late May. Happy plants form a tight, spreading, semi-evergreen ground-cover. Flower forms range from single to fully double, in hues of white, pink, reds, and bi-colors. Dianthus perform best with good drainage, moderate fertility, and average moisture. Plants look cleaner if spent flowers are removed in early summer.

**NEW** Coconut Surprise ('WP05 Yves') - double white flowers with dark red centers above glaucous, gray-blue leaves; 8" tall  
pp# 18,828

**NEW** 'Coral Reef' - double, coral pink flowers with a white picotee edge, 10" tall  
pp# 19,660

Fire Star ('Devon Xera') - single, scarlet red flowers above clean, gray leaves; 9" tall  
pp# 14,895

'Neon Star' - single, intense, fluorescent pink flowers above glaucous, blue-gray leaves; 7" tall  
pp# 14,549

**NEW** Passion ('WP Passion') - double, red flowers above gray-green foliage; 12" tall  
pp# 21,843

White Old Fashioned Bleeding Heart

Gracefully arching stems carry pure white, heart shaped flowers from mid-spring to early summer. It will go dormant in late June if in full sun, but can hold until August in shade. Makes an excellent cut flower.

2 gallon (1-14) \$7.50 (15+) \$7.20 Spring only

**Dicentra spectabilis 'Gold Heart'**

Gold Heart Old Fashioned Bleeding Heart

Height: 24-30"

Exposure: part shade-shade

A charming plant to highlight the shade garden, this show-stopper has bright gold foliage and bright pink and white blooms held on arched stems from May to June. This plant's only downfall is that it will go dormant in July in hot, dry summers. Long life as a cut flower.

True 1 gallon (1-14) \$9.00 (15+) \$8.70 Spring only

Dicentra spectabilis 'Gold Heart'

**Dicentra x 'King of Hearts'**

King of Hearts Bleeding Heart

Height: 10-15"

Exposure: light shade

King of Hearts holds deep pink blooms on upright stalks from late spring into mid to late summer. The dark, blue-green, fern-like foliage is a splendid contrast to the beautiful flowers. This plant prefers afternoon shade and even moisture to perform through the summer, or it will go dormant in hot, dry summers. An excellent cut flower with a long vase life.

Trade 1 gallon \$6.75 Spring Only

Dicentra x 'King of Hearts'

**Dicentra x 'Luxuriant'**

Luxuriant Bleeding Heart

Height: 12-18"

Exposure: light shade

Bright green, ferny foliage is covered with sprays of dusky pink to red flowers from late May into early July, and sporadically thereafter. Given shade, adequate water and reasonable drainage, this plant is hard to beat for its refined foliage and consistent color. Foliage does not go dormant in the summer.

Trade 1 gallon \$6.75

Dicentra x 'Luxuriant'

## Echinacea

Prized for their large, brightly colored flowers, coneflowers have become a mainstay in today's landscapes. Their color and form combine equally well in the wildflower or urban garden. Most varieties make excellent cut flowers. The cones hold up well into winter providing architectural interest as well as attracting seed eating birds. Echinacea perform best in full sun to light shade. They prefer consistent moisture to avoid leaf burn and early petal decline. Being native, they are well adapted to our soils and climate. Height listed is in flower. We hope to have over 20 varieties available in 2017.

**Eupatorium dubium 'Little Joe'**

pp# 16,122

Height: 4'

Exposure: full sun

Little Joe-Pye Weed

A shorter Joe-Pye growing to four feet tall with mauve colored flowers in late summer. Its smaller stature and slower growth rate make it much more suited for today's gardens. This native attracts butterflies and seed eating birds such as Goldfinch.

True 1 gallon (1-14) \$6.50 (15+) \$6.20

Eupatorium 'Little Joe'

Euphorbia 'Ascot Rainbow'

*Euphorbia x martinii* 'Ascot Rainbow'

pp# 21,401

Ascot Rainbow Spurge

Height: 18-24"

Exposure: sun to part shade

The unique variegated foliage of Ascot Rainbow is phenomenal. The narrow leaves are gray-green with a bright yellow edge in summer and the foliage picks up shades of pink, orange and red in the cooler months. The plant is topped with clusters of variegated cream, lime, and green bracts in spring. Highly heat and drought tolerant, but needs well-drained soils to successfully overwinter.

Trade 1 gallon (1-14) \$5.50 (15+) \$5.20 Summer only

Filipendula 'Venusta'

*Filipendula rubra* 'Venusta'

Queen of the Prairie

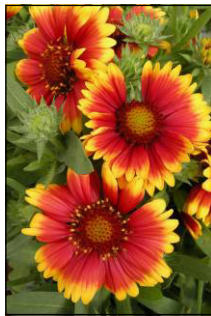

Height: 3-5'

Exposure: sun-light shade

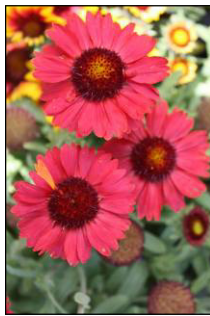

This impressive native is not for the faint of heart or the small garden. Plants thrive in moist soils and will easily attain a height of five feet. Intense rose-pink flowers are borne on 6-9" wide panicles in summer. After flowering, cut plants back hard. New foliage will re-grow to about 2' and remain fresh looking until frost. Does not do well in drought conditions.

True 1 gallon \$7.00

Gallo Dark Bicolor

'Gallo Red'

*Gaillardia Gallo® Series*

Blanket Flower

Height: 10-12"

Exposure: full sun

The Gallo® series features several varieties known for their compact, uniform habit and large, bright flowers. The plants are heat tolerant and their beautiful flowers bloom all summer until frost. Gaillardia need great drainage to successfully overwinter in this area.

Gallo Dark Bicolor ('KIEGALDAB') - bright red center with a bright yellow  
pp# 20,718 edge

'Gallo Red' - solid red flowers  
pp#

Gallo Peach ('KIEGALPEA') - bright yellow with pinkish orange accents  
pp# 20,717

True 1 gallon \$6.00

Gaillardia Gallo Peach

*Gaura lindheimeri* 'Gaudi Red'

Gaudi Red Wand Flower

Height: 10-16"

Exposure: sun

Gaudi Red forms compact mounds of dark green foliage with short spikes of deep rose-red flowers. Stems and buds are darker red, adding a nice contrast. This selection has an excellent branching habit and blooms all summer. With its compact habit, Gaudi Red should look more organized and less messy than other taller varieties. Gaura is a southwest native but hardy enough for the Midwest to enjoy. Provide plants with good winter drainage.

True 1 gallon \$5.50

Gaura 'Gaudi Red'

**NEW** Geranium 'Azure Rush

pp# 22,684

Azure Rush Cranesbill

Height: 22-30"

Exposure: sun to light shade

This hybrid of Geranium 'Rozanne' features tidy green foliage that is covered in 2.5" wide, light lavender blue flowers from late spring through summer. Azure Rush is a compact grower, forming a low, neat mounding groundcover. Cranesbill perform best when given afternoon shade and well-drained soils.

Trade 1 gallon \$6.50

Geranium 'Azure Rush'

Geranium macrorrhizum 'Bevan's Variety'

Bevan's Variety Bigroot Geranium

Height: 12" tall

Exposure: light shade

Bright, magenta-pink flower clusters adorn this perennial in spring. Bevan's Variety forms a tight, dense groundcover of large, fuzzy, green leaves. The soft, pubescent leaves smell like pine or dryer sheets (depending on who you ask) making them very resistant to deer. This semi-evergreen, cool season plant benefits from a hard pruning after the first flush of flowers for cleaner summer foliage.

True 1 gallon \$6.50

Geranium 'Bevan's Variety'

Geranium pratense 'Dark Reiter'

Dark Reiter Meadow Cranesbill

Height: 8-10"

Exposure: sun to light shade

Finely dissected, dark purple leaves show off the bright lilac-blue flowers that bloom all summer! Deadheading encourages rebloom in fall and helps maintain a neat habit. Dark Reiter combines very well with silver toned plants.

True 1 gallon \$6.50

Geranium 'Dark Reiter'

**NEW** Geranium pratense 'Delft Blue'

Delft Blue Meadow Cranesbill

Height: 22-30"

Exposure: sun to light shade

Delft Blue is an improved sport of G. 'Splish Splash', producing more flowers atop a tighter, more compact plant. Like its parent, Delft Blue bears clusters of white flowers that are freckled and streaked with deep lavender. No two flowers are alike. The green leaves are deeply cut and add nice texture to the garden. Trim back to 4" after blooming for a tidier appearance and light rebloom.

True 1 gallon \$6.50

Geranium 'Delft Blue'

Geranium sanguineum 'Max Frei'

Max Frei Cranesbill

Height: 6-10" tall

Exposure: sun-light shade

One of the most popular perennial geraniums due to its compact habit, Max Frei has intense reddish-purple flowers that cover the plants from May to June and sporadically all summer. Bright green finely dissected foliage is deer and rabbit resistant and makes an excellent groundcover for the garden.

Trade 1 gallon (1-14) \$6.00 (15+) \$5.70

Geranium 'Max Frei'

Geranium 'Rozanne'

### Geranium 'Rozanne'

pp# 12,175

Rozanne Cranesbill

Height: 12-18"

Exposure: light shade

Rozanne is a vigorous spreading geranium with bright green leaves and chartreuse marbling. Large, 2", blue-violet flowers with a light eye are produced from late spring to early fall. These plants flower like an annual in the landscape with a non-stop show of bright blue flowers. Perennial of the Year for 2008.

Trade 1 gallon \$6.50

Geum 'Double Bloody Mary'

### Geum 'Double Bloody Mary'

Double Bloody Mary Avens

Height: 14-20"

Exposure: sun to light shade

Frilly, double, tomato red flowers float above the dense, thick foliage starting in early summer. Plants may be pruned back after blooming to rejuvenate the foliage. Does well in afternoon shade.

True 1 gallon \$6.00

Geum 'Blazing Sunset'

### Geum flora plena 'Blazing Sunset'

Blazing Sunset Avens

Height: 12-18"

Exposure: light shade

Avens are wonderful garden perennials with their bright green foliage and airy flowers. Blazing Sunset has brilliant, fully double, red-orange blooms that are held on slender stalks above the fuzzy foliage from late spring into summer. Avens do best in Ohio given afternoon shade and even soil moisture. They do not over winter well in damp soils.

True 1 gallon \$6.00

Geum 'Blazing Sunset'

### Geum flora plena 'Sunrise'

Blazing Sunset Avens

Height: 20"

Exposure: light shade

Sunrise features large, double yellow flowers held on slender stalks above the fuzzy foliage from late spring into summer. Avens do best in Ohio given afternoon shade and even soil moisture. They do not over winter well in damp soils.

True 1 gallon \$6.00

### Geum 'Tim's Tangerine'

Totally Tangerine Avens

Height: 12-16"

Exposure: light shade

Because Totally Tangerine is sterile, its orange-yellow flowers are continually produced throughout the summer. Some sources claim that it produces about 5 times as many flowers as a typical Geum. It is clearly the most floriferous form we grow. Avens perform best in Ohio with afternoon shade and even soil moisture.

True 1 gallon \$6.00

**Gypsophila paniculata 'Festival' Pink**

Festival Pink Baby's Breath

Height: 12-18"

Exposure: sun

Festival Pink features semi-double, long-blooming, airy pink flowers above glaucous foliage. Gypsophila are hardy, drought-tolerant plants requiring well-drained soil. Baby's Breath may go dormant during hot dry summers.

True 1 gallon \$6.00

Gypsophila 'Festival' Pink

**Gypsophila paniculata Summer Sparkles® ('ESM Chispa')**

pp# 19,318

Summer Sparkles® Baby's Breath

Height: 24"

Exposure: sun

Unlike most Baby's Breath which have an open habit and go dormant in late summer, Summer Sparkles® is compact and refined, looking great all season. It forms a dense, round clump of gray-green foliage that becomes completely covered in flowers from late spring through mid-summer. The white flowers are small, semi-double, and slightly fragrant. Deadheading will encourage the plant to rebloom. Needs a well-drained site to successfully overwinter.

True 1 gallon \$6.00

Gypsophila Summer Sparkles

**Helianthus salicifolius 'First Light'**

pp# 13,150

First Light Willowleaf Sunflower

Height: 2-4'

Exposure: full sun

First Light is an upright perennial with narrow, thick, waxy dark green leaves. Showy masses of bright yellow, daisy-like flowers appear in early fall. This is the last plant to flower in our garden and it continues to shine through several hard frosts. An absolute beacon of yellow when not much else is in bloom. With no insect or disease problems, the foliage is as pristine in October as it is in May.

True gallon \$5.75

Summer only

Helianthus 'First Light'

**Helianthus x multiflorus 'Sunshine Daydream'**

Sunshine Daydream Sunflower

Height: 4-5'

Exposure: full sun

Sunshine Daydream has fully double, dahlia-like blooms from June to August. This is a sturdy selection, can grow up to 6' tall and 4' wide, so give it plenty of space in the garden. Generally free of powdery mildew, this helianthus is floriferous and showy, adding great summer color to any garden.

True 1 gallon \$6.00

Helianthus 'Sunshine Daydream'

**Hemerocallis 'Tennessee Volunteer'**

Tennessee Volunteer Daylily

Height: 32-36"

Exposure: sun

Large flowers are a shocking, eye-searing orange. Blooms in July and early August. Four feet tall when in flower, they can be seen from a 100 yards away.

2 gallon (1-14) \$8.50 (15+) \$8.20

Hemerocallis 'Tennessee Volunteer'

## Heuchera & Heucherella

Heucheras and Heucherellas are usually a densely mounded perennial producing numerous sprays of white, pink, or red flowers from spring well into summer. Breeding has produced a wide range of foliage textures including smooth, wavy, pubescent, crenate, and crinkled. Foliage colors include yellows, reds, pinks, oranges, purples, silvers, ambers, whites, and greens. Great in mixed containers, they are showy all year and require very little water or maintenance. Both Heucheras and Heucherellas benefit from well drained soils, partial shade, and have become versatile, well-adapted plants for the Midwest garden. Heights listed are without flowers.

