"Unlimited flexibility in product selection and logistics."

Sharing our passion for flower bulbs and perennials

Ever since its establishment in 1989, Kébol has been an ambitious and innovative player in the global market for high-quality flower bulbs and perennials.

All activities within our family firm spring from fascination and love for flower bulbs and perennials. As an expert supplier, we master every aspect of the horticultural business: from breeding, growing and preparation to marketing and distribution. With you we share our passion for colourful products that make people smile all over the world. This has been the starting point for many of our long-term relationships in the market.

Working together with Kébol has even more advantages:

- Broad expertise throughout the supply chain: breeding, growing, preparing, marketing and distribution
- High-quality standards
- First-class customer service
- In-house sourcing and procurement
- A wealth of skilled and experienced staff

With devotion to horticultural products and the right expertise to grow and sell top-quality products, Kébol makes a huge difference in the market!

Your reliable partner

With a wide product range we serve the market demands of several target groups (retail, mail order, wholesale, institutional markets and individual growers). Our excellent working relationship with growers and our customers enable us to supply a reliable product. Reliable in the sense of quality, delivery, logistics, cultivation support, product innovation and service.

Market leader in Amaryllis

As a market leader in Amaryllis, we take pride in our ability to grow such a splendid product in Brazil and Peru in a responsible manner. The right climatic conditions ensure we get beautiful, healthy amaryllis bulbs of top quality, perfect for dry sales and pot production.

Home & Garden

Aiming at retail sales and mail order, Kébol has developed a number of attractive packaging lines. Our home & garden program varies from economy assortments for supermarkets to wider ranges for garden centres. Each season, these lines are updated with new varieties and presented in an easy-reference catalogue. At Kébol we closely follow lifestyle trends. Product selection and package design are carefully geared towards customer preferences observed within your target groups.

Bareroot Perennials

We offer the most comprehensive and creative range of bare root perennials on the market. All sourced from cutting-edge genetics and breeders around the world suited for wholesale and landscape growers, garden centres and mail order. With 30 years' experience in this market, we have built a strong reputation for high quality bare roots, innovative varieties and vast knowledge of these products. With the products of Darwin Plants by Kébol you are able to successfully grow and sell perennial plants.

Certified

MPS

Kébol MPS-GAP no: 804698

MPS-GAP is an excellent certificate for delivery to supermarkets or other retailers. MPS-GAP means proven traceability, safety and hygiene of your products.

SKAL

Kébol Skal no: 105453

The Pure assortment is Skal-certified (100% organic). Skal Biocontrole, the control authority, is dedicated to proving the reliability of organic products in the Netherlands.

2020

Perennial Bare Root

Catalogue

Dear customer,

Welcome to our 2020 bare root catalogue.

We proudly present you our valued customer the new listing of the best varieties available in the market.

This extensive range of bare root varieties will enable you to offer your customers the best and most popular varieties.

Our bare root plants can be used by Garden centres and wholesale/landscape growers to produce outstanding quality plants, but are also the perfect product for mail-order companies to sell.

All bare root plants are sourced from the best growers that are able to meet our high quality standard. Our excellent working relationship with growers and our customers enables us to supply a reliable product. Reliable in the sense of quality , delivery, logistics, cultivation support, product innovation and service.

With our '30 years' of experience in the perennial market we have built strong relationships with cutting-edge breeders around the world. We can offer you the best new introductions that have been tested extensively.

Working with 'Darwin Plants' has many advantages :

- Broad expertise throughout the supply chain. Breeding-growing-packing-marketing and distribution
- First class customer service
- Inhouse sourcing and procurement
- A wealth of skilled and experienced staff
- Cultural information
- Knowledgeable sales team

Thank you very much for the business you place with us and I hope you have a very successful season.

Ordering

**For best availability for your desired ship, please order early.
Shipment dates cannot be altered after November 15th, 2019**

Our packing process begins on **November 15th**, so no changes to your order can be made after this date. Although we do accept orders after this deadline, the selection will be more limited and some varieties will be unavailable.

An acknowledgment will be mailed to you as soon as we have processed your order. All orders are subject to crop conditions. We have a long growing season and many unforeseen problems may occur which can damage crops and thereby reduce the amount of plants available. Every effort is made to fulfill orders, but the availability of a particular variety cannot always be guaranteed until we begin shipping. Therefore, we may have to cancel some items from your order at a later date.

Pot tags

United Kingdom & Ireland

Pot tags are automatically included with your bareroot order.
If you do not wish to receive tags, please clearly specify this information when you send or call in your order. Unless otherwise stated we will send 1 tag per plant.

Rest of the World

Pot tags are only shipped upon request.

You can request tags for your complete order by checking the relevant box on the order form. Unless otherwise stated we will send 1 tag per plant.

For the following items the tag multiple is one tag per three corms.
Convallaria majalis, Crocosmia and Liatris (except for Kobold).

Each tag includes full English descriptive information and notes on care and usage.

Multiples

Product is packed in multiples of 25, with the following exceptions:

Convallaria majalis, Crocosmia and Liatris (not Kobold): multiples of 75.
We recommend 3 corms per pot. Peonies: multiples of 5.
Details are available on the order form.

Roots are packed in strong large boxes that protect them during shipping!

Bare Root Perennials

The most comprehensive and creative range of bare root Perennials on the market. All sourced from cutting-edge genetics and breeders around the world. With 30 years' experience in this market, we have built a strong reputation for high quality bare roots, innovative varieties and vast knowledge of its products.

* Root size varies by genus and variety.

1 Your bare root looks like this...

2

It's vernalised and ready to flower in the first year. All Darwin products are carefully graded to give consistently high quality and uniform bare roots in every package.

3

In a matter of just weeks a high quality, premium Perennial is available for sale.

