INTRODUCTION FOR 2017

Ron and Adrian with selection of un-named seedling varieties for the future, and The R.H.S Lawrence Medal

Welcome to our 2017 catalogue. This year we have added four pages of popular varieties of Daffodils which we hope you will enjoy.

Please remember if you do not find what you are looking for, we may have it in our collection. We recommend to you our website, qualitydaffodils.com there you will find many more varieties but even this will not show our full collection which extends to over 2500 different Daffodils.

I (Ron) have now passed the main administration and control over to Adrian who together with Sharon will maintain the collection and supply the bulbs to you. We still grow a considerable number of un-named seedling varieties some of which will be released in due time.

Last year we again received the prestigious E.H. Trophy for the Best Exhibit, and were proud to have been presented with the Royal Horticultural Society Lawrence Medal, the highest that can be awarded.

Our Displays at the London and Cardiff received Gold Medals, displays around the Country also achieved many awards.

We wish to thank and acknowledge the photographic skills of; Clive Nichols, Jason Ingram, Duncan Donald of Croft 16, Kirby Fong, Bob Spots, Carlos Vanderveek, Ian Tyler, and Tony James who have very kindly allowed us to use some of their pictures in this catalogue.

This year we shall be featuring displays at;

The RHS Rosemoor Gardens, Saturday and Sunday 11th /12th March.

Falmouth Spring Flower Show, Saturday and Sunday 18th/19th March.

The Southwest Daffodil Group Show at the National Trust Garden Trelissick, Saturday and Sunday 25th and 26th March

The RHS London Plant Extravaganza, Tuesday 28th (Evening Preview), Wednesday and Thursday 29th and 30th March.

The Cornwall Garden Society Show at Boconnoc, Saturday and Sunday 1st and 2nd April.

The RHS Show at Bute Park Cardiff, 7th/8th/9th April.

We look forward to meeting many of you again at these events.

Best wishes for a beautiful and enjoyable Season

Ron, Maureen, Adrian and Sharon

New or First Time Introductions for 2017

We are pleased to include these new varieties, that have been greatly admired by visitors to our trial field when under number, some are names that have been commissioned by other Daffodil enthusiasts and all have proved to be strong and vigorous growers.

Lowena 4Y-P [LM]
40cm-60cms
 It is the Cornish name for "Joy" and what a joy this flower is, the colours are bright and held on a strong stem.
£25 each

Orange Comet 6W-O [M]
30cms-50cms
 A new colour combination in this class from the USA
 Looks superb in pots.
3 Bulbs for £20.00

Belize 2YYW-WWY [LM] **40cms-60cms**
 The latest and one of the best from John Pearson, we have been building the stock for several years
 And is proving to be a Top Show variety
£12.50 each

Oundle 2W-W [M]
40cms-60cms
 To be registered this year, another of John Pearson's that has proved to be a consistent flower of show quality and strong grower .
£12.50 each

Capability Brown 9W-GYR [L]
30cms-50cms
 Named at the request of the Capability Brown Society to commemorate his Tercentenary, this is an excellent variety for planting in Grass or the Garden, but also has some show potential, long lasting flowers and a very nice scent.
3 Bulbs for £12.50

Perak 4W-YYP [LM]
40cms-60cms
 Perak is a very Beautiful district in Malaysia, this flower is long lasting, beautifully coloured and stands well on strong stems.
3 Bulbs for £15.00

Marguerite Patten 8W-Y [M] **50cms-65cms**
 This was selected and named by the Family of Marguerite Patten for the Guild of Food writers to commemorate her 100 year. The stems are tall and can have up to 5 strongly scented florets on the stem, excellent for the Garden cutting and I believe useful on the show bench. **3 Bulbs for £10**

Sarikei 4W-Y [LM]
50cm-65cm
 The flower is only 75mm diameter on a tall stem and stands the weather well, beautiful in the Garden and as Bonus is very sweetly scented , bred by M. Jefferson-Brown using n.jonquilla as a parent.
3 Bulbs for £10.00

Division 5 Triandrus Hybrids for exhibition and garden

These delightful varieties of Daffodil are the result of selective breeding where the species *n.triandrus* has been introduced into its parentage; the resulting plants often have 2 or 3 flowers on the stem, and are amongst the ladies' favourites in floral arrangements.