Height: 9-10"

Exposure: part shade

A new variegated creation from Terra Nova Nurseries. The very large, thick, leathery, mahogany colored leaves are heavily variegated with pinkish spots. Leaves emerge a startling bright red and turn darker as they age, making the variegation more noticeable.

Trade 1 gallon \$7.75

Heuchera 'Galaxy'

**Heuchera 'Georgia Peach'**

pp# 19,375

Georgia Peach Coral Bells

Height: 14"

Exposure: part shade-shade

Rosy red spring foliage turns peachy orange with a silver overlay in summer, later turning back to the vibrant rose-red in the fall. A villosa hybrid, this selection is quite tolerant of heat and humidity and forms a loose mound of foliage 14" tall. A great perennial for the front of the border, it will perform best if given afternoon shade.

True 1 gallon \$8.00

Heuchera 'Georgia Peach'

**Heuchera 'Grape Expectations'**

pp# 26,894

Grape Expectations Coral Bells

Height: 12"

Exposure: part shade-shade

In spring, new leaves emerge vibrant grape purple with black veins. The foliage is thick, durable, and somewhat fuzzy forming a dense, upright mound. As the temperatures rise, the leaves develop a bright silver coating and then turn back to very deep purple in late fall. Creamy white flowers are produced on dark purple stems in mid-summer.

True 1 gallon (1-14) \$8.00 (15+) \$7.70

Heuchera 'Grape Expectations'

Heuchera 'Hercules'

### Heuchera 'Hercules'

Hercules Coral Bells

Height: 10-12"

Exposure: part shade

In spring, the creamy white and green marbled foliage glows in the landscape (the coloration shown on the left). As the season progresses, the leaves mature to apple green with paler speckling. A vigorous grower, Hercules quickly forms a substantial mound. The scarlet flowers, displayed in early to mid summer, look amazing above the mottled foliage and the bright color is very attractive to hummingbirds.

True 1 gallon \$7.75

Heuchera 'Lime Ruffles'

### Heuchera 'Lime Ruffles'

Lime Ruffles Coral Bells

pp# 25,604

Height: 10-12"

Exposure: part shade

Lime Ruffles features large, ruffled lime-green leaves with a frosty white overlay. Beautiful white flowers grace this plant in the fall. Site in light or dappled shade for the best lime-green color.

Trade 1 gallon \$7.75

Heuchera 'Mahogany'

### Heuchera 'Mahogany'

Mahogany Coral Bells

pp# 23,647

Height: 10-14"

Exposure: part shade-shade

The shiny, ruffled new foliage is dark reddish-orange turning a darker red as it ages. This contrast creates a unique, orange and mahogany, bicolor effect in summer. Mahogany is a strong grower with dense foliage. It provides a striking contrast with other bright colored plants.

Trade 1 gallon \$7.75

Heuchera 'Midnight Rose'

### Heuchera 'Midnight Rose'

Midnight Rose Coral Bells

pp# 18,551

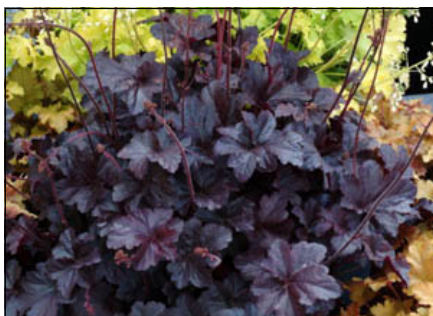

Height: 10-12"

Exposure: part shade

The dark, nearly black leaves are covered with hot pink polka dots and spots. The pink spots are small in spring but grow and brighten as the season progresses. A very unique specimen for the shade garden with an unusual variegation pattern from the ever popular Obsidian.

True 1 gallon (1-14) \$8.00 (15+) \$7.70

Heuchera 'Obsidian'

### Heuchera 'Obsidian'

Obsidian Coral Bells

pp# 14,836

Height: 10"

Exposure: part shade

The large, smooth, purple-black foliage is so shiny it looks lacquered. Quite popular, it combines very well with lighter colored hostas and silver ferns. A good grower forming a 10" tall dense mound, it produces small, cream colored flowers that float over the foliage in early summer. Very sun tolerant.

True 1 gallon (1-14) \$7.75 (15+) \$7.45

**Heuchera 'Paris'**

pp #18,881

Paris Coral Bells

Height: 10-12"

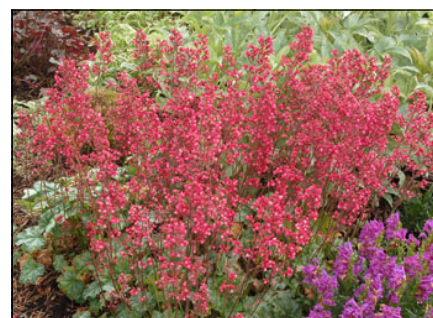

Exposure: part shade

Paris continuously sends up fresh stems of large, deep rose flowers, feeding hummingbirds from spring into August. The leaves are striking, with their whitish green tones and gorgeous green veins. A much prized plant for the garden that will tolerate more sun than most heucheras.

Trade 1 gallon (1-14) \$7.50 (15+) \$7.20

True 1 gallon (1-14) \$7.75 (15+) \$7.45

Heuchera 'Paris'

**Heuchera 'Rio'**

pp# 24,273

Rio Coral Bells

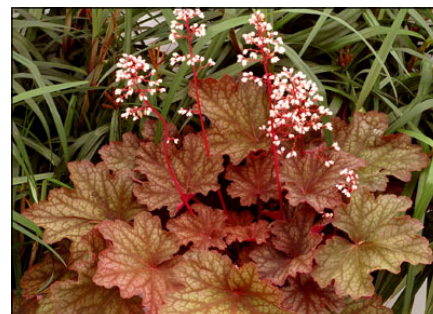

Height: 8-12"

Exposure: part shade to shade

Part of Terra Nova's City Series, Rio has multi-colored foliage that changes throughout the season. New leaves emerge glossy rose-peach, change to amber, and finally to yellow amber. Outstanding, short spikes of white flowers in summer.

Trade 1 gallon \$7.75

Heuchera 'Rio'

**Heuchera 'Spellbound'**

pp# 24,103

Spellbound Coral Bells

Height: 15-18"

Exposure: part shade

A vigorous grower with unusually bold foliage of intense purple with a silver overlay. Spellbound forms a large plant with a dense, multi-crowned habit. This variety does best in a well drained sites with afternoon shade. It has performed wonderfully in the landscape.

True 1 gallon (1-14) \$8.00 (15+) \$7.70

Heuchera 'Spellbound'

**Heuchera 'Sugar Plum'**

pp# 21,857

Sugar Plum Coral Bells

Height: 12"

Exposure: part shade

Sugar Plum stands out from other Coral Bells with its bright silver and glowing plum-purple foliage in spring. Summer turns the leaves a unique silver-gray with darker contrasting veins. Silvery pink flowers raise above the foliage and frequently rebloom. A fantastic, vigorous plant that blends together many types and colors of foliage.

True 1 gallon (1-14) \$7.75 (15+) \$7.45

Heuchera 'Sugar Plum'

**Heuchera 'Sweet Tart'**

pp# 24,573

Sweet Tart Coral Bells

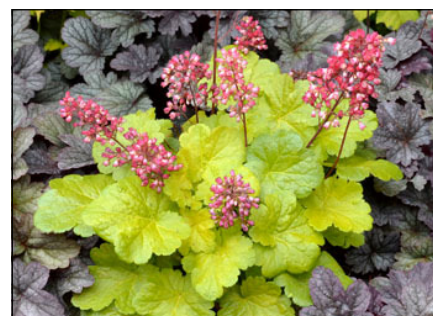

Height: 5-6"

Exposure: part shade

This mini heuchera from the Little Cuties™ series forms a tight mound of bright, lemon-lime foliage. Dense spikes of contrasting two-toned pink flowers top the plant beginning in late spring. This is one of the best pure yellows we have found.

Trade 1 gallon \$7.75

Heuchera 'Sweet Tart'

Heucherella 'Buttered Rum'

### Heucherella 'Buttered Rum'

pp# 25,040

Height: 7"

Exposure: light shade

Buttered Rum Foamy Bells

Caramel colored, deeply-cut, maple-shaped leaves cover this plant from spring to summer. In fall, the cool weather turns the leaves a brilliant rose red. Compared to Sweet Tea or Brass Lantern, it is more compact and low. It has glossy foliage that maintains good color all year round. Extremely sun tolerant.

True 1 gallon \$7.75

Heucherella 'Golden Zebra'

### Heucherella 'Golden Zebra'

pp# 22,104

Height: 10-12"

Exposure: part shade-shade

Golden Zebra Foamy Bells

The foliage of Golden Zebra is bright yellow, feathery, and boldly marked with dark red along the center and veins. A more compact plant than Alabama Sunrise, Golden Zebra will produce white flowers on airy spikes in spring.

True 1 gallon \$7.75

Heucherella 'Sunrise Falls'

### Heucherella 'Sunrise Falls'

pp# 23,666

Height: 8-12"

Exposure: part shade-shade

Sunrise Falls Foamy Bells

In spring, leaves are mostly chartreuse with light red veining. It displays large, yellow, maple-shaped leaves with red veins in summer. Fall leaves have dramatic red tints. White flowers in early summer. This is a spreading heucherella and hence is a good choice for groundcovers, to cascade over retaining walls, or in hanging baskets.

True 1 gallon \$7.75

Heucherella 'Sweet Tea'

### Heucherella 'Sweet Tea'

pp# 21,296

Height: 18-24"

Exposure: part shade-shade

Sweet Tea Foamy Bells

The large leaves of Sweet Tea shimmer in shades of brown, rust, and orange. The fuzzy, deeply lobed leaves darken in the summer and lighten up again in the fall. A villosa hybrid, this Heucherella is very heat and humidity tolerant. Get it while you can—the demand always seems to exceed our supply!

# HOSTA

Perfect for the beginning gardener, hostas are tough, long-lived plants that perform despite neglect. But, for those of us that love plants, Hostas respond wonderfully to amended soils and high fertility, rewarding the attentive gardener profusely. Though not commonly used as such, hostas are a wonderful nectar source for hummingbirds. We are listing 83 cultivars of hosta for 2017, and an additional 20 varieties that are under evaluation. If you don't see something you're interested in, please call.

We are frequently asked how large a particular hosta will get. The size and growth rate of a hosta greatly depends on sunlight, soil type, moisture, and fertility. The best benchmark to use on how large a hosta will grow is to observe other hostas in the area and note their size categories.

*\*We have reduced the price of many hostas for 2017\**

## Hosta sizing:

**Hosta 'Abiqua Drinking Gourd'**

Abiqua Drinking Gourd Hosta

Height: 24"

Exposure: shade

Large; heavily puckered blue-green leaves cup dramatically with age; near white flowers in July. Our favorite blue and has been for years. An outstanding garden performer that gets more majestic every year. Individual leaves are nearly round and can reach 12" across. Eye-catching! H. 'Tokudama' x *sieboldiana*. 2014 Hosta of the Year.

True 1 gallon (1-14) \$9.50 (15+) \$9.20

Hosta 'Abiqua Drinking Gourd'

**Hosta 'Aladdin's Lamp'**

Aladdin's Lamp Hosta

Height: 21"

Exposure: part shade

Medium; bright gold, cupped and corrugated leaves reach upward and outward, creating a beautiful specimen. It's a bit of a slow grower, but well worth the wait! Pale lavender flowers in July, a Tokudama-type seedling from Dick and Jane Ward.

True 1 gallon \$9.50

Hosta 'Aladdin's Lamp'

**Hosta 'Alligator Alley'**

Alligator Alley Hosta

Height: 18"

Exposure: part shade

Medium; heart-shaped leaves are leathery and corrugated. Wide blue-green margins contrast nicely against the creamy center. Near white flowers appear in early summer. Alligator Alley is a wide margined sport of H. 'Dick Ward'.

True 1 gallon \$9.50 Limited quantity

Hosta 'Alligator Alley'

**Hosta 'Atlantis'**

pp# 17,093

Atlantis Hosta

Height: 24"

Exposure: light shade-shade

Large; tetraploid sport of Abba Dabba Do featuring long, dark green, wavy leaves with a wide gold margin. It's a rapid grower that will form a majestic clump up to 5' wide. Lavender flowers on 30" tall spikes are produced in summer. Good slug resistance.

True 1 gallon \$9.00

Hosta 'Atlantis'

**Hosta 'Baby Booties'**

Baby Booties Hosta

Height: 2-4"

Exposure: light shade-shade

Mini; Baby Booties forms a compact mound of dark green leaves with clean white margins. Lots of flower spikes with pale purple flowers are produced in July.

4" \$6.00 Sold in flats of 8

Hosta 'Baby Booties'

Hosta 'Blue Angel'

### Hosta 'Blue Angel'

Blue Angel Hosta

Height: 32-36" Exposure: shade

Giant; large blue-green foliage with heavy substance forms a huge mound up to 60" across when mature; white flowers in July. Good slug resistance. Introduced by Paul Aden in 1986.

True 1 gallon \$7.00

'Blue Mouse Ears'

'Blue Umbrellas'

### Hosta 'Blue Mouse Ears'

Blue Mouse Ears Hosta

Height: 4-6" Exposure: shade

Mini; small, rounded, glaucous blue leaves of thick substance. An excellent trough and front of the border specimen. Adorable lavender flowers on short scapes in July. This sport of H. 'Blue Cadet' was named 2008 Hosta of the Year.

4" \$5.00 Sold in flats of 8

Trade 1 gallon (1-14) \$8.00 (15+) \$7.70

### Hosta 'Blue Umbrellas'

Blue Umbrellas Hosta

Height: 28" Exposure: shade

Large; blue-green leaves in spring with good texture and substance; lavender flowers in early summer. A hybrid of *H. 'Tokudama'* x *H. sieboldiana 'Elegans'*.

True 1 gallon \$7.50

Hosta 'Bridal Falls'

### Hosta 'Bridal Falls'

Bridal Falls Hosta

pp# 25,594

Height: 26" Exposure: part shade

Large; cascading green leaves with pale yellow to creamy white margins. Heart-shaped leaves have a wavy, pie crust edge and prominent veining. Light lavender flowers appear in mid-summer. A sport of H. 'Niagara Falls'.

