**Help our little  
friends with  
Vitamin Bee!  
Let's make it a  
blooming  
season.**

Bring nature into  
balance with  
our colourful  
mums.

Bees, the guardians  
of nature...

## Our mums: **A boost for the bees.**

NL

### Dankbare bloemen.

Bijen houden van kleurrijke en geurige bloemen. Vooral gele, witte, blauwe en paarse bloemen trekken hun aandacht. Doordat chrysanten bloeien in het najaar, zijn ze dankbare bloemen voor bijen. In die tijd van het jaar vinden de beestjes namelijk nog weinig bloemen en planten die in bloei staan. Chrysanten zijn voor hen dus de ideale vitaminekuur om hun winterslaap in te gaan.

FR

### Fleurs gratifiantes.

Les abeilles aiment les fleurs odorantes, riches en couleurs et elles sont attirées particulièrement par les fleurs jaunes, blanches, bleues et violettes. Les chrysanthèmes sont des fleurs gratifiantes pour les abeilles puisqu'ils fleurissent en automne. Les abeilles trouvent, en effet, peu de fleurs et plantes en fleurs en cette saison. Les chrysanthèmes constituent donc l'idéale cure de vitamines avant qu'elles ne commencent leur hibernation.

EN

### Valuable flowers.

Bees are fond of colourful, fragrant flowers. They are particularly attracted to yellow, white, blue and purple colours. Chrysanthemums are valuable flowers for bees because they flower in the fall. At that particular time of the year, bees find few flowers and plants that are in bloom. Chrysanthemums are therefore the ideal source of vitamins for them before starting their winter hibernation.

DE

### Dankbare Blumen.

Bienen mögen bunte, duftende Blumen. Sie werden besonders von gelben, weißen, blauen und violetten Blumenfarben angezogen. Da Chrysanthemen erst im Herbst blühen, sind sie dankbare Blumen für die Bienen. In dieser Zeit des Jahres finden die Bienen nämlich nur noch wenige blühende Blumen und Pflanzen. Chrysanthemen bieten ihnen deshalb die ideale Vitaminkur, bevor sie sich in den Winterschlaf begeben.

# The importance of mums.

Bee mum

## Belangrijke rol.

Sommige mensen beschouwen bijen als vervelende beestjes, maar ze spelen wel degelijk een belangrijke rol in onze maatschappij. Daarom moeten we ze ook een handje helpen. Door de bestuiving en vruchtzetting van chrysanten -en bloemen in het algemeen- creëren ze een enorme biodiversiteit, zijn ze verantwoordelijk voor het telen van een brede waaier aan groenten en fruit én kunnen ze honing produceren.

NL

## Important role.

Some people consider bees as nasty little critters, but they definitely play an important role in our natural environment. This is why we should give them a helping hand. Through the pollination and fructification of chrysanthemums - and flowers in general - they generate a huge biodiversity. They also assist the cultivation of a wide variety of fruit and vegetable as well as producing honey.

EN

## Un rôle important.

Certaines personnes considèrent les abeilles comme ennuyeuses, mais elles jouent un rôle crucial dans notre société. C'est pourquoi nous devons leur donner un coup de main. Grâce à la pollinisation et la fructification des chrysanthèmes – et des fleurs en général –, elles créent une énorme biodiversité, elles sont responsables de la culture d'un large éventail de fruits et de légumes et elles peuvent produire du miel.

