Minister
of Agriculture and
Agri-Food

Ministre
de l'Agriculture et de
l'Agroalimentaire

Ottawa, Canada K1A 0C5

Welcome to the 2023 edition of the *Canadian Greenhouse Growers Directory and Buyers' Guide*! And thank you to Flowers Canada Growers for continuing to showcase and connect Canada's world-class flower and horticulture growers with valued customers from around the world.

Canada's flower industry helps us mark, celebrate and honour the most important events and people in our lives while bringing beauty to our homes and places of work.

Canada is where it's at when it comes to the trade of cut flowers and potted and bedding plants. Our growers are well acquainted with floral themes and palettes and continue to work towards adopting state-of-the-art and environmentally friendly solutions, such as microbial fungicides for better root growth, and "good bugs" to control pests. As one grower has said, "Now we're using white mustard and a green attitude!"

Innovation is key to a sector's prosperity. At the Vineland Research and Innovation Centre, our government supports greenhouse and field research, including new biological control of flower pests. In addition, the new five-year Sustainable Canadian Agricultural Partnership, set to launch in April, will drive increased investments for Canada's flower and greenhouse sector—from innovation to marketing to sustainability.

Finally, I'd like to thank all Canadian flower and potted plant producers—and the entire flower industry—for helping grow Canada's economy while beautifying our homes.

Working together, we'll continue to help Canada's flower industry bloom!

A handwritten signature in blue ink that reads "M. Bibeau".

The Honourable Marie-Claude Bibeau, PC, MP
Minister of Agriculture and Agri-Food

The word "Canada" in a serif font, with a small Canadian flag icon above the letter 'a'.

THE CANADIAN GREENHOUSE GROWERS' DIRECTORY & BUYERS' GUIDE

Flowers Canada Growers Inc. is pleased to present the 2023 edition of the Canadian Greenhouse Growers' Directory & Buyers' Guide. This Directory is designed to help you source Canadian flowers, plants, services, and products from a wide array of flower growers, wholesalers, wholesale distribution centres, and service companies located across Canada.

In this 30th edition of the Directory, the tools listed below will help you to find the right service you need faster than ever.

- **Regional Listings** – Canadian growers and wholesalers are listed in geographical sections: British Columbia, Ontario, and Atlantic Regions.

Export Logo – Companies exporting to the USA are clearly identified with the dual flag logo.

- **Alphabetical Indexes** – Preceding the listings, indexes will help you quickly find company names listed in alphabetical order along with the page numbers of their listing location.
- **Visual Product Indexes** – We've done our best to improve the Product Index by cross-referencing all floral products, supplies and services listed by each company in the back of the Directory. For your convenience, each category contains the name of the company supplying that product or service, their province, and the page number of their listing.
- **Tagged Maps** - Beginning on page 44, you will find nine pages of maps showing the geographical location of each of the Canadian growers listed in the directory. *The maps are intended to be used as a guide in locating these listings, and are not claimed to be absolute in their accuracy.*

Flowers Canada Growers Inc. gratefully acknowledges the funding support of Agriculture and Agri-Food Canada through the Canadian Agricultural Partnership and the participants in this directory.

BEING A MEMBER HAS ITS BENEFITS!

FCG WORKS FOR YOU:

- ❁ Representing over **325** growers, generating over **\$1.5 Billion** in farm gate sales
- ❁ Collaboratively working with all levels of government to establish partnerships and create a national voice for floriculture
- ❁ FCG has the support of numerous associate members who offer our grower members an array of supplies and services to help the floriculture sector stay competitive in a global market place.
- ❁ Continually bringing new (and retaining existing) pest management tools to ornamental farmers
- ❁ Helping address export challenges by working closely with both grower members and the Canadian Food Inspection Agency
- ❁ Funding floriculture research aimed at helping flower growers
- ❁ Helping growers access government programs and funds to benefit their business
- ❁ Offering a competitive health insurance program available to growers and employees through People Corporation
- ❁ **Thousands of dollars** available in savings through industry partnerships

The membership that keeps on growing

Flowers Canada Growers Inc.'s mission is to build partnerships and relationships that lead to a regulatory landscape enabling business success.

YEAR ESTABLISHED: 2009

GREENHOUSE SIZE: 240,000 sq.ft., 22,296 sq. meters

PRODUCT/SERVICE: Orchid Greens is most well known for our premium grade Phalaenopsis Orchids. We stand out with regards to larger bloom sizes, increased bloom counts, as well as the always-changing unique variety of colors made available! Our top two best-sellers are the Waterfall Orchids and the 4" Delight Orchids. The Waterfall Orchid sorting process is strict in the way that only the biggest and best plants are selected for the handcrafted bending procedure to create this masterpiece. Our Waterfalls come in all different natural, non-dyed colours, thus returning in bloom the same beautiful colour year after year! The second best seller, 4" Delight Orchids, are the perfect grab-and-go item for impulse purchases in your stores. Cute, substantial, and suitable for all sizes of space. Another special service we offer is our Orchid Arrangements and Orchid Dish Gardens, please feel free to visit our website for all the different planters we offer. All our products are readily available to be shipped into the US.

