Dear Gardening Friend,

If you are a Peter Nyssen customer you will already know of our commitment to quality, value for money and customer care. We have been in business for over 50 years, and are always striving to improve our service to our customers.

## 1 Payment

You can pay using the following cards,

Mastercard – Visa – Maestro – Delta – Visa Electron

Credit card and bank transfer payments for orders sent in the post or by telephone are deducted at the time of order placement no credit card details are stored.

**Please note** due to changes with regard to the corona virus and health and safety measures we have in place for our staff we no longer accept cheques. When an order is sent in the post we will email you a pro forma invoice to either pay by credit card over the phone or direct transfer to our bank.

Account facilities are available for business. We request two trade references, Payment is requested with your order to keep administration costs down which in turn helps to maintain our low prices to you.

All goods remain the property of Peter Nyssen Ltd until all invoices are paid in full.

Please note we do not take garden centre gift vouchers.

## 2 New

Where new appears next to a variety this means the variety is new to our catalogue or are newly introduced bulbs or plants.

## 3 Delivery Instructions

Delivery can be arranged at your request. All orders are packed in date order. Our carriers require a signature upon receipt, if you are unable to receive delivery we can arrange to deliver to an alternative address. If this is acceptable please include delivery instructions on your order form. Please note the packing slip will be on the outside of the parcel. Please always check your order on receipt.

## 4 Change of address

Please let us know if you have changed your address to ensure you receive our catalogues on a regular basis.

## 5 Delivery

Page 1-27 - Autumn: delivery up to end of December subject to availability – please use the order form at the front of the catalogue

Environmental factors play an important part in plant growth. The height and flowering months given in this Catalogue are approximate. Please note when planting, it is important you do not plant in dry spots where bulbs and plants are sheltered and will receive little or no rainwater. Plants and bulbs do not like heavy waterlogged soil, increase drainage by adding grit. A dressing of potash when the stems are around 12cms in height every couple of weeks will improve flower production. This can be stopped once the flower starts to fade.

## DELIVERY

**AUTUMN ORDERS PAGE 1 to 27** from mid August to end of December subject to availability.

**Please use the appropriate order form for your autumn & spring orders.**

**Please note carriage is applicable to both orders.**

You can leave most bulbs in the same bed for many years, where they will quite happily naturalise. The exceptions are Tulips, Hyacinths and Irises as the chance of viruses and disease increase each year. For this reason you should not plant these bulbs in the same place year after year.

We advise using a rotation system.

Environmental factors play an important part in plant growth. The height and flowering months given in this catalogue are approximate. Please note when planting it is important you do not plant in dry spots where bulbs and plants are sheltered and will receive little or no rainwater. Plants and bulbs do not like heavy waterlogged soil. Increase drainage by adding grit. A good dressing of potash will improve flower production.
