 HilverdaFlorist

Ready for a future full of opportunities

Especially during eventful times worldwide, HilverdaFlorist is proud to be part of the horticultural industry. Time and again, people rely on our colourful products to bring joy, comfort and beauty to so many. Although this fuels our shared passion, we all know our industry has its challenges and fluctuations. By building connections throughout the chain and working together more closely, we can be even more resilient and resourceful in finding solutions to those challenges and ever-changing needs. As being one of the first links in the chain, we feel that responsibility and make true partnership a priority, committed to growing alongside of you.

They say: **‘To plant a garden is to believe in tomorrow’**. A fitting phrase, especially if you are familiar with our range of cut flowers and visit our brand-new show greenhouse filled with novelties. At HilverdaFlorist we believe in tomorrow. We are excited and confident about the future, because we know what is yet to come and like to share that with you. Driven to move forward, we keep investing in breeding, research and innovative solutions. We are in a phase of well-managed growth and development. As of this season, our new facility in the Netherlands is up and running. This future-proof production location features the latest techniques in smart growing with a clear focus on durability, efficiency and hygiene.

‘To plant a garden is to believe in tomorrow’.

To maximise efficiency and be closer to the major markets, we have decentralised some of our operations. Today, HilverdaFlorist has production facilities in the world’s leading cut flower areas: the Netherlands, Kenya, Colombia and India. Having young plant production facilities as our anchors located closer to the sales markets, has resulted in substantial savings in energy demands and transportation costs. Thanks to our trusted, global network of subsidiaries, distribution partners and production locations, we are able to provide you with excellent local support and premium young plant material, suitable for every climate and evolving cultivation requirements.

With HilverdaFlorist as a solid partner you are assured of strong genetics, high quality starting material, outstanding service and a clear vision for the future. Our range of cut flowers brings you those well-needed varieties to let you stand out from the crowd in any season. With our remarkable assortment of Alstroemeria, Dianthus, Gypsophila, Helleborus, Limonium and Scabiosa you’ll be able to draw year-round interest, with extraordinary specialties boosting your entire collection. This brand-new catalogue is packed with marvellous introductions that truly make an impact. You will find stunning colour additions, enhanced key features and a surprising versatility that will dazzle your customers. We are ready to turn these novelties into triumphs and market favourites, together with you.

Head over to our website for regular updates, visit us at events and connect with our dedicated team. Whether you need help in composing a programme, want to pick our brains for creative solutions or you could use some advice on cultivation or market approach, we’re here for you. Let’s team up and make the most of this new season full of opportunities.

Bart Sneek
Commercial Director

Teaming up for shared success

Together with our international partners in research, breeding and young plant production of Alstroemeria, we aim to reach our common goals together. We support grower initiatives, like the crop cooperative in the Netherlands, to build on our shared knowledge, discover new opportunities and further develop our product group. We focus on sustainability, virus resistance and year-round top quality to prepare Alstroemeria for a bright future.

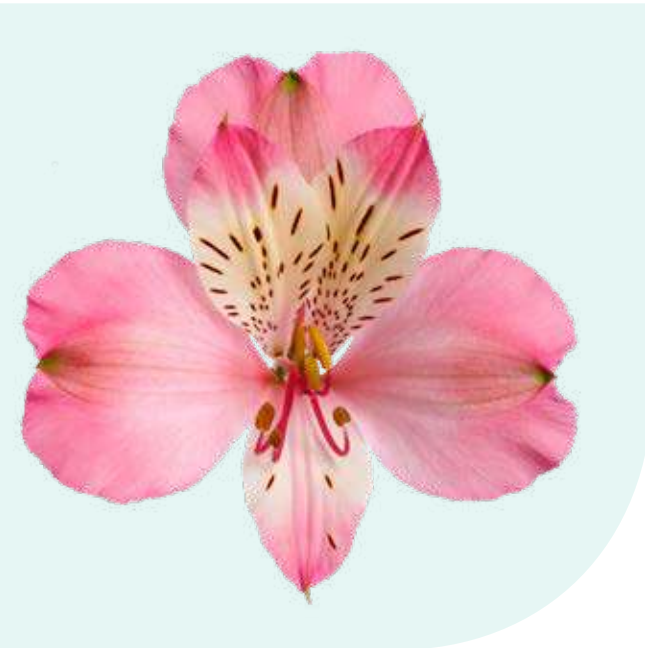

Pieter Strooper – Assortment Manager Alstroemeria

Joolz

ジョールズ

Alstroemeria Specialty

'Every Alstroemeria' – discover the solid base for beauty

Within the promotion committee 'Every Alstroemeria' we join forces with growers and other breeders to make the Alstroemeria more visible to florists, by knowledge sharing and creative inspiration. It's also a great way for us to actively get in touch with wholesalers, exporters and florists, and get their valuable feedback. Find out more on everyalstroemeria.com.