True 1 gallon \$9.50

Hosta 'Broad Band'

### Hosta 'Broad Band'

Broad Band Hosta

Height: 23" Exposure: part shade

Large; heart-shaped leaves boast yellow to creamy white margins that jet into the dark green center. The extra wide, showy margins are what sets this hosta apart. Near white flowers are produced in mid to late summer.

True 1 gallon \$9.50 Limited quantity

Hosta 'Brother Stefan'

### Hosta 'Brother Stefan'

Brother Stefan Hosta

Height: 23" Exposure: part shade-shade

Large; bright gold, corrugated leaves with wide irregular green margins. Near white flowers in summer. Bred by Olga Petryszyn, this hosta has a moderate growth rate but incredible presence in the garden.

**2017 Hosta of the Year!**

True 1 gallon \$9.50

**Hosta 'Cathedral Windows'**

pp #17,295

Height: 20"

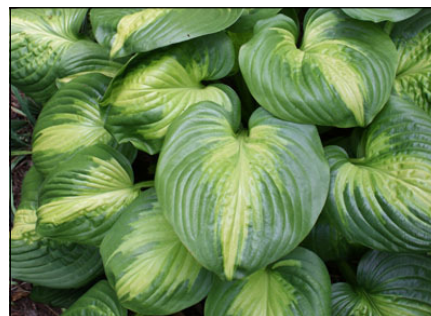

Exposure: part shade-shade

Cathedral Windows Hosta

Medium; leaves have a bright gold center with very wide, dark green margins. As the leaves mature, they become dome-shaped. Large, fragrant, white flowers are produced well above the foliage in late summer. A tetraploid sport of Stained Glass, it has the same shiny foliage and fast growth rate as its parent. Introduced by Hans Hansen.

True 1 gallon \$9.50

Hosta 'Cathedral Windows'

**Hosta 'Cheatin Heart'**

Height: 8"

Exposure: part shade

Cheatin Heart Hosta

Very small; bright yellow, heart-shaped, slightly wavy leaves. Plant in morning sun for the best leaf color. In more shade, the color deepens to chartreuse. In mid-summer, yellow scapes carry clusters of purple buds which open to small, bell-shaped, light lavender flowers.

4" \$6.00

Sold in flats of 8

Hosta 'Cheatin Heart'

**Hosta 'Cherry Tart'**

Height: 6-8"

Exposure: part shade

Cherry Tart Hosta

Very small; emerges bright chartreuse and brightens up to glowing yellow in summer. An upright habit, red petioles, and narrow leaves make this hosta a real standout in the garden. Lavender flowers rise above the foliage in mid-summer. Use it in a raised planter to better view the red petioles.

4" \$6.00

Sold in flats of 8

'Cherry Tart'

'Christmas Tree'

**Hosta 'Christmas Tree'**

Height: 18"

Exposure: part shade

Christmas Tree Hosta

Medium; puckered, blue-green leaves with cream edges and dense lavender flowers. A fast growing hosta that matures early. Great for massing in the landscape.

True 1 gallon \$7.50

Hosta 'Clear Fork River Valley'

**Hosta 'Clear Fork River Valley'**

Height: 26"

Exposure: part shade-shade

Clear Fork River Valley Hosta

Large; nearly round, dark green leaves are heavily corrugated and puckered with a thick substance. Very pale lavender flowers appear in late June. A Van Wade hybrid of H. 'Puckered Giant' x H. 'Woodland Blue'.

True 1 gallon \$9.50

Hosta 'Coal Miner'

**Hosta 'Coal Miner'**

Height: 30"

Exposure: part shade-shade

Coal Miner Hosta

Giant; the leaves on Coal Miner emerge a dark blue-green. In mid-summer the leaves turn blackish-blue giving the appearance of coal dust on the leaf. Near white flowers appear in summer. Another great introduction from Olga Petryszyn.

True 1 gallon \$9.50

Hosta 'Cool as a Cucumber'

### Hosta 'Cool as a Cucumber'

ppaf

Height: 28"

Exposure: part shade to shade

Cool as a Cucumber Hosta

Large; this vigorous sport of H. 'Cascades' has elegantly tapered green leaves with bright white centers. With age, this hosta becomes a gracefully arching mound of smooth foliage with deeply indented veins. Creamy white scapes bear light lavender flowers in summer.

Trade 1 gallon \$9.00

Hosta 'Cracker Crumbs'

### Hosta 'Cracker Crumbs'

Height: 5"

Exposure: part shade

Cracker Crumbs Hosta

Mini; This cute sport of H. 'Shiny Penny' features small chartreuse leaves bordered by a narrow green edge, and a slight twist to the leaf. Cracker Crumbs is vigorous grower for a miniature.

4" \$6.00

Sold in flats of 8

Hosta 'Curly Fries'

### Hosta 'Curly Fries'

Height: 6"

Exposure: part shade-shade

Curly Fries Hosta

Mini; forms an arching, wiggly clump of extremely rippled, narrow leaves. Morning sun will keep its chartreuse foliage the brightest. Mature plants will develop red speckled petioles. Lavender flowers in mid-summer. 2016 Hosta of the Year. A unique hosta that always sells out quickly.

4" \$6.00

Sold in flats of 8

Hosta 'Dancing Queen'

### Hosta 'Dancing Queen'

Height: 18"

Exposure: part shade

Dancing Queen Hosta

Medium; emerges bright yellow and remains yellow all season long, unlike other yellow hostas that emerge or turn chartreuse. The large leaves have a prominent piecrust edge. In mid to late summer, the foliage lightens to soft yellow and is topped with pale lavender flowers. Exhibits great vigor and good sun tolerance.

True 1 gallon \$9.50

'Dragon Tails'

'Final Summation'

### Hosta 'Dragon Tails'

Height: 4-5"

Exposure: part shade

Dragon Tails Hosta

Mini; a vigorous grower, forming a clump quickly. Chartreuse leaves are long and thin with undulating edges. For such a small plant, it makes a great specimen.

4" \$6.00

Sold in flats of 8

### Hosta 'Final Summation'

Height: 30"

Exposure: part shade

Final Summation Hosta

Giant; a sport of the popular Sum and Substance with shiny chartreuse leaves edged with dark green, creating a spectacular contrast. This hosta has huge, round, slightly cupped leaves and lavender flowers that bloom mid-summer.

True 1 gallon \$9.50

**Hosta 'Fire Island'**

Height: 11-14" Exposure: part shade

Small; brilliant yellow foliage with red petioles, wavy margins, and lavender flowers. Fire Island is surprisingly bright in the spring, making it extremely popular in late April and May.

Trade 1 gallon \$8.00  
True 1 gallon \$9.00

Fire Island Hosta

Hosta 'Fire Island'

**Hosta 'First Frost'**

Height: 16" Exposure: shade

Medium; a sport of Halcyon with intense blue leaves that are edged with cream to white. Lavender flowers in mid-summer. The thick, waxy leaves look as good in August as they do in May. Hosta of the Year for 2010.

True 1 gallon \$8.00

First Frost Hosta

Hosta 'First Frost'

**Hosta 'Fragrant Blue'**

Height: 18-22" Exposure: shade

Medium; chalk-blue foliage emerges all summer. Fragrant, white flowers in August. Fragrant Blue is one of the best hostas for blue foliage in summer. Fertilize in the summer to keep it producing fresh new leaves.

True 1 gallon \$7.00

Fragrant Blue Hosta

Hosta 'Fragrant Blue'

**Hosta 'Gemstone'**

Height: 5" Exposure: shade

Mini; this vigorous grower forms a small clump of narrow, powdery blue leaves. The pointed, smooth leaves cup gently and have lightly wavy edges. In mid-summer, the foliage is topped with short scapes of lavender flowers. A hybrid of *H. venusta* x 'Dorset Blue' introduced by Plant Delights Nursery.

4" \$6.00 Sold in flats of 8

Gemstone Hosta

'Gemstone'

'Great Arrival'

**Hosta 'Great Arrival'**

Height: 26" Exposure: part shade

Large; leaves are slightly cupped, heavily corrugated and have good substance. In spring, the leaves are blue with a gold edge, but as the season progresses, the foliage becomes more green with a creamy white edge. White flowers in early July. Great Arrival is a reversed tissue culture sport of *H. 'Great Expectations'* from Mark Zilis.

True 1 gallon \$9.00 Limited quantity

Great Arrival Hosta

Hosta 'Little Treasure'

**Hosta 'Little Treasure'**

pp #21,210

Height: 6"

Exposure: part shade

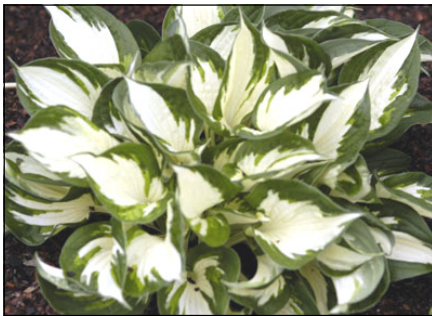

Little Treasure Hosta

Mini; very wide, pointed, blue-green leaves have a creamy white center. In early summer, cream colored scapes topped with lavender flowers appear. Displays more vigor than its parent, Little Jay.

4" \$6.00

Sold in flats of 8

Hosta 'Loyalist'

**Hosta 'Loyalist'**

Height: 16-20"

Exposure: part shade

Loyalist Hosta

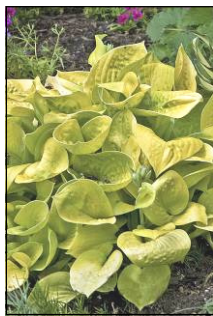

Medium; a tetraploid, reverse sport of Patriot with wide white centers. Very similar to H. 'Fire and Ice'.

True 1 gallon (1-14) \$9.50 (15+) \$9.20

'Margarita Gold'

'Maui Buttercups'

**Hosta 'Margarita Gold'**

Height: 18-22"

Exposure: part shade

Margarita Gold Hosta

Medium; heavily puckered, gold leaves with narrow green margins. Holds up to summer heat very well with its brightest color in late summer. A Smith's Gardens selection from H. 'August Moon'.

True 1 gallon \$7.00

**Hosta 'Maui Buttercups'**

Height: 10"

Exposure: part shade

Maui Buttercups Hosta

Small; bright gold, deeply cupped, nearly round leaves that are thick and resistant to slugs. Violet blooms appear in mid-summer. Maui Buttercups, like H. 'Blue Mouse Ears', has a high "cute" rating all summer long. A hybrid of H. 'Frances Williams' x 'August Moon'.

True 1 gallon \$8.00

Limited quantity

**Hosta montana 'Aureomarginata'**

Montana Aureomarginata Hosta

Height: 27"

Exposure: part shade-shade

Large; originally discovered in Japan in 1940. Large, heart-shaped leaves of good substance are edged in bright gold and attractive, pale lavender flowers appear in July. This hosta has a slower growth rate, so extra water and fertilizer on young plants helps tremendously. A sport of *Hosta montana*.

True 1 gallon \$9.00

Hosta montana 'Aureomarginata'

**Hosta 'Moon Split'**

Moon Split Hosta

Height: 16"

Exposure: shade

Medium; yellow to chartreuse leaves have dark green band down the center of the leaf. Lavender flowers appear in mid-summer. A sport of H. 'Velvet Moon'. Its thick, waxy leaves and unique variegation pattern generate a lot of interest and excitement. Very colorful!

Trade 1 gallon \$9.50

Hosta 'Moon Split'

**Hosta 'Mourning Dove'**

Mourning Dove Hosta

pp# 17,311

Height: 18"

Exposure: shade

Medium; long, narrow, blue-grey leaves with creamy yellow margins and silvery white leaf backs. Distinguished by its flowing, low spreading, mounding habit. Pale lavender flowers in August. Bred by Hans Hansen. Mourning Dove is one of the first hostas to emerge in spring.

Trade 1 gallon \$8.00

'Mourning Dove'

'Neptune'

**Hosta 'Neptune'**

Neptune Hosta

pp# 19,674

Height: 24"

Exposure: shade

Large; narrow, wedge-shaped, blue leaves with heavily rippled edges form a lovely cascading clump. Thick substance and good slug resistance. Lavender flowers in mid-August. A Hans Hansen hybrid, combining the genetics of H. 'Maekawa', 'Halcyon', and 'Salute'.

True 1 gallon \$9.50

**Hosta 'Night Before Christmas'**

Night Before Christmas Hosta

Height: 16-22"

Exposure: full shade

Medium; huge, dark green leaves have bright white centers. Pale lavender flowers appear in mid-summer. A rapid grower for a white centered hosta, plants quickly mature into an eye catching mound. A tetraploid sport of H. 'White Christmas'.

True 1 gallon (1-14) \$8.50 (15+) \$8.20

Hosta 'Night Before Christmas'

**Hosta 'Northern Exposure'**

Northern Exposure Hosta

Height: 36"

Exposure: part shade

Giant; a sport of *H. sieboldiana* 'Elegans' with thick textured, puckered leaves and a broad cream-white margin. White flowers on 42" tall scapes appear in early to mid-summer. Slow growing, but worth the wait.

True 1 gallon \$9.50

Hosta 'Northern Exposure'

Hosta 'Old Glory'

### Hosta 'Old Glory'

pp# 12,503

Height: 24"

Exposure: part shade

Old Glory Hosta

Large; heart-shaped leaves have a golden yellow center and irregular, 1" wide, dark green margins. Light lavender flowers appear on 24" scapes in mid-summer. A sport of H. 'Glory', introduced by Hans Hansen.

True 1 gallon \$9.50

'Paradigm'

'Paradise Island'

### Hosta 'Paradigm'

Height: 20"

Exposure: light shade

Paradigm Hosta

Medium; heavily quilted, thick textured, gold leaves have a wide blue-green margin. Lavender flowers appear in summer. Formerly known as Abiqua Paradigm, Hosta of the Year for 2007. A sport of H. 'Abiqua Recluse'.

True 1 gallon \$9.00

### Hosta 'Paradise Island'

pp# 20,798

Height: 14"

Exposure: part shade

Paradise Island Hosta

Small; a sport of H. 'Fire Island' with bright yellow leaves, narrow dark-green margins, and red petioles. Lavender flowers in August. Because it is so bright in the spring, it sells very quickly.

