What's New and Tried & True

Delilah Onofrey
Flower Power Marketing
for Suntory Collection
440-522-1447 • donofrey@gmail.com

We're looking forward to another exciting year with five new series and nearly 20 new varieties that enhance the Suntory brands you rely on. These new varieties are improvements, new colors, superior performers and novelties that create interest. Each year, Suntory's breeding teams sort through thousands of hybrids to select the very best. As new ones come in, others are phased out to offer manageable series with the very best performers.

You will notice some changes to the catalog this year:

- Suntory Collection varieties are now organized alphabetically by genus instead of by brand. We still have a listing by brand on page 2 for those who find that easier.
- New 10-page section showcases our special brands outside

the Suntory Collection of annuals starting on page 38. These include Senetti, Sun Parasol, Sunvillea, Sunrosa, Crackling Fire and Princettia. Now you can find the entire Suntory portfolio of plants in one place.

- See all the exciting new varieties in one place on pages 6 and 7.
- Choose plants that perform by using the recap of last summer's trials results on page 33. Which plants performed the best in your region? Throughout the catalog, you will see awards for specific varieties from the past three years. We are keeping track to give you the most comprehensive view over time.

You asked and we listened. We want to make our catalog as useful as possible. Feel free to call me or drop me a line to request additional copies and share any feedback you have.

Innovative & Independent!

Suntory Flowers dares to be different by embracing a "blue ocean" strategy.

From the very beginning, Suntory approached the flower business as a category creator with a "blue ocean" strategy – creating new demand in uncontested market space instead of competing head to head in established markets and categories. The place where no one is yet is most interesting.

As the world leader in food, beverage and hospitality industries, Suntory is best known for introducing whiskey to Japan and has since built a reputation for introducing the finer things in life and promoting happiness. Suntory's breeders have created "top-shelf" varieties by putting customer satisfaction and enjoyment first.

They approached the flower business with a fresh perspective without any preconceived ideas or traditions in the horticultural trade. While most flower breeders had been selecting varieties that could produce seed, Suntory chose plants for the best garden performance and impact. All Suntory varieties are produced vegetatively from cuttings, which was unheard of in the bedding plant annuals world 25 years ago.

It all began with Surfinia – the first vigorous, vegetative petunia, which reinvented the category and kicked off the vegetative annuals revolution. This new hybrid with wild

petunia blood was just perfect for filling out baskets and tolerating weather extremes.

Next came Million Bells calibrachoa – a completely new genus with a wide color range and high flower count. Twenty years later, the gardening public still affectionately refers to all calibrachos as Million Bells.

Soon to follow were beautiful vegetative verbenas – Tapien and Temari – creating a whole new category, and then Summer Wave torenias.

Suntory keeps creating new categories as others follow. Sun Parasol revolutionized mandevillas and took that crop from tropical niche to mainstream. Senetti became a whole new early spring crop, leaving its distant cineraria relative far behind. What's next? Stay tuned!

Beyond a passion for and dedication to truly new breeding, Suntory is using new approaches to serve the North American market. Instead of becoming a vertically integrated giant, Suntory flourishes by partnering with innovative and independent individuals and businesses. Suntory also leads the way in developing the most comprehensive digital educational and promotional resources for the trade and consumers through YESS! – Your Easy Suntory Solution. (page 36)

You'll love Pink Improved in beds, baskets and containers.

TEMARI® Verbena

Pages 30-31

We add White Improved to the mounding Patio types and a really cool trailing novelty, Candy Stripe.

SUN PARASOL® Mandevilla

Pages 41-44

New to the Giant Group, Red Emperor is our most stunning premium mandevilla yet. The Pretty Group also expands to include two new varieties – Pretty Dark Pink and Pretty Dark Red, which one Favorite New Flowering Plant at TPIE.

SENETTI® Pericallis

Pages 45-46

Always going for the bluest blues, the latest new Senetti is Super Blue. And the popular Magenta Bicolor joins the Baby Senetti series.

Sungelonia

SUNGELONIA[®]

angelonia

- 🏆 Deep Pink Sungelodepi
- 🏆 2012 Prairie Star Winner, Kansas State University
- 🏆 Excellent rating, University of Minnesota
- 🏆 2012 Top Picks, Plantpeddler

Elegant and upright

- ✓ Uniform through series
- ✓ Dense foliage and flowers
- ✓ Compact, well-balanced form

Perfect for patio containers and landscapes, Sungelonia angelonias offer superb heat and humidity tolerance throughout the summer. Plants have excellent branching and bloom profusely. Deep Pink is especially noteworthy.

