Perennials & Chrysanthemum

North Europe | 2021

Sehr geehrte Kundinnen und Kunden,

im vorliegenden Katalog präsentieren wir unser komplettes Sortiment für den Herbst. Neben den klassischen Stauden, Gräsern und Kräutern haben wir erstmals auch unser attraktives Chrysanthemen Programm integriert. Chrysanthemen sind in ganz Europa ein bedeutender Umsatzträger in der zweiten Jahreshälfte. Unsere Garten-, Topf- und Deko-Chrysanthemen sind speziell abgestimmt auf die typischen Produktionsbedingungen in Nordeuropa und eignen sich mit ihrer Vielfalt an Farbkombinationen für die Vermarktung in allen Absatzkanälen. Einen wesentlichen Schwerpunkt bildet auch weiterhin unser sehr erfolgreiches Konzept Autumn Friends. Getestete Kombinationen aus Blatt- und Blütenstauden können zu verkaufsfähigen attraktiven Verkaufsgefäßen zusammengestellt oder direkt als Jungpflanzen kultiviert werden. Diese Angebote werden von Handel und Verbraucher begeistert angenommen und sorgen für Freude im Herbst. Wir wünschen Ihnen eine erfolgreiche Saison.

Ihr Selecta one Team

Dear customers,

In this catalogue, we are delighted to present our complete autumn assortment. In addition to the classic perennials, grasses and herbs, we have also included our attractive chrysanthemum range for the first time. Across Europe, chrysanthemums are major contributors to sales in the second half of the year. Our garden, pot and decorative chrysanthemums are specially adapted to the typical growing conditions in Northern Europe, and with their wide range of colour combinations are suitable for marketing across all sales channels. Our extremely successful Autumn Friends concept remains a key focus. Tried-and-tested combinations of foliage and flowering perennials can be combined to form attractive, ready-to-buy containers, or cultivated directly from seedlings. These offers are enthusiastically received by retailers and consumers and will ensure that autumn is a truly joyful time. We wish you a successful season!

Geachte relatie,

Met veel plezier presenteren wij u in deze catalogus ons complete herfstassortiment. Naast de klassieke vaste planten, grassen en kruiden hebben we voor het eerst ook ons aantrekkelijke chrysentenassortiment toegevoegd. Chrysanten zijn in de tweede helft van het jaar een belangrijke afzetmarkt in heel Europa. Onze tuin-, pot- en decoratieve chrysanten zijn speciaal aangepast aan de typische teeltomstandigheden in Noord-Europa en zijn met hun brede scala aan kleurencombinaties geschikt voor een afzet in alle verkoopkanalen. Ons uiterst succesvolle AutumnFriends-concept blijft een belangrijk aandachtspunt. Geteste mixen van blad- en bloeiende vaste planten kunnen worden gecombineerd tot aantrekkelijke, kant-en-klare containers of direct als jonge planten worden geteeld. Deze producten worden enthousiast ontvangen door retailers en consumenten en zorgen voor veel vreugde in de herfst. Wij wensen u een succesvol seizoen!

Uw Selecta one team

Szanowni Klienci,

w tym katalogu przedstawiamy nasz cały jesienny asortyment. Obok klasycznych roślin wieloletnich, traw i ziół po raz pierwszy dodaliśmy serię atrakcyjnych chryzantem. W całej Europie w drugim półroczu to właśnie sprzedaż chryzantem przynosi znaczne dochody. Nasze chryzantemy ogrodowe, doniczkowe i dekoracyjne są specjalnie przygotowane do typowych warunków produkcji w Europie Północnej i z całym swym bogactwem barw nadają się do sprzedaży wszystkimi kanałami zbytu. Bardzo istotnym motywem jest również nasz cieszący się nieustanną popularnością projekt Autumn Friends. Sprawdzone kompozycje bylin liściastych i kwiatowych mogą być sprzedawane w zestawie z atrakcyjnymi naczyniami lub uprawiane bezpośrednio jako sadzonki. Zarówno sprzedawcy, jak i klienci przyjmują te oferty z zachwytem – jesienią są one prawdziwym źródłem radości. Życzymy Państwu udanego sezonu.

