R	Response time The response time indicates the number of weeks between the beginning of the short day period and the flowering date, at normal temperature and light intensity.	Reaktionszeit Die Reaktionszeit gibt die Anzahl Wochen zwischen dem Anfang der Kurztagsperiode und dem Blütedatum an, bei normaler Temperatur und heller Lichtintensivität.	Termine di reazione Il termine di reazione indica quante settimane ci vogliono dall'inizio del fotoperiodo corto fino alla data di fioritura, dato una temperatura e un'intensità di luce normale.	Respuesta Respuesta se refiere a la cantidad de semanas transcurridas entre el principio del periodo de días cortos y el momento de la floración, bajo temperaturas e intensidad de luz normales.
F	Form The most important characteristics of each variety are given under form.	Form Unter Form verstehen sich die wichtigsten Eigenschaften von jeder Sorte.	Forma Sotto forma vengono date le caratteristiche più importanti di ogni varietà.	Forma Bajo forma se especifican las características más destacadas de cada variedad.
Ø	Diameter of flower centre The diameter of the flower and that of the centre of the flower appear under this symbol. For instance '50/20' means that the diameter of the flower is 50 mm and of the centre 20 mm.	Durchmesser Blütenmitte Der Durchmesser der Blüte und ihrer Mitte erscheint unter diesem Symbol. Z.B. '50/20' bedeutet, dass der Durchmesser der Blüte 50 mm und die Mitte der Blüte 20 mm beträgt.	Diametro della parte centrale del fiore Il diametro del fiore e quello del disco centrale del fiore si trovano a questo simbolo. Per esempio '50/20' vuol dire che il diametro del fiore misura 50 mm mentre il disco centrale ne misura 20 mm.	Diámetro de la flor / del corazón Bajo este símbolo se especifican los diámetros de la flor y del corazón de la flor. La indicación '50/20' significa que el diámetro de la flor es 50 mm y el del corazón de la flor 20 mm.
V	Vigour group '7' is used for the most vigorous varieties and a lower number for the less vigorous ones.	Wuchs '7' zeigt den kräftigsten Wuchs und eine niedrigere Zahl den weniger kräftigen Wuchs einer Sorte an.	Gruppo di resistenza Il '7' viene usato per le varietà più resistenti e per le varietà meno forti vengono usati dei numeri più bassi.	Vigor El '7' indica que se trata de una de las variedades más vigorosas mientras que las menos vigorosas se indican con números más bajos.

European distributor

Our experience is your result!

Straathof Plants BV is an export business that has developed through many years of specialisation in chrysanthemum growing. The excellent quality of our chrysanthemum cuttings is guaranteed by several factors. First and foremost these products are the result of extensive know-how in the fields of breeding, propagation and innovation. In addition our chrysanthemum cuttings all originate from ideal production locations in the Netherlands, Kenya, Tanzania, South Africa, Uganda, Ethiopia and other countries.

The production centres are all highly efficient and equipped to the latest standards of technology. They are managed by experts from the Netherlands, the world's leading country in terms of floriculture and cultivation technology. The end product in this chain is no more or less than a first class chrysanthemum. A product that promises optimal returns in terms of cropping and profitability. The cuttings are continuously monitored by the General Netherlands Inspection Service (NAK) and bear the extra guarantee implied by the 'Phytomark' seal of plant health.

Fiduga, Uganda

At Straathof Plants BV we deal in:

- high quality, virus and disease free cuttings;
- just in time delivery;
- optimal transfer of knowledge and technical support;
- short lines, personal contact, our target is your success;
- and, last but not least, an innovative and market-oriented assortment, which is subject to continuous upgrading.

Network of knowledge

Straathof Plants BV traditionally maintains close links with the Dümme Orange Group, global market leader in the sale, breeding, marketing and licensing management of an extensive range of potted and cut chrysanthemums and other ornamental plants. Straathof Plants BV has acquired the exclusive distribution rights to the complete range of Dümme Orange cut chrysanthemum cuttings in Europe. Straathof Plants BV also has an agreement to sell Dekker Chrysanten varieties in most EU countries. Both companies work closely together. The logistical, commercial and production processes at both Dümme Orange and Dekker Chrysanten merge seamlessly into the export activities carried out by Straathof Plants BV.

