ELPHIN Div. 4 Pink/White

Like "Kinbrace" this is another bright pink double that I have raised from the same breeding. It is a smaller flower but perhaps more elegant, being about average size for doubles, and is a good grower. As it normally carries both pollen and stigma it can be used for breeding.

ERIBOL Div. 2B R/W

One of the many good flowers raised from Kilworth x Arbor. The broad petals form a fine white perianth, much whiter than is normal for this cross. The neat cup is the deepest red yet. Shown in my winning Englehart Cup group in 1971.

Price each £2.00 : \$5.20

FIONN Div. 2B Pink

A fine "pink" that is clear bright pink right to the base of the cup, which is formed like a short trumpet. The well-rounded perianth gives good balance to the flower on its tallish stem. The perianth is white.

INVERPOLLY Div 2C

This outstanding flower has a very large, perfectly smooth perianth formed from broad rounded petals and a short rather straight cup. The whole flower is pure white and most consistent in show quality. The cup on opening is palest peachy pink, which quickly fades to pure white. I have used it most successfully in breeding "pinks" that inherit Inverpolly's superb perianth. Twice best flower in R.H.S. shows and in my winning Englehart Cup group in 1971.
