BaiOrnamentals®

Three Sides to Every Story

What makes Ball Ornamentals the one to watch in the shrubs and woody plants industry? It depends who you ask. Some might tell you it's our personal service...others our reliable supply or innovative products.

We believe it's our perfect balance of all three! Ball Ornamentals is committed to being the best at everything we do, so you can be successful in your business, too.

Service

Anna Caroline Ball

"One thing I love more than growing plants is growing relationships. It's just as important in business as it is with family and friends. So I'm really proud of the Ball Ornamentals team for their dedication to customers like you. You can count on personal service every step of the way, from product selection to delivery - and beyond. Your satisfaction always comes first with us."

John McDonough

Supply

“When Ball Ornamentals needed a new Supply Chain Manager, I jumped at the chance! Not only do I still get to work with the best sales team in the industry, I can continue to serve dedicated growers like you. I have a great roster of contacts and I’m calling every single one to make sure there’s a steady stream of the very best varieties coming your way. And of course, we’ll make sure your orders are filled accurately and delivered on time and in excellent condition.”

Peter Kruger

Products

“Our breeding partners work overtime to bring you incredible new genetics, most of them exclusive varieties. I can sum up this year’s new product offerings in two words: big and color. HyperBerries is the perfect name for our new Hypericum series – three times the size of standard berries, and tons of them. And don’t miss new L.A. Dreamin’ Hydrangea with pink, blue and a mix of the two all at the same time...with no extra effort on your part.”

Stress Less!

Relax...L.A. Dreamin' does the work for you.

Pink AND Blue? Can do! This totally unique *H. macrophylla* will practically sell itself, but we've made it even easier for you. Eye-catching pots and tags practically guarantee increased pull-through at retail... and the big blooms in pink AND blue seal the deal.

Order your liners and mandatory L.A. Dreamin' branded pots and tags from your Ball Ornamentals or McHutchison rep.

Find out what makes L.A. Dreamin' a hit on page 31.

HYDRANGEA

NEW Hydrangea
L.A. Dreamin'

NEW Safari Series Aloe

"With the Ball Ornamentals emphasis on heat and drought-tolerant plants for California and the Southwest, I am so excited about our new line of landscape Aloe - especially the new bicolor Safari Sunrise. It has a super-cool bloom, it's a fast grower, and it will bloom the first season from TC, which is unique for an Aloe! Safari Rose is a great new pink color, shows good cold and disease resistance, and has a long flowering time. And I really like the large bloom, vibrant color and highly toothed foliage of Safari Orange. All the Safari Aloe stay in bloom a long time at retail with little care, creating a good impulse item for consumers. And they make a massive color impact in the landscape, even under drought conditions." - Joey Wiseman, Western Sales Consultant

NEW Aloe 'Safari Orange'

NEW Aloe 'Safari Rose'

NEW Aloe 'Safari Sunrise'

ALOE ☀️

Aloe barbadensis

NEW Safari Series

Height: 3 ft. (0.9 m)

Spread: 3.5 ft. (1.1 m)

Zones: 9 to 11

No hunting for these aloes - they're large in the landscape!

Reblooming varieties keep the color coming

No overwintering - blooms the first year

Floriferous, with a full habit

Includes unique bicolor variety, Sunrise

'Safari Orange'

'Safari Rose'

'Safari Sunrise'

ABELIA 🌞🌱

Low water-needs varieties
 All-purpose evergreen shrub has swagger in containers or in the garden
 Flowers give off a charming fragrance

ABELIA GRANDIFLORA

Bella Donna 'Wevo1' PPAF

Height: 24 in. (60 cm)
 Spread: 28 to 32 in. (70 to 80 cm)
 Zones: 6 to 9
 Keeps a low profile with distinctive prostrate habit
 Profuse white flowers in late Spring
 White and green variegated foliage

Sunshine Daydream

'Abelops' PP20,961

Height: 3 to 4 ft. (0.9 to 1.2 m)
 Spread: 3 to 4 ft. (0.9 to 1.2 m)
 Zones: 6 to 9
 Awesome tricolor variegation of pink, golden yellow and green
 Naturally full, no shearing needed
 Must-have for designer gardens
 Fragrant, white blooms with rosy tones
 HGTV Home Selection

Abelia Bella Donna

ABELIA HYBRID

Abelia 'Raspberry Profusion'

Agapanthus Trumpet King

Agapanthus 'Jonie'

Agapanthus 'Gold Strike'

Agapanthus 'Blue Flare'

Agapanthus 'Full Moon'

AGAPANTHUS ☀️

Low water-needs varieties
Drought and heat tolerant
Bunching, straplike leaves surrounded
by impressive blooming in Summer

AGAPANTHUS INAPERTUS

'Gold Strike' PP20,650
Height: 18 to 24 in. (45 to 60 cm)
Spread: 18 to 24 in. (45 to 60 cm)
Zones: 8 to 11

