#### Introduction

We have now been fifty years in this nursery business, and thought it would be appropriate to add a little embellishment to the appearance of our 1928 catalog on this, our Golden Anniversary number; in fact, make it nice enough that our friends may file it away for a Souvenir when it has filled its purpose as a little modest salesman, who presents Plain Facts without the knack of High-Pressure salesmanship, for the writer freely admits that he is not blessed with any surplus of volubility in presenting his business. However, our long experience enables us so to handle and pack our plants and bulbs that they reach our patrons in the best possible condition.

In the last decade of the last century we named and introduced the famous Eldorado blackberry, which at the end of over thirty years is still in the front rank as the most popular berry for the northern and central United States. About 1910 we began growing gladioli, and followed with peonies and irises a few years later, and we now specialize in these last three items, and grow evergreens, ornamental shrubbery, perennials, etc., in a more limited way.

In the following list in which we briefly describe and price the varieties offered we do not wish to make extravagant claims to have better stock than any one else, but having the right soil and climate, and giving proper care and cultivation we get results that are at least as good as the best. It will be seen that our peonies mostly grade 8 and above, or 80 per cent of a perfect flower. The grading as given in the figures following the names of the peonies and irises is the result of the reports from a large number of the growers who are members of the Peony and Iris Associations respectively, being averaged. This is a great help in making selections, where one wishes to secure high quality. It will be seen that it is not the highest priced varieties that grade the highest, but it is absolute quality that counts. We have abundant faith in the intelligence of our patrons, and therefore do not make up selections for them unless asked to do so, in

which case our services and experience are at your command.

Size of Plants: At prices quoted are for good strong standard divisions, 3 to 5 eyes, in most cases from dividing 2 to 3 year old plants. In some cases we use one year old plants without dividing. We do not recommend so called one eye divisions, but to meet a demand for such, we will supply of any peonies selling for \$3.00 or more. Good 2 eye divisions for 3-5 the list price for the regular size. Our object is to give good value for the money. Not how little, but how much can we afford to give for the price paid, and the repeat orders sent in go to show that our efforts are appreciated. Orders should be sent as early as possible as stock of rarest varieties is limited, and shipments are made in the order received. Please advise whether shipment is to be by express or parcel post.

If our plants please you tell your friends, if not, kindly advise us.

#### Visitors

We are always glad to welcome visitors to our grounds who may be interested in hardy plants, for one can always select to much better satisfaction in the field from seeing the flowers than from any descriptive catalog, be it ever so elaborate.

#### Terms

The prices given in this list are net cash, unless otherwise arranged, and supercede all former lists. All retail orders will be delivered free by parcel post or express, anywhere in the United States.

#### Cultural Directions

Peonies and Irises thrive in most any soil that is not too wet. Should it be inclined to be acid, a light dressing of lime will be beneficial. Never permit fresh manure to come in contact with the roots. Bone-meal is a safe proposition, and well decomposed barnyard manure may be worked around the plants, but not over the crown of the plants. Peonies should be planted at least 3 feet apart, and for field culture rows should be 4 feet apart. The plants should be set so the top buds are 2 to 3 inches below the sur-

face of the soil. Deeper planting may cause shy blooming. September and October are the best months to set peonies, but they may be set any time before the ground freezes. The plants start growth too early to handle well in the spring; we therefore never advise spring setting.

Irises should be planted rather shallow, just covering the rhizome, and both peonies and irises are better planted in full sunlight, away from trees and shrubs and not too close to the walls of a building, although they may endure partial shade. Give good, clean shallow cultivation and you will be rewarded with fine floom.

This descriptive list with prices should be filed for reference another season, when we may issue a new price-list without the descriptive matter.

Any disinterested party receiving this catalog, by kindly handing it to some friend who may be interested, will confer a double favor.

The following list of our peonies includes double, single and Japanese varieties all in alphabetical order. We could offer a much longer list, but have discarded nearly all that do not grade over 7.5 in a possible 10, or 75 per cent of the perfect flower as rated.

We are pleased to note that our line of business has been increasing year by year, and we surely appreciate the patronage which has enabled us to do this, and hereby tender our sincere thanks for same, and trust that the benefit has been mutual, and that we may have the pleasure of continued patronage, and to those who have not yet given our stock a trial we solicit a trial of our superior well grown and carefully packed goods and for which we thank them in advance.

#### Guarantee

We guarantee safe arrival of plants, and that they are healthy and true to name, and hold ourselves ready to replace two for one any that prove otherwise.

#### PRIZE WINNING PEONIES

In a class of 68 entries, our 6 Milton Hill won 2nd place at the Ft. Wayne show and we also took 2nd place in a class of 24 entries for best 10 varieties double blooms of each. Also two first and two second prizes at Peoria, Ill., 1927.

#### PEONIES

The following abbreviations are used in the following lists: Brand (B.), Crousse (Cr.), Lemoine (Lem.), Kelway (Kel.), Hollis (Hol.), Richardson (R.), Guerin (G.), Goos & Koeneman (G. & K.), Calot (Ca.), Pleas (P.), Donkalier (Don.), Rosefield (Ros.), Gombault (Gom.), Verdier (Ver.), Vilmorin (Vil.), Sturtevant (Sturt.), Millet (Mil.), Early (E.), Midseason

(M.), Late (L.).	
Adolph Rousseau, 8.5, (Des. & Mechin '90) very tall, strong grower, rather loose, double or sometimes semi-double flowers of deep garnet, conspicuous and	
fine, M\$	
Albert Crousse, 8.6 (Cr. 1893) bomb type,	•
late, extra good	1.00
Alice Harding, (Lem.), tall vigorous stems, very large flower of the most perfect shape, broad petals of best sub-	
stance, cream white	100.00
Alsace Lorraine, 8.8 (Lem. 1906) pointed, white petals lit up with a golden light in center make this a charming flower,	
tall and vigorous, late	2.50
Ama no Soda, (Jap.), pink with yellow	
center	15.00
Archie Brand, 7.5 (B. 1913) prize winner,	
bomb, pink, fragrant	1.00

ALSACE LORRAINE

Asa Gray, 8.1, (Cr.) pale lilac, large, well formed, mid-season	
Augustin d'Hour, 7.8, (Ca. 1867) large, free bloomer, good red	
Avalanche, 8.7, (Cr. 1886) an extra good white, high center	1.00
Baroness Schroeder, 9.0 (Kel.) one of the very best and most useful white varieties, large globular blooms, white guard petals with a delicate blush center fading to pure white, stems strong, foliage light green. L. M.	
Berlioz, 7, (Cr. 1886) good, large, solferino red, white tip	1.00
Bishop Burke, (Vories 1925) crimson with a silvery sheen good form on long stiff stems and a free bloomer. Plant has excellent habits. Midseason	35.00
Blanche King, (B. 1923) one of the new ones, a fine pink with extra large broad petals, distinct, midseason	50.00
Cherry Hill, 8.7, (Thur.) deep garnet, long stem	4.00
Chestine Gowdy, 8.4 (Brand 1913) shell-pink and cream, a dainty high built flower, L. M.	2.00
Claire Dubois, 8.7 (Cr. 1886) rose type, late pink, extra	1.00
Clemenceau, (Des.), a late variety with flowers of very deep rose or carmine color with silver edged petals	6.00
Cornelia Shaylor, 9.1, (Shay.) light pink, very good	15.00
Couronne D'Or, 8.1 (Ca. 1873) semi-rose, symmetrical, late, white	.75
David Harrum, 8.4, (B.), bright red	7.00
Desire, 8.5 (Br.) delicate mauve	10.00
Dorchester, 7.7 (R. 1870) perfect rose type, latest pink, extra	.75
Dr. Boisduval, 7.6 (Gr. 1850) a fine brilliant red with gold stamens	1.00
Duchess de Nemours, 8.1 (Ca. 1856) crown type, early, white, no red marks, sulphur center	.50