Denise van Kampen - Marketing Manager

Fashionista® Pink

ファッションイスタピンク

Alstroemeria Specialty

Fashionista® Pink is truly original and simply stunning. The first thing you notice is its huge, multi-double flower with a fancy colouring and exclusive look. Perfect for both mixed and mono bouquets. Add to that its firm stems and excellent performance and you have a breeding breakthrough that will be the centre of attention. Fashionista® Pink is the first Alstroemeria with this particular inflorescence and initiates an interesting broadening of the Alstroemeria scope.

Alstroemeria Florinca

Alstroemeria Florinca

Discover Florinca! The spray Alstroemeria with sturdy stems, lots of elegant small flowers and a distinctive inflorescence. All Florinca varieties are pollen-free, resulting in an outstanding vase life without dropping petals. Harvest Florinca at a later stage than your average Alstroemeria, with buds on the verge of popping and revealing their convincing colours. All flowers open in the vase, up until the last one.

Standard Carnation

Standard Carnation

Our range of Standard Carnations features outstanding, uniform varieties with large, ruffled multi-petaled flowers - one single flower at the end of a firm individual stem. These all-time favourites are blessed with a light scent and come in a spectacular colour range, that keeps on growing. Bright, bold, pastel or bicolour, all varieties are extremely long-lasting and versatile in floral designs.

Innovation and creation

Year after year we have grown in new varieties and products. As a breeder we continue to innovate and lead the creation of different products within the Dianthus family. The annual Dianthus Week in March here in Colombia has become a key moment to show our newest introductions to professional growers. Come and be amazed by the varieties of Dianthus, their distinctive textures, fascinating colours and powerful symbolisms.

Sparkz® Raffine

Raffine

Refine your collection with the elegant, romantic Raffine series. This spray type Dianthus has stylish, ruffled flowers with beautiful colour patterns. The varieties are highly productive with three flushes per year. The varieties are very rich flowering, uniform and excel with outstanding durability, during the logistic process as well as in the vase. The new Raffine Bonaire adds a complementary colour to the spectrum, with relative large, open flowers and a long vase life.

Gypsophila Zinzi®

Gypsophila Zinzi®

Our Gypsophila Zinzi® collection features highly productive, easy flowering varieties of Baby's Breath for indoor and outdoor production. They are robust and less sensitive to day length variation. The firm branched stems of Zinzi® have an upright, less angular structure. This makes them much quicker and easier to harvest and to handle during grading and bunching. The numerous, radiant white flowers create a wonderful retail presentation and, where other Gypsophila is quite static on the vase, Zinzi® keeps on blooming and developing.

Finding solutions in different dimensions with Zinzi®

Discovery is our leading variety in the small-flowered segment. This robust variety is appreciated for its sparkling flowers, ideal stem length and weight and less tangling and breakage due to its magnificent branch structure. Our newest addition, Zinzi® Titan brings you a pure white flower and stands out with a remarkable large flower size of 10-12 mm, giving new dimensions to Gyps and different opportunities to you.

Eric Bouman - Managing Director Murara Plants Ltd.

Helleborus

Magnificent Bells

マグニフィセントベルズ

The blushing flowers of the Magnificent Bells have beautiful, rounded greenish-white petals and a crown of stamens that offers remarkable detail. This Helleborus offers sturdy stems of sufficient length, adorned with lots of flowers. With an impressive vase life it adds a romantic touch that lasts for weeks.

Helleborus

With Magnificent Bells HilverdaFlorist has introduced a unique Helleborus cut flower variety. Due to the special cultivation characteristics, it is possible to grow this Helleborus all year round in cooler to moderate conditions. In warmer climates you can produce Magnificent Bells from autumn to spring.

Trialling around the world

During the season we visit our wide-ranging trials at our breeding locations and partners abroad, as well as at our customers. All data is taken into account in final selection decisions, complemented with the constructive, in-practice pointers and experience of growers. For Limonium we aim for new varieties that are less sensitive to short-day conditions and high temperatures, offering consistently high quality stems throughout the season.

Limonium Perennial

Arizona Blue

アリゾナブルー

Kansas Blue

カンザスブルー

Tennessee Pink

テネシーピンク

Limonium Perennial

Our Limonium Perennial varieties produce their rich flowering branches for multiple years and are resistant to hot temperatures and various pests and diseases. Pink is quite unique in Limonium Perennial and the stunning blue varieties complement our Limonium sinensis range nicely, where blue is missing.

