Our Story

Serving the horticulture industry in Nova Scotia for over 50 years, Blomidon Nurseries offers a rare blend of quality service and product. Our nursery carries a complete line of plant material of both the tried and true and the innovative and novel. Every year our greenhouses produce their bountiful crop of beautiful annuals for both residential and commercial uses. Our Garden Centre provides a wide selection of both spring and summer flowering bulbs (in season) as well as a complete line of gardening tools and accessories.

As the largest production nursery in Nova Scotia. We welcome you all to be our guests and enjoy the experience only Blomidon Nurseries can provide.

<u>Azalea "Klondyke"</u> Z:4 H:1.5m S:1.2m	AZALEA	<u>Azalea Arneson Gem</u> Z:5 H:1M W:1.2M	AZALEA
Golden-orange, funnel shaped flowers in late spring,		Fragrant orange yellow blooms compact plant, red fall foliage	
<u>Azalea Cannon's Double (Exbury)</u> Z:5 H:1.25m S:1.5m	AZALEA	<u>Azalea Fire Ball</u> Z:4 H:1-1.5m S: 1-1.25m	AZALEA
Flowers are beautiful multi-layered petals of peach-pink-red-cream-and-a hint of yellow.		fiery orange-red flowers, sweet scent,leaves burgundy red in fall	
<u>Azalea Girard Hot Shot evergreen</u> Z:5 H:60cm S:60cm	AZALEA	<u>Azalea Girards Fuchsia</u> Z:5 H; 1M W; 1M	AZALEA
Single, scarlet-orange flowers. Orange red fall foliage. Dense, compact growth habit.		Hot Fuchsia Pink Flowers	
<u>Azalea Girard's Fuschia</u> Z:5 H:1.5m S:1.5m	AZALEA	<u>Azalea Girard's Pleasant White</u> Z:5 H:1m S:1m	AZALEA
Profuse single, reddish-purple blooms. Premier flowering shrub for hedges, borders, or mass plantings		Compact and low growing evergreen with lustrous dark green foliage and large white flowers.	
<u>Azalea Mandarin Lights</u> Z:4 H:1.5m S:1.2m	AZALEA	<u>Azalea Northern Hi-Lights</u> Z:4 H:1.5m S:1.2m	AZALEA
Bright, ruffled mandarin-orange blossoms. Blooms before foliage emerges.		Bi-coloured, creamy white, yellow upper petals. Mildew resistant foliage. Red fall colour.	
<u>Azalea Orchid Lights</u> Z:4 H:1m S:1m	AZALEA	<u>Azalea Pleasant White</u> Z; 5 H;70CM W;80CM	AZALEA
Lilac coloured flowers. Grows smaller than other Lights Series Azaleas. Perfect for the smaller landscapes.		White Flowers Bright Green Foliage	
<u>Azalea Red Demon</u> Z:4 H:2m S:2m	AZALEA	<u>Azalea Rosey Lights</u> Z:5 H:2m S:2m	AZALEA
bright red flowers tinged orange, compact		Rounded shape. Hardy. Dark pink flowers with rose-red shadings.	
<u>Azalea Stewartsonia (evergreen)</u> Z:5 H:1m S:1m	AZALEA	<u>Azalea Stewartsonian</u> Z:5 H;1M W; 1M	AZALEA
Red flowers, green foliage. Upright form, very hardy. Wine-red foliage in winter. Rabbit Tolerant		Red Flowers, Shiny green foliage Needs winter wind protection	
<u>Azalea Westons Innocence</u> H: 1-1.5m S:1-1.5m Z:4	AZALEA	<u>Azalea Westons Lemon Drop</u> H: 1.5m S:1.5m Z:4	AZALEA
Late season heavy blooming white fragrant azalea. Leaves bronze in spring changing to burgundy in fall. Full sun to part shade.		Peach buds open to pale yellow clusters. Lemony fragrance in late spring to early summer. Compact mounding habit.	
<u>Azalea Westons Lollipop</u> Z:4H:2m S:2m	AZALEA	<u>Andromeda polifolia Blue Ice</u> Z:2 H:60cm S:1m	BROADLEAF
fragrant pink flowers		A low creeping evergreen with blue-green foliage. Pinkish flowers in spring. Requires moist acidic soil.	
<u>Arctostaphylos uva-ursi Massachusetts Bearberry</u>	BROADLEAF	<u>Buxus Green Gem 1-gallon</u> Z:5 H:75cm S:75cm	BROADLEAF
Excellent ground cover with good resistance disease. Pinkish, white flowers followed by red fruit.		Protect from wind. Full sun/light shade. Good for foundation plantings, hedges, or containers.	
<u>Buxus Green Gem 3-gallon</u> Z:5 H:75cm S:75cm	BROADLEAF	<u>Buxus Green Gem 5-gallon</u> Z:5 H:75cm S:75cm	BROADLEAF
Protect from wind. Full sun/light shade. Good for foundation plantings, hedges, or containers.		Protect from wind. Full sun/light shade. Good for foundation plantings, hedges, or containers.	
<u>Buxus Green Mound 3-Gallon</u> Z:5 H:1m S:1m	BROADLEAF	<u>Buxus Green Mountain - Pyramid</u> Z:5 H:1.5m S:1m	BROADLEAF
Forms an attractive mound of dark green foliage.		An upright growing selection, ideal for shaping into a pyramid, or hedges.	
<u>Buxus Green Mountain 2 Tier</u> Z:4 H:1m S:5m	BROADLEAF	<u>Buxus Green Mountain 3-Gallon</u> Z:5 H:1.5m S:1m	BROADLEAF
Must be pruned to maintain its tier shape. green foliage year around.		An upright growing selection, ideal ideal for shaping into a pyramid.	
<u>Buxus Green Mountain Pymamid 7-Gallon</u> Z:5	BROADLEAF	<u>Buxus Green Velvet</u> Z:5 H:90cm S:1.25m	BROADLEAF
An upright growing selection, ideal ideal for shaping into a pyramid.		broadleaf evergreen, compact, broad-mounded, forest green foliage	
<u>Buxus Green Velvet 3-Gallon</u> Z:4 H:100cm S:100cm	BROADLEAF	<u>Buxus Pin cushion Square</u> Z:5 H:75cm S:75cm	BROADLEAF
Suitable for low hedges and foundation plantings with good winter colour.		Must be pruned to maintain its shape. Bronze in winter.	
<u>Calluna vulgaris Alicia</u> Z:5 H:60cm S:90cm	BROADLEAF	<u>Calluna vulgaris Athene</u> Z:5 H:60cm S:90cm	BROADLEAF
white flowers on bright green foliage average well drained, full sun to part sun		crimson flowers	

