Esker Farm Daffodils

Greetings from Northern Ireland! Welcome to our 2018 catalogue.

Thank you for your continuing support of our fledging business. We've had the pleasure of meeting and re-acquainting ourselves with a good number of our customers over the last year, both in the UK and in Sacramento (USA) where we cut our first 'trade stand' teeth. Being thrown in at the deep-end hasn't done Jules any lasting damage and has, in fact, whetted her appetite for more of the same this coming season.

We are pleased to be introducing some beautiful Brian Duncan and Nial Watson varieties this year to add to your winning collections. As well as introducing a few more unusual and highly sought after varieties. Unfortunately, due to an underestimation of sales on our behalf we have had to withdraw a number of varieties so that we can increase our depleted stock to ensure sufficient availability in future years.

All varieties offered for sale are grown, tended to and lifted by us and we extend a very warm welcome to anyone who wishes to visit our fields during the flowering season.

All our bulbs can come supplied with a Phyto-sanitary certificate issued by DAERA, if required.

Our European Community Quality Plant Passport Number is UK/NI 8401.

Despatch of bulbs is September/October unless you specifically request otherwise (or they are autumn flowering).

If you require any further information or assistance; or indeed have any suggestions or requests, feel free to contact us using our facebook page - via messenger; email or telephone.

Best wishes to you all for a happy and successful growing and showing season in 2018.

Dave and Jules Hardy

The name of the raiser is shown in brackets, followed by the parentage and the original seedling number.

All the varieties have been registered with The Royal Horticultural Society and the Classification and colour code is shown in the left margin.