YEAR ESTABLISHED: 2009

GREENHOUSE SIZE: 240,000 sq.ft., 22,296 sq. meters

PRODUCT/SERVICE: Orchid Greens is most well known for our premium grade Phalaenopsis Orchids. We stand out with regards to larger bloom sizes, increased bloom counts, as well as the always-changing unique variety of colors made available! Our top two best-sellers are the Waterfall Orchids and the 4" Delight Orchids. The Waterfall Orchid sorting process is strict in the way that only the biggest and best plants are selected for the handcrafted bending procedure to create this masterpiece. Our Waterfalls come in all different natural, non-dyed colours, thus returning in bloom the same beautiful colour year after year! The second best seller, 4" Delight Orchids, are the perfect grab-and-go item for impulse purchases in your stores. Cute, substantial, and suitable for all sizes of space. Another special service we offer is our Orchid Arrangements and Orchid Dish Gardens, please feel free to visit our website for all the different planters we offer. All our products are readily available to be shipped into the US.

COHA-ACHO's vision is to represent Canada's vibrant and flourishing ornamental horticulture value chain at the national level passionately and effectively.

www.coha-acho.ca

COHA-ACHO's mission is:

- To ensure that governments are well informed about the economic and environmental importance of ornamental horticulture as an integral part of Canadian agriculture.
- To obtain government recognition for the value that our plant products and services provide as solutions for society.
- To lead research and innovation for our sector in collaboration with government.

COHA is a strategic alliance of three organizations:

- **The Canadian Nursery Landscape Association**
- **Flowers Canada Growers Inc.**
- **Québec Vert**

TOGA
THE ONTARIO GREENHOUSE ALLIANCE

The Ontario Greenhouse Alliance (TOGA) works for the common interests of vegetable and floral greenhouse farmers in Ontario.

By providing current information and analysis on sector trends and issues, TOGA contributes to the development of public policy in collaboration with governments.

TOGA seeks outcomes that enable Ontario greenhouse growers to be globally competitive and profitable while contributing to a healthy society.

Did you know? The Ontario greenhouse sector:

- Contributes over \$2.6 billion to Ontario's economy each year
- Employs over 20,000 workers in greenhouses and associated packing facilities
- Generates exports exceeding \$1 billion

**ASSOCIATE
MEMBERSHIP**

**Join Flowers Canada Growers as an
Associate Member and**

Promote Your Business

to over 325 Canadian floral greenhouse growers!

Flowers Canada Growers is the national trade association of the Canadian floral industry. Our members across Canada include greenhouse growers, distributors and importers/exporters all dealing with cut flowers, potted plants, bedding plants, cut greens and specialty suppliers and services to the industry.

what membership can mean for you...

1. Have your company logo and profile on the Flowers Canada Growers (FCG) website along with any company literature such as press releases, white papers, etc.
2. Have your company logo periodically in our monthly newsletters for Flowers Canada (Ontario) (FCO) and Flowers Canada Growers (FCG) with contact information attached.
3. Your company logo will be included in our FCO and FCG Annual Reports.
4. Obtain opportunities for networking with greenhouse owners and decision-makers.
5. Receive annual and monthly Canadian Statistics on the floriculture industry.
6. Incorporate company literature in two annual mailouts to the FCG membership as well as in the FCO and FCG monthly newsletters.
7. Company logo on display at FCO events and at the tradeshow FCG attends.

**The Associate Membership
that keeps on growing!**

1796 Main Street, Sanford, Maine, 4073

TEL: 1-855-202-7467

EMAIL: info@acrylite.co

WEBSITE: www.acrylite.co

PRODUCT/SERVICE: ACRYLITE® is a German engineered, American-based brand specializing in PMMA plastics - produced by Roehm. These include ACRYLITE® multi-skin and wave profile acrylic sheet for greenhouses.

ACRYLITE® multi-skin and wave profile products are the most advanced line of glazing materials for the greenhouse industry. They enable the full range of natural light to reach your plants, resulting in better plant growth and enhanced plant quality. This portfolio includes ACRYLITE® high impact resistant glazing, which protects your crop and comes with a 30-year, non-yellowing guarantee. It also reduces heating costs by up to 50%. These ACRYLITE® products consistently outperform other glazing materials in greenhouse facilities throughout the world.