In terms of research, breeding and the development of new cut chrysanthemums, the export activities of Straathof Plants BV have traditionally been linked to those of Dümme Orange Breeding. Similarly, benefits in the field of pot chrysanthemums are gained from more than 60 years of know-how and experience.

More products

Straathof Plants BV also acts as the exclusive agent in Austria. The entire range of pot plants is described in a separate catalogue available from us on request. Straathof Plants BV is also the European distributor for outdoors chrysanthemums and summer flowers produced by respected

Dutch growers, who belong to a carefully constructed network involving, know-how, breeding, logistics and sales. The most striking thing about this category is the range of Lisianthus it offers (see page 70).

Interested?

If you are interested in getting to know more about our products, please do not hesitate to contact us. Our tradition of maximum exchange of knowledge makes us both ready and able to improve and increase your profits.

Unsere Erfahrung ist Ihr Erfolg!

Die Exportfirma Straathof Plants BV ist aus jahrelanger Spezialisierung in der Chrysanthemenzucht hervorgegangen. Die hochwertige Qualität unserer Chrysanthemenstecklinge wird durch mehrere Faktoren gewährleistet. An erster Stelle sind diese Produkte das Resultat von umfassendem Know-how, wenn es um Veredlung, Vermehrung und Innovation der Rassen geht. Außerdem werden die Chrysanthemenstecklinge in idealen Standorten produziert, wie unter anderem in den Niederlanden, Kenia, Tansania, Südafrika, Uganda und Äthiopien.

Diese Produktionsbetriebe sind effizient und sehr modern eingerichtet. Sie werden von Experten aus den Niederlanden geleitet, das Land für Zierpflanzen schlechthin und weltweit Marktführer in der Technologie für den Anbau von Zierpflanzen. Das Endprodukt in dieser Kette ist nichts mehr oder weniger als eine Spitzenchrysantheme. Ein Produkt, das, wenn man von Ertrag und Gewinn spricht, sich optimal rentiert. Die Qualität dieser Stecklinge wird ständig von der niederländischen allgemeinen Prüfstelle (NAK) überwacht und wird noch extra durch das Gütezeichen für Pflanzenschutz 'Phytomark' garantiert.

Grundbegriffe für Straathof Plants BV sind:

- hochwertige Qualitätsstecklinge, die virusfrei und ohne Krankheitserreger sind;
- *just in time delivery*;
- optimale Kenntnisvermittlung und technische Unterstützung;
- direkter und persönlicher Kontakt, unser Ziel ist Ihr Erfolg;
- und vor allem: ein innovatives und marktorientiertes Sortiment, das ständig der Verbesserung unterliegt.

Kenntnisnetzwerk

Straathof Plants BV unterhält traditionsgemäß enge Beziehungen zum Dümme Orange Konzern, weltweit Marktführer im Verkauf, in der Veredlung, im Marketing und in der Verwaltung von Lizenzen eines umfangreichen Schnitt- und Topfchrysanthemensortiments und anderen Zierpflanzen. Straathof Plants BV hat von Dümme Orange die exklusiven

Vertriebsrechte für das gesamte Sortiment von Schnittchrysanthemen in Europa erhalten. Straathof Plants BV hat auch mit Dekker Chrysanten eine Vereinbarung über den Vertrieb von Dekker Chrysanthemen Sortiment in den meisten EU-Ländern getroffen. Die logistischen, kommerziellen und Produktionsprozesse sowohl für Dümme Orange- wie auch der Dekker-Chrysanthemen fügen sich nahtlos in die von Straathof Plants BV betriebenen Exportaktivitäten.

Auf dem Gebiet der Forschung, der Veredlung und der Entwicklung neuer Rassen von Schnittchrysanthemen sind die Exportaktivitäten wie eh und je mit denen von Dümme Orange Breeding verbunden. Auf dem Gebiet der Topfchrysanthemen wird auf dieselbe Art und Weise von der gut 60 jährigen Erfahrung und vom Know-how von Fides.