White Sungeloho
2012 Prairie Star Winner, Kansas State University

Blue Sungelobu
2012 Prairie Star Winner, Kansas State University

Genus	Angelonia
Family	Scrophulariaceae
Plant type	Annual
Bloom time	Continuous, spring to fall
Bloom size	Individual flower 1/2 - 2/3 inches, spike 4-10 inches long
Light	Full sun, partial sun
Growing media	Well-drained peat/perlite mix
pH	5.4-5.8
Grower pots	4 and 6 inch
Retail containers	4 inch pots and larger
Crop times	4-inch pot (1 liner) – 6-7 weeks, 1 pinch 6-inch pot (1-2 liners) – 7-9 weeks, 1 pinch 10-inch basket (3 liners) – 10-12 weeks, 2 pinches

John Says:

Sungelonias are just gorgeous and easy to grow. They have super deep green foliage and excellent flower count. They finish well in 4-inch and 5-inch pots. We did not use any plant growth regulators and pinched them once with great results.

– John Barone, Barone Gardens

NEW

LOFOS[®] COMPACT lophospermum

Bred to be
grower friendly

- ✓ Significantly more compact
- ✓ Easier to handle
- ✓ Earlier to bloom

NEW

Compact White
Sunloshiro

Growers will appreciate the new compact version of Lofos! This unique, premium item is easy to grow and care for and should attract interest at retail. Plants are self-branching and self-cleaning. As an added benefit, Lofos are naturally resistant to disease and insects.

Lofos[®] Compact habit

- Trailing
- Length: 1-2 feet from top to bottom

Application

Hanging baskets, 1-gallon and 5-gallon containers

Genus	Lophospermum (Asarina)	Crop times	4-inch pot (1 liner) – 4-6 weeks, 1-2 pinches
Family	Scrophulariaceae		1-gallon pot (2 liners) – 8-9 weeks, 1-2 pinches
Plant type	Annual		10-inch pot (3 liners) – 10-12 weeks, 2-3 pinches
Bloom time	Continuous, spring through fall		As buds will appear on the edge of vines, no pinch is needed, but vines can be wrapped around to keep flowers.
Bloom size	2 inches		
Light	Full sun, Partial sun		
Growing media	Well-drained peat/perlite mix		
pH	6.0-6.5		
Grower pots	4 inch and gallons		
Retail containers	10-inch hanging baskets, 1- gallon and 5-gallon pots

LOFOS®

lophospermum

Gorgeous flowering vine

- ✓ Vigorous, trailing growth
- ✓ Self-cleaning
- ✓ Blooms throughout the season

Grow something truly unique. This marvelous vine blooms early and continues throughout most of the year. Trumpet-shaped flowers and grapevine leaves bring elegance to hanging baskets and patio containers.

Aaron Says:

Lofos is one of my favorite plants.

It's unique and different from anything else on the market. With two colors, Wine Red and White, you can plant multi-color pots where the plants truly blend together.

– Aaron McDonald, Botany Lane Greenhouse

Genus	Lophospermum (Asarina)
Family	Scrophulariaceae
Plant type	Annual
Bloom time	Continuous, spring through fall
Bloom size	2 inches
Light	Full sun, Partial sun
Growing media	Well-drained peat/perlite mix
pH	6.0-6.5
Grower pots	4 inch and gallons
Retail containers	10-inch hanging baskets, 1- gallon and 5-gallon pots

Crop times	4-inch pot (1 liner) – 4-6 weeks, 1-2 pinches
	1-gallon pot (2 liners) – 8=9 weeks, 1-2 pinches
	10-inch pot (3 liners) – 10-12 weeks, 2-3 pinches
	As buds will appear on the edge of vines, no pinch is needed, but vines can be wrapped around to keep flowers.

SUMMER SPLASH®

nierembergia

Impress your neighbors

- ✓ Most reliable summer flowering
- ✓ Withstands heat and disease
- ✓ Easy to grow

Versatile, fast-growing Summer Splash® nierembergias are easy to care for and have many uses in the garden. They produce large, abundant flowers on dense foliage – perfect for patio pots and baskets. Plants bloom continuously, April to November.

Summer Splash® habit

- Upright, spreading mound
- Height: 20 inches
- Spread: 20 inches

Mixed planting

Summer Splash is great for heat- and drought-tolerant mixed perennial beds and beautiful with lavender salvia.

