EDITORIAL

The International Monetary Fund met in Washington in May and an article in the Week-end Australian about this institution charged with forcing debt repayment (usually with disastrous consequences) caught my eyes. It said: "The world's seven wealthiest countries yesterday pledged a coordinated strategy to try to end the global recession although they put forward no concrete proposals" (sic). When the Australian observer returned from the conference, he proudly announced that: "Australia's economy is performing quite well compared to others." That's great mate: Really?....The economic world seems to be run by drongos who haven't got a clue! And they are very scared by what they have to hide, dishing out the most implausible lies to an unsuspecting public.

Just recently, the ex prime minister of France committed suicide partly because he was about to be found out for having vastly minimised the sorry state of the French economy for the past year, hoping to retain his government at the last march elections. The sacrosanct GDP (Gross Domestic Product) was half as much as previously thought, a Commission of Enquiry revealed, putting France in the ranks of the "poor" countries of Europe. But that notion is such a fallacy in any case. The GDP indicator does not take into account the "informal economy": cleaning, cooking, laundry, raising children, gardening, home maintenance, volunteer work, bartering, etc. The things we do as part of our daily lives.

LETSystems are working towards a saner economy (oikonomikos means the management of a household in Greek) and are your best hedge against a worsening world recession. These systems have three major components: electronic accounts, notice boards (classified & display adds) and skills and services directories. This issue of LETSTALK features the latest directory. I personally find its layout too dry and impersonal and would like the next update to be more people oriented and user friendly. Send your ideas on how this could be done. I have a few of my own and would like to see what other people come up with, for the next newsletter.

As for classifieds and display adds, please USE THEM. They are very affordable, they prove that you

Chris Greco

are keen to trade and since RiVLets members live in a wide area they are the most appropriate way to let others know what you want and what you can offer. Two new initiatives in the Byron Shire recently came to my attention: a Lets barter day at Durrumbul Hall every Friday and a private notice board called LETSX-change based in Byron Bay Ph: 858796. That's great! Other local areas may want to take similar steps to improve trading.

Finally, electronic accounts. RiVLETS has one of the best programs around, if not the best, but the increase in member numbers made the old computer due for an update or a replacement. So, the office is getting a more powerful one, thanks to an interest free loan by the Channon Market. A special fund has been established and if you are in a position to help finance this project, it would be greatly appreciated. Simply being prompt in paying your \$5 yearly administrative charge due in June would be of some help.

On behalf of the office team, I offer you our best wishes for a happy and prosperous trading in "locals", the currency that stays around and comes back to you.

MANAGER'S REPORT

MAY/JUNE 1993

The last two month period, or should I say three months, has been one of varying fortunes for LETS administration. We are still just managing to keep our heads above water financially and we are appealing to all members to pay their \$5 subscription, for the 1993/94 year, due on 1st July, 1993. Members wishing to continue to trade using LETS must pay their annual subscription. All non-financial members accounts will be considered dormant after July 1st and can be reactivated at any time by payment of \$5.

We have managed to find suitable tenants to use the office on the days when Lets is not open. This will reduce our rent by half and thus further reduce our ongoing cash costs. The Northern Rivers Men's Network will be staffing the front office from Monday to Wednesday each week.

The bad news is that the Lets benefit dance was a flop as far as fundraising for a new computer goes. In fact it ended up costing us over \$100 -C'est la vie! Although the attendance was disappointing those present had a good time.

The good news is that The Channon Craft Market has advanced us a loan of \$500. We have managed to buy a good 286 computer for \$550 and hope to have it on line by the time you receive this newsletter.

This newsletter contains the latest Skills & Services listings. Members who joined after 1st October, 1992 have been automatically included. Members who joined before this date would only have been included if they contacted us with their updated entries. If you did miss out make sure you are in the next update by contacting us NOW on 222776.

RiVlets has applied for funding, through the Dept. of Planning's Area Assistance Scheme, for a part time

Lets Development Officer. This person would be responsible for helping to set up support committees in our various regions, liaising with local government departments and talking to various community groups (particularly disadvantaged) and local business managers about Lets. All the things we would like to be doing if time and funds would allow. Our A.G.M. was held before the Lets dance on 30th April. As we need all the space we can manage, for the Directory, a full report will appear in the next edition.

