Schizachyrium scoparium 'Red Fox' PPAF (2023 Sneak Peak)

Our Breeding Philosophy

Our plants are bred and selected in the tough conditions of the Midwest with hot humid summers and cold wet winters. We strive to breed plants not as a means, but with an end in mind.

Our goals are simple- improved, durable, ornamental garden plants for our own climate and the rest of the world! Our plants are bred to stand the test of time, if they don't survive or thrive in the garden why bother.

On the cover: *Solidago* x 'Sugar Kisses' PPAF

January 2022

2021 was an exceptional year for our genetics and with supply chain building, the future looks bright. Quality Cuttings now has 11 IPG items including our new *Monarda bradburiana* 'Midnight Oil' PPAF available as an unrooted cutting with an additional five plants in the works for 2022. We have started working with Danziger on *Rudbeckia* x 'American Gold Rush' taking it worldwide to the EU, China, Japan, Russia, Israel, and Brazil. We also have 4 more tissue culture items three of which will be 2023 introductions. The first is *Ligularia* x 'Treasure Island' PPAF, a hybrid with dentata with exceptional foliage available from Vitro Westland and roots from Rijnbeek. *Geranium maculatum* 'Huggy Bear' PPAF a large chocolate red foliage form with pink flowers in May is available from Microplant. I hope to have roots available in the future too. *Sanguisorba* x 'Lady Killer' PPAF is just the right size with lots of wine red flowers from July on. Roots should be available in 2023. *Schizachyrium scoparium* 'Sandhill' PPAF has extra wide powder blue foliage ¼" wide on very upright 4' tall plants. Tissue culture is available from Microplant. In addition to Sandhill in 2023 we will have a short variety of *Schizachyrium scoparium* called 'Red Fox' PPAF.

For 2022 we brought two previous introductions back to sell. *Aster* x 'Arrested Development' is a very compact hybrid with laevis only reaching 10–15" tall and flowering periwinkle blue in September. *Polemonium reptans* 'Soft Rain' is back with its iridescent blue flowers in May above finer foliage plants. *Eupatorium perfoliatum* 'Blind Date' PPAF is an improvement on Milk and Cookies after many years of breeding. Larger chocolate red foliage on vigorous plants to 4'+ have milky white flowers that are very attractive to pollinators. *Geranium pratense* 'MixTape' is a mix of blue flowers, on either green or red to purple leaved plants that vary in size from 15-25". *Leucanthemum superbum* 'Flower Power' PPAF is a larger Shasta daisy compared to most new varieties and is part of the Garden Choice program. Hardy plants grow 30"x30" on dome shaped plants. *Scabiosa* x 'Breeders Hardy Mix' is a seed strain with pink or blue flowered plants ranging from 12-24" tall. It is nice with low grasses and in sunny meadows. My favorite intro of the year is *Solidago* x 'Sugar Kisses' PPAF a hybrid of a white and gold species. Adaptable plants have strap like almost grassy foliage ½" wide on basal clumps. In July 18-24" upright stems with sprays of lime green buds open to white petals and creamy yellow centers. URC should be available from Quality Cuttings in 2022.

Our 6th annual Ornamental Grasses Day is planned for Friday, September 23rd, 2022. Come see our ornamental grasses at their peak.

GOT SEDUMS?

Brent Horvath's first book, *The Plant Lover's Guide to Sedums*, is available from Timber Press. It includes everything you need to know about these beautiful gems. Plant profiles highlight 150 of the best varieties to grow, with information on zones, plant size, soil and light needs, origin, and how they are used in the landscape. Additional information includes designing with sedums, growing and propagating them, where to buy them, and where to see them in public gardens.

Allium schoenoprasum Dwarf Pink Chive
'Rising Star' – Extra dwarf pink chives reaching only 10-12" tall and wide, bloom in May. Fine grey, green, grassy foliage looks nice all season long. 70 plug 1.25
 Easy to grow. Plants prefer full sun and average to well drained soil. 4 1/2" 4.00

Introduced	Royalty	Status	Liner Availability	Sources other than IPG
2010			plugs	Blooming Nursery

Allium x Ornamental Onion
'Big Beauty' PPAF – Extra wide grey-green foliage stands out early in the season on this robust growing allium. In July silvered pink buds open to soft pink 2.5" flower balls. Similar in color to 'Summer Beauty' this plant grows a bit taller to around 24" plus. Full sun, most any soil but wet. 1 Gal. 7.50

Introduced	Royalty	Status	Liner Availability	Sources other than IPG
2021	\$0.20	Patented	custom	Blooming Nursery, Pioneer Gardens, Twixwood

'Chivette' PP#30,151 – A mostly sterile chive with edible kelly green foliage all season long. Initially upright but then more relaxed reaching 12-15" + long. This vigorous plant is easy to grow. Lavender purple flowers with a purple stripe down the middle of the pedal are also edible and held on 12" + stems. Beginning as round buds the flower open to 1" wide. Full sun preferred 70 plug 1.50
 Average to dry soil. 1 Gal. 6.50

Introduced	Royalty	Status	Liner Availability	Sources other than IPG
2017	\$0.15	Patented	plugs, bareroot	Pioneer Gardens, Garden Choice

'Windy City' PP#28,100 – Dark green glossy foliage reaches 15" tall and wide. Dark rose purple flower clusters begin to color in June and open in July on 18-20" stems. Full sun is best. Average well drained to dry soil. 50 plug 1.75
 Very drought tolerant. 1 Gal. 7.50

