JOLLY 
FARMER
EST. 1967

DEAR *customer,*

Welcome to our 2024 Spring catalog. Inside you'll find exciting new varieties such as Beacon Lipstick Impatiens, Itsy Petunias, Red Candy Sunpatiens and exclusives like Calibrachoa Calitastic Sunspot and Biden Blazing Glory Ring of Fire. I travel to field trials across North America to view and select the very best for you and your customers.

Our team is working tirelessly to bring you the best quality plants, service, and delivery. I encourage you to place your orders no later than December 1st, as we are expecting another sold-out season. You can use our convenient on-line ordering system any time you wish, or talk with one of our friendly staff to place your orders. We will process all pre-orders and send your acknowledgments in January, 2024.

Thank you for being a Jolly Farmer customer. I know you have other choices, and we work hard to earn your business.

All the best for 2024!

Peter

CLEAR CRYSTAL MIX

BEGONIA SENATOR IQ DEEP ROSE

SENATOR IQ SCARLET

Begonia - Fibrous

Senator IQ - Updating the popular, dark-leafed Senator series, "IQ" provides darker leaves and earlier flowering. Great garden performance with heat-tolerance and weather-resistance. Flower size 3/4-1". Height 8-10".

Deep Rose

Scarlet

White

Mix

Super Cool - Replaces Sprint series. Extremely large flowers, well branched, and very floriferous. Can be grown cooler. Well suited for packs and pots. Will flower within 2-3 days of each other. Height 10-12".

Pink

Red

White

Mix - mix of 4 colors

SENATOR IQ WHITE

SENATOR IQ MIX

BEGONIA SUPER COOL MIX

Calendula

Costa Mix - A very uniform series. Strong, vigorous plants, especially suited to cool weather production. Early blooming. Height 10-12".

CALENDULA COSTA MIX

CELOSIA ARMOR MIX

CELOSIA FLAMMA ORANGE

Celosia

Armor Mix - Attractive, large, crested combs in brilliant colors. Extremely heat tolerant, making this an excellent choice for summer pot programs. Vigorous plants reach heights of 8-16".

Flamma - Boasts vibrant plumes in vivid colors that won't fade. Exceptional heat tolerance with early, uniform flowering on a compact habit. Height 16-18". Spread 10-12".

TELSTAR CRIMSON

TELSTAR PURPLE

Kimono Mix - Contains 8 colors: Cherry Red, Cream, Orange, Red, Rose, Salmon Pink, Scarlet and Yellow. These very dwarf 5-6" plants have 2½" plumes. Superb heat tolerance.

Coleus

Black Dragon - Deep red leaves with curled and serrated, blackish-purple margins. A real "stand out" variety. Best in shade. Height 15-18".

Festive Dance - Burgundy with broad pink veins.

Wizard™ - Dwarf and compact with colorful medium to large leaves. Uniform and basal-branching. The Wizard Series is nearly non-flowering which means no dead-heading. Height 10-12".

Coral Sunrise - Shades of pink, salmon, olive green & light green.

Scarlet - Rich bronze red with a pale green edge. Best in some shade.

Rainbow Masterblends Mix - A gorgeous mixture of bright, vivid foliage. The semi-dwarf plants are ideal for shaded areas in landscapes, beds or mixed containers. Will last a long time and are slow to flower. Basal branching. Height 14". Spread 10".

Cosmos

Sensation Mix - Very tall Cosmos grow up to 4 feet. Blooms all summer in a medley of rose, crimson, white and pink, 3½" semi-double flowers.

Sonata - Compact and free-flowering series stands 18-24" tall with golden eyed 2¾-3" flowers. This full sun cultivar needs long days to bloom. Will continue blooming all summer. Fleuroselect Medal Winner.

Carmine

Mix Complete

Dahlia

Fresco Mix - Semi-double to double flowers on dwarf plants. Plant in pots or directly in the garden. Height up to 12". Spread up to 18".

Dianthus

Ideal Select - Early flowering, well-matched series. Well suited to high density production in spring or fall. Height 8-10". Spread 12-14".

Whitefire - red & white bicolor

Mix - extremely uniform timing; shades of picotee, rose, violet, red & white

Super Parfait™ - Large 2" flowers with consistent eyed pattern of vibrant colors. Extremely early, compact, and basal-branching. Can be grown cool. Height 8-10".

Raspberry - rose with crimson eye

Strawberry - pink with scarlet eye

Telstar - Very hardy 10" plants are covered with 1½" flowers all season long. Outstanding heat tolerance as well as cold tolerance.

Crimson - deep crimson flowers

Purple

ANNUALS

Dusty Miller 

Silver Dust - White silvery foliage with deeply lobed leaves. Does best in sun. Heat and cold tolerant. Excellent accent plant. Height 8".

Flowering Kale 

Heavily fringed leaves. Color intensifies with frost, and lasts long into the cold season.

Nagoya Mix "Emperor" - Very uniform, heavily fringed. Height 8-10".

DUSTY MILLER SILVER DUST

FLOWERING KALE NAGOYA MIX

GAZANIA NEW DAY PINK SHADES

Gazania 

New Day - Bred for larger flowers, shorter flower stems, and fuller plants. Well suited for pack production, containers, or baskets. Excellent drought tolerance for easy care in the landscape. Height 8-10".

Pink Shades - rose to pink

Yellow - with dark, central ring

Mix

GAZANIA NEW DAY YELLOW

GAZANIA NEW DAY MIX

HYPOESTES SPLASH SELECT MIX

Hypoestes 

"Polka Dot Plant"

Splash Select - Big uniform dots of color mark the eye-catching foliage of these dwarf hypoestes. No growth regulator is needed to maintain their habit; pinching promotes a bushier plant. Height 8-10".

Rose

Mix

Impatiens 

BEACON - Beacon® Impatiens are bred with a high resistance to downy mildew. No need for IDM preventative measures according to Pan American. A must have in the industry! They are slightly taller than Super Elfins but with a smaller flower size. Once again you can confidently use impatiens to create color in your shade beds, landscapes and production programs! Height 10-12". Spread 12-14".

TAISHAN YELLOW

NEW Imara™ XDR Red Star - Extra Disease Resistance! The first Impatiens walleriana to offer downy mildew resistance. Use Imara XDR for your packs, pots, and shade gardens. They are mounded plants that will battle downy mildew all season long! IDM preventative measures are recommended by Syngenta for Imara XDR's. Height 10-12". Spread 10-12".

Lobelia

Palace White - Early flowering, compact, and good for pots, baskets and borders. Do not allow to dry out. Height 5".

Regatta - A trailing variety, great for hanging baskets; uniform. Do not allow to dry out.

Midnight Blue - dark blue flowers with bronze foliage

Rose - magenta pink with white eye

Mix

Riviera - Dwarf, upright lobelia stands only 3" tall. Earlier to flower than any other series.

Blue Eye - blue with white eye

Marine Blue - mid-blue with green foliage

Marigolds - African

Inca II™ - Inca II improves upon and replaces the popular Inca series. 7-10 days earlier, Inca II has stronger bloom stems and more compact habit. 3-3½" fully double blooms. Height 12-14".

Deep Orange - rich orange

Yellow - brilliant yellow

Taishan® - Compact, sturdy plants with strong necks to keep flowers upright. Large, fully-petaled blooms with no empty centers. Height 10-12".

Orange

Yellow

Marigolds - French

Bonanza™ - Double-crested, 2-2½" blooms show early, and perform under a wide range of conditions. Height 10-12".

Bolero

Deep Orange

Flame - dark mahogany with orange edging

Harmony - bronze red with gold center

Yellow

Mix

NEW Flamenco - A novelty marigold with yellow petals tipped with red. A stand alone variety that does great in patio containers and gardens. Flamenco blooms a few days later than the Bonanza series. Height 10-12". Spread 6-8".

Super Hero™ - Replacing the Hero series, Super Hero is earlier to flower and more uniform across the series. Stable flower patterns, French-crested form. Height 9".

BONANZA MIX

Morning Glory

Vigorous climbers well suited to trellis, fence, or lamp-post. Flowers open in the morning and close tightly by late afternoon. They can tolerate a bit of shade, but prefer full, blazing sun. Also drought tolerant. Bloom from early summer to fall.

Happy Hour Rose - 5" blooms, deep pink with white throat, variegated foliage that reaches 6-9'.

Heavenly Blue - Reaches up to 12' with abundant sky-blue flowers.

Sunrise Serenade - 1-3" ruby/red double blooms with white throat. Reaches 12-15'.

FLAMENCO

SUPER HERO DEEP YELLOW

SUPER HERO HARMONY

Nasturtium

A versatile, beautiful annual that is also edible. Both leaves and flowers may be ingested, offering a peppery or mustardy flavor, often used in salads. Excellent in baskets and containers as well as garden plantings. Encouraging bees, butterflies, and ladybugs while repelling white flies and black flies, nasturtiums are a desirable companion plant in many gardens.

Alaska Mix - Lovely marbled leaves with red, orange, and yellow blooms. Height 10-12".

Jewel Mix - Semi-double blooms in red, pink, orange, and yellow. Height 12".

SUPER HERO MAXI MIX

MORNING GLORY
HAPPY HOUR ROSE

ANNUALS

Petunia 

Daddy® Sugar - Light orchid with deep purple veins. 3-4" flowers. Outstanding performers from the pack to the garden. Garden height 8-10".

Dreams™ - Free-flowering, tightly branched petunias deliver matched performance across all colors. Weather tolerant plants bloom uniformly with 3-4" flowers. Height 8-10".

- Burgundy**
- Burgundy Picotee**
- Red Picotee**
- Rose Morn**

Sky Blue - large, sky blue flowers

Madness® Blue Star - Compact and floriferous, puts on an impressive show throughout summer right up until frost. 3" blooms cover well-branched 10-12" tall plants.

Pretty Grand™ - is a grandiflora version of the Pretty series, bred for compact habit with fewer pgr's needed. Better branching and improved airflow give better garden performance than comparable types. Height 6-10".

- Midnight**
- Pink Deep**
- Red**
- White**
- Mix**

Prism Sunshine - AAS Winner. The best performing yellow grandiflora. Early, 3-3½" blooms and a compact, uniform habit.

Petunia - Doubles 

First blooms may be single.

Double Madness® - These double petunias look spectacular in pots, baskets, beds, and landscape plantings. The compact floriferous plants deliver generous masses of large 3" flowers all summer. Double Madness bounces back within hours of a rainstorm. Later to flower than regular petunias.

- Rose and White** - more compact and better branched with more blooms
- Mix**

Portulaca 

"Moss Rose"

Happy Hour™ - Happy Hour will flower up to 2 weeks earlier, since it is bred for reduced day-length sensitivity. Flowers uniformly across the series. Height 8-10".

Rudbeckia

Tall, showy, long lasting blossoms from midsummer to fall. Grows rapidly in fertile, loose soil. Golden yellow, daisy-like flowers with dark, high central cones. Excellent for cutting. Best treated as an annual.