Trade 1 gallon \$9.00

Hosta 'Patriot'

### Hosta 'Patriot'

Height: 16-20"

Exposure: part shade-shade

Patriot Hosta

Medium; dark green leaves with wide white edges. Lavender flowers in mid-summer. A tetraploid sport of H. 'Francee'.

True 1 gallon \$7.00

Hosta 'Powder Blue'

### Hosta 'Powder Blue'

Height: 29"

Exposure: shade

Powder Blue Hosta

Giant; Powder Blue lives up to its name. The large leaves cup downward, with heavy corrugation, good substance, and a rich, intense blue color that holds well into the summer (if properly sited).

True 1 gallon \$9.50

Hosta 'Praying Hands'

### Hosta 'Praying Hands'

Height: 18"

Exposure: part shade

Praying Hands Hosta

Medium; distinctly vase shaped habit. Narrow, dark green leaves with a wavy edge are cupped and folded inward, as if in prayer. Very thin gold margin. Lavender flowers in late summer. Hosta of the Year for 2011.

Trade 1 gallon \$9.00

**Hosta 'Queen Josephine'**

Queen Josephine Hosta

Height: 16-20"

Exposure: part shade-shade

Medium; extremely shiny, plastic-like, dark green leaves with wide yellow margins. Lavender flowers appear in mid-summer. A sport of H. 'Josephine'.

True 1 gallon \$8.00

Hosta 'Queen Josephine'

**Hosta 'Rainbow's End'**

Rainbow's End Hosta

pp #17,251

Height: 10"

Exposure: part to full shade

Very small; thick, rubbery leaves have an absolutely stunning, irregular variegation with bright yellow centers and green margins that jet into each other dramatically. Large, lavender flowers on red scapes in late summer. A sport of H. 'Obsession' from Hans Hansen.

4" \$6.00

Sold in flats of 8

'Rainbow's End'

'Rainforest Sunrise'

**Hosta 'Rainforest Sunrise'**

Rainforest Sunrise Hosta

Height: 12"

Exposure: part shade

Small; a charming hosta with thick, rounded, cupped leaves that are bright gold with a narrow green edge. Perfect for the front of the border, near white flowers appear in July. A sport of H. 'Maui Buttercups'. 2013 Hosta of the Year.

True 1 gallon \$9.00

Limited quantity

Hosta 'Revolution'

**Hosta 'Revolution'**

Revolution Hosta

Height: 16-20"

Exposure: part shade

Medium; thick green leaves with cream-white centers that are speckled with green. Lavender flowers appear in July. A tetraploid sport of H. 'Loyalist' introduced by Walter's Gardens.

True 1 gallon \$9.50

Hosta 'Satisfaction'

**Hosta 'Satisfaction'**

Satisfaction Hosta

Height: 24-28"

Exposure: part shade

Large; this sport of Piedmont Gold boasts deep green leaves with a slight bluish cast in spring and wide, bright yellow margins. The foliage is moderately rippled along the margins and slightly corrugated; near white flowers bloom on 30" tall scapes in mid-summer

True 1 gallon \$9.00

Hosta 'Sagae'

**Hosta 'Sagae'**

Sagae Hosta

Height: 24-28"

Exposure: part shade-shade

Large; wide, waxy, undulating, grey-green leaves with irregular gold margins. Sagae matures into a dramatic specimen. Lavender flowers on 4' stems appear in mid-summer. Our favorite large hosta for its vigorous growth rate and beautiful vase-shaped habit. A sport of *H. fluctuans*. Hosta of the Year in 2000.

True 1 gallon \$9.50

2 gallon \$12.00

Hosta 'Shimmy Shake'

**Hosta 'Shimmy Shake'**

Shimmy Shake Hosta

Height: 12" Exposure: part shade

Medium; beautifully shaped light green leaves ripple and twist as they reach up and out, making a flat spreading mound. The purplish red petioles are easily seen and lavender flowers appear in summer. This hosta is considered a medium for its width rather than height, becoming a mound 12" tall by 24" wide.

Trade 1 gallon \$9.50 Limited quantity

Hosta 'Silver Bay'

**Hosta 'Silver Bay'**

Silver Bay Hosta

Height: 14" Exposure: shade

Small; intense silver-blue, heavily corrugated, thick rounded leaves that hold their color very well. Foliage tends to cup, is unruly, and has a very thick bloom on back side of leaves. A strong grower that eyes up quickly, Silver Bay is a cross between H. 'Silver Frost' and 'Blue Moon'. Pale lavender flowers in summer.

True 1 gallon (1-14) \$9.50 (15+) \$9.20

Hosta 'Spartacus'

**Hosta 'Spartacus'**

Spartacus Hosta

Height: 17" Exposure:

Medium; elongated heart-shaped, dark green leaves are outlined by a narrow yellow margin, accented by ripples on the leaf edge. Pale lavender flowers are produced on 3' tall scapes in early summer. A sport of H. 'Sea Gulf Stream' introduced by Hans Hansen.

True 1 gallon \$9.50 Limited quantity

Hosta 'Splendid Sarah'

**Hosta 'Splendid Sarah'**

Splendid Sarah Hosta

Height: 16" Exposure: part shade

Medium; green leaves that turn yellow in summer are heavily corrugated and feature a wide, white margin. The edge gets wider every year as the plant matures. Lavender flowers in summer. Splendid Sarah is a seedling selection out of H. 'Pin Stripe Sister' from Dick and Jane Ward.

True 1 gallon \$9.50

Hosta 'Stained Glass'

**Hosta 'Stained Glass'**

Stained Glass Hosta

Height: 24" Exposure: part shade

Large; a sport of H. 'Guacamole' with much brighter foliage that colors up early and stays bright all summer. Fragrant white flowers appear in summer. A fast growth rate and 2006 Hosta of the Year.

True 1 gallon \$8.00

**Hosta 'Striptease'**

Height: 16-18" Exposure: part shade

Striptease Hosta

Medium; a tetraploid sport of H. 'Gold Standard'. Dark green leaves have a narrow gold center with an irregular, white line dividing the green and gold. Pale lavender flowers in mid-summer. A fast grower that eyes up quickly. 2005 Hosta of the Year.

True 1 gallon \$9.00

Hosta 'Striptease'

**Hosta 'Sum and Substance'**

Height: 36" Exposure: part shade

Sum and Substance Hosta

Giant; a triploid with large chartreuse colored leaves are very sun tolerant. Lavender flowers appear in mid-summer. 2004 Hosta of the Year.

True 1 gallon (1-14) \$7.50 (15+) \$7.20

Hosta 'Sum and Substance'

**Hosta 'Summer Music'**

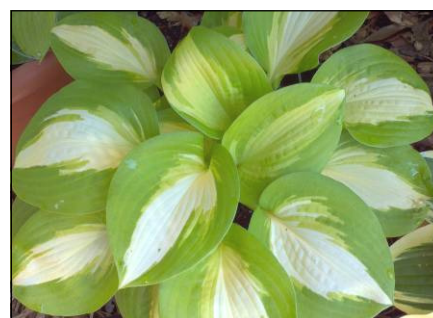

Height: 16-20" Exposure: part shade-shade

Summer Music Hosta

Medium; broad leaves have bright white centers which are surrounded by irregular, yellow to chartreuse borders, all within irregular green margins. Very colorful. To bring out rich greens, grow it in more shade; to bring out the yellows and cream, grow it in light shade. Pale lavender flowers appear in July. A sport of H. 'Shade Master' found at Klehm Nursery.

Trade 1 gallon \$8.50

Hosta 'Summer Music'

**Hosta 'Teaspoon'**

Height: 11" Exposure: part shade-shade

Teaspoon Hosta

Very Small; deeply-cupped, green leaves are held horizontally on upright petioles, looking like little green spoons. Lavender flowers on 20" scapes in mid-summer. A hybrid of H. 'Birchwood Parky's Gold' x 'Golden Tiara'.

4" \$6.00 Sold in flats of 8

Hosta 'Teaspoon'

**Hosta 'Thunderbolt'**

pp #14,232

Height: 16-20" Exposure: shade

Thunderbolt Hosta

Medium; thick blue-green leaves with narrow, yellow centers. White flowers appear in early summer. An eye catching sport of *H. sieboldiana* 'Elegans' discovered by Rick Crowder, Hawksridge Nursery, NC.

True 1 gallon \$9.50 Limited quantity

'Thunderbolt'

'Twist of Lime'

**Hosta 'Twist of Lime'**

Height: 6" Exposure: part shade-shade

Twist of Lime Hosta

Mini; a sport of H. 'Lemon Lime' with yellow leaves bordered by a narrow dark green margin. Lavender flowers in mid-summer.

4" \$6.00 Sold in flats of 8

Hosta 'Valley's Glacier'

### Hosta 'Valley's Glacier'

Valley's Glacier Hosta

Height: 16"

Exposure: full shade

Medium; this beautiful sport of H. 'First Frost' features thick, slug resistant blue leaves edged in creamy yellow. Margins turn white as the season progresses. Pale lavender flowers appear in August. Similar to H. 'Blue Ivory', with an improved growth rate and margins that are less susceptible to frying in the heat of the summer.

Squat 1 gallon \$9.50

Hosta 'Victory'

### Hosta 'Victory'

Victory Hosta

Height: 28-32"

Exposure: part shade-shade

Giant; huge, up to 17" long, shiny green leaves of good substance with yellow margins that lighten to pale yellow. Light lavender flowers appear on very long, sideways arching scapes in early to mid-summer. Bred by Mark Zilis. 2015 Hosta of the Year.

True 1 gallon \$9.00

Hosta 'Vulcan'

### Hosta 'Vulcan'

Vulcan Hosta

Height: 20"

Exposure: part shade-shade

Medium; a vigorous, white-centered sport of H. 'Captain Kirk'. Contrasting dark green margins and lighter yellow coloring jet towards the white center of each broad, heart-shaped leaf. White scapes carry the light lavender flowers just above the foliage in mid to late summer.

True 1 gallon \$9.00

'White Feather'

'Winter Snow'

### Hosta 'White Feather'

White Feather Hosta

Height: 18"

Exposure: part shade

Medium; emerging leaves are almost totally white, slowly developing green streaks until the whole leaf turns green. Spikes of lavender flowers appear in mid-summer. Avoid deep shade. A sport of H. 'Undulata'.

Trade 1 gallon \$9.50

### Hosta 'Winter Snow'

Winter Snow Hosta

Height: 32-36"

Exposure: full shade

Giant; a sport of H. 'Sum and Substance' with huge, shiny, chartreuse leaves and a wide white margin. Deep veins and wavy edges add interest to this already stunning plant. Pale lavender flowers in summer. Very similar to H. 'Parhelion', but with shiny foliage and slightly wider, white margins.

True 1 gallon \$9.50

Hosta 'Woodland Elf'

### Hosta 'Woodland Elf'

Woodland Elf Hosta

Height: 5"

Exposure: part shade-shade

Mini; leaves are slightly wavy and cupped, with a medium green center and white margin. Lavender flowers in July. A hybrid of H. 'Little Wonder' x 'Popo' introduced by Naylor Creek Nursery.

4" \$6.00

Sold in flats of 8

**Hosta 'Yellow River'**

Yellow River Hosta

Height: 30-36" Exposure: part shade

Giant; forms a large, vase-shaped mound of dark green leaves with yellow margins. Near white flowers in summer. Good growth rate and good substance. Exact parentage is unknown, but it was imported into the United States by Paul Aden from Eric Smith in England in the 1970's.

True 1 gallon \$8.50 Limited quantity

Hosta 'Yellow River'

**Iris ensata 'Lion King'**

Lion King Japanese Iris

Height: 36-48" Exposure: full sun

These tall, stately perennials are wonderful plants for average to moist soil conditions producing large, 6-7" blooms in mid-June. Each ruffled petal displays a grape purple edge that feathers into the pure white center and at the very base of each petal is a tiny splash of yellow. Japanese iris bloom about a month after Siberian iris.

True 1 gallon \$8.00 Limited quantity

Iris ensata 'Lion King'

**Iris ensata 'Variegata'**

Variegated Japanese Iris

Height: 24-36" Exposure: sun

Attractive green and white variegated foliage looks great even when the plants are not in flower. The tall stately plants are topped with royal purple flowers in mid-June. Great near water's edge and in moist to average soils.

True 1 gallon \$8.00

Iris ensata 'Variegata'

**Iris pallida 'Argentea Variegata'**

Silver Variegated Sweet Iris

Height: 24-36" Exposure: sun

This eye-catching iris features showy ivory to white variegation on green, sword-like leaves that reach 24-36" tall. Large lavender-blue flowers with yellow beards appear in late spring and have a fragrance reminiscent of grape soda.

True 1 gallon \$8.00

Iris pallida 'Argentea Variegata'

**Iris pallida 'Variegata'**

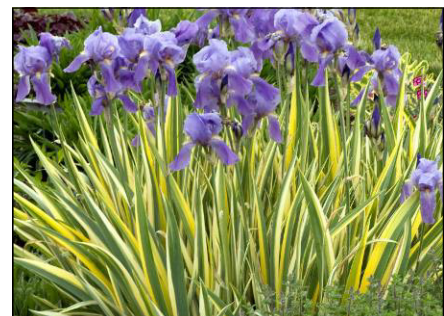

Golden Variegated Sweet Iris

Height: 24-36" Exposure: full sun

This eye-catching iris features showy pale to golden yellow variegation on green, sword-like leaves that reach 24-36" tall. Large lavender-blue flowers with yellow beards appear in late spring and have a fragrance reminiscent of grape soda.

True 1 gallon \$8.00

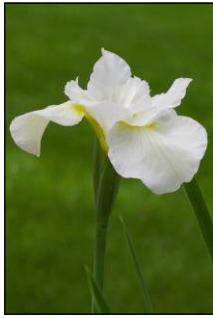

Iris pallida 'Variegata'

'Caesar's Brother'

'Gull's Wing'

Iris sibirica 'Kabluey'

Iris sibirica 'Pink Parfait'

Isotoma fluviatilis

Isotoma fluviatilis alba

### Iris sibirica

Siberian Iris

Height: 30-36"

Exposure: sun-light shade

A wonderful addition to the garden with their bright green, upright foliage that acts as a soft vertical accent. Flowers are produced in early summer in a wide range of colors including: blue, purple, pink, yellow, and white. Siberian Iris prefer full sun but will tolerate light shade. Native to moist meadows, their thick roots drive down deeply, (which makes them somewhat drought resistant) and great plants for bank stabilization. Siberians are less prone to crown rot and iris borer than German Iris, and do not need to be divided as often.