These from Division 5, and those of Division 6, are generally much dwarfer in stature and are ideally suited to the garden or rockery. The plants are hardy and quite resistant to the windier spot where the conventional Daffodil often gets broken off.

Division 8 Tazetta Hybrids for exhibition and garden

Characteristics of Section Tazetta clearly evident: usually three to twenty flowers to a stout stem; perianth segments spreading not reflexed; flowers usually fragrant.

These plants are the result of many years of breeding and can really be divided into two types. They are with the exception of "Minnow" all quite big plants, some do have very tall stems and foliage. The first kind are more of the true N.Tazetta species in form. As the species is generally found in warmer regions of Southern Europe and the Mediterranean. They are somewhat tender and do require a hot dry summer period to perform at their best, however they are well worth trying, when each stem could have up to 15 or 20 highly scented florets. The second group or kind is the "Poetaz", these are slightly different in style and have fewer florets, and the scent is an admixture of the N.Tazetta and that of the N.Poeticus from which these hybrids have been derived. It is the poeticus part that makes these much harder and withstand our winters as well as any other of daffodil.

Murlough:[LM]40/60cm.
5 Bulbs for £4.50

These flowers have been commonly called the "Pheasants Eye" and indeed they have been bred from the old species, however these varieties are far superior in form and colour, and bloom when most other Daffodils have been long finished. They are best picked young as the sun does affect the lovely colours if left out. They are without exception all highly scented. The plants like to be planted in good soil that never completely dries out, this helps to keep them cool. Set the bulbs slightly deeper than normal and leave undisturbed. New bulbs may take a season to settle, but are well worth their place in the garden.

Division 13 The Species and Wild Forms Daffodils for exhibition and garden

I have been acquiring these for many years and have obtained much pleasure from them, particularly those grown in the alpine house. The species always seems to resent being moved about, but once settled are a joy to see in naturalized surroundings. Some are not available in very large quantities.

I believe them all to be true to name, but like many there seems to be some considerable variance of form; they are however named as sent to me or have been grown from seed.

Historical Varieties

For many years it has been one of our passions to collect and preserve for the future Daffodils of bye gone years.

Today we have many of the varieties that are often seen in the old Gardens and around Churches and the bordering hedges of the market gardens in the late 1800s and early 1900s, these and many others now form an important part of our collection some stocks are still very small and some are still under assessment to ascertain the correct name.

We are pleased to offer the varieties we list here, we believe to be true to name or have been confirmed by other very knowledgeable enthusiasts.

SPECIALLY SELECTED TULIPS & OTHER BULBS GROWN FOR US IN HOLLAND

DARWIN HYBRIDS

“Conqueror”
(M) 50/60cm
10 Bulbs £4.50
A beautiful bright large yellow flower which attracts the eye in any garden.

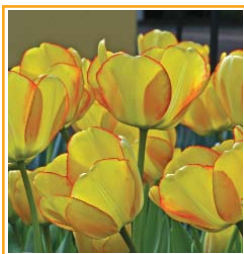

“Spring Garden”
(M) 40/60cm
10 Bulbs £4.50
This bright red flower has a broad yellow base. Very striking when fully open.

“Mystic”
(M) 50/60cm
10 Bulbs for £4.50
The flowers are a soft apricot pink with subtle flushes.

“Orange Balloon”
(M) 50/60cm
10 Bulbs for £4.50
This picture does not show the true size of this flower; it is huge and sure to impress.

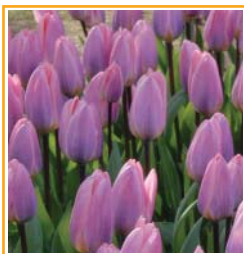

“Beauty of Spring”
(M) 50/60cm
10 Bulbs for £5.50
Spectacular golden yellow flowers with red outline and flushes. One of my favourites.

