

SABG Bulb & Seed Exchange 2021

Here is the list of all bulb and seed donations, including items promised to be available shortly. As always, our members have once again been very generous with their surplus material and time. Please do remember many seeds and bulbs/corms are in extremely short supply. Whilst we will try to fulfil all requests, it is hard to split a single bulb six different ways. Species are listed below using the names provided by the suppliers. In a few cases, the spelling of names has been corrected, but as a voluntary organisation with limited resources, please bear in mind that we are not able to check the accuracy of these identifications. I have included the former *Polyxena* species within *Lachenalia*.

On receipt of the list, please send your wishlist to me, Jon Evans, 46 Upper Way, Farnham, Surrey, GU9 8RF, UK, or to jonevans46.uw@btinternet.com. I will acknowledge every email request I receive, usually within 24 hours, so if you don't receive a response, please try again, and copy in the secretary, Richard White (richard@rjwhite.tk) – your request may have vanished into the ether. Please get your requests back to me **by 29th August**, as I will start dispatching items in early September.

- There is no limit to how many items you may request. But please mark up to **ten** first choices. I will try to satisfy everyone's first choices before looking at additional items requested.
- Please order by using the numbers alongside the descriptions.
- If you want a particular species but don't care which donation, just give the name of the plant and 'Bulb' or 'Seed'.
- Remember to add your **postal address**.

If you have not donated bulbs or seed, the Committee expects you to make a donation to cover the cost of postage and packing. The following table suggests minimum amounts:

| Order | Minimum |
|---------------|---------|
| • seed only | £2.50 |
| • < 10 items | £2.50 |
| • 10-50 items | £5.00 |
| • > 50 items | £10.00 |

You can send cheques drawn on a UK bank or UK postal orders payable to "SABG", or make a bank transfer to 'Southern African Bulb Group', sort code 60-01-31, account number 59755709. In the latter case, specify your name as the reference so that we know who it's from. Please don't send postage stamps.

Paypal

We cannot accept credit or debit card payments, but if you have a PayPal account you can pay that way. Overseas members may find this helpful.

To use PayPal, log into your own PayPal account using a Web browser or the PayPal mobile app, click on "Send" (or "Send & Request", then "Send Money") and enter the address pay@sabg.tk in the box. Alternatively, you can type paypal.me/paysabg into your Web browser's location bar (not the Search box), but you will be asked to log into your PayPal account anyway if you haven't done so already.

You will then see a page displaying the SABG Lachenalia logo and "Southern African Bulb Group", followed by a box to enter the amount to pay, in £ (GBP). You can only enter digits for the pounds and pence, not a period ".", so watch carefully where the decimal point appears as you type!

Please add a brief note describing what the payment is for, e.g. 'Exchange 2021'. Include your name if your PayPal account uses a name which we might not recognise. Select or accept "**Paying for an item or service**". If it says "Sending to a friend or to family", click on "Change" and select "Paying for an item or service". A "shipping address" may be shown, but I won't see this, so make sure you sent me your postal address with your order. Click on "Send money now".

Overseas Members

I would like to clarify our policy regarding sending items to overseas members.

We are only able to send material to overseas members in ways complying with their government's regulations (i.e. no mis-labelling of contents), and only when conforming with those regulations is neither too onerous, nor expensive (e.g. we cannot issue phytosanitary certificates etc). We expect the relevant member to be able to guide us in following their government's requirements. Although we'll do our best to comply with the regulations where possible, we cannot be held responsible for any bulbs or seeds which are confiscated.

Because the UK is no longer part of the EU, any packages sent to EU members would need to be accompanied by a Phytosanitary certificate. This would be a difficult and expensive administrative burden, and we regret that as a result we are unable to send bulbs or seeds to EU members at this time. We are still able to send seeds to some countries outside Europe, provided that the members receiving them are conversant with their own regulations.

We are participating in endeavours with other UK gardening societies to lobby the UK government to change the regulations to facilitate international seed exchange, but the import requirements set by the EU are outside the control of the UK government, and are unlikely to be affected by any changes.

Donors

Donors' initials are shown against each description, as follows:

| | | | | | |

Mystery bulbs

I have received several bags of bulbs rescued from the bulb frames of the late Terry Smale by the local Alpine Garden Society group. These were all growing in the sand plunges, and none have labels, but he grew a fine selection of bulbs. All possible identifications are strictly conjecture. Bulbs are listed separately when they came from different frames, even if the suggested id. is the same. Several of these items are available in large numbers, so if you request them, please give an indication of how many you are willing to receive.
