Cercis canadensis ETERNAL FLAME 'NC2016-2' PBR

GOLD MEDAL GREEN IS LIFE 2022

Dear Sir or Madam,

WE ARE PLEASED TO PRESENT YOU THE 38TH wholesale price list of plants produced in our Nursery. This year we are offering over 200 **novelties** – plants to be used in our gardens and terraces.

We continue to extend the assortment with drought tolerant plants and plants that cope better in our climate – meaning plants well adapted to climate changes (dry and hot summers and uneven precipitation within the year time). Among the said plants you will find a wide range of *Ligustrum*, *Elaeagnus*, *Cercis*, *Ceanothus*, or beautifully blooming *Hibiscus*.

Acer truncatum 'Volcano' is a plant we would like to pay your special attention to. This is one of few varieties of this species, and the first (and the only one) with yellow leaves. *Acer truncatum* is an example of a plant that well tolerates drought, soil and air pollution. At the time of many weather anomalies, which are beyond our control, it is worth taking more time to make a conscious selection of plants and choose those that are resilient to tricky weather conditions.

Last year we celebrated the 40. anniversary of the Szmit Nursery. On this occasion, we were showered with kind words, and we received many letters with congratulations and good wishes. We would like to take this opportunity to thank for all these expressions of recognition and fondness, which are often an outcome of many years of successful collaboration. We are happy that you appreciate our efforts, our ever expanding catalogue, and the quality of the plants we offer. Your trust is our motivation to keep working.

Last year's achievements of the Szmit Nursery are as follows:

- gold medal for *Cercis canadensis* ETERNAL FLAME in the Plant Novelties Contest at *Green is Life* exhibition,
- award of distinction for *Liriodendron tulipifera* 'Snowbird' in the same contest.

Apart from the above, our stand was granted the *Brown Lauren* award in the most attractive plant stand arrangement contest during *Green is Life* exhibition in 2022.

This season, we are planning to take part in the following exhibitions:

- **Zieleń to Życie [Green is Life]**, Warsaw, 31. August – 2. September 2023
- **Four Oaks Trade Show**, Lower Withington, Great Britain, 5–6. September 2023
- **Zielony ShowRoom [Green ShowRoom]**, Konstantynów Łódzki, 6–8. November 2023
- **IPM Essen**, Essen, Germany, 24–27. January 2024.

Please visit our plant nursery with a show garden. As always, we wish you a successful gardening season, joy from working with plants, and finding time for rejuvenating rest among greenery.

Selling conditions

Prices provided for in our offer are wholesale net prices applicable for garden shops and garden centers, landscape architects, companies managing green areas, plant nurseries and other persons professionally involved in the plant business. We add value added tax (VAT) to our prices. VAT rate is 8% this year.

Clients making a purchase of significant value at a time are offered additional discounts.

Our regular clients are entitled to pay by transfer.

Transport

The Nursery has its own means of transport and offers deliveries of plants to any place in Poland, under conditions agreed each time with a client.

Orders

Please send orders to our e-mail address: szmit@szmit.pl or fax no.: +48 23 672 36 27.

Bigger orders are completed within 2-7 working days.

We realize orders for soil-grown plants from 01 September.

Export

We are highly experienced in export of plants and we are fully prepared for it.

Individual sale

You can purchase all plants included in our price list as well as many other plants at our retail outlet located within the Nursery premises, open in season from Monday to Friday from 7 a.m. to 6 p.m. and on Saturdays from 7 a.m. to 3 p.m.

Retail prices, approximately 20-50% higher than the wholesale prices, apply in the case of retail sale.

Sale through mail-order is not available.
