TERMS AND CONDITIONS

Prices quoted are per bulb.

Payment to **M.R.Salmon** to accompany all orders, in Stirling drawn on an UK bank.

Personal cheques in currencies other than Stirling will be accepted if an additional £3.50 or equivalent is added to cover bank conversion charges.

In order to reduce costs and refunds customers may prefer to leave the cheque amount blank but to write across the top of it 'Not to exceed 'X' number of pounds'.

The 'X' number being the maximum anticipated cost of the plants available plus postage in words and figures.

Postal Orders and International Money Orders will be accepted if substitutes are indicated if all ordered plants are not available. Otherwise no substitutes will be sent unless specifically asked for.

All plants listed are grown here on the nursery, the greater part from seed which ensures robust virus-free stocks.

For conservation purposes, where stocks are from a known original source, this is briefly given. Where stocks are from various sources these are also given with collectors initials and collection numbers so that they may be precisely identified from the collectors field notes.

All plants are top size unless otherwise stated but flowering is not guaranteed as subsequent growing conditions are in the hands of the customer. If you are not satisfied with the goods as received, please return and I will replace or refund.

For further details reference is recommended to:- **'The Bulb Book'** by Rix and Phillips, **'Dwarf Bulbs'** and **'Larger Bulbs'** both by Brian Mathew, **'Bulbs'** by Grey-Wilson and Mathew for descriptions or illustrations of many of the plants listed here. For Narcissus species **'Narcissus'** by John Blanchard or **'Modern Miniature Daffodils'** by James Wells are comprehensive and well illustrated. **'The Crocus'** and **'The Iris'** both by Brian Mathew are the current handbooks on these genera. Otherwise monographs on the following are available at libraries or book shops. **Arum, Calochortus, Brodiaea, Romulea, Lachenalia, Haemanthus, Moraea, Lilium, Fritillaria, Allium, Galanthus and Leucoium, Pelargonium, Kniphofia, Lachenalia and Scilla** (in German).