Edulis Superba, 7.6, (Lem. 1854) very early, free, pink, fragrant	
E. B. Browning, 9.2 (Brand 1907) delicated pink bud that opens into a very fine white bloom of large size, late	
Edwin C. Shaw, (Thurlow), clear shell pink, broad rounded petals sometimes edged crimson; cupshaped bloom of elegant form. In a class with President Wilson	
Elwood Pleas, 8.7 (Pleas 1900) large flat rose type flowers of delicate pink color, M.	<b>2</b> 50
Enchantresse, 8.9 (Lem. 1903) rose type large globular, creamy white flowers, strong grower, very late	
Etta, 8.0, (Terry) very large, flat rose type of deep shell pink color, one of Terry's best, and one of the very late ones, vigorous	
Eugene Verdier, 8.3, (Ca. 1864) dwarf, grown with extra stiff stems, deep shell pink with creamy shades, late	
Eugenie Verdier, 8.6, (Cal.), hydrangea pink	2.00
Exquisite, 8.5, (Kel.) rosy pink, a beauty Felix Crousse, 8.4, (Cr. 1881), one of the best reds, brilliant	
Festiva Maxima, 9.3, (Miellez 1881), the standard early white, rose type, perfect form and color, extra	
Floral Treasure, 7.5, (Ros. 1900) free bloomer, delicate pink	_
Florence McBeth, 9.2, (Sass.) a good new one. First class certificate, A. P. S. Color is a beauitful blush pink	22.50
Florence Nightingale, 9.1, (Brand), a very late pure white with rarely a small fleck of crimson	1.00
Frances Willard, 9.1 (B. 1907). This is considered one of Brand's best of his earlier introductions, color creamy white, large size, late mid-season	3.00
Frankie Curtis, (Vories 1924) very similar to the famous M. Jules Elie in form, but color is white	50.00

