Varieties of agricultural plant species which may be freely marketed in Portugal	278

LEGEND

1. The common catalogue of varieties of agricultural plant species is published in accordance with the provisions of Article 18 of Council Directive 70/457/EEC of 29 September 1970 on the common catalogue of varieties of agricultural plant species⁽¹⁾, as last amended by Directive 90/654/EEC⁽²⁾.

This catalogue lists all the varieties the seeds of which, pursuant to Articles 15 and 16 of the abovementioned Directive, are not subject — in the European Economic Community — to marketing restrictions relating to variety, except in the cases provided for in Articles 15 (2) and (7) and 19 of the abovementioned Directive.

2. The common catalogue of varieties of agricultural plant species was published for the first time on 21 July 1975⁽³⁾. This 18th edition replaces the 17th edition⁽⁴⁾. It lists the varieties which, from 31 December 1991 at the latest, are no longer subject, on the territory of the whole Community, to marketing restrictions relating to variety, except in the cases provided for in the abovementioned Directive.

3. The catalogue is subdivided according to the species covered by the Directive. Within each species, it lists the varieties in alphabetical order of their accepted varietal names. These are:

- (a) the names under which a variety is officially admitted in the Member States; pursuant to Article 9 (2) of Directive 70/457/EEC, new varieties may be admitted in a Member State only under one name. The same variety may be admitted in another Member State under a different name only justified;
- (b) The other names under which seed of the variety is still being marketed (old varieties).

For simplicity, when seeds of one variety are marketed under several names one conventional name has been chosen. As a general rule this name is the official name given to the variety in the first known country of admission. All details on the variety are classed under this name.

For the other varietal names reference is simply made to the relevant conventional name.

4. The catalogue comprises three columns:

— *column 1* 'Variety'

— *column 2* 'Country of admission'

(this column is subdivided into 12 headings, listing the Member States in the order of the abbreviations of the international code used for motor vehicles⁽⁵⁾).

— *column 3* 'Observations'.

Column 1 lists all the varietal names in alphabetical order. For conventional names the information relating to the varieties is given over the three columns in the manner explained in paragraph 5.

For the other names reference is made in column 3 to the conventional name as shown in the following example:

BETA VULGARIS L.

1	2	3
Megapoly		= Kawemegapoly

5. In the case of conventional names the three columns contain the following information referring to the variety:

5.1. *Column 1*

Immediately below the conventional name, the other names of the variety by which it has been officially admitted in Member States are repeated in alphabetical order preceded by a dash, only one per country of admission being given.

For names of varieties not covered see 5.3.

5.2. *Column 2*

- An asterisk appears under the heading for each Member State having officially admitted a variety.
- Where admission is restricted in such a way that seeds are to be marketed in other States, the asterisk appears in brackets.

D = Germany
DK = Denmark
E = Spain
F = France
GB = United Kingdom

GR = Greece
I = Italy
IRL = Ireland
L = Luxembourg
NL = Netherlands
P = Portugal

⁽¹⁾ OJ No L 225, 12. 10. 1970, p. 1.

⁽²⁾ OJ No L 353, 17. 12. 1990, p. 48.

⁽³⁾ OJ No C 164, 21. 7. 1975, p. 1.

⁽⁴⁾ OJ No C 321 A, 21. 12. 1990, p. 1.

- In most cases the asterisk is followed by a number. This number indicates the person responsible for maintenance of the variety in the country of admission. The names corresponding to these numbers are contained in the Annex entitled 'List of names of the person or persons responsible for maintenance breeding and the authority holding the list of names of such persons'.
- Where an 'x' replaces this number it means that there are several persons considered as responsible for maintenance by the country of admission. Their names may be obtained from the authority indicated in the Annex for the Member State concerned.
- Where the number or 'x' is underlined it means that the persons concerned are also responsible for the variety for other countries of admission under whose headings an asterisk appears without a number or an 'x'.
- The abovementioned notes are given on the line corresponding to the name under which the variety has been officially admitted in the Member State concerned (see 5.1).

