VOLUME 8 ISSUE 1

SPRING 2020

## From the Program Director

Dr. Monika Feeney, DNAP, MS, CRNA

*Greetings! Happy spring and Summer!*

*Our newsletter is coming out a little later than usual – but there is lots of news to share!*

*What a crazy semester – Mid March we were all sent home to work from there. Classes were all converted to distance which affected our Freshman the most. Our faculty are adept at distance education so with a few adjustments and lots of ZOOM we continued to move forward. A short break in clinical for our juniors and as of June 1st they are back to giving anesthesia and embracing their new role as SENIORS!! Our 2020 graduates are off and running. We celebrated with a virtual graduation/awards banquet in April – Seniors presented their Scholarly Work (see the abstracts at the end of our newsletter). As I am writing this 12 have already passed boards! Juniors were presented with scholarships – thank you to John Silva, Chris-Anne Crabtree, Dr. Shipman Foundation and Dr. Bart Kuhns! We appreciate your gift to our students! Freshman participated in a “drive through” white coat ceremony. I promise no one was injured as we threw their coats in the car.*

*Lots of time to study for the seniors, thankfully our program has a rigorous clinical schedule, so students were able to graduate on time with more than enough clinical hours and cases as required by the COA.*

*And.... two weeks later our newest students jumped right in and had zoom orientation, to follow with Cell Biology with Dr. Garrad!! We welcome our newest students to their anesthesia journey!*

*The University is planning a graduated return to campus in July and August. Summer classes for our Completion students begins June 8th. We welcome 20 CRNA's that are finishing their DNAP.*

*Other news, I have been appointed Interim Director of the School of Nursing – the SON has a BSN undergraduate program, a BSN-c program for ASN nurses, a MS -DNP program, a nurse educator program, a community health DNP and an FNP program. I'm looking for a name should the 2 departments be combined – perhaps SOAN (School of Anesthesia and Nursing) Ideas welcome!!*

*Thank you to all of our clinical sites! Without you we could not do what we do! Thank you to all our faculty – amazing people – Tracy Beckham, Jeanie Skibiski, Rick Albaugh, Jill Layman and Cindi Aurentz.. We are looking for another faculty member to coordinate the SIM and skills lab – let me know if you are interested! Special thanks to Kathleen and Candice – we have the best staff at the University!! Welcome also to Gabby Lampe. A new marketing hire for the School of Nursing. Gabby is going to put our newsletter together and coordinate our Graduation Book.*

*We have much to be thankful for! Celebrate your art!*

*Respectfully, Monika*

### FALL ACTIVITIES

- Aug. 8, On-site Class via zoom for distance classes
- Aug. 13, Early Interviews for Class of 2024
- Aug. 17, 1st Day of Fall Classes
- Sept. 7, Labor Day (classes and offices closed)
- Oct. 1, New Clinical Rotation
- Oct. 8 & 9, Fall Break
- Oct. 17, ACLS, BLS, PALS Class
- TBD, 3 Minute Thesis
- Oct. 23-25, Fall MOANA meeting
- Nov. 18, 25 & Dec. 2, Senior SIM testing
- Nov. 25-29, Thanksgiving Break
- Dec. 3, Last Day of Class
- Dec. 4, Dead Day
- Dec. 5, On-site classes (completion students)
- Dec. 5-10, finals week
- Dec. 9-11, Junior SIM testing
- Dec. 11, Last day of Clinical Rotation, Graduation 1:30pm
- Dec. 21-Jan. 3, Clinical Winter Break

70th Celebration	16

## Together we will make a difference

Greetings to all!

As Director of the School of Nursing and School of Anesthesia I wanted to take a moment to share a few thoughts with you. We are a large group from undergraduate to graduate programs, both faculty and students.

I want you to know that your voice will always be heard! Nurses choose their profession because they want to help. A funny thing is - sometimes people don't want help, and that can be a challenge for caregivers. Frequently our words alone do not have the power to change someone. People view things from their own unique background and upbringing. For any individual to change they must first recognize an issue exists and then want to change or feel that change is necessary. As a University if a student's conduct is not appropriate – there are [avenues to report](#) this in order for additional objective investigation to occur.