PRODUCT/SERVICE: Argus provides advanced climate control systems that are customized to each grower's requirements and are adaptable to their changing needs, enabling them to operate their facilities exactly the way they want. With over thirty years of innovation in controls technology, Argus systems are used throughout the world to control complex facilities for horticulture and agriculture and biotechnology research. Our control solutions feature comprehensive realtime monitoring and historical trend analysis designed to provide growers a full understanding of their facility and growth processes. We provide intuitive and intelligent control of climates, irrigation and nutrients that help optimize plant production. With a modular component design that ensures unlimited expansion options, clients never outgrow their Argus system. In addition to using only greenhouse hardened components proven for long-life and trouble free operation, our organization is configured to provide full service support and rapid response times - whenever it's needed.

PRODUCT/SERVICE: About us: Hoogendoorn Growth Management is one of the world's foremost innovators in the horticulture sector with more than 50 years' experience. With offices and partners around the world our roots are in Dutch Greenport. Hoogendoorn has been responsible for developing many of the systems and innovations now regarded as the industry standard. Aiming to not only excel in technological products, but also in customer support and training. We work with growers in every conceivable climate, with the most diverse crops to ensure a more efficient and sustainable future for horticulture. Growing technology: Hoogendoorn's new IIVO climate computer provides smart technology for any controlled environment agriculture. This truly unique system is capable of monitoring, controlling and optimizing your plant environment. Allowing you to grow more, at higher quality while using minimal resources. Our team of in-house data- and plant-scientists are constantly pushing the boundaries of smart technology to harness the power of nature. We continue to develop and improve the system as the data evolves, this new information is then used to help our customers unlock the Hoogendoorn IIVO's full potential. We collaborate with plant-physiologists, biologists and physicists to further advance growth practices, methodologies and technological applications. Our software is built from scratch, by us. No legacy coding, no workarounds. The best technology, in a revolutionary, future ready system. Not only is the system highly effective, it is also extremely efficient and sustainable, generating maximum results. With self-learning controls and integrated security, it is undoubtedly the future of horticulture.

CONTACT: Michael Huntington / Business Development

PRODUCT/SERVICE: Developed and manufactured in Quebec, Canada, the MAXIMUS system automates and controls equipment (roof vents, roll-up side curtains, HAF fans, lighting, etc.), according to the desired parameters. More specifically, the MAXIMUS controller communicates with strategically placed sensors that provide real-time information on the greenhouse's current climate status. Based on this data, the system achieves the growers desired climate by operating the necessary equipment. In addition to sending notifications as soon as an irregularity is identified, the MAXIMUS controller allows you to make the necessary adjustments remotely. MAXIMUS - SMART technology for today's growers.

Stacey Hickman, Entomologist-Greenhouse/Research

PRODUCT/SERVICE: Natural Insect Control (NIC) is the only CANADIAN producer of beneficial NEMATODES and a master distributor of beneficial insects. Being the only Nematode producer in Canada offers us the unique ability to create customized beneficial Nematode blends to target your particular pest. If you have an insect problem, we have the solution. We are the experts on developing preventative bio-programs. Prevention is the key to successful production and optimum crop yields. We can design a program specific to your growing needs, whatever they may be (greenhouse, field crop, hydroponic). NIC offers FRESH beneficial insects. Fresh means no storage, ensuring stronger more resilient insects resulting in faster control & better reproduction. Look to us for all your biologicals program needs.

A large indoor vertical farm with a complex metal structure and rows of hanging ferns. The structure is made of silver metal beams and supports, with a pinkish-red translucent covering on the roof. The ferns are arranged in long, vertical rows, hanging from the ceiling. The lighting is bright, creating a high-contrast scene.

OFG Market Place is the shopping centre where florists, wedding and event planners will find product of choice in smaller quantities. OFG Market Place supplies a variety of local and imported quality cut flowers and potted plants by the bunch or by the pot, including a selection of florist supplies.

Ontario Flower Growers Co-Operative Ltd.

Gateway to the highest quality cut flowers and potted plants since 1972.

The screenshot displays a multi-panel software interface for an online flower marketplace. It features several auction desks, each with a circular bidding wheel and various control buttons. The interface includes product details, pricing, and a transaction table at the bottom.

| Flag | Line | Grower | Product | Price | Qty/lot | Buyers |
|------|------|----------------------|----------------|-------|---------|--------|
| 486 | 1 | MARISH GREENHOUSES | GERBERA MALIBU | 1.25 | 50 | 3 |
| 1882 | 1 | WOODHILL GREENHOUSES | VIOLET AFRICAN | 2.30 | 15 | 32 |

Ontario Flower Growers Co-Operative is a leader in the development of the floral industry in Ontario, connecting growers with wholesale and retail customers.

We facilitate the purchase of quality cut flowers and potted plants from growers across Ontario including a large selection of import product from around the world.

PROGRAMS TO MAKE BUYING CONVENIENT, EFFICIENT, AND PRODUCTIVE

- Daily Auctions
- Remote Online Access
- Order Desk & Pre-Book Purchasing
- Website Purchasing
- ✿ OFG Marketplace

Talk to us about your specific needs and let us design the right purchasing program for your business.
