2025 VEGETABLE & HERB COLLECTION

**HandPicked**  
VEGETABLES®  
from PanAmerican Seed®

# HandPicked

VEGETABLES®

## BASKET BITES

This selection includes vegetables that have a **mounding/trailing** habit that looks fantastic and performs well in a **hanging basket** on a porch or balcony, and that provide loads of fresh fruit.

## PATIO PICKS

Compact varieties that are **easy to grow** and **highly productive**. They quickly fill 8-in./20-cm and larger containers for **massive appeal** on patios and entryways.

## GROUND BREAKERS

This is our largest assortment and includes **farm and garden-performing stars**, sturdy hybrids, tasty fruit and good disease resistance.

## KITCHEN MINIS™

Explore our collection of compact tabletop vegetables that **grow best indoors** on a counter or a sunny windowsill. Consumers will love harvesting their own fresh veggies and herbs.

## Trialed, Tested and Selected

The HandPicked Collection from PanAmerican Seed® brings to market novel, high-quality varieties for the **fresh market grower** and **hobby gardener**. Our vegetables and herbs have been **trialed, tested** and **chosen for excellent taste** and **fruit quality, disease resistance, earlier and longer harvests**, more **controlled plant habits** and **high productivity**. These unique, hardworking varieties help bring fresh ideas™ into the kitchen. Find out more about this exceptional collection at [panamseed.com/HandPicked](http://panamseed.com/HandPicked).

Look for these symbols that indicate the categories your favorites will do well in, and then add them to your potted, basket, farm and garden vegetable programs.

Seed supplied as: Raw

| Name   | Days to maturity from transplant | Fruit size  | Fruit characteristics               | Calyx color     | Plant habit             | Comments   |
|--|----------------------------------|---|-------------------------------------|-----------------|-------------------------|--|
| <b>Violet Delite F1</b><br> | 50-55                            | 5-7 in./13-18 cm long (baby size)<br><br>9-12 in./23-30 cm long (full size) | Bright purple, elongated            | Green and Black | Upright, semi-spineless | Slender, elongated eggplants are glossy with bright purple skin and white, tender, non-bitter flesh. Fruit can be sliced lengthwise for grilling or lightly frying, and tender skin does not need to be peeled. Sliced or diced fruit is great for a stir-fry or curry; its non-bitter flavor and tender texture will complement any sauce. Plants are upright and semi-spineless, so they are very easy and painless to harvest. Great in an in-ground garden or large container. |
| <b>Fairy Tale F1</b><br>    | 50-55                            | 1-2 in./3-5 cm long (baby size)<br><br>2-6 in./5-15 cm long (full size)     | Striped purple and white, elongated | Green           | Upright, semi-spineless | Early-maturing, highly productive variety produces clusters of attractive white fruit with violet/purple stripes. Elongated tear-drop shaped fruit are sweet and non-bitter, with a tender skin and few seeds. Fruit can be harvested when very small or left on the plant until fully mature. Petite plant habit between 18 to 24 in. (46 to 61 cm) is perfect for growing in containers or small-space gardens, with or without support. <i>All-America Selections Winner.</i>   |

Primero Red Habanero

Sweet Heat

| Name  | Days to maturity from transplant   | Fruit characteristics   | Plant habit     | Disease resistance | Comments  |
|---|------------------------------------|---|-----------------|--------------------|---|
| <b>HOT</b>  |                                    |   |                 |                    |   |
| <b>Primero Red F1</b><br><i>Capsicum chinense</i><br><br> | 75-80 to full ripe, 60-65 to green | Habanero, green to red<br>2.75-3.5 in./7-9 cm long x 1.25-1.5 in./3-4 cm wide | Large, vigorous | IR: TSWV           | One of the earliest ripening habaneros on the market, with fruit ready to harvest as early as bell peppers. Produces huge yields of fruit larger than other standard habaneros, with just about one-third the heat. Early flowering – can be sold in large pots with flowers and immature fruit. Best in containers or in-ground.<br><b>Also available as organic seed.</b> |
| <b>Sweet Heat F1</b><br><i>Capsicum annuum</i><br><br>    | 55-60 to full ripe, 40-45 to green | Snack, green to red<br>3.5-4 in./9-10 cm long x 1.25-1.75 in./3-4 cm wide     | Compact         |                    | One of the earliest peppers to bear fruit! Compact, bushy plants let you ship or sell larger containers with developing fruit. Sweet and mildly spicy peppers can be harvested green or red. Best in containers or in-ground.   |