<u>Calluna vulgaris Hilda</u> Z:5 H:60cm S:90cm	BROADLEAF	<u>Calluna vulgaris katja</u> Z:4 H:40cm S:60cm	BROADLEAF
Mauve flowers on green foliage average well drained, full sun to part sun		Crimson flowers on green foliage average well drained, full sun to part sun	
<u>Calluna vulgaris Silver Knight</u> Z:4 H:45cm S:60cm	BROADLEAF	<u>Calluna vulgaris Spring Torch</u> Z:4 H:40cm S:60cm	BROADLEAF
Lavender flowers with downy grey foliage deepening in winter to purple/grey. Upright habit.		Mauve flowers with green foliage. Red and pink tips in spring. Vigorous habit.	
<u>Calluna vulgaris Tessa</u> Z:4 H:40cm S:60cm	BROADLEAF	<u>Erica carnea Assorted Varieties</u> Z:5 H:35cm S:60cm	BROADLEAF
pink flowers on yellow green foliage average well drained, full sun to part sun		DELETE THIS VARIETY	
<u>Erica carnea Isabell (White)</u> Z:4 H:20cm S:50cm	BROADLEAF	<u>Erica carnea Kramers Red (Magenta)</u> Z:5 H:35cm	BROADLEAF
Spreading, dwarf heath with bright green foliage. It bears white flowers starting in late winter.		Magenta flowers; bronze-green foliage; spreading habit. Moist, acidic soil.	
<u>Erica carnea Rosalie (Rosy Pink)</u> Z:4 H:15cm S:45cm	BROADLEAF	<u>Gaultheria procumbens - Wintergreen</u> Z:3 H:15cm	BROADLEAF
Compact, spreading, heath with dark bronze green foliage & rosy-pink flowers in mid-winter.		A hardy ground cover with edible fruit. Leaves turn red-bronze in fall. Requires acidic soil.	
<u>Ilex crenata Sky Pencil</u> Z:7 H:2.4 S:0.5m	BROADLEAF	<u>Ilex glabra Gem Box</u> H:1m S:1m Z:5	BROADLEAF
A narrow, columnar form with dark green foliage that stays neat year-round full sun well drained soil		Dwarf evergreen that forms to a nice neat ball. Insignificant white flowers followed by black fruit in fall. Full sun to part sun. Deer resist	
<u>Ilex meserveae Blue Prince Holly</u> Z:5 H:1.8m S:1.2m	BROADLEAF	<u>Ilex meserveae Blue Princess Holly</u> Z:5 H:1.5m S:1m	BROADLEAF
Male and female holly should be planted within 3 metre radius to ensure good pollination. Protect from winter winds		Male & female should be planted within 3 metres for good pollination. Bright red berries. Protect from winter wind.	
<u>Ilex meserveae Royal Couple Holly</u> Z:5 H:1.5m S:1m	BROADLEAF	<u>Kalmia latifolia Carousel</u> Z:5 H:1.5m S:1m	BROADLEAF
Dense habit. Glossy, dark blue-green leaves. Red berries. Male and female together.		pale pink buds, open to white star burst with cinnamo purple circular bands	
<u>Kalmia latifolia Elf</u> Z:5 H;1M W;1M	BROADLEAF	<u>Kalmia latifolia Minuet</u> Z:5 H:1.5m S:1m	BROADLEAF
Light pink buds opening white glossy deep green leaves		dwarf, clusters of pale pink buds,red interior, compact	
<u>Kalmia latifolia Olympic Fire Mountain Laurel</u> Z:5	BROADLEAF	<u>Kalmia latifolia Ostbo Red Mountain Laurel</u> Z:5	BROADLEAF
Bright red buds open to white flowers that become pink as they mature.		Red buds open to pink flower, slightly cupped dark green leaves.	
<u>Kalmia latifolia Pristine</u> Z:5 H:1.5m S:1.5m	BROADLEAF	<u>Leucothoe fontanesiana Rainbow</u> Z:5 H:1.5m S:1.75m	BROADLEAF
Pure white flower on dark green evergreen foliage moist average acidic soil		compact shrub, white flowers, creamy white and green foliage with hints of red	
<u>Mahonia aquifolium</u> Z:5 H;2M W;2M	BROADLEAF	<u>Pachysandra terminalis 100/flat</u> Z:3 H:20cm S:1m	BROADLEAF
Oregon Grape Holly Bright yellow flowers followed by blue berries		Green divided leaves. Excellent ground cover for shade areas. Prefers acid, peaty moist soil. Plant 30cm apart.	
<u>Pieris Japonica "Dorothy Wycott"</u> Z:5 H:1.2m S:1.8m	BROADLEAF	<u>Pieris Japonica "Flaming Silver"</u> Z:5 H:1.5m S:1.5m	BROADLEAF
Arching panicles of white flowers in May. New foliage is yellow turning dark green. Compact habit.		broadleaf evergreen, bright pinkish-red leaves that turn green with cream edges	
<u>Pieris japonica Cavatine</u> Z:5 H:80cm S:80cm	BROADLEAF	<u>Pieris japonica Interstella</u> Z:5 H;1.25M W; 2.5M	BROADLEAF
fragrant white flowers in spring, compact mounding habit		Ruby long lasting lantern shaped flowers Red new foliage	
<u>Pieris japonica Katsura</u> Z:5 H:60cm S:60cm	BROADLEAF	<u>Pieris japonica Mountain Fire</u> Z:6 H:1.25m S:1.25m	BROADLEAF
new leaves are wine red,rose colored flowers early spring		New growth a fiery red. White flowers. Small, slow growing evergreen shrub.	
<u>Vinca minor "Bowles"</u> Z:3 H:20cm S:1m	BROADLEAF	<u>Vinca minor, pack of 6</u> Z:3 H:20cm S:1m	BROADLEAF
Groundcover. Blue flowers in spring. Does well in shaded areas with well drained, moist, peaty soil.		Groundcover. Blue flowers in spring. Does well in shaded areas with well drained, moist, peaty soil.	
<u>Yucca filamentosa</u> Z:4 H:1m S:80cm	BROADLEAF	<u>Yucca filamentosa Bright Edge</u> Z:4 H:60-80cm S:60-	BROADLEAF
Tall spikes of bell-shaped, creamy-white fragrant, flowers. Thin sword-like leaves.		variegated sward like foliage, broad yellow stripe needs full sun, well drained poor soils	

<u>Yucca filamentosa Color Guard</u> Z:4 H:60cm S:60cm	BROADLEAF	<u>Yucca filamentosa Excalibur</u> Z:4 H:60cm S:1m	BROADLEAF
Variegated foliage is striped with cream and white with dark green edging. Flowers in summer.		spiky, rounded clump of blue-green to grey-green leaves with white filaments	
<u>Yucca filamentosa Golden Sword</u> Z:4 H:1m S:80cm	BROADLEAF	<u>Yucca Glauca</u> Z:4 H:60cm S:60cm	BROADLEAF
yucca with bright golden edges, full sun, dry		spikes of blue green, dry full sun	
<u>Thuja occidentalis Smargard Spiral</u> Z:3 H:3.75m	CEDARS	<u>Thuja occidentalis Brabant</u> Z:3 H:5m S:1m	CEDARS
narrow, upright evergreen, spiral form, emerald green foliage		Fast growing, bright green. Good for hedges. May be more wind and shade tolerant.	
<u>Thuja occidentalis Brandon Cedar</u> Z:3 H:6m S:2m	CEDARS	<u>Thuja occidentalis Cedar</u> Z:3 H:20m S:4m	CEDARS
A dense multi-stemmed evergreen three with a narrowly upright and columnar growth habit.		Very hardy, wind tolerant cedar. Makes an excellent large hedge. Full sun.	
<u>Thuja occidentalis Degroots Spire</u> Z:3 H:6m S:2m	CEDARS	<u>Thuja occidentalis Emerald</u> Z:4 H:4m S:1.5m	CEDARS
cedar,slow growing,will loosen up in too much shade		A narrow pyramidal form that holds its colour throughout the winter. Prefers moist, well drained soil.	
<u>Thuja occidentalis Emerald Cedar</u> Z:4 H:4m S:1.5m	CEDARS	<u>Thuja occidentalis Holmstrupii</u> Z:4 H:3m S:80cm	CEDARS
A narrow pyramidal form that holds its colour throughout the winter. Prefers moist, well drained soil.		dwarf, columnar, compact branching, deep green foliage	
<u>Thuja occidentalis Little Giant</u> Z:3 H:1m S:1m	CEDARS	<u>Thuja occidentalis Smaragd Poodle</u> Z:3 H:3m S:90cm	CEDARS
A slow growing, compact and hardy globe.		dense, upright, emerald green foliage, pruned into 3 spheres	
<u>Thuja occidentalis Smargard Tater Tot</u> Z:3 H:60cm	CEDARS	<u>Thuja occidentalis Sunkist</u> Z:4 H:4m S:1.5m	CEDARS
dwarf, evergreen shrub with rounded shape, bright green foliage		Golden edged fronds vertically arranged, evergreen full sun, protect from winter winds	
<u>Acer freemanii "Morgan"</u> Z:4 H:14m S:12m	DECIDUOUS	<u>Acer freemanii Autumn Blaze (Jeffersred)</u> Z:4	DECIDUOUS
deciduous tree, deeply 3-lobed appearance, fall color orange/red to red to purple		Green foliage, upright, broadly oval growth habit. Outstanding fall color similar to Red Maple.	
<u>Acer griseum</u> Z:4 H:9m S:7.5m	DECIDUOUS	<u>Acer platanoides Columnar</u> Z:3 H:18.25m S:6m	DECIDUOUS
small,deciduous tree, exfoliating bark, Paperbark maple		columnar, lemon yellow flowers, dark green foliage	
<u>Acer platanoides Crimson King</u> Z:4 H:13m S:11m	DECIDUOUS	<u>Acer platanoides Crimson Sentry</u> Z:4 H:8m W: 5M	DECIDUOUS
purple green foliage, dark maroon or bronze in fall, dislikes wet spots		Deep Purple Foliage	
<u>Acer platanoides Deborah</u> Z5 H:11m S:8m	DECIDUOUS	<u>Acer platanoides Drummondii Harlequin Maple</u>	DECIDUOUS
leafs out burgundy, then turns green, yellow fall color		Unusual variety with variegated foliage, and rounded form. Provides an excellent contrast.	
<u>Acer platanoides Drummondii</u> Z:4 H:13m S:10m	DECIDUOUS	<u>Acer platanoides Emerald Queen</u> Z:4 H:17m S:13m	DECIDUOUS
variegated green with a white edge, must keep solid green braches removed full sun average soil		Dense oval, rounded, form. Fast growing, tolerant to urban conditions. Yellow fall color.	
<u>Acer platanoides Princeton Gol</u> Z:4 H:14m S:12m	DECIDUOUS	<u>Acer platanoides Princeton Gold</u> Z:4 H:14m S:12m	DECIDUOUS
Bright golden yellow foliage throughout the summer. Stunning accent plant		Bright golden yellow foliage throughout the summer. Stunning accent plant	
<u>Acer platanoides Royal Red</u> Z:4 H:13m S:10m	DECIDUOUS	<u>Acer Platanus acerifolia Bloodgood</u> Z:5 H:25m	DECIDUOUS
Deep maroon foliage throughout the summer. Similar to Crimson King.		deciduous tree, leaves palmate, green, golden or yellow or orange	
<u>Acer pseudoplatanus Tunpetti</u> Z:4 H:12m S:9m	DECIDUOUS	<u>Acer pseudosieboldianum Korean Maple</u> Z:5 S:7m	DECIDUOUS
The leaves are green on top and regal purple on the bottom. Fall color is aspen yellow on top red/maroon on the bottom.		green leaves turns red, yellow and orange in fall	
<u>Acer rubrum</u> Z:3 H:13m S:13m	DECIDUOUS	<u>Acer rubrum - Embers</u> Z:3 H:13m S:13m	DECIDUOUS
Rapid growing native tree. Yellow to brilliant red fall color. Excellent for wet soil conditions.		Rapid growing native tree. Yellow to brilliant red fall color. Excellent for wet soil conditions.