Jun-Aug Zones 6-10 ↑ 90cm

Canna **'Happy Cleo'**

- Light-Orange
- Great compact patio variety
- Clean plant with large flowers

Canna
'Happy Emily'

- Yellow
- Great compact patio variety
- Clean plant with large flowers

Canna
'Happy Isabelle'

- Dark-Pink
- Great compact patio variety
- Clean plant with large flowers

Canna
'Happy Julia'

- Orange-Red
- Great compact patio variety
- Clean plant with large flowers

Canna
'Happy Wilma'

- Orange
- Great compact patio variety
- Clean plant with large flowers

Chelone (Turtlehead)
obliqua

- Contrasting deep colours
- Tough, dark-green, serrate-edged leaves
- Deep-pink hooded flowers

Cimicifuga (Bugbane)
racemosa

- Fragrant white flowers
- Green foliage

Aug-Oct Zones 3-8 ↑ 150cm

Cimicifuga (Bugbane) *racemosa* var.*cordifolia*

- White flower spikes
- Flowers later than the species
- Fewer but larger leaflets

Aug-Oct Zones 3-8 ↑ 150cm

Cimicifuga (Bugbane) *'Atropurpurea'* *ramosa*

- Ivory-white flowers
- Purple-green foliage and stems flushed with green

Aug-Oct Zones 3-8 ↑ 150cm

Cimicifuga (Bugbane) *'Brunette'* *ramosa*

- Pinky-white flowers and dark-purple foliage

Aug-Oct Zones 3-8 ↑ 110cm

Cimicifuga (Bugbane) *'Chocoholic'* *ramosa*

- Mauve pink flowers on purple foliage

Aug-Oct Zones 3-8 ↑ 150cm

Cimicifuga (Bugbane) *'Pink Spike'* *ramosa*

- Pale pink flowers and dark bronze-purple foliage

Aug-Oct Zones 3-8 ↑ 130cm

Cimicifuga (Bugbane) *'Black Neglige'* *simplex*

- One of the blackest forms to date

Jun-Aug Zones 5-9 ↑ 100cm

Clematis *'Cassandra'* *Heracleifolia*

- Clusters of dark blue flowers
- Flowers are scented

Jul-Sep Zones 3-8 ↑ 120cm

Clematis *'China Purple'* *Heracleifolia*

- Small, reflexed, tubular purple flowers
- Non-climber, sub-shrub

May-Jun Zones 3-8 ↑ 15cm

Convallaria (Lily of the Valley) *majalis*

- Fragrant white bell-shaped flowers
- Shipped in multiples of 75

May-Jun Zones 3-8 ↑ 15cm

Convallaria (Lily of the Valley) *'Prolificans'* *majalis*

- Sought-after double flowered form
- Fragrant

May-Jun Zones 3-8 ↑ 15cm

Convallaria (Lily of the Valley) *'Rosea'* *majalis*

- Fragrant pale-pink flowers

May-Sep Zones 5-9 ↑ 35cm

Coreopsis - Up Tick® *'Yellow & Red'*

- Easy-to-finish series has bigger flowers and longer blooming for more colour at retail and in the garden

May-Sept Zones 6-10 ↑ 40cm

Coreopsis 'Madras Magic' *verticillata*

- Burgundy flowers with white tips
- Extremely long blooming time

Jun-Sep Zones 4-9 ↑ 45cm

Coreopsis (Tickseed) 'Moonbeam' *verticillata*

- Smaller lemon-yellow flowers
- Easy to grow

Jun-Sep Zones 4-9 ↑ 30cm

Coreopsis (Tickseed) 'Tweety' (P) *verticillata*

- Bright yellow, very short and winter-hardy variety

Jun-Sep Zones 4-9 ↑ 30cm

Coreopsis (Tickseed) 'Zagreb' *verticillata*

- A cushioned nest of incredibly fine thread-like foliage, netted in shining canary-yellow flowers

Jun-Sep Zones 6-10 ↑ 80cm

Cosmos *atrosanguineus*

- Single black-maroon flowers
- Vanilla fragrance

Jun-Aug Zones 4-9 ↑ 50cm

Crocosmia (Montbretia) 'Carmine Brilliant'

- Narrow foliage and sprays of carmine-pink flowers opening from bright red buds

Jun-Aug Zones 4-9 ↑ 60cm

Crocosmia (Montbretia) 'Columbus'

- Large yellow/orange flowers on strong stems

Dahlia - Decorative Group **'Dixie'**

- Cream white center with lilac tips

Jul-Oct Zones 7-10 ↑ 50cm

Dahlia - Decorative Group **'Firepot' (Large Flowered)**

- Salmon-orange with yellow center

Jul-Oct Zones 7-10 ↑ 112cm

Dahlia - Decorative Group **'Kelvin Floodlight'**

(*Large Flowered*)