As nurses or soon to be caregivers we know the healthcare world is filled with diversity of all kinds, and we must be accepting of all. We are the caregivers to the ill, to the mentally and physically challenged, to those on death's doorstep and to the newborn. It is not an easy path, or one for the lighthearted; but you have chosen it. I charge you to do it with grace and kindness.

I can assure you that cultural competence and acceptance of all races, religions, genders and sexual orientation are woven through the fabric of All of our Programs, both graduate and undergraduate. Our faculty goal is to teach those valuable lessons. Everyone does not come to us cut from the same fabric, but our goal and objective is to help each of you become the nurse that you can be.

Just as we cannot accept you into our programs because of your color, or faith, or financial situation

we cannot dismiss you from any of our programs just because of your beliefs. However, if any student's conduct is not appropriate – there are avenues to report and allow for review:

<https://www.missouristate.edu/studentconduct/>

You are important, you are leaders, you will make a difference in our World. Let each of us begin within ourselves to search for truth and honor, kindness and acceptance, and let it begin today, “let it begin with me”.

Together we will make a difference.

Respectfully Dr. Monika Feeny

### RESOURCES:

[OFFICE OF DIVERSITY](#)

[AMERICAN NURSES ASSOCIATION STATEMENT](#)

### American Nurse Association Statement:

The American Nurses Association believes that respect for the inherent dignity, worth, unique attributes, and human rights of all individuals is a fundamental principle (“Code of Ethics for Nurses with Interpretative Statements” [American Nurses Association, 2015, p. 1]). Nurses establish relationships of trust and provide nursing services according to need, setting aside any bias or prejudice (ANA, 2015, p. 1). This statement on ethics and human rights provides the foundation and context for all other position statements related to the practice of nursing. The protection and promotion of human rights in health and health care are fundamental functions of the American Nurses Association.

# LOBBY DAY

## Faculty and Students Participate in Lobby Day at the Capitol

**MSU SCHOOL OF ANESTHESIA FACULTY MEMBERS AND STUDENTS ATTENDED LOBBY DAY AT THE MISSOURI CAPITOL IN JEFFERSON CITY.**

The 2020 Missouri Nurse Advocacy Day was held March 4 at the Capitol Plaza Hotel in Jefferson City, Missouri. Missouri Nurse Advocacy Day is intended to increase awareness of the political process for all nurses and nursing students. The daylong event expands participants' understanding of the legislative process and provides them with effective techniques for advocating for their patients and practice.

This event focused on why legislative advocacy is important, identifying the Missouri Nurses Association's key legislative priorities, as well as sharing what is needed from each nurse in the state to be successful at the Capitol. The day includes a trip to the Capitol to observe the legislative process in action and visit with legislators. Joining us this year was Ernest Grant, PhD, RN, FAAN, President of the American Nurses Association.

# Student Spot

## White Coat Ceremony

At the end of the academic year SOA typically holds a large celebration. This is a time to celebrate graduation -seniors share their Scholarly Work projects, scholarship awards are handed out to the juniors and white coats and precordial sets are given to the freshmen getting ready to enter the clinical world. This year's celebration looked a little different. On April 23rd armed with a tent and some orange traffic cones, Dr. Feeney, Kathleen, Candice and Gabby arranged a drive thru in the parking lot of OCHS on the MSU campus for a special drive-thru White Coat Ceremony for the incoming junior cohort. As students pulled up one by one, their items were tossed through their passenger windows –an experience they are sure to remember.