pink blooms, foliage reddish purple in fall, sterile produces no fruit		pink blooms, foliage reddish purple in fall, sterile produces no fruit	
<u>Corylus colurna</u> Z:4 H:15m S:10.5m	DECIDUOUS	<u>Crataegus viridis Winter King</u> Z:4 H:10.5m S:10.5m	DECIDUOUS
pyramidal shaped deciduous tree, turkish hazel, edible fruit		dense, rounded deciduous tree, mostly thornless, green hawthorn	
<u>Elaeagnus angustifolia</u> Z:2 H:6M W:6M	DECIDUOUS	<u>Fagus grandifolia</u> Z:6 H:20m S:30m	DECIDUOUS
Russian Olive Tree Silver green foliage		American beech, green leaves, large tree	
<u>Fagus sylvatica</u> Z:6 H:6m S:4m	DECIDUOUS	<u>Fagus sylvatica "Fastigiata"</u> Z:6 H:6m S:4m	DECIDUOUS
green leaves that hange on in winter, hedging average soil, full sun to part shade		Narrow upright form, green leaves average well drained soil	
<u>Fagus sylvatica Dawyck Purple</u> Z:4 H:22m S:3m	DECIDUOUS	<u>Fagus sylvatica European Beech</u> Z:6 H:6m S:4m	DECIDUOUS
Copper fall color. Symmetrical crown. Slow growth.		green leaves that hange on in winter, hedging average soil, full sun to part shade	
<u>Fagus sylvatica Purple Fountain Beech</u> Z:6 H:6m	DECIDUOUS	<u>Fagus sylvatica Purpurea (upright)</u> Z:5 H:22m S:15m	DECIDUOUS
Narrow upright form with branches hanging down in a cascading fashion. Excellent specimen tree.		Pyramidal, oval shape. Purple foliage that fades slightly in the summer heat.	
<u>Fagus Sylvatica purpurea Hedging Purple</u> Z:4	DECIDUOUS	<u>Fagus sylvatica Red Obelisk</u> Z:6 H:6m S:4m	DECIDUOUS
Deep Purple leaved beech hedging dense wind break		Narrow upright form with branches hanging down in a cascading fashion. Excellent specimen tree.	
<u>Gleditsia triacanthos "Shade Master"</u> Z:4 H:17m	DECIDUOUS	<u>Gleditsia triacanthos Sunburst Locust</u> Z:5 H:13m	DECIDUOUS
green compound leaves, yellow fall color average well drained soil		Golden tipped new growth changes to green. Fast growing.	
<u>Gymnocladus Dioicus</u> Z:4 H:17m S:12m	DECIDUOUS	<u>Juglans Nigra - (Black Walnut)</u> Z:4 H:25m S:20m	DECIDUOUS
Kentucky Coffee Tree, scaly gray brown bark,fragrant flowers		black walnut, edible	
<u>Koelreuteria paniculata</u> Z:5 H:12.25m S:12.25m	DECIDUOUS	<u>Laburnum watereri Vossi Goldenchain Tree</u> Z:6	DECIDUOUS
deciduous tree, rounded outline, reddish copper-colored foliage in spring		Long hanging clusters of yellow pea-shaped flowers. Requires sheltered location.	
<u>Laburnum x watereri Vossii</u> Z:5B H:8M W:6M	DECIDUOUS	<u>liriodendron tuliifera</u> H:9m S:5m Z:5	DECIDUOUS
Long trusses of yellow pea like flowers		Stately tree , large, flowers May to June with attractive . green yellow flowers that face the sky	
<u>Magnolia liliflora Betty</u> Z:4 H:4.5m S:3.75m	DECIDUOUS	<u>Magnolia liliflora Nigra</u> Z:5 H:3.5m S:3.5m	DECIDUOUS
Astonishing purple cup-shaped flowers with white insides		reddish-purple flowers, compact and upright habit	
<u>Magnolia loebneri Dr. Merrill</u> Z:5 H:10m S:8m	DECIDUOUS	<u>Magnolia loebneri Leonard Messel (tree form)</u> Z:5	DECIDUOUS
Pure white, fragrant, star-like flowers, fall color yellow. Rapid growth & spreading habit.		pink star like flowers in spring	
<u>Magnolia loebneri Merrill (Tree Form)</u> Z:5 H:6m	DECIDUOUS	<u>Magnolia soulangeana Jane</u> Z:4 H:4.5m S:3.75m	DECIDUOUS
Pure white, fragrant, star-like flowers, fall color yellow. Rapid growth & spreading habit.		tulip-shaped flowers of purple with white centers, leathery, dark-green leaves same as below?	