Wasz zespół Selecta one

D Die Selecta Gruppe bietet nicht nur generell ein breites und vielfältiges Sortiment an hochwertigen Zierpflanzen an, sondern diese bewährten Selecta Qualitäten gibt es auch in unterschiedlichen Produktarten. Je nach Kultur stehen eine ganze Bandbreite an Typen zur Verfügung: Vom unbewurzelten über bewurzelten Steckling in verschiedenen Ausprägungen und in unterschiedlichen Traykonfigurationen bis hin zum MiniRooter® für den schnellen Wachstumsstart nach dem Topfen.

Für Kunden mit der entsprechenden technischen Ausstattung runden wir das Programm ab mit vollautomatisiert verarbeitbaren Autostix Media Strips by Visser und dem Top Produkt ROCS®, der Selecta Lösung mit in Substrat bewurzelten und energiegeladenen Stecklingen. Mit diesem Angebot wird Selecta dem eigenen Anspruch gerecht, jedem Kunden das für ihn passende Angebot machen zu können.

Sprechen Sie mit Ihrem Selecta Vertreter und lassen Sie sich beraten. Gemeinsam finden sie die passende Produktart für Ihre Kulturen.

NL De Selecta-groep biedt niet alleen een breed en gevarieerd assortiment hoogwaardige sierplanten, maar de beproefde kwaliteit van Selecta-planten zijn ook verkrijgbaar in verschillende producttypes. Er is een heel scala aan soorten beschikbaar voor verschillende groeiomstandigheden, of u nu op zoek bent naar onbewortelde of bewortelde stekken in verschillende vormen en in verschillende trayconfiguraties, en er is zelfs de MiniRooter® voor een snelle start van de groei na het oppotten.

Voor klanten met de juiste technische apparatuur ronden we ons assortiment af met de Autostix Media Strips by Visser, die het mogelijk maken om volledig geautomatiseerd te verplanten, en ons topproduct ROCS®, de Selecta-oplossing voor in substraat gewortelde stekken met de benodigde voedingsstoffen. Met dit productassortiment maakt Selecta haar claim waar om iedere klant het juiste product aan te bieden.

Neem contact op met uw Selecta-vertegenwoordiger voor meer advies over het vinden van het juiste product voor uw teeltomstandigheden.

GB The Selecta Group not only offers a wide and varied range of high-quality ornamental plants, but the proven qualities of Selecta plants are also available in various product types. There is a whole range of types available for different growing conditions, whether you're looking for unrooted or rooted cuttings in various forms and in different tray configurations, and there is even the MiniRooter® for quick-start growth after potting.

For customers with the appropriate technical equipment, we round off our range with Autostix Media Strips by Visser, which allow for fully automatic transplanting, and our top product ROCS®, the Selecta solution involving cuttings rooted in substrate with the required nutrients. With this product range, Selecta lives up to its claim of offering every customer the product that is right for them.

Talk to your Selecta representative for more advice on finding the right product type for your growing conditions.

PL Grupa Selecta oferuje nie tylko szeroki i zróżnicowany asortyment wysokiej jakości roślin ozdobnych. Sprawdzona jakość firmy widoczna jest także w produktach innego rodzaju. Klient ma do wyboru różne typy upraw: nieukorzenione, jak i ukorzenione sadzonki o wielu kształtach, rozmaite kombinacje tac oraz ofertę MiniRooter® w celu szybkiego rozpoczęcia wzrostu po doniczkowaniu.

Dla klientów z odpowiednim wyposażeniem technicznym uzupełniamy program dającymi się w pełni automatycznie przetworzyć Autostix Media Strips by Visser oraz znakomitym produktem firmy Selecta – ROCS® – tj. ukorzenionymi i naładowanymi energią sadzonkami. W ten sposób firma Selecta spełnia własne wymagania dotyczące przedstawienia każdemu klientowi odpowiedniej oferty.

Skonsultuj się ze swoim przedstawicielem firmy Selecta. Znajdź z nim produkt odpowiedni dla Twoich upraw.

selecta^{one} Info Product Types

URC

Unrooted production material, 100 cuttings packed in a bag.

Salvia

Rooted Cuttings:

size and substrate of each crop is optimized for perfect water/air management in combination with the matching tray:

Sedum

Muehlenbeckia

Heuchera

Mentha

Pennisetum

RC 23

Ø23 mm paper pot available in a 104^{**} and 144 count trays, the perfect combination of root quality and space conscious shipping.

