

**Brandywine Snowdrops
2021 Dormant Bulbs List**

<u>Name</u>	<u>Price</u>
G. 'Angel Fley'	\$100
A small but charming, neat plant with leaves close to the ground. The flowers have apical and basal inner markings and outers that show faint pale green lines.	
G. 'Anglesey Doublet'	\$50
A lovely neat double hybrid selected at the world-famous Anglesey Abbey in Cambridgeshire.	
G. 'Anglesey Orange Tip'	\$80
Also from Anglesey Abbey, this <i>Galanthus elwesii</i> selection has unusual orange-tinted flowers. The color is richest in bud and fades somewhat as the flower ages.	
G. 'Augustus'	\$25
A delightful, short <i>G. plicatus</i> with wide prostrate leaves and chubby puckered flowers. Named by Amy Doncaster for E.A. Bowles.	
G. 'Bill Bishop'	\$20
This is one of the sought after large-flowered snowdrops with huge and thickly sculptured outer petals, so heavy that they often bend the stems back close to the ground. Early flowering. Bill Bishop was a superintendent of the Harrogate Parks department in the 1980's.	
G. 'Bill Boardman'	\$70
A stunning late flowering <i>G. plicatus</i> with a bright yellow single inner mark.	
G. 'Bill Clark'	\$50
A stunning yellow <i>G. plicatus</i> found at Wandlebury Ring by Bill Clark. This is from the same population as the better known 'Wendy's Gold' but with a more rounded inner segment mark.	
G. 'Bitter Lemons'	\$170
A seedling found under the same tree as 'Midas'. This is another hybrid whose markings change color from green to yellow as the flower ages, but this flowers much earlier.	
G. 'Boyd's Double'	\$100
The first recorded spiky double from a garden in Berwickshire where only <i>G. nivalis</i> grew. This is the darkest green of all the spiky doubles.	
G. 'Bumble Bee'	\$140
Of all the single-marked inverse poculiform <i>G. plicatus</i> , this stands out as one of the very best with arguably the heaviest outer segment marking. This and the rounded flowers inspired the name. A superb addition raised by Joe Sharman at Monksilver Nursery, Cambridge and is another that we received originally from Matt Bishop.	
G. 'Chantry Taffeta'	\$70
The name of this <i>G. plicatus</i> seedling from Glen Chantry was suggested by Val Bourne. The segments are beautifully crinkly, like taffeta.	
G. 'Cowhouse Green'	\$50
One of the early discoveries of a snowdrop with green markings over much of the outer segments, found by Mark Brown in the 1980s in Buckinghamshire. There have been more since, but this one still carries that aura of excitement from those days.	

**Brandywine Snowdrops
2021 Dormant Bulbs List**

<u>Name</u>	<u>Price</u>
G. 'Das Gelbe Vom Ei'.....	\$240
From Hagen Englemann, this form of <i>G. nivalis</i> has an intense golden yellow mark on the inner segment.	
G. 'Diggory'.....	\$50
Possibly the most distinct snowdrop: the outer segments are very puckered and curl inwards strongly, creating a look somewhat like a ballooned skirt with a drawstring around the hem.	
G. 'Dryad Gold Charm'	\$150
One of the famous 'Dryad Gold' selections from Anne Wright, the newly opened flowers are shaped like large, long teardrops.	
G. 'Dryad Gold Star'	\$150
A smaller 'Dryad Gold' selection, with relatively large flowers. Quick to increase.	
G. 'E. A. Bowles'	\$80
One of the best selections of recent years, a supersized poculiform of <i>G. plicatus</i> from Myddelton House, former home of the father of galanthophiles!	
G. 'Ecusson d' Or'	\$60
A wonderful find by Mark Brown in 2002, one of the most desirable maybe even the Holy Grail of snowdropping, combining yellow tips to inner and outer segments. Ecusson is a tiny hamlet of four houses in Normandy, and French for shield.	
G. 'Epiphany'	\$20
A hybrid snowdrop with long outer segments that flowers very early in the main season.	
G. 'Eric Fisher'	\$90
From John Morley at North Green, this large-flowered form of <i>G. plicatus</i> has 4 outer and 4 inner segments when established, most enchanting and showy as a clump.	
G. 'Faringdon Double'	\$25
One of the earliest double snowdrops, often in flower soon after the New Year. Found by Ruby and David Baker.	
G. 'Federschwingen'.....	\$120
A late-flowering <i>G. nivalis</i> with the outers strongly marked in green. From Kurt Kleisa.	
G. 'Fieldgate Prelude'.....	\$20
A seedling from <i>G. elwesii</i> 'Mrs Macnamara' raised by Colin Mason. Early-flowering with a long ovary and an inner mark that fades towards the base.	
G. 'Fieldgate Superb'.....	\$30
Large, rounded flowers with "clawed" outers late in the season. This, too, is from Colin Mason.	
G. 'Gerard Parker'	\$20
An early and very large-flowered <i>G. plicatus</i> selection. A dependable garden plant, this is very showy and robust.	

