# ALYSSUM

North Face White ALY201

## North Face *Lobularia maritima* (Tetraploid)

North Face is a tetraploid Alyssum with a wonderful cascading habit, making it ideal as a hanging basket or container filler or in the garden border. The larger pure white flowers and excellent vigour result in a better showing at retail stage and with the consumer, whilst the lower growing & well branched habit is easier to handle for the growers.

Seed Form	Coated, Natural
Seed Count	2,500/g
Garden Height	13 - 15cm
Garden Spread	30 - 40cm
Flower Size	½cm

## Antiquity F1 *Antirrhinum majus*

Antirrhinum Antiquity is an open flowered series which is ideally suited to larger containers or garden borders. Antiquity has extremely robust foliage and great branching, resulting in outstanding garden performance. The improved branching also makes this variety much more suitable for summer and autumn production, where it fills the pot better before flowering.

Seed Form	Natural
Seed Count	7,500/g
Garden Height	23 - 28cm
Garden Spread	35 - 40cm

## Bossa Nova

### F1 Begonia boliviensis x hybrida

Begonia Bossa Nova brings the carnival to your containers. Full of flower and available in a range of 7 bright colours, Bossa Nova is sure to add a new dimension to your bedding displays. Brilliant blooms cover the plant from late spring until first frost and the well branched plants look stunning in a large container or hanging basket, either singly or as part of a combo. Available as pelleted seed, Bossa Nova is the economical alternative to cutting raised Begonia. The large flowers and non-stop flowering makes Bossa Nova a great choice for any climate but will particularly thrive in warm situations, even where other Begonia have failed.

Ikon Green BEG980

Ikon Bronze BEG981

## Ikon

F1 Interspecific Begonia

Begonia Ikon's unique habit combines delightfully tactile foliage with a wonderfully branching habit and masses of blush white flowers. Bred in Costa Rica, this variety knows how to perform - in the plug, pot, landscape or even hanging basket. Begonia Ikon Green was described as a 'Showstopper' and voted Best Basket Plant in the Dallas Arboretum 2012 Trials where it took full Texas sun 'without even a crispy leaf'.

Not to be outdone by its counterpart is the equally adaptable Ikon Bronze, with its darker waxy foliage creating a fantastic contrast as is seen with Ikonix, a mix of the two. Ikon Bronze naturally matches Ikon Green in its versatility of performance.

Bam Bam Red BEL215

Bam Bam Rose BEL213

## Bam Bam

Bellis perennis

Bellis Bam Bam is a unique variety with large flowers, naturally compact habit and non-stretching stems. This hardy variety does not need vernalisation and therefore can be sold in both autumn and in spring alongside other cool crops such as Pansy, Viola, Primrose etc. As the name suggests, despite being short in stature, this variety really packs a punch with its large showy blooms and looks great in packs, small pots and colour bowls.

Seed Form	Pelleted, Natural
Seed Count	6,500/g
Garden Height	8 - 10cm
Garden Spread	13 - 15cm
Flower Size	5 - 6cm

# CALENDULA

Costa Light Yellow CAL101

Costa Orange CAL102

Costa Yellow CAL103

## Freefall®

### F1 Viola x wittrockiana

Pansy Freefall® is the growers choice for spring and autumn baskets! Compared to competing varieties, Freefall® comes in a wider range of colours and produces flowers all over the plant. The sustained day-length neutral flowering means that Freefall® will flower much later into winter and will also be first to flower in spring.

Seed Form	Natural, Primed
Seed Count	1,300/g
Garden Height	10 - 15cm
Garden Spread	35 - 50cm

# HOT PEPPER

## Alter Ego

F1 Hot Pepper (*Capsicum annuum*)  
VPE504

Hot Pepper Alter Ego as the name suggests is both hot but also sweet. The naturally dwarf habit makes it perfect for use in patio containers and small gardens. The large upward facing fruits are very ornamental, held above the foliage and turning from shades of cream & light purple as they finally mature to bright red. The plant has exceptional branching which results in a much higher yield of fruits than older varieties. Not only does this result in a fantastic crop for use in home cooking but also increases the ornamental appeal. Furthermore, this new variety has been bred to withstand both intense heat and full sun without fruit damage as well as strong disease tolerance, making it longer lasting than other varieties.
