MOCKVILLE, NORTH CAROLINA, WEDNESDAY, JANUARY 8, 1930.

NUMBER 26

NEWS OF LONG AGO.

What Was Happening in Davie Before The Days of Automobiles and Rolled Hoses

(Davie Record, Jan. 4, 1905)
(Davie Record, Jan. 12, 1905.)
Mr. Frank Martin, of Winston, came over Monday to attend the burial of his sister, Mrs. W. B. Clement.

A graded school and a new hotel are badly needed in Mocksville.

Miss Mary Kelly who has been visiting her mother, Mrs. James Kelly, returned to Durham Monday.

Dr. H. F. Baity was in town Monday on his way from his old home to North Wilkesboro.

Miss Maud Smith, of Farmington, gave a Christmas dinner to several of her young friends, which was much enjoyed.

Miss Bertha Linville has returned home from a visit to friend at North Coolee.

Mr. A. F. Campbell, of R. 1, is all smiles—it's a girl.

Three weddings took place in the Kappa section recently.

Mr. Emmett Kooztz to Miss Della Cartner; Mr. Richard McDaniel to Miss Elma Daywalt, and Mr. Williams to Miss Ida McDaniel.

P. P. Green, of Cana, made a business trip to Coolee a few days ago.

W. H. Wyatt, of Coolee, who has been critically ill for several days, is thought to be improving.

Mrs. W. F. H. Ketchie, of Kappa, who has been sick for some time, is slowly improving.

W. H. Holder, who has been in beef business here for some time has sold out and gone to Lexington.

A letter from Mr. Chas. Wooten, of McLoud, Okla., says he is getting along fine in his new home.

Mr. Joe Ferebee, who left this county 37 years ago and moved to Missouri, paid us a call last week on his way back to his old home. This is his first visit back since leaving here. His nephew, John Ferebee, came back with him. Mr. Ferebee will remain here until spring.

Mrs. W. B. Clement, widow of the late Major Clement, passed away Sunday morning at 6:30 o'clock. Mrs. Clement was stricken with paralysis a few weeks ago, which caused her death. She was 64 years old the day of her death, and is survived by one son, W. K. Clement, a sister, Mrs. Jamison and three brothers, Frank, of Winston, and two who live in Virginia. The funeral services was conducted at the residence Monday afternoon by Rev. C. S. Cashwell, of Durham, and the remains laid to rest in the Clement graveyard.

J. F. Trogdon who has been in the mercantile business at Coolee, left Monday for Nashville, Tenn., where he will take a course in Draughn's Business College. C. D. Leller and Moses Leller have taken charge of the H. T. Smith deal store, succeeding the Caudell Brothers.

Miss Vava Johnson, of Farmington, has returned to school at Greensboro Female College.

The 13-year-old child of Mr. and Mrs. Tyrie Howell, of Farmington, died Sunday morning.

North Carolina Has 158 Hosiery Mills.

North Carolina has 158 hosiery mills, 31 of which are full-fashioned plants; a number of expansions and new mills are being built. Amount of money spent this year and to be spent next year is estimated at \$10,000,000.

Heflin Kicked Out of His Party.

A split as wide as Pennsylvania Avenue in Washington and as deep as the Atlantic ocean off Cape Hatteras has occurred in the Democratic party in Alabama by reason of the fact at a meeting of the State Democratic Executive committee barred State Senator J. Thomas Heflin, a candidate to succeed himself, and Hugh A. Locke, of Birmingham, a gubernatorial candidate, from the Alabama Democratic primary next year because of their refusal to support Alfred E. Smith, Democratic presidential nominee in last year's general election.

By a vote of 27 to 21, the committee decided to bar from the Democratic primary August 12, 1930, all candidates for federal State, district or circuit offices who support Hoover. County officers were not affected by the committee ruling, the matter being left to the discretion of the county committees. The resolution invited all voters who believe in the principles of the Democratic party to cast their votes in the August primary, the only requirement being that they support the party's nominees in the general election.

Senator Heflin at Washington, when informed of the action of the committee immediately announced that he would go to the people and would run as an independent Democrat and predicted that he would be elected by 100,000 majority. Locke, the gubernatorial candidate, likewise announced that he would bid defiance to the executive committee and make the race independently.

If the Republicans of Alabama exhibit any degree of common sense next year and nominate high class men to these positions it will mean that the next United States Senator and the next governor of Alabama will both be Republicans. Hoover carried Alabama in 1928 but was counted out by thriving Democratic election officials.—Ex.

Folger Not a Candidate

At least one Surry county Folger has announced that he is not a candidate for office this year which is the strangest thing that has happened in Surry in a month of Sundays.

John H. Fogler, of Mounty Airy, was in Raleigh, the past week, and stated that he was not a candidate for the Democratic nomination for Congress in the fifth district next year.

Major C. M. Stedman who it is alleged has become incapacitated for duty has announced through his daughter that he will not be a candidate next year but despite this announcement there is a constant flow of propaganda from Washington advocating his nomination.

Major Stedman is 88 years old and has been in Congress nearly 20 years. He was defeated in the November election last year but was counted in by shady Democratic election methods in Granville county. As it was he only secured 183 majority.

Mr. Fogler gave it as his opinion in Raleigh that the race for the nomination next year lay between Frank Hancock, Jr., of Oxford, and Sam M. Gattis, of Hillsboro.

But Mr. Folger hasn't heard it all. Surry, Rockingham, Forsyth, Durham and Guilford all have candidates and doubtless Alamance, Caswell, Person and Stokes will also trot out a candidate before the agony is over.—Union Republican.

Ain't It So?

Growers Vote for Co-operation.

The Federal Farm Board was appointed by President Hoover to work out practical methods of promoting farm relief, a project to which he committed himself during the campaign and which he re-committed himself in his inaugural address. The board soon after its organization let it be known that it regarded co-operative marketing as the chief agency, through which farm relief could be administered. Congress backed this view by appropriating \$500,000,000 to be used by the board.

But enough in way of review. The latest development in the application of the co-operative marketing principle is of considerable interest to North Carolina. Tobacco farmers representing forty-four counties of the State, meeting in Raleigh Tuesday, voted practically unanimously to organize a co-operative association of tobacco growers in the State.

The tobacco co-operative association idea is by no means new in this State. It has been tried. The notable trial of the plan was a failure. There must be therefore some new element presented to win such widespread approval of the growers. This element is of course the presence of the Government working through the Farm Board.

The meeting of farmers at which it was voted to form another co-operative association, was addressed by James C. Stone, a member of the Farm Board, who represents the tobacco growing industry. He brought to the meeting not only the prestige of the Farm Board but also the backing of the Government through the \$500,000,000 fund appropriated by Congress to be used in farm relief. Under such imposing and auspicious circumstances, the growers could hardly have been expected to do otherwise than avail themselves of the co-operative opportunity.

The establishment of a co-operative tobacco marketing association will mean that the growers of the State will stand to benefit from the money Congress had set aside for farm relief. That they would have refused to join in with this enterprise would indeed have been surprising.—Winston Journal.

Heaven Protects a Walking Girl.

We wish more of our young ladies had the courage to follow the example of a Rosman girl, who when she found herself in the wrong crowd on the first slowdown, jumped out of the car and started back for home, with a 12 or 15 mile walk in front of her. Fortunately, she was picked up by a gentleman and helped on her way several miles, and left with a friend who would see her safely home. We want that young lady to know we admire her courage and good sense.—Oakland correspondence, Brevard News.

Everything But Pick Cotton.

Yesterday Mr. Marconi celebrated the 28th year of his success in first sending a wireless message across the ocean. We remember it all right. And we felt about it just like an old friend of ours said he felt the first time he ever saw a disc harrow—that it just wouldn't do nohow. But it did.—Monroe Journal.

Better Business Ahead.

Angus O. Swink, of Richmond president of the Atlantic Life Insurance company, look for a period of prosperity and business expansion in the Middle Atlantic state in 1930.

Reviewing conditions in the fifth federal reserve district, Mr. Swink says the close of the year will find the fundamentally sound basis on which business operated in 1929 undisturbed by the slump in stock market values.

"Business will be stimulated in a number of lines since the public mind has been turned from speculation to investment," Mr. Swink says. "With everyone working as usual prosperity should continue on the upgrade."

"Reports coming to me indicate that construction work, both public and private, will be at a high level in 1930, that the output of bituminous coal has been up to seasonal levels, that the tobacco, fruit and cotton growing areas of the middle Atlantic states have had a very good year and that the textile outlook, while less satisfactory than some other industries, shows improvement over the fall of 1928."

This is reassuring news for North Carolina. Our place as a state in the fifth federal reserve district is prominent, so whatever is said of that area goes double for Tar Heel territory.—Hickory Record.

Better Times Ahead For Our Farmers.

Better times are in store for the farmers of the United States is the belief of Secretary of Agriculture Hyde who informed President Hoover; Friday, that such confidence was warranted by the better position of agriculture, higher price levels for new crops and the operations of the farm board which has \$150,000,000 available for farm market stabilization and improvement.

Gross income from agricultural production in the United States for the crop season 1928-29 was estimated in Secretary Hyde's annual report as being \$12,527,000,000 or about \$225,000,000 more than for the preceding year. Net incomes for farmers did not increase because farm operating costs, taxes and interest on debts advanced somewhat.

The return earned on the current valuation of agricultural property was 4.7 per cent compared with 3.1 per cent for 1922-23 and 1.4 per cent in 1921-22.

The farmer's friends for the year were cattle, hogs, lambs and chickens. Higher prices for livestock and livestock products were the principal cause of the improvement in the season's agricultural income. Incomes from grains, fruits and vegetables, on the other hand were smaller.

But the American farmer is still far from being in a satisfactory financial condition in spite of improvement, Secretary Hyde said.

"Since the war," he said, "agriculture has suffered grave disabilities which farmers by their own efforts have not been able to remove. In consequence they are still overburdened with debt."

"Outstanding among the agricultural events of 1929, the report said, was the passage of the law creating the Federal Farm Board. Outlining the legislation in brief Secretary Hyde said it should strengthen the bargaining powers of the producers, increase efficiency of marketing machinery, stabilize the supply by preventing surpluses from being distributed at the wrong time, seeking new markets, help correct maladjustments in the transportation conditions, and assist in minimizing undesirable speculation in agricultural commodities.

Did you ever wonder how much perjury is committed on tombstone epitaphs?

New Way To Collect Board Bill.

A cold-blooded but apparently effective method of dealing with delinquent boarders has been discovered by a Durham landlady, according to a complaint received recently by the Durham police department. A few morning ago, a young man called the police department over the phone, trying to straighten out his difficulties. He had neglected to pay his board for about two weeks, and that particular morning when he awoke, his landlady had removed all of his clothing from the room and refused to surrender his belongings until he paid his board.

"What can I do about it?" he asked.

"You might appear before a magistrate and get claim and delivery papers," he was told.

"But I can't get out on the streets I have no cloths," he said.

"Then pay your board bill," he was advised.

"How can I? I'm cooped up here without clothes," he complained.

Police explained that this was a matter out of their province, and the young man hung up the phone, sorrowfully. However, police are confident that he found a way to pay his bill.

Congress and The Taxpayer's Money.

(From the Greensboro News)

The adjournment of the special session of Congress about ten days before the regular session was held cost the government about \$25,000 in mileage. If the special session had adjourned but a day before the regular met, the cost would have been the same. If the special session had run into regular there would have been no mileage, but suits were taken to make the adjournment for the brief period an actual instead of a "constructive" recess so far as known all the congressmen make it a point to collect the mileage, whether the actually travel to and from their homes or not. The may remain in Washington, in which event the mileage is a pickup. The national legislators are not squeamish about taking anything they may think should come their way. If their is doubt it seems to be resolved in their favor.

Congressmen, as generally known, are allowed 20 cents a mile travel to and from Washington for each session of Congress. When the special session met last spring the first act was to pass a mileage bill. The mileage for the regular session beginning in December was covered in one of the supply bills. While congressional salaries run on by the year—whether Congress is in session two months or nine or twelve, the cost of the extra session is estimated at more than a million dollars. Based on an average of 2,500 words to the page, 15,417,500 words of speeches were spoken in both houses during the session as appeared in the Congressional Record. At a printing charge of \$60 the page, the oratory cost the federal treasury around \$375,000, while \$325,000 was expended in printing copies of the tariff bill, summaries of its provisions, the amendments and the volume of testimony taken at committee hearings.

Just think, now, of the enormous loss in printing some of the talk—like the Heflin speech, for instance.

A White Spot.

For the first time in many moons, the region in the upper westers corner of North Carolina on the "Nation's Business" business map is in white, which means that business conditions there are sound and prosperous. The other part of the state, along with most every other part of the country, is in shaded colors, which means that business is but fair.

Dairying has made that section turn from gray to white in the business map of the foremost magazines in the country devoted to business conditions. Wherever dairying is established, the section on the map in the magazine is invariably in white which means that people have money, homes, comforts of life and can pay their bills with their buying power increased.

Dairying is the magic touch that brings prosperity and we are still awaiting the fulfillment of that cherished promise from Agricultural Agent Taylor that this region will be a dairying center as well as where the business map shows white. We still look to Taylor to do something to put us all on the white.—Elkin Tribune.

A happy new year to all our readers and to all those who ought to be our readers.

It is more blessed to give than to receive but mighty hard to convince the folks who are able to give.

Another thing the city-bred man can't understand is how a farmer gets grass to grow without sprinkling it.

If you made even one person happy during the glad Christmas season you will feel much better during the days to come.

The activities of the prohibition and county officers have no doubt been responsible for the scarcity and high prices of mountain dew during the Christmas holidays.

Seems funny that the wealthy folks always give their wealthy friends something for Christmas that would be appreciated so much more by the hundreds of starving widows and orphans throughout the land.

Another year is before us. Will we make our lives a success or a failure? Will we try to do something to make the world better by our having passed this way? If we don't then our lives have been a failure.

This is the year that the Al Smith democrats say they are going to kick Senator Simmons out of office and put in a regular democrat. Maybe so, but they have a big job on their hands—the biggest one they have ever tackled.

Our town needs several things this year, among them being a modern, up-to-date hotel, a better telephone service, two or three new mills and factories and a spirit of co operation among the citizens of the town and county.

The Record folks enjoyed a fine goose dinner during the holidays but the sweet potato pies, flavored with peach brandy were conspicuous for their absence. There may be some good brandy somewhere but we failed to get in touch with it.

Various weather prophets told us early in the fall that this section would have a mild winter. If the weather that we have been wading through for the last six weeks has been mild, what would rough weather look or feel like? Answer us that.

Up to the hour of going to press less than a dozen men are out lining up their forces for the sheriff's job. The number is bound to increase soon after ground hog day. For the State Senate there will be two or three hungry souls, and the Legislature candidates will also wake up about the time the hog comes out.

Davie county needs a demonstration agent. The county commissioners have appropriated their part of the salary, and have been waiting for several months on the state to come across with their part. A county without a good agent these days is a back number. A good agent is worth much more to the county than the cost to the taxpayers.

The Record is a home product, owned by a native of Davie county, a man who pays his taxes here, spends his money here and knows the happiness and sorrows of the citizenship of the county. The editor believes Davie county is the best county in North Carolina, and that Mocksville has many more good people to the square foot than any other town in the country. That is why the editor is living here and working for the advancement of the town and county to grow and prosper, and we want to

tell the world what a good place we have for good people to come and locate and help us make it better as well as bigger. If you believe in your town and community don't be ashamed to let the outside know it. Boost always and knock only when it becomes necessary.

New Chevrolet Prices.

The new Chevrolet cars are out and prices have been greatly reduced. The new prices appear in a big advertisement in today's paper. The ad that appears on the last page of today's paper has the prices wrong. A telegram from the advertising agency changing prices, was received by us after the first ad had already been printed for this issue, which necessitated us re-printing the advertisement on the insert sheet, which gives the correct prices on all Chevrolets. No attention should be paid to the Chevrolet ad which appears on the last page of today's paper. The new cars are now on exhibition at the Tomlinson Chevrolet Co. in this city. Call and see them.

Postal Receipts Increase

Postmaster J. L. Sheek tells us that postal receipts for the last quarter of 1929 showed an increase of \$115.46 over receipts for same period in 1928. The total receipts for the last quarters of 1927-8-9, were as follows: For 1927, \$1740.09; for 1928, \$1867.18; for 1929, \$1982.64. The growth of a town is generally shown by the postal receipts. They show in this city that business has increased despite the fact that many folks have been yelling panic and hard times and criticising President Hoover. So long as postal receipts continue to increase the country is all right.

Marriage Licenses Issued.

Licenses were issued during the holidays for the marriage of the following couples: Glenn Shaw, of Iredell county to Miss Mattie Hendrix, of Calahaln; F. P. Tucker, to Miss Pearl Rogers, both of Shady Grove; G. Latham, of Cana, to Miss Stella Baity, of near Courtney; Lester Moonog, of Statesville, to Miss Ruth Sides, of Cooleemee; J. E. Motley, to Miss Lillie Burton, both of Cooleemee; Joe Shelton, of Cana to Miss J. E. Tucker, of Winston Salem; W. P. Roberts, of Turnersburg, to Miss Ethel Foster, of Fork.

Funeral of Mr. D. S. Creason.

The funeral and burial services for D. S. Creason, whose death resulted from an automobile wreck Saturday evening at Thomasville, were held at Liberty Methodist church yesterday morning at 10 o'clock by Rev. W. B. Waff. A short service was held at the home of Mr. and Mrs. Cranville McCulloh, at nine-thirty o'clock. Mr. Creason was 70 years of age, and is survived by his widow and nine children, five daughters and four sons; also two brothers and two sisters. Mr. Creason moved from Mocksville to Thomasville about three years ago. He was a native of Davie county, and his death brought sorrow to many relatives and friends.

William E. Canter.

Funeral services for William E. Canter, 91, Confederate veteran, who was found dead in bed at his home in Davie county, near Bixby, Saturday morning, were held Monday afternoon from the Bethlehem Methodist Church, Rev. Mr. Bell of Farmington conducted the services and interment followed in the church graveyard.

The deceased was born in Davie County, December 10, 1838. He spent most of his life in Davie County and served throughout the Civil War as a Confederate Soldier. Surviving are one daughter, Miss Nancy Jane Canter, with whom he lived, and a number of grandchildren and great grandchildren.

A house owned by Delia Brown, colored, near the depot, was discovered on fire shortly before ten o'clock Monday morning. Prompt work by the local firemen saved the building, which suffered only slight damage. It is not known how the fire started.

History of the American Flag.

(By Scout Bob Waters)
The first flag was a flag of Great Britain with the sign of St Andrew and St George. When the thirteen colonies fought for their rights they needed a flag so they made one of thirteen stripes, red and white. In the corner was a rattle-snake with the words "Don't tread on me." The cause of this war was high tax on goods. This also caused the Boston Tea Party. When the colonies gained their independence they made a flag with thirteen stripes, red and white, with a blue field containing thirteen white stars each star representing a colony. Later on two other states entered the union two more stripes and two more stars were added. The flag kept these for twenty two years then it went before Congress. It was then decided that the flag should always have thirteen stripes, but that a new star should be added for each additional state that entered. Today the flag has thirteen stripes and forty-eight stars. The flag's birthday is June 14, (1777)

BOARD OF ROMAN COINS DISCOVERED

Miniatures Dug Up in Moss Floor in England.

London.—A hoard of 1,240 coins has been discovered among some interesting Roman relics in Lydney Park, Gloucestershire, the county of Lord Bledisloe. The site is at present closed to the public, but Lord Bledisloe has offered to throw open the ancient Roman site to the nation, providing the coins are preserved and utilized to the best advantage. The coins just unearthed belong to the dark period which immediately followed the departure of the Romans from this island. There is little doubt they belong to the time of King Merca and his knights. They are miniatures of old Roman coins. On each is a rough design, but none is larger than a Ma penny, smaller than the American copper. Mingled with the coins are a few clippings of the late Roman century Roman coins. The findings disclose that the Roman coins had become too valuable to be melted. The minute size of the ancient British coins indicates a scarcity of metal in the period. The coins were discovered at the ruins of Roman baths. They were embedded in the broken debris of a mosaic floor in the "frigidarium" or cool room of what would now be called a Turkish bath. The excavations at Lydney apply the epitome of 600 years of British history. There are a narrow promontory. There are Roman fortifications, dating from B. C.; iron mines used by the Romans at the end of the Third century; a large Roman house built around a courtyard, with intricate mosaic floors of red, blue and white and an elaborate set of Roman baths. Close by is a remarkable dedication to a Roman-British god, the forest, or a personification of the River Severn which flows nearby like the Celtic Nudd, a god of faires or goblins. Nothing is known about his temple is the earliest existing in the history of religious architecture in Europe in which the systematic of side chapels is found. They apparently used as shrines for sary deities after the manner of the Roman chapels are dedicated to saints.

No Barber or Movie in Nebraska

Harrisburg, Neb.—Lacking a shop, pool hall, moving picture theater or railroad, and with but one newspaper, one bank, Harrisburg county ranks fourth among the poorest of Nebraska in production of wheat, and but little below in raising of all wheat. The county is also a heavy producer of oats, barley, cattle and hogs, which must be hauled to points outside the county for rail shipment. The county population was estimated in 1925 as about 1,500. The county has no incorporated town, the county seat, Harrisburg, never having been incorporated. In Harrisburg is a county school building, dormitory, gymnasium and teacherage, all located on same tract of ground. The value of the school plant is about \$30,000. It was constructed on a "pay as you go" basis, without the submission of a bond issue proposal to voters. The gymnasium is the newest building, 50 feet square. Here there is also the Banner Bank, the only one in the county, an institution considered among the strongest in western Nebraska. The Knights of Pythias lodge here surprises strangers who wonder how a lodge in a town of this size can have as many members. A church here is now planning a new structure.

Court Orders Deduction From Alimony Payment

El Paso, Texas.—Rebates can be handy any time but a rebate on alimony is particularly gratifying. Judge Chavira told Judge Caldwell saw his estranged wife in court with another man. The judge ordered a rebate of \$2. Later Caldwell's wife with two other men. Judge Caldwell promptly ordered \$4 deducted from his regular monthly alimony payment.

Wants to Go to Jail; Judge Turns Him Free

Buffalo.—A "tough break" the way Roger McGuire, secretary, no home, described. Brought into court as a defendant, McGuire pleaded to be away for 30 days as a birth present, having advised the court he had just attained ripe age. City Judge Weiss pondered and gazed out of the window. "I am very sorry," he said after much deliberation, "penitentiary is too crowded. I cannot grant your request. McGuire was given a hot and then told to be "on his way."

The coins were discovered among the ruins of Roman baths. They were embedded in the broken debris of a mosaic floor in the "frigidarium" or cool room of what would now be called a Turkish bath.

C.; iron mines used by the Romans until the end of the Third century; a large Roman house built around a courtyard, with intricate mosaic pavements of red, blue and white marble, and an elaborate set of Roman baths.

Close by is a remarkable temple dedicated to a Roman-British deity, Nodens, who may have been a god of the forest, or a personification of the River Severn which flows nearby, or, like the Celtic Nudd, a god of the fairies or goblins.

Nothing is known about his cult, but the temple is the earliest example in the history of religious architecture in Europe in which the systematic use of side chapels is found. They were apparently used as shrines for subsidiary deities after the manner Christian chapels are dedicated to saints.

GIRL TEACHES HOW TO BUST BRONCHOS

Golden-Haired Maid Puts Dudes Through Paces.

Denton, Texas.—Miss Blanche Williams is a college graduate, an artist, and, when she has time for such activities, a society girl. She is a graceful blonde of the type that looks well on the dance floor or in the drawing room. Certainly she doesn't look like a broncho buster. Yet a broncho buster she is, and she operates a "cowboy school."

In a cow lot of the Williams ranch, ten miles north of Denton, Texas, this golden-haired girl may be found almost any day putting "tenderfoot" pupils through the arduous paces of riding mustangs with spurs and "bull-gogging" steers. And that isn't all she teaches. Lariat throwing, calf riding (which corresponds to steer riding of adult cowpunchers) hog tying and all the other tricks are in the curriculum.

It's a Hobby. One of the most extraordinary features of this cowboy school is that the student can get his training for virtually nothing. Miss Williams teaches broncho busting and its allied arts for the joy of it. It's a hobby. The attractive teacher says she gets "a barrel of fun out of it."

When Miss Williams, as a child, developed what might be called a tomboy complex, her parents regarded it as perfectly natural. Instead of trying to curb it, her mother took it as a matter of course. Her father gave her the choice of his stables, and she and her pony became familiar figures on the streets of Denton. Her early life was a strangely mingled atmosphere of refinement and violence.

There are four of the Williams children—two boys and two girls. The father, a successful merchant and large land owner, gave them the best of educational advantages. The boys, upon completion of their schooling, took jobs in the store and are launched upon business careers. The girls, Blanche and her younger sister, Julia, made excellent records in college, specializing in art. Blanche also studied voice and made such progress that it was generally expected she would open a studio or go on the stage. But that she hasn't done yet.

The lure of ranch life has been too strong. When she finished college she returned to the cowboy school she had started while a student in high school.

Gives Riding Lessons at 15. She was scarcely more than fifteen when she began giving riding lessons. Her friends appealed to her to teach them how to be horsewomen. There was founded in the high-fenced corral of the Williams ranch the riding school.

Society folk who hoped that out of the girl's plan might evolve a select "riding academy" got a shock when the class met for the first time. The arena was the cow lot on the Williams ranch. There was no gallery to speak of, and those who came to watch the proceedings got no seats except those on top of the high board fence. Blanche opened festivities by mounting the wildest pony on the ranch and riding him through a spectacular series of lunges, leaps and sidesteps. It was a good show and filled the youngsters with envy and determination.

Believe Real El Greco Canvas Found on Coast San Francisco.—What is believed to be an authentic El Greco painting, valued at between \$50,000 and \$75,000, has been discovered here.

The discovery was made by George Barron, curator of the Golden Gate Park museum, when the painting was brought to him by Clark Johnson, who had purchased it at a second-hand store for \$750.

On first appearance the painting appeared to be a poor attempt at depicting a Persian rajah. Barron put the painting through a process that removes one coat of paint without harming an older one underneath.

When the process was completed the Persian rajah had disappeared and instead was a painting of St. Francis of Assisi in an attitude of prayer.

Prof. Lorenzo Capatini, art critic for the Vatican, here to paint California missions, inspected the painting and said he was convinced of its authenticity.

Many Male M. P's Seem Reticent About Age London.—Reticence regarding age is a characteristic and privilege usually attributed to women, but not so in the British house of parliament. There are 102 male members of the new house of commons who have not, so far, confided their ages to Dod's Parliamentary Companion, an official handbook. Seventy-nine of them are Labor members, sixteen are Conservatives, six are Liberals, and one is an Independent.

Of the fourteen women members, nine claim the privilege and do not state their ages. Their reticence calls for no remark. The fact, however, that five boldly reveal the year of their birth gives point to the question: "Why should men be so shy?"

Pony Is Nursemaid London.—A pony kept as nursemaid to children, pushing them around in perambulators by taking the handle of the vehicle in its mouth and shoving.

GUILLOTINE NOW IS IDLE IN PARIS

Murderers Shown Great Leniency in France.

Paris.—The guillotine is becoming a relic of the past as murderers are granted more leniency in France today than ever before in history.

Within four days, three self-confessed parricides and one sweetheart killer were acquitted. The executioner has not been called upon to work in Paris for nearly three years while in the provinces the guillotine has not fallen in months and only a few times in the last several years.

Sentences of death imposed on five women during the year for the most horrible murders, including the poisoning of babies and husbands, were commuted to life imprisonment by the president of the republic. Ten assassins have just been excused from going to Devil's island because of delicate health.

Mme. Jane Weller, who shot and killed her husband after an all night party in the cabarets of Montmartre and Montparnasse, was recently sentenced to five years' imprisonment; but some legal experts declared she would have been acquitted had she followed a different sort of defense. She claimed that she shot to save herself and child. They said it would have been better had she merely argued, "I loved him; that's why I killed him."

French juries are often sentimental. Although they see little sentiment in trying to save one's own life, they are apt to be moved to tearful generosity if a murderer swears he killed in the name of love because of passion.

The Assize court of the Var acquitted young Richard Corbett when he declared he loved his mother so that he could not bear to see her suffering from cancer. He shot a bullet in her temple. The jury understood and freed him of all blame.

Romance of War Flares Afresh After Long Wait London.—A romance which flamed during the war and which died out because of uncontrollable circumstances flared up afresh as the result of a dramatic and unexpected reunion between a London girl and a New Zealander who traveled half way around the world to take part in the recent armistice day ceremonies here.

The former soldier, Victor Beetham, who lost a leg in the war, and Mrs. Miriam Smith, who served in the conflict as a nurse, decided at last to get married and to return to far off New Zealand to live.

The pair became engaged to be married when they first met each other a decade ago. But the fact that the nurse had a widowed mother whom she refused to leave, forced Beetham to return home alone. They corresponded for a few months and then Beetham received a letter from Miss McNaughton saying she was going to be married. Beetham said:

"This year I decided to come to London to lay a wreath at the Cenotaph. Mrs. Smith, whose husband meanwhile had died, also came there to lay a wreath in memory of her father. By strange chance we came there at the same time. Our meeting was a great surprise to both of us. We regarded it as fate and decided to get married."

French Open Campaign to Bar Widow's Weeds Paris.—Because Paris was recently dubbed the city of gloom, from the fondness of its women for wearing black, a first step is being made to abolish the widow's veil.

Widows themselves are back of the movement. They claim the widow's weeds in France are far too long and lugubrious and are not at all in keeping with the French reputation for chicness. Now Duchess d'Uzes, president of the Society for Women's Suffrage, who is herself a widow, has declared her earnest support for the campaign.

The duchess was widowed 50 years ago, but she has always worn widow's crepe, although she now freely admits the style is entirely out of keeping with modern life. She bases her argument more on utility than appearance, claiming that in the crowded streets, in the automobiles and subways the long veil is a nuisance.

Seagoing Steer Too Much for Cowboys New York.—When a steer escaped from the stock yards recently and plunged off the dock into North river, New York's cowboys washed their hands of the affair. They vainly tried to lasso the steer from the dock.

Some one suggested the police. An emergency squad, with a truck crane, a small boat and several yards of rope, had the steer tied up and hauled back on the dock in no time at all.

"The steer took unfair advantage of us," the cowboys explained. "Who ever heard of a seagoing cowboy?"

Man 50-Year Sentence Santa Monica, Calif.—The strange story of a man who has spent 12 years in prison on false charges made against him by his own daughter is under investigation here. The father is George Allen.

The daughter, it is reported, has written to police confessing that she falsely accused her father of wronging her but that she did so under a threat of death from the man who actually was guilty of the crime.

Ex-Harvard Athlete Jailed in Bond Fraud

***** TELLS EXPERIENCE AS DEATH NEARS *****

Student Gives His Account of Tragedy in Alps.

Vienna, Austria.—An unusually precise account of a not unusual tragedy of the Alps—freezing to death—was furnished by the discovery in the frozen hands of a dead Innsbruck student of a diary containing an account of his last hours.

The nineteen-year-old student of the Innsbruck Technical college, Franz Lutz, set out on a solitary ascent of the Gross Löffler, in the Zillertal Alps. His body was discovered by a search party of Alpine jaegers and gendarmes on the glacier below the Gross Löffler peak, frozen so hard in the new snow that it had to be dug out with icepecks.

Lutz related in his diary how he began the descent at five o'clock on Sunday afternoon. He told how he crashed in the dusk over a 200 foot wall of ice onto the glacier. Though badly injured, he managed to drag himself over the ice for a hundred yards, when his progress was impeded by a crevasse.

"I do not suffer particularly," he wrote, "but the blood seems to be slowly turning to ice in my veins, and I suppose that before morning comes I shall be frozen to death. If help does not reach me before then, I want it to be arranged that the little which I possess in the world should go to my brother. And I want my parents to pardon me for my foolhardiness in making this dangerous tour alone."

He then quietly set down a description of the horror and grandeur of a storm in the Alps as seen by one slowly freezing to death on the edge of a glacier, until he lost consciousness.

The search party found that he had followed a wrong path and in his descent was undertaking a quite impossible task.

Heroic Missouri Girl Saves Child From Well Macon, Mo.—Word has reached here of a thrilling act of heroism by which Rowena Yount, a seventeen-year-old girl, saved the life of a two-year-old child that had fallen in a 80-foot well containing ten feet of water, on a farm east of Bloomington.

The baby is the son of Mr. and Mrs. Lloyd Yount. It was toddling about in the yard and suddenly headed for the well. When Rowena and Mrs. Yount looked around the little one was missing. Rowena, Mrs. Yount and Rowena's mother, Mrs. W. F. Yount, ran for the well.

They could see the child bobbing up and down. Rowena didn't hesitate at the deep black hole.

Carefully negotiating the edges, the girl let herself down until her feet caught hold of the rough rock lining the well. Using feet and arms with all her skill and strength, Rowena at last got down to the water and seized the child by the arm and pulled it out of the water. Unable to use her hands, she could not climb back.

The two women summoned Arthur McDaniels from a neighboring farm. McDaniels climbed down in the well and took the child from Rowena's stiffened arms, slowly made his way up the well and handed the unconscious baby to the waiting women. Then he climbed back and helped Rowena out. The baby was soon restored to consciousness.

Supreme Court Upholds Underling's Signatures Washington.—The right of a cabinet member to have assistants to sign the great piles of documents which comes before him has been upheld by the Supreme court. The court has rejected an appeal by Marinelli Constantino, Buffalo, N. Y., from a deportation order issued against him. The appeal was based on the contention that the order was illegal because Secretary of Labor Davis did not himself sign it. A great deal of the government's business is transacted in this way by assistants and undersecretaries.

Daughter's Lie Brings Man 50-Year Sentence Santa Monica, Calif.—The strange story of a man who has spent 12 years in prison on false charges made against him by his own daughter is under investigation here. The father is George Allen.

The daughter, it is reported, has written to police confessing that she falsely accused her father of wronging her but that she did so under a threat of death from the man who actually was guilty of the crime.

Common Artistic Error in Depicting New Moon

Artists accustomed to inserting a new moon in a picture in the most artistic position often transgress the laws of nature, as the horns of the crescent moon must always point in a definite direction, depending primarily on the latitude of the observer.

In the north temperate zone the new moon as seen just after sunset always points upward and to the left. In this latitude the sun circles to the south and, as it approaches the western horizon descends obliquely from left to right. The new moon, following the sun, takes approximately the same course, and since the horns always point away from the sun, they turn upward and to the left.

In the southern part of the earth the reverse is true, while in the tropics the horns point almost directly upward. The position of the old moon as it rises in the morning is the reverse of that of the new moon as viewed from the same latitude.—Popular Mechanics Magazine.

Tit for Tat Senator Tydings of Maryland was talking about the revolt in Afghanistan.

"King Amanullah," he said, "came and told Europe how backward his Afghan subjects were, and then he went home and tried to modernize them, and they turned and kicked him out for an iconoclast.

"Tit for tat, eh? Like the two strangers. Two strangers got into talk in Central park. After a while one of them said: "Well, I'll be leaving you. Here comes my wife with some old hag she's picked up."

"That's strange," said the second, "here comes mine with another."

Thankful James, living in Irvington, had a party on his sixth birthday, which came the day before Thanksgiving, and twelve children were his guests, seated around the table. There seemed to be nothing worth talking about, they were so busy eating, so one of the grownups present asked them to tell what they were thankful for. In turn they said they were thankful for a lot of things.

One little girl said she was thankful there is a Santa Claus, and a five-year-old boy said: "I'm thankful I'm not a turkey."—Indianapolis News.

And the Engineer Said? Six truckloads of garbage were halted at the city incinerator at Sacramento, Calif., and the contents spread upon the floor, while workers searched among potato peelings and whatnot for a wrist watch that a housewife had lost in the family garbage can. After an hour of vain searching, the city engineer telephoned the woman about the failure of his force to find the watch. "Never mind," she said, "I found it on the window sill."

Aw! Be Yourself It's just more fun than anything to tell a stranger over the telephone that you are out, but that if he has a message for you, you will take it and live it to yourself when you return.—Life.

When Food Sours

Lots of folks who think they have "indigestion" have only an acid condition which could be corrected in five or ten minutes. An effective anti-acid like Phillips Milk of Magnesia soon restores digestion to normal.

Phillips does away with all that sourness and gas right after meals. It prevents the distress so apt to occur two hours after eating. What a pleasant preparation to take! And how good it is for the system! Unlike a burning dose of soda—which is but temporary relief at best—Phillips Milk of Magnesia neutralizes many times its volume in acid.

Next time a hearty meal, or too rich a diet has brought on the least discomfort, try—

Needless Pain!

Some folks take pain for granted. They let a cold "run its course."

They wait for their headaches to "wear off." If suffering from neuralgia or from neuritis, they rely on feeling better in the morning.

Meantime, they suffer unnecessary pain. Unnecessary, because there is an antidote. Bayer Aspirin always offers immediate relief from various aches and pains we once had to endure. If pain persists, consult your doctor as to its cause.

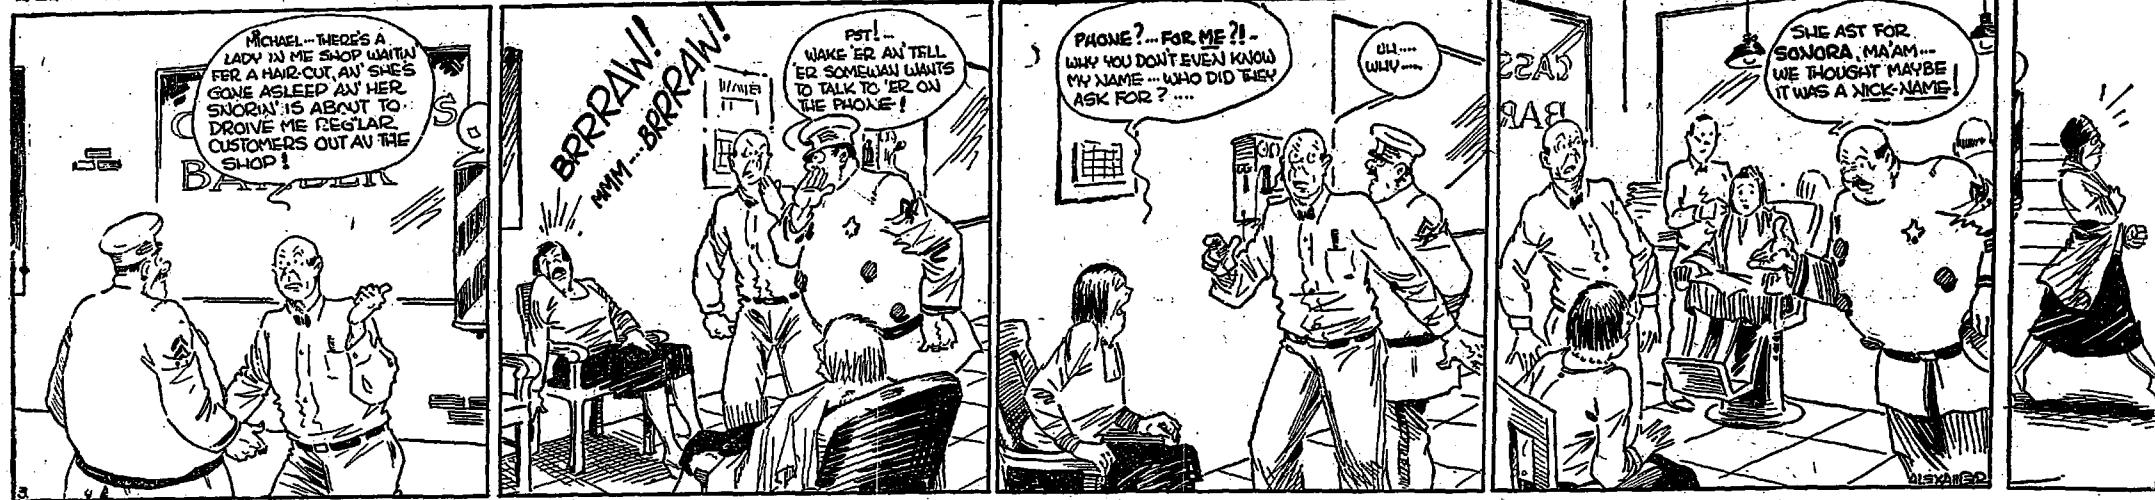

Save yourself a lot of pain and discomfort through the many uses of Bayer Aspirin. Protect yourself by buying the genuine. Bayer is safe. Always the same. All drugstores.

Today

-Chevrolet announces

THE GREATEST CHEVROLET IN CHEVROLET HISTORY

Today, Chevrolet presents the Greatest Chevrolet in Chevrolet History—a smoother, faster, better Six—with beautiful new bodies by Fisher.

Basically, it is the same sturdy, substantial Six which won such tremendous popularity in 1929. But it is a greater car in every way—for there are scores of vital improvements which contribute to comfort, performance, endurance and safety.

An improved six-cylinder valve-in-head

motor, with its capacity increased to 50 horsepower; four Delco-Lovejoy hydraulic shock absorbers; fully-enclosed internal-expanding weather-proof brakes; a new dash gasoline gauge; heavier and stronger rear axle; Fisher non-glare windshield; larger tires—

—these are typical of the many improvements found throughout the entire design.

But most impressive of all—this smoother, faster, better Six is available—

—at greatly reduced prices!

During 1929, more than a million three hundred thousand persons bought six-cylinder Chevrolets. This enormous volume has made possible many savings in the Chevrolet factories—and, in keeping with its long-established policy, Chevrolet is shar-

ing these savings with the public. No written description can do justice to the extra value and quality provided in this new car. Visit your Chevrolet dealer—see this car—ride in it—and judge for yourself the sensational value it represents.

One thing prohibition has done is to refine drinking. What we used to call "D. T." is now known as "alcoholic psychosis."

Many peanuts reaching the cleaners show the effect of storm damage and although the kernels are sound mold is noticeable to an unsatisfactory extent.

Beauford county farmers are still clearing their land of stumps. Recently a group purchased 7,500 pounds of dynamite for this purpose.

Deputies Marshall Bumgarner and Ratledge Assume New Duties.

Wilkesboro, Dec. 30—With a field of work that was bearing heavily upon the official personnel, it is learned that the reason of two new appointments in the Middle Federal District, Marshall J. Jenkins will now be able to have all the papers issued through Uncle Sam's district attorney served promptly.

The new appointees are Deputies Marshall J. M. Bumgarner, of Wilkes and J. Fred Ratledge, of Davie. Deputy Bumgarner will supplement the work in this part of the district now being done by Deputy Marshal H. H. Jennings, and Deputy Marshal Ratledge who during the past several years has made a splendid record as a prohibition agent, will take care of the section of the middle district embraced in Davie and the adjoining counties.

The Middle District, where Judge Johnson J. Hayes holds his courts, is understood to have set a new high record for prohibition law enforcement within the past few months. Just prior to the Christmas holidays the agents, working under the direction of Deputy Administrator J. L. Osteen, made a clean sweep in several sections, capturing many blockaders and bootleggers. Convictions in Judge Hayes's courts also reached a new high record and District Attorney E. L. Gavin and his assistants have been widely commended. —Winston Journal.

John G. Sheek Dead.

John G. Sheek, 78, passed away Dec 24th, at his home, Advance, Route 1, after an illness of two weeks. He had spent practically his entire life on his plantation. He was born December 19, 1851, in Davie county, and was a member of Macedonia Church.

Survivors include four daughters, Mrs. H. C. Butner, and Mrs. P. Smith, of Davie county, Mrs. Fannie Woosley, of Alamance county, and Mrs. R. W. Hupter, of Forsyth County; a brother, L. A. Sheek, of Davie County; two sisters, Mrs. Elizabeth Douthit and Mrs. Mary Beauchamp, both of Davie County.

Funeral was conducted from the home and from Macedonia Church Dec. 26 by Rev. J. E. Hall and Rev. F. W. Grabs. Interment was in the Church graveyard.