- Yellow flowers

Jul-Oct Zones 7-10 ↑ 110cm

Dahlia - Decorative Group **'Mom's Special'**

- Large 8 "/20cm lavender dinnerplate flowers

Jul-Oct Zones 7-10 ↑ 90cm

Dahlia - Decorative Group **'Seattle'**

- Large 6 "/15cm yellow flowers with white tips

Jul-Oct Zones 7-10 ↑ 110cm

Dahlia - Decorative Group **'Vancouver' (Large Flowered)**

- Purple-white flowers

Jun-Oct Zones 9-12 ↑ 100cm

Dahlia - Fimbriated Group **'Show N Tell'**

- Eye-catching huge 8-10 frilly red/orange flowers
- Great cutflower

Jun-Oct Zones 9-12 ↑ 40cm

Dahlia - Gallery Group **'Art Deco®'**

- Perfect container Dahlia that displays many orange flowers

Jun-Oct Zones 9-12 ↑ 40cm

Dahlia - Gallery Group **'Cezanne®'**

- Perfect container Dahlia that displays many yellow flowers

Jun-Oct Zones 9-12 ↑ 40cm

Dahlia - Gallery Group **'Art Fair®'**

- Perfect container Dahlia that displays many white flowers

Jun-Oct Zones 9-12 ↑ 45cm

Dahlia - Gallery Group **'Cobra®'**

- Perfect container Dahlia that displays many orange/red flowers

Jun-Oct Zones 9-12 ↑ 50cm

Dahlia - Gallery Group **'Pablo®'**

- Perfect container Dahlia that displays many melon-pink flowers

Jun-Oct Zones 9-12 ↑ 50cm

Dahlia - Gallery Group **'Rembrandt®'**

- Perfect container Dahlia that displays many strong pink flowers

Jun-Oct Zones 9-12 ↑ 50cm

Dahlia - Gallery Group **'Renoir'**

- Perfect container Dahlia that displays many purple flowers

Jun-Oct Zones 9-12 ↑ 50cm

Dahlia - Gallery Group **'Singer'**

- Perfect container Dahlia that displays many red flowers

Jul-Oct Zones 7-10 ↑ 110cm

Dahlia - Paeonia Flowered Group **'Bishop of Llandaff' (Bronze foliage)**

- Peony like dahlia with single red flowers and dark bronze foliage

Jul-Oct Zones 7-10 ↑ 110cm

Dahlia - Semi Cactus Group **'White Perfection'**

(Large Flowered)

- White flowers

Jul-Oct Zones 7-10 ↑ 80cm

Dahlia - Single Flowered Group **'Twynings Smartie'**

(Single Flowering)

- Mixed purple and white petals with a yellow heart
- Amazing contrast!

Apr-May Zones 4-8 ↑ 75cm

Darmera (Umbrella Plant) **peltata (syn. *Peltiphyllum peltatum*)**

- Large, rounded clusters of red-centered, blush-white flowers rise on thick stalks before the clumped foliage

Jun-Aug Zones 4-9 ↑ 100cm

Delphinium (Larkspur) - Highlander® Series

'Blueberry Pie' (P)

Delphinium (Larkspur) - Highlander® Series **'Flamenco'** (P)

- Double purple-red flowers on strong stems

Jun-Aug Zones 4-9 ↑ 100cm

Delphinium (Larkspur) - Highlander® Series **'Sweet Sensation'** (P)

- Frilly blooms of bright mauve-purple, kissed with blue-green

Jun-Aug Zones 4-9 ↑ 120cm

Delphinium (Larkspur) - **'Darwin's Blue Indulgence'** (P) *Elatum*

- Triple-layered rich blue flowers

Jun-Aug Zones 4-9 ↑ 90cm

Delphinium (Larkspur) **'Darwin's Pink Indulgence'** (P) *Elatum*

- Triple-layered, dusty pink flowers
- Plants are a little shorter

Jun-Aug Zones 4-9 ↑ 100cm

Delphinium (Larkspur) **'Wishful Thinking' (P)**

- Large double lavender flowers with blue edges
- Strong plants with good resistance to mildew

Apr-Oct Zones 3-9 ↑ 25cm

Dicentra (Bleeding Heart) **'Burning Hearts' (P)**

- Rich flowering with gray-green foliage and dark red flowers
- Grape-scented plants
- Bare root 1

Mar-Sep Zones 3-8 ↑ 25cm

Dicentra (Bleeding Heart) **'Candy Hearts' (P)**

- Dark-rose flowers over robust blue-green foliage
- Continuously re-blooms
- Bare root 1

Mar-Sep Zones 3-8 ↑ 25cm

Dicentra (Bleeding Heart) **'Ivory Hearts' (P)**

- White flowers over robust blue-green foliage
- Continuously re-blooms
- Bare root 1

Mar-Aug Zones 3-8 ↑ 25cm

Dicentra (Bleeding Heart) **'King of Hearts'**

- Rich rosy-pink flowers over a long season
- Bare root 1

Apr-May Zones 3-8 ↑ 25cm

Dicentra (Bleeding Heart) **'Love Hearts' (P)**

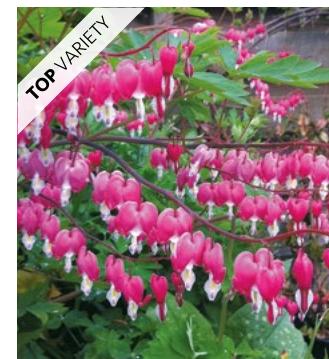

- Pure white heart shaped blooms lined with purple
- Blue-green, fern-like foliage
- Bare root 1

Apr-Oct Zones 3-8 ↑ 30cm

Dicentra (Bleeding Heart) **'Red Fountain' (P)**

- Rich flowering with green-gray foliage
- Upright, dark red flowers
- Bare root 1

Apr-May Zones 3-8 ↑ 75cm

Dicentra (Bleeding Heart) **'spectabilis'**

- Broad, deep-pink, heart-shaped flowers along arching stems
- 2-3 eye/3-5 eye

May-Jul Zones 3-8 ↑ 30cm

Dicentra (Bleeding Heart) **'Sweet Hearts'**

- Blue gray foliage with soft pink flowers
- Bare root 1

May-Jul Zones 3-8 ↑ 30cm

Dicentra (Bleeding Heart) **'Aurora' formosa**

- White flowers and grayish foliage
- Very vigorous
- Bare root 1

May-Aug Zones 3-8 ↑ 30cm

Dicentra (Bleeding Heart) **'Luxuriant' formosa**

- Cerise-pink flowers, spring-green foliage; very vigorous
- Bare root 1

May-Jul Zones 3-8 ↑ 30cm

Dicentra (Bleeding Heart) **'Bacchanal' formosa**

- Dark red flowers
- Large, grayish foliage
- Bare root 1

May-Jun Zones 3-8 ↑ 40cm

Dicentra (Bleeding Heart) **'Spring Gold' formosa**

- Soft pink flowers
- Chartreuse yellow foliage
- Bare root 1

Apr-May Zones 3-8 ↑ 75cm

Dicentra (Bleeding Heart) **'Alba' spectabilis**

- Broad, white, heart-shaped flowers along arching stems
- 2-3 eye/3-5 eye

Apr-May Zones 3-8 ↑ 60cm

Dicentra (Bleeding Heart) **'Gold Heart' (P) spectabilis**

- Pink hearts hung along arching stems, overtop a bushy growth of unusually coloured golden-yellow, deep-lobed foliage; 2-3 eye

