# Welcome to our new and exciting 2017 Catalogue

Welcome to our new and more colourful catalogue for 2017 which offers a more diverse range of quality spring bulbs at affordable and competitive prices in Europe and USA.

If you are seeking 'bulbs of distinction' for pots, rockeries, exhibition or the garden we are sure there will be something of interest for you in our comprehensive range of spring bulbs. We are pleased to provide a range of innovative and exciting new varieties for the avid gardener for 2017.

Many of our varieties are world class show stoppers, and of RHS awards of merit and also consistent winners at the RHS, AGS and The Daffodil Society shows.

We have many new exciting additions, with the added bonus of re-introducing some old time classics which are now Dutch grown. We endeavour to meet the needs of our clients, whether you are an accomplished exhibitor or simply wish to add some exciting flair to your garden.

Many of our bulbs are rare and exclusive therefore early ordering is recommended. Please be assured our bulbs are grown from cultivated stock.

In 2016 we had the pleasure of forming new friendships with fellow exhibitors and growers in USA. This proved to be a great success and we look forward to dealing with our USA friends for many more years to come, however we recommend that orders be placed early.

Choice Bulbs and Plants would like to wish you a very successful season

Kind regards

# Daffodil classifications & Colour codes

All daffodils are classified into one of 13 Divisions. The hybrid cultivars are Divs 1-12 and daffodils distinguished solely by botanical name are Div 13. There are also 6 main colour codes.

## Division 1 trumpet

One flower to a stem; corona (trumpet) as long as, or longer than the perianth segments (petals)

## Division 8 tazetta

Usually three to twenty flowers to a stout stem; perianth segments spreading not reflexed; flowers usually fragrant

## Division 2 large cupped

One flower to a stem; corona more than one third, but less than equal to the length of the perianth

## Division 9 poeticus

Usually one flower to a stem; perianth pure white; corona very short or disc-shaped; usually green and / or yellow centre and a red rim. Flowers usually fragrant

## Division 3 small cupped

One flower per stem; corona not more than one third the length of the perianth segments.

## Division 10 bulbocodium

Usually one flower per stem; perianth segments insignificant compared with the dominant corona.

## Division 4 double

One or more flowers to a stem, with doubling of the perianth segments or corona or both.

## Division 11 split corona

Corona split – usually for more than half its length.

- Collar
- Papillon

## Division 5 triandrus

Usually two or more pendant flowers to a stem; perianth segments reflexed

## Division 12 other

Daffodil cultivars which do not fit into the definition of any of the other 11 divisions

## Division 6 cyclamineus

One flower to a stem; perianth segments significantly reflexed; flower at an acute angle to the stem with very short neck.

## Division 13 species

Daffodils distinguished solely by botanical name. All species and wild or reputedly wild variants and hybrids

## Division 7 jonquilla

One to five flowers per stem; perianth segments spreading or reflexed; corona cup-shaped, funnel-shaped or flared, usually wider than long and fragrant

## Colour codes

W - white or whitish  
 Y - **yellow**  
 G - **green**  
 R - **red**  
 P - **pink**  
 O - **orange**

When looking at a daffodil classification, the first number indicates the division of the daffodil – Div 1 is a trumpet. The first letters represent the petal (perianth) colour, which may be more than one. The next group of letters represent the corona colour which again may be more than one eg **Div 1 y-gw** = trumpet with **yellow petals** green centre and white corona

# New Daffodil Introductions 2017 page 3

*We are delighted to introduce to European and U.S.A. daffodil enthusiasts six very exciting and distinct daffodils this year. The three large daffodils are all out of the 'top drawer' and bred by Brian Duncan and John De Winter.*

## **Camilla Clara Kate**

Breeder: Brian Duncan

The breeding suggests nice colours in the cup. A smooth milky white perianth, corona has a sparkling red rim with yellow inners turning dark green in the centres. Affectionately named after our own editor of the Daffodil Society.