[WATCH OUT THIS MEMORABLE  
MOMENT ON YOUTUBE](#)

"I wasn't for sure what to expect when I showed up to help. We were 4 weeks into quarantine , and honestly it was my first time out. It turned out to be very special memorable day to me. The smiles on the students' faces was amazing. Several of them brought their spouses along or shared in the moment with their families through live videos. Although it was very different from previous years I'm so thankful for Dr. Feeney thinking outside the box and being able to provide some sort of a celebration for them." **Candice Betts, SOA**

# Student Spot

## White Coat Ceremony Drive-thru

# AWARDS CEREMONY

On April 24th the SOA Faculty and staff hosted a virtual celebration where all 74 students joined in via Zoom. Seniors presented their capstone projects and received awards for various accomplishments including; 4.0 GPAs, most clinical hours and the golden tube award. Scholarships were also awarded at this time. At the concluding of the virtual celebration students were able to go to Ocean Zen's drive-thru located in Springfield, MO where they received two entrees for them and a guest to enjoy.

## CRABTREE FAMILY NURSE ANESTHETIST SCHOLARSHIP

**Brittany Woodall** received the 2020 Crabtree Scholarship. This scholarship was \$1,000. As a recipient of this award, a student must be enrolled full-time and must have an overall GPA greater than or equal to 3.4. This fund was established by Chris Anne Crabtree, an MSU School of Anesthesia alumnus. She established this fund to honor her too-soon-taken husband, Jeremy Crabtree.

## SILVA SCHOLARSHIP

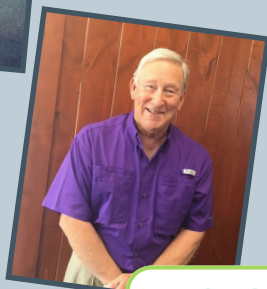

**Annie Farris** received the 2020 Silva Scholarship. As a recipient of this award, a student must be a second year student and show exemplary clinical skills. This fund was established in 2019 by John Silva, an MSU School of Anesthesia alumnus. This annual \$1,000 scholarship is presented to one MSU School of Anesthesia student.

John Silva graduated from Southwest Missouri School of Nurse Anesthesia at St. John's Hospital in Springfield, Missouri, in 1972. He spent 20 outstanding and successful years completing over 20 thousand cases in anesthesia. Silva has retired as a CRNA. He currently co-owns and operates a successful Medical Manufacturing and Distribution Business- Alliance Tech Medical, Inc. The

Crabtree Family

John Silva

Wade Shipman

## WADE SHIPMAN MEMORIAL SCHOLARSHIPS

**Austin Brashers & Adriel Schmitt** received the 2020 Wade Shipman Memorial Scholarships. Each of them received \$1,000. They were chosen by their clinical site coordinators because they demonstrate similar traits held by the late Dr. Wade Shipman, both in personality and patient care.

The Dr. Wade Shipman Scholarship fund was established in 2015 and is distributed by a scholarship board/advisory council including the Shipman Family, MSU Anesthesia representatives, and Mercy Anesthesia representatives in conjunction with Mercy Foundation.

This scholarship is a tribute to a man taken too soon, who touched many lives, and will never be forgotten. His legacy continues with this scholarship. We honor him by giving deserving anesthesia students a scholarship in his name. Donations are welcome! The pledge form can be found online at: [WadeShipman.com](http://WadeShipman.com). All donations are 100 percent tax deductible, and 100 percent of the contributions go to the fund.

## SCHOOL OF ANESTHESIA CLINICAL SCHOLARSHIP

**Daniel Chalison, Dmitriy Grishchuk, Marcus House, Stephanie Jenkins, Nathan Spangler and Jordan Taylor** received the 2020 Clinical Scholarships. The School of Anesthesia Clinical Scholarship is awarded to junior students who have been nominated by their clinical sites, performing as excellent clinical anesthesia students. The students are selected by the School of Anesthesia faculty after reviewing their clinical reports and simulation testing. Each scholarship given is \$500.

# Completion Student Spotlight

Inspired by a 21-year-old CRNA in the Navy, Yearty began her uphill climb.

With a DNAP program not available in North Carolina, Sharon Yearty searched out-of-state and is thankful to have found Missouri State.