Apr-May Zones 3-8 ↑ 75cm

Dicentra (Bleeding Heart) **'Valentine' (P)**

- Heart-shaped, red flowers, dark gray-green foliage
- Roots 2-3 / 3-5 eye

May-Jun Zones 4-8 ↑ 25cm

Dodecatheon (Shooting Star) **jeffreyi**

- Purple-pink, reflex-petaled flowers on stiff, slightly sticky stems, above small clump-forming rosettes of long oval leaves

May-Jun Zones 4-8 ↑ 30cm

- Dwarf, floriferous, mildew resistant

Jul-Sep Zones 4-8 ↑ 70cm

Phlox 'Sherbet Blend' (P) *Paniculata*

- Yellow-green buds emerge out of chocolate-maroon bracts, opening into green-yellow-edged flowers with soft-pink or white centers

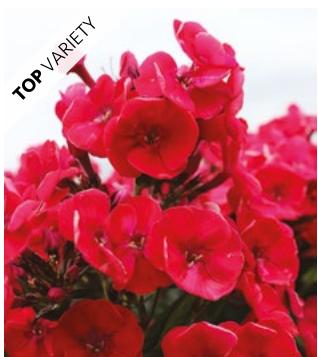

Jul-Sep Zones 4-8 ↑ 75cm

Phlox

'Smokey' *Paniculata*

- Mauve flowers with violet pink center

Jul-Sep Zones 4-8 ↑ 40cm

Phlox

'Strawberry Daiquiri' (P) *Paniculata*

- Intense, deep red flower on very healthy, dark green foliage
- Very short variety

Jul-Sep Zones 4-8 ↑ 40cm

Phlox

'Swizzle' *Paniculata*

- This dwarf Phlox has a unique colour combination with pinkish-white overlapping petals around an intense, hot pink eye

Jul-Sep Zones 4-8 ↑ 90cm

Phlox

'Tatjana' *Paniculata*

- Purple flame flowers with white heart

Jul-Sep Zones 4-8 ↑ 40cm

Phlox - Twist® Series

'Twister' *Paniculata*

- A reversed version of 'Peppermint Twist', these plants feature pure white flowers with a red-pink flamed stripe

Jul-Sep Zones 4-8 ↑ 75cm

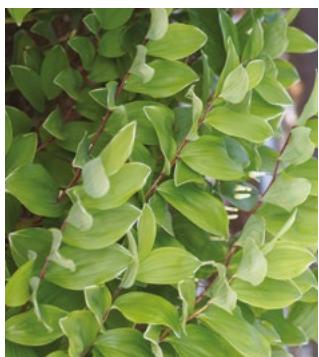

Phlox

'Zenobia' *Paniculata*

- Dark pink flowers
- Disease resistant

May-Jun Zones 3-8 ↑ 60cm

May-Jun Zones 3-8 ↑ 60cm

Polygonatum (Solomon's Seal)

'Variegatum' *falcatum*

- White-edged leaves on red stems

Polygonatum (Solomon's Seal)

'Variegatum' *multiporum*

- Variegated leaves with dark and pale green streaks, and narrow white margins

Potentilla

'Scarlet Dreams®'

- Producer of many clear red double flowers
- Long blooming

Mar-Jun Zones 3-8 ↑ 25cm

Primula (Primrose) **'Don Keefe'** (P)

- Large orange-red flowers with small yellow eye on tall stems above glossy, deeply-veined foliage

Mar-Jun Zones 3-8 ↑ 15cm

Primula (Primrose) **'Elizabeth Killelay'** (P)

- Fragrant double flowers of deep maroon petals with gold edges

Mar-Jun Zones 3-8 ↑ 20-30cm

Primula (Primrose) **vialii (Orchid Primrose)**

- Conical spikes of funnelled violet purple flowers that open from deep red buds

Apr-May Zones 4-8 ↑ 30cm

Pulmonaria (Lungwort) **'Blue Ensign'**

- Large purple-blue flowers and broad green foliage
- One of the best non-variegated cultivars

Apr-May Zones 4-8 ↑ 25cm

Pulmonaria (Lungwort) **'Majesté'**

- Blue flowers
- All silver leaves that emerge green

Apr-May Zones 4-9 ↑ 30cm

Pulmonaria (Lungwort) **'Raspberry Splash'** (P)

- Very upright, strongly silver-blotted, sharply pointed foliage and bright, raspberry-coral flowers

Apr-May Zones 4-8 ↑ 30cm

Pulmonaria (Lungwort) **'Roy Davidson'**

- Pink flowers which mature to light blue

Apr-May Zones 4-8 ↑ 30cm

Pulmonaria (Lungwort) **'Samurai'**

- Long, narrow all-silver foliage with good sun tolerance
- Purple-blue flowers

Apr-May Zones 4-8 ↑ 30cm

Pulmonaria (Lungwort) **'Silver Bouquet'** (P)

- Long, pointed, shiny silver leaves, with the occasional fleck of green, topped by clusters of large pink bells that change to bright blue

Apr-May Zones 4-8 ↑ 30cm

Pulmonaria (Lungwort) **'Trevi Fountain'**

- Brightly, silver-spotted, eye-pleasing foliage

Apr-May Zones 4-8 ↑ 30cm

Pulmonaria (Lungwort) **'Diana Clare' longifolia**

- Large silver-sheened apple-green leaves
- Violet-blue flowers
- Vigorous-growing

Apr-May Zones 4-8 ↑ 30cm

Pulmonaria (Lungwort) **'Mrs Moon' saccharata**

- Pink flowers that later turn blue

Jun-Aug Zones 4-8 ↑ 50cm

Rodgersia (Rodger's Flower) **'Bronze Peacock'**

- Very dark thick foliage with pink flowers

Jun-Aug Zones 4-8 ↑ 100cm

Rodgersia (Rodger's Flower) **'Dark Pokers'**

- A bold perennial with handsomely attractive foliage, which will turn reddish-bronze in the autumn
- Pinkish-red flowers