'Caesar's Brother' - A very prolific cultivar producing cobalt-blue flowers with bright yellow and white blazes in early summer.

'Gull's Wing' - large, elegant, slightly-rippled, pure white flowers with wide flaring falls and short standards. Some Siberian Iris aficionados rate Gull's Wing as the best of the white-flowered varieties. It has been in commerce for nearly 100 years.

True 1 gallon (1-14) \$6.50 (15+) \$6.20

'Kabluey' - This outstanding Iris boasts 18-27 petals per flower! The double flowers are a rich shade of blue-violet. A small white blaze with a touch of yellow in the throat is buried in the midst of all the petals. Style arms are absent. Blooming in early summer, strong stems hold the flowers well above the bright green foliage.

'Pink Parfait' - large, ruffled, double flowers. Rippled petals are light pinkish lavender and marked with yellow at their base

True 1 gallon \$8.50

### Isotoma fluviatilis

Blue Star Creeper

Height: 1-2" tall

Exposure: sun-shade

Our favorite groundcover! Sun or shade, it's happy either way. This low maintenance, creeping perennial forms a flat carpet of tiny green leaves smothered with starry, soft-blue flowers. Works great between stepping stones, around ponds, or as a lawn substitute. Blooms from spring to fall and is very tolerant of foot traffic.

4" \$2.50 Sold in flats of 8

### Isotoma fluviatilis alba

White Star Creeper

Height: 1-2"

Exposure: sun to shade

Now in white! Same great plant with bright white flowers.

4" \$3.00 Sold in flats of 8

**Kirengeshoma palmata**

Height: 30-40" Exposure: light shade-shade

Yellow Waxbells 

A shrubby looking perennial that is a wonderful addition to the shade garden. Large, maple-like foliage provides an attractive background for the tubular, waxy, bright yellow flowers that hang in loose chains from late summer through fall. Waxbells prefers average soils that are consistently moist.

True 1 gallon \$7.50

Kirengeshoma palmata

**Knautia macedonica 'Thunder and Lightning'**

pp# 21,437  
Height: 12-15" Exposure: sun-part shade

Thunder and Lightning Field Scabiosa   

The fuzzy, gray-green leaves of Thunder & Lightning are heavily outlined with a bold white margin, making a dramatic contrast with the bright magenta, fully double flowers. The foliage emerges early, adding a welcome sparkle to the often bleak early April garden. The flowers, which are excellent for cutting or dried arrangements, begin to appear in June and continue until frost.

True 1 gallon \$7.00

Knautia 'Thunder & Lightning'

**Leucanthemum 'Becky'**

Height: 36" Exposure: sun-light shade

Becky Shasta Daisy   

In our opinion, Becky is still the best daisy around, producing masses of large, single white flowers with a yellow cone from June to September. Strong sturdy stems and great durability in the garden. It is a great cut flower and will re-bloom well with dead-heading. Wonderful for the beginning gardener because it's sure to grow! Perennial of the Year for 2003.

True 1 gallon (1-14) \$6.00 (15+) \$5.70  
2 gallon (1-14) \$7.50 (15+) \$7.20

Leucanthemum 'Becky'

**Leucanthemum Broadway Lights™ ('Leumayel')**

pp# 19,242  
Height: 18-24" Exposure: sun-part shade

Broadway Lights™ Shasta Daisy  

Broadway Lights is a profuse bloomer that is consistently covered in bright yellow flowers that lighten to cream, then white when mature. Short sturdy plants don't crack open or melt out when the temperature hits 90°F. It flowers after all our other varieties by about 10 days. Afternoon shade is essential for the best yellow color. We really love this variety because it's been a fantastic performer in our yard for several years and holds its creamy yellow color well.

True 1 gallon \$7.00

Leucanthemum Broadway Lights

** Leucanthemum 'Lumos'**

ppaf  
Height: 12-18" Exposure: sun-part shade

Lumos Shasta Daisy  

This dwarf selection has a strong, compact habit. From late spring to mid-summer, Lumos is covered in yellow daisies that hold their color, rather than fading to off white. Provide good drainage and less than average water.

True 1 gallon \$7.00

Leucanthemum 'Lumos'

Leucanthemum 'Snowcap'

**Leucanthemum 'Snowcap'**

Snowcap Shasta Daisy

Height: 8-10" Exposure: sun-light shade

Snowcap produces an abundance of large, single, pure white flowers with a yellow cone in June and July. Asexually produced for a very uniform crop of compact, bushy plants. Be careful not to over water and induce root rot. Despite recent introductions, Snowcap is still our favorite dwarf daisy because of its reliable flowering, tight habit, and durability in the landscape.

True 1 gallon (1-14) \$5.75 (15+) \$5.45

Liatris spicata 'Floristan White'

**Liatris spicata 'Floristan White'**

Floristan White Blazing Star

Height: 36-48" Exposure: sun

A wonderful native and a staple cut flower, Liatris are one of the few plants whose flowers open from the top, down (determinate flowering). Floristan White produces multiple spikes of clean white flowers that are perfect vertical accents in arrangements and the garden. Dark green, grassy foliage.

2 gallon \$7.50

Liatris spicata 'Kobold' Original

**Liatris spicata 'Kobold' Original**

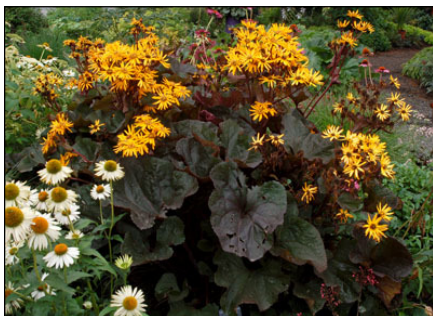

Kobold Blazing Star

Height: 14-18" Exposure: sun

This is the original strain from Holland maintained true to form by division to insure uniform dwarf plants. A native to Ohio, Liatris have dark green, grassy foliage and produce multiple spikes of rose-purple flowers in June. Although native to moist meadows, this plant adapts wonderfully to average, even dry soils. A great cut flower.

True 1 gallon (1-14) \$6.00 (15+) \$5.70

Ligularia dentata 'Britt-Marie Crawford'

**Ligularia dentata 'Britt-Marie Crawford'**

Britt-Marie Crawford Ligularia

pp# 16,133  
Height: 3-4' Exposure: part shade

Broad, glossy, dark chocolate leaves with dark purple undersides make an extremely bold statement in the garden. In late summer, golden yellow, daisy-like flowers are perched atop purplish-black stems for an all-together captivating composition. Requires consistently moist soil.

Trade 1 gallon \$8.50

Ligularia stenocephala 'Little Rocket'

**Ligularia stenocephala 'Little Rocket'**

Little Rocket Ligularia

pp# 14,621  
Height: 36-48" Exposure: shade

Large heart-shaped, toothed leaves unfurl in early spring forming a dense mound of foliage. A profusion of flower spikes rise above the foliage in mid-summer and are covered in bright yellow daisy-like flowers. Its wonderfully bold, coarse texture can be very effective in the garden when combined with hostas and ferns. Requires shade and consistently damp soils to perform its best. Little Rocket was selected for its compact habit and heavy flower production.

True 1 gallon \$8.50

**Lilium orientalis**

Height: 3-4'

Exposure: sun

Oriental Lily

Brightly colored and intensely fragrant, these bulbs add elegance and form to the garden. They prefer full sun to light shade and moist but well drained soil. These excellent cut flowers look best planted in the middle of the border where their flowers can stand out and shine but the foliage blends into the background. Plant a variety of forms to get six weeks of bloom.

'Stargazer' - Rich magenta-red, freckled, 6-8" outward facing flowers with a wonderful fragrance in July on 3-4' plants. Planted 2 bulbs per pot

2 gallon \$7.00

Lilium o. 'Stargazer'

Roselily™ 'Thalita' - Although referred to as doubles, the Roselily™ cultivars are selected to have at least 18 flower petals, which is 12 more petals than cultivars with single flowers. Sterile flowers last about a week longer than non-sterile selections, which improves longevity at retail or in a vase. An added bonus is that these lilies do not produce pollen - no yellow stains disfiguring the flowers beauty, or hands, noses, and clothes. Thalita produces huge, double, rose red blooms with lighter edges and spotted centers, making it look like double Stargazer. However the flowers open about a week later. Planted 2 bulbs per pot

2 gallon \$7.50

Lilium o. Roselily 'Thalita'

**Lilium hybrids**

Exposure: sun

Hybrid Lily

'Kushi Maya' - the first successful hybrid of *L. nepalense* x *L. orientalis*. It retains the beautiful color of the nepalese lily and gains strength, stamina, and fragrance from the oriental genes. Blooms in early August, 48-60" tall. Kushi Maya is a Nepalese term of endearment meaning "happy love". Planted 2 bulbs per pot

2 gallon \$9.00

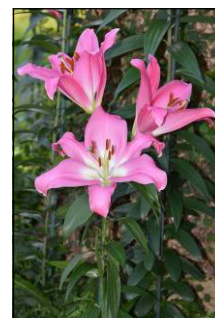

Lilium 'Kushi Maya'

'Tabledance' - OT (oriental x trumpet) hybrid with huge, showy, upright buds, which open to reveal large pink flowers with white centers. Planted 2 bulbs per pot.

Triumphator ('Zanlophator') - LO (longiflorum x oriental) hybrid with huge, trumpet-like white flowers with rose pink centers. Planted 2 bulbs per pot.

2 gallon \$7.50

'Tabledance'

'Triumphator'

**Lobelia speciosa Starship series**

Height: 20-24"

Exposure: full sun

Cardinal Flower

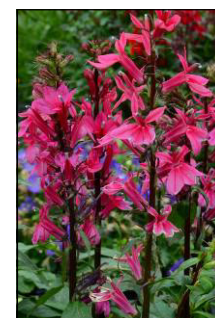

Cardinal Flowers are excellent border plants for moist locations and are hummingbird magnets. The Starship series flowers earlier and has better branching habit than older selections and the foliage remains attractive throughout the growing season.

'Starship Deep Rose' - intense rose-pink flowers on dark stems

'Starship Scarlet' - vibrant, scarlet red flowers on dark stems

True 1 gallon \$5.75

'Starship Deep Rose'

'Starship Scarlet'

Lysimachia clethroides

**Lysimachia clethroides**

Gooseneck Loosestrife

Height: 24-30"

Exposure: part shade

Gooseneck Loosestrife is a wonderful perennial for the garden, as long as one realizes its tendency to colonize. Fine textured, green leaves provide a wonderful background for the spikes of white flowers, that are curved like a goose's neck, hence the common name. Not bothered by insects or disease and prefers moist, organic soils. Makes a great cut flower.

True 1 gallon \$5.50

Malva sylvestris 'Braveheart'

**Malva sylvestris 'Braveheart'**

Braveheart Mallow

Height: 24-36"

Exposure: full sun

A great plant for the cottage garden, this cousin to the Hollyhock produces copious amounts of flowers from April to September. Very attractive to butterflies and hummingbirds, Braveheart has mauve-rose flowers, striped with purple. Plant habit is upright and bushy in average garden soils, while overly rich soils can encourage the plant to grow tall and weak. Mallows tend to be short lived perennials however, pruning the flower stems to limit seed set will help with perennializing.

True 1 gallon \$6.00

Malva sylvestris 'Zebrina'

**Malva sylvestris 'Zebrina'**

Zebra Mallow

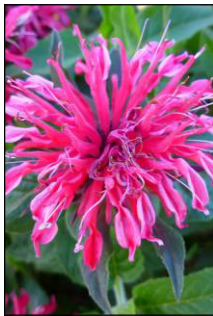

Height: 24-30"

Exposure: full sun

A great plant for the cottage garden, this cousin to the Hollyhock produces copious amounts of flowers from April to September. Very attractive to butterflies and hummingbirds, Zebrina has soft lavender flowers, striped with maroon. Plant habit is upright and bushy in average garden soils, while overly rich soils can encourage the plant to grow tall and weak. Mallows tend to be short lived perennials however, pruning the flower stems to limit seed set will help with perennializing..

True 1 gallon \$6.00

Balmy Rose

Grand Parade

**Monarda didyma**

Beebalm

Height: 13-36"

Exposure: part shade

Beebalm in the wild thrives along stream banks with overhanging trees, providing the plants with constant moisture and light shade. If grown properly, Beebalm can be stunning in the garden. Rich, moist soil and good air circulation are required to keep them free of powdery mildew and other foliar diseases.

'Gardenview Scarlet'

Balmy Purple

True 1 gallon (1-14) \$6.25 (15+) \$5.95

**Nepeta x faassenii 'Early Bird'**

Early Bird Catmint

Height: 10-15"

Exposure: sun

Lavender-blue flowers smother the aromatic gray-green foliage starting in early April and continuing for about six weeks. More compact in habit than Walker's Low, this tough perennial performs even in hot, dry sites. To encourage rebloom, grow under good conditions and shear to remove spent flowers. Makes an excellent, fast growing groundcover.

True 1 gallon \$5.50

Nepeta 'Early Bird'

**Nepeta nervosa 'Pink Cat'**

Pink Cat Catmint

Height: 18-24"

Exposure: sun

With a habit more similar to Betony than Catmint, this low maintenance, drought tolerant perennial attracts butterflies and hummingbirds with its spikes of hot pink flowers from May to September. The bright green leaves are extremely aromatic making Pink Cat very deer and rabbit resistant. Excellent for the beginning gardener.

True 1 gallon \$5.50

Nepeta 'Pink Cat'

**Nepeta x faassenii 'Walker's Low'**

Walker's Low Catmint

Height: 18-24"

Exposure: sun

Clothed in aromatic, gray-green foliage, spikes of lavender-blue flowers are produced from May to August. Though not growing very low this tough perennial really performs in hot, dry sites. It can rebloom until fall when grown under good conditions and sheared to remove spent flowers. Makes an excellent, fast growing groundcover. Perennial of the Year for 2007.