Delightful Party

On Friday evening, Dec. 27, Miss Pauline Greene delightfully entertained a number of her friends at a party, it being a very enjoyable affair. A number of interesting games and contests were used for amusement. At the close of the games the guests were invited in the dining room where Miss Pauline Greene assisted by Miss Sadie Mae Barneycastle, served delicious cake, pickles, and candy. Those present were: Misses Veatrice and Helen Jones, Ruby and Grace Bowles, Zeola and Lucile Koonz, Mary Boger, Margaret Greene, Ella Mae Campbell, Katy Lue Greene, Minnie Koonz, Nannie and Mary Helen Barneycastle, Theoline and Margaret Ward, Louise Greene, John and Atlas Smoot, Earnest Koonz, Theodore, Wallace, and William Greene, Claud Carter, John Campbell, Marshall Greene, J. C. Koonz, Mr. and Mrs. Bruce Ward, Mr. and Mrs. J. S. Greene, and the hostess.

Laws That Are Not Laws.

The administration of criminal justice in America is a disgrace to civilization. The man who said that is the Chief Justice of the Supreme Court of the United States, the Hon. William Howard Taft, once President of the United States.

We have two many laws which are not laws. A citizen can hardly go about his daily business without violating some law of which he never heard and which he never heard and which nobody obeys. In Connecticut it is illegal to travel on the road or railroad on Sunday. In New York, it is, or was until very recently, illegal to operate a motor-propelled vehicle on a highway unless a man on horse-back carrying a red flag or

lantern rode a quarter of a mile ahead of it!

Congress and State Legislatures try to "make" laws. No law is a good law unless the people whom it effects agree that it is a good law. It the early days of popular law-making people gather to tell each other what the law was in their district, the law being rules of conduct agreed on by common consent.

The idea that a Congress or a Legislature has a right to impose an unpopular law is a reversion to the old myth of the divine right of kings. Because a law is old is no proof that it is good. Times change but the law lags behind.

Lawyers and judges live in the past. Lawyers dominate our legislative bodies and try to make new laws, intended to fit present conditions comply with principles and practices long outdated. One result of this is law and justice often

mean two different things. Poor men and honest men hesitate to go to law; they fear legal technicalities which have no relation to justice.

All laws ought to be based on common sense and so plain and simple that any man with an average sense of fair play could tell without asking a lawyer whether he was violating the law or not. Then everybody else would know it, and intelligent public opinion alone would keep us all on the right side of the law or punish us all promptly if we overstepped the line.—Ex.

THE STORY

Hilton Hanby, prosperous New York merchant, has purchased a country place—the Gray house, near Pine Plains. Miss Selena, a former tenant of the Gray house, calls at his office and warns him that the house is under a curse. Further alarming details are impressed upon Adolf Smucker, Hanby's secretary, by a man who claims to have been a chauffeur for Sir Stamford Seymour, former occupant of the place.

CHAPTER I—Continued

"Julius Caesar was a small man," he said suddenly, much to his host's amazement. "So was Napoleon. So is Lloyd George." He bent over the table as if imparting a profound secret. "So was the master of them all—my idol, Lenin." Mr. Smucker touched his receding forehead with a dramatic gesture. "Don't think, because you are twice as big, that you can outmatch me here!"

Again he smote his brow. "That's all right," said the other pacifically. "Benny Leonard ain't a big man, and I guess he's pretty good. So was the baby that steered Black Sand and won one thousand iron men for daddy. You wouldn't be where you are today if you hadn't got the gray matter. Say, do you believe in haunted houses?"

"I don't believe in haunted houses," Smucker asserted, "nor in the immortality of the soul. I'm away beyond that religious bunk!"

"I didn't believe in haunted houses when I first went up there with Mr. Seymour. I was like you—conceited—bone-headed. I thought I knew it all and then some." The stranger had a cold and compelling eye. He looked at Mr. Smucker in a way that dispelled many of the secretary's theories. He leaned over the table. "It's fine and dandy to hold them beliefs when you ain't been put to the test!"

"I don't get it," said Mr. Smucker irritably.

"You will," said the other simply. "I used to be chauffeur for Mr. Seymour up at the Gray house. His two kids died up there. There's a curse on that place. The man that had it before lost his wife. Nothing the matter with her until she went up to Dutchess county. Bo, there's something in the lake there that calls people to it. The man who had it after Seymour and me was warned. Seymour said he went there on his own responsibility. I'll say Seymour was square about warning him. Well, sir, that man was found drowned in that lake. The doctors couldn't find a thing the matter, except he was drowned. It's a bad place to live in. I know! I was there for two years."

The stranger's voice sank to a whisper.

"You feel like people are watching you all the time," he went on. "When you wake up, you think there's people at the foot of your bed, and when you switch on the light it seems like you catch them going away out of the tall of your eye. The help won't stay there. They know! Mr. Seymour—he's a lord or something now—brought out an old cook from England. She went bughouse from what she saw."

"Do you expect me to believe that?" Smucker said.

"No," said the other. "You ain't got the education to understand. Mr. Hanby may. All I ask you to do, if you want to keep your job, is to try and prevent him from taking his family up there to live."

Smucker bitterly resented the strictures on his education. He thought of many cutting things to say, but words did not come easily. His brain seethed with brilliant still-born speeches. After a time he gathered his wits together.

"It amounts to this," he said. "You want me to warn Hanby before it's too late."

"I don't give a d—n whether you do or not," returned the stranger. "I've got it off my conscience. If you want them to go to their death, it's up to you. Any man taking his family there is killing 'em, just as much as if he fed 'em strychnine in their soup. What I get for this? Not a d—n thing! I'm out a dinner."

"That," said Smucker quickly, "is your own financial liability."

"I'm no piker," said the other. "Hey, Pat, bring a couple of them cigars that Morgan smokes, and some black coffee. My friend here has an important date."

CHAPTER II

At nine o'clock Mr. Smucker stood outside the Gothic entrance of the

building where Hilton Hanby maintained a duplex apartment. Mr. Smucker was in an unusual frame of mind. Whereas his viewpoint was often confused, and his rebellion a silent one, he now saw things with a dreadful clarity. He was vocal. He told the subway guard that ere long those who cheerfully wore the livery of oppressing capitalists would be offered the opportunity to revolt. If they refused, they would toll in deep mines, abject serfs of an emancipated proletariat.

When the liveried elevator started at the Hanby apartment house intercepted Mr. Smucker and desired to know his business, the Weehawken philosopher saw in this precaution only another instance of the tyranny of the rich; and when, after some delay, he was shown into his employer's rooms, he was overripe for speech. The girl who opened the door looked at him coldly as she demanded his name.

"Tell Hanby, Smucker is here!" he said loudly. "A. Smucker!"

"I asked your name, not what you were," she retorted.

"My name is Smucker—Adolf Smucker—and Hanby has to see me at once!"

He was shown into a small room, which led, as investigation proved, to a gallery running along one side of the apartment. Below him was a

"What Do I Get for This? Not a D—d Thing! I'm Out a Dinner."

spacious drawing-room. Through an arched opening Smucker could see a party of diners. Dining, and it was past nine o'clock!

This, then, was what a duplex apartment meant. The Smuckers had never been quite sure. They were certain only that it was a symptom of the criminal extravagance of the un-taxed rich, won at the cost of the workers.

"Old Smucker here?" Hanby exclaimed. "Are you sure?" He turned to his wife. "Dina, do you hear that? Smucker from the office is here."

"That odious little man! Well, he won't mind waiting until we have finished. You'd better send him a cocktail or something. You can't leave us, just as you are going to spring this great surprise." Dina Hanby turned to one of the servants.

"Mary, ask Mr. Smucker to be kind enough to wait, and ask if he'd like a cocktail. See if he will leave a message."

Mr. Smucker looked at the cocktail greedily. Some day pretty girls like this one in neat black and white should bring him cocktails when he thirsted; but they should not sneer at him. If they sneered, they should be lashed.

"Mr. Hanby asks you to wait," said Mary Sloan, not softening the blow. "He's busy. They're in the middle of dinner."

"At half past nine?"

"That's what I said, Mr. Mucker." "Smucker, Smucker!"

"As he won't be through yet awhile, Mr. Smuckersmucker, do you want to send a message?"

"No!" the man roared. "I won't! Absolutely I will not! Tell him and his wife I come on a matter of life and death. Tell him to leave his boon companions for a moment, and he will go back to them a saddened man!"

With the possible exception of Adolph Smucker, Hanby had not an enemy in the world. His children adored him, and his help remained until removed by marriage or death. Mary hurried back. She was interrupted in the announcement her employer was about to make. He was

Speedometer in Use Long Before "Autos"

It may surprise those complacent people who think that everything that counts was invented within the last century, to hear that speedometers—and they seem pretty modern devices—were brought into use centuries ago.

Admittedly they did not tell, by themselves, the rate at which you were traveling, but with a clock hung alongside them you could make a guess good enough for olden days, when speed limits and police traps were unknown.

Evelyn, in his diary, writes in 1637: "I went to see Colonel Blount, who showed me the application of the way-sawyer to a coach, exactly measuring miles and showing them by an index as we went on. It had three circles, one pointing to the number of rods, another to the miles, by 10 to

or his feet when she reached the dining room. "Family and friends!" he began. "Best of families, best of friends! I stand before you tonight at the ripe age of four and forty. I have not only an announcement to make—I have also a confession. I have concealed my name from even my wife. You have hitherto known me as plain Hilton Hanby."

"Not exactly plain," his wife laughed. "I could never have married a plain man!"

"Best of wives!" he murmured. "I have deceived you. Almost half a century ago my mother was drowning in one of our picturesque rivers. A handsome stranger sprang in and rescued her. Later they were married, and her first son she called by the name of that superb stream. My true name is Ebonatic Hilton Hanby. At school I was known as Tonic. At college they called me Tony. When I married I dropped the name because my wife was from Cleveland, and would not have understood. Tonight I resume it publicly. There are reasons. I am now lord of the manor. I have territorial obligations. Boys and girls, I have been a hard worker, and I have prospered. Fifteen years ago, when I was young in the woolen business, I took, in payment of a bad debt, sixty acres of land near Los Angeles."

"And you've struck oil there?" asked Celia, his eldest daughter.

"No—this is a true story. I have subdivided what was formerly a rocky, goat-infested hill. It is now Wildwood, famous as the queen of hillside residential parks."

"Dream on!" said Junior, Hanby's son, who was a Yale sophomore, and therefore given to doubting the enthusiasms of his elders.

"No dream, my worthless lad, but a fact! I have the money. Half of it I have spent this afternoon. Know, beloved ones, that I have realized the ambitions of a lifetime. About a hundred miles away, near the peaceful village of Pine Plains, Housatonic H. Hanby owns a lordly estate. In this historic home, this feudal fastness, he will dispense hospitality of the sort his position entails. On his private golf course his friends will pry goblets of turt from their beds as they now do weekly at Wykagyl and Garden City. On his tennis courts, grass and concrete, his children will play under his able tutelage, until they go in triumph to Forest Hills. There Sir Housatonic has a lake, wherein bass and trout await the anglers' fly. There his children will find a swimming pool—not yet built, however—which will make the best that Pasadena and Hollywood have to offer, look like frog ponds."

"Oh, dad!" Celia cried. "Is this real, or do we wake up now?"

In answer he passed photographs around. The Gray house was a fact, not a mere hope.

"Wonderful!" said Mrs. Bishop, one of Dina's close friends. "But the help problem in a thirty-room house is appalling. You won't get any one to stay."

"Mary!" Hanby called out. The girl was arranging glasses in the anteroom. "You heard what I've been saying?"

Mary flushed a little.

"I couldn't help it, sir," she apologized.

"Go and ask the others if they'll come to the Gray house."

"They'll come," said Mary eagerly. "Ask them." Mrs. Bishop commanded. "New York help simply hates the country. We tried it out, and we know."

Mary came back.

"They're crazy to go, sir."

"I don't know how you do it," said Mrs. Bishop.

"It's easy," said Hanby. "We treat 'em as if they were human."

Hanby started as a strange but somehow familiar voice broke in.

"They gave a feast the night before Waterloo," shouted the voice, from the distant balcony.

"It's that Mucker," Mary said. "The idea!"

"Smucker," Hanby corrected. "I had forgotten all about him. Tell him I'll be there in a moment."

"He's got his nerve!" said Junior. "Besides, the people who gave the feast before Waterloo won the battle. Dad, I hate that man! I wish you'd fire him. Whenever I go to the office, he tries to head me off from seeing you."

"He wishes to save me money," said Hanby, rising.

Mary descended wrathfully on Smucker. He was conscious that his intellectual superiority was lost on her. In the slangy, expressive phrase of her class, she gave Smucker her opinion of him.

THE BAPTISM AND TEMPTATION OF JESUS

LESSON TEXT—Matthew 3:1-4:11 (Print Matt. 24:3-11). GOLDEN TEXT—This is My beloved Son, in whom I am well pleased. PRIMARY TOPIC—When Jesus Was Baptized. JUNIOR TOPIC—The Baptism and Temptation of Jesus. INTERMEDIATE AND SENIOR TOPIC—Jesus Facing His Life Work. YOUNG PEOPLE AND ADULT TOPIC—Triumphing Over Temptation.

I. The Baptism of Jesus, the King (3:13-17).

While the forerunner was discharging his office, the King emerged from His seclusion at Nazareth and demanded baptism at John's hands. The incongruity of this demand with the purpose of baptism brought from John a protest, but upon Jesus' satisfactory explanation, John baptized Him. Touching Christ's baptism, note: 1. Its significance. (1) Negatively, a. It did not mean His mere obedience to the commandment of God, because His entire life had been lived within the will of God. There was not a moment in His life but what was lived fully in accordance with the Father's will. b. Not because He had sinned, for He was absolutely sinless, harmless, undefiled—separate from sinners. This separation was so complete that even the devil could find no occasion against Him (John 14:30).

(2) Positively. Its significance is found in harmony with the central purpose of His coming into the world, which was to secure for His people salvation through death and resurrection. This act was the official entrance upon His work. It was an act of consecration on His part to the work of saving His people through sacrifice.

While baptism is a sinner's ordinance, Christ was baptized not because He had sinned, but because He took the place of sinners to be a substitute for them. In this He who knew no sin was made sin for us that we might be made the righteousness of God in Him (II Cor. 5:21).

2. Approval from the opened heavens (vv. 16, 17).

Immediately following His consecration to His work, the heavens were opened and the Spirit came and abode upon Him, followed by words of approval from the Father.

II. The Temptation of Jesus, the King (4:1-11).

Being thus commissioned for His work, His ability to meet the one whose destruction He had come to accomplish, must be demonstrated (Heb. 2:14). This temptation was the opening battle of the dreadful conflict between Christ and Satan. In this struggle note:

1. The battleground—wilderness of Judea (v. 1). The first man was tempted in a garden with the most pleasant surroundings, and failed. The second man was tempted in a bare wilderness, and gloriously triumphed.

2. The method of attack (vv. 3-9). Since, as the Redeemer of mankind, Christ sustains a threefold relationship, the Son of Man, the Son of God, and as Messiah, each one was made a ground of attack. (1) As Son of Man. This was a test of the reality of His humanity to demonstrate as to whether the humanity which He obtained through the virgin birth was real. The appeal was made to the instinct of hunger. Hunger is natural and sinless. (2) As the Son of God. It was a test as to whether this personality which had taken upon itself humanity, was divine. The devil quoted from a Messianic psalm to induce Jesus to presume upon God's care. God does really care for His own, but to neglect common precautions to do the uncalculated thing, just to put God's promise to a test, is to sin and to fail. (3) As the Messiah. Christ's mission as the Messiah was to recover this world from the devil. The devil offered to surrender to Him on the simple condition that He adopt his method, thus obviating the necessity of the cross.

3. The defense—the Word of God (vv. 4, 7, 10). Christ met the enemy each time and repulsed him with "It is written." Each time he quoted from Deuteronomy—the book which the higher critics would discredit as unreliable! Jesus had enough confidence in it to use it in this the most crucial hour of the world's history.

4. The issue (v. 11). The enemy was completely routed. The strong man was bound, so that the spoiling of his house was possible.

To Secure Salvation

"But what can mortal man do to secure his own salvation?" Mortal man can do just what God bids him do. He can repent and believe. He can arise and follow Christ as Matthew did.—W. Gladden.

For the Millions

Christ appeals to the soul as light appeals to the eye, as truth fits the conscience, as beauty speaks to the esthetic nature.—The American Magazine.

Christmas passed very quietly in Mocksville. Most of the citizens behaved themselves, had plenty to eat and not much to drink. Only a few arrests were made for drunkenness and they were not residents of the town. The Community Christmas tree exercise held Christmas eve on the square, were enjoyed by both old and young. The cold weather during the holidays kept many people at home.

Valuable Barn Burns.

Fire about four o'clock Tuesday morning destroyed a large barn belonging to Luther Walker, in South Calabahn township, together with several hundred dollars worth of feed stuff and one calf. All the other cattle were removed from the barn. The fire caught in the upper part of the barn. Mr. Walker had some insurance on the building but his loss will be heavy, as the building and contents were worth about \$4,000. It is not known how the fire started. Neighbors rushed to the fire and managed to save nearby buildings. Mr. Walker is one of Davie's best farmers and his many friends deeply sympathize with him.

VOL. I. MOCKSVILLE N. C. JAN. 8, 1930 NO. 7

Published in the interest of the people of Davie county by Young Radio Co., P. S. Young, editor. One Mocksville fellow radioed until 3 o'clock one morning last week and wouldn't have turned off then if the supply of coal hadn't given out. He was using a Majestic, and reported ed picking up stations all the way from Canada to California. The new year resolutions we made last year were all broken, but we have made a new set which will meet the same fate.

Well, we have started on the new year and we hope we will be able to give you better service than we have made in the past. Service is our hobby and we have made a number of resolutions on that subject. We will try real hard to keep them. Most of the Mocksville folks were sober during the holidays. The main reason was that they were so busy listening to their Majestic radios that they had no time to get drunk. Perfect description of a ladies tea "Gibble, gabble, gobble, get."

-Chevrolet announces

THE GREATEST CHEVROLET

IN CHEVROLET HISTORY

Today, Chevrolet presents the Greatest Chevrolet in Chevrolet History—a smoother, faster, better Six—with beautiful new bodies by Fisher.

Basically, it is the same sturdy, substantial Six which won such tremendous popularity in 1929. But it is a greater car in every way—for there are scores of vital improvements which contribute to comfort, performance, endurance and safety.

An improved six-cylinder valve-in-head

motor, with its capacity increased to 50 horsepower; four Delco-Lovejoy hydraulic shock absorbers; fully-enclosed internal-expanding weather-proof brakes; a new dash gasoline gauge; heavier and stronger rear axle; Fisher non-glare windshield; larger tires—

—these are typical of the many improvements found throughout the entire design.

But most impressive of all—this smoother, faster, better Six is available—

-at extremely low prices!

During 1929, more than a million three hundred thousand persons bought six-cylinder Chevrolets. This enormous volume has made possible many savings in the Chevrolet factories—and, in keeping with its long-established policy, Chevrolet is shar-

ing these savings with the public. No written description can do justice to the extra value and quality provided in this new car. Visit your Chevrolet dealer—see this car—ride in it—and judge for yourself the sensational value it represents.

NEWS OF LONG AGO.

What Was Happening In Davie Before The Days of Automobiles and Rolled Hoses

(Davie Record, Jan. 19, 1905)

J. W. Bailey has accepted a position as salesman with J. L. Clement.

E. H. Frost was right badly hurt by a Jersey bull Sunday. Glad to hear it was not serious.

J. A. Current's house caught fire Sunday night, but little damage was done.

J. H. Sprinkle and W. F. Stone-street killed 33 partridges last Friday.

The local furniture and choir factories declared a dividend of 6 per cent.

C. Armad, who moved from Indiana to Mocksville just before Christmas, has purchased a farm near Farmington and moved his family to his new home.

F. M. Johnson, who has been clerking for J. L. Clement for several years has resigned his position on account of eyes. He went to Greensboro last week to consult a specialist.

Gannon Talbert, of Advance, who has been quite sick, is slowly improving.

Mr. and Mrs. W. A. Hendrix, of Advance, are rejoicing over the arrival of a new daughter at their home.

In the case of the State vs Robert Williams as the slayer of Lewis Laird, Williams was discharged at the preliminary trial held Thursday before Esq. Will Myers.

Presiding Elder Scroggs will preach at the Advance Methodist church next Sunday night.

The Cooleemee cotton mill is installing a new boiler plant.

Sam Benson, of Cooleemee, left Sunday for Arkansas where he will make his future home.

Mr. Thomas Hellard and Miss Eleanor Mayberry, both of Cooleemee, were united in marriage a few days ago.

J. L. McClamroch and family, of Cooleemee, have moved to Greensboro, where they will make their home.

The Bank of Davie has a paid up capital stock of \$10,000 with a surplus fund of \$1,000.

C. B. Leonard has purchased the J. T. Angell stock of goods at Oak Grove.

One day last week Bob Williams shot and killed Lewis Laird. The first report of the affair indicated self defense. At the trial there was no evidence that Williams did the killing and he was discharged.

Champion Corn Grower

James B. Alexander, 14-year old youth of Cornelius, Mecklenburg county, is the champion corn grower of his section perhaps of the State. This year he gathered 115 bushels from one acre. According to the records kept, his costs were \$28.65 and at the present market price of corn the profit from this one acre is \$97.85. Last year his father, J. Wilson Alexander, was the champion cotton grower in the State making 11 bales on five acres with a profit of \$135 per acre.

NOTICE!

To the Stockholders of the Mocksville Building and Loan Association.

The Annual meeting of the Stockholders of the Mocksville Building and Loan Association will be held in their office on January 23, 1930, at 7 o'clock p. m. for the election of a board of directors for the ensuing year, and for the transaction of any other business which may be necessary. S. M. CALL, Pres
By B. O. MORRIS, Secy

Projectment of Mr. Bailey.

It is to be Bailey against Simmons, a circumstance of developing certainty during the past few months and it is a poorly-posted politician who could not have foreseen the outcome. First was Mr. Bailey's proclamation last Fall that if he should discover a sufficient demand that he become a candidate for Simmons' seat, he would prove agreeable to a nomination. But the urgent failing to develop according to expectation, there came the questionnaire proposition by his former campaign manager. The referendum, though submitted months ago, was not made public until within the past few weeks, as the "psychological" time to spring it. Meantime, was the "consideration" of Judge Stacy and Judge Brogden, as likely candidates. Neither of these could be induced to come into the ring, so there was nothing left for Mr. Bailey to do except "announce." The fact that Bailey was the only man fit to contest against Simmons will be canvassed by Bailey's friends as a strong card in his favor. On part of the Simmons following, however, it will be argued as a forlorn hope.

We are to have revival of the fight against the "machine," which was Bailey's "strong card" in his memorable contest for the nomination for Governor against McLean.

In that campaign Bailey made vicious assault against the machine. He got 53,574 votes against 51,147 for McLean, but Bailey's pestering of the machine did not stop with McLean's most active hecklers. Now he wants to become engineer of the machine he failed to destroy.

In former days Mr. Bailey was an active player on the prohibition stage, having been leader of the faction that, in the Legislature of North Carolina, forced the opening wedge in the liquor log by passage of the Watts law. That was in 1903, and Mr. Bailey continued an aggressive prohibition leader until the State had been dried up, prior to the coming of the Volstead law.

Bailey has been at enmity with nearly all State Democratic political leaders, particularly with Simmons and McLean, on his anti-machine hobby. The long-pending development at Raleigh imposes obligation on the people of the State to make choice between the experienced Simmons, on the one hand, and the ambitious Bailey on the other, and no one at all familiar with the course of North Carolina political sentiment would be unable to forecast what is going to happen. Simmons will continue at Washington as Senator from this state, or a Republican will take his seat. It is to be remembered that Simmons has not been deserted by a single man or woman that had lined up with him in 1928. Stick this on the wall where it will be convenient for reference when the returns come in.

The Bailey candidacy is certain to revitalize the Smith issue that was responsible for the turning of a normal State Democratic majority of 80,000 into a majority of over 62,696 for Hoover, for it is upon that issue Bailey stakes his chances. —Charlotte Observer.

A Tragic Recipe

Take one natural born fool, two or three cupfuls of bad liquor, and one high powered car. Place fool in car and soak with liquor. After due time remove from wreckage, place in black box and garnish with flowers.

An Indian girl who participated in a western beauty contests was "Pretty Bear." —Boston Transcript.

The Pilgrimage of Tears.

Mothers and widows of American soldiers who died in World War service and whose bodies repose in foreign soil, will make pilgrimage to France the coming summer at the expense of our government. It is estimated that 6,730 mothers and widows will make the journey and the cost will be \$5,673,000.

We are agreed with The Water-town Times in statement that Congress is fully justified in paying the bill for this pilgrimage. America made sacrifice in the war but the individual sacrifice which was felt the most was made by the mothers and wives of the soldiers who were killed in France and were buried there. There will be a satisfaction for them in going to the well-kept cemeteries where their dead are buried. The government does a gracious and kindly thing in sending them. Their long journey will not only emphasize again the awfulness of a war, but it will also bring out with vividness to those who have come on since the war the sacrifice that war insists upon. The expense to transport them there and maintain them while in France and bring them back home will be no small amount, but no one will criticize the expenditure for such a worthy pilgrimage. —Charlotte Observer.

Care For The Disabled.

President Hoover has been "very glad" to sign the Rogers bill authorizing an additional \$15,950,000 appropriation, domiciliary and out-patient facilities for veterans of the World War. Not only that, but he anticipates necessity for a further increase of the loan, and believes it desirable that the future necessities be developed and policies to be pursued outlined. This question he has submitted to the Medical Council for investigation and report. This Council was organized some years ago to assist officials of the Veterans Bureau in solving the problems as they arise from time to time, and the assurance to the friends of the disabled veterans is that their wants are to be made known and met in proper manner in future. All this comes in the nature of a Christmas gift to the men disabled in the war and it is a gift over which the country will rejoice. —Charlotte Observer.

Another Banker Gone Wrong.

It appears that the only way to prevent bank officials in North Carolina from stealing and embezzlement will be to adopt the Chinese law that every time a crooked banker is detected taking the funds of other people carry him out and chop off his head. It is said there has not been a bank failure in China in a thousand years.

Only the past week note was made of the embezzlement of \$48,000 of H. L. Davenport, one of the vice presidents of the American Trust company, Charlotte, and hardly a month passes but what some crooked, thieving banker is shown up.

Not so long ago two well-known citizens of Rosemary were tried in the federal court at Raleigh for violating the State federal banking laws but by some act of the ledger-main they were not punished.

And now comes this week Charles L. Ingold, Jr., former assistant cashier of the Cumberland National Bank, of Fayetteville, who had been with the bank for 10 years, charged with embezzling \$44,243. He was fired from the bank December 17, but his alleged embezzlement was not made public until last Friday.

Something drastic will have to be done in North Carolina to put a stop to this thieving rascality of bank officials and employees. —Union Republican.

Now For The Census.

It won't be long now until the census takers will be abroad in the land, counting noses to determine the exact size of Uncle Sam's big family and gathering statistics covering everything under the sun.

It's a big job, and one as important as it is big. If the real facts are not brought out census figures are misleading and pave the way for mistakes in the future. For that reason no one should regard the census-taker with suspicion, or furnish him with false statements, or seek to evade answering his questions correctly. He is not sent out to over-value your property, to raise your taxes or to pry into your private affairs. For that reason full and free answers should always be made to the questions he will have to ask.

Our new census will be nothing more than a stock-taking of the nation and its resources—a guide for future development and improvement. The exact size of the nation, along with actual conditions of agriculture, stock-raising, industry and employment cannot be secured in any other way. And we profit in our daily lives through knowing exactly how far we have progressed in 10 years, and what is needed to insure further progress. We feel sure everyone around Graham will cooperate with the census-takers when they start out on their task. It is just another way of demonstrating good citizenship and loyalty to the country and its institutions.

History of Our Flag.

(By Scout Clarence Craven)
The first flags used by the settlements were of the nations of which they came. Later all the thirteen colonies came under the flag of England. Gradually the colonies felt the need of a flag of their own. Two years after the Boston Tea Party the need of a flag led to the appointment of a committee to plan a flag, of which Franklin was chairman. They recommended a flag with thirteen stripes, alternate red and white with a union of crosses of St. George and St. Andrews, which was flown over Washington headquarters. The Declaration of Independence settled the fate of "Union" flag. The Continental Navy therefore used the rattlesnake, ensign over the face of the stripes with the reading, "Don't tread on me." below. However, the most vital interest centers in our "Old Glory."

Washington, at the request of Congress, was in Philadelphia in 1777. According to the Betsy Ross tradition, Washington actually pencilled the design after she had suggested the five-pointed star. This was her first flag, but for the next fifty years she made and sold flags. Not until June, 14, 1777 did Congress make "Old Glory" our official flag. Resolved: That the flag of the thirteen United States be thirteen stripes, alternate red and white; that the Union be thirteen stars, white on a blue field.

There would be added to the flag, when a state came into the Union, a star and a stripe. This continued to be the official flag until 1818 when it became apparent that a stripe-added for every state would make the flag too large. A bill was signed in April 1818 by President James Monroe that there shall be only thirteen stripes and for each state entering the Union add a star. There are now forty eight stars each representing a state.

Ministers complain that the youth of today takes but little interest in the church. But if we can remember correctly, in the days of our youth the boys weren't so much interested in the preacher's sermon as they were in whether they could qualify as an escort home for one of the good looking girls of the congregation.

More New Money.

In a short time the people will be handling all new money, for retirement of all United States notes gold and silver certificates, and Federal Reserve notes of the large size to and including denominations of \$50 and replacement of them by the new and small size currency has been ordered by the Department of the Treasury to begin January 2. The retirement operation will take place as fast as the large sized bills reach the Federal Reserve Banks and without consideration of the fitness of the currency for future circulation.

The retirement order does not

affect the National bank notes. These will continue to be re-issued in both sizes temporarily with the expectation that another two months will see a reserve of them built up that large size National Bank notes also may be taken out of circulation. —Charlotte Observer.

On the principle that everything helps, we are thinking of aiding the prosperity. Construction program next spring by painting the back fence and putting up a couple of new screen doors.

Called to take the oath as witness, James Pearson, 19 of Sheffield, Eng., said he had never heard of the Bible before.

Sam Jones, the great evangelist, once remarked that whisky was a good thing in its place, but added that its place was in hell. Some of the bootleggers think its place is in Davie.

Candidates for the various county officers are earnestly requested to remain very quiet until after ground-hog day, lest they scare the hog when he comes out, which would mean six extra weeks of winter weather.

Card parties, radios, dances, joy riding, town gossip and other attractions sometimes help to break the monotony of an otherwise quiet village. The day of jazz is with us, and as Mark Twain remarked about the weather, what can we do about it.

Now would be a mighty good time for the farmers in Davie as well as other counties, to make a firm resolution that they will grow enough feed stuff, meat, wheat and corn in the future to supply their needs before increasing their acreage of cotton and tobacco.

When the editor sees a fellow who owes him two or three dollars on subscription, buy a brand new automobile and drive away, it makes said editor feel like making some remarks that wouldn't sound good in a newspaper, much less a Sunday school quarterly. We speak from experience.

The business man who was raised on the farm, migrated to town and made a little money, sometimes forgets his raising and comes to the

conclusion that the poor folks are not worth a darn and that business can get along without them. Such is not the case. The great mass of laborers in this county are the ones that keep the wheels turning around, and they are the ones who are helping the rich man become richer.

The year 1930 is going to be a good business year. Millions of dollars are going to be expended on building New factories and mills are going to be built, more good roads will be built, more government buildings, and millions of men will be needed to keep the wheels turning. There is nothing the matter with the country. A few calamity howlers are always looking on the dark side of life. Davie county has two million dollars invested in automobile and the county isn't bankrupt. Some automobile manufacturers have raised the price of their cars and our folks are still able to buy them. The country is all right. On with the dance—let joy be unconfined.

There are a number of prominent Democrats in Davie who have advised us that they will not support Senator Simmons even if he receives the nomination in the June primary, and a few have declared that they will support the Republican nominee if Simmons is nominated. Other prominent Democrats in Davie declare that they will not vote for Josiah William Bailey if he gets the nomination, but will support the Republican. One Republican tells us that he will support Simmons regardless of who gets the Republican nomination. All this talk would seem to indicate a very warm campaign, not only during the hot summer months but also in the fall. The Record man is going to take a seat on the fence and watch the water boil and the fire fly when the heat of battle reaches that stage.

People frequently ask the editor why so many of our people go to

nearby cities and towns to do their trading. This question is easily answered. The progressive business houses in the cities are asking our people through the local papers for their patronage, and think enough of them to express their appreciation through the press. Some of the local business men are opposed to spending one penny on publicity—do not use an inch of advertisement to express to their patrons, who have enabled them to amass lauds, stocks, automobiles and all the luxuries of life, their appreciation for the business given them. It is no wonder that thousands and thousands of Davie county dollars are finding their way into other towns and cities. The business houses that do not think enough of their patrons to thank them for their business are the ones who shouldn't raise a howl if business goes to the live, progressive firms who believe in telling the world what they have to offer and thanking those who make it possible for them to grow and expand.

A good farmer living near Mocksville told us last week that his milk check for two weeks amounted to more than sixty dollars. He keeps several cows and his milk is carried to Winston-Salem daily, together with thousands of gallons of milk that goes to that city monthly. The cattle industry in Davie is bringing more money to our cattle raisers annually, than the entire cotton or tobacco crop. What we need is more good cattle, hogs, corn, wheat and feed stuff and less cotton and tobacco.

Thirteen registered Jersey heifers and one pure bred bull were purchased recently by a group of 4 H club boys and farmers in Northampton county.

Strict enforcement of the vagrancy laws will leave less work for our charitable organizations as well as our courts. Vagrants usually become criminals.

THE STORY

Hilton Hanby, prosperous York merchant, has purchased a country place—the Green near Pine Plains, N. C. A former tenant of the house, calls at his door a curse. Further details are impressed on Smucker, Hanby's secretary who claims to be a chanter for Sir St.mour, former occupant of the place. The Hanbys' warnings they have received from Miss Selma Smucker's acquaintance in form of practical joke.

CHAPTER II—

"Who are you, to butt in and demand my property?" Hanby came into the room and demanded to be backed out.

"Forgot all about you," Hanby admitted. "It was my party. What is it?"

"I wish to see Mrs. Smucker returned. It's life and death."

Hanby saw that the man was drinking, and the customary stimulant he had some of Smucker's brandy. He had always been a teetotaler, but his employee disapproved of him being unprepared for that glare from the red eyes that came as something of a surprise.

"Mrs. Hanby is busy," Mrs. Smucker returned. "I'll be home in a moment."

"Also I don't propose to discuss business troubles on her account that you behaved in a most unbecoming manner just now. It's none of my business whether I have a dinner or not."

"A matter of life and death," Mrs. Smucker went on. "I'm spending my car fare, and you insult me."

"It's nothing to do with me, then?"

"A matter of life and death," Mrs. Hanby must hear. Hanby paused a moment.

"All right! I'll see you in a moment."

Dina Hanby had to go. She had to go to that in Smucker her employer a disaffected sort of man. She had to go to the intruder, who found fuel for his wrath. He was a woman of forty, who was more than thirty. He hated Mrs. Smucker was not beautiful. He saw a splendid woman who held herself in a most considered that at all should be plump, and about dress or complexion she should be a good thing.

Mrs. Hanby outraged feminine proportion. She was slender and graceful. She was a beauty, when the light fell on her face, he had mistaken her for a girl.

"I am the death's head," he said pompously. "I have been imagining yourself of a great mansion. I have seen your death and disaster!"

"Oh, Hill!" she cried. "What does that mean?"

What the red-faced man had said to her now wove into an interesting narrative. Mrs. Hanby eagerly learned that which she and her children had, since its era a hundred years before, a tomb of all young people. There was a strain in her, and she had to go to see Hanby in person. "Is this true?" she asked.

It relieved her to find that she was unaffected by the dread. She did not mind an accurate description of her own appearance.

"Smucker, it's kind of the trouble to come by, at last; but you are a practical man, one already, and this is a good thing."

"You think I'm a fool?"

"No—I think you are as a fool."

"And this is your own fault. It was in Smucker's mind to note the unusual to which passed across the face."

"I will have a taxi to the subway. I'm obliged to you for your information. You didn't know a victim of a man trying to kill me."

While Hanby went in a booth outside, on Mrs. Hanby. He was a man of great uneasiness. It gave of it, a gratifying sensation.

"Dance, drink, and while you may!" he said.

What the Gray House Hid

The Mystery of a Haunted Mansion

THE STORY

Hilton Hanby, prosperous New York merchant, has purchased a country place—the Gray house, near Pine Plains. Miss Selena, a former tenant of the Gray house, calls at his office and warns him that the house is under a curse. Further alarming details are impressed upon a doctor who claims to have been chauffeur for Sir Stanford Seymour, former occupant of the place. The Hanbys laugh off the warnings they have received both from Miss Selena and from Smucker's acquaintance, as some form of practical joke.

CHAPTER II—Continued

"Who are you, to butt in like that?" she demanded finally. Hanby came into the room, and he backed out. "Forgot all about you, Smucker," Hanby admitted. "It was a birthday party. What is it?" "I wish to see Mrs. Hanby, too," Smucker returned. "It's a matter of life and death."

Danby saw that the fellow had been drinking, and that the unaccustomed stimulant had let down some of Smucker's barriers of restraint. He had always known that his employee disapproved of him, but he was unprepared for the hate that glared from the red-rimmed eyes. "It came as something of a shock. Mrs. Hanby is busy," he said. "Also I don't propose to inflict any business troubles on her. I may say that you behaved in very questionable taste in shouting what you did just now. It's none of your business whether I have a few people in to dinner, is it?"

"A matter of life and death," Smucker went on. "I am wasting my time, alarming my own wife, and spending car fare, all for your benefit, and you insult me. I might have expected it!"

"It's nothing to do with office business, then?" "A matter of life and death. Mrs. Hanby must hear it, too."

"All right! I'll send for her," Hanby paused a moment. Dina Hanby had long ago known that in Smucker her husband employed a disaffected and unpleasant sort of man. She bowed coldly to the intruder, who found in her fresh fuel for his wrath. He saw a lovely woman of forty, who looked no more than thirty. He hated her for that. Mrs. Smucker was not dowered with beauty. He saw a splendidly dressed woman who held herself regally. He considered that at forty a woman should be plump, and not concerned about dress or complexion. First of all she should be a good cook.

Mrs. Hanby outraged his sense of feminine proportion. She was slender and graceful. Once, in the office, when the light had been poor, he had mistaken her for Celia. "I am the death's head at the feast," he said pompously. "You have been imagining yourself the mistress of a great mansion. It is a house of death and disaster!"

"Oh, Bill!" she cried. "What does he mean?" "What the red-faced man had told him an hour or so earlier, Smucker now wove into an intensely dramatic narrative. Mrs. Hanby, listening eagerly, learned that the house in which she and her children were to live had, since its erection more than a hundred years before, been the tomb of all young people who inhabited it. There was a superstitious strain in her, and Smucker could see that she grew uneasy. It irritated him to see Hanby immune from fear. "Is this true?" she asked her husband.

"I relieved her to see him wholly unaffected by the dread that gripped her. She did not understand why he was concerned mainly with getting an accurate description of Mr. Seymour's chauffeur. "Smucker, it's kind of you to take the trouble to come here," said Hanby, at last; "but you've been the victim of a practical joker. I've had one already, and this is the second."

"You think I'm lying?" Smucker cried angrily. "No—I think you were used merely as a tool."

"And this is your gratitude?" Bitterness was in Smucker's voice. "It is only what I might have expected!" Smucker would have been wise to note the unusual look of sternness which passed across his employer's face.

"I will have a taxi called to take you to the subway. It is raining. I'm obliged to you for coming, Smucker. You didn't know you were the victim of a man trying to play a joke on me."

While Hanby went to the telephone in a booth outside, Smucker turned on Mrs. Hanby. He revealed in her uneasiness. It gave him, the bringer of it, a gratifying sense of superiority. "Dance, drink, revel, and oppress while you may!" he said. "The time

is coming when we intellectuals will reign!" He looked through the window, which showed the Hudson. "What do you see there?" "The river, I suppose," said Mrs. Hanby, puzzled. "It will be a river of blood some day, from Albany to the sea. It will be reddened with the blood of corrupt politicians, of the officer caste trained at West Point to enslave us. It will be red with the blood of New York capitalists. His blood, your husband's blood—"

Dina Hanby looked at him with flashing eyes. Why did this vindictive

"Be Quiet," She Said, "You Disgust Me!"

little creature hate a man who had kept him on year after year, simply through pity?

"Be quiet," she said, "you disgust me!" She turned from him, and met her husband coming in.

"The taxi's coming," he said. "Let me know tomorrow to what expense you've been put. Good night!"

When Smucker had gone, Dina put her hands on her husband's shoulders. "Dear," she said, "you've always been very good to me. You've given me everything that I wanted and much more than I deserved. I want to ask a favor."

"It is granted," he replied; "even unto the hair of my head and the tips of my fingers, and the small change I have in my pocket."

"Get rid of that man the first thing tomorrow. He is evil, and hates you."

"All right, Salome," said Hanby. "His head will be on a charger for you any time you care to call for it after ten o'clock tomorrow morning."

As she went back to her guests, she asked him why he laughed at Smucker's story.

"Because Reggie Brophy and Bill Pelham have put up a joke on me. Reggie is mad as a hornet because this cuts out our Wednesday and Sunday foursome. Pelham said he'd prevent me from going there by hook or crook. If that wasn't Reggie feeding old Smucker with that haunted house stuff, I'll drink the lake dry!"

"It might be Reggie," she admitted. "It would be just like him. What about Bill Pelham?"

"Bill is Selena, the patron saint of Pikes and toy Poms. Listen to the story of Miss Selena, who hates and despises men, particularly me. Bill is about the best actor in our crowd, and he made up pretty well—well enough to fool me for a time."

"But would they do it?" she asked. "It will be a long wet drink for me if I'm wrong," he laughed.

"Wanted on the long distance, sir," said Mary Sloan. "Ask Junior to go," said his father. "I want to tell the rest about Reggie and Bill," he explained to his wife.

Before he could commence his recital, Junior, usually impassive to the point of irritation, burst in.

"It's from the police," at Pine Plains," he cried. "Dad, your care-

taker at the Gray house has been murdered!"

Hilton Hanby came back to his guests after ten minutes at the telephone.

"A very unfortunate thing," he told them. "A man named Kerr, whom I engaged through my lawyers only yesterday, has been killed. I must go up tomorrow and see about it."

"I'll go with you, dad," Junior said promptly. "Tell us the details."

"There are none. Kerr was an unmarried man of good character, a veteran of the Spanish-American war, who had been living at Kingstow. I wanted a caretaker, because we shan't be living there for a time, and I've been warned that thieves make a specialty of new plumbing fixtures, if there's nobody to guard them."

"But you haven't had time to put any in," said Dina.

"That's the mysterious part of it—there's nothing to steal. Kerr moved a bed and a few household belongings into a ground-floor room, and they have not been disturbed."

"Was he killed inside the house?" Celia demanded.

"No—outside. His body was found in the lake."

Hanby shot a quick look at his wife as he said this. From the little frown she gave he saw that the memory of what Smucker had said lingered with her and assumed a new importance at this tragedy.

"Was he drowned?" Dina asked. "No—his head was battered in with the handle of a pick. Why they threw him in the lake I can't imagine."

"They did it to conceal the body," suggested Junior. "The weights probably slipped off and the corpse came to the surface again."

"Lakes are always dragged," Hanby replied. "It seems a silly, meaningless crime."

"There's always motivation, if you know where to look for it," Junior answered wisely. "On the whole, it's rather fortunate that I'm going up with you tomorrow."

"The police will be delighted," his father said.

Hanby was annoyed to think that this crime had intruded itself on his birthday. It was a bad beginning for his ownership of the Gray house.

"The police," sneered Junior. "What do the police know of the psychology of crime?"

"Pity them, don't chide them," Celia mocked. "Poor policemen, they haven't been to Mercersburg and New Haven."