^{*}sold as 103

^{**}Chrysanthemums for CH and Alsace: sold as 2 x 51

RC 28 / RC Twinni[®]

Ø28 mm paper pot available in 84 and 104^{*} count trays for crops with more plant volume.

^{*}sold as 103

RC 35 / In vitro-Perennials

Ø35 mm paper pot delivered in a 84 count tray.

RC 38 / Aromatics

Ø38 mm paper pot in a 84 count tray. A larger RC format usually pinched for a quick finish after potting.

RC 40 / Grasses^{*}

Ø40 mm paper pot in a 77 count tray.

^{*}except Cortaderia: Ø70 mm paper pot in a 40 count tray

Leontopodium

Leontopodium

MiniRooter[®] / MiniRooter[®] Twinni[®]

sun-powered rooted cuttings in Ø18 mm paper pots energy charged for a perfect and quick start after planting. Crop depending available in two packing units:

- 286 Tray shipping in tray
- 375 Beehive^{*} packing loosely packed in a honeycomb structure

^{*}only available for sales area Selecta Holland

Calocephalus

Dianthus

ROCS[®]

ASM by Visser:

34 ROCS per strip - 3 strips are one unit or divider = 102 ROCS

Shipping tray for ROCS:

15 strips per tray - 510 ROCS per tray / or 10 strips per tray - 340 ROCS per tray

Box (current MiniRooter[®] box):

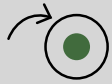

4 to 5 trays per box (depends on the crop) - 4 = 2.040 / 5 = 2.550 per box

Substrate: Obturo[®] 4 (Van der Knaap)

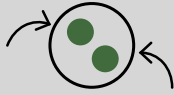

IT'S ALL IN THE MIX!

Alles ist möglich – everything is possible:

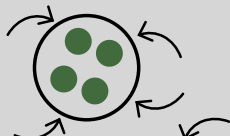

Produktion von Einzeltöpfen für ganze Lagen, ganze Container oder gemischte Trays /
Production of single pots for whole layers, whole trolleys or mixed trays

Produktion von Twinnis / Production of Twinnis

Produktion von kleineren Schalen oder Töpfen /
Production of smaller bowls and pots

Bis hin zu beeindruckenden Containern /
Up to impressive containers

- D** Spätsommer und Herbst werden als Absatzzeiträume immer bedeutender und der Trend zu Convenience beim Verbraucher immer stärker! Mit den Selecta Empfehlungen für Pflanzenkombinationen aus den Bereichen Stauden- und Topfnelken, Gräser, Kräuter und Lavendel ergeben sich fast unbegrenzte Möglichkeiten, diesen Trend zu bedienen! Die getesteten Varianten garantieren mit lang anhaltenden und späten Blüten ein attraktives und farbenfrohes Erscheinungsbild bis in den November hinein.

Die einzelnen Sorten können dabei von der Produktion von Einzeltöpfen für ganze Lagen oder gemischte Trays, über eine große Zahl an Twinnies und kleineren Schalen bis hin zu beeindruckenden Containern und Themen CCs sowohl einzeln zusammengestellt als auch direkt als Jungpflanzen kultiviert werden. Die Kulturzeiten sind kurz und es sind keine speziellen Produktionsbedingungen oder weiterer Aufwand nötig. Viele Sorten stehen als RC und als MiniRooter® zur Verfügung.

- GB** Late summer and autumn are becoming more and more important as sales periods, and the trend towards convenience for consumers is becoming ever stronger. There are almost unlimited possibilities for catering to this trend thanks to Selecta's recommendations for plant combinations, including perennial and pot carnations, grasses, herbs and lavender. The tested varieties guarantee an attractive and colourful appearance with long-lasting and late blossoms well into November.

The individual varieties can be grown from single pots for whole layers or mixed trays, from a large number of twinnies and smaller bowls, all the way up to impressive containers and themed CCs. They can be grown individually or cultivated directly from seedlings. The cultivation times are short, and there is no need for special growing conditions or further expenditure. Many varieties are available as RC and MiniRooter®.

D Durch die große Variabilität kann das gesamte Preisspektrum vom Preiseinstieg bis zu Premium komplett abgedeckt werden. Die lange Haltbarkeit bei der Vermarktung im Handel als auch beim Verbraucher stellt einen weiteren Vorteil dieses Konzeptes dar. Darüber hinaus verbleibt genügend Spielraum zur freien Entfaltung eigener kreativer Ideen für verschiedene Gefäßgrößen und attraktive Farbzusammenstellungen.