**Yearty**, a southern girl all her life, obtained her first degree in medical technology, and while in the Navy, she worked as a surgical assistant in an oral surgery office.

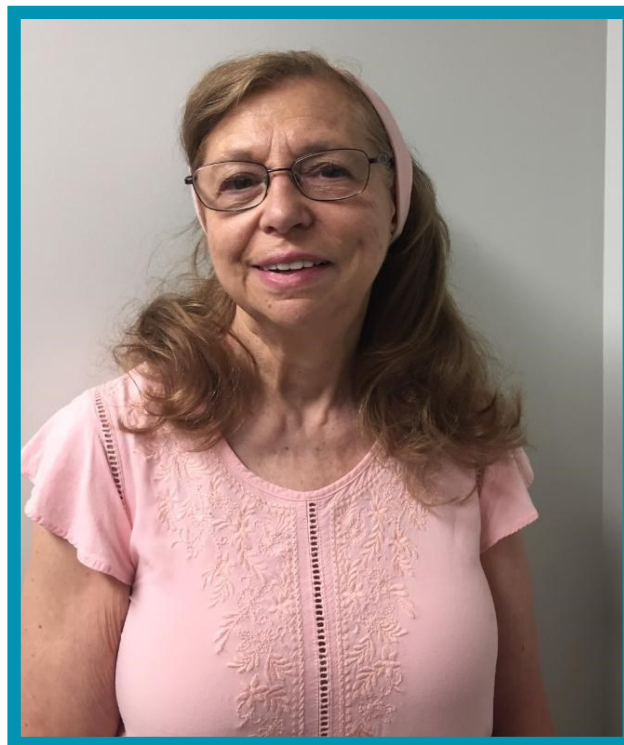

Yearty found herself inspired by a 21-year-old nurse anesthetist, named Lynn, that worked in the same office. She describes Lynn's work as "pure magic".

Yearty continued to work and gave up on her dreams of pursuing nursing and anesthesia. She ran an all-consuming family business and it wasn't until her husband was badly injured, she decided to recoup and start over. Yearty describes the moment as a blessing, "in such an ugly disguise!".

She went on to graduate with her AND, BSN, and then started Master's classes while working her first ICU position. She attended Anesthesia School at UNC-Charlotte and Carolinas Medical Center School of Nurse Anesthesia. With an injured husband, a long commute, three teenage daughters, and a full-time ICU position, Yearty was determined to become a CRNA.

Yearty recalls how inspired she was by Lynn, the CRNA in the oral surgery office.

"I did not fully appreciate the magnitude of her expertise until I went to anesthesia school. In 1973, she did room-air general anesthetics with no oxygen, no monitors of any kind, expertly delivered tiny boluses of pentothal, and no post-op monitoring...absolutely hair raising," Yearty exclaims.

*"Those cases ran smooth-as-silk, every time. I just thought she was magic, and I wanted to work magic too!"*

## SHARON YEARTY

Yearty has embraced that her "magic runs with all the bells and whistles that modern technology has to offer," and is thankful her dreams came to fruition. Yearty enjoys her career and plans to practice as long as God keeps her able.

# Student Spotlight

## Expanding her bedside charm to better serve patients.

**Eagerly waiting for year two to start in Missouri State's CRNA program, Mercy Akinwande is accomplishing her dream.**

**Mercy Akinwande**, born in Nigeria and culturally – a melting pot, is gearing up to start her second year in Missouri State's Doctor of Nurse Anesthesia Practice program.

Akinwande attended nursing school at the University of South Alabama and has worked in CVICU, ER, MICU, and Surgical ICU. Her passion was to always become a CRNA.

After working, and becoming complacent, her graduate education was delayed. She continued to work in the ICU and became CCRN certified. It was then that she realized she needed to continue her education towards a profession that promoted continual learning.

When motivation was lost, Akinwande's mother and husband helped push her to aim for her dreams and accomplish them.

In her spare time, Akinwande likes to listen to music, sing, and spend time with those she loves. "As a student, sleep has also become something I enjoy a lot more as I get a lot less of it right now."