"There's probably a whole lot more in this than you think," Junior went on, unshaken. "On the face of it, it's a crazy, motiveless crime. We may run into all sorts of amazing things—wheels within wheels. Kerr may not have been a caretaker. He may have been sent there to spy on us."

"Then who killed him?" Hanby snapped. He could see that Dina was disturbed more than he liked.

"And why?" "That we shall find out," replied Junior. "When first you spoke of the Gray house, I thought there was something mysterious about it. Why did it stand empty so long? Haunted, probably. Oh, these things happen in your generation they scoffed, but we are wiser. In my psychology class—"

"Tell me about it tomorrow," interrupted his father. "Come on, people—let's dance! This is my birthday. Away with gloom!"

He seized Dina, and they began elaborate improvisations on a fox-trot motif.

"You don't think there's anything in it, do you?" Dina asked him. "I mean, anything to do with what that awful little man was saying?"

"Of course not," he answered. "We shall find at the inquest that some roving tramp killed Kerr to steal his savings."

"Tramps!" she said. She was city-bred, and distrusted remote places. "There are always tramps, aren't there?"

"They won't worry us. We shall have a house filled with people, and there'll be gardeners and workers. Also—this is my great surprise—I'm taking a year off from business. I can afford it."

Lesson for January 19

JESUS BEGINS HIS MINISTRY.

LESSON TEXT—Matthew 4:12-25.
GOLDEN TEXT—Repent, for the kingdom of heaven is at hand.
PRIMARY TOPIC—Jesus Chooses Some Helpers.
JUNIOR TOPIC—Jesus Begins His Ministry.
INTERMEDIATE AND SENIOR TOPIC—How Jesus Began His Ministry.
YOUNG PEOPLE AND ADULT TOPIC—The Comprehensive Program of Jesus.

Jesus began His official work as Messiah at Jerusalem where He presented Himself to the men of the Jewish nation.

I. The King His Own Herald (vv. 12-17).

1. The reason for this (v. 12). The news of the imprisonment of John the Baptist caused Jesus to forsake Judea and go into Galilee. The fate of John was accepted as foreshadowing His own. The rejection of the forerunner meant the rejection of the King, whose advent he proclaimed. Because of this He withdrew from the metropolis and went to the remote regions where His work would attract less attention.

2. To whom the proclamation was made (vv. 13-16).

It was to the people at Capernaum in fulfillment of Isaiah's prophecy (9:1, 2). These people were not blessed with such privileges as those in and around Jerusalem. Thus we see that the darkest and most corrupt of the provinces was getting the light first. In this we see a foreshadowing of the present age, when the gospel of the grace of God is being preached to the Gentiles.

3. His message (v. 17).

"Repent, for the kingdom of heaven is at hand. This is the same kingdom which John the Baptist and the Old Testament prophets proclaimed. It means the Messianic earth rule of Jesus Christ. It is for this we pray when we intelligently say, 'Thy kingdom come.' At that time the light will break forth which shall illumine the whole earth."

II. The King Calling to Himself Assistants (vv. 18-22).

1. His command of authority (vv. 18, 19). He did not endeavor to persuade them, and He did not use arguments but issued the mandate. To command is the King's prerogative—not to argue or entreat.

2. The station of the servants called (vv. 18, 21).

They were men of lowly birth and occupation—fishermen. God chooses the foolish things of this world to confound the wise and the weak things to confound the things which are mighty (1 Cor. 1:26).

3. They were called to definite service (v. 19).

"I will make you fishers of men." He had previously called them to be disciples (John 1:36-42). He now called them to service. This call therefore was not the gospel call to sinners which is "believe on me," but the call to service of those who have already heeded His call to discipleship. The qualities which made for good fishers—patience, bravery to face the storm and the night, the perseverance which tolled all night though no fish were caught—would make for good fishers of men.

4. Their prompt obedience (vv. 20, 22).

They put their trust in Him who called, believing that He was able to supply their needs. There is no time for delay when the King commands.

III. The King's Triumphant Progress (vv. 23-25).

He went the whole round of Galilee, teaching the Scriptures, preaching the Gospel of the Kingdom, and healing all manner of diseases. He did a three-fold work:

1. Teaching the Scriptures in the synagogues (v. 23).

The revelation of God needed to be explained. This is what He was doing in Nazareth (Luke 4:16-22). Such is the primary business of every minister.

2. Preaching the glad tidings of the kingdom (v. 23).

The King who was present and was heralding His own mission, was ready to establish His kingdom if they would have been willing to receive Him.

3. Healing all manner of diseases (v. 23-25).

"His fame went throughout all Syria, and they brought unto Him all sick people that were taken with divers diseases and torments, and those which were possessed with devils, and those which were lunatic, and those that had the palsy; and He healed them."

What God Has to Tell Us

If we think no more of ourselves than we ought to think, if we seek not our own but others' welfare, if we are prepared to take all things as God's dealings with us, then we may have a chance of catching from time to time what God has to tell us.

Paying Toll to the Devil

He who does evil that good may come pays a toll to the devil to let him into heaven.—J. C. and A. W. Hare.

Costly "Mountain Canary"
A Pittsburgh (Pa.) woman and her children, visiting in the mountains of Arizona the last summer, had a great time mountain-climbing on burros. One day they had an opportunity to buy one of the "mountain canaries" for 35 cents and decided to ship it back home. They sent it by express to Pennsylvania and the bill was \$168.

AFTER OPERATIONS

"I was three times under an operation and I was very weak and nervous and could not eat. I suffered for ten years. I learned about Lydia E. Pinkham's Vegetable Compound and my husband bought me a bottle. I felt a little better and he bought me two more. I had the Compound in my home for two years and took it all the time. Now I feel strong and can do anything."—Mrs. A. Michalk, 5443 Mitchell Ave., Detroit, Michigan.

The Children's Corner

THE PRINCESS ENA ENDOWMENT

The fairies were discussing it. "It isn't wise, it isn't wise, and it isn't wise," insisted the Fairy Queen.

MAKING A STRING BOX

Ever try making a string-box? You will need either a square or round cardboard box large enough to hold a ball of cord.

Pierce a hole in the top of the cover of your box. Thread the string through it to the outside. Place the cover on the box again.

Now if you have some fancy paper... wall paper maybe... cut a strip to cover the side of the box. Fasten this with a point and a bit of glue or a paper fastener that has long prongs.

This way, string will never get knotted. And such a string-box will be useful in the kitchen or living-room where all at your house may use it.

the door and buried her chin in her hands. "Let me see. It always turns out wrongly, if you give the children everything—it always has turned out wrongly if they have everything they need handed to them at once.

"Well," explained the princess, "you have been shown that too many gifts are harmful. But it is also harmful to have nothing."

"The fairy council pressed more closely about Princess Ena in a semi-circle, and everyone agreed.

"But if she had the makings," continued Princess Ena, "it wouldn't matter if she were rich or poor. If she wished that she knew something—about the fairies, for instance—some where about would be a book on fairies. She would have only to read it.

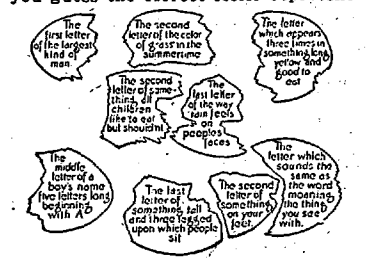

"Supposing we did give Alice Beauty, Wealth and Wit, the customary three gifts, would she turn out any better than the many other infants to whom we have given them?" questioned the Queen again.

Princess Ena had gone as far as the door and stood there with a volume of psychology in one hand and a phonograph record in the other, listening.

"What would you suggest doing, darling?" asked the Queen Mother, fondly. The Princess dropped the floor by

AN EGG SHELL PUZZLE

ed in each piece, you should be able to spell with them the name of a large animal which was in the egg before it was broken.

for it never has been tested," suggested the king's counselor.

The queen said to the king, "Shall we try it, father, just this once?"

The king replied, "It's revolutionary. But just this once!"

So the queen turned to the princess: "We will try it just this once, daugh-

ter. Now, please go and dance among the flowers," she said.

The princess begged them both. Meanwhile Baby Alice grew in wisdom and power. If she wanted a doll, she made it, if a party, she gave it, if an education, she earned it.

Princess Ena directed the fairy telescope toward Alice, then called the other fairies to look, exclaiming: "See my foster child! She is the happiest child alive with but one gift."

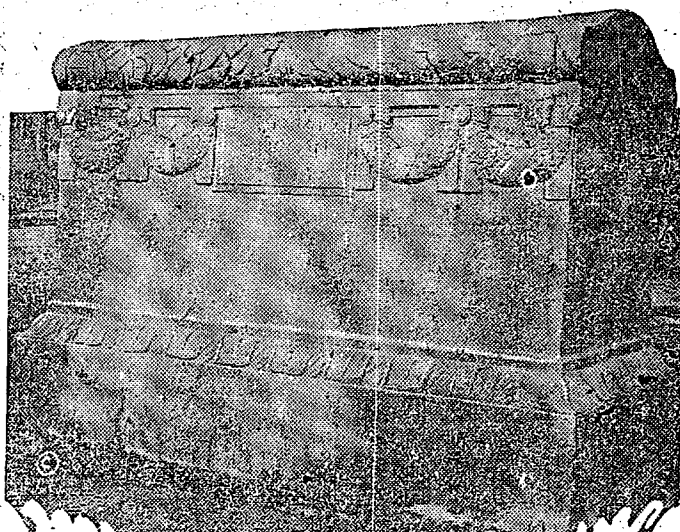

All the fairies took turns looking through the telescope at Alice, and found that it was impossible to praise her too highly.

So the fairies held another council that lasted five minutes. They decided once and for all that their one gift should be THE PRINCESS ENA ENDOWMENT. You find it in your neighborhood; you find it in every neighborhood in the world. This fairy gift is a wonderful one, for if you find out you have the makings (as you have) then you can have everything else.

The fairies are still watching the result of this endowment through the telescope.

Why We Seek Adventure

By M. K. THOMSON, Ph. D.

THE life without adventure is like a honeymoon without a bride. Life itself is a great adventure.

In adventure we taste the essence of life.

It is no idle gesture that the world has gone mad over the heroes of the air. The greetings and honors heaped upon the successful pioneers who cross an ocean or conquer the frozen North spring spontaneously from the heart of every man, woman and child of all nationalities.

It used to be said that all the world loves a lover presumably because love is universal in its appeal. Now we say that all the world loves a success-

ful airman and precisely for the same reason. There is a universal appeal in the spirit of adventure.

No doubt war, with all its barbarity and utter folly, appeals to the adventurous spirit in us.

The spirit of adventure is illustrated in our plays and games. The popularity of any sport seems to be in the ratio of the risk and danger involved.

The inducement of boxing contests is the imminent possibility of a knock-out. And how disappointed the fans are when there is not even a knock-down!

Where a Grasshopper Ought to Be

By Douglas Malloch.

SOMEbody sent to me from the South. A little package of Southern bloom.

When Boreas blows with his wintry mouth. With thoughts of summer it fills my room.

But when the package I had found untied. What else do you think I found inside?

A grasshopper just crawled out somehow. And blinked in wonder, "Where am I now?"

For what does a grasshopper know of snow? And how can a grasshopper stand the cold.

With never a sunlit field to go. To nibble the grass and gather the gold?

Of course, there was only one thing to do. So I wrapped him up with a leaf or two.

And I mailed him back to the South, you see. The place where a grasshopper ought to be.

I had a letter—it came today— It was not from him, but a friend of mine. And it said the grasshopper hopped away.

With a happy leap in the bright sunshine. And there, no doubt, he will sit tonight.

And tell the rest of a land of white. His folks quite proud of their traveled sire. While the others say, "What an awful liar!"

The Steppes regions are so called from the Russian word "step" or "stepl", meaning waste or heath.

Quick to Believe; Quickly Mistaken

By JEAN NEWTON

WHO is quick to believe is quickly mistaken.

Look back over the things that you most regret in your life, and you will find that at least a great part of them were the children of sudden impulse, acted upon without consideration, and usually almost as quickly repented of.

You will find that those incidents, acts, decisions which were carefully weighed and considered in advance are the ones which have yielded the most satisfaction, which have been fruitful with pleasure and content and without regrets.

"Quick to believe, quickly mistaken." Even in the little matters of life such as selecting clothes, the woman who is quickest in making her choice and apparently the most easily pleased is very likely to be one who is dissatisfied with her purchase after she has taken it home, while the one who gives time and thought to the matter and does not accept so readily whatever is shown her is

usually satisfied and pleased with what she has bought, deriving pleasure from it as long as it lasts.

There are two sides to this matter. One is yourself guarding against

being too "quick to believe," lest you be "quickly mistaken." The other is not taking too seriously the person who is too easily won over, who is too delightfully "quick to believe."

A salesman is better off with a discriminating buyer, one who is not too easily "sold" because such a one, when finally convinced, remains "sold," while the more quickly accommodating customer is known to frequently change his mind; so all of us are better off with people who do not accept too quickly, who are not too ready to give their confidence, their endorsement, their friendship. Then when these are attained they are more likely to be lasting and worthwhile.

Hard to Trace Origin

Various fanciful derivations have been invented for the term "hocus pocus," but nothing definite is known. It was probably invented by jugglers in imitation of Latin.

Getting Right Start

An old saying reads: "He that would eat a good dinner let him eat a good breakfast." In other words, to enjoy the whole day, one must make the right start.

"The day seems to be coming," says Pondering Ponzelle, "when you won't know whether 'wrapped in thought,' is a psychological note or a fashion hint."

Some Seasonable Good Things

By NELLIE MAXWELL

WITH a few cans of corn one may have many good dishes during the winter. If home canned, fresh from the field, there can be no more tasty dish.

Corn Pudding. Take one can of corn, add one beaten egg, one-half cupful of thin cream, salt to season, dot with bits of butter, and bake 20 minutes.

Virginia Sugar Biscuit. This is the biscuit of which George Washington was so proud, served with hot chocolate in which was beaten a yolk of egg.

Take one-half pound of brown sugar, one-fourth pound of butter, one pound of flour. Melt the butter in three-fourths of a cupful of milk, knead in the flour mixed with the sugar; when well blended roll very thin and cut into strips. Bake in a hot oven. Pile strips log cabin fashion and serve with chocolate.

Bean Crust Pies. Take one cupful of boiled beans, mash, add one-half teaspoonful of salt, one teaspoonful of baking powder, one egg and two tablespoonfuls of melted butter; add enough flour to make a soft dough. Roll out one-eighth of an

inch thick, line pastry tin and fill with any cooked vegetable or meat. Bake until brown.

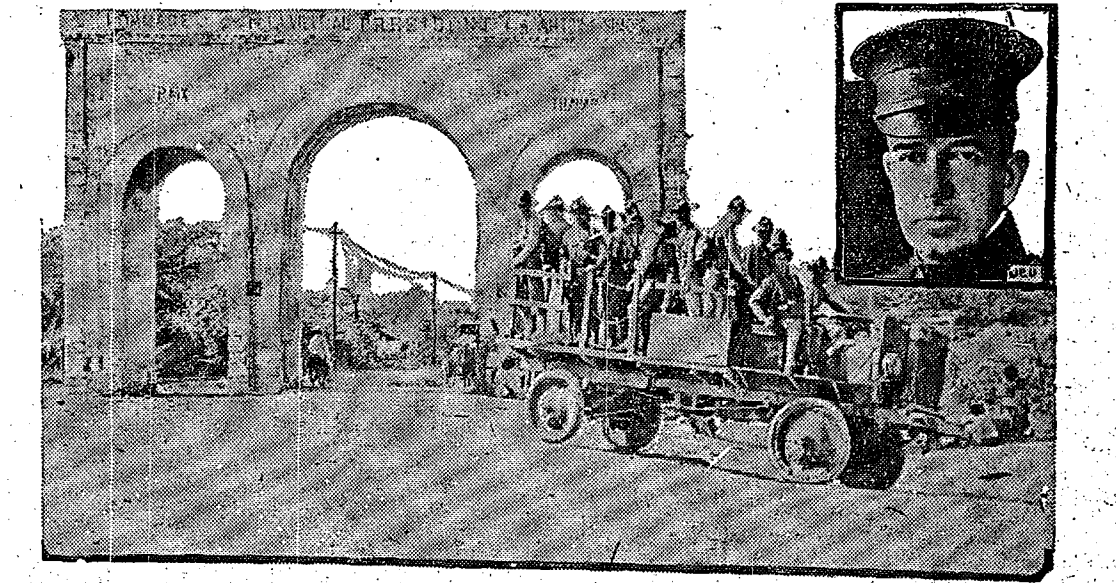

Nice Stuffing for Children. Take three cupfuls of bread crumbs, one cupful of milk, one-half an onion chopped, pepper and salt to taste, and one-half cupful of ground peanuts.

Baked Bean Sandwiches. Beans make a most tasty sandwich. Spread with butter and add beans that have been seasoned with minced onion, a tablespoonful of butter or cream, and boiled salad dressing to make of the consistency to spread. This filling is good on crisp crackers.

Ham a la King. Add one chopped green pepper to two cupfuls of rich white sauce, add one-fourth cupful of quartered mushrooms, two cupfuls of diced ham, two hard-cooked eggs cut into quarters for garnish. Serve on buttered toast.

Coupe Greenbrier. Cut fine one cupful of preserved figs. Stir into one quart of vanilla ice cream. Pack in ice and salt and serve in coupe glasses with a rose of whipped cream on top of each.

Salts Fine for Aching Kidneys

When Back Hurts Flush Your Kidneys as You Clean Your Bowels

Most folks forget that the kidneys, like the bowels, sometimes get sluggish and clogged, and a flushing occasionally, else we have backache and dull misery in the kidney region, severe headaches, rheumatic twinges, torpid liver, acid stomach, sleeplessness and all sorts of bladder disorders.

You simply must keep your kidneys active and clean and the moment you feel an ache or pain in the kidney region begin drinking lots of water.

Also get about four ounces of Jad Salts from any good drug store here, take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine.

This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and is intended to flush clogged kidneys and help stimulate them to activity. It also helps neutralize the acids in the urine so they no longer irritate, thus helping to relieve bladder disorders.

Jad Salts is inexpensive; makes a delightful effervescent lithia water drink which everybody should take now and then to help keep their kidneys clean.

A well-known local druggist says he sells lots of Jad Salts to folks who believe in trying to correct kidney trouble while it is only trouble.

To Avoid Infection Use Hanford's Balsam of Myrrh

Expecting Him

They are telling this on a well known country banker. A woman from out of town happened to park her car in front of his bank. When she came to reclaim it she found a fat tire. The banker, noticing her predicament, told her he would have it attended to at once, and did so. The woman was very grateful, and said to him: "I teach a Sunday school class in the penitentiary; when you get down to Lincoln look me up." He is wondering what she had on her mind.

Different

"American Extravagance" was the topic of Senator Shortridge at a Washington luncheon. "Our financial success is making fools of some of us," he declared, "but I am happy to say that at least some glimmer of sanity still remains. Yes, there are still a few like Jones.

"You know, dear," cooed Mrs. Jones, "that I ought to dress according to the fashion book."

"You'll dress according to my check book," retorted Jones firmly.

Dorothy's Mother Proves Claim

Children don't ordinarily take to medicines but here's one that all of them love. Perhaps it shouldn't be called a medicine at all. It's more like a rich, concentrated food. It's pure, wholesome, sweet to the taste and sweet in your child's little stomach.

It builds up and strengthens weak, puny, underweight children, makes them eat heartily, brings the roses back to their cheeks, makes them playful, energetic, full of life. And no biliousness, headache, constipation, feverish, fretful baby or child ever failed to respond to the gentle influence of California Fig Syrup on their little bowels. It starts lazy bowels quick, cleans them out thoroughly, tones and strengthens them so they continue to act normally, of their own accord.

Millions of mothers know about California Fig Syrup from experience. A Western mother, Mrs. J. G. Moore, 119 Cliff Ave., San Antonio, Texas, says: "California Fig Syrup is certainly all that's claimed for it. I have proved that with my little Dorothy. She was a bottle baby and very delicate. Her bowels were weak. I started her on Fig Syrup when she was a few months old and it regulated her, quick. I have used it with her ever since for colds and every little set-back and her wonderful condition tells better than words how it helps."

Don't be imposed on. See that the Fig Syrup you buy bears the name, "California" so you'll get the genuine, famous for 50 years.

GAINS SHOWN IN WOMEN'S WEALTH

Economic Strides Revealed in
Tax Returns.

Washington.—Rapid economic strides
made by women in recent years are
reflected in income-tax returns, which
reveal members of the fair sex as an
important source of revenue for the
federal government.

An analysis of 1927 income-tax re-
turns made by treasury experts dis-
closes that single women made \$35,189
returns in that year and had net tax-
able income aggregating \$2,233,344,068.
In addition wives filed 112,779 sepa-
rate returns and reported net income
of \$1,219,714,318.

For the same year single men filed
1,512,497 tax returns and reported ag-
gregate net taxable income of 4,912-
025,508. Husbands and wives filing
joint returns totaled 2,016,850 and had
net taxable income of \$13,870,232,343.

Study of the above figures shows
that a greater part of the federal re-
venue from individual income taxes is
derived from married persons, while
returns by single women constituted
one-third the number filed by single
men. Single women also had net in-
come aggregating about one-third those
reported by single men.

On a percentage basis, the statistics
revealed, women filed 15.50 per cent
of all individual tax returns and had
15.32 of all taxable net income re-
ported. Single men made 34.44 per
cent of all returns and reported 21.80
per cent of all taxable income. Mar-
ried persons filed 50 per cent of the
returns and had 61 per cent of the
aggregate net income taxed.

Three single women and three sin-
gle men paid taxes on incomes rang-
ing between \$3,000,000 and \$4,000,000,
while fifteen husbands and wives re-
ported incomes in that class. Five
single men reported incomes of \$5,000,
000 and more, but there were no single
women in this class.

Wants Beauty Clinic in Every American City

New York.—Have you a homeliness
handicap?

Has a wart on the nose kept you
from becoming a captain of industry,
or an unsightly complexion detained
your rise to the top of your profes-
sion?

Are you at an economic disadvan-
tage because the girl at the next desk
has a brow, low but smooth as al-
abaster?

Then you'll hail the suggestion of
Ruth D. Maurer, beauty authority of
national reputation, that every Amer-
ican city should have a municipal
beauty clinic.

"Berlin's famous 'Advisory Bureau
of Social Cosmetics' has been the
solution of one phase of Germany's
unemployment problem," Mrs. Maurer
said at a meeting of public health of-
ficials here. "Placement bureau man-
agers and directors of personnel
whom I have interviewed assure me
that such bureaus might fairly be ex-
pected to accomplish similar results
in American industrial centers."

Mistletoe Is Doomed as Forest Nuisance

Snoqualmie, Wash.—Mistletoe is
doomed as a pest in national forests
of the northwest. There is no objec-
tion to Christmas mistletoe and its
sentimental uses, but in valuable for-
ests the plant increases so rapidly
that it chokes the life of its host.

The forest service hopes to exter-
minate the plant within seven or eight
years by tearing up dense areas of
the trappers.

Neighbors Husk Corn So Boy Can Go to School

Muncie, Ind.—Neighbors gathered
22 acres of corn here for Mrs. George
Burgess, a widow, rather than see her
son, James, a sophomore in high, quit
his studies to husk the corn. Sixty-
four persons gathered at her farm at
6:30 a. m. and by 2 p. m. the corn
was cribbed. When the corn was
husked the neighbors brought baskets,
a dinner was served, and it was made
a picnic occasion.

Deer Wrecks Motor; State Refuses Pay

Harrisburg, Pa.—A deer col-
lided with the motor car of
Ellas Fineberg, Scranton, Pa.,
while driving in the Pocono
mountains, damaging radiator,
fenders and headlights.

It cost Fineberg \$44.70 to
have the damaged car repaired.
Fineberg sent the bill from a
Scranton garage to the highway
patrol for collection.

"I am advised that the respon-
sibility for the care of this road is
with the state and that the
state highway patrol is respon-
sible for such damage," Fine-
berg wrote.

Capt. W. G. Price, head of the
patrol, returned the bill to Fine-
berg, acknowledging it, but say-
ing that Fineberg would have to
take care of it himself.

CENSUS TO PUT US IN GOLDFISH BOWL

Questions Will Leave No
Secrets Unrevealed.

Washington.—How many women in
America are working? How many
families own radio sets? What per-
centage of household heads own their
own homes? At what age are most
persons married for the first time?

These are some of the questions
that will be answered for the country
as a whole for the first time after
completion of the 1930 census. In-
terrogations aimed to obtain the re-
plies were included in a list of new
questions to be asked by enumerators
next April, as announced by William M.
Stewart, director of the census bureau.

Forms Basis of Advertising.
Most important of the new ques-
tions, in the opinion of Mr. Stewart,
is that relating to home owning. The
enumerators will find out from the
head of each family the value of his
home if owned, or the monthly rental
if rented, thus making possible a clas-
sification of families according to buy-
ing power and furnishing a basis for
selling and advertising campaigns.

The question on radio sets, accord-
ing to Mr. Stewart, will tell radio sta-
tion operators and advertisers just
how large the potential radio audi-
ence is.

Women doing housework in their
own homes will be designated in the
1930 census reports as "home mak-
ers." This designation will be entered
in the family relationship column rat-
her than in the occupation column, in
order that women who follow a pro-
fession or other gainful occupation, in
addition to being home makers, may
properly be classified in respect to
both lines of activity. This will re-
veal for the first time exactly how
many women are working and to what
extent.

For Two Purposes.

The question asking for the age at
first marriage is intended to serve
two purposes. First, it will give de-
finite information as to the relative age
at marriage of persons in different
racial and economic groups; second,
it will make possible a tabulation on the
number of children in families of wo-
men who have been married a stated
number of years.

"In the classification of gainful
workers according to occupation and
industry it is proposed to put much
greater stress than heretofore on the
returns for industry," Mr. Stewart
said. "A special schedule for unem-
ployed will contain a number of
questions designed to separate those
not working into several classes, in-
cluding, besides those absolutely un-
employed, those who have jobs for the
time being and those laid off without
pay."

Taxidermist Brings Frozen Snake to Life

Colorado Springs, Colo.—Recently
a heavy snowstorm swept over the
Rocky mountains and a seven-foot boa
constrictor in his steam-heated cage
"froze to death." Spencer Penrose,
the owner of the zoo at the foot of
Cheyenne mountain, near here, visited
the boa in the afternoon and found him
stretched out upon the huge limb of a
tree, which is his favorite haunt in
captivity.

The next morning a blizzard having
intervened, the keeper found the boa
frozen solid, and Mr. Penrose sent him
to the taxidermist to be stuffed.

The taxidermist and his assistants
rolled him out on the floor, seemingly
a solid ice mass, while they sharpened
their knives. As the taxidermist
placed the point of his blade in the
boa's head the snake opened his eyes.
The man jumped. A quiver ran down
the boa's coils, his tail swished fur-
iously from side to side. The attend-
ants vanished and the boa has another
life to lose.

New Map of Europe Uses 46 Languages

Washington.—The National Geo-
graphic society has just issued a new
map of Europe in forty-six languages.
The forty-six languages were required
to give the precise official spellings
of the place names in countries where
the places exist.

In the years following the armis-
tice one of the notable changes in Eu-
rope has been the development and
intensification of natural feeling with
respect to geographical place names.
"Warsaw is Warszawa to the Poles;
prewar Revel has been replaced by
Tallinn in Estonia; St. Petersburg was
transformed into Petrograd, but now
is Leningrad. So with hundreds of the
names which, like the places they rep-
resent, have endured for centuries.

The traveler soon finds that Brus-
sels, in Belgium, is Bruxelles; that
Copenhagen is Kobenhavn; that Vien-
na is Wien, and Constantinople is Is-
tanbul.

Brazilian Row Between Church and State Ends

Rio de Janeiro.—An agreement be-
tween the church and state was
brought about in the state of Minas
Geraes recently when D. Antonio
Cabral, archbishop of Belo Horizonte,
handed a gold pen to the president
of the state for him to sign the follow-
ing decree: "In educational establish-
ments maintained by the government
religious instruction will in the future
be permitted for a space of time not
more than 50 minutes each day for
three days of the week."

Nose-Pulling Tells if They Are Sober

Lawrence, Mass.—Convinced
that your nose knows, police
have adopted a "proboscis-punch-
ing" policy to determine whether
alleged drunken drivers are in-
toxicated.

The suspect closes his eyes
and then makes six attempts to
grab his nose. The plan was
first tried on Arthur Parquette,
who was given his freedom after
finding his nose four times
in six attempts.

LIGHTS BY GRANT DIXON of NEW YORK

Particular
Johnny O'Connor, who knows his
Broadway better, probably, than any
other man, tells the story of the ef-
forts of a vaudeville agent to sign
up the contestants in the recent six-day
bicycle race held at Madison Square
Garden. He thought that the winning
team would appreciate the extra
money to be gained from a short tour
in vaudeville. But the winners re-
fused the offer when they learned
that they would have to play four
shows a day and five on Saturdays
and Sundays. This reminded O'Con-
nor of the vaudeville engagement un-
dertaken by "Doc" Cook after he
"discovered" the North pole. Cook,
says O'Connor, walked off the bill at
McVicker's theater in Chicago, com-
plaining that his dressing room was
too cold.

Politest

H. E. Ward, president of the Irving
Trust company, has been set down in
history as the most polite of all
bankers. His company is erecting a
50-story skyscraper at 1 Wall street.
Just before erection of the steel
skeleton began, Mr. Ward sent a note
to each of some 550 captains of in-
dustry and finance whose offices are
in adjoining buildings. The note to
J. P. Morgan read as follows:

"May we hope you will bear with
us as patiently as possible during the
unavoidable noisy weeks that lie just
ahead. . . . Our builder is pressing
the work at top speed. His schedule
and the present season of closed win-
dows will at least minimize your dis-
comfort."

Leg Facts

A gentleman who works on Variety
and who consequently calls himself a
Variety mugg reports that dance di-
rectors have become such experts
that they can tell a girl's nationality
from the look of her legs—and also
how good a dancer she is. Says he:
"The chorine who may be a cross-
word puzzle from ear to ear might be
extra intelligent according to how her
thigh reads. Dutch girls' legs are
shorter and chubbier than most.
Spanish girls can be identified by
thin ankles and knees. Inner ankle
curves denote German blood. A
French girl has small bones and ex-
travagant muscular curves. Intelli-
gent girls lift their legs higher while
walking. American girls have the
longest shins."

Fruitless Search

The American Society for Psychical
Research has been conducting a fruit-
less search for a real New York ghost.
But, it appears, ghosts just can't live
in New York. They can't stand apart-
ment house life, and there are no suit-
able private houses which might be
haunted. The old Jumel mansion
used to be haunted, but the city ac-
quired it 25 years ago, and now it is
just one more museum. And there's
a prize of \$21,000 waiting for the per-
son who finds a real New York ghost.

It's Tough

Leah days lie behind and ahead of
the theater business. Twenty produc-
tions closed in two weeks, and one of
them lasted three performances. An-
other lasted four. One Broadwayfarer
remarked that the only way to beat
the game this season is to close a
production before it opens and then
sell the talkie rights.

Tail Lights

The idea of persons carrying tail
lights to protect them from motor
traffic has always appeared fantastic
enough to get a good laugh in the
vaudeville houses. But it is no laugh-
ing matter with Mrs. Ida Lathers, who
lives on West End avenue. Mrs. Lath-
ers, a New Yorker from the old days,
carries a red lantern when she ven-
tures out at night. For 20 years she
has been a director for a home for
the aged, and for that many years
she has been taking a surface car to
visit the institution. Nowadays, she
finds, motorists speed by tramway
cars without stopping, and only by
waving her lantern can she board a
car in safety at night.

Long Jobless, He Faints When Work Is Offered

Kenosha, Wis.—Herman Eastle sought
work for four long, weary months.
Each day he hunted the classified ad-
vertising sections of newspapers; each
day he left his home in the morning
only to return, foot sore and heart
sick unsuccessful in his attempts. Her-
man made one more attempt. He en-
tered the factory of a brass company
here and was told that he could have
work. Herman fainted.

For COLDS

We all catch colds and they can make us miserable;
but yours needn't last long if you will do this: Take
two or three tablets of Bayer Aspirin just as soon as
possible after a cold starts. Stay in the house if you
can—keep warm. Repeat with another tablet or two
of Bayer Aspirin every three or four hours, if those
symptoms of cold persist. Take a good laxative when
you retire, and keep bowels open. If throat is sore,
dissolve three tablets in a quarter-glassful of water
and gargle. This soothes inflammation and reduces
infection. There is nothing like Bayer Aspirin for a
cold, or sore throat. And it relieves aches and pains
almost instantly. The genuine tablets, marked Bayer,
are absolutely harmless to the heart.

"Hello! Hello! How Much Does Happiness Cost?"

Only the price of learning
a simple health rule, this
smiling youngster finds!

"HAPPINESS just radiates from
my baby since we began giv-
ing her—"

What was it that Mrs. Fred E.
Schmitt of 2023 Stone Street, Falls
City, Nebraska, discovered, which
she could give to her baby that made
her happy, well, strong and buoyant?

Not a medicine; not a drug of any
kind; just harmless bodily lubri-
cation. Only that, and nothing more.
Mrs. Schmitt's discovery that little
Barbara kept well when she was
made regular as clock work is the
same discovery as has been made by
millions of other people, who are
enjoying the happiness of health be-
cause they use Nujol.

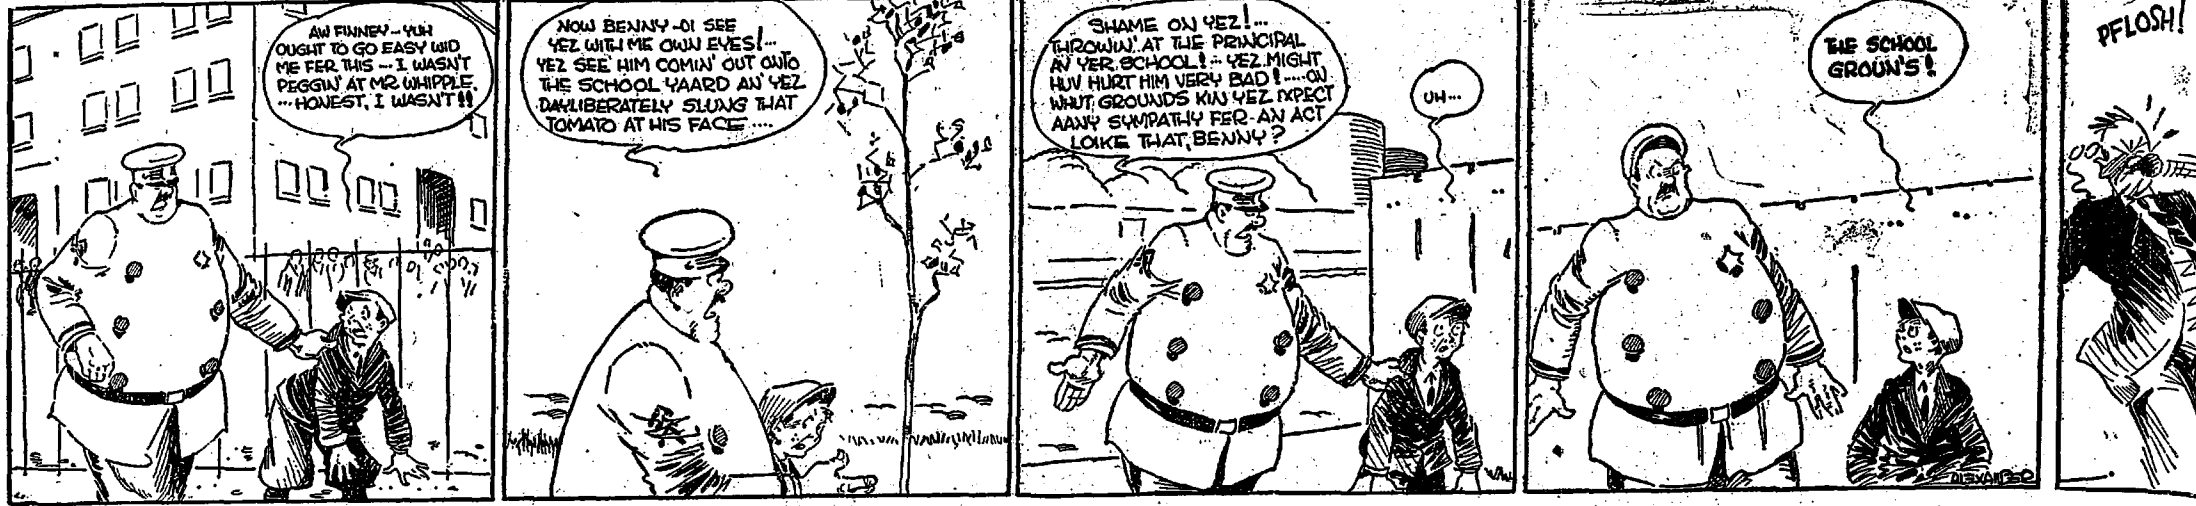

Babies, old folks, people in the
prime of life—all alike need to have
the bodily poisons (we all have them)
regularly cleaned out. Nujol just
gently, naturally, normally lubri-
cates the action of your body which
needs lubrication as much as any
other machine.

Please remember that Nujol con-
tains no drugs; is non-fattening; is
not absorbed in any way by the
body; can form no habit; cannot
hurt you, no matter how much you

take. All it can do is keep you
internally clean, and make you con-
tinually feel better. Colorless, taste-
less as pure water, Nujol will make
you see the bright side of life; it

WELL UPHOLSTERED

Hostess—There's Mrs. Ponderosa. Her husband's bitterly opposed to the extreme evening gowns, but she wears them, all the same.
Guest—Well, she has plenty of backbones.
Hostess—She must have. But she's so fat you can't see a trace of it.

VERY LIKELY

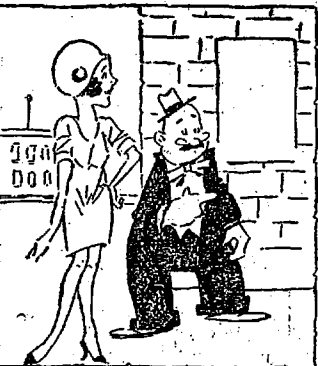

First Rabbit—Goodness but Mr. Turtle has a long neck.
Second Rabbit—Yes, I suspect he was the original "rubber neck"!

HAD BEEN THERE

Sweet Genevieve—I can't decide where to go on my honeymoon.
Olga Alimony—Why not go to the Riviera? That's where I always go on mine!

NOT A GUNMAN

She—What, he's killed a half dozen men? What is he, a gunman?
He—No—a New York taxi driver.

TOO LONG FOR TOM

"Tom doesn't call any more. Mother and he couldn't agree."
"Did your mother think he stuck around too long in the evenings?"
"No! Tom thought mother did."

Kisses Precede Shopping

Parson Tenthly—Does your wife always kiss you when you come home from business.

Deacon Duttons—Well—er—not always.

Parson Tenthly—Not always?
Deacon Duttons—No, only when she is going shopping the next day.

Silly Young Man

Zimzampir—Does your father object to kissing?
Stophella—I don't know. Shall I tell him you would like to kiss him?

Lateral Pass

Aigernon (reading joke)—Fawncy this, Percy, a chap here thinks that a football coach has four wheels.

Percy—Haw! Haw! And how many wheels has the bally thing?—Union Pacific Magazine.

Ceased to Be a Joke

The Novice—I wonder what became of the good old mother-in-law joke?
The Old-Timer—The mother-in-law joke went out when the business got so good that jokesmiths could afford to marry.

HER RECORD

"How long can you hold your breath?"
"Oh, until the average fellow has gotten through kissing me, I guess."

NOT WHAT HE THOUGHT

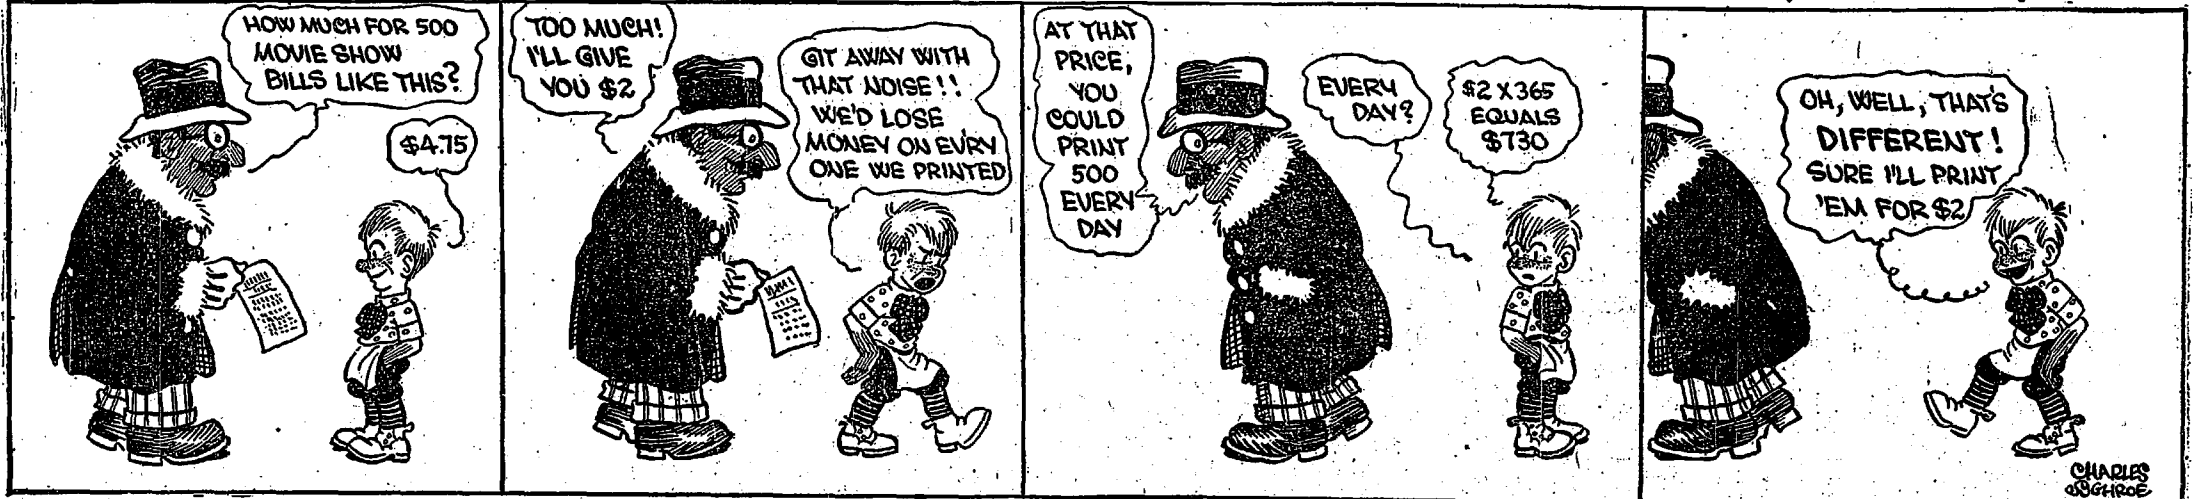

"I thought he bought an orange grove in Florida."
"He thought so, too; but it turned out to be a lemon."

Visit Cattle Farms.

Messrs N. B. Dyson, T. P. Dwiggius, Luther Walker, Lee Bowles and The Record editor motored up to Cafawba county Friday to look over the R. L. Shuford and Lutz cattle farms. We arrived at the Shuford farm about 11 o'clock and spent two hours looking at one of the finest farms in this section of the state, inspecting Mr. Shuford's fine herd of Jersey cattle, and looking over his barns, ice cream plant, etc. Bob Shuford has some of the finest Jerseys in the South, and is a master farmer. Sorry we haven't the records of his best cows. He is milking at this time about 45 cows. Mr. Shuford was in Raleigh attending a dairy meeting, but his son, who has charge of the cattle, showed us the cattle, barns, etc.