Toto® Mix - Makes a showy flowering pot plant. 2-3" flowers. Early, compact and well-branched plants. Flowers all summer long. Grown as a colorful annual in most areas, may also be used as a perennial in some southern regions. Tender. Height 8-10".

Salvia farinacea

Victoria Blue - Large, intense, mid-blue spikes borne on compact, 16-18" plants that spread to 14" across. The best for color intensity and duration of blooms. Good for cutting. Blooms into the fall. Excellent landscape plant. Fleuroselect Award Winner.

Salvia splendens

Vista™ - The brightest Salvias on the market. Heat tolerant, early flowering with good outdoor performance. Excellent branching. 4-6" in packs; 13-12" in garden. Full sun in the north.

Purple

Red

Snapdragons

Rocket Mix - The finest hybrids for garden use and hot weather tolerance. They grow 30-36" tall and produce long spikes with many closely spaced florets. Good for garden or cutting.

Snapshot™ - Great pack performance and earliness are keynotes of this series, combined with strong garden performance. Uniform flowering. Height 6-10".

ANNUALS

Sweet Pea 

Fill your home and garden with the bright colors and sweet scent of these flowers. Easy to grow. Can be grown on a trellis, or in containers, hanging baskets, and window boxes.

Knee High - Colorful mix, excellent for cut flowers. Height 24-30". Semi-dwarf variety, needs minimal support.

Royal Family - Blooms are larger than most varieties, long stems for cutting. Height 4 -5', must be supported. Heat tolerant.

SWEET PEA KNEE HIGH

SWEET PEA ROYAL FAMILY

TORENIA HI-LITE MIX

Torenia 

Hi-Lite™ Mix - F1 Torenia that will withstand intense heat and sun without damage to the flowers or foliage. It's compact, mounded habit makes it a perfect choice for smaller applications, but is just as impressive for larger containers, hanging baskets and the garden. The light green leaves and flower buds add an interesting contrast to the blooms. Mix includes Blue Beacon, Blue/White Beacon, Blue and White, Deep Blue, Magenta, Pink and White. Height 8". Spread 8".

VERBENA OBSESSION
RED WITH EYE

VERBENA OBSESSION MIX

Verbena 

Obsession™ - Plants are more compact and have a branching habit. Does well in packs or in the garden. Spreading habit. Very mildew tolerant.

Red with Eye - bright red with large white eye
Mix

Quartz XP Pink - Exhibits superior uniformity in habit and bloom time among colors, good branching on mounding plants. Excellent garden performance. Height 8-10".

VERBENA QUARTZ XP PINK

VINCA CORA CLASSIC RED

VINCA CORA XDR POLKA DOT

Vinca 

"Periwinkle"

Cora® Classic Red - An F1 hybrid. The first vinca from seed that is genetically resistant to aerial Phytophthora. Thick green glossy foliage with 2 1/2-3" flowers, maintains a uniform habit and flowering time. Likes full sun. Height 14-16".

Cora® XDR - The XDR's offer even more resistance to aerial Phytophthora. Large showy flowers will catch your eye and bloom all summer long. They have improved branching, uniformity and flowering time. Great for your premium packs and small to larger pots. Mounded habit, loves full sun. F1 hybrid. Height 14-16". Spread 18-20".

Delft Blue

Pink Wing - pink cap with white face

Zinnia

Profusion - Early, continuous blooming, 12-18" plants perform well under both warm and cool conditions with high humidity. Excellent tolerance to disease including Powdery Mildew and Bacterial Leaf Spot. Single blooms. Heat and drought tolerant. Full sun.

Cherry - AAS Winner.

Orange - AAS Winner.

Red - AAS Winner.

Red Yellow Bicolor - National AAS Gold Medal Winner. Judges comments: "Wow, Wow, Wow!" This gorgeous zinnia starts the season with a bold vibrant red center ring surrounded by golden yellow outer petals, and ages into soft, beautiful shades of apricot, salmon and dusty rose. "Just so cute!"

White - AAS Winner.

Yellow - brilliant yellow with rich golden "picotee" edge matures to solid yellow.

Mix

Zesty™ Mix - This series has fully double flowers that create a beautiful display from late spring to autumn. Pollinators love this plant! Mounded habit. Height 18-24". Spread 18-24".

MINT
Pineapple

vegetables

Arugula

Astro - A member of the nutritious crucifer family like broccoli and kale, arugula has tender, tangy leaves and edible flowers. Prefers cool weather and may overwinter in many areas. Flavor of flowers is spicy and nutty. Height 6-12". 38 days.

ARUGULA ASTRO

Beans

Blue Lake - Bush bean yielding 6" green pods. Excellent fresh, frozen, or canned. Heavy yields. 56 days.

Gold Rush - Yellow wax bush bean with heavy yields. Fine flavor, excellent fresh or frozen. 54 days.

Mascotte - AAS Winner. Everbearing bean with flavor and yield. This "pick and come again" variety is ideal for small home kitchen gardens. Growing beans in containers has never been as easy! Height 18".

BEANS BLUE LAKE

BEANS GOLD RUSH

BEANS MASCOTTE

Broccoli

Lieutenant - F1 hybrid. Upright medium high domes with fine beads and smooth mid-sized stems, producing minimal side shoots. Dark green color. Well suited to warm growing conditions, provided they are well watered. Good for the Northeast. 80 days.

BROCCOLI LIEUTENANT

BRUSSELS SPROUTS LONG ISLAND GREEN

BRUSSELS SPROUTS REDARLING

Brussels Sprouts

Long Island Green - Stocky, semi-dwarf plants produce lots of tasty green sprouts. Doesn't need support. Heirloom. 90 days.

Redarling - An abundance of firm, well filled buttons. The mild tasting 1½" purple/red brussels sprouts sit on 32" tall stems. Will add great color to your meals. Indeterminate. 140 days.

Cabbage

NEW Expect - Gorgeous fresh green heads maintain taste, color and high quality in long term storage. 5-9 lb heads are dense, perfectly round and exceptionally uniform. Notable heat tolerance makes this a very versatile variety. Plants are easy to trim, highly consistent, reliable and productive and an excellent choice for the commercial grower. 100 days from transplant. Highly resistant to fusarium yellows.

Fast Vantage - Medium green, early season variety. Very uniform, with 2½ lb heads. 59 days.

Red Acre - Round, red cabbage yielding up to 3 lb heads. 80 days.

CABBAGE EXPECT

CABBAGE FAST VANTAGE

Cauliflower

Snow Crown - Pure white, round smooth heads weigh more than 2 lbs. Excellent quality; vigorous uniform plants. 50 days.

Chinese Cabbage 🌞

Blues - Green with bright white ribs, 10" tall. Blues is a broad leaf type, can be used in spring or fall. 57 days.

Cucumber 🌞

Beit Alpha - An open pollinated burpless cucumber that is nearly spineless and produces 12" fruit that is sweet, crunchy, and bitter free. Can be harvested at 5-6" for pickling and salads. 56 days.

Patio Snacker - Hybrid. A well branched, short, vining variety perfect for large containers with small trellises. This fast-growing plant produces early, continuous high yields of 8" dark green fruit. Great flavor and a nice crunch. Can be grown in hanging baskets. Height 24-30". 50-55 days.

Pick a Bushel - AAS Winner. Compact container variety bears loads of sweet cukes that can be harvested small for gherkins or grown to 6" for slicing. Semi-bush plant, reaching a height of only 12" with a spread of 30". Good garden performance and disease resistance. 45 days.

Saladmore Bush - Hybrid, AAS Winner. This semi-bush vine sets sweet crisp cucumbers as long as you keep them picked. Good garden performance due to the multiple disease resistance. Has dual use, pick small for processing pickles and harvest larger for fresh slices. Height 24". 50 days.

Slice More - High yields of smooth, long, dark green slicing cukes. Fruits up to 8.5". 63 days.

Eggplant 🌞

Classic - Glossy blackish purple fruit with oval elongated shape. 8-9" fruits. 76 days.

Patio Baby - Unique, high yielding, compact variety produces baby-size, dark purple eggplants very early and repeatedly. Excellent for a patio pot program. Height 16-20". 45 days.

Gourd 🌞

NEW Small Professional Mix - A wonderful choice of different gourds that have a wide selection of shapes, sizes and colors will add an interesting range for homegrown decorations. 70-80 days.

Kale 🌞

Scotch Blue Curled - Compact plants yield tender, blue-green, crinkled leaves that are quite delicious, very cold hardy, and rich in Vitamin A. Height 12-15". Spread 20-35". 53-65 days.

Lettuce 🌞

Black Seeded Simpson - Popular home garden loose leaf variety. Large, light green leaves with ruffled edges. 45 days.

Buttercrunch - A long time favorite with leaves that are juicy and crisp. Performs well in warm growing areas. Bibb type. 65 days.

Great Lakes 659 - Iceberg type lettuce with outstanding tip-burn resistance. Good in cool or warm conditions. Produces solid, large, dark green heads. Slow to bolt. 80-90 days.

VEGETABLES

Mesclun Baby Leaf - An assortment of colors, shapes, and textures. Includes romaine, oak leaf, and curled types. 50-55 days for mature leaves or only 28 days for baby leaves.

Parris Island Cos - Excellent romaine type. Intense, dark green color and tall, erect habit. 74 days.

Thurinus - An attractive red romaine lettuce, with great contrast between dark red and lighter green at the base of the leaf. Uniform plants are well suited for spring, summer, and fall. High resistance to various strains of downey mildew. 56 days.

LETTUCE MESCLUN BABY LEAF

LETTUCE PARRIS ISLAND COS

LETTUCE THURINUS

Muskmelon 🌞

Ball 2076 - Very sweet flavor and thick orange flesh. 5 lb fruits. Good performance in all areas. 78 days.

Earlidelw - Honeydew melon with green, sweet flesh. Good for northern climates. 2½-3 lb fruit. 80 days.

Sweet Granite - Orange-fleshed fruits about 3 lb. Deliciously sweet. Good for northern climates. 68 days.

MUSKMELON EARLIDELW

MUSKMELON SWEET GRANITE

Peas 🌞

Green Arrow - Plump 4" long green pods packed with up to 11 peas. Grows 24-28". Disease resistant. Good for freezing. 70 days.

Sugar Lace - Stringless, edible pod peas are sweet and prolific. Compact habit, only 30" tall, may be grown without support. 68 days.

PEAS GREEN ARROW

PEAS SUGAR LACE

Pepper 🌞

Better Belle IV - An upgrade from Better Belle III, this is a popular green-to-red sweet bell pepper known for early maturity, outstanding color and high yields of quality fruit. It has fantastic disease resistance. 4 lobed green/red fruits measure 4" by 5". 75 days.

California Wonder - A uniform green to red late-season variety whose blocky fruits are perfect for stuffed peppers. The three to four lobed fruits are crisp, tender and flavorful, even when matured fully red. 65-75 days.