True 1 gallon (1-14) \$5.50 (15+) \$5.20

Nepeta 'Walker's Low'

**Oenothera berlandieri Twilight ('Turner01')**

pp# 17,230

Twilight Evening Primrose

Height: 10-12"

Exposure: full sun

This sport of O. 'Siskiyou' is covered in mauve pink flowers throughout summer. New growth emerging in the spring appears deep purple color, but during the warmer months, it changes to green with a purple mid-vein. Performs best in drier soils.

True 1 gallon (1-14) \$6.00 (15+) \$5.70

Oenothera b. Twilight

**Oenothera freemontii 'Shimmer'**

pp# 19,663

Shimmer Sundrops

6" tall x 12-18" wide

Exposure: full sun

Shimmer features thin silvery leaves and lemon yellow flowers. Tough and drought tolerant when established, Shimmer is very useful in areas with lean, sandy soils. However if you have clay soils, be sure to amend the dirt before planting. Sharp drainage is required for this plant to survive our Midwest winters.

Trade 1 gallon \$6.00

Oenothera f. 'Shimmer'

Oenothera "Smith's Variety"

**Oenothera fruticosa "Smith's Variety"**

Smith's Variety Sundrops

Height: 18-24" Exposure: sun-part shade

We purchased this clone in the early 90's under the name Fireworks but have found out this is incorrect. This plant is far superior to Fireworks. Bright yellow, slightly fragrant flowers on tall stems in June will re-flower if trimmed back early. The foliage is rich green and shows better disease resistance than other Sundrops we've grown. The semi-evergreen basal rosettes have good red fall color.

4" \$2.75 Sold in flats of 8  
True 1 gallon \$6.50

Oenothera p. 'Yella Fella'

**Oenothera pilosella 'Yella Fella'**

Yella Fella Prairie Sundrops

Height: 12-16" Exposure: full sun

A great groundcover with bright yellow flowers on tall stems in June, they will re-flower if trimmed back early. The foliage is a rich green and disease resistant. The plants over winter as semi-evergreen basal rosettes that have a good red fall color.

True 1 gallon (1-14) \$6.50 (15+) \$6.20

Penstemon x mexicali Pikes Peak Purple

**Penstemon x mexicali**

Mexican Beard Tongue

Exposure: full sun

This long blooming native hybrid produces an abundance of tall, showy spikes of bright, tubular, bell-shaped flowers that are very attractive to butterflies and hummingbirds. Waxy green foliage stays lush through the heat of summer. Penstemon thrive in average and well-drained garden conditions, and are very drought tolerant once established. Dead-heading after the first flush of flowers will encourage re-bloom in early fall. Song birds love the seeds in fall and winter. A flowering machine that gives perpetual color in the perennial border, mixed containers, etc.

Pikes Peak Purple ('P0075') - tall showy spikes of grape jelly colored flowers with striped throats, 30" tall

Red Rocks ('P0085') - tall showy spikes of bright rose-pink flowers, 18-24" tall

True 1 gallon \$5.75

Penstemon x mexicali Red Rocks

Perovskia Lacey Blue

**Perovskia atriplicifolia Lacey Blue ('Lisslitt')**

Lacey Blue Russian Sage

pp# 20,845

Height: 18" Exposure: full sun

Lacey Blue is the result of a self pollinated P. 'Blue Spire'. Compared to its parent, Lacey Blue is shorter, has a tighter habit, the foliage is more silver in color, and it has more flowers with larger calyces. Compared to P. 'Little Spire', Lacey Blue is taller and claims to be more floriferous. Bottom line: it's a cute little Perovskia that doesn't come in a white pot.

Trade 1 gallon \$6.00

Phlox paniculata

Height: 18-48" Exposure: sun-light shade

Tall Garden Phlox

Brightly colored Tall Garden Phlox are a staple plant in the perennial garden. Their sweetly fragrant flowers are loved by hummingbirds and butterflies. They prefer fertile garden soils with good moisture. Plants should be well spaced for air circulation to help prevent disease issues.

'Blue Paradise' - flowers open pale blue and darken to deep violet-blue, 24-36" tall

'Bright Eyes' - pale pink flowers with bright red eye, 18-24" tall

**NEW** 'Cleopatra' - star-shaped, double blooms are coral pink—very unique!  
pp#f 24" tall

'David' - large, bright white flowers, 36-48" tall. An extremely disease resistant selection

'Double Hitter' - cute purple flowers with a rosy eye, 36" tall; very floriferous

**NEW** 'Fireworks' - flowers are streaked in red and white, with a red eye; 24" tall

'Laura' - fuchsia-purple flowers with a starry, white center and dark eye, 24-30" tall

**NEW** Peacock™ 'Cherry Red' - bright cherry-red flowers; 18-24"

**NEW** Peacock™ 'White' - pure white flowers, 18-24" tall; great sub for 'David'

'Nicky' - shocking magenta flowers, 40-44"

'Red Riding Hood' - cherry red flowers, 22" tall [pictured on next page]

'Wendy House' - fuchsia-purple blooms, 20-24" tall; a short Nicky [pic on next page]  
pp# 18,158

CANDY Series [pictured on next page]

From Plants Nouveau, this series of dwarf phlox is mildew resistant, compact, well-branched, and very floriferous. The flower colors are bright and well saturated. They perform best in fertile garden soils with good moisture. Plants should still be well spaced for air circulation.

Bubblegum Pink ('Ditofra') - bubblegum pink flowers, 18-24" tall  
pp# 21,171

Coral Crème Drop ('Ditomdre') - outstanding coral flowers, 18-24" tall  
pp# 20,907

Cotton Candy ('Ditomfav') - light pink flowers, 18-24" tall  
pp# 21,369

Grape Lollipop ('Ditomsur') - flowers the color of grape jelly with a white eye, 18-24" tall

*Physostegia virginiana* 'Miss Manners'

pp# 12,637

Height: 18-24"

Exposure: sun-light shade

Miss Manners Obedient Plant

A compact, slower growing selection that won't take over the garden. Pristine white snapdragon-like flowers are borne on strong stems in mid to late summer. It's an excellent plant for that perpetually moist spot.

True 1 gallon (1-14) \$5.50 (15+) \$5.20

Physostegia 'Miss Manners'

*Platycodon grandiflorus* 'Astra Pink'

Height: 8-12"

Exposure: sun-light shade

Astra Pink Balloon Flower

Inflated balloon-like buds burst open into bell-shaped flowers. Excellent branching and thick, light pink flower petals make for a long lasting floral display from June to August. Drought tolerant, it does not like wet soil. Dead-heading promotes quicker re-bloom.

Trade 1 gallon \$5.50

Platycodon 'Astra Pink'

*Platycodon grandiflorus* 'Sentimental Blue'

Height: 6-10"

Exposure: sun-light shade

Sentimental Blue Balloon Flower

Sentimental Blue is a compact plant with large, blue-purple flowers from June to August. Inflated buds resemble, and can be popped like, balloons. Drought tolerant, it does not like wet soil. Dead-heading promotes quicker re-bloom. Irresistibly cute!

Trade 1 gallon \$5.50

Platycodon 'Sentimental Blue'

*Polygonatum humile*

Height: 4-6"

Exposure: part to full shade

Dwarf Solomon's Seal

Dwarf Solomon's Seal is an upright perennial with glossy, dark green foliage that makes a great groundcover for the shade. Tiny white flowers in early May hang like bells from the leaf axils. Golden yellow fall color. Much more durable than it appears. It's a good cut flower for miniature arrangements. Difficult to locate in the trade.

4" \$3.00 Sold in flats of 8

True 1 gallon \$6.50

Polygonatum humile

*Polygonatum odoratum* 'Variegatum'

Height: 24-30"

Exposure: light shade-shade

Variegated Solomon's Seal

Variegated Solomon's Seal is a graceful plant with white edged green leaves on arching stems. Small white flowers in May hang like bells from the leaf axils. This is a great plant to lighten up a shady area and to add a unique arching structure. A slow growing spreader, but well worth the wait! Perennial of the Year for 2013.

True 1 gallon (1-14) \$7.50 (15+) \$7.20

Polygonatum 'Variegatum'

Pulmonaria 'Trevi Fountain'

**Pulmonaria 'Trevi Fountain'**

pp# 13,047

Height: 12"

Exposure: part shade-shade

Trevi Fountain Lungwort

A fantastic groundcover for the shade garden, Trevi Fountain produces abundant clusters of cobalt-blue flowers in early spring. Its dark green leaves are heavily spotted and hold up very well throughout the summer. This has been our favorite variety for persistence, vigor and flower color since 2000.

True 1 gallon (1-14) \$7.00 (15+) \$6.70

Rodgersia 'Bronze Form'

**Rodgersia podophylla 'Bronze Form'**

Bronzeleaf Rodger's Flower

Height: 3'

Exposure: full shade

This Rodgersia is a must have shade plant selected at the famed Bellevue Botanic Garden in Washington for its superior form. Plants emerges every spring with dark chocolaty-red foliage that matures to green with some ruddy highlights. White to pink flowers bloom on 4' stems in spring. A great specimen for the shade garden with a habit rather like an umbrella. Will not appreciate dry soils.

True 1 gallon \$7.50

Rudbeckia 'Goldsturm'

**Rudbeckia fulgida var. sullivantii 'Goldsturm'**

Goldsturm Black-eyed Susan

Height: 2-4'

Exposure: sun-light shade

Possibly one of the most well known of our native prairie plants, with its flashy golden yellow daisy-like flowers and black cones. Flowering profusely in July and August, Goldsturm combines well with grasses and performs best in full sun. PPA Perennial of the Year in 1999.

True 1 gallon (1-14) \$5.50 (15+) \$5.20

Rudbeckia 'Little Goldstar'

**Rudbeckia f. var. sullivantii 'Little Goldstar'**

Little Goldstar Black-eyed Susan

pp# 22,397

Height: 12-14"

Exposure: full sun

Unlike many previous selections touted as dwarf, Little Goldstar really is petite. This short bushy selection of Black-eyed Susan is covered in yellow daisy-like flowers in late summer and has been very resistant to septoria fungus (the blackish-purple lesions that infect the leaves of Goldsturm). Attracts butterflies and seed eating birds such as Goldfinch, just needs less space.

Trade 1 gallon \$6.00

True 1 gallon \$6.25

Rudbeckia 'Viette's Little Suzy'

**Rudbeckia f. var. sp. 'Viette's Little Suzy'**

Viette's Little Suzy Black-eyed Susan

Height: 18-24"

Exposure: sun-light shade

Deep golden yellow flowers are produced from late summer into fall. Shorter in stature, it is well suited for today's smaller landscape. An under used Black-eyed Susan that typically begins to flower 4 weeks before R. 'Goldsturm' and combines wonderfully in the border.

True 1 gallon (1-14) \$5.50 (15+) \$5.20

**Salvia**

Height: 10-24"

Exposure: sun-light shade

Garden sages are easy to grow perennials that thrive with minimum care. They prefer full sun to part shade and well drained soil, are insect and disease resistant, and have a long flowering duration. Flowers are held in upright spikes above the foliage from early to mid-summer. Prune in half after the first flush of flowers for denser habit and cleaner re-bloom.

'Caradonna' - taller, but with a very upright habit; violet-blue flowers on nearly black stems and leaf petioles, 18-24" tall

'East Friesland' - blue-purple flowers, compact habit; seems to perform better in the Cincinnati area than other purple sages, 18-24" tall

May Night ('Mainacht') - dark blue-purple flowers, compact habit; 18-24" tall

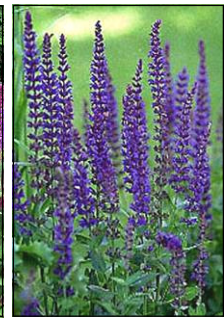

'Sensation Deep Rose Improved' - extremely floriferous, bright pink flowers completely cover the foliage. Deep purple stems accent the pink flowers nicely, 14-18" tall

True 1 gallon \$5.75

2 gallon \$7.50

'Caradonna'

'East Friesland'

'Sensation Deep Rose Improved'

**Scabiosa columbaria**

Height: 10-15"

Exposure: sun

Pincushion Flower

Pincushions have a long and profuse bloom period, starting in late April and continuing until frost. Flowers are held slightly above the low foliage on wiry stems. A short lived perennial with ferny, gray-green foliage. It likes full sun and average to low water. Be aware that Scabiosas tend to be prone to fungal problems in high humidity locations, good aeration is beneficial.

'Butterfly Blue' - lavender-blue flowers, PPA Perennial of the Year in 2000

'Pink Mist' - lavender-pink flowers

pp# 8,957

True 1 gallon \$5.75

'Butterfly Blue'

'Pink Mist'

**Sedum spectabile 'Neon'**

Height: 24"

Exposure: sun

Neon Stonecrop

Neon was selected from a block of S. 'Brilliant'. Its flower color is an intense, vibrant, rose-pink, much darker than its parent. Otherwise, its the same easy-to-grow, upright, tough, adaptable plant.

True 1 gallon \$5.50

Sedum 'Neon'

**Sedum 'T Rex'**

Height: 24"

Exposure: sun

T Rex Stonecrop

Selected at Smith's Gardens from a block of Sedum 'Autumn Joy', the leaves of T Rex are heavily toothed and cupped, giving it much more textural interest, especially before it flowers. This selection is much more resistant to stem rot, making it much easier to grow and/or hold in a container. The flower color, winter interest, and cultural requirements are the same as for S. 'Autumn Joy'.

True 1 gallon (1-14) \$5.50 (15+) \$5.20

Sedum 'T Rex'

Sempervivum mix

**Sempervivum, Mixed Varieties**

Hens and Chicks

Height: 3-4" Exposure: sun

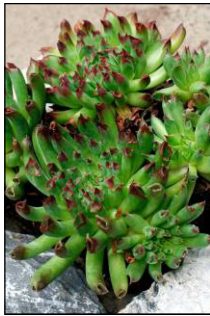

Hens and Chicks are fun and easy to grow. They do great in full sun with very little soil, but good drainage is the most important requirement. Kids and adults love to watch these unusual plants grow and multiply in the garden or in containers. The varieties we are offering include both named and unnamed varieties, offered in mixed 8 packs of 4" pots.