Application

Border, rock garden, all container types, baskets

Allan Says:

"Oh, my. I can't say enough good things about these

cup flowers. Brilliant colors, persistent in the ground (perennials for us) and long flowering time, they are simply winners." – Allan Armitage, University of Georgia

Genus	Nierembergia	Retail containers	4 inch pots and 10 to 12-inch hanging baskets
Family	Solanaceae	Crop times	4-inch pot (1 liner) – 6-8 weeks, 2-3 pinches
Plant type	Perennial – Zone 7b		6-inch pot (2 liners) – 9-12 weeks, 2-3 pinches
Bloom time	Continuous, spring to fall		10-inch baskets (3 liners) – 14-16 weeks, 4 pinches
Bloom size	1 ½ inches		Plants require less pinching when grown cool.
Light	Full sun		
Growing media	Well-drained peat/perlite mix		
pH	5.5-6.0		
Grower pots	4 inch and 6 inch		

SURFINIA[®]

TRAILING

petunia

World's best petunia series

- ✓ Outstanding garden performance
- ✓ Extremely fast growing
- ✓ Profuse bloomer, self-cleaning

Surfinia was the very first vegetative petunia series, reinventing the category and leading the vegetative annuals revolution. Robust plants offer superb weather tolerance and disease resistance, withstanding heat, cold, wind and rain. Surfinia petunias are No. 1 in Europe, where brilliant cascades fall from window boxes everywhere.

ILUMINA[®]

scoparia

Fragrant yellow flowers

- ✓ Hundreds of star-shaped flowers
- ✓ Impervious to heat
- ✓ Blooms throughout the season

Aaron Says:

Illumina scoparia is more an accent plant than a mono crop item.

Plants are nice and fragrant and don't overtake combination plantings. They also make a nice groundcover for walkways and edges.

– Aaron McDonald, Botany Lane Greenhouse

'Illumina Lemon Mist' may look dainty, but it can take the heat. Truly unique plant with a nice red licorice fragrance. Brightens combination plantings and borders.

Illumina[®] habit

- Upright, mounding
- Height: 9-14 inches
- Spread: 18-24 inches

Application

Pots, hanging baskets, combinations, window boxes, landscapes.

Plush carpet of flowers

- ✓ Grows quickly
- ✓ Mildew resistant
- ✓ Cold and heat tolerant

Danny Says:

'Tapien Blue-Violet' is probably

the number one verbena in the California market. With low disease issues, Tapien verbenas have become the mainstay in the landscape and in warmer areas continue to flower throughout the year.

– Danny Takao, Takao Nursery

Tapien verbenas make the perfect groundcover, carpeting an area up to 3 feet wide and crowding out weeds. Constantly in bloom, they're impervious to heat, humidity and light frosts, thriving where other verbenas fail. Extraordinary in hanging baskets, too.

Tapien[®] habit

- Spreading
- Height: 4-6 inches

THE
SUNTORY[®]
COLLECTION

Your Easy Suntory Solution!

Suntory has developed digital tools that will help you as a grower in the greenhouse, sell more plants as a garden retailer and ensure your customers are successful in their gardens.

◀ Video Channel

What can our video channel provide for you?

Learn all about our varieties on Suntory's video channels. More than 200 beneficial and beautiful videos are presented in the following categories:

- Video catalog
- Production tips for growers
- Benefits for growers
- Planting & Care tips for gardeners
- Before & After home projects
- Expert testimonials

In addition to these educational videos, Suntory has created some really fun videos that are perfect for sharing through social media. Choose the videos you like to run in a loop at your garden center. Or link to a different one in your eNewsletter each week. It's simple!

Photo Library ▶

This is where you'll find a great selection of images for each Suntory variety. Easy to access and use photos for your promotions.

Mobile Site For Gardeners

Provide your retail employees with the knowledge they need to sell with confidence. It's the easiest and simplest tool to make you the top salesperson in your store and help your customers enjoy gardening with your plants. Show customers photos, videos and care tips.

Mobile Site For Growers

Become a pro at growing Sunatory varieties.

Check production information when you need it. Videos, photos and data are readily available at your fingertips.

Virtual Combo Designer

Try our Virtual Combo Designer on our website or download the new free app to use on your iPad or Android tablet. Just look for the Combo Designer from Sunatory in the online app stores. In the simulation game, you choose your container and then drag in your choice of Sunatory varieties. Choose three varieties and press enter and, voila! Experiment without even getting your hands dirty. This is a great tool to plan combo production, teach employees how to plant and even host workshops for consumers.