From the Shuford farm we drove to the Dutch Dairy Farm, which is owned by Mr. Lutz. On this farm we found some fine Jerseys with records that are hard to beat. After a short stop, the party drove to Hickory, where a good dinner was enjoyed. Leaving this bustling town we started for home, arriving here shortly after five o'clock. The entire party enjoyed the trip and while away saw some fine farms and cattle, and traveled over some mighty fine roads. Davie needs more registered cattle.

Davie Dog Good Dog.

The story of a dog that brought

home the bacon after first being the thief who took it away is told by Duke Bowden, from Advance, Davie county, regarding a hound owned by Phil Carter, Advance, Route 1.

According to Mr. Bowden, something over a week ago Mr. Carter missed the meat from an entire hog which he had butchered and salted away in a box with a cloth over it. The cloth had been replaced after the meat was taken, and no trace could be found of the meat.

Time passed and Mr. Carter's dog took his place in the story. He came in one day, dragging a piece of meat. The meat looked rather familiar to Mr. Carter and he investigated, discovering that the dog had brought it from a place in the woods some distance away where the greater part of the remainder were found. This was some half a mile away.

It was generally circulated that the dog stole the meat and then started to bring it home, a piece at a time. However, some of the neighbors want to know how the hound replaced the cover on the meat box. Mr. Carter declares, according to reports, that the cover was just as he had left it. Anyhow, it furnishes the community a topic for conversation. Winston Journal.

NEWS OF LONG AGO.

What Was Happening In Davie Before The Days of Automobiles and Rolled Hoes

(Davie Record, Jan. 26, 1905)
A. M. McGlamery has resumed his position as depot agent.

Rev. C. S. Cashwell, of Durham, will preach at the Baptist church Thursday night.

We overlook the marriage of two of Mocksville's young people two weeks ago, Mr. Will Howard and Miss Ethel Nail.

L. E. Brown has purchased a part of the William Clark land near Farmington, and will move there soon.

Mr. Arthur Daniel, of Mocksville, and cousin, Miss Lula Daniel, of Ephesus, were guests of Miss Bessie Fostet, at Ephesus, Sunday.

Will Young, of Jubilee, Davidson county, spent a few days last week with his brother, C. C. Young, at North Coolemeec.

Mr. Edgar Green, wife and children, left for Canada one day last week. Mr. Green returns to his native land after a stay of several years in Davie.

Mrs. Tempa Williams died at her home near Kappa Jan. 17th, aged 91 years. She leaves one son, two daughters, and his wife having died several years ago.

Miss Addie Shuler and Mr. Wesley of the Fork section, were married Jan. 15th.

J. N. Wyatt has moved his family from his recent home back of the old Bailey home, where they lived some years ago.

Rev. J. C. Martin, of Yadkin county, has been called as the pastor of the Fork Baptist church until June, when Rev. Mr. Weston will take the pastorate.

A. H. Butler will preach at the court Saturday afternoon at three o'clock.

The cotton market at Salisbury is virtually dead—no cotton going in.

Chalmers Williams, of Fork Church, had the misfortune to cut a severe gash in his foot last week.

Oscar Merrell has moved his family into the Austin Pack house at Fork Church.

Frank E. Brown spent several days last week with Mr. and Mrs. J. M. Granger, at North Coolemeec.

Eggs are bringing 20c per dozen on the local market, and hams 15c per pound.

Tar Heel Hoovercraft Lands Office.

W. F. Evans, of Raleigh, for four years solicitor of the seventh judicial district which is composed of the counties of Wake and Franklin has been appointed trial attorney in the office of the general counsel of the department of internal revenue at Washington.

Mr. Evans is a Democrat but was put out of office by the Raleigh Democratic ring, being defeated in the primaries nearly four years ago by L. S. Brassfield.

In the presidential election last year Evans could not swallow Al Smith and gave his active support to Hoover. It is understood that his appointment was made at the instance of Representative Jonas.—Ex.

Most towns, like most men could do better if they would get to thinking they could. Whether or not a town progresses and does the things that make for a better and more prosperous town depends on the attitude the town has. A great many times the doing of a thing is largely a matter of thinking it can be done. Most towns have within them the resources, the money and the man power to do things that make for a more prosperous community if they will—but recognize opportunity when it knocks at the village gate.

A Good Resolution.

It is indeed a poor community about which nothing good can be said. But poorer still is the citizen so blinded by petty prejudices and self-interest that his criticism of his home town is not such as we are anxious to have strangers hear. We are thankful that we have a minimum of such citizens in Graham and yet as long as we have a single one of that type it is one too many for the good of the community.

Just as every human being has faults, so every community, which is but a collection of human beings, has its defects. And considering the number of human failings it's a wonder every community doesn't have more defects. The community, this and every other one, is only what its citizens make it, and if one "knocks" his home town it reflects upon him as much as it does on his neighbors. By fault-finding he admits he has failed to do his part in helping to make his home town what it should be.

The citizen who is most generous in his praise of his own community is best serving his own interest and the interest of his neighbors. If there are things to be condemned, then condemn them. But at the same time be sure you have a remedy, and that you are willing to do your part toward correcting whatever evils or defects in need of correction. It might be a good idea to keep that at the head of your new resolutions for 1930.

Use your home paper, cooperate with it and do a little advertising at least of each business in town and push a little more and see the good you will get for the community and your self the coming year.—Others are doing it and we can do the same.—Ex.

Some Facts for Farmers

This talk about producing more farm products is all right, but where is the market for them? is the reaction of many a farmer to the insistent argument that North Carolina farmers should produce more food and feed crops.

Such a farmer should know the facts stated by Dr. Brooks, president of State College, to the agriculture extension workers meeting this week in Raleigh. He cited the changes in population that has taken place during the past twenty-five years. During this period the population has declined twenty per cent. while the populations of the cities and towns have increased 600 per cent. This means that the State has developed considerably a long industrial lines during the past quarter of a century.

The cities and towns have been growing. They will quite likely continue to grow even more rapidly as business of every sort expands. But why the shrinkage of the farm population? Why has one fifth of the farm population gone to the cities and towns? Obviously to enter the doors of employment there. But why, since the population of the State has increased fifty per cent. during the past twenty-five years, is there no added demand for farm products? There is an added demand, but the dealers in food products have to go outside the State because an adequate supply is not produced in the State.

The dealers are in the habit of going out of the to buy products that should be produced in the State. Obviously there must be more co-operation between the farmers and the dealers. First, though, the farmers will have to show their willingness and ability to produce the food and feed crops in ample quantities to supply the demand. To accomplish this is the aim of

Would Lift Speed Laws.

Union Republican
Ever since Captain Charles "Bull" Farmer, head of the State patrol system has been in office he has from time to time given out wonderful interviews and in nearly every instance put his "foot in it" and had to take back water. One of the changes advocated by Farmer is that we should all have no speed laws at all and the faster a man ran his machine on the highways so much the better. And another complaint he has is that some people drive their cars too slow and thus endanger the lives of the speed fiends behind them.

Such talk sounds foolish to many of us who remember the oxcart age, later the covered wagon and still later the bicycle. Enough lives are lost now on account of speed artists rushing over the highways in cars without taking away all speed limits and allow them to make the highways of the State a regular speedway.

Farmer is being backed in his wild utterances by at least one of his lieutenants, Fisher, of the several district, whose headquarters are in Winston-Salem. Fisher unbridled himself of the past week and said: "I believe traffic conditions would not be so serious if there were no speed laws." How grand and what a great deliverance.

Fisher and his three patrolmen have been going over the district the past few weeks arresting people and making a nuisance of themselves generally.

The quartette paid a visit to Le. noir, Caldwell county, a few days ago and the News-Topix, a paper published in that little city, was not very favorably impressed with the visit of the State highway men. Here is what the paper said of the Fisher visit:

"It would be extremely unfortunate if the members of the State Patrol destroyed their usefulness by making themselves public bores. Those in town last week dashed around at an altogether useless rate of speed making a display which will not be permanently regarded with indulgence by a peace-loving public. Their opportunity for good is almost unlimited, but that opportunity must come by gaining public confidence rather than public nausea. We make this observation with no intent to be critical, but more for the purpose of sounding a warning as to a condition which might prove disastrous to an experiment which was blessed with practically a unanimous approval at its inception."

Get Down To Fundamentals.

In any consideration of the automobile accident problem and its proposed cures we must get down to fundamentals.

It has been conclusively proven that accidents cannot be legislated away, so long as the legislation takes the form of merely providing indemnity for the injured. Compulsory insurance, from the standpoint of prevention, has proven a colossal failure. It has but added more complexities to an already complex situation.

On the other hand, tests conducted in many cities and states have proven that logical traffic laws, intelligently enforced, will produce a decrease in the accident record. Fines or jail terms for the irresponsible, incompetent, drunken or careless drivers—the 10 per cent who cause 90 per cent of all accidents—work wonders.

The fundamental problem is to prevent the accident from occurring. Until we provide and enforce laws that keep the highways clear for the competent and the careful, every year will doubtless witness further increases in the victims of the mishandled automobile.—Concord Observer.

No Censorship.

Senator Dill demands the picking of Broadcaster Henderson of Shreveport, who over station KWKH has been indulging, says the senator, in obscenity. Senator knows this because a friend of his at Minneapolis turned in on Shreveport and heard "profanity" and "cursing."

Henderson accepts the charges as a part of a campaign against him by chain stores and their well wishers.

KWKH is owned and operated by W. K. Henderson, who has no time of day for chain stores but at night now and then devotes his favorite retail merchandizing evil Dives and sundry North Carolinians, the Daily News is reliably informed, have come to look for his feature, tuning in on it between "B" quotation and bedtime story. They would just as quickly, it appears, accord an audience to a defender of the chain store idea if such appeared to cuss Henderson, whose frankness is a welcome relief from some of the stuff that clogs the ether.

Mixed audiences hereabout tune in on KWKH—which doesn't necessarily mean of course, that the station doesn't violate some of the proprieties—and there does not as yet appear to be any falling off in chain store business, and no one reports any new cuss-words or Scotch jokes.

KWKH should become sufficiently indecent to constitute a public nuisance or nuisance, it might be well enough to restrain Henderson; but the matter should be attended to in an orderly fashion by due process of law. Utterances on the platform and in print have certain restrictions; it is fair enough to subject radio broadcasts to the same.

A censorship by Congress or the radio commission, however is something different.—Greensboro News.

Have Quit.

Cracklin' Bread.

On the farm, hog killing time in Kentucky has its accompaniment of lard rendering; lard rendering produces cracklings and with the aid of these is constructed that southern expicrean delight known as cracklin' bread.

Technically cracklings are the crisp residue lard has been extracted from the strips of fat in the lard kettle. When these cracklings are thoroughly browned and light enough to float, it is time to shove the fire out from under the iron kettle. Then the cracklings may be skimmed off.

But cracklin' bread is not the genuine article unless it is prepared with the proper manner. The meal must be from southern white corn—the corn that has made Kentucky famous for its corn bread, and other things, for to these many years. The meal from this corn must come from a slow-grinding water-mill which turns out the product from the whole grain, which does not heat the meal in the grinding, and whose stone burrs grind meal of coarseness and uniform texture. The manner of preparation may differ somewhat there after.

Pones of cracklin' bread prepared by a Kentucky cook will elevate what many may have considered a mere accompaniment of a meal to the piece de resistance of a feast. Many black mamies scald their meal in a wooden bowl and dry their best if they have an open fire place at which to bake their pones. The skillet first is heated and tested for heat with a sprinkling of meal. The pones are lovely shaped and fashioned by hand, placed on the hot iron and the covered skillet heaped over with hot live coals. Whether served with cabbage pot licker or green fresh sausage or chitterlings, sorghum or buttermilk, cracklin' bread pones thus prepared once eaten are never forgotten.—Louisville Courier Journal.

A South Carolina judge has ruled that jurors may taste home brew in liquor law violation cases to ascertain whether or not the home brew is intoxicating. The ruling may make it easier to get men to sit on the jury.

Published in the interest of the people of Davie county by Young Radio Co., P. S. Young, editor.

Ladies are going to wear their dresses longer—in length. The new Majestic is not going to keep up with Paris styles; but when it comes to reception from distant stations it is right there with the goods.

Father (to youngster just put to bed)—"Now what are you crying about?"
Child—"I wanna drink."
Father—"So do I. Got to sleep."

Women who have trouble in keeping their husbands at home should invest in one of these new Majestic Radios. If a Majestic woman keeps him home then he is not worth keeping.

All is not gold that glitters. A cheap radio may look good, but try to hear a station a few hundred miles away and then you will get a Majestic.

Everything works out well in the end," said the young woman as her lusty youngster swallowed a safety pin.

This is going to be a good year. Politics, business and not air artists will all be on the run. To keep in touch with what is going on in the world, there is nothing that will take the place of a Majestic Radio. Call at our store and let us demonstrate the new Majestic.

Come down here to our store and let us tell you something that you didn't know about the Majestic.

A number of Davie county people are wanting a "Rooster Trade Day" in Mocksville. On such a day the poultry farmers would meet here and trade roosters. It has been suggested that "Rooster Trade Day" be held once a month, preferably on Saturday. We would be glad to hear from our poultry raisers, and find out what they think about the matter.

After reading the report of the R. J. Reynolds Tobacco Co., for 1929, one is led to believe that prosperity is abroad in the land, despite the fact that Mr. Hoover is president. The Reynolds company made more than thirty two million dollars the past year, more than they ever made under Woodrow Wilson or any other president. And yet some of the Reynolds stockholders are spending their spare time in bowling. Consistency, thou art indeed a jewel.

Lieutenant Arch Early, of the State highway patrol, says that every county in North Carolina should have two highway patrolmen, making a total of 200 for the state. In other words, two hundred hungry Democrats in North Carolina should be equipped with five uniforms, given new motorcycles, big guns, a bigger salary and turned loose on the highways to protect the lives of those who travel drunk or sober, fast or slow, in motor vehicles. With 200 policemen on the roads there is no telling what the death rate would be. More deaths and accidents have occurred in the same length of time since the highway patrol was established than had ever happened before. Just so long as the highways are crowded with joy riders, booze fighters, incompetents, and speed fiends, just so long will the deaths and accidents multiply. A thousand traffic cops couldn't prevent crazy folks from having accidents and killing innocent motorists. It seems the more cops the more accidents.

Chicken Thieves Captured.

During the special session of municipal court this morning, presided over by Mayor J. B. Roach, new light was shed on the case against Charles Smith and Lem Martin, young men of High Point, who had been held at police headquarters for investigation for an explanation as to where they got the load of chickens and turkeys they sold here Tuesday and for information as to ownership of the old car they drove to town, carrying a license number belonging to another car.

It was brought out in the Mayor's court this morning that M. L. Godbey, of County Line, had lost two turkeys and W. R. Cartner, a near neighbor, had lost on the same night this week several chickens and one turkey. Mr. Godbey identified his turkeys and Mr. Cartner was certain of the other turkey and the chickens were the ones stolen from his home. The identification was conclusive and Mayor Roach bound the prisoners over to Iredell Recorder's court under bonds in the sum of \$1,000 each, in default of which they were transferred from the cramped cell at the police station to more roomy quarters in the county bastille. The men will have to face the charge of selling poultry under an assumed name, as well as larceny of poultry. The men took in \$16.40 for the chickens and turkeys, but when they were admitted to jail this morning, police officers could find only \$10 in cash on their persons. The other money, defendants explained, was spent for gas, oil, food, etc.—Statesville Daily, Jan. 16th.

Attorney B. C. Brock made a business trip to Albemarle Friday.

Funeral For Mrs. Tiney Smith.

The remains of Mrs. Tiney Smith whose death occurred Thesday at her home eight miles north of Mocksville, after confinement to her bed for four weeks were laid to rest Wednesday afternoon at Bear Creek church. Mrs. Smith was the mother of Mr. J. H. Troutman, Statesville contactor.

Mrs. Smith was 92 years of age. Her first husband was Jacob Troutman, of Iredell county, who passed away eight years ago while a resident of California. She leaves her second husband, Mr. Pink Smith, of Davie county, and the following children: Mr. J. H. Troutman and Mrs. H. N. Bowers, of Statesville; Mr. B. C. Troutman, Mr. William Troutman and Mrs. Maggie Kooztz all of Davie county.

Mr. P. P. Green Passes.

It is with sadness that The Record chronicles the death of Mr. P. P. Green, which occurred at a Winston-Salem hospital last Tuesday afternoon about four o'clock, following an illness of several weeks, aged 73 years. Mr. Green had spent all his life in Davie up to about two years ago when he went to Winston-Salem to live with his daughter. He was a member of Bear Creek Church. Mr. Green is survived by one daughter, Miss May Green, of Winston-Salem; one son, W. C. Green, of New Mexico; one brother, J. P. Green, of this city, and two grandchildren. His wife died nearly five years ago.

Funeral services were held at Vogler's Funeral Chapel in Winston-Salem Thursday morning at 11 o'clock, and the body brought to Eaton's Baptist church, where the funeral proper was held at 1:30 o'clock, Dr. John R. Jester, Revs. D. H. Wilcox and V. M. Swaim conducting the funeral services. Interment followed in the church graveyard.

In the death of Mr. Green Davie county loses one of her best known citizens—a man who numbered his friends by the hundreds, and one always had a kind word for those with whom he came in contact. Mr. Green was a long-time friend of the editor and we shall miss his monthly visits to our town. Peace to his ashes.

James M. Godbey Dead

Statesville, Jan. 19.—James Madison Godbey, one of the oldest and most popular citizens of Iredell county, died at two o'clock this afternoon at his home near Harmony in his 84th year. He had been ill several months, yielding to infirmities of advanced age.

Funeral and interment will be conducted at 2 o'clock Tuesday afternoon at Clarksbury Methodist church near the Godbey home.

Mr. Godbey leaves his wife and two sons, Earle Godbey, editor of the Greensboro Daily News, and Maurice Godbey, of Winston-Salem, who were with him when he died. He was a farmer, a school master and a traveling salesman, having retired to his farm after many years on the road.

The condition of Mr. W. W. Stroud, brother of the editor, who is in the Twin-City hospital, remains critical, with but little hope for his recovery. Mr. Stroud underwent an operation eight days ago, and has been in a serious condition since.

Jim Wiles, of Yadkin county and Van Norman, of Iredell, engaged in a desperate battle near the Davie-Iredell line Sunday night. They were said to be drinking. Both are in a Statesville hospital with Wiles in a critical condition. Norman will lose his eyesight if he recovers. Whisky and a woman seems to be responsible for the fight.

Miss Violet Allison, a member of the Mocksville school faculty, who has been ill at her home at Rock Hill, S. C., since last fall, was able to resume her work here this week.

Of course it was bad enough for Nero to fiddle while Rome burned, notes the Kansas City Kansan, but just suppose he had a saxophone.

The Record is \$1 per year

Sheffield News.

John Ijames who has been very ill with blood poison, is improving. Ben O'neal and family have moved to their farm in Chatham county. Arthur Wright and family have moved to Greensboro.

Mrs. Susan Smith, wife of Mr. W. E. Smith, died at a Statesville hospital last Thursday morning. The

body was laid to rest in New Union graveyard Saturday morning at 11 o'clock, Rev. Mr. Binkley, conducting the funeral services. Mrs. Smith is survived by her husband, one sister and a brother. A good woman has been called to her reward.

Every man is suspicious of three things: His daughter's boy friends, a new noise in his automobile motor and bash.

THE STORY

Hilton Hanby, prosperous New York merchant, had purchased a country place—the Gray house, near Pine Plains. Miss Selenos, former tenant of the Gray house, calls at his office and warns him that the house is haunted. Further alarming tales are impressed upon Adolf Smucker, Hanby's secretary, by a man who claims to be Stanford Seymour, former occupant of the place. The Hanbys laugh off the warnings they have received both from Miss Selenos and from Smucker's acquaintance, as some form of practical joke. But they are shocked when they hear that the caretaker whom they have put in charge of the Gray house, a man named Kerr, has been mysteriously murdered.

CHAPTER II—Continued

"Oh, Bill, how lovely!" she cried. "I hated your business because it kept you away from us so much. Can you really afford it?"

"I'm rolling in money," he said gayly. "I bought acreage and sold it in front foot. I'm a boy again!"

"That's nothing new, Housatonic," she laughed. "Ade Bishop really believes that's your absurd name. You'll never be a boy when you die!"

"Darling Dina, don't worry about Smucker and his drunken dream. I'll be out with old Bill tomorrow. Reggie will have to confess that he killed it. It was a fool scheme of his, anyway."

"When did you ever know Bill Pelham to do anything really foolish?" he asked the part superbly. "I did not mean that exactly. It seems so stupid to imagine that any one could be scared away from a place by vague talk like that. Bill, verify the names Smucker gave me—Mr. Seymour and the others. Promise me!"

"Probably all names that Reggie brought up on the spur of the moment; but I'll ask the agent I bought the place from, if that will satisfy you."

Adolf Smucker was always earlier at the office than the other employees. It gained him a reputation for punctuality, and enabled him to learn much of the firm's business that would otherwise be kept from him. He was nervous on this particular morning. He had gone home the night before, and had told his family of all the darling and splendid things he had said and done. Mrs. Smucker, usually so admiring and assuring, had remarked:

"Dolf, you've fired yourself. You might have waited till the two girls came out of school!"

Smucker's father had listened rapturously to the account of the planked steak.

"Real beer!" he said many times. "Not in this life shall I taste real beer again!"

"Nor in the life to come," said his daughter-in-law. "Turn your thoughts to your sinful appetites." She looked at the clock. "It's time you went to the docks."

Assuredly Adolf Smucker was unpoor. He was filing letters industriously when Hanby sent for him.

"No," said Hanby, as Adolf unheeded his newly pointed pencils, "I'm not giving you any letters to file. I'm getting rid of you. The shier will pay you a month's salary."

The Adam's apple tried to burst through his throat.

"I'm sure I've worked long and faithfully for you, Mr. Hanby," Smucker cried. "I don't deserve this."

"You don't," returned Hanby. "Two weeks' salary would be quite sufficient. Listen to me, Smucker. You've never been either faithful or efficient. I don't know why I didn't fire you six months ago. I suppose those hard stories you used to spring whenever you were in danger saved you. I told me less than a month ago some old yarn about paying installments on your house and looking after an old father. Don't interrupt! Our house was paid for three years ago, and your old father is night policeman on some docks near where you live. Your three elder children support themselves and help support the house. Probably you are comfortably off."

Smucker raised his voice.

"Mr. Hanby, I won't be fired with a good reason!"

"You've not even been honest," continued Hanby. "There are petty cash irregularities that can be gone into you wish it, and certain losses of stage stamps. If you are wise, I won't irritate me any longer." Smucker withdrew. So they had and out about him! What a trick a rich man like Hanby, to be catching when an old employee used office stamp for his private correspondence!

When he was much excited, there were noises in Mr. Smucker's head as things about to burst. What a day there would be when the intellectu-

als controlled the workers and enslaved the capitalists! He had been one of those who believed that Lenin was the savior of America. Lenin had died, but others would be raised up. Smucker's visions of vengeance were stupendous. They died down a little when he reflected that he must face that sound domestic economist, Mrs. Adolf. He drew his month's unearned salary vindictively.

At eleven o'clock Bill Pelham, summoned by telephone, sauntered into Hanby's office. He was a slight man, above middle height, with dark hair and eyes. His was a tired, lined face—the face of a man to whom success has not come. No man was closer to him than Hanby.

"How's the dog market, Bill?" Hanby asked.

"I don't know; but my business is going to the dogs, if that's what you mean. We can't all guess where the wheel is going to stop. Sorry I couldn't get to your dinner party last night. Dina rang me up and told me that your absence was the only blemish."

"That's a fact, Bill," Hanby looked at him keenly. "You don't relish this country life idea?"

"It's a tragedy to me," Pelham groaned. "Your home is my home. You let me come when I want to and leave when I want to. You ask no vain questions, and my grouches never make you angry. I don't know what the devil I shall do. You've been blessed above all the men I know. Your girls are pretty and popular, and yet they don't go guzzling gin with chauffeurs. Your boy is popular, and yet he keeps clean. I've often thought the Hanby family was sent to show that decency was possible even in this jazz life we lead. Do I relish your going? Don't make a jest of it!"

"You'll be at the Gray house, too. You can't drop out of our lives, so don't anticipate it. Funny place, the Gray house! I suppose you read that my caretaker was murdered last night?"

"Haven't seen the morning papers. Tell me about it."

"A puzzling crime," commented Pelham, when he had heard all that his friend knew.

"I may be next," Hanby said, wondering how long Bill could maintain this air of complete innocence. "Poor Dina a widow, with the chance of marrying a better man!"

"Don't!" said Bill, frowning. "I don't like to hear you make a joke of that sort of thing. If Dina died, could you ever marry again?"

"Good G—d, no! Of course not!" replied Hanby, startled.

"She couldn't either. Bill, old man, don't you know that every now and again in this human family two people are born like Dina and you—two people whom nothing can separate but death? I've watched you with other women—pretty women, too—and better-looking cusses than you. Tell me, have you ever seen a woman you care a d—n for since you met Dina?"

"No."

"And she's seen no other man. You two are marvels. That family of yours is what it is because of its parents."

"I didn't mean that about Dina marrying," Hanby said, a little shamefacedly. "You know men don't like to seem sentimental. Your friendship has been a great deal to me, Bill, and you are not going to drop out."

"I worship Dina," Bill Pelham said meditatively. "Directly I saw her, twenty years ago, I knew that she was the one woman." He smiled whimsically. "Every Christmas she lets me kiss her under the mistletoe. Once every year! You can bet I shall be with you on Christmas eve, anyway."

Hanby smiled.

"If we lived in some European countries, I should have to challenge you to a duel for that and kill you."

"It's the dark, saturnine villain who does the slaying," Bill reminded.

ed him. "I should sneer diabolically, and ask you to name the rib under which you would like my rapier to go." He lighted a cigarette. "Why did you ask me to come?"

"To discuss your Aunt Selina."

"How the devil do you know I had an Aunt Selina? She was a great-granddaughter, a playmate of Martha Washington, if the family history is correct."

"I didn't know it. Look here, Bill—Dina's all upset about some merry spirits who have been trying to frighten me away from Pine Plains. Do you admit coming here and pretending to be Miss Selenos, who hated and despised me above all men, and planned her faith on dogs?"

"One of us is crazy," replied Bill Pelham. "At the time you say I was here, a dozen men will prove that I was in Chicago. I have played practical jokes, and I hope to again, if I live; but I know nothing of this. Tell me all!"

Hanby described not only his experience but that of Adolf Smucker. "You can count Reggie out, too," Pelham declared. "He's at the bankers' convention in Baltimore. These two people may be fakes, but Reggie and I are innocent. Silly sort of stories to tell!"

"That's what Dina said."

"Is she worried?"

"Just a little. Nothing physical can scare her, but she takes funny psychological excursions. She was reading an English book on 'Haunted Houses' when I left."

"There are such things," Pelham said, gravely. "Glamis castle, for one, and the house where the Westleys lived. I don't know enough to disbelieve. Look here, Bill—we've got to get to the bottom of this."

"What do you suggest?"

"I've got a clear day. I'll interview the man you bought the place from, and find out about past tenants. Also, I'll see if there was a Selenos family holding land grants in California. I'll probably drop in after dinner. Where are you off to?"

concluded Pelham, as Hanby reached for his hat.

"Pine Plains. Junior is motoring me up. I'll be back by dinner time, with luck. Anyhow, wait for me. I've got to see about another caretaker and arrange for the burial of Kerr. Not a cent was found on him, and it seems that he has no relations. I feel responsible, in a way. Junior seems to think that he's going to be a Sherlock Holmes, to the chagrin and confusion of the Pine Plains police."

"There is no such thing as a meaningless crime," Pelham remarked. "Junior may be of some help."

"I hope so. I want to clear up everything, so that Dina and Celia won't have a chance to feel nervous. Dina has a vague idea that the country is dangerous. She was raised in Cleveland's most select residential district, and has always lived in cities. I'm a wild man from the Housatonic feud country, and the idea of tramps doesn't give me a thrill at all."

"If I know Dina," Bill said thoughtfully, "she'll be less worried about tramps than she will about any reputed curse on the place. Like many of those highly strung women, she's psychically sensitive. If all these tragedies happened there, she's bound to hear of them. You've already had a murder on your front lawn."

"That's not serious," Hanby returned. "Some wandering yegg killed the poor fellow for his savings."

"I wish you hadn't sent that Selenos woman off without getting more particulars from her. You calmly shut all avenues of information."

"Her manner was so infernally insulting, Bill. You know I'm not the sort of man to be told that I must sell the house I've selected as a home after inspecting hundreds of places. The poor old thing was crazy."

"What about Smucker?"

"Hooch talked there. Smucker's not too well balanced, either." Bill Pelham shook his head.

"I don't like it," he said.

(TO BE CONTINUED.)

"I don't know; but my business is going to the dogs, if that's what you mean. We can't all guess where the wheel is going to stop. Sorry I couldn't get to your dinner party last night. Dina rang me up and told me that your absence was the only blemish."

Who Has Missing Half of Cullinan Diamond?

When the Cullinan diamond, the largest in the world, estimated to be worth up to \$25,000,000, and which is among the British crown jewels, was dug from the earth at the Premier mines at Cullinan, South Africa, in 1905, it was found that one side was so flat and smooth that it was considered to be only part of a much bigger diamond. The enormous half portion, however, has never been found, although scientists, diamond miners, financiers, geologists and thieves have been searching for it for twenty-three years. Its whereabouts and even its existence are one of the world's mysteries.

South Africa abounds with strange stories of the missing half of the Cullinan diamond. One version is that it was found by a native worker in a diamond mine who feared to disclose it because of the strict law

governing the illicit selling of stones. A notorious criminal once almost had his hands on it, the story goes, but he attempted to trick the native who was prepared to sell it to him and the native fled with the diamond.

Continental Currency
After Washington became President and Hamilton secretary of the treasury, a law was passed by congress under which the Continental paper money and bills of credit were redeemed at the rate of a few cents to the dollar.

STANDARDS OF THE KINGDOM

LESSON TEXT—Matthew 5:1-48 (Print vv. 3-9, 17-20, 43-48).
GOLDEN TEXT—Blessed are the pure in heart for they shall see God.
PRIMARY TOPIC—How Jesus Teaches Us to Live.
JUNIOR TOPIC—Jesus' Standard of Life and Service.
INTERMEDIATE AND SENIOR TOPIC—Accepting and Following the Highest Ideals.
YOUNG PEOPLE AND ADULT TOPIC—A Christian According to Christ.

I. The Characteristics of the Subjects of the Kingdom (vv. 1-12). These characteristics are set forth in the nine beatitudes.

1. The consciousness of spiritual poverty (v. 3).
"Poor in spirit" means to come to the end of self in a state of spiritual beggary.
2. A profound grief because of the spiritual insolvency (v. 4).
The mourning here is because of the keen consciousness of guilt before a holy God.
3. A humble submission to God's will (v. 5).
This is the outgrowth of mourning over spiritual insolvency.
4. An intense longing to conform to the laws of the kingdom (v. 6).
The one who has received the righteousness of Christ as a free gift follows after the purity of character which expresses itself in deeds of righteousness.
5. Merciful (v. 7).
The subjects of the kingdom now take on the character of the King. Because of the mercifulness of Christ, His followers will be merciful.
6. Purity of heart (v. 8).
Since the King is absolutely pure, the subjects who enjoy fellowship with Him must have heart purity.
7. Peacemakers (v. 9).
The subjects of His kingdom not only have peace, but follow after that which makes for peace.
8. Suffering for Christ's sake (v. 10).
The world hated Christ, the King; therefore those who reflect His spirit in their lives shall suffer persecution (II Tim. 3:12).
9. Suffer reproach (v. 11).
To have all manner of evil spoken against us for Christ's sake is an occasion for glorying.
11. The Responsibilities of the Subjects of the Kingdom (vv. 13-16).
The world is in utter darkness because of its corruption. The subjects of the kingdom are to live such lives as to purify and enlighten. Their responsibilities are set forth under the figures of salt and light.

1. Ye are the salt of the earth (v. 13).
The properties of salt are (1) Preserving, (2) Purifying, (3) Preserving. Since salt only preserves and purifies in the measure that it penetrates, so Christians only as they enter into the life of the world can preserve it from decay.

2. Ye are the light of the world (v. 14).
This world is cold and dark. In this darkness the devil has set many pitfalls, and the subjects of the kingdom should so live as to prevent the unwary from stumbling.

III. The Laws of the Kingdom (vv. 20-48).

1. As to deeds of righteousness (v. 20).
The deeds of the subjects of the kingdom must spring from Christlike natures.
2. As to sanctity of life (vv. 21-26).
The duty of the subject of the kingdom is to conserve and sustain his own life and the life of others. Rash anger is heart murder (v. 22).
3. As to organized life (vv. 27-32).
The family is the unit of society. The two awful sins against the family are (1) Adultery, (2) Divorce.
4. As to oaths (vv. 33-37).
Whatever is more than the simple form of affirmation or denial comes of evil.
5. As to behavior toward those who do not recognize the laws of the kingdom (vv. 38-48).
(1) Not revengeful (vv. 39, 40).
Turning the other cheek after being smitten, means, after one insult, permit another without revenge. (2) Willingness to do more than is required (v. 41).
It compelled to go one mile, go two miles with the one thus compelling you. (3) Be charitable (v. 42).
Our hearts should always be open, ready to give to all. (4) Love enemies (vv. 43-48).
Love to them consists in: a. Blessing them that curse us. b. Doing good to them that hate us. c. Praying for those who desperately use us.

Consciousness of Duty

In every heart there is a consciousness of some duty or other required of it; that is the will of God. He that would be saved must get up and do that will—it is but to sweep a room or make an apology, or pay a debt.—George MacDonald.

Entering Heaven's Gates

Heaven's gates are not so highly arched as kings' palaces; they that enter there must get upon their knees.—Daniel Webster.

A Sour Stomach

In the same time it takes a dose of soda to bring a little temporary relief of gas and sour stomach, Phillips Milk of Magnesia has acidity completely checked, and the digestive organs all tranquilized. Once you have tried this form of relief you will cease to worry about your diet and experience a new freedom in eating.

This pleasant preparation is just as good for children, too. Use it whenever coated tongue or fetid breath signals need of a sweetener. Physicians will tell you that every spoonful of Phillips Milk of Magnesia neutralizes many times its volume in acid. Get the genuine, the name Phillips is important. Imitations do not act the same!

Taking It Merry
Manville McC. Rossiter, the New England milk magnate, said on his return from England: "English business is in a bad way, and it keeps getting worse instead of better; but the English business man is full of grit. He takes his hard luck philosophically. He can even take it merrily. An English manufacturer the other day got a wire from a customer: 'Cancel our order at once.' 'The manufacturer wired back: 'Your order can't be canceled at once. You must take your turn.'"

Los Angeles Boy Needed Help

Leroy Young, 1110 Georgia St., Los Angeles, is a "regular fellow," active in sports, and at the top in his classes at school. To look at him now, you'd think he never had a day's sickness but his mother says: "When Leroy was just a little fellow, we found his stomach and bowels were weak. He kept suffering from constipation. Nothing he ate agreed with him. He was fretful, feverish and puny."

"When we started giving him California Fig Syrup his condition improved quickly. His constipation and biliousness stopped and he has had no more trouble of that kind. I have since used California Fig Syrup with him for colds and upset spells. He likes it because it tastes so good and I like it because it helps him so wonderfully!"

California Fig Syrup has been the trusted standby of mothers for over 50 years. Leading physicians recommend it. It is purely vegetable and works with Nature to regulate, tone and strengthen the stomach and bowels of children so they get full nourishment from their food and waste is eliminated in a normal way. Four million bottles used a year shows how mothers depend on it. Always look for the word "California" on the carton to be sure of getting the genuine.

"Please make Father change his smoking tobacco"

MEN go to their graves ignorant of the suffering an over-smoking pipe has caused others. But now, we trust, Father will lose no time in discovering Sir Walter Raleigh, whose mild, fragrant blend is as popular with the smoked-at, as it is delightful to the smoker. This blend of choice Burleys has plenty of body and a very special fragrance. Yet it's so mild you can smoke it all day long, with only the sensation of increasing enjoyment.

How to Take Care of Your Pipe
(Hint No. 2) Don't switch tobaccos when you break in a new pipe. Stick to the same brand for 30 or more pipefuls. Mixing tobaccos makes a pipe either stonny or flat. Send for our free booklet, "How to Take Care of Your Pipe." Dept. 53, The Brown & Williamson Tobacco Corporation, Louisville, Ky.

MOLLY SPENDS HER "MAD MONEY"

ALTHOUGH the family Bible recorded Molly Burke's middle name as Imogene, it might better have been Independent. For Molly believed most firmly in being the captain of her soul, and if a little money in reserve would protect her head from being bloody as well as unbowed Molly would be right there with the reserve.
Never had Molly gone to a dance without taxi fare tucked away. Yet, oddly enough, Molly had always returned to her home in company with the same escort with whom she left.
So it wasn't exactly that Molly was cynical that prompted her to say nothing to Norman about the fact she hadn't spent all her savings on her trousseau. It was just that Molly had seen enough unhappy marriages to make her want to know that in case her own didn't pan out well, she wouldn't be trapped into drifting along, unable to make her escape, because she hadn't the price of her own living expenses until she should get back into step in the business world.
Molly wasn't going to be domestic from a sense of duty, inspired by the need of support—not if Molly knew anything about it. Molly was going to be domestic just as long as she stayed in love with Norman, and statistics being what they are, Molly felt that \$5000 salted away stood about even chances of being used for financing an escape scene, or of being left in trust to mature for her old-age use.
Two years, three years, four, five, six—still the "mad money" remained intact, while the interest accumulated to the tune of 7 per cent.

The year after the twins were born Molly very nearly spent a generous portion of her reserve—not on escape from domesticity, but on a session in a sanitarium. But she resolutely remembered her vow to never let current expenses decrease her capital, and instead of departing for a sanitarium she took a rest cure at home, cancelling all social engagements, napping when the twins napped, and digging in the garden while the twins took their airing on the side porch.
"The seventh year is the hardest," so some cynics say. Certain it is that the seventh year Molly and Norman were married proved to be decidedly strained. For one thing Norman was shifted from a straight salary to straight commission. For another Norman and Molly disagreed intensely in the matter of schooling for the twins. Molly pulling strongly for sending the youngsters to a private school, Norman advocating that boys belonged in a public school.

The third influence came in the form of a letter from the firm for which Molly had worked previous to her marriage. It seems that Molly's successor was leaving to be married and Molly's old place was open in case she cared to play the modern and go back to salaried work.
Norman's attitude toward the proposal that Molly resign from the role of housewife and resume the role of business woman made Molly herself literally speechless with resentful anger. For Molly, though she honestly loved home life, was not blind to the unpleasant details of that same life—the scraping of carrots, for instance, and the making of laundry lists. As for her feelings toward Norman—probably they were much the same as are cherished by the average wife who for nearly seven years had heard her husband sing off key in his bath, has cleaned up his pipe ashes from her best bureau covers and has listened to him expound political views with which she was heartily in discord.
As for Norman's feelings toward Molly—he still kissed her whenever he left her—even in a crowded bus, a practice which puzzled Molly, making her feel motherly toward him. And he nearly smothered her with wraps whenever he took her for a drive.
"He really wants to take care of me," admitted Molly to herself, "even though he doesn't seem able to support me in the style to which he thinks I should be accustomed."
"But sentiment doesn't pay dividends," reflected Molly the morning after Norman had announced that if Molly went back to work it would mean the end of everything as far as his life with her was concerned.
"And \$60 a week is \$60," she continued. Resolutely she went about the process of cashing in on what had been a \$6000 investment seven years earlier.
"A cool thousand," she exclaimed delightedly. "Plenty to pay for a term for the twins in that lovely special study school, hire a maid, and get me a new outfit of clothes for business. Then on sixty a week I can manage beautifully."
As for Norman—he didn't figure in her plans. Norman didn't want a business-woman-wife—very well, Norman should be relieved of her without further ado.
"I haven't," decided Molly, "a housemaid's soul. Work is work, time is time, and working time might just as well pay a profit."
At the sound of Norman's whistle from the front path, Molly hastily tucked the precious bank draft into a drawer in her desk, and hurried toward the kitchen. Norman was home earlier than usual—dinner wasn't nearly ready—and Molly, as long as she was on the job as housewife, proposed to be efficient about it.
"Why, what's the trouble?" ex-

claimed Molly as she caught sight of Norman's face.
"Ned Brooks played the market, lost everything and has cleared out for parts unknown. The house he and Laura were living in is for sale—Laura has gone home to her people."
"Oh! The poor thing," cried Molly. "Her people have plenty of money—she'll be all right," said Norman, "but maybe I don't wish I had enough for a down payment on that house—it's not new, but it's wonderfully built."
"And the garden," interrupted Molly, "isn't the garden glorious?"
Silently Norman nodded, then said, "If only I weren't such a dab I would have made enough by now to buy the place, but I've got exactly \$500 and the bank won't take a cent less than fifteen hundred. The house not being new, it's next to impossible to finance it without plenty of cash."
Suddenly Molly smiled—the sort of smile that had been rare that seventh year. Norman's eyes were anxious-eager. Daring into the living room Molly flung open her desk, caught up a scrap of paper and hurried back to the kitchen.
"See," she said, triumphantly, "with your five hundred we can have the house."
"But—" faltered Norman. "It's up to a man to provide shelter for his family."
"Applause," cheerfully responded Molly. "Don't I have to live in your house for the rest of my life? So why shouldn't I turn in my old age fund toward purchasing my cage?"
"Oh, my dear," exclaimed Norman, which, as any seven-years-married wife will tell you, was a perfectly satisfactory remark for a husband to make, especially when accompanied by the sort of worshipping look that Norman gave Molly, as, stumbling over the twins' muddy arctic, he stepped from the back hall into the kitchen, and caught her close in his arms.

Ingenious Methods of Keeping Track of Time
Many and strange have been the methods adopted by primitive man for measuring time. His earliest method, says a writer in the New York Times magazine, was to decide the time by the length and position of the sun's shadows—a principle later worked out in the sundial. The phases of the moon divided periods and seasons.
The cave man, with awakening intelligence, developed an ingenious method of time telling through ropes of grass in which knots were tied at equal distances. He set fire to one end of the ropes and crudely measured the time required in burning from one knot to another. The grass rope was a prehistoric ancestor of the "time candle," with its notches cut at regular intervals or with alternate black-and-white stripes.
When the time candle burned to the third notch it was time to feed the baby; at the fifth notch or stripe, the housewife put on the potatoes to boil for the evening meal; at the last notch the family went to bed—the most natural thing to do when the light failed.
In the thirteenth century there was invented the nearest approach to present-day clocks. The word "clock" is a derivation of "glocken" or "cloches"—bells, which struck the hours.
In 1504 a young locksmith in Nuremberg, while serving a term in prison, made the first watch. It was as big as a saucer and was manufactured of iron. Its accuracy, however, could not be relied on, for it lost an hour daily; but when the lost hour was an established fact, the owner could estimate time quite exactly. The night watchmen carried these huge watches, and it was for this reason that they were given their name.
The next important invention in the progress toward the modern watch was a hairspring, so called because it was fashioned out of a pig's bristle. The hairspring in modern watches is made of steel wire, so fine that it resembles a spider's web.
Compare the "insides" of a pig's bristle watch with the delicate mechanism of the Twentieth-century product, which, in a lady's watch, has screws so infinitesimal that a thimble will hold 20,000. For one pound of swirldrops, 533,333 of these screws are required. But each has a beveled gear, a slot and a spiral thread. Its weight is twelve one-thousandths of a grain.
Enough Said
A soft answer, besides turning away wrath, frequently causes it. Teddy Brown, on arriving home after a long business journey, was in no mood to submit to the inevitable catechism of his loquacious spouse.
"Have you thought about me while you have been away?" she asked.
"Yes," said Brown, with a groan.
"Sure?" persisted Mrs. B.
"Yes, of course!" repeated the weary carpet-bagger.
"How have you shown it?" was the next query.
Teddy drew a long breath, then softly replied: "Well, my love, I lodged at the Nag's Head."
Then the hair flew.—London Weekly Telegraph.