Andere Produkte

Straathof Plants BV ist auch exklusiver Vertreter für alle Qualitätsprodukte von Dümme Orange in Österreich. Eines gesamte Topfpflanzensortiment steht in einem separaten Katalog, der bei uns bestellt werden kann.

Fides, Kenia

Straathof Plants BV ist gleichzeitig europäischer Verteiler von Freilandchrysanthemen und Sommerblumen, produziert von renommierten holländischen Züchtern, die an einem sorgfältig auf-gebauten Netz von Kenntnis, Veredlung, Logistik und Verkauf teilnehmen. Das Auffälligste in dieser Kategorie sind die verschiedenen Sorten der Lisianthus (siehe Seite 70).

Interessiert?

Sind Sie interessiert und wollen Sie unsere Produkte näher kennen lernen? Setzen Sie sich dann ruhig mit uns in Verbindung. Ausgehend von unserer Tradition, eines maximalen Kenntnis-austausches, sind wir vollauf bereit, Ihre Rendite zu unterstützen und zu erhöhen.

La nostra esperienza, il vostro risultato

La Straathof Plants BV come ditta esportatrice è nata da una specializzazione di anni nella coltivazione di crisantemi. Parecchi fattori garantiscono l'ottima qualità delle talee dei nostri crisantemi. Prima di tutto questi prodotti risultano da un know-how vasto, per l'innesto, propagazione ed innovazione delle razze. Inoltre le talee dei crisantemi provengono da posti ideali per la produzione che sono situati in paesi come l'Olanda, il Kenia, il Tanzania, il Sudafrica e il Etiopia.

Queste ditte esportatrici sono efficienti ed attrezzate in modo molto moderno. Vengono gestite da esperti olandesi, paese produttore di piante ornamentali per eccellenza e leader mondiale nell'ambito tecnologico della coltivazione. Il prodotto finito in questa catena è un crisantemo di qualità eccellente. Un prodotto con cui si può riscuotere un rendimento massimo in termini di rac-colta e redditività. La qualità di queste talee viene controllata continuamente dal Nederlandse Algemene Keurings-dienst (NAK, Ispettorato Generale d'Olanda) e una garanzia in più viene fornita dal marchio fitosanitario 'Phytomark'.

I nozioni essenziali per la Straathof Plants BV sono:

- Talee di prima qualità libere da virus e malattie;
- *Just in time delivery*;
- Ottimo trasferimento di conoscenze e sostegno tecnico;
- Delle linee brevi, contatto personale, il nostro scopo è il vostro successo;
- E soprattutto: un assortimento innovativo mirato al mercato, soggetto continuamente a miglioramenti.

Rete di conoscenza

La Straathof Plants BV intrattiene da molto tempo dei legami stretti con la holding Dümme Orange, leader mondiale del mercato per quanto riguarda la vendita, l'innestare, il marketing e la gestione di licenze, con un assortimento vasto di crisantemi da vaso e da fiore reciso e di altre piante ornamentali. Della Dümme Orange la Straathof Plants BV ha acquisito i diritti

esclusivi di distribuzione per l'assortimento totale delle talee di crisantemi da fiore reciso in Europa. Straathof Plants BV ha un accordo anche con Dekker Chrysanten per vendere le loro varietà di crisantemi nella maggior parte dei Paesi UE. I processi logistici, commerciali e produttivi sia di Dümme Orange che di Dekker Chrysanten confluiscono alla perfezione nelle attività di esportazione di Straathof Plants BV.

Fides, Kenia

Da sempre le attività esportatrici della Straathof Plants BV nell'ambiente della ricerca, dell'innestare e dello sviluppo di nuove razze di crisantemi da fiore reciso sono collegate a quelle del Dümme Orange. Allo stesso modo approfitta dei più di 60 anni d'esperienza e know-how della Fides a proposito dei crisantemi da vaso.

Più prodotti

In Austria, in Svizzera, in Ungheria, in Portogallo e nel Sud Italia la Straathof Plants BV è anche il rappresentante esclusivo per tutti i prodotti di qualità della Dümme Orange. Tra questi ci sono i crisantemi da vaso (pag. 49), i Garden Mums, i multiflora. Questo assortimento totale delle piante da vaso viene elencato in un catalogo speciale, che si può richiedere a noi.

