

# GROW WITH US

**Ron Brum**  
Regional Sales Director  
Ball Seed

Tagawa has partnered with Ball Seed® for many years to develop the highest level of customer service to help you grow your business.

Tagawa Greenhouses continues to expand our services to professional growers, providing for their needs from modern facilities based in Denver, Colorado.

In partnership with Ball Seed, we are able to provide the #1 grower trucking program in the industry. This fast, efficient and economical system includes guaranteed ship weeks and temperature-controlled trucks to deliver the orders.

We take pride in our strong prefinished program, with young prefinished plants ready for retail in Spring and Fall. Growers who want to turn their facilities or retail spaces more quickly and profitably will love this solution!

To meet the growing demand in the marketplace for succulents, Tagawa has introduced a comprehensive succulent program, including 16 new succulent collections. They are grown in Dutch glass greenhouses at our New Mexico facility, providing a hot climate with high light and low humidity. Then they are delivered on company trucks along with Tagawa liners and plugs.

We have also added Ron Newble as sales manager, and will surely benefit from his years of succulent expertise!

At Tagawa, we want to be your one source for liners, plugs, succulents and prefinished plants to help your business succeed.

Ron Brum

# WE KEEP ON TRUCKING

We partner with Ball Seed to provide the #1 grower trucking program in the industry. Ball Seed's excellent long-term partnerships with the most expansive dedicated grower truck delivery network covers all of North America.

This ensures you get delivery to your door (in most cases) at the lowest possible cost. Our fast, efficient and economical system includes guaranteed ship weeks and orders shipped in temperature-controlled trucks. This helps to make sure that all products delivered to your greenhouse are healthy and ready to transplant and thrive.

You can easily track the progress of your shipment through One Click Tracking on WebTrack® at ballseed.com/webtrack. This easy ordering and tracking system also allows you to set a five-day advance phone notification of your product's estimated time of arrival, to help you keep your production team on schedule.

Tagawa consolidates shipments from local Denver greenhouses to yours on one climate-controlled truck, saving you additional time and money.

## CONSOLIDATED SHIPMENTS FROM THESE LOCAL GREENHOUSES:

### BOTANY LANE

- Suntory liners, prefinished and liner tropicals, succulents

Contact your Ball Seed sales rep for additional delivery options.

# PLUG PROGRAM

We have retooled our facilities to focus more efficiently on plug production. Tagawa offers more than 2,300 unique seed varieties. Think of us as your “One-Stop-Shop” for plugs.

The Punch ‘N Gro<sup>®</sup> machine is a low-cost, manual transplanting system that is simple, mobile and easy to use.

Order your favorite crops as time-saving Plug Punchables™ and Premium Plug Punchables™ Liners. Choose from a full lineup of best-selling varieties, including the most popular standard and premium seed-grown products, plus an extensive listing of the top-performing vegetative items. Plug Punchables are produced by the best suppliers, located strategically across the United States and Canada for the most efficient delivery.

Contact your Ball Seed or Tagawa sales rep for more information about labor-saving transplant bundling options available. Visit WebTrack to learn more about our full seed listing.

# “ONE-STOP-SHOP” FOR PLUGS

We offer a tray size to meet every need.

In addition to our 288, 324, 432, and 512 we offer a tray configuration that allows more plugs to be added per tray for better value for our customers. This economical tray now contains 128 versus 102 plugs, maximizing space for better freight rates.

Tagawa offers plugs for more than 30 tomatoes and 15 peppers. We have plugs for more than 10 varieties of impatiens and petunias, including Wave® petunias, plus marigolds and vinca.

With 50 years of plug production experience, Tagawa is able to provide all of the plugs you need and more!

Tagawa 128  
and 288 Cell  
Plug Trays

## PUNCH 'N GRO

Perfect plug placement every time! Punch 'N Gro arrives at your greenhouse fully assembled and allows you to use a range of tray sizes with a variety of crops. See page 73 for more information on Punch 'N Gro!

# SUCCESS WITH SUCCULENTS

Tagawa has expanded its offerings of succulents in recognition of the market demand for more easy-care plants that lend artistic beauty to yards, gardens and landscapes, as well as indoors.

Gardeners in every age range and level of expertise find succulents appealing. The popularity of these low-maintenance varieties has increased over the last few years, and interest continues to grow.

