

**SUN
STANDING**
Outstanding Anywhere

The most uniform series of sun-tolerant impatiens, period.

Uniformity across a series is something that all breeders strive for. With SunStanding Impatiens, we have achieved perfect uniformity for growers and gardeners through our innovative breeding techniques, creating new color expressions on genetically identical plants.

Understanding the SunStanding Families

Our SunStanding series is organized into four families that are genetically identical across colors within each family, making predictability for the grower and landscaper a breeze.

SunStanding Apollo

SUNSTANDING APOLLO

- Most adaptable family for all uses with the widest range of colors
- Excellent vigor appropriate for professional landscapers
- Quick Turn™ cuttings make production in small containers a breeze

This series is our most popular choice for large landscape installations, featuring intense pure colors on plants with exceptional vigor. Perfectly matched across the colors, landscapers can mix and match for designer and seasonal color combinations. The full sun and full shade tolerance of SunStanding varieties makes them a versatile option to use across all landscape beds.

SunStanding Helios

SUNSTANDING HELIOS

- Compact habits are easy for smaller retail containers
- Innovative color options have high consumer appeal
- A profusion of flowers for maximum gardener satisfaction

For growers looking for varieties suitable to smaller containers, or landscapers needing a front-of-the-border option, the Helios family offers the same characteristics as Apollo varieties, but with a 20% smaller plant habit, smaller leaves, and smaller, but more prolific flowers.

SunStanding Spot-On

SUNSTANDING SPOT-ON

- Large vigorous plant habits fill big landscape spaces
- Glowing pastel colors are well-suited for evening traffic areas
- Mounding and spreading habit for maximum coverage with minimal inputs

This is our most vigorous family in the SunStanding brand and offers gardeners and landscapers a range of glowing pastel colors, accented with a rich burgundy spot in the centers. The colors of Spot-On varieties glow in the evening and moon light, making them most suitable for homeowner backyards, restaurant patios, or wherever heavy evening traffic will be present.

SunStanding Jazzy

SUNSTANDING JAZZY

- Vibrant tropical flair with variegated foliage
- Brightens up combination containers with both leaves and flowers
- Dramatic retail appeal on the bench

Jazzy varieties add dramatic flair to the program with a bright tropical look. With intense neon colored flowers on top of brilliant lemon-lime variegated foliage, these are showstoppers on the retail bench and in large combination containers. The decorative foliage of Jazzy varieties works equally well as an ornamental addition to combos, but with the added bonus of vibrant flowers throughout the summer.

**DISCOVER OUR NEWEST
HIGHLIGHT**

SUNSTANDING® JAZZY
CORAL | 30351

Bold neon blooms paired with striking two-tone foliage lend a tropical feel to Jazzy impatiens.
Create showstopping displays in large containers and landscape beds.

De spectaculaires fleurs néon jumelées à un feuillage bicolore saisissant donnent une allure tropicale aux impatiens Jazzy. Ils composent des tableaux très remarquables en gros contenants ou dans les aménagements.

Las llamativas flores color neón combinadas con un sorprendente follaje de dos tonos, le dan un toque tropical a Jazzy impatiens. Cree espectaculares presentaciones en grandes contenedores y en jardineras.

HYBRID IMPATIENS

SunStanding® Jazzy

Brightly variegated foliage makes Jazzy an excellent option for bringing a tropical flare to the sun or shade garden

Un feuillage panaché éclatant fait de Jazzy un choix idéal pour donner une touche tropicale au jardin, à l'ombre comme au soleil

Su brillante follaje jaspeado, hace de Jazzy una opción excelente para dar un toque tropical a jardines de sol o de sombra