Akinwande describes her first year as "difficult, stressful, and at times overwhelming. But, looking back on it now, it was not that bad!"

She credits her instructors' availability to bring clarity to topics and the extra resources, like Apex, that helped with the tough topics.

Akinwande feels accomplished as she pushed limits and came out on top over this past year. She is thankful to have instructors that cared for her and her peers' well-being and can't wait for year two.

*"As a CRNA, I can not only keep my bedside charm but also daily enhance my critical care knowledge to better serve my patients. That is why I became a CRNA."*

**Research**

## PROJECT

A new research project has been initiated by Dr. Aurentz and Dr. Skibiski this summer.

Working in collaboration with the Missouri Nurses Association and the Missouri Board of Nursing, they will be looking at the effect of COVID on APRN practice in Missouri.

The research question is whether the waivers issued by Missouri Governor Parsons had any effect on the practices of Advanced Practice Nurses.

A positive effect of easing the practice restrictions will be useful for future advocacy for the four advanced practice nursing specialties.

# KATHLEEN'S CORNER

A NOTE FROM OUR ACADEMIC  
COORDINATOR & ADVISOR

Happy Summer!

What a crazy spring semester we have had this year! All classes were moved online, and campus was shut down. We even moved our completion students May onsite day online this year as well.

Things are starting to get back to normal, summer semester has officially begun, and we have admitted 26 completion students to start as well as our 24 brand-new entry-level students starting on May 26th! With two interview dates quickly approaching this summer for our entry level program, we will be back to normal in no time.

I hope everyone is staying safe and healthy and I looking forward to seeing everyone this fall!

*-Kathleen*

# CURRICULAR UPDATE

## Greetings MSU School of Anesthesia students and alumni!

I would like to share with you some of the exciting new curricular changes happening here at MSU.

Each year, we review our didactic program and assess any changes that need to be made to improve student performance. We carefully sift through student evaluations and grades, and evaluate scores and pass rates on the National Self Evaluation Exam (SEE) and the National Certifying Exam (NCE). In addition to reporting as pass/ not pass, the exams also break student scores down into four didactic categories. These include Basic Sciences (and pharmacology); Equipment, Instrumentation and Technology; General Principles of Anesthesia; and Anesthesia for Surgical Procedures and Special Populations. The scores obtained from the SEE can be extremely helpful in helping students know where to focus their efforts in preparing for the national board examination. Also, as graduating students take the NCE, faculty are able to evaluate scores in each of the categories and see where improvements could be focused.

One of the exciting new changes we have made in our curriculum is our ANE 721 Anesthesia Equipment and Physics class. Two years ago, faculty noticed that this was an area that could benefit from greater focus. The content required for these areas had previously been included in multiple classes. As this was an area of great interest to me, I went about

developing the class and began the pilot class in the fall of 2018.

The syllabus and content taught exactly follow the NBCRNA outline for the board content for this section of the NCE. This section accounts for 18% of SEE content and 15% of NCE content. The class includes an in-depth study of the anesthesia machine, gas laws, airway equipment, fire and electrical safety, and all other equipment used in anesthesia. The students have been extremely receptive and can readily see the value of spending additional time and focus on content that will match so specifically to what they need to know for clinical practice and for testing. The new class was repeated in the fall of 2019 and student reviews have been good. We are looking forward to tracking the results and determining the effectiveness as graduating students take the NCE. Always looking for ways to make sure our students remain the best!

**Dr. Tracy Beckham, CRNA, DNAP**  
Assistant Program Director

# WELCOME Class of 2023!

## CREATING SMILES

Sometimes its just good to laugh

THE ART OF MEDICINE  
CONSISTS OF AMUSING  
THE PATIENT WHILE  
NATURE CURES THE  
DISEASE.

*Laugh my friend, for laughter ignites a  
fire within the pit of your belly and  
awakens your being.*

## Food for Thought

*As soap is to the body, so laughter is  
to the soul.*