**£25.00 each**

**Seed no. 3207**

Clouds Rest x Volcanic Rim

**3W-GYR**

Mid-Late

## **Firebright**

Breeder: Brian Duncan

Magnificent flower that Brian has championed for release. Regularly winning stands at the RHS under seedling number FL16mm, large and slightly facing upwards. Deep yellow round perianth with heavy substance. The cup is very neatly rounded with a slightly flared deep orange-red mouth. Already a big winner

**£25.00 each**

**Seed no. 3475**

Solar Heat x Tropical Heat

**2Y-R**

Mid Season

## **Lemon Choice**

Breeder: Brian Duncan

FL105mm smooth and strong round and broad. Aptly named from the lemon/yellow appearance. Upon viewing this I believe it the best choice of the division 3. Lemon yellow bowled corona with a smooth perianth.

**£25.00 each**

**Seed no. 3503**

Moon shadow x Lemma

**3Y-Y**

Mid Season

## **Spoil Choice**

Breeder: Brian Duncan

FL100mm wide. Forming a double triangle with a deep apple pink blossom cup, balanced neatly on the silky white perianth, strong grower and rapid increaser. Very successful on the judging bench. Many exhibitors are already in receipt of this new variety through error and are very impressed. The only thing they are awaiting is the name hence 'spoil choice'.

**£25.00 each**

**Seed no. 2899**

Soprano x Lady Ann

**2W-P**

Mid Season

## **Robustian**

Breeder: Brian Duncan

FL112mm wide. The pure white perianth is of very heavy substance on large strong stems. The corona is funnel shaped in darker yellow with a bright pink rim around the edges. Named for its growing habit 'Robust'. Very Impressive size plants and Bulbs.

**£25.00 each**

**Seed no. 3088**

Benalign x Catalyst

**2W-YYP**

Mid Season

## **Tea for Two**

Breeder: John De Winter

Outstanding new triandrus especially for those who appreciate true class. It produces two exquisite flowers per stem and can only be described as a classic. Should do very very well on the show bench. Ht. 10".

**£15.00**

**Seed No.**

N. Cyclameneus x Unknown Seed

## TERMS OF BUSINESS

page 47

We do not export outside the EU.

Orders for spring bulbs are accepted at our sole discretion from April until October and are offered subject to a satisfactory crop and availability. Minimum order is £15 plus p&p, and can be placed at any time during this period. Full payment, in Sterling or Euros, is normally required with the order. When an order is placed and paid for on our website, credit/debit card payments are made through PAYPAL – an independent and secure card payment provider - and claimed immediately. No card details are held on our website. When confirmation of an order is received, this is to indicate that we have received your order. It does not indicate that a contract exists between us. Personal details are not disclosed to third parties other than when order details are processed as part of the order fulfillment. Orders are collated and dispatched by us. We only keep a record of your name, address and email to acknowledge your order, provide news and updates. Details are removed if requested.

We commence dispatching spring bulbs, in strict rotation, in September and aim to have them with all customers by the end of October. They are normally sent by First Class post, Parcel Force or Carrier. UK mainland orders for dwarf bulbs weighing up to 2kg pay a £6.00 p&p charge. Orders which include **any large bulbs (marked L)** or weigh over 2kg are charged at £12.00 p&p up to 25kg and any additional weight or box is charged at cost. Postage by airmail to other EU countries is charged at £12.00 up to 1kg and then at cost. All p&p costs are required before dispatch. Bulbs can also be collected by arrangement from some shows including Harrogate Autumn Show and if p&p has been paid extra bulbs will be included.

The bulbs are propagated within the EU and will be in good condition at the time of dispatch. Stocks of some bulbs are limited. We always try to send what you ordered, but reserve the right to send substitutes unless otherwise instructed. However, we will endeavour to provide a bulb(s) of the same quality and price or better. Since customer's growing methods and conditions are beyond our control, we cannot give an expressed or implied warranty on the performance of the bulbs.

If you are not satisfied with any part of your order and advise us within 14 days of receipt, we will refund the bulb cost or provide replacement bulbs if possible. No liability will be accepted after 14 days as we cannot be responsible for a customer's storage method or cultural conditions. Your rights to return goods are protected under the EU Distance Selling Directive which can be found at <http://www.hmso.gov.uk/si/si2000/20002334.htm>.

**Large sized bulbs for p&p are marked (L)**