<u>Magnolia soulangiana</u> Z:5 H:6m S:6m	DECIDUOUS	<u>Magnolia stellata Royal Star</u> Z:4 H:4m S:4m	DECIDUOUS
Flowers are pinkish-purple on the outside & white on inside. Blooms in spring before leaves appear.		A fast growing tree with double, star-shaped white flowers. foliage turns yellow to bronze in fall.	
<u>Magnolia x Ann (Tree Form)</u> Z:4 H:3m S:3m	DECIDUOUS	<u>Magnolia x Jane</u> Z:4 H:4.5m S:3.75m	DECIDUOUS
Deep purple-red flowers. moist but well drained soil		tulip-shaped flowers of purple with white centers, leathery, dark-green leaves	
<u>Magnolia X soulangeana Susan</u> Z:4 H:3.75m S:3.75m	DECIDUOUS	<u>Magnolia x Yellow Bird</u> Z:5 H:3m S:3m	DECIDUOUS
deep fuchsia flowers, dark green, oblong, elliptical leaves		It has deep yellow flowers with green tinges on the exterior. Closed they look like tulips	
<u>Malus Brandy Wine</u> Z:3 H:4.5m S:3m	DECIDUOUS	<u>Malus Dolgo</u> Z:3 H:10M W:8M	DECIDUOUS
Special features of this standout including fragrant, double pink flowers and large yellow fruit.		White flowers in Spring followed by 1-2 inch scarlet fruit, Edible	
<u>Malus Dolgo Flowering Crab</u> Z:2 H:9m S:9m	DECIDUOUS	<u>Malus Donald Wyman</u> Z:1 H:6m S:6m	DECIDUOUS
white flowers followed by medium large scarlet fruit, use for jam, jelly average well drained soil		white flowers followed by small red fruit full sun average soil	
<u>Malus Gladiator</u> Z:2 H:4.75M W:4.75M	DECIDUOUS	<u>Malus lollipop STD</u> Z:3 H:2.25M W:1.25M	DECIDUOUS
Pink flowers in early spring, Bronze red new leaves turning green		Grafted Standard flowering crabapple red buds open to snow white flowers, golden fruit	
<u>Malus Makamik</u> Z:4 H:6m S:6m	DECIDUOUS	<u>Malus Morning Princess</u> Z:2 H:3.5m S:2.5m	DECIDUOUS
clusters of fragrant fuchsia flowers, coppery bronze tipped foliage		Graceful upright habit with weeping branches and reddish foliage. Pink flowers with red berries.	
<u>Malus Prairie Fire</u> Z:2 H:2.5M W:2.5M	DECIDUOUS	<u>Malus Prairifire</u> Z:4 H:6m S:6m	DECIDUOUS
True red flowers in spring, New growth is reddish changing to green		Pinkish-red buds open to slightly fragrant, deep pink- red flowers in spring.	
<u>Malus Profusion</u> Z:4 H:6m S:6m	DECIDUOUS	<u>Malus Purple Spire</u> Z:3 H:6m S:2.5m	DECIDUOUS
stunning clusters of fragrant cherry red flowers along the branches in mid spring		compact, columnar, pink flowers and purple foliage	
<u>Malus Red Jade</u> Z:5 H:4m S:3m	DECIDUOUS	<u>Malus Rinki</u> Z:3 H:8m S:3m	DECIDUOUS
Weeping. Green foliage, pink buds open to white flowers. Small red fruit lasting into winter.		Abundance of light pink flowers, followed by dark red fruits	
<u>Malus Royal Splendor</u> Z:4 H:6m S:6m	DECIDUOUS	<u>Malus Rudolph</u> Z:4 H:6m S:6m	DECIDUOUS
single pink blooms, bright red fruit, reddish purple in fall		clusters of fragrant pink flowers, rich red tips foliage,	
<u>Malus sargentii Tina Standard</u> Z:3 H:2m S:2m	DECIDUOUS	<u>Malus Selkirk</u> Z:4 H:6M W:8M	DECIDUOUS
A super dwarf crabapple grafted on a standard. Red buds open to white flowers		Large single pink blooms in spring burgundy foliage matures to bronze green	
<u>Malus Sugar Tyme</u> Z:4 H:5m S:4m	DECIDUOUS	<u>Morus alba Chaparral (Non-Fruiting)</u> Z:5 H:4m S:5m	DECIDUOUS
A disease resistant variety. Pink buds open to a single, white fragrant flower. Red fruit		white-green flowers, shiny green leaves, weeping growth habit	
<u>Morus alba Pendula</u> Z:3 H:3-4m S:4-5m	DECIDUOUS	<u>Picea omorika</u> Z:4 H:18.25m S:7.5m	DECIDUOUS
dark green leaves, may or may not have fruit full sun to part shade		evergreen tree, narrow pyramidal shape, spire-like with pendant branches	
<u>Platanus Acerfolia- Bloodgood</u> Z:5 H:16m S:13m	DECIDUOUS	<u>Platanus acerifolia Bloodgood</u> Z:5 H:27m S:20m	DECIDUOUS
maple like leaf, fast growing, exfoliating bark, mottled average well drained soil		Fast growing. Olive, cream and light brown bark. Tolerates soil compaction, heat and drought.	
<u>Platanus X acerfolia Morton Circle -</u> Z:4 H:18.25m	DECIDUOUS	<u>Populus Big Tooth Aspen</u> Z:3 H:20m S:12m	DECIDUOUS
upright, pyramidal, forest green foliage, mottled silver bark		columnar, toothed leaves with fuzzy white underside	
<u>Populus Grandidentata</u> Z:2 H:20m S:10m	DECIDUOUS	<u>Populus hyb (Miracle)</u> Z:3 H:9m S:6m	DECIDUOUS
native big leaf Aspin, mid green leaves, yellow fall color rich sandy soil		fast growing shot lived tree	

<u>Prunus serrulata Kwanzan</u> Z:6 H:6m S:10m	DECIDUOUS	<u>Prunus Snofozam Snow Fountain Cherry Weeping</u>	DECIDUOUS
Beautiful double, pink, carnation-like flowers. Vase shaped growth habit. Good fall color.		Single white flowers produce black fruit. Orange, yellow, red fall colors.	
<u>Prunus subhirtella Pendula Standard</u> Z:5 H:2m S:3m	DECIDUOUS	<u>Pyrus calleryana Chanticleer</u> Z:5 H:17m S:5m	DECIDUOUS
Single pink flowers appear mid-spring before the leaves. Weeping form. Grafted.		Glossy green foliage. Grows in a narrow pyramidal form. Flowers heavily and has red fall color.	
<u>Pyrus ussuriensis Prairie Gem</u> Z:3 H:6m S:4m	DECIDUOUS	<u>Quercus macrocarpa</u> Z:2 H:30m S:25m	DECIDUOUS
A small growing ornamental pear. White flowers blanket this tree in spring. Small yellow fruit in fall.		Bur oak, lobed leaves, green, no fall color average well drained soil	
<u>Quercus palustris</u> Z:5 H:22m S:13m	DECIDUOUS	<u>Quercus palustris "Green Pillar"</u> Z:5 H:22m S:13m	DECIDUOUS
Broad, pyramidal form with horizontal branches. Acorns & scarlet red foliage in the fall.		Broad, pyramidal form with horizontal branches. Acorns & scarlet red foliage in the fall.	
<u>Quercus palustris Pin Oak</u> Z:5 H:22m S:13m	DECIDUOUS	<u>Quercus robur Fastigiata</u> Z:5 H:14M W:5M	DECIDUOUS
Broad, pyramidal form with horizontal branches. Acorns & scarlet red foliage in the fall.		Pyramidal English Oak Great for Narrow spaces	
<u>Quercus rubra Red Oak</u> Z:3 H:18m S:15m	DECIDUOUS	<u>Salix alba Tristis</u> Z:4 H:15m S:15m	DECIDUOUS
This broad tree has dark green foliage turning brilliant red in fall, along with acorns.		Fast growing. Silver-green leaves. Good near water. Don't plant near foundations.	
<u>Sciadopitys verticillata Joe Kozey</u> H:6m S:1.5m Z:5	DECIDUOUS	<u>Sorbus auc. Skybound</u> Z:3 H:10M W:5M	DECIDUOUS
Narrow columnar habit and whorls of long green needles. Slow growing, Great focal point		Pyramidal form with white flowers in clusters followed by red berries	
<u>Sorbus aucuparia Cardinal Royal</u> Z:3 H:7.5m S:7.5m	DECIDUOUS	<u>Sorbus aucuparia Skybound</u> Z:3 H:7.5m S:7.5m	DECIDUOUS
Short main trunk. Yellow, orange fall color. White flowers, small orange-red fruits.		Narrow Crown white flowers followed by its showy berries	
<u>Syringa reticulata Ivory Silk</u> Z:2 H:8m S:5m	DECIDUOUS	<u>Syringa reticulata Ivory Silk Japanese Lilac</u> Z:2 H:8m	DECIDUOUS
An oval shaped, compact tree with large clusters of creamy white lilac flowers in late spring.		An oval shaped, compact tree with large clusters of creamy white lilac flowers in late spring.	
<u>Tilia americana</u> Z:3 H: 35m S: 25m	DECIDUOUS	<u>Tilia americana Redmond</u> Z:3 H:20m S:10.5m	DECIDUOUS
Basswood, shade tree, street tree pyramidal shape adaptable to all soil types		strongly pyramid-shaped deciduous tree, large heart-shaped leaves	
<u>Tilia cordata</u> Z:4 H:15M W: 11M	DECIDUOUS	<u>Tilia cordata Glenleven</u> Z:3 H:16m S:12m	DECIDUOUS
Little Leaf Linden Golden yellow fall foliage		Fast growing, broad pyramidal form. Green foliage turns yellow in fall.	
<u>Tilia cordata Glenleven Linden</u> Z:3 H:16m S:12m	DECIDUOUS	<u>Tilia cordata Greenspire Linden</u> Z:3 H:15.25m S:9m	DECIDUOUS
Fast growing, broad pyramidal form. Green foliage turns yellow in fall.		spire-like shape, fragrant yellow flowers, heart-shaped leaves	
<u>Ulmus americana Valley Forge</u> Z:3 H:8m S:9m	DECIDUOUS	<u>Ulmus glabra pendula</u> Z:5 H:8m S:3m	DECIDUOUS
Vase-shaped, deciduous tree with a broad-rounded crown. Excellent resistance to Dutch Elm disease.		Round head. Pendulous branches that extend down to the ground. Usually grafted at 6 to 7 high.	
<u>Ulmus Homestead</u> Z:5 H:18M W:9M	DECIDUOUS	<u>Ulmus japoonica Morton/Accolade</u> Z:4 H:18M W:9M	DECIDUOUS
Homestead Elm, Large vigorous grower Large tree		Hybrid Elm, upright spreading habit	
<u>Ulmus Morton</u> Z:4 H:18.25m S:12.25m	DECIDUOUS	<u>Euonymus fortunei Canadale Gold</u> Z:5 H:1.5m S:1.5m	EUONYMUS
Accolade Elm, upright spreading habit, dark green foliage, glossy pointy leaves		Large bright green foliage with golden yellow edge. Vigorous upright growth.	
<u>Euonymus fortunei Coloratus</u> Z:5 H:20cm S:2m	EUONYMUS	<u>Euonymus fortunei Coloratus 3.5" Pot</u> Z:5 H:20cm	EUONYMUS
Deep glossy green leaves turn plum colour in winter. Excellent ground cover or wall cover.		Deep glossy green leaves turn plum colour in winter. Excellent ground cover or wall cover.	
<u>Euonymus fortunei Emerald Gaiety</u> Z:5 H:1.25m	EUONYMUS	<u>Euonymus fortunei Emerald n Gold</u> Z:5 H:75cm S:1m	EUONYMUS
Green leaves with white edges. Purple tinged in winter. Good for foundation plantings.		Green leaves with golden edges. Pinkish tinged in winter. Tight branching habit.	