Gold and green variegation hits
the jackpot as the brightest of any
Agapanthus
Free-flowering plants will bloom the
first year
Vibrant blue blooms aren't too
shabby against bright foliage - an
incredible contrast

AGAPANTHUS PRAECOX

'Jonie' PPAF
Height: 18 to 20 in. (45 to 50 cm)
Spread: 18 to 24 in. (45 to 60 cm)
Zones: 8 to 11
Full clusters of flowers love to hang
out
Free-flowering variety blooms
multiple times per season

AGAPANTHUS PRAECOX HYBRID

'Blue Flare' PPAF
Height: 28 to 32 in. (70 to 80 cm)
Spread: 24 in. (60 cm)
Zones: 8 to 11

More blooms per plant, for a longer
time - you'll see the improvement
over other compact varieties!
Mid-sized, 4-in. (10-cm) blue flowers
Evergreen, compact habit
HGTV Home Exclusive

'Full Moon' PPAF
Height: 3 to 3.5 ft. (0.9 to 1.1 m)
Spread: 3 ft. (0.9 m)
Zones: 8 to 11

Two colors are better than one - light
blue flowers have dark blue stripes
Long bloom season
Evergreen foliage
HGTV Home Exclusive

Trumpet King 'Hanneke' PPAF
Height: 3 to 3.5 ft. (0.9 to 1.1m)
Spread: 3 ft. (0.9 m)
Zones: 8 to 11
Huge flower clusters are a blast -
6 to 8 in. (15 to 20 cm)
Good as a cut flower

ALBIZIA ☀️

(MIMOSA)

A. julibrissin

'Summer Chocolate' PP13, 822

Height: 15 to 20 ft. (4.5 to 6 m)

Spread: 20 ft. (6 m)

Zones: 6b to 10

Burgundy foliage is all the rage in ornamental trees

Umbrella shape provides inviting shade

Pink, pincushion flowers

Drought and heat tolerant

ALYOGYNE ☀️

(BUSH HIBISCUS)

Alyogyne huegelii

New 'Elektra Blue' 'HUTHOW'

PP23,958

Height: 5 ft. (1.5 m)

Spread: 5 ft. (1.5 m)

Zones: 9 to 11

A low water-needs variety

Heat tolerant

Bigger is better - the largest flowers in its class

Distinctive blue flowers with iridescent edges

A favorite in the Southern U.S.

Big garden impact with very little effort

Albizia 'Summer Chocolate'

ASTELIA ☀️🌧️

Low water-needs varieties

Bunching thickets of cushy foliage are very soft, including tips

"No-brainers" to grow - fabulous in containers

ASTELIA BANKSII

Shore

Height: 3 to 4 ft. (0.9 to 1.2 m)

Spread: 3 ft. (0.9 m)

Zones: Hardy through Zone 4

Three-color series shares a graceful, arching habit

Compact Berberis series

Distinct Fall foliage colors, all with unique small leaves

'Golden Dream' PP24,059

'Orange Dream' PP24,076

'Red Dream' PP24,077

'Lutin Rouge' PP22,796

Height: 2.5 ft. (0.8 m)

Spread: 2.5 ft. (0.8 m)

Zones: Hardy through Zone 4

Naturally dense, oval habit is maintenance-free

Vibrant red foliage

Drought tolerant and cold hardy once established

New 'Red Torch' P22,220

Height: 4.5 ft. (1.4 m)

Spread: 3 ft. (0.9 m)

Zones: Hardy through Zone 4

Call the fire brigade! Intense foliage stays blazing red when other berberis turn maroon

Nice upright habit with very columnar growth

BORONIA ☀️

BORONIA CRENULATA

'Shark Bay'

Height: 3 to 4 ft. (0.9 to 1.2 m)

Spread: 3 to 4 ft. (0.9 to 1.2 m)

Zones: 9a to 11, West Coast

Densely compact shrub displays bundles of sweet pink blooms

Very trendy plant with blooming to envy

Blooms all year round

Heat tolerant

Boronia 'Shark Bay'

BORONIA MOLLOYAE

'Mother's Day'

Height: 3 ft. (0.9 m)

Spread: 2 ft. (0.6 m)

Zone: 9a to 11, West Coast

Full-growing and late-blooming - just in time for Mother's Day or Spring sales

Intense rose, heart-shaped flowers grow in clusters

The showiest Boronia on the market!