“Hakuun”
(M) 55cm
10 Bulbs for £4.50
White as a summer cloud. (perhaps not a British summer).”
Hakuun” meaning white cloud.

“World Peace”
(M) 50/60cm
10 Bulbs for £4.50
Pink with yellow edging developing to a glowing orange with age, keep watching!

“Light and Dreamy”
(M) 50/60cm
10 Bulbs for £4.50
A strong tulip, soft pink with a darker purple flame.

LILY FLOWERING & VIRIDIFLORA GROUP (WITH GREEN STREAK)

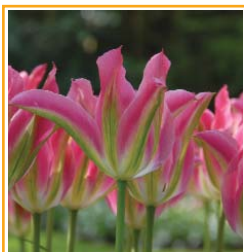

“White Trumhator”

(L) 60cm AGM
10 Bulbs for £4.50
This pure white lily flowering tulip presents its self on a long stem.

“Purple Dream”

[M] 50cm+
10 Bulbs for £4.50
A vibrant purple flower that will open fully in the sun showing its white centre.

“Virichic”

(L) 60cm+
10Bulbs for £4.50
From the Viridiflorus group. A bright pink flower fading towards the edge with a green streak through the centre.

“Flaming Spring Green”

(L) 50/60cm
10 Bulbs for £6.50
Another Viridiflorus. When open the red seen in the picture rises from the centre like a flame. The flower fully opens in the sun to give a dramatic affect.

“Ballerina”

(L) 40/50cm
10 Bulbs for £4.50
A lightly scented flower that stands well above its foliage.

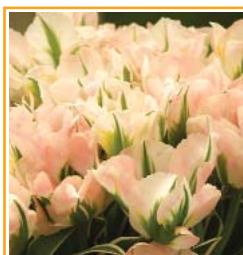

“Spring Green”

(L) 40/60cm
10 Bulbs for £4.50
Looks good in pots or the garden. I like it grown with darker foliated plants.

“Merlot”

(M) 50/60cm
10 Bulbs for £4.50
A glowing burgundy looks great on its own or planted in groups or combinations. Perhaps Hakuun shown on page 63 would be good. 'Red or White sir'.

“China Town”

(L) 40/60cm
10 Bulbs for £4.50
A pretty pink that is complemented by the silvery variegated foliage.

TRIUMPH

“Strong Gold”
(M) 35/50cm
10 Bulbs for £4.50
As the name suggest this flower is strong in all respects, bright colour, strong stem and lasts in the garden or as a cut flower

“Princess Irene”
(L) 20/40cm
10 Bulbs for £4.50
Named after a Dutch Princess. Slightly fragrant, grows well in the garden or pots. Another favourite.

“Flaming Flag”
(M) 40/50cm
10 Bulbs for £4.50
A good strong Tulip. The purple streak will vary from flower to flower but always impresses.

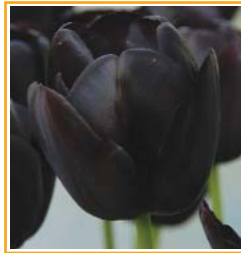

“Suncatcher”
(M) 40/50cm
10 Bulbs for £5.50
The large vibrant yellow and red flower will surely impress.

SINGLE LATE FLOWERING

“Clearwater”
(L) 40/60cm
10 Bulbs for £4.50
A tall classic shaped, pure white tulip. Looks great planted in clumps or on mass.

“Queen of the Night”
(VL) 60cm+
10 Bulbs for £4.50
Not quite black but as near as you can get. Aubergine in colour on a tall straight stem.

“Kingsblood”
(L) 40/60cm
10 Bulbs for £4.50
The dark cherry red will brighten any corner of the garden. Grows well in full sun or partial shade.

“Atlantis”
(L) 30/40cm
10 Bulbs for £4.50
This makes a good flower for cutting, a welcome addition for the flower vase.

DOUBLE FLOWERING TULIPS

“Foxtrot”
(M) 30/50cm
10 Bulbs for £5.50
This Tulip has won awards; it is not only beautiful to look at but is also sweetly scented.