Introduced	Royalty	Status	Liner Availability	Sources other than IPG
2015	\$0.20	Patented	plugs, bareroot	AG 3, Inc., Baker's Nursery, Blooming Nursery, Creek Hill Nursery, Garden World, Gertens, Greenleaf Nursery, Hortech, Pioneer Gardens, Twixwood

Allium x Big Beauty PPAF

Allium schoenoprasum Rising Star

Allium x Chivette PP#30,151

Allium x Windy City PP#28,100

Amsonia tabernaemontana **Bluestar**

'Fontana' — This red stem selection has slightly darker blue flower clusters at the end of May into June on 36" + plants. In August the red seedheads are showy too. Zone 4-9. Full sun to light shade. Well drained to dry soil. 1 Gal. 6.25

Introduced	Royalty	Status	Liner Availability	Sources other than IPG
2015			custom	

'Bases Loaded' — Intermediate, halfway type foliage, emerges dark green. These hybrid plants are heavy blooming. The light blue flower clusters are larger too and begin to open at the end of May on 18-24" stems. These plants have a reserved growth spurt to 30 inches plus after the flowers fade keeping the plant 70 plug 1.25
wider than tall. Full sun, average soil 1 Gal. 6.25

Introduced	Royalty	Status	Liner Availability	Sources other than IPG
2020			custom	Blooming Nursery

Amsonia x **Baseball™ Bluestar**

'Seventh Inning Stretch' — Initially glossy foliage emerges green but smaller than a typical illustris. The habit on this hybrid is upright but more reserved and is bushier. Light blue flower clusters bloom at the top of the thin stems in 70 plug 1.25
late May, early June eventually reaching 3'. Full sun to light shade. 1 Gal. 6.25

Introduced	Royalty	Status	Liner Availability	Sources other than IPG
2018			custom	

Amsonia x **Bluestar**

'Halfway to Arkansas' — The foliage is a glossy deep green and uniformly needle-like. Pale blue flowers cluster in May. Rounded mounds top out just over 48" tall and wide. Yellow fall color comes a bit later than the other Amsonias. Try it with Pennisetum 'Red Head,' and Penstemon 'Huskers Red' and 'Pocahontas.' Full sun to light shade in well drained to moist soil. 70 plug 1.25
1 Gal. 6.25

Introduced	Royalty	Status	Liner Availability	Sources other than IPG
2005			plugs	Blooming Nursery, GET group, Hortech Twixwood

Amsonia x Bases Loaded

Amsonia tabernaemontana Fontana

Amsonia x Seventh Inning Stretch

Amsonia x Halfway to Arkansas

Amsonia x **Bluestar**

'Midway to Montana' – Mature plants have intermediate foliage around 3/8 - 1/2" wide with clumps maturing to 3–4' tall and wide. Light blue flower clusters bloom at around 12-18" +with a bolt of foliage after that. These adaptable plants will grow in full sun to part shade and most any soil except wet. Fall color is a striking golden yellow. These plants can make a nice informal herbaceous hedge too.

1 Gal. 6.25

Introduced	Royalty	Status	Liner Availability	Sources other than IPG
2013			custom	

Andropogon gerardii **Big Bluestem**

'Blackhawks' PP#27,949, EUPBR#53,060 – Deeper green foliage takes on a deep purple background in mid-summer deepening to dark purple and near black in some parts of the plant. Upright 5'+ tall plants will stand out in the landscape, especially with other tall grasses. Full sun, average soil.

50 plug 3.00
1 Gal. 8.00
3 Gal. 15.00

Introduced	Royalty	Status	Liner Availability	Sources other than IPG
2016	\$0.25	Patented	plugs, stage III	Emerald Coast, Baker's, JRT, Briggs Nursery Creek Hill Nursery, Greenleaf Nursery, Hoffman Nursery, Janus Gardens, Midwest Groundcovers, Monrovia Growers, Northcreek Nursery, Norview Gardens, Oglesby International, Poplar Ridge, Twixwood, Walla Walla Nursery, Walters Gardens

'Dancing Wind' PP#26,892 – Selected for its bi-color late summer color of green and red deepening to dark red in September and scarlet after frost. Heavy blooming plants begin in August with the entire plant becoming mostly red by the end of September. Grows to 6' tall and almost 2' wide. Full sun is best. Any soil but wet.

'Red October' PP#26,283 — Our second vegetative form of Big Bluestem and for its fall color its hard to beat. Initially it was selected for its finer foliage, and has a nice upright habit to 6'. Foliage emerges deep green usually having some red tips from spring on. Starting in August the red highlights increase and deepen to a rich burgundy red. After the first frost usually in October, the foliage turns a more scarlet red taking on a striking appearance. Red flowers begin in August. Full sun is best for the red foliage color. Well drained soil. John Greenlee called this "the New Rubrum."

INTRODUCTIONS

Penstemon *digitalis* **Beardtongue**

'Pocahontas' PP#24,804 – Burgundy foliage emerges in spring quickly followed in June by 3-4' burgundy red stems holding loose clusters of purple pink flowers.

An irresistible combination judging from the womens reaction when we had it blooming near the office. The hummingbirds also had a taste and find it equally appealing. Plants prefer full sun, and well drained to rich soil.

Polemonium *reptans* **Jacob's Ladder**

'Soft Rain' – After years of selecting for unique forms of reptans we finally have a finer form to share. Both the foliage size and plant size are smaller, topping out at just around 1' tall. Iridescent light blue flowers deepen with cool nights giving the petals a second deeper hue. Too nice not to share. A perfect companion with short Carex and other spring plants. Full sun to part shade. Average soil, though it will tolerate dry soil.