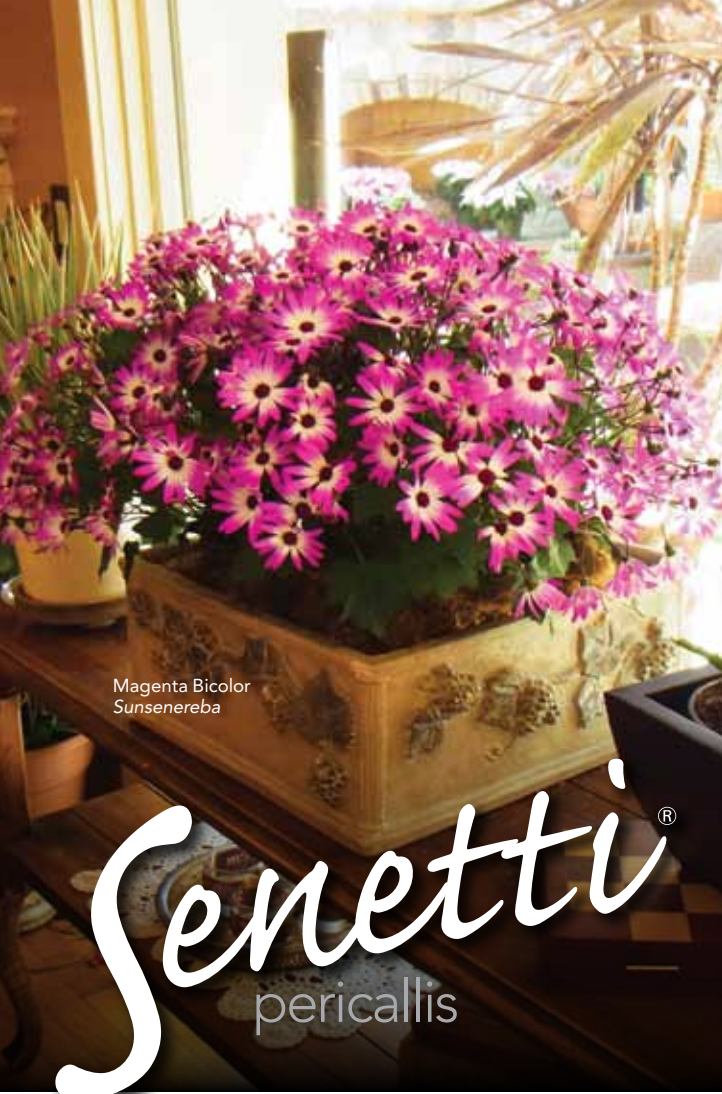

**Download
Free App Here**

Print Your Own P.O.P!

Need bench cards or posters for Sunatory varieties? You can print them on demand yourself or send the image to your local printer. Posters and bench cards are customizable. Simply plug in pot size and price and even upload your logo to promote your brand.

Senetti[®]

pericallis

The first flower of spring

- ✓ Unmatched early season color
- ✓ Unique reblooming ability
- ✓ Thrives in cool conditions

Kick off your spring season with Senetti! In addition to thriving in lower temperatures (as low as 35°, Senetti provides high color impact when we need it the most. Flower count can be as high as 200 on a plant grown in a 10-inch pot. Senetti also is unique in its reblooming ability. Cut plants back for a fresh flush of blooms.

Senetti[®] habit

- Upright and bushy
- Excellent branching

Genus	Pericallis
Family	Compositae and Asteraceae
Plant type	Grown as annual but perennial by nature
Bloom time	Early spring through early summer, can be cut back to rebloom
Bloom size	3 inches
Light	Full sun, partial sun
Growing media	Well-drained peat/perlite mix
pH	5.5-6.0
Grower pots	6 inch and larger
Retail containers	6 inch and larger
Crop times	6-inch pot (1 liner), 10-20 weeks

Baby Senetti[®] pericallis

Compact with high flower count

- ✓ Ideal for high-density production
- ✓ Finishes in smaller pots
- ✓ Unrooted option available

Baby Senetti is a series that offers advantages for mass-market growers and retailers. Plants are more compact for production and shipping and finish in smaller pots. Three solid and two bicolors are available. Flowers are smaller but still very high in number.

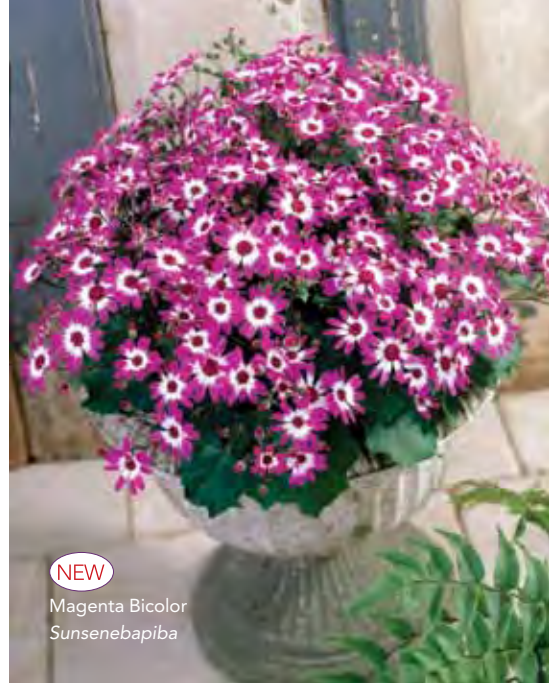

Baby Senetti[®] habit

- Compact, upright and bushy
- Excellent branching

Sun Parasol[®]

PRETTY GROUP mandevilla

Highest flower count!