“Uncle Tom”
(L) 40/60cm
10 Bulbs for £5.50
Possibly the best double you can get. Subtle fragrance.

“Verona”
(M) 40/50cm
10 Bulbs for £5.50
Another scented variety. The soft yellow makes this very easy to combine with a wide range of spring flowers.

“Orange Princess”
(L) 20/40cm AGM
10 Bulbs £5.50
Double “Princess Irene” Scented with vibrant colour making it another good choice for pots as well as the garden.

FRINGED TULIPS

“Honeymoon”
(ML) 40/60cm
10 Bulbs for £5.50
Pure white with fringed edge. Great in the garden and flower arrangements.

“Labrador”
(ML) 40/60cm
10 Bulbs for £5.50
As the picture shows, this is a dark red and very fringed. It looks good planted with the white ‘Honeymoon’

“Mon Amour”
(ML) 40/60cm
10 Bulbs for £5.50
This double fringed tulip has a strong stem and looks good planted on its own.

“Queensland”
(ML) 40/60cm
10 Bulbs for £5.50
A pretty double fringed tulip.

GREIGII, FOSTERIANA AND KAUFMANNIANA

“Portland”
(M) 30cm
10 Bulbs for £4.50
The vibrant colour and shorter stem make this tulip ideal for pots.

“Sweetheart”
(E) 40/50cm
10 Bulbs for £4.50
An example of the “Fosteriana” Tulip also known as the Emperor Tulip. These are ideal for naturalizing.

“Flaming Purissima”
(E) 40/60cm
10 Bulbs for £4.50
This flower will start white and slowly develop pink flushes which are almost red at the edges.

“Jaun”
(E) 30/40cm
10 Bulbs for £4.50
The purple mottled foliage adds to the attraction of this bright coloured Tulip.

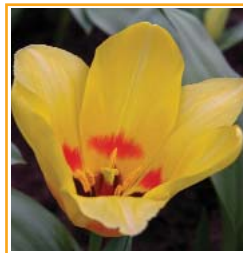

“The First”
(E) 15/30cm
10 Bulbs for £4.50
Very early flowering, white with red on the reverse of the petals and a yellow base.

“Hearts Delight”
(E) 20/30cm
10 Bulbs for £4.50
Particularly good in the rockery. Full sunlight will encourage the flower to open fully then close again in the shade.

“Pinocchio”
(M) 20/30cm
10 Bulbs for £4.50
Not too tall and the flower opens above the foliage making this tulip particularly suitable for pots.

“Natura Artis Magistra”
(M) 20/30cm
10 Bulbs for £4.50
Named after the zoo in Amsterdam. This is a large flower on good foliage.

SPECIES TULIPS

These are wild or close to wild, and naturalise extremely well. Most are fairly short, making them ideal for rock gardens and pots

Humilus "Persian Pearl" (E) 10/15cm
10 Bulbs for 3.50,
50 Bulbs for £15.00
As with all wild Tulips
"Persian Pearl"
naturalizes extremely
well, it is short and look
wonderful in pots or
rock gardens.

Praestans "Fusilier"
(L) 20cm
10 Bulbs for 3.50,
50 Bulbs for £15.00
Two to four bright red
flowers per stem
opening just above the
foliage which is broader
than most of our species
Tulips.

"Polycroma"
(M) 10/20cm
10 Bulbs for £5.00,
50 Bulbs for £19.00
Multi flowering Tulip.
White, opening to reveal
a bright yellow centre.

Praestans "Shogan"
(E) 20/30cm
10 Bulbs for £3.50,
50 Bulbs for £15.00
Another multi flowering
tulip. Looks amazing
planted as one mass of
colour.

**Clusiana "Tubergans
Gem"** (M) 20/30cm
10 Bulbs for £3.50,
50 Bulbs for £15.00
A very striking red and
yellow. A wonderful
addition for the rock
garden.

"Pulchella Humilus"
(E) 10/20cm
10 Bulbs for £4.50
Purple with Yellow base.
Good for rockery's and
front of borders.