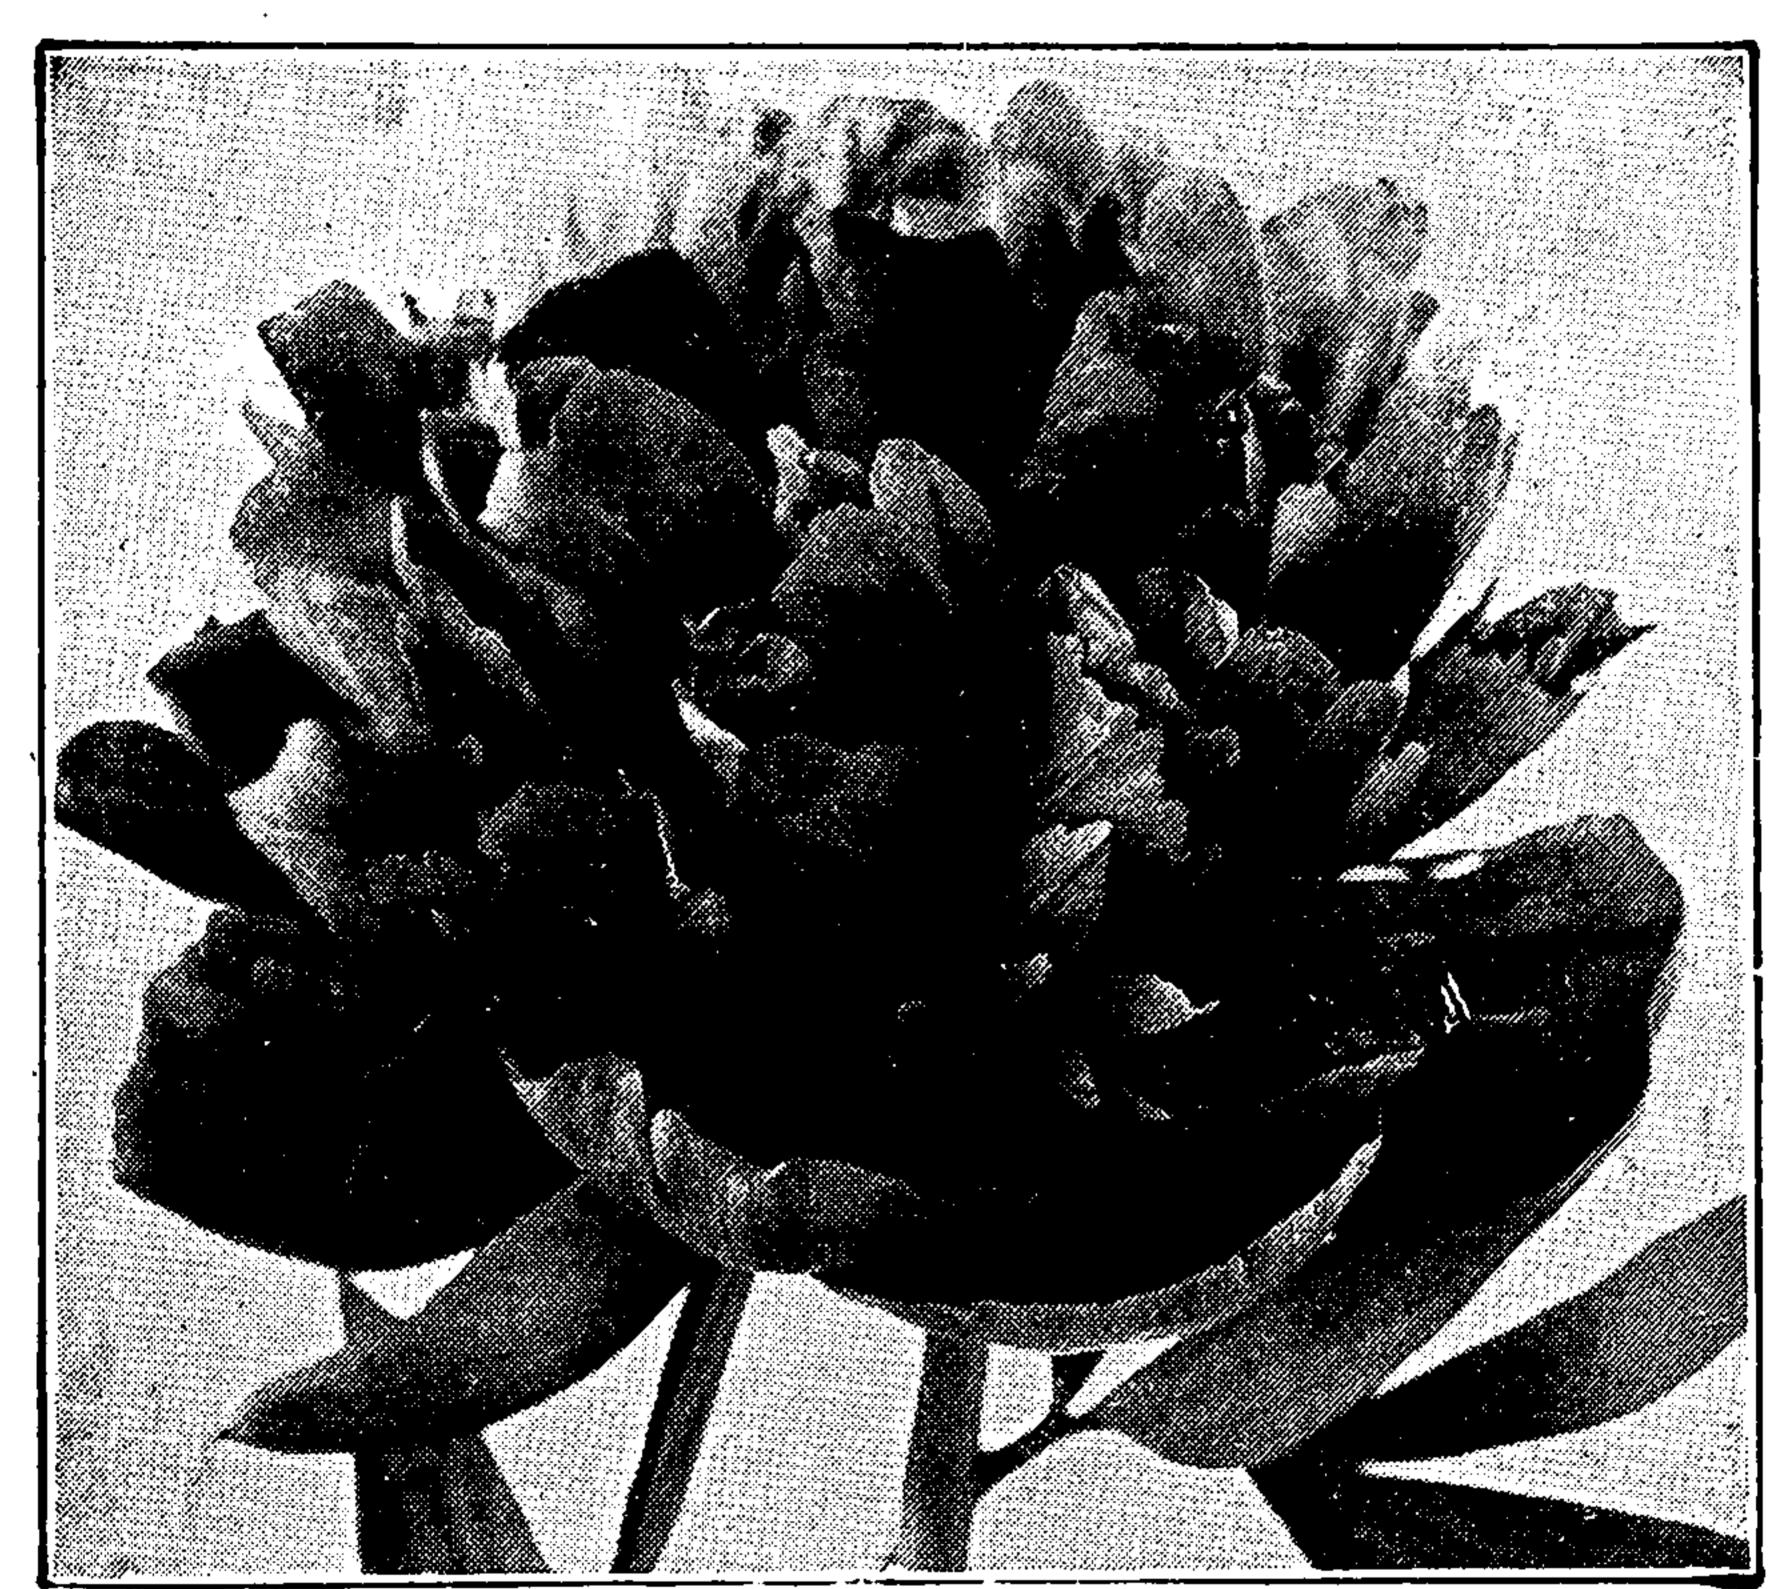

FRANCES WILLARD

Fuyajo, (Jap), guard petals very deep red with dark crimson petaloids in center tipped cream; very distinct	7.50
Galathee, 8.1. (Lem. 1900), a fine, pearly-white, full double yet opens well, long stem and very late, pronounced extra by leading growers	
Georgiana Shaylor, 8.9, (Shaylor 1908) a pale rose-pink, large and somewhat flat, vigorous grower, very high class, mid-	
Germaine Bigot, 8.5, (Des. 1902) large pale lilac rose, splashed crimson	
Ginette, 8.6, (Des. 1915) large, deep flesh color, fragrant, on established plants the flowers are extra fine	2.50
Governor Morton, (Teas') new, red, fine form, vigorous, good keeper	3.00
Grace Loomis, 9.2, (Saunders 1920), clear white, full double flowers, tall strong stems, very fine, late	
Grandiflora, 8.8, (Rich.) very large flat flowers silvery shell-pink, petals pointed with a fine effect, very late	
Grover Cleveland, 8.2, (Terry) dark crimson blooms on upright stems of medium height, fine garden variety, late	1.50
Harriett Farnsley, 7.9, (B. 1916) delicate pink, midseason	1.00
	•

Helen, (Thur.) single pink of best quality new	10.00
Helen Wolaver, (B.), shell pink, splashed darker	2.00
Henry Avery, 8.5 (Brand), light pink, medium height, midseason, with large blooms that are quite fragrant	4.50
Henri Murger, 7.4, (Cr. 1895) rose-type, deep pink, good, late	<b>-</b> _
Inspector Lavergne, (Dor.) fine new red	15.00
Isani Gidui, (Jap), one of the leading white Japanese varieties	12.00
James Kelway, 8.7, (Kel.) white with a glow of blush of pink or gold, broad petals, very tall and strong, fragrant, midseason	1.50
James R. Mann, 8.7, large, deep rose pink, one or two crimson streaks in center of flower, central petals in-curved, graceful M.	
Jeannot, 9.2, (Des. 1918) cup-shaped bloom of soft shell-pink slightly tinted lavender, very promising variety	
John M. Good, a new white that comes highly recommended	40.00
Jubilee, 8.9, (Pleas 1908), very large flat flowers of ivory white, narrow petals loosely arranged giving a feathery effect. A fine show flower which we have grown to ten inches in diameter. Stems rather weak, midseason	2.50
Judge Berry, 8.6 (B. 1907) very large flat blooms of soft pink, very early	
Karl Rosefield, 8.8, (Ros. 1908) rich silky dark crimson, full rose type, one of the best reds, mid-season	1.50
Kelway's Glorious, 9.8 (Kel. 1909) pinktinted buds opening into large irridescent white, fragrant, late midseason, one of the most sought after peonies	15.00
Kelway's Queen, 8.8 (Kel.), globular blooms good form and habit, deep flesh pink with slight carmine markings in center, fine form and good size, scarce, mid-season	15.00
mid-Season	T 9.00

as best Jap. specimen bloom at Peoria 1927	5.00
Lady Alexandra Duff, 9.1, (Kel. '09), broad petals of soft French pink, of medium height upright stems, the true variety, a strong grower, and one of the finest of Kelway's introductions, mid-	
Lady Beresford, 8.2, (Kel. 1895) a fine ac-	3.00
quisition	2.00

KARL ROSEFIELD

Lady Kate, (Vor.) large, rose type, perfect	
form, solid, light pink. Very beautiful	<b>~ ~ ~ ~</b>
tall and late	35.00
La Fee, 9.2, (Lem.), rose type color rose-pink.	10.00
La Fiancee, 8.6, (Dessert '02) one of the very best single white varieties, beautiful as a water lily, five to six inches in diameter, mid-season	1.50
La France, 9.0, (Lem. 1901) large flat blooms on strong stems, soft rose-pink late	5.00
Lamartine, 8.4, (Lem. 1908), rose type, the rose colored petals tipped white, strong stems, quite scare	
La Perle, 8.5 (Cr. 1885) blush-white in center with deeper edging, fragrant, late	1.50
La Rosiere, 8.3, (Lem.) large, semi-double, cream-white, beautiful	1.00

1928,

#### MAXINE

A Blight Resisting Pear'

While traveling in Preble County, Ohio, about 20 years ago, my attention was called to a pear tree supposed to be a seed-ling that was then probably 60 or 75 years old, and was yet vigorous, healthy and productive, and some top-grafted

trees of this original one, in the same neighborhood at the age of at least 20 years, were also free of any fireblight, that induced me as a nunseryman to propagate the same and I named it Maxine. I now have a dozen trees of it in orchard fruiting; one of them standing within fifteen feet of a Beurre Bosc pear tree that blights badly each year, and yet

this tree nor any of my other Maxine's has ever shown a twig of fireblight.

Maxine is on trial at a number of experiment Stations. It is similar in form and color to Bartlet, with a vinous subacid flavor, that some pronounce equal to Bartlet, no grit or hard core, very productive annual bearer, as shown by the cut which shows a branch from a tree that bore three successive crops that broke some of the limbs. Highly recommended for canning. Repeat orders from our customers prove this.

