

55th Annual Arboretum Plant Sale

May 13–14, 2023

Farm at the Arb
arb.umn.edu

Welcome to the 55th Annual Arboretum Plant Sale

The Arboretum Auxiliary started the Arboretum's plant sale in 1968, and today the tradition continues with Arboretum staff and help from volunteers. Money raised from the plant sale supplies critical support to the Arboretum's general operations fund, helping the Arboretum maintain 1,200 acres of gardens and plant collections, natural areas and trails.

SHOP THE SALE

Hours: 8 a.m.-3 p.m. Saturday & Sunday, May 13-14.

Location: Farm at the Arb, 3210 W. 82nd St., Chaska. Shoppers will enter the sale from W. 82nd St. There is no entrance to the sale from the Arboretum's main gatehouse off MN Hwy 5 or Eastern Drive (Peter C. Moe Drive).

Reservations: All shoppers must make free online reservations to shop the sale at arb.umn.edu/plantsale. Make reservations to shop early in the sale for the best selection.

Please note: Reservations to shop the sale will only give you access to the plant sale. If you'd like to visit the rest of the Arboretum, you'll need to make separate reservations, and enter the Arboretum through the main gatehouse off MN Hwy 5.

TIPS FOR SHOPPING THE SALE

- Please arrive within 15 minutes of your scheduled reservation time and have your tickets ready to scan.
- Arboretum wagons are always in short supply. Please bring carrying containers for your purchases: sleds, boxes, wagons or carts.
- Please shop the sale as efficiently as possible, ideally about 45 minutes or less to make space for others to shop.
- There will be a pickup area where you can drive up to load your plants.
- Arboretum member discounts don't apply at this sale.
- All sales are final — no refunds or guarantees.

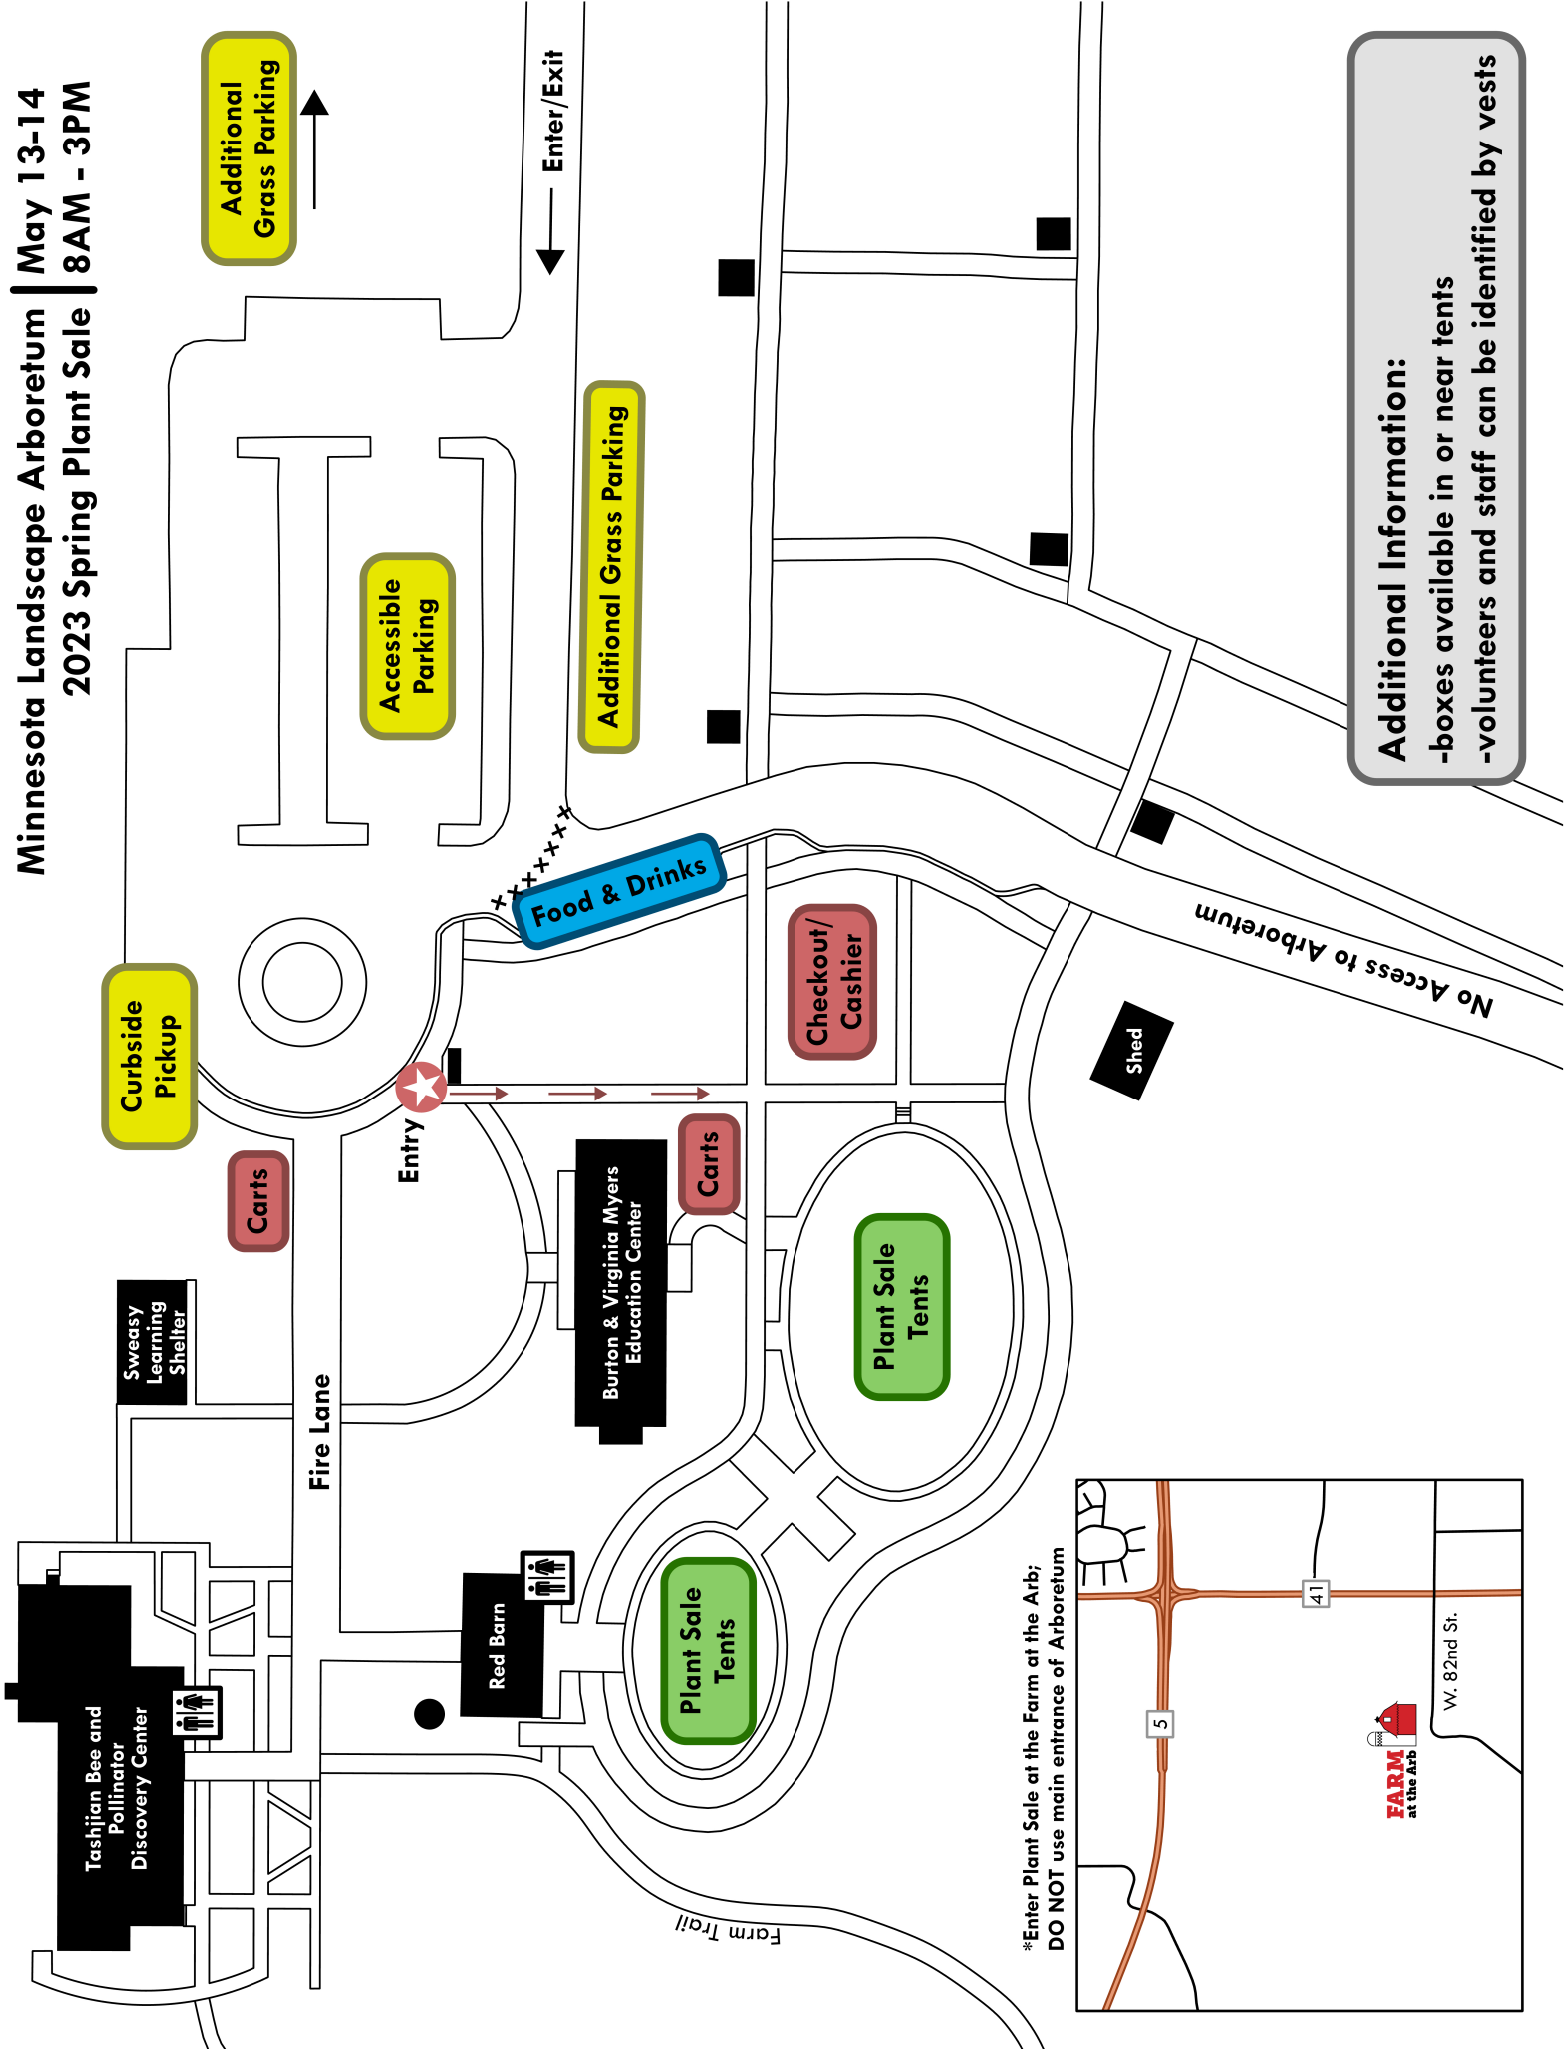

PAYING FOR YOUR PLANTS

- Shop early for the best selection.
- Cash, checks and credit cards will be accepted. Credit cards are preferred.
- This sale is required to charge tax on all purchases. The transactions will be processed by the Arboretum's Gift & Garden Store.
- Please keep your receipt as you may need to show it to security personnel as you exit.

Thank you for supporting the Arboretum.

**Minnesota Landscape Arboretum | May 13-14
2023 Spring Plant Sale | 8AM - 3PM**

Additional Information:
 -boxes available in or near tents
 -volunteers and staff can be identified by vests

2023 Plant Sale List

SHADE PERENNIALS

Actaea pachypoda

White Baneberry, Doll's Eyes
2' H. Also called Doll's Eyes for the distinctive dark "pupil" mark on the ends of their white berries. Persisting for four to six weeks in late summer to early fall, the berries extend from the stem on thick, reddish stalks. MN Native.

Actaea racemosa

Bugbane
4-6' H. A striking woodland species that creates a strong vertical statement in a shade or border garden. The white, candle-like flower spires provide late summer blooms.

Actaea simplex 'Chocoholic'

Atropurpurea Group Snakeroot
3-4' H. Has dark bronze-purple foliage and dark pink flower buds. Its arching spikes of sweetly fragrant, bottlebrush flowers are mauve-pink and lighten to white as they age.

Actaea simplex

Atropurpurea Group Snakeroot
5-6' H. Fragrant, pale pink flowers. Deep green to bronzy-purple foliage. Early fall.

Actaea simplex 'Brunette'

Atropurpurea Group Snakeroot
4-5' H. Fragrant creamy-white to pale pink plumes. Black-purple lacy foliage. Rich moist soil, shade to part shade behind border. Avoid disturbing once established. Aug-Sept.

Ajuga reptans 'Binblasca'

Black Scallop™ Bugleweed
3-6" H. Compact spreading habit. Large, glossy dark purple-black scalloped leaves. Deep blue spikes of flowers in early spring to early summer. Good ground cover.

Ajuga tenorei 'Valfredda'

Chocolate Chip Dwarf Bugleweed
4" H. Rich chocolate-colored foliage. Blue flowers. Spring. Good ground cover.

Ajuga 'Cordial Canary'

Feathered Friends™ Dwarf Bugleweed
4-6" H x 18" W. Winter hardy, season long color, low maintenance, rabbit/deer resistant. Great ground cover. Brilliant gold foliage with cobalt flowers.

Ajuga 'Fancy Finch'

Feathered Friends™ Dwarf Bugleweed
4-6" H x 18" W. Winter hardy, season long color, low maintenance, rabbit/deer resistant. Great ground cover. Gorgeous tri colored leaves with cobalt blue flowers.

Ajuga 'Noble Nightingale'

Feathered Friends™ Dwarf Bugleweed
4-6" H x 18" W. Winter hardy, season long color, low maintenance, rabbit/deer resistant. Great ground cover. Leaves are a deep-purple, lovely blue flowers.

Ajuga 'Pleasant Pheasant'

Feathered Friends™ Dwarf Bugleweed
4-6" H x 18" W. Winter hardy, season long color, low maintenance, rabbit/deer resistant. Great ground cover. Leaves range in colors of burnished copper to crimson gold, lovely blue flowers.

Alchemilla mollis 'Thriller'

Lady's Mantle
12-24" H x 12-24" W Vivid golden yellow flowers held on stems in open, airy sprays above the scalloped, shiny, gray-green leaves.

Anemone multifida 'Rubra'

Rocky Mountain Windflower
12-18" H. Glowing carmine-red flowers. Deeply divided, hairy basal leaves. May-June.

Anemone sylvestris

Snowdrop Windflower
18" H. Single pure white solitary flowers about 1-1/2" wide and often nodding. May-June.

Anemone 'Curtain Call Deep Rose'

Windflower
18" H x 18" W. Beginning in late summer, this graceful anemone, produces dark rose pink flowers and blooms well into the fall. Spreads by underground rhizomes.

Anemone 'Sweetly'

Fall in Love® Windflower
24" H x 24" W. Late summer into fall blooming Anemone semi-double pink, rose blooms. attracts butterflies, resistant to deer/rabbits.

Anemone 'Honorine Jobert'

Japanese Anemone

30" H. silvery-white single flowers. Rich, well-drained soil. Prefers partial shade. Aug-Oct. 2016 Perennial Plant of the Year.

Anemone 'September Charm'

Japanese Anemone

30" H. rosy-pink single flowers. Rich, well-drained soil. Prefers partial shade. Aug-Oct.

Anemonella thalictroides

Rue Anemone

See: *Thalictrum thalictroides*.

Aquilegia canadensis

Columbine

2-3'H x 1-1.5'W This beautiful woodland native has red and yellow bell-like flowers with unique, backward-pointed nectar tubes. Attracts a variety of pollinators. Full Sun/Part Shade. MN Native.

Aquilegia 'Blue Bird'

Songbird Columbine

12-14" H. Attractive clumps of delicate foliage with sprays of colorful, blue and white upright facing flowers.

Aquilegia 'PAS1258487'

EARLYBIRD™ Purple Blue Columbine

16" H. Extra-large blue-violet flowers with white centers are held upright on compact plants.

Aquilegia

KIRIGAMI™ Rose & Pink Columbine

12-14" H. Attractive clumps of delicate foliage with sprays of colorful, rose and pink upright facing flowers.

Aquilegia

Swan Pink and Yellow Columbine

10-20"H x 16"W Features a light lemon-yellow flower corolla set off by a coral pink horned back. Abundant blooms.

Aralia cordata 'Sun King'

Japanese Spikenard, Golden Aralia

3-6' H. Shrub-like herbaceous perennial. Bright gold compound leaves. Tall spikes of tiny white flowers followed by ornamental black fruit.

Aralia racemosa

American Spikenard

3-5' H. Shrub-like herbaceous perennial. Stately white plumes, clusters of black drupes. Ginseng family. MN Native.

Arisaema triphyllum

Jack-in-the-Pulpit

12-24" H. Beloved spring wildflower with green or purple striped flowers. Arum family. MN Native.

Aruncus aethusifolius

Dwarf Goat's Beard

12" H. Deep green, finely divided foliage with reddish fall color. Creamy-white flowers in early summer. Seed pods. Can take full sun if soil remains moist.

Aruncus dioicus

Goat's Beard

4-6'H x 2-4'W Looking much like a very large white Astilbe, Goat's Beard has similar foliage and feathery, creamy white flower plumes up to 1 ft. long. Full Sun/Part Shade.

Aruncus dioicus 'Zweiweltenkind' (Child of Two Worlds)

Goat's Beard

4' H. Showy white panicles, feathery foliage. Early summer.

Aruncus dioicus 'Kneiffii'

Goat's Beard

2-3' H. Compact stature and very finely-cut foliage. Creamy white flowers bloom in late spring.

Asarum canadense

Canadian Wild Ginger

4-6" H. Excellent groundcover with heart-shaped leaves and thick rootstalk. Small reddish-brown flowers form under the leaves in May. Good ground cover. MN Native.

Asarum europaeum

European Wild Ginger

5" H. An excellent ground cover for shaded situations with glossy, evergreen leaves 2-3". The flowers are greenish-purple or brown. Easily propagated by division. Good ground cover.

Astilbe chinensis var. pumila

Dwarf Chinese Astilbe

10-12"H x 10-12"W Lilac plumes over deep green glossy foliage in late summer. It is somewhat more tolerant of sun and drought conditions than other astilbe. Spreads well. A great groundcover.

Astilbe x arendsii 'Fanal'

Astilbe

24" H. Narrow, dark red flower; bronze foliage.

Astilbe x arendsii 'Augustleuchten' (August Light)

Astilbe

28" H. Blooms beginning in midsummer. Long, scarlet red, feathery plumes above bushy clump of dissected, green foliage, Excellent cut flower.

Astilbe x arendsii 'Beauty of Ernst'

Color Flash® Astilbe

10" H x 18"W. Brilliant electric green foliage in early spring, maturing to burgundy, purple and green. In fall, foliage turns vibrant gold, orange and russet colors. Tolerates more sun than other varieties.

Astilbe 'Delft Lace'

Astilbe
2-3' H. Apricot-pink plumes on red stems in early to midsummer. Lacy blue-green foliage overlaid with silver. Leaves can have red highlights. Burgundy fall color.

Astilbe 'Deutschland'

Astilbe
24" H. Clear white flowers in open loose plumes.

Astilbe 'Maggie Daley'

Astilbe
28" Large, lavender-purple blooms above glossy, dark green foliage.

Astilbe 'Mighty Pip'

Astilbe
48" A giant astilbe with big plumes of candy pink flowers.

Astilbe chinensis var. pumila

Dwarf Chinese Astilbe
12-18"H x 12-18"W. Dwarf astilbe variety with stunning, fluffy, rich, lavender-purple flower plumes. Fern-like green foliage. Perfect for a front border, as an edging plant or a dense ground cover.

Astilbe 'Montgomery'

Astilbe
22" H. Deep orange-red plumes on dark red stems.

Astilbe 'Purpurkerze'

Purple Candles Astilbe
42" H. x 18-24"W. A later blooming species. Foliage is deeply incised, coarsely textured, and often bronze in color. Dense, poker-like rich violet-red plumes are borne on narrow branched panicles.

Astilbe chinensis 'Vision in Red'

Chinese Astilbe
15"-24H. x 15-24"W. Tall feathery blooms of reddish purple rise above deep bronze-green foliage. More heat and drought tolerant and thrives in dappled shade. Excellent cut flower.

Astilbe chinensis 'Vision in White'

Chinese Astilbe
24"H. x 24"W. Tall, feathery white blooms above compact, deep bronze-green foliage. Valued for their airy quality, flowers are excellent for cutting. A true gem for dappled shade gardens.

Astilbe 'Sprite'

Astilbe
18" H. A dwarf astilbe with shell pink blooms held above the bronze green foliage in midsummer.

Astrantia 'Roma'

Masterwort
1.5-2'H x 1-1.5'W This selection produces large, silver-pink flowers that are surrounded by greenish wine-red bracts. Long blooming.

Bergenia 'Red Beauty'

Pigsqueak
6-12" H. Thick, cabbage-like foliage and deep purple-red flowers. The leaves change to burgundy in the fall.

Bergenia 'Winterglut' (Winter Glow)

Pigsqueak
12-15" H. Large glossy, thick, cabbage-like leaves are bright green, but turn bronze in cold weather. Red flower. Spring.

Brunnera macrophylla

Siberian Bugloss
1-1.5'H x 1.5-2.5'W Delightful for their bright display of sky-blue flowers in spring and reliable clumps of large heart-shaped leaves all season.

Brunnera macrophylla 'Alexander's Great'

Siberian Bugloss
14" H. A gigantic mound of heart shaped, heavily silvered leaves. Blue flowers in the spring.

Chelone lyonii 'Hot Lips'

Pink Turtlehead
24-36" H. Rose-pink flowers. Lustrous, deep green foliage. Bronze-green early season growth. Prefers moist site. Aug-Sept.

Chelone lyonii 'Armitpp02'

Tiny Tortuga Turtlehead
12-16" H. Thick, dark green foliage. In late summer, plants produce upright stems of large dark pink hooded flowers.

Convallaria majalis 'Bordeaux'

Lily of the Valley
6-8"H. x 8-10"W. An improved version of the old-fashioned favorite. Bordeaux produces pure white, large bell-shaped flowers on stems that are held above the foliage. Very fragrant blooms. Great for covering slopes or in shady woodland sites, or under trees.

Dicentra 'King of Hearts'

Fern-leafed Bleeding Heart
12" H. Ferny foliage topped by long-blooming heart-shaped pink flowers beginning in May and June. Well-drained soil.

Epimedium x rubrum

Red Barrenwort
12" H. Early in the season, the thin, heart-shaped leaves of this plant have a red tinge, which turns to bronze in the fall. Good ground cover.

Epimedium x versicolor 'Sulphureum'

Barrenwort
12" H. Light yellow flowers. This selection is one of the best for use as a ground cover. May-June.

Galium odoratum

Sweet Woodruff

6" H. A garden favorite because of its delicate growth, 4-petaled white flowers from early May to mid-June, and sweet-scented elliptic leaves. Excellent ground cover. Leaf has been used in wines and liqueurs.

Helleborus

Royal Heritage™ Lenten Rose

16-24" H. One of the earliest perennials to bloom. This strain produces blooms in shades from white through to pink, red, maroon and near black.

Hepatica americana

Round-lobed Hepatica

6" H. Leaves with rounded lobes distinguish this species. The pale lilac to pinkish-white flowers appear very early in the spring. March to June. MN Native.

Heuchera 'Caramel'

Coral Bells

10-14" H. New leaves emerge bright gold and mature to a peachy orange.

Heuchera 'Citronelle'

Coral Bells

6-12" H. Brings bright chartreuse foliage for shade.

Heuchera 'Tnheucha'

Champagne Coral Bells

10-12" H. Leaves change from peach to gold to champagne-gold over the season. Light peach flowers most of the season.

Heuchera 'Crimson Curls'

Coral Bells

18" H. Deep reddish-purple leaves with curled edges. Whitish flowers in summer.

Heuchera 'Frosted Violet'

Coral Bells

12-18" H. Violet purple foliage with deep burgundy veins form a vigorous but neat clump, accented by dainty pink, pearl-like flowers.

Heuchera 'Midnight Rose'

Coral Bells

10-16" H. Award winning plant has shiny, pink-spotted black leaves and a vigorous rounded habit. Part shade to full sun.

Heuchera 'Tnheunea'

Northern Exposure™ Amber Coral Bells

10" H x 16" W New hybrids with our local native *Heuchera richardsonii* are bone hardy -- this one with showy amber foliage.

Heuchera 'Tnheuner'

Northern Exposure™ Red Coral Bells

10" H x 16" W Velvet red leaves: New hybrids with our local native *Heuchera richardsonii* are bone hardy.

Heuchera 'Tnbeunesi'

Northern Exposure™ Sienna Coral Bells

10" H x 16" W New hybrids with our local native *Heuchera richardsonii* are bone hardy.

Heuchera 'Tnbeunes'

Northern Exposure™ Silver Coral Bells

10" H x 16" W Burnished silver leaves: New hybrids with our local native *Heuchera richardsonii* are bone hardy.

Heuchera 'Paris'

Coral Bells

10" H x 16" W Foliage emerges with silver veining but the classic pink coral bell flowers are proven repeat flowering for the longest display of any cultivar. Very reliable in local gardens.

Heuchera 'Spearmint'

Dolce® Coral Bells

8-10" H x 26-30" W. Boasts both beautiful foliage and excellent flower performance. Silvery green leaves have dark green veins. Flowers are bi-color, with dark pink petal tips and light pink bases. Blooms early to midsummer. Great for path edging.

Heuchera 'Wild Rose'

Primo® Coral Bells

8-10" H x 18-20" W. Forms a dense habit of large, bright rosy purple leaves with prominent deep charcoal gray veining. Upright, dark burgundy stems hold rosy pink flowers.

Heuchera 'Stainless Steel'

Coral Bells

10" H x 16" W Foliage emerges silver with light purple veining and eggplant purple undersides, then matures to pale seafoam green with a subtle purple patina. Pink buds open to white flowers.

Heucherella 'Brass Lantern'

Foamy Bells

12-18" H. Burnished gold to deep apricot leaves with brick red centers emerge in spring and turn deep olive-purple in winter. White flowers on reddish stems in spring.

Heucherella 'Buttered Rum'

Foamy Bells

7" H. Buttery-caramel, maple-like foliage turns rose-red in fall. White flowers. May-June.

Heucherella 'Dayglow Pink'

Foamy Bells

12-16" H. Forms a low mound of lobed leaves, mint green in color, with dark purple veining. Brilliant pink flowers appear in late spring.

Heucherella 'Hopscotch'

Fun and Games® Foamy Bells

10-12" H x 20-24" W. Lovely bronze-red and lobed foliage. Leaves emerge dark red in spring and mellow to deep green in summer. Creamy, bottlebrush-like flowers.

***Heucherella 'Red Rover'***

Fun and Games® Foamy Bells
6-8”H x 18-20”W. Easily grown perennial for its attractive, coppery-red, heavily lobed foliage. Each finger-like leaf has a burgundy red center. Olive green summer leaf color. Creamy white, bottlebrush-like flowers.

Heucherella 'Heupire030'

Pink Revolution™ Foamy Bells
16: A shocking coral bells- foamflower hybrid with masses of pink blooms in late spring, the foliage is stunning two with purple centers to maple-shaped leaves.

Heucherella 'Solar Eclipse'

Foamy Bells
10”H x 14-16”W Leaves of red brown bordered in lime green combined with a beautiful habit and broadly scalloped leaf lobes.

Heucherella 'Stoplight'

Foamy Bells
12-16” H. Bright-yellow leaves with a star shaped center marking of beet red. Short spikes of white flowers appear in late spring.

Heucherella 'Tapestry'

Foamy Bells
12-16” H. Stunning multicolored and veiled foliage with free flowering stems of warm pink flowers. The dark-centered leaves are colored blue green in spring and summer and change to green with dark centers in fall and winter, leaves have blue iridescence.

Lamium maculatum 'Pink Pewter'

Spotted Dead Nettle
6-9” H. Pink flowers. Good ground cover.

Lamium maculatum 'Purple Dragon'

Spotted Dead Nettle
6-8”H x 12-24”W Has stunning silver leaves with dark green edging and large, magenta-purple flowers.

Lamium maculatum 'White Nancy'

Spotted Dead Nettle
6-9” H. Beautiful white-flowering form of ‘Beacon Silver.’ Brightens dark locations. Good ground cover.

Lamprocapnos spectabilis

Bleeding Heart
The classic heirloom, attracts queen bumblebees.

Lamprocapnos spectabilis 'Alba'

Bleeding Heart
30” H. Like D. spectabilis, has lighter green foliage and pure white flowers. June.

Lamprocapnos spectabilis 'Gold Heart'

Bleeding Heart
24” H. Pink flower. Unusual chartreuse foliage. A spring beauty!

Lamprocapnos spectabilis 'Hordival'

Valentine™ Bleeding Heart
2-3’ H. Heart-shaped flowers with red outer petals and white inner petals. Dark green foliage has hint of red. Toxic.

Ligularia dentata 'Britt Marie Crawford'

Leopard Plant, Ragwort
3-4’ H. Large, leathery, glossy, deep chocolate-maroon leaves with dark purple undersides. Orange-yellow daisy-like flowers on black-purple stems. July-Aug.

Ligularia dentata 'Desdemona'

Leopard Plant, Ragwort
40” H. Yellow-orange daisy-like flower. Bronzy-green foliage on upper side, purple underneath. July-Sept.

Ligularia dentata 'Midnight Lady'

Leopard Plant, Ragwort
36” H. Large, rounded dark, shiny purple-black leaves. Bright golden-orange daisy flowers.

Ligularia dentata 'Othello'

Leopard Plant, Ragwort
36” H. Yellow-orange flowers. Attractive mahogany-red foliage. July-Sept.

Ligularia 'Little Rocket'

Leopard Plant, Ragwort
36-42” H. Narrow spires of yellow flowers with dark stems. Grey-green, deeply toothed foliage creates a compact mound 18-24” tall. Mid- to late summer.

Lobelia cardinalis

Cardinal Flower
3’ H. Green foliage, scarlet spikes. Hardier than ‘Queen Victoria.’ MN Native.

Lobelia siphilitica

Great Blue Lobelia
24-36”H x 12-18”W. Perfect for the late summer garden. This upright perennial native produces long-lasting spikes of bright blue flowers atop a finely-toothed, lance-shaped foliage. The nectar and pollen of the flowers attract hummingbirds and bees.

Lobelia speciosa 'Fan Scharlach' (Fan Scarlet)

Cardinal Flower
24” H. Compact habit, shiny bronze foliage, upright spikes scarlet flowers in midsummer. Attracts butterflies. Deer and rabbit resistant.

Lysimachia nummularia 'Aurea'

Golden Moneywort
2” H. Golden-yellow foliage and bright yellow flower. Beautiful creeping vine. Best in wet to moist soils. Good ground cover. May-Sept.

Mertensia virginica

Virginia Bluebells

2-3' H. A strong stout perennial with a smooth stem. Loose, one-sided blue flower clusters nodding in early spring. Goes dormant after flowering. MN Native.

***Pachysandra terminalis* 'Green Carpet'**

Japanese Spurge

6-8" H. Rich green foliage, more compact and hardier than species. Good ground cover.

***Polemonium reptans* 'Stairway to Heaven'**

Creeping Jacob's Ladder

12-15" H. Blue bells. An attractive plant for the wild garden, may be divided after blooming. Cultivar of MN Native.

***Polemonium reptans* 'Touch of Class'**

Creeping Jacob's Ladder

12-15" H. Pale blue bells. An attractive plant for the wild garden, may be divided after blooming.

Polygonatum biflorum

Smooth Solomon's Seal

2-3' H. Woodland wildflower with arching stem. White flowers followed by black berries. MN Native.

Polygonatum humile

Dwarf Solomon's Seal

6-9" H. This easy-to-grow, dwarf selection has green leaves on arching stems and clusters of dangling, dainty, white, bell flowers in late spring.

***Polygonatum odoratum* var. *pluriflorum* 'Variegatum'**

Variegated Solomon's Seal

2-3' H. Burgundy stems support soft green leaves with creamy-white margins. Fragrant tiny, white bell flowers in late spring and early summer mature to blue-black berries in the fall. Golden-yellow fall foliage.

***Polygonatum odoratum* 'Ruby Slippers'**

Solomon's Seal

21" H. It gets its name, 'Ruby Slippers', from the bright red, upright and slightly arching stems that are red from base to tip. Solid deep green leaves have silvery undersides. The plants are produced in colonies and will spread in the garden.

***Pulmonaria* 'Raspberry Splash'**

Lungwort

12" H. Raspberry-pink flowers. Early spring bloom time. Well-drained soils. Tolerant to Black walnut and deer.

***Pulmonaria* 'Trevi Fountain'**

Lungwort

12" H. Lance-shaped leaves are medium green with silver spots. Cobalt-blue flowers. Early spring.

Sagina subulata

Irish Moss

3" H. Dense mat of small, dark green, narrow leaves. Tiny white flowers. Prefers partial shade, protected location, but will tolerate some sun. May be used as a ground cover.

***Sagina subulata* 'Aurea'**

Scotch Moss

3-6" H. Moss-like carpet of neon-yellow foliage. Tiny white flowers in spring. Good drainage is necessary for survival. May be used as a ground cover. April, May.

Stylophorum diphyllum

Celandine Poppy

20" H. Gray-green, lobed and toothed leaves, large, poppy-like, yellow flowers. Less aggressive than the introduced European species.

***Tiarella* 'Spring Symphony'**

Foam Flower

10" H. Profusion of pink flowers. Deeply cut leaves marked with black blotch in their centers. Compact, clump-forming habit. Mid-to late spring.

***Tricyrtis hirta* 'Gilt Edge'**

Toad-Lily

2-3' H. Flowers are heavily spotted reddish-purple spotting late in the season. Leaves generally remain attractive throughout the growing season with a creamy variegated edge.