To answer this demand, Tagawa now offers three assortments of succulents – each with 10 varieties – and 13 succulent collections, each with five varieties. In addition to these, we have a vast array of individual succulent varieties. Contact your Ball Seed or Tagawa sales rep for more information.

Tagawa's own stock of succulents is grown in Dutch glass greenhouses, in a high-light, hot, dry climate. We can deliver them to you on the same truck as Tagawa liners and plugs.

Our succulent liners can be delivered on a grower truck to the Midwest, Southeast and Southwest.

Tagawa's new sales manager, Ron Newble, brings years of succulent expertise to our program.

**Please contact your Ball Seed sales rep or Tagawa Greenhouses for more information.**

### Colorado Trail Assortment

# SAVE TIME AND LABOR

Discover the perfect solution to quick and profitable turns for your facilities or retail spaces.

## Spring Prefinished

During the Winter months, we get young plants started in 4.25-in. (11-cm) pots in perfectly controlled greenhouses. The prefinished plant is perfect for using in hanging baskets and combos by Week 6. From here, our Southeast and Midwest customers only need around two weeks and a simple routine to bring these plants to market. Our customers save time, labor and energy with the quick turnaround of these full and healthy, retail-ready plants. You get what you need – as soon as possible.

## Fall Prefinished

In the Fall, Ball Seed and Tagawa Greenhouses produce high-level, florist-quality cyclamen for the landscape or retail markets in warmer climates. We offer cyclamen to the Southeast and Southwest markets in two pot sizes – 4.5 and 6 in. (11 and 15 cm) – in Weeks 42-52. As a preferred supplier, we are able to offer the sharpest price point in the industry.

# GET PREFINISHED PLANTS

## Save Production Time and Deliver Top-Quality Cyclamen

Working together, Ball Seed and Tagawa Greenhouses supply premium retail-ready and prefinished cyclamen that are delivered via truck direct to your door. Our cyclamen experts have selected from the best genetics to create top-notch programs. Retail-ready means one or two blooms and buds within the plant canopy, with many growers finishing this crop in two weeks. Standard prefinished plants might have one bloom and/or buds within the plant canopy.

### Standard Prefinished

- 20% Stage 1
- 80% Stage 2&3

### Retail Ready

- 20% Stage 3
- 80% Stage 4

Talk to your Ball Seed or Tagawa sales rep to help determine the best option for your specific needs!

# A TO Z LISTING OF ALL VARIETIES

On the following pages you will find an alphabetical listing of our varieties, including an expanded offering of vegetative varieties, from A to Z.

The available tray size(s) for each variety is included with each listing for your convenience. Tagawa is your one source for liners, plugs and prefinished plants. Let us help you grow your business! Contact your Tagawa or Ball Seed sales rep for more information.

# DON'T WAIT TO AUTOMATE!

## PAYS FOR ITSELF IN 3 BUSINESS DAYS!

The simple, mobile Punch 'N Gro<sup>®</sup> machine provides highly efficient, high-speed transplanting without the need for electricity. It was invented by Tagawa more than 20 years ago.

This labor-saving machine pushes plugs through the tray into finished containers without damaging the cuttings, resulting in stronger, healthier roots. It requires almost no maintenance! **Ask your Ball Seed sales rep about this and other labor-saving transplant bundling options available.**

# PUNCH 'N GRO<sup>®</sup>

### REDUCE LABOR

- 3 workers can transplant the same amount as 15 by hand
- Easy to operate – requires little instruction or oversight

### GROW GREEN

- No fuel or energy required – uses mechanically-assisted human power

### ACHIEVE CONSISTENT RESULTS

- Even, uniform transplants in every cell
- Same depth and soil compaction, regardless of the operator
- Reduces need for growth regulators to "even out" plant

### SHIP AND SELL BETTER PRODUCT

- Less plant shock
- Less shrink
- Sell faster

MORE

Unlike other suppliers, Tagawa updates WebTrack® weekly with “**crop application reports**” of what chemicals were last applied to our products. You can use this to decide how your plugs and liners should be treated after transplant.

For information on Tagawa products and services, call **877 864-0584**.

Visit [ballseed.com](http://ballseed.com) for current Terms & Conditions of Sale.