"I've been watching that mechanic for the last 15 minutes. There's a man who knows his business. He didn't spill a drop of oil on the ground. He put down the hood gently, fastened it securely, and left no fingerprints on it. "Yeah, that's his own car."—Skelly News.

YOUTH BOASTS OF BRANDING FICKLE SWEETIE

Uses Pancake Turner on Her When She Says She Loves Another.
San Francisco.—Nonchalantly, almost boastfully, Charles Nunez Silva, twenty-four, known in Oakland as the "sheik of Seventh street," has admitted, according to Berkeley police records, that he indelibly branded his forty-one-year-old innamorata with a red-hot pancake turner when she told him she loved another.
"That's what I did to my last wife when I found out she was going out with another man," said Silva, according to the confession in the hands of the police.
While Silva was calmly detailing the branding, his former sweetheart, Mrs. Mabel Pennington Clarno, forty-one, lay in the Sutter county hospital at Yuba City, slowly recovering from deep burns on her abdomen, her left hip and her left hand. She was in such a highly nervous state that doctors refused to allow her to be interviewed.

Wields Red-Hot Weapon.
Silva, who lives in Oakland, was arrested at the home of his parents, Mr. and Mrs. John Silva, after Dr. Truett P. Perry, superintendent of the Sutter county hospital, had notified Sheriff R. R. Veale at Martinez of Mrs. Clarno's story of the branding.
Taken to the woman's bedside at Yuba City, Silva, according to Inspector Waterbury and Deputy Sheriff Ralph Harrison of Contra Costa county, readily admitted that he had wielded the red-hot pancake turner on Mrs. Clarno's body.
She was partially under the influence of an anesthetic, he said, but insisted she took it herself to allay the pains of illness.
Silva's story, as told the police, is that he and Mrs. Clarno met in May or June.
"She said she was lonesome, so I went home with her," his statement reads.

Told Her He Was Thirty-Eight.
After that he lived at intervals with Mrs. Clarno, bought her groceries and gave her money, according to his story to the police.
"I told her I was thirty-eight years old," he added. "I didn't want her to

think I was a 'kid,' and besides she told me she had been married four times."
In October he suspected that her love for him was cooling. So when she asked him to buy her the anesthetic to relieve her pain, he readily consented.
While she was semiconscious from the anesthetic, Silva told the police, he pressed the red-hot pancake turner to her abdomen. In her struggle she was burned on the hip and hand, he said.
Cared for by neighbors for a few days, Mrs. Clarno went to the turkey ranch of Joe Blanchard, whom Silva considered his rival. Her burns failing to heal, Blanchard had her transferred to the county hospital.
When Silva called at the hospital to visit his branded innamorata, Doctor Perry became suspicious, obtained the woman's story and notified the authorities.

Needless Pain!

Nowadays, people take Bayer Aspirin for many little aches and pains, and as often as they encounter any pain.
Why not? It is a proven antidote for pain. It works!
And Bayer Aspirin tablets are utterly harmless. You have the medical profession's word for that; they do not depress the heart.
So, don't let a cold "run its course." Don't wait for a headache to "wear off." Or regard neuralgia, neuritis, or even rheumatism as something you must endure. Only a physician can cope with the cause of such pain, but

you can always turn to Bayer Aspirin for relief.
Bayer Aspirin is always available, and it always helps. Familiarize yourself with its many uses, and avoid a lot of needless suffering.

Home Has More Danger Than Savages of Brazil

JOHN J. WHITEHEAD, explorer and lecturer, has just returned from eight months in the jungles of South America, where he was searching for traces of the lost Colonel Fawcett and his son.
Dangerous as he found the jungle, he encountered a worse danger at home. But let him tell it.
"One of the great problems of a trip of this kind is keeping in healthy condition. When we started, some of the members of the party had laxatives with them, but made wise by experience I carried Nujol. All too quickly my stock ran out. Soon I was in bad shape—wired with a diet of rice and beans, lacking vitamins and green vegetables.
"When we finally got back to civilization, entertained first in Brazil and later in the United States, I became positively ill. Severe stomach pains and poor elimination made me realize that Nujol would again prove the reliable, trusty keeper of health. Sure enough, with the first bottle the trouble disappeared.
Don't think Nujol is a medicine. It is as tasteless and colorless as clear water. It brings you, however, what your body needs like any other machine—lubrication. Just as a good bath washes our bodies clean, Nujol sweeps away, easily and normally, those internal bodily poisons (we call them) that make us feel dull and headachy and sick. Nujol cannot hurt even a little baby; it forms no habit; it contains not one single drug. Doctors and nurses use it themselves and tell you to use it, if you want to be well.
Take Nujol every night for two weeks and prove to yourself how happy and bright and full of pep you can be, if your body is internally clean. Get a bottle today at any drug store. It costs but a few cents, and makes you feel like a million dollars. Start traveling the health-road to success and happiness—this very day!"

John J. Whitehead, explorer and lecturer, with a Jungle Warrior

FRED CARROLL, Mgr.

In Winston-Salem at 648 Fenimore Street, is one of the most substantial contributors to the community, operating a modern packing concern, meriting the support of the local public, and renders a service for they also supply fresh meats to the trade and operate under the direction of public spirited management thoroughly familiar with every phase of this essential business which adds to the growth and commercial attraction of Winston-Salem and vicinity.

This well known concern is one of the most prominent in this part of the state. Its place is modern and up-to-date in every particular, clean and sanitary throughout. The business is conducted along progressive lines, and

we are glad to say that this company is a credit to the community.

This is a local institution with local interests at heart, and it should receive the consideration of all in this section.

To be able to make certain of getting the very best of fresh meats is a boon to any community. At this plant only the most healthful system is used in the process, and consequently they are not only health-protecting, but health giving.

The plant of this popular efficiently managed concern is a modern, sanitary institution of this part of the country that has met with the universal approval of the people. This company has probably made greater strides than

any other similar institution in this part of the state. The demand for their meat is daily increasing, and so far has become better known by name and fame in this section.

If the public could only comprehend how the products are handled by this company, could only understand how absolutely pure and health-giving they are—there would not be a family in the vicinity which would not be a patron of the concern.

The management has been closely allied with the large business interests of this section and has been instrumental in the upbuilding of this section of the country, and the institution should receive the patronage of the entire people.

LITTLE BOYS' KNIVES AND LITTLE GIRLS' DOLLS
There isn't any Santa Claus on the House Ways and Means of the Senate Finance committee. If there were, the calamity that has occurred in toy-dom might have been averted. Maybe some human Senators with kids of their own will do something about it yet.

Everyone knows that a boy just can't get along in this world without a knife—not a large, expensive blade, but just a small, sturdy knife that can be used a hundred times a day. This kind of knife is fairly cheap right now, and practically every boy has one. But the House boosted the rate on three-cent knives and four-cent knives made abroad, and the Senate Finance Committee has made them

still higher, so that if the present bill goes through, little boys may have to learn to struggle along without any knives at all. And that isn't all. Dolls, the absolutely necessary accompaniment to little-girlhood, have been taxed in the proposed bill to the extent of nearly doubling their price. A doll formerly costing one dollar, for instance would be priced at one dollar and ninety cents.

Belk-Stevens Co.

In Winston-Salem on North Liberty street, opposite the court house, is one of the firms of this section whose career in the commercial world has rendered them a landmark in the eyes of the community. Such has the public found this substantial and efficient establishment.

In the ladies ready-to-wear department they exhibit a complete and very attractive stock which is selected from the leading manufacturers of the country in large consignments and offered to the public at prices that denote real true worth. The public has come to know this and to look over their lines for unusual offerings.

The dry goods department is stocked with the latest colorings and styles in the popular fabrics of the day and af-

fords a most economical shopping center for the ladies of this city and surrounding territory.

The customers of this store enjoy a feeling of satisfaction when shopping in the various departments. They fully realize that the service and quality shown here at the present time will be remembered in future seasons. This popular house has selected its various stocks with the one idea of giving its customers the greatest possible values.

Their clothing department is as broad in scope of price as the styles and coloring are varied. This section has no more outstanding feature than this up-to-date store where ladies can satisfy their demands for clothing of distinctiveness and quality. In this day and age both young and old wish to be neatly attired in clothing of up-to-date

appearance. The ladies and gentlemen of this community are thoroughly satisfied with their purchases at this store which is stocked with a class of goods that would do credit to a much larger city.

Belk-Stevens Co. has won an enviable reputation as a place where the people of the country secure best merchandise of the day at the most reasonable figure. In your next shopping trip to the city include this store and you will find it will pay you well.

The management is in the hands of competent and public spirited men familiar with every detail of the business and it is quite proper that we commend Belk-Stevens Co. on the prominent position it has attained as one of the most valued of the community's commercial assets.

Camel City Laundry

RICHARD HENSEL, Mgr.

Located at 502 East Fourth Street in Winston-Salem, is the popular laundry firm that uses soft water throughout the entire process and executes the highest grade of work. A popular and well arranged concern, receiving a tremendous custom.

This well known concern is one of the best equipped industries in this section of the country that transacts business over this and adjoining country, and the reputation of their work for general excellence has spread far and wide over this part of the state.

The work is turned out in such a manner that you will be more than

satisfied if you give it a trial. They live up to the name in workmanship and business details.

The business of this laundry is now spreading all over this part of the country; it is by no means confined to its own city. The rapid increase in the business is due to the more than ordinary ability in the conduct of the affairs of the institution.

The latest cleaning and renovating machinery in their plant makes it possible for them to turn out work that looks like new.

The management and employees are

people who know the business from A to Z and when they advise you about anything in this line you can depend upon what they say. They are prominent business people and among our most valued citizens.

A special department for out-of-town customers is maintained where promptness and courtesy mark the service.

We wish to refer all our readers to this progressive and modern institution and to suggest that as regards dependable laundry work they cannot do better than to entrust their work into the care of this well known institution.

CULTURE
A bird's shadow is enough to be happy with, if a man is educated, or the flicker of light on a leaf, and when a song is being lived in a man, all nature plays its accompaniment. To possess one's own sense, to know how to conduct one's self, is to be the conductor of orchestras in the clouds and in the grass. The trained man is not dependent on having the thing itself. He borrows the boom of the sea to live with, anywhere, and the gladness of continents.—Gerald Stanley Lee, in "The Child and the Book."

FROM FINGERS TO FORKS
Knives, forks and spoons in their primitive form were used from very early times. The table knife became popular after the Seventeenth century. During the period of transition from fingers to forks, knives were used for eating as well as for cutting. Forks were introduced into England in the Sixteenth century. The custom came from Italy. Queen Elizabeth was the first English sovereign to use a fork. Her nobles thought it a piece of great affectation and her example was only scantily followed.

PROGRESSIVE FIRMS AID IN PROGRESS

CARROLL-CRANFORD COAL CO.

Located on Northwest Boulevard in Winston-Salem, are extensive dealers in high grade coal. They will cheerfully advise you as to the proper coal to use for your cook stove or furnace. "Your satisfaction is their success" and today is the proper time to fill your bin.

More than one emergency of a nearly serious nature in this community has been met by the provident enterprise of these farseeing coal dealers. But for the fact that they were able to obtain coal when others could not, many in this community might have suffered inconveniences and even disaster.

Of course, they advise those who can buy coal in the summer; they realize, however, that there are those who cannot. And in winter, they are prepared to meet the needs of those who could not buy coal when the suns were warm.

Their prices are reasonable because they know the coal market. Years of study have taught them when to buy

coal so that the customer will reap the advantage.

Such business men cannot help but be respected and admired in a community. Their business dealings are always above board. They are known to be reliable. Their advice on when and how to buy coal is taken. And it is given for the asking.

These well known men have had wide experience in coal marketing and have devoted a large amount of time to study of the geological structure and formation of coal. They are, therefore, in a position to explain to you the exact and proper method of firing your furnace. Give them a call; they can show you how to save money on your coal bills.

Furthermore, in providing this community with coal, particularly when it needs coal, they are rendering the community a service of the highest type. This is simply a part of their philosophy as business men and as citizens. They are a part of the community.

WOULD MAKE WAY FOR THE SUCCESSFUL BUSINESS MAN
Have you ever noticed that the world seems to make way for the successful man. Obstacles are turned to stepping stones, and even those who would oppose him open the way when he appears.

He carries with him an air of assurance and a conviction that he will get the thing he is after.

His assurance carries him through and because he believes he can, he influences others to believe he can and this builds confidence in himself and those about him.

It isn't that he is more able, more intelligent or has a broader education. Oft times he does not. But he believes in himself. This is more than half the battle with the individual.

The same thing is true of communities. Once let a community get filled with the spirit of belief in itself, once let it get the conviction that it can have the things it wants, if it goes after them, and that community will forge ahead and progress will be added to progress. It will be known in that section as a "live" town, a town that does things."

After all, there isn't any difference in a "dead" town and the live town, but a little action, a little leadership, a little cooperation, a little faith and confidence in its own forces.

Your town can be just the same kind of a town it desires to be. It has the leadership and the resources which, if it will assert itself, will open the way to progress and new development and greater prosperity.

One should not be too hasty in making their mark in the world, because it may be a hard job in erasing it. Punishment is designed for the violation of all crimes, but the difficulty seems to be in finding the sinner.

It takes boosting to build.

A magazine article, praising exercise, says boxing increases the reach. So does boarding, and it's much less strenuous.

One of the most dangerous things under our traffic conditions is to be thinking of something else.

BLUE WILLOW TEA ROOM

MRS. J. P. CAMPBELL, Mgr.

Conveniently located in Winston-Salem at 421 North Spruce Street, is excellently located and appropriately decorated—known as the place "where things to eat are different."

This tea room is a very popular place for discriminating people to meet for breakfast, lunch or evening dinner and has an excellent patronage.

At this popular tea room one comes in contact with real American cooking, the kind that is practiced by the mothers and daughters of the best families of the country, and one mission that this place is performing is the preserving of this art in the public life of the period.

Here you will find well-cooked food wholesome and deliciously appetizing. The service is equally satisfactory, whether your order be large or small, and you will be made to feel that your patronage is desired and appreciated by the management. There is no more attractively furnished place in this part of the state than this one, and

there is none that has attained a greater measure of popularity. There is none in which the service and courses are more pleasantly satisfactory. Afternoon and evening auto parties or people from this section in town on business will find this a pleasing place to complete the pleasures of the day.

The service at this foremost tea room is very pleasant and offers all the grace and hospitality of the American home.

Located where parking accommodations are ample it is a very popular place for people driving about to drop in. Tourists can stop here without inconvenience and annoyance of thick traffic. Private parties and special groups will receive the cheerful welcome extended to all visitors.

In making this review we are glad to compliment the management upon the position it occupies in the business and social life of the period and to call to the attention of the people that it is one place where the desire for real American food can be thoroughly satisfied.

WHERE IS THE GASOLINE COMING FROM?
About ten years ago the Nation became panicky when told petroleum organizations, whose opinions were backed by scientists and statisticians, that the supply of crude oil was diminishing rapidly in the United States. The latest statements from the United States Bureau of Mines shows that the quantity of crude petroleum refined during the past two years has increased by many million barrels. Apparently new discoveries of oil are keeping ahead of the wells that are being exhausted.

The general consumer feels that his greatest interest is in the price of the stuff when he rolls alongside of a gas tank.

SATIRE ON CONDITIONS OF DOWN TRODDEN FARMER
(Farm and Fireside)
I'm tired of self appointed agricultural leaders who pretend to interpret farmer opinions. I'm tired of the agricultural lobbyists in Washington who live in fine apartments, get up at nine in the morning, hang around the halls of Congress and wall about the poor down-trodden farmer at so much per wall. There isn't an honest callus in the whole kagoodle of them.

I'm tired of this prevalent weeping over the farmer being driven into peasantry by debt and poverty. Each one of my neighbors drives a big sedan, has a radio, takes at least one daily paper and half a dozen magazines; the women wear silk stockings and the men good clothes, although I must admit that real money is a bit scarce.

I'm tired of hearing about the ignorant farmer who is inarticulate so that he must employ professional agitators while he rears his own children in ignorance. Every morning my road is full of rushing cars taking the children to high school while some of them play on the school band, are on the basketball teams, take lessons in economics, journalism, domestic science, public speaking and literature. My neighbors take an intelligent interest in politics, both local and national, and have a keen grasp of national and world-wide questions.

I'm tired of the assumption that the city worker is more intelligent than the farmer. It doesn't take as much brains as may be found in the small end of a toothpick to stand in an assembly line and fit a bolt to a predestined hole, but it does take a lot of brains to fix a piece of ground and raise a good crop.

I'm tired of our system of education which teaches farm girls to conjugate a biscuit or a tubful of soiled clothes; a system which teaches a farm boy to chase an algebraic equation all over the blackboard but fails to teach him the mysteries of soil chemistry and bacterial reaction.

I'm tired of people plying the isolation of the farm when every farmer around me has a telephone and time to get the very latest news bulletins over the radio. The so-called simple joys of the farm, such as sleigh rides, fishing in the old pond, playing croquet, pitching horse shoes, Sunday afternoon strolls through the flower-decked wood lot, have not lost their attraction but are still a million miles ahead of sitting in a stuffy movie house along with other nitwits watching a triple divorced marion go through a love scene with a hairpants cowboy who never saw a cow in his life and wouldn't recognize a steer if he saw one sitting on the church steeple.

I'm tired of hearing about the hard-working farmer. The farmers I know do not do enough work during winter to get up an appetite, and in summer have time at all times to go gossip over the line fence. Imagine that in a shop!

Yes, I'm tired of sitting so long on the seat of my pants, so I'm going out and teach some young apple trees how to grow.

The death rate from tuberculosis of the lungs has dropped almost sixty per cent since 1911.

READY FOR DIVORCE
According to an American medical man "a pint of milk per day and two oranges, by a couple threatened by divorce, will straighten matters out." We already know that an "apple a day keeps the doctor away," and grapefruit is supposed to be useful in fighting flu. But the idea of curing matrimonial troubles by milk and oranges is new.

S. B. KNIGHT DECORATING CO.
In Winston-Salem at No. 630 West Fourth Street, is prepared to take complete charge of your interior decorating. They have been called upon to decorate many homes, apartments, hotels, theatres and churches over this section of the state, which stand as every day examples of their professional skill. They are offering the people a most artistic service in interior furnishings, and have been very successful during the time they have served the public.

At their studios they have an excellent showing from the various tints and color combinations to the simplest of the present day styles in arts and decorations.

They feature a service embodying harmony and individuality and collaborate with the architect to see that the whole presents a pleasing picture. They take entire charge and offer wall and floor treatments, creating a proper background for rugs, draperies, furniture, ornaments, and also carry a complete line of rugs, mirrors, pictures,

MARRIAGE'S ODD EFFECT
Two women, who had known each other quite well, met the other day for the first time in 20 years. One was married. The other was not. The married woman was happily boasting about her boys, saying one of them was six feet tall and all were handsome and exceptionally bright and smart. Her face fairly sparkled and love and pride simply oozed from her.

The old maid friend was interested, and finally said: "I am glad you

have such a nice family. I remember when you married Dick, how you adore him, and loved to tell me how handsome and smart he was."

"Did I?" asked the woman, looking amazed, dumbfounded.

"Marriage seems to be like that," the old maid mused.—Atchinson Globe.

Statistics are valuable. According to a survey made of dealers selling window glass, more boys played baseball last summer than in any previous year.

FISHEL BROTHERS WELDING WORKS

Conveniently located in Winston-Salem at 608 North Main Street specialize in auto motor rebuilding, welding, straightening fenders and general repairs. This firm conducts one of the most modern and up-to-date welding establishments to be found anywhere. They are welders of iron, steel, malleable and their alloys.

This is the most complete and efficient welding plant in this section of the state, and enjoys a large patronage on account of the fact that they turn out work of class, get it done when promised and that their charges are very reasonable.

The manager realized when he started into business that it was necessary to equip this place in the most complete and modern style and has installed the latest scientific machinery for the welding of iron, brass, bronze and aluminum of any size and shape. This is a great accommodation to the people and the autoists, manufacturers, farmers, and in fact every body has found the work will not only be executed correctly, but that the part will be

as strong if not stronger than it was before being welded at a much less cost than the getting of a new part, and that it can be done in a short time, thus saving the public endless delay in the ordering of new parts.

In charge is a welding craftsman of unusual ability and skill, and his work has the commendation of everyone. No matter what may be broken, you should take it to him and have a consultation and he will promptly tell you what can be done. If for any reason it cannot be repaired, or will not pay you he will tell you so.

In this establishment will be found the latest machinery and the most expert men, for this firm is one of the best concerns in this part of the state, and is known throughout the country for efficiency and promptness. It is headquarters for this class of boiler and welding work for all of the people of the territory, and enjoys a large patronage because it does honest work at reasonable prices. Give them a call.

Nehi Bottling Co.

Located at 711 North Trade Street in Winston-Salem, H. O. Dowling, President and manager; H. O. Dowling, Jr., Vice President, and A. G. Dowling, Secretary, are bottlers of Nehi beverages, which the consumer demands from his dealer when buying again. Demand these products in the Nehi patented bottles and see that you get the genuine.

This well known bottling works is deserving of more than passing notice in this review of the onward progress of the community, as they are perhaps the largest producers of a high grade beverage in this section of the state, their brands being standards of quality and so recognized by the trade for a radius of many miles.

Their products are popular because

their plant is most modern and they have realized the popular demand for pure and wholesome refreshments. Therefore, they have gone further than the pure food law requires and turn out a product that is entirely free from impurities as well as being delicious and wholesome.

Many pure food experts have ruled that carbonated beverages when properly made is a food product containing life-giving, energizing substances essential to build up the bodies of children and grown-ups. The value of sugar alone in a bottle of their products is of much importance, the commission will allow no substitute.

The eruptions produced by the carbonated water, which is a predominant content, not only cleanses the

mucous membranes of the stomach, but also in passing into the intestines are assisted thereby.

The plant is a credit to the community and is open at all times to the inspection of the public, and the public is cordially invited. Few cities services are in great demand, for this laundry firm knows the business from A to Z and employs expert workmen using soft water throughout the entire process.

The latest cleaning and renovating machinery in their plant makes it possible for them to turn out work that not only washes out the dirt, but to handle the most delicate fabrics as carefully as they would be in your own home.

Zinzendorf Laundry

F. S. GREENE, Mgr.

Located at 1000 South Main Street in Winston-Salem, is one of the most prominent and well known laundry and dry cleaning firms of this part of the country, with a reputation for the kind of service that is built to last. Their services are in great demand, for this laundry firm knows the business from A to Z and employs expert workmen using soft water throughout the entire process.

The latest cleaning and renovating machinery in their plant makes it possible for them to turn out work that not only washes out the dirt, but to handle the most delicate fabrics as carefully as they would be in your own home.

Meeting with instant and almost universal approval, the cleaning and dyeing work of this laundry is going to all parts of the country, and with the dawn of new prosperity, the future will see this laundry one of the busiest beneficiaries of industry, as prosperity gives impetus to the desire for greater efficiency. There is not an establishment more worthy of extended mention than this well known laundry.

They have in this laundry, which may well be termed this section's laundry headquarters, all the late necessary machinery for the production of "dependable laundry service" which has met with instant approval by all

who have had work done by them in the past.

It is a pleasure for us to point out this foremost laundry as one of the leading enterprises of this section of the state and to say that it has been eminently fair and honest as well as progressive and up-to-date and that they have won for themselves the reputation of being the leading concern engaged in their special field of endeavor. It is to your advantage to transact business with them.

The manager has surrounded himself with employees who understand the business from the ground up, and as a result the work moves along in a highly efficient manner.

A cable customer who wanted to send his message at a saving in cost resorted to the following words: "Asktoese th atleterit explains." This is his home-made code. What he intended to convey to the recipient was: "Ask to see that letter, it explains." The camouflaged message had it not been detected in time by our eagle-eyed counter clerk, would have gone through at a cost of 80 cents; in plain, unadulterated language, the seven words would have amounted to \$1.40. The saving by an "evader" of 80 cents was not effected.—International System News.

SEAGULLS GAVE WARNING

A pilot who landed at a south-coast port in England during the World war told how he detected a floating mine by the presence of seagulls sitting on some floating object. J. C. Penney Company, Inc.

A NATION WIDE INSTITUTION—WHERE SAVINGS ARE GREATEST

With up-to-date store in Winston-Salem at 521-523 North Liberty street, is one of the one thousand and four hundred stores operated by J. C. Penney Co., Inc., enjoys a very large patronage from the city and surrounding country. This enterprise originated in the mind of an energetic business man, J. C. Penney, who established the first store in Kemmerer, Wyoming in 1902.

The story of J. C. Penney Co., Inc., is an important chapter in the history of modern mercantile methods. It is more than important! It is inspiring. It is a story of a business with a Big Idea behind it—an idea that is clean, clear cut. The Big Idea with them for years has been, and is today, the potent force that is unflinching governed by the Golden Rule: "Whatever ye

would that men should do unto you do ye even so to them." Every customer pays one and the same price. No more, no less. And that price assures a superior value. No sales. No discounts. No charge accounts. The same square deal and just treatment alike to all.

They carry at all times a large stock of ladies' and misses' ready-to-wear garments and shoes, ready-to-wear for men and boys, notions and general dry goods. Truly one of the reliable, most progressive mercantile houses in this part of the state.

In each store is found not only the styles and materials in most popular vogue today, but the most conservative of modish garments that have met with universal approval. As regards price, you will find that these garments which hang in graceful and becoming

lines, are offered at most reasonable figures, for while this store enjoys the patronage of the community, it is the most popular store within many miles among people of every walk of life.

In its line of ready-to-wear can be found the latest ideas of the leading designers of the country and Europe that have been purchased with the idea of giving men, ladies and young people of the city and surrounding country the latest Eastern fashions most reasonably.

The J. C. Penney, Inc., purchase direct from the mills and factories and pass the middleman's profit to the customer.

The manager is one of the most progressive business men of the community and is a consistent and material booster for all propositions that further public improvement.

Ives Business College

FRANC L. IVES, Pres.

Located in the Peoples Bank building in Winston-Salem, post office Box 2237 and telephone 2150, has continuously merited the distinction achieved by its careful training of students, as being far above the average commercial school. This admirable organization is under the direction of a management of intelligence and culture, and well informed in matters relating to advanced educational courses that conform to modern business methods. Its graduates are in demand by the business men as they are trained on modern office equipment.

On a visit to the school, one will instantly feel the atmosphere of business idealism and general educational interest. By its dignity, the visitor is immediately impressed that here is a good wide-awake business college wherein students find efficient, specialized training. That it is well deserving

of its established reputation for thoroughness and quality, it witnessed by its chief asset, which is the personality of the instructors as revealed in this wholesome, dignified appearance, their earnestness in dealing with the students and their direct and intelligent discussion of school matters with the visitor. Many firms in this city and for miles around have secured well trained employes through this reliable college.

This well managed commercial school has the practical atmosphere of a large office, and this has a marked influence to give the student a business like viewpoint and pose.

The work is individually planned, equipment, text books and instructions are in accord with the present day demands, and at this local college a business education means "a definite amount of training along definite lines

for definite purposes." Each pupil that leaves the college is adequately prepared to keep pace with the demands of modern methods, as it is a rehabilitational vocational institution.

Furthermore, you are dealing with home people that you know as neighbors. A local institution with public spirited management, progressive and efficient business methods, clean moral atmosphere and able instructors.

The management maintains in the institution only such policies and practices as will in the community and elsewhere reflect credit upon the cause of education. Everything new in modern business is taught here, therefore, we recommend the college to the public without hesitation. You should visit this institution to appreciate what it is doing for our community in preparing future business people.

PROGRESSIVE FIRMS AID IN PROGRESS

The write-ups appearing in this edition have been prepared by competent newspaper men who endeavor to establish closer trade relations between the merchant and consumer. Highly commendable are the ethics used by the various firms in their approach for business.

STOWE'S GARAGE, INC.

At 809 North Trade Street in Winston-Salem, offer excellent service from six a. m. to midnight. They specialize in Top, Body and Fender work, taking dents out of the body and in fact offer a general service to car owners.

They have a repair department for automobile owners and the fact that they render a complete service for the automobilist makes their establishment the repair shop of good service, in this section of the state.

One of the centers of activity that is visited by autoists from this section of the country is this very popular garage, which by reason of its very accommodating policy has wide popularity.

This shop is conveniently located and commodious enough to look after the local patrons and the traveling public in the way of service.

When this concern started in business they determined to furnish service to every auto owner, and there is

no question but that they have succeeded.

In the repair department they have in charge able and efficient workmen and, being backed by vast facilities which enable them to rebuild, replace or repair any trouble, no matter what the trouble may be, in a most satisfactory manner.

This repair shop is very important and adds greatly to the advantages of every owner of an automobile. The fact that visitors and local patrons can get real service at this up-to-date institution instills in the mind of the automobilist confidence in the fact that all his troubles can be taken care of in a "most workmanlike manner."

We know of no concern more fully equipped or better prepared from the point of workmanship to be able to turn out work of class, for its reasonableness of charge and for getting it done when promised than the Stowe's Garage.

TRAGIC RECORD OF LARGE LOSSES THROUGH FIRES

As another summer draws toward its close the newspapers are crowded with reports of devastating fires. A dropped cigar or cigarette, a campfire incompletely extinguished—such little careless things as these have resulted in the destruction of magnificent forests, great factories and thousands of homes.

The most tragic part of it all is that the waste is entirely unnecessary. It is a matter of moments only to properly inspect a building for possible risks. Yet when these small tasks are left undone the result may be a conflagration that wrecks the work of years.

A little care and a little knowledge and a little energy on the part of our citizens would reduce fire loss to a minimum. The fact that losses have been decreasing, slowly, for years, is hopeful but inconclusive. Our fire record remains a national disgrace, a black blot on our efficiency and prosperity.

Insurance and fire-resistant construction of buildings and fire patrols in our parks and forests, are necessary protections. But valuable as they are, they can never be a substitute for individual "fire carefulness." And we pay each year for our carelessness with close to half a billion dollars, beside the inestimable loss in business and in human lives.

COX'S SEED STORE

In Winston-Salem at Sixth and Cherry Streets, opposite the City Market, are extensive dealers in "Seeds for every need," which have been of such uniform quality that the consumer will take no substitute when buying again. A progressive firm under able management.

"As Ye Sow, So Shall Ye Reap," is certainly a forceful expression and should carry a warning to the farmer and truck grower that would cause him to use the greatest care in selecting his seeds. Many a very valuable crop has been lost and weeks of hard labor have been for naught by planting seeds that would not sprout and grow.

If you select your seeds from this well known store you will be assured the highest quality seeds on the market. Their stock includes only such

merchandise as have been tested and have passed a germination percentage. They stand behind the stock and give them years of experience and a large list of satisfied customers as their best reference.

The stock not only includes field seeds of all kinds; it also includes garden seeds, flower seeds and a general line of supplies for keeping up lawns and gardens.

The proprietors of this store invites the public to make this place their headquarters when down town and are more than glad to render any little service for your convenience. It affords us pleasure to refer this seed company to our readers and if they will give this establishment a trial they will be convinced that seeds from this store will be of the highest productive value. Their past reputation is your guarantee for the future.

AUTOMOBILES ARE DEADLY TO BIRDS AND SMALL ANIMALS

Pennsylvania game authorities are calling attention to the high mortality of game birds and small animals resulting from being killed by automobiles. From various parts of the State, game wardens and other observers have reported seeing many rabbits and fur-bearing animals together with ring-necked pheasants and other game birds which had been struck by cars. Similar reports have come from a number of other States. An Eastern Pennsylvania sportsman claims that more game is killed by careless motorists than is shot during the gunning season.

WE ARE A CARELESS PEOPLE REGARDING SAFETY LAWS

The automobile has brought much pleasure to the American people. But it has also brought one of our most serious problems. Every year thousands of people are killed and maimed in automobile accidents of various sorts. The majority of the casualties result from carelessness and incompetence. There are few unavoidable accidents.

It would seem a simple matter to enforce adequate driving laws, and when tried, it has proven that this reduces the accident rate. It would seem equally simple to withhold operating licenses from persons too ignorant or too incompetent to drive a car with ordinary ability. Yet we go far out of the way for our cures and produce such legislative boomerangs as compulsory liability insurance. And, in the meantime, while such panaceas dismally fail, the death record mounts.

We are a careless people in many ways. And our lack of safety consciousness causes untold waste in lives and property. Until we follow the obvious course and teach prevention, modern traffic laws and bar the reckless and incompetent from the highways, the toll of automobile deaths will mount.

"They says Boggs is crazy on the subject of golf and his wife is equally crazy over auction sales."

"Yes, and the funny part of it is they both talk in their sleep. The other night a lodger in the next flat heard Boggs shout 'Fore' and immediately Mrs. Boggs yelled, 'Four and a quarter.'—Oil Weekly.

CONNER & WALTERS CO.
J. E. PRICE, Mgr.

In Winston-Salem at 234 North Main Street, are prepared to offer the best quality barber and beauty shop supplies and equipment. Under the direction of an authority on modern equipment.

Conner & Walters are rendering their customers the very best of service in these days and are using every effort to get their customers everything needed in the line.

They keep supplies that are suited to this section and are a great aid in the promotion of sanitation in the shops of the district.

At their store and warerooms they keep in stock a vast supply of barber shop furniture and can furnish anything from the most modern chair to the most exclusive beauty shop boudoir.

In the way of equipment they carry a complete line of clippers; razors, electrical massage, soaps, toilet waters, scissors and all the various preparations for the shampoo, the shave and the massage as well as those delicately perfumed toilet waters. Their supplies are both American and imported and represent the very choice lines that have been approved by the trade.

A CAUCUS IS NEEDED

A Philadelphia federal judge has ruled that a purchaser of liquor is not liable to punishment.

A Louisville judge has ruled that the buyer is as guilty as the seller.

A Richmond judge has ruled that an official who tempts a man to sell liquor should feel the hand of the law.

Senator Sheppard says he will urge a federal statute bringing the buyer within the purview of the law. On second thoughts he amends this by saying that the Volstead Act already makes it a crime to buy liquor for beverage purposes.

There should be a caucus of judges and senators and settle the question one way or other. From the point of view of the purchasers the suspense is terrible.—Memphis Commercial Appeal.

AROUND THE CORNER

(By Charles Hanson Towne)

Around the corner I have a friend. In this great city which has no end; Yet days go by and weeks rush on. And before I know it a year is gone. And I never see my old friend's face. For life is a swift and terrible race. He knows I like him just as well as I. As in the days when he rang his bell. And I rang mine. We were younger then;

And now we are busy tired men—Tired with playing a foolish game; Tired with trying to make a name. "Tomorrow," I say, "I will call on Jim. Just to show that I'm thinking of him." But tomorrow comes—and tomorrow goes; And the distance between us grows and grows.

Around the corner!—yet miles away "Here's a telegram sir," Jim died today! And that's what we get—yet deserve in the end— Around the corner a vanished friend.

FOR TWO TRIPS, MAYBE

"Did you know, dear, that tunnel we just passed through was two miles long and cost \$12,000,000?" said the young man to his sweetheart.

"Oh, really, did it?" she replied, as started to re-arrange her disheveled hair. "Well, it was worth it, wasn't it?"

Brown "The boss says that when he was a boy on the farm they had a mule that was just like one of the family."

Jones "Yes, and I know which one."

PIEDMONT

One of Lexington's concerns located on N. Lewis, president; J. M. Lewis, president; E. A. Timm, treasurer and manager. The store has attained a position of high standing because of its many years it has earned the respect of the community.

It may well be stated that this section has maintained a high standard of living home outfitting and this well known firm.

This time-tried establishment is a store—and for the people the plan that aims pleasure, satisfaction is the aim of the Piedmont life of the people by supplying at reasonable necessities, comforts,

Peerless Mattress Company

In Lexington, North Carolina, are manufacturers of high grade mattresses and bedding which have been of such uniform quality in the production that they find a large and ready sale. See them for an estimate before placing an order.

With the growth of wealth and luxury in the country there is no one line of business that is gaining prestige with greater rapidity than the manufacture of mattresses. Our forefathers slept in the great outdoors, then on the slab and on down through the various phases of the bedding problems. Today the people of all stations in life demand the very best of beds and bedding. In this age of hurry and rush it is necessary to have comforts

in order to still the tired nerves and produce sleep that refreshes.

The day of the straw tick and the feather bed is over and everyone should look over their household and equip it with the most modern mattresses as it not only is the most sanitary bedding, but makes one enjoy life the more, keeps the family in better health and helps in many ways.

The mattresses and bedding made by this firm are of the best quality and are recognized by people in all this community. They have attained fame in producing comfort that has spread for many miles around.

The plant is a model institution in its line, being one of the most modern and up-to-date in this part of the

country. The latest improved machinery is used in all of the work and the place is a model establishment and their mattresses are the best that money can buy.

Their mattresses are known over this part of the country as the very best that can be secured and have always been the favorite with the local public. They are made of the very best of materials and constructed along lines that make them not only comfortable but ones that will stand the wear.

The management has always had at heart the best interest of the community and has done the best at all times to serve the people to the best advantage. Under his business direction the business has prospered and expanded.

Children were once told that they were to be seen and not heard. Today most parents don't even see them often enough to be heard.

A five dollar bill probably won't go as far today as it formerly did, but it at least will go faster.

O. T. NICHOLSON HAPPY FEEDS, GROCERIES AND COAL

In Lexington at No. 523 West Fifth Avenue, is adequately prepared to serve the city and surrounding territory. Under the direction of its management who has eliminated the great problem of buying coal. He will cheerfully advise you as to the proper coal for stove or furnace use.

Obtaining of coal, and good coal, never need be a problem for the people of this city and the vicinity. And seldom is it a problem. The home owners and the home renters of this prosperous community are indeed blessed. For here is located one of the fairest, one of the most able, and one of the most far-seeing coal companies to be found in this section of the country. His business is a large one; for he has built that business on the foundation of service, and one hundred per cent service at that. As a result there is probably no community in these United States which has as many satisfied coal users as this establishment.

To one who knows the coal game, it is not hard to ascertain the reasons for this dealer's success. In the first

place, he knows the coal market as few people know it. Not only has he had extensive experience in buying coal to sell to his customers, but he seems to have an uncanny sense of the movements of the coal market. He knows how to buy. He will tell you when it is the best time for you to buy your coal and you will make no mistake in following his advice. And his advice is given free of charge.

This coal yard is one of the busiest commercial centers in the community. The fleet of wagons insures prompt delivery. The adequate yard space permits him to keep a large supply on hand. He is a business man of the highest calibre. He knows well that ultimately an ideal service in business reaps its own reward. His ideal in civic and social life is the same as that of his business life; he believes that as a member of a community he can serve that community; he believes that as a member of society he owes certain service to that society. These ideals account for the high position which he holds here as a real and true civic leader.

FOR WALKERS ONLY
The first pedometer was invented by John Fischer, a London mechanic. His patent, sealed on June 17, 1783, was for a geometrical and pedometrical watch which not only answers the purpose of a common watch, but is also

distinguished by showing on the dial every step the walker makes and by measuring the distance.

A combined pedometer and watch of this type made a few years later, but not by Fischer, is in the South Kensington museum, London.

PIEDMONT FURNITURE CO., INC.

One of Lexington's many progressive concerns located on Main Street—J. T. Lewis, president; John F. Beck, vice president; E. A. Timberlake, secretary, treasurer and manager, has continually merited the position this furniture store has attained as one of the leading home outfitting firms of the city, and because of its unequalled quality the many years it has served the public has merited the large custom it receives.

It may well be stated that no business house transacting business in this section has maintained a better heritage or has higher standing as a leading home outfitting establishment than this well known firm.

This time-tried and well conducted establishment is a store of the people—and for the people—a store built on the plan that aims to give mutual pleasure, satisfaction and benefit, for it is the aim of the proprietors to make this the life of the people worth while by supplying at reasonable prices the necessities, comforts, conveniences and

the luxuries. The various articles have been selected by the proprietors with a view to perfection in three things: Comfort, beauty and durability, and embrace as a whole the most beautiful and durable productions of the American furniture maker's art. It makes no difference whether it is a room you desire to furnish, the whole house or just a piece or two that you want, you can secure it here on the most favorable terms that the market affords.

The management is in the hands of prominent citizens who are thoroughly conversant with the business and have always been boosters for all things that promise public improvement.

This is one of the most valuable commercial assets in this section—progressive, complete and up-to-date, serving the people in a very satisfactory manner. There is nothing that adds more greatly to the progress and prosperity of a community than progressive business men who appreciate the necessity of keeping up with the times in the selection of their stock and the manner of operating their business.

LABOR NOT EVERYTHING
The printed record of mankind is full of comments and counsel about work. Bismark is often quoted: "To youth I have but three words of counsel—work, work, work." Why only three? Why not "work, work, work, work?" Or why not just the one word? "Work!" If the boss of the shop said what Bismark said it would

not mean much, except to the employee he said it to; but because the great Bismark said it, it goes into the books of quotations! It is nonsense. Work is admirable and necessary, of course. But a man may work, trebly as Bismark advised, and still be a very useless atom in civilization. Labor is noble—every one says so. But it is not all of life.—Boston Herald.

MILLER'S STUDIO

Located in the Harmon building in Lexington, enjoys a large patronage from the discriminating people of the city and surrounding territory. When in need of anything in the line of photography you will find this studio of the very best in the community.

This is one of the most progressive establishments in this section and is equipped with the latest mechanical devices for the purpose of doing high grade work. The proprietor has especially prepared his studio to take care of his customers who desire the very best in photography.

The studio has an excellent reputation for the high class work turned out and for the prompt and courteous attention shown in each and every particular. They finish your photographs in the most up-to-date manner, insuring the best at all times. Their prices are within reach of everyone. All telephone appointments will be promptly taken charge of. The proprietor has es-

tablished a large and substantial patronage from the people of the city and surrounding territory.

This studio makes a specialty of family groups and the taking of children's pictures. Every photographer knows that it is indeed a delicate task to make an artistic family picture.

Every woman loves a picture. Photographs have always been more than a mere gift sentiment. A birthday photograph, for example, always delights because of the sweet significance of the occasion as well as the regard and the enduring quality of the gift itself. So when you give, let your gift fulfill that existing desire for something pretty.

The management has always been a booster for the community and through his efforts much out-of-town business has been attracted here. We take great pleasure in recommending this popular studio to any of our readers.

All Bushel Baskets Must Hold Bushel

Several state laws and numerous municipal ordinances became dead letters November 1 and the fruit and vegetable hamper with the pinched-waist effect will become as obsolete as a similar style of feminine apparel. On that date the penalty clauses of the United States Container Act of 1928 become operative.

No longer will the bushel of fruit and vegetables and its fractions and multiples be judged by the weight of its contents, sundry laws and regulations to the contrary notwithstanding nor will it depend upon various other factors, some of them fantastic as a test of legality for Congress has decreed that a bushel of these commodities shall contain 2,150.42 cubic inches.

It required many years for Uncle Sam to awaken to the confusion existing in these measures and a bill to straighten out the steadily increasing tangle before Congress almost continuously for eight years, but when Congress acted finally, it went a long way.

Sets Aside All Other Laws.
Being based upon the weights and measures of the constitution this 1928 standard container law takes precedence over all conflicting state law or city ordinance, differing in this respect from the standard container act of 1916, which applies to other forms of containers and which is based upon the Interstate Commerce clause, and hence cannot affect containers used wholly in interstate commerce.

For many years there has been a battle of wits between buyers and sellers of fruits and vegetables in which some states and municipalities have intervened, mostly in an effort to bring order out of chaos, but in few instances, apparently to give advantage to one side or the other. Illustrating the latter, there is a large Eastern city which has an ordinance requiring that a bushel of fruit or vegetables shall be a container "heaping full" was reached, quite naturally, in orders from shippers for baskets which might be piled "heaping" without actually containing more than a bushel.

More numerous are local regulations defining the bushel by weight. All such are now void, at least, in the opinion of the solicitor of the Department of Agriculture and it is to be doubted that in view of the authority vested in Congress by the constitution to make uniform weights and measures whether a serious court test will be made of the container act.