***Vinca minor* 'Bowles's Variety'**

Periwinkle

4-6" H. Evergreen groundcover with dark green leaves and intense blue-violet flowers appear just above the foliage. Good ground cover.

FERNS

Athyrium filix-femina

Lady Fern

30" H. Large, vigorous showy fern with lacy-cut lance shaped leaves. For moist, semi-shade.

***Athyrium filix-femina* var. *angustum* 'Lady in Red'**

Lady Fern

30" H. Large, vigorous, showy fern with lacy-cut lance-shaped leaves. Red stems hold their color all season. For moist, semi-shade. Not evergreen.

***Athyrium niponicum* 'Godzilla'**

Japanese Painted Fern

3' H. Forms a massive, arching clump of silvery fronds with green highlights and dark purple stems.

Athyrium niponicum var. pictum

Japanese Painted Fern

12-18" H x 24"W. One of the most colorful ferns for the garden. This fern has silvery-grey fronds which are dusty purple towards the center, set off by the purplish-red veins and stems. Low and mounding growth habit, slowly spreading by rhizomes to form dense colonies,

Dryopteris erythrosora

Autumn Fern

12-24" H. The name comes from the coppery-pink color of the new fronds, which contrast beautifully with the more mature dark green ones.

Dryopteris marginalis

Shield Fern, Wood Fern

18-24" H x 18-24"W The leathery leaves are a beautiful addition to the woodland garden and can form a lovely an easy to maintain groundcover.

Onoclea sensibilis

Sensitive Fern

12-24" H. Coarse fern found in wet soils where it can stand considerable exposure to sun. Grows easily in shade and humus-rich acid soil. MN Native.

Osmunda regalis

Royal Fern

4' H. Majestic fern growing in moist soils usually at edge of permanent water. Fresh green fronds. Adaptable to a variety of soil types and conditions. MN Native.

Polystichum acrostichoides

Christmas Fern

12-24" H x 12-24"W Is named for its evergreen fronds which were used by early New England settlers for Christmas decorations. The firm, deep green leaves make it a great companion for woodland wildflowers.

SUN PERENNIALS

Achillea millefolium 'Balwinwite'

New Vintage™ White Yarrow

12-14" H x 10-12" W White flower clusters over compact, ferny, green foliage. Remove faded flowers to promote reblooming. Inclined to spread. Trim back hard after the first flush of bloom, to maintain a compact habit.

Achillea 'Strawberry Seduction'

Yarrow

18-24" H. Upright, compact habit. Feathery, finely divided, dark green foliage. Aromatic when crushed. Strawberry-red flowers with bright yellow eyes, in umbels. Long blooming. Drought tolerant.

Achillea 'Moonshine'

Yarrow

2' H. Finely dissected, silvery foliage. Light yellow flowers.

Achillea millefolium 'Sassy Summer Taffy'

Yarrow

26-32" H x 22-26"W. Sturdy flower stems that will look great throughout the season of its bloom. Dark salmon flowers are produced on a dense, upright habit. As the flowers age, color lightens to peachy-pink. The wide, flat flower clusters are popular landing pads with pollinators.

Aconitum carmichaelii 'Arendsii'

Monkshood

2-4' H. Deep purple flowers that bloom September-October. Toxic.

Aconitum fischeri

Monkshood

18-24" H. Azure blue flowers blooming in late summer to early fall. Toxic.

Agastache 'Blue Fortune'

Anise Hyssop

30" H. A hybrid anise hyssop with almost everblooming violet blue flowers and anise scent to the foliage. Edible.

Ageratina altissima 'Chocolate'

White Snakeroot

4'H. Chocolate leaves with deep shiny purple stems. Open terminal cluster of tubular, bright white flowers. Sept.-Oct. Thrives in shade with less intense foliage color too. Cultivar of MN Native.

Alcea rosea 'Blacknight'

Spotlight™ Hollyhock

20-29" H. Dark black-purple flowers on tall spires. Full sun. Attracts bees, butterflies and birds. Deer and rabbit resistant. Drought tolerant.

Alcea rosea 'Mars Magic'

Spotlight™ Hollyhock

20-29" H. Bright red single flowers on tall spires. Full sun. Attracts bees, butterflies and birds. Deer and rabbit resistant. Drought tolerant.

Alcea rosea 'Queeny Purple'

Hollyhock

20-29" H. 2004 All America Award Winner. Compact for smaller spaces. Magenta-purple flowers with pompom centers surrounded by a ring of fringed petals. Full sun. Attracts bees, butterflies and birds. Deer and rabbit resistant. Drought tolerant.

Alcea rosea 'Mars Magic'

Spotlight™ Hollyhock

12-18" H. Tall spikes of single flowers in various shades of red over a low mound of foliage. Flowers appear the first season. Cut back to 8" after blooming. Full sun. Attracts bees, butterflies and birds. Deer and rabbit resistant. Drought tolerant.

***Alcea rosea* 'Sunshine'**

Spotlight™ Hollyhock
59-70" H. Tall spikes of single bright yellow flowers held over a low mound of foliage. Cut back to 8" after blooming. Full sun. Attracts butterflies and hummingbirds. Deer and rabbit resistant. Drought tolerant.

Allium senescens* subsp. *glaucum

Ornamental Onion
4-8" H. Blue-grey cowlick leaves, rosy flowers. A choice plant, especially for rock gardens. Aug-Sept.

***Allium* 'Millenium'**

Ornamental Onion
15" H. blooms in midsummer with large globes of rose-pink flowers. Shiny deep-green grassy foliage is very ornamental. PPA 2018 Plant of The Year. Zone 5.

***Allium tanguticum* 'Summer Beauty'**

Ornamental Onion
18-20" H. Long blooming, large flowering ornamental onion with 1 1/2" lavender-purple pom-poms above shiny, dark green, strap-like foliage. Good for rock gardens.

***Allium* 'Windy City'**

Ornamental Onion
15-18" H. a clump-forming perennial that looks great all year long. It has dark green, grass-like foliage with rounded tips that emerge in the spring. By midsummer, green-purple stems grow to 18 inches tall topped by exploding firework-shaped balls of violet purple flowers.

***Amsonia* 'Blue Ice'**

Blue Star
2-3'H x 3'W Clusters of sky-blue stars in late spring. Deep green threadleaf feathery foliage waits until fall turning bright rich yellow.

***Armeria maritima* 'Splendens'**

Sea Thrift
6-12"H x 6-12"W. Compact, evergreen perennial, boasts round clusters of bright, deep pink flowers atop slender stalks rising above foliage. Blooms profusely mid/late spring, additional flowering may occur throughout summer. Densely mounded tuft of grass-like leaves spread slowly.

***Artemisia stelleriana* 'Mori's Strain'**

Dusty Miller
6-12" H x 24-30W. A recent introduction and improvement over Silver Brocade, makes a dense mat of prostrate foliage. Good for rock gardens.

***Artemisia schmidtiana* 'Silver Mound'**

Dusty Miller
6-12" H x 24-30W. Classic long-time favorite, makes a dense mound of silver foliage. Good for rock gardens, good drainage best.

Asclepias incarnata

Swamp Milkweed
3-4' H. Lovely vanilla fragrance coming from large rosy pink flowers possibly hosting several Monarch or Swallowtail butterflies. MN Native.

***Baptisia* 'American Goldfinch'**

False Indigo
3-5'H x 4.5-5'W. Dramatic, gorgeous golden yellow flower spikes rose above its wide habit. Easy to grow and will thrive with little maintenance. Plants are long-lived once established.

***Baptisia* 'Blue Bubbly'**

Decadence® Deluxe False Indigo
4-4.5'H x 3.5-4.0'W. This Baptisia is a lavender-blue flowering variety. Its vase-like habit is densely topped with 16" blue flower spikes for an extended season of bloom. Easy to grow and will thrive with little maintenance. Plants are long-lived once established.

***Baptisia* 'Lemon Meringue'**

Decadence® False Indigo
36"H x 36"W. An Impressively vigorous native cultivar. Long, charcoal grey stems carry the cool lemon flowers, producing an excellent floral display atop the compact, upright mound of blue-green foliage. Easy to grow and will thrive with little maintenance. Plants are long-lived once established.

***Baptisia* 'Pink Lemonade'**

Decadence® Deluxe False Indigo
4'H x 4'W. Soft yellow flowers appear atop the compact clump of deep blue-green foliage in spring. The flowers age to dusty raspberry purple, showing both colors at the same time. Easy to grow and will thrive with little maintenance. Plants are long-lived once established.

***Baptisia* 'Plum Rosy'**

False Indigo
3.5-4'H x 3.5-4.'W. An elegant bicolor Baptisia that bursts with mauve pink flowers. Easy to grow and will thrive with little maintenance. Plants are long-lived once established.

Baptisia australis

Blue Wild Indigo
3-4' H. Spikes of blue pea-like blooms in June, black seed pods useful in dried arrangements. Clover-shaped foliage of blue green. Good cutting flower as well. Light acid soil. Native to Eastern Seaboard and Eastern Midwest.

***Betonica officinalis* 'Hummelo'**

Lamb's Ear, Betony
18-24" H. Dark green, glossy foliage in a basal mound. Rose-lavender flower spikes on short stalks all summer.

***Campanula carpatica* 'Rapido Blue'**

Bellflower

6" Violet-blue flowers bloom 3-4 weeks earlier than other *C. carpatica* cultivars.***Campanula carpatica* 'Rapido White'**

Bellflower

6" White flowers blooming earlier than typical cultivars.

***Campanula punctata* 'Cherry Bells'**

Spotted Bellflower

12-24" H. Large, tubular, bell-like flowers 2" long are cherry red with inside spotting. Deer resistant. Upright habit.

Midsummer bloom time.

Centaurea montana

Basket Flower/Perennial Bachelor's Button

24'H x 24"W. *Centaurea Montana* has large, showy, violet-blue flowers late in spring, with spidery deeply fringed flower petals. Will rebloom in fall if cut back after first blooming period.***Chrysanthemum* '00-100-382'**

Mammoth™ Lavender Daisy Chrysanthemum

24" H 2006 U of MN introduction, cushion type with single lavender flowers with a gold center, frost tolerant and late season pollinator magnet.

***Chrysanthemum* 'MN92-333-2'**

Mammoth™ Red Daisy Chrysanthemum

24"H 2007 U of MN introduction, cushion type with red petals with a gold center, frost tolerant and late season pollinator magnet.

***Chrysanthemum* 'MN98-M91-1'**

Mammoth™ Yellow Quill Daisy Chrysanthemum

24"H 2002 U of MN introduction, cushion type with single yellow flowers with quilled petals, simply a stunning perennial and pollinator magnet. If multiple cultivars of Mammoth Mum are planted you may get some unique seedlings of varying flower colors to enhance future displays!

***Chrysanthemum* 'MN95-105-6'**

Mammoth™ Coral Daisy Chrysanthemum

24" H 2002 U of MN introduction, shrub cushion form with single coral flowers with a gold center, frost tolerant. Pollinator magnet at the end of the season.

***Clematis* 'Evipo078'**

Acropolis™ Clematis

4'H x 2'W. A compact very free flowering clematis. It produces an abundance of bright pink flowers that are 3-4". Blooms early summer through late autumn. Very showy. Group 3.

***Clematis* 'Adam's Courage'**

Clematis

6'H x 2'W. A multi-stemmed clematis vine offering early summer to early fall interest, extremely floriferous and long blooming. The plant sets masses of very full lavender to deep fuschia flowers with overlapping pointed petals and burgundy -tipped anthers.

***Clematis alpina* 'Blue Dancer'**

Clematis

6-10'H x 2'W. One of the first clematis to bloom in the spring, continuing into late spring. Masses of small, bell-shaped, sapphire blue flowers are adorned with creamy-white centers. Its sepals are an extraordinary 2" long making the blooms nod gracefully in the wind. Group 1.

***Clematis* 'Arabella'**

Clematis

3.5'H x 2-3'W. Beautiful, color-changing blooms provide a parade of summer color. Single flowers with slightly upturned sepal edges open to violet-blue, then develop mauve centers and fade to soft blue as they age. A non-vining, bushy, semi-herbaceous clematis. Herbaceous Group

***Clematis* 'Evipo039'**

Regal® Diamantina Clematis

6-8'H x 2-3'W. An exceptional, free-flowering clematis with 4-6" pom-pom like blue/purple double flowers. Diamantina has many flowers on each stem and each flower lasts up to 4 weeks. Repeat flowering throughout summer. Group 2.

***Clematis* 'Evipo026'**

Diana's Delight Clematis

4-6'H x 2'W. Diana's Delight has beautiful, rich blue flowers with light and dark tones and a creamy yellow center. This lovely clematis has a very free flowering habit. Blooms June through early September. Stunning. Group 2.

Clematis x durandii

Clematis

3-10'H x 2-3'W. Rich bell-shaped indigo blue 5-6" flowers with white anthers. Long lasting flowers, blooms summer to fall. Group 3.

***Clematis* 'Guernsey Cream'**

Clematis

15-20' H. Showy 5" cream-colored flowers with yellow anthers on short vines. One of the earliest to bloom and repeat too. Blooms June through October.

Clematis x jackmanii

Clematis

8-12' H. Rich purple flowers. Blooms June-September. The first (1858) of the large-flowered hybrids.

Clematis 'Kilian Donahue'

Clematis

8-12'H x 2-3'W. Early flowers open ruby red at the center of the flower, fading to brilliant fuschia and the orchid color at the edge of each petal. Its dancing white anthers are burgundy tipped. An early bloomer and repeat blooms throughout the summer. Group 2.

Clematis 'Mrs. N. Thompson'

Clematis

4-9' H. Rich purple-blue petals with a vivid scarlet central bar, and dark red anthers and pale pink filaments. Blooms May- June, September.

Clematis 'Nelly Moser'

Clematis

6-10' H. diameter pale bluish-pink flowers with reddish bar. Golden-brown stamens. Profuse bloomer. Beautiful seed heads. Blooms May - June, September. Group 2.

Clematis 'Rain Dance'

Clematis

42"H x 30"W. Incredibly large 2.5-3" outward facing indigo blue flowers with darker midribs and lighter margins. Although this is a non-vining Clematis, the plant will benefit from support, such as staking, an obelisk or from neighboring plants. Blooms Late spring through midsummer. Group 3.

Clematis 'Rōguchi'

Clematis

6-8'H x 3-4'W. 2" bell-shaped flowers are intense deep blue/purple with lighter blue recurved petals. Flowers fade to indigo-blue. Roguchi is a non-vining Clematis that plays well with shrubs, let it weave in and out of perennial plantings, or let it spill over a retaining wall. Flowers are fragrant. Blooms June-September. Group 3.

Clematis 'Evipo098'

Sarah Elizabeth Clematis

4-5'H x 2-3'W. This distinct attractive pink clematis almost seems to glow. The mass of flowers appear from late spring until late autumn. It produces flowers at the base of the plant and on new growth, often displaying a top to bottom show. Full sun to partial shade. Group 3.

Clematis 'Silver Moon'

Clematis

8-9'H x 2'W. Very large 6-7" Silvery mauve flowers, giving a most unusual colored clematis. flowers have creamy-white anthers, and the 6-8 petals overlap making a very full flower. Blooms June through late August. Does well in full to partial shade.

Clematis 'Stand by Me'

Clematis

34-38"H x 24-36"W. A wonderful display of nodding purple flowers trimmed in blue in early summer. Then in late summer find, glistening, thread-like creamy seed heads that rival the beauty of the blossoms. A non-vining herbaceous Clematis that dies back to the ground at the end of the growing season. Benefits from staking, cages or neighboring plants for support. Group 3.

Clematis viticella 'Betty Corning'

Clematis

5-6'H x 2-4'W. This clematis has a profusion of fragrant, nodding, bell-shaped, soft lavender-blue flowers, 2" across, adorned with recurved tips and yellow anthers. Blooming freely from midsummer to fall, this charming clematis will produce dozens of vining stems clothed with bipinnate to pinnate-compound dark green leaves. Group 3.

Clematis 'Warszawska Nike'

Clematis

8-12' H. Rich royal purple flowers with golden stamens. Blooms June-September.

Coreopsis grandiflora 'Early Sunrise'

Tickseed

18" H. Semi-double golden-yellow flowers. June-Sept.

Coreopsis grandiflora 'Dcoreo 16'

Solanna™ Golden Sphere Tickseed

10-18" H. Fluffy golden-yellow, pom flowers. Leathery green foliage. Early summer to late fall.

Coreopsis verticillata 'Moonbeam'

Tickseed

18" H. Soft yellow flowers appear singly on short stalks continuously blooming from early summer right into fall.

Coreopsis verticillata 'Zagreb'

Tickseed

12-18"H x 14-18"W. Blossoms appear on pure green slender foliage and continuously bloom from early summer right into fall.

Coreopsis 'Jethro Tull'

Tickseed

12-18" H. The fluted yellow petals, compact habit, and long bloom time make this Coreopsis a brilliant performer.

Delosperma 'Alan's Apricot'

Ice Plant

2-4"H x 18-24"W Large, showy, 2" blooms and a flower color that's orange-apricot-pink. This is the most hardy and longest blooming of the ice plant selections. Good drainage is essential.

Delosperma 'P001s'

Fire Spinner Ice Plant
2-4" H x 18-24" W. A striking color combination of orange, red and pink flowers are massed in spring and appear periodically throughout summer. Good drainage is essential.

Delosperma 'PJS01S'

GRANITA® Raspberry Ice Plant
2-4" H x 18-24" W. A vigorous and floriferous plant with large, striking, iridescent raspberry flowers that are densely packed. Good drainage is essential.

Delosperma 'Psfave'

Lavender Ice Plant
2-4" H x 18-24" W Lavender blossoms with a pink eye are 2" across and cover the evergreen, succulent foliage all summer long and even into fall in some climates. Good drainage is essential.

Delphinium 'Black Eyed Angels'

New Millennium™ Larkspur
3-5" H x 18-24" W. Produces tall spires of frilly white flowers with black bees. Stems are very strong, holding up well in the landscape. Vigorous growth habit, blooming midsummer.

Delphinium 'Purple Passion'

New Millennium™ Larkspur
4-5" H x 18-24" W. Sports intense, deep-purple blossoms with a purple and white striped bee. Densely packed flower spikes are produced on very strong stems that do not require staking.

Delphinium 'Coadelfa'

Highlander™ Flamenco Larkspur
36" H x 18" W A lovely variety that delivers dusky pink flowers with hints of cream, standing against sturdy self-supporting stems.

Delphinium 'Magic Fountain Dark Blue Dark Bee'

Larkspur
24" H. Dark blue shades with blue-black bees. Toxic.

Delphinium 'Magic Fountain Sky Blue White Bee'

Larkspur
30-36" H. Sky blue flowers with white bees. Toxic.

Delphinium 'Red Lark'

Larkspur
24" H. Stunning coral red flowers on a compact plant, simply shocking color. Toxic.

Dianthus deltoides 'Zing Rose'

Maiden Pinks
6" H. Cerise-scarlet flowers cover low, dense green foliage. Long blooming. Summer. Dwarf habit. Well drained soils. Tolerates shade. Good for rock gardens.

Dianthus 'Feuerhexe' (Firewitch)

Cheddar Pinks
8" H. Dense blue foliage under bright raspberry-red flowers. Clove-like fragrance. Excellent as a border edger or ground cover for sunny slopes. Cut back spent flowers to promote rebloom. Good for rock gardens.

Dianthus 'Frosty Fire'

Pinks
4-6" H. Double cherry-red flowers flecked with white. Blue-grey dwarf foliage. Long flowering period. Good for rock gardens.

Dianthus 'Kahori'

Pinks
6-12" H. Compact mound of grey-green foliage topped with pink flowers in spring continuing sporadically through most of the summer. Full sun. Attracts butterflies. Deer resistant. Good for rock gardens.

Dicentra 'Pink Diamonds'

Fern-leafed Bleeding Heart
12-16" H. x 12-16" W. An Alpine-type Bleeding Heart that explodes with flowers in late spring to early summer and blooms throughout the season. Pink flowers open light pink and show a two-toned effect. This Alpine type is not a shade plant. For best results, plant in full sun in well drained soil. Do not over water.

Dictamnus albus

Gas Plant
2-3' H x 18-30" W Hardy, ornamental, late spring-flowering perennial. Lightly fragrant, white flowers in late spring; dark green foliage emits lemony scent if crushed. Star-shaped seed pods.

Dictamnus albus 'Purpureus'

Gas Plant
2-3' H. Plants form a bushy, upright clump of lemon-scented, glossy green leaves. Spikes of spidery-looking mauve-pink flowers appear in early summer.

Digitalis purpurea 'Candy Mountain'

Foxglove
Rosy-pink flowers face upward on strong stems that withstand wind and rain. Attracts hummingbirds and resists deer! June-July. Toxic. Biennial.

Digitalis x mertonensis

Foxglove
2-3' H. Very large rose to coppery flowers. Big velvety foliage. Divide often. June-July. Toxic. Biennial.

Dodecatheon meadia f. album

Shooting Star
10-14" H x 12" W White flowers with reflexed petals are borne in clusters that rise on slender stems from a basal rosette of lance-shaped leaves. Cultivar of MN Native.

Dodecatheon 'Aphrodite'

Shooting Star

18-24" H. Hybrid selection of a native North American wildflower. Forms a low rosette of rounded leaves, bearing upright stems of bright magenta-pink flowers with a yellow center, with flared-back petals that give each blossom a star-like or rocket ship appearance.

Echinacea 'Sundown'

Big Sky™ Coneflower

2-3' H. Deep burnt-orange petals surrounding a large cinnamon brown button-shaped cone.

Echinacea 'Butter Pecan'

Double Coded™ Coneflower

18-20"H x 16-18"W. Butter Pecan's 4" soft melon flowers are fully double. Praised for their cheerful, prolific production of brightly colored flowers, seated atop dense rosettes of foliage.

Echinacea 'Echor273'

Butterfly™ Orange Skipper Coneflower

16-18" H. A swift grower, named after the Orange Skipper butterfly, the bright tangerine-orange single flowers bloom on compact, sturdy plants.

Echinacea 'Cheyenne Spirit'

Coneflower

18-30" H. Fiery tones of red, orange, and yellow, this drought-tolerant perennial ignites the garden from summer to fall. Cheyenne Spirit is deer-resistant and makes gorgeous summer bouquets.

Echinacea 'Tnechkio'

KISMET® Intense Orange Coneflower

16-18"H x 24"W. An exceptional performer, with amazing amounts of vibrant flowers that just keep coming. Blooms early summer and continues until a hard frost. The compact size is perfect for the front of sunny borders, meadow gardens, or container plantings.

Echinacea 'Tnechky'

KISMET® Yellow Coneflower

16-18"H x 24"W. Golden yellow frayed petal skirts downturn slightly and twirl around green buttons that mature to golden pyramidal cones. Exceptional crown count.

Echinacea 'Orange You Awesome'

Color Coded® Coneflower

18-22"H x 16-20"W. Large tangerine orange flowers have dark cones and produce above dark green leaves. Leave the flowers intact into winter to watch birds come and eat.

Echinacea 'One in a Melon'

Color Coded® Coneflower

24-26"H x 18-20"W. Melon colored flowers and matching melon cones. At 5-5.5" wide these are among the largest flower in the echinacea collection. Petals are held horizontally and overlap for maximum display.

Echinacea 'CBG Cone 2'

Pixie Meadowbrite™ Coneflower

24"H Has light pink rays that do not droop with large flattened orange-bronze central cones. A compact and reliable purple coneflower (Tennessee coneflower hybrid).

Echinacea 'Balsomador'

SOMBRERO® Adobe Orange Coneflower

18-20"H x 18-20"W. Toasty orange flowers with orange-bronzed cones don the warm hues of the western desert at sunset. Newly emerging flowers are vibrant orange. Prolific early flowering on strong stems; they complement yellow, blue and purple flowers. Long blooming!

Echinacea 'Balsomsed'

SOMBRERO® Salsa Red Coneflower

24-26"H x 16-22"W. Bright red blooms for an easy colorful summer border. a must-have for sunny gardens, this drought tolerant perennial was bred for cold hardiness and compact form with prolific flowering over an exceptionally long season.

Echinops ritro

Globe Thistle

2-3' H. Globular metallic-blue flower heads. June-Sept.

Eutrochium purpureum 'Baby Joe'

Joe-pye Weed

3-4' H. An exceptionally dwarf cultivar of a species of our native Joe-Pye weed. It has the familiar large domes of lavender-pink flowers that attract lots of butterflies in late summer and early fall.

Eutrochium dubium 'Little Joe'

Joe-pye Weed

3-4' H. Dwarf cultivar of a species of our native Joe-Pye weed. It has the familiar large domes of lavender-pink flowers that attract lots of butterflies in late summer and early fall.

Eutrochium maculatum 'Gateway'

Joe-pye Weed

4-6' H. A classic and probably the most prolific cultivar. Pinkish-purple flowers, 9 to 15 per head. Purple speckled and mottled stems. Aug-Sept.

Eutrochium maculatum 'Phantom'

Joe-pye Weed

4-6' H. Pinkish-purple flowers, 9 to 15 per head. Purple speckled and mottled stems. Aug-Sept.

Euphorbia epithymoides 'Bonfire'

Cushion Spurge

12-18" H. A perennial growing into a dense clump. Spreads slowly. Purple, red, and orange-toned foliage accented with chartreuse. Color lasts all season. Yellow bracts in early spring.

Filipendula rubra 'Venusta'

Queen-of-the-prairie

48" H. Wide heads of pink flowers. Fragrant. June-Aug.

Gaillardia 'Arizona Red Shades'

Gaillardia

Compact, nearly everblooming gaillardia in the classic colors (red with yellow edge). Self-sows.

Gaillardia 'Arizona Sun'

Gaillardia

Compact, nearly everblooming gaillardia with golden flowers, self-sows.

Gentiana septemfida

Summer Gentian

4-6" H x 12-18" W Forms a low, trailing mound of deep green, with cobalt-blue trumpet flowers appearing among the leaves in mid to late summer.

Geranium pratense 'Midnight Reiter'

Victor Reiter Cranesbill

6-12" H. This cultivar has a short, mounded habit and dark leaves. Bright lilac-blue blossoms appear in spring and pinching back after flowering encourages more blooms in fall and helps maintain its neat habit. Good for rock gardens.

Geranium sanguineum

Bloody Cranesbill

12" H. Reddish-purple to pale pink flowers. Dense mat of deeply divided leaves. June-Sept.

Geranium x cantabrigiense 'Biokovo'

Cranesbill

12" H. White petals with tinge of pink. Lovely succession of bloom. Valuable for border or ground cover. June-July. 2015 Perennial of the Year.

Geranium 'Brookside'

Cranesbill

12-18" H. Large, cup-shaped, purple-blue flowers have dark purple veins and white centers. Compact habit and long summer bloom period.

Geranium x johnsonii 'Johnson's Blue'

Cranesbill

18" H. Excellent long flowering hybrid with very large brilliant-blue flowers. Easy to grow. Heat tolerant. May-Aug.

Geranium 'Orion'

Cranesbill

18" H. A very showy flowering hybrid with very large brilliant-blue flowers. Easy to grow. Heat tolerant. May-Aug.

Geranium 'Gerwat'

Rozanne Cranesbill

18" H. Perennial Plant of the year in 2008 and a star performer as a continually flowering, blue-flowered perennial (great for pollinators too!), It sprawls along the ground so makes a great filler in the perennial border.

Geum 'Borisii'

Avens

12" H. Brilliant orange 1/2" flowers carried on leafy stems. Likes well-drained soil, sun. Good ground cover. Early summer.

Geum triflorum

Prairie Smoke

8-15" H. Prairie Smoke is one of the first prairie flowers to bloom in the spring, 3 flowers on long stalks, generally red but may be a reddish shade of pink, purple or brown. Fruit is a dry seed with a 2-inch long feathery plume. The plumes are reminiscent of smoke blowing in the wind. Good for rock gardens. MN Native.

Geum 'Blazing Sunset'

Avens

12" H. Brilliant sunset orange 1/2" flowers carried on leafy stems. Likes well-drained soil, sun. Early summer.

Geum 'Double Bloody Mary'

Avens

14-16" H x 12-18" W. Forms a low clump of coarse green leaves, with branching stems held above bearing, saucer shaped dark red blooms throughout the summer. They look a bit like old fashioned roses.

Gillenia trifoliata

Bowman's Root, Indian Physic

2-3' H. Upright, clump-forming, somewhat bushy perennial. Features masses of slender, 5 petaled, star-like, 1" white flowers on red stems in late spring to early summer.

Helenium autumnale 'Salsa'

Mariachi™ Sneezeweed

18-20" H. Bright red flowers surrounding a golden/chocolate center. Full sun. Attracts butterflies and hummingbirds. Deer resistant.

Heliopsis helianthoides var. scabra 'Sommersonne'

Oxeye, False Sunflower

30-48" H. Soft-yellow, daisy-like flowers. Summer through fall.

Hemerocallis 'Apricot Sparkles'

Daylily

18" H. Apricot flowers with a light dusting. Blooms in early June and continues into fall with a succession of 2 stems, each bearing 9–10 buds. Early/Mid-season.

Hemerocallis 'Bela Lugosi'

Daylily

33-36" H x 18-24" W. Widely regarded as one of the best purple daylilies on the market. 6" saturated true purple flowers with a lime-green throat. Very sunfast for such a dark color. A strong grower, well-branched and heavily budded.

Hemerocallis ‘Garden Show’

Daylily

24-28”H x 18-24”W. Putting on a terrific show in the garden, this daylily produces loads of large 6” shimmering diamond dusted, lavender-mauve flowers with a prominent citron yellow throat and matching purple stamens. Ruffled, recurved tepals open wide and flat revealing the triangular flower form.

Hemerocallis ‘Passion for Red’

Daylily

27”H x 18-24”W. Produces very sunfast, extremely vibrant red flowers with a contrasting yellow eye/throat zone that is visible on all 6 tepals. Very large 6 3/4”, fragrant blossoms put on a terrific show in early midseason with some rebloom later in the summer.

Hemerocallis ‘Primal Scream’

Daylily

34”H x 18-24”W. Produces a profusion of vibrant tangerine blossoms with slightly ruffled, recurved petals and soft green throats. Wow! Each flower, up to 7.5 in. Blooming in mid-late summer.

Hemerocallis ‘Purple De Oro’

Daylily

14-20” One of the longest blooming daylilies with show-stopping magenta-purple blooms with chartreuse yellow throats.

Hemerocallis ‘Rosy Returns’

Daylily

14” The first hardy, reblooming pink daylily! Flowers are 4” across, fragrant, rose-pink blend with a deep rose eyezone and yellow throat.

Hemerocallis ‘Stella de Oro’

Daylily

11” H. Starts blooming in June and continues throughout the summer if seed pods are removed and if grown in rich, fertile soil. Golden-yellow flowers. Early to Late Season.

Hemerocallis ‘Sunday Gloves’

Daylily

25-27” H. Near white daylilies. Fragrant, 5½” flowers have pale yellow eyes and slightly green throats. Early Mid-season.

Hibiscus moscheutos ‘Disco Belle Pink’

Hardy Hibiscus

24-30” H. Flowers feature petals which are pink on the edges fading to white with a deep pinkish-red eye surrounding a prominent creamy white to pale yellow central staminal column. July to September bloom.

Hibiscus moscheutos ‘Disco Belle Rosy Red’

Hardy Hibiscus

24-30” H. Flowers feature rosy red petals surrounding a prominent and showy creamy white to pale yellow central staminal column. Blooms July to September.

Hibiscus moscheutos ‘Disco Belle White’

Hardy Hibiscus

24-30” H. Flowers feature white petals with a maroon eye surrounding a prominent and showy white to pale yellow central staminal column. Blooms July to September.

Hibiscus moscheutos ‘Pink Clouds’

Hardy Hibiscus

4-5’ H. Large, deep-pink flowers. Blooms over a long period through the heat of summer; mature leaves the size, color and shape of Norway maple leaves. Reliable and showy!

Hylotelephium cauticola ‘Lidakense’

Pink Stonecrop

12” H. Rounded, blue-green leaves, flushed with purple. Glistening pink star flowers appear in late summer, clustered at the ends of each stem. Good for rock gardens.

Hylotelephium sieboldii ‘Misebaya-nakafu’

Stonecrop

4-6” H. Pink flowers. Grey foliage with cream stripe in mid-leaf. Choice variety. Good for rock gardens.

Hylotelephium ‘Autumn Fire’

Herbstfreude Stonecrop

12-24”H x 12-24”W Rich rosy-pink flowers age to coppery red atop the sturdy stems for stunning late season color. An improvement over the popular ‘Autumn Joy’.

Hylotelephium ‘Class Act’

Stonecrop

16” H. Forms a strong, substantial mound of green succulent foliage topped with large, deep carmine-pink flower clusters that age to russet.

Hylotelephium ‘Dazzleberry’

SunSparkler® Stonecrop

6-8”H x 18”W Blooming earlier than most, with brilliant raspberry colored flower clusters that are up to nine-inches in diameter! Smoky blue-grey foliage from spring through fall.

Hylotelephium ‘Firecracker’

SunSparkler® Stonecrop

6-8”H x 16-18”W Brilliant burgundy-red sedum clusters all season long with soft pink flowers in late summer.

Hylotelephium ‘Wildfire’

SunSparkler® Stonecrop

6”H x 15-18”W This tough, trouble-free Sedum will turn lots of heads from spring through fall with its ruby-red foliage edged in pink.

Iris ‘Immortality’

Tall Bearded Iris

— 30” H. Pure white flower with light lemon-yellow beards. Rebloomer.

Iris pallida 'Albo Variegata'

Variegated Sweet Iris

3' H. Bearded flowers lavender-blue to white. Fragrant.

Silvery, variegated foliage. May-June.

Iris sibirica 'Caesar's Brother'

Siberian Iris

36" Spiky foliage is a great vertical element in the garden, but the deep purple flowers with yellow accented falls steal the show in early summer.

Iris sibirica 'Sunfisher'

Siberian Iris

28"H x 18-24"W. Truly eye-catching, 'Sunfisher' is a clump-forming perennial with deep yellow flowers adorned with pale yellow standards. Blooming late spring to early summer, the blossoms rise atop sturdy flower stalks well above the foliage.

Iris sibirica 'Swans In Flight'

Siberian Iris

33"H x 18-24"W. Very elegant, this clump forming perennial displays incredibly large 5" ivory white flowers with lemon yellow signals. Blooming in late spring to early summer, the blossoms rise atop sturdy flower stalks well above the foliage.

Iris 'Batik'

Border Bearded Iris

24"H x 24"W. Batik German iris is all about the mesmerizing color pattern on the flower petals. The royal purple flowers are streaked with irregular blotches of white. Its flowers are produced over a period of about one month are also fragrant.

