About AER

Alfred Edward Roberts established the nursery in 1908. A century later it is still a family run nursery with the same traditional values and emphasis on personal service. At A. E. Roberts we take pride in growing a wide range of quality fruit trees, soft fruit and ornamentals. We supply the wholesale market and despatch for several mail-order companies.

Today we are based at our Woodlea Nursery site just outside Southampton in the South Downs National Park. The company is owned and run by John, David and Sabrina Gwynn. The two brothers, David and John, took on the company after their father Peter Gwynn, the nursery manager bought the company from Mr Roberts.

At our 3-acre Woodlea nursery site, we grow our container grown soft fruit and trees, while our bare root one-two year old trees are grown on our combined 160-acre fields. Our trees are mainly grown from rootstocks and the tree variety is either budded or grafted on to the rootstocks. We grow over 100 different varieties of fruit tree and over

80 different types of ornamental trees and produce over 250,000 trees annually for our nationwide customers. We also work with other British and European Growers to stock and supply a considerable range of plants.

We aim to carry good stock of saleable material all year round, particularly in the spring and welcome enquiries for items not listed in this catalogue.

We offer bare-root or root-wrapped plants from November to April, as well as containerised plants all year round.

We have a comprehensive stock of picture labels for our plants, and full descriptive printed labels for almost everything else.

We are able to deliver anywhere in the UK, and for orders of a reasonable size this will be free of charge in almost all cases. We are always happy to welcome prospective customers around the nursery but please let us know beforehand or feel free to call or email us with any enquires.

Address: Woodlea Nurseries, Winters Hill,
Durley, Southampton, SO32 2AH

New For 2022

- We are nearly at the end of an investment programme at our Woodlea Nurseries site, where we have built a new cold store barn to store bare-root trees and soft fruit, a new office and enlarged our yard space. We also purchased a new potting machine to increase production capability and we have just installed a new IT system.
- New range of acers in 5L, 7.5L and 15L
- New variety of apple called champion
- Six new Cornus varieties in 4.5L:
 - Cornus contraversa Variegata / Wedding Cake Tree
 - Cornus Eddie's White Wonder / Flowering Dogwood
 - Cornus florida Rubra / Flowering Dogwood
 - Cornus kousa Copacabana / Flowering Dogwood
 - Cornus kousa Nicole
 - Cornus kousa Satomi
- Three new Cedar in 9L
 - Cedrus atlantica Glauca / Blue Cedar
 - Cedrus atlantica Glauca Pendula / Weeping Blue Cedar
 - Cedrus libani / Cedar of Lebanon
- Liriodendron tulipifera Fastigiata / Upright Tulip tree in 9L
- New range of cider apples

Labels

We can supply the plant with a choice of labels to suit your needs. We have a range of colour picture labels for most of our stock, but we can supply all our plants with loop lock white labels. These loop lock labels can be for individual

plants or in multiples and with your business details printed on the back.

Pots

Over the last couple of years, we have invested and built larger container beds to hold our potted range of trees; this has allowed us to stock most of our tree range throughout the whole year. We grow our 9 litre and 17 litre trees in polythene pots, which both bring down the cost to the end consumer but are also easier to recycle and are made from

far less plastic compared to conventional ridged pots. The trees will also benefit in poly pots over ridged pots, as it prevents the trees roots from spiralling, producing stronger root systems.

Deliveries

We are able to offer a range of delivery options to suit your needs. We can supply the plants on a pallet and where the quantity is significant, we can use our bespoke stillages to transport your order. We use a pallet network and are able to get your order to you next day, once it is picked and packed to go. We also offer a mail order fulfilment service for our plants and can pack your customer's orders into bespoke designed boxes to safely transport the plants to your customer's doorstep.

Products

Bare Root Soft Fruit

Bare Root 1 year Maiden

Bare Root 2 year Bush

Soft Fruit Plug

P9 Soft Fruit

Terms and Conditions

Value added tax

All prices quoted are EX VAT. This will be charged, where applicable, at the rate in force on the date of supply.

Deliveries

All reasonable steps will be taken to ensure that delivery is affected at the agreed time, but we cannot accept any liability for loss arising from delayed delivery.

Delivery

Orders for 1500 or more are free of charge.

Orders under 1500 are charged.

Less than 10 container trees or 50 bare-root trees are delivered by Parcel carrier.

Over 10 container trees or 50 bare-root trees are delivered by Pallet carrier.

Small Quantity Surcharges

We are happy to ship any size of order, but the prices quoted are based on genuine wholesale quantities i.e. at least 5 trees and 10 bushes per item. For lower quantities 20% will be added to the unit cost to cover our increased handling cost.

Payment terms

Unless otherwise agreed, payment is due 30 days from the date of invoice. We reserve the right to charge interest at 2% monthly on outstanding accounts.

Reservation of the Title

All goods dispatched remain the property of A.E.Roberts Ltd until payment due has been made.

Accounts and Payment

To open an account please request an application form. Two trade references are required. The first order we operate on pro-forma until account is set up.

Payment can be made by cheque, credit/ debit card or bacs payment. Details available from the accounts department.

Damages or shortages

It is the responsibility of the customer to check all plants for damage or shortages against the delivery note. Any discrepancies must be notified to the sales team within a period of 5 days after dispatch. As we have no control over cultural and environmental conditions we cannot be held responsible for failure of stock, once it has left our premises. Wherever possible replacements will be sent out or a credit note issued for use in the future.

Pricing

Given the current threats faced by the UK horticultural industry, relating to both biosecurity and trading conditions, we reserve the right to increase these prices should we face significantly higher costs, due to events beyond our control.
