

SOME PRACTICAL HINTS ON GROWING DAFFODILS.**Outdoor - Site**

Daffodil bulbs will grow and flower in any well-drained garden soil, but they like best a well-worked and deep loam which may be from quite a light character to a stiff clay. Be sure of good drainage.

The position should be open to a fair amount of sun, yet sheltered from the full force of prevailing winds.

If the shelter is provided by trees, the bulb beds must be kept away from the roots, and the site should not be totally enclosed by permanent shelters. It may be necessary to provide additional shelter at certain points, and these are best afforded by temporary fences such as manuka. Bales of straw, and so on, which should be removed at the end of the flowering period.

Manures.

Apply a good dressing of fine bone dust with which a small quantity of Basic Slag and Sulphate of Potash has been mixed. This mixture should be applied at the rate of 3oz. per square yard at planting time, or, if preferred, as a top dressing, when the foliage shows through the ground.

Planting.

All Daffodil bulbs are best planted not later than March, if possible, so that they have a long period before them in which to secure a good root system. The depth of planting depends on the size of the bulbs and the mechanical texture of the soil. The larger the bulb the deeper it should be planted and allowances should be made for heavy soil in which bulbs should not be planted too deeply. It is a safe and general guide to cover the neck of the bulb with three inches of soil.

Surface soil cultivation should commence as soon as the first leaves appear, and continue throughout the season.

DAFFODIL ENTHUSIASTS should join the
NATIONAL DAFFODIL SOCIETY OF NEW ZEALAND (INC.)

For further particulars and membership application, apply to:-

The Secretary
F.W. Taylor, Esq.,
572 High St.,
P.O.Box 30-661,
LOWER HUTT.

IMPORTERS AND GROWERS OF THE WORLDS

BEST DAFFODILS

GROWN UNDER THE PERSONAL SUPERVISION OF

CLARRIE L. ANDREWS

TERMS OF BUSINESS

In this, our latest Price List, we are pleased to offer many of the latest novelties and varieties from U.K., U.S.A., Australian and New Zealand raisers. Overseas Bulbs have been grown for at least two seasons before being offered for sale. Many of these latest novelties are very expensive and imported only at considerable cost and in consequence stocks are very limited and are in fact of not more than one or two bulbs. Orders will be executed in strict rotation as received. All Bulbs are offered subject to crop conditions at time of lifting and whilst we take every care to ensure that our stocks are kept true to name, we accept no responsibility for the descriptions which are in most cases those given by the raisers. All Bulbs grown by us are constantly checked to ensure freedom from disease and insect pests but no complaints as to quality, size or quantity will be accepted by us unless made immediately on receipt of Bulbs. Due to factors beyond our control no warranty is given and we will not be responsible for the crops in any way whatsoever.

Orders should be placed not later than the end of January, as after this date we recommence our own replanting, the scarcer novelties being planted first. Bulbs should be planted as soon as possible after being received and under no circumstances be left stored and packed in the containers in which they are despatched, free circulation of cool air is essential until planting is possible.

YOUR NAME AND ADDRESS IN BLOCK LETTERS PLEASE.

A handsome booklet describing the 1550 - plus - Daffodils listed here is available from RIVER TERRACE DAFFODILS for \$3.00. This valuable reference book is a 'must' for every keen grower. It will be sent post free, cash with order. This is not all. On your first order of \$10.00 or over, this book price will be refunded in the form of \$3.00 worth of extra bulbs of your choice. Always remember to choose several subs in case your first choice is not always available. If we do not list the Daffodil you need, please enquire, we can perhaps help.

Postage is extra on all orders. I would suggest you include 50c - \$1.00 for this, choose several subs and the value of the postage will be refunded this way. Mixed daffodils when available will be \$7.00 per 100. We think you will NOT BE DISAPPOINTED.

I regret that I may not be able to fill your esteemed order entirely. As my list states, many of those listed are in very short supply. While in some cases I may be able to supply most of your order, I will expect to have to cut back on some varieties.

All my small varieties have done extremely well with me this season and I have had an above average flowering. My method of planting the small bulbs (for what it is worth) is in either plastic or brick pots. First a few crocks or a handful of wood charcoal or peat plus a handful of well decayed leaf mould gathered from the floor of our native beech forest. then fill the pot with 1 part of coarse sand mixed with 3 parts of good garden loam. If planting in a rockery I would recommend the same procedure as below but would bury the pots just below the soil surface so they would not appear unsightly.

My procedure is to bury the planted pots up to the rim in a 4 foot bed along a fence with a Northerly aspect.. They are left in the same pots and bed for 2-3 years without any top cover Summer or Winter, and we get fairly severe frosts for 2 months of the winter. Most bulbs will stand a good summer baking. The species cyclamineus however requires, and does better in a slightl more moist locality and will propogate more readily from seeds than bulbs. When lifting I lift the pot and empty the entire contents into a rather fine meshed seive. After shaking the surplus soil through the seive this leaves the bulbs visible without loss. But whatever one does there will always be some bulbs more difficult than others; SNIPE. CYCLAMINEUS, PETUNIOIDES and some of the other miniatures and bulbocodium hybrids are very hard to come by. If you know anyone who has a supply of these I would be pleased to buy them or exchange for some choice variety they may need. A/c will be adjusted and included with your order covering those varieties I am able to supply. Rest assured I will do my best.

Any query concerning your daffodils accompanied by a self stamped addressed envelope will receive a prompt reply.
