Dedication To Innovation

WELCOME TO A NEW ERA
IN PLANT BREEDING!

Suntory Flowers has opened a state-of-the-art research facility that will serve as our new base in Higashiomi, Shiga Prefecture in Japan. Here, at the Suntory Flowers Innovation Field, our team will develop new varieties and stock plants that will become the basis for flowers and vegetables sold all over the world.

Known as “the plant pioneers,” Suntory Flowers has built a global reputation for cutting-edge genetics that have revolutionized the floriculture industry – Surfinia petunias, Million Bells calibrachos and Sun Parasol mandevillas.

Stay tuned for exciting new varieties in the years to come!

COMBO COMPANIONS

Throughout the catalog, we’ve included more “show and tell” – examples that demonstrate how to use our varieties in landscapes and displays. One new feature is Combo Companions, on page 61. Here, we showcase plants that play well together and inspire you to create your own combo planters.

2024 Exciting New Varieties

SUN PARASOL GIANT PEACH SUNRISE

Page 4

Gorgeous, multi-tonal blooms start out dark peach and lighten with age. Golden yellow throats have a red-orange ring. Perfect for premium trellises.

SURFINIA MOUNDING PATIO PARTY PINK

Page 17

Pucker up for a sweet new petunia! This bright, upright, compact variety has a star pattern that resembles a kiss.

SOIREE KAWAII PAPRIKA RED

Page 22

Spice up landscapes with a warm red/orange shade. Blooms have a white eye, compared to Soiree Kawaii Red Shades with a red eye.

SOIREE FLAMENCO SALSA RED

Page 24

A breakthrough color joins the dance! Deep maroon blooms have ruffled petals with a lighter terracotta edge.

SENETTI BLUE BICOLOR IMPROVED

Page 31

Top seller has been upgraded with modern breeding and disease resistance. Plant habit is more compact with a tighter bloom canopy.

SENETTI LAVENDER DAWN

Page 31

Like Senetti Magic Salmon, blooms start out lavender blue with bright centers that expand as flowers age. Plant is more compact and loaded with blooms.

SENETTI RED HALO

Page 31

Put a ring on it! Red daisy flowers pop with a bright white ring around each center. Excellent for early spring impulse sales.

GRANVIA CRIMSON SUN

Page 40

Glorious red blooms open and close with the sun, revealing sunny yellow centers. Granvia super strawflowers are twice the size of typical bedding plant varieties.

GRANVIA WHITE

Page 40

Big blooms are a crisp white, revealing golden yellow centers. Vigorous plants fill large containers and make a stunning statement in the landscape.

SURDAISY WHITE IMPROVED

Page 45

Surdaisy brachyscomes produce hundreds of tiny daisies that withstand cold, rain and sun. White is improved for growth habit and display of blooms.

BIG YEAR FOR PRINCETTIA!

The Princettia pipeline is flowing!

Six new varieties will be available as pre-introductions to produce as soon as this season. Three make up the new Princettia Queen® series, which size up nicely for 6- to 8-inch pots.

Building on the success of Princettia Queen® Pink, new colors are Shell Pink, Hot Pink and the deeper Rose Punch.

In the compact series, we introduce Princettia Pure Red and two splashy novelties — Princettia Sparkling Rouge and Sparkling Rosé — the first patterned varieties in this type of hybrid euphorbia.

LOVING LOFOS

Gorgeous alone or as a spiller in combinations, Lofos adds a fairytale charm that will captivate your customers. Check out these ideas for inspiration:

1

A simple tomato cage provides vertical support for Lofos Compact. Consider training the more vigorous varieties upward to a trellis.

2

Create a living umbrella, like Mast Young Plants has in past summer trial gardens.

Lofos Compact varieties make an **outstanding spiller** in large mixed planters.

3

4

Hang a Lofos Wine Red basket high for a dramatic look below.

Granvia super strawflowers make a statement in very large planters. Use Million Bells calibrachoa as a filler and spiller!

Make Your Own: It's As Easy As 1-2-3

The classic recipe for effective container combination plantings is choosing thrillers, fillers and spillers – an upright focal plant flanked by mounding and trailing ones.

Sometimes the thriller is a grass and the spiller is foliage.

Choose plants that are compatible in terms of light, moisture and temperature needs for the best results.
