HATFIELD GARDENS

1989 Catalog

22799 Ringgold Southern Road
Phone: 614-474-5719

Stoutsville, Ohio 43154

Greetings,

The 1989 catalog is being dedicated to the memory of my Mother, Laura Hatfield, who passed away July 16, 1988, at the age of 77. She worked many hours over the last twenty years helping to build the garden to its present size and beauty. She always had a great love for plants and gardening. This interest has been passed on to me. Her favorite season was Spring. She especially loved the daffodils and later the daylilies and Hostas. Over the years she accompanied me on many plant trips around the country. Her spirit will always be present in the garden.

Many thanks to all my customers for making 1988 my best year ever. Hope I can continue to serve you by offering quality daffodils, daylilies, Hostas, iris, and other plants. While some have been discontinued or withheld for increase, many new items have been added to the various sections of the catalog. So perhaps you will find something you will want to add to your gardens again this year.

The planting area across the road has been filled with daffodils, iris, and peonies. Many new daffodils from around the world can be viewed in the main garden. The daffodils are usually at their peak, April 16-26. SUNDAY, APRIL 16TH will be a special open day for the public to see the thousands of blooms.

The bearded iris section has been greatly expanded. There should be a riot of color among the iris beds during mid to late May. SUNDAY, MAY 21ST will be a special open day for the public to see the bearded iris and hybrid peonies. Do come to see them.

Many new Hosta seedlings of Bill and Eleanor Lachman, and Kevin Vaughn are being evaluated for future release. Several exciting new introductions by them are being offered this year, along with two from Mildred Seaver. Also, watch for the introduction of 'Big John' in 1990. It was simply huge in its home garden at Clarence Owens, Jackson, Michigan, this past summer. Do come to see these while going to or from the Hosta convention in Indianapolis, Indiana.

The daylilies are usually at their peak about July 5-15th. The garden will be closed Sunday, July 2nd, for a tour by the Indianapolis Daylily and Iris Society. SUNDAY, JULY 9TH will be a special open day for the public to see the daylilies and Hosta in full bloom.

With no major conventions planned for 1989, I hope to be able to enjoy the gardens more and hope you will plan a visit sometime during the growing season. The garden is always open for our customers from mid April to September from the hours of 9 a.m. to 6 p.m. daily. Usually I am here all the time but sometimes I may be away on business. So to avoid disappointment, please call or write in advance. I now have an answering machine so you can call and leave a message. Best time to call me is before 8 a.m. or after 9 p.m.

Good Gardening in 1989
Handy Hatfield

CONTENTS

New Hosta Introductions	2-4
Daffodils	5-12
Daylilies	13-20
Hostas	21-26
Iris, Bearded	26-33
Ornamental Grasses	34-35
Companion Plants	35
Peonies	35
Shipping Instructions	Inside Back Cover

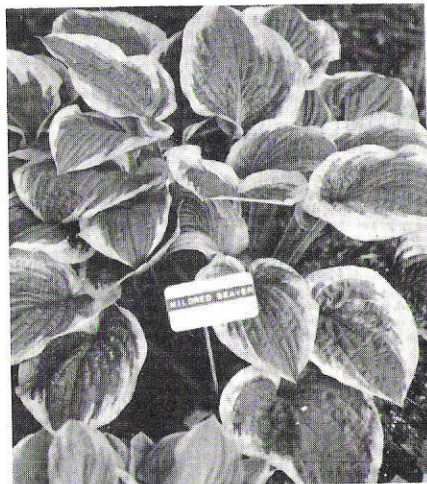

Directions to Hatfield Gardens:

Hatfield Gardens is located at 22799 Ringgold Southern Road, about four miles east of Circleville. From U.S. 23, on the west side of Circleville, follow U.S. 22 through town to east edge of town. Then, turn right onto the Circleville-Stoutsville Pike at the Pickaway Co. Fairgrounds and follow it for 3 miles. Turn right onto the Ringgold Southern Road and continue for one mile to Hatfield Gardens on the right.

'SHOCKING CHARTREUSE' (Vaughn) - (Summer Gold sdlg. x Golden Waffles) A medium large, bright, glowing chartreuse gold. Slight cupping and crinkling, excellent substance. Net 50.00

'TWIST AND SHOUT' (Vaughn) - (Gold Piece x Aztec Treasure sib.) Very large, round, crinkled, slightly shiny, blue green leaves. They grow nearly upright and twist in all directions. Stunning in a clump. Winner of its seedling section at the 1988 AHS Jackson National Show . . . Net 75.00

Mildred Seaver, the lady and the Hosta.

DAFFODILS

Summary of the daffodil classification of the Royal Horticulture Society.

The classification of a daffodil cultivar is based on the description and measurements submitted by the person registering the cultivar. Colors applicable to the description of daffodil cultivars are abbreviated as follows: W = white; G = green; Y = yellow; P = pink; O = orange; R = red. The daffodil flower is divided into the perianth (petals) and the corona (cup). The letter or letters of the color code most accurately describing the perianth follow the division number. The letter or letters of the color code describing the zones (one to three) of the corona follow, separated from the perianth letters by a hyphen. Daffodils are classified as follows: **Div. 1** - Trumpet, one flower to stem and trumpet (corona) as long or longer than the perianth segments. **Div. 2** - Long-cupped, one flower to stem, corona more than one-third but less than equal to length of perianth segments. **Div. 3** - Short-cupped, one flower to stem, corona not more than one-third the length of the perianth segments. **Div. 4** - Double daffodils, corona replaced by additional perianth segments. **Div. 5** - Triandrus daffodils, one or more bell-shaped, pendulous florets, perianth segments reflexed, fragrant. **Div. 6** - Cyclamineus daffodils, usually one flower with swept-back perianth, early bloomer. **Div. 7** - Jonquilla daffodils, scape tall and slender with 2 to 6 florets often clustered to a stem, very fragrant. **Div. 8** - Tazetta daffodils, usually 2 to 6 flowers to a stem, sweet scented, very short cupped and perianth segments rounded. **Div. 9** - Poeticus daffodils, one flower to a stem, white petals, small flat cup, and fragrant. **Div. 11** - Split corona daffodils, corona (cup) split for at least one-third of its length.

Numbers following the name indicate time of flowering (No. 1 the earliest to No. 6 the latest).

Note: Daffodil orders must be received by **August 15**. All bulbs are offered subject to crop and being unsold on receipt of order.