4" \$2.75 Sold in flats of 8

'Party Girl'

'Oddity'

**NEW Sempervivum tectorum 'Oddity'**

Oddity Hens and Chicks

Height: 3-4" Exposure: sun

The name says it all! This unique sempervivum boasts thick, tubular lime green leaves with open tips that pick up a crimson tint. A very distinctive look, adding texture to the rock garden or containers.

4" \$3.00 Sold in flats of 8

Silene 'Rollies Favorite'

**Sidalcea 'Party Girl'**

Party Girl Prairie Mallow

Height: 24-36" Exposure: full sun to part shade

Party Girl produces satiny rose-pink flowers with a white center that look like miniature hollyhocks. Grows best in consistently moist but well-drained soil with some afternoon shade. They look best planted in groups of 3 or more near the middle to back of the border.

True 1 gallon \$6.00

**Silene robotii 'Rollies Favorite'**

Rollies Favorite Campion

pp# 17,392  
Height: 10-16" Exposure: sun-part shade

Light pink, star-shaped flowers held in soft clusters bloom profusely from May through summer above dark green, well-behaved plants. A cross between Silene and Lychnis, Rollies Favorite is easy to grow and long flowering. Prefers well drained soil.

True 1 gallon \$5.75

Sisyrinchium 'Lucerne'

**Sisyrinchium angustifolium 'Lucerne'**

Lucerne Blue-eyed Grass

Height: 8-10" Exposure: full sun to bright shade

Striking, star-shaped, blue-purple flowers dance above the grassy Iris-like foliage beginning in late spring and continuing into summer. A sun worshipper, the vivid flowers open in the morning, but tend to remain closed on cloudy days. Lucerne Blue-eyed Grass grows best in moist areas with good drainage.

True 1 gallon \$5.75

Solidago 'Little Lemon'

**Solidago Little Lemon ('Dansolitem')**

Little Lemon Goldenrod

pp# 17,392  
Height: 8-10" Exposure: full sun to bright shade

The most compact, light yellow Solidago to date, Little Lemon is well branched and blooms from late summer to early fall, providing variety to the autumn garden. Also worthy of noting: its pollen is too heavy to be blown by the wind, rather it falls to the ground, so it doesn't cause allergies.

True 1 gallon \$5.75

**Spigelia marilandica**

Height: 12-18" Exposure: light shade

Indian Pink

Spigelia is a long-lived, native perennial that brings stunning color to the summer garden. In June and July, vivid red tubular flowers open to expose a canary yellow throat. Spigelia grows best in rich, well-drained soils and light shade to full sun.

Trade 1 gallon \$7.00

Spigelia marilandica

**Stachys minor (S. minima)**

Height: 8" Exposure: sun-shade

Dwarf Betony

Short, dense, upright spikes of vibrant pink flowers are produced in late June and July. Glossy, waxy, crenate, dark green foliage is burn and wilt resistant in summer and semi-evergreen in winter. Attractive seed heads are held from late summer into early spring of the following year. Grows 8" tall in full sun or shade. This easy to grow perennial is perfect for the front of the border or as an edging plant.

Trade 1 gallon (1-14) \$5.50 (15+) \$5.20

Stachys minor

**Stachys monnieri 'Hummelo'**

Height: 18-20" Exposure: sun-shade

Hummelo Betony

Similar to Wood Betony but with slightly longer leaves, flowers 2-3 weeks earlier, and has narrower flower spikes. Flowers are an outstanding shade of dark, saturated pink, starting in mid-summer. The flower color is darker than *S. officinalis*, but a bit less floriferous. Evergreen with showy seed stalks in winter.

True 1 gallon (1-14) \$5.50 (15+) \$5.20

Stachys 'Hummelo'

**Stachys officinalis 'Pink Cotton Candy'**

pp# 21,436

Height: 10-12" Exposure: sun-shade

Pink Cotton Candy Betony

The bright evergreen leaves of Pink Cotton Candy have attractively scalloped edges and the plants have no insect, disease or pest problems. Large, cotton candy pink flowers cover the foliage in June and July. Selected by the Chicago Botanical Garden, this easy to grow perennial thrives in sun or shade and is perfect for the garden.

True 1 gallon (1-14) \$5.75 (15+) \$5.45

Stachys 'Pink Cotton Candy'

**Stokesia laevis 'Honeysong Purple'**

Height: 12-14" Exposure: sun-light shade

Honeysong Purple Stokes' Aster

Honeysong Purple is a wonderful Stokesia producing large, 3" diameter, intense royal purple flowers in summer. The plants have short, strong, upright stems that hold the flowers uniformly above the foliage. Deep green foliage is free of insect or disease problems and has a neat mounded habit. The seed heads are quite attractive and extend interest into the fall.

True 1 gallon (1-14) \$6.00 (15+) \$5.70

2 gallon \$7.50

Stokesia 'Honeysong Purple'

Stokesia 'Peachie's Pick'

**Stokesia laevis 'Peachie's Pick'**

Peachie's Pick Stokes' Aster

Height: 14-18"

Exposure: sun-light shade

Peachie's Pick blooms are up to 3" across and a lovely lavender-blue. They flower later than other Stokes' Asters, extending the season for this colorful perennial. Its strictly upright habit differentiates this selection from others. The seed heads are quite attractive and extend interest into the fall.

True 1 gallon (1-14) \$6.00 (15+) \$5.70

2 gallon \$7.50

'Blueberry Sundae'

'Karminglut'

**Tradescantia**

Spiderwort

Height: 15-24"

Exposure: light shade to part shade

Spiderwort is a clump-forming herbaceous perennial with arching, grass-like foliage. A prolific bloomer, flowering starts in late spring and continues into late summer. Grows best if protected from afternoon sun. Cut plants back hard if they start to look tired, they will produce fresh new foliage and will often re-flower.

'Blueberry Sundae' - plum colored buds open to very large, icy blue flowers with a darker, lavender-blue eye; 24" tall

'Karminglut' (Carmine Glow) - rosy red flowers; 16" tall

'Leonora' - beautiful violet-blue flowers, 16" tall

'Snowcap' - snow white blooms 2" across; 15-18" tall

'Sweet Kate' - brilliant gold foliage, vibrant violet-blue flowers; 12" tall

True 1 gallon (1-14) \$5.75 (15+) \$5.45

'Leonora'

'Snowcap'

'Sweet Kate'

'Autumn Glow'

**Tricyrtis 'Autumn Glow'**

Autumn Glow Toad-lily

Height: 24"

Exposure: part shade

Orchid-like flowers cover the gracefully arching stems of this late flowering perennial. Flowers are heavily spotted and reddish-purple in color. Bright green, waxy leaves are edged in brilliant gold.

True 1 gallon (1-14) \$6.00 (15+) \$5.70

**Tricyrtis 'Sinonome'**

Sinonome Toad-lily

Height: 30-36"

Exposure: part shade

Orchid-like flowers are heavily spotted white and reddish-purple. Bright green, waxy leaves cover the stems from top to bottom. A wonderful plant that should be sited so the interesting flowers can be seen up close. Sinonome is more tolerant of drier conditions than many Toad-lilies and has an exceptionally long bloom duration. In our yard, the plants will get hit with a hard frost before they're finished flowering.

Trade 1 gallon (1-14) \$6.00 (15+) \$5.70

True 1 gallon (1-14) \$6.00 (15+) \$5.70

Tricyrtis 'Sinonome'

**Trifolium rubens 'Red Feathers'**

Red Feathers Clover

Height: 12-24"

Exposure: full sun

This ornamental clover creates upright clumps of trifoliate, medium green leaves. In early summer, silver buds rise above the plants, turning into large, purple-red flowers. Each stem has two flowers, one larger than the other. The larger bloom opens while the smaller is still developing. Then, just as the first flower is finished, the second starts to open, creating a longer bloom time. The blooms attract hordes of bees, hummingbirds, and butterflies. Its leaves are a food source for the caterpillars of Sulphurs, Dogface, and Eastern Tailed Blue Butterflies. Will be labeled with a butterfly label (see pg. VIII)

4" \$2.50

Trifolium 'Red Feathers'

**Vernonia glauca**

Upland Ironweed

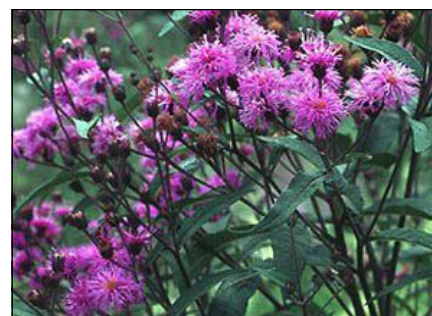

Height: 3-5'

Exposure: sun

This wonderful Pennsylvania native attracts hordes of butterflies late in the season with its large clusters of rich purple flowers. It is a statuesque plant growing 4-5' tall, and is not for the small garden. Ironweeds are incredibly adaptable to most garden conditions, but are happiest in ordinary to moist locations. Cutting back the new growth in early spring will result in a shorter, denser habit with more flower clusters.

True 1 gallon \$6.00

Vernonia glauca

**Vernonia lettermanii 'Iron Butterfly'**

Iron Butterfly Ironweed

Height: 24-30

Exposure: full sun

This is not the Ironweed that grows in this area, but is a native of Oklahoma and Arkansas. Its fine, long bladed foliage grows densely and forms a shrubby mound up to 3' tall, giving it a similar texture to *Amsonia hubrichtii*. In late summer the plants produce small, bright purple flowers held in umbels that are very attractive to butterflies. Found growing mainly in the rocky flood plain of the Ouchita River in Arkansas, it is tolerant of extreme drought and periodic flooding.

Trade 1 gallon \$7.00

Vernonia lettermanii 'Iron Butterfly'

**Veronica longifolia 'Eveline'**

Eveline Long-leaf Speedwell

pp #14,888

Height: 12-18"

Exposure: sun-part shade

We have fallen in love with the flower color of this Speedwell. If dead-headed raspberry-pink flower spikes are produced from June until September. Foliage is a glossy dark green with long, pointed leaves.

True 1 gallon \$5.50

Spring only

Veronica 'Eveline'

**Veronica longifolia 'First Glory'**

First Glory Long-leaf Speedwell

ppaf

Height: 16"

Exposure: sun

A compact selection, First Glory forms a low mound of attractive deep green foliage. Spikes of dark royal blue flowers appear in early summer and continue for weeks. Prune off spent blooms to encourage more buds to form.

True 1 gallon \$5.50

ppaf

Height: 18-20"

Exposure: sun-part shade

Very Van Gogh Speedwell

Rosy purple flowers are produced on heavily branched scapes from mid-summer into late summer. A new introduction from Walters Gardens.

2 gallon \$8.00

Viola tricolor

**Viola tricolor**

Height: 3-5"

Exposure: full sun-part shade

Johnny Jump-Up

This old fashioned spring bloomer is a food source for Fritillary caterpillars. Hardy to zone 6. Great for the front of the border. Also considered a medicinal herb, Wild Pansy was used to treat skin conditions and was found growing in many herb gardens. Will be labeled with a butterfly label (see pg. VIII)

4" \$2.50

# EDIBLES

## Ribes rubrum

Red Currant

Height: 4' x 4'

Exposure: full sun-light shade

This currant is a compact, mounding, deciduous shrub that grows 3-4' tall and 4-5' wide. Clusters of greenish-yellow flowers bloom in spring, and are noticeable but not showy. Flowers give way to 4" long clusters of 8-10 bright red berries that ripen in early July. The tart, juicy, thin-skinned fruits are excellent for jellies, sauces, cooked desserts, and are also eaten fresh. They are high in vitamin C and other antioxidants. This variety is extremely cold hardy and tolerant of a wide range of soils and sites.

'Perfection' - larger than average berries

'Red Lake' - longer than average chains of smaller berries

True 1 gallon (1-14) \$7.00 (15+) \$6.70

Ribes rubrum

## Rubus 'Caroline'

pp# 10,412

Caroline Red Raspberry

Height: 4-6'

Exposure: full sun

With rich, full, and intense flavor, this everbearing raspberry is a great cultivar for the home gardener. Compared to Heritage, Caroline has sweeter berries, ripens two weeks earlier, is a heavier producer, and has better resistance to disease and insects. White flowers in May turn into red raspberries that begin to ripen in late August and continue until fall.

2 gallon \$8.00

Rubus 'Caroline'

## Rubus 'Crimson Night'

pp# 24,949

Crimson Night Red Raspberry

Height: 4' x 4'

Exposure: sun

Fall bearing; Crimson Night was selected for its heavy crop load, good flavor, and glossy, burgundy fruit. The canes are dark magenta in color with dark green leaves, adding to its value in the landscape. Developed at Cornell's College of Agriculture and Life Sciences.

2 gallon \$8.00

Rubus 'Crimson Night'

## Rubus 'Double Gold'

pp# 24,811

Double Gold Raspberry

Height: 4'x4'

Exposure: sun

Everbearing; Double Gold produces a very tasty, deeply blushed, golden champagne-colored fruit with a distinctive conical shape. A vigorous grower it will produce substantial crops. It earned the "double" in its name because it produces a summer and fall crop. Developed at Cornell's College of Agriculture and Life Sciences.

2 gallon \$8.00

Rubus 'Double Gold'

Rubus 'Fall Gold'

**Rubus 'Fall Gold'**

Height: 4'

Exposure: full sun

Fall Gold Raspberry

Everbearing; produces its first crop in July on last years growth, and a second crop in September on this years new growth. The sweet berries have a good flavor and are similar to red raspberries in all respects but color.

2 gallon \$8.00

Rubus 'Glencoe'

**Rubus 'Glencoe'**

Height: 4-6'

Exposure: sun

Glencoe Purple Raspberry

Summer bearing; Glencoe was developed by the Scottish Crop Research Institute. This incredible raspberry has SPINE-FREE canes which are easy to manage. The growth habit is bushy and less vigorous than most red raspberries, which are ideal traits for the homeowner. The fruit has a lovely intense flavor.