<u>Euonymus fortunei Ivory Jade</u> Z:5 H:1.5m S:1.5m	EUONYMUS	<u>Euonymus fortunei Moonshadow</u> Z:5 H:1m S:1.5m	EUONYMUS
rich green leaves with ivory white margins, tinged pink in winter		A vigorous groundcover shrub with bright golden variegation.	
<u>Euonymus fortunei Sarcoxie</u> Z:5 H:1.5m S:1.5m	EUONYMUS	<u>Euonymus fortunei Surespot</u> Z:5 H:75cm S:1m	EUONYMUS
Glossy dark green leaves. Pink/orange fruit provide an interesting contrast. Also good for small hedges.		Dark green leaves with yellow centres. Rounded compact form. Very hardy.	
<u>Picea glauca Pendula</u> Z:2 H:10m S:2m	EUONYMUS	<u>Picea glauca Yukon Blue</u> Z:3 H:3.75m S:1.5m	EUONYMUS
narrow, upright evergreen, blue-green needles		steel blue foliage, eye-catching brown buds at the tips of the branches	
<u>Picea omorika Nana</u> Z:3 H:1.5m S:1.5m	EUONYMUS	<u>Pinus sylvestris Topiary</u> Z:3 H:4.5m S:3m	EUONYMUS
small, compact and ,mounded shrub, dark green foliage with silver undersides		ornamental scotch pine, bluish-green foliage shaped like 'pom-poms'	
<u>Abies balsamea</u> Z:1 H:20m S:6m	EVERGEENS	<u>Abies concolor</u> Z:4 H:15m S:5m	EVERGEENS
only native fir in canada, soft green needles adampable to many soils, locations		A broad pyramidal fir with beautiful silver-blue foliage.	
<u>Abies fraseri</u> Z:4 H:9m S:3.5m	EVERGEENS	<u>Chamaecyparis lawsoniana Pinpoint Blue</u> Z:5 H:1.8-	EVERGEENS
Fraser Fir, narrow pyramidal, similar to balsam fir		Emerald blue green foliage,narrow protect form winter winds	
<u>Chamaecyparis nootka Glauca</u> Z:5 H:12m S:6m	EVERGEENS	<u>Chamaecyparis nootkatensis Glauca</u> Z:5 H:20m S:4m	EVERGEENS
Alaska cedar, soft blue green foliage,pendulous branches,gracefull		A large evergreen with a pyramidal habit. Branches are horizontal with bluish foliage.	
<u>Chamaecyparis nootkatensis Pendula</u> Z:4 H:6m	EVERGEENS	<u>Chamaecyparis obtusa</u> H:40m S:3m Z:4	EVERGEENS
slender pyramidal strongly weeping form		Slow growing tree, well drained, full sun to part shade, dark green scale like leaves.	
<u>Chamaecyparis obtusa Compacta</u> Z:5 H:3.6m S:2.4m	EVERGEENS	<u>Chamaecyparis obtusa Gracilis</u> Z:5 H:5m S:275m	EVERGEENS
broad pyramid form, gets big over time		slender hinoki, dinely textured deep green foliage	
<u>Chamaecyparis obtusa Nana Gracilis-STD</u> Z:4	EVERGEENS	<u>Chamaecyparis obtusa Nana Gracillis</u> Z:5 H:1.5m	EVERGEENS
standard, Dwarf Hinoki cypress, soft green worling branching		Bright green foliage bronzes in winter. Dense, compact habit, shell-like sprays of foliage. Very slow growing.	
<u>Chamaecyparis pisifera 'Filifera Aurea Nana'</u> Z:5	EVERGEENS	<u>Chamaecyparis pisifera Soft Serve</u> Z:5 H:2m S:2m	EVERGEENS
Foliage is yellow on tips and green inside. Will grow into an irregular mound. Full sun for best colour.		Evergreen with soft bright green leaves flecked silver blue underneath.	
<u>Chamaecyparis pisifera Soft Serve Gold</u> Z:5 H:2m	EVERGEENS	<u>Chamaecyparis pisifera Sun Gold</u> Z:5 H:2m S:2m	EVERGEENS
Evergreen with soft bright green leaves flecked silver blue underneath.		threadleaf golden evergeen foliage full sun well drained soil	
<u>Juniperus chinensis Fairview</u> Z:4 H:2.5m S:1.5m	EVERGEENS	<u>Larix decidua Pendula Weeping European Larch</u>	EVERGEENS
narrow columnar evergreen shrub, bright green needle-like foliage, blue berries		Soft green deciduous foliage on graceful weeping branches. Beautiful autumn colour bright yellow.	
<u>Larix Kaempferi Blue Dwarf- St</u> Z:4 H:150cm S:150cm	EVERGEENS	<u>Larix laricina</u> Z:1 H:15m S:5m	EVERGEENS
globe shaped, silver blue foliage, dwarf larch		Deciduous. Horizontal branches & pendulous branchlets. Blue-green foliage turns yellow in fall. Moist, well-drained	
<u>Metasequoia gylptostroboides</u> Z:5 H:25M W:7M	EVERGEENS	<u>Microbiota decussata Siberian Cypress</u> Z:3 H:40cm	EVERGEENS
Dawn Red Wood, soft bright green foliage		Fast growing green spreader. Excellent ground cover. bronze fall color, full sun well drained	
<u>Picea abies</u> Z:2 H:20 S:8	EVERGEENS	<u>Picea abies Cupressina Norway Spruce</u> Z:4 H:9m	EVERGEENS
Norway spruce, native green needles		A dense evergreen tree with strong central leader. Narrow, upright and columnar growth habit.	
<u>Picea abies Fastigiata Christina</u> Z:3 H:3m S:4.5m	EVERGEENS	<u>Picea abies Lanham Beehive STD</u> Z:3 H:1m S:1.25m	EVERGEENS
tall narrow evergreen, good for tight spaces		Standard, fine textured dwarf norway spruce full sun well drained soil	