"Little Beauty"
(M) 15cm 10 Bulbs for
£3.50. 50 Bulbs for
£15.00
Multi flowering, red with
purple centre.

"Turkestanica" (E)
20cm 10 Bulbs for £3.50,
50 Bulbs for £15.00
Scented with up to seven
flowers per stem. This
has an unusual seed pod
and remains an
interesting addition to
the garden even after
flowering.

MUSCARI

Here are a few different and exciting Muscari. They look good under planted with Tulips

muscari "Blue Magic"

15 Bulbs for £3.50, 50 for £10.00

muscari "White Magic"

15 Bulbs for £4.50, 50 for £13.00

muscari "Blue Spike"

15 Bulbs for £2.50, 50 for £7.50

muscari "Pink Sunrise"

15 Bulbs for £12.50

muscari "Valerie Finnis"

15 Bulbs for £3.50, 50 for £10.00

m. "Latifolium"

15 Bulbs for £2.50, 50 for £7.50

DWARF IRIS

Perfect for the Rockery and Pots plant in full sun, well drained place.

i. reticulata "Pauline"

15 Bulbs for £3.50

i. "Danfordiae"

15 Bulbs for £3.50

i. "Reticulata"

15 Bulbs for £5.00

i. reticulata "Harmony"

15 Bulbs for £3.50

i. histriodes "Katherine Hodgekin"

15 Bulbs for £3.50

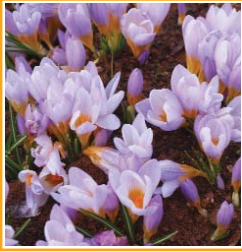

i. reticulata "Cantab"

15 Bulbs for £3.50

CROCUS SPECIES

Excellent for naturalising and the early display

c.sieberie "Firefly"
15 Bulbs for £2.50

c. "Romance"
15 Bulbs for £2.50

c. "Pickwick"
15 Bulbs for £2.50

c. "Gipsy Girl"
15 Bulbs for £3.00

c.tommasinanus "Ruby Giant"
15 Bulbs for £2.00

c.biflorus "Miss Vain"
15 Bulbs for £2.50

c. "Prins Claus"
15 Bulbs for £2.00

c. "Spring Beauty"
15 Bulbs for £2.50

c. "Tommasinianus"
15 Bulbs for £2.50

c. "Yellow Mammoth"
15 Bulbs for £4.50

c. "Blue Pearl"
15 Bulbs for £3.00

c. "Herald"
15 Bulbs for £5.50

SUPER MIXED CROCUS "CHRYSANTHUS" early flowering varieties - 100 BULBS FOR £15.00

SCENTED HYACINTH FOR SHOW AND GARDEN

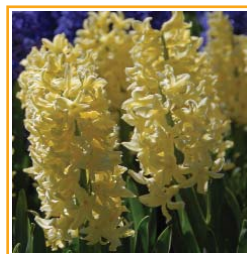

These Hyacinth are excellent for pot and garden culture. They are in their natural state and not prepared for forcing. They will flower at the normal spring time.

"Ibis"
5 Bulbs for £3.50

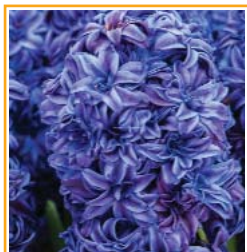

"Blue Jacket" FCCe
5 Bulbs for £3.50

"Yellowstone"
5 Bulbs for £3.50

DOUBLE HYACINTHS

"Royal Navy"
5 Bulbs for £5.50

"Snow Crystal"
5 Bulbs for £5.50

"Prince of Love"
5 Bulbs for £5.50

ALLIUM For added structure to the garden Bees love them.