Jun-Aug Zones 4-8 ↑ 80cm

Rodgersia (Rodger's Flower) **'Chocolate Wings' pinnata**

- Shades of chocolate, bronze and dark-green
- Flowers open pale-pink with a dark-red eye, then deepen to all red

Jun-Aug Zones 4-8 ↑ 100cm

Rodgersia (Rodger's Flower) **'Superba' pinnata**

- Bright-pink flowers and bronze-tinged foliage

Jul-Sep Zones 4-9 ↑ 75cm

Rudbeckia (Blackeyed Susan) **'Goldsturm' fulgida**

- Flowers have narrow golden-yellow petals spread around a rich dark center
- Mildew-resistant plant

Jul-Sep Zones 4-9 ↑ 60cm

Rudbeckia (Blackeyed Susan) **'Pot of Gold' fulgida**

- Shorter variety with single, vivid golden flowers, larger than those of R. 'Goldsturm', of which this is a sport

Jul-Sep Zones 4-9 ↑ 75cm

Rudbeckia (Blackeyed Susan) **'Goldquelle' laciniata**

- 3½" thick-filled, double, dahlia-like, golden-yellow flowers

Jul-Sep Zones 4-9 ↑ 180cm

Rudbeckia (Blackeyed Susan) **'Herbstsonne' nitida**

- 3" single, bright-yellow flowers

Apr-Sep Zones 6-11 ↑ 60cm

Salvia (Meadow Sage) **'Arctic Blaze® Fuchsia'**

- Bright blooms on compact plants with sturdy, flexible branches
- Repeat blooming

Apr-Sep Zones 6-11 ↑ 60cm

Salvia (Meadow Sage) **'Arctic Blaze® Purple'**

- Bright blooms on compact plants with sturdy, flexible branches
- Repeat blooming

Apr-Sep Zones 6-11 ↑ 60cm

Salvia (Meadow Sage) **'Arctic Blaze® Red'**

- Bright blooms on compact plants with sturdy, flexible branches
- Repeat blooming

May-Sep Zones 4-9 ↑ 60cm

Salvia (Meadow Sage) - **Lyrical™ Series 'Lyrical Blues'** (P) nemorosa

- Deep blue flowers accented by purple stems
- Sturdy and mounding habit

May-Sep Zones 4-9 ↑ 60cm

Salvia (Meadow Sage) -
Lyrical™ Series
'Lyrical Rose' (*P*) *nemorosa*

- Clusters of intense pink
- Sturdy and mounding habit
- Very hardy

May-Sep Zones 4-9 ↑ 50cm

Salvia (Meadow Sage)
'Blauhügel' *nemorosa*

- Lilac-blue flowers, gray-green foliage
- Exceptionally long bloomer

Jun-Sep Zones 4-9 ↑ 25cm

Salvia (Meadow Sage)
'Blue Bouquetta' *nemorosa*

- Blue-purple flowers
- Rich flowering

May-Sep Zones 4-9 ↑ 30cm

Salvia (Meadow Sage)
'Blue Marvel' (*P*) *nemorosa*

- Large deep blue flowers
- Gray-green foliage

May-Sep Zones 4-9 ↑ 45cm

Salvia (Meadow Sage)
'Caradonna' *nemorosa*

- Rich violet-blue flowers on purple-black stems

May-Sep Zones 4-9 ↑ 30cm

Salvia (Meadow Sage)
'Marcus' (*P*) *nemorosa*

- Compact variety with a broad spreading habit
- Deep purple-blue flowers

May-Sep Zones 4-9 ↑ 90cm 🏆

Salvia (Meadow Sage)
'May Night' *nemorosa*

- Violet-blue flowers

May-Sep Zones 4-9 ↑ 35cm

Salvia (Meadow Sage)
'Pink Friesland' (*P*) *nemorosa*

- A pink version of Salvia 'Ostfriesland' with an abundance of deep pink flower spikes

May-Sep Zones 4-9 ↑ 40cm

Salvia (Meadow Sage)
'Madeline' (*P*) *pratensis*

- Many bi-colour blue-white flowers on every stem
- A strong grower that flushes a second time after pinching

May-Sep Zones 4-9 ↑ 60cm

Salvia (Meadow Sage)
'Rhapsody in Blue' (*P*) *pratensis*

- Purple-blue flowers
- Fast growing and very floriferous

Aug-Oct Zones 3-9 ↑ 50cm

Sedum (Stonecrop)
SunSparkler® Series
'Blue Pearl'

- Round shaped blue/purple foliage with dark pink flowers
- Dark red stems

Aug-Oct Zones 3-9 ↑ 20cm

Sedum (Stonecrop)
SunSparkler® Series
'Dazzleberry' (*P*)

- Mound of fleshy blue-grey leaves with raspberry pink flowers

Jul-Oct Zones 3-9 ↑ 25cm

Sedum (Stonecrop) SunSparkler® Series **'Firecracker'**

- Shiny red foliage with pink flower heads
- Sun tolerant

Aug-Oct Zones 3-9 ↑ 15cm

Sedum (Stonecrop) SunSparkler® Series **'Lime Zinger'**

- Thumbnail-sized leaves of lime green are each surrounded by cherry-red picotee edges

Aug-Oct Zones 3-9 ↑ 50cm

Sedum (Stonecrop) **'Autumn Fire'**

- Fuller, longer lasting flower clusters
- Rosy pink flowers age through salmon-bronze to copper-red shades

Aug-Oct Zones 3-9 ↑ 50cm

Sedum (Stonecrop) **'Autumn Joy'**

- Light-green leaves
- Clusters of flowers that are whitish in bud, opening shell-pink and maturing deep bronze-red