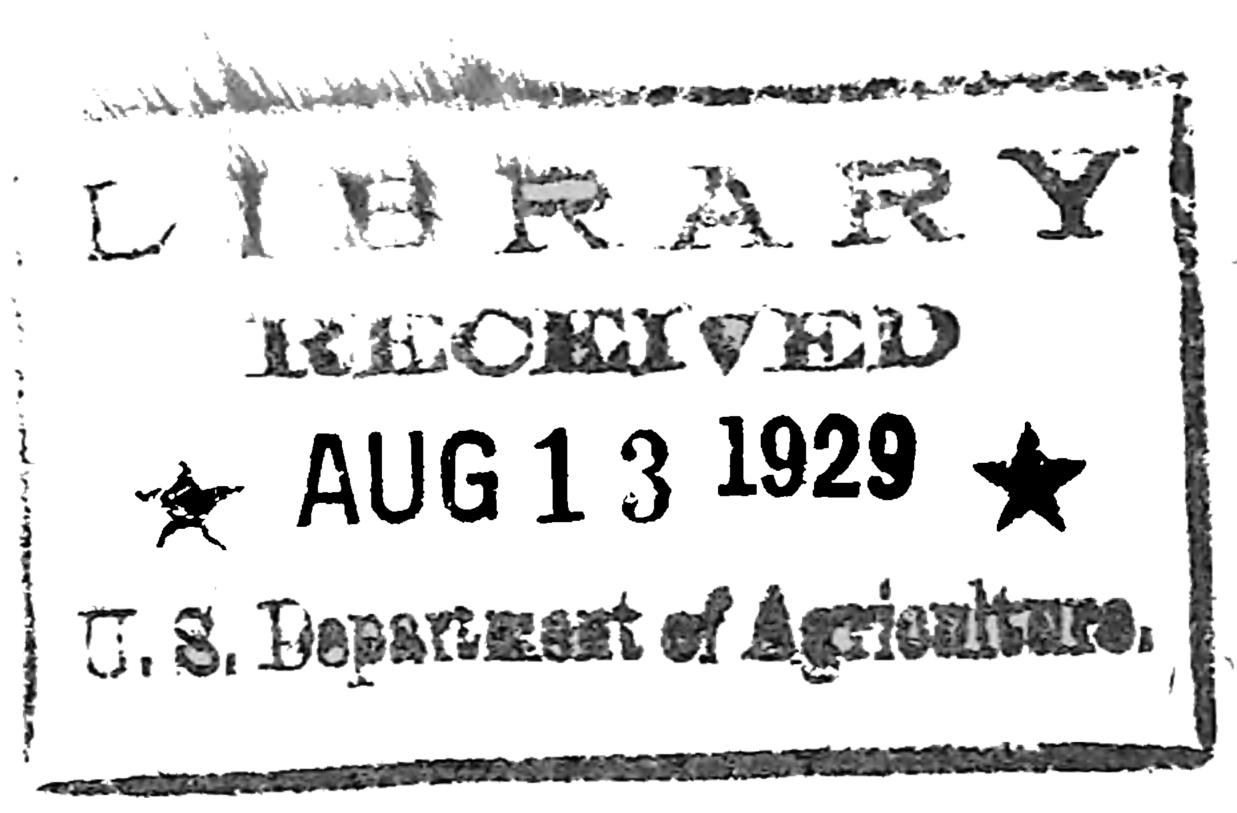

A blight resistant pear has long been wanted and we have it in this one, whether it will prove to be entirely immune remains for scientists to determine by inoculation.

We named and introduced the Eldorado Blackberry some 30 years ago, and it has made a worth while record, and on account of its vigor, productiveness, and blight resisting qualities, in our opinion the Maxine deserves a place among our pears, compared to Concord among the grapes.