Basket Sizes Standardized
This new container law enacted in the spring of 1928, but with its penalty clauses effective November 1, 1929, establishes standard sizes for hampers and round-stave baskets, and for split or market baskets for fruits and vegetables.

It requires manufacturers to submit specifications for such containers to the Department of Agriculture for approval; forbids the manufacture, sale or shipment or use of those which do not comply with the act or of their parts; provides for regulations by the secretary and tolerances of sizes he may direct and it sets forth penalties of seizure of non-approved containers and prosecution in federal courts with a maximum fine of \$500 on a misdemeanor charge. Very importantly, the act omits the word "willful" in its penalty clauses, thus giving sweeping authority for confiscation of goods or prosecution of persons. It provides for marks of approval on containers if the manufacturers desire to use them and relief of wholesalers or retailers from prosecution for possession of nonapproved baskets if they have a guaranty from the manufacturers that the containers comply with the terms of the law.

In contrast, the standard container act of 1916, which applies to climax baskets and berry boxes and still baskets, covers interstate commerce only, and has much less stringent penalty provisions although enforced also by the Department of Agriculture. The

Davidson Hosiery Mills

S. GOLDNER, Mfg.

In Lexington, is one of our most valued institutions. Manufacturers of a well known Hosiery. A firm worthy of liberal support.

In a review of the business interests of the community there is no concern more worthy of extended mention than this one.

Here the public has at its disposal the services of men who possess the know how and who obtained their manufacturing and business education in the school of practical experience. From the inception of the enterprise, quality has been the aim and the

standard has been maintained from the beginning.

The plant of the company is very extensive and is equipped with the latest scientific machinery for the production of high grade products. The name stands for quality, reliability and progress in this industry and as the advances of the times have marked improvements in the trade they have kept thoroughly abreast of the times.

It is a local concern, under competent direction of men interested in local development and its substantial and well merited progress is a matter of actual fact well known to the public.

The products manufactured by this company are recognized by the trade as made of best materials and of the very best workmanship. They are sold all over the country and the users have always been well satisfied and demand their products when buying again.

In making this review of the onward progress of this part of the country we are glad to call to the attention of the people the advantages accruing to the public by the location of this industry here, the high quality of the products and the commanding position they occupy in the manufacturing world, excelling as they do in their special field of endeavor.

INSTRUMENTS OF TORTURE USED IN GOOD OLD DAYS

At the London tower there is still the "cravat" or engine for locking the hands, head and feet together, and nicknamed the "Scavenger's Daughter." This was made in two parts, with a broad hoop of iron fastened by a hinge. The prisoner had to kneel on the pavement and contract his body into the smallest possible space. Then the exe-

cutioner knelt on his shoulders, introduced the hoop under the victim's legs, and compressed the victim closely until he was able to fasten the ends of the iron hoop over the small of the back. The time for that torture was one and a half hours, during which period the pressure of the infamous device made the blood gush from the nose, or even, it was said, from the victim's hands and feet.—Detroit News.

CITY SHOE SHOP

T. S. TYSINGER

In Lexington at 9 West First Street, is offering the people of this section an essential service and every one should take advantage of their high grade repairing of shoes for men, women and children.

There are many people today who yet think that a shoe is repaired all right as long as it is fixed so they can wear it again. But in the progressiveness of this line, things have changed and the modern methods used today insure the owners of shoes repaired at this up-to-date establishment double the life of the old-time way of repairing. Therefore it behooves every one to see that they are getting the longest life possible out of their shoes by having them scientifically repaired at the City Shoe Shop for they have the latest machinery in use, and the best materials on the market, which insures you that shoes repaired at this establishment will be stitched in the same way the factory used in their manufacture.

This concern has aided in no small measure to the progress and prosperity of this section, and in this trade review, we are glad to refer our readers to this concern for anything in the line of first class shoe repairing, and suggest that if you have repairing of this nature that you mail them in by parcel post, and the return postage will be paid back to you on them, or the next time you bring your work to this firm, as they guarantee all work done by them to be the best, while their prices are always reasonable; while you find that the shoes you thought were worthless will be good for many more months wear.

The manager of this up-to-date and modern-equipped shoe shop is one of Lexington's leading business men, and has saved the people of this community many hundreds of dollars in the repairing of their shoes.

He is a man that appreciates any business given him, whether it be a large or small job.

GRIMES ICE CREAM CO.

IT'S SODALICIOUS

Located on Third Avenue in Lexington, is inspected regularly by the state health officers; being one of the most up-to-date ice cream manufacturers of this section of the state, and they distribute their products over a wide area, having a most excellent patronage.

This ice cream factory for the production of pure ice cream is a model sanitary establishment that is transacting a large business. A decade ago ice cream was considered a delicacy that was only used on Sundays and holidays. It has now become to be recognized as a food and not a delicacy.

Without question this factory is one of the cleanest and most sanitary and have a grade of ice cream that is equal to anybody's anywhere. They get their supply of cream from some of the healthiest and best cows in the country, paying the farmers a price for their cream that enables them to feed and care for their stock.

This ice cream is not only health protecting but health giving as well. Only the purest of cream and flavors are used and every precaution is taken

to make the product delicious and healthful. The machinery is of the latest model and strictly up-to-date. They make a specialty of furnishing ice cream for the trade and do an extensive wholesale business.

During the war the national food administration placed ice cream in class three because they found it was exceptionally high in food value. One quart of this delicious cream equals two pounds of lean beef, one-eighth pound of ham, two-eighths pounds of eggs, three pounds of potatoes. Therefore, even with its delightful palatability, ice cream is yet one of our healthiest foods.

This popular plant is one of our leading industries. They have always taken an active interest in all matters pertaining to the good of the country and have aided in the betterment of local conditions, realizing that a larger city and community would be a benefit to the whole people. We wish to compliment the management upon his progressive and successful policy and to refer this establishment and its products to our readers.

THE COUNTRY WEEKLY

As an advertising force, the country weekly is regarded by many prominent manufacturers as the leading medium in America. Although there are still many who have not discovered its possibilities it does hold a unique position among periodicals. A writer has listed a number of advantages of the community paper. His points follow:

"At one sitting the average reader scans all the pages of the local paper. No other publication has all its pages read as carefully by so large a percentage of its readers.

"There is no publication that reaches so many families in a given territory as does the local paper. No other is read by as many people for each subscriber. The whole family reads it.

"An advertisement in the local paper backs up the sales effort of the local retailer far more effectively than any other medium."

For these reasons the country weekly is able to serve, not only the advertisers, but every worthy cause for the betterment of the entire country.

IT MIGHT BE WORSE

The human race is full of folks Who do not care for drink or jokes; Who do not like a lot of things, Who never bet on less than kings; Who like the books and plays I hate, Who make me pay too high a rate For food and rent, heat and light, Who make me stay up late at night. The human race it may be said, Makes some of us wish we were dead, And yet I often wonder: Can it There was an old toper from Lazon, Who had a most elegant buzzon. Seven quarts of champagne So upset his dambagne That he got into bed with his shuzon.

BUYING THE NEW CAR

An automobile salesman drove up to a family home in a shiny new car, and, as prospective buyers, all the family stepped out to see it. Here are some of the questions fired at the salesman: Father—How many miles to the gallon on a straight drive? Mother—What other colors do you have in upholstery? Son—How fast will it go? Daughter—Has it a cigarette lighter? Neighbors—How can they afford it?

"AVOCATION" AND "CALLING"

A Dictionary of Modern English Usage says: "Avocation, originally a calling away, an interruption, a distraction, was for some time commonly used as a synonym for vocation, or calling, with which it is now less common, and the word is generally used in the plural, a person's avocations being the things he devotes time to, his pursuits or engagements in general, the affairs he has to see to; his vocation as such is neither excluded from nor necessarily included in his avocations."

ALIBIS
BY JAMES LEWIS HAYS

Some folks make stamp collections And some just "gather moss." Some keep collecting dimes until Old Sharon rows them across; But the finest of all collections— Is this—don't be confused— A perfect collection of alibis That you have never used!

The rarest of all collections Is a store of alibis That you have never resorted to, And it's one your friends will prize. So gave you unused alibis, Just lock them in the vault; Nobody loves the man who cries "Of course, it's NOT MY FAULT!"

Erlanger Cotton Mills

One of Lexington's well known firms are manufacturers of high grade cotton goods.

A twentieth century industry under direction of men who have always had at heart the best interest of the community in which their valued enterprise is located and one of the firms that keeps the wheels of progress turning in this section.

This is one of the most flourishing industries and is fully worthy of more than passing notice as one of the leading concerns engaged in its special field of endeavor in the country, but its products have gained a wide reputation for general excellence and are considered as standard products among

the trade throughout the country and territory.

It may be of interest to know that in the resourceful minds of energetic business men. With a restless ambition, a broad vision of the future of the industry in the country, they turned their trained and creative minds to the production of perfect products.

Today it is one of the most substantial concerns engaged in this manufacture in the country and its phenomenal growth is the result of hard work on the part of its officers.

Expansion plans gave this company one of the most modern plants in the country. It is one of our busiest beneficiaries of industry. It is a model establishment of its kind and is an ideal place to work.

We could write many columns and

then not tell all of the good that this idea of this enterprise originated model industrial concern has done for this section. It has become so much a part of the every day life of the people of the community that many have come to regard it as a "matter of course." It is well to pause occasionally and consider what they mean to us.

To maintain it means continuous encouragement of all in the community, the assured expansion of this entire section, the onward progress of industrial, commercial and social development.

In this review of our onward progress we cannot fail to compliment Erlanger Cotton Mills upon the manner in which it conducts its industry and to say it has been a decided factor in the industrial life of the community.

PERFUMED SANDWICHES NOW COME INTO VOGUE

Perfumed sandwiches, bearing the scent of real flowers, are the latest vogue in afternoon refreshments, according to Janet F. Wing of Farm & Fireside. The dainties were made years ago by fashionable hostesses, but they are just now returning to favor with suitable improvements.

"To make them," says Mrs. Wing, "Trim the crusts off a loaf of bread. Wrap the butter in a piece of cheese

cloth and put both the bread and butter in a deep bowl or kettle. Pile clover blossoms, nasturtium leaves and blossoms, roses or violets over and around. Cover and leave for five or six hours. Make into the thinnest of bread and butter sandwiches and decorate the plate with the flower that supplied the flavoring."

Other fashionable sandwiches, says the writer, are made from the thinnest slices of bread, rolled up and tied with a bit of ribbon. For these the bread must be fresh.

MI-LADY'S SHOPPE MRS. G. D. SHUTT

Centrally located in the Theatre building in Lexington, is a most dependable store, featuring ladies' and misses' ready-to-wear and rendering a personal and distinctive service to each individual patron; specializes not only in superior quality at reasonable prices, but also in courteous and efficient service—so wide is the selection that one may suit their personality and still follow the latest modes—within the most popular houses between many miles for better wearing apparel at popular prices.

With the approach of each season the thoughts of the modern person naturally turn to clothes for the new season, and in this vicinity that means that they take a new interest in the activity of this popular store, which is under the able direction of people thoroughly familiar with every detail of the business, for people from every walk of life, who give more than casual attention to their personal appearance.

Every department in this establishment is perfectly appointed and harmonious with the exclusive vogue offered at such reasonable pricings. An air of the metropolitan pervades the atmosphere, while at the same time

one feels that they have entered the luxurious home of a friend rather than a mercantile establishment. This is not only because of the utmost care and diplomacy has been exercised in the selection of the salespeople.

Here you will find garments for women and misses of all styles. There is not another line on the market today that surpasses them, and few have been able to approach either style or quality the values offered in their line at such reasonable prices, therefore, it is not strange that their windows are now the center of interest to many.

Throughout this store you will find the same high quality in ready-to-wear and customers invariably find this establishment has provided a large assortment from which to choose. Another feature of this establishment is the courtesy and accommodation which marks their very satisfactory service and distinguishes theirs from the average store of this kind.

It is a pleasure for us to direct your attention to this store as one of the important features of the community's commercial efficiency. The management of Mi-Lady's Shoppe is progressive and public spirited, and it numbers its patrons by the thousands. It is truly a modern and popular establishment.

AMERICANS LOSING USE OF LEGS, SADLER FINDS

Legs of Americans today are not like those of twenty-five years ago, according to Dr. William S. Sadler, health expert. As a matter of fact, he declares, in the American Magazine, the race is gradually losing the use of its legs through too easy transportation by automobile and other conveyances and by remaining quietly at a machine while at work instead of moving about constantly.

"Recently when making strength tests of different parts of the body,"

he says, "I was greatly impressed by the fact that the tests of the muscles of the legs showed a marked decrease in comparison with the standards that had been made twenty-five years before and I presume that with still more automobiles in commission, there will be a greater weakening shown in future tests. When the leg muscles get weak, it is more than likely that the abdominal musculature is also weakened. I could give innumerable instances of indigestion, constipation and other abdominal miseries that have been cured by the restoration of the walking habit."

LEONARD & WAGNER TIRE CO., INC.

Located in Lexington, operate two stations, one on South Main Street and the other on North Main and is one of the prominent tire establishments in the community. They have provided a tire service that would do credit to a city many times larger. Headquarters for the much demanded Sieberling tires.

Tires are just as essential to the motor car and motor truck as shoes are to the human foot. But not all tires are good tires. These are standard lines, however, which have proven their worth and they will be found in this popular and efficiently managed establishment. They specialize in up-to-the-minute tire service and no matter what you demand in the way of tires, tubes and supplies they are prepared to serve you.

The manufacturers of Sieberling tires have recognized the ability of this firm in this line and have selected them for their official representatives. This is a tribute to the efficiency of their service and the ability of the management. Thousands of motorists have learned that the Sieberling tires are quality

products, not only give lasting service but economical service as well. That is why this firm handles these tires, because they insist on quality products.

They have a complete stock and a size for every car and truck from a flivver to a Packard. We need make no further comment upon this house or its service. But we can not refrain from saying that the community is fortunate in having such an establishment under such admirable management.

"The service does not end with merely selling you a tire or tube, they are prepared to see that what you buy is satisfactory in every particular and they have arranged their service to meet every class of purchaser. As regards price, you will find that they offer tires at prices that are the lowest possible for the quality offered."

It is not strange then that the Leonard & Wagner Co., Inc., is very popular with so many people. Its management is progressive and affable and we are pleased to refer all of our readers to this establishment for everything pertaining to tires, tubes, supplies and tire repairing.

FURS LONG PRIZED

Fur history carries the reader back 10,000 years, further indeed, than there are records of its use. The Bible refers to Adam's and Eve's use of furs, and later to otter and badger skins used in the tabernacle.

Queen Semiramis, 2,182 years before Christ, brought 8,000 tiger skins back to Babylon after an Indian campaign.

Little Willie: "Look at the rhinoceros!" Little Alfred: That ain't no rhinoceros; that's a hippopotamus. Can't you see it ain't got no radiator cap?"

Book Agent: "You ought to buy an encyclopedia, now your boy is going to school!"

Farmer: "Not on your life. Let him walk, the same as I did."

Inquisitive Woman (eyeing catch)—Oh! Poor little fish.

Amused Angler—Well, madam, if he'd kept his mouth shut he would have got into trouble.

"Nowadays early to bed and early to rise causes many parents to look up in surprise," says a dear northside mother.

NO PLACE FOR BOYS

What can a boy do, and where can a boy stay, if he is always told to get out of the way. He cannot sit here, and he must not stand there;

The cushions that cover the fine rocking chair

Were put there, of course, to be seen and admired.

A boy has no business to ever be tired. The beautiful roses and flowers that bloom

On the floor of that darkened and delicate room

Are not made to walk on—at least not by boys;

The house is no place, anyway, for their nose.

Yet boys must walk somewhere; and what if their feet, sent out of the houses, sent into the street,

Should step round the corner and pause at the door

Where other boys' feet have passed often before;

Should pass through the gateway of glittering light,

Where jokes that are merry and songs that are bright

Ring out a warm welcome with flattering voice,

And temptingly say, "Here's a place for the boys?"

Ah, what if they should? What if your boy or mine

Should cross o'er the threshold which marks out the line

'Twixt virtue and vice, 'twixt pleasure and sin,

And leave all his innocent boyhood within?

Oh, what if they should, because you and I,

While the days and the months and the years hurry by,

Are too busy with cares, and with life's fleeting joys,

To make round our hearthstones a place for the boys?

There's a place for the boys. They'll find it somewhere,

And if our own homes are too daintily fair

For the touch of their fingers, the tread of their feet,

They'll find it, and find it, alas! in the street,

'Mid the giddings of sin and the glitter of vice,

And with heartaches and longings we pay a dear price

Lexington Ice & Coal Co., Inc.

C. C. EANES, Mgr.

At 60 North Church Street in Lexington, are offering the people an excellent ice service and are extensive dealers in high grade coal and pure ice. Under the direction of a management who have made a careful study of the coal business and are rendering an unexcelled service to their many friends.

This is the day and age when the public demands not only magnanimous service, but the best in quality at a reasonable price. Thoroughly conversant with the manufacturing conditions of the country and with a wide experience in their particular field of endeavor the management of this firm

has been able to render a service to the people in their line that is distinctly satisfactory. Real value at the most reasonable price possible has been the guiding influence of their policies and it has brought them trade from all the surrounding territory.

The management and assistants are men of long and practical experience in this business. They are thoroughly conversant with every detail and are considered an authority in all that pertains to the operation of a modern coal and ice business. They are of the foremost business men of the city and have aided in the development of this section.

This establishment is not only a well

equipped and expertly operated concern, but it is also one of the commercial organizations of the community and renders a service that is necessary to the onward progress of the community.

In making this review of the progress of this section of the community we wish to compliment them on the manner in which the business of this institution is operated; upon the public spirited policies. We wish to commend this establishment to all of our readers as one of the distinctive features of commercial efficiency of this part of the state and as headquarters for pure and ice.

HISTORIC RECORDS SHOW JEWS A FIGHTING RACE

It's a singular thing that people in general should hold so strongly to the idea that the Jew is one who practices the virtue, if it is a virtue, of nonresistance.

There is nothing in history to justify such a view; and, indeed, everything to prove that he was no more meek than that turbulent, rebellious

figure, Moses. That in the Middle Ages and, later, in Russia, he was massacred cruelly and completely and did not hit back was due to the fact that, having no weapons, he could be crushed by armed mobs and licensed soldiery.

Long before Napoleon placed Jews among his marshals the fighting quality of the race was known and praised. From the days of the Maccabees on there was no insurgent so much dread-

ed by the Romans as the people of the narrow littoral that lies between the Egyptian outposts.

The story of the World War is full of the names of Jews in all the armies and very certainly the British are soon going to forget the gallant soldier from the Anzac forces who repeatedly swam ashore at Gallipoli with lighted flares on the beach to guide the incoming boat.—Louisville Courier Post.

Kirkman's Funeral Home

With excellent location on North Main Street in Lexington, are well known funeral directors who have made every effort to put into their service the little appreciative things that do so much to make for the comfort and convenience of those who call upon them.

To help lessen the pain at the time of death of our loved ones, to see that everything is done that can be done to make the last service for our dead satisfying, to surround the funeral rites with a magnificence that is glorious—this is the work of these dignified yet up-to-date funeral directors. From the time they are called in the hour of

death you may rest assured that every detail of the burial service will be taken off your hands. These men have made a specialty of taking over all arrangements and carrying them through perfectly.

Their's is a business which only a comparatively few men are prepared to enter. It is not just knowing the technique of embalming—the successful funeral director must have more than just these qualities, a certain adaptability for handling delicate situations and a dignity that is required in but few professions. People remark at the smoothness and satisfying quietness with which a funeral service is

carried out when conducted by them. They seem to have the inherent ability for this work.

In addition to their skill, they are completely equipped to conduct a funeral on any scale. Complete modern equipment greatly facilitates the smooth carrying out of the last rites.

The people of this community have learned to think of them at the time of death. Their long period of business existence here has made them known to every one and there is undoubtedly a great satisfaction as every one knows in having some one whom you know and in whom you have confidence conduct the funeral service.

POSSIBLE TO FLOAT FOR DAYS IN THIS GARMENT

A suit of clothes in which it would be a positive pleasure to be shipwrecked has been perfected. Except for the face the costume covers the entire body like an overall. Fitted to the head is a hood like that of the conventional monk's gown, but larger and thicker.

In the material of this hood and also between the outer layer and the lining of the rest of the costume spaces are provided which can be inflated with air or stuffed with light spongy paper fiber.

The outer layer of the garment is waterproofed and arrangements are provided to keep water from seeping inside the suits at the wrists and neck. Thus the wearer is incased completely in a floating garment which serves both as life preserver and as protection for many hours against the cold.

The large, thick hood floats highest in the water, thus making it impossible for the wearer to "capsize" and find his head downward, as has happened with some previous life saving garments.

If the wearer makes no effort at all he will float automatically on his back, as though lying in bed, and almost as warmly.

It is claimed, however, that one advantage of the new garment is that inactivity is not necessary. The wearer can paddle himself about.

COMMUTER READY VICTIM OF STAR SALESMANSHIP

There is an art in salesmanship. This has been observed before, but it was made plain to the commuter when he bought for the princely sum of \$20 a dilapidated car minus paint and with all the fenders buckled.

Knowing nothing about cars, as soon as trouble developed, and it wasn't very long before it did, the commuter hauled the wreck to the garage. The garage man was a salesman. He looked at the car over and he didn't even smile. He handled it like a high-priced purchase. Then he turned to the commuter.

"Been driving long?" he asked. "No," the commuter admitted.

"Well," responded the garage man in a confidential manner. "I'll give you a tip. There are a lot of car thieves around. When you leave your car even for a few minutes, turn the ignition key and take it with you. To make doubly sure that nobody steals the car, turn off the gas."

The commuter's opinion of the car soared high. He hadn't considered the probability that any thief would waste his time on the wreck that he owned. If the garage man thought enough of it to warn him then it might be a good car. Probably a high-grade engine he mused. In fact, he was so impressed that when the garage man handed him a bill for \$75 for 30 minutes' work he didn't even feel annoyed.—New York Sun.

"Say, pa, I bet Bobby Smith ten cents to-day that he could lick his dad in fifteen minutes—so be sure and keep Saturday afternoon off."

"A self-made man is like a self-made cigarette—a lot of bull wrapped in a transparent cover."

THE UNFORTUNATE BEAST

"Whom was your wife scolding last night?"

"The dog."

"The poor beast, and I heard her tell him she was going to take his latch key away from him."

By starting now and keeping after every day, you may be able to get your Christmas shopping done in time.

Punishment is designed for the violation of all crimes, but the difficulty seems to be in finding the fitter.

YOUNG'S THEATRE

E. P. HELIG, Mgr.

Located in Lexington, has taken its place in the social and educational world of this part of the state and has become an institution in the life of the people that has been beneficial to the young, old and middle aged.

This popular theatre is appointed most excellently, the ventilation and cooling arrangements are the best that can be secured and all sanitary precautions are taken for the health of the people. Here amidst comfortable surroundings you are entertained while music that entrances helps drive dull care away.

The management personally sees that the people of this territory are given not only the very latest productions from the studios of the East, but also from the California and European studios, thus furnishing to the people the very latest and most select of high class photo plays. These plays are all clean and the themes are selected with great care so that the ladies and children of the surrounding territory know this theatre as their moving picture

home. A quiet air of refinement pervades the audience and this accounts for the large patronage from all classes of people. This modern policy of the management has brought autoists and people from all the surrounding towns and the city to recognize this theatre as their favorite amusement center.

If you have not formed the habit you ought to. Go down some evening even though you have put in a hard day's work. You will be much refreshed and all the more ready for your next day's work. Take the whole family with you as the price is very reasonable. High class features from some of the country's leading producers are the kind of production shown here. You will see here the world's greatest movie stars.

In making this review of the state we are glad to compliment the management upon the popularity of this theatre and upon the position it occupies in the life of the people. It has been aptly said that it is truly "The House of Quality or Broadway at Hand."

Camel City Realty Company

In Winston-Salem at 912 East First Street, specialize in real estate properties and their operations are by no means confined to town as they have buyers from all parts of the country who are looking for real estate in this community and they have on their lists some very fine properties in this and other counties.

If you are looking for a buyer for your property and wish to find one who will pay what it is worth it is best to list with them. On the other hand if you wish to buy investment you will find that they have many excellent buys on their lists.

There is no one firm that has contributed more liberally by their modern service to the growth and expansion of the community than has this one. Drop in at any time and talk things over with them. They are personally interested in the progress of the entire community and are always anxious to discuss the advantages of this section and to learn of any manner in which the home community may be improved. They have been tireless in their efforts, straightforward in their dealings and reliable in their policies.

They know every piece of farm land in this section of the state. They can tell you what the taxes are, how the title stands, what the land is producing and what can be made of it. They are thus able to present any farm proposition to the most scientific farmer.

They offer a comprehensive service. Their long experience and thorough knowledge of local affairs gives this office an advantage in the realty field.

They are prominent men of the community and have always taken an active interest in the development and progress of the community. They have been a liberal contributor to the prosperity of this section and have merited the enviable position they hold in the business life of this part of the state. People generally have come to turn naturally to them in matters pertaining to real estate and we wish to compliment them upon their commendable methods and the success that they have achieved by reason thereof.

"SKYSCRAPERS" FOR HENS LATEST ON POULTRY FARMS

"Skyscraper" apartment houses for hens are the latest developments in the poultry world and if they prove successful the lives of chickens will soon be completely revolutionized, according to Farm & Fireside.

On Walnut Hills poultry farm just outside Columbus, Ohio, John C. and B. C. Morse have erected a six-story

structure bigger than a barn for his hens is partly due to the scarcity of tracts of land large enough to accommodate 7,000 egg layers.

Another hen apartment house movement has been started in New Jersey, where a four story hen house is in operation and has 10,000 tenants. In other New Jersey communities similar houses of smaller size are being used.

The idea of large houses for laying oodles large flocks, but poultrymen

believe that housing their hens prevents worm infestation and keeps down disease. The owner of the four-story hen apartment is now planning a still larger building which will hold 100,000 hens. He believes that egg production will be increased.

If the experiment of keeping chickens in confinement works out as expected, says the article, it will be the biggest revolution in poultry raising that has ever been seen.

Van Dyke's, Inc.

In Winston-Salem at Liberty and Fourth Streets, bears the famous name which is both famous and popular with the people as a place where they can immediately feel at home while in the city shopping. Its friendly atmosphere which predominates at all times has placed this store in an individual class by itself, and it can well be termed "shopping headquarters" for the city and surrounding territory.

This popular institution was founded several years ago and has grown with hardly a pause in its rapid development. That much discussed word, "service" finds true expression in the friendly atmosphere that envelops every customer of this popular store, because service in interpreted in so many ways, that it may be well said to be the sign manual of the institution. It has maintained an air of calm, friendly dignity which can be associated only with institutions of standing and sure position. Every customer

of this store knows, that the management has before it always the record of the institution's rapid growth and treasurers the confidence people have come to place in its very statement.

This reliable organization with its wide ramifications of style-fashion information and merchandise offerings is always conscious of its reputation, and anxious to preserve and improve it by carefully checking and rechecking its statements to make sure that the public is well served in information, as well as in merchandise.

Each department of the store is superintended by those well trained in the needs of the department and the merchandise that is handled, so that all goods will be of the latest style-design, material and highest quality that the market affords. The store is located conveniently for the people of the surrounding territory, and on a visit to the institution, you

will find everything no less than made to order for the enterprise, with all its glory and opportunities in merchandise which are open to quality for quality inspection. Throughout the entire store you receive that courteous attention by each employee which marks the service, and has earned its present name of shopping headquarters for this part of the state.

We wish to take this opportunity to congratulate the management of this institution and upon the policy of fair dealings which was inaugurated with the opening of its store to the public and has never varied or departed in any way during the years it has had business dealings with them. We call the attention of all the readers to the advantage of having a metropolitan store at their very door which has maintained inviolate service to the public. This policy should guide you to transact business with this reliable firm who has your interest at heart.

PROGRESSIVE FIRMS AID IN PROGRESS
The write-ups appearing in this edition have been prepared by competent newspaper men who endeavor to establish closer trade relations between the merchant and consumer. Highly commendable are the ethics used by the various firms in their approach for business.

HALL CREWS ARCHITECT

Whose offices are located in Rooms 503-504 in the Reynolds Office Building, is a well known architect of this section and receives a well merited patronage from the city and adjoining territory.

The work of the architect is held in highest regard in its relation to every phase of building endeavor, as it is to his creative ability and oftimes to his artistic skill that the realization of a beautiful and useful structure is accomplished. Before a spadeful of earth is turned, or a brick laid, every detail of the structure has been planned by the architect, who in his sketches gives the public the idea of the new building as well as its features of construction.

For its population Winston-Salem is remarkable for the many durable buildings. Most of these buildings, such as court house, stores, churches and schools, have been designed by local architects, who each year add to their prestige by new achievements in the field of building design to meet new demand.

Prominent in the architectural field, both here and through a large section

of the state, is Mr. Crews, who has been responsible for the designing of many notable latter-day structures of varied types.

To build a house is one accomplishment. To build a truly pretty and comfortable home that is expressive of the advancement of the age is another work of marked, superior scope.

He is a courteous and accommodating gentleman and can be reached very conveniently. The general satisfaction expressed by his many clients and the great demand for his services constitute a well merited tribute to his efficiency and conscientious methods. We wish to compliment this architect upon the very valuable work that he is doing in this section and to direct your special attention to his most efficient methods.

The publisher himself takes this opportunity to personally compliment him upon the merited success he is making in the practice of his profession and upon his excellent standing in the professional world of the state, and assure our readers that at his offices they will receive the very best of professional service.

SMITH-PHILLIPS LUMBER CO.

In Winston-Salem at White and Seventh Streets, feature the very best grade of lumber and builders' supplies. One of the progressive concerns of the community.

This firm has become an important factor in the development of this section of the country. The guiding influence of this company has always been a determination to furnish the highest grade of lumber and building material at a reasonable price, so that the extension and beautification of the community can progress rapidly.

By purchasing to an advantage when the market is right and employing experienced help, they are able to offer at reasonable prices high grade goods and encourage the extension of home and enterprise. Let them serve you with your next order of lumber and you will get the good, permanent, well seasoned sort that builds for permanency, rather than increase costs that occur when buildings have to be gone over when the structure settles.

There is no one establishment in this community that has greater influence for the betterment of the building industry. Contractors and the public in general have come to know that whatever they desire in the lumber and builders' supply line can be secured from this firm, with a knowledge that it will be of the best grade, consistent with the price.

The management extends to the people of this community a cordial invitation to call at their yards and any information will be gladly given, no matter whether you wish to buy at this time or not.

We are pleased in this edition to give commendable mention to Smith-Phillips Lumber Co. and assure the public that they will receive the best of service and any information that is desired will be given in a most courteous manner. It is to your advantage to transact business with them in the lumber and builders' line.

MANUFACTURE OF SOAP ONLY 100 YEARS OLD

Public sanitation has great victories to its credit in the control and prevention of disease, and strides along these lines have been made in rapid manner within the last few years.

Beliefs in charms and magic have disappeared, and science is producing more wonderful gifts for the modern world. Cleanliness and sanitation is a health program sponsored in our public schools, and the most important tool used is the small, every day piece of soap.

It is just a little more than one hundred years ago that a French chemist evolved the chemistry of soap and made it a practical object of manufacture. Today it is one of the cheapest and most widely used necessities in daily life.

Habits of cleanliness, as taught in our schools today, protect individual health and reduce the spread of disease. In the pre-soap age skin diseases and other forms of sickness prevailed; in much larger numbers than today.

Even the most cleanly person must come in contact with its environment, and through this contact the skin gives lodging to extraneous microscopic living things. This may occur in taking hold of a street car strap or even in shaking hands with a friend. Hand to mouth infections are responsible for the spread of a large proportion of communicable disease, especially of disease transmitted through the nose and throat. But surrounded as is modern man with the means to cleanliness, it is a simple matter to play safe by washing with soap and water.

TIME TO TRAVEL IS IN THE MIDDLE OF WEEK

If you are going on an automobile trip and want to avoid all possible traffic you should go on Tuesday or Wednesday. Such is the conclusion reached from a study of a traffic census taken recently by the Bureau of Public Roads, United States Department of Agriculture, on one of the most traveled roads in the United States.

If you want to go at an hour when there will be least traffic, start between 2 and 3 o'clock in the morning. Traffic increases in amount steadily from Wednesday to Saturday, the cen-

Jenkins Transfer & Storage Co.

Located at 526 North Main Street in Winston-Salem, moves with safety, moves with speed. Short hauls, long distance moving, anything, anywhere. They pad each article with genuine furniture pads as it is placed in the truck, minimizing the chances of scratching or marring your goods.

Those who deal with the firm are all satisfied customers. Moving of household goods is scientific business that calls for high degree of efficiency. Men must not only be strong—they must be trained so that your valuable and delicate pieces of furniture may be protected and not suffer so much as a scratch in the hauling and handling.

You can stop worrying if you call them. Their facilities save you money, and there is satisfaction, too. The company's years of satisfactory service in this field have made them

well known wherever moving is to be done. Ready any hour of the day for quick transportation of household goods, personal belongings of any nature, or any class of merchandise, their motor trucks have become a familiar sight on the streets of this city. Prompt service and careful hauling are two traits that have been responsible for the large demand of their service.

They have in their employ men who are thoroughly experienced in the packing of household goods, and their satisfactory service is attested by the number of calls which they receive from people of the city for their packers to come and prepare furniture for shipment.

They are a thoroughly responsible concern. You need not "carry your own risk" for careful handling of your own furniture. It will pay you to be

certain of such responsibility when giving orders for moving. Household goods in their care are given the best attention and delivered at their destination any place in the world.

Their entire organization is trained to render complete service to families moving locally from one home to another, also for overland hauling by truck, and for packing for railroad shipments.

When you ship by truck household goods do not require packing and invariably arrive at their destination in first class condition. Such will prove a saving to you, and the most satisfactory means of transportation. This firm's most transfer company is truly a responsible firm, willing to assume responsibility.

JUST A LITTLE

Little Jane had a very annoying habit. When mother called her she didn't like to answer. One day she was seated cozily among her dolls away upstairs when she heard that familiar summons. Not desiring to respond to mother's wishes, she didn't answer. Finally mother came slowly up the stairway, only to find Jane seated there. Mother questioned: "Why, Jane, didn't you hear me call?"

Jane looked up shyly, speaking innocently: "Well, mother, I think I heard just a little."

CHECKING HERSELF

A Detroit woman who put in a long distance telephone call wanted to talk only three minutes. She decided to time herself with a contrivance used for timing eggs being boiled. The device is fashioned on the principle of the hour glass and by sitting it near the telephone where she could see it, she felt she was able to get the full benefit of her conversation over the telephone without any danger of talking longer than she desired.—Detroit News.

WARTIME "DISCIPLINE"

Wilhelm's "Military Dictionary and Gazetteer" says: "In military and naval affairs discipline is a general name for rules and regulations prescribed and enforced for the proper conduct and subordination of the soldiers. This is the technical meaning. In a higher sense discipline is the habit of obedience. The soldier acquires this habit of subordinating his own will to pleasure and inclinations to those of his superior. When the habit has become so strong that it is second nature the soldier is disciplined."

Manuel-Else Funeral Home

In Winston-Salem at 619 West Fifth Street, has gained the confidence and good will of the people throughout the country by a satisfactory service in this important profession. Offering an up-to-date funeral chapel and instant ambulance service, unexcelled in any city. A complete service never costs more and often less.

In a comprehensive review of this nature, embracing as it does the most salient features of our progress, we cannot fail to devote to the professional status of the community and justly so to a profession which is so essential, as that of the modern funeral director and embalmer. In this respect, the community possesses an efficient representative in this well known firm.

Since the foundation of their business, they have always been foremost in giving the best service. Not only is it a pleasure for them to serve the public, but has built for them a reputation that has spread for miles around. This firm is courteous and this has accrued to the benefit of the public.

Their establishment is complete from a standpoint of stock, and from it they are able to offer service that is unexcelled in any city.

One particular feature of this establishment is the privacy for the funeral, the atmosphere is more of the homelike, giving it a touch of cheerfulness. In the family room and chapel that same home-like atmosphere prevails that it different from sadness. All the comforts of one's own home,

plus every facility that is needed to perform the services with the utmost satisfaction to their patrons, will be found in this funeral home. It is a beautiful, quiet, restful place, affording all the privacy, comforts and conveniences of a private residence, as well as an institution for the service of humanity.

All work is done privately in the most sanitary and up-to-date preparation room.

As it is well known, they have conducted some of the largest funerals ever held in this section in an admirable manner, and their excellent facilities make it possible for them to render complete service. We wish in this review to compliment this firm on the satisfactory service it is rendering to the people of this section.

shows, and then jumps into big volume on Sunday. The volume on Sunday is about twice that on Tuesday or Wednesday. On Monday there is a decided drop from the Sunday figures and on Tuesday the lowest ebb is reached.

There is less traffic on the roads between 2 and 3 o'clock in the morning than at any time of day. From three o'clock to 5 there is a slight increase; then a steady climb until 1. Between 1 and 2 there is a slight increase still 3. After 3 o'clock traffic drops slightly until 7 when the decrease becomes more pronounced. By midnight, traffic has almost reached its lowest point.

Ninety per cent of the day's traffic, the census shows, rolls over the road between 7 a. m. and 9 p. m., and 52 per cent between 1 p. m. and 8 p. m.

DESPISED FACE WASHING CHILD'S PLEASURE NOW

Stormy scenes in face-washing, hair-brushing and manuevering hours for children are gradually disappearing and much hated tasks are becoming a pleasure now, says Helen Rawson Cades, beauty expert, in Woman's Home Companion.

Modern mothers instead of letting their own appearance run down, keep up with their toilet activities and the children, always initiative, are eager to learn the methods of grown-up grooming. Brightly colored toilet articles, such as brushes, combs and manuever sets, and pleasant smelling toilet preparations enable the children to have actual fun in performing their little duties, adds Miss Cades. She also observes that instilling the desire to be a properly groomed child does not tend to make it vain, but conscious of being in good taste. Mothers cannot afford to act as examples of carelessness, either with themselves or in developing children's habits.

"Many a girl has her mother to blame for a mouth that even a lipstick can't love, and many a man wears a moustache because his mother couldn't bear to make him take his finger out of his mouth," the writer concludes.

OPPOSITE OPINIONS

There are two sides to everything, even life, and they are often so far apart that it is impossible to reconcile them.

One man says: "Times are good and they will be better. The condition of the farmer is improving and crop prospects are splendid. The financial pages of the newspapers show business is better and I am going to help in my small way to make it better."

Another man says: "Times are awful. It's a constant struggle to keep the wolf from the door. Everything is topsy-turvy and I don't know what this world is coming to."

Two opposite opinions on the same subject. One man is enjoying life. He recognizes the handicaps, but instead

BOTTLE GAS

Bottled gas is refined and compressed from the vapor that rises from oil wells that are in production and even from wells that have been pumped dry. It is "bottled" under the form of a low-pressure liquid which on being released resumes its gaseous form and burns in a gas jet. This casing head gas, as it is known among oil men, is a rich natural gas. It is compressed, refined and the liquid stored in steel bottles or drums, which are strong enough to withstand the low pressure of the semi-liquid gas.

COLOR'S GREAT INFLUENCE

Man has apparently become careless about one of the most important items in his environment—color. As soon as he realizes fully the inhibitive and repressive influences of drab, uninteresting color surroundings, the vista about him will be immediately transformed. Man has always conquered or changed conditions unfavorable to his best development. There is no reason to believe that he will not rise to the present situation and reinstate into his life the color which is so important to his well-being.

LEE RADIO & ELECTRIC CO. HOME OF CROSLLEY AND BRANDES RADIOS

At 148 North Liberty Street in Winston-Salem, "repair anything electrical." This concern has become quite a factor in the business and social as well as the home life of this part of the state by reason of the very complete line of radios and the excellent service given in installation.

There is no factor which has aided to as great an extent in preserving and keeping intact the American suburban and rural home as has the radio. It has freed innumerable far off communities from the bonds of isolation which has been tending to work toward the destruction of the structure of American rural life and has brought to the rural as well as the suburban town all the amusement advantages of the large city. Regardless of where you may live, with a radio in your home you are enabled to dance to the music of the finest orchestras as well as listen to beautiful symphonies played flawlessly by masters.

The radio has in an astonishingly short time evolved from a luxury to the home which only the wealthy could enjoy to one which is now within the reach of many. A radio in your home is a ticket of admission to all musicals, sporting events and public gatherings in the country. A "big game" may be taken in New York during an afternoon while but a few hours later you may listen to a public address delivered in Washington. These are the miracles you may accomplish with a radio. In order that the residents of this county might enjoy the things the manager has laid in stock a line of excellent radios and invites your inspection at all times whether you intend to purchase or not.

From a normal standpoint, no greater inducement was ever offered to the young folks to spend their evenings at home and take advantage of the radio to enjoy the world's best songsters, musicians, lecturers and other high class entertainment.

Figuring the cost in installing a radio set, its many benefits and pleasures taken into account, the price will be found insignificant and within reach of every purse. Do not longer deny yourself or family this modern home feature.

Every radio receiving set purchased from them will be installed in your home without charge.

We are pleased to compliment this firm upon their well merited success and the leading position the establishment occupies in the business circles of the state.

THREE FORMS OF HONEY

Honey may be had in three forms—in the comb, extracted and granulated, but only occasionally in the latter form. Before the passage of pure food and drugs act much adulterated honey was offered for sale. When un-informed persons saw crystallized honey they often jumped to the conclusion that the presence of cane sugar was the cause of the granulation. To allay that suspicion the bottles of honey heat it to about 145 degrees Fahrenheit and seal it in jars while heated, which greatly retards and in many cases prevents granulation.

If it is desired to bring crystallized honey again to the liquid form, gentle heating in a water bath will give the result without in any way changing the character of the honey.

FAMILY DOCTOR LEARNED THIS ABOUT CONSTIPATION

Dr. Caldwell loved people. His years of practice convinced him many were ruining their health by careless selection of laxatives. He determined to write a harmless prescription which would get at the cause of constipation, and correct it. Today, the prescription he wrote in 1885 is the world's most popular laxative! He prescribed a mixture of herbs and other pure ingredients now known as Dr. Caldwell's Syrup Pepsin, in thousands of cases where indigestion, coated tongue, gas, flatulence, biliousness and lack of appetite or energy showed the bowels of men, women and children were sluggish. It proved successful even the most obstinate cases; and folks liked it for it never gripes; children liked its pleasant taste. All druggists today have Dr. Caldwell's Syrup Pepsin in bottles.

ESKIMOS EXECUTE 'PURIFIER OF RACE'

Drown Youth Who Set Out to Kill His People.

Winnipeg.—Believed by the Northwest Mounted Police authorities to have been a victim of a recurrence of the wave of religious mania which swept over this lonely land about ten years ago, a young Eskimo inhabitant of the interior of the southern portion of Baffin land became demented and shot and killed his parents and a young woman relation. He shot at but missed his brother. The Eskimo tribe of which he was formerly a law abiding member kept him in close confinement through a long winter, but in the spring, after he had twice escaped their vigilance, they pushed him through a hole and drowned him beneath the ice of the subarctic.

Sergt. J. E. F. Wight, in charge of the detachment at Lake Harbor, reported that last winter, accompanied by Constable P. Dersch, he made a long patrol through a section of southern Baffin island, where white men were unknown before the great war. He learned the story from the tribe in which the tragedy occurred. The report stated that Mako Glik, a young man, became obsessed with the idea he was a purifier of his race. He told his relatives he had heard a voice from heaven telling him to kill all his people. He promptly proceeded to put his mission into operation. As Mako was obviously under a spell the Eskimos did not know what to do with him. The nearest post, Lake Harbor, was 500 miles away, and they had no means of making such a long journey with a madman. They bound him up with thongs of sealskin and kept him under guard in an igloo all winter. About March of the following year members of the tribe decided that they could not keep him any longer. They told police that the men of the tribe were all worn out by this time in maintaining a sharp vigilance lest Mako should escape and continue his crazy plan. They summoned him before a meeting of the whole family one day and told him he had to die. They gave him his choice of the manner of death. He could be shot, stabbed or drowned—whichever he preferred. But Mako did not wish to die, they told police. However, his end was decided upon, and a hole was made in the ice. He was pushed through this and river currents carried him to his death.