Iris 'Mariposa Autumn'

Tall Bearded Iris

32" Ruffled rosy violet plicata (white flowers with colored edges) with vigor, floriferousness and strong rebloom!

Iris 'Savannah Sunset'

Tall Bearded Iris

38" Vibrant "cadmium" orange flowers with darker tangerine orange beards bloom for a long time.

Iris 'Sharp Dressed Man'

Tall Bearded Iris

36" Smooth black-violet falls and extremely attractive purple standards spells infatuation to the iris lover. Sweetly fragrant!

Iris 'Shiryukyo' (Purple Dragon's Valley)

Pseudata Iris

45-54"H x 48"W. This midseason to late season bloomer produces reddish purple standards with a deep purple marking that outlines the bright yellow signal above dark green foliage.

Iris 'Yarai' (Night Thunder)

Pseudata Iris

26-30"H x 44-48"W. One of the first pseudatas to bloom! This tall plant will bring height to your garden with an unique peach blend flowers that have deep purple veining. The standards have more deep purple coloring. Prominent yellow signal.

Iris versicolor

Blue Flag Iris

2-3"H x 2"W. A hardy perennial that forms nice patches of distinctive narrow pointed leaves. In early summer, lovely blue flowers sit atop the foliage. Excellent for naturalizing around ponds, lakeshores, or any low wet areas. Looks great when potted and sunk into the water garden.

Lavandula x intermedia 'Niko'

Phenomenal™ Lavender

30-32"H x 24-32"W. A French hybrid lavender notable for its cold hardiness and tolerance to heat and high humidity. The plants grow into a beautiful mounded shape, with purple flowers on tall stems in midsummer.

Lespedeza thunbergii 'Pink Fountain'

Brass Buttons

4-6 feet H. A large perennial with fountains of pink, pea-like flowers in late summer into fall.

Leucanthemum x superbum 'Alaska'

Shasta Daisy

2' H. Large, single white flower. June-July.

Leucanthemum x superbum 'Becky'

Shasta Daisy

3' H. Long lasting, large 2 1/2-3" dia. single white flower. Mid-late summer.

Leucanthemum x superbum 'Snowcap'

Shasta Daisy

12-24"H x 10-12"W. A herbaceous perennial valued for its abundant floral display and compact size. It produces a sea of large, pure white daisy flowers with golden yellow centers, 2-3" across, atop a lush mound of medium to dark green foliage.

Lewisia 'Little Peach'

Bitterroot

4-6"H x 6-8"W. Forms low tough evergreen leaves, bearing large star-shaped apricot-peach flowers, kissed with soft yellow. Inclined to repeat flower in the autumn.

Lewisia 'Little Plum'

Bitterroot

4-6"H x 6-8"W Forms low tough evergreen leaves, bearing large star-shaped cotton-candy pink flowers touched with salmon. Inclined to repeat flower in the autumn.

***Liatriis spicata* ‘Floristan Violett’**

Blazing Star

3-4'H x 16-20"W. Prized for its fluffy wands of bright violet-purple flowers, a perennial of great ornamental value. Flowering succession from the top to bottom over 4 weeks and more, the tufted flower heads contrast nicely with the finely textured, grassy foliage. Attractive to bees, butterflies and hummingbirds.

***Liatriis spicata* ‘Floristan Weiss’**

Blazing Star

3-4'H x 16-20"W. Pristine white spires glow against a deck or along pathways. Feathery tufted flower heads are arranged in long dense spikes and flower in succession from top to bottom. Butterflies and bees will be delighted you chose this enchanting variety.

Liatriis pycnostachya

Prairie Blazing Star

Prairie Blazing Star is an iconic prairie flower with a spectacular spike of tightly bunched lavender flowers. The lavender tufted flowers begin blooming at the top and work their way down the single stem. *Liatriis pycnostachya* grows well in both moist soils and in clay. Good plant growth requires both sun and adequate moisture.

***Liatriis spicata* ‘Alba’**

Blazing Star

24-36" H. Spikes of densely packed, pure white flowers in July and August. ‘Floristan White’ provides a cool contrast to hot-headed summer blooms.

***Liatriis spicata* ‘Kobold’**

Spike Gayfeather, Blazing Star

18" H. Dark-purple flower. Compact habit. Sept.

Linum lewisii

Prairie Flax, Blue Flax

2-3'H x 12"W Flowers are pale blue, with 5 petals about 1-1 1/2 inches across, veined in darker blue. Each stem produces several flowers, blooming from the bottom upward. MN Native.

***Lupinus perennis* ‘Gallery Blue’**

Lupine

18-24"H x 18-24"W. Indigo color blooms appear in early summer. Pollinators are drawn to the nectar-rich spires of densely-packed pea-shaped blossoms, but deer and rabbits leave them alone.

***Lupinus perennis* ‘Gallery Red’**

Lupine

18-24"H x 18-24"W. Crimson red spires covered in tightly-packed, pea-shaped blooms. Ignored by deer and rabbits, but adored by butterflies, bumble bees and hummingbirds. Blooms in the earlier half of the season.

Lupinus x regalis

Russell Group Lupine

12-36"H x 12-24"W. Creates a dramatic, colorful statement with tall flower spikes that bloom in a variety of shades. Resistant to deer, the colorful blooms call to be cut and brought inside for summer arrangements.

***Lupinus* ‘Tutti Frutti’**

Lupine

31-40"H x 12-24"W. Tall, thick flower spikes come in a broad range of solid colors and bicolors.

***Monarda didyma* ‘ACmum’**

Grand Mum™ Bee Balm

15-18" H. Rounded, compact habit. Mauve-pink flowers and aromatic dark green foliage. Highly resistant to mildew.

***Monarda didyma* ‘Coral Reef’**

Bee Balm

30-36' H. Neon coral-pink flowers.

***Monarda* ‘Electric Neon Coral’**

Bee Balm

20-22"H x 18-20"W. Large 3" light coral pink flowers are produced above very dark green foliage. Excellent resistance to common foliar diseases such as powdery mildew.

***Monarda* ‘Electric Neon Pink’**

Bee Balm

20-22"H x 18-20"W. It's electric! Intense, dark neon pink flowers are produced above an upright mound of glossy, dark green foliage. Large 3" flowers glow! Attracts butterflies, hummingbirds and is bee friendly.

***Monarda* ‘Leading Lady Pink’**

Bee Balm

10-14"H x 22-24"W. Tuck this early blooming bee balm into the front of the flower border to create a colorful swath of bright pink flowers. Butterflies and hummingbirds will adore it!

***Monarda* ‘Leading Lady Razzberry’**

Bee Balm

10-14"H x 22-24"W. Tuck this early blooming bee balm into the front of the flower border to create a colorful swath of bright raspberry-purple flowers. Butterflies and hummingbirds will adore it!

***Monarda* ‘Arcade’**

Grand Parade™ Bee Balm

16-18" H. Large, shaggy lavender-purple flowers in mid to late summer. Foliage is delightfully fragrant.

***Monarda* ‘Raspberry Wine’**

Bee Balm

3-4' H. Clear wine-red flowers. Disease resistant. Long flowering.

Monarda 'Pink Chenille'

Upscale™ Bee Balm
20-22”H x 18-22”W. ‘Pink Chenille’ has large, 3 1/2” fluorescent pink flowers. Excellent for landscape plantings and filling space in the middle of the border. Well branched stems support a second flush of flowers extending bloom season. Good mildew resistance.

Monarda 'Red Velvet'

Upscale™ Bee Balm
2’8”H x 3’W. Large cherry red flowers. The tallest variety in the collection. Newly emerging foliage has a bronze cast. Well-branched stems support a second flush of flowers that extends the length of bloom.

Nepeta racemosa 'Little Titch'

Dwarf Catmint
8-10” H. Compact, very long blooming Catmint with deep blue blooms. Aromatic, textured foliage is silvery blue green with deep veins. Good for rock gardens.

Nepeta x faassenii 'Novanepjun'

Junior Walker™ Dwarf Catmint
12-18”H x 24-36”W Blue-green foliage contrasts nicely with lavender-blue flowers from mid-May through September.

Nepeta x faassenii 'Kit Cat'

Dwarf Catmint
8-12” H. Grey-green leaves that are highly aromatic when crushed or bruised. Two-lipped blue flowers. Good for rock gardens.

Oenothera macrocarpa

Missouri Evening Primrose
12” Lower Great Plains native with huge lemon yellow flowers and large papery seeds in fall. Grows in the hottest, driest spot as well as in good garden soil.

Origanum 'Amethyst Falls'

Ornamental Oregano
16” H. Showy and heavy flowering with pendent, amethyst flowers.

Papaver 'Beauty of Livermere'

Oriental Poppy
24”-30” H. Vibrant red flower with black centers.

Papaver nudicaule

Wonderland Poppy
12-18”H x 12-24”W. A lovely dwarf variety that showcases a mix of yellow, white, red, melon, and crimson blooms on short stems May through July.

Papaver 'Brilliant Red'

Oriental Poppy
36”H x 18”W. huge, bright scarlet-orange flowers features black blotches at the base of each petal. Plant blooms profusely in May and June.

Papaver 'Pizzicato'

Oriental Poppy
24-30”H x 18-24”W. Colorful mix of red, scarlet, orange, salmon, mauve, pink, and white blooms with their signature black dotted center. The dwarf habit and hearty stems allow the blooms to withstand extreme weather conditions and remain upright.

Papaver 'Prince of Orange'

Oriental Poppy
24”-30” H. Classic orange flower with black centers.

Papaver 'Royal Wedding'

Oriental Poppy
32” H. Pure white flower with black centers.

Papaver 'Prinzessin Victoria Louise'

Oriental Poppy
24”-30” H. Pink flower with black centers.

Penstemon 'Tpendb'

DAKOTA™ Burgundy Beard Tongue
24” H. Produces spires of tubular flowers that attract hummingbirds. Lavender-violet bells are suspended above glossy, purple-black foliage.

Penstemon grandiflorus

Beard Tongue
Penstemon grandiflorus, called large beard-tongue, is a prairie species that typically grows to 2-4’ tall. It is noted for its large, tubular, blue-lavender flowers and its hairless, broad-ovate leaves. Flowers (to 2” long) bloom in upright, open racemes in late spring.

Penstemon digitalis 'Husker Red'

Beard Tongue
28-32” H. Burgundy colored foliage and tall spikes of pure white tubular flowers.

Phlox paniculata 'Blue Paradise'

Garden Phlox
40”H x 18-20”W Flowers open purple-blue with a small white center and deepen with age. ‘Blue Paradise’ has very fragrant flowers with lilac tones.

Phlox paniculata 'David'

Garden Phlox
36-40” H. This tall selection has clear white heads, over a clump of dark green foliage. Sweetly fragrant as well.

Phlox paniculata 'Uspek' (Laura)

Garden Phlox
36” H. Dense, fragrant flowers of are deep lavender purple with a white eye.

Phlox paniculata 'Düsterlobe' (Nicky)

Garden Phlox
30-36” H. Fragrant, magenta-purple flowers, which are the darkest of all tall garden phlox.

***Phlox paniculata* 'Bartwelve'**

Pink Flame™ Garden Phlox

12-18" H. Compact plant with a large head of dark pink flowers and an even darker eye.

***Phlox paniculata* 'Barphlare'**

Red Flame® Garden Phlox

12-18" H. Bold, fragrant, conical red star-shaped flowers from early summer to early fall.

***Phlox paniculata* 'Bartwenty-nine'**

White Flame™ Garden Phlox

12-18" H. Large clusters of fragrant flowers having clear white petals, starting in midsummer.

***Phlox subulata* 'Emerald Blue'**

Creeping Phlox

4-6" H. Fast-spreading, low-growing. Creates a carpet of pale lavender, bluish flowers in the spring. Good for rock gardens.

***Phlox subulata* 'Emerald Pink'**

Creeping Phlox

4-6" H. Fast-spreading, low-growing. Creates a carpet of pink flowers in the spring. Good for rock gardens.

***Phlox subulata* 'Scarlet Flame'**

Creeping Phlox

4-6" H. Creates a carpet of vibrant reddish pink flowers in spring.

***Physostegia virginiana* 'Crystal Peak White'**

Obedient Plant

16" H. This compact cultivar produces long-lasting, abundant snow-white blooms that sparkle against the deep green, toothed foliage. A polite spreader.

***Platycodon grandiflorus* 'Astra Double Pink'**

Dwarf Balloon Flower

6-12" H. Star-shaped blooms that measure 2–3 inches in diameter. Petals are long lasting and plants flower continuously.

***Potentilla thurberi* 'Monarch's Velvet'**

Cinquefoil

12-30"H x 12-24"W Raspberry-red flowers with heart-shaped petals surrounding a velvet crimson center. Mounds of strawberry-like foliage.

Pulsatilla rubra

Pasqueflower

12" H. Rich red form of the pasqueflower. Mound of finely dissected foliage with flower stems bearing large red flowers. Good for rock gardens.

Ratibida columnifera

Prairie Coneflower

15-24" H. Mexican Hat is the mahogany-red colored form of prairie coneflower that blooms from midsummer into fall. A good naturalizing wildflower. MN Native.

***Rudbeckia fulgida* 'American Gold Rush'**

Black-eyed Susan

24" H. Golden-yellow flowers with dark cones produced in abundance. Disease resistant. Late summer-fall.

***Rudbeckia fulgida* 'Blovi'**

Viette's Little Suzy Black-eyed Susan

12-15" H. Golden-yellow flowers with dark cones. Disease resistant. Late summer-fall.

***Rudbeckia triloba* 'Prairie Glow'**

Brown-eyed Susan

36-48"H x 18-24"W Spicy burnt orange red 5" blooms tipped in glowing yellow surround a chocolate disk. Blooms sway on heavily branched burgundy stems. Cultivar of MN Native

***Salvia nemorosa* 'Bumbleberry'**

Garden Sage

10-12"H x 12-14"W. 'Bumbleberry' produces dark fuchsia pink flowers on dark wine purple calyxes atop a petite habit of attractive deep green foliage.

***Salvia x sylvestris* 'Balsalarv'**

Blue Marvel Garden Sage

10-12"H x 12"W Deep indigo flowers stand up to summer heat and low-water conditions once established. Long blooming.

***Salvia nemorosa* 'Caradonna'**

Garden Sage

18-24" H. Spires of intense violet-blue to deep purple flowers. Deep purple stems. Deadhead for longer blooming. June-July.

***Salvia x sylvestris* 'Rose Marvel'**

Garden Sage

10-12"H x 12"W Deep orchid-pink flowers stand up to summer heat and low-water conditions once established. Long blooming.

***Salvia x sylvestris* 'Balsalskarv'**

Sky Blue Marvel Garden Sage

10-12"H x 12"W. Bright violet-blue flowers stand up to summer heat and low-water conditions once established. Long blooming.

***Salvia* 'Moulin Rouge'**

FASHIONISTA® Garden Sage

24-26"H x 28-30"W. 'Moulin Rouge' has incredibly dark, deep rose buds that burst open to huge, rosy pink flowers. A bountiful mass of flower spires from late spring into early summer.

Salvia yangii

Russian Sage

36-48" H. Russian Sage delivers tall, airy spires of lavender-blue color on highly-textured silver-gray foliage to the landscape.

Salvia 'Little Spire'

Russian Sage

25" H. Airy spires of gray-green leaves with small lavender-blue flowers. Shorter than the species. Shrub-like, gives off sage odor when brushed. Well-drained, sunny location. Cut to 4" in spring, July-Sept.

Sanguisorba tenuifolia

Burnet

A tall graceful beauty for the August-September garden. Raspberry wine-colored bottle brush flowers on 4-6' stems dance in the early morning light and are an attractive compliment to ornamental grasses.

Sedum spurium 'Fuldaglut'

Stonecrop

6-8"H x 12-18"W Semi-evergreen, bronze fleshy leaves turning burgundy in the fall. Spreading habit producing abundant runners that root wherever they touch soil. Blooms pink flowers in late summer.

Sempervivum 'Gold Nugget'

Chick Charms® Hens-and-chicks

2"H x 12"W. 'Gold Nugget' is a Golden color with red picotee edges during the cooler months, and bright green in summer months. Great addition for rock gardens, wall plantings, borders, ground covers, and patio planters. Grow in bright sun for best color.

Sempervivum 'Lotus Blossom'

Chick Charms® Hens-and-chicks

2-3"H x 12"W. Attractive evergreen rosettes of fleshy, sweet red leaves with pure white peppermint stripes. In summer, a thick flowering stalk arises from the center of the hen rosette and bears showy starry, pink flowers. Full sun to light shade. Excellent drainage required.

Sempervivum 'Emerald Explosion'

Chick Charms® Giant Hens-and-chicks

3-5"H x 9-12"W. A large lime-green rosette with crimson blushing inching its way up the leaves. These leaves spread far, giving appropriateness to its name.

Sempervivum 'Gold Mine'

Chick Charms® Giant Hens-and-chicks

3-5"H x 9-12"W. A rosette of berry stained gold. The large size and dramatic colors of this plant will draw the eye wherever you want it in your garden.

Sempervivum 'Maroon Mountain'

Chick Charms® Giant Hens-and-chicks

3"H x 10"W. the dark maroon rosettes of 'Maroon Mountain' bring tropical drama to the cold climate rock garden.

Sempervivum 'Pink Sapphire'

Chick Charms® Giant Hens-and-chicks

3"H x 10"W. 'Pink Sapphire' has the classic look of a rosy-purple Hen and Chick, but super sized! Each dark leaf is tipped with a fine green edge, forming huge rosettes up to 10" across.

Sempervivum

Chick Charms® Candy Carnival Hens-and-chicks

An assortment of sempervivum varieties to choose from.

Sempervivum

Chick Charms® Citrus Shock Hens-and-chicks

An assortment of sempervivum varieties to choose from.

Sempervivum

Chick Charms® Parfait Perfection Hens-and-chicks

An assortment of sempervivum varieties to choose from.

Silene chalconica

Maltese Cross

36"H x 12"W Dazzling scarlet flowers form dense clusters on taller stems in summer. Heirloom flower.

Solidago 'Little Lemon'

Dwarf Goldenrod

12-18" H. Compact with bright, light yellow flowers beginning in late summer and lasting well into fall.

Stachys byzantina 'Big Ears'

Lamb's Ear, Betony

8-10" H. Huge grey-green, fuzzy leaves. Clump forming. Good ground cover or front of the border subject. Tolerates hot weather.

Symphotrichum novi-belgii 'Alert'

New York Aster

12"H x 14-18"W. 'Alert' Aster stays short, and will fill it's space with a neat, low green tuft that bursts into bloom in late summer with deep purple to crimson, starry flowers.

Symphotrichum novae-angliae 'Andenken an Alma Pötschke'

New England Aster

Studded with hundreds of charming rosy pink daisies with bright yellow centers, this robust bloomer offers late summer color in the garden. Forms semi-woody clumps, is durable, and is long lasting. Perfect for borders, shrub beds or colorful containers. An herbaceous perennial.

Symphotrichum novi-belgii 'Purple Dome'

New York Aster

See: *Symphotrichum novae-angliae* 'Purple Dome.'

Symphotrichum novae-angliae 'Grape Crush'

New England Aster

26-30"H x 40-42"W. Very rich purple flowers are produced above dark green foliage in early to mid fall. A perfect finale to the growing season.

***Symphyotrichum novae-angliae* ‘Pink Crush’**

New England Aster

20-24”H x 34-38”W. Rose pink flowers produced above dark green foliage in early to mid fall. a perfect finale to the growing season.

***Symphyotrichum* ‘Wood’s Blue’**

Aster

1-2’H x 1-2’W A profusion of showy blue daisy-like blooms with yellow eyes appears in fall. Dark green foliage forms compact mounds.

***Symphyotrichum* ‘Wood’s Pink’**

Aster

1-2’H x 1-2’W A profusion of pink daisy-like blooms with yellow eyes appears in fall. Dark green foliage forms compact mounds.

***Symphyotrichum* ‘Wood’s Purple’**

Aster

1-2’H x 1-2’W A profusion of purplish daisy-like blooms with yellow eyes appears in fall. Dark green foliage forms compact mounds.

Thymus serpyllum

Thyme

3-3”H x 3-12”W Low growing and tough, this Thyme is perfect planted in a rock path or a lawn alternative. Lavender-pink flowers emerge in early summer and attract pollinators to the garden.

***Thymus* ‘Magic Carpet’**

Thyme

2” H. Creeping habit. Very small, hairy leaves with sweet, lemon scent. Carmine-pink flowers. May-July. Tolerates heat and drought conditions. Good for rock gardens.

***Thymus* ‘Doone Valley’**

Creeping Thyme

2-4” H. Tiny deep pink flowers. Spicy lemony fragrance. Good ground cover. Good for rock gardens.

***Tradescantia* ‘Concord Grape’**

Andersoniana Spiderwort

18-24” H. Rich purple flowers; frosty-blue foliage. June-October.

***Tradescantia* ‘Sweet Kate’**

Andersoniana Spiderwort

18” H. Deep blue flowers. Vibrant golden-yellow grass-like foliage. Ideal for borders and woodland settings evenly moist.

***Trollius chinensis* ‘Golden Queen’**

Globe Flower

2’ H. Deep orange-yellow, cup-shaped flowers. Deeply lobed and toothed leaves. May-Aug.

***Veronica prostrata* ‘Aztec Gold’**

Creeping Speedwell

4-6” H. Mounding clump of rich golden-yellow leaves, contrasting beautifully with the bright-blue flowers in late spring. Good for rock gardens.

***Veronica spicata* ‘Pink Potion’**

Magic Show® Speedwell

14-16”H x 18-22”W. Baby pink flower wands are borne prolifically atop a rounded, low clump of deep green foliage. Long blooming plant, attracts butterflies and bees.

***Veronica spicata* ‘Rotfuchs’ (Red Fox)**

Speedwell

12-15”H x 12-15”W. Quite compact, upright, clump-forming perennial producing dense, slender spikes of star-shaped, vibrant fuchsia-pink flowers from mid to late summer. Attractive to butterflies, the flowers open from the base upward and create an eye-catching floral display.

***Veronica spicata* ‘Glory’**

Royal Candles Speedwell

15-18” H. Violet-blue flowers on branched spikes.

***Veronica* ‘Sunny Border Blue’**

Speedwell

15-18” H. Rich-blue flowers on branched spikes.

***Veronicastrum virginicum* ‘Albo-Rosea’**

Culver’s Root

3-5’ H. Strongly upright, slender in form. Leaves are long and narrow, the upper ones whorled in groups of 3 to 9. The small, pink-white flowers that appear in elongated clusters to 9” long in summer are beautiful and fragrant.

Yucca filamentosa

Yucca

2-3’H x 2-3’W. Mature plants about four or five years old will send up flower stalks from the center of the foliage in late spring or summer, which can double the height of this yucca plant, sometimes growing to over 8 feet tall. The blooms look like nodding, white bells. Full sun.

ANNUALS

***Aeonium percarneum* ‘Kiwi’**

Aeonium

Rosettes of fleshy, spoon-shaped leaves that are brilliantly colored. The leaves in the center are pale yellow and progressively the leaves get greener to the outside of the rosette. The edges of the leaves are red. Yellow flowers bloom in the summer. Succulent. Part Sun.

Ageratum houstonianum

Ageratum/Floss Flower

Easily grown in average, moist, well-drained soils in full sun, provides continuous bloom for beds, gardens or containers from late spring to frost. Slightly rounded lavender-blue clusters atop compact, mounded plants.

Alternanthera dentata 'Little Ruby'

Joseph's Coat

12"H x 18"W Striking foliage in shades of burgundy and purple with ruby undersides. This heat lover grabs the spotlight in your garden areas all summer long where other plants wither away. The colors are best in sunny locations. It is heat, humidity tolerant, and has low moisture needs.

Angelonia angustifolia 'Balarcle'

Archangel™ Dark Purple Angelonia, Summer Snapdragon

14"H x 10-12"W. An amazing show of deep, dark purple snapdragon-like flowers all summer; has an upright and dense growth habit ; perfect for cottage gardens, borders, and containers; water frequently and thoroughly in hot weather.

Angelonia angustifolia 'Balarcwitim'

Archangel™ White Angelonia, Summer Snapdragon

12-14"H x 10-12"W. Huge white flowers are vibrant against glossy dark green leaves. Thrives in extreme heat, humidity and drought. Excellent landscape performance.

Antirrhinum majus

Liberty Classic Mix, Snapdragons

18-20"H x 12-14"W. Liberty Classic snapdragons provide tall luscious spikes in an attractive assortment of colors and make excellent garden plants. Bedding plant growers appreciate the uniformity of bloom time across the series.

Antirrhinum majus 'Liberty Classic Rose Pink'

Snapdragons

18-20"H x 12-14"W. Liberty Classic snapdragons provide tall luscious spikes in an attractive assortment of colors and make excellent garden plants. Bedding plant growers appreciate the uniformity of bloom time across the series.

Antirrhinum majus 'Liberty Classic White'

Snapdragons

18-20" H x 12-14"W. Liberty Classic snapdragons provide tall luscious spikes in an attractive assortment of colors and make excellent garden plants. Bedding plant growers appreciate the uniformity of bloom time across the series.

Antirrhinum majus 'Liberty Classic Yellow'

Snapdragons

12-20"H x 12-14"W. Liberty Classic snapdragons provide tall luscious spikes in an attractive assortment of colors and make excellent garden plants. Bedding plant growers appreciate the uniformity of bloom time across the series.

Begonia 'PAS279432'

BabyWing Pink® Begonia (Green leaf)

10-12"H x 10-12"W. Drought Tolerant, Colorful/Attractive Foliage, Heat Tolerant, Shade Tolerant, Low Maintenance.

Begonia 'PAS453440'

BabyWing White® Begonia (Green leaf)

10-12"H x 10-12"W. Drought Tolerant, Colorful/Attractive Foliage, Heat Tolerant, Shade Tolerant, Low Maintenance.

Begonia semperflorens

Super Olympia® Red Begonia (Red/Green)

6-8"H x 6-8"W. Compact mounding annual with glossy dark green heart-shaped foliage with copper-bronze tints. The clusters of small rich orchid-like flowers with yellow centers bloom from late spring through summer. Flowers best in part shade and rich, moist well-drained soils.

Begonia semperflorens

Super Olympia® Rose Begonia (Rose/Green)

6-8"H x 6-8"W. Compact mounding annual with glossy dark green heart-shaped foliage with copper-bronze tints. The clusters of small rich orchid-like flowers with yellow centers bloom from late spring through summer. Flowers best in part shade and rich, moist well-drained soils.

Begonia semperflorens

Super Olympia® White Begonia (White/Green)

6-8" H x 6-8"W. Compact mounding annual with glossy dark green heart-shaped foliage with copper-bronze tints. The clusters of small rich orchid-like flowers with yellow centers bloom from late spring through summer. Flowers best in part shade and rich, moist well-drained soils.

Begonia 'Bepapink'

Dragon Wing® Pink Begonia (Begonia aconitifolia x B. coccinea Dragon Wing® Pink)

14"-18" H. Rosy pink flowers. Leaves become bronze tinged in sunlight. Begonias are one of the few plants that bloom under almost any light conditions, but they do best in light shade.

Begonia 'Bepared'

Dragon Wing® Red Begonia (Begonia aconitifolia x B. coccinea Dragon Wing® Red)

14"-18" H. Scarlet Red flowers. Leaves become bronze tinged in sunlight. Begonias are one of the few plants that bloom under almost any light conditions, but they do best in light shade.

Bidens ferulifolia 'Bee Alive'

Bidens

8-10"H x 18-24"W. Beautiful mounding form covered in large orange-red flowers. Great for containers and baskets for all season color. Perfect for sunny beds and borders as well.

***Bidens ferulifolia* ‘Sun Drop Double Yellow’**

Bidens

10-12”H x 16-18”W. Cheerful yellow, double flowers have an excellent growth habit. This plant works well in mixed containers and small pots. Bidens are perfect for attracting butterflies and bees to your garden.

Caladium hortulanum

Heart to Heart® Clowning Around Caladium

15-20”H x 10-14”W. ‘Clowning Around’ is a Fancy leaf Caladium, that grows well in part shade to shade conditions. is a fancy-leaf variety with clear bright rose pink veins cream orange areas surrounding and between veins with olive green often raised areas on the edge giving the plant an interesting textured appearance.

Caladium hortulanum

Heart to Heart® White Wonder Caladium

15-20”H x 8-10”W. Described as nothing less than elegant, ‘White Wonder’ is a beautiful lance-leaved (strap) variety that can stand full sun. Due to its stature, ‘White Wonder’ makes an excellent border to intermediate plant in the landscape. It is adapted to both sun and shade.

Calibrachoa ‘Balcabrite’

Cabaret® Bright Red Calibrachoa

6-10”H x 10-12”W. An abundance of bright blooms cover these full, trailing plants. They are self-cleaning, so they stay neat and tidy all season. Sun.

Calibrachoa ‘Balcabdepy’

Cabaret® Deep Yellow Calibrachoa

6-10”H x 10-12”W. An abundance of bright blooms cover these full, trailing plants. They are self-cleaning, so they stay neat and tidy all season. Sun.

Calibrachoa ‘Balcabivor’

Cabaret® Diva Orange Calibrachoa

6-8”H x 10-12”W Abundant, small petunia-like flowers all season on cascading growth. Attracts pollinators. Heat tolerant. Full Sun.

Calibrachoa ‘Balcabdebu’

Cabaret® Deep Blue Calibrachoa

6-10”H x 10-12”W. An abundance of bright blooms cover these full, trailing plants. They are self-cleaning, so they stay neat and tidy all season. Sun.

Calibrachoa ‘Balcabsklu’

Cabaret® Sky Blue Calibrachoa

6-10”H x 10-12”W. An abundance of bright blooms cover these full, trailing plants. They are self-cleaning, so they stay neat and tidy all season. Sun.

Calibrachoa ‘Balcabwhite’

Cabaret® White Calibrachoa

6-10”H x 10-12”W. An abundance of bright blooms cover these full, trailing plants. They are self-cleaning, so they stay neat and tidy all season. Sun.

Catharanthus roseus

Titan Clear Mix Vinca

14-16”H x 10-12”W. Very low watering needs – outstanding in sunny, hot and dry conditions. Also works in light shade. Largest vinca flowers on the market.

Catharanthus roseus ‘PAS336360’

Titan™ Lilac Vinca

14-16”H x 10-12”W. Very low watering needs – outstanding in sunny, hot and dry conditions. Also works in light shade. Largest vinca flowers on the market.

Catharanthus roseus ‘PAS420775’

Titan™ Pure White Vinca

14-16”H x 10-12”W. Very low watering needs – outstanding in sunny, hot and dry conditions. Also works in light shade. Largest vinca flowers on the market.

Catharanthus roseus ‘PAS1157216’

Titan™ Really Red Vinca

14-16”H x 10-12”W. Very low watering needs – outstanding in sunny, hot and dry conditions. Also works in light shade. Largest vinca flowers on the market.

Catharanthus roseus ‘PAS336363’

Titan™ Rose Vinca

14-16”H x 10-12”W. Very low watering needs – outstanding in sunny, hot and dry conditions. Also works in light shade. Largest vinca flowers on the market.

Cleome hassleriana ‘Cherry Queen’

Spider Flower

4’H x 18”W Holds its 5–6” flower clusters and narrow seed pods aloft on sturdy, 4’ stems that will create a focal point in the back of a border all summer. Full Sun.

Cleome hassleriana ‘Violet Queen’

Spider Flower

4’H x 18”W Holds its 5–6” flower clusters and narrow seed pods aloft on sturdy, 4’ stems that will create a focal point in the back of a border all summer. Full Sun.

Cleome hassleriana ‘White Queen’

Spider Flower

4’H x 18”W Holds its 5–6” flower clusters and narrow seed pods aloft on sturdy, 4’ stems that will create a focal point in the back of a border all summer. Full Sun.

Coleus scutellarioides ‘Black Dragon’

Coleus

12-14”H x 10-14”W. Coleus Black Dragon is an unusually richly-textured, warmly-colored foliage plant. Compact, very showy, and easy to grow, it’s a must-have for anyone with an area of shade.

***Coleus scutellarioides* ‘Dark Star’**

ColorBlaze® Dark Star Coleus
12-36”H x 12-36”W. The simple, indigo-purple leaves of ‘Dark Star’ draw all eyes to its inky depths. ‘Dark Star’ contrasts well with white flowers or silver foliage, or it can be used to emphasize the blueness of certain flowers. Sun to part sun.

***Coleus scutellarioides* ‘Dipt in Wine’**

ColorBlaze® Dipt in Wine Coleus
24-40”H x 20-24”W. ‘Dipt in Wine’ is a broad leaved coleus that has a bold crimson color with a lime green edge and a yellow center. A fun accent plant that grows well in full sun to part shade.

***Coleus scutellarioides* ‘UF81910’**

FlameThrower™ Chili Pepper Coleus
20”H x 18”W. Bold colors in a compact plant make this striking variety ideal for small pots and mixed containers; great garden performance in sun or Shade.

***Coleus scutellarioides* ‘UF9837’**

FlameThrower™ Habanero Coleus
12-18”H x 16-18”W. Bright bronze-orange foliage on compact plants. Low-maintenance, high-impact plants are perfect for mixed pots and landscaping. Great performance in sun and shade.

***Coleus scutellarioides* ‘UF12735’**

FlameThrower™ Spiced Curry Coleus
12-18”H x 16-18”W. FlameThrower Spiced Curry Coleus’ attractive serrated pointy leaves remain gold in color with showy dark red variegation and tinges of chartreuse throughout the year on a plant with a mounded habit of growth. Sun to part shade.

***Coleus scutellarioides* ‘UF17-64-1’**

Mainstreet Beale Street™ Coleus
24-36”H x 24-36”W. Coleus Main Street Beale Street is an outstanding variety exhibiting deep red foliage that holds its color extremely well in the garden. The rich color doesn’t fade, bleach or get spotty as the season moves into late summer. The lush, bushy plant grows uniformly. Sun or shade.

***Coleus scutellarioides* ‘Main Street Rodeo Drive’**

Mainstreet Rodeo Drive™ Coleus
12-24”H x 12-24”W. Ruffled, lobed leaves accented with deep purple edges and highlights make Coleus Mainstreet Rodeo Drive™ a delight to combine with other annuals. Try this foliage plant with yellow Calibrachos and Heliotrope for a vibrant medley of color. Sun to part sun.

***Coleus scutellarioides* ‘Copper’**

Stained Glassworks® Copper Coleus
14-22”H x 12-18”W. Sun-loving coleus known for its vibrant and attractive foliage. Coppery-orange, textured, scalloped edging, is ideal for pots on the patio, in border plantings or a beautiful specimen plant.