Candy Cane - F1 hybrid. This sweet non-bell pepper has variegated foliage and is perfect for containers or in ground, with or without support. The 3½-3¾ oz. fruits have sweet flavor and crisp texture, making them delightful at any stage of ripeness. Height 18-24". Spread 12-18". 55-60 days (green). 70-75 days (ripe).

Chocolate Cherry - ripens from green/white striped to unique chocolate and cherry stripes

NEW Red - ripens from green/white striped to solid red

Carolina Reaper - The world's hottest pepper, it reaches 2,200,000 heat units. The initial bite is sweet, then wait for "extreme heat". The 1-3" long by 1-3" wide peppers are red and gnarled with a bumpy texture and a small pointed tail. Can reach 4' tall.

Cayenne Long Thin - Very hot, thin-walled. The two cell fruits curl and twist. 4-6" long x ¼". 67-72 days.

Dragonfly - AAS Winner. This unique pepper starts out lime green in color, then transforms to a beautiful deep purple color and eventually turns bright red. The juicy, thick walled 3½" by 3½" sweet bell peppers will hold for a long time on the plant. 75 days.

NEW Durango - Extra large, long and tapered fruits measure 6½-7½" long and 1½" wide, weighing 2-2½ oz. Has a classic guajillo, sweet and smoky flavor, and is typically dried and used for sauces, paste, or rubs for seasoning. Can also be enjoyed fresh in salsa. They mature from bright red to deep burgundy. 70-80 days.

Golden California Wonder - Smooth, blocky, 4-lobed peppers with sweet, mild flavor. Continuously sets green fruit maturing to golden yellow. 62 - 73 days.

Hungarian Cheese Mix - High yielding, extremely early, picture perfect, mini bell peppers maturing to red, orange and yellow. The sweet peppers are flattened and fluted with thick walls. The 24" tall plants are perfectly suited to container or garden growing. 65-68 days.

Jalapeno M - This thick-walled and juicy dark green to red pepper produces a fiery hot, pungent flavor. The fruits are 3"x 1" and tapered. If the peppers are green at the end of the season you can pull up the entire plant and hang it in a dry spot to finish ripening the fruit. Height 24-36". 75 days.

King of the North - An excellent bell pepper for short-season growers. This variety produces nice, blocky fruit with sweet flavor picked green or red. 57 days to green. 64-70 to red.

Lady Bell - Our most popular pepper! Rich green, 3-4 lobed 3½" peppers. Matures to red. Excellent even in cool climates. TMV resistant. 71 days.

Majestic Red - High quality sweet bell with extra-large, candy apple red fruits. High yielding. High resistance to tobacco mosaic, bacterial spot. Some resistance to phytophthora root rot. 75-85 days.

New Ace Hybrid - Extra early, this sweet and tender blocky pepper matures from green to crimson. Produces mostly three-lobed fruit with abundant and continuous fruiting. Good vigor and wall thickness. Its habit prevents sunscald. TMV resistant. 60 days.

Orange Blaze - AAS Winner. An early-ripening, 3-lobed orange bell variety, very sweet flavor, and multiple disease resistances. 3-4"x 1½". 65-70 days.

Purple Beauty - Blocky, 4"x 3½" thick walled, sweet fruits. Green to deep purple to red. Unique for roadside sales and home gardens. 70 days.

Red Knight X3R - An early green to red sweet bell pepper with large blocky fruit measuring 4½ x 4½". Turns red early and is fruity and sweet in flavour. 65-70 days.

Sweet Banana - Large fruits with thick walls, light yellow deepening to orange at maturity. Nicely tapered 7"x 2" fruits are ideal for fresh markets, gardening, and pickling. Popular for frying. Strong growing and widely adapted. 68 days.

Tabasco - Originally from Mexico, these are known as "the pepper that adds the kick to the sauce!" They grow 30" tall with very hot, petite, yellow-red 2" fruits. 80 days.

Pumpkin

Fairytale - Deep tan, deeply lobed, squat fruit with deep orange flesh. Bears numerous 12-18" fruits with strong handles. Good for eating or ornamental use. 15-18 lbs. 115 days.

Howden - One of North America's best selling pumpkins. Howden is high yielding and commonly grown for the Halloween trade due to its deep orange color and uniform, deep round shape. 20-25 lbs. 115 days.

Lumina - White pumpkins excellent for carving and painting. 10-15 lbs. 90 days.

Small Sugar - Heirloom variety is dark orange and lightly ribbed. Easy to grow, with high yields of 5-8 lb fruits. 100 days.

Wee Be Little - AAS Winner. Round, deep orange, mini pumpkins. High yielding, bush type plants. 8-16 oz. 120 days.

NEW Better Boy Plus - An upgraded version of Better Boy with the same deep red, globe shaped fruits. Weighs 16 oz. with a very meaty interior. Plants provide plenty of foliage cover and adaptability, plus better disease resistance. Indeterminate. Disease resistance = A, F1, N, ST, TMV, TSWV, V. 77 days.

Brandywine - A tall Amish heirloom tomato dating back to the 1885. Its foliage resembles the potato plant. Produces extra large fruit with an old fashioned flavor that set one or two per cluster and ripen late. (Worth the wait!) Indeterminate. Up to 100 days.

Pink - luscious shade of pink/red

Red

Burpee Big Boy - Large 1-2 lb deep globe shaped fruits. Firm scarlet red tomatoes have thick walls and exceptional flavor. A favorite! Indeterminate. 78 days.

Carolina Gold - Small plants bear large, smooth, golden yellow fruits. Beefsteak type, with crack tolerant fruit 7½-10 oz. Determinate. Disease resistance = V, F1, F2. 75 days.

NEW Celebrity Plus - Celebrity Plus maintains all the well known traits of Celebrity with improved disease resistance against Tomato Spotted Wilt Virus. A highly productive performer under a wide range of growing conditions throughout the country. The 8oz, firm and flavorful 3½" fruits are resistant to a wide range of diseases. An excellent home garden variety. Determinate. Disease resistance = A, F1, ST, N, TMV, TSWV, V. 70 days.

NEW Early Girl Plus - One of the earliest varieties on the market just got better! This early slicing tomato yields a prolific crop of 4-6 oz. fruits all summer long. Plus now has a better disease package as well. Indeterminate. Disease resistance = A, F1, F2, ST, TSWV, V. 57 days.

Fantastico - AAS Winner. An early-maturing, high-yielding grape tomato with built-in late blight tolerance. Determinate. Will work great in hanging baskets, container gardens, as well as in small gardens. Long clusters of sweet, half-ounce grape tomatoes are held toward the outside of the plant and resist cracking. Very high yielding. Provide some plant support. 50 days.

 **Heartbreaker® Vallery** - A decorative cocktail tomato that is shaped like a "heart" when cut in half! They make a great choice in soups and salads. Performs best in well drained soil. Great for patio containers and hanging baskets with a trailing growth habit. Use in 9" pots. Determinate. 70 days.

Jet Star - High yields of globe shaped 6-8 oz fruit have great color. Indeterminate. Disease resistance = V. 72 days.

La Roma III - Large, tasty, paste tomato on vigorous plants. 5-8 oz fruits, Determinate. Disease resistance = A, St, N, V, F. 76 days.

Mountain Merit - AAS Winner. Dark red fruits grow on compact, uniform plants and offer good resistance to multiple diseases common to home grown tomatoes. Resistance to fusarium 123, verticillium, tomato spot wilt virus, and late blight. Moderate resistance to early blight and nematodes. 8-10 oz. fruits. Determinate. 75 days.

Patio - Very compact and early for patio pots or small gardens. 3-4 oz fruits are firm and brightly colored. Determinate. Disease resistance = V, F1, F2. 65-68 days.

Purple Zebra - AAS Winner. A fun cherry tomato to add to your program! The 3-4 oz. fruits are dark red with green stripes, and a deep mahogany red color inside. Won't produce a muddy coloration like other tomatoes of this type. Sweet flavour. Produces 150-200 fruits on 1 plant. Indeterminate. High disease resistance = TMV, F, V and indeterminate resistance to TSWV. 80-85 days.

Rutgers - Popular old fashioned open pollinated variety. Smooth, firm 5 oz fruits. Indeterminate. Disease resistance = V, N, F1. 78 days.

Sun Sugar - Golden cherry tomato is very sweet! The large plants bear huge quantities of 1/2 oz fruits. Thin skins have good crack resistance. Indeterminate. Disease resistance = F1, TMV. 62 days.

Super Sweet 100 - Early-season, home gardener favorite. This staking variety has tasty, round cherry tomatoes that are jointed with green shoulders. Harvest lasts several months as blossoms and fruit develop progressively. Indeterminate. 62 days.

Sweet N Neat - Sweet 'n' Neat is perfect for patio, balcony, and small space kitchen gardening. Loaded with small tasty fruit that are super sweet. You won't be able to stop at one! Compact determinate. 48 days.

Scarlet

Yellow

Watermelon

Sugar Baby - An "ice-box" melon about 6-8" in diameter, bright orange-red, sweet and crisp. 75-80 days.

Winter Squash

Autumn Acorn Blend - Blend of popular varieties including Table Princess, Table Gold, White Ace, and Mardi Gras. Acorn shape with colors of green, gold, white, and striped. Festive and tasty! 4-5" fruits, 70-105 days.

Blue Hubbard - This extra large, heavy yielding New England strain has long been a favorite. An attractive blue-gray color, rough and rugged, it grows on a large vine. The flesh is deep yellow with good flavor and texture. Stores well for 3-4 months. 110 days.

Buttercup - One of the highest quality squashes sold in the Northeast. Extra rich and sweet in flavor, the deep orange flesh is firm and smooth. 100 days.

Carnival - This cute and colorful acorn squash has patches and flecks of dark green, light green, orange, and yellow. Popular specialty market variety. Semibush plants. NOTE: Hot weather promotes more green tones and less yellow/orange. 95 days.

Early Butternut - Earlier than other butternut types and grows on a compact vine. The medium-sized tan fruit average 8" long with the typical "bell" on the blossom end. A good short-season choice. 85 days. AAS Winner.

herbs

Basil 🌞

Amethyst (*Ocimum basilicum*) - Very dark purple - almost black! Thick leaves, shaped like traditional Genovese basil. Height 16-20". Annual.

NEW Spicy Globe (*Ocimum basilicum*) - A compact, mounding plant with tiny fragrant leaves. Slightly more zesty flavor than sweet basil varieties. Perfect for tight areas or containers. Height 12" Annual.

NEW Crimson King (*Ocimum basilicum*) - A genovese type basil with deep purple leaves that give off a clove-like scent. Its compact habit is good for containers but will stand out wherever you decide to plant. Used in cooking and fresh dishes or as an ornamental. Height 18". Spread 12".

