FLOWERING ANNUALS & GREENERY

ABUTILON (Flowering Maple, Indian Mallow)

A semi-tropical shrub or small tree that is perfect for containers and window boxes---the drooping, bell-shaped flowers will cascade over the edges all summer. They grow very quickly over the summer. Green maple-like leaves. Can also be grown indoors.

hybridum 'Chinese Lantern' ☀🌑 12-24'H

Flower color can be orange, red, yellow or white. These large plants are great for large patio pots.

NEW 'Giant' hybrids ☀🌑🐦 24'H

Clusters of huge single blooms. Wide mix of colors. This flower is excellent at attracting hummingbirds.

All 5" pots

AGAPANTHUS

This plant is known as a landscape staple in warm-winter regions. It's easy to grow and produces huge amounts of blue or white trumpet shaped flowers in summer and fall. Its leaves also add texture to beds, borders, and containers.

'Baby Pete' ☀🌑 12-15"H

Blooms earlier than others. Masses of blue flowers.

Large Milaeger pot price as marked

AGASTACHE

A compact and fragrant plant bearing spikes of tubular flowers though the fall. This is a heat and drought tolerant plant that produces a mild licorice fragrance. Great for mixed borders, containers or hummingbird gardens.

'Sunrise' Series ☀🦋🪴 18-24"H

Large, showy flowers. Lemon scented foliage.

- Blue bright blue

- Orange apricot-orange

- Red

All 5" pots

AGERATUM (Flossflower)

A. houstonianum

Clusters of fuzzy heads bloom all summer. Shorter varieties are compact and vigorous---use them for edging, containers, or massing. The taller ones make great cuts. All thrive in rich, well-drained soil.

'Aloha Blue' ☀️ 🌿 🪄 🪴 6"H

Small lavender-blue flowers have a puffy appearance. (6 pack)

'Blue Horizon' ☀️ 🌿 🪄 🪴 18-24"H

Abundant mid-blue flowers in 3¼" clusters. Larger flowers than a traditional ageratum. Does well in containers as well as in the ground. Tall, vigorous plants with sturdy stems. This is by far the best variety for cutting. (6 pack)

photo courtesy of Proven Winners®

'Artist Blue' ☀️ 🌿 🪄 🪴 8-12"H

A Proven Winners® selection. Vibrant purple-blue button-shaped flowers. Deadheading is encouraged for ideal blooms but is not necessary. 5" pot

ALLAMANDA (Golden Trumpet)

A. cathartica compacta schottii ☀️ 6'H

From tropical South America. Simple leaves and large, trumpet shaped yellow flowers, each with five broad petal lobes. Spiny seed capsules follow flowers. Great for large containers on the patio or in the garden for a tall tropical effect. Strong growing.

CALADIUM

Araceae hortulanum

Caladiums are great foliage plants that can be used alone to add interest and color around the base of trees, around mailboxes, or as edging plants. Perfect for container and garden mixed plantings. The taller types can be used as background plants. The large arrowhead-shaped leaves are lovely with ferns. They prefer at least partial shade. However, Milaeger's has selected the varieties that are the most sun tolerant.

CALIBRACHOA (Million Bells, Superbells)

Calibrachoa was first brought to Europe in the early 19th century but has only recently become widely available. It blooms so prolifically, one can hardly see the leaves. It is closely related to the petunia, and its cultural requirements are similar. It likes mostly sun and benefits from regular fertilization. If the leaves begin to fade, try using a soil acidifier.

'Bloomtastic' series ☀️🪴🌿🌱🪴

CANNA (Canna Lily, Indian Shot)

C. x generalis

A classic plant that is seeing renewed interest due to the many new hybrids. Enormous flowers are held well above the lush, exotic leaves. Dramatic in garden beds, or as a feature patio plant, and even growing indoors. Perfect for creating a tropical look. Likes well-drained soil with organic matter. After frost in fall, dig and store the roots in a basement.

'Cannova' series ☀️🌙 32-36"H

Large tropical flowers. The Cannova is unique in that it features Cannas that are able to grow in cooler, lower-light conditions. These plants also grow more uniform and bloom quicker than other open pollinated cannas. Even when not in bloom their large, banana-like leaves and shoots make them a beautiful addition to any garden. Attracts pollinators. Ideal for wet areas or pond-side.

All 5" pots

DAHLIA

From the mountainous areas of Central America. Good for containers or bedding. Excellent for cutting. Those grown for cut flowers are best grown on their own in rows where competition is minimal. Using a fertilizer with too much nitrogen causes them to grow too fast and they end up with weak stems and flopping flowers. Use a bulb food or bone meal that is high in phosphorous, especially with the large flowered varieties.

FERNS

ASPARAGUS FERN (Emerald Fern)

photo courtesy of Proven Winners®

NEW *Asparagus meyeri* (Foxtail Fern) ☀️🌙 16"H

A Proven Winners® selection. Proven Winners® describes this fun plant as weird and wonderful - and we agree! It is classified as a Fern but it is not a true Fern. Dense, tubular shaped fronds are made up of bright green needles. Tiny white flowers appear sporadically. Small, short spikes are hidden in the foliage which makes this rabbit and deer resistant. Use on their own or in containers.

Large Milaeger pot \$59.99

Asparagus sprengerii ☀️🌙 16"H

A Proven Winners® selection. A ferny plant that is a perfect choice for mixed pots. It forms a clump of slender, sometimes prickly stems clothed with thousands of thin flat branches that look like evergreen needles. It creates a diaphanous effect. Can easily be grown indoors. It tolerates drought because it stores water in fleshy tubercles on its roots, but regular watering is best.