Heat tolerant

Boronia 'Mother's Day'

BRUGMANSIA ☀️

B. suaveolens

Angel Series

Height: 6 ft. (1.8 m)

Spread: 4 ft. (1.2 m)

Zone: 10

The only dwarf on the block has enormous 4 to 6-in. (10 to 15-cm) blooms

Trumpet-shaped blooms hang upside down and give off an intense fragrance at night

Subtropical shrub catches anyone's attention - especially the hummingbirds

Heat and drought tolerant

BUDDLEIA ☀️

See pages 10 to 17

CALLICARPA ☀️ 🌧️

(BEAUTY BERRY)

C. japonica

'Snow Storm'

Height: 3 to 4 ft. (0.9 to 1.2 m)

Spread: 3 to 4 ft. (0.9 to 1.2 m)

Zones: 5b to 8

Young foliage is mostly white with pink new growth, then develops interesting patches of green as it ages

Compact habit for a sweet garden display

Brugmansia 'Little Angel White'

Callicarpa 'Snow Storm'

Buddleia

Red-Hot Hues

"Unique, bright and striking - we selected these designer Buddleias for sizzling color that lasts for months. CranRazz's huge, cranberry-red flower panicles really put on a show in garden centers and landscapes. And Blaze Pink is the truest pink Buddleia I've ever seen. Here are my hot tips for growing and selling these beautiful Buddleias:

"Plant them in fertile soil and full sun and watch them thrive! No need to shear for a secondary bloom period - they cover up spent flowers with vibrant new blooms from Spring until frost.

"Display CranRazz and Blaze Pink front and center, then stand back! With their big, brilliant blooms and contrasting foliage, they're ideal impulse items. A standing order with your grower every week will keep your cash registers humming."

- Robert Kerns, *South Central and Southwest Sales Consultant*

Blaze Pink

BUDDLEIA ☀

B. hybrids

Blaze Pink 'Bosblink' PPAF

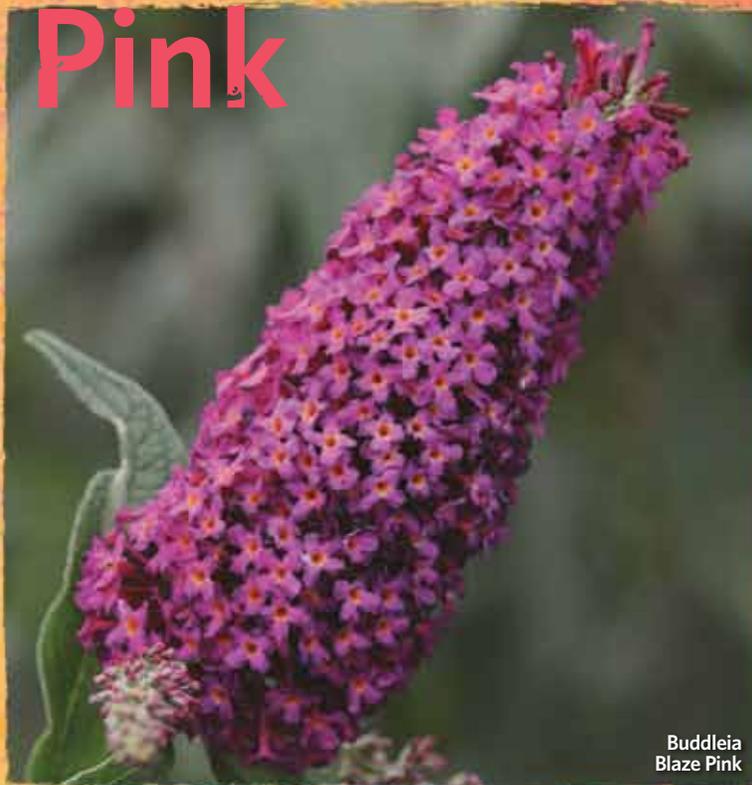

Height: 4 ft. (1.2 m)

A low water-needs variety

Full, mounding evergreen features high-speed growth!

White composite blooms with cool, saw-toothed, green foliage

Clematis 'Southern Cross'

Clematis 'Perfection'

Clematis 'Southern Cross'

Coprosma

Evergreen, ever colorful

"Coprosma is an underused but really remarkable plant...evergreen where hardy, thornless, extremely colorful, easy to grow and highly tolerant of alkali or high salt soils. The naturally waxy foliage looks like it's just been polished - people often think it's fake! Once people try Coprosmas, the plants become a garden favorite. They look exotic but are easy to grow and maintain. Coprosmas need no special fertilizer and don't require much irrigation once established. They do best in full sun, where the foliage color really shines.

"My favorite variety is Pina Colada because of its unique coloration: orange edges that merge with a golden lime green center. Visitors to my garden notice it immediately. It grows tall and full enough to be a focal point in landscapes and really spices up a garden.

"Coprosma is also a great container or combo item for areas colder than zone 8, giving consumers something completely different."
- Pete Kruger, *General Manager*

Spread: 6 to 8 ft. (1.8 to 2.4 m)

Zones: 9 to 10

There's never been a shrub form of a Fig Tree until now!