La Straathof Plants BV è anche il distributore d'Europa di varietà uniflora e di fiori estivi, prodotti da coltivatori rinomati in Olanda, i quali fanno parte d'una rete costruita con cura, fatta di un trasferimento di conoscenza per quanto riguarda l'innestare, la logistica e la vendita. Le varietà più note di questa categoria sono le diverse razze dell'*Lisianthus* (pag. 70).

Interessati?

Siete interessati ad una conoscenza più approfondita dei nostri prodotti? Non esitate a contattarci. Dalla nostra tradizione fatta di trasferire alti livelli di conoscenza partiamo pienamente disposti a sostenere ed aumentare il vostro rendimento.

¡Nuestra experiencia le resultará!

Las actividades exportadoras de Straathof Plants BV se basan en largos años de experiencia en el cultivo de crisantemos. La alta calidad de nuestros esquejes de crisantemo es garantizada por varios factores. En primer lugar los productos resultan del profundo conocimiento en cuanto a técnicas de mejora, reproducción e innovación de las variedades. Además los esquejes proceden de los lugares de producción idóneos en Holanda, Kenia, Tanzania, Sudáfrica, Uganda, Etiopía y otros países.

Las instalaciones de los productores son muy eficientes y modernas. Están dirigidos por expertos que proceden de Holanda, el país por excelencia del cultivo ornamental y líder mundial en técnicas de cultivo. El producto final es, ni más ni menos que un crisantemo excelente. Un producto que proporciona un rendimiento óptimo en términos de cosecha y margen comercial. La calidad de los esquejes está bajo control continuo del Nederlandse Algemene Keuringsdienst (NAK) (Servicio de Inspección General Holandés) y además está garantizada por el distintivo fitosanitario denominado 'Phytomark'.

Los siguientes conceptos son primordiales para Straathof Plants BV:

- esquejes de alta calidad que están libres de enfermedades y virus;
- suministro en los plazos previstos;
- transmisión de conocimientos y apoyo técnico óptimos;
- relación directa con el cliente, contacto personal, su éxito es nuestro objetivo;
- y sobre todo: un surtido innovador y orientado al mercado que se está mejorando continuamente.

Una red de conocimiento

Desde siempre Straathof Plants BV mantiene una estrecha relación con las empresas del grupo Dümme Orange que son líderes mundiales en venta, mejora, marketing y administración de licencias para un amplio surtido de crisantemos para flor cortada y en maceta, así como de otras plantas ornamentales. Dümme Orange adjudicó a Straathof Plants BV la exclusiva para la distribución en Europa del surtido

completo de esquejes de crisantemo para flor cortada. Straathof Plants BV tiene también un acuerdo con Dekker Chrysanten para vender variedades de crisantemos de Dekker Chrysanten en la mayoría de los países de la UE. Los procesos logísticos, comerciales y de producción tanto de Dümme Orange como de Dekker Chrysanten están totalmente integrados en las actividades de exportación llevadas a cabo por Straathof Plants BV.

En lo que se refiere a la investigación, mejora y desarrollo de nuevas variedades de crisantemos para flor cortada, las actividades exportadoras de Straathof Plants BV están estrechamente relacionadas con las de Dümme Orange. De la misma manera se aprovechan los más de 60 años de experiencia y conocimiento en el terreno de los crisantemos en maceta de la empresa Fides.

Más productos

En Austria, Suiza, Hungría, Portugal y el sur de Italia, Straathof Plants BV es agente exclusivo para todos los productos de calidad de Dümme Orange. Entre ellos se encuentran crisantemos en maceta (ver pág. 49), Garden Mums, Multiflora.

Si lo desea le enviamos el catálogo que contiene el surtido de plantas en maceta.

Straathof Plants BV también es distribuidor europeo de crisantemos aire libre y flores de verano producidas por prestigiosos cultivadores holandeses que integran una red con gran experiencia en logística y ventas. Las flores de verano más destacadas son las variedades de Lisianthus (ver pág. 70).