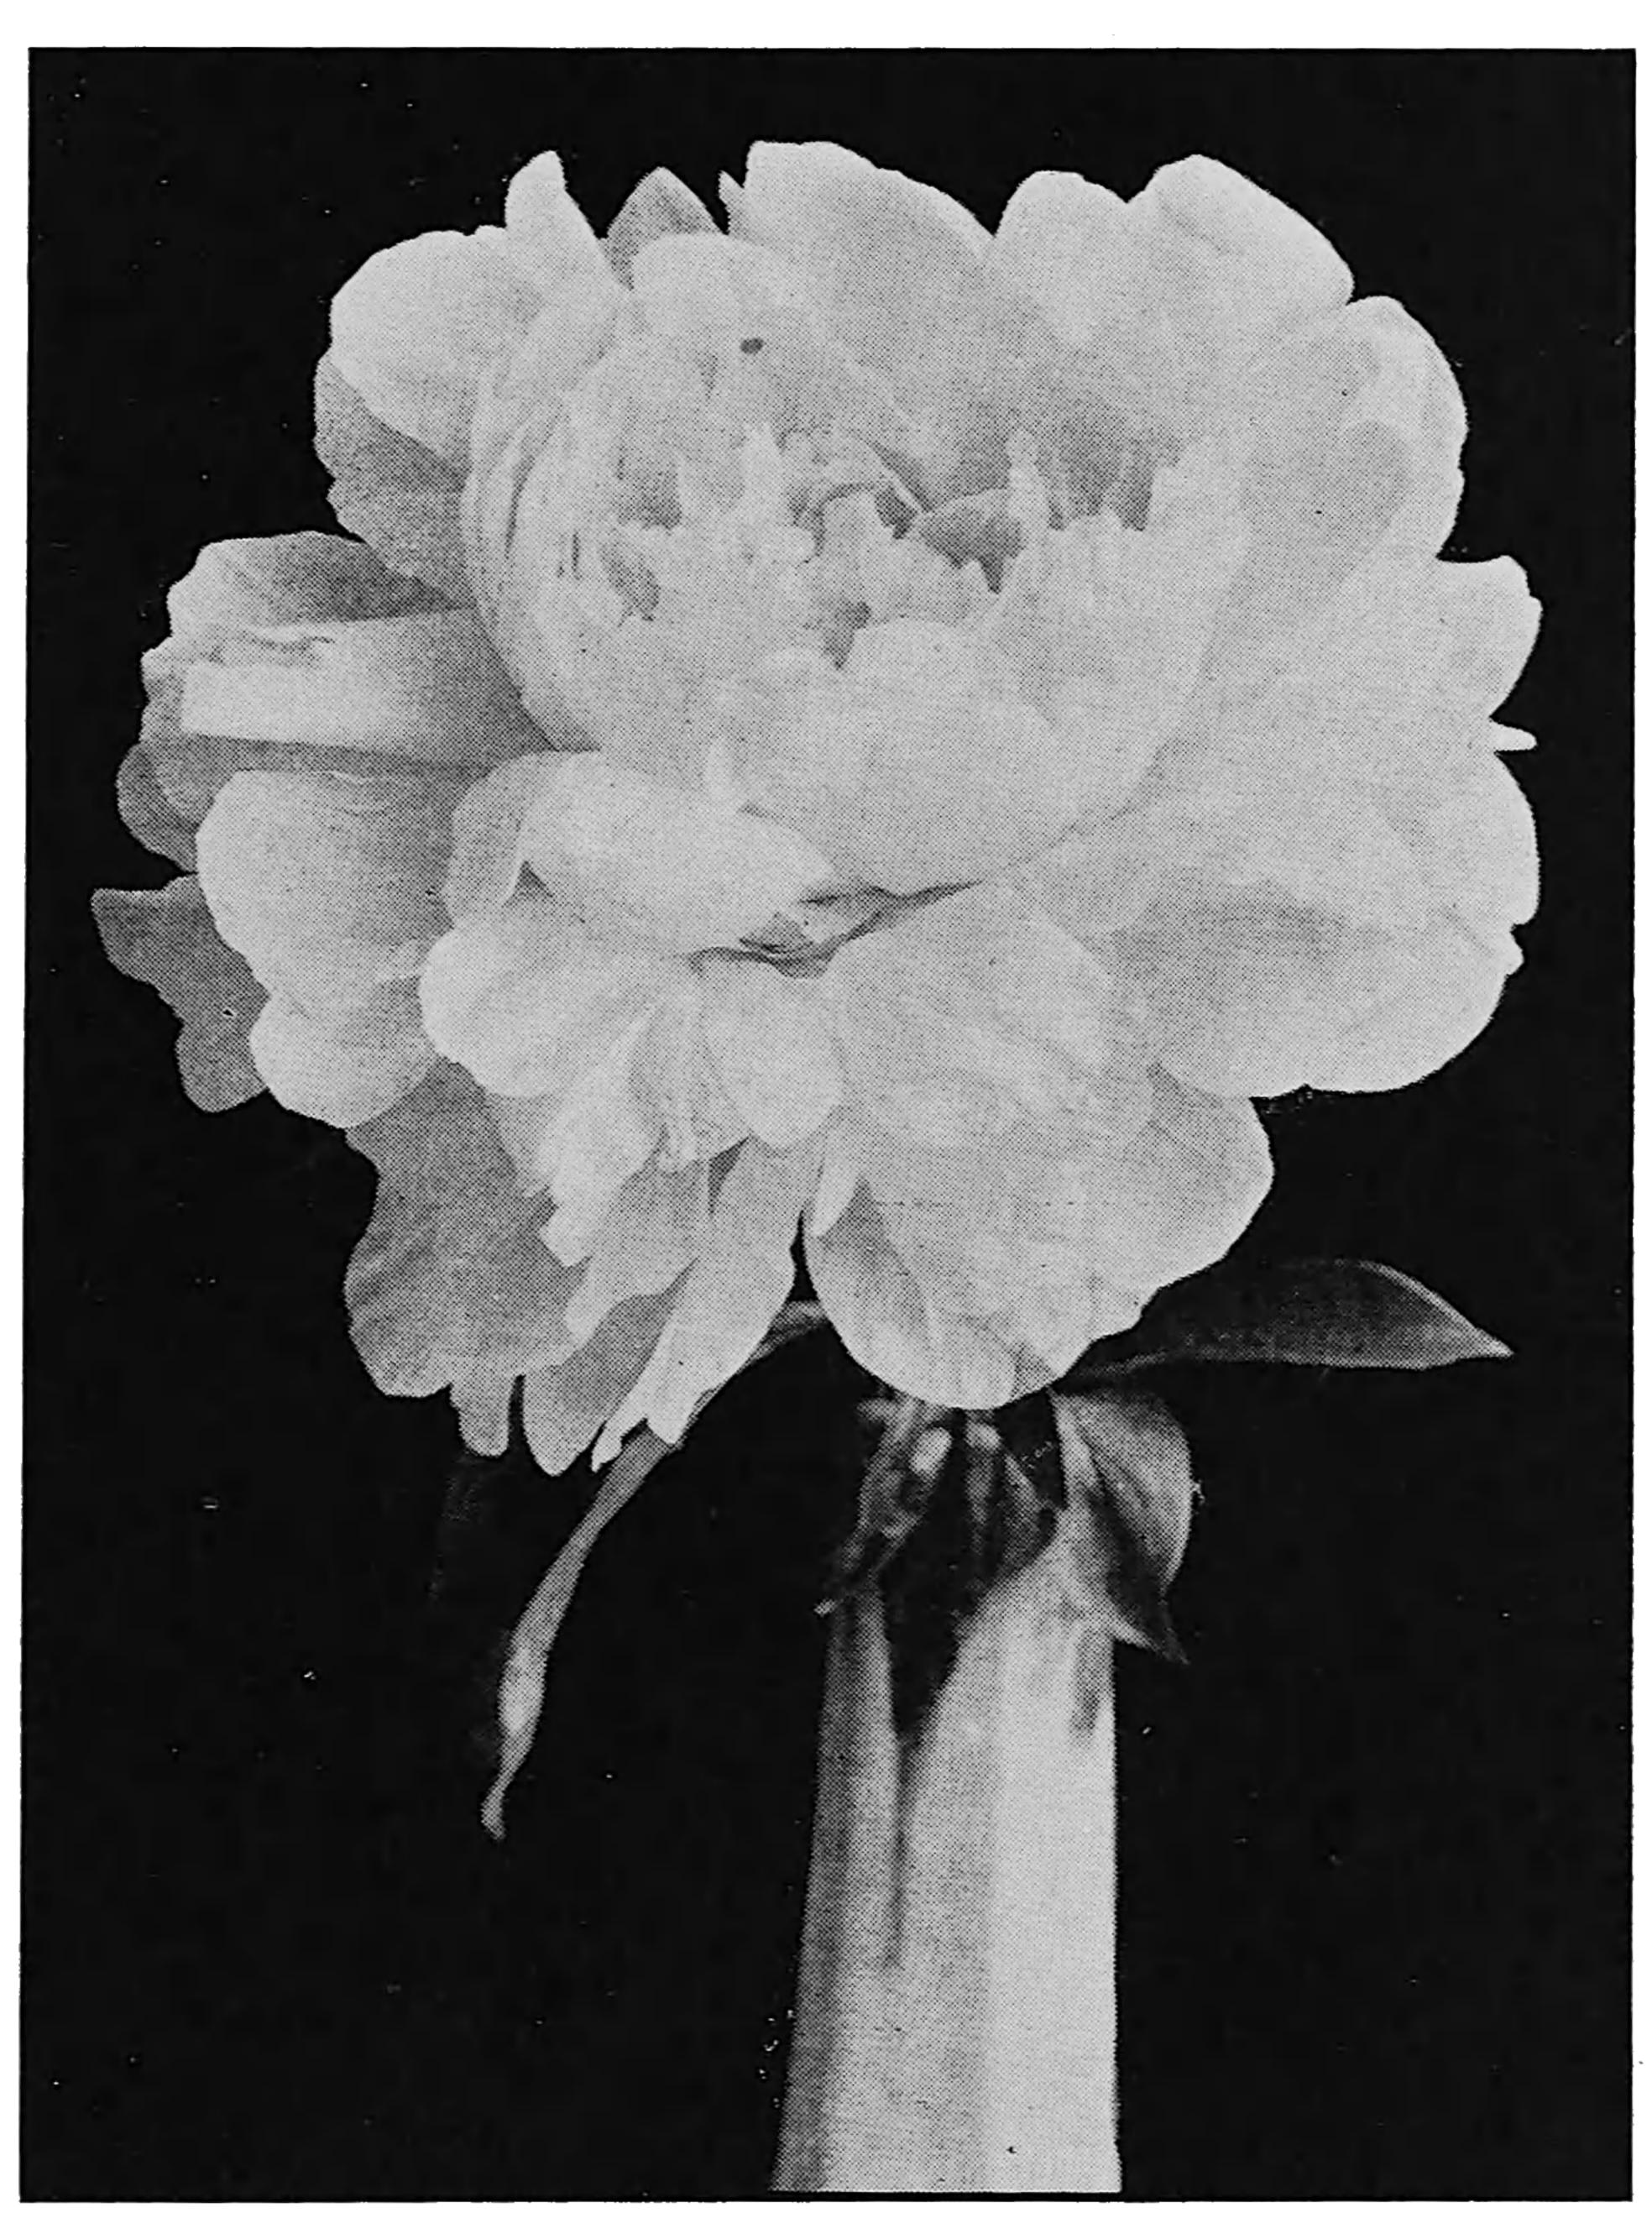

Fine 2 year old trees 5 to 6 ft. \$2.00 each or three for \$5.00.