True 1 gallon \$6.50

Rubus 'Munger'

**Rubus 'Munger'**

Height: 4-6'

Exposure: sun

Munger Black Raspberry

This heirloom variety was developed in Ohio in 1897. Munger's strong somewhat upright canes bear shiny black raspberries in July. The fruit is large, plump yet firm, and not as seedy as other varieties of black raspberries. Very hardy, Munger is the leading commercial variety and a great choice for the home gardener as well.

2 gallon \$8.00

## FERNS

Athyrium felix-femina 'Victoriae'

**Athyrium felix-femina 'Victoriae'**

Height: 12-24"

Exposure: light-deep shade

Victoria Lady Fern

Bright emerald green fronds with crested leaf tips and crisscrossing pinnae form X's up the frond stem. Beautiful vase-shaped habit. A strong grower that prefers evenly moist soils. Victoria is a lush, dense fern that is hard to adequately describe.

True 1 gallon (1-14) \$6.75 (15+) \$6.45

Athyrium 'Godzilla'

**Athyrium 'Godzilla'**

Height: 36"

Exposure: light-deep shade

Godzilla Japanese Painted Fern

This giant fern forms a massive clump, 3' tall by 6' wide of arching, silvery fronds, highlighted with green and dark purple stems. Prefers shade and evenly moist soils. Thought to be a sporeling of Painted and Lady Ferns discovered at Plant Delights Nursery. Try combining with giant hostas, Kirengeshoma, and other large shade masters.

True 1 gallon (1-14) \$7.00 (15+) \$6.70

**Athyrium niponicum 'Regal Red'**

Regal Red Japanese Painted Fern

Height: 12-18"

Exposure: light-deep shade

Silvery green fronds are heavily tinted with pinks and mahogany that provide a striking contrast with its rich red stems. An excellent grower for part to full shade and evenly moist soils, forming loose, arching mounds of foliage. Great for brightening up a dark area in the shade garden and blending with almost anything. One of the most colorful, and easy to grow hardy ferns.

True 1 gallon (1-14) \$6.75 (15+) \$6.45

Athyrium niponicum 'Regal Red'

**Athyrium x 'Ghost'**

Height: 18-24"

Exposure: light-deep shade

Ghost Fern

New growth emerges a stunning silvery white fading to grey-green with a subtle silver overlay, similar to a very pale Japanese Painted Fern. Very upright habit and fast growing.

True 1 gallon (1-14) \$6.75 (15+) \$6.45

Athyrium 'Ghost'

**Dryopteris tokyoensis**

Height: 18-36"

Exposure: shade

Tokyo Wood Fern

This slender, vase-shaped fern is a strong grower with dark green fronds that are rigidly erect. Native to woodlands of China, Korea, and Japan. The upright fronds add a great vertical accent to the shade garden.

True 1 gallon (1-14) \$6.75 (15+) \$6.45

Dryopteris tokyoensis

**Matteuccia struthiopteris**

Height: 36-48"

Exposure: sun-shade

Ostrich Fern

Huge plume-like fronds arch from a central crown. Will produce large colonies over time. This fern will tolerate quite a bit of sun given adequate water, and quite a bit of drought given adequate shade.

True 1 gallon (1-14) \$6.75 (15+) \$6.45

2 gallon (1-14) \$9.00 (15+) \$8.70

Matteuccia struthiopteris

**Thelypteris decursive-pinnata**

Height: 12-24"

Exposure: part shade-shade

Japanese Beech Fern

Thelypteris decursive-pinnata is an attractive Asian species of fern with, strong, glossy, chartreuse-green fronds and an upright habit. This is a spreader, but a slow and steady one, unlike some near relatives that can be borderline invasive. Makes a wonderful groundcover.

True 1 gallon (1-14) \$6.75 (15+) \$6.45

Thelypteris decursive-pinnata

## GRASSES

Calamagrostis 'Karl Foerster'

*Calamagrostis x acutiflora* 'Karl Foerster' Karl Foerster Feather Reed Grass

Height: 3-4'

Exposure: sun-part shade

Perennial of the year for 2001, Karl Foerster is easy to grow with a strictly upright, clumping habit. Greenish, loose clustered flowers appear in June, quickly followed by tight, upright, warm brown spikes of seed. It will grow 2-3' tall in dry sites while attaining 4-5' in richer soil. Very tough.

True 1 gallon (1-14) \$6.00 (15+) \$5.70

2 gallon (1-14) \$7.50 (15+) \$7.20

Spring only

Calamagrostis 'Overdam'

*Calamagrostis x acutiflora* 'Overdam' Overdam Feather Reed Grass

Height: 2½ - 3½'

Exposure: sun-part shade

A brightly variegated grass that has dark green leaf blades with wide white edges. It has a clumping habit with stiff, upright growth. The fat green flowers produced in June dry to narrow, upright, tan spikes that persist into fall.

True 1 gallon (1-14) \$6.00 (15+) \$5.70

Spring only

## VINES

Clematis 'Blue Angel'

Large Flowering Clematis

Height: 4-15'

Exposure: sun to light shade

The "Queen of Flowering Vines" is an easy plant to grow if given minimal sun and cool, moist soil. We recommend planting them in part shade on the north or east sides of a structure. Clematis will die back quickly in the summer if they get too hot (Clematis Wilt). Planting in well amended soil, for moisture retention, and mulching well will help to prevent this. They need a structure to climb on with less than ¾" diameter supports, or they can be grown over shrubbery. Most Clematis will die back nearly to the ground in winter.

Clematis 'Carnaby'

**NEW** *viticella* 'Blue Angel' - sky blue flowers 4-6" across with ruffled edges. Flowers from June to September; vines grow 8-12' long. Pruning group 3

**NEW** 'Carnaby' - white flowers, 6-8" across, with darker raspberry-pink bar. Flowers from May to June; vines grow 6-12' long. Prune moderate, group 2

'Niobe' - velvety, ruby red flowers 5-7" across. Blooms from May to September; vines grow 6-8' long. Prune hard, group 3

'The President' - deep violet-blue 6-8" wide flowers with dark reddish-purple anthers. Flowering primarily in May and June and again in September and October; vines grow 8-10' tall. Prune moderate group 2 [pictured on next page]

Clematis 'Niobe'

**NEW** *x jackmanii* 'Superba' - An improvement on the classic Jackmanii, being more floriferous, and individual flowers being slightly larger, 5-7" wide, and more rounded. Vines grow 12-15' tall. Prune hard group 3 [pictured on next page]

True 1 gallon on an 18" wooden trellis \$10.50

Clematis x jackmanii 'Superba'

Clematis 'The President'

**Clematis maximowicziana (paniculata, ternifolia)** Sweet Autumn Clematis

Height: 10-15' Exposure: sun-light shade  

This vigorous grower produces a solid sheet of small, incredibly fragrant, white flowers in August. Sweet Autumn Clematis will not die to the ground each year, but some terminal dieback may occur. Great for covering up fences, abandoned cars, slow moving animals, etc... Grown on a 18" bamboo arch.

True 1 gallon (1-14) \$10.00 (15+) \$9.70

Clematis maximowicziana

 **Humulus lupulus 'Aureus'**

Height: 15-25' Exposure: sun-light shade   

Golden Hops

This selection of the common hops has bright chartreuse to yellow leaves, making it an great choice to brighten a dull area in the landscape. Small, drooping, cone-like clusters of greenish-yellow female flowers appear in summer, have a pine-like fragrance, and are attractive to butterflies. They mature to a tan colored hops that is used in beer making. Though deciduous, this rapidly growing, twining vine will easily cover a structure for screening. Grown on a 18" bamboo arch.

True 1 gallon (1-14) \$10.00 (15+) \$9.70

Humulus 'Aureus'

## Deer Resistant Plants

### Shrubs, Vines and Trees

Abelia x mosanensis – Fragrant Abelia  
Albizia julibrissin - Mimosa  
Buddleia – Butterfly Bush  
Callicarpa – Beauty Berry  
Campsis – Trumpet Creeper  
Caryopteris x clandonensis – Bluebeard  
Chionanthus retusus – Fringe Tree  
Clematis – Large Flower  
Clematis maximowicziana – Sweet Autumn  
Helianthemum – Sun Rose  
Indigofera amblyantha – Indigo  
Liquidamber – Sweetgum  
Lonicera – Honeysuckle  
Magnolia – Magnolia  
Nyssa – Black Gum  
Salix – Willow  
Sinocalycanthus raulstonii – Sweetshrub  
Spirea japonica - Spirea  
Weigela – Weigela  
Vitex – Chaste Tree

### Grasses

Acorus – Sweet Flag  
Andropogon gerardii - Big Blue Stem  
Bouteloua gracilis– Grama Grass  
Calamagrostis x acutiflora – Feather Reed Grass  
Carex morrowii – Sedge  
Chasmanthium latifolium – Northern Sea Oats  
Miscanthus sinensis – Japanese Silver Grass  
Panicum virgatum – Switch Grass  
Pennisetum – Fountain Grass  
Phalaris – Ribbon Grass  
Schizachyrium scoparium – Little Bluestem  
Sporobolus heterolepis – Prairie Dropseed  
Sporobolus wrightii - Giant Sacaton

### Perennials and Ferns

Achillea millefolium – Yarrow  
Aconitum napellus - Monkshood  
Actaea – Doll's Eyes  
Aegopodium – Snow on the Mountain/ Goutweed  
Agastache – Hyssop, Hummingbird Mint  
Alchemilla – Lady's Mantle  
Allium - Chives, Ornamental Onion  
Amsonia – Blue Star  
Anemone – Japanese Anemone, Windflower  
Aquilegia – Columbine  
Arisaema triphyllum - Jack-in-the-Pulpit  
Aruncus – Goat's Beard  
Asclepias – Butterfly Weed, Milkweed  
Astilbe – False Spirea  
Athyrium – Fern  
Baptisia – False or Wild Indigo  
Belamcanda – Blackberry Lily  
Bergenia – Bergenia, Pig Squeak  
Blechnum spicant – Deer Fern  
Brunnera macrophylla – Siberian Bugloss  
Campanula – Bellflower  
Centaurea – Mountain Bluet, Bachelor's Button  
Cerastium – Snow in Summer

### Perennials and Ferns (continued)

Chelone – Turtlehead  
Chrysanthemum nipponicum – Montauk Daisy  
Cimicifuga - Bugbane, Fairy Candles, Snake Root  
Convallaria - Lily of the Valley  
Coreopsis – Coreopsis, Tickseed  
Cyrtomium fortunei – Holly Fern  
Delosperma – Ice Plant  
Delphinium - Delphinium  
Dianthus – Pinks  
Dicentra – Bleeding Heart  
Digitalis – Foxglove  
Dryopteris – Wood Fern, Autumn Fern  
Echinacea - Coneflower  
Eryngium yuccifolium – Rattlesnake Master  
Eupatorium – Joe-Pye Weed  
Euphorbia – Spurge  
Ferns – most ferns are unpalatable  
Filipendula – Meadowsweet  
Gaillardia – Blanket Flower  
Gaura – Wand Flower  
Geranium – Cranesbill  
Geum – Avens  
Helenium – Sneezeweed  
Helianthus – Sunflower  
Helleborus – Lenten Rose  
Heuchera – Coral Bells  
Heucherella – Foamy Bells  
Hibiscus – Perennial Hibiscus/Rose Mallow  
Iris ensata – Japanese Iris  
Iris psuedoacorus – Swamp Iris  
Iris sibirica – Siberian Iris  
Isotoma – Blue Star Creeper  
Kirengeshoma – Waxbells  
Knautia macedonica – Field Scabiosa  
Kniphofia – Red Hot Poker  
Lavandula angustifolia – Lavender  
Leucanthemum – Daisy (occasionally will eat flowers)  
Liatris spicata – Gayfeather, Blazing Star  
Ligularia – Leopard Plant  
Lysimachia – Loosestrife  
Matteuccia struthiopteris – Ostrich Fern  
Monarda - Beebalm  
Musa basjoo - Hardy Fiber Banana  
Nepeta – Catmint  
Oenothera – Sundrops, Evening Primrose  
Origanum – Oregano  
Paeonia – Peony  
Penstemon - Beard Tongue  
Perovskia x atriplicifolia – Russian Sage  
Phlox – Phlox  
Physostegia – Obedient Plant  
Platycodon grandiflorus – Balloon Flower  
Polemonium reptans – Jacob's Ladder  
Polygonatum – Solomon's Seal  
Polystichum polyblepharum – Tassel Fern  
Pulmonaria – Lungwort  
Rodgersia – Rodger's Flower  
Rudbeckia – Black-eyed Susan

- Continued on next page -

## Deer Resistant Plants (continued)

### Perennials and Ferns (continued)

Salvia – Garden Sage  
 Sauromatum venosum - Voodoo Lily  
 Scabiosa – Pincushion Flower  
 Sedum – Sedum, Stonecrop  
 Silene – Campion  
 Sisyrinchium – Blue-eyed Grass  
 Solidago – Goldenrod  
 Stachys – Betony  
 Stokesia laevis – Stokes' Aster  
 Tanacetum - Painted Daisy  
 Thalictrum – Meadow-rue  
 Thelypteris - Japanese Beech Fern  
 Tiarella – Foamflower  
 Tradescantia – Spiderwort  
 Tricyrtis – Toad-lily  
 Trillium grandiflorum - White Trillium  
 Verbascum – Mullein  
 Vernonia – Ironweed  
 Veronica – Speedwell  
 Viola - Violet  
 Zauschneria - Hardy Fuschia

## Attractive to Butterflies

### Shrubs, Vines and Trees

Abelia x mosanensis – Fragrant Abelia  
 Buddleia – Butterfly Bush  
 Callicarpa – Beauty Berry  
 Caryopteris – Bluebeard

Viola – Prostrate Blue Violet  
Zizia - Alexanders

You are cordially invited to stop in at your convenience. We will gladly assist you with your plant selection needs, or you may peruse the nursery at your leisure. We are located at 7520 Home Rd., west of the Scioto River, between Concord Rd. and Jerome Rd. in southwestern Delaware County.

## Hours

### March – November

Monday – Friday 8:00 am – 5:00 pm

Saturday Closed

April – July: We are probably working but call ahead to be sure. Arrangements can be made for someone to be at the nursery.

Sunday Closed

### December – March

Closed for the winter but please call if you have any questions. Again, arrangements can be made for someone to be at the nursery.