- ✓ Superior branching
- ✓ Dense, vigorous growth
- ✓ Perfect for baskets

Sun Parasol Pretty varieties combine the best of dipladenia characteristics with mandevilla growth. Flower size is the same as the Original group, but foliage is glossy, thinner and more vining. Pretty varieties also are more cold tolerant than other dipladenia types.

Retail containers	4 inch and baskets
Crop times	4 inch pots (1 liner), 3 months baskets (1-3 liners), 4-8 months

First bedding plant mandevilla!

- ✓ Naturally compact
- ✓ Bred to be produced in 4-inch pots
- ✓ Exquisite in landscapes and baskets

Create new markets with Sun Parasol Garden Crimson – the first true bedding plant mandevilla. Plants produce large, crimson blooms in 4-inch pots. Powerful branching creates breaks low in the plant, which leads to more blooms. Promote a premium 4-inch tropical program by selling with Sunvillea bougainvilleas.

Garden Crimson

SUNVILLEA®

bougainvillea

Most compact bougainvillea

- ✓ Early flowering
- ✓ Upright bushy habit
- ✓ Three distinct colors

Sunvillea is opening up new possibilities for bougainvillea. When Sunvillea debuted, it received the “Best New Flowering Plant Award” at the Tropical Plant Industry Exhibition and was a finalist for Greenhouse Grower’ Reader’s Choice Award after receiving the most votes in the “Best of the Rest” category. Grow it as part of a quart tropical program.

Cream
Sasara

Pink
Kasumi

Genus	Bougainvillea
Family	Nyctaginaceae
Plant type	Tropical shrub, Zone 9b-10
Bloom time	Continuous

 2012 Classic City Award, University of Georgia

Soft Pink

Yellow
 ZARBSUN

Outstanding landscape roses

- ✓ Highly disease resistant
- ✓ Low maintenance
- ✓ Long flowering period

Compact Sunrosa roses are ideal for small to medium landscape spaces and patio containers. They need less pruning and are easy to care for. From May through October, 'Sunrosa Red' and 'Sunrosa Yellow' received perfect scores for foliage quality in the University of Georgia's trials assessing disease resistance.

Sunrosa™ habit

- Compact, upright, bushy
- Height: 15-24 inches
- Spread: 12-18 inches

Application

Landscapes and patio containers.

Allan Says:

I was taken with Sunrosa's retail friendly size and wanted to evaluate leaf health and flower power in the very challenging heat and humidity of Athens, Georgia. 'Sunrosa Red' was glorious, and even though considerably smaller than all the other roses we were grading, plants more than held their own. – Allan Armitage, University of Georgia

Genus	Rose
Family	Rosaceae
Plant type	Perennial, Zone 5
Bloom time	year round in Southern climates
Bloom size	1.5-2 inch
Light	Full sun, part shade
Growing media	bark/peat mix
pH	5.5-6.0
Grower pots	gallons and larger
Retail containers	gallons and larger
Crop times	1 gallon, 8-10 weeks 2-3 gallon, 12-16 weeks

Crackling Fire

CRACKLING FIRE® begonias

Now available in six colors, Crackling Fire is the next generation of boliviensis begonias. Plants are loaded with flowers, easy to grow and have a sturdy, compact and upright habit that prevents breakage. Crackling Fire is more sun tolerant than other begonias and presents well as premium 4-inch or basket.

Best color range and uniformity

- ✓ Self-cleaning and low maintenance
- ✓ Drought tolerant
- ✓ Blooms continuously until frost

Princettia

PRINCETTIA®

euphorbia

Gorgeous premium gift plant

- ✓ Naturally compact
- ✓ Excellent branching
- ✓ Year-round possibilities

Princettia is a collection of entirely new euphorbia hybrids that are captivating consumers all over the world. Four beautiful shades of pink make them a perfect fit as a gift plant for Valentine's Day and spring holidays or breast cancer awareness promotions in October. Princettia can even be used in the landscape in mild climates. For maximum market impact, promote the Princettia brand.