Our Florida trial data shows extreme durability and little care needed to maintain all Winter

Exotic-looking foliage on a tropical that's proven to be hardy in deep South's heat and humidity

Demonstrates great pest resistance

Ficus 'Figaro'

Gardenia

Scent-sational

The great thing about Gardenias: you can love them just as much with your eyes closed. Their strong, sweet scent captivates the senses in Southern gardens...but their natural essence eludes the perfume industry, which has to make do with synthetic substitutes. Lucky for you and your customers that Ball Ornamentals offers these naturally scent-sational varieties to delight fragrance-loving gardeners.

GARDENIA ☀

GARDENIA JASMINOIDES

Fragrant blooms all Summer long

A staple in Southern landscapes

Our selection takes these blooms to a new level in size and color

Coconut Magic

'Xtra Large Cream' PPAF

Height: 3 to 4 ft. (0.9 to 1.2 m)

Next Generation Pistachio

"Pistachio Hydrangea has become an order builder for our customers. With one of the most unique floral displays of any plant, it should have a place in every garden where *Hydrangea macrophylla* will grow. Pistachio has developed a legendary following at the garden center and on the world wide web. Hot pink and pistachio green with purple centers all on the same panicle...are you kidding me? Don't miss out on this one! This re-blooming, compact Hydrangea has truly raised the bar and has everybody talking!"
- Robert Kerns, South Central and Southwest Sales Consultant

HYDRANGEA 🌞
H. macrophylla

**Next Generation
Pistachio** 'Horwack' PPAF

Height: 3 to 4 ft. (0.9 to 1.2 m)

Spread: 3 to 5 ft. (0.9 to 1.5 m)

Zones: 5 to 9

Natural variability in flower clusters displays a range of mind-bending colors

Hydrangea
Next Generation Pistachio

L.A. Dreamin' is for real!

Pink AND blue? Can do, with new L.A. Dreamin'. It's the first *H. macrophylla* to show blue, pink and everything in between all at once, on the same plant, without any aluminum sulfate. Throw in great reblooming power and it's clear that L.A. Dreamin' is a grower's - and gardener's - dream come true.

L.A. Dreamin'
HYDRANGEA

NEW Hydrangea
L.A. Dreamin'

"My son and I noticed an interesting Hydrangea in a neighbor's yard and watched it over a few years. We were attracted to its stunning blue color and the fact that it also displayed pink, purple and mauve colors in between. The blooms lasted well into the Fall and the plant survived our harsh Michigan Winters. We asked the neighbor if we could take cuttings off the plant. The following year, we took our first cuttings of what would become L.A. Dreamin'. John McDonough, our BOS rep, was attracted to our Hydrangea and started asking us about it. Now we are partnering with Ball to spread this wonderful Hydrangea further. The L.A. Dreamin' name comes from *Macrophylla* Lindsey Ann, a tribute to my late daughter and the life that we were blessed with for 11 years."
- John Bakale, Michigan Evergreen Nursery, West Olive, MI

HYDRANGEA 

H. macrophylla

NEW L.A. Dreamin' PPAF

Height: 5 ft. (1.5 m)

Spread: 6 ft. (1.8 m)

Zones: 5 to 10

The first Mophead that shows pink, blue and bicolor blooms without special treatment

A real standout in the crowded Hydrangea market

Thrives in morning sun, afternoon shade

Emerging Trend

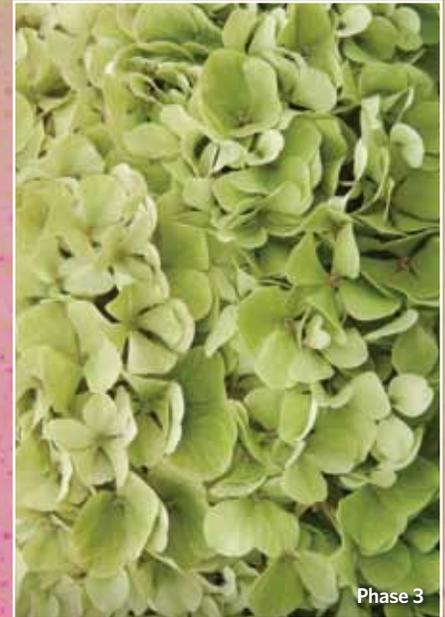

Patio tree hydrangeas

Hydrangeas as patio trees? Why not? 'Avant Garde' is a perfect candidate, as it's programmable and requires no vernalization. Formerly sold as Savant, this *H. macrophylla* is stunning as a shrub and takes on a totally new dimension as a patio tree. That gorgeous mass of blooms is channeled into one gargantuan, basketball-sized bloom that lasts and lasts.