"Globemaster" - 85cm June
3 Bulbs for £9.00,
10 for £25.00

"Mount Everest" - 95cm May/June
3 Bulbs for £5.50,
10 for £16.00

"Giganteum" - 150cm June/July
3 Bulbs for £7.50, 10 for £20.00

FRITILARIAS Delicate and unusual.

f."meleagris"
10 Bulbs for £2.50, 50 for £9.50

f."uva vullpis"
10 Bulbs for £3.50, 25 for £6.50

f."meleagris alba"
10 Bulbs for £3.50, 50 for £15.00

PLANTING GUIDE FOR BULBS

DAFFODILS Please note **Daffodils are not edible**

On arrival keep the bulbs dry and cool in an airy place until ready to plant.

The ideal aspect is in full sun or light shade; avoid the windy aspect unless you are planting the dwarf or miniature varieties.

All should be planted as soon as possible after receipt and certainly before the end of October as bulbs can start to deteriorate, the ground should be moisture retentive but with good drainage, Daffodils do not like to be completely water logged.

Plant at a depth of 3 times height of the bulb this can be at least 15 to 20 cm on top of the bulbs depending on the size and variety and with a space equivalent to 2 or 3 Bulbs, they can then be left for several years to develop, closer planting is fine but you will need to lift and divide much more often.

Avoid fertilizers with a high Nitrogen content as this will cause soft growth and encourage softness and susceptibility to fungal disease, use a general fertilizer with high Potash, spread this at planting time and give an annual top dressing in the autumn.

After flowering remove the dead flower heads this prevent seed setting and will direct the energy to the bulb, please let the foliage die back naturally, as the leaves produce the energy to produce next years bulb and flowers.

Daffodils in pots or containers can be a joy to see in the Conservatory or Greenhouse, use a good quality bulb fibre or compost and plant the bulbs only just below the surface, do not allow the pots to dry out at any time, you will need to keep a careful eye on them during the growing season, keep the pots in a cool dark spot or outside in a sheltered spot, bring them into the open once the bulbs are sprouting, avoid too much heat as this can over force the bulb and could cause the flower to abort.

Please ensure the pots are kept moist throughout the Winter and most important protect them from freezing as the roots and or the base plate of the bulb can separate and growth will be stunted and the bulb die and rot away.

Once the flowers are over, you can transplant them direct into the garden and allow them to die back naturally; they may take a season to get back to full vigour.

TULIPS

Keep these dry and cool until you are ready to plant, the best time to plant Tulips is during October and November in a well drained situation with full light they will tolerate light shade.

Plant around the 10 to 12 cm deep and 10 to 12cm apart, if you need to add fertilizer do this at planting time and again as soon as the flowers have faded, high potash general fertilizer is best.

Remove the seed head as soon as the flower has finished and collect the fallen petals from the surrounding soil, allow the foliage to die back completely then lift the bulbs and store in a cool, dry and airy place.

The species and short Tulips can be left in the ground from year to year, but the Tall Hybrid Tulips do need to be lifted annually.

HYACINTHS

Please note Hyacinths bulbs can sometimes cause irritation to the skin,

These bulbs must be kept cool and dry until ready to plant, September to October is best, some bulbs are available as prepared bulbs for forcing, this a special preparation given by the producers and will flower before Christmas, but generally bulbs are supplied in their natural state to flower early in the spring.

They are ideal for planting in Bowls and Pots and must never be allowed to become waterlogged, as this does cause the bulbs to rot.

Planting in the garden choose a light sunny spot and set the bulbs 12-15 cm deep and 20cm apart if potting you can plant them almost touching for the best effect.

Top dress generously with a good high potash fertilizer, and again during the growing season, Hyacinths need to be well fed to perform at their best.

After flowering allow the foliage to die back completely bulbs can be left in the ground for another year but it is best to lift annually.

ALLIUMS

Keep bulbs dry and cool until ready to plant, they prefer an open sunny aspect with rich well drained soil, plant 10-20 cm deep the bigger bulbs deeper than the small varieties, top dress with a good general high potash fertilizer when planting and again each Autumn.

The foliage often turns brown at the tips at flowering this can be trimmed and removed; generally leave the foliage to die back naturally.