Everleaf Emerald Tower (*Ocimum basilicum*) - a well branched variety with dark green, glossy foliage and short internodes makes a beautiful towering plant. Plant in containers or the garden for continuous harvest up to 12 weeks later than traditional basil. Tidy columnar habit. Wonderful in Italian dishes. Intermediate resistance to downy mildew. Height 24-36". Annual.

Everleaf Genovese (*Ocimum basilicum*) - High-yielding and slow-bolting with very compact internodes. Downy mildew and fusarium resistant. Classic Genovese aroma. Height 8-12". Annual.

NEW Everleaf Thai Towers (*Ocimum basilicum*) - A well branched, gorgeous basil with masses of medium green leaves that may have purple flecks. Short internodes on purple stems add to your garden or retail display. Flowers 10-12 weeks later than the standard Thai basil. Its licorice flavor will complement any dish, especially in Thai cuisine. Use in curry or chop fresh on Pad Thai to enjoy the full licorice aroma experience. Height 24-36". Annual.

Nufar Sweet (*Ocimum basilicum*) - An excellent aromatic Genovese variety. Very tasty. Use for pesto and garlic flavored dishes, fresh or dried. Great fusarium resistance. Height 24-30". Annual.

Trybasil (*Ocimum basilicum*) - Three varieties of basil in one pot so you can "try a trio". Contains Genovese, Serrated Green and Dark Red selections. Garden height up to 30". Annual.

Borage 🌞

Borage (*Borago officinalis*) - is an annual herb with cucumber-flavored leaves and edible, star-shaped blue flowers. Makes a pleasant herbal tea. Many medicinal properties, but use with care. It is especially nice in your garden as a pollinator-friendly plant, earning the nickname "bee bush". Height 24". Annual.

Chamomile 🌞

German (*Matricaria recutita*) - Apple fragrance for use in drinks; also an ornamental with small white daisies. Height 24". Annual.

Look for our "Chef's Pick" icon 🍴 on our herb tags and in this catalog for the finest selections.

FENNEL SWEET

Chervil ☀️

Vertissimo (*Anthriscus cerefolium*) - May also be known as French parsley, chervil has a mild, sweet anise flavor used to enhance other herbs' flavors. Used for salads, micro greens, and garnishing, very popular in French cuisine. Height 18". Annual.

Chives ☀️

🍷 **Garlic** (*Allium tuberosum*) - Flat solid leaves with white flowers. Distinct garlic flavor. Leaves and flowers used in salads, soft cheeses, and stir fries. Height 24-30". Zones 3-9.

🍷 **Onion** (*Allium schoenoprasum*) - Like a grass onion, this herb is excellent for seasoning—especially good with potatoes and eggs. Height 12-18". Zones 3-9.

Cilantro ☀️

🍷 **Cruiser** (*Coriandrum sativum*) - A versatile herb popular in Mexican and Asian cooking. Both the seeds and the leaves can be used. Seeds, known as Coriander, have a slight lemony flavour, often ground and used as a spice. The leaves, known as Cilantro, have a pungent citrusy flavor. A must in salsa! Cruiser has been chosen because of its strong tolerance to bolting and high yield. Height 18". Annual.

Curry ☀️

Tall (*Helichrysum angustifolium*) - Narrow elongated silver-gray leaves with clusters of yellow, button-like flowers in summer. Sprigs added to savory dishes to give mild curry flavor. Very aromatic. Height 18". Tender perennial.

Cymbopogon ☀️

Lemon Grass - Lemon Grass is a scented and culinary herb which is a tender perennial in the south, grown as an annual in the north. Grows rapidly and divides easily. Provide ample sunlight, fertilizer and moisture. Useful as a non-toxic insect repellent, sachet, pot-pourri or for flavoring in Asian cuisine. Grows up to 3-6' high with a spread of up to 3'.

Dill ☀️

🍷 **Diana** (*Anethum graveolens*) - An heirloom dill with feathery blue-green leaves and a fine aromatic scent that is delicious in green salads, eggs, potatoes or rice. Seeds are used in pickling. Blossoms bring butterflies to the garden. Good variety as it is slow bolting. Height 30". Annual.

Fennel ☀️

Sweet (*Foeniculum vulgare dulce*) - With its traditional licorice flavor, fennel reduces the oiliness of fish dishes such as mackerel and salmon, also useful in soups, salads, and stews. Fennel tea has medicinal uses for digestion. Height 4'. Zones 5-11.

Lavender

Renowned for its exquisitely scented oils used in aromatherapy and high quality perfumes.

Hidcote Blue (*L. angustifolia*) - Dark blue flowers on medium spikes; flowers in summer; compact habit. Excellent for drying. Height 12- 24". Zone 5-8.

 **Munstead** (*L. angustifolia*) - Purple-blue flowers on fairly short spikes; blooms in summer. Flowers are fragrant; plant is compact, bushy, and mounded. Excellent for hedges. Height 18". Zone 5-8.

Primavera (*L. stoechas/Spanish Lavender*)- A unique upright Spanish Lavender topped with fragrant burgundy flags above small purple flowers. The versatile Primavera flowers in the summer months in the mid-South and North, or mid-winter in the deep South. Height 16-18". Spread 14-16". Zones 7-9.

Vicenza Blue (*L. angustifolium*) - Compact, bushy variety has large, deep blue spikes above extremely fragrant foliage. This vigorous growing lavender is uniform and most often flowers its first season. Height 12-18". Zones 5-8.

LAVENDER HIDCOTE BLUE

LAVENDER MUNSTEAD

LAVENDER PRIMAVERA

LAVENDER VICENZA BLUE

LOVAGE

MARJORAM SWEET

Lovage

Lovage (*Levisticum officinale*) - Nice celery-like flavor in the leaves makes it an excellent addition to soups and stews. Sweet leaves are sometimes used in confectionary, but also in herbal teas. Tall and easy to grow. Height 2". Zones 2-9.

Marjoram

Sweet (*Origanum majorana* or *Majorana hortensis*) - Sweetly flavored leaves are used in meats, eggs, and sausages. Also great in Italian and Greek cooking. Sweeter flavor than Oregano. Height 12-24". Annual.

Melissa

 **Lemon Balm** (*Melissa officinalis*) - Mint relative with strong lemon scented foliage. Useful for teas and gives flavor to sauces, herb vinegars, etc. Spreads up to 24". Zones 4-9. Lemon scent repels mosquitos.

Mandarina Orange Balm (*Melissa officinalis*) - orange scented melissa has a trailing habit that can be used as a ground cover or a "spiller" in large mixed containers or patio pots. Leaves are used for medicinal or herbal teas. Garden height 12-14". Spread 20-24". Zones 4-9.

MELISSA LEMON BALM

MELISSA MANDARINA
ORANGE BALM

MINT APPLE

Mint

Apple (*Mentha suaveolens*) - Round, large hairy leaves. Aromatic herb with fruity, spearmint flavor. Height 36-40". Zones 4-9.

Ginger (*Mentha x gracilis*) - Pink flowers in summer. Gold/green variegated leaves with serrated edges. Highly aromatic leaves. Use fresh as flavoring. Height 24". Zones 6-9.

NEW Kentucky Colonel (*Mentha spicata*) - An especially tasty spearmint used for mint juleps and mojitos. Can also be added to tea, jellies and other culinary purposes. Large leaves on a robust plant, easy to grow. Spreads easily in the garden, bears lilac blooms. Height 12-18". Zones 4-11.

 **Peppermint** (*Mentha piperita*) - Known as "Candy-mint", this peppermint is more productive since it grows upright, instead of forming runners. Leaves are strongly flavored, traditionally used for peppermint tea. Height 24". Zones 4-9.

MINT GINGER

MINT PEPPERMINT

MINT KENTUCKY COLONEL

MINT PINEAPPLE

MINT SPEARMINT

MINT STRAWBERRY

NEW Pineapple (*Mentha suaveolens 'Variegata'*) - One of the most attractive varieties of mint, this versatile plant with variegated leaves can be added to beverages, used as a garnish, or in any dish that calls for mint. Can be grown in containers and hanging baskets. Very vigorous, and best used in containers to contain the plants from spreading into the rest of the garden. Gives off a wonderful fragrance! White or light pink flowers bloom in the summer. Height 24-36". Spread is unlimited. Zones 6-11.

Spearmint (*Mentha spicata*) - This refreshing scented, spreading perennial is used for teas, sauces, jellies, sweets and garnishes. Height 36". Zones 4-9.

Strawberry (*Mentha piperita*) - This trailing mint will surprise you with its lovely strawberry scent & chocolate like flavor. Use for tea or as a culinary herb. Height 26". Zones 4-9

Oregano

Golden (*Origanum vulgare "Aureum"*) - Striking chartreuse leaves with small pinkish-white flowers. Flavorful, hardy, beautiful, and easy-to-grow; what a winner! Height 6-12". Zone 5.

Greek (*Origanum vulgare hirtum*) - The true culinary variety, originating from the mountains of Greece. Known as the "pizza herb", this spicy oregano can be used in Italian, Spanish, Greek and Mexican cuisine. A must in every herb garden! Height 9". Zones 5-11

Hot 'n Spicy (*Origanum vulgare*) - One of the tastiest oreganos ever! Very aromatic. Height 24". Tender perennial.

Italian (*Origanum x majoricum*) - A cross between sweet marjoram and the more piquant wild marjoram, Italian oregano yields a milder flavor than Greek oregano. Probably the most popular culinary oregano. Use the leaves fresh or dry. Height 18-24". Zones 6-9.

Variegated (*Origanum vulgare aureum variegata*) - Compact plant with variegated gray, white and green leaves. Important herb in Italian, Greek, and Mexican cooking. Height 12". Tender perennial.

OREGANO GOLDEN

OREGANO GREEK

OREGANO HOT 'N SPICY

OREGANO ITALIAN

OREGANO VARIEGATED

PARSLEY DARKI

Parsley

Darki (*Petroselinium crispum*) - Indispensable kitchen herb with excellent flavor! A must in the French "bouquet garnish". Darki is a premium variety that forms a clump of very tight, curled dark green leaves. Cold weather tolerant! Height 12". Annual.

Giant of Italy (*Petroselinium crispum*) - A rich-flavored, true culinary variety, with large flat green leaves. This sweet crisp flavored herb makes the perfect Italian seasoning! Height 12". Zones 6-9.

Rosemary

Barbecue (*Rosmarinus officinalis*) - Pungent variety. Stems can be used as barbecue skewers. Can grow 4-6' tall in temperate climates. Tender perennial. Propagation prohibited.

PARSLEY GIANT OF ITALY

ROSEMARY BARBECUE

HERBS

Gorizia (*Rosmarinus officinalis*) - Originating from Gorizia Italy, this mildew resistant variety has large, flat leaves unusual for rosemary. Its unique, upright growth and long stems are perfect to use as skewers or for seasoning meat and poultry. Height 50". Zones 8-10.

officinalis (*Rosmarinus officinalis*) - Outstanding culinary herb! This upright, bushy, pine scented herb is the original rosemary variety. Noted for its green needle-like foliage it is perfectly flavored and can be used with any meat or poultry dish and for seasoning vegetables. Height 39". Zones 8-11.