GERANIUM (Pelargonium cultorum)

Geraniums are one of the most popular garden plants. They are unbeatable for their heat and drought tolerance, and amazing flower power. We have a wide selection of flower colors and plant types. Geraniums prefer at least 6 hours of sun and light, well-drained soil. Avoid getting the leaves and flowers wet---water at the base of the plant. For the most prolific blooming, feed regularly with an all-purpose plant food and remove spent blooms---they snap off easily at the base of the flower stem. Geraniums are a completely reliable plant for adding bright color to garden beds, baskets, and containers. The genus pelargonium is almost entirely native to South Africa.

MARIGOLD

When the Spanish explorer Cortez saw Tagetes in South America in the 1500's, he called them "marigolds". Marigolds are now among the most familiar of flowering plants. They have been widely grown and loved for generations for their bright cheery flowers and their ease of culture. They must have full to mostly sun, and well-drained soil. They flower all summer, with a strong showing just before the first hard frost in autumn. The taller varieties, especially, are good cut flowers. The shorter types are good for massing, or as accents in containers.

Flower colors range from yellow, gold, orange, red, and many bicolors. Flower size varies from under an inch to about 3" across. Some flowers are single, but most are double. The foliage is ferny, with a distinct scent.

PALMS

Assorted varieties
Priced as marked

PANSY/VIOLA

Viola x wittrockiana (Pansy)

Perfect for cooler, partly shady areas. Pansies bloom best in spring and late into fall when the weather is cooler. Use them to brighten and freshen the garden when it's too cold for other plants. Deadheading the larger faced varieties encourage prolific blooming. The edible blossoms add a beautiful flair to salads. The pansies and violas are arranged in order of flower size from smallest to largest.

'Penny Jump-Up' viola series ☀️🌙🐛🪴 4-6"H

Neat and compact in the garden, yet strong enough to tolerate heat and cold better than standard violas. Charming in pots, along walks, and for bedding.

- **Blue** Blue petals with yellow centers (4 pack)
- **Orange** Maroon upper/orange lower. (4 pack)

- **Peach** Purple upper petals and peach lower petals with purple whiskers (4 pack)

- **Primrose Picotee** Yellow flowers with purple picotee edging (4 pack)

PETUNIA

Petunias have enjoyed great popularity ever since Milaeger's opened. They are among the heaviest blooming of all annuals. They come in a wide variety of color. The flowers can be single or double, and vary in size from about 2" to nearly 5" wide. Easy to grow. They can be planted as early as the start of May since they are quite cold tolerant. They have a wide range of uses---baskets, pots, and as bedding plants. Petunias are heavy bloomers and heavy feeders - fertilize regularly. Plant about 10-15" apart when using as bedding. They do best in full sun. Allow them to dry out between waterings.

(Trailing) (6 Pack)

- **Carminé Velour** (6 pack)
- **Purple Classic** (6 pack)

(Spreading and Mounding)

'Tidal Wave' series  16-22"H

'Tidal Wave' has a growth habit based on how closely the plants are spaced in the garden---the closer the spacing, the taller the plant. When spaced a minimum of 12" apart, it forms a dense, mounded hedge from 8-22" tall. Grown in a limited area with support, it grows an extra 24-36" tall, like a vine. If given plenty of room, it makes a blooming groundcover, about 24-36" per plant, they can grow up to 5' wide. Great recovery from rain damage.

- **Hot Pink** slightly taller (6 pack)
- **Red Velour** (6 pack)
- **Silver** (6 pack)

(Grandiflora)

SNAPDRAGON

Antirrhinum majus

Snapdragons bloom all summer with spikes of flowers that make wonderful cut bouquets. They are very heat tolerant. The taller varieties occasionally need some light staking---if they are pinched when young, they will have heavier branching, a stockier habit, and more blooms. Use them in beds and along garden edge. The shorter varieties are ideal for containers. They also attract hummingbirds and butterflies.

'Madame Butterfly' ☀️🌿🌱🌿🌱 24-30"H

Double flowered snapdragon that has colors ranging from shades of pinks, reds and yellows. (6 pack)

'Rocket' series ☀️🌿🌱🌿🌱 30-36"H

Rapid growing results in 2.5 to 3 feet high plant. The more you trim the more you get. The flowers are fragrant and have a spicy scent. The colors vary.

STREPTOCARPELLA

saxorum 'Concord Blue' ☀️🌑 8-12"H

A Proven Winners® selection. Dainty blue flowers are complemented by fuzzy green foliage. Its size makes it an ideal candidate for hanging baskets and patio containers. Does well in the landscape. Tolerates heat but needs some shade. Can be grown indoors---treat it like an African Violet.

5" pot

STROBILANTHUS (Persian Shield)

S. dyerianus ☀️🌑 36-48"H

Outstanding as a foliage plant because of its striking pink-purple leaves that have a "metallic" finish. Too much sun will cause fading. Do not overwater.

5" pot

SUCCULENTS

Assorted habits and colors.

SUNFLOWER (Helianthus)

This easy to grow, full sun loving native of the great plains is remarkably tough and can tolerate heat and drought. Its seeds are rich in vitamins, proteins and minerals and can be toasted to enhance their flavor. Great alone or mixed with dried fruit and nuts for a healthy snack!