***Coleus scutellarioides* ‘Stained Glassworks Royalty’**

Stained Glassworks™ Royalty Coleus
18-24”H x 18-24”W. Each variegated leaf has a hot pink centre and dark plummy margin, fantastic colour contrast. Vigorous, bushy and rounded habit, an eye-catching focal point whether planted in patio pots or containers or in annual beds along with summer perennials. A versatile plant, easy to maintain, does well in both sun or shade.

***Coleus scutellarioides* ‘PAS2018’**

Wizard® Jade Coleus
10-14”H x 10-12”W. Wizard Jade’s attractive serrated pointy leaves remain forest green in color with hints of creamy white throughout the season, with an upright spreading habit of growth. Shade to part shade.

***Coleus scutellarioides* ‘PAS406822’**

Wizard® Mosaic Coleus
12-14”H x 10-12”W. Wizard Mosaic Coleus’ attractive serrated pointy leaves remain light green in color with showy ruby-red variegation and tinges of creamy white throughout the season. Shade to part shade.

***Coleus scutellarioides* ‘PAS2032’**

Wizard® Velvet Red Coleus
12-14”H x 10-12”W. Attractive serrated pointy leaves remain red in color with distinctive creamy white edges throughout the season, with an upright spreading habit of growth. Shade to part shade.

***Cosmos sulphureus* ‘Cosmic Orange’**

Cosmos
12-22”H x 12-17”W. Masses of 2-inch double and semi-double blooms arise all summer long on well-branched 12- to 22-inch plants. Heat- and pest-resistant, Cosmic thrives on neglect, Months of joy in the garden from this stunning AAS Winner. Sun.

***Cosmos sulphureus* ‘Cosmic Red’**

Cosmos
12-22”H x 12-17”W. Like all Cosmos, this charming variety Cosmic Red Cosmos thrives in the sunny garden, drawing butterflies and compliments by the dozen.

Cosmos bipinnatus

Sensation Mix Cosmos
36-48”H x 12-14”W Large, single flowers with yellow center bloom from midsummer on. Easy to grow.

Cosmos bipinnatus

Sonata™ Mix Cosmos
20-24”H x 12-14”W. Bright, colorful daisy-like blooms on tall stems with ferny leaves. Mix includes white, rose, pink and cherry. Thrives in average soil but tolerates poor soil, heat and drought. GARDEN HINTS: Sow directly outdoors after last spring frost. Grows best in full sun.

Cotyledon tomentosa subsp. ladismithiensis

Bear's Paw

The leaves are yellow green, with 1-3 teeth. The flowers are orange red to almost yellow in color. Succulent. Full Sun.

Dianthus chinensis x barbatus

Floral Lace™ Mixture Dianthus, Sweet William

Hardy, cool season annuals that often overwinter and return a second year or more, flowers white to pink, vibrant red or purple. Full Sun.

Dichondra argentea 'Silver Falls'

Dichondra

Trailing, vigorous, fan-shaped silver foliage on silver stems, very heat and drought tolerant. Full Sun.

Echeveria derenbergii

Painted Lady

Small rosettes of triangular shaped leaves with red margins. Clusters of yellow flowers with red tips.

Euphorbia hypericifolia 'Hip Hop'

Spurge

12"H x 18"W. Clouds of airy white flowers on dense green foliage are presented during the spring and summer season; excellent for mixed containers or hanging baskets; heat and drought tolerant; low maintenance. Sun to part shade.

Evolvulus 'USEVO1201'

Blue My Mind™ Evolvulus

6"-12" H. Miniature, indigo-blue, morning glory flowers cover spreading plants. For containers, baskets, and bedding. Full Sun.

Fuchsia 'Gartenmeister'

Honeysuckle Fuchsia

12-36"H x 12-18"W. This vigorous, upright plant tolerates heat better than other fuchsias. Dark bronze-red leaves and stems provide striking contrast to vibrant clusters of deep coral-red tubular flowers in late spring and summer. A must for the hummingbird garden! Performs well in containers.

Gerbera jamesonii

Gerbera Daisy Mix

8-10"H x 6-8"W. Beautiful flowers which measure 3 1/2 - 4 inches wide, appear above the large, lovely dark green foliage on compact, sturdy little plants. Sun to part sun.

Gomphrena 'Fireworks'

Globe Amaranth

12-24"H x 24-36"W. Merry masses of bright, bouncy, 2", rosy-pink "pom-poms" tipped in gold, it pumps out the blooms on long, strong, branchy stems midsummer till frost. Sun.

Hedra helix

English Ivy (Green)

9-11"H x 6-10"W. A lovely addition to hanging baskets, containers, trailing on a retaining wall, or as a wonderful houseplant.

Hedra helix 'Glacier'

English Ivy

9-11"H x 6-10"W. A lovely addition to hanging baskets, containers, trailing on a retaining wall, or as a wonderful houseplant.

Hedra helix 'Gold Child'

Variegated English Ivy

9-11"H x 6-10"W. A lovely addition to hanging baskets, containers, trailing on a retaining wall, or as a wonderful houseplant.

Heliotropium arborescens 'KLEHA13711'

Marino™ Blue Heliotrope

15" H. Features beautiful clusters of fragrant royal blue flowers with white overtones at the ends of the stems from late spring to early fall. Part Sun. Toxic.

Hypoestes phyllostachya 'Pink Splash'

Polka Dot Plant

12" H. Attractive pointy leaves remain pink in color with distinctive dark green spots throughout the year. Neither the flowers nor the fruit are ornamentally significant. Full Sun/Part Shade.

Hypoestes phyllostachya 'Red Splash'

Polka Dot Plant

12" H. Attractive pointy leaves remain cherry red in color with distinctive dark green spots throughout the year. Neither the flowers nor the fruit are ornamentally significant. Full Sun/Part Shade.

Hypoestes phyllostachya 'White Splash'

Polka Dot Plant

12" H. Attractive pointy leaves remain white in color with distinctive dark green spots throughout the year. Neither the flowers nor the fruit are ornamentally significant. Full Sun/Part Shade.

Impatiens 'SAKIMP043'

SunPatiens® Vigorous Pink Kiss Impatiens

20-30" H. Provides twice as much coverage and color as standard bedding plants. Plants get better looking the longer they're in the garden. Robust, disease-resistant variety performs right up until hard frost with nonstop color. Full Sun/Shade.

Impatiens 'SAKIMP048'

SunPatiens® Vigorous Red Impatiens

20-30" H. Provides twice as much coverage and color as standard bedding plants. Plants get better looking the longer they're in the garden. Robust, disease-resistant variety performs right up until hard frost with nonstop color. Full Sun/Shade.

Impatiens 'SAKIMP056'

SunPatiens® Vigorous Orange Impatiens
20-30" H. Provides twice as much coverage and color as standard bedding plants. Plants get better looking the longer they're in the garden. Robust, disease-resistant variety performs right up until hard frost with nonstop color. Full Sun /Shade.

Impatiens 'SAKIMP027'

SunPatiens® Compact White Impatiens
16-30"H x 14-20"W. Crisp, clean white in color, larger blooms, produce an abundant amount of flowers from spring through fall. SUNPATIENS® has a slightly thicker leaf wall, which helps the plant tolerate summer conditions. Prefers a moist, well watered location, full sun to part shade.

Impatiens walleriana 'PAS1357832'

Beacon® White Impatiens
15-20"H x 8-10"W. Impatiens Beacon White features prolific amounts of snow-white flowers that bloom all season long. A staple plant in the shade garden, popular planted in masses.

Impatiens walleriana 'PAS2491'

Dazzler® Punch Impatiens
10-14"H x 12-14"W. Dazzler Punch impatiens features prolific amounts of fruit punch colored flowers blooming all season long. A staple plant in the shade garden, popular planted in masses.

Impatiens

Super Elfin Clear Mix Impatiens
8-10"H x 8-10"W. Super Elfin XP Clear Mix features beautiful, clear colors in a vast color arrangement, has a consistent bloom pattern between plants. Part shade to full shade.

Impatiens

Super Elfin Hot Mix Impatiens
10-14"H x 12-14"W. Bright, hot-colored flowers bloom all summer long. Prolific bloomer with vigorous, uniform plants. Easily fill a container or provide lush covering in shaded to partially shaded flower beds.

Impatiens walleriana 'PAS2363'

Super Elfin® Lipstick Impatiens
10-14"H x 12-14"W. Super Elfin Lipstick Impatiens is draped in stunning hot pink round flowers at the ends of the stems from mid spring to late summer. Its small pointy leaves remain green in color throughout the season. Simply beautiful in the shade garden.

Impatiens 'PAS751935'

Super Elfin® XP Violet Impatiens
10-14"H x 12-14"W. Super Elfin Violet Impatiens is covered in stunning violet round flowers at the ends of the stems from mid spring to late summer. Its small pointy leaves remain green in color throughout the season. Simply beautiful in the shade garden.

Ipomoea batatas 'Margarita'

Sweet Potato Vine
6-9"H x 36"W Bright chartreuse leaves that lean to gold in sun, pale green in partial shade and are vaguely heart shaped. Full Sun/Part Shade.

Ipomea batatas 'Blackie'

Sweet Potato Vine
4-10"H x 4-5"W. This tender tuberous perennial with heart-shaped, lobed, almost black leaves bears trumpet-shaped lavender to pale purple flowers. It is excellent in containers or weaving among other plants in beds and borders. Full sun to part shade.

Ipomea batatas 'Balsolared'

SolarPower™ Red Ipomoea, Sweet Potato Vine
6-12"H x 36"W. Brightly colored leaves are great for mixed containers and garden beds. Sun to partial sun.

Ipomea batatas 'Sweet Georgia Black Maple'

Sweet Potato Vine
4-6"H x 24-36"W. This heavily branched series is uniform, compact habit, and a proven performance. Palmate shaped leaves. Excellent for containers. Works great as an annual groundcover. Sun to partial sun.

Ipomoea tricolor 'Heavenly Blue'

Morning Glory
6-8' H. Sky blue trumpet flowers with white throats. Full Sun.

Ipomoea nil 'Scarlet O'Hara'

Morning Glory
6-10' H. Fast-growing vines with attractive foliage and cheerful rosy red 3-4" flowers. Full Sun.

Ipomoea purpurea 'Grandpa Ott'

Morning Glory
8-10' H. Intense violet-blue, with a ruby red star produced in profusion. Full Sun.

Jacobaea maritima 'Silver Dust'

Dusty Miller
10-12"H x 8-10"W. Dusty Miller Silver Dust makes for a fantastic accent plant with its silvery-white, oak-shaped foliage, contrasting well with most green leafed plants.

Lampranthus blandus

Pink Vygie
18"H x 24"W. A succulent shrublet with masses of tiny, grey green, jagged foliage growing on attractive, pinkish red stems. Pink, daisy-like flowers will bloom above the foliage, opening during the middle of the day and retreating at night. Full sun to partial shade.

Lantana camara 'Bante Cheriasun'

Bandana® Cherry Sunrise Lantana
12-22"H x 12-24"W. A steady, summer-long bloomer, is heat and drought tolerant, thrives in pots or in the ground. Many flowers have variable colors, which just adds to their beauty, with a mounded habit. Full sun.

Lantana camara 'Ban Whit'

Bandana® White Lantana
24" H. Tubular flower clusters are creamy to white. Full Sun.

Lantana camara 'Balandcit'

Landmark™ Citrus Lantana
24H. Tubular flower clusters of orange flowers with yellow centers. Full Sun.

Lantana camara 'Havana Harvest Moon'

Lantana
12-24"H x 12-24"W. Lantana is heat and drought tolerant, deer resistant, little to no need for deadheading, versatile, fragrant, attractive to butterflies and hummingbirds. Harvest Moon blooms orange to yellow to pink. Full sun.

Limnanthes douglasii 'Fried Eggs'

Meadowfoam
6-12"H x 6-10"W. Great in borders, beds or in containers. Attracts hoverflies to the garden to help with aphids. Fragrant flowers. Attracts bees. Bloom time: summer. Bloom color: clear white with lemon yellow center. Sun/partial shade.

Lobelia erinus 'Regatta Marine Blue'

Trailing Lobelia
6-8"H x 10-12"W. Partial sun. The regatta series of trailing lobelia makes a perfect addition to hanging baskets or to annual beds. Lovely cobalt blue flowers.

Muehlenbeckia axillaris

Angel Vine/Creeping Wire Vine
4-6"H x 18-24"W. A sprawling prostrate subshrub, distinctive small, round, dark green leaves and wiry stems. It requires little maintenance and is fast-spreading. Because of its draping qualities, it looks great in hanging baskets, containers, alongside other taller plants. Sun or partial shade.

Mandevilla 'Lancalifornia'

Dianmantina™ Opal Yellow Dipladenia
12"-5'H x 12"-16"W. Bold, tropical blooms in bright yellow with a vining habit make this a versatile showstopper in the garden! Can be planted in ground, in containers or in mixed combinations (requires support, such as a trellis). Sun.

Nephrolepis exaltata 'Bostoniensis'

Boston Fern
12"-18"H x 12-36"W. The Boston Fern has graceful green, drooping fronds that are naturally cut in such a way to give a ruffled looking effect, therefore it looks really good in a hanging basket or in a place where the fronds can hang down. Shade to part shade.

Nicotiana alata 'Starmaker Deep Lime'

Flowering Tobacco
12"H x 10"W Clusters of lime star shaped flowers on short, stocky stems. Blooms from early spring to late summer.

Nicotiana alata 'Starmaker Red Bright'

Flowering Tobacco
12'H x 10"W Clusters of bright red star shaped flowers on short, stocky stems. Blooms from early spring to late summer.

Nicotiana 'Perfume Deep Purple'

Flowering Tobacco
20"H x 12"W Highly scented star-shaped deep purple 2-inch blooms on free-flowering plants.

Nicotiana 'Perfume Rose'

Flowering Tobacco
20"H x 12"W. Deer resistant, floriferous and fragrant beyond belief! An abundance of fragrant bright rose trumpet-shaped flowers. Heat and shade tolerant. Good bed, border, cut flower and pot plant. Sun-part shade.

Osteospermum ecklonis 'Balserdarp'

Serenity™ Dark Purple African Daisy
10-14"H x 14-20"W. Green ovate leaves form a clumping mound of foliage, well suited for mass plantings. Dark purple daisy-like flowers bloom from spring until fall, making a long-lasting bright pop of color in any garden. Deer resistant. Needs good drainage.

Osteospermum ecklonis 'Balserswhit'

Serenity™ White African Daisy
10-14"H x 14-20"W. Stunning white daisy flowers with steel blue eyes at the ends of the stems from early summer to mid fall. The flowers are excellent for cutting. Its spiny narrow leaves remain green in color throughout the season. Needs good drainage.

Petunia 'PAS3111'

Dreams™ Neon Rose Petunia
10-15" x 10-12"W. 3 to 4 inch magenta-purple blooms with white throats, extra-large blooms. Good tolerance to the weather and botrytis. Use in window boxes, containers, borders, edges, rock ridges, hanging baskets, anywhere with a minimum of 6 hours of full sun and good draining soil. Plants are floriferous, fragrant, and tolerant of light frosts.

Petunia 'PAS3106'

Dreams™ Pink Petunia
10-15"H x 10-12"W. Free-flowering, covered in 3 to 4" deep pink blooms with yellow throats. Extra-large blooms and even growth habit makes them a real winner. Good tolerance to the weather and botrytis. Use in window boxes, containers, borders, edges, rock ridges, hanging baskets, anywhere that receives a minimum of 6 hours of full sun and good draining soil. Plants are floriferous, fragrant, and tolerant of light frosts.

Petunia 'PAS3113'

Dreams™ Red Petunia
10-15”H x 10-12”W. Free-flowering, covered in 3 to 4” deep red blooms. Extra-large blooms and even growth habit makes them a real winner. Good tolerance to the weather and botrytis. Use in window boxes, containers, borders, edges, rock ridges, hanging baskets, anywhere that receives a minimum of 6 hours of full sun and good draining soil. Plants are floriferous, fragrant, and tolerant of light frosts.

Petunia 'PAS320601'

Dreams™ Sky Blue Petunia
10-15”H x 10-12”W. Free-flowering, covered in 3 to 4” violet-blooms with yellow throats. Extra-large blooms and even growth habit makes them a real winner. Good tolerance to the weather and botrytis. Use in window boxes, containers, borders, edges, rock ridges, hanging baskets, anywhere that receives a minimum of 6 hours of full sun and good draining soil. Plants are floriferous, fragrant, and tolerant of light frosts.

Petunia 'Bee's Knees'

Petunia
8-10”H x 16-22”W. Lush blooms, puts on a high-impact show season long with very little attention. An intense yellow petunia and performance! Holds its yellow color better than any other yellow petunia. Sun.

Petunia 'Bluerific'

ColorBlitz™ Bluerific Petunia
8-10”H x 16-22”W. Covered in stunning royal blue trumpet-shaped flowers with powder blue centers from mid spring to late summer. Sun.

Petunia 'Cascadias Indian Summer'

Cascadias™ Indian Summer
6-10”H x 16-20”W. Indian Summer has blooms that turn color in 3 stages, starting with yellow before turning orange-pink, on medium green foliage, has a more vigorous nature than most other petunias. Sun.

Petunia 'Balcushlu'

ColorRush™ Blue Petunia
10-12”H x 24-36”W. Powerful blue color! Exceptional garden performance from Spring through Summer. Works great in the ground and in containers. Sun.

Petunia 'Balcushed'

ColorRush™ Red Petunia
10-12”H x 24-36”W. Brilliant red color! Exceptional garden performance from Spring through Summer. Works great in the ground and in containers. Sun.

Petunia 'Balcushite'

ColorRush™ White Petunia
10-12”H x 24-36”W. Lovely white blooms! Exceptional garden performance from Spring through Summer. Works great in the ground and in containers. Sun.

Petunia 'PAS3110'

Dreams™ White Petunia
10-15”H x 10-12”W The free-flowering grandiflora ‘Dreams White’ is covered in 3 to 4-inch clear white blooms with yellow throats. Attracts bees, butterflies, hummingbirds. Full Sun/Part Shade.

Petunia 'Pinkceptional'

ColorBlitz™ Pinkceptional Petunia
8-10”H x 16-22”W. Blossoms into a lush, flower-filled plant that puts on a high-impact show of stunning hot pink flowers with white centers, all season long with very little attention. Sun.

Portulaca grandiflora

Sundial Mix Moss Rose
4-6” H. Sundial Mix is vigorous with large 3” double flowers that stay open longer than other varieties. Fuchsia, pink, orange, scarlet, yellow and white. Sensational peach-coral blooms. Full Sun.

Ptilotus exaltatus 'Joey'

Pink Mulla Mulla
12-18”H x 10-12”W. Boasts masses of large, long-lasting, conical spikes of feathery flowers, up to 3” resembling bottle brushes. Luminous blossoms start out silver maturing to neon pink. Attracts bees and butterflies, heat and drought tolerant. Full sun, well drained soil. Good cut-flower.

Rudbeckia hirta 'Prairie Sun'

Black-eyed-Susan
30-36”H x 18-24”W. Tall, robust, daisy-like blooms with peachy orange petals that wash to yellow at the tips surrounding green centers. Great for cutting. Stunning paired with Fountain Grasses and Perovskia. Full sun.

Ruellia simplex 'Purple Showers'

Mexican Petunia
1-3’ H. Willow-like foliage constantly covered with 1-2”, rich blue, petunia-like flowers all summer. Sun/Part Shade.

Salvia coccinea 'Coral Nymph'

Hummingbird Sage
24”H x 10”W This is a double duty plant with its beauty serving an ornamental purpose, and its usefulness in a wildlife garden. Not only is this salvia a huge nectar source, it is also a very beautiful addition to any garden. Full Sun.

Salvia farinacea 'Victoria Blue'

Mealycup Sage
12-24”H x 10-12”W. Resembling lavender with its rich violet-blue flower spikes, blooms profusely from late spring to frost. Densely packed small flowers peeking from calyces. Fresh fragrant leaves. Sun to light shade.

***Salvia guaranitica* ‘Black and Blue’**

Anise-Scented Sage

2-3’ H x 10-12”W. Deep cobalt blue flowers with black calyces. Flowers appear on spikes to 15” long over a long midsummer to fall bloom. Sun/Part Shade.

***Salvia splendens* ‘Lighthouse Purple’**

Salvia

18-24”H x 10-12”W. Intense deep plum purple spikes have a high impact of color all season. Full sun to light shade.

***Salvia splendens* ‘Lighthouse Red’**

Salvia

18-24”H x 10-12”W. Masses of beautiful spikes of red tubular flowers rising above the foliage from late spring to early fall, which are most effective when planted in groupings. The flowers are excellent for cutting. Sun.

Salvia splendens

Vista™ Mix Salvia

10-12”H x 7-8”W. Sitting on compact plants, the dense spikes of vista mix feature all the vista colors. Use in garden beds, containers, or borders. Sun and well-drained soil keep them happy. Bees, butterflies, and hummingbirds flock to the colorful spikes while deer tend to pass by.

***Salvia splendens* ‘PAS3285’**

Vista™ Red Salvia

10-12”H x 8”W Dense spikes and dark green foliage hold their color all season. Full Sun.

***Scaevola aemula* ‘Bomy Dabule’**

Bombay® Dark Blue Fanflower

6-10”H x 14-18”W. High versatility makes it a wise choice for potted combinations or garden ground coverage. Create beautiful potted combinations and garden landscapes with these unique fan flowers.

***Sedum japonicum* ‘Tokyo Sun’**

Sedum

2” H x 8” W. Tiny yellow succulent leaves. Best yellow color in sun, more lime-green in shade. Full Sun.

***Senecio* ‘Mini Blue’**

Mini Blue Chalk Fingers

4” H. Dwarf form of South Africa’s *Senecio repens*. Powder blue, cylindrical, tapered leaves; white pom flower heads. Full Sun/Part Shade.

***Solanum jasminoides* ‘Variegata’**

Variegated Potato Vine

An exceptional vine offering variegated foliage of green, irregular butter-yellow edges; perfect for climbing fences or trellises; also great trailing for containers and hanging baskets, blanketed in stunning clusters of lightly-scented white star-shaped flowers with yellow eyes. Sun.

Strobilanthes

Persian Shield

12-24”H x 18-24”W. Iridescent, colorful leaves of purple, green and silver all season; heat tolerant. Sun to part sun.

***Tagetes erecta* ‘PAS1060545’**

Taishan® Orange African Marigold

10-12”H x 8-10”W. Bold orange ball-shaped flowers at the ends of the stems from early summer to mid fall. The flowers are excellent for cutting. Its fragrant ferny leaves remain dark green in color throughout the season. Sun to part sun.

***Tagetes erecta* ‘PAS1060543’**

Taishan® Yellow African Marigold

10-12”H x 8-10”W. Bright yellow ball-shaped flowers at the ends of the stems from early summer to mid fall. The flowers are excellent for cutting. Its fragrant ferny leaves remain dark green in color throughout the season. Sun to part sun.

***Tagetes erecta* ‘Vanilla’**

African Marigold

24”H x 8-10”W Extra vigor makes the 24” plants bushier, healthier and capable of bearing many more flowers. Long lasting, odorless blooms up to 3” across.

***Tagetes patula* ‘PAS92658’**

Durango™ Yellow French Marigold

10-12”H x 6-8”W Produced uniformly shaped, extra-large 2-2.5” red flowers atop bushy plants.

***Tagetes patula* ‘Fireball’**

French Marigold

Sun. 10-12” H. Blooms start out a very dark, bronze red in early spring and finish to a fiery orange as the flowers mature.

***Tagetes patula* ‘PAS2276’**

Bonanza Yellow™ Marigold

12”H Bright lemon yellow flowers are attractive to pollinators.

Thunbergia alta

Susie Mix Black-eyed Susan Vine

Sun. Small orange, yellow, and white blooms either with or without jet-black centers are produced in great profusion all summer on this dainty vine. Vines can be grown up to 6 to 8 feet on a small erect support or in a container.

***Tithonia rotundifolia* ‘Torcb’**

Orange Mexican Sunflower

4-6’H x 3’W. Wide multi-branched plant with tons of 4” wide rich orange flowers that butterflies and bees swoon for. Wonderfully velvety soft stems and leaves. Tolerates heat like a champ. Full sun.

Vinca major 'Maculata'

Vinca Vine

3-6" H x trailing. Attractive variegated foliage contrasts nicely with blue flowers. Easy-care plant stylishly accents other bright colors. Adds a touch of class to any garden planting. Perfect for all kinds of containers, including window boxes, hanging baskets and combination planters. Tumbles beautifully over rocks, slopes.

Zinnia angustifolia 'Star White'

Narrow Leaf Zinnia

12" H x 12" W Has a low, mounded shape and narrow, dark green foliage. The flowers are daisy-shaped and have pure white petals with gold centers. Full Sun.

Zinnia elegans 'Benary's Giant Deep Red'

Zinnia

24-36" H. High yields of long, sturdy stems with 4-6", fully double, dahlia-like blooms. Excellent vase life. Vigorous plants hold up well in summer heat and rain. Sun

Zinnia elegans

Benary's Giant Mix Zinnia

36-48" H x 30" W Superior strain of zinnia originating from a historic German seed company. Large, double blossoms 4-5", in multiple, colors. Full Sun.

Zinnia elegans 'Benary's Giant Purple'

Zinnia

24-36" H. High yields of long, sturdy stems with 4-6", fully double, dahlia-like blooms. Excellent vase life. Vigorous plants hold up well in summer heat and rain. Sun.

Zinnia elegans

Profusion 5-color Mix Zinnia

12-18" H. Highly prolific bloomers produce masses of 2" semi-double apricot, cherry, fire, orange and white flowers. Full Sun.

Zinnia 'Profusion Cherry'

Zinnia

12-18" H x 12-20" W. Single cherry rose blooms are borne just above dark green foliage. The flowers can be cut and used in informal arrangements. Plants will produce more flowers if cut and will reward you with flowers all summer long. Heat and drought tolerant. Sun.

Zinnia 'Profusion Fire'

Zinnia

14-18" H x 20-24" W. produce bright red-orange 2 in. flowers. Excellent performers in borders or pots, stunning when massed in the landscape. The neat and tidy plants tolerate heat, humidity, drought, and powdery mildew. Sun.

Zinnia 'Profusion White'

Zinnia

12-24" H x 12-24" W. Blooming profusely late summer to frost, perfect for a sunny border, resists powdery mildew. Adored by butterflies hummingbirds, and bees. Sun.

Zinnia 'Profusion Yellow'

Zinnia

12-24" H x 12-24" W. Blooming profusely late summer to frost, perfect for a sunny border, resists powdery mildew. Adored by butterflies hummingbirds, and bees. Sun.

Zinnia elegans

State Fair Mix Zinnia

30-36" H. Jumbo 5" semi-double dahlia-type flowers, a wide range of colors and tall, robust plants. Colors include red, yellow, orange, purple, pink, white and bicolor. Full Sun.

Zinnia marylandica 'PAS989992'

Double Zahara™ Cherry Zinnia

12-24" x 12-24" W. Fully double, large, cherry-red flowers, makes a bold statement in the landscape. Blooms early summer to frost. Perfect for a sunny border, resists powdery mildew. Adored by butterflies hummingbirds, and bees. Sun.

ANNUAL GRASSES

Carex comans 'Bronco'

Bronco ColorGrass® Leatherleaf Sedge

8-10" H x 12-14" W. Carex Bronco (also known as Leatherleaf Sedge) is a finely textured bronze-brown grass with a arching habit. Perfect for spilling over walls or in containers.

Carex buchananii 'Red Rooster'

Leatherleaf Sedge

18-24" H x 12-18" W. Finely textured ornamental grass has an upright, V-shaped habit and adds texture, form and motion to plantings. Red-bronze color looks great mixed with other grasses and plants in containers and beds. It does best in a sunny location.

Juncus effusus 'Big Twister'

Juncus, Corkscrew Rush

1.5-2' H x 1.5'-2' W Full Sun – Part Shade. Large, spiraling foliage, resembling giant corkscrews. This low maintenance plant is ideally suited in moist bright shade. Adapts well to containers.

Juncus inflexus 'Blue Dart'

Juncus, Rush

3' H x 1' W Attractive grassy leaves emerge lime green in spring, turning bluish-green in color throughout the season.

Melinis nerviglumis 'Savannah'

Ruby Grass

6-18" H x 9-12" W. Showy ornamental grass that forms small clumps of soft blue-green foliage that turns red in fall. Its 3 to 4 in. long, fluffy plumes of ruby pink flowers slowly fade to creamy white. The blooms carry well into fall and can be used for fresh or dried flowers.

***Nassella tenuissima* ‘Ponytails’**

Mexican Feather Grass
Southwest Native with very fine foliage, not hardy.

***Pennisetum setaceum* ‘Rubrum’**

Purple Fountain Grass
3-5’ H x 2-4’ W Bronze-purple foliage topped with graceful arches of burgundy toned seed heads.

MARTAGON LILY & Species

***Lilium* ‘Sunny Morning’**

Hybrid Martagon Lily
4-5’ H. Striking deep orange-yellow recurved flowers with gold circular spots. Hybridized and named in Holland. Formerly known as ‘Nicotine.’ Very desirable. June.

***Lilium speciosum* ‘Uchida’**

Japanese Lily
3-4’ H. Deeply reflexed, brilliant pink petals are flecked with crimson and trimmed in white. A glorious garden classic. Mid to late summer.

***Lilium* ‘Alberta Morning’**

Hybrid Martagon Lily
3-4’ H.

***Lilium* ‘Arabian Knight’**

Hybrid Martagon Lily
3-4’ H. Up to twenty nodding recurved blooms are rusty-red with large creamy-gold spots. Hybridized by George Slate, named by Hugh and Ruth Cocker, Rochester, MN. June.

***Lilium* ‘Claude Shride’**

Hybrid Martagon Lily
3-4’ H. Fifteen to twenty purplish-red recurved blooms with a few yellow-orange spots and slightly ruffled petals. Named for the hybridizer Claude Shride by Hugh and Ruth Cocker of Rochester, MN. June.

***Lilium* ‘Fairy Morning’**

Hybrid Martagon Lily
3-4’ H. Dainty pendant flowers in shades of pink, orange, and golden caramel with maroon spots.

***Lilium* ‘Golden Morning’**

Hybrid Martagon Lily
3-4’ H. A richly blooming yellow with dark red speckled martagon lily with fragrant Turkish cap flowers.

***Lilium* ‘Guinea Gold’**

Hybrid Martagon Lily
3-4’ H. Striking.

***Lilium* ‘Manitoba Morning’**

Hybrid Martagon Lily
3-4’ H. The recurved tips of these speckled Turkscap flowers—yellow-orange with purple spots—are rosy pink.

***Lilium* ‘Orange Marmalade’**

Hybrid Martagon Lily
3-4’ H. Striking dark orange-red out-facing flowers on rather tall stems. Pollen-free. Hybridized by Ed Robinson of Canada. June.

***Lilium* ‘Peppard Gold’**

Hybrid Martagon Lily
4-5’ H. Pink buds open to fragrant golden flowers with recurved petals. 30 or more flowers per stem. June.

***Lilium* ‘Pink Morning’**

Hybrid Martagon Lily
3-4’ H. Peachy pink flowers dangle like little lanterns in the sun.

***Lilium* ‘Purple Morning’**

Hybrid Martagon Lily
3-4’ H. Glossy purple-pink flowers that have recurved petals upon erect stems.

***Lilium* ‘Snowy Morning’**

Hybrid Martagon Lily
4’ H. A white-flowering variety with green at the center, adds a shower of flowers to the garden in mid to late summer.

PAEONIA (PEONY)

VE-Very Early, E-Early, EM-Early Mid-season, M-Mid-season, LM-Late Mid-season, L-Late

Paeonia 'Bartzella'

Peony
24-32" H. Semi-double. Large lemon-yellow flowers with soft red center flares. Will tolerate some shade. 2006 APS Gold Medal Winner.

Paeonia 'Bowl of Beauty'

Peony
24-36" H. Lovely fuchsia pink petals create a bowl around the pale lemon yellow center of each bloom. The stunning spring flowers are displayed on sturdy, upright stems above the lush green foliage. An excellent background plant for spring bulbs, or for use in mixed or shrub borders. A choice cut flower.

Paeonia 'Buckeye Belle'

Peony
24-36" H. Semi-double, velvety, dark red blooms are held on sturdy stems that hold up well for use as cut flowers. The deep, rich color looks amazing when combined with yellow-flowering spring bulbs. Use as a showy spring specimen in mixed shrub borders.

Paeonia 'Catharina Fontijn'

Peony
24-36" H. Paeonia Catharina Fontijn is a peony variety that is very common in Dutch cut flower cultivation. With large pink flower petals that fades to white. This is a peony that is a very robust and also vigorous grower. And this peony variety has very sturdy stems.

Paeonia 'Cora Louise'

Peony
36" H. Large, semi-double, lightly fragrant blossoms, white with striking dark lavender central flares, stand above lush, toothed foliage. An especially vigorous plant - producing up to 50 blooms in a single season; the sturdy flower stems require no staking. A wonderful addition to any spring bouquet.

Paeonia 'Coral Charm'

Peony
36" H. Semi-double. Large coral to peach flowers. Vigorous bush.

Paeonia 'Duchesse de Nemours'

Peony
36" H. Double. White with hint of yellow. (Calot) One of the oldest peonies still in commerce with deeply cupped white flowers of classic fragrance. Excellent for cutting but needs support.

Paeonia 'Early Scout'

Peony
24" H. Single. Dark red flowers with fern leaf foliage.

Paeonia 'Fern Leaf' ('Rubra Plena')

Peony
18-26" H. Double. Rare. Crimson flowers on bright green, fern-like foliage. Prefers lighter soil.

Paeonia 'Kansas'

Peony
36" H. The vivid crimson flowers of Peony 'Kansas' are borne on exceptionally strong stems. The show is glorious in the garden or in a vase. This old variety has been around since 1940 and it's still widely considered the very best double red peony.

Paeonia 'Karl Rosenfeld'

Peony
24-36" H. Large, red, double blooms are spectacularly displayed on sturdy, erect stems emerging from beautiful, lush, green foliage on a rounded form. A truly exquisite cut flower. An excellent background plant for spring bulbs, or for use as a spring specimen in sunny mixed borders.

Paeonia 'Red Charm'

Peony
30-36" H. One of the top hybrid peonies in the country. A true red with perfectly formed, bomb-shaped flowers. Stiff stems hold blooms erect.

Paeonia 'Sarah Bernhardt'

Peony
30-36" H. Double. Classic peony. Fragrant dark rose pink blooms. Requires support.

ROSA (ROSE)

Rosa rugosa 'BOC rogosnij'

First Editions® Lotty's Love® Rose
First Editions® shrub: A low rugosa rose with very fragrant single flowers, followed by edible rose hips. Disease resistant.

