

# VENTNOR BOTANIC GARDEN

PLANT ORDER CATALOGUE SUMMER 2020

## INTRODUCTION

Welcome to Ventnor Botanic Garden's Summer Plant order catalogue 2020. A wide range of the stunning, unusual and rare plants from the Garden are available to purchase, including our trademark Echiums, colourful Lampranthus, Canna cultivars and our own sky blue hybrid Agapanthus. This extensive range includes rarities, oddities and esoteric plants for the plantsman or plant collector. All plants listed are subject to availability. We can reserve plants for later collection and propagate to order. Delivery prices vary depending on size and weight. Ordering is easy, just send us an email with what you'd like, or give us a call & we'll handle the rest.

Looking for that special plant? VBG has a wide range of plants that we can propagate to order, or we can source just about any plant especially for you. Let us know when ordering if you'd like any compost, plant labels or markers, string for rows, plant pots or any other supplies. Get in touch to find out more.

## VBG@Home

Ventnor Botanic Garden offers a design and landscaping service to help you to create your dream garden. From small gardens not reaching their potential to larger areas that need re-landscaping, our gardeners are here to help you. Our expert team will visit your Isle of Wight or Hampshire site or garden to see it in its current state, understand your horticultural wishes, and review the health of your plants, shrubs, and trees; before making suggestions to help you to make the most of the space. It could be as simple as planning a new garden feature and getting advice on pruning; or as involved as plant identification and garden restoration. Even creating a legacy arboretum. Our team of gardeners will then carry out the works, creating your dream garden.