Buy it as a prefinished liner and grow as a shrub or patio tree, no special culture needed. Selling 'Avant Garde' is even easier. There's a ready-made market for patio shrubs, trees and perennials among young, urban renters and homeowners with smaller outdoor spaces. Give it a try and see your stock disappear...just like magic!

Hydrangea
'Avant Garde'

“

'Avant Garde' represents a totally new look for Hydrangeas. By virtue of its architecture and soft, neutral tones, it's truly a home décor item. We haven't found another Hydrangea variety that will produce this shape and size - it's a very sturdy plant with excellent stem integrity, requiring little support. It has unusually large, glossy, dark green foliage and the largest flower I've ever seen on a Hydrangea, frequently 12 to 14 in. (30 to 35 cm) in diameter.

"Generally speaking, patio trees must be pinched to create a broad, showy canopy - but Avant Garde's single bloom is large enough to provide adequate canopy size without pinching. It has tremendous keeping quality - with proper care, an inflorescence can last 4 to 6 weeks, or twice that of other Hydrangea varieties. The color of the inflorescence changes as it matures, providing broader consumer appeal and a longer selling window.

"Whether we are talking about commercial growing characteristics or end-user appeal, I believe this breeding line to be superior to anything else in the market.

”

- T.J. Cape, *Clearwater Nursery, Nipomo, CA*

NEW Hydrangea 'Mother's Love'

HYDRANGEA 🌞🌈

Lagerstroemia Enduring Summer

"Enduring Summer really lives up to its name, with a longer bloom time at retail and in the garden - even into early October in Florida! It's programmable to bloom any time during the Summer and early Fall; just trim the old seed pods and they're in full bloom again the next month.

"Try growing Enduring Summer in larger pots, like a 7-gallon - they look amazing! Heavy feed in the Spring and an extra trim give you a fuller, rounder plant that commands a premium price. A hint for retailers: clue customers in that these are dwarf crepe myrtles...something really different!" - John McKenna, Southeast Sales Consultant

Water-Wise Winners

Lomandra

“What’s the number-one challenge in landscaping these days? In my home territory on the West Coast, it’s water – or lack of it! Even in areas not affected by drought or watering restrictions, customers look for water-wise plants to save time and money. Native to Australia, Lomandra is low-maintenance, loves the heat and is very forgiving to garden slackers!” – Joey Wiseman, Western Sales Consultant

LOMANDRA

Lush, grasslike plants adapt to a wide variety of soils and love the heat. Ecologically friendly, drought tolerant and low maintenance...in your choice of habits.

LOMANDRA CONFERTIFOLIA SSP RUBIGINOSA

Spread: 2.5 to 3.5 ft. (0.8 to 1 m)

Zones: 8 to 11

Huge, clear white bloom clusters are powerfully produced in Spring

Tight, round habit looks sharp and neat

Excellent disease resistance throughout North America

Pittosporum 'Elfin'

Rhamphiolepis Oriental Pearl

Sambucus

Black Tower

"This unique plant pops off the bench with striking dark foliage and a tall, columnar habit. Unlike most Sambucus varieties which grow huge and unwieldy, Sambucus Black Tower has a great human scale and proportion. Two-tone pink flowers and black foliage draw customers in and set the hook!

"This true two-in-one plant appeals to casual gardeners and discriminating designers. Left untouched in the nursery, it grows straight up like a high-rise tower to a height of about 8 ft. (2.4 m). Black Tower stands tall above its neighbors, consuming very little precious square footage. But pinch it once at 2 to 3 ft. (0.6 to 0.9 m), and it takes on a form that's akin to a large upright floral arrangement with leaves and flowers placed uniformly and artfully throughout the plant. Best of all, it's TOUGH AS NAILS!"

– Matthew Boyd, *Midwest and Northeast Sales Consultant*

SAMBUCUS 🌞🌱
(ELDER)
S. nigra

Black Tower 'Eiffel01' PP23,633
Height: 6 to 8 ft. (1.8 to 2.4 m)
Spread: 3 to 4 ft. (0.9 to 1.2 m)
Zones: 4 to 7
A low water-needs variety
Towering, upright plant of dark burgundy is a garden spire to behold
HGTV Home Selection

Sambucus Black Tower

Sambucus Black Tower

Salix 'Flamingo'

Sorbaria 'Sem'

Symphoricarpos
Magical Avalanche

Symphoricarpos Magical Joy

Symphoricarpos Magical Mandy

Salix 'Golden Sunshine'

SALIX ☀️

(WILLOW)

Is it an extremely large shrub? Or a small tree?