FRITILLARIA

Plant these as soon as possible in the Autumn 5-10 cms deep and 15-20 cms apart in an Dappled light or slight shade, avoid very hot and dry situations, a good rich but well drained soil is best, but these bulbs should never become waterlogged as they will rot

Top dress with a good general fertilizer at planting, and again each autumn.

IRIS

Plant these as soon as possible in the Autumn in full sun and a well drained situation, the dwarf varieties should be 10 cm deep and 10 cm apart, they can be left undisturbed for best results, top dress annually with a good general fertilizer.

MUSCARI

Keep cool and dry until ready to plant, choose a full sun to light shade situation and well drained, plant 10-12 cm deep and 10 cm apart top dress with a good general fertilizer annually, they are best left undisturbed.

Horticultural Classification

Whether of wild or cultivated origin, once a selection has been distinguished by a cultivar name it should be assigned to Divisions 1 - 12. Daffodils distinguished solely by botanical name should be assigned to Division 13.

Notes

1. The characteristics for Divisions 5 to 10 are given for guidance only; they are not all necessarily expected to be present in every cultivar assigned to those divisions.
2. Divisions 12 and 13 are not illustrated owing to the wide variation in shape and size between the flowers involved.

DIVISION 1
TRUMPET DAFFODIL CULTIVARS
One flower to a stem; corona (trumpet) as long as, or longer than the perianth segments (petals)

DIVISION 2
LARGE-CUPPED DAFFODIL CULTIVARS
One flower to a stem; corona more than one-third, but less than equal to the length of the perianth.

DIVISION 3
SMALL-CUPPED DAFFODIL CULTIVARS
One flower to a stem; corona not more than one-third the length of the perianth segments.

DIVISION 4
DOUBLE DAFFODIL CULTIVARS
One or more flowers to a stem, with doubling of the perianth segments or the corona or both.

DIVISION 5
TRIANDRUS DAFFODIL CULTIVARS
Characteristics of *N.Triandrus* clearly evident: usually two or more pendant flowers to a stem; perianth segments reflexed.

DIVISION 6
CYCLAMINEUS DAFFODIL CULTIVARS
Characteristics of *N.cyclamineus* clearly evident: one flower to a stem; perianth segments significantly reflexed; flower at an acute angle to the stem, with very short pedicel (neck).

DIVISION 7
JONQUILLA AND APODANTHUS DAFFODIL CULTIVARS
Characteristics of Sections Jonquilla or Apodanthi clearly evident: one to five (rarely eight) flowers to a stem; perianth segments spreading or reflexed; corona cup-shaped, funnel-shaped or flared, usually wider than long; flowers usually fragrant.

DIVISION 8
TAZETTA DAFFODIL CULTIVARS
Characteristics of Section Tazetta clearly evident: usually three to twenty flowers to a stout stem; perianth segments spreading not reflexed; flowers usually fragrant.

DIVISION 9
POETICUS DAFFODIL CULTIVARS
Characteristics of the *N.poeticus* group: usually one flower to a stem; perianth segments pure white; corona very short or disc-shaped, usually with a green and/or yellow centre and a red rim, but sometimes of a single colour; flowers usually fragrant.

DIVISION 10
BULBODIUM DAFFODIL CULTIVARS
Characteristics of Section Bulbocodium clearly evident: usually one flower to a stem; perianth segments insignificant compared with the dominant corona; anthers dorsified (ie attached more or less centrally to the filament and style usually curved).

DIVISION 11

SPLIT CORONA DAFFODIL CULTIVARS.
Corona split - usually for more than half its length

a). Collar Daffodils
Split-corona daffodils with the corona segments opposite the perianth segments; the corona segments usually in two whorls of three.

b). Papillon Daffodils
Split-corona daffodils with the corona segments alternate to the perianth segments usually in a single whorl of six.

DIVISION 12 - OTHER DAFFODIL CULTIVARS
Daffodil cultivars which do not fit the definition of any other division

DIVISION 13 - DAFFODILS DISTINGUISHED SOLELY BY BOTANICAL NAME

New Horticultural Classification (taken from the International Daffodil Register by kind permission of the Royal Horticultural Society)