| <b>Candy Cane Chocolate Cherry F1</b><br><i>Capsicum annuum</i><br> | 70-75 to full ripe, 55-60 to green | Mini bell, green/white stripe to chocolate/red stripe<br>3.5-3.75 in./9-10 cm long x 2.5-2.75 in./6-7 cm wide, 3.5-4.5 oz. (99 to 128 g) | Medium        |                    | Mini bell pepper plant has unique, eye-catching variegated foliage. Early-maturing fruit ripens from green and white stripes to unique chocolate and cherry red stripes. Sweet flavor and crisp texture make it perfect for fresh eating at any stage of ripeness. Best in containers or in-ground, with or without support.  |
| <b>Candy Cane Red F1</b><br><i>Capsicum annuum</i><br>              | 60-65 to full ripe, 40-45 to green | Snack, green/white stripe to red<br>3.5-4 in./9-10 cm long x 1.25-1.75 in./3-4 cm wide   | Medium        |                    | Snack pepper has unique, eye-catching variegated foliage, plus fruit that ripens from green striped to solid red. Sweet flavor, thin walls, crispy texture. Perfect for fresh eating at any stage of ripeness. Best in containers or in-ground, with or without support.  |
| <b>Prism F1</b><br><i>Capsicum annuum</i><br>                       | 75-80 to full ripe, 60-65 to green | Midi bell, light green to red<br>2-2.5 in./5-6 cm long x 2.25-2.5 in./6 cm wide, 2.25-2.75 oz. (64 to 78 g)                              | Tall, upright | HR: BLS 0-3, 7, 8  | Sweet midi bell matures from light green to orange, and then to red. Can be harvested at all stages of maturity for a multicolored "mix" on each plant. Midi bell size is perfect for stuffed peppers, eating fresh in salads and recipes that call for a small portion of bell pepper. Early maturing and highly productive. Seed has a high germination rate and offers resistance to Bacterial Leaf Spot 0-3, 7 and 8. |

**New twists on old garden favorites**

We trialed hundreds of heirlooms for key traits like color, flavor, quality, yield. Our favorites were selected... crossed... tested and evaluated. The result: Heirloom Marriage hybrid tomatoes, with much higher yields and earlier maturity than their parents, plus all of the great flavor and less fruit blemishes.

**Heirloom Marriage Big Brandy**

**Heirloom Marriage Cherokee Carbon**

**Heirloom Marriage Genuwine**

**TOMATO** ●  
*Solanum lycopersicum*  
(*Lycopersicon esculentum*)

MPL - Supplied as multi-species multi-pellets, with 3 or more seedlings per pellet. PMPL - Precision™ Multi-Pellets assure high germination uniformity.  
\*Each pellet includes Genovese, serrated and dark red selections.

**MULTI-SPECIES & SINGLE-SPECIES  
MULTI-PELLETS**
**SimplySalad® Series**

Height: 12 in./30 cm

Spread: 12 in./30 cm

**Plug crop time:** 2 to 3 weeks

- SimplySalad introduced the first multi-species multi-seed pellets for salad.
- Easy to grow with very quick crop times and only one pellet needed.
- Can be direct-sown in 4 to 6-in./10 to 15-cm pots and color bowls.
- Produces more vivid colors when finished cool.
- Gardeners will enjoy as both a colorful, mixed-texture ornamental and a delicious, nutritious edible.
- Performs best for consumers in full sun in cool weather, or partial shade as temperatures warm up.
- Best in containers.

**SimplySalad multi-pellets produce a well-balanced salad mix with one sowing.**

**Kitchen Minis™ tabletop compact vegetables and herbs match consumer interest for indoor plants and the desire to have fresh, homegrown harvests year-round.**

NEW

**Bonsai Basil**

**Quick Snack Cucumber**

**HERB BASIL** ●

Seed supplied as: Raw

| Name   | Height  | Spread                | Comments  |
|--|---|-----------------------|---|
| <b>New</b><br><b>Bonsai</b><br><i>Ocimum basilicum</i> |  6-12 in./<br>15-30 cm | 6-12 in./<br>15-30 cm | A compact, quick, uniform, fine-leaf Greek basil. Smaller leaves mean no chopping is required for use in recipes. It is also the first herb addition to the Kitchen Minis™ line, diversifying the product assortment. |

**MINI POTTED CUCUMBER** ●

*Cucumis sativus*

Seed supplied as: Raw

| Name  | Type     | Fruit characteristics   | Days to maturity from direct seed | Fruit size                                       | Comments  |
|---|----------|-------------------------|-----------------------------------|--|---|
| <b>Quick Snack</b><br> | Cocktail | Dark green skin, smooth | 38-45                             | 1.5-2.5 in./<br>4-6 cm long x<br>1 in./3 cm wide | Plants benefit from being trellised to keep upright and pinched when plant reaches top of trellis. Deliciously crisp and sweet cucumbers for your recipes! Eat fresh off the plant, or add to a vegetable platter or fresh salad. Produces handfuls of small, cocktail-sized cucumbers over a few weeks. Parthenocarpic variety will set fruit without a pollinator! Perfect for growing indoors. If grown on its own, fruit will be seedless. If grown next to other cucumbers with male flowers, there is potential to set seed. Be sure to place it in a location with high light and keep well-watered to allow fruit to mature. For best flavor, pick when fruit is 1.5 to 2.5 in./4 to 6 cm long. |

Cocoa

**MINI POTTED TOMATO** ●

*Solanum lycopersicum*  
(*Lycopersicon esculentum*)

Seed supplied as: Raw

Plant benefits from being grown dry. Support fruit weight by inserting sticks close to the central stem at the time of flowering. Ship with some ripe fruit.