<u>Picea abies Little Gem Spruce</u> Z:4 H:60cm S:60cm	EVERGEENS	<u>Picea abies Nidiformis Birds Nest Spruce</u> Z:3	EVERGEENS
Dwarf, slow growing evergreen. Globular growth habit. Ideal for the rock garden.		Dwarf, dense, flat-topped bush. Branches grow in horizontal layers.	
<u>Picea abies Pendula Weeping Norway Spruce</u> Z:3	EVERGEENS	<u>Picea abies Tompa</u> Z:4 H:9m S:3m	EVERGEENS
A weeping form of Norway Spruce. Can be kept at any height.		dwarf conical habit, green needles, slow grower, foundation or rock gardens	
<u>Picea glauca</u> Z:2 H:20m S:5m	EVERGEENS	<u>Picea glauca Conica</u> Z:4 H:3m S:1m	EVERGEENS
Very hardy tree. Bluish green needles. Good for wind breaks or hedges.		Slow growing pyramidal spruce with soft, short, light green needles. Prefers moist soil	
<u>Picea glauca Conica, Spiral</u> Z:4 H:3m S:1m	EVERGEENS	<u>Picea glauca Densata</u> Z:2 H:20m S:5m	EVERGEENS
Slow growing pyramidal spruce with soft, short, light green needles. Prefers moist soil.		slow growing evergreen, hedges, wind breaks or specimen full sun	
<u>Picea glauca White Spruce</u> Z:2 H:20m S:5m	EVERGEENS	<u>Picea mariana Fastigiata</u> Z:4 H:4m S:1.75m	EVERGEENS
Very hardy tree. Bluish green needles. Good for wind breaks or hedges.		very narrow columnar form blue gray foliage	
<u>Picea pungens "Fat Albert"</u> Z:2 H:20m S:6m	EVERGEENS	<u>Picea pungens Fat Albert</u> Z:2 H:20m S:6m	EVERGEENS
Large growing tree with bluish-green needles. More drought tolerant than other Picea species. Good specimen plant.		Large growing tree with bluish-green needles. More drought tolerant than other Picea species. Good specimen plant.	
<u>Picea pungens glauca</u> Z:2 H:20m S:6m	EVERGEENS	<u>Picea pungens glauca Baby Blue</u> Z:2 H:10m S:4	EVERGEENS
Large growing tree with more blue colour than the species Picea pungens.		A fairly new variety so ultimate height is not really known Grows 3 meters in 10 years. Named for its color, not height.	
<u>Picea pungens glauca Blue Spruce</u> Z:2 H:20m S:6m	EVERGEENS	<u>Picea pungens glauca Colorado</u> Z:2 H:10m S:4	EVERGEENS
Large growing tree with more blue colour than the species Picea pungens.		Pyramidal form , bright silvery blue needles, hardy	
<u>Picea pungens glauca Fat Albert</u> Z:3 H:5m W: 3M	EVERGEENS	<u>Picea pungens Glauca Globosa</u> Z:2 H:1m S:2m	EVERGEENS
Blue Foliage Nice natural shape		A beautiful globe dwarf blue spruce.	
<u>Picea pungens glauca Iseli Fasigate</u> Z:2 H:10m S:4	EVERGEENS	<u>Picea pungens glauca Iseli fastigiata</u> Z:3 H:3m S:1m	EVERGEENS
Blue green needles, narrow upright habit, good for narrow spaces		A good blue highly columnar blue spruce. Plant in full sun.	
<u>Picea Pungens Montgomery STD</u> Z:2 1-1.5m S:2m	EVERGEENS	<u>Pinus cembra Algonquin Pillar</u> Z:3 H:30m S:4m	EVERGEENS
Dwarf sport of colorado spruce, standard, blue needles full sun well drained soil		dark green needles narrow growing swill pillar stone pine full sun well drained soil	
<u>Pinus flexilis Vanderwolfs Pyramid</u> Z:4 H:9m S:3m	EVERGEENS	<u>Pinus mugo Pumilio</u> Z:3 H:1.25m S:1.25m	EVERGEENS
Upright form. Silver blue needles, compact, & columnar. A superior pine that reaches approximately 17' in 8 years.		Short, dense dark green needles. Prune new growth to keep compact.	
<u>Pinus mugo Slowmound</u> Z:3 H:90cm S:90cm	EVERGEENS	<u>Pinus nigra</u> Z:4 H:18m S:8m	EVERGEENS
A true dwarf mugo pine, slow growing, dark green needles Dense compact without shearing.		Dark green needles and dense growth. Withstands urban or seaside conditions if soil is moist.	
<u>Pinus resinosa</u> Z:3 H:24M W: 15M	EVERGEENS	<u>Pinus strobus</u> Z:3 H:18m H:10m	EVERGEENS
Red Pine, Native Dark Green Foliage		Soft green needles. Grows rapidly into open conical shape.	
<u>Pinus strobus "Fastigiata"</u> Z:3	EVERGEENS	<u>Pinus strobus Blue Shag White Pine</u> Z:3 H:1m S:1m	EVERGEENS
White pine, narrow growing, soft green needles		Outstanding, compact, reliably rounded form. Foliage is blue-green.	
<u>Pinus sylvestris "Scotch Pine"</u> Z:3 H:18m S:10m	EVERGEENS	<u>Taxus cuspidata "Dwarf Bright Gold"</u> Z:4 H:1.5m	EVERGEENS
Native blue green short needled pine, fast growing .		broadly upright, needles have vertical yellow and green striations	
<u>Taxus cuspidata "Nana"</u> Z:4 H:1.75m S:2.5m	EVERGEENS	<u>Taxus cuspidata Capitata</u> Z:4 H:3m S:2m	EVERGEENS
dense, wide-spreading evergreen shrub,dark green needles,bright red berries		dark green needles, tight pyramid shape full sun to shade	