Rosa 'BAIrage'

Easy Elegance® All the Rage Rose
Shrub. 2008 U.S.A., (3-5ft H) Multi-colored rose with tight coral buds swirling open to apricot-colored blossoms with luminous yellow centers. Blooms age to lipstick pink before dropping cleanly away. Everblooming.

Rosa 'BAIypso'

Easy Elegance® Calypso Rose
Shrub. (2ft H.) Blooms are a coral-apricot blend, repeat blooming, semi-double blooms, with dark green glossy foliage. Excellent disease resistance. Zone 5.

Rosa 'CA 29'

First Editions® Campfire Rose
Shrub 3'x3'. A beautiful variety producing clusters of pink and white blooms with intense yellow centers; habit is upright with vigorous dark green glossy foliage that is very resistant to blackspot; all roses need full sun and well-drained soil. Zone 3a.

Rosa 'BAIcham'

Easy Elegance® Champagne Wishes Rose
Shrub. 2012 U.S.A., (3-4 ft H) Clusters of soft apricot buds open to shades of antique white with a hint of apricot. Double recurrent blooms. Superior disease resistance.

Rosa 'BAIark'

Easy Elegance® Como Park Rose
Shrub. 2009 U.S.A., (2-3ft H) Blooms early, producing masses of lightly scented, 3-inch double recurrent blossoms that will blanket your shrub in red brilliance from late spring until early fall. Dark, glossy green foliage is disease resistant.

Rosa 'BAIlove'

Easy Elegance® Coral Cove Rose
Shrub. Easy Elegance® rose with orange-pink flowers.

Rosa x harisonii

Harison's Yellow Rose
Shrub. 4-6' x 4-6'. Bright and cheerful trusses of deep yellow blooms emerge from the grey of late winter to declare the coming of spring. Canes arch and reach 5 to 6 feet with ferny foliage and an upright habit, the shrub will produce suckers and form a brier clump if allowed. Zone 3.

Rosa 'BAIage'

Easy Elegance® High Voltage Rose
Shrub. 2009 U.S.A., (4-5 ft H) Shockingly beautiful clusters of double yellow blossoms are held high on sturdy canes. Super clean foliage complements the fragrant blooms. Upright, vase-shaped habit will stand up in the back of the border or stand out as an accent. Recurrent bloomer.

Rosa 'Hope for Humanity'

Rose (Dark Red)
Shrub. 4-6'H x 3-4'W. This hardy saturated red takes the cake for cold conditions. Big sprays of blooms give loads of color, set against deep green leaves. A vigorous and fitting choice to honor the 100th anniversary of the Canadian Red Cross. Hardy and red. Zone 3.

Rosa 'BAIbox'

Easy Elegance® Music Box Rose
Shrub. 2012 U.S.A. Double, everblooming. Creamy-yellow centers edged with soft pinks. Glossy-green, disease resistant foliage.

Rosa 'BAIgirl'

Easy Elegance® My Girl Rose

Shrub. 2008 U.S.A., (3-5ft H) Adorable, round, deep pink buds are held in cluster of 5 to 30, opening to ruffled blossoms so full they almost hide the centers. Offers tremendous flower effect. Backed by medium green foliage, proven to be highly resistant to black spot with little to no defoliation. Compact, upright habit with good repeat bloom.

Rosa 'BAIfairy'

Easy Elegance® Mystic Fairy® Rose

Shrub. 2004 U.S.A., (3-4 ft H) Blooms of rich red with pink undertones carpet the plant in massive clusters all summer long. New foliage is glossy red, which slowly gives way to dark green mature leaves, a striking complement to the blooms. This compact, vigorous shrub rose is crown hardy to zone 4 and resistant to both blackspot and mildew. Everblooming.

Rosa 'AAC333'

Easy Elegance® Oscar Peterson™ Rose

Shrub rose from Canada that is named after jazz pianist and composer Oscar Peterson. It blooms from early summer until fall with semi-double flowers that start out a shade of soft yellow cream that soon turn to bright white with a yellow center of stamens. One of the hardiest easy elegance roses. Zone 3.

Rosa 'BAItown'

Easy Elegance® Paint the Town Rose

Shrub rose, (2-4 ft H) Red, hybrid tea-shaped blooms carpet this everblooming shrub all season long. Its striking flowers are accented by disease resistant, glossy dark green foliage. Rosa 'RADramblin'

Ramblin' Red® Climbing Rose

First Editions® shrub rose.

Rosa 'BAIneon'

Easy Elegance® Screaming Neon Red™ Rose

Shrub. Remarkably rich, disease resistant, dark green foliage provides the perfect backdrop to neon-red blooms. Foliage turns a lovely burgundy red in fall. Deep glossy green foliage.

Rosa 'BAIsube'

Easy Elegance® Super Hero Rose

Shrub. 2008 U.S.A., (3-6 ft H) Clusters of perfect, red hybrid tea-shaped blossoms stand out strongly against clean, medium to dark green, satiny foliage. Try this neat, compact, disease-resistant shrub in the border or foundation planting. Everblooming.

HOSTA MINI

<8" Tall

Hosta 'Blue Mouse Ears'

Hosta

2008 HoY. Round, blue leaf with substance. Lavender flower.

Hosta 'Cameo'

Hosta

6" sport of Pandora's Box with small, round, green leaves with creamy white margins jet towards the midrib. Purple flowers.

Hosta 'Funny Mouse'

Hosta

4" small, rounded, blue-green leaves with white margins that age to rich cream during the warm summer months. Lavender flowers.

Hosta 'Mighty Mouse'

Hosta

In spring, the rounded leaves of heavy substance are blue-green with a bright creamy yellow margin. By summer, the leaves transition to grey-green with a creamy white margin. Incredible substance. Lavender flowers on perfectly proportioned scapes appear in early summer.

Hosta 'Mini Skirt'

Hosta

Wavy, thick, blue-green leaf with creamy yellow margins. Pale lavender flowers.

Hosta 'Pandora's Box'

Hosta

4-6" .2" long leaves have blue-green margins, white centers, and green streaking between the blue and white areas. Flowers lavender on taller 10-12" stems.

Hosta 'Tickle Me Pink'

Hosta

8" leaves emerge bright yellow-chartreuse on red petioles with red tips and some red brushed across the shiny backs of the leaves. Leaves become more golden through summer then touches of red in cooler weather. Flowers on dark scapes have fuchsia pink buds!

HOSTA SMALL

9"-14" Tall

Hosta 'Curly Fries'

Hosta

2016 HoY. Stiff, highly ruffled, narrow leaf emerges yellow then fades to near white. Deep purple scape with lavender flower.

Hosta 'First Blush'

Hosta

Green leaves with red petioles that extend into the leaf blade but also a thin red margin around the leaf. In spring the leaf between the veins will start to “blush” red from the tip of the leaf down toward the base. The leaves remain red until temperatures surpass 92 degrees in summer. Pale purple flowers in late summer.

Hosta 'Golden Scepter'

Hosta

Yellow-gold leaf. Medium blue flower.

Hosta 'Golden Tiara'

Hosta

Green leaf/chartreuse and white margin. Lavender flower.

Hosta 'Half and Half'

Hosta

Rounded, slightly cupped white leaf with wide green margin. Near white flower.

Hosta 'Lakeside Paisley Print'

Hosta

2019 HoY — Heart-shaped leaf with narrow creamy-white markings in center, shooting out in feather pattern. Wide, wavy, green margins. Heavy substance. Light lavender flower.

Hosta 'Lemon Snap'

Hosta

Small mound of cupped and corrugated yellow leaves held on red petioles and the red bleeds into the leaf. Dark purple scapes emerge above the foliage in midsummer and hold striped purple flowers.

Hosta 'Lipstick Blonde'

Hosta

12-15” foliage of the brightest sunshiny hue atop deep red stems that contrast nicely in dappled sunlight. Apparently needs 6 hours of sun for best color. Lavender blooms.

Hosta 'Magic Island'

Hosta

An enchanting seasonal show from color-changing foliage. An upright mound of lightly cupped, thick, slug resistant leaves with a vibrant yellow flame in the center that changes to a creamy green as the season progresses, and an irregular blue-green margin that widens with age. Spikes of lavender flowers appear midsummer.

Hosta 'Maui Buttercups'

Hosta

Cupped and corrugated yellow leaf; good substance. Violet flower.

Hosta 'Patriot'

Hosta

1997 HoY—Glossy dark green leaf/white margin. Medium violet flower

Hosta 'Rainbow's End'

Hosta

Thick, rubber-like dark green leaf with yellow center which matures to white. Dark lavender flower on showy red scapes!

Hosta 'Rainforest Sunrise'

Hosta

2013 HoY. Bright golden leaf with neat dark green border. Lavender flower.

Hosta 'Raspberry Sundae'

Hosta

Red stems and stalks, cream centers with green borders. Purple-red flowers.

Hosta 'Time in a Bottle'

Hosta

12” narrow yellow leaves are moderately wavy with deep purple flowers in late summer and do not open (bottle-shaped) so last longer!

Hosta 'Trendsetter'

Hosta

Green, heart-shaped leaves have wide yellow margins. Over the course of the summer, the margins will turn creamy white. The slightly rippled margins will draw attention to its beautiful variegation. Pale lavender flowers appear in early to midsummer.

Hosta 'White Feather'

Hosta

Snow white leaves in spring, slightly rippled margin, strong grower, looks beautiful after it streaks up. Sport of ‘Undulata.’ Medium lavender flower.

Hosta 'Yellow Polka Dot Bikini'

Hosta

Sport of ‘Striptease’ that emerges with bright yellow margins and dark green centers with white streaks between the margins. Lavender flowers.

HOSTA MEDIUM

15”-22” Tall

Hosta 'Amazon'

Hosta

16” Slightly rippled leaves have bright white centers that vividly contrast with bold, dark green margins that flame inward. Tolerates more sun than many white centered varieties. Bears lavender flowers.

Hosta 'August Moon'

Hosta

Gold leaf. White flower.

***Hosta 'Autumn Frost'***

Hosta

Frosty blue leaf with wide bright yellow margins that lighten to creamy white.

Hosta 'Blueberry Muffin'

Hosta

Puckered blue leaf deepens to blue green. Light mauve petioles and flower scapes. Lavender flower.

Hosta 'Color Festival'

Hosta

Wide green margins surround a white flame with yellow highlights. Lavender flowers

Hosta 'Hi-Class'

Hosta

Incredibly thick leaves, being a tetraploid, that cup slightly and have a smooth surface. The deep green leaves have a blue cast in the spring, and are edged by a wide, dramatic margin.

Hosta 'Colored Hulk'

Hosta

14-16" has deeply cupped, heart-shaped, rippled leaves have chartreuse and lime green variegation with striking, deep green, irregular margins. Resists slug damage. Showy lilac flowers

Hosta 'Cup of Joy'

Hosta

Medium-large "gold" with very round and puckered leaves that are deeply cupped. Great substance and good color. Seedling from 'Abiqua Drinking Gourd'. Flower: Near white.

Hosta 'Dancing Darling'

Hosta

15" displays unique yellow-golden foliage with green edges. The foliage is curled and looks lovely in combination with the lilac flowers.

Hosta 'Designer Genes'

Hosta

12" Wide by 18" Tall with yellow foliage above red petioles, flower spikes grow to 2 feet with purple shades

Hosta 'Echo the Sun'

Hosta

'Echo the Sun' is a bright yellow hosta with nicely rippled margins; comparable to a gold version of the blue 'Diamond Lake'. The low, mounded habit is more prostrate than 'Diamond Lake', but shares a similar wedge-shaped leaf of thick substance.

Hosta 'El Niño'

Hosta

14-16" has chalky blue-green, heart-shaped leaves with distinctive creamy yellow margins that whiten as the foliage matures. Violet-blue bell-shaped flowers.

Hosta 'Fire Island'

Hosta

Bright yellow leaf with contrasting red petiole which extends into base of leaf. Lavender flower.

Hosta 'Fragrant Bouquet'

Hosta

20" Lush apple green leaves accented with wide, pale yellow to cream-colored margins. Very fragrant white flowers develop on tall scapes in midsummer.

Hosta 'Frances Williams'

Hosta

20" Giant, blue-green leaves have very wide, chartreuse to yellow margins which become wider as the plant matures.

Hosta 'Frozen Margarita'

Hosta

15-18" Radiant, light green leaves with thin creamy white edges hold great color and form until frost. Flowers are creamy white in summer.

Hosta 'Glad Rags'

Hosta

14-16" Like a beacon of light in the night sky, this amazing hosta highlights even the darkest corners of the garden with deeply cupped leaves in a strong yellow hue. Small, purple blooms dazzle all summer long.

Hosta 'June'

Hosta

2001 HoY. Light yellow with dark blue-green margin. Medium violet, flared flower.

Hosta 'Let's Twist Again'

Hosta

Mid green leaves feature creamy white margins that light up the space during the entire growing season. Add to that a wavy, twisted foliage form, and you have a unique, eye-catching shade plant.

Hosta 'Loyalist'

Hosta

A reverse variegation sport of H. 'Patriot' but listed as growing larger. Leaves emerge creamy yellow in spring with dark green margins. By midsummer the leaf center is pure white with dark green margins. There is a lighter green streak where the leaf center and margin overlap.

Hosta 'Neptune'

Hosta

Wedge-shaped blue-green leaves with a wonderful rippled margin are topped with lavender flowers in August on arching scapes.

Hosta 'Night before Christmas'

Hosta

Dark green margins with creamy centers which change to white. Lavender flower.

Hosta 'Orange Marmalade'

Hosta

An outstanding sport of 'Paul's Glory'. Leaves emerge with an amber center surrounded by a blue-green margin. The center of the leaf is cream in summer.

Hosta 'Orion's Belt'

Hosta

18" blue-green leaves that show off white margins and light waves from tip to stem. Pale lavender flowers.

Hosta 'Paisley Border'

Hosta

Heart-shaped leaves with deep green centres; broad, yellow margins that age to creamy white; and fancy rippled edges.

Hosta 'Paul's Glory'

Hosta

1999 HoY. Large yellow leaf with blue-green margin. Light lavender flower.

Hosta 'Praying Hands'

Hosta

2011 HoY—Elongated dark green leaf/rippled yellow margin/waxy sheen. Pale lavender flower.

Hosta 'Robert Frost'

Hosta

16" This Blue-green leaved hosta, with buttercream variegation and slightly wavy margins. Lavender flowers in midsummer.

Hosta 'Sister Act'

Hosta

Very wide green margins. Good vigor and garden performance. Near white flowers in early to midsummer.

Hosta 'Smoke Signals'

Hosta

Striking silvery-blue leaves are about as blue as a hosta can be. Spear-shaped leaves are held upright and stand out in the shade garden. Leaves come to a point and the clump looks prickly. 'Smoke Signals' will hold the blue color late into the growing season. Pale lavender flowers in summer.

Hosta 'Snake Eyes'

Hosta

21-23" rich to dark green leaf has a cream-colored eye surrounded by white streaks. Nodding lavender flowers.

Hosta 'Sorbet'

Hosta

This is the reverse variegated sport of 'Raspberry Sundae.' Red petioles, whole green leaves with a nice white border. Purple flower.

Hosta 'Sting'

Hosta

Fascinating mounds are created from thick leaves with wide, deep green margins that surround, narrow white centers that jet into the margins. Lavender flowers.

Hosta 'Sunset Grooves'

Hosta

Round, puckered and thick yellow leaves with a wide dark green margin. Pale lavender flowers. Sport of 'Rainforest Sunrise.'

Hosta 'Tootie Mae'

Hosta

Blue leaves with a wide yellow margin on this 'Tokudama Flavocircinalis' sport. Yellow edge that remains clear through most of the season. Lavender flowers.

Hosta 'Touch of Class'

Hosta

16" sport of June with intense blue leaves set off by a striking chartreuse to yellow center and green jetting between the center and the margin. Lavender flowers in midsummer.

Hosta 'Velvet Moon'

Hosta

18" Sport of Abiqua Moonbeam: has broad, dark green leaves with golden yellow margins and a thick texture, pale lavender flowers.

Hosta 'Waterslide'

Hosta

Wavy, ruffled, blue leaves with heavy substance that hold their blue color well into the summer season. Lavender flowers.

Hosta 'Wheee!'

Shadowland® Hosta

Light green, ruffled leaf with cream-colored margin. Light lavender flower with purple scapes.

Hosta 'Whirlwind'

Hosta

Cream to white streaked leaf with dark green margin. Lavender flower.

HOSTA LARGE**23"-29" Tall*****Hosta montana 'Aureomarginata'***

Hosta

Dark green/bright yellow-green leaf. Pale lavender flower.

Hosta 'Abiqua Drinking Gourd'

Hosta

2014 HoY. Dark blue leaf. White flower.

***Hosta 'Big Daddy'***

Hosta

Giant, heavily puckered, cool glaucous blue, rounded, cupped leaves.

Hosta 'Brother Stefan'

Hosta

2017 HoY. Thick, heavily corrugated gold leaf with wide blue-green margin. White flower.

Hosta 'Fantabulous'

Hosta

26" has pointed, deeply veined, dark green foliage surrounded by a dramatic, wide, creamy white border. In midsummer, the clump is topped with 2' scapes of lavender flowers.

Hosta 'First Frost'

Hosta

2010 HoY. Blue center with gold margin turns to dark green with cream margin. Lavender flower.

Hosta 'Forbidden Fruit'

Hosta

26". Thick blue-green leaves with a yellow center hold great color and form until frost. Lavender blooms in summer.

Hosta 'Gold Standard'

Hosta

Gold leaves with a dark green margin. Leaf centers emerge chartreuse and brighten to gold during the season. Pale lavender flowers.

Hosta 'Great Expectations'

Hosta

Creamy-white/dark green leaf. White flower.

Hosta 'Guacamole'

Hosta

2002 HoY. Gold center/green margin. Pale lavender flower.

Hosta 'Hudson Bay'

Hosta

This showy hosta forms a large mound of attractive tricolor leaves of heavy substance. The wide, bright blue margin, apple green jetting, and creamy white center will set this variety apart all season long.

Hosta 'Ki Ren Jyaku'

Hosta

Consider this Hosta a work of art, with rounded, upright chartreuse leaves and doubled lavender and white blooms. Bred and introduced in Japan by Shinya Fukatsu.

Hosta 'Paradigm'

Hosta

2007 HoY. Gold leaf edged with blue-green margin. Variegation intensifies. Lavender flower.

Hosta 'Royal Standard'

Hosta

A fine variety, Hosta 'Royal Standard' bears sweetly scented white flowers on 30–40" stems in August and September above cool, pale green foliage. An excellent cut flower. 'Royal Standard' is far too good to treat solely as a foliage plant.

Hosta 'Seasons in the Sun'

Hosta

H. 'Seasons in the Sun' is a large, very bright yellow Hosta with a relatively upright habit. Flat leaves have a gentle wave along the margins and deeply impressed veins. Near white bell-shaped flowers are held on proportionate scapes.

Hosta 'Stained Glass'

Hosta

2006 HoY. Gold center with green edge. Large, fragrant, near white flower.

Hosta 'Striptease'

Hosta

2005 HoY. Green leaf with narrow white center. Sport of 'Gold Standard.' Lavender flower.

Hosta 'Volcano Island'

Hosta

A tetraploid sport of Paradise Island with thicker leaves and wider variegation, upward facing yellow-green leaves with wide irregular green margins. The red petioles bleed into the leaf base for added color. Lavender flowers top the clump.

Hosta 'Wide Brim'

Hosta

Green/white leaf. Pale lavender flower.

HOSTA EXTRA LARGE Over 30" Tall

Hosta sieboldiana 'Elegans'

Hosta

Blue-green leaf with heavy seersucker texture. Near white flower.

Hosta 'Age of Gold'

Hosta

A large gold hosta from renowned Hosta breeder Hans Hansen. With golden yellow leaves, this is the perfect specimen for making a statement in the shade with its upright spreading habit and large smooth leaves. In midsummer, near white, tubular flowers appear with a very faint pale lavender central pattern on the interior petals. Plant in morning sun or filtered shade for best yellow color.

Hosta 'Blue Angel'

Hosta

Blue leaf. Glossy white, long-lasting flower.

Hosta 'Blue Hawaii'

Hosta

36" An upright, vase shaped variety with slightly cupped, corrugated, powder-blue foliage that holds its color; provides beautiful texture and contrast to other plants; spikes of very pale lavender flowers in early summer.

Hosta 'Blue Umbrellas'

Hosta

30-36" is a quick-growing, blue-green beauty with huge, thick-textured leaves and pale lavender blooms that appear in summer. Blue Umbrellas is a reliable grower with immense size.

Hosta 'Coast to Coast'

Hosta

Emerges chartreuse then turns lighter gold in the summer. Thick, puckered texture. Upright, vase shaped clumped. Pale lavender flowers.

Hosta 'Dancing Queen'

Hosta

Emerges a bright yellow in spring. Deep veins and a heavily ruffled margin. Lavender flowers. Place in bright morning sun to achieve the best yellow color.

Hosta 'Humpback Whale'

Hosta

Enormous! Heavy blue leaves in spring and take on green tones midsummer. Deeply veined. White flowers.

Hosta 'Jurassic Park'

Hosta

Leaves that are heavily puckered and corrugated making them almost indestructible. Pale lavender flowers.

Hosta 'Komodo Dragon'

Hosta

Large, mound-forming hosta selection that can reach up to 3' tall with a 7' spread. Its leaves are dark blue-green in color with wavy margins and can reach up to 15" long. In midsummer, 4' tall flowering stalks emerge bearing light lavender-purple, funnel-shaped blooms.

Hosta 'Krossa Regal'

Hosta

Blue-grey leaf. Lavender flower.

Hosta 'Liberty'

Hosta

2012 HoY. Sport of 'Sagae' with wider border. Margins fade to cream. Purple flower.

Hosta 'Olive Bailey Langdon'

Hosta

Round, blue-green leaf with gold margin. Near white flower.

Hosta 'Sagae'

Hosta

Large, vase-shaped 22-28"H. Variegated, oval, wavy-edged, basal leaves that are frosty blue-green with creamy white margins. Foliage mound will typically spread over time to 36" wide or more.

Hosta 'Seducer'

Hosta

36" Extra large hosta with white flowers above broadly ovate dark green, slightly ruffled leaves with a gold margin and a trace of white along the center variegation margin.

Hosta 'Sum and Substance'

Hosta

2004 HoY. Chartreuse-gold, waxy leaf. White flower.

Hosta 'T Rex'

Hosta

An enormous hosta with a lush foliage mound of epic proportions. This garden giant produces extremely large, slightly corrugated, undulating, green leaves. Relatively slow growing, given time and growing room in a shady spot, it is certain to become king of the garden. Produces tall scapes of showy white flowers in summer.

Hosta 'Victory'

Hosta

2015 HoY. Thick, shiny green center with a margin that changes from greenish yellow to creamy white by early summer. Near white flowers on tall scapes in midsummer.

Hosta 'Wind beneath My Wings'

Hosta

30". A large majestic blue hosta with ruffled blue, heart-shaped and tapered leaves. Pale lavender flowers in midsummer.

WOODIES VINES

Hydrangea petiolaris

Climbing Hydrangea

up to 40'H. Climbing Hydrangea plants have lateral branches that grow out as much as 3' from the supporting structure, giving a rich, deep texture that is quite unlike that of other vines. The dried flower heads, reddish brown, peeling bark are attractive in winter. Produces aerial roots that cling to its support. Blooms on old wood.

Lonicera 'Mandarin'

Honeysuckle Vine

Mature height: 15' Delightful, tubular, mandarin orange flowers with pale orange interiors on this vigorous vine with a twining habit that will quickly cloak shade arbors, old trees, and woven wire fences. Drape over walls or let it sprawl across the rooftop for cottage garden charm. Deciduous.

Lonicera x brownii 'Dropmore Scarlet'

Honeysuckle Vine

Mature height: 10-20' These beautiful Fuchsia-like flowers are remarkably hardy. Coral-red flowers are very showy when cascading off wood fences, twining up lattice and shrouding unsightly wire or chain-link fencing. Excellent for shade and color on arbors overhead or snaking up stone or concrete pillars. Particularly nice when allowed to cascade off concrete block or railroad tie retaining walls. If left to sprawl, it will behave a lot like ground cover on slopes and embankments.

Lonicera sempervirens 'Major Wheeler'

Honeysuckle Vine

6-8'H x 5-10'W Blazing red and gold blooms appear all summer long, and into fall. Stems are often red to purple turning greenish brown with age. A vigorous, fast growing vine. Zone 5, native southward and a hummingbird magnet.

Vitis 'Swenson Red'

Table Grape

20'H x 2'W A top-quality variety of grape, grown for its delicious red fruit in fall, excellent for eating fresh, makes a fantastic wine, a vigorous and trailing vine. The fruits have a sweet taste and a firm texture.

Vitis 'Edelweiss'

Wine Grape

A high quality hardy grape, selected for its large sweet white fruit in fall, ideal for fresh eating, good for jellies or wine, a vigorous vine. Developed by Elmer Swenson in 1980.

Vitis 'Frontenac'

Wine Grape

Red and rosé wine and port grape. Wine has cherry and plum flavors. Vigorous and disease resistant. 1996 U of MN Introduction. -30°F.

Vitis vinifera 'Marquette'

Wine Grape

Red wine grape. Resists downy and powdery mildew, and black rot, with open, orderly growth habit. Wine has complex notes of cherry, berry, black pepper, and spice on both nose and palate. 2006 U of MN Introduction.

Vitis 'Bluebell'

Table Grape

Early ripening, blue-seeded table grape with a mild Concord-like flavor with exceptional hardiness and disease resistance. 1944 U of MN Introduction.

Vitis 'Brianna'

Grape

2001 Elmer Swenson introduction that is a cross of Riverbank and Frost grapes. A seeded-green grape with an excellent complex, fruity flavor and exceptional hardiness.

Vitis 'Frontenac Blanc'

Wine Grape

White wine grape. White-fruited sports of 'Frontenac' and 'Frontenac gris' with earlier harvest date. 2012 U of MN Introduction.

Vitis 'Frontenac Gris'

Wine Grape

White wine grape. Vigorous and very disease resistant. Wine has a characteristic peach flavor. Can be high in acidity. 2003 U of MN Introduction.

Vitis 'Itasca'

Wine Grape

Dry white wine grape. Itasca has lower acidity and high sugar levels. Itasca produces a wine that is light yellow to straw in color and has aromas of pear, quince, violet, melon, minerals, and subtle honey notes. 2016 U of MN Introduction.

Vitis 'La Crescent'

Wine Grape

White wine grape. Wine has flavors of apricot, citrus, and tropical fruit. Moderately disease resistant. 2002 U of MN Introduction. -34°F.

Vitis 'Somerset'

Table Grape

The earliest, sweetest, hardiest and highest quality red seedless grape available. Bred by Elmer Swenson, a pioneer of grape breeding from Osceola, Wisconsin.

Wisteria frutescens 'Blue Moon'

Wisteria

15-25'H x 4-8'W. The hardiest of wisteria! Dependably blooms up to three times in a growing season once established, producing beautiful, foot-long racemes of fragrant, pea-like, lavender-blue flowers.

Wisteria macrostachya 'Betty Matthews'

First Editions® Summer Cascade™ Wisteria

Mature height: 15-20' zone 4 Blooming in June on new growth, individual flowers are borne on long showy racemes and open in a lovely shade of dark lavender before fading. A beautiful flowering vine that can easily cover an arbor or pergola, creating a cool, shady place. Producing an interesting seedpod in late summer, this vine has lovely multi-season interests and is more reliably cold hardy than other wisteria.

WOODIES TREES & SHRUBS

Amelanchier alnifolia 'Regent'

Saskatoon Serviceberry

4-6 ft. A low type serviceberry with showy spring flowers and delicious fruit in early summer. Planted in the parking lot islands in front of the Oswald Visitor Center.

Buddleja 'Grand Cascade'

Butterfly Bush

Zone 5. Unlike the typical Butterfly Bush, the panicles on this flowering shrub cascade downward, similar to the look of weeping willow or a bridal wreath spirea. Light lavender purple flower panicles are enormous at 12-14" long and 4" thick.

Buddleja 'Pink Cascade II'

Butterfly Bush

Zone 5. 'Pink Cascade II' consists of large 12" arching panicles of flowers in late summer to fall. This variety improves over the original with larger, puffier panicles. This blooms later to match 'Grand Cascade' and will serve as a season extender.

Callicarpa dichotoma 'Issai'

Beautyberry

Zone 5. A shrub that dies back each winter but blooms and fruits on new wood with dazzling purple berries at the end of the season. Has performed well at the Arb.

Calycanthus floridus

Sweetshrub

Zone 4. 6'H x 4-5'W. Valued for the sweet, fruity fragrance of its flowers. Dense, rounded, well-branched deciduous shrub boasting a profusion of dark red flowers. from mid-spring to mid summer.

Carpinus caroliniana

Blue Beech/Musclewood/American hornbeam

Zone 3. 20-35'H x 20-35'W. The American hornbeam is a native forest understory tree, making it useful for shady landscapes and naturalized or woodland gardens. New leaves emerge reddish-purple, changing to dark green, then turn yellow to orange-red in the fall. Even in winter, the tree's fluted blue-gray bark with long, sinewy ridges make it a special addition to the landscape.

Cephalanthus occidentalis

Fiber Optics

Zone 4. 4-6'H x 4-6'W. Buttonbush is a distinctive native shrub with spherical pincushion blossoms composed of dense clusters of tiny white or pale-pink tubular flowers. The fragrant blooms are attractive to a wide array of pollinators including butterflies.

Cornus sericea 'Isanti'

Dogwood

Zone 3. 4-5'H x 4-5'W. Isanti Dogwood has clusters of creamy white flowers at the ends of the branches in late spring. It has dark green deciduous foliage. The pointy leaves turn an outstanding brick red in the fall. It produces white berries in late summer. The red branches are extremely showy and add significant winter interest.

Exochorda x macrantha 'Bailmoon'

First Editions® Lotus Moon™ Pearlbush

4-8' H. VI. Known as a pearlbush, this spring bloomer is covered in white round flower buds resembling pearls. Buds open to clear white blooms in April and May, and has bright green foliage on the compact, upright, mounded plant.

Forsythia 'Meadowlark'

Forsythia

Zone 3. 6-8'H x 6-8'W. The harbinger of spring, with prolific yellow flowers smothering the branches in early spring ahead of the leaves, the rest of the year rather unassuming; an upright cultivar with a more controlled habit than the species, one of the hardiest varieties.

Hamamelis virginiana

Witch Hazel

Zone 3. A native shrub or small tree with a multi-stemmed trunk and spreading branches that form an irregular, open crown. Mature plants can reach heights of 25 feet, however 12 to 15 feet is typical. Despite its stunning fall leaf color, Witch Hazel is best known for its fringed yellow flowers which appear in late fall and stay on the branches long after the leaves have dropped. Even in the cold Midwest, the blooms persist into November and beyond. Great fall color, winter interest, a large vase shape, fragrant flowers, and fruit for the birds are features that make this a very popular landscape shrub.

Heptacodium miconioides 'Minhep'

First Editions® Tianshan® Seven-Son Flower

8-12' H x 35-7'W. This new cultivar is named after the mountain range in China where the species is native. Clusters of fragrant, creamy-white flowers appear in late summer, with each whorl containing 7 flowers. The blooms are followed in autumn by unusual purplish-red fruits. This small plant is well branched and forms a rounded, upright shrub or small tree with dark green shiny foliage that turns yellow in late fall. Exfoliating bark is very attractive in the winter. The flowers are a Monarch and pollinator magnet. Listed as Zone 5.

Hydrangea arborescens 'Annabelle'

Smooth Hydrangea

Zone 3. 3-5'H x 4-6'W. In July, it produces huge (8-12") round heads of pure white blooms that remain attractive into September and can be cut for fresh or dried arrangements. Its small scale and summer flowering make it a good choice for the mixed border, partial shade and evenly moist but well-drained soil.

Hydrangea arborescens 'NCHA5'

Invincibelle Wee White® Smooth Hydrangea

12-30"H x 24-36"W. First dwarf hydrangea in the world! Naturally grows as a tidy, rounded mound. Each flower emerges a soft, blush pink before changing to white, and is held up on a strong, supportive stem.

Hydrangea paniculata 'Renba'

First Editions® Berry White® Panicle Hydrangea
6-7' H x 4-5'W. This variety has abundant, long lasting, rounded flower heads that start white and progress to pink, intense raspberry red and finally wine red. Flowers start blooming in July and take on red coloration early in the season. Flower color is best in the fall when night temperatures are 10 degrees cooler than day temperatures.

Hydrangea paniculata 'Ivobo'

Bobo® Hardy Hydrangea
30" H x 36"W. Compact and dwarf in habit, and the white flowers cover every inch of the plant right down to the ground.

Hydrangea paniculata 'Limelight'

Hardy Hydrangea
72" H x 96"W. Huge, football-shaped flowers open in a celadon green that looks fresh and clean in summer's heat. The blooms age to an array of pink, red, and burgundy which persists through frost for months of irresistible flowers.

Hydrangea paniculata 'Jane'

Little Lime® Hardy Hydrangea
3-4' H x 3-4'W. The same refreshing color as 'Limelight', on a shrub about one-third the size. Produces large, tightly packed, green blossoms that turn shades of vintage pink in the fall.

Hydrangea paniculata 'SMHPLQF'

Little Quick Fire® Hardy Hydrangea
36" H x 60"W. Early blooming, dwarf hydrangea. White flowers transform to pinkish red as summer progresses.

Hydrangea paniculata 'Dvppinky'

Pinky Winky® Hardy Hydrangea
6-8' H x 5-6'W. Dense, cone-shaped, exceptionally large panicles of two-toned flowers. Flowers emerge white, maturing to dark pink. Dark green leaves take on purple tinge in fall.

Ilex 'Sparkleberry'

Winterberry
Zone 4. Oval to rounded, deciduous shrub with rich, deep green foliage. Bright red berries appear from late summer to early fall. New foliage growth emerges showy red. Grows best in moist, rich, acidic, well-drained soil, yet tolerant of wet soils as well. Best flower and berry production in full sun.

Magnolia 'Ann'

Magnolia
Matures to: 8-10'H x 8-10'W. Zones 3-8. Perfect for small gardens. Blooms at an early age, makes an elegant specimen tree. A slow-growing deciduous shrub or small tree with slightly fragrant reddish-purple flowers in mid to late spring. Chalice-shaped blossoms are up to 4" across, 6-8 erect tepals.

Magnolia 'Betty'

Magnolia
Matures to: 10-15'H x 10-15'W. Zones 4-8 A wonderful specimen tree. Spectacular purple-pink cup-shaped flowers with white inside appear in spring before the leaves. These magnolias are easy to grow, low-maintenance, frost-hardy, and smaller than some of their relatives.