Willows are known for withstanding all sorts of soils and climates

SALIX INTEGRA

'Flamingo' PP17,490

Height: 8 to 10 ft. (2.4 to 3 m)

Spread: 8 to 10 ft. (2.4 to 3 m)

Zones: 4 to 10

Striking pink stems show off exciting foliage

Upright and sprawling with durable leaves that transform from pinkish red to green and white variegation

Shows more sun tolerance than other variegated varieties

SALIX SACHALINENSIS

'Golden Sunshine' PP19,370

Height: 15 to 18 ft. (4 to 5 m)

Spread: 5 to 6 ft. (1.5 to 1.8 m)

Zones: 5a to 10

Outshines all the rest with unique, rich golden color that stays golden through Summer humidity

Fast and full growing

SORBARIA ☀️

(ASH LEAF SPIREA)

S. sorbifolia

'Sem' PP16,336

Height: 4 to 6 ft. (1.2 to 1.8 m)

Spread: 4 to 6 ft. (1.2 to 1.8 m)

Zones: 4a to 11

A low water-needs variety

Tropical-looking, tricolor foliage gives a touch of the exotic to the landscape

Multi-stemmed, compact habit is maintained at around 5 ft. (1.5 m)

Cold-hardy

SYMPHORICARPOS ☀️

(SNOWBERRY)

S. doorenbosii

Magical® Series

Height: 3 to 4 ft. (0.9 to 1.2 m)

Spread: 3 ft. (0.9 m)

Zones: 4 to 7

Low water-needs varieties

Low-growing shrub is very cold hardy

Berries make winter landscapes bright - wildlife loves them, too!

Avalanche and Joy are HGTV Home Exclusives

Darwin

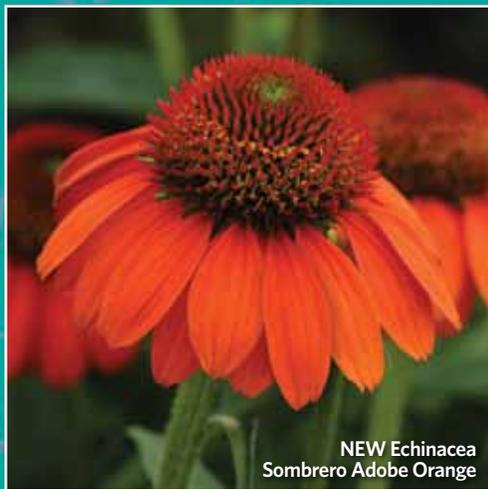

Perennials

for that Extra Pop of Color!

What goes great with shrubs? Perennials! Your Ball Ornamentals rep can recommend top-performing Darwin Perennials varieties that are perfect for your region. These are just a few of our favorites:

NEW Echinacea Sombrero® Adobe Orange

Expect plenty of pumpkin-hued blooms from this well-branched coneflower! Exceptionally hardy series now features six bold colors.

NEW Heuchera Carnival Black Olive

Affordable, uniform Heuchera series now includes an intense, deep purple/black and green variety that matures to a rich olive green.

Lavender SuperBlue

Hands down, SuperBlue has the biggest blooms you'll find in any *L. angustifolia* - super color and landscape performance, too!

Heliopsis Sunstruck

Compact, early-flowering ox-eye marries massive, sunny blooms - the biggest in their class - with eye-catching variegated foliage.

NEW Alyssum Golden Spring

NEW Iberis Lavish & White Heat

Beautiful, hardy new varieties need no vernalization for flowering...and they stay in bloom for months!

NEW Salvia Blue Marvel

Marvel at the size of these flowers - the largest of any *S. nemorosa*! Blue Marvel makes an ideal premium perennial item.

NEW Alyssum Golden Spring

Exciting new season extender will WOW garden center customers with its big, bright, early blooms. Pest-free, loves the heat.

NEW Viola Halo Lemon Frost

Ever-blooming, ever-popular! Market this heat-tolerant Viola well into Summer along with its three series companions.

NEW Salvia Blue Marvel

Monarda Balmy™ Purple

Full, compact plants pack plenty of flower power for great retail appeal - plus, it's tops in powdery mildew resistance.

Monarda Balmy Purple

NEW Iberis White Heat

NEW Iberis Lavish

NEW Viola Halo Lemon Frost

Tag Services

Tag, you're it! Cool, color-coordinated tags include planting diagrams, companion plants, seasonal care info and more.

Ball Ornamentals Tag Policy

Ball Ornamentals offers a tag program for all patented and plant patent applied for products. Tags are shipped within a few weeks of liner arrival at your facility. They are shipped from Horticultural Marketing and Printing Company, who houses all graphics and product information for Ball Ornamentals. You will receive labels for these products automatically unless you follow the procedures for producing your own tags (see below). Cost for most tags is \$20/100. A few tags are mandatory; ask your sales consultant. For all other products, we offer you the opportunity to use your own tags, graphics and company information.

Producing Your Own Tags

For all parties involved, it is of the utmost importance to represent product information accurately. To aid you in this, we ask the following:

Make sure your tags include all information.