<u>Taxus cuspidata Nana Aurescens</u> Z:4 H:60cm S:2.5m	EVERGEENS	<u>Taxus x media Densiformis</u> Z:5 H:1.25m S:2m	EVERGEENS
golden variegated with dark green needles full sun to keep its color best		Dense compact spreader with bright green needles and red berries in fall.	
<u>Taxus x media Everlow</u> Z:5 H:1.25m S:2m	EVERGEENS	<u>Taxus x media Hicksii</u> Z:5 H:4m S:1.5m	EVERGEENS
Dense compact spreader with bright green needles and red berries in fall.		A narrow columnar form with upright branches Makes an excellent hedge.	
<u>Taxus x media Hicksii Hicks Yew</u> Z:5, H:4mS:1.5m	EVERGEENS	<u>Taxus x media Maureen</u> Z:5 H:4m S:1.5m	EVERGEENS
A narrow columnar form with uprightbranches Makes an excellent hedge. full sun to shade		narrow tall growing yew, great for tight spaces	
<u>Taxus x media Sunburst</u> Z:4 H:2.0m S:3m	EVERGEENS	<u>Thuja occidentalis</u> Z:3 H:8m S:1.5m	EVERGEENS
dense, multi-stem evergreen shrub, vivid gold foliage in spring, fades in summer		Compact growing and broad at the base. Good for hedging and grouping.	
<u>Thuja occidentalis Fastigiata</u> Z:3 H:3.75m S:1.25m	EVERGEENS	<u>Thuja occidentalis Nigra</u> Z:3 H:8m S:1.5m	EVERGEENS
pyramidal, grayish green foliage, Eastern White Cedar		Compact growing and broad at the base. Good for hedging and grouping.	
<u>Thuja occidentalis Smaragd</u> Z:3 H:8m S:1.5m	EVERGEENS	<u>Tsuga canadensis</u> Z:4 H:20m S:8m	EVERGEENS
Emerald cedar,narrow pyramidal evergreen,protect from winter wind .		Native. Makes an excellent hedge or specimen plant. A tall, graceful plant with glossy green needles. Sun or shade.	
<u>Tsuga canadensis Canadian Hemlock</u> Z:4 H:20m S:8m	EVERGEENS	<u>Tsuga canadensis- Canadian Hemlock</u> Z:4 H:20m	EVERGEENS
Native. Makes an excellent hedge or specimen plant. A tall, graceful plant with glossy green needles. Sun or shade.		Native. Makes an excellent hedge or specimen plant. A tall, graceful plant with glossy green needles. Sun or shade.	
<u>Tsuga canadensis Jeddleloh</u> Z:4 H:1.5 S:1.5	EVERGEENS	<u>Actinidia arguta (male)</u> Z:4 H:7.5m S:6m	FRUIT
weeping midgreen evergreen, slow growing dwarf hemlock full sun to part shade, great dwarf for small spaces		kiwi vine, needs act. Arg. Female for pollination	
<u>Actinidia arguta Issai</u> Z:5 H:6m S:3m	FRUIT	<u>Actinidia arguta Meader (female)</u> Z:4 H:7.5m S:6m	FRUIT
(Mid) Self-pollinating. A hardy and fuzz less, sweet Kiwi. Needs support.		kiwi vine, needs act. Arg. Male for pollination can't find ht and sp for female version	
<u>Actinidia Kolomikta (male) -Kiwi</u> Z:4 H:6m S:3m	FRUIT	<u>Asparagus crowns Jersey Giant</u> Z:3 H:1.5m S:1m	FRUIT
kiwi vine, needs act.kol. Female for pollination colorful pink,white, green lvs		(Early) Male hybrid, rust resistant. Large spears with good flavour. Full sun.	
<u>Cortland-Semi-dwarf Apple Tree</u> Z:4 H:4m S:4m	FRUIT	<u>Corylus americana American Hazelnut</u> Z:4 H:5m	FRUIT
Mid-season. Pollinator needed. Medium to large, round, striped, fruit is good for pies, sauce and for eating fresh.		Hazelnuts grow naturally as a shrub form plant. Requires a second plant of a different variety for cross pollination.	
<u>Dumbarton Oaks Hardy Kiwi-Actinidia Arguta</u>	FRUIT	<u>Ficus Carcia -Chicago Hardy (edible fig)</u> Z:5 H:4.5m	FRUIT
kiwi vine, Needs a pollinator		hardy edible fig, interesting lobed leaves	
<u>Fragaria Albion Everbearing</u> Z:5 H:60cm S:30cm	FRUIT	<u>Fragaria Annapolis</u> Z:5 H:30cm S:60cm	FRUIT
(Everbearing) Variety with good hardiness & very good productivity. Bright red colour with good flavour.		(Early) Very good yield with large, light red berries. Excellent for fresh market. Full sun.	
<u>Fragaria Brunswick</u> Z:5 H:60cm S:30cm	FRUIT	<u>Fragaria Cavendish</u> Z:3 H:60cm S:30cm	FRUIT
Good for home gardens		strawberry	
<u>Fragaria Honeoye</u> Z:5 H:60cm S:30cm	FRUIT	<u>Fragaria Kent</u> Z:3 H:60cm S:30cm	FRUIT
(Early) High yield with a very large bright red berry. Excellent flavour with good quality. Full sun.		strawberry	
<u>Fragaria Mira</u> Z:5 H:60cm S:30cm	FRUIT	<u>Fragaria Sable</u> Z:3 H:60cm S:30cm	FRUIT
A unique, fresh flavor. Berry texture becomes mealy under hot conditions.		strawberry	
<u>Fragaria Seascape Everbearing</u> Z:5 H:60cm S:30cm	FRUIT	<u>Fragaria St Laurent</u> Z:3 H:60cm S:30cm	FRUIT
(Everbearing) Medium sized red berries with good flavour. Full sun.		strawberry

<u>Fragaria Valley Sunset</u> Z:3 H:60cm S:30cm	FRUIT	<u>Frontenac Blanc Grape</u> Z:5 H:1.75m S:2.5m	FRUIT
strawberry		white grape good for wine	
<u>Juglans cinerea Butternut Tree</u> Z:4 H:25m S:20m	FRUIT	<u>Juglans nigra</u> Z:3 H;;23M W;23M	FRUIT
A small to medium size tree, fruit is sweeter than walnuts.		Carpathian Black Walnut Edible	
<u>Juglans Nigra Tree- Black Walnut</u> Z:4 H:25m S:20m	FRUIT	<u>Lonicera caerulea Berry Blue</u> Z:2 H:2m S:2m	FRUIT
black walnut, edible		(Early) Requires a pollinator (Borealis or Tundra). Tastes like a raspberry/blueberry.	
<u>Lonicera caerulea edulis 'Aurora'</u> Z:2 H:1.25m S:1.25m	FRUIT	<u>Lonicera caerulea edulis Boreal Beauty</u> Z:2 H:1.25m	FRUIT
Hascap, blooms early, fruits early, needs a pollinator		Hascap, blooms early, fruits early, needs a pollinator	
<u>Lonicera caerulea edulis Boreal Blizzard</u> Z:2 H:1.25m	FRUIT	<u>Lonicera caerulea edulis Indig</u> Z:2 H:1.25m S:1.25m	FRUIT
Hascap, blooms early, fruits early, needs a pollinator		Excellent tasting. Large, elongated, firm blue fruit. Plant in full sun. Requires a pollinator	
<u>Lonicera caerulea edulis Indigo Gem</u> Z:2 H:2m S:2m	FRUIT	<u>Lonicera caerulea edulis Indigo Treat</u> Z:2 H:2m S:2m	FRUIT
pollinator required acidic soil required		pollinator required acidic soil required	
<u>Lonicera caerulea Honey Bee</u> Z:2 H:2m S:2m	FRUIT	<u>Lonicera caerulea Tundra (Haskasp)</u> Z:2 H:2m S:2m	FRUIT
pollinator needed acidic soil required		(Early) Requires Berry Smart Blue as a Pollinator Tastes like a raspberry/blueberry.	
<u>Lonicera caerulea Yezberry Solo Honeyberry</u> Z:2	FRUIT	<u>Malus Ambrosia</u> Z:4 H;3.25M W;3.25M	FRUIT
Plump berries. Easy to grow!		Pink Yellow Fruit sweet, no acid	
<u>Malus Empire</u> Z:4 H:4m S:4m	FRUIT	<u>Malus Freedom Semi-dwarf Apple</u> Z:4 H:4m S:4m	FRUIT
cross between McIntosh and Red Delicious, needs a pollinator		(Mid) Pollinator needed. Multi-use apple. Crisp and juicy, red skin and yellow flesh.	
<u>Malus Gold. Delicious S-Dwarf</u> Z:5 H:4m S:4m	FRUIT	<u>Malus Gravenstein</u> Z:4 H:4m S:4m	FRUIT
(late) Pollinator needed, yellow skin, juicy well drained soil		Good cooked, or fresh. Crisp juicy flavor. It's a triploid & not recommended as a pollinator.	
<u>Malus Honeycrisp</u> Z:4 H:4m S:4m	FRUIT	<u>Malus Liberty-Semi-Dwarf Apple</u> Z:4 H:4m S:4m	FRUIT
Pollinator needed, Large. Mildly aromatic, Flesh is cream with a distinctive crisp texture.		(Late) Pollinator needed. Small to medium sized fruit. Sweet, tart, crisp & disease resistant. Stores well.	
<u>Malus Lobo (Semi-dwarf Apple)</u> Z:4 H:3.5m S:3.5	FRUIT	<u>Malus McIntosh (Semi-Dwarf App</u> Z:4 H:4m S:4m	FRUIT
(Mid) White flesh tinged with pink. Juicy and crisp, and great dessert, fresh eating apple		(Early) Pollinator needed. Medium to large fruit. Crisp, juicy & bruises easily.	
<u>Malus multi-graph 5-n-1 Apple</u> Z:5 H:4m S:4m	FRUIT	<u>Malus Nova Spy</u> Z:4 H:4m S:4m	FRUIT
Self-pollinating. Five different apple varieties grafted on to one tree. Useful for restricted spaces.		Nova Scotia introduction, mid season, creamy yellow flesh	
<u>Malus Red Splendor</u> Z:3 H:7m S:6m	FRUIT	<u>Malus Sweet Sixteen</u> Z:3 H:4m S:4m	FRUIT
dark reddish green leaves reddish purple in fall, pink to rose pink 2 year cycle		A very juicy apple that is sweet with a bit of tartness. well drained soil	
<u>Malus Yellow Delicious Semi-Dwarf</u> Z:5 H:4m S:4m	FRUIT	<u>Prunus armeniaca Moongold (Apricot)</u> Z:3 H:9m	FRUIT
golden with a hint of red, midseason apple		White flowers in spring, with yellow fruit in mid summer. Needs a pollinator.	
<u>Prunus armeniaca Scout (Apricot)</u> Z:3 H:9m S:8.5m	FRUIT	<u>Prunus avium Rainier (Cherry)</u> Z:4 H;9m W;9.5m	FRUIT
pink flowers, hardy, Apricot, self fruitful, best with another, freestone		cross between bing and van, thin skin, thick creamy yellow flesh, requires a pollinator	
<u>Prunus avium Van (Cherry)</u> Z:5 H:6m S:6m	FRUIT	<u>Prunus Bing (Cherry)</u> Z:5 H:6m S:6m	FRUIT
large, sweet great flavor, needs a pollinator average well drained soil		Very large, firm, juicy, black fruit. Good for pies canning and eating, needs a pollinator.

deep purple flowers, may/ june main flowering , sporatic through summer		Blue and white bicolor blooms blooms late spring and again in summer	

Wisteria Sinensis "Alba" Z:3 H:7.5m

VINES

chinese wisteria, pure white, mildy fragrant,

Handling potted shrubs/Trees

{ New plants should be planted as soon as possible.