#### E. M. BUECHLY,

Nurseryman.
GREENVILLE, OHIO

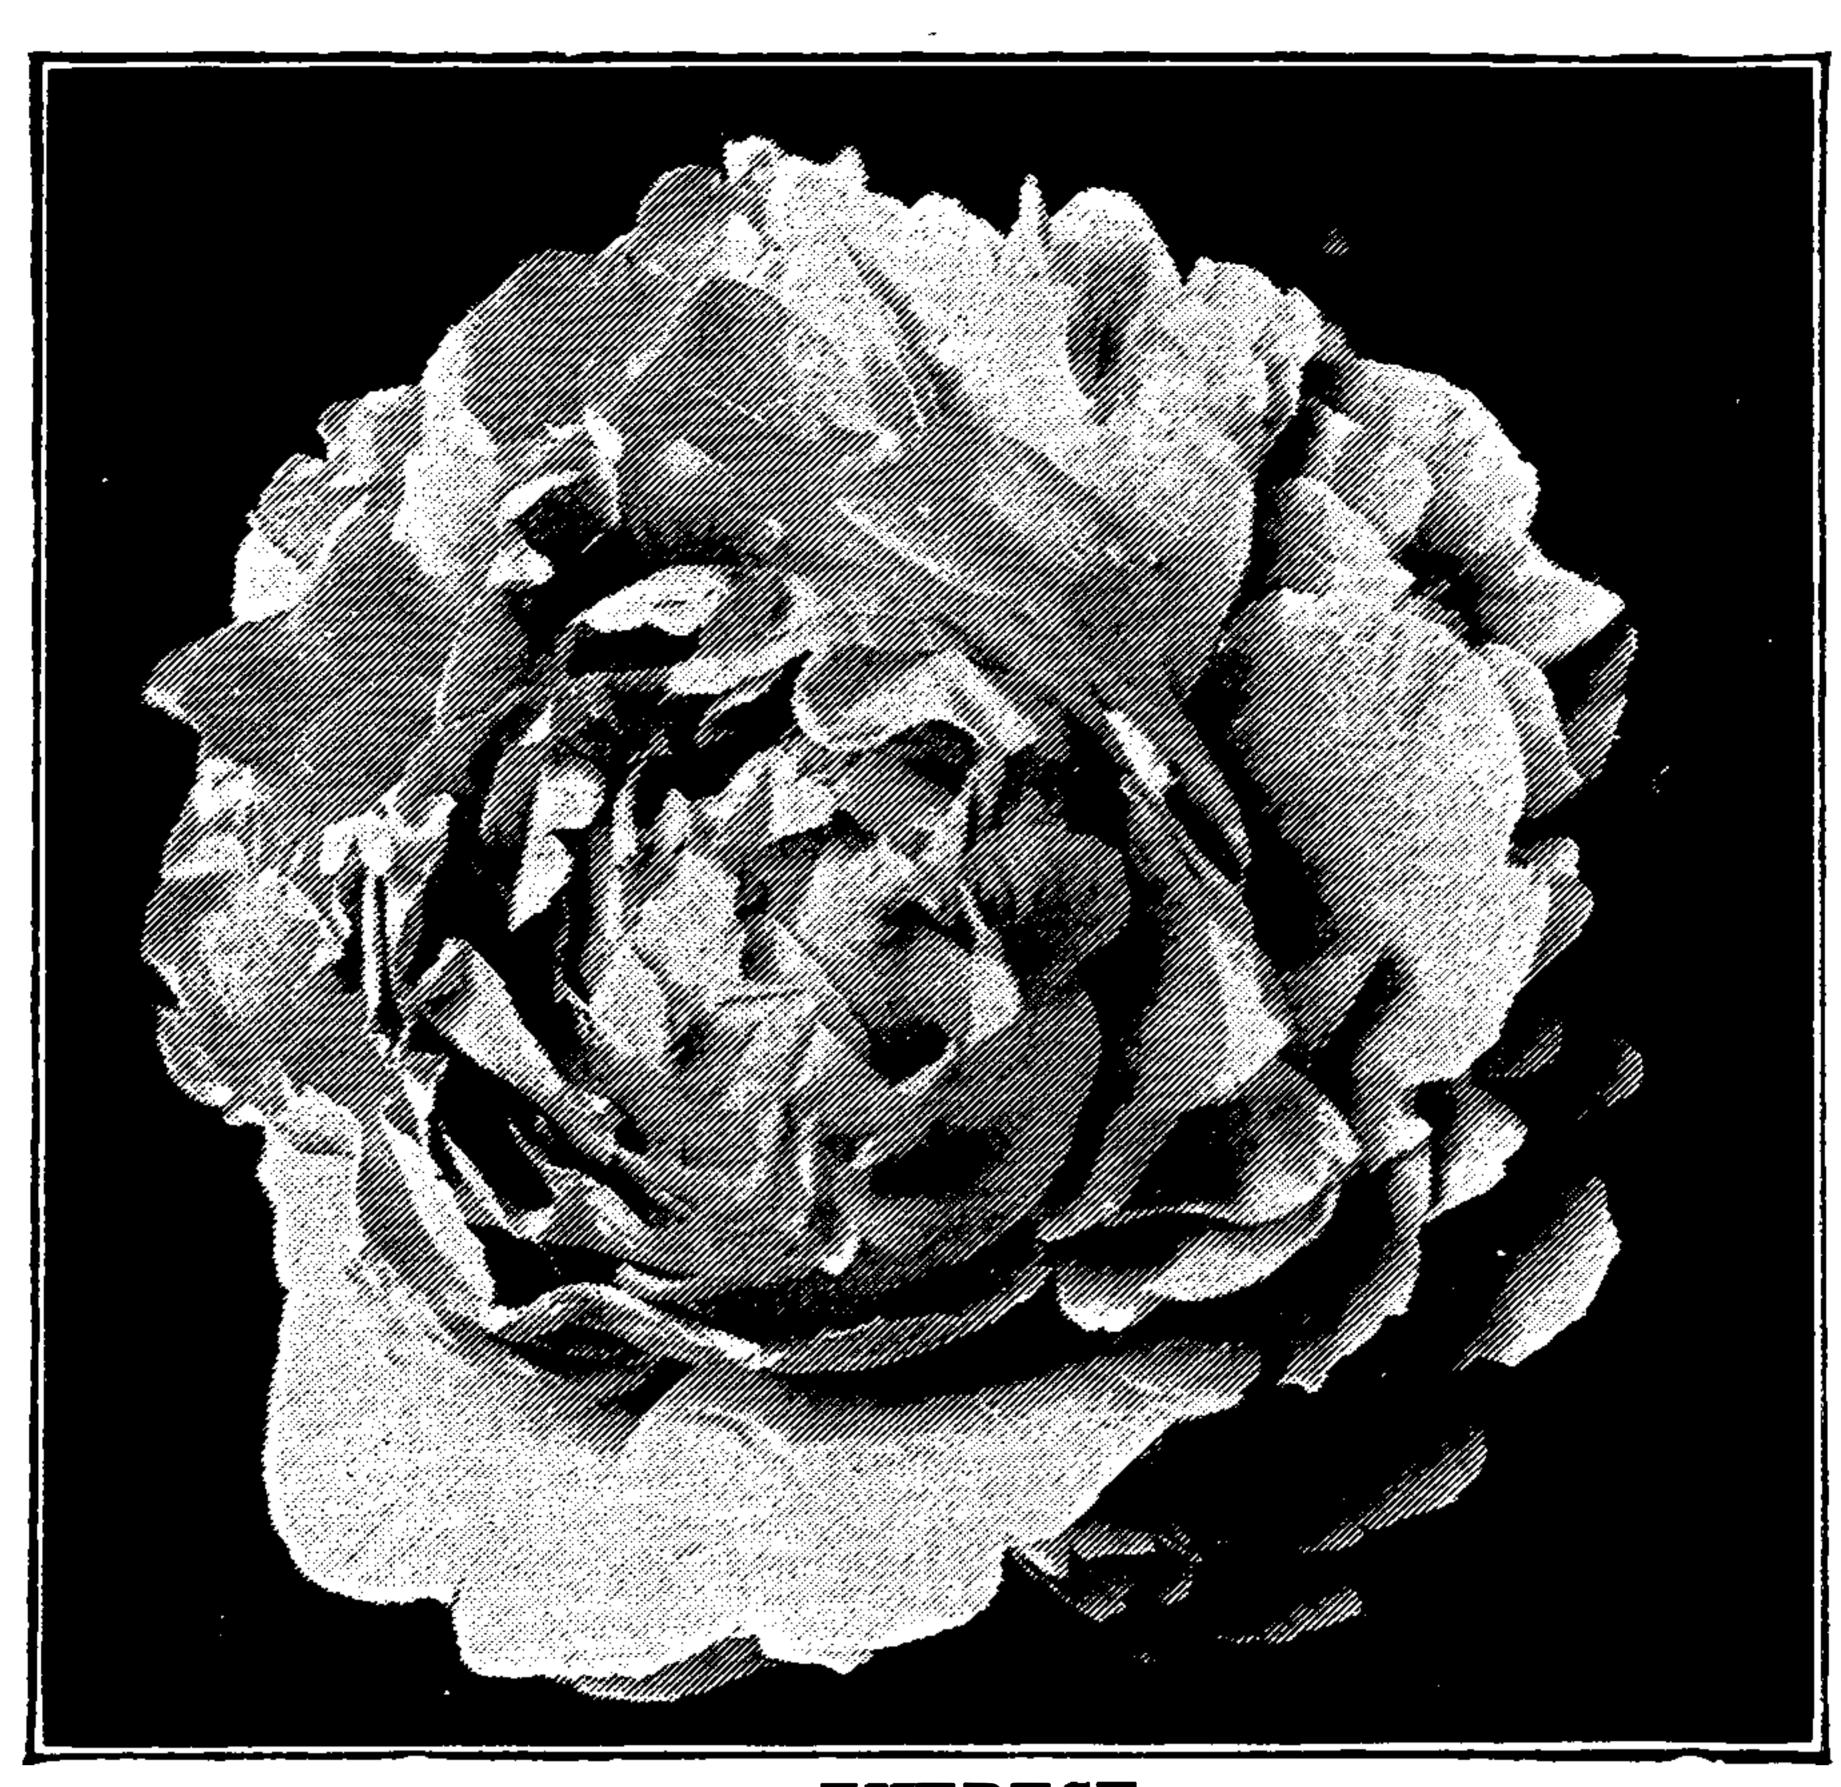

Madame Emile Lemoine, 8.9, (Lem. 1899) ivory-white with markings of crimson,	
fine, mid-season	1.00
Madame Forel, 7.7, (Cr. 1881) enormous, full rose shaped bloom, deep pink	1.00
Mademoiselle Leonie Calot, 8.1, (Ca. 1861) delicate rose-white, distinct and beauti- ful	75

MILTON HILL

Mme. Jules Dessert, 9.4, (Des .1909) one of the very best peonies as to form, free blooming, and delicacy of coloring that we have ever grown, midseason, extra	4.00
Mont Blanc, 8.6, (Lem. 1899) high built, white, high quality	3.00
M. Dupont, 8.3, (Ca. 1872), very large bloom with more red markings than any other white one we know of, strong grower, free bloomer, very good, midseason	1.00

M. Jules Elie, 9.2, (Cr. 1888) immense blooms, resembling a chrysanthemum, clear pink with a silvery tinge, good in every way, a universal favorite, and should be in every collection	1.25
M. Martin Cahuzac, 8.8., (Des. 1899) darkest of all peonies to date, dark garnet or maroon, globular flowers of medium size on strong upright stems, mid-season	~ 3.00
Mr. L. Van Leeuwen, (Nieu.), very large, red, prize winner at Ft. Wayne, 1926	
Mrs. A. M. Brand, 9.6, (B. 1925), purest white; exquisite; gold medal, St. Paul, 1923	50.00
Mrs. Carew, (B.), pink, rose type	1.00
Mrs. C. S. Minot, 9.2, (Minot), shell-pink and white, said to be a very excellent variety by expert growers, but we have not tried it out fully yet	35.00
Mrs. Edward Harding, 9.3, (Shaylor 1918) large pure white, fine quality, full rose type	20.00
Mrs. Geo. Bunyard, 8.6, (Kel. 1898), shell-pink, well formed blooms, free bloomer, good stems, midseason to late	5.00
Nina Secor, 9.0, (Sec.) pure white	10.00
Octavie Demay, 8.5, (Ca. 1867) flesh-pink, dwarf habit, good stems, early	1.00
Officinalis Rubra, the old fashioned extra early deep red	.75
Opal, 8.5, (Pleas 1908) large, rose type, pink, exquisite	3.00
Petite Renee, very odd variety, approaching the Japanese type, wide guards and tufted center of narrow petals, a violaceous pink, midseason	
Philippe Rivoire, 9.2, (Riviere 1911) fine, bright crimson, good form and habit, one of the very few red peonies with agreeable fragrance, very scare	
Phoebe Cary, 8.8, (Brand 1907) large, very soft rose-pink blooms, carried on tall strong stems, very excellent	