Wyoming City 100 Miles From R. R. Gets Phone

Pinedale, Wyo.—A hundred miles from a world of incomparable speed and uncertain destiny, Pinedale, alone in its nook of vastness, has refused to be longer without proper telephone facilities. A hundred miles away steel tracks reach out to either coast. Mighty steel trains roll along the way. The whistles of locomotives announce their movement upon the plains. The sound dies away. Pinedale never hears it—a hundred miles away. So blissfully detached this tiny incorporated town could not remain; for, the residents ask, how would they know if the President died? Connections from the old telephone line had been poor, and long distance calls were all but impossible. The telephone company recently completed a new copper circuit line. Communication with all long distance points will be immediate and clear. In another desperate effort to link it to the world officials of Pinedale have announced the completion of a highway from Pinedale to points both north and south.

Chile Sets 5-Year Closed Season on Chinchillas

Santiago, Chile.—Hunting of chinchillas for a period of five years has been forbidden by the Chilean government in an effort to prevent complete extermination of the fur-bearing rodent. The high price obtained for the fur during the last few years has resulted in a veritable war on the animals. The chinchilla is hunted principally by Indians living in the Andes highlands, who capture the animal with weasels. At the same time the government forbade the killing of chinchillas, a governmental decree was issued establishing an annual bonus of \$12 for every chinchilla raised domestically. Breeding farms for the animals will be established by the government to conserve and propagate the species.

Fort Bliss, Texas.—"Once a cavalryman, always a cavalryman," is the explanation Henry M. McCloskey gives for his desire for a transfer which meant the loss of his sergeant's ranking and some \$40 a month. The sergeant of the armored car brigade said as much in requesting the change of his superior officers. He had served in the horse troop for six years. A year ago, when the armored cars were brought to Fort Bliss, he was transferred to them. "I've always had a hankering to get back to horses," McCloskey admitted. "You can't get the same satisfaction riding a bumping machine of iron and rubber." Now he is with troop F, Eighth cavalry, buck private, and happy.

CUT CROSS COUNTRY TRIP TO 12 HOURS

Mystery Ship Expected to Lower Record.

Atlanta, Ga.—Some time next spring when the elements between Los Angeles and New York return to normalcy, Doug Davis, crack Atlanta pilot, expects to fly the distance in about twelve hours. The record, now held by Capt. Frank Hawks, is close to seventeen hours. But that fact apparently offers little obstacle to the man who recently clipped three hours from the record of the trip from New York to Atlanta. He used a Travelair "Mystery" ship—a bullet-like monoplane which looks like a humble bee upside down but which functions with unprecedented efficiency. Would Fly Straight Up. Davis won the cup for America's most meritorious flyer of 1929 in the same projectilelike craft at the Cleveland air races. He was in New York early in November and wanted to enter it in an air race in Atlanta. So he took breakfast in Gotham and lunch in Georgia, actually flying the 800 miles in four hours and thirty minutes through rain and fog. The entire trip required five hours, with two stops of fifteen minutes each for fuel. Davis believes his "Mystery" ship has greater possibilities than any similar craft extant, believes its highly developed maneuver ability and excessive speed would make it an invulnerable fighting unit in time of war. He recently said that shortly he expected to open its throttle somewhere in the vicinity of the ground, point its nose "absolutely straight up," and cut swiftly heavenward for one solid mile at an angle of 180 degrees. Fastest Climbing Plane. Already he has climbed to 3,000 feet in that manner after a 250-mile-an-hour start. Present equipment of the plane, he said, does not permit more altitude because of gas tank adjustment, which he expects to alter. The plane can take off at an angle greater than 45 degrees and hold it "all the way to the ceiling," Davis said. "I believe it is unquestionably the fastest climbing plane ever built." It is an open cockpit affair and responds so swiftly to the controls that a sudden change of direction will produce temporary blindness for the pilot. That happened in the Cleveland races, Davis said, when he rounded a pylon too abruptly. A nine-cylinder motor of 300 horse power twirls the plane's 22 degree pitch propeller 2,500 revolutions per minute and propels the whole craft more than 250 miles an hour. "A novice is out of place at its controls, but it is perfectly safe in the hands of an experienced pilot," he said.

Plans Airplane Capable of 2,000 Miles an Hour

New York.—Within a few years Fritz von Opel, German inventor of the rocket powered car, hopes to have perfected a practical airplane capable of speed of 2,000 miles an hour. The machine, he said, would be driven by a new fluid explosive which his engineers are now testing. This fluid is produced by combining two other high-powered explosives according to a secret formula, and by next year, Von Opel said, he expects to have built a rocket driven plane with which he will attempt a flight across the English channel. Herr Von Opel, who is only thirty, arrived in New York recently aboard the North German Lloyd liner Columbus with his wife. He is to remain in the United States for a year, studying the motor industry, and also will confer with navy officials at Washington. The young inventor ridiculed the idea of shooting a rocket to the moon, and especially that of a man traveling to the moon in a rocket driven car. His rockets have far more practical use, he believes.

Tax Iriks Chinese

Shanghai.—Angry at a new 30 per cent "superstition tax" which the local Chinese municipality has ordered levied against religious incense and candles, shopkeepers affected have joined to resist the duty and threaten to declare a strike unless the order is rescinded.

Millions of Children in China Illiterate

Peking, China.—Three million Chinese children in Hopei province alone are unable to read or write in their own or any other language, the department of education of the province reports. The department urges institution of compulsory education for all children as soon as possible, but estimates that such a program would require \$30,000,000 at the start, and as the province has been barely able to meet ordinary administrative expenses, it is not believed that a real beginning can be made in the near future. As a temporary measure, the department suggests that compulsory education be started first in large cities, where the people may be able to afford it.

PARLIAMENT LOSES GIANT POLICEMAN

Favorite Retires After Twenty Years of Service.

London.—This is a story about a big man with a big record, about weights, lengths, measures, parliamentary procedure and dignified physical scuffles in the house of commons. In brief, about George Fulcher, weight 294 pounds, twenty years a policeman in the palace of Westminster. Fulcher has retired. Fulcher not only was the most popular member of the parliamentary police staff, but also the most impressive. When he trod down the long medieval, dimly lighted corridors the whole British empire, with the possible exception of Australia, knew about it. He was particularly useful in the event of an occasional row within the sacred precincts of the house. All Fulcher had to do was to walk right into the dozen or so rioters and it was then only a question of the old irresistible force against whatever object stood in the way. Fulcher knew hundreds, thousands, even, of M. P.s, for it must be recalled that Fulcher was a fixture in the house of commons while M. P.s are not. But Stanley Baldwin probably could tell you more about it. House of commons police have a bigger beat to cover than many of the metropolitan police out on the streets. They have two miles of corridors to cover on each floor. In some respects the house is like the Grand Central station. There are shops where one may buy postal cards. There are innumerable restaurants for all manner of folk. There are visitors' restaurants, members' restaurants and employees' restaurants. Then there are innumerable tea-rooms, and, in the words of a prominent lady M. P., all bad. All these things tend to make Fulcher yearn for his old job. So much so that according to recent reports the former big man of the house has become a mere shadow of his former self and is said to weigh but a mere 280 pounds, having lost a full stone since he left the dignified portals of Westminster palace.

Russia Plans System for Banking Salaries

Moscow.—The wages of all workers and employees in the Soviet union may soon be automatically deposited in savings banks to their accounts, to be drawn upon as needed. A project to that effect is now being worked out by the state planning commission with every prospect of confirmation by the council of people's commissars. The scheme is intended to encourage thrift. Instead of urging the population, as heretofore, to deposit surplus funds in the banks, the surplus will under the new arrangement remain in the banks automatically. Incidentally it will greatly simplify the process of paying out wages. Every trust, co-operative, etc., will deposit a lump sum in the savings banks which will at regular intervals transfer the necessary amounts to the accounts of wage earners. Millions of new savings accounts thus opened will also give the Soviet government additional capital for its enormous industrial program.

Perhaps Here's Where Modernist Art Started

Carlsbad, N. M.—A painted grotto, colorful as an Indian blanket has just been found in the Guadalupe mountains, New Mexico. A race extinct 40 centuries ago, used this huge niche in the canyon wall for a living room. In the half-light were discerned a strange medley of paintings—red, yellow, white, black—along the wall for 80 feet. Both the side and a portion of the ceiling are covered. A 40-foot serpent was outlined in a series of small white triangles stretched horizontally, other large snakes, in solid yellow, ran from floor to ceiling. Paintings of other similar reptiles appear to have been started, but left unfinished. Flat blocks of rocks, the size of a billiard table, lie along the floor; corn was ground on these.

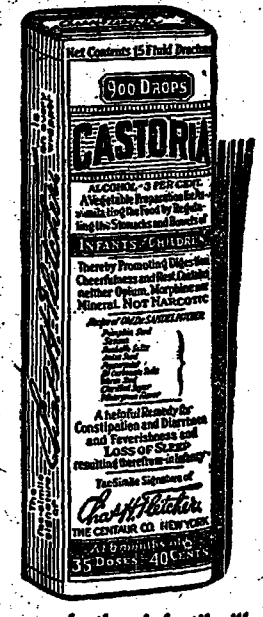

Paris to Name Street for Ambassador Herrick

Paris.—To recall to future generations the gratitude they owe America's great ambassador, a new street in Paris is soon to be named Herrick. It is the extension of Avenue Victor Emmanuel III, through to Rue de Concelles, and promises to be a smart shopping and residence thoroughfare. A project to raise a monument of Ambassador Myron T. Herrick somewhere in the middle of the street is before the council.

Largest English Lifeboat to Aid Channel Planes

Hampton-on-Thames, England.—England's new lifeboat, considered the largest in the world, which was recently launched here is now stationed at Dover to assist Channel planes. The lifeboat is the first specifically adapted to help airplanes coming down at sea. The craft has a speed of about 18 knots. Anything to Oblige Enfield, England.—Charles Collins, sixty-three, struck by a skidding automobile, was knocked into the front yard of a doctor, who treated him for a fractured leg.

When Babies FRET

There are times when a baby is too fretful or feverish to be sung to sleep. There are some pains a mother cannot pat away. But there's no time when any baby can't have the quick comfort of Castoria! A few drops, and your little one is soon at ease—back to sleep almost before you can slip away. Remember this harmless, pure vegetable preparation when children are ailing. Don't stop its use when Baby has been brought safely through the age of colic, diarrhea, and other infantile ills. Give good old Castoria until your children are in their teens! Whenever coated tongues tell of constipation; whenever there's any sign of sluggishness that needs no stronger medicines to relieve. Castoria is pleasant-tasting; children love to take it. Buy the genuine—with Chas. H. Fletcher's signature on wrapper.

Map of Old Empire

Plans for making a great historic map of the Roman empire have been announced by an international commission of geographers. The commission was appointed to publish the map by the international geographical congress, several months ago. The map sheets will show cities and other geographical features which figured in the development of the Roman empire from the time the Romans appeared in any region to the fall of the western empire. Both ancient and modern names will be given. Distribution and types of population will be indicated, as well as important economic and social conditions. The sheet containing the city of Rome is now in process of preparation.

Keeping Back the Good News

Nora—Can you keep a secret? Dora—Can I? Why, my present boy was engaged to me three weeks before he knew it.—Stray Stories.

Natural Gas Consumption

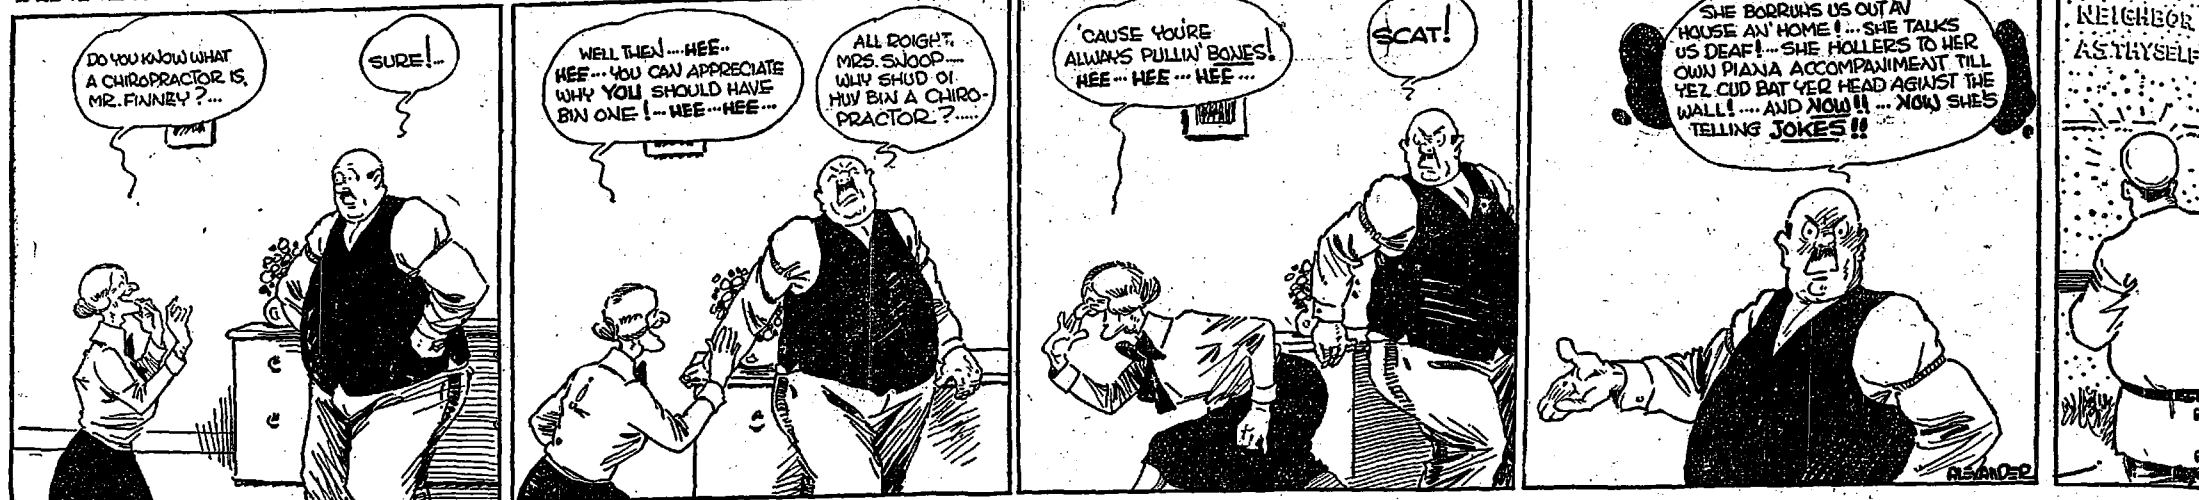

In 1922 725,000,000 cubic feet of natural gas were produced in the United States. The value of this natural gas was \$196,000,000. In 1923 the production had increased to 1,164,000,000 cubic feet, having a value of \$255,000,000. In 1927 the production had increased to 1,445,453,000,000 cubic feet over 1926.

J. S. Daniel made a business trip (Winston-Salem) Thursday.

John Pope, of Statesville, was in town last week visiting relatives.

Mr. and Mrs. J. A. Daniel spent Wednesday in Winston-Salem shopping.

Attorney John Lewis, of Statesville, was a business visitor here the day last week.

Misses Lois Daniel and Sarah Wain spent one day last week in Winston-Salem shopping.

Mrs. Will Howard spent last week in Charlotte, the guest of Mrs. W. T. Starrette.

Mr. and Mrs. M. D. Pass and the daughter spent Thursday in Winston-Salem shopping.

J. R. Foster, of R. 3, was in town Friday morning on his way to Statesville on a business trip.

Mr. and Mrs. J. P. LeGrand returned home Friday from a visit to relatives and friends at Allendale, C. and Augusta, Ga.

W. E. Keuten, who has been suffering with blood poison in his hand for the past ten days has completely recovered, his friends will be glad to learn.

FOR SALE—Early Jersey cabbage plants 25c. per 100. I want to buy peanuts. Send samples and price. W. H. Blackburn, Newton, N. C., R. 1.

Mrs. Margaret Willis died at her home in Lexington Thursday, and was laid to rest in that city on Friday. Mrs. Willis was a cousin of our townsman, W. M. Howard.

W. G. Howell who rambles around in the classic shades of Farmington, was in town Wednesday and left us a cart wheel. Mr. Howell is Chairman of the Board of Road Commissioners of Davie.

"Show Boat" and "Broadway" will each have a three day run at the Princess Theatre soon.

Boyce Cain, of Cana, arrived home Friday from Middletown, Ohio, where he has spent the past month settling up the estate of his brother, Boone Cain, who died some time ago.

Attorney E. L. Gaither attended a meeting of the directors of the Wachovia Bank & Trust Co., Winston-Salem last week. Mr. Gaither was re-elected as a director of this big banking house.

Misses Nina White and Sophia Richards, of Davidson, spent the week-end here with Mrs. James McGuire. Misses White and Richards were members of the Mocksville school faculty for several years and have many friends here.

Three games of basketball were played on the local court last Tuesday night. The local girls defeated the Smith Grove girls by a score of 46 to 6. The local boys defeated Smith Grove boys by a score of 25 to 3. The Cana boys defeated the Mocksville second team by a score of 11 to 10.

The Mocksville high school basketball teams suffered two severe brushings Friday evening when the Draughn Business College teams of Winston-Salem came over and played on the local court. The visiting boys defeated the locals by a score of 32 to 5, while the young ladies defeated the locals by a score of 24 to 10. The least we can say about these games the better.

A peculiar wreck happened in Mocksville last Thursday afternoon when an automobile and an airship had a wreck just north of the square. The airship was owned by Ben Seagle, of Hickory, and was being carried to that town on a truck. The truck was parked near the store, with a part of the ship extending beyond the truck. Leslie Daniel, driving his father's automobile, ran into the obstruction, doing some damage to the car and also bending the part of the ship that extended from the truck. No one was injured.

Mrs. Robt. L. Booe, who has been very sick at her home on Salisbury St. is somewhat improved.

Miss Effie Booe is able to resume her place as teacher this week at Stroud's School after having flu. Her sister, Mrs. R. Braxton Booe taught during her absence.

Wintery blasts touched this section slightly Saturday and Sunday. Thermometers registered 17 degrees above zero Sunday morning and 22 degrees above zero Monday morning. A small amount of sleet and snow fell early Saturday morning, but melted as it fell. Trees were covered with ice Saturday morning but a rising temperature soon melted it.

Mr. F. W. Miller and family, of Mt. Ulla, have moved to the D. C. Penny farm, on R. 2, which was recently purchased by H. A. Sanford. Mr. Miller is in the cattle business and was the first to get an official record on a Guernsey cow in North Carolina. He has a herd of about 17 Guernseys, and will engage in both farming and cattle raising in Davie. The Record is glad to welcome Mr. Miller and family to the best county in North Carolina.

Mrs. Nathan Bailey died at the home of her parents, Mr. and Mrs. George Carter, near Fork, last Thursday afternoon, following a lingering illness. She is survived by her husband and three sons, her parents Mr. and Mrs. George Carter, together with five brothers and six sisters. Her husband, and one sister and one brother are also quite ill. The funeral and burial services were held Friday afternoon at Fiberville. Rev. J. W. Turner and Rev. Mr. Hendry conducted the services.

Mr. and Mrs. S. A. McAlrath and daughter Miss Sylvia, and Mr. and Mrs. T. H. McAlrath, of Laurel, Iowa, visited Mr. and Mrs. H. B. Ward, Sunday evening. They were enroute to Florida to spend the winter. They were accompanied as far as Mocksville by Mr. Tom Sheek, a former Davie man, who spends several days with his father, Mr. Leav Sheek and his brothers, John and Will Sheek, of this county.

Eastern Star Entertains Masons.

The outstanding event of last week in Mocksville was the delightful banquet given by Chapter 173, Order of the Eastern Star, in honor of Mocksville Todge 134, A. F. and A. M., on Tuesday evening. Miss Ruth Booe being chairman of the entertainment committee. The Masonic hall formed an ideal setting for the gathering, which numbered about seventy.

The guests were seated at four long tables which were artistically decorated with yellow jessamine, and lighted with white tapers. Delicious stewed and fried oysters and accessories were served. Irwin P. Graham, of Coolemees, acted as toastmaster, and made the address of welcome, which was followed by the invocation by Rev. A. G. Loftin. Mrs. Roy Holthouser, associate matron, very graciously gave a toast to the Masons. Music was rendered on the violin and guitar by J. C. an' Ralph Fry, with Mrs. B. C. Brock at the piano and a quartet composed of J. B. Johnstone, R. B. Sanford, Z. N. Anderson and Joe Fry sang "My Old Kentucky Home." Talks were made by Dr. E. P. Crawford, V. E. Swaim, Mrs. E. P. Crawford, Rev. E. P. Bradley and Mrs. H. C. Lane.

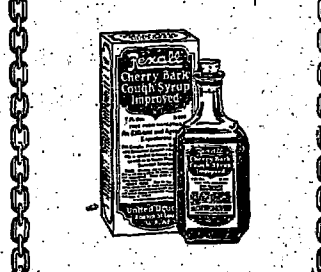

At the close of the banquet Mr. Graham voiced the deep appreciation of the Masons for the courtesy shown them. Those attending from out-of-town were Dr. and Mrs. E. P. Crawford and June McRoney, of Lenoir, John McCormick, of Robeson county, Mr. and Mrs. H. C. Lane, of Bethany, Mo., as well as Masons from Advance, Coolemees and other sections.

Barnes Heads Baptist Association.

Coolemees, N. C., Jan. 17.—At the monthly conference of the South Yadkin Association comprising Davie and Iredell counties, held in Mocksville yesterday, the Rev. M. Luther Barnes was unanimously elected president of that body. As at present constituted there are 32 churches in the association with a membership running into the thousands. Rev. C. H. Myers, pastor of First Church, Mooresville, was elected vice-president and Rev. W. L. McSwain, of Harmony, secretary.

The Clock Strikes 12

Every year on Dec. 31, midnight, the clock strikes 12. True—it does so every midnight of the 365 day of the year—but—
There is something more than the ordinary about the midnight hour on Dec. 31.
There is something more than just the coming of another day.
There is born to you at this hour a new year—full of opportunities.
A New Year, in which you are going to be given new opportunities.
If last year did not suit you—you can make the new year what you will.
1930 gives you another chance.
1930 lets you try again.
Were you discouraged, once in a while, in 1929?
The bells strike—the whistle blows—up and at em' again.
The worlds needs you—needs your work—needs your brains—needs your brawn.
But, 1930 wants no qitters.
1929 is gone: So are our hopes and ambitions that we gave birth to on Jan. 1, 1929. What do we care about 1929?
About as much as a small boy values a busted balloon.
Every element is in our favor—wind—weather—sun—shine—rain.
Let's all join hands and go and meet the new year with a confident smile.
If we stick together we can meet 1930, unafraid.

NEWS OF LONG AGO.

What Was Happening In Davie Before The Days of Automobiles and Rolled Hoses

(Davie Record, Feb. 2, 1905)
L. W. Dixon, of Pino, was in town Saturday.

M. D. Brown is building an addition to his livery stable.

T. J. Anderson, of Salisbury, was in town Saturday shaking hands with old friends.

Col. J. Wiley Shook, of Haywood county, was a visitor in our town last week.

Mr. E. L. Gaither and daughter Miss Adelaide, went down to Charlotte last week to hear the famous violinist, Paderewski.

J. W. Bailey will soon begin work on his store house which he will erect on the lot purchased from James Wilson.

Mrs. Thos. McCoy, of Asheville, is in town with her husband who has been confined to his room for two weeks past with rheumatism.

Miss Adelaide Gaither's music class will give a recital at the studio Friday evening, Feb. 4th.

Last Thursday night an apron party was given at the home of W. L. Call, at Advance, by Miss Sallie Foster. Lewis Markland received the price, a nice cake.

Peter Stonestreet visited his uncle J. W. Kurfrees, at Germantown recently.

Bill Jones, a former Davie boy who has been living in Minnesota, has returned to his native county.

Mocksville was visited by another destructive fire last Friday. Mrs. Marshall Clement's residence, with part of its contents, was entirely destroyed. No insurance was carried on house or contents.

Last week was a "red letter" week for Coolee. On Wednesday a negro attacked John Dyson, a white man with a hoe, and inflicted some very ugly gashes on his head. The negro was arrested and jailed. The following day Rowan, while drinking, shot and instantly killed his wife. He was arrested and lodged in jail.

N. B. Martin who left Coolee about a year ago to work in a cotton mill at Gainsville, Ga., has returned and taken up his old job as loom fixer.

T. V. Terrell's beautiful new residence just across the river from Coolee, is nearing completion.

G. C. Patterson, of Coolee, made a short visit to his parents in Randolph county a few days ago.

The State Senate wiped seven distilleries out of Advance a few ago.

E. H. Morris spent Sunday night with W. A. Bailey, near Advance.

Times Must Be Good.

For the past two or three weeks we have been reading reports of stockholders meetings of various banks, mills and factories throughout the country. So far as we have been able to learn by reading, every bank, factory etc., has issued a statement to the effect that their business in 1929 showed an increase over 1928. Practically all the meetings have declared good dividends, and many have paid their employees a bonus. If all these reports are true, it is hard to figure out where the Hoover "panic" that our Al Smith friends spend their time talking about, has hurt business. A few chronic knockers can do a lot of harm by yelling wolf, when there is no wolf. Most people who want to work can get a job. Positions may be scarce now, but ask some of the farmers if they can employ help on their farms.

It is easier to smile than to frown. It takes sixty-four muscles to frown and only thirteen to smile.

New Cars and "Hard Times"

How are times in North Carolina? "Hard," comes the clamorous answer from all over the State.

But if times are so "hard," why is it that the people of the State managed to scrape together some \$60,000,000 to send out to other states for new automobiles during the past year? This is a sum not so much less than the value of the cotton crop of the State.

During 1929, 73,860 new automobiles were sold in North Carolina. In 1927 the number of new cars sold in the State was 65,007 or more than 8,800 under the number for 1929. It is true that the harder times get the more new cars are sold? It is estimated that for the United States as a whole the average cost of each new car sold is \$812. Figuring on this basis the people of this State spent \$60,000,000 for new cars in 1929.

Turn to study another picture. Judge Frank Daniels is sentencing three young men in Wake Superior Court for theft. They stole, or were trying to steal, some tobacco, presumably to get money with which to defray their automobile expenses. Judge Daniels took occasion to say that while automobiles may be useful and serve a good purpose, they have been the source of much trouble to needy families and are depriving many children of an education.

The automobile occupies a secure place in modern life. But this obvious fact does not obliterate the equally obvious fact that many people have not succeeded in adjusting themselves to the automobile. Many families spend too much on their cars. Too many people buy bigger and more expensive cars than they need. If the use of an automobile is confined to actual needs, it is not, in most instances, unduly expensive. It is the use of a car above and beyond the margin of necessity that does the damage to the owners. There must be some vital relationship between \$60,000,000 worth of new cars and "hard times" in North Carolina.—Winston Journal.

NOTICE

Notice is hereby given, that an action entitled as above has been commenced in the Superior Court of Davie County, N. C., by the plaintiff and against the defendants, for the purpose of foreclosing certificates of a sale of the following lands located in Jerusalem township, Davie County, and listed for taxes by said defendants for the year 1926, viz: A tract containing 109 acres more or less and bounded as follows: A tract beginning at a stone near a pine on the east side of the Mocksville road, thence N. 66 deg. W. 17.68 chs. to a gum, thence N. 18 deg. W. 26.00 chs. to a red oak, thence N. 4 deg. E. 18.69 chs. to a stake or stone in Ford's line, thence S. 71 deg. E. 11.10 chs. to a stake in Farris' line, his corner, thence with his line S. 63 deg. E. 23.60 chs. to an oak stump on west side of Mocksville road, thence down the public road 37.35 chs. to the beginning, containing 109 acres more or less.

And all persons claiming any interest in said lands are hereby notified to appear before the undersigned, present, set up and defend their claims in said lands, within six months from the date of this notice, otherwise they shall be forever barred and foreclosed of any and all interest in and to said lands or the proceeds of sale thereof. This 14th day of January, 1930. —M. A. HARTMAN, Clerk of Superior Court of Davie County, N. C.

Again The State-Wide Patrol

Union Republican

On December 8, last Captain Charles D. Farmer, the voluble head of the State-wide patrol system with a flourish of trumpets and ringing of bells reported that 22 persons were killed on the highways of the State during the month of November. We knew that this statement was not accurate for the Union Republican had published an account of the killing of twice that number on the highways of the State. Just why Captain Farmer would want to send out a report like that is unexplainable when he was bound to know it was a true statement of fact.

After considerable prodding of the automobile bureau of the revenue commissioner's office they at last of December 26, eighteen days after Farmer's statement issued a report saying that 66 people were killed on the State highways and actually admitted that the record was far bloodier in 1929 than in 1928.

The fact that the widely heralded State wide patrol has failed to reduce the number of accidents in the State but on the other hand they are rapidly increasing is proof positive that it has fallen down on its job and is an unnecessary expense as well as unmixed evil.

Those who advocate the establishment of the patrol are fighting now with their backs against the wall and are loudly proclaiming that the force is too small and that to prevent these accidents the patrol must be increased to five times its size. In other words they are asking for 150 men to patrol the highways and if the next Legislature is fool enough to increase the patrol to this size, matters will not be helped in the least and the following Legislature will be asked to double this number and the thing will keep on until patrolers will be as thick as game wardens and magistrates.

There are 100 counties in the State, every county has a sheriff which means 100 officers, all these sheriffs leave anywhere from 10 to 50 deputies and where pray are these men that they cannot stop the slaughter on the highways then of what use in the world is there for a bunch of fellows riding around as the State wide patrol is doing looking like the have just stepped from a bandbox, and having a good time generally at the expense of the taxpayers of the State? Is this law just to give the ward heelers, election workers and sons of Democratic politicians jobs? And as 37 places will not begin to go round must we increase this so that at least 150 of the members of the Al Smith party may have a nice soft job?

And by the way wonder what explanation Captain Farmer made to the late "Bevo" governor of that collision at the Harnett county fair when one of his trusted lieutenants was supposed to have all but fixed one of the State owned cars for the junk heap when he in company with some of the carnival people, one of the ladies included, had some kind of an accident. The voluble head of the patrol has never given out the facts in this case in any of his many interviews which he spouts forth regularly every few days from his office in Raleigh.

A Milwaukee woman who told the judge "My husband goes for six weeks at a time without saying a word to me," was granted a divorce. If the situation were reversed—that would be news.

Winston-Salem government costs each citizen \$21.38 for fiscal year ending May 31, 1928. Probably worth it to live in the "city of millionaires."

Modernized Version. The Parable of the Sore and the Tears.

The Parable of the Sore and the Tears.

And it came to pass in the latter days of the reign of one Furnifold, whose surname was Simmons, that there arose a mighty famine (of opposition) in the land. And there ran to and fro—mostly from one Josiah Balaam seeking whom he might devour. And this Josiah arose in revolt among the Albite and the Git-tights and in the City of Sodom, which is also known as Raleigh unto this day. Josiah Balaam saddled an ass and said unto this himself, "Lo, I will ride like Jehu and warn the people, for they are scattered as without a leader and I regard them as sheep."

And the sight of the Governor's Palace was sore in Josiah's eyes, he had incited an insurrection times before, and lo, when it came to the assembly of the people at the ballot box, they forthwith forgot what manner of man Josiah was. So they cast in their votes for one Angus surnamed McLean and did not have cognizance of Josiah, thinking him too near of kin to the Philitine Republicans by reason of his marriage unto the daughter of one Federal Judge of the G. O. P. Tribe. So Josiah wailed and gnashed his teeth.

And when he had stridden his ass and was a far-off in the fields meditating on the somnolence of a seat in the Political Synagogue known as the Senate, he was worth with exceedingly great wrath, and he smote his ass and thereupon the ass spoke unto Josiah and verily said:

"Josiah, why didst thou smite me? I know of a truth that I am only an ass, and thou art likewise the same, only thou hast not comprehended it and art still anxious to be shown at the polls." And the ass bestowed its rider on the ground and ran straightway exceedingly far away from him, and verily Josiah had to seek yet other asses. And lo, in the fortified city of Charlotte he came on various and sundry asses, yet more exceedingly, a simine than the beast which he had smitten. And he communed with these asses and they said, "Go to, Josiah, and lo we are ready to serve thee." And they bowed down and Josiah rose up, and he notified the tribes of the Chosed Party that he had rallied one Jemison the Git-tite and one McCall the political Soothing Syrup Sooth-seer, a man of pleasing personality and of many virtues, howbeit, he was lame as to his political ideas.

And Josiah seized these allies and utilized them as though they were the jaw-bones of an ass, and he did go forth to destroy Furniture surnamed Simmons and usurp the throne for himself.

And the people marveled and many passed by on the other side, especially at election time, and the fate of Josiah Balaam was worse than the law allowed. For he fell on that day and mighty was the slump thereof, and lo, Furnifold surnamed Simmons is in the Senate even unto this day.—Arthur Talmage Abernethy, in Charlotte Observer.

Hello, World.

Those who might have been thinking that the Washington correspondents were giving Mr. Simmons the edge thought their theories of the commendations he is receiving for his tariff fight, are invited to reflect on the fact that Mr. Bailey has been assigned a place on several neighborhood speaking programs.—Greensboro News.

The Editor's Soliloquy.

The country editor, old and gray,

Sat in his office at close of day; His eyes were tired, his head bowed down,

Across his brow a deep, deep frown, As he wondered why he'd heeded the plea

To publish a paper in that city; Or why he'd believe the promises made—

Redemption of which were so long delayed.

"Fool that I was; fool that I am! I've played the same like a true man

—Have tried to help make the old town grow,

What more I can do, I sure don't know

I've given my time and money, too, To boost all good things, both old and new;

I've battled against the mail order house—

The support I've had wouldn't keep a mouse.

I've talked for the stores, and traded at home.

But the pay I got, wouldn't buy a bone.

I'm sick and tired of it all— Of runnin' around and hearin' 'em stall:

'Business is dull, ain't sellin' a thing 'People ain't buyin'—the song they sing.

Or, 'Not this week, but next week sure.'

And the next week—Next week we'll do 'er.

It's 'manana' this and 'manana' that,

But nix on the ad, you can bet your hat—

These promises aren't worth a little red cent—

They don't buy paper or pay the rent,

Nor clothes, nor food and things I need—

To keep the dollars in their creed And they want all the community trade,

But to get it and keep it no effort is made.

Then there are a few men, loyal and true,

Their word is good; they're real true blue—

You can bank on a promise from any of them—

They're the town builders and real men.

So I reckon after all is said and done,

I'll still fight on 'til the battle is won."

—Roderick Nelra.

Outlook Brighter.

Signs are beginning to multiply that after a brief but drastic backsliding in the last two months of the year, we are once more about to make progress on the high road to prosperity and better things. In a recent statement given out at the White House the President said that reports which have come to him since the conferences with business heads a few weeks ago indicate that 1930 will be a bigger building year than 1929. Partial returns have been received from a survey of twenty-nine States and these returns indicate an outlay of \$4,700,000,000 in construction during the present year, which is a tidy sum to say the least. The figure will of course be considerably larger when the complete returns are in. Up to this time there are complete estimates from only sixteen of the forty-eight states. From various sources there are reports of growing optimism and while few are optimistic enough to believe that 1930 will be a record-breaking year with steady improvement as the time goes on.

In his statement given out to newspapermen the President said: "Our drive for increase in construction and improvement work to take up unemployment is showing most encouraging results, and it looks as if the work undertaken will be larger for 1930 than for 1929." The Department of Commerce

now has complete returns from the governors of sixteen states covering public works to be undertaken in 1930 by the state, municipal and county authorities. They have partial returns from thirteen more states.

"The total so far reported; and including the federal government, is about \$1,550,000,000, and in nearly all cases larger than for 1929. The surveys are coming in daily and should be completed by mid-January.

"The preliminary estimate of the railways for construction and betterments for 1930 was \$1,050,000,000,000, including the telephones. The total of these items so far is \$4,700,000,000.

"This does not include the balance of the state, municipal and county work, nor the building construction, nor the industrial and factory improvements, which latter are now under survey by the special business committee.

"The steel companies inform me this morning that the effect of the drive is already showing in their orders, which are beyond their expectations."

While this is of course no time for foolish speculation or the spending of money for spending's sake, it is equally true that it is no time for pessimism. The man who is frightened by shadows and who draws himself into his shell will only help to bring on the dangers which he is seeking to avoid. The best way of course is to go ahead carefully and constructively, doing the best we can to make 1930 a prosperous and happy new year in the United States.—Ex.

Money In Eggs.

L. B. Drum, of Catawba route 2, may not be a "winter and egg" man, but he can at least lay claim to the eggs since he sells more in one month than any other farmer in this section has reported recently. Mr. Drum said that he sold 32 dozen eggs in Newton Saturday and on the previous Saturday 23 dozen. In December he marketed 69 dozen eggs and expects to sell more than 100 dozen this month. He has around 110 hens now and is gathering approximately 60 eggs daily. "I buy nearly all my supplies with money from my hens, eggs and chickens," Mr. Drum stated.—Hickory Record.

MRS. R. A. NEELY, E. M. SWICEGOOD, N. H. SWICEGOOD, ET AL.

NOTICE

Notice is hereby given, that an action entitled as above has been commenced in the Superior Court of Davie County, N. C., by the plaintiff and against the defendants, for the purpose of foreclosing certificates of a sale of the following lands located in Mocksville township, Davie County, and listed for taxes by said defendants for the year 1926, viz: A tract containing 46 acres more or less and bounded as follows:

A tract beginning at a stone and pine knot, E. F. Stonestreet's corner, N. 6 deg. W. 33.94 chs. to a stone, thence W. 3.59 chs. to a stone in Columbus Bowles' line, thence S. 6.85 chs. to a stone and persimmon, J. W. Green's corner, S. 60 deg. W. 15.25 chs. to a stone, S. 23 deg. E. 27.32 chs. to a stone or pine knot, N. 2.66 chs. to a black gum, thence north to the beginning, containing 46 acres more or less.

And all persons claiming any interest in said lands are hereby notified to appear before the undersigned, present, set up and defend their claims in said lands, within six months from the date of this notice, otherwise they shall be forever barred and foreclosed of any and all interest in and to said lands or the proceeds of sale thereof.

This 14th day of January, 1930. —M. A. HARTMAN, Clerk of Superior Court of Davie County, N. C.

Senator Brock, of Tennessee, Davie county's only Senator, voted a few days ago against a higher tariff on sugar. We don't blame Senator William, 'cause he owns and operates a big candy factory.

The groundhog is due to make his appearance next Sunday, Feb. 2nd. We will depend on our Sheffield friends to appoint a committee at once to confer with said hog at the earliest possible moment and make arrangements with him to spend Sunday outdoors. Our coal pile is getting to be a mere shadow of itself and our checkbook is in a pitiful condition. Welcome, sweet spring.

Tom Jimison, former Methodist preacher, Boy Scout Master, Candidate for Mayor of Winston Salem, and now Charlotte Democratic lawyer, has announced himself as a candidate for Congress from the 9th District. He gives his reasons for running, chief among them being the fact that he needs the salary and has no objections to the honor. Tom is a great boy—he has plenty of brains and knows how to hold on to a dollar when he gets one, but he will have to do some tall running if he defeats Charlie Jonas, present Republican Congressman from the ninth. Charlie has made a mighty good Congressman and has done more for his district in the last year than the former Congressman did in all the years he spent in Washington.

Woman's Missionary Society of Farmington Meet

Mrs. W. E. Kennen was hostess to the Farmington auxiliary of the Woman's Missionary Society at her home, Kennen Krest on Tuesday afternoon, Dec 21, with eight members and five visitors present. The devotionals were conducted by the pastor, Rev. A. K. Bell and the business session was presided over by the president, Mrs. T. H. Bahnsen. Pledge cards were distributed, various committees appointed and plans for the work of the ensuing year were discussed. The program for the afternoon was in charge of Mesdames J. E. Brock, S. J. Horn and J. F. Johnson. A social hour followed during which time the hostess, assisted by her nieces, Misses Frances Threlkeld and Dorothea Norrington served a tempting salad course, coffee, nuts and minis.

Delightful Evening.

Misses Lucy Tatum and Phoebe Eaton delightfully entertained at a six o'clock dinner on Saturday Jan. 25th, honoring the officials of the Farmington Baptist church. The most interesting feature of the occasion was the suggestive plan of Gov. Morrison "Live At Home." The guests were as follows: Supt. Mr. O. M. Howell, assistant Supt. Mr. Joe Blake, teachers, Mrs. L. M. Furches, Mrs. Susie Richie, Mrs. G. H. Graham, Mr. Timothy Eaton. Other guests were Mr. Fred Lakey, Mrs. O. M. Howell, Mrs. Henry Blake, Misses Martha Furches, Ruth Lakey, and Elizabeth James.

Shall We Have A Community Organization?

If so, shall we have a county wide, state wide hook up? This question will be discussed at Court-house at Mocksville, Saturday, 2 p. m., February 1, 1930 by a representative of the National Grange Organization and by others. The door of opportunity opens to you. Come out and hear the discussions. Men, women and young people invited. No admission charges. D. J. LYBROOK.

W. K. Henderson, who owns and operates a radio station at Shreveport, La., has been and is making a big fight on the chain stores in the south, especially those who sell their goods in the north. So far as we know, Davie county has but one chain store, and it is located in Mocksville. The owner lives in Taylorsville, and we don't know where he does his banking or how much tax he pays in Davie to keep our schools running, our roads passable and to feed and clothe the poor. The Merchants Association at Hickory held a meeting a few days ago and ousted six managers of chain stores from their association. Statesville merchants, or at least some of the local merchants, are also waking up and making a noise about who should patronize them. Henderson has started something and no one knows just where it will stop. He says the chain stores are all right—the ones that are owned and operated by citizens of the county or state in which they are operated. His fight has been especially bitter on the A. & P. and Clarence Saunders groceries, his contentions being that these stores do not help build up the towns and cities in which they operate—that their money is banked in the north and west, and that they always rent and do not invest in property in the south paying tax only on the stock of goods carried in a rented building. What it takes to tell the world, Col. Henderson seems to have. We admire his nerve, and enjoy listening to him. He has the biggest audience of any radio broadcaster in the country judging from what the newspapers have to say about him. Go to it, "old man" Henderson. We're with you.

Funeral Held For Mrs. Savannah Eaton.

Coolee, Jan. 23.—Funeral services for Mrs. Savannah Eaton were conducted this morning at the Baptist Church here. Interment followed at Liberty Church Cemetery on Highway 80, two miles north of here. Death claimed Mrs. Eaton Tuesday night following an extended illness, with occasional rallies. Leading of the heart was thought to have been the cause of her demise. Mrs. Eaton was about seventy years of age and had spent the greater part of her life in Davie county, and a resident of Coolee for many years. She lived with her son, W. G. Eaton, chief engineer of the Erwin Mills. Mrs. Eaton was the widow of the late Savannah Eaton. Four daughters and four sons survive, with several grandchildren.

U. A. Orrell Dies Near Advance.

After an illness of two months, U. A. Orrell passed away at his home near Advance Saturday night at 10 o'clock. Mr. Orrell is survived by three daughters, Mrs. D. C. Kurfees and Mrs. W. A. Ellis of Winston-Salem. Eight grandchildren also survive. Funeral service were conducted at Elbaville Methodist Protestant church Monday afternoon at 2 o'clock.

Advance News.