**Brandywine Snowdrops
2021 Dormant Bulbs List**

<u>Name</u>	<u>Price</u>
G. 'Godfrey Owen'	\$40
Distinctly different with six outer segments of the same length as well as six shorter inner segments usually marked by two small green dots. Named after the late Margaret Owen's husband in 1996.	
G. 'Golden Fleece'	\$300
The first yellow-marked inverse poculiform bred by Joe Sharman of Monksilver Nursery. Spectacular!	
G. 'Green Comet'	\$50
A lovely green-leaved seedling from <i>G. elwesii</i> 'Comet' found by John Morley at North Green.	
G. 'Gunter Waldort'	\$70
Named to commemorate the German galanthophile, this has a large, handsome flower with very long outer segments.	
G. 'Halfway'	\$50
This could be a hybrid, halfway between a single and double, leaves applanate, with the flowers showing 3 or more outer and inner segments.	
G. 'Harewood Twin'	\$60
A nice twin-headed selection of <i>G. elwesii</i> .	
G. 'Hoverfly'	\$40
Phil Cornish found this in the mid-1990s, an elegant flower held on a horizontal pedicel giving the appearance of an insect.	
G. 'Irish Green'	\$50
A late-flowering, green-washed spiky found by Ruby Baker in Ireland.	
G. 'Joe Spotted'	\$100
Found and first spotted by Joe Sharman in the Shropshire garden of David Bromley.	
G. 'Josie'	\$60
A beautifully marked hybrid with very bold bright green tips to the outers and almost completely green inner segments.	
G. 'June Boardman'	\$70
A yellow <i>G. plicatus</i> hybrid with long narrow outers selected by Bill Boardman and named after his wife.	
G. 'Karneval'	\$24
A cultivar from Germany with well-shaped flowers held on a long pedicel.	
G. 'Kite'	\$20
Large and fine, this sometimes produces two flowers on a single scape. A <i>G. elwesii</i> seedling selected by Oliver Wyatt in the 1950s.	
G. 'Lucy'	\$70
A wonderful boldly marked hybrid from Richard Bashford and Val Bexley at Woodchippings, strong growing with intriguing dark green splashes to the outer segments.	

**Brandywine Snowdrops
2021 Dormant Bulbs List**

<u>Name</u>	<u>Price</u>
G. 'Magic' A seedling from the garden of the late Veronica Cross, the flower has beautifully marked outers and hangs from a long pedicel.	\$140
G. 'Magnet' Large flowered with a long pedicel. From the 1890s.	\$10
G. 'Marjorie Brown' A very late-flowering <i>G. elwesii</i> selection with large flowers and very broad grey leaves. Vigorous.	\$20
G. 'Matt Bishop' From the author of The Snowdrop Book, this large virescent form of <i>G. elwesii</i> is at its best in early December, and so heavily washed with green as to appear luminous!	\$150
G. 'Merlin' This beautiful plant has a distinctly upright stance and an all-green inner mark. A classic, named by James Allen in 1891.	\$25
G. 'Midas' One of the fabled color change snowdrops – the green tips to inners and outers turn to a glowing golden yellow a few days after first opening. This x <i>valentinei</i> hybrid is best in some sun.	\$100
G. 'Mordred' One of the best selections from the late Simon Savage, this is a superb virescent double.	\$60
G. 'Morgana' Selected by the late Simon Savage, this form of <i>G. elwesii</i> has a dramatic glowing green color to the outer segments, truly outstanding.	\$200
G. 'Mother Goose' A stunning new hybrid from John Morley's garden, the flower has a single inner segment mark of a rich golden glowing yellow. Some seasons show better color than others, nobody knows why, perhaps temperature and light levels play a part, but patience helps too.	\$110
G. 'Narwhal' A double spiky from Joe Sharman. Late-flowering with green-washed outer segments.	\$40
G. 'Northern Lights' For its large, shapely flowers and their unique coloration amongst virescent snowdrops, 'Northern Lights' is destined to become one of the classic cultivars to which others ought to measure. Outer and inner segments shaded the most extraordinary and other-worldly green, inner marking showing, with a little imagination the pale silhouette of a snowdrop flower. A vigorous and rewarding garden plant. Selected by the renowned galanthophile and plantsman, Andy Byfield.	\$160
G. 'Percy Picton' A <i>G. plicatus</i> selection with a very long pedicel and large flowers with nicely marked inner segments. A good grower, it often produces two flower scapes per bulb.	\$20
G. 'Phil Cornish' A lovely selection from the garden of the great galanthophile Phil Cornish. Wonderful all green inners with outers heavily marked with bright green.	\$90