Magnolia x loebneri 'Encore'

Magnolia
Matures to: 8-15'H x 6-15'W. Zones 4-8. Slow-growing and very floriferous, a medium to large deciduous shrub or small tree of remarkable beauty. Flowers open from soft pink buds, to fragrant white flowers and are adorned with a delicate pink tinge, opening in succession for a long-lasting spectacle in early spring.

Magnolia 'Jane'

Magnolia
Matures to: 10-15'H x 8-12'W. Zones 4-8. Flowers are fairly large, especially relative to the overall size of the plant, Under ideal conditions, the blooms can reach 8" across when fully open. Flower color is displayed in two different time periods. When the flower is still closed, the color is burgundy-purple, and the flowers are shaped like tulips. After the flower has been fully open, the color fades to pink and white.

Magnolia x loebneri 'Leonard Messel'

Magnolia
Matures to: 10-15'H x 8-12'W. Zones 4-9. A delightful specimen that develops stunning, bi-colored flowers on bare stems at an early age. The petals of the exquisite star-magnolia-like blooms have rosy-purple undersides and crisp white topsides. Green foliage emerges after the flowers in the spring. Excellent for use as a spectacular large shrub of a small multi-trunk specimen tree.

Magnolia x loebneri 'Merrill'

Magnolia
Matures to: 20-30'H x 20-30'W. Zones 5-9. Vigorous and very free-flowering, an outstanding deciduous tree. In early to mid-spring, masses of large 4" white flowers appear before foliage. Each fragrant blossom is packed with 15 broad tepals delicately blushed with pink. Blooms at a young age.

Magnolia 'Pinkie'

Magnolia
Matures to: 10-15'H x 8-12'W. Zones 5-9. Perfect for small gardens, Pinkie is a compact, multi-stemmed shrub or small tree with abundant blossoms in mid to late spring. It produces masses of large, cup-shaped flowers, 7-8" across, with 9-12 broad tepals, reddish-purple fading to pale pink and then white.

Magnolia x loebneri 'Raspberry Fun'

Magnolia

Matures to: 8-12'H x 8-12'W. Zones 5-9. Perfect for small gardens, a slow growing deciduous shrub or small tree. Produces slightly larger flowers with numerous petals (16-18). They are deeper pink outside and pale pink inside. Being almost 2 weeks later in blooming, they often escape late frosts.

Magnolia 'Roseanne'

Magnolia

Matures to: 15-20'H x 15-20'W. Zones 4-9. An exceptionally hardy hybrid by Dennis Ledvina. Flowers have six or seven broad tepals which are rich lavender-pink on the outside and a soft pink on the inside. The tepals retain upright form.

Magnolia 'Simple Pleasures'

Magnolia

Matures to: 8-10'H x 8-10'W. Zones 4-8. Blooms at a young age with light lavender-pink, cup-shaped, slightly fragrant flowers. The mid-season bloomer is extremely flower bud hardy.

Magnolia 'Susan'

Magnolia

Matures to: 8-12'H x 8-12'W. Zones 3-8. Perfect for small gardens, a slow growing deciduous shrub or small tree with fragrant reddish-purple flowers in mid to late spring. Narrow goblet-shaped 5" blossoms bloom primarily in in spring and may continue to bloom sporadically thereafter where moisture is adequate.

Magnolia 'Wada's Memory'

Magnolia

Matures to: 30-40'H x 25-30'W. Zones 5-8. Extremely floriferous and widely popular, a medium-sized deciduous tree of spectacular beauty when in full bloom. Produced in profusion in early to mid-spring, the scented, semi-double white blossoms are tulip-shaped, upward-facing and quite large at 7" across. A standout tree in the landscape!

Magnolia stellata 'Waterlily'

Magnolia

Matures to: 10-20'H x 8-15'W. Zones 4-8. Commonly called Star Magnolia, is native to Japan. It is a small deciduous tree the typically grows 15-20' tall with a spreading, rounded crown. It is also often grown as a large oval to rounded shrub. It is noted for its compact size and early spring bloom of star-shaped white flowers. Each flower typically has 12-18 narrow strap-like tepals.

Malus 'Haralson'

Apple Tree

Introduced in 1922 by the University of Minnesota. This variety produces large, tart apples that are very firm. They are excellent for pies and also for fresh eating for those who prefer eating hard, tart apples. Haralson apples hold their shape well when sliced and cooked in a pie.

Malus 'Honeycrisp'

Apple Tree

Developed at the University of Minnesota decades ago, The 'Honeycrisp' remains a standing favorite among commercial growers and home gardeners. This is one of the best eating apples around. The fruits are sweet, firm and tart.

Malus 'Honeygold'

Apple Tree

Introduced in 1970 by the University of Minnesota. Golden to yellow-green fruit that is sweet, crisp, and juicy. Excellent for fresh eating and also good for cooking. The fruit will store for 2 to 3 months. The tree is easy to manage but susceptible to fire blight.

Malus 'Wildung'

SnowSweet® Apple Tree

Introduced in 2006 by the University of Minnesota. The SnowSweet® Apple is sweet with a slight tart balance and rich overtones. Savory, sweet tasting apple, with a slight tart balance and rich overtones. Amazingly slow to turn brown when cut. Appealing, large, bronze-red blush fruit. Excellent for fresh eating, snack trays, and salads.

Malus 'Sweet Sixteen'

Apple Tree

Introduced in 1977 by the University of Minnesota. Crisp and juicy with an exotic yellow flesh and a very sweet, unusual sugar cane or spicy cherry candy flavor. The fruit stores for 5 to 8 weeks. The tree is very vigorous.

Malus 'MN80'

Triumph® Apple Tree

University of Minnesota release with trees first available in 2021. It has a firm but crisp texture, sweet-tart balance of flavor, good storage life and an attractive red overcolor, strong disease resistance and contains two genetic forms of resistance to apple scab, one of the most common diseases of apples.

Malus 'Minnewashta'

Zestar!® Apple Tree

Introduced in 1999 by the University of Minnesota. The most outstanding feature of a Zestar!® Apple is its sprightly sweet-tart taste, unlike other early season apples that are often soft or mealy, Zestar!® is juicy with a light, crisp texture. Just one bite, and you will savor the zesty flavor and crunch.

Ostrya virginiana

Ironwood

20–40'H x 15–30'W. Showy, shaggy bark provides winter interest and a planted row can be pruned to create an interesting hedge. Plant in a lawn, along a driveway, street, or in a woodland garden. Possible host plant for Red-spotted Purple and Eastern Tiger Swallowtail butterflies. Nutlets are eaten by songbirds, wild turkeys, quail, and small mammals. Witches' brooms that commonly occur on this tree provide a home to many invertebrates eaten by songbirds, especially during winter.

Philadelphus 'Miniature Snowflake'

Mockorange

Zone 4. 3–4'H x 3–4'W. A dwarf flowering shrub with a natural vase shape. Wonderfully fragrant double flowers provide a delightful spring landscape accent. Densely branched with attractive, lush green foliage. Cut stems are great for floral arrangements. Deciduous.

Physocarpus opulifolius 'UMNHarpell'

First Editions® Fireside® Ninebark

8' H x 8'W. U of MN introduction. Leaves are glowing red as if on fire in spring, maturing a dark purple; white flowers in late spring are great for pollinators.

Physocarpus opulifolius 'Center Glow'

Ninebark

8' H x 8'W. Leaves have centers of golden green, orange, and copper tones surrounded by dark red purple changing into shades of red as summer takes over.

Potentilla fruticosa 'Jefman'

First Editions® Mandarin Tango® Potentilla

Zone 2. 2–3'H x 2–3'W. Full sun. The 1" single round flowers are a lovely shade of orange with just a hint of red. Beautifully compact, it forms a rounded shrub reaching only 2–3' in height and spread, making it perfect for the foundation. Deer resistant.

Prunus 'Alderman'

Plum Tree

Introduced in 1986 by the University of Minnesota. Alderman Plum is a small tree that is commonly grown for its edible qualities. It produces red oval fruit (technically 'drupes') with gold flesh which are usually ready for picking from late summer to early fall. Note that the fruits have hard inedible pits inside which must be removed before eating or processing. The fruits have a sweet taste and a juicy texture.

Prunus 'Meteor'

Cherry Tree

Introduced by the University of Minnesota. Meteor cherry is a genetically dwarf tree that reaches 8–10 feet tall. This self-pollinating cherry produces sour fruit 2–3 years after planting. The fruit are large and shiny red- the popular image of a cherry. Harvest the fruit for pies, sauces, and eating straight from the tree. For the best fruit production plant other cherries nearby, ensure good air circulation, and plant the trees in full sun.

Prunus virginiana var. melanocarpa

Western Chokecherry

6–10 ft. A chokecherry with longer flower clusters and edible (a little better than regular chokecherry) fruit.

Rhododendron 'Candy Lights'

Azalea (Lavender, Pink)

University of Minnesota introduction 2001. Light pink, pale yellow streaks, very fragrant. The 'Lights' series of azaleas brings the colors of the tropics to Minnesota's early spring landscape.

Rhododendron 'UMNAZ 493'

First Editions® Electric Lights Double Pink™ Azalea

University of Minnesota introduction 2015. True pinkink, double-flowering, Buds are hardy to -30F, blooms for 7 weeks. The 'Lights' series of azaleas brings the colors of the tropics to Minnesota's early spring landscape.

Rhododendron 'UMNAZ 502'

First Editions® Electric Lights Red™ Azalea

University of Minnesota introduction 2015. Fiery red, blooms early, compact, shiny foliage, buds are hardy to -30F. The 'Lights' series of azaleas brings the colors of the tropics to Minnesota's early spring landscape.

Rhododendron 'Lemon Lights'

Azalea (Yellow)

University of Minnesota introduction 1996. Lemon yellow, narrower and more upright plant. The 'Lights' series of azaleas brings the colors of the tropics to Minnesota's early spring landscape.

Rhododendron 'Lilac Lights'

Azalea

University of Minnesota introduction 1992. Pinkish-purple, darker speckles on upper lobes. The 'Lights' series of azaleas brings the colors of the tropics to Minnesota's early spring landscape.

Rhododendron 'Mandarin Lights'

Azalea

University of Minnesota introduction 1992. Beautiful, bright, mandarin-orange, extremely hardy. The 'Lights' series of azaleas brings the colors of the tropics to Minnesota's early spring landscape.

Rhododendron 'Northern Hi-Lights'

Azalea (Cream)

University of Minnesota introduction 1994. Creamy white, bright yellow upper petal. The 'Lights' series of azaleas brings the colors of the tropics to Minnesota's early spring landscape.

Rhododendron 'Rosy Lights'

Azalea

University of Minnesota introduction 1984. Deep rosy-pink, abundant blossoms, hardy to -45F. The 'Lights' series of azaleas brings the colors of the tropics to Minnesota's early spring landscape.

Rhododendron 'Tri-Lights'

Azalea (White/Yellow/Pink blend)

University of Minnesota introduction 2000. Soft pink, deeprose buds, yellow upper petal highlight. The 'Lights' series of azaleas brings the colors of the tropics to Minnesota's early spring landscape.

Ribes rubrum 'Red Lake'

Red Currant

3-6' H. Clusters of large bright red berries borne on 2-3-year-old wood. Semi-erect and vigorous. Very productive. Fruits are good for jams and jellies. Self-pollinating. Ripens July-August. 1933 U of MN Introduction.

Rubus 'Boyne'

Red Raspberry

Boyne raspberry is an early-season variety that is extremely winter hardy. It consistently produces deep-red, medium-sized berries. The medium sweet, aromatic flavor makes it great for freezing and jam.

Rubus idaeus 'Fallgold'

Yellow Raspberry

After a late summer to fall harvest, a second crop arrives the following spring on the same canes. Excellent fresh or for preserves and pies. The warm yellow berries brighten the garden. Deciduous.

Rubus idaeus 'Heritage'

Red Raspberry

Everbearing red raspberry is a favorite for its flavor, firmness and fruit size. This variety produces abundant crops of large, sweet, dark red berries that are perfect for eating fresh, canning, freezing, or making jams and jellies. These self-supporting, upright canes are hearty enough to grow in poor soil, but requires a well-drained site.

Rubus idaeus 'Souris'

Red Raspberry

A red raspberry developed at the Morden Research Station in Manitoba has extreme hardiness and tasty red fruits in midsummer.

Salix candida 'Jefberg'

First Editions® Iceberg Alley® Sageleaf Willow

3-6 ft tall and wide. Powdery, silver foliage of this small shrub is a great addition to the landscape, adding texture and contrast when combined with other shrubs. Forming a rounded shrub and does not overtake the landscape, reaching a height and spread of about 5' (a bit shorter in very cold areas and a bit taller in warmer zones). It blooms in spring with silver catkins, red stamens and nectar for pollinators. Tolerant of moist soils and a good choice for rain gardens. Grows best in full sun and tolerates pruning beautifully. Consider cutting the stems in early spring for the decorative catkins.

Salix purpurea 'Nana'

Dwarf Arctic Willow

Zone 4a. 5'H x 6'W. A beautiful and popular garden shrub with fine foliage, fine whip-like branches and a consistent, rounded habit of growth; quite hardy, takes pruning well; use for its form and texture to create interest in the garden. Dwarf Blue Arctic Willow has bluish-green deciduous foliage. The narrow leaves turn yellow in fall. The smooth bark and deep purple branches add an interesting dimension to the landscape.

Sambucus nigra 'Eva'

Black Lace® Elderberry

6-8'H x 6-8'W. Black Lace® elderberry is a perfectly stylish addition to your landscape. Intense purple black foliage is finely cut like lace, giving it an effect similar to that of Japanese maple. Indeed, some designers are using it in place of more sensitive plants since Black Lace is extremely durable and adaptable. Pink flowers in early summer contrast with the dark leaves for a stunning effect and give way to black berries if a compatible pollinator is planted nearby.

Syringa 'SMSJBP7'

Bloomerang® Dark Purple Reblooming Lilac

4-5' H. Blooms in spring and then again throughout the summer. It goes through a rest period in the heat of the summer, then flowers. While traditional lilac varieties bloom for a few short weeks in spring, Bloomerang's fragrant flowers continue until frost.

Syringa vulgaris 'Charles X'

Common Lilac

A breathtaking spring blooming shrub featuring excruciatingly fragrant violet-purple blooms in upright panicles; upright, compact habit, very hardy, tends to sucker, ideal as a low screen; full sun and well-drained soil, allow room for air movement. Zones 4-8. Matures to:6-8'H x6'W.

***Syringa x hyacinthiflora* ‘Declaration’**

Hyacinth Lilac

8’ H. US National Arboretum introduction with large, deep reddish purple, fragrant flowers and blooms a week to 10 days earlier than the common lilac.

***Syringa sweginzowii* ‘Densiflora’**

Chengtou Lilac

This rare variety is single flowered, wonderfully fragrant, and pink in color. Zones 4-7. Matures to: 8-12’H x 6-8’W.

***Syringa x hyacinthiflora* ‘Doctor Chadwick’**

Hyacinth Lilac

An early bloomer with single, violet-blue flowers. This species is the common lilac, also referred to as French Lilac, that most are familiar with; extremely fragrant flowers on 4 to 8 inch dense panicles, appearing in late spring to early summer. Zones 4-8. Matures to: 15-18’H x 10-12’W.

***Syringa meyeri* ‘Palibin’**

Dwarf Korean Lilac

4-6’H x 5-7’W. A dwarf, spreading lilac with reddish purple buds that open to fragrant, pale lilac flowers. Blooms profusely in midseason, typically mid-May, and first flowers at an early age. Use in shrub borders with an evergreen background or plant in groups to form a low hedge. Deciduous.

***Syringa pubescens subsp. patula* ‘Miss Kim’**

Manchurian Lilac

4-9’H x 5-7’W. The leaves are dark green, elliptic to ovate in shape, and measure 3-5 inches long. In the fall, the leaves turn a burgundy red. The lavender flowers are showy, fragrant, and make an excellent cut flower. ‘Miss Kim Lilac’ attracts butterflies and hummingbirds and is deer resistant.

***Syringa patula* ‘Klmone’**

Dream Cloud™ Manchurian Lilac

4-5’H x 4-5’W. Covered in fluffy panicles of pink flowers—so much so that there’s hardly a trace of the leaves to be seen. A spectacular sight to see, these blooms measure 12” long x 9” wide!

***Syringa* ‘Fountain’**

Hybrid Lilac

10-12’H x 10-12’W. Rare lilac dating back to 1950. A lovely flowering deciduous shrub. Fragrant blooms are pinkish-white flowers that hang downward.

***Syringa josikaea* ‘H. Zabel’**

Hungarian Lilac

8-12’H x 6-8’W. This rare variety is single flowered, wonderfully fragrant and lilac-violet in color.

***Syringa vulgaris* ‘Henri Martin’**

Common Lilac

10-12’H x 8-10’W. This rare lilac dates from 1912 and is part of the legacy of the French breeding dynasty “Lemoine”. The variety is named after Bon Lois Henri Martin, a French historian of the 18th century and author of the works “Histoire de France”. This wonderful lilac will provide an abundance of delightful lilac-pink and fragrant blooms in spring.

***Syringa x prestoniae* ‘Hiawatha’**

Preston Lilac

6-8’H x 6’W. This rare lilac dates back to 1932. Closed single magenta colored flower heads, unique flower formation, very fragrant, 4-lobed tubular flowers. Blooms in late spring or early summer.

***Syringa x prestoniae* ‘Jessica’**

Preston Lilac

8-12’H x 6-8’W. This rare lilac dates back to 1928. Lovely, fragrant, mauve-pink single flowers

***Syringa x hyacinthiflora* ‘Minnehaha’**

Hyacinth Lilac

10-12’H x 8-10’W. This rare lilac dates from 1932. Amazingly fragrant pinkish single flowers.

***Syringa x prestoniae* ‘Nerissa’**

Preston Lilac

8-12’H x 6-8’W. This rare lilac is single flowered, wonderfully fragrant and magenta in color.

***Syringa x prestoniae* ‘Patience’**

Preston Lilac

8-12’H x 6-8’W. This rare variety is single flowered, beautifully fragrant, and lavender in color.

***Syringa vulgaris* ‘Priscilla’**

Common Lilac

6-8’H x 4-6’W. A rare lilac that dates back to 1944. Very large florets with a lovely lavender cast, and intoxicating fragrance.

***Syringa vulgaris* ‘Sensation’**

Common Lilac

Zone 3. 8-10’H x 8-10’W. An outstanding lilac noted for its large trusses of purple-red florets edged in white. A mid-season bloomer that typically flowers in mid-May. Branches are erect and open with rich green foliage. Use to create a beautiful spring flowering hedge, screen, or accent.

***Syringa* ‘Bailbelle’**

Fairytale® Tinkerbelle® Dwarf Lilac

5-6’ H. A compact lilac that exhibits a growth habit and bloom time like Dwarf Korean, but with a pleasing, spicy fragrance and incredible wine-red flower buds that open to pink.

***Syringa vulgaris* 'Eldancer'**

Tiny Dancer™ Lilac

4-8'H x 3-4'W. Compact form, makes it ideal anywhere hard-working and independent plants are needed, in addition to the cold-hardiness expected from a lilac. Violet-purple buds open into lavender flowers, ranking it among the dogwoods and azaleas as a benchmark of spring. Large panicles measure 4 to 5 inches, and the large florets make each cluster appear luxuriously full.

Syringa reticulata

Japanese Tree Lilac

Zone 3. 15-20'H x 15-20'W. Abundant white fragrant flower spikes bloom in early summer, unique, uniform branching habit and thick, dark leaves. Tolerant of urban conditions. Ideal for small gardens and residential landscapes.

***Syringa x hyacinthiflora* 'Bailbridget'**

Virtual Violet® Lilac

First Editions® lilac with very fragrant flowers and disease resistant foliage.

***Vaccinium corymbosum* 'MNPINK1'**

Pink Popcorn® Blueberry

5' H x 5'W. Highbush blueberry that bears attractive pink berries that ripen early to a creamy pink with a dark pink blush. Yellow fall foliage. Red winter branches. 2014 U of MN Introduction.

***Vaccinium* 'Chippewa'**

Blueberry

2-3' H x 2-3'W. Firm, large, light blue berries with balanced flavor. Mid-season. 1996 U of MN Introduction.

***Vaccinium* 'Northblue'**

Blueberry

2-3' H x 2-3'W. Dark blue fruit. Good blueberry flavor. Glossy, dark green leaves turn to deep bright red in fall. 1983 U of MN Introduction.

***Vaccinium* 'Northcountry'**

Blueberry

1-2' H x 2-3'W. Sweet and mild, sky-blue fruit. 1988 U of MN Introduction.

***Viburnum trilobum* 'Bailey Compact'**

American Cranberrybush

4-5' H x 3-4'W. This low-key shrub is perfect for the back of a border, where its dense form will create a backdrop for showier summer plants. Come fall, however, it stands out with deep burgundy foliage and large, bright red berries.

***Viburnum* 'Emerald Triumph'**

Viburnum

8 ft. A viburnum with rugged emerald green leaves and white flowers that produce fruits that turn red in late summer and ripen black in the fall

***Weigela florida* 'Bokrasopin'**

Sonic Bloom® Pink Reblooming Weigela

4-5'H x 4-5'W. Zone 4. The most bountiful blooming Weigela there is! The hot pink flowers first make their appearance in May and continue to rebloom until the first frost. Deadheading? Not necessary for this Weigela to give a strong show. It will be attracting hummingbirds all season while being resistant to deer.

MINNESOTA NATIVES

Grown by the Arboretum's Plant Conservation Program

Actaea racemosa

Black Cohosh, Black Snakeroot

"Black Snakeroot" or "Black Cohosh" can grow as tall as 6 feet. I've even seen it shoot up to 9 feet at Rainforest Gardens in British Columbia. I love the fragrance of its long spikes of fluffy white flowers in midsummer. Easy to grow in full to part shade.

Adiantum pedatum

Maidenhair Fern

10"H. A deciduous perennial fern with handsome, black shiny stems and graceful, bright green fronds spreading horizontally in a circular pattern.

Allium stellatum

Prairie Onion

8-18"H. A single, leafless, flowering stem (scape) rises from the center of the rosette of leaves. When in bud, the scape bends downward (nods) at the top, and the umbel faces toward the ground. By the time the flowers are fully mature the scape is erect and the flowers face upward.

Amorpha canescens

Lead Plant

18-24"H x 24-30"W A small-growing native shrub with steel blue flowers that brings a welcome splash of color to the midsummer garden.

Anaphalis margaritacea

Pearly Everlasting

Pearly everlasting is native to North America and Asia, but as a widely-cultivated ornamental it has greatly increased its range. It is often used in dried flower arrangements. It was used by Native Americans as a substitute for tobacco, and as a medicinal herb.

Andropogon gerardii

Big Bluestem

4-6'H x 2-3'W Clumping perennial grass. In spring, glaucous stems and leaves rise from the earth. By late summer plants have bluish-green foliage with purplish tassel-like flowers. Leaves turn various shades of earthy red and orange in fall. Leaves and seed heads develop an amber winter color.

Anemone cylindrica

Thimbleweed

12-24" Flowers are small and greenish white but produce long thimble-shaped fruits that are the best ornamental feature, especially in the fall and winter when they start to shed seeds and have a cottony appearance that shines in the low light.

Anemone patens

Pasque Flower

3-18" H Flowers are a beloved sight in early spring; the crocus in chinchilla fur according to Eloise Butler. Fruits are an equally showy wildy hairdo plume set above the beautiful deeply cut foliage.

Aquilegia canadensis

Wild Columbine

1-3' H. Lovely pendant red flowers with a center of yellow honeycomb entice ruby-throated hummingbirds to pollinate them. A short-lived perennial best allowed to self sow.

Arisaema dracontium

Jack-in-the-Pulpit

"Green Dragon" can get quite tall if given the moist, rich soil and shade that it loves. It's very easy to grow and puts out a very large spathe with a single five bladed leaf. A mature plant can grow up to 4 feet tall under favorable conditions.

Arisaema triphyllum

Jack-in-the-Pulpit

One to two large, glossy leaves, divided into three leaflets, rise on their own stems up to about 2 feet tall. The intriguing blossom of this woodland perennial occurs on a separate stalk at the same height as the leaves. It is a large, cylindrical, hooded flower, green in color with brown stripes. Distinctive "Jack-in-the-Pulpit" formation grows beneath large leaves. A cluster of bright red berries appears in late summer.

Asclepias incarnata

Swamp Milkweed

3-4' H. Lovely vanilla fragrance coming from large rosy pink flowers possibly hosting several Monarch or Swallowtail butterflies.

Asclepias speciosa

Showy Milkweed

A stout, sparingly branched, pubescent perennial, 1 1/2-3 ft. tall, with large, oval, blue-green leaves and showy, spherical clusters of rose-colored flowers. Flowers occur at the top of the stem and on stalks from leaf axils. A grayish, velvety plant with erect leafy stems and with umbels of star-like pinkish flowers in upper axils and at top. Sap milky.

Asclepias tuberosa

Butterfly Weed

12-30' H. Features clusters (umbels) of bright orange to yellow-orange flowers atop upright to reclining, hairy stems with narrow, lance-shaped leaves.

Asclepias verticillata

Whorled Milkweed

1-2' H. A deep-rooted perennial that forms colonies from underground rhizomes. The leaves are narrow and linear. At season's end, foliage develops yellow fall color. This late bloomer is among the last milkweeds to go dormant. This makes it a very valuable late season food source for Monarch butterflies and their caterpillars. Bees, beneficial wasps, butterflies and skippers seek the floral nectar, but foliage is unpalatable to deer and rabbits.

Athyrium filix-femina

Lady Fern

Highly variable in appearance over its range, Subarctic lady fern is typically a large, clustered fern, 2-3 ft. tall. Its light-green color and twice-pinnate fronds with finely toothed leaflets create the illusion of a dainty fern, despite its large size. Stems are greenish-yellow to red.

Baptisia alba

White False Indigo

This 2-4 ft., mound-shaped perennial holds its white, pea-like flowers in erect clusters. Velvety, trifoliolate leaves turn from bluish-gray to black in the fall. A bushy perennial with smooth leaves and white or cream-colored pea flowers in stiffly erect clusters; stem covered with whitish bloom. Clusters of large, black seed pods often remain attached to the naked winter stems.

Baptisia australis

Blue False Indigo

Rising 2-4 ft. high from a woody base, blue wild indigo is a bushy, robust perennial. Flowers are blue-purple and pea-like, congested in dense, upright, terminal spikes, 4-16 in. long. Leaves are divided into three leaflets.

Baptisia bracteata

Cream False Indigo

10-30”H. Dense cascading raceme of creamy yellow pea-shaped flowers, often touching the ground from the weight of the blooms. Flowers are $\frac{1}{2}$ to 1 inch long, with a broad upper petal (standard) flaring up, cleft in the middle, the large lateral wings below it extending forward, enclosing from above but spreading below to reveal the two keel petals underneath.

Bouteloua curtipendula

Sideoats grama

Side-oats grama is a bunchy or sod-forming grass with 2-3 ft. stems in erect, wiry clumps. Purplish, oat-like spikelets uniformly line one side of the stem, bleaching to a tan color in the fall. The basal foliage often turns shades of purple and red in fall.

Bromus kalmii

Arctic brome/Prairie brome

Flowering head is an open panicle 4 to 6 inches long, nodding to one side, the branches arching, drooping at the tips with 1 to 3 spikelets (flower clusters) per branch. Spikelets are stalked, oblong-elliptic in outline, slightly flattened, 15 to 25+ mm (to 1+ inch) long, with 6 to 13 florets. One or more sterile florets may be at the tip.

Callirhoe triangulata

Clustered Poppy Mallow

16-40”H. Clusters of several short-stalked flowers at stem tips and arising from upper leaf axils. Flowers are 1 to 2 inches across with 5 petals, bright pink to magenta to nearly red. In the center is a column covered in pale pink stamens with several whitish styles at the tip.

Caltha palustris

Marsh Marigold

A succulent plant with glossy, heart- or kidney-shaped leaves and a thick, hollow, branching stem with bright, shiny yellow flowers. Yellow marsh-marigold is a mounded perennial, 1-2 ft. tall, with thick stems; broadly heart-shaped leaves; and clusters of large, showy, buttercup-like, yellow flowers.

Campanula americana

Tall Bellflower

3-5’H. Tall Bellflower attracts hummingbirds with bright blue flowers on a tall spike, arising from a base of deep green foliage. Growing three to five feet high, the bright blooms add a splash of mid and late-summer color to the shade garden. Easy to grow.

Campanula rotundifolia

Harebell

1-2’H. Harebell (*Campanula rotundifolia*) blooms in early summer and often re-blooms in fall. Blue-violet bell shaped flowers nod on slender, wispy stems up to 12 inches high. While delicate in appearance, Harebell is a tough little plant. Extremely drought tolerant, it loves dry sandy and gravelly soils making it a good species for rock or xeric gardens, and semi-shaded slopes. Harebell is a “circumpolar” native species, found growing around the world in the Northern Hemisphere. The name is said to come from a folk belief that witches used the plant to transform themselves into hares.

Carex sprengeii

Long-beaked Sedge

1-3’H x 2’W. *Carex sprengeii* is a lovely cool season woodland sedge. Plants form small colonies from short rhizomes. Foliage is bright green to chartreuse and semi-evergreen with narrow glossy blades. In early spring greenish-white or pale yellow spikelets are held above the leaves. Pendulous green to brown seed heads with long beaks follow. In the wild, this sedge occurs in partial sun or shade in moist or wet woodlands. In landscape situations, *Carex sprengeii* is an excellent groundcover or accent.

Carex muskingumensis

Palm Sedge

2-3’H. Palm Sedge, *Carex muskingumensis*, has glossy green leaves that branch out from the main stem, reminiscent of a palm tree. Native to wooded lowlands, Palm Sedge does best in slightly damp soil in sun or shade. Widely used in landscaping, it makes an excellent groundcover and thrives on clay soils. Plant one foot on center for a groundcover or small patch, or use individually as a foliage accent plant.

Carex pensylvanica

Common Oak Sedge

6-12”H x 6-12”W. Pennsylvania Sedge, *Carex pensylvanica*, is a popular lawn alternative for home landscaping, with fine textured leaves and a creeping habit. Reaching heights of only 8” when in bloom, Pennsylvania Sedge grows actively in spring and fall when soil temperatures are cooler. Planted one foot on center, it fills-in to form a dense low growing turf that doesn’t need mowing. Requires a well-drained dryer soil, in partial to full shade.

Chamaecrista fasciculata

Partridge Pea

Sleeping Plant or partridge-pea is a slender-stemmed, 1-3 ft. annual with pinnately-compound leaves bearing many small, yellow-green leaflets which fold together when touched.

Chamaelirium luteum

Fairy Wand

12” - 24” spikes of soft fluffy white flowers from a tight basal rosette on this native woodland plant. Male and female flowers are produced on separate plants.

Chelone glabra

White Turtlehead

This smooth plant has tight terminal clusters of white (often lavender-tinged) tubular, 2-lipped flowers resembling turtle heads. White turtlehead, a robust perennial, grows 1-4 ft. tall. Its erect stems end in spikes of white flowers, the shape of which suggests a turtle head. The leaves are elongate and arranged opposite each other along the stem.

Claytonia virginica

Spring Beauty

Similar in culture and flower as *Claytonia caroliniana*, but with more elongated and narrow foliage.

Claytonia umbellata

Great Basin Spring Beauty

Really cool, globular black berries follow umbels of bright white flowers on 6" to 16" stems. This species is stoloniferous and will make a tidy little display clump in just a year or two. She prefers a moist, cool root run in humusy rich soil.

Clinopodium vulgare

Wild Basil

8-24" H. Rose pink to lavender flowers, flowers _ in loose whorls around the upper stem. Woodland and meadow native blooming in late summer and valuable to pollinators.

Coreopsis palmata

Prairie Coreopsis

1-3' H. Yellow flowers 1_ to 2 inches across with 8 to 12 petals. The center is yellow and turns brown with maturity.

Cymophyllus fraserianus

Fraser's Sedge

Dense clumps of evergreen leaves. Its leaves are 8-24" long, up to 2" wide, smooth, shiny, leathery, with many faint parallel veins but no midvein; leaf margins are wavy and finely toothed. Flower stalk is 8-24" tall, with 4-6 sheaths wrapped around base and topped by a spike of white flowers. Female flowers are held on lower portion of spike and produce 20-30 white fruit sacs (perigynia) per spike, each enclosing a small, 3-sided fruit. Male flowers are held on upper portion of spike and consist only of stamens. Fruits are 3-sided nutlets, each about 0.1".

Cypripedium reginae

Showy Lady's Slipper

3' H. Pink slippers surrounded by white petals and sepals. Minnesota State flower.

Dalea candida

White Prairie Clover

15-18" H. Showy white flowers that are sweetly fragrant and very attractive to butterflies.

Dalea purpurea

Purple Prairie Clover

24-30" H. Showy purple flowers that have orange contrasting stamens are a favorite of native bees.

Delphinium exaltatum

Tall Larkspur

48"H x 12"W. The tall flowering stem has many blue to purple and occasionally white flowers in clusters from July to Sept. that attract bees, butterflies and hummingbirds. This delphinium blooms later and has more lush foliage than other members of the genus. Poisonous to humans.

Delphinium tricorne

Larkspur

A lovely dwarf, ephemeral "Larkspur" for the front of a woodland border. Plants form sort of a mound of dark green dissected foliage and shoot up dark purple flower spikes in early Spring. They never need staking and go dormant after spilling their cargo of seed.

Dodecatheon meadia

Midland Shooting Star

1-2'H. Shooting Star, *Dodecatheon meadia*, has delicate nodding blooms that seem to fly upward, away from the pointed red and yellow flower center, resembling a shooting star. The leafless stalks arise from a lush foliage base, creating the perfect backdrop for the exquisite flowers. A spring bloomer and true prairie ephemeral, goes completely dormant late summer. Grows in a lightly shaded area. Fall transplanting is best, but early spring planting is also fine. Mature plants can be propagated by division: Dig mature crowns in fall when dormant, then divide and replant.

Echinacea pallida

Pale Purple Coneflower

3-5'H. The showy daisy-like flowers of Pale Purple Coneflower bloom in early summer and are a favorite nectar source for pollinators, including butterflies and hummingbirds. Later in summer the large seed heads attract Goldfinches and other birds. *Echinacea pallida* is highly adaptable, tolerating drought, heat, humidity and poor soils, but it will not like soils that are too moist with poor drainage. Once established the deep taproot enables a long-lived, very low maintenance plant that is capable of handling hot dry situations with ease.

Eryngium yuccifolium

Rattlesnake Master

Scattered along the stiff, upright stem of this unusual perennial are tough, blue-green, yucca-like, parallel-veined leaves. Smooth, rigid stem bearing thistle-like flower heads made up of small greenish-white florets mingled with pointed bracts. The individual, greenish-white flowers cluster into unique, globular heads. These occur on branch ends atop the 6 ft. plant.