* Plant period is the time of the year that the variety can be planted in a mediterranean area.

* From planting to flowering in weeks, this period highly depends on the climatic conditions.

week 51 till 6
week 6 till 18
week 18 till 34
week 35 till 50

cool period with short days, light level is increasing
reasonable temperature, high light level
longest and warmest days, highest light level
days are shortening, less light and cooler nights

T	<p>Temperature group The varieties have been graded into temperatures groups. '6' means the highest tolerance to low temperatures and '1' means a low tolerance to low temperatures. These results have been obtained under conditions prevailing in North-western Europe in winter, where sensitivity to low light intensity in creases sensitivity to low temperatures.</p>	<p>Temperatur Die Sorten sind in Gruppen mit derselben Temperatur eingeteilt. '6' bedeutet höchste Toleranz bei niedrigen Temperaturen und '1' bedeutet niedrige Toleranz bei niedrigen Temperaturen. Diese Angaben gelten unter allgemeinen Bedingungen in Nordwesteuropa im Winter, wo Empfindlichkeit für helle Lichtintensität die Empfindlichkeit für niedrige Temperaturen erhöht.</p>	<p>Gruppo di temperatura Le varietà sono state ordinate in gruppi di temperatura. Un '6' significa la tolleranza più alta a proposito delle temperature basse mentre l' '1' vuol dire poco tolleranza per le temperature basse. Questi risultati sono stati ottenuti sotto condizini comuni nell'Europa settentrionale e occidentale in inverno, dove la sensitività per una bassa intensità di luce aumenta la sensitività per le temperature basse.</p>	<p>Temperatura Las variedades están clasificadas según su resistencia a temperaturas bajas. '6' indica la máxima resistencia a temperaturas bajas y '1' indica la menor resistencia. Los resultados han sido obtenidos bajo las condiciones climatológicas del noroeste de Europa en invierno, donde la baja intensidad de la luz implica mayor sensibilidad a temperaturas bajas.</p>
	<p>Santini Varieties suited for Santini culture have a maximum stem length of 55 cm and a flat spray formation with small flowers, to a maximum of 4 cm. This makes them excellent for use in mixed bouquets. However, a bouquet of Santinis used alone in a vase will look wonderful because of their high ornamental value.</p>	<p>Santini Sorten geeignet für Santinikultur. Zum Schnitt hat die Santini eine maximale Stiellänge von 55 cm und einen flachen Blütenaufbau mit kleinen Blüten von maximal 4 cm. Deswegen eignen sie sich so ausgezeichnet für gemischte Bukette, aber auch nur Santini's alleine im Bukett sehen wegen ihres hohen Zierwertes in einer Vase sehr hübsch aus.</p>	<p>Santini Una varietà adatta a coltivazione Santini. Tagliati, gli steli dei Santini hanno una lunghezza massima di 55 cm e una formazione spray piatto a piccoli fiori che misura al massimo 4 cm. Grazie a questo sono molto adatti per l'uso nei mazzi misti, ma anche un mazzo composto esclusivamente da Santini fornirà un bellissimo vaso di fiori, grazie al loro valore altamente ornamentale.</p>	<p>Santini Las variedades que son aptas para el cultivo de Santinis presentan tallos con un largo máximo de 55 cm y racimos de pequeñas flores que miden como máximo 4 cm. Por este motivo son muy aptos para ramos mixtos, pero también un florero con sólo Santinis será espectacular por su alto valor decorativo.</p>

				
P	<p>This is a licensed variety. The reproduction or sale of licensed plant material is subject to the terms of a license agreement with the breeder.</p>	<p>Die Sorte ist eine Lizenzsorte. Erlaubnis zum Vermehren oder Verkauf von Pflanzenmaterial mit Lizenz kann man nur mit einem unterschriebenen Lizenzvertrag vom Veredler (Breeder) bekommen.</p>	<p>La varietà è una varietà brevettata. Per un permesso di propogazione o di vendita dei prodotti delle piante brevettate si ha bisogno d'un accordo firmato dal coltivatore.</p>	<p>Estas variedades están sujetas a derechos de concesión.