Die Unterstützung des Konzeptes durch Marketing ist möglich – sprechen Sie uns einfach an oder schicken Sie eine E-Mail an marketing@selecta-one.com

GB The great variety of this concept covers the entire price spectrum, from entry level to premium. The long durability for selling in shops and for consumers is a further advantage of this concept. There is also sufficient freedom to develop your own creative ideas for different container sizes and attractive colour combinations.

Marketing support is available for the concept – just get in touch or send an e-mail to marketing@selecta-one.com

NATURE GARDEN

D Die Artenvielfalt von Insekten, besonders Bienen- und Schmetterlingen, nimmt ab. Daher ist es eine wichtige Aufgabe, deren Lebensräume zu schützen, Blumeninseln und Blühstreifen zu schaffen und einen natürlichen Garten zu erhalten. Das Selecta Konzept Nature Garden zielt genau in diese Richtung. Unsere Züchtungsprogramme werden biodiversitär ausgerichtet und unser Sortiment um insektenfreundliche Sorten aufgewertet.

GB The diversity of insect species, particularly bees and butterflies, is decreasing. It is up to us to protect their habitats, create areas full of flowers and maintain a natural garden. This is exactly what our Nature Garden concept is designed for. Our breeding programmes are aimed at increasing biodiversity, and we have upgraded our assortment with plenty of insect-friendly varieties.

D Dazu hatte sich Selecta one am mehrjährigen EIP-Projekt (Europäischen Innovationspartnerschaften) „Entwicklung und Einführung eines biodiversitären Züchtungsprogramms zur Steigerung der Attraktivität des urbanen Grüns für Insekten“ beteiligt.

Ziel des Projektes:

Fundierte Daten über Insektenfreundlichkeit des Selecta-Sortimentes und Definition eines biodiversitären Züchtungsprogramms zur Steigerung der Attraktivität des urbanen Grüns für Insekten zu erhalten. Die Versuche wurden in Kooperation mit der LVG Heidelberg, der Gärtnerei Staudenrausch und dem Bienenkundeinstitut der Uni Hohenheim durchgeführt.

Die Sorten im Selecta one Sortiment, die in mehreren Tests als „besonders insektenfreundlich“ abgeschnitten haben, sind im Katalog mit dem „approved“-Symbol gekennzeichnet. Ziel des „Nature Garden“-Konzepts war es das Selecta one-Sortiment mit insektenfreundlichen Sorten zu verstärken und ein biodiversitäres Züchtungsprogramm zu entwickeln.

GB Selecta one was part of the EIP project (European Innovation Partnerships) for the “development and implementation of a biodiversity breeding program to increase the appeal of urban green for insects”.

Goal of the project:

The project aims to provide data-driven information to strengthen the Selecta plant assortment and guidelines for a biodiversity breeding program to increase the appeal of urban green for insects. The trials were executed in collaboration with LVG Heidelberg, the Staudenrausch nursery and the office of bee science in Stuttgart, Hohenheim.

The varieties in the Selecta one range, which cut off in several tests as “particularly insect-friendly” are marked in our catalog with the “approved“-symbol. The aim of the “Nature Garden” concept was to strengthen the Selecta one range with insect-friendly varieties and to develop a biodiversity breeding program.

