

1996 - 1997

MONOCOT NURSERY
"Jacklands",
Jacklands Bridge,
Tickenham, Clevedon
Avon BS21 6SG
England

Only the Narcissus pages
are included here.

PLANT LIST

All plants listed are grown here on the nursery, the greater part from seed which ensures robust virus-free stocks.

For conservation purposes, where stocks are from a known original source, this is briefly given. Where stocks are from various sources these are also given with collectors initials and collection numbers so that they may be precisely identified from the collectors field notes.

Reference is recommended to:- 'The Bulb Book' by Rix & Phillips, 'Dwarf Bulbs' and 'Larger Bulbs' both by Brian Mathew or 'Bulbs' by Grey-Wilson & Mathew for descriptions and/or illustrations of most of the plants listed here. For Narcissus species 'Narcissus' by John Blanchard or 'Modern Miniature Daffodils' by James Wells are comprehensive and well illustrated. 'The Crocus' and 'The Iris' both by Brian Mathew are the current handbooks on these genera.

All plants listed are top size unless otherwise stated but flowering is not guaranteed as subsequent growing conditions are in the hands of the customer. If you are not satisfied with the goods as received, please return and I will replace or refund.

<i>Leucoium trichophyllum</i>	S.F.382	Sidi Slimane, Morocco	Spr.		.25
" <i>valentinum</i>	6in.	white	Aut.		2.50

B.S.B.E. Bowles Scholarship Botanical Expedition (B.M.E.)			

The Monocot Nursery, established over thirty years, specialises in bulbous and tuberous-rooted plants. Over 2000 species and varieties are currently grown though some, because of their rarity or difficulty, in very small numbers. If you do not see in my lists the special plant you want - send me a request list - I might just have it.

Visitors are welcome between 10am and 6pm weekdays, also weekends - if you let me know that you are coming, when you will have the opportunity to purchase plants that are unlikely to be listed.

The Monocot Nursery issues two catalogues annually.

1. **Bulb and Plant Catalogue** which lists about 600 species and varieties of bulbous and tuberous - rooted plants for Spring and Autumn planting, all of which are grown here on the nursery. Sent out in **March**.

2. **Seed List** offering seeds of ca. 600 stocks of bulbous and tuberous - rooted plants harvested during the year from plants in cultivation and from wild habitats. Sent out in late **October**.