Prostratus (*Rosmarinus officinalis*) - This creeping, hardy, fast growing rosemary will not disappoint. Its dark green leaves and strong pine like flavor and fragrance would be lovely in a rock garden and can be used as a culinary herb too! Height 12". Zones 8-10.

Tuscan Blue - (*Rosmarinus officinalis*) - An upright rosemary with needle-like evergreen foliage. Gives off a beautiful fragrance. Violet-blue flowers appear mid-spring to early summer and are also potently fragrant. Use for cooking, drying, seasoning or as an ornamental. Plant in containers or use as a "thriller" in combinations and in the landscape. Container height 24". Garden height up to 5-6'. Spread 4'. Zones 8-10.

Sage

Berggarten (*Salvia officinalis*) - This ultra hardy garden sage is the key ingredient of poultry seasoning and turkey stuffing. Beautiful in the perennial garden too as it boasts tall, large deep purple flowers in early summer. Height 36". Zones 5-9.

Icterina (*Salvia officinalis*) - Strikingly different gold-variegated foliage. Very attractive in the garden or pots and can be used as a deer repellent. This variety has a mild sage flavor and can be used with meat, poultry and in stuffing. Height 10-12". Zone 6-9.

Pineapple (*Salvia elegans*) - Exceptional pineapple fragrance and flavor. A tall branching variety. Its cardinal red blooms are a hummingbird and butterfly attractant. Delicious in fruit salad and used with pork and chicken. Can also be grown in indoors in a sunny location. Height 48". Zones 9-10.

Purple (*Salvia officinalis purpurescens*) - Leaves are purple-green and aromatic. Blooms mauve blue in the summer. Same culinary uses as common sage. Height 24-32". Tender perennial.

Tricolor (*Salvia officinalis*) - Leaves are green with pink, white, and purple variegation. Highly aromatic. Small thin, oval leaves. Most suitable for decorative use in the garden. Height 18-24". Zones 6-9.

Stevia

Sweetleaf (*Stevia rebaudiana*) - With an extract 400 times sweeter than white sugar, this plant is recommended in folk medicine as a sweetener for diabetic diets and for treatment of headaches. Grow in a sunny location with controlled watering. White flowers make it a lovely garden plant as well. Fragrant. Height 16". Tender perennial.

Tarragon

French (*Artemisia dranunculus*) - The leaves of this plant are long and narrow, smooth and dark green. A very strong mint-licorice flavor. Leaves used in cooking. May attract aphids. Lovely, mounded habit. Pink blossoms. Keep on dry side. Full sun. Height 24-30". Zones 4-7.

THYME LEMON

THYME PINK CHINTZ

THYME SILVER EDGED

THYME VULGARIS ENGLISH

VERBENA LEMON

Thyme

 **faustinoi French** (*Thymus vulgaris*) - This "Summer Thyme" is one of the most flavorful of all the thyme varieties. Its is noticeably sweeter and spicier than English types and is the preferred variety used in authentic French cuisine. Used in all types of cooking and grows well in pots or in the garden. Needs some winter protection. Height 12". Zones 4-9.

Golden Lemon Variegated (*Thymus citriodorus*) - Green and gold variegated leaves with strong lemon scent. Medium size leaves. Pink flowers in summer. Use for meat, fish, cheese flavoring, pasta, pizza, and oils. Height 10-12". Zones 5-9.

 **Lemon** (*Thymus x citriodorus*) - Features tiny, lemon-scented and flavored leaves. This favorite of all thymes can be used in any recipe that calls for lemon. Easy to grow herb with a small upright bushy habit. Height 12". Zones 4-9.

Pink Chintz (*Thymus serpyllum*) - A beautiful ornamental thyme especially for ground cover in low foot traffic areas, yielding a lovely lemony fragrance. Abundance of bright pink flowers cover the plants, making them attractive to bees and butterflies. Suitable for full sun and minimal moisture. Height 1-2". Zones 5-8.

Silver Edged (*Thymus citriodorus*) - Gray-silver variegated lemon scented leaves. Pale pink flowers. Use for meat, poultry, fish, and flavoring cheese, pasta, or pizza. Height 9". Zones 5-9.

 **vulgaris English** (*Thymus vulgaris*) - Widely used for seasoning, fresh or dried. Retains flavor well. Hardy, wide, dark green leaves. Used to flavor soups and casseroles. Height 10-12". Zones 4-8.

Verbena

Lemon (*Aloysia triphylla*) - This plant is a "must"! The most lemon scented and flavored of all the herbs. As a culinary delight, lemon verbena makes one of the best teas, especially when blended with mint. Use to brighten the taste of fish, poultry and veggie marinades. One whiff and you won't want to live without! Height 24-36". Zones 8-10.

accents alive™

Alternanthera

A nice texture plant with slightly “crinkly” green or colored foliage. Useful in mixed planters. Plants are compact and bushy, providing excellent shelf life for the retailer and consumer.

Purple Prince - Compact alternanthera from seed forms a durable carpet of ruby/burgundy foliage good for summer landscapes. Resists damage from both drought and heavy rain. Height 10-16”.

ALTERNANTHERA PURPLE PRINCE

ASPARAGUS SPRENGERI

CHLOROPHYTUM GREEN EDGE

Asparagus

Sprengeri - Dark green coarse needle-like leaves. Great as an accent in baskets or planters. Bears fragrant pinkish flowers and red berries at Christmas time. Heat and drought tolerant ground cover in areas with little or no frost. Sprays 2’ long and 2-3’ wide.

CORDYLINERED SENSATION

DICHONDRA SILVER FALLS

Chlorophytum

“Spider Plant”

Green Edge - (formerly Variegatum) Long, slender, graceful leaves curve from central rosettes and have a central white stripe. Popular as a hanging basket and lovely in a shady planter.

Cordyline

A dramatic and popular alternative to traditional dracaena spikes. Beautiful colors deepen in full sun. Excellent as a stand-alone or as the centerpiece of mixed containers. Cordyline is a slow grower so allow plenty of time to obtain size.

Red Sensation - Bronze-red. Height 36”.

DIDELTA SILVER STRAND

DRACAENA INDIVISA SPIKES

DURANTA CUBAN GOLD

Dichondra

Silver Falls - Ideal foliage plant for baskets and mixed containers. Shiny silver foliage cascades 3-4 ft making a stunning show. Dichondra withstands heat and drought; recovers quickly from wilting and needs no pinching. Also used as a ground cover.

Didelta

Silver Strand - A velvety, silver colored foliage that is perfect for hanging baskets or container gardens. It is a subshrub spreading succulent that is semi-trailing. Excellent heat and drought tolerance. Used in landscapes or gardens. Deer resistant. Height 6-8”.

GERMAN IVY GREEN

HEDERA GLACIER

Dracaena

Indivisa “Spikes” - Attractive plant with erect habit and sword shaped, smooth leaves. Grows up to 2 ft tall in the garden.

Duranta

Fast growing and good branching. Upright habit. Beautiful component for mixed containers.

Cuban Gold - Gold foliage with purple/blue flowers. Excellent heat and drought tolerance. Will last all summer. Great for patio containers and landscapes. Do not let the plants wilt: keep evenly moist. Height up to 2’ tall and 2’ wide.

IPOMEA BLACKIE

IPOMEA COMPACT MARGIE

IPOMEA FLORAMIA ROSSO

German Ivy

Green - Lush, easy care plant for a fresh accent or as a hanging basket. Trim to keep it from taking over when used in combination plantings. Leaf similar to English Ivy, but soft, not hardy. Annual.

Hedera

Often called English Ivy. This hardy accent plant makes a great addition to mixed planters or baskets. Can also be grown as a foliage basket for winter indoor use. Does okay in low light. Feed lightly.

Glacier - Gray-green with white variegation.

Needlepoint - Green sharply-pointed leaves.

Helichrysum

"Licorice"

Beautiful accent plants add texture and contrast to mixed planters, baskets, and window boxes. Full sun. Can be grown cool when established.

Licorice Icicles - Features long thin silvery leaves like little "icicles". More upright than the traditional licorice plant.

Licorice Petite - Companion to the popular Licorice plant with tiny, oval silver-dusted leaves.

Licorice Silver - Very popular trailing accent plant with small, oval silver-dusted leaves. Vigorous and spreading. The "original" Licorice plant.

Limelight - Features golden, fuzzy leaves. Vigorous and moderately drought tolerant once established.

Silver Star - Arching stems with small leaves gives a delicate, silver lining to mixed containers and hanging baskets. Propagation prohibited.

Hypoestes

"Polka Dot Plant"

Splash Select - Big uniform dots of color mark the eye-catching foliage of these dwarf, 8-10" hypoestes. No growth regulator is needed to maintain their habit; pinching promotes a bushier plant.

Red

Rose

White

Mix

Ipomea

"Sweet Potato Vine"

Lovely vining accent plants make incredible fillers in planters, window boxes, and hanging baskets. Full sun to light shade. Likes high temperatures.

Blackie - Deeply serrated leaves are dark burgundy-black.

Compact Margie - Bright chartreuse foliage on compact plants. Does not overtake mixed containers. Propagation prohibited.

FloraMia Rosso - Shades of bronze and red. Propagation prohibited.

ACCENT PLANTS

Kelly Ray - A vigorous trailing vine with striking marbled purple/black and lime green foliage. Use in containers, hanging baskets, window boxes, or as a unique spreading ground cover. Height 6-10". Spread 20-36". Propagation prohibited.

Marguerite - Lime-green, heart-shaped leaves.

Tricolor - Oak-leaf shaped leaves are green with pink and white markings towards the outer edges and tips.

Lamium ☀️ | ☁️

Vigorous accent plant can be used to fill in mixed containers, baskets, or window boxes. Good as a ground cover, too. Likes bright light and partial shade. Good in 4-10" pots. Hardy perennial in Zones 3-8.

Anne Greenaway - Tricolor green, silver, and chartreuse leaves with small lavender flowers. Height 8". Spread 18".

Beacon Silver - Pink flowers. Height 6-12".

White Nancy - White flowers. Height 6-12".

Neprolepis exaltata ☀️ | ☁️

Boston Blue Bells - Fast growing and very uniform. Tight compact habit, making it excellent for mass production. Good for 3-12" pots.

Ornamental Millet ☀️ | ☁️

Jade Princess - Intense chartreuse foliage and rich brown, pollenless panicles have a controlled, mounded shape that is more compact than others in the assortment. Height 24-36".

Pennisetum ☀️

rubrum - "Purple Fountain Grass" Deep red foliage is topped by dramatic purple-red plumes. Flowers displayed all summer long. Beautiful in the landscape or mixed containers. Needs intense sunlight and full maturity to display full color. Height 3-4 ft. Annual

Perilla ☀️

Tricolor - A coleus "look-alike", performs in heat and full sun. Striking as a stand-alone or in mixed containers. Burgundy with magenta splashes and green striping. Height 2-3 ft.