Tested Perennials in Selecta assortment

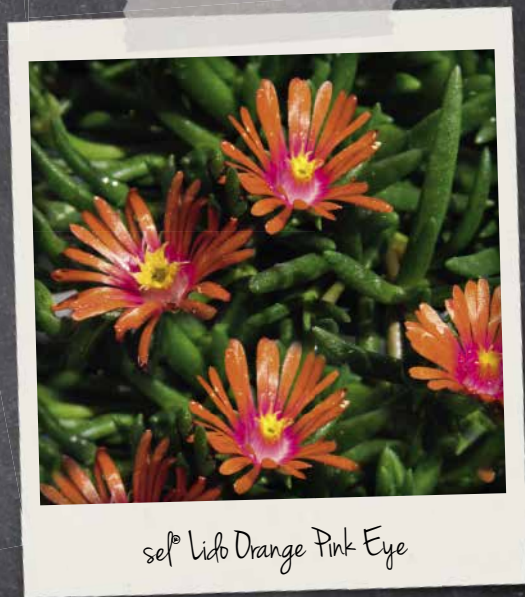

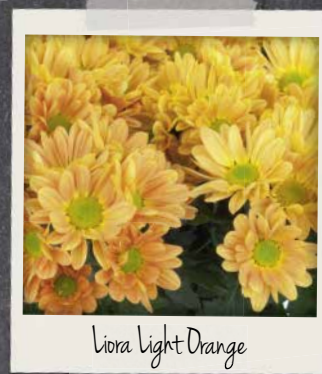

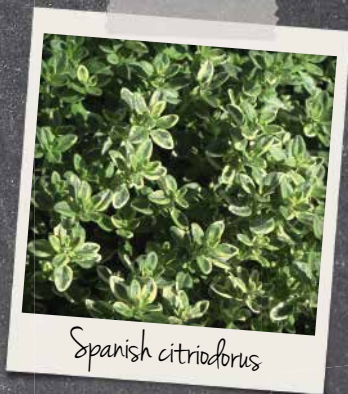

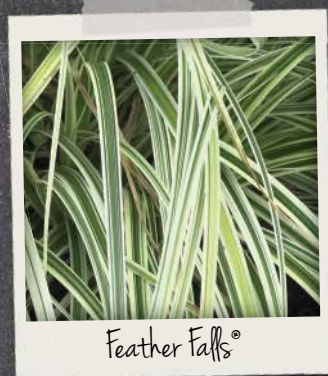

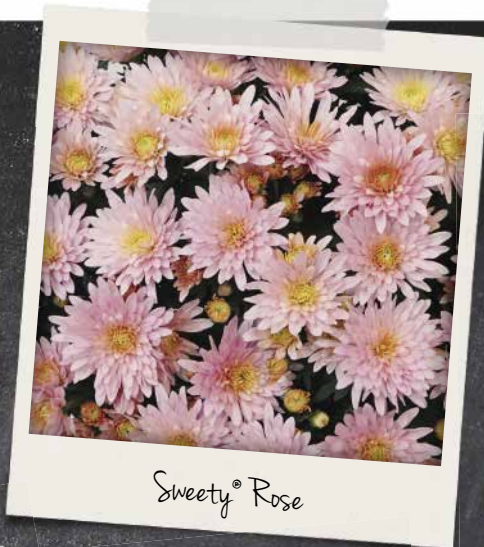

Variety	Insects attracted	Insect friendliness	Maximum number of insects (in 2 min. of period under review)
Echinacea purpurea ‚Meditation White®‘	Especially honeybees, but also bumblebees	Very good	26
Echinacea purpurea ‚Sensation Pink®‘	Especially honeybees, but also bumblebees	Very good	22
Gaura Belleza® 048	honeybees, small wild bees, hoverflies	Very good	15
Lavandula ‚Les Bleus Thierry‘	honeybees, bumblebees, bigger hoverflies	Very good	13
Lavandula ‚Les Bleus Antoine‘	honeybees, bumblebees, bigger hoverflies	Very good	26

Aromatics

- D** In diesem Kapitel fassen wir unser Lavendel-Sortiment und unsere feine Kräuter Selektion zusammen. Unser Partner Silze Jungpflanzen produziert die Kräuter-Jungpflanzen auf Flächen, die für den Anbau von Gemüse zertifiziert sind. Sie sind für die Produktion von essbaren Kräutern geeignet.
- GB** In this section, we will summarise our lavender assortment and our fine herb selection. Our partner Silze Jungpflanzen produces the herb seedlings in areas certified for the cultivation of vegetables. They are suitable for growing edible herbs.
- NL** In dit hoofdstuk vatten wij ons lavendel-assortiment en onze kruidenselectie samen. Onze partner Silze Jungpflanzen teelt de kruidenstekken op voor groente-gecertificeerde grond. Hierdoor kunnen de kruiden als eetbare kruiden geteeld worden.
- PL** W tym rozdziale prezentujemy podsumowanie naszego asortymentu lawendy oraz wyselekcjonowanych najwyższej jakości ziół. Sadzonki ziół produkowane są przez naszą firmę partnerską Silze Jungpflanzen na obszarach certyfikowanych do uprawy warzyw. Są one odpowiednie do produkcji ziół jadalnych.