Miss Ethel Smithdeal, of Winston-Salem spent the week-end with home folks. Mr. and Mrs. C. E. Faircloth visited Mr. and Mrs. Ed Faircloth at Winston-Salem Sunday. The Sunbeam Sunday school class held a box supper at the Community building last Thursday night. Mr. and Mrs. S. E. Snider, of Denton spent the week-end with relatives in and near Advance. Miss Kathrine Ratledge has pneumonia, it's reported. We hope for a speedy recovery. Mr. Joe Peebles is very ill at this time. Miss Pansy Faircloth entered Catawba college last Friday. Funeral services were held at Elbaville church Monday for Mr. Uriah (Bob) Orrell. He had been in declining health for some. Mr. Wiley Ellis Peebles was sick the past week sorry to note.

Sheffield News.

Owing to the rainy weather; farmers here have got but very little plowing done. Joe Reavis who has been very ill is improving glad to note. Wade Smith a merchant of Sheffield says he has bought and sold around four thousand rabbits this winter. J. A. Gaither a former resident of this section but now living at Harmony had the misfortune to get his foot shot very bad one day last week, while out hunting. In some way the gun was accidentally discharged, the load going through his foot. He was carried to Long's hospital at Statesville, where an operation was made on his foot, and is now getting along fine. H. G. Ijames, John Smoot and W. L. Gaither have been appointed a committee to meet and confer with the ground hog on Feb. 2nd, and thank him for his kindness toward us the past year and beg for the continuance of the same for another year. Mr. A. J. Anderson, of near Calahain, and Miss Maggie Harris, of near Cana, were united in marriage at Yalckville on Monday, Jan. 20th Rev. H. M. Vestal performing the marriage ceremony.

Society Church News.

The health of our community is very good at present. Mr. Andy M. Stroud, who has been very sick is much improved. Mr. Dolph Clary had the misfortune to lose a fine milch cow the past week. Also Mr. Eugene West lost a mule the past week. Blanche West, eleven year-old daughter of Mrs. Edna West, who accidentally broke her leg during the Christmas holidays, is getting along nicely. She will return to Long's Sanatorium this week for an X Ray and treatment. Mr. Dolph Clary was seen bridling a new cow. It's a girl. Mr. and Mrs. Jesse Wilson and son, Ervin, of Jericho community spent Sunday with Mr. and Mrs. C. A. Thorne. Miss Effie B.oe, our efficient teacher at Stroud's school, returned to duties the past week after having a light attack of flu. Mr. and Mrs. Everett Evans, of Iredell visited her parents, Mr. and Mrs. June Safriet Sunday. Mrs. Wiley West and daughters, Zeola and Bettie, spent Sunday with her father H. T. McDaniel near Kappa. Mr. Bill Jones and children and Mr. Lee West were visitors at Mr. Wiley West Sunday. Mrs. Omen Griffith and little sons, Paul and Rayford, spent the week-end with her parents, Mr. and Mrs. R. F. Gaither. On next Sunday, Sunday school will be at 1:30 in p. m., at Society church. Following this W. M. U., holds its monthly meeting. The public is cordially invited to attend.

"FLOW BOY"

The third snow of the winter visited this section last Thursday morning. The ground was covered but by afternoon most of the white mantle had disappeared.

The Churchland basketball teams played the Mocksville teams on the local court Monday evening, defeating our boys by a score of 28 to 26. The Mocksville girls defeated the Churchland girls by a score of 20 to 18.

WHAT A DIFFERENCE 90 DAYS MAKE!

TODAY A TODDLING CHICK... in 90 days a proud pullet about to lay. There's something to think about! Tiny bones and little muscles have grown several times in size... a delicate fuzz has sprouted into hundreds of feathers... a chick weighing grams has grown into a pullet weighing pounds... all in 90 short days!

A wonderful change... and only one thing can do it... good feed! This year consider Purina Startena Chow (mash) and Purina Chick Chow (scratch) or All-Mash Startena Chow for the first six weeks... and then Purina Growena and Purina Intermediate Hen Chow until your pullets are laying at 16 weeks.

Put these Chows before your chicks. You will see pullets that are built right... pullets that will lay eggs aplenty in fall and winter when eggs are always worth good money.

In making the selection of my infield for my all-star-all-time team, I am free to state that at only one position, shortstop, have I been able to reach a decision without having the slightest misgivings as to my choice.

What about Rogers Hornsby or Larry Lajoie for second? No doubt every admirer of those great players will have such a thought as he reads my infield selections.

And while no doubt second base will be more discussed than any of the other infield selections, my hardest problem was making a choice between Hal Chase and George Sisler for first base.

Hans Wagner.

Between Hal Chase and George Sisler for first base. After much erasing Sisler, got the call, yet I feel the margin of difference is extremely slight, if it really does exist.

Jimmy Collins gets the call at third base. Collins, inclined to be pudgy, a rather unusual type for a third sacker, was a marvel as a fielder.

Of the more modern players, "Pie" Traynor impressed me as one of the greatest players I had seen in action at that position.

Sport Notes

Soccer has been abandoned by the University of Iowa after a two-year revival.

Georgia Tech and Alabama have broken football relations. Tech will play Penn in Philadelphia next year.

Karl Wildermuth, Long Island sprinter, is figured to be one of the big winners in the indoor track season.

Johnny Mostil, White Sox center fielder, has been released outright to the Toledo club of the American association.

Twelve players represent a football team at colleges and universities in Canada. The twelfth man is called a "flyingwing."

University of Kansas football eleven in 1930 will have a captain for each game to be appointed by the head football coach.

Fairy Story—"I cannot tell a lie," said the young halfback, Washington, to his college coach. "At one time I bowled 22 weeks for a \$2.50 prize."

Two northwestern Minnesota county fairs last summer decided to return to horse racing instead of the automobile races, which have been staged for years.

One of Knute Rockne's celebrated football coaching courses for grid mentors will be held at Oregon State college, Corvallis, Ore., in the summer of 1930.

The late John E. Madden earned sufficient as a boxer and a foot runner in his youth to give him a start on the road that made him wealthy and famous—the turf.

The 1930 Pacific Coast league baseball season will extend over a period of 28 weeks, starting two weeks earlier than usual and continuing beyond the world series.

Three of the East's leading football stars have been elected captains of their teams next year—Hart of Colgate, Gentle of Penn, and Nemecek of New York university.

Franco Georgetti, Italian six-day bicycle racer, is well on the way to creating the greatest record of any competitor in this sport. He has already won nine of the marathon events.

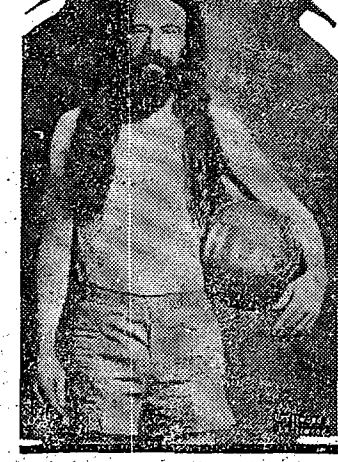

Karl Keffer, professional at the Royal Ottawa Golf club for the past 20 years, with the exception of the time he spent overseas, has been elected an honorary member of the club.

Riding a horse to two victories on the same day has been accomplished twice by Winnie O'Connor, the only jockey to boast that achievement. He did it on Sidney Lucas in 1899 and Ogden in 1901.

The New England baseball league plans to give aspiring boys who wish to play professional baseball a helping hand. Each club will carry two players who are without previous experience in organized baseball.

Harvey Rockburn of the Detroit Hockey club is the smallest defense player in the National Professional league, standing less than 5 feet 5 inches high. Lee Bourgault of the New York Rangers is only a trifle taller.

"Doc" Tally Stars

One of the big stars on the Hous of David basketball team of Benton Harbor, Mich., is "Doc" Tally who is the team's best forward.

LITTLE PRAISED FOR GRID LOVERS

Induces Football Stars to Stick on Field of Snow.

When university students carry on until mid-December an intramural football league, playing during the last two weeks on snow-covered fields and in zero temperatures, and when they enlist forty teams in an interfraternity basketball league, all games of which are played during the luncheon and dinner hours, it must be conceded that they are playing for the love of the game.

The paper read by George Little, director of physical education and athletics at Wisconsin, on "The Results of an Intramural Football Experiment at the University of Wisconsin," created a profound impression at the recent meeting of the National Association of Directors of Physical Education in New York.

Under the leadership of Director Little, Wisconsin has promoted regular football as an intramural sport for three years with remarkable success. During the season just closed twenty-eight fraternity teams, four dormitory teams and four teams in a so-called Wisconsin league, played schedules involving 152 games, in which 662 students took part.

Was the late Miller Huggins "human?" Former members of the St. Louis Cardinals will tell you that he was. A little story will indicate the point:

It was against the rules for the Cardinal team to rattle the bones, but some of the athletes would take a chance on most anything.

On a train bearing the Cards east Charley O'Leary, Pol Perritt, Harry Sallee and Frank Snyder decided to start a "crap" game. "Better pipe down," said Sid Keener, a traveling correspondent, "or Hug will hear you."

Just then Huggins stepped into the smoking compartment as Slim Sallee shoved out an eleven.

"If that's your shot," cracked Miller, "I'll top it with \$100 apiece for you, Sal and Polly, Pancho and Snyder."

The next Christmas each one of the four received a letter from the St. Louis club. Inclosed was a check for \$100.

Some of these basketball coaches also do their part toward adding to the gaiety of the nations.

After some awkward back guard has hauled off and hoisted the ball in the general direction of the skylight, only to have it fall through the loop just as the gun sounds to give his team a one-point victory, the coach explains that he "sent in a little forward to dribble around 'em, and told the back guard to say 'King's X' every time they shot, and we foxed them."

There is no luck in the game, from some of the coaches' point of view, except when they lose.

One coach who had a quintet of string beans last year used to instruct the officials before the game: "Now, I want you to call 'em right tonight. You want to watch out that my big men can't be guarded by those little fellows without being fouled."

This year little roly-polles himself, and his song-and-dance to the officials before the game goes: "Now, I want you to call 'em right tonight. You want to watch out, as my little men are so fast they can't be guarded by those big fellows without being fouled."

Proving that there are two sides to every argument, if you are smart enough to figure them out.

Aside from the fact that St. Mary's college of San Francisco failed to land on the schedule of either Stanford or Southern California for 1930, one of the high lights of the recent Pacific conference meeting is the plethora of intersectional games that will be staged this fall.

Stanford leads with two, playing Minnesota at Minneapolis, and Dartmouth at Palo Alto. Oregon State meets West Virginia at Chicago November 27. Oregon goes to Chicago for the night game with Drake October 4. Southern California has its customary game with Notre Dame at Los Angeles December 6.

One of the features of winter sport in Sweden is a new 60-mile ski slide. When they start you on your way, you're practically deported.

A strange football field is in use at Chattanooga, Tenn. The "gridiron" is only 60 yards in length instead of the regulation 100, and when the ball has been pushed over the goal line, instead of a touchdown being scored it is taken back to the 40-yard line and an effort made to repeat.

Revenge Apt to Recoil on Innocent Bystander

Here is one of those things. A liner coming into New York harbor in a fog sank a freight car ferry. The liner, later going out of New York in fine clear weather and keeping strictly in the channel, scraped her bottom on an obstruction, had to put back and was delayed on her journey.

Investigation showed that those cantankerous freight cars had been lying in ambush to get even with that liner. Among the losses incurred by the delay was one to shippers of \$6,000,000 in gold to France. The gold arrived a day late and the interest at 6 per cent amounted to about \$1,000.

Which shows that those who set out to get revenge are very apt to hurt the innocent bystander. The episode also is a striking instance of the well-known perversity of inanimate objects, the commonest example of which is the collar button that always rolls under the bureau just as the little woman is calling up stairs. "For goodness sake hurry or you'll miss the first picture!"

Honor Comes Too Late to Interest Inventor

If there was ever an unfortunate inventor it was old Jim Fitch, the genius of Philadelphia, who plied the Delaware river in a steamboat of his own design and construction 22 years before the Fulton effort on the Hudson. Fitch spent years in working out his idea and did it with a considerable degree of success, but he was a very humble member of society, given to minor spells of self-indulgence, so that he was never taken seriously by anyone and no hand was raised to help him.

Queer Thing
Richard E. Enright, former police commissioner of New York, said in a discussion of the prison system: "Reformatories, too, leave much to be desired. I was once talking to a penologist about a celebrated reformatory. The penologist said solemnly: "A very queer thing happened to an inmate of that reformatory back in 1908." "What happened to him?" said L. "He reformed," said the penologist.

What the Gray House Hid

The Mystery of a Haunted Mansion by Wyndham Martyn

THE STORY
Hilton Hanby, prosperous New York merchant, has purchased a country place—the Gray house, near Pine Plains, Miss Selens, a former tenant of the Gray house, calls at his office and warns him that the house is under a curse. Further alarming details are impressed upon Adolf Smucker, Hanby's secretary, by a man who claims to have been chauffeur for Sir Stanford Seymour, former occupant of the place. The Hanbys laugh off the warnings they have received both from Miss Selens and from Smucker's acquaintance, as some form of practical joke. But they are shocked when they hear that the caretaker whom they have put in charge of the Gray house, a man named Kerr, has been mysteriously murdered. Hanby consults his friend Pelham.

CHAPTER III

At the real-estate offices of Douglas & Smith, Pelham was referred by Douglas, whom he knew, to a Mr. Appleton.
"Appleton will tell you everything," said Douglas. "He has an amazing memory for details, and a great affection for the Gray house. Come in my office when you're through."
Frederick Appleton was a small, plump man of sixty. He had a distinguished conservatism in dress, a cold complexion, and blue eyes which looked more than usually large owing to the thickness and power of the lenses he wore. After a little preliminary talk, Pelham judged him to be one of those men in relatively important offices who bring to their desks a certain not unpleasant pomposity.
"I have in this book," said Mr. Appleton, pointing to a ledger, "a complete record of the tenants and the expenses of the Gray house for almost thirty-five years. Here you will find the cost of the upkeep of house, grounds, and stables. In my head I have many facts concerning the people who have resided there, which would be out of place in the books of a strictly business firm."
"I take it, then," said Pelham, "that you have an unusual interest in mankind?"
Mr. Appleton's shrewd but kindly face beamed.
"We see a great deal more in this line of work than you would suppose. Oh, dear me, yes! Do I understand that Mr. Hanby desires information about the place?"
"Yes, and Mr. Douglas said that you could tell me everything. He is a close personal friend of Mr. Hanby."
Mr. Appleton's eyes grew a little wider.
"So I inferred from the fact that the sale was not made through me. I knew that Mr. Hanby was interested in the Gray house, but I admit being staggered when Mr. Douglas made the announcement that it was sold."
It was clear to Pelham that the other man was chagrined. No doubt it was the allowable annoyance of an old and trusted employee, who, having been consulted for so long, is suddenly left out of the firm's confidence in the sale of a property.
"Not that I am criticizing Mr. Douglas," the other went on. "Oh, dear me, no! His manner was brisk and cheerful again. 'What can I do for you, Mr. Pelham?'"
"Did you ever know a Miss Selens?"
"She occupied the Gray house for three years. I remember her well. Poor lady, she loathed and despised me, particularly your humble servant. We had to evict her for non-payment of rent. She had ample warning, but we had to call the sheriff. May I ask how you know her?"
"She called on Mr. Hanby and threatened him with all sorts of wild retributions if he did not sell the place to her."
There was no doubt about Mr. Appleton's interest now.
"I can quite believe it," he said. "I remember that when we put her out she said that I should be dead within the year. I may say that my good wife was very much relieved when the twelvemonth had passed. I hear that she has at last inherited the great Selens fortune. They were rich and poor for many years."
"You think she's not normal?"
"Insanity in the family," said Appleton firmly. "The things she said to me were most indicative, and could only be explained by madness of a hereditary type." The speaker hesitated for a moment. "I suppose she did not mention my name?"
"I think not. I suppose you remember Mr. Seymour?"
"Now Sir Stanford Seymour. Oh, dear me, yes! I ventured to call upon him when in England two years ago. The tragedy had left his mark

at its deepest part. The Seymour boys were fishing from it when it gave way. I rather think the Norton children were found near there, too."
Appleton turned to the estimate.
"You see, Mr. Pelham, these tragedies might have been averted if the owner had seen fit to expend sixty-four dollars and eighteen cents. It was owing to my influence that the lake was completely filled in, and the stream feeding it was diverted to the lower lake. Instead of five acres of water filled with stumps, which made fishing difficult, Mr. Hanby has now a twenty-acre lake with good bass and trout in it and not a pickered to do damage. I have fished there every year, and I know. I wonder if Mr. Hanby would extend the courtesy to me?"
"I'll answer for him," said Pelham. "I'm a fisherman myself. Thank you for what you've told me."
"Well?" Douglas asked, a little later. "Get what you wanted?"
"And more," said Pelham. "The Gray house has a dismal atmosphere about it, to my way of thinking. Appleton seems to think that for less than sixty-five dollars all those lives might have been saved."
"I think he's right," said the other. "The old lake was within a few yards of the house, and very deep. It was too much of a temptation to children. The banks were steep, too, as I recall them."
"Then you don't believe in the curse theory?"
Douglas lit a cigar before answering Pelham's question.
"In my office, during business hours, the idea seems silly; but sometimes, when I can't sleep at night, I'm not so sure. I've Highland blood in my veins, remember, and race memories of haunted houses, and curses that descend from generation to generation. Don't ask me, Bill."
"You give me the same sort of comfort that Appleton does. He tells me what curdles my blood, and then explains it all away by a carpenter's estimate that missed the mark."
It was not a very comfortable motor trip for the Hanbys. When Junior drove, his father thanked God that his will was made and his affairs were in order. When Hanby was at the wheel, his son struggled between a feeling of pride that his present still had his nerve left, and a fear that never again would he tread the campus at New Haven.
"Corking road!" Junior commented, when Pine Plains was in sight.
"Was it a road?" his father demanded. "I'm relieved to know that. I thought it was a race track."
"Where's the Gray house?"
"We passed it on the last lap."
"You might have pointed it out to me," remarked young Hanby.
"Why? I thought, as we went by, that neither of us would ever have the opportunity to inhabit it."
Junior laughed.
"This old bus can certainly clip off the milestones!"
"Don't boast. You only scratched the one you hit."
"It beats me," his son remarked philosophically. "Why cows don't know their own minds. I didn't dream that beast was going to give us a race."
"Slow down, Junior!" his sire commanded. "We've got to stand well in this community."
Hilton Hanby stepped from the car, to be greeted by the local police chief and an officer from Kingston.
"This is my son, Sherlock Gaborian Hanby," he said. "Is the inquest over?"
"Yes," said the local man. "I wish you'd been here before."
"Any clew to the murderer?" Junior asked.
"Not a one."
Junior smiled. He knew exactly how it would be.
"But there's a mighty interesting development. This fellow Kerr, wasn't he at all. He had a whole string of aliases. We finger-printed him, and fitted the right name to him. Your caretaker, Mr. Hanby, was Red Chapin, wanted for 'most everything up to murder.'"
"That's interesting," Hanby exclaimed. "A murderer murdered?"
He was not pleased to think that such a man had been in his employ, although engaged by an agent.
"His references was stolen from some Spanish war veteran named Kerr. We'll find out all about it soon. Also he had Kerr's discharge papers and a medal. Want to look at him, sir?"
"Not on your life!" said Hanby, who detested morbid things.
"I'd like to," Junior suggested.

ate and sympathetic. "I am not a believer in haunted houses. I try to be skeptical in such matters, but there seems to be a strange fate about the Gray house. It always takes toll of the young and happy. Those Seymour children, for example—high-bred, strong, happy boys who could swim excellently; yet they are dead, and at Sir Stanford's death his title goes to a distant cousin. Then the Norton children, three girls and a boy—the lake got them, too. I tell myself it was a coincidence. Perhaps! Perhaps!" His manner grew more confidential. "Tell me, Mr. Pelham, did you ever hear such a chain of coincidences as that?"
"It's most disturbing news," admitted Pelham.
"It seems to me," said the other, "that if these unhappy facts were duly brought to Mr. Hanby's notice, he could not disregard them. No doubt Miss Selens's manner annoyed him, and he disregarded her story on that account; yet—Appleton tapped the big ledger—"the facts are all down here in my own handwriting."
"I'm afraid whatever I said would make him all the more determined to do. He is a skeptic, and opposition makes him ready to fight. I don't think anything would make him give it up."
"I have done my duty, then," said Appleton briskly. "No doubt he is right, and these deaths were due to lack of care. I have here a letter, with estimate inclosed, from a Pine Plains carpenter, who agreed to put the rustic bridge in order. That

pean countries got their numerals from Arabia in the Twelfth century. It proved popular right away and teachers of the new system were in great demand. Trade and industry, so long dammed up by a lack of any simple method of keeping accounts or doing business with persons at a distance, sprang into life—and the Commercial era was born.—Detroit News.

Pit Pony's Wisdom

In the old workings of a Rhondda Valley mine, in Wales, a pony hauling its coal wagon suddenly dug his heels in and refused to budge. While the miner with it was vainly trying to coax it to go on, a big piece of rock fell with a crash in front of them.

Commerce Boomed by Methods of Counting

For ages even the most intelligent men could count only to ten or twenty, the number of their fingers and toes. Then sticks and stone counters were laid in rows to indicate and compute numbers involved in barter and trade. In the earliest civilizations symbols were employed to some extent, then in Egypt they had the happy thought of drawing a picture to represent each quantity. Thus, a frog equaled 100,000 and a man with arms outstretched in admiration signified 10,000,000. The Greek and Roman systems of letters for numerals were considered a great advance, but only the most learned could do any adding or subtracting with them. The decimal system was brought by an ambassador from India into Arabia in 778 A. D., and Euro-

Lesson for February 2

PUTTING GOD'S KINGDOM FIRST

LESSON TEXT—Matthew 6:1-24 (Print vv. 5-13, 19-21, 31-33).
GOLDEN TEXT—Seek ye first the Kingdom of God, and His righteousness; and all these things shall be added unto you.
PRIMARY TOPIC—Being True to Jesus.
JUNIOR TOPIC—Being Loyal to Jesus.
INTERMEDIATE AND SENIOR TOPIC—Being Loyal to Christ.
YOUNG PEOPLE AND ADULT TOPIC—Putting First Things First.

Having set forth in the previous chapter the standards of the kingdom, Jesus now exhibits the underlying principles which control the subjects of the kingdom.
I. As to Giving (vv. 1-4).
Alms were not to be given before men to be seen of them. Doing alms before men is not condemned as that would contradict Matthew 5:16, but the doing of them before men to be seen of them. To seek publicity in doing our alms is to miss the reward of our heavenly Father. The true child of the kingdom will seek privacy in doing righteousness, that he may have the open reward of the Father.
II. As to Praying (vv. 5-15).
1. False prayer (vv. 5, 7). This consists in (1) Praying to be seen and heard of men (v. 5). Many of the prayers uttered in public are false, for there is more thought of what the people think than of what God thinks. (2) Using vain repetitions (v. 7). This does not mean that we should ask but once for a given thing. We have examples of Christ and Paul praying three times for the same thing (Matt. 26:39-46; II Cor. 12:7, 8). It means the using of meaningless repetitions. The reason is, "Your Father knoweth what things ye have need of before ye ask Him."
2. True prayer (v. 6). Since prayer is a transaction of the soul with God, there should be a real desire for fellowship with Him which moves one to meet Him in the secret place.
3. The model prayer (vv. 9-15). This involves (1) Right relationship—"Our Father" (v. 9). (2) Right attitude—"Hallowed be thy name" (vv. 9, 10). (3) Right spirit—"Give us our daily bread, forgive us our sins, lead us not into temptation" (vv. 11-13).
III. As to Fasting (vv. 16-18). The true reason for fasting is to be found in the opportunity it gives for a clear vision of God. Those who have thus seen God will make it manifest in a joyful countenance.
IV. As to Earthly Riches (vv. 19-24). The Lord knew the temptations which would befall His children in their earthly pilgrimage and the anxiety to which it would lead; therefore He set forth the proper attitude toward them.
1. The nature of earthly riches (vv. 19-21). (1) Uncertain (vv. 19, 20). Earthly treasures corrode, or are taken from us, therefore we should lay up for ourselves treasures in heaven where they are absolutely safe from corruption and from thieves. (2) Seductive (v. 21). Christ called riches deceitful (Matt. 13:22). It is not wrong to possess earthly treasures, but when earthly treasures possess us, they become a snare unto us. Excessive attention should not be given to earthly treasures.
2. The effect of earthly riches (vv. 22-24). (1) Blunt the moral and spiritual perceptions (vv. 22, 23). Those who become enamored of the things of this world soon become irresponsible to spiritual things. When the heart is laid upon earthly treasures, it is taken from God. The double eye is disastrous to spirituality. (2) They render null and void all service (v. 24). As soon as one's heart is stolen by riches, he is rendered unfit for spiritual service.
V. As to Faith in the Heavenly Father (vv. 25-34).
1. Be not anxious about food and clothing (vv. 25-34). Because (1) It shows distrust of God (v. 30). God is able to supply His children's needs. (2) It is useless (v. 31). Anxiety can bring nothing, while bringing us nothing, it weakens our service. (3) It is heathenish (v. 32). Those who have not learned to trust God may worry over temporal affairs, but those who know Him as a loving Father, will be free from care.
2. Be anxious to seek the kingdom of God and serve Him (vv. 33, 34). This means that worldly affairs should be subordinated to spiritual affairs.

Seed Thoughts

How often do we sigh for opportunities of doing good, whilst we neglect the openings of Providence in little things, which would frequently lead to the accomplishment of most important usefulness.—Crabbe.

Clean Kidneys By Drinking Lots of Water

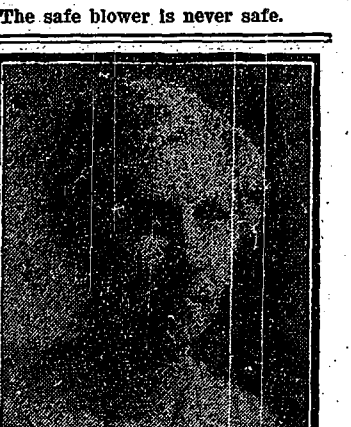

Take Salts to Flush Kidneys if Bladder Bothers or Back Hurts

Eating too much rich food may produce kidney trouble in some form, says a well-known authority, because the acids created excite the kidneys. Then they become overworked, get sluggish, clog up and cause all sorts of distress, particularly backache and misery in the kidney region, rheumatic twinges, severe headaches, acid stomach, constipation, torpid liver, sleeplessness, bladder and urinary irritation.
The moment your back hurts or kidneys aren't acting right, or if bladder bothers you, begin drinking lots of good water and also get about four ounces of Jad Salts from any good pharmacy; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will be acted upon. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for years to flush clogged kidneys and stimulate them to activity; also to neutralize the acids in the system so that they no longer irritate, thus often relieving bladder disorders.
Jad Salts cannot injure anyone; makes a delightful, effervescent lithia-water drink which millions of men and women take now and then to help keep the kidneys and urinary organs clean, thus often avoiding serious kidney disorders.

Phonograph Chords Tried
Phonograph chords are being tried in some churches in Germany, and they threaten to replace regular choirs and organists. The full-toned volume of sound is obtained by playing two records simultaneously on carefully synchronized machines, the sound being magnified by loud speakers in the organ loft.

I was nervous, could not sleep at night, and was not able to do my work. I know if it had not been for your medicine I would have been in bed most of this time and had a big doctor's bill. If women would only take your medicine they would be better."—Mrs. Anna Weaver, R. F. D. No. 2, Rose Hill, Iowa.

"Lucile is the Happiest Girl"

So many mothers nowadays talk about giving their children fruit juices, as if this were a new discovery. As a matter of fact, for over fifty years, mothers have been accomplishing results far surpassing anything you can secure from home prepared fruit juices, by using pure, wholesome California Fig Syrup, which is prepared under the most exacting laboratory supervision from ripe California Figs, richest of all fruits in laxative and nourishing properties.

It's marvelous to see how bilious, weak, feverish, sallow, constipated, under-nourished children respond to its gentle influence; how their breath clears up, color flames in their cheeks, and they become sturdy, playful, energetic again. A Western mother, Mrs. H. J. Stoll, Valley P. O., Nebraska, says: "My little daughter, Roma Lucile, was constipated from babyhood. I became worried about her and decided to give her some California Fig Syrup. It stopped her constipation quick; and the way it improved her color and made her pick up made me realize how run-down she had been. She is so sturdy and well now, and always in such good humor that neighbors say she's the happiest girl in the West."

Like all good things, California Fig Syrup is imitated, but you can always get the genuine by looking for the name "California" on the carton.

Insuring Peace "You say you're a lover of peace and then you go and throw a brick at Caesar?" "Yes, sir—an 'e were peaceful, too, after I throwed it."

LIGHTS BY GRANT DIXON OF NEW YORK

Rewards Recently I read that a Chicago gunman has been linked with so many murders that rewards for his capture total \$100,000. There are probably hundreds of detectives who make a profession of going after reward cases who are now on his trail. But some one else may capture him—a traffic policeman might arrest him for speeding, for example. And if this happens and the traffic policeman doesn't know about the rewards, he is out of luck. He might hear about the prize afterward, but in most states he could not bring suit to get the money. Not long ago in New York a taxicab chauffeur found what he thought was a string of imitation pearls. As a matter of routine he turned the pearls over to his employers, and they found the owner. The string was worth \$50,000, and a reward of \$5,000 had been posted. Since the chauffeur made no claim at the time he turned them in, he had no legal right to the \$5,000. But the overjoyed owner gave it to him anyway.

Exit Shoestringers The Wall Street crash accomplished one good thing at any rate. It drove to cover dozens of "shoestring" theatrical producers. These gentlemen, for the most part, inexperienced in the ways of the stage, rely upon "angels" to put up the money for their ventures. They are called shoestringers, because often they spend huge amounts of some one else's money. In the old days a cloak-and-suiter felt rich enough to take a flier of the stage. But now he has retreated, and Broadway is slightly safer for the real producers. But only slightly. It's an off season, and many real producers are taking vacations.

Wisecrack There is, as is usual each season, one of those half-whimsical, half-dramatic A. A. Milne plays at the tiny Charles Hopkins theater. This time it is about two very nice people, one of whom commits bigamy. All Milne people are very nice, from Winnie the Pooh on up, and the bigamy in this case is quite the right thing to do. But I am digressing. What I wanted to tell about is a line that amused me. Edith Barrett, the wife, is trying to get the attention of Henry Hull, the husband, who is reading a book. Finally she asks: "Is that one of those books that, once you have picked it up, you can't put it down?" "No," replied Hull. "It is one of those books you cannot pick up, once you have put it down."

Wrong Book The new Theatre Guild play, "Me-teor," tried out in Boston recently, with Alfred Lunt and Lynn Fontanne in the principal roles. The business of the play calls for the use of a first edition of a very rare old book. To get a copy was out of the question. So another very old book was used. One day the company received a package and a letter from a Boston bookseller. The letter explained that the writer had seen the play, and had noted that the book being used did not look like the first edition of the work it was supposed to be. "It is the wrong size," he wrote. "I am sending you another old book whose general appearance and size are closer to the original."

New Poor The recent stock market crash has put on the lists of charity organizations persons who never before had dreamed that they might be objects of charity. But a wrong slant on the situation might be got from a cartoon I saw recently, depicting a man accepting alms from a woman. "Poor fellow," said the benefactress. "Stock market, I suppose?" "No," replied the object of charity. "I was always a bum." The persons who are now asking for help are not investors and former big men of Wall Street, but such folk as artists who have lost their commissions, servants who have been let out, tutors and music teachers and the like. The family that has suffered in Wall Street goes on an economy program, and the retrenchment affects the hirelings.

Spare Parts for Dogs London.—The days when faithful dog friends, overtaken by infirmity, had to be taken to execution, have passed, according to the organizers of the National Dog show here. They state that dogs can now be fitted with artificial limbs, glass eyes and false teeth.

Baby Drowns Sailing Toy Boat in Bathub Washington.—Seventeen month-old Frank Edward Donelan's desire for more water in the bathtub in which to float his miniature sailboat, caused his death. The child was found submerged in nearly a foot of water by his mother, Mrs. Melba B. Donelan, after sounds of the baby's play had ceased. The fire department rescue squad and emergency hospital physicians worked over the body for nearly an hour before Dr. M. L. Heiges pronounced the child dead.

NABBED FOR MURDER AFTER 4-YEAR HUNT

Cappello Accused of Wanton Killing in Holdup.

Cambridge, Mass.—After more than four years of searching the law has reached out and fallen heavily on the shoulder of Jerry Cappello, twenty-four, of East Boston, charged with the murder of Edward C. Ross, bank messenger, at the Ward Baking company plant here in 1925. Cappello is charged with first degree murder, for the same crime for which Jerry Gedzium, "Jerry the Pole," was electrocuted on February 23, 1928. A third man arrested in the case, Louis Lacedra, was released because of insufficient evidence. Cappello's arrest was due to the alertness of Patrolman Hannebury and Louissnik, who took him into custody in front of his home. For four years the Cambridge police have been searching for Cappello, making several trips to Maine, New Hampshire and Vermont on the case during the last four years.

Engaged in Run Running. It was known in police circles that Cappello was running liquor from Canada, a fact which he admitted when arrested, and several traps were set in tiny towns near the Canadian border. At one time, about a year ago, police lying in ambush nearly arrested Cappello at Newport, Vt., but he got away. During the last four years he has shown an uncanny knowledge of where police traps were set and circled around them. At intervals he would make visits to East Boston haunts, where he was a familiar figure before the Cambridge murder. The police, knowing of these visits, but never being able to be at the right place at the right time, were outwitted until Cappello walked into the trap.

Cold Blooded Killing. The murder of the bank messenger and theft of the \$10,000 pay roll in front of the Ward Baking company on Albany street, was one of a long series of similar crimes that terrorized Cambridge during 1924 and 1925.

It was a needless and particularly coldblooded killing. Ross was at the wheel of the bank car as it drew up in front of the baking company with the weekly pay roll. As it stopped three men stepped up with leveled guns snarling, "Put 'em up! Put 'em up!" As they spoke they opened fire and young Ross crumpled over the wheel with a bullet in his head and another in his lung. The bandits ran to a fast car and sped away with the pay roll, amounting to \$10,275.24, which they had wrenched from Rufus A. Johnson and William H. O'Toole, bank guards. The bandits made a clean getaway, but several witnesses got a good look at them before they disappeared. It was on the testimony of those witnesses that Jerry Gedzium, known as Jerry the Pole, was later sent to the electric chair.

Canada Leads World in Production of Nickel Ottawa, Ont.—Canada is the "little giant" among the world's producing nations. Although possessing only about one-half of one per cent of the world's population, the Dominion produces many important commodities in large quantities. Canada produces 90 per cent of the world's nickel supply and 15 per cent of the world's wood pulp. Canada gives the world about 10 per cent of its oats, 9 per cent of its wheat, and nearly 10 per cent of its gold and silver.

More than 1/16 per cent of the world's known coal resources are located in Canada. It has greater asbestos and nickel deposits than any other country in the world, and ranks third in the production of gold. The Dominion ranks eighth among the countries of the world as a producer of cheese and fifth as a producer of butter.

Game Wardens Puzzled, Bird Flies to Doom

Provo, Utah.—Going out and stalking the elusive pheasant is one way of obtaining a meal; sitting in your kitchen and waiting for a bird to fly in your window is another. Mrs. H. S. Pyne believes the watchful waiting act is more comfortable if not just as sure as the stalking. She had hunted pheasants a few times, but without any luck. She sat in her kitchen and a beautiful big male bird crashed through the window and landed at her feet. She picked up the bird, plucked it and cooked it. Game wardens were at a loss how to deal with the case, as the bird was obtained out of season. None of the state laws, however, provide for the treatment of birds who crash through one's window.

Man Carries Piece of Wire in Eye for 10 Years

Lewiston, Idaho.—An operation under the right eyeball of Frank Horak, disclosed a bit of wire that had been embedded there for ten years. Horak lost the sight of his right eye when struck by a wire whip ten years ago. He thought the injury had developed a tumor, and recently the spot started gaining him. The operation and discovery followed.

TRY TO DISCOVER EFFECT OF RADIUM

Health Bureau Makes Study of Factory Workers.

Washington, D. C.—Studies to determine the effects upon workers of exposure to radium rays have been extended to the Midwest by the United States public health service. More than 200 women clock factory employees in the vicinity of New York already have been examined by scientific investigators of the service. Using especially developed apparatus, the investigators have subjected each worker to a searching examination that is expected after X-ray plates have been developed, to disclose the slightest trace of radium.

It will require several months, Dr. L. R. Thompson, who is directing the inquiry for the health service, said, to complete study of the plates obtained by the field workers and prepare the results of their study for publication. The study is the most exhaustive ever undertaken to determine how radium rays affect workers who come into intimate contact with them. Five New Jersey women and a number of workers elsewhere have been stricken after exposure to radium rays in clock factories and several deaths have resulted.

Doctor Thompson explained the health service has decided to expand its inquiry to Illinois in order to obtain data that will be as complete as possible. Results of the survey are expected to be of invaluable aid to science in the future. Women workers in clock factories whom the investigation discloses to be infected with the penetrating radium rays will be removed to other employment. Results of the study are expected also to clarify the dispute between scientists over whether radium rays are harmful.

Mexican Slain in Fight Over Fifty Cent Fee

Tia Juana, Mex.—Fifty cents caused the slaying of Francisco Guzman, operator of a picnic park near here, the wounding of his wife and the severe beating of their three-month-old baby. Two men and an attractive woman started to drive from the park without paying the usual 50 cent fee after being there several hours and drinking a keg of beer. Guzman and one of the men came to blows in the resulting argument. While they were fighting, the second man shot Guzman to death and wounded his wife in the leg. The baby in Mrs. Guzman's arms was hit several times when the mother tried to force her way between the fighters. The three, believed to be Americans, escaped over the border into California before the affray became known.

Vigilante Will Permit Robbers to Go Own Way

Fond du Lac, Wis.—The Fond du Lac vigilantes organization which protects banks from roving gangsters is short one member of its original quota. When roll call was taken, at the first mobilization and inspection, the absent member sent the following note to the commanding officer: "My wife said I should leave guns alone and let bank robbers do their molesting, if any, without interference on my part. Furthermore, the good woman says that the place for a home loving husband is at home, not cursing around the country looking for these bank robbers." His resignation was accepted.

Chinese Counterfeiters Caught Making U. S. Coins

Peiping.—The Chinese police have discovered a gang of Chinese counterfeiters here who were engaged in manufacturing American gold coins. Four of the leaders have been arrested, and their apparatus confiscated. The police state that the counterfeit coins were not good enough to deceive Americans, but that a number of them had been passed successfully upon Chinese banks and exchange shops.

Life Insurance Popular

Ottawa, Ont.—Canadians carry more life insurance than any other people in the world with the single exception of residents of the United States. Approximately \$650 worth of insurance is carried for every man, woman and child in the Dominion as against \$750 per head of population in the United States.

Timber Wolf Becomes Pal of Michigan Man

Traverse City, Mich.—Mark Crow, Traverse City conservation officer, has successfully tamed a young timber wolf. The wolf, taken by Crow while a pup and nursed from a bottle, answers his master's call like a dog, and follows him about the house. It eats meat from a platter, and is glad to accept the warmth and comfort of a pillow. Also, it is gentle in temperament. Man has never been fortunate in his experiment with the wolf, and Crow is wondering whether his pet will prove the exception to the rule, or revert to type when it becomes older.

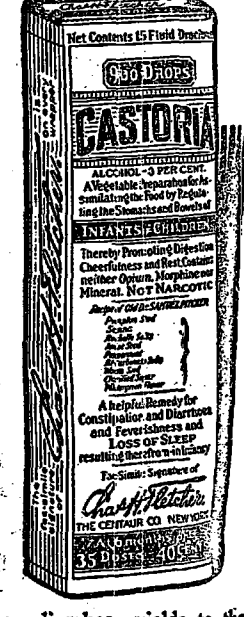

Any COLD

That cold may lead to something serious, if neglected! The time to do something for it is now. Don't wait until it develops into bronchitis. Take two or three tablets of Bayer Aspirin as soon as you feel a cold coming on. Or as soon as possible after it starts, Bayer Aspirin will head off or relieve the aching and feverish feeling—will stop the headache. And if your throat is affected, dissolve two or three tablets in a quarter-glassful of warm water, and gargle. This quickly soothes a sore throat and reduces inflammation and infection. Read proven directions for neuralgia, for rheumatism and other aches and pains. Genuine Bayer Aspirin is harmless to the heart.

BAYER ASPIRIN

Aspirin is the trade mark of Bayer Manufacture of Monacetaicacidester of Salicylic Acid! When an old bachelor says he was cut out to be a bachelor, he under-stands himself. Mush and milk parties should be given to popularize that neglected dish.

The upsets of Children

All children are subject to little upsets. They come at unexpected times. They seem twice as serious in the dead of night. But there's one form of comfort on which a mother can always rely; good old Castoria. This pure vegetable preparation can't harm the tiniest infant. Yet mild as it is, it soothes a restless, fretful baby like nothing else. Its quick relief soon sees the youngster comfortable once more, back to sleep. Even an attack of colic, or diarrhea, yields to the soothing influence of Castoria. Keep Castoria in mind, and keep a bottle in the house—always. Give a few drops to any child whose tongue is coated, or whose breath is bad. Continue with Castoria until the child is grown. Every drugstore has Castoria; the genuine has Chas. H. Fletcher's signature on the wrapper.

Make enemies if you have to, but a man who makes unnecessary ones is foolish.

How A College Athlete Keeps Himself Well

Bob Deming of Colgate, claims that a sensible method of health has really made life a pleasure for him. Mr. Deming writes that at first he could not believe this simple thing was the cause of his buoyant spirits. Finally, however, he had to admit that it was Nujol which was keeping him well, besides giving him, as he says, "five times the vitality."

The whole story. He is right in believing that Nujol contains no drugs, no medicines of any kind. It is tasteless and colorless as pure water. It is simply harmless in internal lubrication, which your body needs as much as any other machine. Regularly as clockwork, Nujol cleans out of your body those poisons which we all have, and which make us low in our minds, tired, headachy, and below par. The way for you to find out how much better Nujol will make you feel is to try it for a few days. You can get a bottle in a sealed package at any drug store. It costs only a few cents, but it makes you feel like a million dollars. Do you know how many thousands of people keep themselves well and happy just by using Nujol? Why shouldn't you feel well all the time? You can! Get yourself a bottle of Nujol today!

Rev. I. P. Frazier, well known Baptist preacher of Statesville, and moderator of the South Yadkin Baptist Association, died at his home in Statesville last Tuesday aged 48 years. The body was carried to Greensboro and laid to rest Wednesday. Death resulted from heart trouble, following an attack of flu and pneumonia.

Mr. B. P. Ketcham, chief train dispatcher of the Southern Railway, died at his home in Winston-Salem Thursday afternoon, following a three weeks illness of heart trouble, aged 66 years. Mr. Ketcham had many friends in this section who were saddened by his death. The body was carried to Charlottesville, Va., and laid to rest Saturday. Surviving is his widow and one brother.

James Caldwell and Charlie Wood, both colored, who claim Mooresville as their home, were arrested in Mocksville Thursday morning while selling Martin Brothers a load of Rhode Island Reds. The negroes claimed they were selling the chickens for a Mr. Alexander, living at Mt. Ulla, but both talked too much and Deputy Eaton lodged them in jail. Officers from Mooresville came to town Thursday afternoon and identified the negroes. They had stolen the chickens from Sherwood Harris, of Mooresville. Both have served terms on the Iredell chain gang. R. P. Martin became suspicious and phoned for the sheriff to come down to his store and investigate, which led to their arrest. They had sold chickens here some time ago.

the whole story. He is right in believing that Nujol contains no drugs, no medicines of any kind. It is tasteless and colorless as pure water. It is simply harmless internal lubrication, which your body needs as much as any other machine. Regularly as clock work, Nujol cleans out of your body those poisons which we all have, and which make us low in our minds, tired, headachy, and below par.
The way for you to find out how much better Nujol will make you feel is to try it for a few days. You can get a bottle in a sealed package at any drug store. It costs only a few cents, but it makes you feel like a million.
Do you know how many of people keep themselves happy just by using Nujol? Wouldn't you feel well all the you can! Get yourself a bottle today!