Plectranthus ☀️ | ☁️

Attractive accent plant, useful in combination planters and window boxes, or as an indoor foliage plant.

Guacamole - A striking blend of yellow and avocado green foliage on deep red stems. A medium vigor plant with a well branched spreading habit. Height 8-10". Spread 12-18".

Variegated "coleoides" - For full sun and outdoor growing. Fuzzy leaves. Pretty green leaves with cream variegation. Slower grower.

Pothos ☀️ | ☁️

This trailing vine has heart shaped leaves and sometimes has a white and creamy variegation. It is very vigorous and will just keep on growing! Indoor spread 6-10'. Outdoor spread up to 40'.

Marble Queen - Attractive white and green variegated pattern. More light will maintain its unique coloring.

ARGYRANTHEMUM SUNNY SPRING

Setcreasea purpurea

A relative of the Wandering Jew, with large fleshy leaves and purple stems. An attractive accent plant, it is easy to grow, easy to maintain, and drought tolerant. Avoid over watering. Full sun.

Pink Stripe - Succulent leaves of deep purple and pink stripes.

Strobilanthes

Persian Shield - Dark green variegated leaves with metallic purple on top, all purple on underside. A showy foliage plant for bedding or mixed containers. Height 3-4'. Spread 2-3'.

Tradescantia

Also known as "Wandering Jew". A great plant for baskets or combinations. Fast growing, trailing habit. Easy to grow. Height 4-8". Spread 10-24".

NEW Nanouk - Light purple, green and white fleshy leaves.

Pistachio White - Heavy white variegation on green leaves.

Vinca

One of the most popular accent plants. Use it in almost any combination where a graceful, trailing accent is desired. It is also surprisingly cold hardy.

major Maculata - An attractive accent plant similar to Vinca Vine, with a dark green leaf and yellow central veining. Does best with some shade.

major Variegated - Ever popular variegated vine. Does best with some shade.

*premium
annuals*

Angelonia

Alonia™ - A fast growing series with excellent branching and a compact, mounded habit. A great choice for flowering packs and 4" pots. Beautiful performance. Height 12-20".

Big Blue

Big Dark Pink

NEW Big Grape

Big Snow

Argyranthemum

"Daisy - Marguerite"

Popular daisy-type flower on bushy plants. With a more "upright" habit, these plants do better in pots and tubs rather than hanging baskets. Height is 12-14" with 1 1/4" blooms. Propagation prohibited.

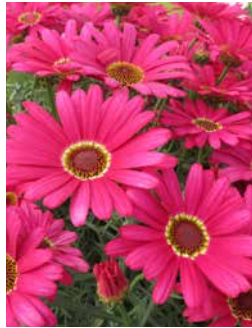

Sunny Spring™ - Beautiful single, yellow flowers on upright/bushy foliage. Blooms early spring until late fall. Great for larger pots and containers.

Argyranthemum - Hybrid

Grandaisy® - An intergenetic cross, bringing argyranthemum to a whole new level. Vigorous and heat tolerant, its huge flowers can be enjoyed all summer in most regions. Large, mounded form is literally covered in blooms. Height 18-24". Propagation prohibited.

Dark Pink - dark pink with yellow ring

NEW Pink Halo - light pink with dark pink and yellow center ring

ARGYRANTHEMUM GRANDAISY DARK PINK

ARGYRANTHEMUM GRANDAISY PINK HALO

BACOPA SCOPIA GULLIVER WHITE

Bacopa - Sutera

Lovely cascading habit, excellent for hanging baskets, planters, and accents. Beautiful for "bridal" baskets. Good in 4-10" pots. Height 6-8". Propagation prohibited.

Scopia® - "Gullivers" have flowers over 1" in diameter.

Gulliver White - Extra large, white blooms on compact habit. Excellent for 4" production. Mounded, early.

Gulliver Blue - Mid-blue, extra large blooms, semi-trailing, medium vigor.

Gulliver Pink - Most heat tolerant Gulliver. Extra large blooms, semi-trailing, medium vigor.

BACOPA SCOPIA GULLIVER BLUE

BACOPA SCOPIA GULLIVER PINK

BEGONIA DRAGON WING RED

Begonia - Angel Wings

Dragon Wing® Red - An amazing, spreading bedding plant, which is also spectacular for hanging baskets and containers. Has "angel wing" leaves and large salmon-red blooms. Good for sun or shade. Dragon Wings is very heat tolerant and gardener friendly. Flower size 2-2½" Garden height 12-15". Spread 15-18".

Begonia - hiemalis

NEW Britt Dark - Eyecatching dark and light orange double flowers. Provide some shade.

Solenia® - Thrives in high light and humidity in all but the hottest climates. Outstanding flower displays in both sun and shade. Need long days to bloom; will flower all summer. Height 12". Spread 18". Propagation prohibited.

Apricot

Chocolate Orange - dark leaf

Light Pink

Scarlet

Yellow

Vermillion - Extremely showy outdoor begonias, suitable for full sun, with prolific medium blooms. Compact, mounded habit make these ideal for pots, hanging baskets, mixed containers, and mass planting. Showstopping flower power, incredible heat tolerance. Height 8-12". Propagation prohibited.

Hot Pink - Beautiful bright pink blooms with the same intense flowering as Vermillion Red!

Red - The very best red we've seen.

Begonia - Landscape

Big® - If you want a BIG, showy landscape or container display, this series is for you. Tolerant to sun or shade, cool or hot, this begonia fills and flowers, creating a truly massive, beautiful bed that is also easy-care. Old flowers are typically shed outside the leaf canopy, so messy botrytis is avoided. If you want something different, think "BIG". Height: 24".

Red with Green Leaf

Rose with Green Leaf

Whopper® White with Green Leaf - Fantastic in the landscape or jumbo containers, Whopper puts on a show of extra large flowers spring through fall, with great heat tolerance. Height 24-30". Spread 22".

Begonia - Tuberous

Nonstop® - Free-flowering series reaches 8-10" in height. Bears masses of double and semi-double flowers 3½-4½" across. Blooms continuously despite warm temperatures. Excellent for pots, baskets, window boxes, and planters.

Fire - yellow/orange center w/dark orange/red picotee

Pink - pale to deeper pinks

Red

Rose Picotee - white with deep rose picotee

Yellow Improved

White - pure white with a yellow center

Nonstop® Mocca - Early and uniform bronze-leaved series. Numerous, large, fully-double flowers. Mounding habit and early lateral branching.

Deep Orange

Deep Red

Mix

Begonia - Rex

Fantastic leaf forms and colors characterize the Rex begonia. Suitable as a house plant, they also shine as a container accent or bedding plant in shady locations. Preferring full shade, they will also tolerate some indirect sun which serves to deepen the red and purple tones. Thrives in summer heat. The native environment of Rex is typically high humidity and low light, but do not over-water. Allow to dry down somewhat between watering and maintain temperatures between 60-70° F. Although a slow grower with specific requirements, Begonia Rex is a beautiful, long-lived specimen, well worth the extra effort. Provide shade, especially in the afternoon. Propagation prohibited on all.

Bewitched™ Night Owl - Silver/green maple shaped leaves have deep green veining and beautiful rose centers. Great in 8" or larger pots or in the landscape. Height 12-18".

Curly Peppermint - A compact variety with a unique "escargot" like leaf with swirling bands of rose over silver leaves, outlined with rose. Height 6-12".

PREMIUM ANNUALS

Shadow King® - This outstanding series shows off a beautiful color range. Smaller leaves and a bushy habit make these perfectly suited for smaller containers. Height 8-12".

NEW Rose - pink with dark veins and edges

Strawberry Sherbet - striking rose centers with mint and green edging

Bidens ☀️

Good for baskets, pots, accents, borders or as a groundcover. Very vigorous grower. Heat tolerant, but keep soil moist. Propagation prohibited.

NEW Blazing Ring of Fire - **★ JOLLY FARMER EXCLUSIVE!**
Fire-red petals with glowing yellow center.

Golden Empire™ - Full, round, extra large blooms. Upright bushy habit.

Spicy Electric White - This perfectly rounded plant shows off flowers that have a circle of yellow in the center with white tips. Early to bloom. Fits well in hanging baskets and combinations. Height 12-14". Spread 12-14".

Yellow Charm™ - Naturally compact with no need for pgr's.

Bracteantha ☀️

"Helichrysum - Strawflower"

Bright, showy "everlasting" flowers bloom all summer. Heat and drought tolerant, thriving in full sun conditions.

Cottage Yellow - An old-fashioned, cottage garden type of flower. Lovely addition to mixed plantings and cutting gardens. Height 8-12". Propagation prohibited.

Granvia Gold - Impressive, huge 3-5" blooms feel like crispy paper. Yellow flowers with centers that turn orange with maturity. Mildew resistant. Vigorous plants. Perfect for containers, large patio pots, gardens and landscapes. These guys are heavy drinkers. Height 18-30". Spread 18-24".

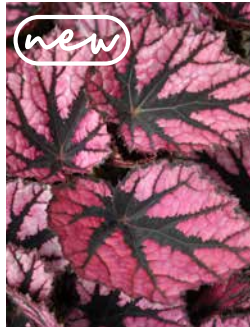

Calibrachoa ☀️

Features cascades of tiny petunia-type flowers which cover this low trailing plant. Mounded habit trails well in pots, hanging baskets, planters, and combinations. Vigorous grower. Blooms all summer. Once established, feed well. Propagation prohibited on all.

Candy Shop™ - A series of brushwork pattern flowers with fluorescent colors and irregular stars. Early flowering, semi-trailing, medium to strong vigor. Very nice in mixed containers and hanging baskets. Height 9-14". Spread 12".

Candy Bouquet® - cherry red with an irregular yellow star

NEW Tangerine

Dracula - A class of its own! Early blooming allows Dracula to fill early spring sales, yet will also hold for autumn markets. The deep rose blooms with large black centers cover the plant's mounding habit. Easily fills pots and hanging baskets. Height 18". Spread 10-12".

PREMIUM ANNUALS

Eyeconic™ Purple - Light blue rims and dark blue centers. An outstanding plant with an aggressive growing habit making it ideal for large containers or baskets. Large flowers with a semi-trailing habit, very showy. Will flower under 10-hour day-length.

Hula Hot Pink - Large, dark-eyed flowers on medium vigor plants work well in stand-alone baskets or combos. Height 6-12". Spread 12-15".

Noa® - Especially suited for early spring flowering as they will bloom well, even in 10 hour days. Flowers open earlier in the morning. Trailing habit. Uniform, compact growth.