Aug-Oct Zones 3-9 ↑ 10cm

Sedum (Stonecrop) **'Blue Elf' (P)**

- Steel blue tufted foliage rosettes with dark pink flowers

Aug-Oct Zones 3-9 ↑ 45cm

Sedum (Stonecrop) **'Carl'**

- Fleshy, oblong, blue-gray leaves and bun-shaped clusters of rose-pink flowers

Aug-Oct Zones 3-9 ↑ 60cm

Sedum (Stonecrop) **'Frosted Fire'**

- Full, long lasting flower clusters

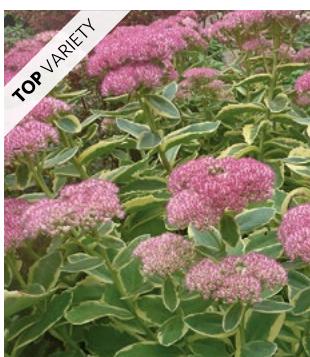

- Rosy pink flowers age through salmon-bronze to copper-red shades

Jul-Sep Zones 3-9 ↑ 60cm

Sedum (Stonecrop) **'Chocolate Cherry'**

- Strong dark foliage with contrasting red flowers
- Compact plants

Aug-Oct Zones 3-9 ↑ 60cm

Sedum (Stonecrop) **'Jose Aubergine' (P)**

- Earlier blooming, upright
- Ovate leaves are a deep, rich aubergine colour and flowers are deep, dusky pink

Aug-Oct Zones 3-9 ↑ 50cm

Sedum (Stonecrop) **'Ice Ruffles'** (P)

- A stable variegated form of 'Crazy Ruffles' with dark foliage

Aug-Oct Zones 3-9 ↑ 20cm

Sedum (Stonecrop) **'Pinky'**

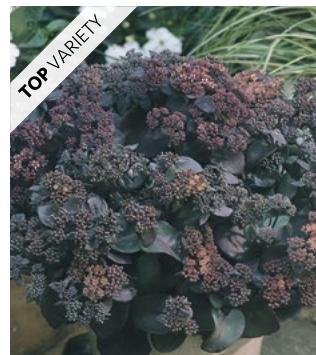

- Dwarf green foliage topped by new foliage splotched pink and cream, pink flowers

Aug-Oct Zones 3-9 ↑ 40cm

Sedum (Stonecrop) **'Purple Emperor'**

- Dusty-pink flowers and dark purple-red foliage
- Tidy habit
- The best dark Sedum available

Aug-Oct Zones 3-9 ↑ 40cm

Sedum (Stonecrop) **'Xenox'** (P)

- Plants appear dark, as the green foliage is covered with a blue glaze caused by a thick waxy layer
- Pink flowers

Aug-Oct Zones 3-9 ↑ 40cm

Sedum (Stonecrop) **'Neon'** *spectabile*

- The brightest pink flower clusters ever seen on a Sedum
- Grows with a tidy habit

Aug-Oct Zones 3-9 ↑ 40cm

Sedum (Stonecrop) **'Bon Bon'** *telephium*

- Very early blooming variety
- Small, separated clusters of pink flowers over chocolate foliage

Aug-Oct Zones 3-9 ↑ 30cm

Sedum (Stonecrop) **'Red Cauli'** *telephium*

- Bright red flowers over purple-tinted, blue-green foliage

Aug-Oct Zones 3-9 ↑ 20cm

Sedum (Stonecrop) Touchdown® Series **'Touchdown® Teak'** *telephium*

- Amazing glossy red-brown to purple-brown leaves

Jul-Aug Zones 4-8 ↑ 60cm

Sidalcea (Miniature Hollyhock) **'Candy Girl'**

- Dark-rose flowers, very floriferous with long flower spikes
- Tidy habit

Jul-Aug Zones 4-8 ↑ 90cm

Sidalcea (Miniature Hollyhock) **'Elsie Heugh'**

- Fringed satin-pink flowers

Jul-Aug Zones 4-8 ↑ 40cm

Sidalcea (Miniature Hollyhock) **'Little Princess'** (P)

- Soft-pink flowers on a compact plant

Jul-Aug Zones 4-8 ↑ 70cm

Sidalcea (Miniature Hollyhock) **'Brilliant'** *oregana*

- Carmine red flowers

Jun-Aug Zones 4-8 ↑ 120cm

Thalictrum (Meadow Rue) **'Black Stockings'**

- Black stems with lacy foliage
- Huge clusters of bright lavender flowers

Jun-Aug Zones 4-8 ↑ 200cm

Thalictrum (Meadow Rue) **rochebrunianum**

- Lavender-purple flowers appear on tall, dark purple stems

Jun-Aug Zones 3-9 ↑ 50cm

Stachys (Betony) **'Hummelo' monieri**

- Great container and border plant
- Spikes of lavender flowers

Jun-Aug Zones 4-8 ↑ 190cm

Thalictrum (Meadow Rue) **'Splendide'**

- Elegant crimson stems support delicate purple flowers in May which are replaced by yellow stamens in summer