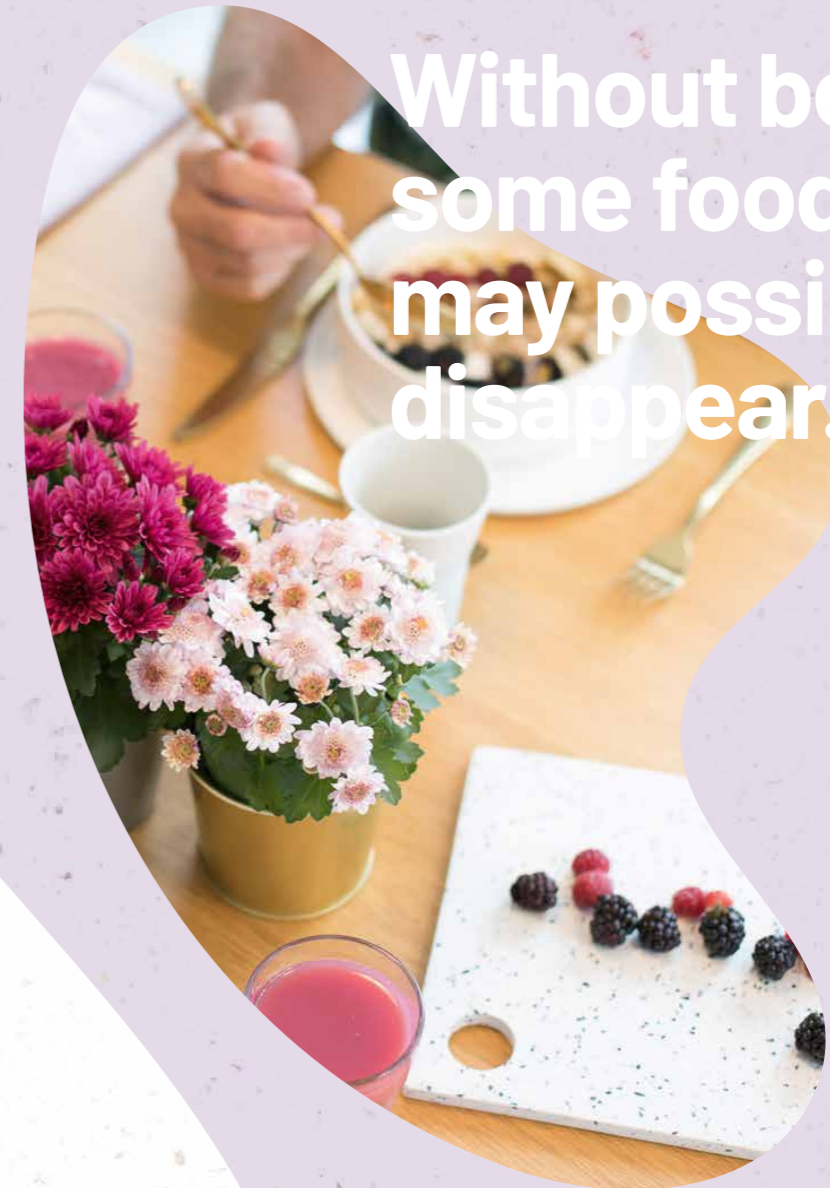

FR

## Eine wichtige Rolle.

Einige halten Bienen für lästige Insekten, doch spielen sie für die Menschen eine wichtige Rolle. Darum müssen wir ihnen auch ein bisschen zur Hand gehen. Durch die Bestäubung und Befruchtung der Chrysanthemen – und Blumen im Allgemeinen – sorgen sie nicht nur für eine enorme Artenvielfalt, sondern sie tragen auch zum Kultivieren einer Vielzahl von Obst- und Gemüsekulturen bei und produzieren Honig.

DE

Did you know that without the pollination of food crops by bees, three quarters of the shelves in our shops would be empty? Bees therefore play a very important role, and colourful flowers such as chrysanthemums help them to do this by pollination.

Without bees,  
some food  
may possibly  
disappear.

**Act now. The disappearance of bees will also affect us.**

Small insects with a huge impact.

# Belgian Mums®: Help the bees to help yourself.

## Ze hebben onze hulp nodig.

Zonder onze hulp kunnen de beestjes niet overleven én verliest de natuur aan kracht en diversiteit. We zijn een belangrijke schakel in de keten en zijn afhankelijk van elkaar. Een bijenlandschap op je terras of in je tuin creëren is een eerste belangrijke stap. Elke chrysaant geeft de bijen een duwtje in de rug. Bovendien geniet jij van een mooi zicht terwijl de bijen gretig stuifmeel verzamelen. Woon je in de stad? Enkele bloempotten op je terras maken al een verschil!

## Elles ont besoin de notre aide.

Sans notre aide, les abeilles ne peuvent pas survivre et la nature perd sa force et sa biodiversité. Nous sommes un maillon important de la chaîne et nous dépendons les uns des autres. Créer un paysage d'abeilles sur votre terrasse ou dans votre jardin est une première étape importante. Chaque chrysanthème donne un coup de main aux abeilles. De plus, vous profitez d'une belle vue pendant qu'elles collectent avidement le pollen. Vous habitez en ville ? Quelques pots de fleurs sur votre terrasse font déjà la différence !

## They need our support.

Without our support, the little critters are unable to survive and nature would lose both its vigor and diversity. Therefore, we are an important link in the chain and dependent on each other. Creating a bee-friendly landscape on your terrace or in your garden is an important first step in supporting and encouraging bees to continue their work. Each Chrysanthemum gives the bees a well-needed helping hand. Moreover, you enjoy a nice view when the bees are busy collecting pollen. Do you live in the city? A few flower pots on your terrace can already make a difference!

## Sie brauchen unsere Hilfe.

Ohne unsere Hilfe können die Insekten jedoch nicht überleben, und die Natur verliert an Kraft und Vielfalt. Wir sind ein wichtiges Glied in der Kette und voneinander abhängig. Ein erster wichtiger Schritt besteht darin, auf Ihrer Terrasse oder in Ihrem Garten eine Bienenlandschaft entstehen zu lassen. Jede einzelne Chrysantheme unterstützt den Arbeitseifer der Bienen. Außerdem haben Sie einen schönen Blick auf diese Blumen, während die Bienen fleißig den Pollen sammeln. Wohnen Sie in der Stadt ? Einige Blumentöpfe auf Ihrer Terrasse machen da schon einen Unterschied !