{ If planting is delayed, then it is important to keep your plants watered.

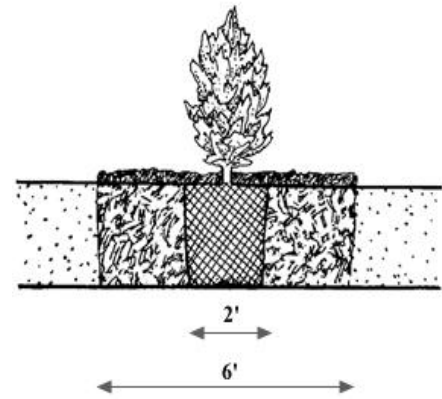

{ Store unplanted shrubs and trees in a shady, wind protected location and keep the root area evenly moist.

Size of Planting Hole

{ Dig the planting hole at least twice the width of the root ball to allow for soil enrichments before planting.

{ When planting large heavy root balls, the soil at the bottom of the hole should be left solid to prevent the tree from settling lower.

{ The finished level of the tree should be the same as it was grown, or up to 8 cm (3") higher.

Handling of Various Plant Containers

Fiber Pots

For plants in fiber pots, remove the pot entirely!

{ Many fiber pots are coated to extend their shelf life, but this slows degradation below ground and retards root extension.

{ Water thoroughly with a root stimulating transplant fertilizer. An example of this would be *"Transplant with Root"* liquid concentrate.

Plastic Pots

{ Water plants thoroughly before removing the container.

{ A light tapping on the sides and bottom of the pot should release the soil, if not make two cuts the length of the pot on opposite sides and gently pull away the halves.

{ Use your fingers or a knife to gently loosen and spread exposed roots that appear crowded.

{ To free very matted or circling roots make several vertical cuts 1/2 to 1 inch deep through the root mass.

MYKE[®] Pro

LANDSCAPE

REDUCE YOUR OPERATION COSTS AND IMPROVE YOUR CUSTOMERS SATISFACTION

- ↑ ENSURE 2X FASTER ESTABLISHMENT**
Roots with mycorrhizae spread within the available space twice as fast as roots that do no benefit from the technology.
- ↑ INCREASE WATER RETENTION BY 30 %**
The plant's root system is more developed and thus absorbs more water.
- ↑ INCREASE SURVIVAL BY 75 %**
Roots with mycorrhizae have a greater capacity to absorb nutrients from the soil. Therefore, you get plants that are healthier, more vigorous and more resistant to stress.
- ↑ INCREASE PHOSPHORUS ABSORPTION**
Roots with mycorrhizae can absorb **3 to 5X** more phosphorus than roots without mycorrhizae
- ↑ IMPROVE SOIL STRUCTURE AND PREVENT EROSION**
The root extension (filaments) provided by mycorrhizae holds soil particles together, which reduces erosion. Furthermore, by improving soil structure mycorrhizae allow better water penetration of about 25%, thus slowing down erosion and stabilizing the soil.

CUT YOUR COSTS BY MORE THAN 37% ON PLANT REPLACEMENT

Increase profits by using MykePro!
Increase time spent on acquiring new contracts!

COST FOR PLANT REPLACEMENT WITHOUT MYKEPRO	
Cost for plant purchases	\$ 20 000
Cost for replacement plants (8 % loss)	\$ 1 600
Cost for labour and material	\$ 3 200
Total costs of replacements	\$ 4 800

SAME CALCULATION WITH MYKEPRO	
Cost for plant purchases	\$ 20 000
Cost for replacement plants (5 % loss)	\$ 1 000
Cost for labour and material	\$ 2 000
Total costs of replacements	\$ 3 000

MYKE® PRO LANDSCAPE MYCORRHIZAL INOCULANT

MYKE® PRO LANDSCAPE is a mycorrhizal inoculant specially designed for transplanting a wide variety of trees, shrubs and herbaceous plants. This granular formulation is suitable for all soils.

PRODUCT	UPC	SIZE
180996	6 21361 100477	4 kg (12 L)

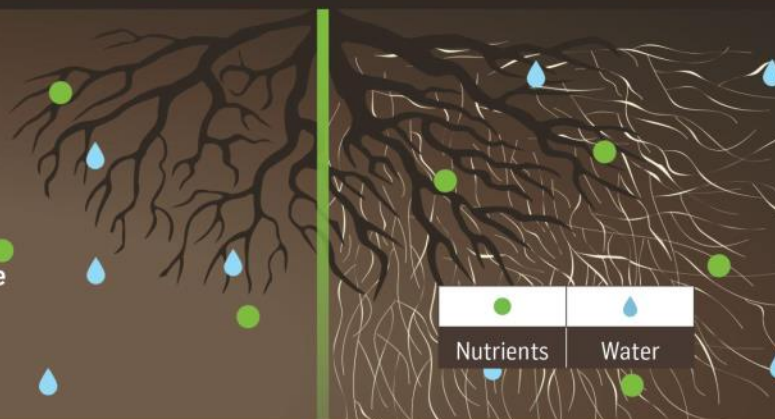

HOW DOES IT WORK?

Roots **WITHOUT** Mycorrhizae

Roots **WITH** Mycorrhizae

The fungi that attach to the roots of plants form a symbiotic relationship called "mycorrhiza". Mycorrhizae form a filament network which develops in the soil environment and transports water and nutrients to the roots. Thanks to this symbiosis, mycorrhized plants grow larger and benefit from improved rooting. Over the years, the Premier Tech team has acquired a unique expertise in the production of quality mycorrhizal products and leading-edge strategies for the marketing of high-value technological products.

Over the last 10 years Blomidon Nurseries had offered a billable warranty option of 5% of invoice, which provided you a 1-year warranty on your plant purchases. This was an optional add-on many of our wholesale customer took advantage of to provide peace of mind for their individual planting jobs; however, it required the customer to purchase warranty on every job for the entire year. Now in partnership with **Premier Tech's MYKE Pro Landscape program** we are now providing a 2-year warranty for both your commercial and residential projects which will provide you the flexibility to apply warranty to all or some of your planting jobs.

How does the MYKE PRO Landscape program work?

- Purchase enough MYKE PRO on your invoice to plant the nursery items listed and you are warrantied for 2 yrs. Your invoice must indicate you have purchased enough MYKE PRO to complete your planting job. We will calculate your MYKE PRO requirements, add the amounts to your invoice and ship with your delivery.

How much does it cost?

- We sell MYKE PRO Landscape in 2 sizes
 - MYKE PRO 1.5L at **29.99 bag**
 - 1 Small bag will treat **8 x 3-gallon Pots**
 - MYKE PRO 12L at **149.99 bag**
 - 1 Large bag will treat **64 x 3-gallon plants**
- Wire basket Trees
 - 1 Large Bag with treat **12 x 50/60mm Caliper Trees**

How do you recover your upfront cost?

- We see a couple of key opportunities for you;
 1. Build it into your bid line on the job or add it as an optional line item on your residential or commercial quote.
 2. Peace of mind that you will be covered replacement plant costs in the unfortunate event you have natural plant losses for 2 years.