This means full botanical name, patent information, common name/trade name assigned by Ball Ornamentals, accurate product description and a photo (if product is being sold in retail stores).

Send us samples for approval.

This is mandatory for all company tags of product supplied by Ball Ornamentals. Send PDF to the address below along with the name of the contact person from your company, address, email and phone number.

Attn: Lora Lee Saracino
Ball Ornamentals
622 Town Road
West Chicago, IL 60185
lsaracino@ballhort.com

We will send you approval if the tag meets the above criteria. We reserve the right not to accept a tag.

Reliable Partnered Suppliers

We partner with the best propagation nurseries so you can depend on first-class liners delivered when you need them. Check with your sales consultant for liner supply.

Available forms

Terms & Conditions of Sale

Visit ballseed.com for current Terms & Conditions of Sale.

Note: Ball Terms & Conditions of Sale are country/region specific. The following Terms & Conditions of Sale apply to product sold within the United States and Canada.

Acceptance of Terms

These terms and conditions shall govern orders for seeds, bulbs, plants, supplies and other materials (merchandise) placed with Seller. All negotiations with sales representatives or other agents of Seller are merged herein. No modification of these terms and conditions shall be effective unless in writing signed by Seller. Placement of the order shall constitute Purchaser's acceptance of these terms and conditions. All orders are subject to acceptance by Seller at our offices in West Chicago, Illinois.

Limitation of Warranty

Seller warrants, to the extent required by law, that merchandise conforms to the description appearing in Seller's catalog and on container labels, within recognized tolerances. SELLER MAKES NO OTHER OR FURTHER WARRANTY, EXPRESS OR IMPLIED. ALL OTHER OR FURTHER WARRANTIES, INCLUDING ANY WARRANTIES OF MERCHANTABILITY, TITLE, NON-INFRINGEMENT AND FITNESS FOR A PARTICULAR PURPOSE, ARE EXCLUDED. Certain merchandise may be separately warranted by the manufacturer. Seller does not adopt or ratify any manufacturer warranties, express or implied, and Seller shall have no liability thereunder. Seller does not adopt or ratify any manufacturer warranties, express or implied, made by Purchaser upon resale of the merchandise, and Seller shall have no liability thereunder.

Limitation of Remedy

PURCHASER'S SOLE AND EXCLUSIVE REMEDY SHALL BE REFUND OF THE PURCHASE PRICE. SELLER'S LIABILITY, WHETHER FOR BREACH OF CONTRACT, BREACH OF WARRANTY, NEGLIGENCE, PRODUCTS LIABILITY OR ANY OTHER THEORY OF LIABILITY, IS LIMITED TO THE AMOUNT OF THE PURCHASE PRICE. UNDER NO CIRCUMSTANCES SHALL SELLER BE LIABLE FOR DAMAGES IN EXCESS OF THE PURCHASE PRICE, OR FOR ANY SPECIAL, INCIDENTAL, INDIRECT OR CONSEQUENTIAL DAMAGES.

Excluded Use

Merchandise is not intended for immediate or eventual sale to commercial growers, truck farmers, market gardeners or others who sell fruit or vegetables to the end user.

Mandatory Arbitration

ANY CLAIM WHICH PURCHASER MAY HAVE AGAINST SELLER ARISING OUT OF OR RELATING TO THE SALE OF THE MERCHANDISE SHALL BE SETTLED BY BINDING ARBITRATION IN ACCORDANCE WITH THE COMMERCIAL ARBITRATION RULES OF THE AMERICAN ARBITRATION ASSOCIATION, SAID ARBITRATION TO BE VENUED IN COOK OR DUPAGE COUNTIES, ILLINOIS. The laws of several states require arbitration, conciliation or mediation of disputes involving allegedly defective seed before legal action may be taken. Purchaser should contact the State Department Of Agriculture for information. Such laws typically require that a complaint be filed with the State Department Of Agriculture in time to permit inspection of the seed, crops or plants. If such a complaint is filed, a copy must be sent to Seller by registered or certified mail.

Governing Law, Jurisdiction & Venue

The laws of the State of Illinois, including but not limited to the Uniform Commercial Code as adopted therein, shall govern all matters arising out of or relating to Seller's sale of merchandise. ANY DISPUTE NOT SUBJECT TO ARBITRATION AND ANY ACTION TO ENFORCE AN ARBITRATION AWARD ARISING OUT OF OR RELATING TO THE SALE OF MERCHANDISE HEREUNDER SHALL BE MAINTAINED IN THE STATE OR FEDERAL COURTS LOCATED IN DUPAGE OR COOK COUNTIES, ILLINOIS, AND PURCHASER SUBMITS TO THE JURISDICTION OF AND VENUE IN SAID COURTS.