Blue Legend - blue, early flowering, vigorous, trailing

Dark Pink Carnival - rich pink with bright white eye makes the large blooms really "jump", early flowering, semi-trailing, compact

TikTok Orange - Features beautiful two-toned flowers that have a distinct star resembling a clock's hands! The well branched plants are semi-trailing and do well in quarts, hanging baskets and combination planters. Height 6-12". Spread 12-24".

Canna 

Cannova® - A hybrid form of seed-started Cannas with improved vigor, earliness and branching. What also makes Cannova cannas unique is that in addition to being grown in larger pot sizes and containers, they can also be raised to their fully mature flowering stage in a pot as small as quart. Height is determined by pot size, so you can "program" your plant to match your pot.

CUPHEA HYSSOPIFOLIA LAVENDER

Kong Jr.™ - Differs from Kong due to its leaf size, not its height. It offers more colors in this important class to help give more choices for the shade garden. Its smaller leaves prevent damage in shipping and allow a more tidy display at retail. Height 18-24".

Green Halo - cream with chartreuse margin

Rose - rose and cream with chartreuse margin

Coleus - Vegetative

These vegetative coleus are amazingly hardy, tolerating full sun even under sub-tropical conditions. Plants are more resistant to stem rot and are vigorous and tall in the landscape. Pruning will extend performance. Keep temperatures above 60°F or growth will stall. Good for 4-10" pots, although heights will vary.

Main Street - Main Street series is fully sun tolerant even in hot states like Florida and Texas. Vigorous, upright habit, with exceptional branching, excellent for landscape and containers. Very late to bloom. Height 24". Spread 24". Propagation prohibited.

Abbey Road - very dark, almost black leaves edged in green, red center vein

Alligator Alley - dark burgundy leaves with wide, light green edges and rose central veining

Beale Street - dark red, AAS winner

Chartres Street - solid lemon-lime

Portage Avenue - deeply scalloped leaves are dark burgundy with golden yellow edging and lime green stems

Ocean Drive - burgundy leaf with wide rose vein, edged in green

River Walk - electric green and lime

Ruby Road - tri-color ruby, burgundy, and green

Sunset Boulevard - peachy rose with green accents

Wall Street - brilliant copper

Cuphea

hyssopifolia Lavender - Lovely accent plant in planters, color bowls and pots. Good for 4" pots or small baskets. Used extensively in the landscape in the South. Fine green foliage, small lavender flowers. Low dense foliage.

Dahlia

Hypnotica® - Large flowers, vigorous, uniform habit and good branching are all characteristics of this line. Heat tolerant and excellent for 6" or larger pot production. Height 18-24". Propagation prohibited.

Electric Pink - early, medium, vigorous

Icarus - irregular, flaming red-orange shades

Red - medium, vigorous

Rose Bicolor - pink & yellow bicolor, medium, vigorous

NEW Tequila Sunrise - early flowering, medium vigor

Yellow - early to medium flowering, medium to strong vigor

LaBella® Medio - Large double flowers on compact plants. Best suited for 4-6" pot production. These easy-care showstoppers are great in containers, beds and borders. Flower size 3-4". Height 8-10". Propagation prohibited.

Euphorbia

Starblast™ - Upright, vigorous plants are surrounded with a cloud of flowers all season long. Easy and versatile, they provide texture and color in pots, mixed containers and mass plantings. Amazing heat tolerance. Height 12". Spread 12". Propagation prohibited.

Snowdrift - double, white blooms

NEW Soft Pink

Geranium - Interspecific

Interspecific geraniums are a cross between ivies and zonals, but provide better performance overall.

Calliope® Medium - Choose Calliope Medium to add premium color and variety to your retail space. Your customers will not be disappointed! Height 14-18". Spread 16-20". Propagation prohibited.

PREMIUM ANNUALS

Mojo™ - Mounding, upright dark foliage with brilliant colors creates a striking container or hanging basket. Medium vigor, blooms mid spring, late spring, summer. Height 12-16". Width 12-16".

- NEW Magenta**
- NEW Dark Pink**

Geranium - Regal ☀️

These wonderful, old-fashioned "Martha Washington" geraniums are making a comeback in popularity, along with improved genetics and refined culture techniques for growers. Propagation prohibited.

Elegance™ - Produces a plant 8-10" tall

- Burgundy** - rich burgundy wine
- Claret** - deep ruby flowers with green leaves, medium habit, medium bloom time
- Purple Majesty** - majestic lavender and purple bicolor
- Red Velvet**
- Rose Bicolor** - pale rose with magenta splash
- Royalty White** - white with rose markings

Geraniums - Scented ☀️

Aroma - Attractive flowers with scents that are unique to each variety. Will bloom spring into early summer. Well suited in smaller pots or in the garden.

- Bunny Brunch** - Orange flowers on bright green foliage. Yes, they smell like carrots! Height 16-28".
- Lady Plymouth** - Small lavender-pink flowers on deeply cut gray-green leaves. Sharp rose and lemon scent. Height and spread 12-24".

Geranium - Zonal ☀️ ☁️

Traditional favorite and a must for your spring program. Propagation prohibited.

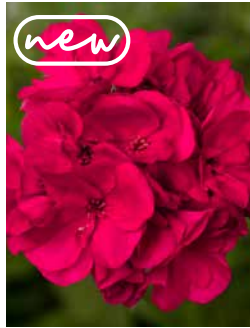

Darko® Spanish Wine Rose - Deep burgundy with splashes of white. Popular for their intense dark leaves, as well as the compact habit. Well structured plants are selected to be round and balanced with several blooms on top at once. Medium earliness. Garden height 10-12". Spread 12-14".

NEW Exotica Coral Sunrise - A Pink with Rose novelty zonal that is a stand out for your consumers. It's mounding habit, medium vigor is perfect for small to medium sized pot programs. Heat tolerant, and pollinator friendly. Height 14-18" Width 14-18".

Gerbera ☀️

Flori Line® Maxi - Suitable for 4½-6" pots. Features very large flowers up to 4½" across with some amazing color choices. Height 10-14".

- Coral Light Eye** - summery coral
- Dark Fireball Black Center** - brilliant scarlet-yellow bicolor
- Pink Black Center** - beautiful deep pink with a dark eye
- Red**
- NEW Yellow**

LANTANA HEARTLAND REALLY RED

LANTANA HEARTLAND SUNRISE

Revolution™ - Very early flowering and bred to present 3 blooms at the same time for high color impact. Height 12-16". Spread 5-6".

Bicolor Red White - red with a white ring

Bicolor Yellow Orange - brilliant shades of yellow and orange. Pattern varies – some rings around the eye are large, some are smaller, and some flowers have almost a deep red ring around the eye.

Mix Select - uniform mix of 10 colors

Royal™ Prince Neon Violet - Shimmering violet with a dark eye. The Royal gerberas are noted for their "spiral staircase" flowering habit, buds and blooms forming a spiral of continued color. Height approx 10".

Gypsophila ☀️

Gypsy Deep Rose - Single to fully double, ¼" flowers cover 8-14" plants. The fine textured foliage and delicate flowers are useful as a "filler" in baskets and planters.

Heliotrope ☀️

Midnight Sky - Produces clusters of sweetly scented, blue-purple flowers with small white eyes. A compact, mounding evergreen shrub with dark green foliage. Blooms spring through fall. Attracts bees, butterflies and hummingbirds. Plant in borders or as an edging. Height 10-12". Spread 10-12".

Lantana ☀️

Bright, cheery blooms show a striking contrast to the dark green foliage. Excellent for the summer heat. Allow to dry down between waterings, but not dry out. Also tolerates wind, drought, and salt, making it a good choice for coastal gardens. Propagation prohibited.

NEW Havana® Yellow - A bushy, landscape variety with low seed set, and more continuous flowering. Well-branched with moderate vigor. Heat tolerant with great ratings at summer outdoor trials. Height 12-24".

Heartland - This new breeding comes from the Havana series, but with 30% more vigor, giving them a stunning landscape presence. They have the same large umbels and dark, glossy foliage as the Havanas. Continuous flowering all summer due to low seed set. Height 15-18". Spread 20-24".

Neon

Really Red

Sunrise

PREMIUM ANNUALS

Lobelia 

These Lobelias offer large flowers and more heat tolerance than standard seed types. Lovely cascading habit. Excellent for hanging baskets, mixed containers, and beds. A cooling period of 6 weeks at 40-45°F promotes flowering. Propagation prohibited.

Hot® - Very heat tolerant with large blooms and weather-resistant foliage. Height 6-8". Spread 12".

Blue - intense blue with small white eye

Snow White

Water Blue

Hot+ Electric Purple - An upgrade from the original Hot series, but with larger flowers and more uniform habit. Very heat tolerant and weather resistant. Height 8-12". Spread 12".

Rift - A beautiful lobelia with a semi-trailing habit that is better suited for hanging baskets and mixes. Early to flower, with a medium to vigorous growth. Less heat tolerant than the 'Hots'. Height 12". Spread 18".

Blue - eye-catching variegated blue and white

Purple - lovely variegated purple and white

LOBELIA HOT BLUE

LOBELIA HOT SNOW WHITE

LOBELIA HOT WATER BLUE

LOBELIA HOT+ ELECTRIC PURPLE

LOBELIA RIFT BLUE AND RIFT PURPLE

Lobularia 

Stream™ - A fast-growing, heat tolerant "alyssum", grows all summer long into a floriferous, ball-shaped plant. Its naturally compact habit keeps it tidy and manageable in hanging baskets, mixed containers, or window boxes. Wonderfully fragrant. Will grow up to 20" diameter over a summer season. Propagation prohibited.

Purple - purple flowers, medium to vigorous growth

Raspberry - rich, rose color, medium habit

White - very large white blooms, medium growth habit. Easier to work into mixed containers because of its medium growth habit.

LOBULARIA STREAM PURPLE

LOBULARIA STREAM RASPBERRY

LOBULARIA STREAM WHITE

Nemesia 

These delicate-looking, upright plants with mini-snapdragon shaped flowers are perfect for mixed baskets and borders. Propagation prohibited.

Essential™ - Large fragrant flowers in bold colors. Very heat tolerant. The upright, rounded plants will bloom from early spring to autumn, adding color and sweet smells to your garden. Suited for 4" pots and early season containers and baskets. Height 8-12". Spread 8-12".

Harmony® - The Harmony® Series features a uniform, compact habit and beautiful, large round blooms. They have excellent garden performance and are particularly tolerant to high temperatures. Abundant color selection. Tolerates full sun if ample moisture is provided. Otherwise, partial shade. Propagation prohibited.

Apricot Cream - Apricot bicolor with red leaf and compact habit. Early flowering. Suitable for 6-10" pots.

Bicolor Red - Large red and white bicolor flowers with dark leaves; medium vigor.

Bubblegum - Bicolor pink, dark leaves, mounded, early flowering.

Dark Violet - Extra large purple blooms with green leaf and compact habit. Early flowering. Suitable for 6-10" pots.

Deep Salmon - Deep salmon with red leaf and compact habit. Early flowering.