# Facts

# 20 May

is World Bee Day, that aims to raise awareness about the importance of bees.

## WORLD BEE DAY

# 1/3

of the global food production depends on bees

# 80%

of the fruit and vegetables in the supermarket is due to the bees

## DID YOU KNOW...

- 75% of the different food crops depend to some extent on pollinators, such as bees.
- Bees must visit 10,000 flowers to produce 1 gram of honey.
- 13 species of bees became extinct in the 20th century.
- A bee flies 30 to 40 km per hour.
- Vegetative roofs (= eco-roofs) are very trend-setting. They create extra natural areas on smaller, unused surfaces.

# Millions

of bees were able to benefit during the 'No Mow May' campaign in 2021, due to the fact that we did not cut our grass in Belgium.

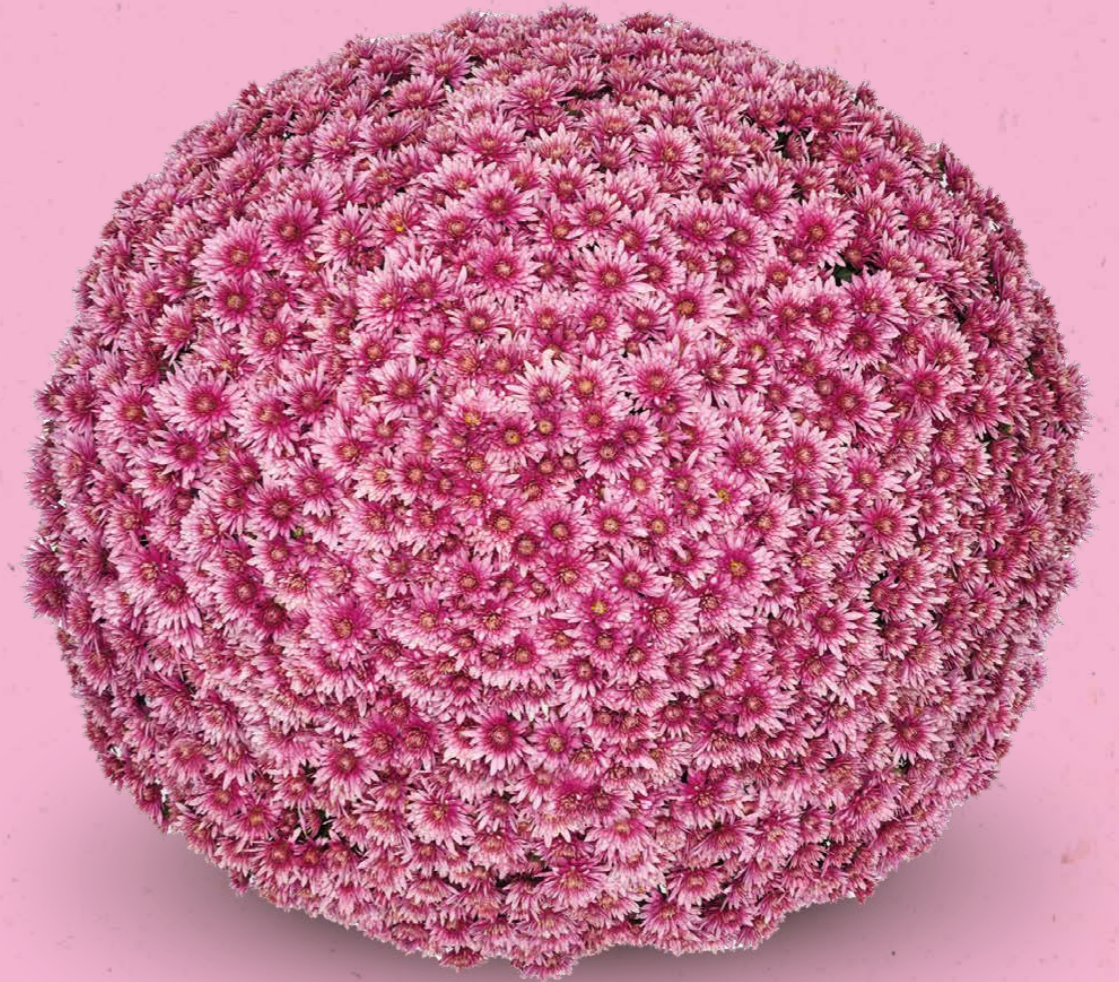

## Brighten up your terrace and let the city bloom.

# New varieties 2023