THERESE

Phyllis Kelway, (Kel.) bright pink; a choice variety	15.00
Pres. Wilson, 9.3, (1918) soft rose-pink fading to shell-pink, some crimson markings on guard petals, fragrant, late exquisite color and form	45.00
Pride of Langport, 8.9, (Kel.), single, peach-pink	
Pride of Paulding, (Neeley) a new one	25.00
Redbird, 8.6, (Fr.) full double red, unusual in color and form	2.50
Reine Hortense, 8.7, (Ca. 1857) a universal favorite, very charming, pink with crimson splashes, strong upright stems, good grower, mid-season	1.50
Richard Carvel, 8.8, (B. 1913) a splendid early red, bomb type, earlier and said to be better than Felix Crousse in color	4.50
Rosa Bonheur, 9.0, (Des. 1905) a fine soft pink bloom with incurved petals giving it a globular rose shape, rather dwarf grower, mid-season	5.00
Ruigigno, (Jap.), rich dark maroon, tufted center of crepe-like petaloids, crimson and yellow. Large flower of fine substance. An outstanding variety	
Rubra Superba, 7.2, (R.), best, extra late	.75

Rose Shaylor, 9.1 (Shay.) flushed white	25.00
Ruth Brand, 7.9, (B. 1907) large compact bomb type, soft lavender pink, good strong stems with length, a good one, some days later than M. J. Elie, mid-	
season	1.50
Sarah Bernhardt, 9.0, (Lem. 1906) large well formed flowers of a soft shell-pink color, an extra good one, late	
Sarah Carstenson, 8.5, (Terry), Hydrangea pink, rose type. Terry's finest, scarce extra good	
Snow Wheel, (Jap.) white guard petals with yellow petaloids	2.00
Solange, 9.7, (Lem. 1907), here we have unique coloring of a glowing yellowish brown tint found in only a very few peonies and in no other so well defined as in this Won first as best individual specimen bloom at A. P. A. show, St. Paul, in 1923. Late midseason	
Some Ganako, (Jap.) guards darker than Mikado, center tufted golden, very fine, but habit not as upright as Mikado	5.00
Solfatare, 7.6, (Ca. 1861), one of the few yellow tinted peonies when opening, fading if left in sun	:50
Souvenir De Louis Bigot, 9.1, (Des.), a beautiful Bengal rose color. Somewhat similar to Walter Faxon, a choice variety and quite scare	5.00
Souv. de Gaspard Calot, 7.4, (Ca. 1865) fine pink, midseason	1.00
Splendida, 8.3, (Kel.), strong, tall grower, large rose shaped blooms of lilac-pink color, very fragrant, mideason to late	3.00
Stephanie, 8.0, (Terry), a beautiful delicate pink flower, good grower, large, late or midseason	2.00
Suzette, 8.2, (Des. 1911) brilliant rose-pink with gold stamens, full bloomer, good strong stems, midseason	1.50
Tamatbako, (Jap.), pink with yellow tufted center, extra good	15.00

## IRISES

#### Tall Bearded Varieties

In the Iris list, S. indicates the standards and F. the falls or lower petals.

and i. the fams of lower petais.		
	ea.	five
Afterglow, 8.3, (Sturtevant), soft grayish pink, 36"		\$ 2.00
Alcazar, 8.9, (V. A. and C. '20), S. bluish lavender, F. rich purple, vigorous, 36"	.35	1.50
Ambassadeur, 9.4 (Vilm. '20) strong plant with stout stems, about 4 feet high. Flowers very large, S. reddish violet, F. rich velvety dark reddish violet of great substance and almost horizontal. A magnificent variety. See colored plate between pages 12 and 13		4.00
Ambigu, 8.3, (Vilm. 1916), a fine variety, a strong grower and free bloomer. S. smoky red, F. velvety reddish brown	50	2.00
Anna Farr, 8.4, (Farr '13) white, blue markings, 36"	1.00	3.75
Anna Leslie, 8.3, (Sturt. '18), S. white, flushed rose, F. reddish carmine, 27"	.75	3.00
Ann Page, 8.6, (Hort.) 919, a lovely pale lavender self with large flowers of splendid shape. The stems are stout and branching and the blooms deliciously scentel. Gives the general effect of blue. One of the very best	3.00	
Archeveque, 8. 3, (Cil. '11) one of the finest dark irises, 30"	.35	1.50
Arnols, 7.8, bronze and red, 24"	.35	1.40
Asia, 9.2, (Yeld. '20), a grand iris, very large flowers and fine, bold upstanding foliage, S. silvery lavender deepening at base to a golden yellow. F. pale reddish purple, lightening in color toward the margin. One of the finest in cultivation, 4½ feet high	4.00	

Avalon, 9.1, pink lavender	ea. 7.50	five
Ballerine, 9.4 (Vil. '20) another one of the outstanding good irises of recent introduction, said by some to be even more beautiful than Ambassadeur, S. light blue-violet, broad and waved at margins, F.		
deeper color	1.00	4.00
Bluet, 7.4 (Sturt.), pure blue self, white beard, 24"	40.	1.50
Blue Jay, 7.1, (Farr '13) fine blue very late, 30"	.25	1.00
B. Y. Morrison, 8.5, S. bluish lavender, F. purple, white margin	1.00	4.00
Caprice, 7.5, (Vil. '04) good, violet 24"	.25	1.00
Cardinal, lavender and purple2	20.00	
Caterina, 8.9, (Foster '09) red violet, tall branched, 42"	.50	2.00
Chester Hunt, 6.9 (Farr) fine blue 30"	.50	1.75