Scabiosa

Scabiosa's long-lasting, fascinating pincushion flowers add much-wanted depth and texture, while gradually opening to their full size. An interesting product group on the rise, inspiring to floral arrangers and flower lovers in general. Scabiosa is in full development by our team of breeders. They have already managed to create a very exciting colour range, covering all from white, to pink, lavender, bluish purple and burgundy. This season the range is complemented by three introductions, among which the unique fresh green, ball-shaped Dali.

NEW
NEW

Savvy with Scabiosa

Scabiosa has a high ornamental value, it's super trendy and a great option to diversify your product range with. Aside from that, it offers the necessary advantages to logistical challenges. Scabiosa is harvested when flowers are still very raw, compact and lightweight. They are easy to pack in very high quantities and without damages, as flowers blossom in the vase.

Off to a good start

Together with our production teams worldwide, we go all-out to produce high quality young plants, in a range that always offers a perfect solution for your specific production method. We are eager to start the new season, with lots of new varieties for you to be successful. Please note there are several new size options for our young plants. Choose the type of starting material that suits your business best or let our sales team advise you.

Rob van der Meer – Manager Production

What we offer

HilverdaFlorist is your partner with a strong global presence. We lead the market in selecting, breeding and propagating unique varieties in cut flowers and pot & garden plants. You can count on us to supply you with high quality young plant material suited for your specific climate and cultivation method.

Reliability is our basis

With the entire supply chain under our own management, from breeding to propagation in our own laboratories and young plant production facilities, you know who you are doing business with. Through continuous focus on international markets and more than 110 years of experience in horticulture, we are able to fine-tune our business activities accurately in the event of changes, so that our products are always relevant, groundbreaking and profitable.

Ambitious team

Our team is driven and always eager to help you excel with the best varieties for your specific business. Devoted to build and maintain trusting relationships, we warmly welcome you in our new show greenhouses, meet you online or at tradeshows and visit you personally at your own company. We strive constantly for improvements and a true connection is the key to thrive together.

A focus on innovation

Business challenges, opportunities to improve and collaboration throughout the chain, motivates us to invest in the future. We learn, tackle challenges and develop by collaborating with the best professionals, experts, and organisations in their fields. By worldwide trialling of our varieties, investing in external and in-house R&D and continuously developing our own business processes, we focus on moving forward and aim for durability, resilience and efficiency.

Long-lasting partnership

We go beyond the customer-supplier relationship. Together with you we want to create, innovate and find solutions to our biggest challenges, advancing the world of horticulture forward. Let's share our triumphs and insights, to grow and improve side-by-side. Through our solid worldwide network of subsidiaries and partners, you have access to a wide range of experts on R&D, breeding, propagation, cultivation techniques, logistics, sales and marketing with lots of regional specific know-how.

Global partnership

In order to maximize efficiency, we have decentralized parts of our business activities to our trusted subsidiaries and joint ventures. With this we achieve significant advantages in strategic, logistic and technological aspects. Together with our partners in production, sales and distribution, we set up a solid global network, offering you the best possible support and local services.

HilverdaFlorist
Colombia

HilverdaFlorist Colombia S.A.S.

Subsidiary, specialist propagator and young plant supplier for Dianthus, Alstroemeria, Limonium, Gerbera, Scabiosa, Helleborus, Gypsophila, with exclusive sales in Colombia and additionally in other Latin American countries. www.hilverdaflorist.co

MURARA PLANTS
RENV A

Murara Plants Ltd.

Subsidiary, specialist propagator and young plant supplier to exclusively sell and distribute the complete assortment of HilverdaFlorist products in Africa. www.muraraplants.com

Horti Partners

HortiPartners

Joint venture in the Netherlands between HilverdaFlorist and H.M. Tesselaaar for research and breeding activities for Alstroemeria.

KFBioplants
PVT. LTD.

KF Bioplants Pvt. Ltd.

Joint venture in India between HilverdaFlorist and the Kumar Group, for young plant production for the local Indian market, worldwide export and sales for the Indian market. www.kfbioplants.com

Personal service with a smile

We believe good communication is one of the key factors to build and maintain a successful, long-term relationship. We are here to help and assist you in any way we can. Get in touch with us for questions about products, to find solutions to challenges, information about availability or the status of your order, for special requests and feedback.

Sales Support Team
Simone, Fernando, Sabine, Kasia and Eva