**Brandywine Snowdrops
2021 Dormant Bulbs List**

<u>Name</u>	<u>Price</u>
G. 'Phillipe Andre Meyer'	\$90
A fine inverse poculiform selected by Mark Brown and named for his former employer in whose garden it was found. On the shorter side and a vigorous grower when happy.	
G. 'Pieces of Eight'	\$130
Found together with Long John Silver, this is more buried treasure from Veronica Cross' garden. A vigorous plant with paddle shaped outer petals, nicely slimmed at the base to show the darkly marked inner segments but wide below to accommodate the broad flash of green. The flowers hang gracefully from a nicely arched pedicel. Perfection?	
G. 'Potter's Prelude'	\$30
A large and robust November-flowering form of <i>G. elwesii</i> which has a wonderful garden presence. Selected in the 1960s by Jack Potter, former curator of the Scott Arboretum at Swarthmore College.	
G. 'Primrose Warburg'	\$30
A fine yellow snowdrop. Beautiful and easy to grow.	
G. 'Puffin'	\$60
A lovely hybrid selection with rounded and puckered outer segments and two-marked inners.	
G. 'Rev. Hailstone'	\$20
A tall, early flowering hybrid with large, elongated flowers. A strong grower with good garden presence early in the season.	
G. 'Robin Hood'	\$24
A classic cultivar from James Allen, this tall plant has wonderful poise and an X-shaped inner mark.	
G. 'Rodmarton Arcturus'	\$50
Selected at Rodmarton Manor, this quality snowdrop has very large, rounded flowers held on short scapes. Clumps up quickly.	
G. 'Rosemary Burnham'	\$70
Originally from British Columbia where <i>G. elwesii</i> has become naturalized in a few estate gardens, this received much acclaim when first exhibited in 1998. This amazing virescent form is so covered in pale green lines on the outer petals that the effect is of a pale green wash.	
G. 'S. Arnott'	\$10
A tall robust hybrid. Vigorous and beautiful. A classic garden plant.	
G. 'Scaramouche'	\$30
A hybrid seedling found at Avon Bulbs and thought to be a hybrid between <i>G. woronowii</i> and <i>G. elwesii</i> ssp. <i>monostictus</i> . Large, scented flowers and bold matt-green convolute leaves.	
G. 'Sentinel'	\$20
Found by Daphne Chappell at Sutton Court, Herefordshire in 1994. A strong-growing, large-flowered plant, often with two scapes per bulb. The outers are heavily ridged, and the inners are marked top and bottom.	
G. 'Shimmer'	\$130
This spontaneous seedling, which appeared at Avon Bulbs under a spindlebush, is early to flower and has outer segments with bright and intense green shading, most enviable.

2021 Dormant Bulbs List**

<u>Name</u>	<u>Price</u>
G. 'Streets Ahead'	\$150
A <i>G. elwesii</i> selection from Andy Byfield, spotted by him in the Oxfordshire garden of Helen Squires. Large, pointed flowers with distinct green markings on the inner segments.	
G. 'Tilebarn Jamie'	\$40
A selection of <i>G. reginae-olgae</i> ssp. <i>reginae-olgae</i> from Tilebarn Nursery. Sends up nicely rounded flowers in autumn, often with two scapes per bulb.	
G. 'Verdure'	\$40
Found in Normandy, this charming and vigorous selection of <i>G. nivalis</i> , has leaves of a distinct matt green quite unlike anything else.	
G. 'Veronica Cross'	\$120
Full of superlatives. One of the best new snowdrop hybrids to come from one of the best snowdrop gardens. A new <i>G. gracilis</i> x 'Trym' hybrid which has amazing green marked segments.	
G. 'Warham'	\$20
An old <i>G. plicatus</i> found in a garden in Warham, Norfolk. Very late to flower, this often sees out the snowdrop season.	
G. 'Warwickshire Gemini'	\$40
A large <i>G. elwesii</i> selection capable of producing two flowers per stem. Twins!	
G. 'Welsh Whiskers'	\$20
This playful selection from Wales produces extra petals from above and below the ovary.	
G. 'Wind Turbine'	\$100
An unusual seedling from Jo Hynes in Devon. This has widely flared outer segments, hence the name, and two separate inner green marks.