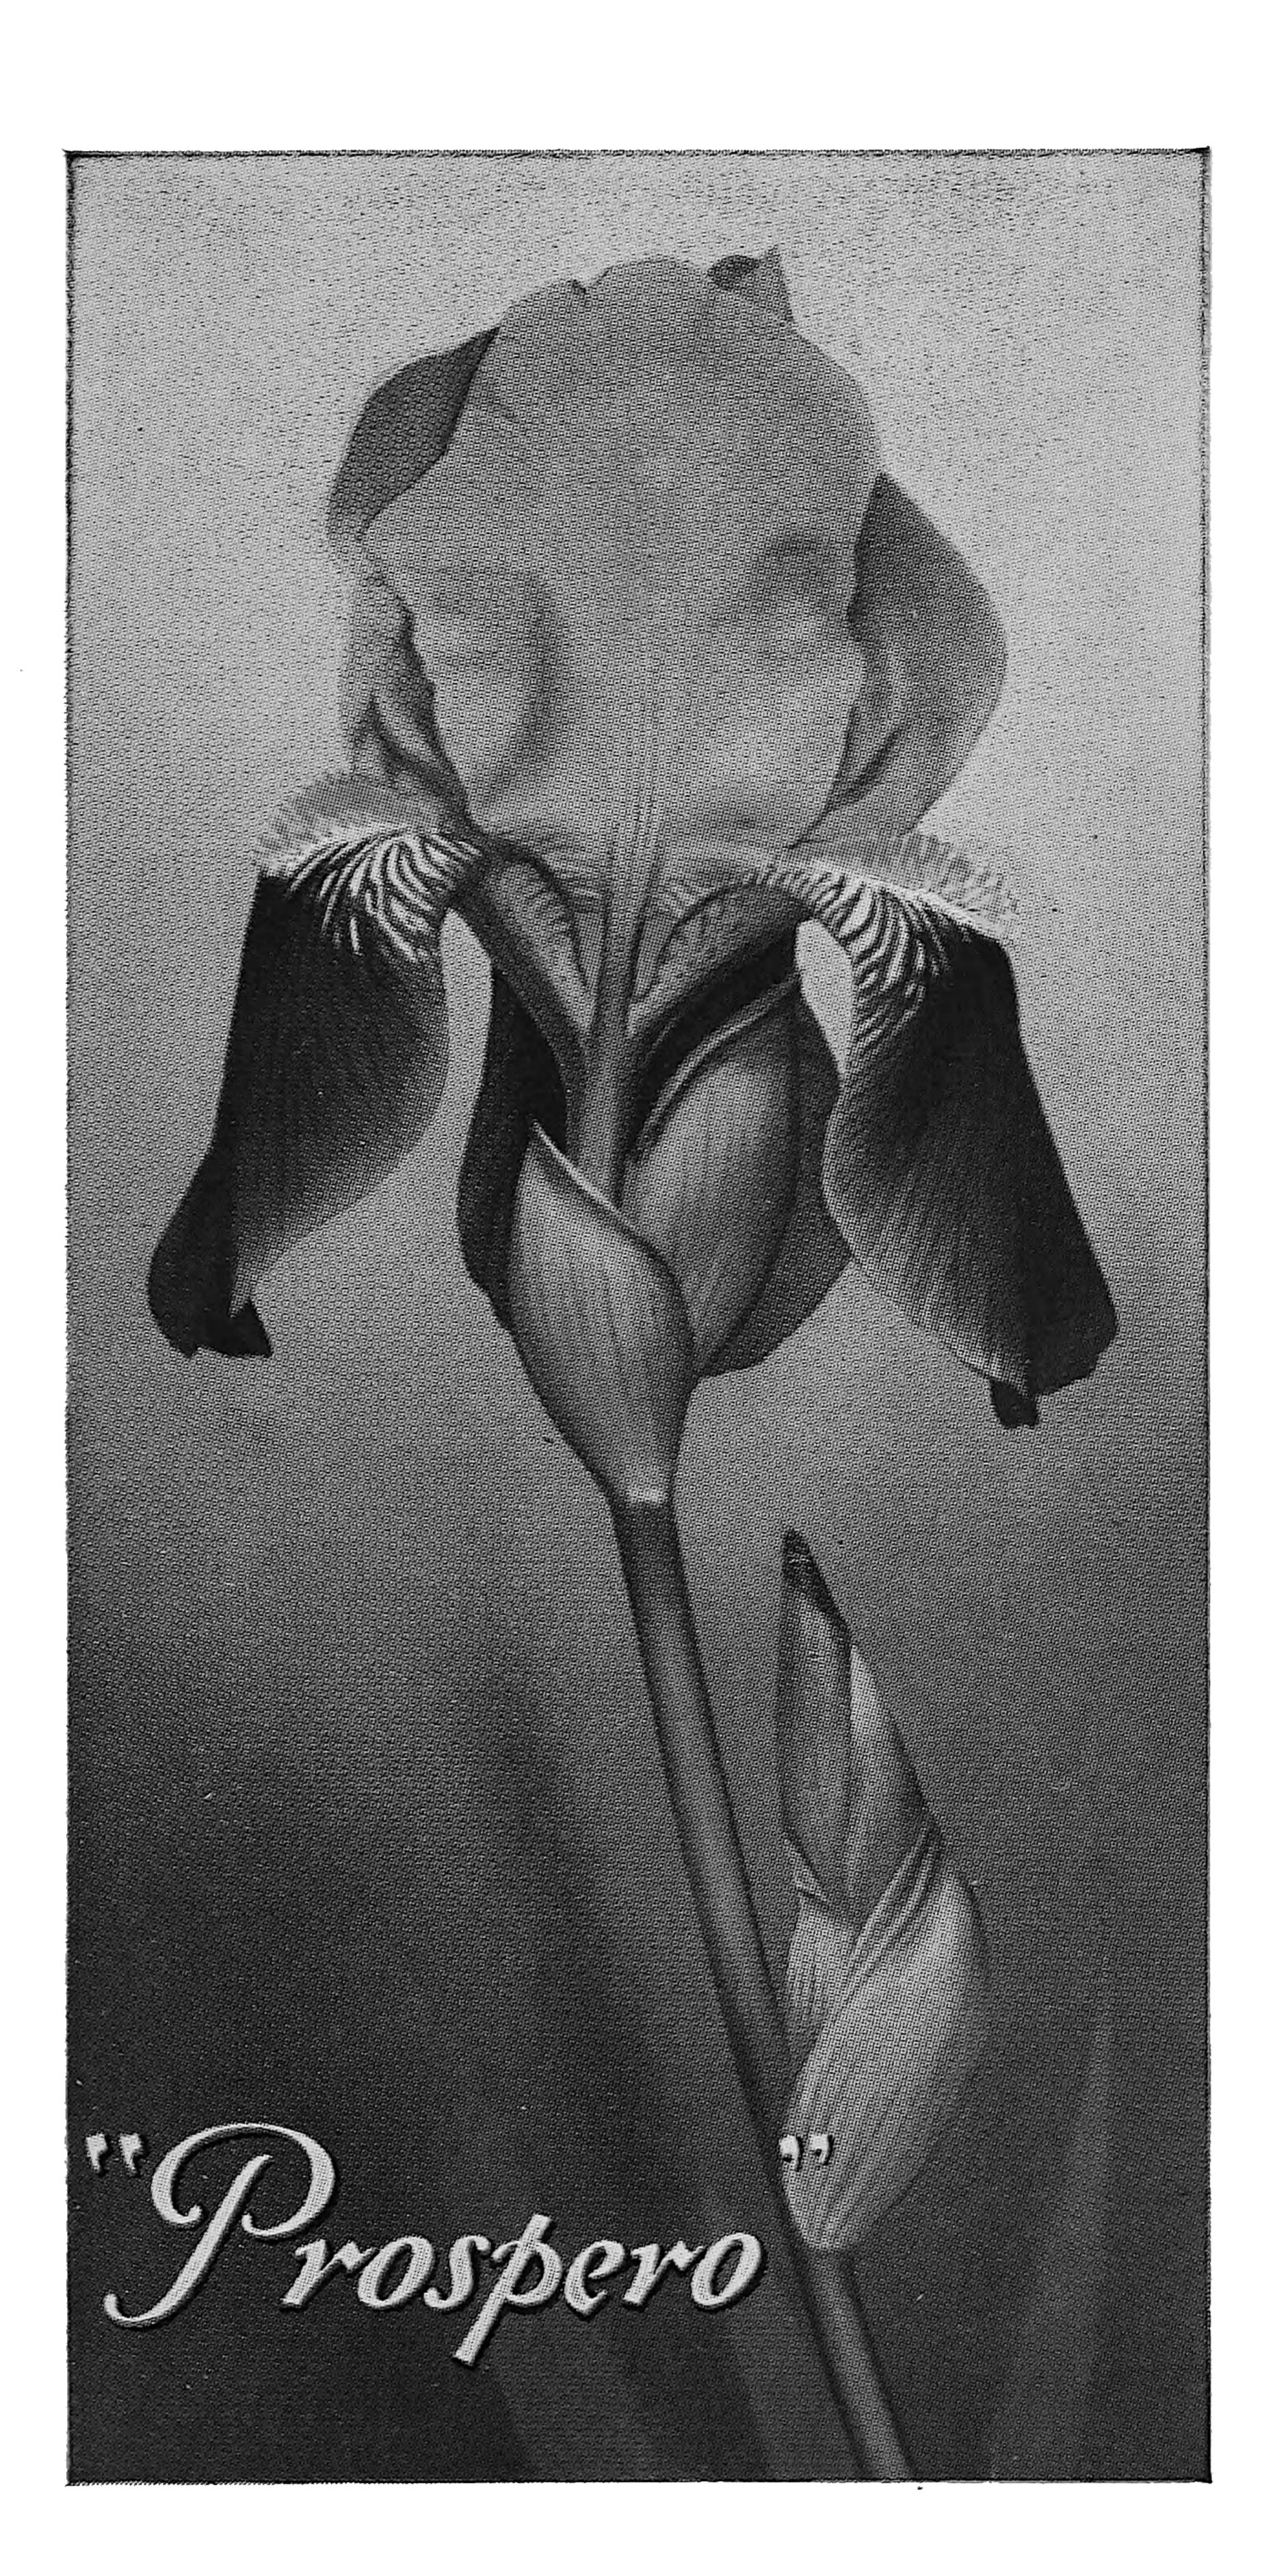

CLUNY

Cluny, 8.6, (Vil. '20) S. pale lilac		
blue. F. darker, magnificent, tall,		
large flower	.75	•

2.50

Eduard Michel, 8.6 (Verd '04) deep	ea.	five
red violet, S. and F. uniform, wine red, 36"	.75	3.00
