

The Sculpture Garden

Bed Map

In an effort to provide an area to showcase HPU students' artistic ability, an outdoor sculpture garden was created to house chosen art pieces. The first student collaborated piece, "Portal To Knowledge", was installed in the garden in Fall of 2010 with several other pieces added yearly. At the Arbor Day Celebration in 2013 it was announced that a plan has been put in place that a piece of work either student led or bought would be added to the garden every year.