Jun-Jul Zones 5-9 ↑ 50cm

Thalictrum (Meadow Rue) **'Yulia'**

- Excellent variety with compact growing habit
- Loaded with pink flower plumes

Jun-Aug Zones 4-8 ↑ 100cm

Thalictrum (Meadow Rue) **'Album' delavayi**

- Rarely seen white flowered variety

Jun-Aug Zones 4-8 ↑ 110cm

Thalictrum (Meadow Rue) **'Hewitt's Double' delavayi**

- Long-Lasting double pinkish lavender flowers

Jun-Sep Zones 3-9 ↑ 45cm

Tradescantia (Spiderwort) **'Concord Grape' Andersoniana**

- Rich-purple flowers
- Frosty blue foliage

Jun-Sep Zones 3-9 ↑ 80cm

Tradescantia (Spiderwort) **'Ocean Blue' Andersoniana**

- Bigger flowers than normal Tradescantias

Tradescantia | Tricyrtis | Trollius | Uvularia | Veronica

Jun-Sep Zones 3-9 ↑ 60cm

Tradescantia (Spiderwort) **'Osprey'** *andersoniana*

- White flowers centered with feathery blue stamens

Jun-Sep Zones 3-9 ↑ 45cm

Tradescantia (Spiderwort) **'Pink Chablis'** *andersoniana*

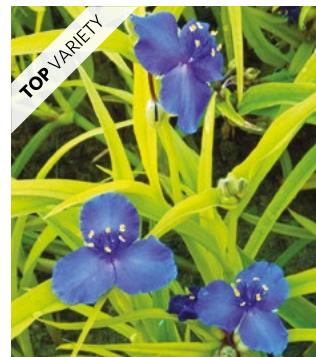

- Soft pink flowers with ruffled white edges

Jun-Sep Zones 3-9 ↑ 45cm

Tradescantia (Spiderwort) **'Red Grape'** *andersoniana*

- Red flowers and unusual blue-green foliage

Jun-Sep Zones 3-9 ↑ 60cm

Tradescantia (Spiderwort) **'Sweet Kate'** *andersoniana*

- Blue flowers and golden foliage

Jul-Sep Zones 4-8 ↑ 75cm

Tricyrtis (Toad Lily) **'Dark Beauty'** *formosana* (*syn. Stolonifera*)

- Flowers have purple spots on a white background

May-Jul Zones 3-7 ↑ 60cm

Trollius (Globe Flower) **'Cheddar'**

- 1 1/2"/4cm semi-double, globe-shaped, cream-yellow flowers

May-Jul Zones 3-7 ↑ 50cm

Trollius (Globe Flower) **'stenopetalus'**

- Yellow flowers that open 1.5" across
- Nice boldly divided leaves and narrow petals

May-Jul Zones 3-7 ↑ 70cm

Trollius (Globe Flower) **'Golden Queen'** *chinensis*

- 2 1/2"/6cm, golden-yellow flowers with distinct centers, partly filled with narrow upright petals

May-Jul Zones 3-7 ↑ 75cm

Trollius (Globe Flower) **'Superbus'** *europaeus*

- 1"/2.5cm. lemon-yellow flowers
- Prolific bloomer

Apr-Jun Zones 4-9 ↑ 60cm

Uvularia (Belwort) **grandiflora**

- Native to the United States, this plant has yellow, hanging flowers on tall stems
- Foliage is long and lance-shaped

Jun-Sep Zones 4-8 ↑ 40cm

Veronica (Speedwell) - Harmony Series **'Pink Harmony'** (P)

- Pale pink flowers with protruding deep-pink stamens
- Attractive silver-green foliage

Jun-Aug Zones 4-8 ↑ 50cm

Veronica (Speedwell) - Harmony Series **'Purpleicious'** (P)

- Disease free plant with intense purple flowers

Jun-Oct Zones 4-9 ↑ 35cm

Veronica - Moody Blues® Series **'Moody Blues Dark Blue'** *spicata*

- Compact first year flowering series with tidy habit
- Re-blooms up to the first frost

Jun-Oct Zones 4-9 ↑ 35cm

Veronica - Moody Blues® Series **'Moody Blues Mauve'** *spicata*

- Compact first year flowering series with tidy habit
- Re-blooms up to the first frost

Jun-Oct Zones 4-9 ↑ 35cm

Veronica - Moody Blues® Series **'Moody Blues Pink'** *spicata*

- Compact first year flowering series with tidy habit
- Re-blooms up to the first frost

Jun-Oct Zones 4-9 ↑ 35cm

Veronica - Moody Blues® Series **'Moody Blues Sky Blue'** *spicata*

- Compact first year flowering series with tidy habit
- Re-blooms up to the first frost

Jun-Oct Zones 4-9 ↑ 35cm

Veronica - Moody Blues® Series **'Moody Blues White'** *spicata*

- Compact first year flowering series with tidy habit
- Re-blooms up to the first frost

Jun-Sep Zones 4-8 ↑ 30cm

Veronica (Speedwell) **'First Love'** (P)

- Short, well branched and amazing fluorescent pink colour

Jun-Sep Zones 4-8 ↑ 50cm

Veronica (Speedwell) **'First Glory'** (P) *longifolia*

- Fabulous deep blue long lasting flowers

Jun-Sep Zones 4-8 ↑ 55cm

Veronica (Speedwell) **'First Lady'** (P) *longifolia*

- Spikes of pure white flowers, very uniform growth habit, flowers all summer

Jun-Sep Zones 4-8 ↑ 45cm

Veronica (Speedwell) **'Pink Eveline'** (P) *longifolia*

- A new hybrid Veronica that produces pale pink flower spikes with vivid purple stems throughout the summer and into autumn

Jun-Sep Zones 4-8 ↑ 30-40cm

Veronica (Speedwell) **'Baby Blue'** (P) *spicata*

- Dwarf and very floriferous spicata hybrid, deep-blue spikes

Jun-Sep Zones 4-8 ↑ 30-40cm

Veronica (Speedwell) **'Baby Red'** (P) *spicata*

- Dwarf and very floriferous spicata hybrid, HOT-red spikes

Jun-Sep Zones 4-8 ↑ 30cm

Veronica (Speedwell) **'Royal Candles'** (P) *spicata*

- Longblooming dwarf, with very solid conical spikes of rich violet-blue flowers

Jul-Aug Zones 4-8 ↑ 160cm

Veronicastrum (Culver's Root) **'Adoration'** *virginicum*

- Dark stems that are well branched with large purple flower stalks

Jun-Sep Zones 4-8 ↑ 100cm

Veronicastrum (Culver's Root) **'Apollo'** *virginicum*

- 15"/38cm
- long racemes of light-pink flowers
fluorescent pink colour

Jun-Sep Zones 4-8 ↑ 100cm

Veronicastrum (Culver's Root) **'Fascination'** *virginicum*

- 15"/38cm
- Long racemes of lilac-rose flowers

Jul-Aug Zones 4-8 ↑ 150cm

Veronicastrum (Culver's Root) **'Red Arrows'** *virginicum*

- This variety has darker foliage than other Veronicastrum
- Large lavender flowers