Euphorbia corollata

flowering spurge

This a plant that will grow in nearly any soil. It thrives where there isn't competition in any loam, clay, sandy, or rocky material. When this plant is in an area that is drained well, disease is not a problem to worry about. Flowering Spurge is sometimes called native Baby's Breath because of its resemblance to that horticultural variety. It attracts many insects with its pollen and nectar.

Eurybia macrophylla

Big-Leaved Aster

12-24" H. Perfect for shady areas with less than perfect soil. Drought tolerant, it thrives in both dry sand and heavy clay soils that possess a modicum of organic matter. Big Leaf Aster is often planted for its large, heart-shaped basal foliage which forms a nice ground cover. Upright stems emerge from the base in late summer, bearing clusters of delicate, bluish-white rayed flowers, from August thru September. Great for stabilizing shaded hillsides and slopes, it spreads by rhizomes to form a ground cover. Aster macrophyllus is a host plant for the Pearl Crescent Butterfly.

Filipendula rubra

Queen of the Prairie

A robust perennial, growing 3-5 ft. high. Attractive, deeply cut leaves with 7-9 lobes can be 3 ft. long. Large, feathery clusters of small, fragrant, pink flowers. The large sprays of small pink, fragrant blossoms are its claim to fame. Numerous stamens give the spirea-like flowers a fuzzy appearance.

Galax urceolata

Beetleweed

Full shade to part sun for this acid-loving East Coast native. Large, evergreen, glossy leaves and cool white flower spikes in mid Spring. Lovely fall color.

Geum triflorum

Prairie Smoke

8-15" H. Prairie Smoke is one of the first prairie flowers to bloom in the spring. 3 flowers on long stalks, generally red but may be a reddish shade of pink, purple or brown. Fruit is a dry seed with a 2-inch long feathery plume. The plumes are reminiscent of smoke blowing in the wind. Good for rock gardens.

Hierochloa odorata

Sweet Grass

Vanilla grass or sweet grass is an erect, slender, sweet-smelling grass, 12-20 in. tall., with small seed heads bearing broad, bronze-colored spikelets. The grass spreads by creeping rhizomes which send up few to several leafy shoots. This is a perennial.

Hibiscus laevis

Halberdleaf Rose Mallow

The Halberd-leaved rose mallow grows to 6 feet tall with erect stems and leaves. The leaves are alternate and prominently lobed at the base, the lobes wide-spreading and sharp-toothed. Flowers bloom from the axils of the leaves, from the bottom to the top of the stem. The large cup-shaped blossoms, about 3 inches long, are pink, sometimes white, with maroon or purple throats. The 5 overlapping petals open by day and close tightly at night.

Jeffersonia diphylla

Twinleaf

Named in honor of Thomas Jefferson, third president of the United States, this early Spring flowering plant has charming white, ephemeral flowers and set a unique seed pod that resembles a little hooded pouch. The plant itself however is not ephemeral at all and provides great foliage in part to full shade all Summer. The common name is "Twinleaf" because of its attractive double leaf structure. Plants are moderate (12-18") in height and will soon form a colony from self seeding.

Liatris aspera

Rough Blazing star

2-3' H. Covered with lavender blooms in late summer, Rough Blazing Star is shorter than other Liatris species and perfect for medium or dry well-drained soils. Butterflies are likely visitors, along with hummingbirds and other pollinators.

Liatris ligulistylis

Northern Plains Blazing Star

12-36" H x 12-24" W Rose-purple showy flowers. Easily grown in average, dry to medium, well-drained soils in full sun to part sun. Tolerates drought, dry soil, shallow-rocky soil. Intolerant of wet soils in winter. Attracts birds, hummingbirds, butterflies.

Liatris punctata

Dotted Blazing Star

1-3' H. Erect, unbranched stems may be solitary, but are usually in clusters. Several stems bear narrow, crowded heads with rose-lavender flowers arranged in slender wands. Numerous narrow leaves are crowded along the stem.

Liatris pycnostachya

Prairie Blazing Star

2-5' H. The stems are 2-5 feet tall, and nearly half of this is the flower spike. A spike of rayless, rose-purple (rarely white), cylindrical, stalkless flower heads densely crowded on a course, hairy, very leafy stem.

Lobelia cardinalis

Cardinal Flower

This 1-6 ft. perennial has showy, red flowers in 8 in., terminal spikes. Each flower has three spreading lower petals and two upper petals, all united into a tube at the base. Erect leafy stems, often in clusters, with racemes of flowers resembling flaming red spires. The lower portion of the erect stem is lined with lance-shaped leaves.

Lobelia siphilitica

Great Blue Lobelia

1-3' H. The end of summer, rich blue flowers of this plant are both showy and inviting to many bees. Short-lived and can self sow with profusion where happy.

Matteuccia struthiopteris

Ostrich Fern

This 1-6 ft. perennial has showy, red flowers in 8 in., terminal spikes. Each flower has three spreading lower petals and two upper petals, all united into a tube at the base. Erect leafy stems, often in clusters, with racemes of flowers resembling flaming red spires. The lower portion of the erect stem is lined with lance-shaped leaves.

Meehania cordata

Meehan's Mint

One of the coolest little ground covers. Even though it's in the Lamiaceae family, it's not aggressive or invasive. Dark green, slightly glossy, 1" cordate leaves are somewhat evergreen. In the early to mid Spring, lavender 1" trumpet like flowers persist over a long period. One of its greatest merits is that it will practically grow in the dark. This makes it especially useful in those foreboding dark corners of the garden where you haven't been able to sustain any plant life.

Mertensia virginica

Virginia Bluebells

Erect plant with smooth gray-green foliage and nodding clusters of pink buds that open into light blue trumpet-shaped flowers. The 1-2 ft., branched and arching stems of Virginia bluebells bear pendulous, terminal clusters of lavender-blue, bell-shaped flowers. Large, gray-green, oval leaves line the stems of this perennial.

Monarda bradburiana

Eastern Beebalm

1-2'H. *Monarda bradburiana* is a compact clumping perennial wildflower. Plants have gray-green aromatic leaves on strong square stems. In late spring, stems are topped by showy rounded clusters of pale pink tubular flowers speckled with purple. Pollinators flock to the blooms in sunny or partly shaded gardens with average well drained soils.

Monarda fistulosa

Wild Bergamot

Wild bergamot, known by many other common names, is a popular and showy perennial. Clusters of lavender, pink or white flowers, looking like ragged pompoms, bloom atop 2-5 ft., open-branched stems.

Monarda punctata

Spotted Bee Balm

An aromatic, erect perennial ranging from only 6 in. to almost 3 ft. tall. Rosettes of yellowish, purple-spotted, tubular flowers occur in whorls, forming a dense, elongated spike at the end of the stem or from leaf axils. Each whorl is subtended by large, conspicuous, whitish, purple-tinged, leaf-like bracts.

Onoclea sensibilis

Sensitive Fern

Sensitive fern varies in height from a few inches to more than 3 ft. Its sterile fronds, which wither early, are light to brown-mottled green and deeply cut into long lobes which almost reach the stem. Twice-pinnate fertile fronds appear in late summer and, though dead, remain upright through winter. Fiddleheads appear in the spring in shades of pale red.

Pachysandra procumbens

Allegheny Spurge

A favorite groundcover for the shade. This plant for all seasons has the most interesting fragrant, white spikes of flowers in early Spring and light, almost olive-green foliage all Summer. Virtually untouched by insects and disease, it begins to pick up a silvery sheen by early Autumn and by the middle of Autumn, look out, every plant has a different pattern of the most brilliant silvery mottling. Not at all invasive like its Asian cousin.

Panicum virgatum

Switchgrass

Clump-forming, warm-season grass with open, lacy sprays with small seeds, Aug-Oct. Purple stigmas at flowering time. Switchgrass is a 3-6 ft., rhizomatous, loose sod former with a large, open, finely textured, reddish-purple seed head. Fall color is pale yellow. Bright green leaves occur up and down the stem, turning bright yellow in fall. Switchgrass is a perennial. Grows in large clumps, with many persistent, curly leaves.

Penstemon grandiflorus

Large-flowered Beardtongue

1-3' H. This plant produces a basal rosette of lovely blue-green leaves that produce a tall spike of showy lavender or white flowers in late spring. Seedheads hold well in the garden through winter.

Phlox pilosa

Prairie Phlox

A dome-shaped cluster to 3 inches across at the top of the plant. Flowers are short-stalked, pink to purplish (rarely white), $\frac{1}{2}$ to $\frac{3}{4}$ inch across, with a long, slender tube, 5 broad, spreading lobes and 5 yellow-tipped stamens hiding inside the tube.

Phlox stolonifera

Creeping Phlox

Again, a Phlox species that's had many wonderful cultivars named over the years. This is the straight and not so variable species with early Summer blooming, deep pink flowers. It spreads along the ground by stolons and plants its little rosettes here and there. Flowers stems are about 6" to 8" tall.

Prosartes lanuginosa

Yellow Fairy Bells

Nodding greenish yellow bell shaped flowers on a 12" 36" plant in mid Spring. light green, deeply veined foliage. Neat orange berries in late Summer through Autumn. Loves moist woodland conditions.

Ratibida columnifera

Long-headed Coneflower

A plant branched and leafy in lower part with long leafless stalks bearing flower heads of 3-7 yellow or yellow and red-brown, drooping rays surrounding a long, red-brown central disk. Its sombrero-shaped flower heads, is usually 1 1/2 ft. tall but can reach 3 ft. Flower petals range from dark red and yellow, to all red or all yellow.

Ratibida pinnata

Gray headed coneflower

A slender, hairy-stemmed plant bearing flower heads with drooping, yellow rays surrounding a roundish to ellipsoid, grayish central disk darkening to brown as rays drop off. Gray-head mexican-hat is a 3-5 ft. tall, summer perennial with a somewhat branched stem.

Rudbeckia fulgida

Orange Coneflower

This is a perennial coneflower with yellow-orange, slightly curved petals, each toothed at its apex. The 1-3 ft. stems and scattered, oval leaves are covered with bristly hairs. Flower heads are 2-3 in. wide.

Schizachyrium scoparium

Little Bluestem

2-3' H. This attractive grass produces purplish plumes with grey/green foliage.

Senna hebecarpa

Wild Senna

Wild Senna offers a profusion of buttery yellow flower clusters atop lush green foliage in midsummer. The dark brown seed pods are a favorite of birds, and add great winter interest, too. Fond of clay, it thrives in medium to moist soils, and tolerates periodic flooding. The horizontal root system provides stabilization against high wind velocities, making this tall sun-loving plant an excellent hedge choice. An exceptional plant for pollinator support, Wild Senna is also a host plant for the Cloudless Sulphur and other butterflies.

Silene regia

Royal Catchfly

Royal Catchfly is a rare Midwest native plant with brilliant red flowers that are acclaimed for attracting Hummingbirds, and butterflies such as the Black Swallowtail. Typically around 3-4 feet high, it does best in medium, loamy soil. An excellent addition to any sunny garden bed, combine it with other prairie flowers and grasses to provide a bit of support and keep the plants upright.

Silphium terebinthinaceum

Prairie Dock

Very large, wide, spade-shaped basal leaves subtend a 3-8 ft. flowering stalk. Bright yellow, composite flower are numerous on older plants.

Sisyrinchium campestre

Prairie Blue-eyed Grass

A small, dainty member of the Iris family, white-eyed grass has pale-green, grass-like leaves and blue to white, star-like flowers with yellow centers. The flowers, which occur on slender stems at the same height as the leaves, bloom only on sunny days. The clumped perennial is 8-15 in. tall.

Solidago ptarmicoides

Upland White Goldenrod

1-2' H. Open flat clusters of 3 to 60 daisy-like flowers on 1-inch stalks at the top of the plant. The flowers are about $\frac{1}{2}$ inch across with 10 to 20 white petals around a creamy white to pale yellow disk.

Solidago ptarmicoides

White Upland Aster

1-2'H. This plant has aster-like, small, pale white flowers in clusters and narrow goldenrod-like leaves. The value of this wildflower is that it's late flowering, provides good pollinator support, grows low in clumps and has an extremely high tolerance to dry and poor soils! It is also tolerant to heat, humidity, and drought.

Solidago uliginosa

Bog goldenrod

Bog Goldenrod's range is predominantly in wetlands and marshes of about half the counties in Minnesota.

Sorghastrum nutans

Yellow Prairie Grass

3-6' H. One of the dominant grasses of prairies that once covered a large portion of Minnesota. It is a beautiful grass, the golden-brown plumes wafting in the slightest breeze.

Sporobolus heterolepis

Prairie Dropseed

1-3' H. Prairie dropseed is found throughout Minnesota's prairie regions. In late summer to early fall when many native grasses are turning reddish brown, its golden color is highly visible. Prairie dropseed is also one of the most fragrant grasses, from small glands at the base of branches.

Stenanthium gramineum

Eastern Featherbells

The plant displays small white flowers in a large cluster from June through September. It is native to the southeastern United States and often found in open, rocky woods, wet meadows, pond edges, and sandy bogs. The fragrant flowers attract bees and the foliage is regularly seen as ornamental. Feather Bells tolerates average soil, but performs best in slightly acidic, well-drained soil, rich in organic material.

Stylophorum diphyllum

Celandine Poppy

This 12-14 in. perennial with gray-green, lobed and toothed leaves is known for its large, poppy-like, yellow flowers. The stalks are leafy and the flowers are produced in clusters. A plant with yellow sap and yellow flowers, solitary or in small clusters, atop a stem bearing a pair of deeply lobed leaves; other leaves basal.

Symphyotrichum novae-angliae

New England Aster

New England American-aster is large and showy, growing to 6 or more ft. in height. The perennial's hairy, clasping leaves are arranged densely on its stout stems. Showy, bright, rose-purple flowers with orange-yellow centers bloom in profusion at the tips of the leafy branches.

Symphyotrichum oolentangiense

Sky Blue Aster

1-3' H. A beloved late season flower critical to pollinators. The lavender-blue flowers with a yellow center are set on airy stems and combine well with native grasses.

Trautvetteria caroliniensis

False Bugbane

Trautvetteria forms a 6"-10" plant with a much taller flower stem. Some seemed to reach up to about 18"-36". It prefers light to medium shade but could probably take some direct sun. It flowers over a long period and seems to peak in late June to mid July.

Tephrosia virginiana

Goat's Rue

The flowers of goat's-rue resemble bi-colored sweet peas. Lower petals are pink; upper petals are pale yellow. Pinnately compound leaves have 8-15 pairs of leaflets. Stems and leaves are covered with soft, white hairs giving the 1-2 ft. perennial a silvery appearance. Mature plants form attractive mounds. Bicolored, pea-like flowers, with pink wings and a yellow standard, crowded into clusters atop a hairy stem.

Trillium cuneatum

Wood lily, sweet Betsy

Trillium cuneatum, commonly known as wood lily or sweet Betsy, is the largest and most vigorous of the sessile trilliums that are native to the eastern U. S. It is typically found in rich woods from Kentucky to North Carolina south to Georgia, Alabama and Mississippi.

Trillium erectum

Red trillium

Red Trillium blooms for up to three weeks before giving way to the berry-like fruits, which are eaten by birds and mammals. Although it is one of the hardiest Trilliums, and native to deciduous forests of the Northeast, it needs to receive ample sunlight early in its growing season. For this reason avoid planting it on the north side of buildings, or areas where the sun doesn't warm the ground. Best planted in groups, this spring ephemeral combines well with other low-growing woodland wildflowers such as Virginia Bluebells and Shootingstar. Once established Red Trillium will form a clump with an increasing number of flowers. The established clumps can be divided in summer. *Trillium erectum* requires a rich soil with consistent moisture and should be mulched with leaves to help maintain adequate moisture and acidity levels.

Trillium grandiflorum

Large-flowered Trillium

Large Flowered Trillium, also called White Trillium, is easy to grow and will return faithfully year after year in optimal conditions, spreading gradually by seed if left undisturbed. The flowers become pink-tinted later in the season, and finally give way to berry-like capsules. The foliage of this ephemeral will die-back to the ground by midsummer. Shade

Trillium luteum

Yellow trillium

Native to the Great Smoky Mountains and adjacent regions, this classic spring ephemeral bears yellow blossoms atop a trio of leaves mottled with pale shades of silvery-green. The unusual flowers of this Yellow Trillium have a lemon oil fragrance.

Trillium recurvatum

Prairie trillium

Perfect for moist clay soil, Prairie Trillium does best in light shade in a slightly damp setting. One of the earliest blooming trilliums, it features unique wine-red flowers atop beautiful large mottled leaves, and blooms at approximately the same time as Virginia Bluebells. Long-lived, this rare plant increases slowly by underground bulbs and can be divided every few years. All trilliums go dormant in summer so plant them with other woodland perennials to share and fill the space until they reappear the following spring. *Trillium recurvatum* is listed as endangered in Michigan.

Uvularia perfoliata

Perfoliate Bellwort

Perfoliate Bellwort is a native perennial wildflower found in moist to somewhat dry hardwood forests along the eastern coast of North America. This variety is becoming increasingly rare in some of its native territory. It grows best in soil that are rich in humus. In North Carolina, it is common in the Mountains and Piedmont, but rare on the coast. Its common name Perfoliate Bellwort arises from the way the stem appears to pierce through the leaf blade. There are typically 1 to 4 leaves below the fork in the stem. There is one leaf per node along the stem.

Verbena stricta

Hoary Vervain

The beautiful lavender spires of Hoary Vervain make a distinctive statement in the late summer landscape. Blooms 4 - 6 weeks, forms attractive vertical clumps with groups of long, narrow flowering spikes. An important source of nectar, Hoary Vervain is a desirable component of butterfly gardens, and the leaves are a host food for the Common Buckeye caterpillar and others. Very drought resistant, and non-aggressive, it is easily grown in any well-drained soil in full sun.

Veronicastrum virginicum

Culver's Root

The unbranched stems of Culver's-root grow 2-6 ft. tall and are topped by several spikes of densely-clustered, tiny, white flowers. The total effect is candelabra-like. Narrowly oval, dark-green leaves are arranged in whorls around the stem.

Viola pedatifida

Prairie Violet

The Prairie Violet is not aggressive like some *Viola* species and therefore is a nice plant for small, drier gardens or edges. The deep purple to blue flowers emerge on leafless stalks in early spring and can last well into the summer months. Some plants may re-bloom later in the summer.

Xanthorbiza simplicissima

Yellowroot

Easily grown in evenly moist, acidic, humusy, well-draining soils in part shade. Will adapt to a wide variety of soil conditions including wet, dry, or clay. Will also adapt to various sun conditions ranging from part sun to full shade. Tolerant of drought once established. Alkaline soils can cause chlorosis. Can spread indefinitely in ideal conditions. Concrete walkways and metal edging can help contain its spread. Will also spread less readily in full sun and drier soils. Hardy in Zones 3-9.

ORNAMENTAL GRASSES

***Andropogon gerardii* 'Blackhawks'**

Big Bluestem

4-5'H x 1-2'W Selected for its stature and beautiful seasonal foliage display, this big bluestem is sure to make a powerful statement in fall as dark green foliage turns dark purple or near black in fall.

***Andropogon gerardii* 'Red October'**

Big Bluestem

6' H. Narrow leaves with an upright habit. Begins deep green turning to red then burgundy as fall approaches.

Bouteloua curtipendula

Side Oats Grama

Side-oats grama is a bunchy or sod-forming grass with 2-3 ft. stems in erect, wiry clumps. Purplish, oat-like spikelets uniformly line one side of the stem, bleaching to a tan color in the fall. The basal foliage often turns shades of purple and red in fall. This is a perennial warm season grass; clump forming.

***Bouteloua gracilis* 'Blonde Ambition'**

Blue Grama Grass

1-2.5'H x 1-2'W A blue-green ornamental grass that has horizontal eyelash-like chartreuse flowers appear in midsummer and age to blonde seed heads by fall. Drought tolerant.

Calamagrostis brachytricha

Korean Feather Reed Grass

3'H x 2'W A late blooming species compared to your typical *Calamagrostis* variety, late summer plumes, mix well with late season flowers and will persist through winter if not cut back.

***Calamagrostis x acutiflora* 'Avalanche'**

Feather Reed Grass

4-5' H. Green leaves with white centers. More prominent in the garden than C. 'Overdam.' Bronzy-purple inflorescence in fall.

Calamagrostis x acutiflora 'Eldorado'

Feather Reed Grass

4-5' H. A sport of 'Karl Foerster' its green leaves are striped down the middle with white. Soft, feathery greenish-mauve plumes appear in early to midsummer, maturing into stiff wheat-colored spikes, which last into winter.

Calamagrostis x acutiflora 'Karl Foerster'

Feather Reed Grass

5-6' H. Best of non-native grasses. Tall clumps. Foliage shows pink tones in fall. Best grown in light shade.

Calamagrostis x acutiflora 'Karl Foerster' #2

Feather Reed Grass

6' H. Best of non-native grasses. Tall clumps. Foliage shows pink tones in fall. Best grown in light shade.

Calamagrostis x acutiflora 'Lightning Strike'

Feather Reed Grass

24-36"H x 24-36"W. Exquisite thin green and white foliage with feathery summer plumes that turn a striking gold color in fall. Creates a stunning vertical effect in the landscape as an accent or in a dramatic mass planting. Vigorous and easy to maintain. Thrives in sunny, dry northern climates.

Calamagrostis x acutiflora 'Overdam'

Feather Reed Grass

1-3' H. Choice variegated feather reed from Denmark. Leaves emerge with creamy color, intensifying with season into fall pink tones. Full sun or light shade.

Carex flacca 'Blue Zinger'

Blue Sedge

8-16"H x 12-24" W. Spreads to form a mat of bluish-green foliage. The plant can be used as a ground cover or in rock gardens. Best growth occurs in the sun, but the plant will grow in shade.

Carex muskingumensis

Palm (Swamp Oval) Sedge

Palm Sedge, *Carex muskingumensis*, has glossy green leaves that branch out from the main stem, reminiscent of a palm tree. Native to wooded lowlands, Palm Sedge does best in slightly damp soil in sun or shade. Widely used in landscaping, it makes an excellent groundcover and thrives on clay soils. Plant one foot on center for a groundcover or small patch, or use individually as a foliage accent plant.

Carex oshimensis 'Evergold'

Sedge

12-24"H. RHS Award of Garden Merit. Bright yellow variegation. Previously misnamed as *morrowii* 'Aureovariegata.' Zone 5.

Carex pensylvanica

Pennsylvania Sedge

8-10" H. Delicate, arching, semi-evergreen foliage. Prefers dry, well-drained soils in full to partial sun. Excellent ground cover under oak trees. MN Native.

Carex vulpinoidea

Fox Sedge

Fox Sedge, *Carex vulpinoidea*, is a remarkably adaptable wetland sedge that forms beautiful fine-leaved mounds, two feet in diameter. A spray of bright bronze seed heads creates an excellent midsummer display. *Carex vulpinoidea* grows in a wide variety of medium-moist to wet soils, including clay. An excellent choice for rain gardens.

Deschampsia cespitosa 'Schottland'

Tufted Hair Grass

2-3'H x 12-24"W A robust clump forming perennial grass has tufted narrow foliage that is usually evergreen. Airy panicles of purplish green florets with hair like awns form in summer and turn buff color in the fall.

Festuca glauca 'Elijah Blue'

Blue Fescue

8" A fine textured, powdery blue tufted grass that must have good drainage and full sun.

Hierochloa odorata

Sweet Grass

Sweet Grass is an aromatic, cool-season perennial growing 10-24 inches in height - and spreading about 2 feet per year by underground rhizomes. Because of its aggressive, rhizomatous nature it can be difficult to eliminate if it has spread to areas where it is not wanted. Pick a planting site with this in mind.

Hakonechloa macra 'All Gold'

Japanese Forest Grass

14: Brilliant yellow foliage (lacks the green streaks of Aureola) forms cascading clumps and brighten a shady nook.

Hakonechloa macra 'Aureola'

Japanese Forest Grass

14" H. 2010 Perennial Plant of the Year: Brilliant yellow foliage is streaked with green lines and forms cascading clumps. Turns pink to red in the fall.

Helictotrichon sempervirens 'Saphirsprudel'

Sapphire Blue Oat Grass

2' H. Mid-sized blue-foliaged grass of fine to medium texture. Well-drained soil and full sun. Best blue color. Strong grower.

Miscanthus sinensis 'Purpurascens'

Autumn Red Flame Grass

3-4'H x 3-4'W White plumes appear in late summer and fall over bright orange-red leaf blades. Compact grower. Hardier than other *Miscanthus*.

Miscanthus sinensis 'Gracillimus'

Japanese Silver Grass

5-6' H. Bronze-red inflorescence turns to silver; decorative in winter. October.

***Miscanthus sinensis* 'Little Zebra'**

Dwarf Japanese Silver Grass

2-3' H. Greenish-gold stripes on a compact, mounding habit. In the early fall this grass has a reddish, fan-shaped bloom; good for a small landscape. Zone 5.

Miscanthus x giganteus

Giant Miscanthus

8-10' H. Huge, bamboo-like, long coarse leaves. Rarely flowers. Slightly spreading clump. Good for screen planting.

***Miscanthus sinensis* 'Purpurascens' #2**

Autumn Red Flame Grass

3-4' H x 3-4' W White plumes appear in late summer and fall over bright orange-red leaf blades. Compact grower. Hardier than other Miscanthus.

***Panicum virgatum* 'Cheyenne Sky'**

Switchgrass

2-3' H. Tight, vase-shaped clump of blue-green foliage which turns wine-red in early summer. Wine-red flower panicles appear in late summer. Well-behaved.

***Panicum virgatum* 'Gunsmoke'**

Switchgrass

4' H x 3' W. All parts of this grass are very sturdy, and will remain standing thru winter unless snows are heavy. This provides important cover for birds during the coldest days of winter. This grass is very versatile from a design standpoint; it is effective as a specimen, in masses, for screening, alongside ponds or streams, or even in large containers.

***Panicum virgatum* 'Shenandoah'**

Switchgrass

3' H. Develops reddish-purple foliage color by midsummer. Reddish flower heads.

***Schizachyrium scoparium* 'MinnBlueA'**

Blue Heaven™ Little Bluestem

48" H x 25-30" W. Little bluestem cultivar that is noted for its blue-gray foliage, burgundy-red fall color and narrow upright plant form. U of MN Introduction.

Sorghastrum nutans

Yellow Prairie Grass

32-48" H. An excellent choice for many low-maintenance gardens. Its beauty lies in the many reddish-brown flowers which are highlighted by brilliant yellow anthers.

Spodiopogon sibiricus

Frost Grass

4' H. Dark green foliage with the inflorescences held about 1' above the leaves. The fine textured flowers appearing in the summer contrast well with the bold foliage. Full sun. Foliage reddish-purple in fall.

***Sporobolus heterolepis* 'Tara'**

Prairie Dropseed

2' H. A more tidy/compact dropseed. Seed heads are fragrant, drought tolerant. 12" emerald-green foliage, red fall color. Sunny, dry locations. Late summer. MN Native.

Sporobolus wrightii

Giant Sacaton

3-4' H x 2' W. Feathery branched seed heads, graceful arching foliage, Drought resistant.

HERBS

2' H. Deep blue flower. Excellent dried. TP, AR, DR, K, O. Zone 5.

***Lavandula angustifolia* ‘Munstead’**

Lavender ‘Munstead’

18” H. Commonly called English lavender, it has been a mainstay of herb gardens for many years. TP, AR, DR, K, O. Zone 5.

Melissa officinalis

Lemon Balm

Melissa officinalis, commonly called lemon balm, is a bushy herbaceous perennial of the mint family that is typically grown in herb gardens and border fronts for its lemon-scented leaves.

Mentha spicata

Spearmint Mint

30” H. Spearmint has strong flavor and fragrance that is released with simple bruising. It’s the best mint variety for hot and cold drinks. P, AR, K.

Mentha x piperita

Peppermint Mint

30” H. Green leaves with strong menthol flavor. Use leaves fresh, dried, or frozen in water P, AR, K.

***Mentha x piperita f. citrata* ‘Chocolate’**

Chocolate Mint

24” H. Chocolate mint leaves have a delightful minty chocolate flavor, much like the classic Girl Scout cookie. P, AR, K.

***Mentha suaveolens var. crispa* ‘Mojito’**

Mint ‘Mojito’

Not as sweet as some mints -it has an unusual savory aroma that makes it ideal for seasoning meats, soups, and spring rolls. Grows to about 2’ high and spreads as far as you allow it to, forming a dense, weed-suppressing ground cover with large, shiny, quilted leaves. Produces white flower spikes in Summer that are much-loved by bees and butterflies. Zone 5

Ocimum americanum

Lemon Basil

18” H. Spreading silver-green plant with lemony aroma and flavor is great for potpourris, tea, chicken, fish, vegetables and herb vinegars. A, DR, K.

***Ocimum basilicum* ‘Flat Leaf’**

Italian Large Basil

30” H. Medium-dark green leaves up to 4” long. Compared to Genovese, the scent and taste are sweeter. A, DR, K.

***Ocimum basilicum* ‘Genovese’**

Sweet Basil

24” H. This herb is known around the world for its wonderful fragrance and flavor. The key ingredient in classic Italian pesto. A, DR, K.

***Ocimum basilicum* ‘Purple Ruffles’**

Purple Basil

24” H. Clove-like, slightly spicy flavor. Use in salads or preserved in oils and vinegars. A pot of purple basil provides surprisingly, striking color in the garden. A, DR, K.

Ocimum basilicum

Thai Basil

A fragrant, sweet-spicy variety with licorice notes used in Thai and Asian cuisines. This hardy heirloom is valued as a nutrient-dense culinary and medicinal herb. A powerful companion plant for peppers and tomatoes.

Origanum majorana

Sweet Marjoram

12” H. Very fragrant with white flower. A, AR, DR, K.

Origanum vulgare subsp. hirtum

Greek Oregano

6-9” H. Distinct pungent aroma and flavor. Great for pizza, tomato sauce, herb blends. A, DR, K.

Petroselinum crispum

Parsley ‘Giant of Italy’

Flat leaf. 18” H. Huge, dark green leaves with great flavor. Strong, upright stems B, DR, K.

Petroselinum crispum

Triple Curled Parsley

12” H. No herb garden is complete without curly parsley. Parsley adds flavor to so many dishes salads and sauces. It’s also an attractive plant in the garden B, DR, K.

Salvia rosmarinus

Upright Rosemary

30” H. Strong upright growth. Dark green leaf. Heavy aroma, flavorful. A, AR, DR, K, O.

Salvia rosmarinus

Prostrata(Creeping) Rosemary

6-12” H. Perfect for gardens or containers. Rich foliage and beautiful blue flowers. A, AR, DR, K, O.

Salvia elegans

Pineapple Sage

3’ H. Pineapple sage is noted for the pineapple aroma and flavor of its foliage when crushed. A, DR, K.

***Salvia officinalis* ‘Aurea’**

Golden Sage

This golden-yellow variegated form of Sage keeps its shape and color beautifully in fall and winter. Superior growth and branching habits.

Salvia officinalis

Common Sage

2’ H. Leaves used in poultry, pork, tea. P, DR, K.

***Salvia officinalis* 'Purpurascens'**

Purple Sage

18" H. Adds color and texture to the garden. Use the same as common sage. A, K, DR, O.

***Salvia officinalis* 'Tricolor'**

Sage 'Tricolor'

15" H. Tricolor sage is a cultivar of common sage familiar to cooks. Grown primarily for its ornamental qualities (tricolor foliage), it also has culinary properties. A, K, DR, O.

Stevia rebaudiana

Stevia

Herbal sugar substitute containing steviolosides that are hundreds of times sweeter than sugar without the calories. Leaf powder can be used in place of sugar in drinks, baked goods, desserts, preserves, etc.

Thymus vulgaris

English Thyme

12" H. This savory herb is a versatile seasoning for soups, chicken, seafood, vegetables, and sauces. P, DR, K, O.

***Thymus x citriodorus* 'Aureus'**

Golden Lemon Thyme

12" H. Produces rich, dark green leaves that have an intoxicating lemon fragrance. Looks as good in the herb garden as it does in the ornamental border. A good container plant. P, DR, K, O.

***Tropaeolum majus* 'Jewel Cherry Rose'**

Nasturtium 'Jewel Cherry Rose'

12" H. Spectacular, zingy-bright new nasturtium with edible flowers, leaves, buds and seed pods. It's a compact, non-climbing variety. A, K, O.

***Tropaeolum majus* 'Jewel Golden Globe'**

Nasturtium 'Jewel Golden Globe'

12"H. Easy-to-grow plants are smothered with colorful, semi-double bright flowers. Compact, mounding variety. A, K, O.

Tropaeolum minus

Alaska Mix Nasturtium

12" H. Gold, orange, salmon and cherry flowers arise from compact plants with attractive variegated foliage. Flowers and tender young leaves add color and a peppery zip to salads. A, K, O.

***Tropaeolum nanum* 'Double Jewel Salmon'**

Nasturtium

12" H. Flowers have spicy fragrance, self seeds, low maintenance; blooms salmon from spring until frost. A, K, O.

VEGETABLES & FRUIT

***Asparagus* 'Jersey Night'**

This productive variety will give you impressive yields each and every year. Its extra-large, uniform, tender spears are good for fresh eating, cooking or making salads. Emerges as spears for harvest at desired thickness. Spears mature into feathery soft, fern-like foliage. Cold-hardy and heat-tolerant.

***Bush Bean* 'Fin de Bagnol'**

Heirloom, 50-60 Days. Tender and stringless, the thin, bright green pods should be picked every few days, right before they are prepared in the kitchen. This variety performs well in cooler soils where others may not.

***Dwarf French Bean* 'Compass'**

54 Days. Thin and refined filet bean. Straight smooth green pods with good flavor. High resistance to anthracnose and bean mosaic virus.

***Pole Bean* 'Kentucky Wonder'**

Heirloom, 65 Days. Very reliable, early maturing, and productive pole bean. An old favorite enjoyed fresh, canned, frozen or dried. Its buffy-brown seeds can also be used dry as an excellent baking bean.

***Bean* 'Painted Pony'**

Heirloom, 60-80 Days. This Mexican heirloom is a choice dual-purpose bean. Harvest at about 60 days for plentiful long, thin, stringless snap beans-or let the pods dry on the bush type plants, and harvest after 80 days for a bountiful crop of dry beans filled with rich nutty flavor.

***Purple French Bean* 'Velour'**

51 Days, bush. 'Extra-fine' grade beans are 4-5" long with straight slender, bright purple pods, turn green upon cooking. High resistance to bean mosaic virus and halo blight.