5.3. Column 3

Information of the following kinds is given in this column:

- Ploidy of the variety is indicated by the letters 'D' (diploid), 'P' (polyloid) or 'T' (tetraploid).
- The ploidy of both seed-bearing and pollen-shedding components of seed-producing crops of sugar and fodder beet is established as follows:

(1) 2 n	Diploid without male sterility
(2) 2 n × 2 n	Male sterile diploid with a male diploid
(3) 4 n × 2 n	Male sterile tetraploid with a male diploid
(4) 2 n × 4 n	Male sterile diploid with a male tetraploid
(5) 2 n × (2 n + 4 n)	Male sterile diploid with a male anisoploid

(6) 4 n Tetraploid without male sterility

(7) 2 n + 4 n Diploid and tetraploid without male sterility

- The monogerm and multigerm are indicated respectively by the letters 'm' and 'M'.
- Hybrid varieties are indicated by the letter 'H'.
- Names not covered by point 5.1 are given in alphabetical order followed by the abbreviation for the Member State in which the name is used.
- Where several varieties of the same species carry the same name they are indicated by roman numerals in parentheses.
- A name no longer permitted under the provisions of point 3 above or which has been corrected, but listed in the previous editions of this catalogue, is indicated for information only, preceded by the abbreviation 'ant'.
- Authorizations to prohibit the marketing of seed of a given variety (see Article 15 (2) or Article 19 of the Directive) are indicated by an 'ex' followed by the abbreviation of the Member State and date of the authorization; if this authorization is limitative, the letters 'lim' appear.
- Where, for a Member State, the period during which seeds and plants are still subject to marketing restrictions relating to certain varieties has been extended (Article 15 (7) of the Directive), the date on which the extension ceases is given, followed by the abbreviation for the Member State concerned.
- Where a variety is deleted from the catalogue and a period for certification, checking and marketing of seed is allowed under Article 14 (2) of Directive 70/457/EEC, the duration of that period shall be indicated by the date of expiry preceded by the letter 'f'.

6. Modifications in the text compared with the previous edition are printed in bold type.

(1) En principio comunicado por el primer país de admisión. Los valores, en principio, han sido calculados según el sistema de clasificación FAO. Cuando se indica con un asterisco(*), se han calculado según un sistema nacional de clasificación. Los — que van subrayados están comprendidos en una horquilla de 50 (ejemplo: 200 = 200 a 250).

(1) Som meddelt af det første land, i hvilket en sort er tilladt. Principielt er de anførte værdier beregnet i henhold til FAO-klassificeringssystemet, men hvor en stjerne (*) er anført, er værdien efter et nationalt klassificeringssystem.

(1) Grundsätzlich vom ersten Zulassungsland mitgeteilt. Die Werte sind grundsätzlich nach dem FAO-Klassifizierungssystem errechnet worden. Soweit sie mit einem Sternchen (*) gekennzeichnet sind, wurden sie nach einem nationalen Klassifizierungssystem errechnet.

(1) Βασικά έχει ανακοινωθεί από την πρώτη χώρα αποδοχής. Οι αξίες έχουν βασικά υπολογισθεί σύμφωνα με το σύστημα κατατάξεως ΟΤΓ. Όπου υπάρχει αστερίσκος(*) έχουν υπολογισθεί σύμφωνα με το εθνικό σύστημα κατατάξεως.

(1) In principle communicated by the first country of admission. The values have, in principle, been calculated according to the FAO classification system. Where indicated by an asterisk(*), they have been calculated according to a national classification system.

(1) En principe communiqué par le premier pays d'admission. Les valeurs ont été en principe calculées selon le système FAO de classification. Toutefois celles marquées d'un astérisque (*) ont été calculées selon un système national de classification. Celles soulignées sont comprises dans une fourchette de 50 (ex: 200 = 200 à 250).

(1) Di regola comunicato dal primo paese d'ammissione. I valori sono stati teoricamente calcolati secondo il sistema FAO. Tuttavia quelle segnate con un asterisco (*) sono stati calcolati secondo un sistema nazionale di classificazione. Quelli sottolineati sono compresi in un intervallo di 50 (es: 200 = 200 a 250).

(1) In principe medegedeeld door het eerste land van toelating. De getallen zijn, in principe, berekend volgens het FAO-systeem van indeling. Indien gemerkt met een sterretje (*), zijn zij berekend volgens een nationaal systeem van indeling.

(2) S = Híbrido simple; Enkelthybrid; Einfachhybride; Άπλό υβρίδιο; Simple hybrid; Hybride simple; Ibrido semplice; Enkele hybride; Híbrido simples. D = Híbrido doble; Doppelthybrid; Doppelhybride; Διπλό υβρίδιο; Double hybrid; Hybride double; Ibrido doppio; Dubbele hybride.