Lavandula

selecta^{one} Info - Lavandula angustifolia

- D** Die Selecta Züchtung „LesBleus“ sind winterharte Lavandula angustifolia, die im Schnitt zwei Wochen früher in Blüte sind als die Sorte Hidcote Blue. Die kurzen und dicht besetzten Blütenrispen bringen viel Farbe auf die Pflanze und ermöglichen es, eine Lage mehr pro Container zu packen als sonst üblich. Ideal, um Transportkosten zu reduzieren.
- GB** The Selecta varieties of ‘LesBleus’ are hardy Lavandula angustifolia and on average two weeks earlier flowering than the variety Hidcote Blue. The short and densely covered flower panicles provide a richly coloured plant and allow packing one layer more per container than usual. Ideal to reduce transport costs.
- NL** De beide Selecta-rassen ‘LesBleus’ zijn winterharde Lavandula angustifolia, die gemiddeld twee weken eerder bloeien dan het oude ras Hidcote Blue. De korte en volle pluimen zorgen voor veel kleur op de plant en per container kan een extra laag worden Gepakt. Ideaal om de transportkosten te verlagen.
- PL** Odmiana Selecty ‘LesBleus’ to twarda Lavandula angustifolia, która kwitnie średnio dwa tygodnie wcześniej w porównaniu do odmiany Hidcote Blue. Krótkie i gęsto pokryte wiechy kwiatów zapewniają obfitość koloru oraz umożliwiają pakowanie kontenera o jedną warstwę więcej niż zazwyczaj. Odmiana ta nadaje się idealnie do redukcji kosztów transportu.

Grasses

D Gräser gehören in jedes Sortiment! Imperata, Pennisetum, Carex oder Festuca lassen sich als Solitärpflanzen, Beetpflanzen oder als Sichtschutz im Garten einsetzen und eignen sich hervorragend für Kombinationsbepflanzungen, besonders auch als wesentlicher Bestandteil der Autumn Friends. In vielen Fällen sind sie winterhart.

NL Grassen maken elk assortiment compleet! Imperata, Pennisetum, Carex of Festuca kunnen worden gebruikt als enkele plant, in perken of voor het creëren van privacyhoekjes in de tuin. Ze zijn erg geschikt om met andere producten te combineren en vooral als onderdeel van een Autumn Friends-mix. De meeste grassoorten zijn winterhard.

GB Grasses complete any assortment! Imperata, Pennisetum, Carex or Festuca can be used as solitary plants, in beds or as a sight protection in gardens. They are well suited for combination plantings, particularly as an essential component of Autumn Friends. They are also hardy in many cases.

PL Trawy są uzupełnieniem każdego asortymentu! Imperata, pennisetum, carex lub festuca można zastosow w ogrodach jako pojedyncze rośliny ozdobne, rabatowe lub jako osłonowe. Idealnie nadają się do nasadzeń kompozycyjnych, stanowiąc również istotną część kompozycji „Autumn Friends”. W wielu przypadkach są mrozoodporne.

Garden Mums

- D** Unserer Sortiment an Gartenchrysanthen umfasst einfach zu produzierende Sorten und ist bestens geeignet für eine Produktion in großen Kübeln im Freiland. Mit der kompletten Farbpalette von sanften Tönen bis zu starken Farben – von Weiß bis Violett – können die vielfältigen Erwartungen und Wünsche von Verbrauchern erfüllt werden.
- GB** Our range of garden chrysanthemums includes varieties that are easy to grow and are ideal for outdoor growing in large flowerbeds. Flowers in every colour of the rainbow, in both muted and vibrant shades – from white to purple – mean that the many expectations and desires of our consumers are easily met.
- NL** Ons assortiment van tuinchrysanthen bevat makkelijk te telen rassen en is vooral geschikt voor een buitenteelt in grote containers. Bloemen in elke kleur van de regenboog, in zowel zachte als levendige kleuren en van wit tot paars, zorgen ervoor dat aan alle verwachtingen en wensen van de consument makkelijk kan worden voldaan.
- PL** Nasz asortyment chryzantem ogrodowych obejmuje gatunki łatwe w uprawie i doskonale nadaje się do produkcji w wielkich donicach pod gołym niebem. Kompletna paleta barw, od delikatnych odcieni po zdecydowane kolory – od bieli po fiolet – może zaspokoić różnorodne oczekiwania i życzenia użytkowników.