Magenta - Magenta; extra large flowers with red leaf and compact habit. Early flowering. Suitable for 6-10" pots.

Pink Smile - Extra large flowers; pink w/darker center, green leaf and compact habit. Early flowering.

Raspberry Cream - Bicolor pink with red leaf and compact habit. Early flowering. Suitable for 6-10" pots.

Tangerine - apricot/orange with dark green leaves.

Harmony® Radiance™ Lilac - Radiance is a sub-series in the Harmony group with special, decorative flowers with bright-edged petals. Each flower has a burst of white surrounded by intense color. Early bloom time, medium to large flowers, and upright, compact habit. Suitable for 4-6" pots. Propagation prohibited.

Roller Coaster - Large frilly, double blooms atop dark green foliage. This series has outstanding garden performance from late spring to early summer. Great in specialty pots. Height 6-10". Blooms 5-6 days later than other varieties. Propagation prohibited.

Hot Pink - vibrant pink

Valraavn Violet

PREMIUM ANNUALS

Sol Luna - This early flowering New Guinea series will take sun or shade, and can be planted anywhere to get a show of full color. Its uniform, mounded habit performs well in packs up to 6" pots, but can also be used in 8" pots and landscapes. Height 12-14". Spread 16-18". Propagation prohibited.

- Pineapple**
- Pink Surprise**
- Prune**
- Raspberry**

SOL LUNA RED

SOL LUNA ULTRA VIOLET

SOL LUNA WHITE

Petchoa 

(petunia & calibrachoa cross)

"A scientific breakthrough!" Petchoa combines the great vigor and lush foliage of vegetative petunias with the floriferous nature and flower finesse of Calibrachoa. Very tolerant to extreme weather conditions. Grows extremely well outdoors in moderate climates. Its semi-trailing habit is ideal for hanging baskets, window boxes or pots. Better heat tolerance than either petunia or calibrachoa. Height 14-20". Spread 14-22". Propagation prohibited.

NEW Caliburst™ Yellow - The first Petchoa from seed! Combines the beautiful colors of calibrachoa with the habit and flower size of a petunia, to create this vibrant yellow variety that lasts all season. Performs like a vegetative petunia with its controlled habit. Perfect in combos, containers, quarts and gallons. Flowers measure 2-3". Height 6-10". Spread 20-28".

SuperCal® Blue - Solid blue. More upright than Calitunia, with bigger flowers favoring the petunia side of the pair.

SuperCal® Premium - This series brings you the same great flower power that you've come to love with the added benefit of a more mounded, controlled habit. Early blooms and medium vigor.

Purple Dawn - vibrant purple with deep veins

WAVE PURPLE CLASSIC

Petunia - Premium

A spectacularly different, spreading habit makes the spreading petunias excellent for baskets, color bowls and beds where brilliant ground covers are desired. Low growing and very vigorous, spreading up to 4 ft. The plants continue to bloom freely all season without being trimmed back. More botrytis tolerant than most petunias, and stands up well to the heat and humidity of summer in the North or South.

wave **E3 Easy Wave®** - It's Early, it's Efficient, it's the Evolution of Easy Wave, it's E3! Will bloom earlier than the Easy Waves, needing only 9-10 hours daylength to flower. An outstanding uniform series with similar vigor and a mounding, spreading habit. Will bloom over a longer period of time from spring to late summer. All colors are cold durable. These stunning plants will draw your customers in at a glance. Recommended for 6-8" pots, 306 premium packs or hanging baskets. Height 6-12". Spread 25-32".

Blue - deep blue, most vigorous in the series

Coral

Pink

Pink Cosmo - medium pink with deeper pink veins

Red - deep vibrant red

Sky Blue - flowers will lighten with age and in high light

White

Yellow

wave **Easy Wave®** - A super performer for small spaces. Plants are more mounded than the "Waves" growing 8-10" tall and spreading out 2½-3 ft. Excellent complement to the "Waves" where not so much spread is desirable. Also less need for growth regulators. 2-3" flowers.

Burgundy Star - white star over burgundy. Note: unstable star pattern ranging from mostly burgundy in "lush" conditions to mostly white under stressful conditions.

Neon Rose

Silver - silvery white with purple veins

Violet

wave **Wave® Purple Classic** - The original Purple Wave. Low-growing waves spread 3-4 ft making an excellent ground cover, hanging basket, or border for window boxes. Good almost anywhere.

Petunias

Amazonas™ Plum Cockatoo - A must have! This variety presents a beautiful combination of colors on each bloom. Purple veins blend to cream, finishing off with lime green frills that will “wow” your customers. Its mounding habit works well in small pot programs up to hanging baskets. Height 10-12”. Spread 12-14”. Propagation prohibited.

Amoré® - The Amoré™ series is special—each flower is decorated with hearts between the stripes. Nicely selected group with similar habits and bloom times. Much more stable color pattern than we’ve seen in other series.

King of Hearts

Pink Heart

Purple - blue and white

Queen of Hearts - red and yellow

Cascadias™ - Vegetative petunias known for their excellent garden performance. Used extensively for hanging baskets, window boxes, and landscaping, they quickly make an impressive mass planting under full sunlight. From early spring to first frost, they continue to grow and bloom profusely. Feed well for best performance. Tolerate both high temperatures as well as light frost. Propagation prohibited.

Indian Summer - shades of yellow, peach, and orange, early, large blooms

Purple Gem - blue with white star, early, medium vigor

Crazytunia® - A collection of novelty colors, sure to please. Very unstable color patterns give a great deal of variation on these descriptions. Often the first flower is closer to a solid color. Height 12-14”. Spread 18-24”. Propagation prohibited.

Cosmic Purple - fluorescent pink and deep purple bicolor, vigorous, large flowered

NEW Cosmic Violet

Frisky Orange - orange with a yellow star

Pink Flamingo - pink with a yellow star

NEW Dekko Banana - An exceptional plant with medium sized flowers on a spreading habit. Adds the “Wow Factor” to your mixed combos as well as landscapes. Pollinator friendly. Blooms early spring through summer. Medium-vigorous. Height 8-12”. Spread 18-22”.

Flower Shower Mayan Sunset - *Formerly Crazytunia*. Unique iridescent shades of coral, pink or orange, with a yellow throat, the stunning blooms pour over beds and containers. Best in hanging baskets or the garden. Semi-trailing habit with incredible weather tolerance. Non-stop flowering from early spring through fall. Height 12-14”. Spread 20-28”. Propagation prohibited.

Glamouflage Pink Lemonade - A variety with a “wow” factor! Striking pink flowers on variegated foliage gives it a truly glamorous effect. Best grown in full sun. Attracts butterflies and hummingbirds. Height 6-8”. Spread 10-16”.

Ray™ - A beautiful, mounding habit just covers itself in large flowers. All will bloom early in the spring for the start-up of your season.

Black - large, black flower, best black we've seen

Classic Blue - medium blue

Pistachio Cream - unique bicolor cream and green flowers, upright habit, very weather tolerant. Definitely need to try this one in mixed planters.

Sunflower - black with yellow star, medium flower size

Splash Dance™ - For the "starry" look in your eyes, their speckled pattern holds its unique coloration into the heat. Has a compact, trailing habit. Use in 4½" up to large containers, hanging baskets or ground covers. Propagation prohibited.

Bolero Blue - blue and white

NEW Magenta Mambo - magenta and white with soft yellow throat

Veranda™ Double Sugar Plum - Fully double, medium size blooms of bicolor purple and lilac. Controlled habit, suitable for pot production as well as hanging baskets and mixed containers. Height 8-12". Propagation prohibited.

Petunias - Mini

Propagation prohibited on all varieties.

Itsy™ - This little beauty has compact-medium vigor, exceptional branching and tons of tiny blooms. Creates a blanket of color in containers, baskets, large packs and up to 2½ gallon pots. Also perfect for landscapes and is pollinator friendly. Blooms mid-spring to summer. One of the best heat tolerant varieties. Height 4-6". Spread 18-24".

NEW Magenta

NEW Pink

NEW White - a great replacement for Bacopa, gives color all summer

NEW Shortcake Blueberry - Leave room for desert! Features mid-sized, bicolor flowers on a spreading, compact, medium vigor habit. Very stable throughout the season. Great in small pots, combos and gardens. Height 8-12". Spread 18-22".

Salvia

A beautiful complement to our line. Very showy in mono-culture pots and a really nice addition for mixed containers. Early to flower and heat tolerant. A "must-try" item. Propagation prohibited.

farinacea Sallyfun™ Blue Lagoon - Dark blue flowers with a small white eye. Well branched with medium vigor. Good for 6" pots and mixed containers. At least 4 weeks earlier to bloom than farinaceas from seed.

Scaevola 

"Australian Blue Fan Flower"

Lovely large, fan-shaped flowers cover the plants. Foliage has a thick "waxy" texture. Makes an attractive hanging basket and is also good used as a ground cover. Tolerates the summer heat; good in the south. Propagation prohibited.

Danziger varieties - A more compact habit, with medium growth, medium flower size and early flowering.

NEW Pink Blessing - This beautiful scaevola forms a mound of large pink flowers. Exceptional performance. A compact habit, better suited to pot crops, with medium growth and flower size and early flowering. Height 6-12". Spread 14-18".

Indigo Touch™ - dark indigo

White Touch™ - white, early to flower, compact, mounding bushy habit

SCAEVOLA PINK BLESSING

SCAEVOLA INDIGO TOUCH

SCAEVOLA WHITE TOUCH

SUNPATIENS COMPACT BLUSH PINK

COMPACT CLASSIC WHITE

Sunpatiens® 

Impatiens that look like New Guineas for full sun and full summer heat. Tried and proven in Dallas

Arboretum and found in full bloom in 105°F heat. Vigorous, fast growing, and free flowering. These plants are especially suited for large containers and big landscape beds. It is also recommended to acclimate them to full sun prior to planting out or some burning of flowers may develop. Propagation prohibited.

Compact Group - Don't be fooled by the word "compact", as these are still vigorous and fast-growing as compared to typical New Guineas. Garden height and spread 24".

Torenia

Forms a huge, densely branched plant, gracefully cascading from hanging baskets. Shiny leaves dotted with "wishbone" flowers make a delightful and unique addition to spring finished programs in 4" or larger pots. Heat tolerant as long as it's kept well watered; also hardy to 28°F. Propagation prohibited.

Moon™ - Semi-trailing habit. Requires partial shade.

Blue - violet-blue

Magenta - magenta and gold bicolor

Verbena

Very popular, heat tolerant plants produce vivid blooms. Good in baskets, pots, tubs, and landscapes. Avoid wet foliage to help prevent powdery mildew. Propagation prohibited.

Vanessa™ Compact - A sub-series of Vanessa that has a more mounded, naturally controlled habit while exhibiting the same powdery mildew resistance and heat/cold tolerance as its larger counterpart. Better suited to quarts or combos.

Bicolor Purple

Bicolor Rose