Happy Trading, Ray.

INTERLETS TRADING

Some new members may be surprised when they receive transactions in "Doits", "Tweeds", and "Egs" from Clarence Valley, Tweed Valley and Crows Nest Letsystems. It is quite alright to accept these as they will be credited to your account in "Locals". RiVLETS Management will work out the details of the interlets trade with the neighbouring systems on your behalf. Note: Interlets trades wont be accepted on acknowledgement forms only on transaction slips (cheques) please.

Deadline for contributions, display ads and classifieds is the last Friday of the even month

An empowering collection of songs about
the earth, people, politics, permaculture
& the power of change

Songs of a Green Guerilla

by ROBYN FRANCIS

13 original songs: reggae, folk, rock & lyrical
ballads recorded at Bahloo Studio with Robyn
Francis supported by local musicians incl.
Mook, Shanto, Darmin, Steve Sorrensen, Julie
Metcalf, Rick Kent, Bronwen Algate, Burri
Jerome, Don Ruttan & Melian's chooks!

CASSETTE: (\$17) or \$10 + 7L

CD: (\$27) or \$15 + 12L

includes postage from Permaculture Education
PO Box 7234 Lismore Heights 2480 Ph 21 7654

PERSONALISED PARALLEL DIRECTORY needs people
rather than skill categories and types of
goods offered - entries will include the
"10 Locals Club", "100% LETS Traders",
"Neighborhood Listings" etc. If you like
the idea ring or write to Jamil (on the back
of a check if you like!) at the LETS Office
for an interview about yourself, your
particular needs and what and when you can share
with other members.
LETS keep the information flowing folks.

Tues arvos, Ph 891184 or Neighbour-
hood Centre, Fridays 2-4pm, 891492.

PLEASE PASS THIS ON TO A FRIEND

WHAT IS L.E.T.S.

Simply an information service like a vast
community notice-board or a market place.

- * It is available and useful to anyone who
trades in the Richmond Valley.
- * Individuals and businesses can use it to
advertise and to locate what they want.
- * Information is updated frequently, circu-
lated in the community and posted on local
notice-boards, and the bi-monthly Newsletter.
- * Notices may be added, updated, renewed
or deleted at any time!

Each member has a current account in 'Lo-
cals' to use in trading with other members. The
procedures are identical to using a bank ac-
count except that accounts can be positive or
negative. Its like having a line of credit, except
NO INTEREST is charged or paid on out-
standing balances.

A debit in 'Locals' is simply an acknow-
ledgment that the member has had goods or
services to that value from other members and
has made a commitment to return goods and
services to the same value to other members
when convenient.

Transactions are recorded by filling out a
transaction slip (like a cheque) or, in case of
small transactions by the purchaser, by listing
the purchase and signing their name on a form
held by the vendor.

Members agree to consider offers to trade
in 'Locals', but do not have to accept any of-
fers. Trades may be done partly in 'Locals' and
partly in Australian dollars! It's important to
remember that with L.E.T.S., money never
leaves our community. 'Locals' always return,
to create more employment!

Local businesses could build their turnover
and customer numbers, charging in a mixture
of Locals and Aussie dollars, if they joined
the L.E.T. System. If business is meeting its
overheads and has cash available, it can af-
ford to cover costs in cash and make sales
fully or partly in 'Locals'. In that case, con-
siderable marketing opportunities exist and
the ultimate limitation will be the capacity of
the business to spend in 'Locals'. As more
goods and services become available for 'Lo-
cals', businesses will be better able to buy in
'Locals', thus expanding their capacity to sell
in 'Locals'.

You can spend 'Locals' to get produce
from local growers and nurseries, crafts,
typing, massage, alternative healing, counsel-
ing, welding & painting, sewing, mechanical
work, restaurant meals, labor and anything
else you can think of. You can receive 'Lo-
cals' for all of the above and for teaching
skills, advice, childcare, casual work and al-
most anything else you have to offer.