***Brussel Sprouts* 'Long Island Improved'**

90 Days. The semi-dwarf plants are stocky with leaves closely spaced, so there are lots of tasty sprouts on the short, self-supporting stems. Introduced at the end of the 19th century, this was once one of the most important commercial varieties.

***Cabbage* 'Stonehead'**

67 Days. Stonehead takes its name from its very tightly-packed, small round heads. These cabbages reach 4 to 6 pounds on average, with a short core and plenty of thick wrapper leaves to protect the small head within. Green throughout, they keep both their flavor and texture even if you can't harvest them right away.

Cabbage 'Ruby Perfection'

85 Days. Mid-late red cabbage. The heads are medium-sized and dense with a uniform high-round shape and good wrapper leaves.

Cabbage 'Golden Acre'

Heirloom, 64 Days. Early summer variety ball head cabbage. With small to medium-sized green, round solid heads on compact plants with few outer leaves.

Cauliflower 'Freedom'

65 Days. This hybrid replaces the old favorite 'Fremont' with gourmet flavor, a tighter harvest window and ultra-dependable yields. It can be grown as baby cauliflower or allowed to mature.

Celery, Cutting Or Leaf Celery

Bred for the leaves rather than stalks, it is a dark green, with thin, rounded, flexible stalks and aromatic leaves and tastes exactly like regular stalk celery, but with a slightly stronger, herbier taste. Leaf Celery is the easiest variety of celery to grow.

Collards 'Champion'

75 days, Vates type collard. Holds quality 2 weeks longer, has improved bolting tolerance, and is more cold tolerant.

Cucumber 'La Diva'

58 Days. Seedles, thin-skinned cukes are distinctly crisp, sweet, and bitter-free. High resistance to scab; and intermediate resistance to cucumber vein yellowing virus, and powdery mildew. AAS winner.

Cucumber 'Eureka'

57 Days. A very disease-resistant and is also uniquely versatile cucumber. Unlike most varieties, which are grown specifically for use in pickling or in fresh eating, this cuke can do both.

Cucumber 'Picolino'

50 Days. Snacking cucumber with glossy thin, dark green skin. Excellent yields. High resistance to many cucumber vine diseases.

Cucumber 'Poniente'

56 Days. Bitter-free 12-13" fruits grow straight with trellising. Excellent vigor and yield potential. High resistance to many cucumber vine diseases.

Cucumber 'Spacemaster 80'

60 Days. If you've had trouble growing cukes in your climate, or if you don't have the space to invest in a sprawling vine, Spacemaster 80 is the solution. This productive plant is only 36 inches long, yet bears a big harvest of slender, smooth 7- to 8-inch cukes. The fruit is crisp and tasty, with a satisfying bite just right in a slicer.

Cucumber 'Straight Eight'

58 Days. All-America winner for 1935! Smooth, straight, deep green 8-inch fruits with rounded blunt ends. Tolerates mosaic virus.

Cucumber 'Burpless Tasty Green'

60 Days. These cukes carry the non-bitter gene. Grow straight and 12" long, but quality is best if picked at 8 to 10". The smooth, dark green fruit are thin-skinned and tasty with no bitterness.

Eggplant 'Florida High Bush'

Heirloom, 75-85 Days. Bred in Florida in the early 1900's. Vigorous, upright, well-branched plants bear continuously throughout the season. Large purple-black pear-shaped fruits with white flesh are held high off the ground. Disease and drought resistant.

Eggplant 'Ichiban'

50-60 Days. Produces massive crops of slim, 10-inch long, purplish-black fruit. Like all eggplant, this hybrid loves warm weather but also does well in cooler climates and continues producing well into fall. Well suited for containers. Sweet and succulent.

Eggplant 'Prosperosa'

73 Days. Round, deep-violet heirloom from Tuscany. Mild-tasting white flesh. Very productive.

Eggplant 'Round Mauve' 65 Days. Beautiful spherical, rosy-lavender with a thin skin and pure white flesh. Great for cooking, mild, meaty and no bitterness.

Eggplant 'Satin Moon'

50 Days. Purple black, slightly fluted oval eggplant that is 6 to 8 inches long. Its firm, high-quality flesh is mild and flavorful, and its shape lends itself to large, meaty slices for Italian eggplant dishes.

Ground Cherry/Husk Tomato

75-90 Days. Ground cherry is prized for jams, pies, and fruit salads, its sweet citrusy flavor is described as "reminiscent of pineapple and brown sugar." Papery husks enclose the fruits and allow storage for three weeks or more. A prolific, trailing grower that can be grown on a trellis in a container, for easy-to-pick cascades of fruit.

Horseradish

The grated root is used to make the condiment 'Horseradish'. The plant is fully hardy and can be left in the ground all winter to be harvested as required[4]. Alternatively, the roots can be harvested in early winter and stored for later use, they will retain their juicy state for some time if stored in dry sand. Perennial.

Kale ‘Toscano’

Heirloom, 30–65 Days. Lacinato or “dinosaur” type. Unique leaf type: extra-dark green, non-curled but heavily blistered (savoyed). Rich, tender leaves have a softer texture than curly green kales.

Kohlrabi ‘Early White Vienna’

55 Days. ‘Early White Viennas’ round, luminous light-green, planetary bulbs are packed with creamy white, tender flesh with a sweet turnip flavor. 19th century heirloom’s crisp, juicy flesh and younger leaves are delectable raw or steamed. Harvest bulbs as soon as they’re apple-sized— just over 2” in diameter.

Leeks ‘American Flag’

105 Days. This onion relative has compact stems that thicken but do not form bulbs like onions. The appealing white stems have a creamy yellow heart. Leeks are cold tolerant and can be left in the garden into fall for an extended harvest.

Mixed Varieties Pack Lettuce

Assorted lettuce.

Red Butter Lettuce ‘Salanova’

Assorted lettuce.

D’Artagnan Melon

71 Days. Rich, dark orange flesh. This Charentais melon has the traditional aromatic and very sweet flavored flesh.

Honeydew Melon

90 Days. The fruit is about 6 to 8 inches in diameter and round to oblong. The cream-colored rind is very smooth, opening to reveal light green flesh and a small seed cavity. The flesh is juicy and mouth watering sweet.

Sarah’s Choice Melon

76 Days. Sarah’s Choice is a favorite for it’s delicious and sweet flavor.

Sugar Cube Melon

80 Days. Sugar Cube lives up to its name with intensely sweet flavor. Very uniform fruits and strong disease resistance.

Onion ‘Candy’

80–90 Days. Extra sweet and mild. Flat globes 3–4” with tight, light yellow skin. Day neutral variety.

Onion (Red) ‘Sv4643nt’

110 Days. Long-day red onion. Large round bulb, medium to dark red; good internal color. Expect medium-term storage.

Onion ‘Walla Walla’

90 Days. The pride of Washington state, this globe-shaped onion is exceptionally mild and makes jumbo-sized bulbs with light brown skin and pretty, white flesh. Sweetest of all the long-day varieties.

Onion ‘White Sweet Spanish’

115 Days. Onion White Sweet Spanish. A large, easy to grow and reliable Spanish type onion with glistening white skin and mild sweet flavour. An excellent storage onion. Onions from seed are generally better quality than set-grown onions.

Yellow Sweet Onion

Spanish 110 Days. A garden favorite. Yellow, sweet and mild.

Pea ‘Tom Thumb’

Heirloom, 50–55 Days. Introduced to the U.S. in 1854. The best pea variety for container planting! Reaching only 8 to 9 inches in height, it’s grown mainly as a shelling type, but the pods are also sweet, tender and delicious when harvested very young.

Yellow Pepper ‘Admiral’

84 Days. Glowing yellow bells reach 4½ inches long and wide, with thick walls and juicy, crisp texture. Packed with vitamin C and more flavor than you will ever find in store-bought bells, Admiral is a must-grow.

Pepper ‘Anaheim’

80 Days. Pungent, long, tapered, medium-thick peppers. Green fruits turn deep red when ripe. Use these pungent peppers fresh or dried.

Ancho Pepper ‘Mosquetero’

90 Days. Very large ancho peppers are perfect for stuffing in to Chiles Rellenos as well as us in chili and other dishes were mild to moderate heat is needed. Peppers mature to 6” long and about 3” wide. 1,000–1,500 SHU.

Pepper ‘Beaver Dam’

80 Days. Hungarian heirloom brought to Beaver Dam, WI in 1912 by the Joe Hussli family. Florence Hussli recommends adding crisp sliced rings to a cheese and bologna sandwich, or using for stuffed peppers. Fruits are mildly hot when seeded.

Ghost Pepper ‘Bhut Jolokia’

90 Days. One of the hottest peppers in the world, bearing extremely hot, red fruit. 1,002,305 SHU. Handle fruits with great care.

Pepper ‘Buran’

Heirloom, 90 Days. A Polish heirloom that can’t be beat for sweetness. The 2-foot plants will consistently produce 4x3 inch extra sweet fruits. Wonderful when picked green or left to mature to a shiny red color.

Pepper ‘California Wonder’

75 Days. These peppers are thick-walled and blocky, about 4 inches tall and wide, with a crisp, mild flavor and terrific sweetness. They mature from green to red on the plant.

Pepper ‘Carmen’

60-80 Days. A high-performing rendition of the classic Corno di Toro (or “Bull’s Horn”) pepper popular in Italy. Early, adaptable, and notably sweet (especially when fully red-ripe) with a shapely tapered silhouette. Begins green, then deepens to a beautiful carmine at maturity. Excellent roasted, grilled, and in salads.

Pepper ‘Cayenne Long Red Slim’

Use them fresh or they can easily be dried for winter use. Harvest starts about 75 days after plants are set out.

Pepper ‘Carolina Reaper’

90 Days. The Carolina Reaper is officially the World’s Hottest Pepper as ranked by Guinness Records. There is nothing normal about this pepper. It was bred for heat with an average SHU of over 1.5 million and peaks at 2.2 Million SHU! Just looking at it, you know it’s one mean pepper. The Carolina Reaper has a unique stinger tail that is unlike any other pepper. It gets this insane heat from being a cross between a Pakistani Naga and a Red Habanero. Oddly enough this pepper doesn’t just have heat, but excellent flavor as well. Use extreme care when handling.

Pepper ‘Chervena Chushka’

Bulgarian pepper traditionally used for roasting; also delicious eaten fresh. Flesh is sugary sweet. Robust plants produce large tapered fruits measuring 2” wide by 6” long. Fruits ripen from green to brown to vivid red. 85 days from transplant. Sweet.

Pepper ‘Cinuegos Yellow’

85 Days. Cienfuegos Yellow perhaps the most fragrant and fruity of the Cienfuegos series of peppers. It still has the heat, ranging from 250,000-350,000 SHU. High yielding and early maturity.

Pepper ‘Cornito Giallo’

55 Days green; 75 days yellow. 2016 AAS winner. Cornito Giallo is a well regarded for being delicious with a sweet, fruity flavor. Great when eaten raw, grilled or roasted!

Pepper ‘Fatalii’

80 Days. Fiery hot, wrinkled yellow peppers are related to habanero, and are at least as hot if not hotter. The searing heat has an excellent, citrus-like flavor that can be appreciated in the seconds before the heat sets in. 125,000-400,000 SHU.

Pepper ‘Garden Salsa’

73 Days. Developed just for salsa, this medium-hot chili pepper turns out to be heavy bearing and delicious. 3,000 Scoville’s.

Pepper ‘Giant Marconi’

Heirloom, 62 Days. One of the biggest Italian- type sweet peppers, with a long profile and a slightly lobed end. Peppers ripen from green to red and are sweetest when red.

Pepper ‘Georgia Flame’

A piquant pepper from the Republic of Georgia, up to eight inches long, with thick, crunchy flesh. Two-foot high plants produce copious amounts of fruit throughout the season. An excellent salsa pepper. 90 days from transplant.

Pepper ‘Habanero’

95 Days. One of the most potent hot peppers €”100 times hotter than Jalapeño! Great for hot sauces and basting. Wrinkled, tapered little fruit turn from green to orange. 100,000 to 300,000 Scoville units.

Pepper ‘Hot Portugal’

65-75 Days. Very hot, very thin, very red, and very glossy. 5,000 Scoville units.

Pepper ‘Jalapeno M’

75-80 Days. An improved thick-walled jalapeno pepper with the same fiery hot pungency, this uniform strain does quite well in northern plantings. The 3-1/2” x 1” tapered, sausage-shaped fruit are smooth and deep green turning red. Heavy yields are produced on upright plants.

Pepper ‘Lady Bell’

72 Days. Produces good yields of sweet bell peppers. Peppers are very sweet, have thick walls, and turn from green to bright red when mature.

Lunchbox Orange Pepper ‘Wt2455’

60-80 Days. These beautiful, mini-sized peppers are delicious sautéed, as an addition to salads and, perfect for a healthy snack. Smooth, bright orange fruits average 2 1/2-3” long by 1 1/2” wide.

Pepper ‘Mariachi’

66 Days. An improved Santa Fe Grande type that offers earliness, superior size, milder flavor, and higher yields. Fleshy peppers are 4x2”. Great for salsa, frying, stuffing, grilling. 500-600 SHU.

Lobed Pepper ‘Mini Bell Red’

Heirloom, 60 Days. Tiny, red, bell peppers are only about 1-1/2 inches tall and wide. They have thick, red flesh that is very sweet.

Lobed Pepper 'Mini Bell Yellow'

Heirloom, 90 Days. 2-inch long, miniature yellow bells. Compact, stocky plants are covered in sweet, slightly tapered, well-flavored fruits. Heirloom type from Ohio.

Pepper 'Mucho Nacho'

Heirloom, 75 Days. Fatter and longer than the standard jalapeño and hotter, too! Vigorous plants yield lots of hot peppers that ripen to red when fully mature. 4,000 - 8,000 Scoville units.

Orange Bell Pepper

Heirloom, 90 Days. Super sweet, brilliant orange fruit are blocky with good-sized thick flesh that is flavorful and among the best tasting of all.

Pepper 'Pepperoncini'

Heirloom, 75 Days. The popular little, thin, pickling pepper. 3-5-inch fruit have a superb flavor and just a little heat.

Pepper 'Purple Beauty'

75 Days. Produces loads of beautiful bells on compact, bushy plants. Crisp texture and mild, sweet flavor.

Pepper 'Red Knight'

78 Days. Produces good yields of 4" by 4" sweet bell peppers. This variety has very thick walls and turns red quickly.

Pepper 'Marconi Red'

90 days. Deep-red, extremely sweet, 7 inch long Italian peppers are tapered with a blunt end. Often used for frying, but also delicious when eaten fresh. Very productive.

Pepper 'Red Peter'

80-85 Days. Flavorful, hot, and fruity, good roasting peppers. 10,000-25,000 SHU.

Pepper 'Serrano Del Sol'

60-65 Days. Strong plants load up with dozens of cylindrical, large, 3 to 3.5 long fruit that quickly turn a blazing scarlet as they ripen. Originating on the mountain ridges north of Hidalgo and Puebla in Mexico, this plant's bountiful yield of chili's is perfect for fresh use and really adds a touch of hot legitimacy to Mexican dishes.

Pepper 'Shishito'

60 days. Thin-walled glossy green peppers are popular as tasty appetizers that are most often pan-fried in a little olive oil and sprinkled with salt.

Pepper 'Super Chili'

75 Days. Highly ornamental, semi-compact, 24" plant bearing 2-1/2" elongated fruits with plenty of hot chili flavor. Bred for increased yields, ripens from green to orange to red. 40,000 - 50,000 Scoville units.

Pepper 'Sweet Banana'

75 Days. Sweet, mild banana peppers that mature from yellow, to orange, and then to crimson red.

Pepper 'Hot Thai'

This plant produces large numbers of 1-inch green fruits that mature to blazing red color with heat and flavor to match! 50,000-100,000 Scoville units.

Potato 'Clancy'

90-105 days. The very first potato seed to win the AAS award. Until now, potatoes have only been available as tubers. The plant will flower and grow most of the summer, then when the plant dies back, you will then find beneath the soil, a beautiful mix of spuds ranging from red to rose in color. Tubers range 3-4 ounces.

Pumpkin 'Howden Biggie'

115 Days. These pumpkins average 40 lbs. and have rich dark orange color. Thick flesh helps maintain their uniform, upright shape.

Pumpkin 'Pik-A-Pie'

85 Days. Semi-bush plant produces good yields of 6 lb. bright orange pumpkin with a large dark green handle. A superior quality variety for making pies!

Rhubarb 'Canada Red'

The bright red stalks of the Canada Red rhubarb variety work especially well in desserts because they have a high sugar content. With these rhubarb stalks, you can make your favorite recipe with less sugar. Perennial.

Shallot 'Ambition'

105 Days. Traditional shallot for long storage. Large, half-long style French shallots with reddish-copper skin and white flesh. Very firm, and suitable for long storage through spring.

Summer Squash 'Bossa Nova'

40 Days. An AAS winner! This new summer squash has an eye-catching appearance, the flesh is sweet and mild in taste. High disease resistance.

Buttercup Squash 'Burgess Strain'

95 Days. The standard buttercup squash. The medium-small, 3-5 lb., fruits have deep-orange, fibreless flesh with a rich, sweet flavor. Avg. yield: 3-4 fruits/plant.

Butternut Squash

[Early] 85 Days. The fine-textured tan fruits with a sweet, nutty flavor arise on compact vines.

Summer Squash 'Multipik'

[Summer] 50 Days. Golden yellow fruit on early, very prolific plants. 7.5-8" long. Straightneck type. Keep picked for best production.

Spaghetti Squash

[Winter] 88 Days. The classic pasta alternative. Skin is ivory changing to pale yellow at maturity. Bake like squash or boil and fork out the flesh, topping the "spaghetti" with your favorite sauce. 3-5 lb. oblong fruit.

Acorn Squash 'Table Ace'

[Winter, Acorn] 78 Days. Semi-bush plant produces good yields of real black-green Acorn type squash. The squash has delicious bright orange flesh.

Dark Green Zucchini

[Summer] 45-65 Days. Early, vigorous plants bear lots of straight and smooth, 6-8" long, dark green fruits with firm, greenish-white flesh.

Sweet Potato 'Beauregard'

90 Days. Developed at Louisiana State University in 1987, this variety may be the world's most popular sweet potato. It is favored for high yields of uniform, reddish-purple potatoes with tasty, deep-orange flesh that keeps well in storage.

Swiss Chard 'Bright Lights'

28-55 Days. Lightly savoyed, green or bronze leaves with stems of gold, pink, orange, purple, red, and white with bright and pastel variations. Consistent growth rate and strong bolt resistance across all colors makes this a superior mix.

Strawberry 'Annapolis'

Annapolis has attractive, light colored, high quality berries that maintain their large size through several pickings. A vigorous and winter-hardy variety, annapolis has consistent performance and resistance to Red Stele. Perennial.

Strawberry 'Brunswick'

Brunswick Strawberry is a release by the Kentville Research Center, Kentville, Nova Scotia, Canada. This variety ripens early midseason. A survey rated Brunswick high, especially those located in northern locations. the plant shows good plant vigor and disease resistance. Flavor was rated excellent with good berry size and appearance. Perennial.

Strawberry 'Darselect'

Large size fruits with good color and appearance and good plant vigor. Its sweet tasty fruit was rated very good for flavor and firmness. Perennial.

Strawberry 'Dickens'

From Dr. Courtney Webber's breeding program at Cornell University. Dickens produces large, firm fruit that ripen in late mid-season starting at the end of the Jewel season and continuing for 10 days after Jewel. The fruit has a short conic shape and produces multiple fruiting laterals. This variety fruits to a good sweet flavor with a bright red skin color and red interior. Perennial.

Strawberry 'Galletta'

Gallettia was released by Dr. Jim Ballington, NC state University in 2010. Galletta ripens early season and produces large sized berries. Attractive glossy fruit have excellent flavor. The plant is vigorous and shows tolerance to foliage diseases. Being an Earliglow hybrid, it has tolerance to Red Stele disease. Perennial.

Strawberry 'Glooscap'

It grows at a fast rate, and under ideal conditions can be expected to live for approximately 10 years. This is a self-pollinating variety, so it doesn't require a second plant nearby to set fruit. Perennial.

Strawberry 'Honeoye'

From the Cornell Research Station, Geneva, NY, and has been a top variety for over 30 years. It combines winter hardiness, high productivity, good appearance and color, excellent firm and large sized berry. The large berries are easy to pick and the plants produce high yields over a long fruiting season, making it a most consistent berry producer. Excellent freezing quality. Perennial.

Strawberry 'Itasca'

2006 University of Minnesota introduction commonly grown for its edible qualities. The berries have a sweet taste and firm texture. Produces yields of large, juicy red berries relatively early in late spring; vigorous, winter hardy, and shows good disease resistance. Perennial.

Strawberry 'Jewel'

#1 midseason variety recommended for commercial growers and home gardeners. Jewel has large berries with superb quality and flavor. Gardeners have been very successful using Jewel for home gardening due to its overall quality and consistent performance. Plants have moderate winter hardiness. Perennial.

Strawberry 'Sonata'

Sonata strawberry is from the Dutch breeding program, Fresh Forward and Burt Meulenbroek the breeder. This variety comes from a cross of Elsanta and Polka, two high performing Dutch varieties. Sonata expresses good plant vigor and shows tolerance to Angular Leaf Spot as well as good winter hardiness. Sonata is productive and produces large, uniform, flavorful, conic-shaped berries that are glossy red. Perennial.

Strawberry 'Valley Sunset'

Valley Sunset was bred by Andrew Jamieson in Kentville, Nova Scotia. This strawberry is a late season variety that will ripen 5-7 days later than Cabot. Plant shows good vigor with no apparent foliage disease concerns. Berries are lighter red, shiny and large-sized. Flavor and yield are very good. Perennial.

Strawberry 'Wendy'

Wendy was developed by the Kentville Research Station in Nova Scotia. The strawberry is wedge-shaped to conic, with firm, bright red colored flesh. Wendy has excellent, fresh flavor. Plants are vigorous and runner well, highly productive, of good quality, and holds its fruit size throughout the season. Highly recommended variety. Perennial.

Strawberry 'Winona'

U of M introduction, a delightful and hardy strawberry producing large bright red fruit with fine texture and hints of peach in the flavor. Very disease resistant; a great choice for the edible landscape or the strawberry patch. Perennial.

Tomatillo 'Toma Verde'

60-70 Days. Toma Verde is a favorite Tomatillo variety because of its earlier maturation and exceptional sweetness.

Tomato 'Abraham Lincoln'

77 Days. This old-time variety really loads up with an abundance of 6-10 ounce red tomatoes that are packed with great tomato flavor.

Tomato 'Amish Paste'

Heirloom, 85 Days. A long-time favorite heirloom plum. Large for a sauce tomato. Excellent flavor. These meaty tomatoes are good in salads and great for processing. Indeterminate.

Tomato 'Aussie'

85 Days. This is one of those varieties to grow when you want a really big impressive red tomato to show off to your friends. It weighs in at at least a pound or two and its flavor is as big as its size with a good old-fashioned tomato taste.

Tomato 'Azoychka'

70 Days. A delightful small yellow beefsteak tomato, ripening early in the garden. Smooth, lemon yellow fruits weigh about 8 oz. Very flavorful and pleasantly sweet.

Tomato 'Better Boy'

70 Days. Expect these bright red, rounded fruits to start quickly and continue strong all-season long. The minimum size is about 10 ounces, and some will get much larger. Indeterminate.

Tomato 'Big Beef'

73 Days. Extra-large, 10 to 12 oz. red fruits are firm, juicy and highly flavored. Yields heavily in all regions. Indeterminate.

Tomato 'Big Boy'

78 Days This is a big (16-32 oz.), sandwich-type slicer with smooth, bright red fruit and a flavor that everybody likes. Indeterminate.

Tomato 'Black Cherry'

65 Days. A perfectly round cherry with classic black tomato flavor, sweet yet rich and complex. Fruit picks clean from the stem and is produced in abundance on vigorous, tall plants. Crack resistant. Indeterminate.

Tomato 'Black from Tula'

Heirloom, 75-85 Days. A unique, large 8-12 oz. dark tomato exhibiting a rich, deep purplish-brown color. Very rich, old-fashioned flavor, sweet and spicy. A rare Russian heirloom. Indeterminate.

Tomato 'Black Krim'

Heirloom, 80 Days. This medium-sized, very dark maroon beefsteak, with wonderfully rich flavor, originated in Crimea. Indeterminate.

Tomato 'Black Plum'

82 Days. Small elongated-oval fruits are deep mahogany in color, sweet and fruity tasting. Wonderful for snacking off the vine or adding to salads. Productive and steady large crops. Indeterminate.

Tomato 'Blush'

70 Days. Beautiful, bright yellow snacking tomato. Red stripes appear as blossom-end red marbling develops. Indeterminate.

Tomato 'Box Car Willie'

Heirloom, 80 Days. Prolific yields of smooth, reddish-orange fruits averaging a large 10 to 16 oz. with an old-fashioned flavor. Indeterminate.

Tomato 'Brandywine Yellow'

Heirloom, 90 Days. Superbly rich and delicious-tasting large fruit, the golden variety gives good yields. Indeterminate.

Sudduth's Strain Tomato 'Pink Brandywine'

Heirloom, 90 Days. (aka Pink Brandywine) Large pink beefsteak fruits to 2 pounds. Incredibly rich, delightfully intense tomato flavor. Indeterminate.

Tomato 'Caspian Pink'

Heirloom, 80 Days. Originally grown in Russia in the area between the Caspian and Black Seas. Incredibly sweet and juicy fruit often reach 1 pound, and occasionally larger. Indeterminate.

Tomato 'Celebrity'

70 Days. All-purpose variety with superb flavor, disease resistance and heavy yield on determinate plants. Crack-resistant fruits average 7 oz.

Tomato 'Cherokee Chocolate'

75 days. 10-16 oz mahogany-colored, beautiful, very flavorful fruits. Productive and vigorous plants.

Tomato 'Cherokee Purple'

Heirloom, 80 Days. An old Cherokee Indian heirloom, pre-1890 variety; beautiful deep dusky purple-pink color, superb sweet flavor, and very large sized fruit. Indeterminate.

Tomato 'Chocolate Stripes'

79 Days. Expect plentiful yields of 3-4 inch, mahogany colored tomatoes with dark olive-green striping. Fruits have a delicious, complex, rich, sweet, earthy tomato flavor. Produces well into autumn. Indeterminate.

Tomato 'Coustralee'

85 Days. A French family heirloom. Expect good yields of large 1-2 lbs. fruits that are red, ribbed and blemish-free, balanced old-fashioned tomato flavor. Indeterminate.

Tomato 'Dr. Wyche's Yellow'

Heirloom, 75-80 Days. Heavy yields of one pound golden-yellow tomatoes. Meaty flesh and rich flavor. Indeterminate.

Tomato 'Early Girl II'

54 Days. Compact, patio-type variety. Extreme earliness and huge yields of firm, meaty, flavorful fruits. Fruits are a full 4 in. across. Indeterminate.

Tomato 'Fruit Punch Cherry'

75 Days. Prolific crops of 1 oz., round, pink, thin-skinned fruit that "achieves a new level of sugar-sweetness and a tangy 'true tomato' taste". Crack resistant even in heavy rains. Indeterminate.

Tomato 'Gold Medal'

80 Days. A classic heirloom variety. Gorgeous fruits weigh in around 8 ounces, yellow and red striped, amazing fruity flavor. A taste test winner. Indeterminate.

Tomato 'German Pink'

Heirloom, 85-90 Days. This variety originated in Bavaria. It made its US debut in 1883. The luxuriant potato-leaf plants give high yields of 1-2 lb., nearly seedless meaty fruit. Indeterminate.

Tomato 'Green Zebra'

Heirloom, 78 Days. Green Zebra is the result of four heirlooms bred together. Exquisite emerald green skin, dark green vertical stripes, and gently flavorful green flesh. Indeterminate.

Tomato 'Giant Red Oxheart'

75 Days. A Kentucky heirloom. Amazing and beautiful, producing large 1-2 lb. red, oxheart tomatoes with full delicious flavors.

Tomato 'Granadero'

75 Days. Produces very high yields of uniform, bright red, 4-5 oz tomatoes with very good flavor. Ideal for fresh tomato sauces, salsas, and salads. Broad disease resistance. Indeterminate.

Tomato 'Hawaiian Pineapple'

75-95 Days. Very large, up to 2 lbs each. The yellow fruit has red marbling through the flesh and is one of the most beautiful tomatoes. The flavor is very sweet and fruity; good yields! Indeterminate.

Tomato 'Hungarian Heart'

85 Days. Popular for generations because of their excellently flavored, meaty, large tomatoes that provide lots of solid good eating with very few seeds. Luscious pink tomatoes average 16 ounces. indeterminate.

Tomato 'Indigo Rose'

75-80 Days. The 2-inch round fruit have nearly black skin that occurs on the portion of the fruit that is exposed to light, while the shaded portion starts out green and turns deep red when mature. Inside, the flesh reveals the same rouge tone with a superbly balanced, multi-faceted tomatoey flavor. Indeterminate.

Tomato 'Italian Heirloom'

Outstanding variety from Italy. Plants are loaded with red fruits weighing over a pound. One of the most productive varieties. Excellent full tomato flavor. Ideal for slicing and canning—very little waste and easy to peel. Indeterminate, 70-80 days from transplant.

Tomato 'Large Red Cherry'

72 Days. Excellent salad tomato, with clusters of 5 on spreading, hardy vines. Full-season, high yields of deep scarlet, round, 1 to 1-1/4" diameter, flavorful fruits. Indeterminate.

Tomato 'Lucky Tiger'

70 Days. As Lucky Tiger ripens, the green striping becomes more defined and the background turns red as the interior marbling develops. Excellent sweet-tart flavor. indeterminate.

Tomato 'Mama Leone'

85 Days. An excellent plum tomato from Italy. Expect a large harvest of 5-6 ounce bright red meaty tomatoes with very few seeds. Fantastic sauce tomato. Indeterminate.

Tomato 'Mortgage Lifter'

Heirloom, 80-85 Days. Large, smooth, 1-lb. pink fruit have a delicious, rich, sweet taste. Bred in the 1930's by a West Virginia gardener who planted the four biggest varieties he knew and crossed one with pollen from the other three for six years. Indeterminate.

Tomato 'Mountain Fresh'

79 Days. Smooth, clean fruits, often exceeding 3-1/2", are 10 to 12 oz., have uniform color and great flavor. Plants provide good leaf cover so fruits are protected from sun scald. Produces good yields. Smooth blossom scar. Determinate.

Tomato 'Opalka'

75 Days. One of the best paste tomatoes. Fruits are large, at least 5 inches long and shaped like a banana pepper. Plants have wispy-type foliage, but are vigorous and very productive. Polish heirloom. Indeterminate.

Tomato 'Orange Banana'

85 Days. Plants produce good yields of 2-3 ounce plum-shaped orange paste tomatoes with a good sweet-tart flavor. Delicious in sauces and salsa, but also perfect for fresh eating, canning and drying. Has good disease resistance. Indeterminate.

Tomato 'Pink Bumble Bee'

70 days. Excellent sweet flavor. An alluring combination of light pinks, yellows and oranges. Indeterminate.

Tomato 'Pink Lemon'

75 Days. As the name suggests, this variety looks like a lemon. Fruits are 4-5 ounces, plum-lemon shaped, meaty, bright yellow with a slight pink burst of color in the center. One of the best tasting yellow tomatoes. Indeterminate.

Tomato 'Purple Bumble Bee'

70 Days. An eye-catching combination of the dusky purple seen in heirloom tomatoes and metallic green striping. Sweet flavor and meaty texture produce a nice accent to any salad. Indeterminate.

Tomato 'Red Grape'

70 Days. Produces big yields of grape-size fruit on multiple clusters. Shiny red fruit is consistent for size and shape and has the firm texture and good sweetness that grape tomatoes are known for. Indeterminate.

Tomato 'Red Zebra'

Heirloom, 75-90 Days. 'Red Zebra' is thought to be a naturally occurring cross between 'Green Zebra' and an unknown, though certainly red, parent. The beautiful and tartly flavored offspring are gorgeous 2-3", round cherry-red fruits with rich orange streaks. Indeterminate.

Tomato 'Roma'

73-80 Days. Prized for its use in tomato paste and sauces. Produces a large harvest of thick-walled, meaty, bright red, egg-shaped tomatoes about 3 inches long and with few seeds. Determinate.

Tomato 'San Marzano'

80 Days. The long, blocky fruits mature with a small, discreet seed cavity that can be scooped out, leaving all meat. This means much less boiling to get a first class paste. The shape is also good for canning, and excellent for drying. Determinate.

Tomato 'Sun Gold'

55-65 Days. Ripens in long clusters of 10-15, 1 oz. fruits. The sweet flavor is ready about a week before full coloring. Indeterminate.

Tomato 'Sunrise Bumble Bee'

70 Days. Gorgeous combination of yellows and reds, inside and out. Excellent sweet and tangy flavor. Adds a nice pop of color to any mix, but also stands alone as a premium-quality cherry for snacking and salads. indeterminate.

Tomato 'Sunsugar'

62 Days. This golden yellow tomato has great sugar-sweetness and flavor, superb texture, and a tangy "true tomato" taste. Fruits are a lovely golden yellow, weigh 1/2 oz., and possess thin skins. Indeterminate.

Tomato 'Super Fantastic'

70 Days. An improved version of the ever-popular Fantastic, with stronger disease resistance. Heavy yields of solid, meaty, smooth fruits weigh and average of 10 oz each. Indeterminate.

Tomato 'Super Sweet 100'

65 Days. A delicious treat that is also one of the most nutritious tomatoes available anywhere! Higher vitamin C content than any other tomato. Fruits are 1" globes with bright red skin and flesh. Indeterminate.

***Tomato ‘Viva Italia’***

Heirloom, 80 Days. Vigorous plants yield an abundance of 3 oz. fruits that make outstanding soups and ketchup. Determinate.

Tomato ‘Wisconsin 55’

Heirloom, 80 Days. Released by the University of Wisconsin in 1946. Bright red, globe shaped fruits. Excellent all-purpose tomato, great for canning. Indeterminate.

Tomato ‘Yellow Pear’

70 Days. Petite, distinctive salad tomato. Indeterminate.

Watermelon ‘Crimson Sweet’

80 Days. Released by Kansas State University in 1963. A light green melon with dark stripes, high sugar content and great flavor.

Watermelon ‘Mini Love’

70 days. An AAS winner. Sweet and firm, oval fruits average 5-7 lbs. Bright red flesh. Very productive.

Watermelon ‘Mini Love’

80 days. A wonderful “icebox” size watermelon with a beautiful orange flesh, outstanding and refreshing taste!

Watermelon ‘Sugar Baby’

75 Days. Sweet, fine-textured, medium-red flesh. The round, 12 lb., dark green skinned melons grow 8 in. across.
