

Mangave 'Whale Tale' PPAF

MAD ABOUT MANGAVE® Collection

(Mangave) A larger form Mangave that's perfect for being a centerpiece or focal point in your garden or containers. Large, wide blue-green leaves are lightly speckled with dark spotting. A waxy coating gives the plant more of a silvery blue look. Its low, wide habit has leaves that arch downwards at the tips, perfect for framing containers. The name 'Whale Tale' is in reference to its parentage of *Agave ovatifolia* (Whale Tongue Agave), which comprises about 50% of its blood.

Height: 7-8in Spread: 22-26in Zones 9-10