Jun-Oct Zones 7-10 ↑ 45cm

Zantedeschia (Callalily) **'albomaculata'**

- Creamy white flowers above green leaves with white spots

Jun-Oct Zones 7-10 ↑ 45cm

Zantedeschia (Callalily) **'Dark Eyes'**

- Deep rose blooms with a purple throat
- Green foliage

Jun-Oct Zones 7-10 ↑ 45cm

Zantedeschia (Callalily) **'Flame'**

- Dark yellow flowers with red edge turning to flame red

Jun-Oct Zones 7-10 ↑ 45cm

Zantedeschia (Callalily) **'Garnet Glow'**

- Hot pink blooms with dark eyes
- Uniform plant

Jun-Oct Zones 7-10 ↑ 45cm

Zantedeschia (Callalily) **'Odessa'**

- Dark purple-black flowers above green foliage

Jun-Oct Zones 7-10 ↑ 45cm

Zantedeschia (Callalily) **'Picasso'**

- Bi-colour Calla with cream flower that opens with deep blue center

Jun-Oct Zones 7-10 ↑ 45cm

Zantedeschia (Callalily) **'Red Alert'**

- Red-orange flowers with variegated foliage

Jun-Oct Zones 7-10 ↑ 45cm

Zantedeschia (Callalily) **'Yellow Queen'**

- Large golden-yellow flowers with variegated foliage

1. Upon Arrival

Let the roots thaw out slowly

Most plants are shipped frozen at 28°F (-2°C) to keep them dormant. If the plant material is still frozen upon arrival please leave it in a cool, dry place to thaw out slowly so that it is able to adapt.

Plants need fresh air: open all boxes and bags immediately upon receipt, but prevent dehydration.

Temperature and condensation will build up inside closed boxes, causing sprouting and rotting. However, plant material in open boxes can dry out easily, so ventilation should be minimal and prevent direct sunlight at all times.

Check the condition of the roots in the boxes daily.

Plants that have started to sprout must be planted immediately. If any sign of fungal or bacterial infection is suspected, plants can not be stored anymore. Infected parts must be removed and the plants treated with fungicide and/or bactericide.

Items that do not tolerate storage must be planted immediately.

Do not leave the plant material longer than necessary in the boxes and bags, for storage will reduce vigor for every species. If unable to transplant immediately, store in a cool place (2-8°C/36-46F). When stored at higher temperatures with lower humidity, the vigor will be reduced dramatically. At temperatures higher than 68°F (20°C), the roots must be planted within 24 hours.

2. Planting

Do not plant roots that are still frozen.

Frozen roots are not able to transport water to the buds. If the buds have thawed out before the roots have, they can be damaged by dehydration. Do not force thawing as this will create stressful conditions to the roots and buds.

Handle the roots with great care to avoid breaking of buds and/or roots.

Some species have fragile buds and/or roots. Breaking off may decrease plant size.

Don't let roots dry out during potting.

Prevent dehydration of the roots by planting them right away after you have taken them out of the box. Serious damage to fine-haired roots like Epimedium or Phlox can be done in 10 minutes, **they can dry out in 20 minutes!** Make sure the potting room is free of draught. Always cover roots during breaks.

Rootpinching

Some plants root better if the roots are pinched (see table)

Soil

It is necessary to use a well-drained potting soil to avoid roots staying wet, which can cause them to rot. Many problems come from a lack of adequate drainage. Don't give plants fertilizer before they are actively growing.

Firm the soil around the roots: prevent air pockets

Roots should be centered in the pot and spread out evenly, with all roots facing downward. There must be good contact between all parts of the roots and the soil. Firm the soil around the roots. All of this is necessary for the roots to absorb water and nutrients.

Many perennials should be planted "high"

Results of experiments conducted by Dr. Bill Miller of the Cornell University suggest that many perennials should be planted with the crown (intersection of the roots and the shoots) at or slightly above soil level, after watering and settling. Some plants such as Geranium Ballerina showed an almost absolute aversion to deep planting (1/2 to 1" deep) with a nearly 100% loss. High planting, on the other hand, resulted in nearly 100% survival and good growth (Handling Bareroot Perennials, Growertalks, May 2004, by W.B. Miller and A. Bestic). The most important reason for this, is that plants will receive daylight sooner than when they are planted too deeply. With daylight, plants make energy, which they need for growing. Also, when planted too deeply the crown may stay too wet for too long, which can cause them to rot.

3. After Planting

Water carefully.

After planting in early spring, do not water the first week: in this stage the roots can only accept little moisture and need to be stimulated to look for water. After this, slowly start with watering.

Also, the young shoots are especially vulnerable to overwatering before they appear above the soil: in this critical phase, over watering may cause suffocation of plant parts or damping-off diseases. Be extra careful with irrigation at low temperatures: plant growth is slower, therefore this critical phase lasts longer. Some plants need a drier start than others. Once the plants have started to grow, revert to a regular watering schedule. Some plants prefer to be grown "dry," others "wet" (see table). Keep the soil moisture as constant as possible; too much fluctuation will harm the plant.

Fungicide drench

A fungicide drench applied on plant material one to two weeks after planting can prevent problems.

Greenhouse conditions

In early spring, plants have different requirements regarding temperature. Some plants prefer a cold start (35°-55°F / 2°-12°C), some a medium cold start (45°-65°F / 7°-18°C), others a warm start (60°-75°F / 16°-24°C). Prevent the young shoots from freezing at all times: some plants won't give you a second chance! Ventilation in the greenhouse is very important: little ventilation will cause problems with mildew and fungus.

Claims

Freight: Concerns over delayed or damaged shipments must be reported on the carrier's bill of lading in order to be considered. Report your concerns to our office immediately.

Product: We guarantee all plants are true to name and of good quality when shipped. Any quality concerns or shortages must be reported to our office within 10 days of receipt of order to be considered. For any product claims or disputes, we shall be held liable for plant cost only and in no case shall be liable for any cost greater than that. If you received plants that are non-viable or did not break dormancy, you have 60 days to submit a claim for it to be considered.