Indemnity

By accepting merchandise, Purchaser agrees to defend Seller, to hold it harmless and indemnify it from and against any claim or loss asserted by any or all transferees of such merchandise or users of the products of such merchandise who are not notified by Purchaser in writing of Limitation of Warranty, Limitation of Remedy, Mandatory Arbitration, Governing Law Jurisdiction and Venue, and Notice Regarding Seed-Borne Diseases in language substantially equivalent to that contained in these Terms and Conditions of Sale.

Prices

All prices are subject to change without notice. The price in effect at time of shipment will prevail. Prices do not include installation; Seller takes no responsibility, and shall have no liability for installation. Effective May 1, 2013, requests to package seed in unlisted sizes will incur a charge of \$0.75 per packet. Additional processing and handling charges may be added.

Payment

Payment is due in invoiced currency and in accordance with the terms specified on invoice. In the event of default in the payment of any amount when due, and in addition to all other rights and remedies available to Seller, SELLER SHALL BE ENTITLED TO COLLECT A LATE CHARGE OF 2% PER MONTH (24% PER YEAR) OR THE MAXIMUM RATE ALLOWED BY LAW, WHICHEVER IS LESS, ON ALL AMOUNTS PAST DUE FROM THE DATE DUE UNTIL THE DATE PAID. A FEE OF \$25.00 WILL BE CHARGED FOR ANY RETURNED CHECK OR DECLINED BANKCARD TRANSACTION.

Freight & Handling Charges, Inspection, Damaged Goods

The freight and handling charge on Purchaser's invoice covers shipment of the merchandise to Purchaser's destination, and replacement or credit for damaged merchandise if the steps listed here are followed. PURCHASER WILL NOT REFUSE OR RETURN GOODS, OR THE RIGHT TO FILE A CLAIM IS LOST AND PURCHASER WILL STILL BE LIABLE FOR THE MATERIAL AND THE FREIGHT. When Purchaser receives shipment:

- 1) Count all cartons.
- 2) Inspect all cartons for external damage.
- 3) Check for open or resealed cartons.
- 4) Note any damages, shortages, open or resealed cartons on the delivery receipt; the carrier's representative must also sign the receipt.
- 5) Open all boxes immediately and inspect for damage such as scorched, frozen or broken plants; material shortages; etc. NOTIFY SELLER IMMEDIATELY IF A SHIPMENT IS DAMAGED. Call the Ball Traffic Department at **800 879-BALL** to report the damage and receive details on what is needed to file a claim.

Cancellation Policy

Cancellations for unrooted cuttings must be received at least 30 days prior to scheduled ship date. Cancellations for liners or seed-raised plugs must be received prior to stick or sow date.

Notice & Return

Seller shall have no liability for any defect unless notice is given promptly, not to exceed thirty (30) days after such defect is or should have been discovered. No merchandise may be returned without Seller's prior written authorization. Requests to return merchandise must be made within ten (10) days after delivery. All returns must be in accordance with Seller's shipping instructions with freight paid by Purchaser. All requests for return of merchandise must be made to Ball at **800 879-BALL**. The Purchaser will also be asked to provide a letter stating the reason for the return.

The order number or invoice number must accompany the return in order to expedite the credit. NOTE: No seed will be accepted without prior notification to Ball at **800 879-BALL**. Effective immediately, seed that is returned without authorization will not be accepted and credit will not be issued. For all customers in the United States, a FedEx call tag will be issued upon authorization of return. There is a \$7.50 freight charge for the FedEx return. Seed must be returned in the original condition within thirty (30) days of the ship date for full credit. No open packages will be accepted. If seed is returned within thirty one (31) to sixty (60) days after ship date, full credit will be given but a 15% restocking charge will be assessed. No credit or replacement will be given for seed returned after sixty one (61) days from our ship date. Because Ball® Controlled Growth, Genesis® and Genesis® II seed is perishable and has a short shelf life, no returns of these products will be accepted.

Delays, Shortages & Substitutions

Seller shall not be responsible for delays in delivery or for losses resulting from such delays. Seller reserves the right to make partial shipment. In the event of shortages, Seller may substitute such other, similar merchandise as is available.

Plant Protection

Varieties described herein may be protected by United States Plant Variety Protection, United States Plant Patents, Utility Patents, and/or Plant Breeders' Rights. Many of the varieties are also protected by the Flowering-Only License Agreement as well as registered with the Canadian Ornamental Plant Foundation. These varieties may not be reproduced without authorization. The breeder or authorized representative has the right to inspect customer's nurseries during normal business hours to assess compliance with the restrictions on use of protected varieties.

Trademarks

Trademarks are the property of Ball Horticultural Company, unless otherwise indicated.

Notice Regarding Seed-Borne Diseases

Seller makes no representation regarding the freedom from seed-borne diseases of the seed sold and disclaims any liability relating to such diseases, whether previously known to exist or not identified until this seed is grown.
