

Revolutionary Sun Parasol Mandevillas Shine All Summer

rom the Mediterranean to the Swiss Alps, sunny Florida to cool Canada, Suntory's Sun Parasol mandevillas are captivating gardeners all over the world and have become the most fashionable plant for patios, balconies and hanging baskets. Mandevilla is now a major plant category thanks to revolutionary Sun Parasol varieties, which demonstrate superior performance and offer the widest range in colors and forms, including the first true reds. Suntory's breeding program is unmatched. Thousands of mandevilla hybrids are evaluated each year to find that perfect new introduction, like our gorgeous new Apricot. Discover the full range of beautiful possibilities in this guide.

Secrets of Producing Sun Parasol

Suntory's experts share their expertise to produce the best mandevilla crop.

Flowering:

Sun Parasol mandevillas are long-day plants. Buds are initiated with 10-11 hour days for the Pretty and Original types. The Giant group will flower with 12-hour days. Varieties in each group vary depending on the color. Plants flower on every third leaf pair, measured from the base or from the previous flower. Buds are aborted in unfavorable conditions. Remove the shoot above the bud to prevent bud abortion.

Temperature:

Ideal growing temperature is 65-75°F the first two to three weeks after potting. Temperature can be then lowered to 65-70°F. Lower temperatures can be used, but plants will take longer. Mandevillas like light and heat. Optimize growth by providing warm temperatures and high light levels.

Watering:

Always plant Sun Parasol in a well-draining soil. Keep plants on the dry side with the pot almost completely drying out between watering. A dry regime is more suited than a wet one, where plants can become prone keeping plants dry in the winter. to root diseases. Too dry, and there will be a problem with nutrient uptake. Too much water leads to leaf yellowing. Water plants in the morning so foliage can dry.

Fertilizer:

Feed Sun Parasol plants with a wellbalanced fertilizer every other day at 250 ppm. We also recommend a slow-release fertilizer at 1/4 the recommended rate. Do not put slow-release granules next to the stem, because it may burn the plant. If the pot doesn't dry out during cloudy days, do not water.

Managing growth:

The best way to control growth is with water retention, especially with the whiteflowered varieties. Pinching is necessary to improve branching. Wait until the plants are fairly well-rooted before pinching. Uncontrolled growth isn't a problem in a larger pot.

Pests and diseases:

Watch for mites, the prime pest, and take preventative measures. Additional pests to monitor for include aphids, thrips and whiteflies. Good airflow helps prevent foliar leaf spot. Watering in the morning helps, too. Prevent Fusarium and Botrytis by

For more information about Sun Parasol mandevillas, visit www.sunparasol.net

Sunparabuho

Garden Crimson First bedding plant mandevilla!

- ✓ Naturally compact
- ✓ Powerful branching with low breaks
- ✓ Bred to be produced in 4-inch pots
- ✓ Perfect for landscapes and baskets

Original Group

Revolutionary genetics!

- ✓ Widest color range in mandevilla
- ✓ Outstanding garden performance
- ✓ Disease resistant
- ✓ Grow as bush or train to trellis

The original Sun Parasols have the widest color range, including the first stable dark red and crimson, shades of pink, white and novelties. Plants are natural climbers and suitable for patio containers, hanging baskets, balconies, bedding and even as a house plant.

Stars & Stripes®

Sunparasuji

Everyone loves this patriotic novelty, which was named Favorite New Flowering Plant when it was introduced at the Tropical Plant Industry Exhibition. Distinctive white stripes streak out from the center of bright red blossoms.

Pink

Sunmandecripi Classic, rich dark pink adds tropical punch. Think of it as

lipstick for your landscapes.

Sunparapibra

Excellent choice for lighter color schemes. A European favorite to use in combinations

Dark Red

Sunparabeni

Beautiful rich red that is deeper in color than Crimson.

White

Sunparacoho

Excellent branching. No color range is complete without a good white. Mix with Garden Crimson for high-

Sun Parasol

Giant Group

Gorgeous premium mandevilla!

- ✓ Biggest flowers
- ✓ Vigorous growth
- ✓ Superb disease resistance
- ✓ Natural climbers
- ✓ Thrive in the heat

Sun Parasol Giant varieties produce large flowers that span up to 5 inches. Natural climbers, these beauties are stunning trained to a trellis or obelisk in patio pots. The flowering season is slightly later than the Original group. The Giant varieties are the most heat tolerant.

Sunmandecrikin Striking, stable variegated foliage provide high contrast to large crimson blooms!

Sunmandecos

Nothing says summer like Giant Pink! Bring these lovely plants poolside and create a tropical paradise.

Giant Dark Pink

Sunparajapi

Blooms start out light pink and become dark pink instead of fading.

Red Emperor®

Sunpararekin

Even more gorgeous than Giant Crimson, Red Emperor is a premium mandevilla with the highest number of large, striking red flowers. Outstanding disease resistance

Giant White

Sunmandeho
Large, white flowers
create an elegant,
tropical look.
Outstanding disease
resistance.

Giant Crimson

Sunmandecrikin

A breakthrough in the classic mandevilla type with a stable rich red color, Giant Crimson has set new standards and become a global favorite.

Giant Pure White

Sunpa 6416
Elegant flowers are completely white all the way down through the throat.

Pretty Group

Highest flower count!

- ✓ Superior branching
- ✓ Dense, vigorous growth
- ✓ Perfect for trellises
- ✓ Glossy, thinner foliage
- ✓ More cold tolerant

Sun Parasol Pretty varieties combine the best of dipladenia characteristics with mandevilla growth. Flower size is the same as Original group, but the foliage is glossy, thinner and more vining. Plants are natural climbers and suitable for baskets, trellises and balconies. Pretty varieties are also more cold tolerant than other dipladenia types.

Light pink flowers darken in the center into yellow throats.

Pretty Deep Red

Sunpararenga
Rich red that's a darker shade than crimson.

Pretty Deep Pink

Sunpararopi

Vibrant, dark pink flowers bring tropical punch to landscapes.

Note: Deep Red and Deep Pink are less vigorous and ideal for 1-gallon trellis.