Red Velvet

Siam

| Name                      | Fruit characteristics  | Growth | Plug crop time (weeks) | Potting to sale (weeks) | Pot size             | Comments   |
|---------------------------|--|--------|------------------------|-------------------------|----------------------|--|
| <b>CHERRY</b>             |  |        |                        |                         |                      |  |
| <b>Cocoa F1</b><br>🍴      | Dark red<br>0.5-1 in./1-3 cm long x<br>0.5-1 in./1-3 cm wide   | CD     | 2-3                    | 10-12                   | 4-6 in./<br>10-15 cm | Cocoa will brighten up your windowsill or patio table, and it has a tidy plant habit. | <b>Red Velvet F1</b><br>🍴 | Red<br>0.5-1 in./1-3 cm long x<br>0.5-1 in./1-3 cm wide        | CD     | 2-3                    | 10-12                   | 4-6 in./<br>10-15 cm | Red Velvet will brighten up your windowsill or patio table, and it has a tidy plant habit. Red Velvet provides beautiful red-colored fruit that is deliciously sweet for your recipes! |
| <b>Siam F1</b><br>🍴       | Bright red<br>0.5-1 in./1-3 cm long x<br>0.5-1 in./1-3 cm wide | CD     | 2-3                    | 10-12                   | 6-8 in./<br>15-20 cm | Siam will brighten up your windowsill or patio table, and provides deliciously sweet fruit for your recipes! With Siam, you'll enjoy handfuls of fruit over a few weeks.               |

CD: compact, determinate.

Cosmo

Hot Burrito

Hot Fajita

Hot Lemon Zest

**MINI EDIBLE POTTED PEPPER** ●

*Capsicum annuum*

**Seed supplied as:** Raw

Pepper plants are ready to place inside on a sunny counter or windowsill, or outside on a patio table. They are ideally sold with some ripe fruit - "ready to harvest." They continue to produce tasty vegetables over 4 to 6 weeks.

| Name                            | Fruit characteristics   | Plug crop time (weeks) | Potting to sale (weeks) | Pot size             | Comments  |
|---------------------------------|---|------------------------|-------------------------|----------------------|---|
| <b>HOT</b>                      |   |                        |                         |                      |   |
| <b>Cosmo</b><br>))              | Blunt conical, purple to red<br>2 in./5 cm long x<br>0.75 in./2 cm wide                 | 3-4                    | 16-18                   | 6-8 in./<br>15-20 cm | Brilliant purple, snack-sized fruit turns red when fully mature. Use fresh or cooked to add a medium amount of spice to any dish.   |
| <b>Hot Burrito</b><br>)         | Blunt, upright, conical, light green to red<br>4 in./10 cm long x<br>0.75 in./2 cm wide | 3-4                    | 14-16                   | 6-8 in./<br>15-20 cm | Lime-green fruit will ripen to bright red for a colorful display of fruit on top of the foliage. Broad, conical fruit is mildly spicy and great for adding to a sauce or slow-cooking with braised savory dishes. |
| <b>Hot Fajita</b><br>)))        | Medium chili, light green to red<br>4 in./10 cm long x<br>0.5 in./1 cm wide             | 3-4                    | 14-16                   | 6-8 in./<br>15-20 cm | Upright plant habit will show off eye-catching lime-green fruit that ripens to bright red. The long, tapered peppers are fleshy and spicy, perfect for cooking.   |
| <b>Hot Lemon Zest</b><br>)))))) | Habanero, green to yellow<br>1 in./3 cm long x<br>0.5 in./1 cm wide                     | 3-4                    | 15-17                   | 6-8 in./<br>15-20 cm | Don't be fooled by the gorgeous lemon-yellow fruit; these peppers pack a punch of heat. Small, teardrop-shaped peppers are great for spicing up a salsa or hot sauce!   |

) = mild    )) = mildly hot    ))) = medium hot    )))) = hot    ))))) = extra hot

**Tamale**

**Fresh Bites Orange**

**Taquito**

**Fresh Bites Red**

**Fresh Bites Yellow**

| Name  | Fruit characteristics  | Plug crop time (weeks) | Potting to sale (weeks) | Pot size               | Comments   |
|---|--|------------------------|-------------------------|------------------------|--|
| <b>HOT</b>  |  |                        |                         |                        |  |
| <b>Tamale</b><br>)))                                |  Blunt conical, green to red<br>2 in./5 cm long x<br>0.75 in./2 cm wide               | 3-4                    | 14-16                   | 4-6 in./<br>10-15 cm   | Jazz up your tamales and enchiladas with this crisp, juicy, thick-walled pepper with a mild, spicy flavor. Dark green fruit ripens to bright red and hangs down on a medium-sized plant.                 |
| <b>Taquito</b><br>))))                              |  Small, upright, chili, green to red<br>1.5 in./4 cm long x<br>0.3 in./1 cm wide      | 3-4                    | 15-17                   | 3-4 in./<br>8-10 cm    | This pint-sized pepper plant is perfect for a windowsill with decorative, upright, conical peppers and small foliage. Spicy fruit ripens from green to bright red and is great for adding to a stir-fry. |
| <b>SWEET</b>  |  |                        |                         |                        |  |
